'QUO WARRANTO' BILL IS KILLED IN SENATE WITHIN 15 MINUTES

COURT MARTIAL KRUPP PRESIDENT HELD AT WERDEN

By Associated Press. WERDEN, RHENISH PRUSSIA, May 4.—This little German town, hugging the banks of the river Ruhr, is under the bill that is crowned by the Krupp mansion was attracting more attention today than at any time in its history of 11 centuries.

The French brought Werden before the eyes of the world when they decided to hold here today and tomorrow the court martial of Dr. Gustav Krupp von Bohlen, president of the Krupp works, five of the directors and four members of the workmen's council who are charged with inciting the attack on French troops on March 21.

On the outskirts of Werden, armored cars and tanks were placed at convenient places, although the military authorities agreed that there was no possibility that such implements of war would be needed.

The French troops on March 21, took place on the hillside which separates the Ruhr valley from the Rhineland heavy artillery pieces frowned upon the town.

Dr. Krupp's mansion was interrogated for an hour and a half at the opening session by Colonel Peyronel regarding the details of what took place on March 21 at the Krupp works when 14 workmen were killed and 30 wounded by the French rifle fire. He was questioned at length as to the blowing of the steam at the works when the French appeared to requisition automobiles.

AUSTIN, TEXAS, May 4.—Final disposition of the Patterson quo warranto bill, which proposed methods for removing county officials for failure or refusal to enforce criminal laws, was made in the senate last night within 15 minutes after the bill came under consideration.

The senate passed finally the bill on its calendar this morning, after a long session. The house concurrent resolution, expressing hope for success of the measure, was adopted.

The Thomas bill seeking to substitute for the quo warranto bill a bill to prohibit sale of ginger preparations was killed when it was reported unfavorably.

NEW YORK, May 4.—The rum fleet which bobbed off Jones Inlet after being driven by a land and water cordon from its mooring place off Sandy Hook, has adopted seaplane transportation to defeat the efforts of the government to block landing of liquor cargoes. It was announced at the customs house today.

A report of Lieutenant Commander Camden of the coast guard cutter Seneca said the Seneca had surprised a large gray seaplane without identifying number or insignia at the side of the yacht later yesterday.

The Itara skipper signalled the aviators that the Seneca was a government craft and the plane quickly sped away.

STAY OF EXECUTION FOR MAN SENTENCED TO DEATH IN CHAIR

LITTLE ROCK, ARK., May 4.—The Arkansas state prison at De Witt, later county mountain, has been saved from the electric chair at the last moment. Seese, sentenced to the chair, was given a stay of execution last yesterday by order of Judge Jacob Trebler until May 13 on a writ of habeas corpus.

Seese was convicted of the murder of R. H. Davidson early in 1922 and the date of execution was set for August 15. The Governor granted a reprieve pending an appeal but the supreme court affirmed the sentence. The date of execution was set for December 15 and three days before this date the court ordered an investigation to determine Seese's sanity. He was declared sane and the supreme court also upheld this finding. Third date of execution was the last. WOOL MARKET IS LAGGING BEHIND BULLETIN REPORT

BOSTON, May 4.—The Commercial Bulletin tomorrow will say: "The Boston wool market lags strangely behind the other markets of the world, in spite of the fact that consumption goes on at a heavy rate. In fact, occasional rains and low grade coolness have been made lately at concessions in this market."

The explanation of the Boston dullness seems to be that the mills are much better supplied with wool than has been supposed.

The center of chief interest, 55 cents being paid for 12 months choice wool, estimated to cost, laid down Boston, clean basis, about \$1.00.

Mohair is slow here although some hair is moving in the country.

ON TRIAL AT DALLAS ON CHARGE OF MURDER DEFENDANT TESTIFIES

DALLAS, May 4.—Abner Frasier, superintendent of the Missionary Baptist Sunday School at Maplewood, a suburb, charged with having shot and killed Bernie Banker, was on trial today in the result of a quarrel over church affairs on Sunday, February 5, 1922, probably will take the stand in his own behalf at his trial here this afternoon.

The shooting took place near the Maplewood church immediately following night services. Defense counsel indicated by testimony that Frasier was in the defense would be Frasier's plea.

E. Atwood, testifying this morning, said Banker had given a lot and some number of buildings to the church. The church was dedicated for Baptist worship only, he said, and that the Maplewood Methodists wanted to use the building. Banker said the Methodists could use the building if Frasier insisted they should not, according to witnesses. This is supposed eventually to have led to the fight in which Banker was killed.

