### U. S. MAY INSTITUTE CRIMINAL ACTION IN SUGAR CONTROVERSY

WASHINGTON, April 20.—Whether criminal prosecutions by the federal government will follow its decision to institute in New York today to protect the public against the speculative boosting of sugar prices rests on the decision of Attorney General Daugherty. The attorney general, who is now at Asheville, N. C., was said officially to have under consideration a request upon the federal grand jury in New York for criminal indictments under the conspiracy provisions of the Sherman act of defendants named in the injunction suit to prevent future or speculative trading on the New York sugar exchange. With the first move by the government designed to prevent further increases in raw sugar prices, the criminal action, should the attorney general decide the evidence warrants such procedure on conspiracy charges, would be the logical next step, officials explained. As another development in the sugar situation, President Harding had before him today a report from the tariff commission, which found that the duties on the new tariff would be a factor in the recent increase of sugar prices. While evidence indicated, the report said that the import duty on Cuban raw sugar has been and is now reflected in the wholesale and retail prices of granulated sugar, the commission said that if the tariff were reduced there would be an offsetting tendency to decrease the production of American beet sugar and increase foreign imports.

## TRADING IN SUGAR NERVOUS RESULT OF GOVERNMENT MOVE

NEW YORK, April 20.—Trading in sugar futures on the New York coffee and sugar exchange was nervous and unsettled today as the result of filing yesterday by the government of a suit to enjoin trading in sugar unless backed by actual sugar on hand. Overnight selling orders based on the suit forced prices off from seven to 17 points, representing a decline of 57 to 60 points from yesterday's high level reached before the suit was filed. Supporting orders appeared at the decline, however, and prices rallied 10 to 15 points to close at a level of 61 1/2 to 62 1/2. In the spot market a small lot was sold by the government at a price of 61 cents, cost and freight, or only 1 cent below the season's high point.

## SENATORS DEFEAT REMOVAL OF PRISON TO CENTRAL TEXAS

### SENTIMENT INDICATED IN DECISION TO POSTPONE CONSIDERATION.

### NOT THOUGHT GOVERNOR WILL SUBMIT MATTER

### Prison Report is Debated at Length When Brought Up By Senator Wood.

AUSTIN, April 20.—Recommendation of the joint legislative committee of the regular session that the state penitentiary system be removed to central Texas was virtually defeated today when the senate voted to postpone consideration of the report until the question of prison legislation is submitted to the special session by the governor. Members opposing the recommendation said it is unlikely the governor will submit the matter since he recommended to the regular session concentration of the prison on east Texas farms and not in central Texas. The prison report was debated at length when it was called up by Senator Wood. Senator Bailey raised the point of order that the report is not subject to consideration because it was not included in the governor's call and moved for the consideration of the report to be postponed until the next session. The point was sustained. Senator Wood strongly opposed such action, declared that action on the report was postponed from regular session by resolution of the senate. He also stated that since the report is not legislation but merely the action of a committee it need not be submitted by the governor. By a vote of 18 to 12, the action on it was postponed. The judicial committee today reported favorably the Burkett bill providing for creation of the 11th court of civil appeals at Eastland. Bills introduced today included: Riddaway, proposing appropriation of \$100,000 for addition to Carnegie library; Wood, proposing appropriation, \$270,000; Wood, proposing appropriation, \$15,000; and Fairchild, altering punishment provisions of state prohibition law.

The injured were taken to various outlying and suburban hospitals. Details of the blast were difficult to obtain, first statements being that the explosion was of the extent of the accident. The explosion, which was heard for five or six miles from the plant and so alarmed residents of Argo that many fled from their homes, is believed to have been due to a dust explosion. The 11 injured men were employed in the starch house and suffered more or less serious burns, but none was killed.

TALLAHASSEE, Fla., April 20.—The official legislative expedition to inspect the grave of Florence, the woman who died while an inmate of a private lumber camp, was called off today by Senator John H. ### SHOWERS AFTER MIDNIGHT LEND ENCOURAGEMENT TO LOCAL WHEAT CROP.

### RAIN STORM GENERAL OVER ENTIRE DISTRICT

The wind continued until shortly after midnight when a coolness rushed into the district and the clouds immediately began to unload. The operator at Hawley reported a two-inch rainfall while Spur and Hanger reported an inch and a half. Other reports on the Spur line reported a half inch rain, as did all agents on the Denver from Fort Worth to Childress and together with K. & T. from Wichita Falls to Fort-Stamford. Late Friday morning the clouds began to disappear on the Spur line and on the far end of the Valley line. A south wind was still in control throughout the area. During the afternoon Thursday the thermometer struck the 55 degree mark for the maximum, while during the night it fell to 52 degrees.

### W. M. Priddy Loses Cases Involving Over Million Dollars by Decision Of Supreme Court of State of Texas

The supreme court of the state of Texas, answering certified questions from the court of civil appeals at Fort Worth, this week decided against W. M. Priddy in the well-known case of Clois L. Green and others against Priddy, which involves an oil lease and oils run valued at over a million dollars.

This case has been before three appellate courts and two trial courts and the decision by the supreme court is said to practically end the litigation in favor of Green, Waggoner, McCutchen, Roberts and Hill and Parks and associates, awarding to them the lease offsetting the original Burke-Waggoner well. The lease has produced more than a million dollars worth of oil since the litigation began.

The case was tried in the Wichita Falls district court before Judge Edgar Seery, whose original opinion at the first trial was based on a writ of injunction restraining the defendant from entering upon and developing the lease.

After the first trial was had in the local district court and the case later reversed by the court of civil appeals another trial was held here which resulted in a victory for the defendant. When an appeal was made it was necessary for Green and the other plaintiffs to post bonds in an amount exceeding a million dollars.

The case attracted considerable attention throughout this section of the state on account of the great amount of money that was involved and which hung in the balance of a law suit.

Sheriff Carpenter said today he expected Dr. McKoin to return from Baltimore within two weeks and that he had been advised that Calhoun had left Brownsville, Texas, for Bastrop immediately. He said that Ivy was expected here within the next few days.

No indications as to when the defendants will be tried was given out by court officials. The bonds were made returnable to the October term of court.

(Continued from Page 1)

The various picture concerns, the Indian Jacks moved in full regalia with feather, paint, ear-rings and e-mails and paposes were in their holiday garb.

As soon as the ranks broke following the grand entry, the riders left the arena to prepare for the opening event of the contest, the wild steer race. Mabel Strickland, Rose Smith and Red Sublett were the performers who started the show off and prepared the enthusiastic spectators for the class of entertainment which they were to witness.

