Public Curious to Know if He Will Be Able to Meet Issues Successfully

Political Correspondent of the New York Tribune and Wichita Daily Times

WASHINGTON, April 11.—The curiosity with which Washington is watching the return of the president to his office is not only a reflection of the public mind but also of the public's interest in the man who is to lead the nation.

Calvin Coolidge, president of the United States, is expected to return to his office on Monday, April 16. His return is being watched with great interest by the public and the press.

Marie Corelli Does Not Regard Recent Death of Lord Carnarvon As Being Supernatural Fatality

By MARIE CORELLI (Copyright, 1923, by Universal Service)

LONDON, April 11.—A misconception having arisen in regard to a letter I recently addressed to the world on the subject of the regrettable death of Lord Carnarvon, I wish to disclaim the suggestion that I regard it as a supernatural fatality.

and our faces and hands were so swollen that it was impossible to continue. And yet no fatal result occurred. Surely then, if every mosquito bites should have had a serious effect, but nothing happened to injure Lord Carnarvon's health or well-being.

Girl in Footsteps of Her Ideal, Jenny Lind

By MARIAN HALE
NEW YORK, April 11.—Some people don't believe in ancestors, but Lucille Chaffant does, of course, she was particularly fortunate in one of her ancestors—Jenny Lind, the singer.

And Jenny Lind has been her ideal and her model, always. To duplicate some part of her wonderful success has been her one aim. Now such triumphs seem almost within reach, for she is to sing her debut in grand opera in Italy in the coming season, in one of the opera houses that once thrilled to the golden notes of the Swedish Nightingale.

"Having inherited many qualities of her famous ancestor and many of her trinkets, I used to pray I had, also inherited some trace of her voice," Miss Chaffant told me. "At the age of three I used to sing hymns up the front porch to crowds that would gather about."

"And I learned to sing and could extract penitents much more deftly than I could sing a song then at any other time."

"When I was eight years old, I ran away from Los Angeles where I was living and planned to go to New York to study music, but at the station I was stopped and returned to my parents."

"Miss Chaffant's parents did not share or sympathize with her musical ambitions, so they provided her piano and no lessons."

But the ambitious young person got around that by taking care of the neighbors' children, washing dishes, cleaning windows and doing any work that needed to be done on the block. This paid for music lessons, and she practiced on a neighbor's piano.

Met Musicians
"Later I worked as a maid in order to go to high school and take music," she went on. "Then later I worked my way through college for two years, serving as a waitress. This wasn't entirely pleasant, but it was bearable and I met some musicians who became interested in my voice and introduced me to the proper teachers."

After a brief experience as a reporter on a Los Angeles paper, Miss Chaffant went into the chorus in Chicago here, where she attracted attention and she was sent to New York to study. Now after featured parts in light opera, to pay for the lessons, and after months and months of the most indefatigable work, she is ready for her European debut.

"Hoping not to be unworthy of my model and name," she concluded.

LITTLE MISS CONNELLY IS DELIGHTFUL HOSTESS

Little Miss Ruth Connelly was a delightful as well as a very much delighted hostess Tuesday afternoon at the celebration of the new ninth grade building, when about forty little friends gathered at her home on Burnett to help make the momentous occasion so happy.

The children played games inside for a while, assisted by Mrs. Connelly, Mrs. H. A. McCarthy, Mrs. Leonard and Miss Lillian Dwyer. Among the entertainment provided was that of fishing in a little green tub under the supervision of each child, getting a remembrance from Helen Ruth. Outdoor games were enjoyed for half an hour, and later the children were invited into the dining room, which was a pink and white affair of prettiness. Here the children were seated at the dining table, with its nine lighted candles, and the children were served pink and white ice cream and angel food, served with pink and white dainty candies for favors.

Helen Ruth was the recipient of many beautiful gifts from her little friends, which included the following: Sam Fowler, Mary C. Boone, Jessie Martin, Donald Bright, Blaine Wheeler, Alice M. Carter, Edna L. West, Dorothy Hamilton, Madeline McCarthy, Helen Hamilton, Gardner Walker, Dorothy Goodner, Dorothy Dine, Paul Jones, William Huff Jr., Frances Billingslea, Violet Trevanah, Voneta Melver, Mildred Mosberger, H. Dye-Copeland Wedding Ceremony Solemnized at First M. E. Church

The marriage of Arch F. Dye and Miss Lila Copeland was solemnized in a very beautiful ceremony at the First Methodist Church Wednesday afternoon at 1 o'clock by Rev. Dr. C. M. Simpson, with a host of friends and relatives witnessing.

The chancel rail was hidden by palms and ferns and other greenery and with beautiful baskets of Easter lilies, carnations and larkspur furnished a floral background for the ceremony. The pre-nuptial solo, "Thank God for a Garden" was sung by Mrs. L. B. Thompson, with Miss Ha Cook at the organ, and Miss Cook played the wedding march for the entrance of the bride party. Miss Copeland, who was given in marriage by her brother, Sam P. Copeland of Fort Worth, was attended by Miss Gladys Gambill of Quannah, a former college chum, as maid of honor, and Mr. Dye had for his best man, H. W. Hamming of this city. Miss Gambill, who preceded the bride down the aisle, wore a handsome tailored costume of black and white and carried a bouquet of sweet peas and roses. The bride wore a beautiful Arthur Welles three-piece suit model of porcel in midnight blue, embroidered in sand silk, with a corsage of valley lilies and sweet heart roses. Her hat and other accessories harmonized.

Out-of-town attendants at the wedding included Mr. and Mrs. J. W. Dye and Miss Anna Dye, parents and sister of the groom; from Altus, Okla., Frank Dye of Fort Worth, Mr. S. P. Copeland, the bride's father, and Sam P. Copeland, Jr., of Fort Worth, and Miss Gambill of Quannah.

Mr. and Mrs. Dye left immediately after the ceremony for the western coast, expecting to spend several weeks. On their return they will be at home to their friends at 2305 Seventh, in a bungalow already furnished for their occupancy.