NEW YORK, May 4.—Raw sugar futures here continued to tumble on the New York Coffee and Sugar Exchange today as 25,000 women were being marched for a protest parade against the high prices of the refined product.

Struck by a flood of selling orders that came in overnight as a result of yesterday's drop, futures fell 25- to 25 points in the forenoon trading. Operators showed uneasiness and offerings of Cuban, cost and freight were made as low as 51 cents.

Scheduled speakers included Mayor Hylan, United States Senator Golby.

CAMERAGRAMS

LONDON FOR US! Here's one English invasion of America that didn't stir a protest from one single Anglophobe. The girls are the "English rockets," straight from across the pond. Just now they're collecting some U. S. shekels in American vaudeville. While in San Francisco the girls took occasion to take a dip in the Pacific and the cameraman took occasion to snap their picture.

HEP! HERE THE MEXICAN MARINES! They do have trained troops in Mexico after all and this picture proves it. It shows Mexican marines, the neighbor republic's crack troops, on parade in Mexico City. They're called the "Mexican West Point Cadets."

SEVENTY HUNDRED YEARS AGO. This church, St. Bartholomew's, has just celebrated its 700th birthday and it feels as strong as ever. It's shown because it stands in the heart of a London market district and there are stores on either side of it. It was slightly damaged by an air raid in 1917.

The House of Representatives today passed a bill creating a new court of appeals at Eastland, Miss., by a vote of 217 to 197.

Few Hours More of Dancing And Local Girl Will Set New Record for Women, 104 Hours

At 2 o'clock Friday afternoon Jennie Mae McLeRoy had danced exactly 20 hours in the marathon dance begun here Monday noon. For the first time since the contest started her pulse was above normal; the examination at noon Friday revealed that her pulse was 72 beats. With this exception and minor trouble with her feet, she is in the best of condition and was wide awake and active.

At 2 o'clock this evening the dancer will reach the world's record set for women, 104 hours. This record was made in Culbert, Ga., several weeks ago. She will continue to dance until she reaches this record several hours, and indicated Friday that she would dance as long as her condition would permit.

Crowds came and went all day Friday and Miss McLeRoy greeted her visitors with the same pleasant smile that she wore the opening day of the marathon. No signs of fatigue were apparent and it is probable that she will continue to set a new record much above the 104-hour one has been set. Her nourishment Friday was confined to chicken broth, milk toast and eggs.

The young dancer is delighted with the reception she has received here. Everyone was anxious to give her some flowers; during the rest period others offered to brush her shoes; one youth washed her hair. In fact everything has been done that would assist her in accomplishing her aim.

The American Legion hall will be open Friday night for public dancing; Louis B. Race's orchestra will furnish the music for the dancers.

URGE THAT METHODISTS CHANGE ATTITUDE TOWARD AMUSEMENT PROFESSION

NEW YORK, May 4.—Adoption by the Methodist Episcopal Church of a less Pharisaical attitude toward the amusement profession was urged by Louis B. Chaffin, vice president of the American Society of Teachers of Dancing, in a telegram today to the board of bishops of that denomination, now meeting in Wichita, Kan.

"You are meeting in the First Methodist Episcopal Church," his telegram said. "In this the pastor admitted refused membership to Miss Edna L. Shaw, Wichita newspaper woman, solely because she was and is a dancing teacher. The official Methodist organ, Central Christian Advocate of Kansas City, later said: 'Any other action would have branded the pastor as hiring a shepherd who careth not for the sheep.' A dancing master who wanted to come into the church and who professed no preference and no resolution to quit the profession, would not break into the church."

Methodism's senior bishop, Joseph F. Berry, of Philadelphia, declining to speak for your board

and for all Methodists, also later banned the theatrical profession from membership. * * * Actors, equity associations and leading dancing masters organized are publicly recorded, as dissenting to Methodism's un-Christian attitude toward members of the amusement profession.

Won't you investigate treatment recorded Miss Shaw in Governor Allen's own home church where, as a church trustee, he personally destroys such stunts?"

TEXAS WOMEN JOINING STELLA VITAE CAMPAIGN

Mrs. Katie Hill, of San Antonio, Tells Her Experience and Begs Other Suffering Women to Try This Wonderful Treatment.

