

# Million-Dollar Rain Falls

(See Story Below)

## The FRIONA STAR

Volume 46, Number 45

Thursday, August 12, 1971

Friona, Texas 79035

12 Pages

That was a great rain we had last Saturday night, and as usual, there are the explanations, or credit-takers.

KGNC-TV's weatherman told us it was the result of their new "radar weather search" system. "Why, we just send the rain out all across the area. Next time it'll be to another place needing it," they said.

One of the youngsters among the Indians who visited Friona Methodist Church was said to have performed a rain dance on Saturday afternoon. "See, it worked..." he told his Friona friends.

We can't give credit to Friona Star want ads this time--as last year when we advertised for a four-inch rain and got two inches of it.

However, last Saturday's rain came exactly a year after the ad was placed in the Star by Friona Consumers.

Since last year's ad had no particular date on it, I suppose you COULD say that Friona Star ads get long-range results.

(What was that we were saying about people taking credit for the rain? Next thing you know, Albert Lindley will be giving us that sermon again. Heaven forbid!)

After seeing all of the farmers' smiling faces on Sunday and Monday morning, it would appear that "National Smile Week" had been extended locally for a couple of days.

If we'd have had our camera at church on Sunday, we could have gotten a whole new collection for our smile series, and we doubt that we'd have had to tell a one of them to "say cheese."

Last week we announced the opening of Friona Bi-Products, a new industry in Friona which will use dead stock in production of dog food ingredients.

Garth Merrick has put out quite an investment in equipment and is remodeling the old Crow's location in establishing the business in Friona.

"We're ready to do business, but we need the support of the local feedlots to assure our success," Merrick told us this week.

Friona Bi-Products can provide much quicker service in the removal of dead animals than similar businesses in Clovis and Hereford, for example.

In addition, by working through the local concern, feeders and feedlots will be helping support a local payroll, and a business that pays local taxes.

We would hope that the local yards and feeders will jump in and support this new industry. Their advertisement, containing the local telephone number to call when there are dead stock to be picked up, is in our paper this week, and will be carried each week, if you should need to look it up at a later date.

This is just another in the continuing line of businesses related to the cattle and packing industries. Friona continues to benefit from this type of business.

Have you ever thought about how words change in meaning through the years? Back in Mark Twain's day, the meaning of "square" was one of the best in our language. . . Then, somehow that good, honest word got bent all out of shape and its meaning twisted.

Now, the word "square" means "a man who never learned to get away with it. A Joe who volunteers when he doesn't have to. A guy who gets his kicks from trying to do something better than anyone else. A dummy who gets so lost in his work that he has to be reminded to go home."

He doesn't fit too well in the current cron of angle-players, corner cutters, sharp-shooters and goof-offs. He doesn't want to fly and pay later. If you're called a "square" today you don't know whether you're a pretty good guy or just a plain boob!

BLACK CAT AND ALL. . . These three pretty Friona High School students-to-be indicate that there are two unlucky days in August. The first one, which has to do with the black cat, is Friday, which turns out to be the only "Friday the 13th" of

1971. Then, just ten days later, comes the date for enrolling for the 1971-72 school term, and that's the reason for the long faces. From the left are Donna Lewellen, Carolyn Martin and Vicki Beck. The cat is Pasha, and belongs to Mrs. Lee Spring.

### ENROLLMENT SLATED

## Schedule Released For School Opening

School begins next Monday for Friona teachers, and the following Monday for some 1450 to 1500 students in the Friona Independent School District.

Instructors in the system will begin their in-service program next Monday. It continues throughout the week.

Enrollment for all students in grades 6-12 will be held on Monday, August 23. The first day of instruction will be Tuesday, August 24. Students from the special Kindergarten through grade five enroll that day.

Superintendent of Schools Alton Farr announced the enrollment schedule for Friona schools this week. It is as follows:

- Monday, August 23--9 a.m. --High School enrollment.
- Monday, August 23--9 a.m.

BIKE WINNER. . . Janette Reed, daughter of Mr. and Mrs. Ralph Reed, became the sixth winner in the Friona Star's free bicycle subscription contest last Saturday. The contest comes to a close this weekend, and contestants are asked to turn in all their blanks by Monday.

7th and 8th grade enrollment, Junior High Auditorium. Monday, August 23--1 p.m.--6th grade enrollment, Junior High Auditorium.

Tuesday, August 24--8:45 a.m.--Kindergarten through grade five enrollment.

Tuesday, August 24--8:45 a.m.--Regular classes begin for all students. Regular class day ends at 3:45 p.m.

Farr pointed out that kindergarten and first grade pupils are to be picked up by their parents at 12 noon the first four days of school (August 24-27).

Guidelines for determining eligible kindergarten pupils will be the same as for last year, except for the age limit.

Children who are five years and two months of age by September 1, 1971 (that is, those

whose birthdays are on or before July 1) and cannot speak English satisfactorily or whose families have an annual income of less than \$3,000 will be eligible.

All children in this category are asked to come to the week of August 16 to be tested by Mrs. Nelson Lewis, elementary counselor. Birth certificates are required to determine age eligibility.

Buses will run for the first time on August 24, and lunches will be served that day. Kindergarten and first grade pupils will have been served and finished lunch by 12 noon.

Farr asks that parents of children who are new to the system since the end of school last May please bring their children by a principal's office either Friday, August 13 or the week of August 16.

These early enrollments should be made with J.T. Gee in grades K through four, in the Primary Building; with Tom Jarboe in grades five through eight, Junior High Office; and John R. Cook, grades 9-12, High School Office.

### New Feature Begins Today

The Friona Star introduces a new feature on page 7 of this issue.

Called the "Business and Professional Review," the page is sponsored by 16 merchants and businessmen in Friona.

Each week, one of the sponsors will be spotlighted, with an individual feature story and pictures at his place of business. Featured in the first of the series is Bill Green of Bill's TV and Appliance.

The feature will appear every other week in the Star. We encourage you to read it each time it appears, and learn more about your local merchants.

### Temperatures

Total moisture for month: 2.42. Year: 9.34.

## Council Approves Tentative Budget

The Friona City Council gave their tentative approval to the city's 1971-72 budget on Monday evening.

The portion of the budget receiving the majority of the council's attention was the salary schedule for 1971-72. After much discussion, the commission voted to increase all salaries a minimum of five per cent, with additional increases as recommended by the City Manager.

Discussion centered around the fact that the salary increases included in the proposed budget failed to come up to the proposed five per cent as recommended by the council in the previous meeting, with some

increases being as low as 2.5 per cent.

City Manager A.L. (Jake) Outland warned councilmen that the 1971-72 budget was drawn dangerously close to the amount of revenue expected to be collected. However, discussion brought out the fact that the minimum five per cent salary raise could be achieved without greatly adding to the total increase in expenditures.

In other business, the council voted to purchase an International Harvester "Low Boy" 15 horsepower tractor with an underslung mower for use at the cemetery from Farmer County Implement Co. The bid price

### WELLS STOPPED

## Totals Top 4-Inch Mark On Farmland

For the second time in a month's time, the Friona area received a fine general rain, last Saturday night and Sunday morning--although this one was more general, and the amounts were better.

Practically every nook and corner received at least two inches from the rain, and measurements ranged up to 4.5 inches. Most farmers turned their wells off. It began to look as if the drought was broken in Farmer County.

An idea of how general the rain was could be seen in the amounts measured in official government gauges in Friona, Bovina and Farwell. The amounts were uncommonly similar.

Friona's measurement was 2.35 inches, Bovina's was 2.48, and Farwell's came to 2.31.

At Sherley-Anderson Elevator in Lazbuddie, a total of 3.1 inches were measured, and at Clay's Corner it came to 3.7 inches.

Apparently the heaviest showers came south of Black and in the Lazbuddie vicinity. Bobby Broyles, just east of Lazbuddie, reported 4.5 inches. That was also the amount reported by Phillip Weatherly south of Black.

Loy Loafman had a four-inch gauge that was filled up, and Gene Welch measured 3.7 inches.

Another indication of how general the rain was is seen in the fact that the Rhea Community to the northwest also received a good rain.

Ralph Smith said he received 2.5 inches on his farm, just across the county line in Deaf Smith County.

Friona area residents were treated to an electrical display, accompanied by thunder, which went on all night long.

The rain received in Friona was a study in contrasts. At

about 10:45 p.m. Saturday, the Friona area was hit by a hard steady rain, that had deposited 1.6 inches in the official gauge by 11:30 p.m.

It then leveled off into a "mountain shower" type of rain that went on the rest of the night, although adding just .75 inch additional moisture in the official gauge.

Some small pea-sized hail was noted at the beginning of the rainstorm, but no appreciable damage was reported.

The earlier heavy rain fell with such intensity in the city of Friona that streets were flooded, and gutters, especially along U.S. Highway 60, were more than runningboard deep on automobiles. Some cars became flooded during the rain.

Reeve Lake, in northwest Friona, received its first appreciable water this summer, from the street drainage. The runoff was still flowing slightly

at noon on Sunday, and in the country, some barrow ditches still had a good amount of water standing on Monday.

It was the first time this year that the land generally got a good soaking. The rain of last month was a starter, but it had been dry for so long that it just didn't get things "muddy wet" as this most recent rain did.

The one-day measurement of 2.35 inches in Friona was the largest single measurement since May 23, 1969. The week's total brought the tally for the year to 9.34 inches--still behind schedule, but better than things stood at the beginning of summer.

Measurements locally have included 2.06 inches in June, 2.06 inches in July and 2.42 inches so far in August.

There may have been some people who weren't ready for last weekend's rain. If so, they were keeping quiet.

### Cafeteria Added To Local Eating Places

Announcement of the opening of Friona's first cafeteria, which will be located in Malouf's Shopping Center, is being made in this issue of the Star.