On account of the high winds, the fence ropers were at a disadvantage but in spite of the handicap Chester Myers, Tommy Kirnan, Frank Clancy, Bob Calen and Fred Clancy put on an exhibition that is seldom seen in this country.

Ruth Joach, Fox Hastings, Den Kirnan and Florence Hughes, all of whom were well known as headliners in the rodeo attractions, were the features in the girls' bronco riding contest. All four riders stayed with their mounts until they were removed by the hegemony.

Chester Myers, one of the old-timers in the roping events, took first money among the 17 entries in the calf roping event. Every roped and cut his animal in 22 seconds. Ike Rude came in for second money with a record of 25 seconds. Lee Robinson and Guy Schultz were third and fourth in the event with 26 and 28 seconds for time.

On account of the injury to John Frizzars when he was thrown into the fence and disqualify for the Thursday contest, he will be allowed a reride Friday. Driggars was mounted on Frosty, Dick, a blindfolded animal, which threw him

into the fence. Yakimov Canutt, Bryan Roach and Howard Tegled received favorable mention in the cowboy's bronk riding contest and are apt to finish in money when the reride is staged.

Trick riding was also interfered with a bit on account of the high wind and rain, but 31 of the best trick riders that the country affords performed their stunts to the delight of the thousands of onlookers.

Paddy Ryan with a time of 17.5 seconds was second in the contest. Roy Quick placed third with 21.5 seconds for his time. Hastings was 14 also rana in the bulldogging event. Practically every man got his spurs. Some made several attempts. Jack Kirscher was taken from the field

of the litigation was represented by J. H. Barwise Jr., of Fort Worth, and the local firm of Weeks, Morrow, Weeks & Francis.

The suit was the outgrowth of an alleged verbal contract had with one of the original owners of the lease which offset the discovery well of the Burk Burnett pool, and which was claimed by Priddy to be a contract for the purchase of the lease which proved to be so valuable.

Upon the claim that he had a verbal contract for the purchase of the lease, Green and associates sued on a writ of injunction restraining the defendant from entering upon and developing the lease.

After the first trial was had in the local district court and the case later reversed by the court of civil appeals another trial was held here which resulted in a victory for the defendant. When an appeal was made it was necessary for Green and the other plaintiffs to post bonds in an amount exceeding a million dollars.

**SENATE INVITES FORD TO INSPECT RAILROAD; HOPE TO SAVE PROPERTY**

By Associated Press. SPRINGFIELD, Ill., April 20.—Henry Ford, Detroit manufacturer, today has an invitation from the senate committee on transportation survey, to make an inspection of the Chicago, Peoria and St. Louis railroad in a final effort to save the road from abandonment. Senator Kossinger, the committee chairman, assured Mr. Ford that the committee would cooperate with him in every way if he would undertake the proposition.

Decision to invite Mr. Ford's inspection was prompted by an announcement that he plans to establish a large branch factory at East St. Louis or St. Louis and is seeking a suitable site. Since the line extends from Peoria to East St. Louis by way of Springfield, it was suggested that he might take it over and operate it as a freight road.

**Mexico Rebuilding Line.** SAN ANGELO.—The Mexican government is spending \$10,000 a month on the Mexican lines of the Kansas City, Mexico and Orient railroad that were torn up by Villa and his band during the days of revolutions and may rehabilitate from 50 to 75 miles of track, according to W. T. Kemper, president and receiver for the railroad. Mr. Kemper will make a survey of the railroad's property in Mexico soon, according to his present plans.

**Free Picture Shows.** HOUSTON.—The city's schedule of free picture shows in Houston's parks has started. Several thousand citizens attended the shows during the first two weeks. It is estimated that the shows are staged in the various parks on different nights of the week, one program being shown throughout the week.

## MRS. MALLORY WAS PREPARED FOR THE WORST

"I am living today because of my faith in Stella Vitae," is what Arkansas Woman Says.

"That I am alive and well today is due to nothing in the world but Stella Vitae," said Mrs. E. W. Mallory, resident of Gilbert.

"The fact is I was so bad off at one time I never thought I could recover. That was just when I started taking Stella Vitae and you can see for yourself what a well woman I am today."

"Female troubles and change of life all combined to break me down and I suffered untold misery. Why I couldn't stand on my feet I was that weak from the constant burping in my legs. Splitting headaches nearly drove me wild and my back felt like it would break in two. I would turn real blind when those awful dizzy spells came on and I was so nervous I was unable to sleep to do any good."

"No woman should be without Stella Vitae when her time draws nigh, for even if she hasn't had trouble before you can't ever tell what may happen, and it is well to be prepared for the worst. I tell all my friends to take it, for there is nothing better for troubles that women have."

Note—Stella Vitae may be obtained from any druggist and is sold upon the positive guarantee that the purchase price will be refunded if it fails to bring relief. Tipton's Drug Store and Miller's Drug Store—adv.

## The Tangle

Letter From Leslie Prescott to Leslie Prescott, Continued

This impression or sex difference lasted but a moment. I told myself that I was a selfish, foolish woman that my husband did not mean anything particularly against me, he was only annoyed because he might be expecting some business complaint in Sidney's letter and did not want me to worry about it.

The waiter pulled out my chair and asked solicitously, "Will madame have fruit?"

"Did not my husband order breakfast?" I asked, again feeling irritated. Jack had always ordered the meals up to this. The simple negligence took upon itself the importance of almost an insult.

"Only for himself, madame, come to my car, in a moment."

I had a terrible sinking of heart. Jack must be greatly worried over something or very angry at me.

"I'll have a cup of coffee only, I thank you," I said, trembling.

Jack paid no attention whatever to my conversation with the waiter. He was looking intently upon his letter. Consequently, when the coffee came I could not swallow.

"With a great effort I murmured, 'Jack, you must excuse me.' I waited an instant for him to answer and then left the table precipitately. I knew if I did not I should burst into tears in a public place."

I walked unthinkingly out the door and to my mortification, abruptly stepped into the hotel cloak room. I found my way to my room and threw myself on the bed with a feeling that my whole world was falling about my ears.

"I wonder if every bride feels that way?" I asked myself. "I wonder if I am ended after the first quarrel?"

Jack and I had known each other for such a little while that we had not the slightest disagreement in all the time of our engagement and here we were married only ten days and I was already being treated as a stranger.

"To whatever way we may patch up this difference, one of us must be a winner and the other a loser."

Jack was very inconsiderate. If he had only said to me I must not open letters that had come to him from his men friends, I would have respected his wish and this never would have happened. Just the way he has acted in the matter makes me believe in his heart he thinks I have done something disgraceful, something no right-minded woman would do.