Well Known Young People
Both Mr. and Mrs. Dye will have a host of friends to welcome them on their return here. Mr. Dye is a member of the Staley-Wynne-Live oil firm and has made his home here for several years, while Miss Copeland was reared here. She graduated from the College of Industrial Arts at C. I. A. several years ago, completing special courses in voice, music and art. She is a popular member of Mr. Harlow's large Sunday school class of young business women, of which she is president.

Quick Quaker Oats

Cooks to perfection in 3 to 5 minutes

You Can Sleep

Longer now, if you wish

Quaker Oats now comes in two styles, identical in quality and flavor.

Our experts have perfected Quick Quaker Oats—the quickest cooking oats in the world. It cooks in from 3 to 5 minutes, and it cooks to perfection.

Now your oat dish can be ready, if you wish, before the eggs or coffee.

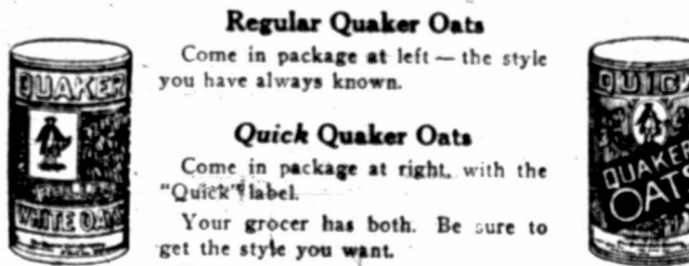

Now two great supremacies

Now Quaker Oats in two ways excel any other oats in existence. Long ago their flavor won the world. It has made Quaker Oats the dominant brand wherever oats lovers live.

Quaker is flaked from green grains—just the rich, plump, flavorful oats. We get ten pounds from a bushel, but those ten pounds are the finest oats that people ever get.

Now comes quick cooking. Quick Quaker is flaked from the same green grains. But the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

If you want exquisite flavor you must get Quick Quaker Oats. If you want five-minute cooking you must get them. Get either or both, as you like. But get Quaker always if you want this dish delightful.

Women Losing Hair from Strain of Modern Life

CHICAGO, April 10.—(Hal) Headed women in the front row of seats of theaters would not be hard to find in the American women are losing their hair due to the racing strains of modern life, according to Paul Billing, president of the Chicago and Illinois Hair Dressers Association. Baldness as a danger to women's tresses will be discussed at a meeting of the organization today. Nervous strains due to the roar of traffic and the jostling of elevators are reasons of baldness, according to Mr. Billing.

DELEGATE BETTIE FROM BAPTIST DISTRICT MEET
A large crowd of local delegates attended the Wichita Falls district meeting of the Baptist Women's Auxiliary in Seymour Tuesday and enjoyed a splendid day.

During the business session, Mrs. E. M. Francis of Electra was re-elected president, and Mrs. T. T. Weatheries of the same place, corresponding secretary-treasurer of the convention. The banquet was very much enjoyed, with the conventional colors of purple and gold handsomely displayed as they were in the auditorium for the day's meeting.

Those who went from here included Mesdames E. W. Carter, M. E. Martin, S. M. Tunis, W. M. McGinnis, W. E. Priddy, W. E. Miller, J. M. Whitte, J. P. Deltels, J. D. Sloan and Mrs. C. J. Shumate.

WOMAN DESPAIRED OF EVER GETTING WELL

Mrs. Bodiford Became Dependent Over Condition of Her Health but is at Last Restored by Taking Stella Vitae.

"I had suffered so much before taking Stella Vitae that I just despaired of ever getting well," said Mrs. W. C. Bodiford, living at 1301 Levey, Irving, Dallas, Texas.

"I simply lived in and of the remembrance of the monthly period, she continued, for it always brought on such suffering that I could hardly bear it. The most terrible cramps all through my body made me perfectly miserable, and often I felt the death itself would be a relief, trying to find something that would do away with my trouble, but nothing did me a bit of good and I got so I just believed nothing would help me and I would have to go

through life a weak and broken-down woman, unfit for anything and a burden to my family.

"Finally I was induced to try Stella Vitae, but to tell the truth I never expected it to do me any good, as I had been disappointed so many times before. I began to feel better soon after starting on it and was sure surprised and thankful to find when my period came round I didn't suffer a bit from cramps like I did before. It is certainly a great joy to me to feel that I am free from that old trouble and I shall gladly recommend Stella Vitae to every suffering woman I hear of."

Stella Vitae is not to be confounded with the ordinary advertised remedies. It is not a cure-all. It is a preparation that is acknowledged to be properly proportioned and correctly combined from ingredients that are known to possess the powers of furnishing help for the relief of the peculiar diseases to which women alone are subject. HOLDS COUNTY CAN EMPLOY ONLY ONE JUVENILE OFFICER

MATTER COMES BEFORE JUDGE MARTIN BY WAY OF A MANDAMUS SUIT

AUDITOR REFUSED TO PAY ASSISTANT MONEY

C. B. McConnell Appointed by Commissioners Has Worked Without Pay

Judge P. A. Martin of the 88th district court ruled Wednesday morning upon conclusion of a mandamus suit that Wichita county under the construction of the law could have but one juvenile officer.

C. B. McConnell, who was appointed by the commissioners as an assistant to juvenile officer Ira-rah, brought the proceedings when county Auditor E. P. Walsh refused to pay him his salary for a month's work.

Mr. Walsh's contention was that under the statute that Wichita county could have but one juvenile officer and that the auditor was not authorized to pay out of his office, required that he pay out no money of the county unless it was authorized by law.

His contention was that Wichita county could have but one juvenile officer and that the auditor was not authorized to pay out of his office, required that he pay out no money of the county unless it was authorized by law.

Mr. Walsh had also secured the opinion of the attorney general on the matter and it was evident that the attorney general ruled on the matter in favor of Mr. Walsh.

Judge Martin stated as did Mr. Walsh that they realized that Wichita county is really needed the services of an added juvenile officer but that under a liberal construction of the statute which seems to have been tangled in its legislative form that the county was not entitled to more than one such officer.

Attorneys for Mr. McConnell expected to the court's ruling and indicated that the matter would be taken to the higher courts on appeal.

Mr. Walsh was complimented on his stand in the matter and was pointed out that it was his duty to carefully watch that no money was expended unless provided for by statute.