Mrs. Eva Marie Parker, owner of Friona Snack Bar, has employed Allen Boyekin, chef from Artic Foods of Amarillo, and his helper to prepare food for the two day grand opening, which has been scheduled for Saturday and Sunday.

The cafeteria, which is an extension of Friona Snack Bar,

will be open daily from 11:30 a.m. to 2:00 p.m. and from 6:00 to 8:00 p.m.

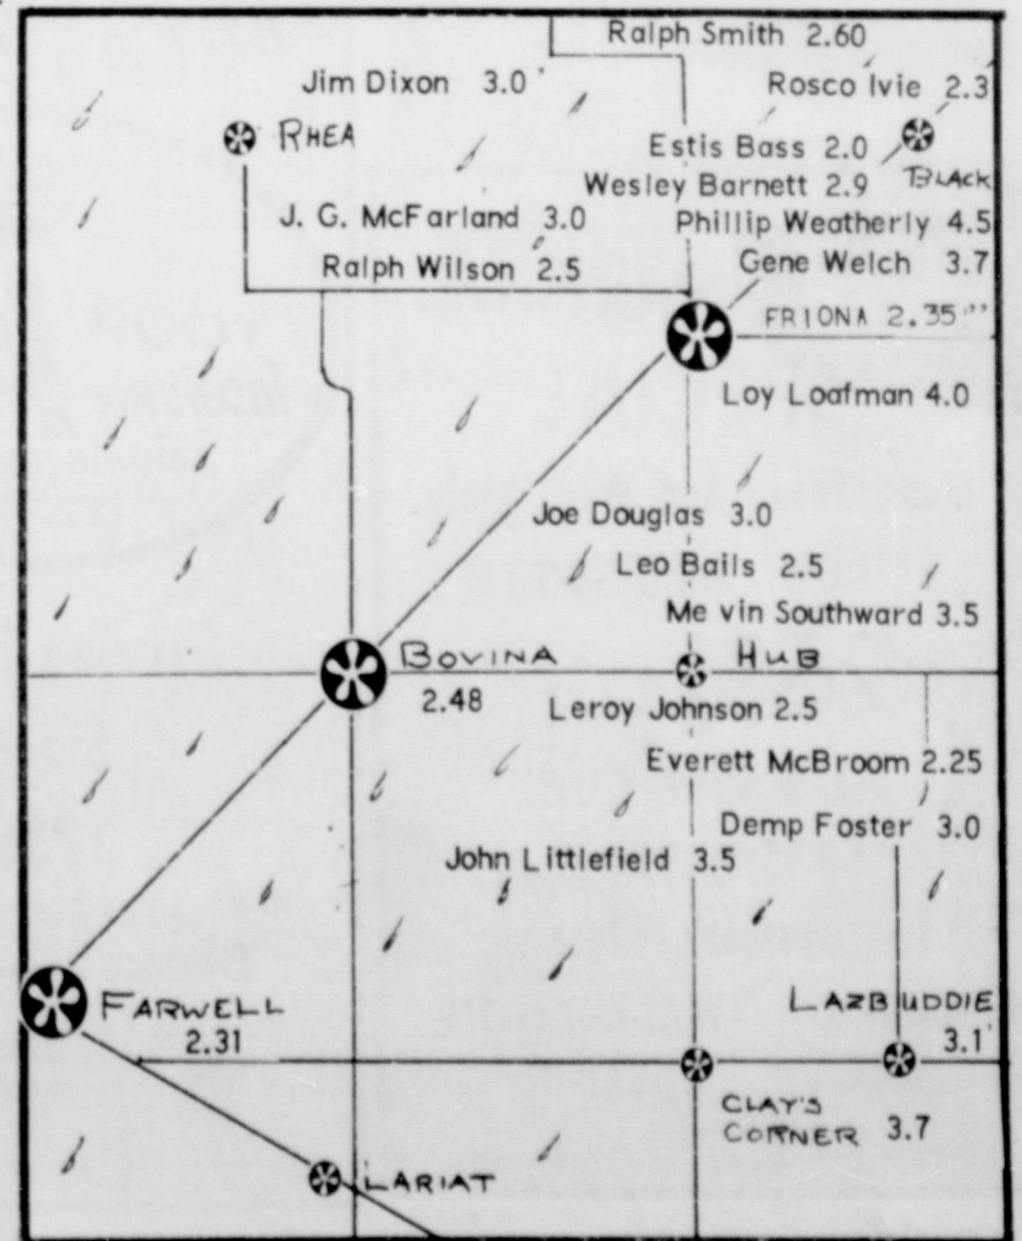

During the two day grand opening free cakes and coffee will be served with meals.

Customers will also register for door prizes.

Mrs. Parker and her assistants cordially invite everyone in the area to attend.

Facilities will also be available for parties and dinners and Mexican food will continue to be served in the snack bar on Tuesdays and Fridays.

### County Rainfall Map

(Continued On Page 2)

# Friona Flashbacks

...from the files of the Friona Star

35 YEARS AGO--AUGUST 14, 1936

At least one business enterprise in Friona is showing signs of prosperity, and that is the Help-Self Laundry, owned and operated by E. E. Houlette.

J. A. Conway, superintendent of schools at Kress, was a visitor here on Tuesday of last week. Prof. Conway served four years as superintendent of the Friona school system.

30 YEARS AGO--AUGUST 15, 1941

Rev. C. Carl Dollar, in company with six of the young people of his congregation, returned Sunday night from Oklahoma, where they had been in attendance at the annual young people's conference of the Oklahoma Assn. of the Congregational Church. Those who attended with Rev. Dollar were Misses June Maurer, Jacquelyn Wilkison, Frances Buchanan and Nancy Ruth Shackelford; and Messrs. C. L. Lillard and Robert Blackwell.

20 YEARS AGO--AUGUST 9, 1951

Machinery was moved in, ground broken and the grading of Friona streets commenced Monday to launch the full-scale street improvement program that will net over 60 blocks of new paving within the city.

Workmen are busy this week installing the smaller machinery at the new gin at Friona, with all heavier equipment already installed and the gin erected. Manager Wright Williams states that work is on schedule for initial operation by September 13, Farmer County Fair time.

15 YEARS AGO--AUGUST 9, 1956

A large crowd attended a free open-air Western music concert in downtown Friona last Saturday night, performed on the bandstand in the City Park. Taking part were Resford Shirley, George Green, Delmer Shirley and Don Green.

Excitement for Friona's 50th Anniversary Celebration picked up a head of steam at a meeting in the Friona Chamber of Commerce office last Friday night.

10 YEARS AGO--AUGUST 10, 1961

"The Golden Triangle" is the name that Ray Cowser, mayor of Hereford, has proposed for Deaf Smith, Parmer and Castro counties. "These three counties are the garden spot of the nation," Cowser told a gathering at a recent meeting of the Hereford Rotary Club, and says, "Much can be accomplished through a combined effort in promoting the area."

Entries from five states were on hand Saturday for the first annual Friona Jaycee Quarterhorse Show, which was termed an "overwhelming success."

5 YEARS AGO--AUGUST 11, 1966

The Rev. Otto H. Kretzmann will be installed next Sunday as pastor of Redeemer Lutheran Church, 15th and Virginia in Friona, and Immanuel Lutheran Church, in the Rhea Community.

Funeral services for Felix H. Hadley, 97, who died at a Muleshoe Hospital last Thursday, were conducted here on Friday. Mr. Hadley had been a Friona resident for 33 years.

## Council Approves...

(Continued From Page 1)

was \$1850, exchange for the city's old Farmall tractor.

Andy Hurst of Parmer County Implement Company met with the council and described the machine. It had been tried out by city employees and found satisfactory.

Outland was authorized to proceed with the solicitation of bids for a new trash packer truck, which is one of the major capital improvement items on the 1971-72 budget. Reason for proceeding this early was the fact that it is expected to take from three to four months to get the bidding process and delivery firm up, and the old truck, purchased in 1963, is developing problems.

The city manager reported that the appraiser had completed his work on evaluating properties to be affected by the Highway 214 and overpass project, and that the next step would be the approval of the appraisals by the state.

Outland also reported on the status of the city's applications for funds for expansion of its sewer system. It now appears that funds through the Farmers Home Administration will not be available, unless the city proposes a "hardship case," Outland said.

## Bike Contest

### End Is Near

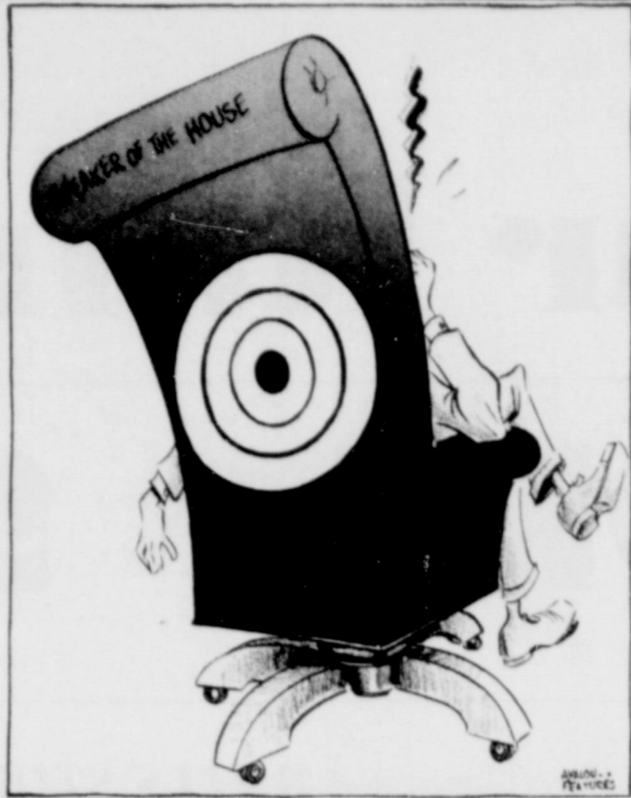

All contestants in the Friona Star's summer subscription contest are asked to return their blanks, along with their unreported subscription sales, by next Monday, August 16.