"If every woman who is suffering from female troubles would take my advice, they would get some Stella Vitae and begin taking it right away," declared Mrs. Katie Hill, 211 Thibodeau street, San Antonio, Texas, in a letter received since the Better Health for Women Campaign, now in progress was launched in Wichita Falls.

"I know what I am talking about," she said. "This treatment has brought me so much relief and built me up so you would hardly recognize me as the same woman I was before I began taking it."

"No woman ever suffered more than I did with weak spells, nervousness and terrible headaches and backaches. I never wanted anything to eat and I fell off in weight until I was worried almost to distraction. I had constipation, too, and pains around my stomach all time that would almost double me up."

"I tell you I was miserable, but soon after I began taking Stella Vitae I noticed my troubles easing up. I began to get hungry and my food didn't upset my stomach any more. I got to sleeping sound at night and picking up in weight and now I feel just fine in every way. That's why I say Stella Vitae ought to be used by every suffering woman. It's the greatest treatment on earth."

Note: Stella Vitae may be obtained from any druggist and is sold upon the positive guarantee to bring relief or the purchase price will be returned. Tipton's Drug Store and Miller's Drug Store.—adv.

BEN WILLIAMS IS TRIED AGAIN IN EMBEZZLING CASE

Ben Williams was tried the second time within as many weeks in the 20th district court Friday on the charge of embezzlement of money from A. H. Boycan, an employe of the M. & T. railroad.

The first trial last week resulted in the jury being unable to agree on a verdict and was discharged after it had been locked up over 21 hours.

Williams was indicted following the disappearance of a pay roll of over \$2100 on March 1, which he and Red Clarke explained occurred when they were held up by two highwaymen and relieved of all the money. The same day that the alleged holdup was staged Williams and Clarke were arrested and placed in jail.

The following day Williams led Chief Deputy Sheriff Jack Miller to the scene where the money was found and explained that he and Clarke had hidden the money there after framing the alleged holdup.

The defense in the case was that the money had all been returned and that no one has been injured and for that reason there occurred no embezzlement.

The case was concluded at 2:30 o'clock Friday afternoon and went to the jury at 4:00 o'clock.

Great Britain and United States Not Quite so Friendly

NEW YORK, May 4.—Relations between this country and Great Britain are distinctly less friendly than they have been at any time in the last eight or nine years, and the people of both nations display an astounding indifference toward each other, says the 1922 report of the Sulgrave Institution of the United States, made public today.

The growing apathy is attributed by the Sulgrave Institution to be cooling of war passions and differences of opinion over the peace terms, the "pernicious activities of alien organizations," and the renewal of keen commercial rivalry.

Directors and Ladies of Golf Club Entertain, Chicken Roast Luncheon, Music Federation Guests Thursday

The visiting ladies of the Texas Music Clubs were guests at a lovely luncheon given by the directors and their wives of the Golf Club Thursday noon.

The hospitality was perfect in its plans and appointments. Tables were arranged on the veranda, overlooking the beautiful grounds of the new club, and were decorated with the wild flowers which grow on the course, arranged in pretty may baskets.

The directors' ladies served the luncheon with the barbecued chicken a delicious piece de resistance in the menu, and accompanied by potato salad, deviled eggs, hot buttered rolls, tomatoes, pickles and olives, coffee, strawberry ice cream, and sweet wafers.

At the center table were Judge Britain, president of the club, and the officers of the visiting Federation, while the other guests were grouped about smaller tables, with the other club directors. The hosts included Judge and Mrs. Stanley W. Daniels, W. M. McGregor and R. O. Harvey.

Judge Kay returned thanks, and Judge Britain gave an informal greeting and welcome to the guests.

SAYS CONCESSION WILL INCREASE SUPPLY OF OIL AND SHORTEN DISTANCE

WASHINGTON, May 4.—The concession in Turkey voted by the Angora assembly will not only result in increased supplies of oil but will shorten commercial lines from America to the far east by 2,000 miles, according to M. Chester, retired, whose syndicate under the contract is to develop the territory, declared in an address last night before members of the National Press Club.

CROSS COUNTRY TRIP AVIATION PROGRESS

in his enthusiasm and his words found echoes from every quarter of the country in telegrams including one from President Harding which read: "You have written a new chapter in the triumph of American aviation."

Except for a few splutterings of oil from the Liberty engine that had brought them a greater distance than any persons have ever flown previously in one continuous flight, they were seemingly as fresh on landing as if they had taken an hour's jaunt. They began telling newspaper men how they planned to try for now and more difficult records.

