GOVERNOR APPROVES COMMISSIONERS PAY AND SHERIFF'S BILL

SALARIES OF COMMISSIONERS INCREASED AND PLACED ON TAX VALUE BASIS

INCREASE IN FEES TO SHERIFFS FOR ARRESTS

Approves Bill to Increase the Benefits Under Workmen's Compensation Act

AUSTIN, April 4.—Governor Neff today vetoed two of the remaining legislative measures before him, approved four and filed 12 others to become laws without his signature. Those approved include the nurses license bill, employer's liability bill, and county commissioner's salary bill. All of the measures were acted upon by the governor before midnight last night, the latest time at which he could act. One of the measures vetoed was the Irwin indeterminate sentence bill, which sought to institute a system of indeterminate sentence for all inmates of the state penitentiary. Under the bill, the governor was granted to pardon convicts at any time after their expiration of term, or to serve a certain portion of their sentence if they had conducted themselves satisfactorily. The governor declared the bill to be unconstitutional because the constitution gives the governor sole authority to pardon convicts. When this bill was vetoed, the governor "shall pardon under certain conditions."

Sheriff in Charge of Imperial Palace of Klan at Atlanta

FORMAL CHARGES IN SUIT TO OUST HOUSE OF DAVID

By Associated Press. ATLANTA, Ga., April 4.—Sheriff J. L. Lowry of Fulton County, with a force of deputies early today took charge of the Imperial palace, headquarters of the Knights of the Ku Klux Klan, under an order signed by Judge E. D. Thomas, dispossessing W. L. Simmons, imperial engineer, who took charge of the headquarters and the Klan yesterday under a temporary injunction secured by him against Imperial. The order signed about 2:30 o'clock this morning by Judge Thomas directed Imperator Simpson and the other plaintiffs in the action to appear for a hearing before him this afternoon at 3 o'clock to show cause why the temporary injunction against Imperator Wizard Evans and the other officials of the Klan should not be dissolved.

DEATH TOLL RESULT OF TROUBLE AT ESSEN INCREASED TO 13

ALL WILL BE BURIED IN A COMMON GRAVE

German Reports State That Forty-eight of Victims Were Shot in Back

By Associated Press. BERLIN, April 4.—White notes and petitions have been fairly rain-falling in Moscow in behalf of Vice-Consul Butchavitch, says the Vostochny Zetung today, against the murder of 11 German workers in Essen only one country has protested—Germany.

The newspaper adds that it can be understood how protests went to Russia from all parts of the world; but says the Germans at the same time question what happens to the world's objections to such excesses as the French procedure against the Krupp factories.

The death toll from the shooting at the Krupp plant at Essen last Saturday has been increased to 13. All will be buried in a common grave at Essen some time during the week end, according to special dispatches from the Ruhr today. The Krupp works, at which a 24-hour protest strike against the killings has just been completed, will be shut down during the funeral.

Controversy Over Peace Societies Intensified by Broadside Issued by Women Involved In The Fight

Earns \$100,000 Yearly But Has The Dope Habit

WASHINGTON, April 4.—The verbal tilt between Brigadier-General Ames Fries, head of the chemical warfare service, and certain women's "peace" societies whose activities he has branded as treacherous was intensified today by a broadside from the women. The "dope head" an International League for Peace and Freedom issued a statement carrying a demand upon General Fries to retract the charge he made in a speech at Baltimore that this organization exacted an oath of its members which constituted treason.

The National Council for the Prevention of War, the parent organization of the W. I. L., issued through its executive secretary, Frederick J. Libby, asserting that the issue between the council and the war department is not whether army officers should be gagged but if officers have a right to "gag" civilians who express "honest convictions."

The council also issued a letter written by its executive secretary, Secretary Weeks protesting against speeches by Fries in which he attacked the organization. The letter declared that General Fries should be stopped from making speeches attacking the women for their efforts to avert war. It stated that although he had been warned that he was making mistatements, he had persisted in repeating them.

LONDON, April 4.—The independent labor party has closed its national convention. After turning down a motion in favor of prohibition by 143 to 152 the convention declared unanimously for public ownership and control of the liquor trade and then by a vote of 94 to 81 passed a resolution that labor members of parliament should not accept the hospitality of political opponents at dinners and society functions.