Judge Martin also stated that he could readily understand the construction of the statute which was brought by the county commissioners and stated that he regretted that he must hold as he did.

The law provides that in counties having a population of less than 2,500 there may be one juvenile officer but in counties having more than 2,500 they must have two and as such, under the county commissioners' demand necessary.

Former Members of Royal Court Are Principal German Sufferers Says American Wife of Prince

By CORINNE RICH Universal Service Staff Correspondent

NEW YORK, April 11.—The people who are suffering most in Germany these days are the gentlemen and ladies formerly attached to the royal court, who receive a few marks as pension from the government and find themselves put to it to live much less keep up appearances.

Princess Elizabeth, American wife of Prince Christian of Hesse, member of the ancient house of Hrabant and nephew of the late empress of Germany, told me that today.

We were in her luxurious suite at the Plaza, surrounded by flowers, gifts of old friends. Constantly the telephone rang, bringing messages of welcome home.

"We have lived so little in Germany in the last year that I'm really not qualified to speak with any authority on conditions there," she said, her slight figure deep in the soft pillows of a divan.

"But just looking around, when occasionally we visit our castle of Gohlsberg on the Rhine, it strikes me that the departed retainers of that former brilliant regime are the real sufferers."

"Out in the country the farming people seem to be getting along as in pre-war days. And branches of the royal house, which my husband is connected, have their own domains where they live in almost medieval splendor."

"Many of the men who were dependent on the largesse of the Kaiser are entering commercial pursuits, of course. But it is very hard for them."

The prince and princess with their four beautiful children arrived on the Adriatic yesterday for a visit to Mr. and Mrs. Richard Reid Rogers, parents of the princess, on their Long Island estate.

FOUR GET INTO A FREE FOR ALL IN POLITICAL TILT

"Oh, you just don't know how wonderful it is to get home again," the princess said enthusiastically, a real joy coming into her greenish-blue eyes. She was wearing a plain blue woolen dress with a small hat and, practically no jewelry.

"This is my first trip back since my marriage 10 years ago," she continued. "So many things have changed and New York has grown so I scarcely recognize it."

And prohibition! Isn't it curious? I was cold on the boat and wanted a cocktail so badly. But they told me we were within the theoretical limit and I couldn't have a single thing to warm me up. It was too dreadful!

The prince of Hesse is related to nearly all the royal houses of Europe and very often he takes his family to visit the kindfolk. His mother, a first cousin of the former Kaiserin, is Danish, and his father once served in the British navy.

"The prince was a lieutenant commander in the German navy during the first part of the world war," her highness said. "But in 1917 he disappeared of the unretired submarine warfare into which the government had launched and resigned from the navy."

"His position in the matter was that such warfare was unchristian and unchristian and that Germany was committing suicide by employing it. When the fate of the nation was really decided, people called the prince far sighted."

I asked the visitor what the German people thought of Wilhelm.

"They don't think anything of a coward," she returned immediately. "When the Kaiser fled the country, he lost the respect of his subjects. Now he is merely ignored, of course. His second marriage, following so closely on the heels of the Kaiser's death, was most unpopular."

SCHOOL BOARD EXPECTS TO MEET ON THURSDAY

CAPTURE STILL IN OPERATION AND 3 MEN ARE ARRESTED

Chief Deputy Sheriff Jack Miller and Deputies W. W. and W. P. Belcher and Frank Watkins conducted a raid on a place two miles northwest of Newton Tuesday night and captured a 50 gallon still in operation and arrested three men.

In addition to the still 40 gallons of corn liquor and 10 barrels of mash were confiscated.

The still and equipment were cleverly hidden according to the officers who were forced to scour the territory for several hours before locating it. The still was striking full blast the officers stated and the three men arrested were all in the vicinity.

PUBLICITY CONCERNING ROYALTY

Over in Japan a few weeks ago a brother of the mikado, if I remember correctly, met death in an automobile accident. Details of this accident have not been printed in Japanese newspapers on account of royal censorship.

In England kings and queens once ruled by divine right. Now there is a more materialistic conception of the matter and kings and queens are looked upon as made of the same clay as others.

In England just now there is a great deal of concern over the recklessness of the prince of Wales. That worthy is a spirited young Briton and because he is, his popularity is great.

In America we surround the individual from among us in highest authority with a great deal of glamor, yet there is no disposition to forget that they are of common clay.

Discussing the hope expressed by the Denton Record-Chronicle whose editor, W. C. Edwards, is a member of the legislature, that the governor will postpone submitting the subject of appropriations until the last days of the special session of the legislature, in order to allow the solous full time and opportunity to provide necessary revenues to take care of existing deficiencies, the Denton Herald says:

"The suggestion is freighted with much wisdom. If the legislature would hold itself down to appropriating no more funds than are available in the treasury, several of the financial embarrassments of the past several years would be avoided.

"Treasury conditions make it imperative that additional revenue be raised. The state is overwhelmed in debt and it must be placed upon a cash basis. Then, too, the various institutions, both educational and eleemosynary, as well as other essential departments of government must be furnished with sufficient funds to enable them to function.

"If experience has any value, members of the legislature should be fully impressed with the imperative necessity of restricting appropriations to an anticipated revenue. If, when they assemble in called session, they will fully make up their minds to expend no more money than the probable receipts will justify, give—due consideration to the existing tax burdens, the problem of refinancing the state will be found less difficult of solution.

"It is to be hoped that Mr. Edwards will be able to impress his colleagues with the wisdom of his suggestion; that first consideration be given exclusively to revenue measures, and then hold appropriations strictly and rigidly within the state's probable income. Should that program be adopted and followed, it will not take long—a couple of years at the longest—to mark the financial recovery of the state government and its affairs placed upon a permanent cash basis."

"The British empire will again gather its imperial ministers from all over the world—Canada, Australia, South Africa, etc., to discuss the defense of the empire.

"What defense is necessary, what attack is feared? None from this country, surely. None from Russia, at least for the present, or Germany or Scandinavia or Italy or Spain.

"Can it be that England is taking seriously the fact that her navy, which is now a joke? The French air navy, that could destroy London, Manchester and Liverpool all in the same month, has become the real world power.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

DIRECTED THINKING.