The story of the flight was told by the men who made it in a matter of fact way with first one then the other putting in a sentence or a word to illuminate some point as they alternately carried on the description.

GOV. COX WILL BE ACTIVE FIGURE IN DEMOCRATIC FIGHT

CHIEF HANDICAP IS SEVERE DEFEAT IN 1920 CAMPAIGN.

MAY HAVE CONTROL OF DELEGATION OF OHIO

Courageous and Outstanding Advocate of the League of Nations.

By MARK SULLIVAN Political Correspondent of the New York Tribune and the New York Daily Times. (Copyright 1923 N. Y. Tribune, Inc.)

WASHINGTON, D. C., May 4.—The position of ex-governor James M. Cox in the Democratic fight for the nomination next year has emerged to a point where it is possible to speak of it with some degree of definiteness. The first element in that situation is that Cox is not going to be what, for example, Parker was after his disastrous defeat by Roosevelt in 1904. Cox is certainly going to be an active figure next year, and under certain situations may be one of the leading figures.

SULLIVAN

It would be far too much to say that he is now one of the more serious possibilities for the actual nomination. But it would be too much also to say that even in this respect he is absolutely and definitely eclipsed. Omitting the actual nomination, in the field of determining who else the nominee shall be, and in determining the party's policies, Cox is clearly disposed to be much to the front and probably will succeed in being to the front.

Cox's chief handicap is, of course, the obvious one of his severe defeat in 1920. Next to that his principal handicap is his changed relation to his own state of Ohio. In 1920 Cox was in the governor's chair and was without competition as Ohio's favorite son in the Democratic convention. But due to events which have occurred since 1920, Cox's hold on the Ohio Democratic organization has become much less firm. Some of the Ohio leaders, who were Cox's principal friends in 1920, and who were most responsible for getting the nomination for him, do not now occupy the same relation to him. Some of them are out of politics voluntarily, some of them are out involuntarily and some have transferred their loyalty to others. Nevertheless, the probability is that Cox will attempt to secure the Ohio

delegation of 48 members to the next Democratic convention. He may not secure them in the sense of a devoted and persistent following, as he had them in 1920, at the same time, he may be able to secure the delegation certainly in a complimentary sense and possible in the sense that he may be able, in some degree at least, to direct this big state delegation with relation to the choice of the nominee and to the making of the party platform.

In one respect Cox is unique among the Democratic leaders. Next to Wilson, he is the most courageous and the most outstanding advocate of the league of nations. If he were free to speak his heart, he would probably not say that he is necessarily for the league in the exact form that Wilson wrote it. But he is in favor of America's cooperation with the other nations for the preserving of peace in the spirit of the league of nations, to a greater degree than any other Democratic leader of his rank. The place that Cox will have in the next Democratic national convention will depend on what kind of platform the convention wants to adopt with reference to foreign relations.

PAN-AMERICAN MEETING REACHES AN AGREEMENT ON GENERAL QUESTIONS

SANTIAGO, CHILE, May 4.—The sixth pan-American conference, which ended its sessions last night after six weeks of deliberations, succeeded in reaching agreements on general questions of commerce, education and hygiene, but failed to smooth out the difficulties that arose in such topics as naval armaments, an American League of Nations, the Monroe Doctrine and an American court of justice. Consideration of some of these questions was postponed.

Future pan-American gatherings will be called upon to take further action on various subjects of general interest to the western nations. The conference adopted two treaties, one for the protection of pan-American trade marks, the other for an agreement under which

international disputes would be investigated by a fact finding commission. The hygiene committee, headed by Dr. George E. Vincent, president of the Rockefeller foundation, brought about the adoption of measures that will enable international cooperation in stamping out disease. Many of the delegates believe this was one of the most important works of the congress. The conference also gave encouragement to the prohibition movement agreeing to assist in keeping intoxicants from being exported to the United States.