Gen. Ludendorff Denies He Plans To Fight France

By Universal Service. MUNICH, April 4.—"No!" or words to that effect, was the answer of General Ludendorff today when asked about the Paris reports that he is getting up an army to fight France.

"We are too busy trying to avert civil war and keep Germany from being broken up," he said. The general referred to the strong separatist movement in Bavaria. This movement, he said, is reaching dangerous proportions again, just as it was supposed to have almost died out. "Recent attacks against me were made because I am fighting the separatists with all my energy and influence," said General Ludendorff.

Robert S. Lovett Testifies Before Commission on Proposed Merger of Railroads in Western Territory

SAN FRANCISCO, Calif., April 3.—Consolidating all railroads west of Chicago and the Mississippi river into four systems as proposed recently in the Interstate Commerce commission by Hale Holden, president of the Chicago, Burlington and Quincy railroad, would create many unnatural alliances, would greatly strengthen the so-called Hill group of railroads, and greatly weaken the so-called Harriman group, said Judge Robert S. Lovett, chairman of the Interstate Commerce commission, at today's hearing before Interstate Commerce Commissioner Henry C. Hall.

The commission's tentative plan, which would be adopted only with great caution, would divide the western railroads into four systems as characterized by affording the basis and groundwork which should be departed from only with great caution.

The Holden plan, grouping the Union Pacific and the Chicago, Milwaukee and St. Paul, was strongly condemned, the witness explaining that the commission's plan of placing the Chicago and Northwestern with the Union Pacific was the only logical grouping, the Chicago, Milwaukee and St. Paul being a competitor and the Chicago and Northwestern a connection and natural ally.

About the Hill lines merger he approved, Judge Lovett said a re-merger of the Harriman lines, Union Pacific and Southern Pacific, should be authorized to meet the strong combination which would be effected by the Great Northern, Northern Pacific and Burlington. The retention of the Central Pacific by the Southern Pacific with the same conditions imposed by the commission in the recent hearing, is satisfactory to the Union Pacific, as they protect with reasonable adequacy the rights of the Chicago and Northwestern. Continuing he added, "Any striking effect of the way the Holden plan is handled, the only man system appears when, after assigning the Southern Pacific, the Missouri Pacific and the Missouri, Kansas and Texas systems, with which the Southern Pacific does but little business and with which it would be occasion to dispatch after acquiring the Rock Island, and also the Kansas City, Mexico and Orient, which are dispatched to report it about to be abandoned, the Kansas, Oklahoma and Gulf, a half interest in the Denver and Rio Grande Western, and the Salt Lake and Utah Pacific. The latter feature is especially significant because it would indeed effectually bottle, cut off and isolate the Chicago and Northwestern from San Francisco to Chicago by way of Ogden and Denver paralleling the route of the Santa Fe, both to Omaha and Kansas City and paralleling also the lines allocated to the Union Pacific from Omaha to Chicago and elsewhere west of the Missouri river."

Kind to Santa Fe.
The plan is kind to the Santa Fe system, for it takes away from the Union Pacific group the Chicago and Northwestern, which plan places it, the Chicago and Northwestern, which in connection with the Union Pacific is the door and gateway for most of the competition out of Chicago with the Santa Fe for Pacific coast traffic, and it turns it over to the Santa Fe, together with the Chicago, St. Paul, Minneapolis and Omaha, which connects the Chicago and St. Paul, and almost the sole reliance of the Union Pacific for traffic coming to its line at Omaha from St. Paul, Minneapolis, and that territory, it gives to the Santa Fe the Canadian Pacific controlled lines, the Minneapolis, St. Paul and Northern Pacific, and the Spokane International, thereby taking away another valuable connection of the Union Pacific at Spokane. Thus the plan sends the Santa Fe as far into the northwest as Spokane, Wash., by going through Canada and stopping short of Puget Sound. However, its capacity for harm to the business of other lines in the northwest would not be great for while almost in sight of the promised land—Seattle, Tacoma, Olympia, Portland—it is given no entrance therein, but is held safely on the east side of the Cascade mountains by the Spokane. The Santa Fe is also given the St. Louis Southwestern, the Chicago and Eastern Illinois, the New Orleans, Texas and Mexico, the Western Pacific, and a half interest in the Denver and Rio Grande Western, and the Denver and Salt Lake. It takes away from the Santa Fe, however, the Colorado and Southern and the Fort Worth and Denver City, which the tentative plan of the commission put with the Santa Fe consolidation, and transfers them to the group embracing the Burlington and other strong Hill lines.