Jung, in his "Psychology of the Unconscious," defines the difference between ancient and modern thought as undirected and directed thinking—the former being a thinking in images, akin to dreaming, the latter a thinking in words.

It is plain to see that all our knowledge, must come through directed thinking.

Look at the night after a clear, sunny day. Those feathery clouds, floating like ships across a calm sea. Whoever can look at them, or anything of beauty, immediately crystallizes images into words that put life in a happy frame.

We are fashioned by directed thinking. The words of our friend warm and uplift us. The sunset immediately spells, a story to us of golds, reds, purples and tinted touches of silvered clouds.

Everything good and great is associated with words.

Tell your friend what a beautiful day it is—and at once an army of words trot up to finish the tale of your suggestion.

Read a book. How soon you become lost in the army of words. But how enriched you feel after the covers are closed!

Try to tell the impressions you have secured from travel, and you have to muster words to do their best.

It is due to our habit of thinking in happy words that we grow in character and learn to face stern realities without flinching.

So that it becomes quite as important to choose your words as your friends.

How Henry Ford would have laughed, and Rockefeller too, if a few years ago, when Ford was tinkering at his first funny little car, some one had said, "Henry, before long, you and Rockefeller will be the world's two richest men."

That is the world's two richest men today. Ford, the Brodwayman Shopper has just offered ninety million dollars, for the Virgil automobile.

Mr. Rockefeller yesterday bought the Euclid Avenue Baptist Church in Cleveland for \$35,000. That sum would once have seemed quite respectable. Now it sounds like a trifle.

Locomotive engineers are not as well paid as they should be, considering the responsibility that rests upon them, but their high wage is of ability, but they are well paid as workers.

These locomotive engineers provide that good wages are more important to the nation at large than to the engine itself. That means are great. Eighty per cent of all the children of ninety thousand locomotive drivers get a "higher education."

"That was the man," I told him. "Greys seems to me to be the luckiest man in the world."

Release came at last, another key to the apartment where we were imprisoned was found, the door was thrown open, and a stream of servants with lamps and candles entered. A few minutes of confusion, a few exclamations followed, the orders which Lord Kindersey roared out were almost pitifully ineffective. We were 15 miles from him a hat from me some day.

Naturally, the press devoted a great deal of attention to a robbery of such sensational magnitude, and several journalists and photographers traveled down specially from London in search of material.

It will wind up with the customary shaking boxes of the presser, as here. The jackpot will be pocketed by a few. No one can fight the stock market in the long run. And not in a thousand years has the sense and courage to long for what is ahead of the game.

WIFE OF RUSSIAN PRESIDENT BARRED BY UNITED STATES

WASHINGTON, April 11.—As an avowed protest against the putting to death by the Russian soviet government of Vice General Butchkevich of the Catholic church, the United States government will not permit Ekaterina Kallina, wife of the Russian president, to enter upon American soil.

Announcement was made by the state department yesterday that it had cancelled the authorization under which Mrs. Kallina had planned to visit the United States in connection with work of the American committee for relief of Russian children. Despite the ostensibly humanitarian purpose of her visit the department, in a brief announcement of its decision, expressed the opinion that the "presence of Mrs. Kallina in this country is rendered wholly undesirable by the deep feeling which has been aroused by the execution of Vice General Butchkevich. The action it was added is taken especially in protest against this execution."

Many protests against admission of the Russian president's wife were received by the state department given before the death sentence against the prelate was carried out to disregard that an earnest request from the United States for a respite. Numerous other protests have reached the department, and officials stated in connection with the action taken that it would be a response to these protests as well as a protest against the execution of the death penalty.

WASHINGTON, April 11.—Madame Kallina, wife of the president of the soviet republic of Russia, will not be permitted to visit the United States.

It was announced today that the state department had cancelled the authorization for a visit of her passport. Her presence in this country, it was stated, is rendered wholly undesirable by the deep feeling which has been aroused by the execution of Vice General Butchkevich.

The action of the department is understood to be in the nature of a protest against the execution of the prelate, and is a direct result of the protests which have been received by the state department.

The state department, prior to the execution of the vice general, had advised permission for Madame Kallina to come here. It is known that the woman's patriotic feelings are such that she would like to visit America in the interest of relief work for Russian children.

"Uncle Billy" Dark, Age 76, Dances As Bands Play at New Orleans and Thousands Recall Days of the 60's

NEW ORLEANS, April 11.—"Uncle Billy" Dark, 76, has left a few of his 22 children in charge of his big plantation in Winn parish, Louisiana, and come to New Orleans to defend his title of "champion buck and wing dancer" against a Confederate veteran who may feel shy enough to challenge him. In spite of his age, he can shake his feet like a youngster of 20. Yesterday "Uncle Billy" discovered a blind man on the street playing a violin. The old veteran proceeded to "do his stuff" to the strains of the fiddle and after a crowd had gathered took the musician's tin cup and passed it around. He spent half an hour dancing and taking up collections and then remarked he was "just warming up."

"Uncle Billy" who has been with the 26th Georgia Division in General Joseph E. Johnston's army, said he danced before President Wilson and against the ring of foreign diplomats in Washington during the reunion in 1917. The best chicken, hog and watermelon were served at the reunion. The best record of Howard Divinity, who has never missed a reunion since 1865, was read.

His face as black as his long beard is white, Howard is a picturesque figure at all conventions where southern warriors are assembled, including that of the American Legion last fall. His chest is entirely covered with medals and he has a whole trunk full more of them at his home in Copiah County, Mississippi. Howard grins broadly as he tells how he foraged for his "young master," Captain Scott, who he says he carried from five battle fields wounded. For the present reunion Howard collected funds from "white folks" sufficient to pay his railroad fare.

"Well, I'll be dinged if it ain't little Johnny Hopkins, I ain't set eyes on you since that day we whipped the Yanks at Stevens Junction in '62."

"Shore an mighty glad to see you, Bill!" These and many similar salutations were to be heard at the big mess hall where hundreds of veterans are being fed and at Washington artillery hall, where more than a thousand beds have been put up to accommodate the old soldiers. It is no uncommon sight to see two old comrades greeting each other that had not met since the war. In spite of the white hair and the great grey beard they immediately recognize in each other the boys they had known 60 years ago.