CONTINUE INVESTIGATION INTO DEATH OF STUDENT

CHICAGO, May 4.—Grilling of more than a score of students, former student and one official of the Northwestern University by the state's attorney staff in connection with the death of Leighton Mount, former student, whose skeleton was found beneath a pier on the lake front in Evanston, the north shore of the university, continued until an early hour today, ceasing just a few hours prior to the second session of the inquest over the

bleached bones, called by Oscar Wolff, coroner. While the coroner prepared to open the inquiry with the testimony of Mr. and Mrs. J. L. Mount, parents of the student believed to have been killed accidentally in the class rush of sophomores and freshmen on the night of September 21, 1921, 48 more students, 20 members of each the freshmen and sophomore class of 1921, were called for today's session of the inquiry. A THOUGHT FOR TODAY

He that laboreth laboreth for himself; for his mouth craveth it of him.—Prov. 15:26.
We ought to be thankful to nature for having made those things which are necessary easy to be discovered; while other things that are difficult to be known are not necessary.—Epictetus.

ANSTIE'S LIMIT.

He is not drunk who, from the floor, Can rise and drink, and call for more; But he is drunk, who prostrate lies, Without the power to drink or rise.

Did you ever get into an argument that became heated and wound up close to a fight, with the original bone of contention lost sight of at the finish?

This sometimes happens in arguments over the prohibition question. Bootleg liquor is so vile and poisonous that by comparison the kind once sold in the saloons is pictured as good and virtuous, and we apparently have forgotten that even the best of alcoholic liquors brought all the evil which caused the people finally to rise up and place the ban upon them.

The real cause that brought prohibition was alcohol's effect on its drinkers and their innocent bystanders. Especially the effect in lowering their efficiency at work, which was why so many large corporations backed the dry movement—and incidentally one of the leading reasons why liquor never will come back.

American are losing sight of the original cause of prohibition. You rarely hear any one talk about the evil effect of alcohol. Attention has gravitated to the problem of how and where to get it, whether it's safe to drink, and whether it will ever "come back" in modified form like beer—or a sudden reaction restoring whiskey to consumers.

Dangerous to forget the original cause of prohibition—alcohol's effect on drinkers. To refreshen our memories, let's give thought to Anstie's Limit.

Do you recognize the words? Used to be used commonly.

Dr. Patton, of the Prudential Life Insurance Company, once defined "an immoderate drinker" as "one who drinks regularly in excess of Anstie's Limit or who may because of individual susceptibilities be unduly affected by that amount or less."

Anstie's Limit means "the daily use of alcohol not to exceed one and a half ounces, corresponding with four ounces of the ordinary whiskey or brandy or a quart of beer."

A drinker passes Anstie's Limit when he takes more than a quart of beer or eight tablespoonful of whiskey or brandy a day.

Offer the average person a drink and his chief question, and usually his only, is: "But are you sure this is real stuff?" Having assured himself that it is, the wise man will ask a second question: "Granted that it's so-called pure liquor, what is it going to do to my nerves, my stomach, my general health, my pocketbook, my family, my efficiency at work?"

So-called pure whiskey is just as much a poison as it was before prohibition went into effect, though most people seem to be forgetting that angle of the prohibition question.

And as bad as the best liquor was or is, think of what bootleg liquor is. A. B. McDonald in the current issue of the Ladies Home Journal gives some startling facts about bootleg liquor. He tells of what it is made and how it is labeled as "bottled in bond."

He quotes among others Dr. William McNally, coroner's chemist of Cook county, who has analyzed thousands of samples of liquor taken from the pockets of men it has killed, from liquor in the stomachs of dead men, from liquor bought from bootleggers, from that seized in raids. Here are some of the things he has found: Denatured alcohol; brucine sulphate, a poison; bichloride of mercury, a poison; nitrobenzol, a poison; acetate of lead, a poison; sulphuric acid, a poison; wood alcohol, a poison. These are only a few of the more deadly poisons he has found.

There is a long list of other injurious things and in another article in the same issue of the Ladies Home Journal about "bootleg" Hugh S. Cummins, surgeon general of the U. S. Public Health Service, tells "How It Kills."

The "good old stuff" of which you hear some men talk which would throw a man "without the power to drink or rise" until he slept off some of the effects of it aroused a people of a whole nation against it. What was the "bootleg stuff" that put a man where he never will rise?

GOVERNMENT JOBS FOR EVERYBODY.

Perhaps you have been concerned about how your dependents will make a living. Quit your worry. At the rate of increase in recent years, it will not be long before there will be a government job for everybody.

There is a great and growing business in the United States, says The Nation's Business. "In which almost anyone willing to work can find a place, in which salaries are fixed and guaranteed by law, in which promotion tends to become more and more automatic and dismissal more and more difficult. It is for these reasons a profession which makes

KEEP TESTING YOUR LIFE.