"I think I have been very liberal minded with Jack. I did not ask him anything about his life before he knew me. I considered that was a closed book, but I think that after marriage the book should be open for the inspection of either one of the partners."

"I know I have seen my mother often open dad's letters. In fact, she has only said to me I must not open letters that had come to him from his men friends, I would have respected his wish and this never would have happened. Just the way he has acted in the matter makes me believe in his heart he thinks I have done something disgraceful, something no right-minded woman would do."

## Outdoors and the skin

Don't forego the pleasure of outdoor life because the sun and wind coarsen and roughen your skin. The regular use of Resinol Soap and Ointment is almost sure to offset these effects. Resinol Soap rids the pores of dust and oil, and Resinol Ointment soothes the chapped and roughened skin.

## "PROUD TO SAY CARDUI DID IT"

Nashville's Lady Attributes Good Health to Cardui— Says She Was Suffering Agony When She Began to Take It

NASHVILLE, TENN.—Mrs. Dudley E. Shipp, 225 Ash street, this city, recently made the following statement: "Before I started taking Cardui, I was sick in bed. I weighed 150 pounds. My mother came to see me and told me to get Cardui. My husband went to town and brought home some boxes which I took. At once I began to improve, although up to this time I had taken medicine but it had not helped me at all. From the first dose of Cardui my appetite began to come back."

"I had been suffering from female trouble for as long as I can remember. I don't weigh quite so much now on account of the baby nursing, but I feel perfectly well. I am very grateful for what it has done for me, for I was suffering agony when I began to take it."

Writing later of her experience in the use of Cardui, Mrs. Shipp said: "My health is better now than ever and am proud to say Cardui did it."

# GERMAN TOWN IS SCENE OF RIOT BY COMMUNIST MOB

### SIX ARE KILLED AND FROM SIXTY TO SEVENTY, ARE WOUNDED.

### THIRTY LEADERS OF THE BESIEGERS ARRESTED

#### French Troops Take No Part in Affair Which They Regarded As Local.

By Associated Press.

MUELHEIM, April 20.—After being tormented for three days by the communist mob which held it Muehlheim today is again under control of the constituted German authorities. The forces of 200 police and city officials which had been besieged in the Rathaus made a sortie from this great fortress-like building this morning, cut through the line of the besiegers, caught them in the rear, arrested many, and again took control of the city.

Thirty leaders of the besiegers were arrested. One of them, a man named Kurtz, is said to have been the leader of the Kiel revolution in 1918. He remained arrested and was wounded, probably fatally.

The casualty list for the period of disorders, so far as it goes up to this morning, showed six dead and from 60 to 70 wounded, some of whom may die.

French troops remained throughout the trouble in or near the security police barracks which they were occupying. They took no part in the affair, which they regarded as purely local.

Lurgmaster, Lempe, with 300 city employees and a detachment of security police who are supposed to have been summoned from Duisburg and elsewhere in anticipation of trouble had been besieged since Wednesday. They had an ample supply of food and ammunition and were easily able to hold the building which is surmounted by a 250 foot tower, the highest point in the city. On this lofty perch the burgomaster stationed sharpshooters who were thus able to pick off members of attacking parties.

The besieging forces who called themselves the "unemployed" numbered about 2,000 but the burgomaster declares there are only 500 unemployed men in Muehlheim. Many of the besiegers were merely trouble makers led by communists, he declared. This encircling army, among which were many youths armed with rabbit rifles, built barricades and tore up the paving to obtain missiles. They broke several hundred windows in the great Rathaus.

The burgomaster sent out his little force, a mixture of security police and clerks, early this morning. They broke through the barricades, rushed the besiegers and quickly routed them, gathering in only the leaders. The fight was short and sharp and the success was followed up quickly by the city forces who spread out and regained control of the town.

The victorious defenders temporarily detained numbers of the youthful adventurers, whom they spanked with extreme vigor and then ordered them to go home to bed.

### EXPECTED TO SURRENDER TO MOB OF UNEMPLOYED

By Associated Press.

PARIS, April 20.—A Duesseidort dispatch to L'Information today says that the 300 German security police who have been besieged overnight in the Rathaus at Muehlheim are expected to surrender at any minute to the mob of unemployed.

The correspondent reports that Essen, where demonstrations occurred yesterday, was quiet throughout the night.

### CHARGE FRENCH REFUSE ADMISSION TO POLICE

BERLIN, April 20.—Dispatches to Berlin newspapers assert that the French refused the requests of Muehlheim authorities to allow police from other towns to enter the city to cope with the communist disorders of the past two days.

Since yesterday, says the Vossische Zeitung, Muehlheim has been under a state of siege. Murder is a common occurrence and many dead and wounded have been taken off the streets.

According to witnesses who have fled from the city a mob of unemployed is in complete control. The shops have been pillaged in the search for weapons, and bands of men armed with rifles, knives, sticks and whips are roaming the streets. A few detectives are defending the town hall which was attacked last night.

French occupation troops, according to German sources, have apparently taken no steps to interfere.

### REPORT EIGHT KILLED IN RIOT AT MUELHEIM

By Associated Press.

BERLIN, April 20.—Eight persons are so far reported dead and more than 20 wounded as a result of the disturbances in Muehlheim, according to dispatches this noon which state that although the city has been freed from the communist grip, armed bands are still causing trouble in the outskirts.

Forty of the rioters' leaders were arrested when the municipal authorities again took control of the city. Dispatches telling of the raising of the siege say the beleaguered police were able to hold out until the arrival of police reinforcements from Oberhausen and Duisburg, who forced the barricades across the roads leading into the city.

The dispatches are said to have become well armed through plundering the shops. Messengers had to be used in summoning help from the nearby towns because Muehlheim's transport service had been idle for weeks.

The communist "red guards" as the special dispatches refer to the rioters, removed all their dead and wounded. The messengers state that some of the wounded were taken

to the barracks of the French occupation forces.

### STEADY RIFLE FIRE IS MAINTAINED ON CITY

COLOGNE, April 20.—Communists mobs were holding Muehlheim completely in their power at least at 5:30 o'clock last evening and a steady rifle fire was being maintained on the city hall in which city officials and a band of Duisburg security police had taken refuge, according to an Essen dispatch timed at that hour.

The report adds that all the city militia were barricaded. The rioters were armed with regulation infantry rifles as well as such firearms as flint locks and hunting pieces.

Other advices say that the mob was using automobiles and other vehicles to block the thoroughfares and that street fighting occurred during the evening. The few policemen who had not been deported were trying to restore order.