Over the steaming hot coffee and good wholesome food that is being served at the mess hall they fought the war anew.

"Tell me why you ran that time," a veteran with a twinkle in his eye asked a comrade.

"Well, you see, if I hadn't run, I'd been laying there yet," was the answer. "But, seriously now, there wasn't a braver company in the whole army than ours. And I'd tell you another thing, three of 'em went to congress."

The speaker was Isaac Anderson, a Virginian, of Washington. He wore his son's khaki army cap, with the U. C. V. emblem on it, and the old gray uniform.

A white haired woman from Dallas, Texas, Mrs. C. L. Travis, who is a matron of honor for the Dallas camp, Sons of Confederate Veterans, and herself a daughter of the Confederacy, arrived yesterday wearing a tailored suit of Confederate gray, trimmed in the brass buttons of the Confederate army.

"I can't walk much, but I've got a good leg," an old body servant told interested listeners gathered in the lobby of a hotel. The old negro is one of several who are here to attend the reunion.

AFFIRM TWO CASES IN WHICH PENALTY IS LIFE SENTENCE

AUSTIN, April 11.—The life sentence assessed against W. H. Payne, El Paso county, on charges of murder of H. L. Dillon, was affirmed by the court of criminal appeals today. The court also affirmed the life sentence against T. H. Cook, Tom Green county, for murder in connection with the killing of L. K. Kiefer.

Motion for new trial in the Patti case was denied by the lower court and sustained by the upper court. The motion was based on contention that the officer in charge of the jury was not authorized to have charge of the body.

The court reversed and remanded the 50 year sentence given Eddie Atchison, Bosque county, on charge of original assault. Defense claimed insanity. Reversal was on grounds of refusal of trial court to grant new trial.

The 20 year sentence against W. M. Kniffel, Dallas, for criminal assault upon a nine year old girl, also was reversed on grounds of refusal of the trial court to submit to the jury issues of assault with intent to rape and aggravated assault.

A reversal was rendered in the case of Lela Stenbridge, Johnson county, charged with murder of her husband, George Stenbridge, on December 17, 1921. The defendant was sentenced to 15 years. Reversal was on grounds of admission of objectionable testimony.

The 10 year sentence against Isaac Embrey, Milam county, on charge of murder of Gordon Jones, was affirmed. Self defense was claimed.

Divorced Wife of Stanley Field Gets A Million Dollars

CHICAGO, April 11.—Mrs. Sara Carroll Brown Field, divorced wife of Stanley Field, nephew of the late Marshall Field and one of the heirs of the Marshall Field fortune, received a cash settlement of \$1,000,000 when her husband divorced her last month, according to a story printed by the Chicago Herald and Examiner today.

Mrs. Field was one of the famous "Brown sisters" of Baltimore prior to her marriage. Mr. Field charged her with desertion and the suit was uncontested.

These and many similar salutations were to be heard at the big mess hall where hundreds of veterans are being fed and at Washington artillery hall, where more than a thousand beds have been put up to accommodate the old soldiers.

CAPTURE OF LYNCH SERIOUS BLOW TO IRISH IRREGULARS

DUBLIN, April 11.—The death of Liam Lynch who succumbed last evening to wounds received when he was captured by free IRA forces, will be a serious blow to the irregulars, it is believed here. Lynch, as chief of staff of the republican army, was the man most intimately associated with Eamon de Valera.

The capture of the free state, says the Irish Times, "inflicts a heavy blow on the forces in arms against it. During recent months he has been the real leader of the republican movement. In Valera's military figurehead, but Lynch was the brains that kept south Ireland in its present condition of disorder and alarm."

A strong fighter, with a good grasp of guerilla tactics, he, more than any other man has kindled the temper of revolt and produced the resistance to the people's will.

There is plenty of evidence that the rank and file of southern republicans are weary of the military leaders and realize that however prolonged it can have only one end."

SEVERE ATTACKS OF INDIGESTION

Mississippians Says All He Dared Eat Was a Little Bread and Butter—Found Black-Draught Relieved His Trouble

"Well, Miss.—I had very severe attacks of indigestion," said Mr. M. H. Wade, of this place. "I would suffer for months at a time. All I dared eat was a little bread and butter. . . consequently I suffered from weakness. I would try to eat then the terrible suffering in my stomach. I took medicines, but did not get any better. The druggist recommended Theford's Black-Draught and I decided to try it. For, as I say, I had tried others for two or more years without any improvement in my health. I soon found the Black-Draught was acting on my liver and causing the terrible pain.

BRITISH LEADERS HOPE TO RESCIND VOTE OF TUESDAY

LONDON, April 11.—The government is believed to have found a way out of the difficult situation created in the house of commons last evening when it was defeated on the question of allowing the speaker to leave the chair for the discussion of civil service estimates. The cabinet meeting which took place after the adverse division is said to have decided that the motion may again be submitted in view of the fact that as presented it contained the word "now." The ministers held, the negative vote was binding only at the Tuesday evening sitting and before the speaker perhaps of Thursday, will be in a position to accept another motion to quit the chair. The adverse majority of seven was returned in a sparsely attended session, ordinarily such a motion is carried as a question of routine procedure and when it failed there was considerable excitement because of the uncertain position of the government.

EXPECT OFFICERS TO FILE CHARGE IN BALLANTYNE CASE

SALT LAKE CITY, April 11.—Information charging murder in the first degree was expected to be filed here today against one or more persons in connection with the slaying of Benjamin F. Ballantyne, former bank teller, in his home in a fashionable part of the city last Monday. It was said authoritatively. County Attorney Arthur E. Morton declined to say definitely what disposition would be made of Mariner A. Browning and John Browning Jr., cousins, held in connection with Ballantyne's death. Both men, widely known throughout the state, are under arrest at the city hall booked under "investigation." They were arrested at the Ballantyne home after the shooting and Mariner, the police declared, confessed he shot Ballantyne in self-defense. The shooting was the outgrowth of an attempt, according to police, by the two to kidnap and induce Mrs. Ballantyne to leave her husband and return to her father's home in Ogden. Mrs. Ballantyne is the daughter of John M. Browning, noted gun inventor. Ballantyne, in a death bed statement, maintained that Browning Jr. either of the Brownings, and according to the police asserted that the two Brownings "tried to break up my home."