All subscriptions need to be reported, so they may be started, if they have not already been started.

## Out of Orbit

REMEMBER THE OLD SAYING, "WHATEVER GOES UP IS BOUND TO COME DOWN"

## Pause and Reflect

By Nelson Lewis

The next time you are in the Post Office take time to look at the picture hanging in the north west corner.

There is a good example of the adage--"one picture is worth a thousand words."

One of my generation's greatest sins is the failure to teach our offspring a real appreciation of our America The Beautiful. We have sowed a crooked furrow and we are now reaping a random harvest.

I cannot plead innocence in this area: but from time to time I have made an effort to redeem myself.

One such occasion was a recent weekend when Tom Baird and I took his oldest son James on a camping trip.

Now, Tom and I wanted to show the boy a good time and also begin the lessons of kinship with the outdoors.

We chose a popular place that has a great deal more history about it than the average visitor is aware of.

Listen to Frank Collinson's story of the area:--

I had discovered this spring in 1876 when I was buffalo-hunting. We had camped on Tongue River, and that night we could hear water falling below our camp. The next morning I got up early, saddled by horse, and rode down to investigate. When I got to the place I saw water running out. I got off and tied the horse and walked through a willow thicket toward the spring. I saw something lying in front of me. It was a dead buffalo, and two panthers were feeding on the carcass. The cats jumped on the bluff on the north side as I approached. I killed them both. I then examined the water and found it clean and delicious. I looked around and from many old camping signs knew that this spring had been a favorite camping place of the Indians throughout the centuries. By then other hunters joined me, and we skinned the panthers and named the spot "Roaring Springs," the name it still goes by today.

There are two "Tongue" rivers in the general vicinity of the Matador-Silverton-Quitque country.

The first one I visited is called El Rio de Las Lenguas--the river of tongues, or languages, due to the many nationalities who met there to trade during the early and middle 1800's.

This trip was covered in a column about three years ago and concerned the capture of Cynthia Ann Parker.

The location of Roaring Springs is on the South Pease River and is referred to as the Tongue River or more correctly the Black Tongue River because of a disease contracted by entire herds of buffaloes which caused their tongues to turn black and swell.

Thousands of these animals died in the broad valley that may be seen from the bluffs above the spring.

A trip to the Spring may be made in one day and is the perfect place for a picnic.

It also affords a wonderful chance to pound a little appreciation into some of these hard little Texas heads.

## Former Banker Dies

Funeral services for Charlie McLean, former president of Friona State Bank, who died Sunday evening in Santa Fe, will be conducted from First Baptist Church, Dimmitt, at 2:00 p.m. to-day (Thursday).

He was the grandson of the late Charlie McLean, who was one of the founders of First State Bank, Dimmitt, and son of the late Bruce McLean, who succeeded his father as president of that bank and later owned Friona State Bank. He was also the nephew of Mrs. C.W. Dixon,

Friona.

He and his wife, the former Gypsy Cox, moved from Friona to Houston about 30 years ago and since that time had retired and moved to Littlefield.

Survivors, besides his wife, are two brothers, Kenneth McLean of Quinlan, Texas, and Bob McLean of Dimmitt; three sisters, Mrs. Mack Wiggs, Weatherford, Texas; Mrs. G.I. Clingsmith, San Antonio; and Mrs. Sal DiCuffa, Dimmitt.

Burial will be in Castro County Cemetery.

## Church To Host Music Director

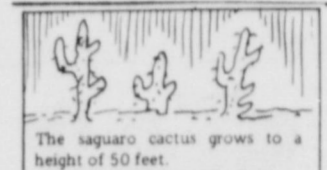

First Baptist Church of Friona will have as special guest for both services Sunday Bill Meyers of Dimmitt.

Meyers will be appearing before the church in view of a call as Minister of Music, Education and Youth.

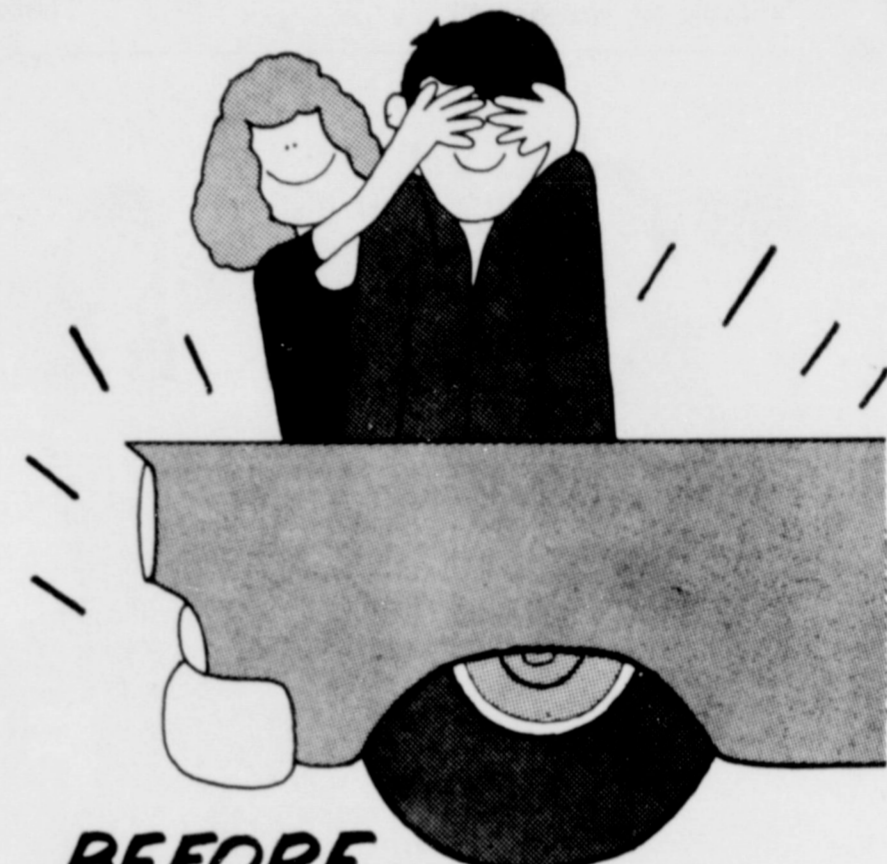

According to Rev. Charles Broadhurst, pastor of the church, Meyers has a rich background in church education and music. He is a graduate of Hardin-Simmons University,

and Southwestern Baptist Theological Seminary.

Rev. Broadhurst urges all members of the church to attend services on Sunday in order to meet Meyers and his family.

The saguaro cactus grows to a height of 50 feet.

# WELCOME TO FRIONA

This week we welcome Mr. and Mrs. W.A. Petree to Friona. Natives of the Littlefield area, Mr. and Mrs. Petree spent the past 12 years in Purcell, Oklahoma. She is the former Omas Campbell of Enochs. Petree is employed by Circle 3 Feed Yard. They have a son Gene of Port Aransas and two grandchildren. The Petrees live at 1201 N. Main, and they attend the Church of Christ.

If you've been thinking that the custom of using letters for identifying different organizations is a new thing, possibly you don't even know how we came to call Irish potatoes "spuds." According to the way I heard it, "spuds" was derived from the first letters of an organization of long ago. It was the Society for the Prevention of Unwholesome Diet.

Jan Wallis, who was our exchange student from Australia last school term and lived with the Carl Schlenkers, has gone home.

A fitting experience for Jan, whose smiling face will be missed for a long time, was being recognized at a performance of "Texas" one of the last evenings she was here for being the farthest distance from home.

Getting to know Jan was a pleasure for many of us and we are grateful that she came our way.

We've had a number of inquiries about dangers of eating corn and vegetables which may have been sprayed for insects. After doing some research on the subject, we are without any good answers.

However, it would be a very good idea for anyone using any kind of produce, which has been sprayed to check with someone who has some knowledge of chemicals and their reactions. A few years ago several farmers in the area had uninvited persons to pick all peas, beans and okra in several places. Besides being very bad manners, this procedure might be very dangerous in some cases.

Maybe all of us should be very careful about picking anything without first consulting the owner or caretaker.

One of our elementary teachers, Mrs. Aubrey Rhodes, was a Star office visitor Monday. She has had a busy summer and is ready for school to begin again.

One visitor in her home during the summer vacation was a sister, Mrs. Doris Cooper, who lives in Stillwater, Oklahoma. Mrs. Cooper was very much impressed with the variety of goods available in Friona stores.

She also complimented our town upon its cleanliness. Since Stillwater is a much larger town than Friona and Mrs. Cooper regularly shops in Oklahoma City, we feel flattered that she was so impressed with our town.

Mrs. Rhodes also reported that her son, Tim, and his wife, Kathy, now live in Dimmitt. Tim is employed at the starch plant there.

I have been told that several Friona farmers are growing corn for Dimmitt's starch plant.

Our down the street neighbor, Elmer Euler, has been dismissed from the hospital, but is confined to his home.

Recent visitors in the Euler home have been the couple's son, Rev. Lee Euler and his wife and family from Albuquerque.

Then later Mr. and Mrs. Earl Mangold and family from Flint, Michigan, flew to Amarillo, where they were met by some of the local Eulers. After visiting here a few days, the Mangolds returned to Amarillo, where they planned for a trip to Florida.

Several Frionans, including the J.C. Beck family and Editor and Mrs. Bill Ellis and children, saw "The Music Man," which was presented by Eastern New Mexico University school of music and department of Theatre in the University Theatre last weekend.