I like to be misled—and I like to mislead those I love. Because then I know that I have given out something and in return I have received something.

And when I lie down at night, and think during the last few minutes before I am fast in sleep, and can recall things I have done, or something I have said that has made someone else happier, then I know that my life has not been lived in vain.

It's a good thing to keep testing your life to see if it is measuring up.

I see that my car is kept in smooth running order. I have it inspected regularly. For I use it daily to take me back and forth from work and to give pleasure to others. I see no reason why this life of ours should not receive as good attention.

What an inspiring thing an active, thoughtful, helpful, useful life is!

If we keep testing out our abilities and talents, we come to know just how strong we are; but that is not all. As we find out that we are strong, we learn that we can become stronger. That is the wonderful fact about life.

If a man does not put himself to a thorough test every day, how is he going to know how strong he is?—And if he doesn't know how to walk past failure, how is he to face success?

Keep testing your life. Keep learning new things about it. Find out exactly just what you are able to make out of it.

What a thrilling thing to go mining into one's very self for the gold of ability that lies hidden within us all.

We never know how far we are able to go in the world with what we have until we have learned through repeated tests.

"Where's your dog Bodine?" he demanded when Blaise had left. "Not him?" Cash questioned. "I ain't got him nowhere."

"What?" "I ain't seen Bodine. I was just running a windy on the kid. I picked up the fresh trail of three horses this evening. They had come from the west. I've been chasing 'em back and forth 'til I 'bleek 'em up in the dark, or I'd 'a been here sooner."

Buck fanned the coals in the kitchen stove into a tiny blaze when they had gone. Next he filled the coffee pot. When he had set it on the fire, he propped up his chair and fell to dreaming.

Shorby had not yet reached the ranch. Buck had sent him with a team and light wagon, with instructions to take the short cut east of the cemetery in Paradise. ROAD AMENDMENT IS DISCUSSED BY BUSINESS COUNCIL

CHANGE IN CONSTITUTION TO BE VOTED UPON IN JULY; SPEAKERS INVITED.

WICHITANS GO TO MEETING AT GRAHAM

Will Represent This City at C. of C. Banquet; Home Exposition Plan Discouraged.

Discussion of the state constitutional amendment to provide for a state system of highways featured the business council luncheon at the Kemp Friday. The amendment will be voted on at a special election July 25. It was decided to invite members of the state highway commission here to present the matter. Judge B. D. Sartin was asked to discuss the matter Friday, and he raised several questions as to the advisability of adopting the amendment owing to the extensive powers it confers on the state highway commission; he pointed out the possibility of counties like Wichita, which have already voted road bonds, being taxed to build roads in other sections.

B. J. Bean pointed out that isolated stretches of good road are of little benefit and that Wichita Falls would be greatly helped by any state road system that linked this county's highways to those of the state as a whole. A letter from Greenwood, asking this city's support in landing the 1924 meeting of the West Texas Chamber of Commerce, told of that city's hopes for a direct rail connection with Wichita Falls via the Wichita Falls & Southern.

A report was given of the invitations to Dallas city and county officials to visit the irrigation dam-site-in-a-connection with Dallas' plans for a larger reservoir on the Trinity.

It was decided not to enlist in a movement for a "own your own home" exposition here on account of such matters already being cared for by other agencies.

It was announced that Luther Hoffman, Hubert Harrison, L. E. Whitman and perhaps others would represent the local chamber of commerce at the Graham C. of C. banquet Friday night.

Young San Antonian Demonstrates Wonderful Gift in Organ Recital

Representative musicians and music lovers from all over the state learned the adaptability of the modern organ, the great variety of tonal qualities and control, and the marvelous possibilities of the Reed instrument for concert work when Hugh McAnis, young San Antonian artist, played a beautiful organ program at the First Baptist Church Thursday afternoon.

The effects of coupling the keyboards, the great swell choir, solo, echo, pedal and chimes, the possibilities of contrast in all the departments of the organ, and the combination of the wonderful assortment of tones, all demonstrated the masterful technique of the extraordinary young virtuoso, who is a native Texan. McAnis gave a heavy classical and lighter classical program, divided into two parts, and the crowd which filled the Baptist church demonstrated his popularity as an organist.

The program was presented under the auspices of the Texas Federation of Music Clubs.