CHARLES RAY DIES SUDDENLY TUESDAY ON M. K. T. TRAIN

Charles Ray Wichita Falls, Tex., was shot and killed on an M. K. & T. passenger train at about 2:30 o'clock Tuesday night, while returning to Wichita Falls from a job where he had been to buy holes. Mr. Ray became ill suddenly and died before the train reached Hennessey. The body was taken off there and later brought to Wichita Falls. The funeral was held at the Lamar Avenue Baptist Church at 4:30 o'clock Wednesday afternoon. He leaves a widow and two children, a daughter, Annie, and a son, Knox Ray, who lives at Niagara Falls, N. Y. He was a brother of George Ray, well known Wichita Falls manufacturer and livestock man.

Bethlehem Steel Corporation Is Importing Mexicans By Trainload And Labor Trouble Is Anticipated

By Universal Service. BETHLEHEM, PA., April 11.—This quiet Moravian city is wondering what the recent invasion of three trainloads of embezzled Mexicans and Indians means to its industrial future centered around the huge steel plant of the Bethlehem Steel Corporation. The swarthy men from below the Rio Grande came here in batches during the past few weeks and after a few days of sightseeing in the place of American workers who refused to accept a wage scale of 20 cents an hour fixed by the Bethlehem Steel Corporation. Workers in the mills have been told that these foreigners are being brought into Bethlehem to take the place of American workers who refused to accept a wage scale of 20 cents an hour fixed by the Bethlehem Steel Corporation. However, this is not suggested by other reports which are to the effect that the Mexicans are being paid \$5 a day while being taught the rudiments of the steel business, even though the American workmen who are their teachers, get only 20 cents an hour. Also, the Mexicans who are to be taught English, said they came here on promises of high wages. Other reports are that the Mexicans are to be used to take the place of American workers in plants to be opened later by the Steel Corporation in Mexico and other Spanish speaking countries. Aside from the labor feature of it, the visit of the Mexicans already is adding a picturesque flavor to the town known and their predilection for settling their disputes with knives already has landed many of them in St. Luke's hospital. At present there are 11 of them patients there as the result of knife arguments. The native population stares at the Mexicans, in many colors, parade the streets of evenings, and there are some who tremble for their safety when the strange speaking, strangely dressed people gather in force, but so far there has been no record of a clash between the natives and the "invaders." The city generally is prone to think that the steel company is bringing the Mexicans here as strikebreakers, principally because many workers walked out just prior to the arrival of the Mexicans. Several hundred choppers demanded a raise several weeks ago and when it was refused, went on strike, singing. A number of petitions by other workers have been presented to management, but although no raise was granted the men did not strike. However, it seems generally agreed that labor trouble is threatening in Bethlehem as a result of the recent increase of 10 percent given workers of the United States Steel and its subsidiaries. Many officers of union workers make no attempt to conceal the fact that serious labor trouble threatens in Bethlehem as a result of the importation of the Mexicans may hasten the outbreak. The steel company has promised an adjustment of wages for April 15. Garrett Roach, chief of the steel company's private police force, was said tonight to be on his way to Mexico to bring several more train loads of Mexicans and Indians to Bethlehem next week.

Government Hospital for Insane Believed to Have Developed Cure For Most Deadly Mental Disease

By WM. F. ELYMPE, Universal Service Staff Correspondent. WASHINGTON, April 9.—The government hospital for the insane here has discovered what is believed to be a cure for the most deadly mental disease. Patients given the unique treatment already have returned from the mad world in which they wandered and show every evidence of having normal minds. The only questions to be settled are whether the cure is permanent and to secure the required serum in quantities. Time alone will solve the first, the psychiatric experts declare and arrangements are being made to locate kindly persons who will give small quantities of a certain type of serum to patients with the disease. The serum or cure, is obtained by injecting parasite patients with the germ of tertian malaria. "This is comparatively a rare form of a very common disease," says the director, "in which it is prevalent are to be combated and any person suffering with it will be asked to give a few cubic centimeters of their blood to make the culture." The discovery of the cure reads like a romance. It was observed that patients with parasite malaria fever showed unmistakable signs of improvement. Experts here immediately began experiments were started to learn that they had penetrated a field that has been termed hopeless since the dawn of man. The work was carried on under the personal supervision of Dr. Wm. A. White, head of the institution and world famous expert on brain ailments. "No treatment of paresis up to this time has been successful," said Dr. White in discussing the progress made. "Professor Wagner von Jauregui of Vienna, first started the experiment, I believe. Then it was temporarily halted by the war. The vast experiences of the war itself hurried on the discovery. It was observed in our army that malaria patients who developed paresis did not suffer so severe an attack as those without malaria. "Tests were made and the theory developed that malarial germs developed anti-bodies in the human system which are deadly to the germ causing paresis."

BOB FLETCHER TO FACE TRIAL MAY 8 AT ARCHER CITY

Special to The Times. ARCHER CITY, April 11.—Bob Fletcher, who was recently indicted on a murder charge in connection with the death of William Saylor and Miss Edna Saylor, will face trial in the 26th district court at this place on May 8. Judge H. R. Wilson will open a special term of court here on Monday, May 7, and the case will be called for trial the following morning. A special venire of 150 men has been ordered summoned and the veniremen will report on that day. This case has attracted considerable attention throughout the county and it is expected that it will be a difficult matter to select a jury.