Wants Equal Consideration.
Judge Lovett made it plain that he had no objections to the commission's authorizing a consolidation of the Hill lines, but that if that were done the commission

portion of his testimony Judge Lovett said, "The consolidation of the Hill lines, with their subsidiaries, into a single system would, so far over shadow its competitor and any other railroad system proposed in the United States in size and financial strength and possibilities that one might infer a desire to meet this objection had something to do with the jumbling of the International and Great Northern, Texas and Pacific, and St. Louis-San Francisco systems with the Union Pacific and of the Missouri Pacific, Toledo, Peoria and Western, and the Missouri Kansas and Texas and various other lines, with the Southern Pacific. In order that there should be other systems equal in mileage and investment to the Hill combination, however unequal in solidarity, financial strength and prospects, and in traffic and operating relationships."

Compliments Ripley.
Judge Lovett complimented highly in the manner in which Professor Ripley and the commission had worked out the direction of congress for a plan for the consolidation of the railway properties of the United States. He said "that while there were defects and mistakes here and there, which must be corrected if great injury to the public as well as private interests is to be avoided, yet the tentative plan of the commission affords the basis and groundwork which should be followed and from which departures should be made only with great caution. He said he doubted whether railroad men themselves could have formulated a plan so fair and workable, because they do not have divested themselves of their environment and their affection for lines with which they had spent many years."

Judge Lovett opposed the suggestion that all lines in western territory should be consolidated into four systems, saying "Four systems comprising from 2,000 to upwards of 30,000 miles each, and each extending from Puget Sound or the Pacific Ocean to the Great Lakes, to the mouth of the Mississippi river and the Gulf of Mexico, and traversing most of the intermediate states, make the combinations entirely too large for efficient management and service, for the welfare of the corporations themselves, their creditors and stockholders and for the public good, and present a situation which probably would be a source of much undesirable friction and in many ways a constant menace, especially in case of failure."

Answers Holden.
He answered Mr. Holden's argument based on the fact that the traffic handled by the New York Central and Pennsylvania respectively is substantially as great as that which would be handled by any of the four systems by pointing out that the problems of management in a territory extending only from New York to Chicago and St. Louis are very different from the problems of management in new and rapidly developing territory extending all the way from the Canadian border, Puget Sound, to the Pacific Ocean, to the Great Lakes, the mouth of the Mississippi river, the Gulf and the Mexican border.

Judge Lovett also disagreed with Mr. Holden's view that each of the Pacific Coast lines should have a

line extending to the gulf, stating that the east and west traffic was the important and controlling traffic with the transcontinental lines. After pointing out various reasons for this he said, "but more important still, and almost startling, is the inevitable tendency and effect of the Holden plan to divert grain from trunk lines and the Atlantic seaboard to the gulf. Hitherto the Great Northern, the Northern Pacific, Burlington, the Chicago, Milwaukee and St. Paul, the Chicago and Northwestern, the Union Pacific, and the Chicago and Great Western have been impartial as between Atlantic and gulf ports, as their carriage did not extend beyond Chicago, Kansas City or St. Louis, and they interchanged with equal preference with the trunk lines and the gulf lines alike at the usual gateways, but the Holden plan sets each one of these great 'Granger' roads up with a gulf line of its own, but without any line east of Chicago or St. Louis, thus forcing all of them in their own interest thereafter, through control of car supply and otherwise to exert their influence in favor of movement of all export grain over their own rails to the gulf, instead of being impartial as heretofore. If such consolidations are accomplished, where will the trunk lines and Atlantic ports set their grain for export? I am not the advocate but only wish to point out this as another revolutionary and disastrous effect to some interests of the action, the commission is asked to take."