Of special interest to local residents was the appearance of Fran Dodd in the chorus. She was one of the "River City Townspeople." Fran is a 1970 graduate of Friona High School and the daughter of Mr. and Mrs. Grady Dodd.

From the reports I heard some of us missed a rare treat by not going down to Portales to see the production.

Layby weed control can be effective in cotton during the next few weeks. Emerging weeds can be controlled with such herbicides as Caparol and Karmes. Control of these weeds is a good practice since they often interfere with efficient stripping operations later in the fall. Karmes can be applied at the rate of one-fourth to one-half pound per acre while Caparol should be applied at one-half to one pound per acre. These rates should give excellent control of one-inch pigweeds. The higher rates may be necessary for controlling larger weeds or if residue control is needed in irrigated fields.

The Extension Service Soil Testing Laboratory at Lubbock is now testing for "trace elements" or micronutrients. These include zinc, iron, manganese and copper. High performance atomic absorption unit has been installed with the aid of matching funds from the Texas Plant Food Institute. Although the micronutrient requirements for field crops is unbelievably low, these elements are essential for plant growth. On the High Plains, micronutrient deficiency occasionally includes iron in grain sorghum and zinc in corn and cotton. Twelve individual tests are now being conducted on each soil sample submitted to the lab. The entire facility is geared to assisting producers with efficient soil fertility management through proper fertilizer use.

Cooked soybeans are finding a place in swine rations since grain sorghum and corn prices are increasing. The oil in the beans will furnish energy that will replace some grain. The value of a bushel of beans for swine feed equals .86 times the value of a ton of 44 percent soybean meal, plus the value of 14.5 bushels of grain, divided by 33.3. The cost of cooking the beans is estimated at 29 cents per bushel for 1,600 hogs per year, 24 cents for 2,000 hogs, 17 cents for 3,000 hogs and 13 cents for 4,000 hogs.

The table below gives the value of a bushel of beans for hog feed at various prices for corn and soybean meal. If beans are worth less than this on the market, it would pay to cook and feed them. If they are worth more, it would pay to sell them and buy soybean meal. The cost of cooking the beans is figured at 24 cents per bushel.

Value of corn/bushel	Value of ton of 44 percent bean meal				
	\$70	\$80	\$90	\$100	\$110
\$1.10	\$2.05	\$2.30	\$2.56	\$2.82	\$3.08
1.20	2.09	2.35	2.61	2.86	3.12
1.30	2.13	2.39	2.65	2.91	3.17
1.40	2.18	2.44	2.69	2.95	3.21
1.50	2.22	2.48	2.74	3.00	3.25
1.60	2.26	2.52	2.78	3.04	3.30

Horn flies and the Southwestern corn borer are active in the Panhandle area. Corn borer activity has increased in Castro, Bailey and Parmer Counties. The Texas Agricultural Extension Service is conducting tests and results demonstrations on corn borer control. Horn flies have become a problem following recent rains. Various methods of control are also being tested. Mite activity on corn and grain sorghum should decrease in the coming weeks as the crops begin to mature.

Bollworm infestations are increasing in grain sorghum on the South Plains. Heavy infestations have been found in Lubbock and Crosby counties in both pre-boot sorghum and in sorghum heads. Infestations in pre-boot sorghum are difficult to control since the worms are feeding in the whorl of the plant. However, during this stage the bollworms rarely cause economic loss even though heavy leaf damage may occur. Control measures may be necessary in older sorghum if infestations exceed an average of one worm per head. Insecticides recommended for controlling bollworms on grain sorghum include carbaryl (Sevin), parathion, carbaryl plus parathion, and toxaphene plus parathion.

SIAMESE SQUASH... Mrs. Glen Mingus displays a rare "Siamese" squash which she grew this year in her garden. Besides the rare-shaped one, Mrs. Mingus had a good collection of king-sized squash, proving her gardening abilities.

**Nominations Being Taken  
By Grain Producers Board**

Nominations are now being accepted by the Texas Grain Sorghum Producers Board for the four directors to be elected by the TGSPB.

Four producers are elected every two years to serve six-year terms. The board meets bi-monthly to conduct the business of the organization.

Nominations must be received by August 20, in the Board's office at 1212 14th Street in Lubbock.

Terms of C.C. "Pap" Reed, A.R. Dillard, Charles Heck, Jr., and Melvin Barton expire this year.

A nominee must meet the following qualifications:

- (1) The applicant must be a producer of grain sorghum.
- (2) The application must be signed by the applicant.
- (3) The application must be signed by 10 grain sorghum producers.

**PCA Farm Loans  
Near \$80 Million**

Area farmers and ranchers borrowed almost \$80 million from Plainview Production Credit Association during the first six months of 1971, according to James A. Rogers, secretary-treasurer and general manager.

This figure represents an increase of more than \$600,000 over the same period last year.

Texas' 34 Production Credit Associations loaned more than \$448 million the first half of 1971, an increase of \$33 million over the same period last year.

**At Home In Parmer County**

Jana Pronger

As we all plan that last camping trip, picnic or cookout before the kids go back to school remember--

Roughing it on a camping trip doesn't mean you have to forfeit nutritious well-balanced meals. Supermarkets stock a variety of foods suitable for a campout, including freeze-dried items, mixes and packaged main dishes.

Remember to plan meals around the four basic food groups to maintain health and to meet energy requirements for active vacation days. The rule to follow is "2-2-4-4"--two or more servings from the milk group, two or more from the meat group, four or more from the fruit and vegetable group and four from the cereal group.

Some of the easy to pack and easy to fix suggestions from the Extension Marketing Specialist Owendolyn Clyatt are: Nonfat drymilk and pasteurized process cheese spread which need no refrigeration from the milk group. Such package main dishes as Macaroni and Cheese Spaghetti with Meat sauce and beef stroganoff and canned steaks and luncheon meats pack easily and are easy to fix. Individual size cans of fruit and vegetable juices and powdered fruit drinks are very handy. Dried fruits make very handy snacks. Canned fruits and vegetables and the many potato

products on the market round out the requirements for the fruit and vegetable group. Ready to eat cereals and instant oatmeal or cream of wheat to start the day off and pancake, cake, cookie and muffin mix which only need water to be added fill the bread and cereal requirement.

There is a word of caution though that we should all remember--

The potential danger of food poisoning accompanies each outdoor meal. But precaution and common sense can prevent a disaster.

Gastrointestinal upsets are sometimes caused by germs that thrive in picnic foods--foods not under adequate refrigeration. Food is safest at temperatures above 140 degrees F. and below 45 degrees F.

Food should be served immediately after cooking. If allowed to cool to moderate temperatures, rapid reproduction of micro-organisms which produce harmful toxins will occur. Picnic foods usually stay just warm--not cold or hot--for several hours, a danger period in many cases. Foods to watch closely are finely chopped dishes, such as chicken salad, meat or egg sandwich fillings and casseroles.

For picnic meals, remember careful food preparation and handling are important.

# Electric Company Notes 50th Birthday

How does a company decide when it is going to celebrate its 50th anniversary year?

In the case of Southwestern Public Service Company, the decision was made late last year by the simple expedient of impressing the corporate seal on a piece of plain white paper.

When the resulting impression read, "Incorporated, 1921," 1971 became the electric company's golden anniversary year.

Up until that decision making moment, five different years could make some kind of a case for being the birth year, with one of them going all the way back to 1894. The others were 1904, 1925 and 1942, and the winner, 1921.

1921 won the battle because, in addition to being the year that came up on the seal, it was also the year of organization of the company, which, 4 years later took on the name of Southwestern Public Service Company.

The 1921 company which became today's Southwestern, was the Roswell Public Service Company. Among its incorporators was Hi Dow, well-known New Mexico pioneer and a director and general counsel for Southwestern Public Service Company until his death in 1969.

**NAME CHANGE**

The name change to Southwestern Public Service Company came in 1925, which was also the year that expansion began with the purchase of electric systems in Artesia and Carlsbad.

1925 was also the year the company first began operations in Texas, with the purchase of the electric systems in Amarillo, Pampa and Panhandle.

The 1920's are the most interesting years in the electrical development of this region.

The region was then, basically, a cluster of small towns, each of which had its own inadequate, and usually antiquated, electric supplier. There were few, if any interconnections, with other communities or electric systems. Most of the towns were only large enough to be served by a single circuit, and if something happened the whole town was out of power until it was repaired.

This was an era which also brought some communities electric service for the first time. In late 1926, for example, Southwestern Public Service built a transmission line from Amarillo to Pampa and brought electric service to White Deer, Texas for the first time--on Christmas Eve.

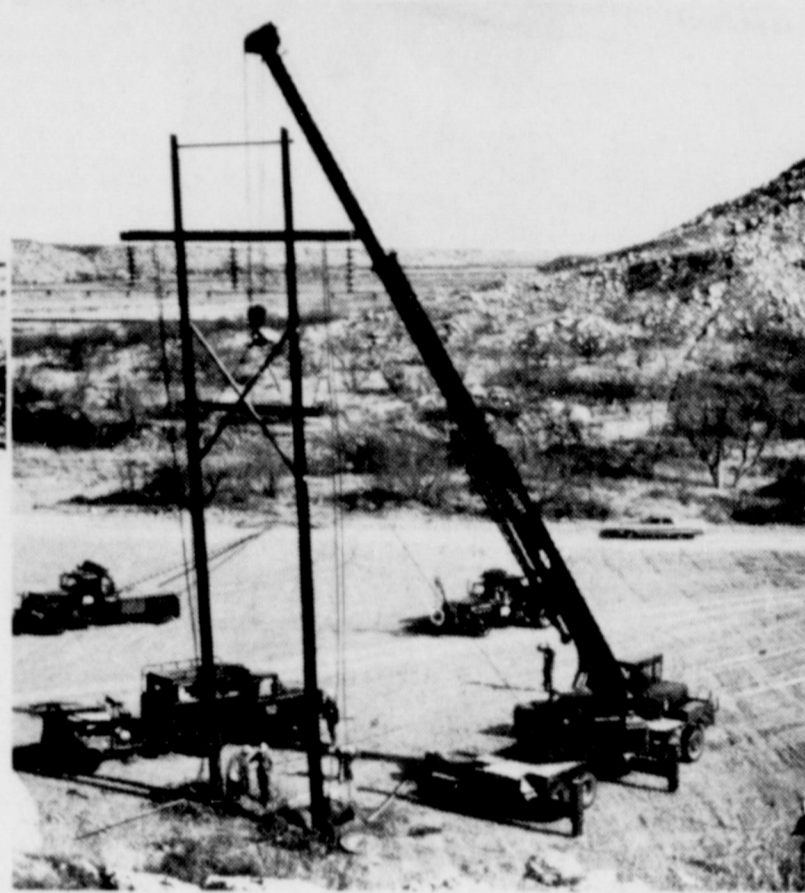

There was still considerable fragmentation insofar as electric service was concerned and parts of seven companies, each of them a subsidiary of at least one holding company--were serving throughout the area.