HOWAT IN MAINE IS WAITING FOR DECISION

HOUSTON, MAINE, May 4.—Alexander Howat has not given up hope of telling the coal miners at Glace Bay, Cape Breton, in person, of his effort to regain membership in the United Mine Workers of America.

Turned back by Canadian immigration officers at McAdam Junction, N. B. on the ground that he had been convicted of a crime in Kansas, he came here yesterday and announced that he would remain until a final hearing had been made by the immigration department at Ottawa.

Howat, who was deposed as president of the Kansas district of the United Mine Workers, declared that he would work for restoration to membership on "his own merits," and would not agitate for the formation of a rival union.

FIVE FILE OATH OF POOR CONVICT AND GET RELEASE

Five men who were sentenced to pay fines upon conviction in federal court of violations of the federal prohibition laws filed oaths of a poor convict before United States Commissioner J. A. Lantz Friday morning and were released.

Those who filed the oaths and the amount which they were fined by Judge Wm. H. Atwell follows: W. L. Taylor, \$12; George Derriington, \$200; O. F. Robertson, \$100; R. Tiner, \$100, and J. J. Davis, \$150.

The federal law provides that the government can hold a man for thirty days for non-payment of a fine but that upon the expiration of this length of time that the man can gain his freedom by swearing out what is commonly known as a pauper's oath.

The release from jail, however, does not cancel the amount of the fine and if at any time the defend-

ants so released acquire any property the government can levy upon it in satisfaction of the fine and no credit is allowed, the thirty days spent in jail for non-payment.

What I Have Learned in 47 Years Practice

I HAVE been watching the results of constipation for 47 years, since I began the practice of medicine back in 1875. I am now 83 years old, and though from time to time the medical profession makes some wonderfully interesting experiments and tests, the fundamentals of causes and relief in this particular ailment are unchanged.

Recently there has been a new wave of drastic physics. Calomel, a mercurial that salivates and loosens teeth, has been revived; salt waters and powders that draw needed constituents from the blood; colic tar dispensed in candy form that causes skin eruptions. In a practice of 47 years I have never seen any reason for their use when a medicine like Syrup Pepsin will empty the bowels just as promptly, more cleanly and gently, without griping, and without shock to the system.

From a recent portrait of DR. W. B. CALDWELL, Born Shelbyville, Mo., 1859

But the people take greater interest today in their health, in diet, exercise and the drinking of water. Constipation, however, will occur from time to time no matter how one tries to avoid it. Of next importance, then, is how to treat it when it comes. I believe in getting as close to nature as possible, hence my remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It is made of Egyptian senna and pepper with agreeable aromatics. Children will not willingly take bitter things. Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not gripe. Thousands of mothers have written me to that effect.

Keep free from constipation! It lowers your strength 25 per cent, hardens the arteries and brings on premature old age. Do not let a day go by without a bowel movement. Do not sit and hope but go to a druggist and get a bottle of Dr. Caldwell's Syrup Pepsin. It is a generous-size bottle. Take a teaspoonful that night and by morning you will be well. The cost is only about a cent a dose. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, our and crampy stomach, piles, indigestion, loss of appetite or sleep, and to break up fevers and colds. Always have a bottle in the house, and observe these three rules of health: Keep the head cool, the feet warm, the bowels open.

Over 10 million bottles of Dr. Caldwell's Syrup Pepsin are now sold every year, and it is the most widely bought family laxative in the world. I say family laxative because all in the family can use it with safety. It is mild enough for the infant in arms, effective in the most chronic constipation

of an adult. The formula is on every package.

TIMES' GROCERY-MARKET DEPARTMENT

Take Full Use of Vegetables That You Can Get Now

In the spring the appetite is excellent. Nature is telling us we should eat more of the things that are now in season. There is nothing better at this time of the year than the vegetables that are now in season. They are much better than the things that are in season in the winter. At least twice daily it should be used. Many people object to oil in a salad, but it should be served with a little oil. Of course cream is a good substitute and a good dressing may be made by adding a little beaten cream, oil, vinegar and pepper in the usual proportion for French dressing. Everyone should eat a little of one of the best salads consists of sliced tomatoes, sliced onions and French dressing. The best potato salad, the potatoes should be cooked in their jackets and cooled before peeling. They should be cut by sliced and mixed with very thinly sliced onions, and well seasoned with salt, pepper and enough oil to make each slice of potato shine. Cool and in vine, add a little more oil, vinegar and chopped parsley. Lettuce some green salad plant adds to freshness. Hard-boiled eggs, cooled dressing in luncheon dish. For dandelion salad, dig the green on only an inch above ground—take up the white, green and stalk. Thoroughly wash, dry and serve with hard-boiled eggs and vinegar, salt and pepper. Turn onto slices cold ham or tongue and garnish with any green salad plant. Combining vegetables is often a satisfactory change. Peas and carrots, white turnips and carrots, turnip and spinach, spinach and beets and many others, always choosing one which go well together. Potatoes, carrots, turnips, celery a peas added to a cream sauce to which is added a little curry powder is not only appetizing, but a good way to use left-over vegetables. Cooked vegetables rubbed through sieve may be made into a soufflé timbale. When served with a sauce they are very satisfactory.