Even if the four-system plan were adopted, it is Judge Lovett's view that the systems should be constituted in a much different way than proposed in the Holden plan. He said that if the Hill lines were to be consolidated, the Union Pacific and Southern Pacific should also be consolidated, as their combined strength would be needed to place them on a fair competitive basis with the northern lines. Again he said that under a four-system plan the Chicago Milwaukee and St. Paul instead of the Chicago and Northwestern should be combined with the Santa Fe. Such a consolidation would put the Santa Fe system into the north Pacific coast territory in competition with the Hill lines, and the Union Pacific-Southern Pacific group instead of stopping the Santa Fe group east of the Cascade mountains, as proposed by Mr. Holden. He also stated that the Chicago Milwaukee and St. Paul and Santa Fe connect at both Chicago and Kansas City, which the Chicago and Northwestern have no line to latter point.

Quick Quaker Oats

Cooks to perfection in 3 to 5 minutes

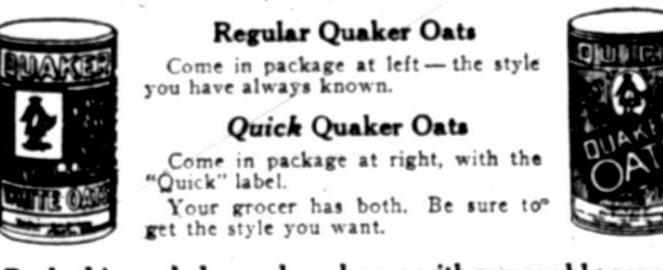

Ready at 7:05 Before the eggs or coffee

Now our experts have perfected a Quick Quaker Oats—the quickest-cooking oats in the world. Your grocer now has it as well as the regular. Quick Quaker cooks in 3 to 5 minutes. The cooking is perfect—experts certify to that.

The same exquisite flavor

The fame of Quaker Oats is due to super-flavor. We flake the queen grains only—just the rich, plump, flavorful oats. We get but ten pounds from a bushel. All the world over Quaker Oats dominates, because people love that flavor. And Quaker will always have it. Quick Quaker is made from the same queen oats. The flavor is identical. But we cut the grains before flaking. Then we roll them thin and partly cook. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Now you have a double reason for selecting Quaker Oats. You get that exquisite flavor. And you get, if you wish, flakes that cook almost instantly. In either respect, there is no other oat dish in existence that compares.

Y. W. C. A. BUILDING PLANS REVIVED AT MEETING TUESDAY

COMMITTEE HOPES TO SEE SOME ACTION TAKEN THIS YEAR

TO REALIZE PROGRAM PENDING FOR 3 YEARS

Tentative Plans for Early Action Are Adopted at Conference Tuesday

A building for the Young Women's Christian Association will be completed before the end of 1923, if plans formulated Tuesday night at a meeting of the executive committee of the organization are carried out.

The erection of a permanent home for the association has been on its program for the past three years, but has been delayed by a number of things. At Tuesday night's meeting it was decided to at once take preliminary steps looking to an early realization of the plans and the establishment of the association in its own permanent quarters.

TEXHOMA PRODUCER AT ELECTRA INCREASES

Now Making 900 Barrels; Several Completions Are Reported In Archer County

With an ample supply of water being furnished by the Beaver Creek Company, and the completion of the Manley Water Company's new line, Archer County reports a general resumption of drilling on many tests which had been shut down due to the lack of water to continue operations. The Cumet Petroleum Company affecting the big Haynes well to the east also has finished a private line from the K. M. A. to their holdings where three wells are again drilling.

Drilling has started on the No. 2 Ferguson of the state-Freeman-Liampton Company in the sand at 1727 feet which shows plenty of fluid. This test is a diagonal offset to the Haynes well in north-westerly direction.

The Woodburn F. & H. Company also started drilling a good-looking sand at 1727 feet located 649 feet south of the company's No. 1 Ferguson.

The No. 1 well of Aaron Cohen located east of the McClarty Company's No. 1 Wilson, is preparing to run tubing and complete in the sand at 1728 feet. The well has 1200 feet of oil in the hole, after making several flows, and from present indications will make a 200 barrel producer.

Increase to 900 Flowing and swabbing at the No. 1 well of the Texhoma Company's No. 16 well on leave A. Vagstad, south of Electra came in Sunday good for 450 barrels from the sand at 1820 increased the flow making the best wells in this section of the field.