It was apparent, then, that the electric service needs of the area could be met even more efficiently and economically if it were served by a single, independent, operating company, devoid of holding company ties, locally managed and immediately responsive to area needs.

In short, the region, which had fairly common agricultural and business bonds, lent itself to integration, in the electrical sense of that word.

50 years ago, the year Southwestern Public Service Company was born, raising transmission poles was, literally, a matter of horse and man power as pictured above. In the company's golden anniversary year, it's just a question of lift, set and tamp, as seen at right, nearly all of it done mechanically.

The Public Utility Holding Company Act of 1935 and cooperation between government and business made this integration possible.

The holding company subsidiaries which had been serving the region were merged into a single entity, Southwestern Public Service Company, an independent, integrated operating company. It was the first such company, incidentally, to result from the application of the Holding Company Act.

Thus it was, as the area embarked on the most rapid period of its growth--immediately following World War II, it was served by a single electric supplier prepared to meet the electric service needs that growth brought on.

Southwestern serves a 45,000 square mile area which starts in the southwest corner of Kansas, crosses the Oklahoma and Texas Panhandles, moves down onto the South Plains of the Lone Star State and then moves westward to include the Pecos Valley and Clovis-Portales regions of New Mexico.

**NO POWER SHORTAGES**

There haven't been any power shortages in this area in the past and the folks at Southwestern don't envision any in the future. To make their visions become reality, the company is adding to its investment at an average annual rate of \$20-million. The total investment will pass the 500-million dollar mark in the early 70's. Incidentally, it was 39-million dollars, the total investment, that is, when the company took its present form in 1942.

The ecological and environmental problems that have haunted some utilities have not yet interfered with Southwestern's progress, and, assuming a reasonable approach to the environment

At the other plants, with their cooling towers, the discharge that you see in the air on a cold day is nothing more than water vapor, and isn't polluting the air one bit.

Actually, with a tongue-in-cheek approach, you could say that the air which flows over the cooling towers is better because it gets a little moisture added and also gets washed. But, it's not really a large percentage of the atmosphere in the region.

Southwestern is working to retain the fresh water resources of the region, and at two of its power plants, Nichols Station, near Amarillo, and Jones Station, Southeast of Lubbock, uses reclaimed sewage effluent as cooling water. This conservation practice saves 6,000,000 gallons of fresh water a day and that's enough to meet the needs of a city in the 20,000 range population bracket.

**RESEARCH FOR FUTURE**

The oceans of the world will provide the fuel source for electric generation in the future, if research in which Southwestern is participating comes to fruition.

This would be thermonuclear fusion, the fusion of light atoms into heavier elements, and a child's pail of seawater would provide enough fuel to generate the electricity for the average home for a year.

There is, incidentally, more energy available from the hydrogen atoms in 7-1/2 square miles of seawater than from all the fossil fuel reserves in the world, and that, in itself, makes the research exciting.

But the excitement of thermonuclear research goes far beyond its potential as a source of electric power.

The fusion process for making electricity will require ionized gases at temperatures of millions of degrees. These ionized gases--they're known as plasma--may be used as a fusion torch to vaporize waste materials of all kinds, turning them into electrified particles of their constituent elements, and making possible the recovery of basic raw materials for recycle into new products.

In other words, instead of letting our waste materials rust or rot away, we'll reclaim them. What's more, we'll separate the elements. Figuratively speaking, we'll put all the iron in one little neat pile--all the aluminum in another--and so on and so on. We may even be able to make new combinations with the protons and neutrons and electrons and make the old alchemist's dream come true and turn a base metal into gold.

Meanwhile, getting back down to earth and the electric power business--for today and tomorrow. The crystal ball gazers are saying that the American people are going to demand as much electric energy in the next ten years as they have used in the last 90. That would be 18-trillion kilowatt-hours, and it looks like this when you put all the zeros on it--18,000,000,000,000.

Southwestern's share of that load is still an unknown quantity but on their record in the past, we can be confident they'll meet it--with power in reserve.

The first turbine-generator on Southwestern Public Service Company's system, pictured, had a capability of 500 kilowatts and was installed at Roswell, N.M. As Southwestern celebrates its 50th anniversary this year, it has nearly 2,000,000 kilowatts of generating capability, and the turbine room floor at Plant X, near Earth, is nearly as long as two football fields and houses four turbine-generators with a combined capability of 487,500 kilowatts.

**What Does The Bible Say?**

"Therefore being justified by faith, we have peace with God through our Lord Jesus Christ" (Rom. 5:1). "--being justified by His blood, we shall be saved from wrath through Him" (Rom. 5:9). "--being reconciled, we shall be saved by His life" (Rom. 5:10).

The foregoing quotations, each from the fifth chapter of Romans, are only three of some twenty specifications in the New Testament by which one is said to be saved. In the application of all of them, there is complete harmony until some man begins tampering with the Word of God.

And men have tampered with that word respecting salvation by the addition of the word "only." But if one man has any right to add the word "only" to the doctrine of justification by faith, then another man has the same right to add the word "only" to the doctrine of justification by the blood of Christ; yet other men might, by the same right add the word "only" to any other doctrine of justification, while the truth is that no one is ever said to be saved by any one thing "only."

"Ye see then how that by works a man is justified, and not by faith only" (James 2:24).

**Business & Professional Review**

Billy Joe Green and Jan Wallace

**BILL GREEN**

**Bill's TV Technician Is Young, Energetic**

Bill Green hit town the latter part of April and he's been in perpetual motion ever since.

Green, owner and manager of Bill's TV & Appliance at 521 Main Street in Friona, bought the business from Bill Turner in late April. In that short time, Green has already made a name for himself as a go-getter when it comes to radio and television service.

Green says he has been "overwhelmed" by the acceptance the people of the Friona area have given him. "We have been averaging 75 calls per week—and that's keeping us busy," Green said.

In recent weeks, Green has been expanding his service calls. "I've been going to Bovina, Lazbuddie, Clay's Corner, Farwell, Summerfield—wherever there is service work. We want the business, and we want the people from all over the Friona trade territory to call us," Green says.

The television technician pointed out that it thrilled him to be able to pull this additional business in Friona, because virtually all of the money he made (with the exception of expenses for parts), was pumped back into the economy of Friona.

"This helps the community as a whole, when you can get money that was going elsewhere, and keep the Friona business at home," he said.

Green came to Friona from Portales, where he was employed by the RCA dealer for about five years. Prior to that, he had been with the RCA dealer in Muleshoe, for approximately the same length of time.

The 32-year-old Green was born and raised in Tennessee, hailing from Paris, Tennessee, but came to the High Plains about ten years ago.

"That country doesn't hold a candle to this part of the world," says Green about his native state. "We went back there for a visit about a month ago, and this was really brought home to us in a big way. Everything, from the weather to the business climate, is better here," he says.

Green pointed out that the Friona area is a young, growing area, compared to those of his home state. "Here, you feel like you're growing with the area," he says.

Green is lavish with his praise for the way the people of the Friona area have accepted him.

"The people have been exceptionally nice. They have also been understanding, in matters such as when it takes time to get the right part for their television set," he pointed out.

Green explained that it was sometimes more difficult, being this far from the metropolitan areas and parts supply houses, to get a television set repaired in a short length of time.

"In Amarillo we might just go across town to get the part we needed, here we have to order it—and hope they send the right one," he said.

In the parts line, Green has more than doubled his parts stock since buying the business from Turner. He also has purchased several modern pieces of equipment which aid him in his service work.

"We are constantly trying to improve our efficiency. We're working on this all the time, trying to find ways of saving time so that we can get a person's set repaired in a minimum length of time, and get to another call," Green said.

He has brought a complete two-

way radio installation, and by this fall expects to have his service truck connected by radio with the shop, so that he can save time and extra miles by having this means of communication.

Green says that the good reception he's had is encouraging, and has also caused him to be on the lookout for a good assistant technician. "Good television technicians are scarce, though, and if I add one, I want him to be good," he says.

The Friona serviceman says he knows he is being accepted because he gets several calls from neighbors of people that he has serviced. Another big assist has been that dealers in Hereford and Clovis, when contacted by people in this area for service, have recommended that they contact Green.

Also, White's Auto in Friona contributes a good amount of service work, and this has been a big help.

Green services all makes of radios or television sets, color or black and white.

Turner has retained the sales end of the shop, but Green plans to take over that portion of the business in the near future.

The Friona technician spends a good deal of time each year attending technical training schools, and has enough certificates to paper a wall for schools he attended through RCA and Motorola. This training enables him to stay abreast of all of the latest developments in the electronic field.