Numerous lawless elements are reported to be assembling at Rucklinshausen from both the occupied and unoccupied zones.

### THREATEN TO VOLUNTEER TO WORK FOR FRENCH

LONDON, April 20.—A dispatch to the Times from Duesseidort today says the unemployed council there is reported to have informed the Berlin government that unless the conditions of the 35,000 unemployed are improved they will volunteer to work for the French. The dispatch adds that it is said

two Russian bolshevik speakers at a meeting at Bochum on Tuesday advocated violent action by the unemployed.

### DALLAS OFFICERS HAVE NO CLUE TO MURDERER OF MOTORCYCLE POLICE

DALLAS, April 20.—Several suspects arrested in connection with the slaying yesterday of Policeman J. C. Gibson, shot by a burglar whom he discovered robbing a drug store, have been released and officers still are without a clue as to the identity of the slayer, it was announced today. It was expected business men would augment the \$50 reward offered by the city yesterday for the arrest of the burglar.

### INJUNCTION GRANTED TO PREVENT DRILLING

MEXICO CITY, April 20.—The supreme court has granted the petition of the International Petroleum Company for an injunction restraining the department of industry and commerce from permitting the Nelson de Alba Company sinking 10 wells and exploit 10 hectares of land in the Tuzam district, state of Vera Cruz. The land involved is considered to be among the richest petroleum property in the entire zone. It includes the famous Tototzo hacienda.

# PROPOSED ENTRY IN WORLD COURT TERMED TREASON

NEW YORK, April 20.—Senator Reed of Missouri, speaking last night at the annual dinner of the American Drug Manufacturers Association, described as treason America's proposed entrance into the world court plan as advocated by President Harding.

"Which one of you would like to be tried by a court of foreign men with only one American on it?" he said. "Which one of you would like to try the United States for life in a tribunal of foreign representatives? I call it treason. It is time to cease."

Senator Reed vehemently denounced the British in connection with the movement, referring to them as "wolves who sit on a hill and howl."

"I simply say, the greatest fool that God ever made is the man who can close his eyes to the facts and place America in a position where she can be taken advantage of by the whole world."

### POSSIBILITIES OF RAIL MERGER PLAN PRESENTED BY KELL

HOPES COLORADO & SOUTHERN CAN BE LINKED TO SANTA FE.

### OFFERS ALTERNATIVE IN VIEW OF OPPOSITION

Direct Route to Coast Next Best Thing; Speaks at Business Council Luncheon.

A presentation of the possibilities of the rail merger suggestions, from the standpoint of Texas in general and Wichita Falls in particular, was given at a well attended meeting of the business council at the Hotel McMane on Monday night...

He suggested that in this event, the alternative mentioned by him in an interview Thursday, for linking the Burlington system as a whole with the Denver & Rio Grande and the Western Pacific, giving Texas a direct route to San Francisco and the northern ports on the Pacific coast, would be the best thing...

Mr. Kell's outline of the history of the merger proposals, and the conditions that lead up to them, was presented much along the same lines as in his earlier talk on the same subject. He blamed designing politicians for the present unhappy plight of the rail systems...

During the six years from 1918 to 1923, inclusive, Mr. Kell said, nearly 24,000 miles of railroad were built; at the end of the next six years, the mileage abandoned and junked exceeded the new mileage built by 2,000 miles.

Mr. Kell continued, "the next few years may witness the abandonment of 10,000 to 12,000 miles of railroad in this country."

Mr. Kell, who is chairman of the Chamber of Commerce committee to present this city's views at the Fort Worth hearing on Monday, called a meeting of the committee for 10 o'clock Saturday. The committee

was instructed, on motion of L. J. Carithers, to represent the organization at Fort Worth. Frank Kell, T. B. Noble, W. H. Friddy, R. E. Huff and W. B. Hamilton constitute the committee. As to the disposition of the Wichita Falls & Southern under the merger plan, Mr. Kell said that its owners would fare equally well whether the State or the Rock Island absorbed it.

Miller, Mrs. Joseph Boser, Mrs. Elizabeth Erwin, Mrs. Harry White, Mrs. J. W. King, Mrs. Leslie Strippler and Miss Louise Montgomery.

An unusually interesting rodolphe is shown in "Romance Land," the Tom Mix picture showing at the Strand the last half of the week, and Manager De has invited Tom Burnett and the rodolphe performers at the Triangle ranch to witness the production Friday night. It is expected that many will avail themselves of the opportunity as Mix is very popular with those who follow this interesting and exciting sport.

W. D. CLINE TO ADDRESS HENRIETTA. W. D. Cline has accepted an invitation of the Henrietta Chamber of Commerce to speak at its meeting Friday night. The Henrietta organization holds membership meetings weekly, nearly always with interesting programs, and several Wichita Falls speakers have been invited to address it.

### BEATTY ELECTED POST COMMANDER BY LOCAL LEGION

Sam J. Beatty, who has been post adjutant of Post 484 since the last election of officers and who is possibly the most active member of the local post of the American Legion, will head that organization as post commander for the next year. Other officers who were elected at the meeting Thursday night are: C. C. Kirby, assistant post commander; W. E. George, post adjutant, and Louise Kirby, finance officer. W. H. Caldwell, J. N. Sherrell, J. B. Hatchett and Gordon Potter were appointed as members of the executive committee.

A discussion of a new club house to be erected here by the legion was brought up; the lease on the building now being used expires May 1, and some other arrangements must be made before that time.

### OFFICERS WARNED AGAINST IMPROPER USE OF WEAPONS

The following bulletin has been placed in prominent locations and on the boards at the city hall for the benefit of the officers employed in the police department. The officers were warned Friday morning.

"Any member of the Wichita Falls police department, patrolman, detective, motorcycle officer, or any officer caught striking or beating any prisoner or using a pistol except in self protection or as prescribed by law on an individual, shall be suspended from the service. (Signed) John T. Young, police commissioner; Geo. H. Hodgins, chief of police."

### HOME ON NORTH SIDE IS DESTROYED BY FIRE

Fire at the home of J. T. Osteen, 1308 North Sixth street, at 9 o'clock Thursday night resulted in a total loss of the residence and household furnishings.

The family was away from home at the time the fire broke out and the flames were well under way before the alarm was given. The high wind made it a quick and dangerous fire and when the department arrived the frame work was ready to fall. Two barns filled with lumber adjoining the property were saved from damage. The loss is estimated at \$1,000; insurance covered \$500 of the loss.