ing and contain a goodly amount of food value. This sure the reason for so many persons disliking vegetables is because they had them served in the same unattractive way. And many times a vegetable is made less attractive by putting over it a poorly made white sauce.

Melted butter, and sometimes a little lemon juice or yolk of egg added, is much better.

Emerald Salad.
To provide six servings of Emerald salad, remove the pulp from two grapefruit and add to it one cup of finely cut celery, two tablespoons of chopped green peppers, three tablespoons of oil, a tablespoon of grapefruit juice, one-quarter teaspoon of salt, and eighth teaspoon of pepper and a teaspoon of sugar. Chill.

Then cut some green peppers into rings, allowing three rings for each serving, wash and separate the leaves of a head of lettuce or two bunches of watercress, and, at time of serving, place two or three of the leaves on a plate, on them arrange three pepper rings in the form of a shamrock, in each ring put a spoonful of grapefruit pulp, and cover with mayonnaise, of which there should be altogether a cupful. Sprinkle with toasted crackers and cream cheese.

Potato and Egg Salad.
Cut three cups of cold boiled potatoes into small cubes. Finely chop two hard-boiled eggs. Cut two pickles into small dice. Thinly slice a small onion, or if a bunch of young green onions should be used, take two or three inches of the green stalks. Mix all the ingredients

together, with two tablespoons of chopped parsley, a teaspoon of salt and a little pepper to taste, and a cup of cooked salad dressing. And serve in bowl lined with lettuce leaves, or individually, in a nest of the leaves.

POTATO CHICKENS
By BERTHA E. SHAPLEIGH
Of Columbia University
These potato chickens are very attractive to serve at a children's party. The ingredients are: Three cups hot-mashed potatoes (three tablespoons butter, one teaspoon salt, one-eighth teaspoon pepper, one egg, and yolks of two eggs). Add the butter, salt, pepper and eggs to the potatoes, and beat well. Cool, and shape with the hands into chickens. Brush over with egg and set in over to heat. For eyes use whole black pepper, or peppercorns as they are called, and for the feet whole cloves. Serve on a bed of watercress or parsley.

These chickens may be rolled in flour, dipped in egg-beaten with water, and rolled in fine dried bread crumbs. Fry in deep fat and garnish as directed.

O. D. White and George Harris, of Morgan, Texas, who were in the city called for witnesses for the defense in the Mrs. Roy A. Taylor case, returned to their home Friday morning. Neither testified in the case.

NAME BOULDER FOR FORMER WICHITAN NOW IN COLORADO

John T. Roberts, former Wichita Falls railroad man, now owner and manager of the Peaceful Valley resort in Boulder county, Colorado, and a director of the Boulder Chamber of Commerce, has been honored by having a glacier named after him in tribute of his efforts in connection with its exploration. Roberts Glacier is one of eight in Boulder county. It is described in the tourist section of the Boulder News-Herald, a copy of which has been received by The Times.

The paper contains many interesting articles about the glaciers in Boulder county and other natural attractions there and is illustrated with a number of photographs. Peaceful Valley is in the Colorado national forest, 10 miles below the Middle St. Vrain glacier. It was opened several years ago by Mr. Roberts and has become one of the most popular summer camps in that section. The village has a hotel, a store and a number of cabins. Peaceful Valley is also being opened.

DEATHS.
Mrs. George Hunt, former resident of this city who died in a sanitarium in Chicago, will be brought to this city Friday night for burial. Funeral services will be held Saturday afternoon, although the time and place has not yet been definitely determined.

Louis N. Jernigan, superintendent of the county farm, who was confined to his bed the past three days due to another attack of appendicitis, was able to be up Friday morning and came to the court house.