Jan Wallace is Green's receptionist-bookkeeper. She is a native of Portales. In fact, her father, Wilbur Wallace, is a noted inventor and manufacturer of peanut diggers. He owns and operates Wilbur's Machine Shop in Portales, the nation's peanut capital.

Ready-To-Wear For The  
Entire Family

### Couple, Party Honored

A rehearsal dinner, which honored Gerald Teel and his fiancée, Denise Buske, in Fellowship Hall of First Baptist Church at 8:30 Friday evening, was hosted by Mr. and Mrs. W.E. Teel.

The Teels were assisted by Mrs. Pat Armstrong, Lovington, New Mexico, who is Mrs. Teel's sister.

Other honored guests were Mr. and Mrs. W.D. Buske, parents of the bride-elect and members of the wedding party.

The bride-elect's chosen colors, two shades of pink, were carried out in decorations. The head table was centered with two identical arrangements of peace roses combined with pink tapered candles. Other tables were lighted with pink candles.

Rolls, tea, coffee and pie, by Mrs. Decimae Beene, Mrs. Tom Shelton and Mrs. Claude Garth.

### BEGIN ON MONDAY

# 55 Players Expected For Football Workouts

The summer break from school will end for approximately 55 Friona boys next Monday, when football workouts for the 1971 season will get underway.

The first workout will be held at 3 p.m. Monday on the FHS practice field. Two-per-day workouts will be held at 6:30 a.m. and 6:30 p.m. on Tuesday, Thursday and Friday, with single workouts slated for Wednesday and Saturday.

Actually, the candidates were to check out their football shoes and socks on Wednesday, in order to begin breaking in the new shoes.

Coach Bob Owen said the estimate of 55 prospects for the varsity squad was based on the number of pre-enrollment blanks he received last spring. If all of those who signed blanks show up for practice, it will be an increase of ten over last year's squad.

Not included in the number are an estimated 44 prospective freshman gridgers, who will not report until the following week. This is the largest prospective freshman squad in the school's history.

In addition to its numbers, the freshmen bring a fine record with them from junior high, where they lost only one ball game over two complete seasons.

Coach Owen and his staff are faced with a fast rebuilding chore in pre-season workouts, having just two offensive starters and three defensive returnees from the 1970 team which compiled a surprising 6-4 record.

Bill Bailey and Carroll Cook are the offensive starters returning. Johnny Bandy, Mike Royal and Bailey are the defensive starters back. Actually, Royal started some games on offense also last fall.

In addition to these four players, five other lettermen are expected back. These include James Sims, Mike Martin, Larry Fallwell, Willie Bailey and Kevin Wiseman.

Heading the crop of sophomores for 1971 are James Perea and Danny Waggoner. Both have played backfield positions, but are expected to be converted into linemen to help the depth situation on the line, which lost six of seven starters.

Perea is expected to be a starter at guard, probably joining Mike Martin as probably pre-season starters at that position. Junior Kevin Wiseman is tabbed to play opposite Cook at the tackle slot, with Willie Bailey at center.

Fallwell will anchor the line at one of the end positions, with Richard Shirley the likely candidate for the other end of the line.

The backfield is fairly well set also, with junior Johnny Bandy the heir apparent to the quarterback spot, although James Sims will push him. Both are capable signal-callers, and both can pass.

Royal will be moved to a halfback position, with Bailey taking over fullback. The other starting halfback will probably be James Bartlett, up from the B-team.

Other backfield prospects in-

clude Mario Perea, a junior, senior Oberlin DeLeon and Waggoner.

Other prospects for a position on the line include John Rule, Gerall Wylly and Mark Walters, all juniors.

The Chiefs' kicking game should be among the best in the league, with Royal doing the punting and Bobby Drake the

place-kicking. Both boys handled these chores last season, did well and should be improved this year.

Past the potential starting eleven, the experience runs out in a hurry, Owen says, and the potential backup men, or starters should something happen to those tabbed for starting spots, are pretty "green."

### Maynard Ages Return Tuesday

Mr. and Mrs. Maynard Agee and daughter, Krystal Kay, of the Hub Community returned home Tuesday after spending twelve days vacationing in Northern New Mexico and Southern Colorado.

They camped at Lake Valencito, Colorado, and did some sightseeing in the areas of Du-

rango, Ouray and Silverton. The group also visited Mesa Verde National Park.

One of the highlights of the trip was a ride on the train from Silverton to Durango. Mrs. Agee's report was, "I enjoyed going one time, but have no desire to ride it again."

## NOTICE

### Friona Independent School District Required Immunizations 1971

DEAR PARENTS OR STUDENTS:

Texas now has a new law that requires immunizations for all students enrolled in schools and institutions of higher learning, as shown below:

VACCINES	KINDERGARTEN AND GRADES ONE THRU FIVE		GRADES SIX AND ABOVE	
	Doses Required	Last Dose	Use Required	Last Dose
Polio (Oral)	3	Since Age 4	3 (to Age 19 Yrs.)	Since Age 4
Diphtheria Tetanus (DTP OR TD)	3	Since Age 4	3	Within 10 Yrs.
Measles (Rubeola)	1 or illness (Thru age 11)	Anytime	1 or illness (Thru age 11)	
Rubella 3 day or German Measles	1 (Thru age 11)	Anytime	1 (Thru age 11)	
Smallpox	1	Within 10 Yrs.	1	Within 10 Yrs.

(\*)-None required after 12th birthday

If the number of doses required have been received, but last dose was before time stated, then an additional dose of POLIO, DIPHTHERIA/TETANUS or SMALLPOX is required.

All immunizations should be completed by the time school is entered. However if this is not possible, all students will be allowed to enter their respective school systems during the Summer and Fall 1971 terms, with the provision that their immunizations against at least one of the aforementioned diseases will have been started by January 1, 1972 and all completed as soon as medically feasible.

Since many types of personal immunization records are in current use, any document listing each immunization received by year will be acceptable during the 1971-1972 school year for either initiating or updating school immunization records.

Signature or rubber-stamp validation of personal records by physicians or public health clinics is recommended but not required until the Summer 1972 Semester, after which validation of new records is required.

Exclusions from compliance are allowable on an individualized basis for medical contra-indications and religious conflicts.

A new, standard Certificate of Immunization form is being developed; however, compatible documents will always be acceptable. Fill out and return Immunization Record to teacher.

If you have any questions, contact your family physician or school nurses. We suggest that you take this letter with you if you contact them in person.

A combined Measles-Rubella vaccine is now available which requires only one injection. The age criteria for this vaccine is the same as indicated in the above table for Measles (Rubeola) and Rubella.

We will appreciate your cooperation in this matter.

Sincerely,  
Alton Farr  
Superintendent

The trio, which anticipating the beginning of football and school activities, is composed of Debbie Carter, Vandra Nichols and Jeanie Thompson.

**FLOYDADA FAVORED**

**Chiefs Out To Discredit Low Pre-Season Ratings**

In answer to the pre-season polls regarding the outcome of the District 3-AA race, the Friona Chieftains, their coaches and fans can only say "Remember last year."

Similar to a year ago, the Chiefs are picked for a near-bottom finish in the district race.

However, after having been thus tabbed in 1970, the Chiefs went out and achieved a 6-4 record, including a 4-3 record in district, tying for third place.

Both the district coaches' poll and that conducted by Texas Football magazine give the Chiefs a not-too-respectable seventh place by pre-season standards, ahead of only Morton among the eight district teams.

And, on paper, their prediction would seem to be in order.

Coach Bob Owen points out that Friona has the least returning starters of any of the eight District 3-AA teams.

However, Coach Owen says that he thinks the Chiefs will be able to compete with any of the district elevens on a given night.

"These pre-season polls

can't take into consideration such things as desire, and wanting to play football," Owen pointed out this week, as he prepared for workouts which begins next Monday.

"Those were the things the 1970 team had, and it caused the team to have a winning record, in spite of the fact that on paper, it appeared that the team would not," Owen reminded.

Last year's district champs, Floydada, have been tabbed by district coaches as the team to beat for the third straight year, even though the Whirlwinds were hard hit by graduation, losing 26 seniors.

"Everyone is basing their prediction on the basis of the record compiled last year by Floydada's B-team, which was unbeaten," Owen said. Apparently, the District 3-AA coaches feel these B-team members will sufficiently fill the shoes of those graduated seniors to retain the district crown.

Past Floydada, the district coaches say that it will be a dogfight for second place by no less than five teams, Dimmitt, Littlefield, Abernathy, Lockney and Olton.

Each of these teams have from six to ten starters returning. Olton has the league's top passer, Steve Stockdale, back for another crack at it.

Littlefield, although only 1-9 in their first season in District 3-AA last fall, has practically every starter back on offense and defense, and is expected to be a vastly improved team. For one thing, the Wildcats will field one of the league's largest teams. Littlefield was picked second by "Texas Football" magazine.

Dimmitt, Abernathy and Lockney all have good material returning, and any of these three teams could be a darkhorse favorite for the title.

Coach Owen, on his prediction sheet for the Coaching School, picked the district races as Floydada, Olton, Abernathy, Dimmitt and Littlefield, in that order. Coaches do not rate their own team.

As for the team's three non-district games, Owen points out that Farwell has returning Brett Hargrove, who is expected to be one of the area's top passers. The Steers are also said to have some top-notch receivers.

Muleshoe, which downed the Chiefs 20-6 last year, has nine offensive and 10 defensive starters returning, and are picked for a third-place finish in District 1-AAA.

Hovina has eight offensive and eight defensive starters back.

"Our schedule isn't the very roughest, at this point," says Owen, pointing out that there are no "breathers" from the start to the finish.

"However, I think we can put 11 men on the field who should compete with any of them," he concludes.

And, after all, that's only as many players as any of the opponents will be able to use at one time.

**Changes Announced For Free Lunches**

Some changes have been made in the guidelines for free and reduced price lunches from last year. Specific criteria will be used to determine eligibility for free and reduced price lunches.