The No. 3 well of Hiss & Dillard, on the Kemp-Kemper tract, was placed on the pump today and is making good for 150 barrels.

The Texhoma Company's No. 1 well on their 10-acre tract east of the Kemp-Kemper tract in section 2 abstract 257 Freeman, Hampton pool encountered the sand at 1747 feet and after penetrating a few feet made several flows. The producer has things in connection with the completion of the well is the fact of its being entirely surrounded by other producers which pick up the pay at 1728 feet or 41 higher than the Texhoma test which was first considered as having missed the sand.

SCOUTS WILL MEET FRIDAY AND AWARD NEW MERIT BADGES

All members of the Boy Scouts will meet at the First Presbyterian Church Friday night at 8 o'clock, according to an announcement from Scout headquarters Wednesday afternoon. The court of honor will award all badges that have been earned during the past two months. Edward Nichols, who has the honor of the occasion, he now has over 30 merit badges and will be placed in the ranks of the Eagle Scouts, Friday night.

Troop 2 of the First Baptist Church will be reorganized Friday night. Chester Powell, scout executive, urges that all former members of these two troops and all boys who are eligible to join, meet at their troop halls at 7 o'clock. The two troops will be reorganized and all preliminaries gone through in time to attend the scout mass meeting at the Presbyterian Church at 8 o'clock.

Active work has begun on the reorganization of the scout band. In checking up on the instruments it was found that a number of the instruments were issued and signed for when the band was organized last year. These instruments were issued upon agreement that they would be returned upon proper notice. The executive committee has ordered all band instruments to be returned to the scout headquarters at once in order to get a correct check. When the band is properly reorganized the instruments will be re-issued.

Editor Motion Picture World Says Production of 'The Christian' One Of Really Big Pictures of Season

(Reviewed by C. S. Rowell, editor Motion Picture World)
"Maurice Tourneur's production of 'The Christian' for Goldwyn, will take rank well up in the list of notable productions of a season already conspicuous for the number of really big pictures. Hall Caine's novel of the same title is a literary masterpiece, and is probably already known to a large majority of patrons either as a book or a play or because of a screen version several years ago. In account of its powerfully dramatic story, beating this in mind, the Goldwyn forces set out to create a version which would be in keeping with the popularity of the story and which from a standpoint of production and entertainment should surpass all other versions, and in this they have succeeded.

Big in Every Way.
Here is a production which is big in every way, artistic and financially, but its outstanding feature, the point which has been responsible for the story's great hold on the masses, is the tremendously dramatic story, the story of a clergyman against himself, of the spirit against an earthly love, never into a romance of ungodly power. And Director Maurice Tourneur has transferred it to the screen with great effectiveness, at all times keeping with the popular intensity drama, the power and bigness of the theme, the terrific conflict of will and emotion which is the basis of drama.

From New York Times.
"To those of you who do not care whether it is a production with a large or small cast, 'The Christian' is recommended for those who should for real stories on the screen. I recommend 'The Christian'."

"And the John Storm of Richard Dix. It is a masterpiece. In fact, we know of no actor in our list of screen acquaintances who could come anywhere near the performance given by this young man as the winner in the fight for a woman's soul."

"The Christian" is being shown at the Strand for the remainder of the week, starting Wednesday.

'Zenith' Arouses Great Interest At the Majestic

The soul of a town is never laid so bare as when that town has a mind reader playing at one of its theaters. 'Zenith' who is appearing at the Majestic this week, invites questions from all and already the invitation has been grasped by hundreds who are vexed, disappointed and in a general state of mental anguish. Even the most skeptical, troubled, turn to 'Zenith' somewhat dubiously at first, for a possible channel of relief.

A roster of names of people that have asked the woman who knows all questions concerning business deals, hidden or lost articles, disappointments and so forth would read like a blue book.

But the performance of 'Zenith' has its human side, too. A short time ago in Kansas City, where 'Zenith' was appearing, an old mother in a voice that shed a tear, asked for a son. 'Will 'Zenith' please tell me where my son is? Just what one sentence, but with a world of pathos seeping up to the undertone of 'Zenith,' who turned a kindly smile on her and told her not only the state the prodigal son was in but the city where he lived and worked, and that he was happily married; yes, had one child, a little blonde haired boy, two years old. Would she hear? Better write, 'Zenith' was wondering about her and wondering.