Sennett To Make Picture Without Actor or Actress

By LOUIS WEADOCK, Universal Service Staff Correspondent. LOS ANGELES, April 11.—It has remained for Mack Sennett to discover a way in which to make moving pictures without exposing himself to the slings and arrows fired by actors and actresses whose temper is high and whose salaries are higher. He's going to make one that won't have an actor or an actress in the cast. The feature players will be his Great Dane, Teddy, and a bear whose screen name is Jumbo. They have been supported by a company, all the members of which are dumb, but who are not that peculiarly unattractive dumbness which Sennett, who was the original producer of bathing girl comedies, has encountered now and then in the course of his professional career. Sennett, whose productions so far have been noteworthy for reasons which are hardly unconnected with their appeal to children, will endeavor to please the youngsters with his action-packed drama. If he succeeds he is going to try his luck with the same sort of production offered for adult consumption. LARGE ATTENDANCE AT CONVENTION OF TEXAS LIONS CLUBS

WACO, April 11.—With a large attendance, the state convention of Lions clubs met here this morning for a one-day session. It is expected that registrations will total 500. Creating much interest in the three cornered contest for district governor, the candidates being Colonel Louis C. Perry of Terrell, W. K. Wingfield of Temple and R. D. Green of Abilene. Abilene and Paris are avowed candidates for the 1924 convention, and delegates from these two cities are active. Clyde A. Sweeton, district governor, in his report to the convention said that since July 1 of last year 11 additional clubs had been organized in Texas, with five more now in process of organization. Texas now has 45 clubs with a total membership of 2,277. From the standpoint of accomplishment, the report said: "Our record for the year is gratifying and inspiring. In every city and town where a club has existed the work of bettering governmental conditions and contributing to a higher standard of citizenship has been under way." An automobile ride during the afternoon and a "ladies' night" are among the chief entertainment features provided for the visiting Lions.

ASSOCIATION CHAMPS OPEN SERIES WITH SPUDDERS THURSDAY

Twenty-Four Athletes Still Are Eating At Expense Of Club And Salm Soon Must Cut Down Squad

The Spudders' final exhibition series before another Texas League season gets under way is scheduled to start Thursday afternoon at 3:00 o'clock, with Mike Kelly's St. Paul champions from the American Association supplying the invading feature of the entertainment. The Salts will be around for quite some spell, putting in five straight afternoons at Athletic Park. Manager Walter Salm of the Spuds has not announced his battery selections for the opening game, but it is likely that at least one of the two hurlers obtained Monday from the Chicago Cubs will be used in the starter. The skipper is anxious to give the newcomers the once-over and he probably will waste no time in getting them into action.

Tuesday the hired hands were put through the customary conditioning paces in two sessions before and after noon, and at the conclusion Salm declared he would start the season. The Texas League schedule opens just exactly a week from Wednesday.

Steve Mogan Sent To Three-Eye Club

Manager Walter Salm cut his Spudder squad down to twenty-three and his staff of pitchers to nine, when he decided at noon Wednesday to send Steve Mogan to Evansville of the Three-Eye League. Salm believes Mogan still holds promise of making a winner in the Texas League and he goes to the class B circuit with option of recall.

Former Texas Leaguer With Yanks Looks Good

Clarence Hoops departed Tuesday night for Bloomington for his berth on that club of the Three-Eye League. The right-handers include Rip Wheeler, Bill Fincher, Steve Mogan, Pearson, Pat Flaherty and Rabbit Darrough.

Outfield Is Problem

With six outfielders in the scramble for berths, Salm is confronted with quite a problem in determining the trio that will suit best his needs for a Texas League campaign. With the Texas League sixteen player limit in mind, Salm has to choose between six outfielders and four right-handers and four left-handers. It is a safe bet that when the final trimming down is made, three left-handers will be cut loose. It is not likely that Salm will carry more than one right-sider in the club, certainly that no more than two will be retained. The left-handers now on the squad are Hippo Hodges and Martin Demovich, the pair obtained from the Cubs, Pelgrat and Odum.

Harvey Hendrick

The infield seems set, at all set with Ace Elliott at first, Al White at second, Joe Herzog at short and Eddie Taylor at third. The fourth man is still about, looking better every day, and he may be in there regularly before the 15th if this is started. Rickey, Babe Ruth, is adaptable to all nine positions, it wouldn't be a hard guess that he will be a member of the squad from going to camp.

The Outlook

By AL PARKER

The Spudders are idle another day. That is, they are idle as far as opposition is concerned. Walter Salm is a great believer in that little word, w-o-r-k. There is no loafing at Athletic Park, although there is no time in progress.

Walter got his idea about work was back yonder in 1917. He was on Corsicana's payroll in those days. The club had two pitchers. One was a pitcher named an outfielder the next day. The same goes for the other hurler. That is, when one was pitching the other played the outfield.

Long toward the close of the season, after these two had pitched every game for Corsicana, and a hard series had just been finished, the club moved on to Texarkana. Walter went to the park early the opening day of the series. Or rather, he thought he was going out early.

Two players had beaten him to the park. Who were they? None other than the pitcher-outfielder. And what might they have been doing but so early? Nothing but standing in front of the grandstand playing burn-out for all they were worth.

Ever since then Walter has believed the best thing that can happen to a ball-player is work. And then some more work.

In those days there was no such thing as being able to "take his turn on the mound every fourth day." It was pitch one day and play some other else the next day, if not needed in the box.

A pitcher nowadays usually thinks he is being imposed upon if asked to do any sort of labor, except on every fourth day. Maybe the pitching has improved since those days, but not from those days' rest periods between turns.

If pitching nowadays is improved over that of 20 years ago, it is from the natural expansion of the game and the natural expansion of the art of serving the batter with balls they are least liable to hit safely.

The study of batters has become a profound occupation with the pitchers, but every member of a ball club is always studying the opposing hitters. This angle of pitching art has become one of the most necessary, and regardless of the stuff a hurler is able to get on the ball, he will not get by long if he does not spend many an hour in hitting his is to face while on duty.

Looked up Doc Landon Tuesday to see how his twilight ball tosser were coming along. Needs an eighth club to fill up. Hopes to have it shortly, though, and all will be ready for the opening next week.

Season ought to be a great one for the amateur players. Play for the fun of it. No salaries or anything to worry about. Somebody else foot the bill.

Can't understand why there is just one amateur league in Wichita Falls, a city of 50,000 people. Houston, with only three times as many people, has close to 20 leagues. Many leagues. Nearly 30 leagues will flourish in Houston this year.

Galveston, practically the same size as Wichita, will put on one league in the field. At least one Sunday league ought to go big.

The twilighters play four games a week this season, all on different afternoons and on the same diamond. Landon thinks the new idea will work out fine. No reason why the twilighters' days will not create more interest than four games on one day.