Letters to parents and application forms will be distributed to all pupils to be taken home for study and consideration of parents.

Those who feel they are eli-

gible for free or reduced price lunches may complete the application form and return or mail it to any school principal. After careful study of the application, the family then will be notified of approval or denial.

If a family is denied free or reduced price lunches, an appeal may be made to the superintendent for a review of the

application. Only authorized school personnel will know who makes application and what pupils receive meals under this program.

All pupils will receive that same type of ticket which will be for one week or one month duration. Regular price for lunches will be 40¢ for those in grades K through 8 and 45¢ for those in grades 9 through 12.

## Beverly June Barnhill Weds Johnny Grant Mars

Wedding vows were exchanged between Beverly June Barnhill, daughter of Mr. and Mrs. Jack Barnhill of Turkey, Texas, and Johnny Grant Mars, son of Mr. and Mrs. Marston G. (Johnny) Mars, Friona, at First Baptist Church, Turkey, Saturday, July 30.

The double ring ceremony was read by Rev. Bill Foil, pastor of First Baptist Church, Canyon, and former pastor of First Baptist Church, Friona, before an archway of candelabra holding white tapers enwined with greenery and centered with a white satin kneeling bench. Baskets of gladioli stood at either side of the arrangement. Family pews were marked with candles and white satin ribbon bows.

Mrs. Jacquelyn Crump, Turkey, was her sister's matron of honor. Cathy Chumrey, Plainview; Paula Rogers, Childress and Jody Short, Channing, were bridesmaids. Candlelighters were Rondalyn and Jeff Crump, Turkey, niece and nephew of the bride. Ken Crump, another nephew of the bride, was the ring bearer.

Groomsmen were Sherman Smith, Canyon; Russell Barnhill, Turkey, brother of the bride; and Danny Murphree, Plainview. Serving as ushers were Mike Fallwell, Friona, cousin of the groom; Stan Hicks, Canyon; Paul Smith, Hale Center; and Gary Beauchamp, Bovina.

Feminine bridal attendants

wore identical navy and white dresses designed with Empire bodices, which were marked with white daisies with yellow centers. They carried nosegays of white daisies and yellow rosebuds and wore matching daisies in their hair.

Sheryl Anderson, pianist, presented traditional wedding selections and accompanied Mrs. Jerry McFather, soloist, as she sang "More," and "One Hand, One Heart."

The bride, who was escorted and presented in marriage by her father, wore a formal wedding gown of white imported cotton organza. It was designed with an oval neckline, which was edged with lace appliques, long full sleeves gathered onto wide cuffs, which were closed with tiny white buttons and loops.

The bodice was marked with lace appliques and wide bands of re-embroidered lace appliques enhanced the front panel and center of the sleeves. A headpiece of white leaves re-embroidered with seed pearls held her veil of imported silk illusion.

She carried a nosegay of gardenias and white roses atop a white Bible. She wore a string of pearls, which were a gift from the groom, and an heirloom, which belonged to her grandmother.

The reception, which followed the ceremony, was held in the home of Mrs. Jack Case, aunt of the bride. The bride's table, which was covered with a white linen cloth, was centered with silver candelabrum and nosegays of the bride's attendants. A crystal and platinum punch service and a three tiered cake topped with a nosegay of daisies completed the table setting.

The groom's table was covered with a blue linen cloth.

Cousins of the bride, Wanda Calvert, Sally Case, Pam Williams and Pat Brown, presided at the bride's table and groom's table. They wore identical yellow dotted swiss formal.

For a wedding trip to New Mexico and Colorado, Mrs. Mars wore a black and white tapestry dress with matching jacket and black accessories.

Mr. and Mrs. Mars are at home here. They are both graduates of West Texas State Un-

MRS. JOHNNY GRANT MARS

## Billie Sue Woody Feted With Shower

A miscellaneous bridal shower in the reception hall of United Pentecostal Church recently was a courtesy for Billie Sue Woody, who became the bride of Richard Tedford Saturday evening.

The serving table was covered with a white linen cloth and centered with a gold composite holding a floral arrangement in gold and blue. Refreshments of cookies and punch were served by the hostesses.

Hostesses were Mesdames Frank Griffith, O.G. Stanton, P.W. Hughes, J.B. Buske, Jim Griffith, Joe Johnson and Erma

Stanford. Pauletta Hughes, Renee Hughes and Jackie Gaines, cousin of the honoree, presided at the serving table. Guests were registered by Jeannie Laster, also a cousin of the honoree.

Corsages of blue carnations tied with blue satin ribbon bows were presented to the honoree, her mother and grandmother.

Stanford. Pauletta Hughes, Renee Hughes and Jackie Gaines, cousin of the honoree, presided at the serving table.

Guests were registered by Jeannie Laster, also a cousin of the honoree.

Corsages of blue carnations tied with blue satin ribbon bows were presented to the honoree, her mother and grandmother.

Stanford. Pauletta Hughes, Renee Hughes and Jackie Gaines, cousin of the honoree, presided at the serving table.

Guests were registered by Jeannie Laster, also a cousin of the honoree.

Corsages of blue carnations tied with blue satin ribbon bows were presented to the honoree, her mother and grandmother.

## Cockerham-Reed Vows Read In Bovina Church

In a candlelight ceremony at 7 o'clock in the evening Friday, August 6, Jennifer June Cockerham, daughter of Mr. and Mrs. Jimmie Cockerham, Bovina, became the bride of Jerald Alan Reed, son of Mr. and Mrs. Leo Reed, Friona.

The double ring vows were read by Cecil Bunch before an arrangement of huckleberry foliage, gladioli and baby's breath in front of a pair of tiered candelabra. Tiered candelabra and flower arrangements on either side completed the decorations.

Mrs. Curtis Smith, Texico, was the matron of honor. She wore a formal length gown of shocking pink dacron designed with an Empire bodice, short sleeves and an A-line skirt. She carried a bouquet of pink gladioli, baby's breath and English ivy.

The bridesmaids, Brenda Newbrough and Brenda Iyer, wore identical gowns to the one worn by Mrs. Smith and carried identical bouquets.

Steve Cockerham, brother of the bride, was the candlelighter. Carrol Foster, Bovina, was the best man. Groomsmen were Tony Foster, Bovina, and Larry Rector, Friona. Guests were seated by Alan and Wesley Cockerham, both brothers of the bride.

Traditional wedding selections by a choir from Harding College preceded the ceremony. Mrs. Jon Lin Riddle sang, "The Twelfth of Never."

As the bride was escorted to the altar and presented in marriage by her father, she wore a formal wedding gown of white silk organza and Valencia lace over taffeta. It was designed with a high neckline, banded with lace, bishop sleeves and an empire bodice.

Her chapel length veil of imported illusion was held in place with a headband of lace and velvet ribbon. She carried a cascade bouquet of gladiolus and English ivy.

Other out-of-town wedding guests were Mr. and Mrs. Ronnie Reed, Amarillo; Mr. and Mrs. Duane Reed, Charles Bentley, Mr. and Mrs. S.D. Balze and Keith Brock, Friona; Linda Cockerham and Mr. and Mrs. Wallace Cockerham, Lubbock; and John Cockerham, Amarillo.

Also Mr. and Mrs. Bob Coen, Olton; Mrs. James Cantrell, Mrs. Gracie McIntire; Mr. and Mrs. Orville Bassett and Denise and Mr. and Mrs. Dan Foley, Littlefield; Mr. and Mrs. Bob Coen, Kevin and Kim, Olton; Mr. and Mrs. Edwin Morrison, Adrian; and Wanda Kearney, Shallowater.

The serving table for the reception in the hospitality room of the church was covered with a pale pink satin cloth covered with a shocking pink net overskirt. A candelabra holding pink tapers and entwined with English ivy, surrounded with the bouquets of the bridal attendants were used for a centerpiece.

Mrs. Ronnie Reed, Amarillo, and Mrs. Duane Reed, Friona, both sisters-in-law of the groom, served the tiered wedding cake with pink mints, nuts and pink punch.

For a wedding trip to Roswell, Mrs. Reed wore a pale pink dacron dress with matching accessories and the corsage lifted from her bouquet.

Mr. and Mrs. Reed are at home here. He is a 1969 graduate of Friona High School and attended Texas State Technological Institute at Waco two years. Mrs. Reed is a 1971 graduate of Bovina High School.

Special guests were Mrs. Harry Henderson, Lamesa, and Mr. and Mrs. Leo Cockerham, Littlefield, grandparents of the bride.

Other out-of-town wedding guests were Mr. and Mrs. Ronnie Reed, Amarillo; Mr. and Mrs. Duane Reed, Charles Bentley, Mr. and Mrs. S.D. Balze and Keith Brock, Friona; Linda Cockerham and Mr. and Mrs. Wallace Cockerham, Lubbock; and John Cockerham, Amarillo.

Also Mr. and Mrs. Bob Coen, Olton; Mrs. James Cantrell, Mrs. Gracie McIntire; Mr. and Mrs. Orville Bassett and Denise and Mr. and Mrs. Dan Foley, Littlefield; Mr. and Mrs. Bob Coen, Kevin and Kim, Olton; Mr. and Mrs. Edwin Morrison, Adrian; and Wanda Kearney, Shallowater.

The serving table for the reception in the hospitality room of the church was covered with a pale pink satin cloth covered with a shocking pink net overskirt. A candelabra holding pink tapers and entwined with English ivy, surrounded with the bouquets of the bridal attendants were used for a centerpiece.

Mrs. Ronnie Reed, Amarillo, and Mrs. Duane Reed, Friona, both sisters-in-law of the groom, served the tiered wedding cake with pink mints, nuts and pink punch.

For a wedding trip to Roswell, Mrs. Reed wore a pale pink dacron dress with matching accessories and the corsage lifted from her bouquet.