# CASSERS BURY SPUDDERS UNDER DELUGE OF DISTANCE HITS

## Three Home Runs Account for Half Of Gasser Markers in 10-5 Game; Darrough and Dumovich Hit Hard

SHREVEPORT, La., April 28.—The Gassers had their long distance sights trimmed down to perfection Thursday and buried the Spudders under a deluge of home runs in the second game of the series, 10 to 5. Half of the Shreveport runs resulted from two circuits swung by Al Simmons, the youngster from Milwaukee, and one by Standaert, the second in two days from the latter. The Rabbit Darrough started for the Spudders and the two homers by Simmons aided materially in obtaining five runs off the midgest right-hander in six innings. Young Martin Dumovich, the southpaw from the Cubs, worked the remaining three innings and in one had an inning, topped by Standaert's home run with one aboard, he allowed another batch of five runs. The Spudders' Jolley, lashed for the home run and he gave up ten hits and six runs. The Gassers' catcher, Don Moore, compiled four misplays, most of which were on the Gassers' long as those of the Spudders, nor did they bunch them when the opportunities to score were afforded. The Gassers' pitcher, Standaert, pitched three innings with three singles.

**Gassers Away in Lead.**

The Gassers' catcher, Don Moore, led when Simmons hit for the circuit in the first round, but the Spudders put scores two in the second. With one out, Whitman walked and Cotter was safe on Standaert's error. White filled the bases with his infield hit and Standaert's error. Standaert scored two runs. Burns' double, an infield out and a sacrifice fly tied it for the Gassers in the third. The Spudders' Darrough with three singles, hit and an infield out scored another for the Gassers. The Gassers took a one-run lead with two runners on in the fifth. Jolley's single and Standaert's double homer over the leftfield boards did the work. Dumovich relieved Darrough when the latter went out for a pinch-hitter in the Spudders' sixth and got by his first innning in five. White, Gassner put over five runs in the seventh. Burns was safe on White's error to start. Jolley singled and Burns' double, and Harris followed with doubles for two runs. Simmons singled and Standaert hit for the circuit. The Spudders' could get but one run in the ninth. With one out and Banner singled, Berger walked and Banner singled, filling the bases. The Gassers scored while Elliott was forcing Tanner.

## The Lookout

By AL PARKER

Regardless of the two games the San Antonio Bears have played at Houston, that club appears to be one that will seriously threaten all bidders for the Texas League flag this season.

Recent consignments of players sent to Bob Coleman's club from the meekers have just about made the San Antonio entry. For awhile the pitching seemed doubtful, but it is different now.

Coleman now has about eight pitchers from which to select his hurling corps. Lou Kraft, who went well enough at Beaumont last season to warrant a trial in the big show, is one of the late additions. Dewey Marshall, Guy Morrison, Ray Roberts, Bob Couchman and Henry Krueger, all probably will stick and the above named half dozen in all likelihood will comprise the Bear staff.

Although many of these hurlers are new in this league, their past achievements make the staff as a whole appear as formidable as any in the league.

At first base Jim Galloway, erstwhile Dallas manager, will hold sway. Enough said, in Frankie Fuller and Ewell Gross, the Bears have the best second base combination in the league and that in itself goes a long way toward making a ball club. Sylvester Simon, turned over to the club by the Browns, is the third. Simon has done in the Mint League and has created the much of an impression in the Browns' training camp this spring.

Everett Boos in left, Moke Meyers or Phil Todd in center and Ike Boone in right comprise the outfield. Ray Moore and Coleman will do the catching.

There are still some "ifs" with the San Antonio club and it is not the perfect ball club by any means. Too much of its hitting strength is on the left side of the plate. The fielding in the right pasture is exceptionally weak. If Meyers is played in center, there will not be much hitting power there, and Todd is yet to show that he can hit Texas League pitching. Simon has not yet done good as third, and the most important of all those pitchers that look so great on paper, may prove a failure, for they are not yet proved in this company.

Those same "ifs" can be applied to any club in the league, however. Even the Spudders, the Cats and the rest possess unknown quantities that can be proved only by time.

There's one consolation in that home run drubbing of the Spudders by the Cats was falling in line with the second straight time in the same place. Lay it to Sters? We're with you.

Also a kind word may be put in for the Houston Buffs. They're being the Bears beautifully in not allowing the Cats to score, but the direction from which this Lookout is leaping out of trouble.

Somebody in the elevator said Rabbit used his fence ball too much.

### EVEN SPOKE PULLS ONE EVERY NOW AND THEN

CLEVELAND, April 28.—It is not often that "Tris Speaker, star outfielder of the Cleveland Indians and one of the brainiest players in the game, pulls a "homer" but the player got one on him in the tenth innning of Thursday's game between the Indians and White Sox. Speaker was on first and Wambly on third, when Gusto grounded to Eddie Collins, who threw home to head off Wambly. Believing he had been retired, Speaker started off the field, but Collins was not on second base and had Speaker kept going he would have been safe. Before the play, Speaker made him understand. Schalk whipped the ball back to Collins for the out. It probably cost the Indians a run which would have ended the game then, as Summa followed with a long single to right.

Walker, of the Phillies, had a perfect day at bat against the Dodgers, grabbing off four hits in as many times at bat. Two of his blows were doubles.

Rogers Hornsby, leading batter of the National League, has started his hitting again. He crashed out three hits in four times at bat and two of them were triples, which helped St. Louis beat the Reds, 11 to 8.

Pinch Hitter Gardner helped break up an 11-inning game between Cleveland and Chicago, giving the Indians the second consecutive victory. Gardner's double sent home the tying run and then he scored the winning marker when Jamison doubled.

## VETERAN RUNNER IS WINNER IN MARATHON

BOSTON, April 28.—Clarence H. DeMer, of Melrose, 25, who surprised sports followers last year by winning the American marathon road race in 12 hours, 12 minutes after his first success in the event, won it again Thursday. His time was 11 hours, 42 minutes, 42.5 seconds, set in record time, 11 years ago. He was nearly two minutes faster than that of the runner-up, Frank Zuna, of the Melrose Athletic Association, New York, and his victory established him as the only man in the 27 years history of this race to win it in that time.

Efoud, the snow shoe runner from the north country, who came in eleventh, the last of the five former winners, refused to stop running when he broke the tape. He maintained his closing sprint right into the club house, up two flights of stairs, through the gymnasium to a lunch counter at the farther end and only ended when he grasped a large bowl of pea soup and raised his both hands to his lips. The officials, whose duty it was to check in the runners as they reached the club house, then corralled him and led him back to the stables.

## Damon RUNYON Says—

Mean task for fighter to explain to his wife how he lost.

NEW YORK, April 20.—The writer has often wondered what are the emotions of the wife of a fighter who sees her husband in the ring, especially when the husband is beaten soon by an opponent, perhaps knocked out.