SALE OF TICKETS TO SHRINE CIRCUS TO DETERMINE WHO IS TO BE CROWNED ITS QUEEN

By FRANK S. REID, Publicity Chairman. We don't care how young they are, or how aged they may be, whether they are old maids or not, just as long as they sell tickets to Maskat's circus. Uncle Sam is mighty particular what goes through the mails, so the only thing that Maskat can do to stimulate interest in the sale of tickets, is to give a prize for the one who sells the most tickets to the circus. "Well, what is the prize, you may ask? It's a Ford coupe, cost the Temple \$600, the regular price of a Ford coupe. You've all seen them running around the streets. Well, that's what is going to be given away to some lucky lady, who puts in a lot of hard work to sell the tickets. Yes, and everyone is going to have a square deal, too. No fudging of any kind permitted. The ladies who desire to sell the tickets, must call upon Glen Groves or Al Ellis, in the Chevrolet building, get the tickets, which are all numbered in books of fifty, and which sell for ten cents apiece. There are admission tickets only. For each ticket sold, ten votes go with it, or 200 votes to the book. Every ticket they sell is to be strictly accounted for by Mr. Groves. And say, the lady selling the largest number of tickets up to the close of the circus, will not only get the Ford coupe, but will be crowned queen of the circus with all the pomp and solemnity of a queenly court. Just think what it means to be crowned queen of a shrine circus. Well, the anxious ones will say, "When do we get the tickets?" Right now. Go to the office of the Shrine, a stack of tickets in Glen's office that would fill a caboose, and he wants everyone of them sold, so you ladies can go up and see him and get busy right off—the jump and keep plugging away until the last night of the circus, April 23. Don't delay getting the tickets and start peddling. Speak to someone you are about what you are doing, and tell them all about the great circus that ever came to Wichita Falls, and sell them some of these admission tickets. Tell them the price is ten cents and they'll buy because it's such a small amount. Start right now, you ladies who are interested, young or old, single or married, and get that Ford coupe and be crowned queen of the circus to boot.

Don't Ask Us to Tell You What Your Ailment Is

Diagnosis—telling what ails a person—is the doctor's job. Our job is to fill the prescription, just as the doctor orders it after he has located the trouble. And the doctor knows what he wants in the prescription because he has given your case careful study. He knows what you need. And we know what the doctor wants. He can phone to us.

WEST WIND TAKES ON CHILLY TOUCH AND MERCURY FALLS

During the night the west wind which took possession of afflicting early Tuesday morning, took on a chilly touch and as a result sent the thermometer down to the 29 degree point Wednesday morning. The high mark reached Tuesday afternoon was 74 degrees. Conditions however, were unsettled and adverse as to the weather for the next 24 hours was only slight work as on the north end of the local roads a north wind was blowing, while at other points an east wind was reported. Two men captured pleas of guilty before Judge Rogers in county court at law Wednesday morning. Bob Lamb pleaded guilty to a charge of agrimony and was fined \$100 and costs. Earl Jones entered a plea of guilty to a charge of sweating a game and drew a fine of \$5 and costs.

WATER CONTRACT READ AT MEETING OF TECHNICAL CLUB

C. H. Clark, president of irrigation district No. 2, was the principal speaker at the meeting of the Technical Club Tuesday evening. When he read and discussed the tentative contract that is proposed between irrigation districts Nos. 1 and 2. Mr. Clark discussed the proposed plan at length and explained the difficulty which had arisen in drawing a contract that would be satisfactory to both districts. The chief handicap in framing the contract had been caused by the size of the two districts, the speaker explained.

INJUNCTION GRANTED TO DEFENDANTS IN JUSTICE CASE

An injunction was granted W. E. Hays who was the defendant in a suit filed against him by the Western Supply and Fuel Company, by Judge Gray Rogers of the county court at law Wednesday morning to restrain the plaintiff from executing a judgment which had been secured in the justice of peace court at Burk Burnett. The contention which arose was that the defendant had permitted the 10 day limit to expire before filing a bond. The judgment was rendered on March 12 and the bond executed on March 23. The court held that the 10 days had not expired.