## Denise Buske, Gerald Teel United In Church Ceremony

MRS. GERALD TEEL

Denise Buske, daughter of Mr. and Mrs. W.D. Buske, and Gerald Lee Teel, son of Mr. and Mrs. W.E. Teel, all of Friona, were united in marriage in a double ring ceremony at First Baptist Church at 8:00 p.m. Saturday, August 7.

The wedding vows were read by Rev. Charles Broadhurst, pastor, before a double arch of pale pink candles centered with the family Bible, which was a gift from the groom's uncle and aunt. Gold baskets filled with Rubrum lilies, carnations, roses and gladioli of pale pink and two pairs of candelabra holding pale pink candles and tied with satin ribbon streamers and bows of pale pink and bright pink completed the setting. Aisles were marked with bright pink votive candles.

Mrs. Dan Williams, Lubbock, sister of the bride, was the matron of honor. Janet Mingus was the maid of honor and bridesmaids were Sherrie Shelton and Romalee Rector.

Amber Smith, Friona, and Brian Evans, Abertnathy, both cousins of the bride, were the flower girl and ring bearer.

Mrs. Williams wore a formal length dress designed with an Empire bodice of bridal pink velvet and chiffon skirt of the same color. The bodice was designed with a scoop neckline and was marked with a bridal pink and hot pink velvet ribbon sash, which ended in a long bow in the back.

She wore a headpiece of miniature bridal pink roses held in place with a pink ribbon and carried a cascade bouquet of Rubrum lilies, bridal pink roses and baby breath edged with net and streamers of the two colors of pink ribbon streamers.

The Styles family and Weatherly family left early Thursday morning for the Baptist Assembly at Glorieta, New Mexico.

tumes to the one worn by the matron of honor and carried identical bouquets.

Wayne Schueler was the best man. Groomsmen were Dave Buske, Friona, brother of the bride; Glenn Hill, Friona; and Boyd Houser, Tishomingo, Oklahoma, cousin of the groom.

Ushers were Dan Williams, Lubbock, brother-in-law of the bride; Randall Hughes of Dallas and Ross Hughes of Lubbock, both cousins of the bride; Perry Evans of Abertnathy; and Freddie Bailey, Friona.

Mrs. Roy V. Miller Sr., organist, presented traditional wedding selections and accompanied Pauls Fortenberry, soloist, as she sang, "We've Only Just Begun," "God Made Me, You," and "Wedding Benediction."

As the bride was escorted to the altar and presented in marriage by her father, she wore a formal wedding gown of silk organza over peau d'oele designed with a fitted empire waist, fitted Victorian neckline and short puff sleeves of Juliette design of Alencon lace.

The sleeves were banded with Alencon lace. Matching lace appliques marked the front bodice and center front skirt. Her train of imported illusion was attached at the back waist with Alencon lace appliques, which were repeated on the lower edge. Her Juliette cap of matching lace accented with seed pearls held a shoulder length veil.

She carried a cascade bouquet of miniature white roses, stephnotis and baby breath atop a white satin Bible, which was a gift from her parents.

For something old she wore a gold wedding band, which belonged to her maternal grandmother, Mrs. Neff Turner, Abertnathy. Her only jewelry was a pearl and a diamond drop, which was a gift from the groom. She borrowed a handkerchief from her matron of honor and wore a blue garter.

The mother of the bride wore a pink silk dress with matching accessories and a corsage of

bridal pink. Mrs. Teel, the mother of the groom, wore a dacton dress of raspberry pink with matching accessories and a pink rose corsage.

The serving table at the reception in Fellowship Hall of the church was covered with a white lace cloth over white satin and centered with Rubrum lilies, bridal pink roses and baby breath. The tiered wedding cake was decorated with pink and white roses and love birds and topped with the bridal couple used on her mother's wedding cake.

Crystal and silver serving pieces completed the table setting. Cake, nuts and mints were served with pink punch. A small table matching the serving table was centered with a crystal vase holding pink rice bags.

Special guests were Mr. and Mrs. W.F. Buske, Friona, and Mr. and Mrs. Neff Turner, Abertnathy, grandparents of the bride; and Mrs. Ora Collins, Tulsa, Oklahoma and Mrs. Pat Armstrong, Lovington, New Mexico, aunts of the groom.

Out-of-town guests were Mr. and Mrs. Charles Evans, Perry and Bryan, Mrs. J.A. Bruce, Mr. and Mrs. J.R. Robinson, Mr. and Mrs. Virgil Phillips and Mr. and Mrs. Bob Riley, all of Abertnathy; Mr. and Mrs. Randy Farr and Mr. and Mrs. Jack Carothers, Herford; Mrs. Bill Hughes, Ross and Randal, and Mrs. Jerry Steed, Lubbock; Mr. and Mrs. Charles Buske, Amarillo; Mr. and Mrs. Mark Nichols, Happy; and Sharon Nichols, Tulsa.

Also Mr. and Mrs. Roger L. Bennett and son, Mike, Houston; Marcie Houser and Steve Johnson, Dallas; Marilyn Boggs and Don Sutton, Midland; Louise Williamson, Sudan; Mrs. Kenneth Bristow, Brian and Onetha, Lovington, New Mexico; and Mrs. Alma Houser, Boyd, Rickey and Tracy, Tishomingo, Oklahoma.

For her wedding trip Mrs. Teel wore a pale pink dress belted in white with matching accessories and the corsage

lifted from her bridal bouquet.

After August 20 Mr. and Mrs. Teel will be at home at 1201 South Byrd, Tishomingo, Oklahoma, where they both plan to attend college. They are 1970 graduates of Friona High School. She has attended Texas Tech University, Lubbock, and West Texas State University, Canyon, and attended South Plains College, Levelland.

Sandy Wells and Joy Brown of Albuquerque spent the weekend visiting in the home of Mr. and Mrs. Mayo Phipps. Miss Mills is a niece of Mrs. Phipps.

Mr. and Mrs. C.W. Dixon and Mr. and Mrs. Charles Allen spent last week at the Baptist encampment at Glorieta, New Mexico. Rev. and Mrs. Bill Burton, Lubbock, were also there. Rev. Burton is a former pastor of First Baptist Church here.

## Adams Families Have Visitors

Recent visitors in the home of Mrs. Ethel Adams, 301 East Tenth Street, have been Mr. and Mrs. Joe Wilkins and Mr. and Mrs. Larry Wilkins and sons of Marysville, California; Mr. and Mrs. Eddie Joe Wilkins and children of Richmond, California; and Mr. and Mrs. Calvin Ulen and family of Plainview.

The Wilkins families and Ulen are all former Friona residents. Mrs. Joe Wilkins is the daughter of Mrs. Adams and Larry, Eddie Joe and Mrs. Ulen are her children.

The four families also visited in the homes of Mr. and Mrs. Raymond Adams, Mr. and Mrs. Floyd Wilkins and Guy, and Mr. and Mrs. Waymon Wilkins and family.

Mayor and Mrs. Raymond Fleming visited Mrs. Ethel Ashley in Melrose, New Mexico, Sunday afternoon. Mrs. Fleming and Mrs. Ashley are sisters.

JOVITA VELASCO, . . . Mr. and Mrs. Nemerco Velasco Sr. of Friona have announced the engagement and approaching marriage of their daughter, Jovita, to Daniel Saiz, son of Mr. and Mrs. Joe Saiz, 912 West Fourth Street. The couple plans to exchange wedding vows at 10:00 a.m. Saturday, November 6, at St. Teresa's Catholic Church.

## G. B. Buskes Have Visitors

Mr. and Mrs. Rick Styles and children, Mike, Scott and Sheri, of Richmond, Virginia, arrived in Friona late last week for a visit in the home of Mr. and Mrs. G.B. Buske. Mrs. Styles is the former Deann Buske.

Other weekend visitors in the Buske home were Mr. and Mrs. Don Max Vars and daughters, Mayla Dawn and Misti Shawna, of Canyon; and Mr. and Mrs.

Phillip Weatherly and children, Park, Pepper and Penni.

The family group had Sunday dinner in the Buske home, went to Clovis for dinner Monday evening and attended Tuesday evening's performance of "Texas."

The Styles family and Weatherly family left early Thursday morning for the Baptist Assembly at Glorieta, New Mexico.

# YOUR LOCAL FILLING STATION.

Very often you hear people sanctimoniously talking about "Houses of God." And they're right! Because that's just what these places are—houses. Buildings. And they are no more "holy" than the outside acts of the people who use them.

In fact, it might be a lot better if we thought of our church or synagogue as a spiritual "filling station"—a place not sheltering us from the world, but giving us the fuel to go out into the world.

This week, in your church or synagogue, don't just sit there. Think about how far you can go during the week on the spiritual fuel you're taking in.

Could you be doing something, for instance—no matter how small—about the agony of our cities? (You could teach a Head Start class, for instance.)

Could you right a wrong? Could you be strong enough to take a stand on a moral issue where the "popular" thing would be to remain silent?

Could you do a simple act of kindness with no hope of return, for the most unloved person you know?

This week, don't let your Faith idle.

Step on the gas.

How can you help? Write for free booklet, *The Turning Point: Religion In American Life*, 184 Fifth Avenue, New York, N.Y. 10010

**Holland Receives Tech Degree**

DeWayne Holland, who is a 1963 graduate of Friona High School and the husband of the former Lynn Wilson, daughter of Mr. and Mrs. Roy Wilson, who formerly lived here, graduated from Texas Tech University, Lubbock, at the end of the spring semester.

During his high school days, Holland made his home with an uncle and aunt, Mr. and Mrs. Dale Howell, who lived here and now reside in Muleshoe.

Holland served two years in the United States Army and was stationed in Germany about one year. Mrs. Holland spent several months in Germany, too.

DEWAYNE HOLLAND