Damon Runyon Says

Everybody's duty To witness great Events, including Those that take Place in sports.

By DAMON RUNYON
NEW YORK, April 11.—The writer holds it is the duty of every man, every woman, to see the great human figures, the great events of the day, if the opportunity presents itself. It is duty to one's self, to one's children. It is a matter of education.

The man who says, boastfully, that he has never seen a game of baseball makes an admission that reflects upon his intelligence. He should see a baseball game, if only because it is an American institution, if only to understand something of what millions of Americans are deeply interested in.

He may not like baseball. He may not care for football. He may not like boxing, golf, a waste of time. But the man who will not take notice of these very important phases of American life is in a class with the man who says "I wouldn't go around the corner to look at President Harding."

Now, there may be nothing exciting in President Harding's appearance, none the less it is a considerable privilege for any man to gaze upon the chief of a great country.

A bias, disinterested attitude toward contemporaneous life is not a mark of superiority. The man is foolish who would not seize the opportunity of seeing Charles Chaplin, Douglas Fairbanks, the Woolworth building, Irving S. Cobb, Vincent Astor, Niagara Falls, Arthur Brisbane, Max Gwynne, Percy Haughton, "Tad," Gene Saragoff, Wm. H. Taft, Babe Ruth, Benny Leonard, a national convention, the shrimping cannery at Brunswick, Ga., the Boston common, Jimmy O'Connell, the \$75,000 ballplayer.

The writer has often wished he might have seen Mike Kelly called "the king" for the reason that whenever you mention ball players to outsiders they invariably present "the king" as the greatest they ever saw.

They have seen Cobb, Ruth, Sisler, Hornsby, Wagner, Eddie Collins—still "the king" stands out in their memories, their affections. He must have had a great ball player, whose opinion is thus unanimous.

Nowadays we go to see Babe

SISLER WILL BE OUT OF GAME BUT MONTH

ST. LOUIS, April 11.—The illness of George Sisler, St. Louis American, which has caused worry for the part of officials of the club and cast gloom among the followers of the team, will not permanently affect his playing ability, according to physicians attending him here.

Following announcement that Sisler, adjudged the most valuable player in the American League last year, would soon undergo an operation for sinus trouble, physicians today expressed the belief that the operation will not do more than delay Sisler's entry in the lineup this season.

It was stated that the operation is not a serious one and the normal conditions will not leave any serious after effects. In connection with the sinus ailment, Sisler's eyes have become affected and he is under treatment for these. Tests of the eyes are said to have shown that they are normal, but the trouble lies in the muscles controlling them. The eye ailment is attributed to the nasal infection which is expected to disappear after the operation.

It was estimated that Sisler would not be in condition to play ball for at least a month after the operation.

JACK DEMPSEY MAY RETIRE FROM GAME

SALT LAKE CITY, April 11.—Jack Dempsey may never fight again.

Jack Kearns, the champion's manager, made this announcement last night after Dempsey had been president of the Great Western Coal Mining Company, of which he is said to own the controlling interest.

This proposition is so big, Kearns said in detailing the plans for the development of the Dempsey coal lands, "that he is thinking of retiring and devoting his entire energies to making this enterprise his life's work in the future."

The company is over 2,000 acres of coal lands and 6,000 acres of agricultural land in the Castle valley. It also has a three and a half mile railroad and is building three additional miles.

"President Dempsey" announced he was going back to an old love in returning to the coal mining business. In his earlier days he worked as a miner in Colorado and West Virginia.

Ruth hit home runs. That is the big thrill to baseball. In the days when Kelly was king, men went to see him think. Kelly was noted for his amazingly active brain. He thought out, executed new plays before the eyes of the crowd every day.

Ruth produces his sensations by sheer physical force. Kelly's sensations were largely mental. He demonstrated to the spectators what was going on in his mind by immediate action. God there say he brought thinking into baseball.

Twilight Amateur League Is Soon To Take Action on Admittance of Eighth Club to Complete Circuit

The number of teams that will comprise the Twilight Amateur Baseball League this season will be determined for the next day or two, according to President L. O. Landon. Since the withdrawal from the league of the American Legion entry several days ago, the league has had but seven members, and since that time efforts have been made to add an eighth club. Several applications are on hand according to Presy Landon, and it is more than likely that the league will function with eight clubs, rather than the original seven. However, if none of the entries prove acceptable to the managers of the clubs already holding franchises, one club will be dropped, and the race will be six-cornered.

Action on an eighth club has been held up pending the decision of several prospective bidders for the open berth, but it is expected that a meeting of the league will be called before many more days to reach a final decision.

The seven clubs now primed to make a good race of it in the amateur league are: Pond's Laundry Company, North Methodist Church, South Methodist Church, Floral Heights Methodist Church, Texas Company, Public Utilities and Wichita Mill and Elevator Company.

Prospects are bright for a great season for the Twilighters. President Landon declares, and will be ready for the start a week from Tuesday. "The players are taking an unusual interest in the amateur league this season," Dr. Landon asserts, "and all indications point to a wise race throughout the season."

The Twilight League will play its games on Tuesday, Wednesday, Thursday and Friday afternoons at 5:30 o'clock.

S.S.S. makes you feel like yourself again. The World's Best Blood Medicine for five generations. 1840 1860 1900 1923. Illustration of a woman and a bottle of S.S.S. medicine.

S.S.S. has stood invincible through the ages.

Why? Because S. S. S. is made from Nature's select medicinal herbs—it is purely vegetable. Our own trained men gather them. And because we extract from them their medicinal principles while they are yet fresh.

Visitors welcomed to our laboratory. We wish you could see our two hundred men in the fields every Winter when "the sap is in the ground" carefully selecting the roots of these herbs, and then follow them to our laboratory (which is always open to visitors) and watch their preparation into the finished medicine—you would be convinced.

S.S.S. is recommended for: Pimples, Boils, Eruptions, Blackheads, Blotches, Acne, Rash, Itches, or Eczema, Rheumatism, Poor Blood, Weak Spells, Run-Down Condition, Loss of Appetite, Nervousness, Thinness, Poor Complexion, Scrawny Neck, Thin Limbs, Hollow Cheeks.

S.S.S. is sold by all good druggists