Does she feel sorry for him as she sees him reeling, bleeding, dazed, finally stretched unconscious?

That a wife feels a thrill of triumph, of joy, as she sees her husband standing over an opponent, that she has a sense of great pride in the prowess of her man would seem certain.

But in the other event, does she entertain for a fleeting instant, before her natural womanly sympathy over his hurts rushes up, some small feeling of concern for her husband's lack of ability, some admiration for the persistence of his opponent?

Is it something she may not learn of women.

Many fighters do not permit their wives to attend prize fights in which they are to participate, not because they do not wish their wives to see some fight, but because they do not wish their wives to see them beaten.

Every man likes to appear a hero to his wife. He does not wish to have her see him in the role of a loser.

A man would be the veriest clod if his intuition did not tell him he will sink deeper in the estimation of his wife that he can never regain if she sees him in the act of losing.

In the ordinary walks of life a loser can cover himself up to some extent from his wife. He can go home and by a brief explanation make his defeat sound no worse than a draw.

The man whose wife had the opportunity of actually witnessing his reverses in business, or in professional life, who could note the cause, sees his mistakes, his futility, would not long retain her respect.

Unless he is a complete fathead, blinded by egotism, the average man at some time in his career senses in his wife a feeling toward him of dissatisfaction.

When circumstances are clouding him around her, that his wife feels he ought to be doing better, that he ought to be dodging some of the blows, of the fact that she is perhaps comparing him, greatly to

his disadvantage, to some other man who is triumphing.

True affection for a man will make a wife eventually excuse and forget his defeats. But she is bound to wonder occasionally why he doesn't win like his neighbor, who eats in the same mould, and who, better looking, has no more intelligence.

As you may perhaps know, a man feels very cheap indeed when he senses in his wife that attitude of dissatisfaction.

He can understand something of the feelings of the beaten prize fighter, who is led home with both eyes closed, his nose broken, some of his teeth gone, to explain to his wife how he lost.

It is a disagreeable task. The average man doesn't mind admitting his defeats, making explanations to other men. He cares nothing for their thoughts on the subject.

But the average man wants to retain the respect of his wife above all other things. He will win or lose, she will still be with him. But he'd rather see pride than sympathy in her eyes.

### PINCHOT MENTIONED IN CONNECTION WITH G. O. P. NOMINATION

HAS BEARING ON WET AND DRY QUESTION IN NEXT CAMPAIGN.

### INSPIRED BY RECENT CLEANUP OVER STATE

Will Not Enter Race on Own Initiative As Avowed Candidate.

By MARK SULLIVAN Political Correspondent of the New York Tribune and Wichita Daily Times.

WASHINGTON, April 20.—(Copyright 1923 N. Y. Tribune, Inc.) Gifford Pinchot, today a member of Governor Gifford Pinchot of Pennsylvania in connection with Republican presidential nomination, which is not very pregnant itself, but which has bearing on the "wet" and "dry" question in the campaign next year.

Pinchot is not very pregnant itself, but which has bearing on the "wet" and "dry" question in the campaign next year.

Although New Jersey and New York are more widely advertised in this respect it is probably fair to say that Pennsylvania, until Pinchot took hold of it, was really the wettest state in the country—wet in the sense of lacking enforcement and also in the sense of a stubborn unwillingness to accept of

WHEN OVER THE FENCE IS OUT.

practice enforcement on the part of considerable groups of its population.

Today, by virtue of the act which Pinchot forced through by focusing the better elements of public opinion on a pretty unwilling legislature, Pennsylvania has a statute equal in its rigidity to the federal one.

Will Enforce Law Further than that, everybody knows Pinchot will really enforce this law. His conception of obeying and enforcing the law includes actually practicing prohibition personally, and he will not expect anybody else to look for or to be given any greater immunity than he concedes to himself.

But there is very little actuality to the idea of Pinchot being put forward for the presidential nomination. The program of giving Harding his renomination still holds, although the frequency with which suggestions like this about Pinchot arise is evidence of the delicacy of the Harding program and the difficulty there is going to be in keeping it good.

But the greater number and the more practical men among the leaders of the Anti-Saloon League are quite satisfied with what Harding has done for enforcement, and will not abandon him on that count. So strongly has Harding leaned toward enforcement and toward the Anti-Saloon League, that it was said seriously by some disgruntled Republicans that Harding's appointment of the present prohibition enforcement officer was based not on the recommendation of any Republican, but wholly on the recommendation of William Jennings Bryan.

There is yet another reason why Pinchot is unlikely to figure in the pre-convention situation next year. The Pennsylvania term for governor is four years. Next year Pinchot will be in the middle of it. And he is not likely to run the risk of wounding the sensibilities of his

state by becoming a candidate for President before he has completed half his term as governor. It is occasionally said in Pennsylvania that Pinchot is under a pledge to fill out his term. There is not much definition to that pledge. It rests on Pinchot's having said several times during his campaign that he had no ambition except to "make a good governor of Pennsylvania and then go fishing."

Might Be Dragooned But while Pinchot will never enter the race of his own initiative or as an avowed candidate, it is always possible that in a deadlock in the convention he might be dragooned. This is, of course, only an assumption that the present program of giving Harding the nomination should fall through for any reason, and that the field should become an open one. Not only does Pinchot appeal to the drys, it is also a fact that as things stand today Pinchot is more nearly the heir of the old Roosevelt following than any other one Republican. To some extent Gen. Wood once had this legacy, and to some extent Hiram Johnson once had it. But today, among men in active political life, Pinchot has it almost without contest.

As has already been said, the program of renominating Harding still stands. If this program continues to stand the Republican party next year will be thoroughly "dry." And even if the program of nominating Harding should break down, and if some other candidate should be nominated, the Republican party would still be certain to be "dry." This is an accepted party policy on the part of the Republicans. They propose to be "dry" to capitalize their dryness and, if possible, maneuver the Democrats into the position of seeming to be "wet."

As for the Democrats themselves, there is a division of feeling. McAdoo and the McAdoo leaders who, as things stand today, compose close to a half of the party organization are as dry as the Republican party. They are really more sincerely dry than the Republicans. They are as dry as the anti-prohibition league itself. The other branch of the Democratic party has evolved a plan for being wet enough without being too wet. They have a plan for putting forward in the Democratic platform a thorough-going and well-thought-out proposal for the restoration of state rights. This means the res-

toration of state rights in the broadest sense. They propose to make the campaign on the basis of taking away some of the many functions which the federal government has been absorbing to itself for a generation, and restoring them to the state governments. The idea is that under the wing of the general proposal for the restoration of functions to the states, there should be given to the state governments the duty of enforcing the prohibition act. This would give to the various states a certain amount of latitude in defining what really constitutes an "intoxicating beverage."

### BRITISH DEFEAT PROHIBITION BILL VOTE 236 TO 14

LONDON, April 20.—For the first time in its history, the house of commons today debated a liquor prohibition bill and at the expiration of the arguments on it killed the measure by rejecting its second reading, 236 to 14.

The bill was that recently introduced by Edwin Scrymgeour of Dundee, who took his life to the cause of prohibition.

Central Presbyterians. "A Midnight Experience, the Most Remarkable Conversation That Ever Took Place If We Judge It By the Results." This is the theme for Sunday, April 22, at 11 a. m., at the Central Presbyterian church, corner Eleventh and Buff. At 7:45 Mr. Lalette will speak on "The By-Products of Life's Highway," or "The Backslider Who Came Back." Miss Katherine Cooke will bring a message in song; she is one of Wichita Falls most gifted singers. The male quartette will sing at the evening service, Sunday school at 9:45; a school that is different, bring your children; E. R. Goodner is the efficient superintendent, Mrs. Goodner organist. Reception of new members at both services.—F. C. LARLETTE, Minister; residence, 2919 Tenth street; phone 3696.

States and municipalities in March. Budgeted only about 70 million dollars worth of long-term bonds. In March of last year the figure was nearly 125 million. However, in the first three months of 1923 the states and municipalities issued almost a quarter of a billion dollars of long-term bonds. This rapidly mounting debt is a greater menace than the national debt.

## MILLION-DOLLAR TIPS ON MAKING GOOD CANDIES

CHICAGO, April 20.—"When people ask me how to succeed I answer in terms of candy: You cannot make good candy unless you use good ingredients, and you cannot make a success of life unless you put into it the best there is in you."

This advice comes from Mrs. Ora Snyder, "America's Candy Queen," who has made an initial investment of five cents grow into a million-dollar candy business in 13 years. Mrs. Snyder is writing a score of recipes for "Mrs. Snyder's Homemade Candies" for readers of the "Times."

"For example," says Mrs. Snyder, "the best substitute for butter in making candy, is—butter. And if a recipe calls for cream, you should use cream; milk will not do." Mrs. Snyder's monthly bill for the one item of cream is \$40.00.

"She gives other hints to home candy makers."

"Use aluminum kettles, as they are not so likely to burn."

"In cooking fudge, caramels and britches, use a kettle large enough to permit lively boiling without stirring over."

"A square never cooks, and in boiling to melt candy before cutting, be sure to butter the pan well."

"Too much flavoring is worse than not enough."

"Never add flavoring while candy is being cooked, as the alcohol in the mixture evaporates, detracting from the flavor."

"Candy must cool quickly; a marble slab is best for cooling."

"Never make a large batch of candy and try to cool it on a small platter."

"Don't put candy in a refrigerator, as it will absorb the moisture."

"Candies containing cream, butter or molasses should not be cooked on too hot a fire, or they will stick to the kettle."

"Stir gently candies with cream, butter or molasses as ingredients; violent stirring will make them 'sour'."

"In making peanut candy use the raw unblanched Virginia peanuts."

"If your fudge becomes too hard, don't cook it over again, but add

into inch squares and wrap in wax paper or place on buttered plates.

**Molasses Candy**  
 1 cup water  
 1 cup sweet cream  
 1 cup corn sirup  
 1 cup best grade molasses  
 1 cup light brown sugar  
 1 cup granulated sugar

Mix well and after batch comes to a boil stir occasionally to keep from burning. Cook to the hard ball stage and remove from fire. Add pinch of salt and a pinch of soda. 1 cup butter and 1 teaspoon vanilla. Mix well and cool on buttered slab or platter. When cool enough to handle, pull over hook until it is creamy and a light yellow color. Cut into small pieces and wrap in wax paper or place on buttered plates.

This candy is very good with peppermint flavor added, using 1 teaspoon of oil of peppermint, and omitting vanilla.

**Cream Taffy Kisses**  
 2 cups granulated sugar  
 1 cup water  
 4 teaspoons corn sirup  
 1 teaspoon cream of tartar  
 Pinch of salt

Mix well, place in an aluminum kettle and cover for five minutes before boiling. Bring to a firm ball and pour out on buttered slab or platter. When cool enough to handle pull over hook. Add 1 teaspoon vanilla and 1 teaspoon lemon, and pull until it is white and creamy. Cut in small

pieces with scissors and wrap in wax paper.

**Black Walnut Chocolate Fudge**  
 2 tablespoons of butter  
 1 cup cocoa  
 2 cups of granulated sugar  
 Pinch of salt  
 1 cup milk  
 1 teaspoon vanilla  
 1 cup walnut (black) meats

Add ingredients in order as given (excepting nut meats), melting butter first. Bring to slow boil. Boil until mixture reaches consistency to form soft ball, when a pinch is tested under cold water. Add vanilla. Cool 15 minutes and beat until creamy, and add nut meats last. Pour out on buttered pan or plate and cut into squares.

**Old-Fashioned Chocolate Drops**  
 1 1/2 cups sugar  
 1/2 cup water

Place in kettle and cover for 10 minutes to allow sides to steam. Boil mixture until thread stage is reached, i. e. when a small bit of substance put in water forms threadlike formation. Add a few drops of vanilla. Be sure not to stir fondant while cooking, and to prevent it from returning to sugar after batch comes to a boil. Cook to a firm ball and pour out on buttered slab or platter. When cool enough to handle pull over hook. Add 1 teaspoon vanilla and 1 teaspoon lemon, and pull until almost cold is white and creamy. Cut in small

Then mold with hands until creamy. Following this preparation, take 1 pound bar of bitter chocolate which previously has been melted in double boiler, having been sure not to add anything to chocolate while melting. Beat until same is cooled to temperature of hands or blood heat.

Cut fondant up into desired pieces of size and form. Dip with fork into chocolate. Let cool on waxed paper. This must be done in a cool well-ventilated room. Portion of fondant not used will keep indefinitely if placed in ice box until needed. These candies are delicious, but must be made with care.

My!— but she was proud

Like most housewives, she prepared her foods well, and served them daintily.

She was pleased when her husband complimented her cooking—as he usually did.

But something told her—perhaps it was her woman's intuition—perhaps her husband's silence on the question of coffee—that the coffee she made wasn't exactly right.

She tried using more coffee—then less. She made it in different ways, but to no avail.

Then she decided she would try some other brand.

The next morning she served M-J-B Coffee for breakfast. My, but she was proud when her husband said, "This is the finest cup of coffee I ever drank."

—and Tree Tea is the finest tea.

## Is the shortening pure?

"MRS. TUCKER'S looks good enough to eat just that way, doesn't it? It's so perfectly clean!" That is a remark we have heard made about Mrs. Tucker's time and again. And that is just the way you will feel the first time you open a can of Mrs. Tucker's and see its creaminess and snowy whiteness.

Mrs. Tucker's Shortening is clean and an absolutely pure vegetable shortening. It has all the richness of butter, yet is no more expensive than ordinary shortening. And it comes to you always fresh, for Mrs. Tucker's is made right here in the South.

Be sure to get the blue ball with Mrs. Tucker's picture on it.

### SPEAKER TELLS OF MASONIC WORK IN OTHER COUNTRIES

W. CONNERY, OF FT. WORTH, SPEAKS HERE THURSDAY NIGHT.

### IT'S HELL TO BE A PRINCE" ONE TOLD HIM

Address Heard at Commandery Meeting and Seven Degrees Are Conferred.

By FRANK S. REID  
C. W. Connery of Fort Worth, a 3rd degree Mason, and past commander of Worth Commandery of that city, paid Wichita Falls Commandery No. 53 a visit and gave a splendid talk on foreign Masonry at the meeting of the commandery held Thursday evening.

Brother Connery has had honor after honor bestowed him in Masonic circles because of his untiring efforts. During the late war he was commissioned to take charge and manage the Masonic headquarters building in Paris, France, taken care of by the southern jurisdiction of the Scottish Rite.

At the time he left this country, he was the only man, so far as is known, who got a passport from the U. S. government, as a Mason, to go to Europe on strictly Masonic relief work. Every one else went as representatives of the Y. M. C. A. or some welfare board.

A building was rented in Paris and the Masonic club started. "Everything was free to the soldier boy," said Mr. Connery. "We had cots for their free use when in the city; we gave them medical attention; we loaned them money if they were down and out, and a strange thing about it all was that I never took a note from a soldier Mason, merely a receipt and in fact but two instances every dollar was repaid me.

Every Monday night we had a meeting, and there never was a time that from 25 to 40 of the States in the United States were not represented, and in one instance every State but two were represented.

Traveling as he did through the foreign countries, he was able to observe Masonic conditions and give some very interesting facts concerning Masonry in the different countries.

"You are to be congratulated that you live in the United States," said Mr. Connery. "Masonry is easier to obtain in the United States than in the foreign countries, especially the Latin countries. It takes two years to become a Mason in the Latin countries. Not so in England, however. After a man makes a request in France to become a Mason, a committee waits on him and investigates him, and if he is passed upon it takes him five months before he gets his first degree. His full life history is known from birth.

"In England it is easier to become a Mason. The Prince of Wales is the Grand Senior Warden of the Grand Lodge of England, and he is one of the most democratic men I ever met," said Mr. Connery. "I remember him telling me one time that it was hell to be a prince, preferring to be as one of the common people. The King of England is not a Mason.

"In all England, there are but 73 thirty-second degree Masons, in Holland there are but 2,000 Masons and about 300 Scottish Rite Masons. Italy has about 60,000 Masons. Greece has about 500 living and about 6,000 dead Masons, as they are termed, or inactive. Switzerland has about 4,000 Masons and about 4,000 Scottish Rite Masons.

"I visited the city of Budapest in Austro-Hungary, learned of the splendid work of the Masons of that city were doing before the reign of Bolshevism. The Masons of that city had a beautiful five story building carried on a great charitable work, and were taking care of about 600 orphan children. Bolshevism took their temple, destroying their plans and at this time the Grand Lodge of the State of New York has agreed to take care of the orphan children that were formerly being taken care of by the Masons.

Mr. Connery spoke of his visit to Africa and related in an interesting way his attendance upon derwish dances, where the Mohammedans worked themselves into a frenzy and would stick knives through various parts of their body.

Mr. Connery kept his listeners spellbound for an hour and a half telling many interesting things. He exhibited photographs and interesting Masonic souvenirs that were given to him. One of the pleasant features of the evening was the presence of G. W. Carlton of the Carlton Furniture Co., who renewed his acquaintance with Mr. Connery, it being the anniversary of his visit to the Masonic club in Paris when he was with the army. He had not seen Mr. Connery since that time.

Mr. Connery's visit was in connection with the splendid meeting held by Wichita Falls Commandery. Seven candidates headed by W. B. Hamilton, president of the Texas Home Oil & Refining Co., received the Red Cross degree before the supper hour. After Mr. Connery's talk, the degree of Malta was conferred in full form by the Most Excellent Master of the Commandery under the able leadership of Sir Knight George Lawler. At the close of the degree, W. B. Hamilton was called upon for remarks, and he gave his impressions of the work in a most profound way. Splendid remarks by Sir Knight Harris, Joiner and others brought the meeting to a close.

It was one of the most interesting meetings held by the Commandery this year. Many such features are planned for the balance of the Templar year, and Sir Knights are missing real treats in being conspicuous by their absence from the lodge.

Owing to the Masonic Lodge room being redecorated next week, there will be no meeting held. Announcement of the conferring of the Temple degree will be given at a later date.

### "GOSPEL OF LOVE" IS PREACHED AT REVIVAL, 3 CONVERSIONS RESULT

The following report of the revival services at the Walnut Street Baptist Church has been handed in: Using the thirteenth chapter of first Corinthians as a Scripture lesson Thursday night at the Walnut Street Baptist Church, Rev. E. M. Yeakley preached what he terms his "Gospel of Love" to a fair sized congregation, and emphasized the fact that if Christians are to be effective in the service of their Lord and Master, they must have the love of God in their hearts in such an abundant measure that all their acts will be prompted by a consuming love for lost men and women and wandering children of their Heavenly Father—a love that will compel them to love men and women in spite of themselves and anything they say or do.

When the invitation was given, three young women came forward, their trust in Christ as their personal Savior and went away possessed of an abiding hope that is anchored safely within the veil.

A mixed quartet composed of Mr. and Mrs. Harper, Mr. Akin and Rev. Mr. Yeakley, sang "If I Could Only Hear My Mother Pray Again," which served as a very suitable preparation for the preaching service.

The meeting proper will close Friday night and Mr. Yeakley will leave Saturday morning for his Oklahoma appointment. However, the pastor, Rev. W. L. Nelson, returned Thursday from a visit and will occupy the pulpit Saturday night and Sunday for the regular bi-monthly services of the church.
