HEALING POWER OF CHRIST IS SUBJECT OF SERMON SUNDAY

The healing power of Christ was the theme of the Sunday morning sermon of Dr. F. C. LaRue at the Central Presbyterian Church. His text, being from Luke 9:17, Dr. LaRue said:

"This is the story of a clinic in Capernaum 1,900 years ago. The man who tells it was a great physician, Dr. Luke, who wrote the third gospel which bears his signature. He had practiced in Antioch, after making his degrees under Hippocrates, the greatest of the ancient masters of the healing art. A man named Jesus had come to Antioch, and preached on the great verities with such simplicity and power that the masses heard him gladly. This was the more remarkable because Jesus was a carpenter with no learning beyond the rabbinical schools.

"But He possessed a power which He claimed did not belong to any man. He claimed to do what the sick felt of charge. Mothers brought their ailing children. Many were brought on stretchers and they were all healed. A more amazing thing was yet to come. The throng was so great there was no room in the crowd where Jesus was staying. Then came the unusual.

"A man of standing in the community, afflicted with a terrible incurable disease, had been brought by friends who, finding it impossible to make their way through the crowd, carried him up an outer stairway to the house top, tearing away the tiling, letting him down 'in the midst of the crowd, and Jesus greeted him with the words: 'Son, thy sins be forgiven thee.' And immediately he arose and departed, glorifying God.

"Dr. Luke was dumfounded. He had seen the omnipotent power of God, and this power always covered upon one point, to wit: His saving grace. His sermons were all parables; His miracles were all healings; His whole life was centered in the cross.

"Thus the clinic answered a double purpose. So deeply was Dr. Luke impressed that he followed Jesus from that day on, and years afterward went with Paul on his missionary journeys, not only as an attendant physician, but as a true 'y' fellow in service, satisfied by the evidence and observation that Jesus is the Christ and has power to forgive sins, and the argument holds good today.

"We are not ruminating in the region of ancient history. The logic of history works outward and upward from axioms that never change, and one of its constant factors is man. There is no such thing as the new man or the new woman, the new day. There is nothing new either in the nature of man. His pains and passions, his dreams and visions are what they were in the infancy of time. The same disease strains mingle with the currents of life blood. In his remembrance mood, remorse pricks him to the heart and evokes the pentecostal cry, 'Men and brethren, what have we done?' 'While evolutionists are guessing, it behooves them to guess once more as to why evolution has not evolved some sort of better man. Another constant factor is, 'Force the conservation of energy.' Just now it is called, 'Who invented it?' 'Nobody.' 'Curtis discovered it.' 'Forces are never invented; they are discovered.' Franklin never invented electricity, or Watt steam. They found

HOME BEAUTIFUL IS VISITED SUNDAY BY ENORMOUS CROWDS

The largest crowd which has yet visited it, inspected the Times Ideal Home Beautiful at the corner of Avenue M and Bell, Sunday afternoon.

With work on the interior now in progress it is necessary that the windows and doors be kept closed as protection against the weather and visitors are asked to kindly see that everything is closed after inspecting the house, in order that damage from wind and rain may be avoided.

The paper which has been selected and on display for several days will be put on, in a few days, as the design is already on the walls in most of the house. When this is accomplished the house will be practically ready for the furnishings, draperies and the final touches which are necessary to make it complete.

If you have not yet seen this home do not wait a day longer as you will especially enjoy the progress which will be made rapidly from now on.

Tuesday Marks Happy Culmination Of County Bastille Romance: Jumbo And Viola to Hear Wedding Bells

Tuesday, May 29, will mark a most important date in the history of the Wichita county jail.

The importance of the date can well be recognized in the assertion that on this day wedding bells will ring for Jumbo and Viola and will mark the culmination of a real colored Romeo and Juliet romance.

Now Jumbo's real name is Benny Little. Some time he is called Slim, and is better known as chief bell hop of Murphy Manor. Viola has been sojourning at the manor for a spell ever since the federal court was in session.

Monday marked the end of her visit at this hotel but Monday forenoon she is to be married to Jumbo. The decision was made Sunday evening that the important step in their lives would not be taken until Tuesday morning, and besides it will give the bride-to-be some little time for preparations.

The very first day that Viola put up at the manor she noticed Jumbo's neat appearance and the elegant manner in which he ate. He is already on the walls in most of the house. When this is accomplished the house will be practically ready for the furnishings, draperies and the final touches which are necessary to make it complete.

If you have not yet seen this home do not wait a day longer as you will especially enjoy the progress which will be made rapidly from now on.

Ice Picks Barred As Playthings For Children at Park

A request has come from park officials to the parents of children who go to Bellevue park for their recreation, to see that the young bloods are not armed before they leave home for their afternoon frolic.

The request was made following an astonishing discovery Sunday afternoon when five small boys were forced to leave the park when they were found playing with ice picks.

One of the lads was found standing underneath the chute with an ice pick stuck between the cracks. It was the child's idea of a practical joke for some other child who was sliding down the chute to catch on the ice pick. The pick was taken from him and he immediately complained that the other boys still had theirs. Upon investigation, four other boys were found waiting in line with ice picks for their turn to stand underneath the chute.

Park officials said Monday that the practice had not resulted in any serious accidents but urged parents to protect their children against the youthful prank players.

CORN PARTIES AND FIGHTS FEATURE CITY COURT MONDAY

Eighteen cases appeared on the docket in the city court Monday morning following a busy week-end of the city police force. Drunkenness, vagrancy, disturbing the peace, and affray covered the charges that were booked for trial.

Broken bottles and liquor-soaked wrapping paper as evidence cost the four defendants in one case \$15 apiece. They were arrested Sunday night when city officers broke up a drinking party in an automobile on Seventh Street. Just as the officers approached the car the bottles were broken, witnesses testified Monday morning. Only one of the defendants appeared for trial; bonds were forfeited in three of the cases.

An affray charge against a local merchant and a book agent brought out an argument between the two men which had led to the affray. The battle started in the union station Sunday afternoon when the merchant sought to keep the agent from boarding his train until he settled an account. Both men were fined \$10 on pleas of not guilty to the charge.

Several fines of \$10 and \$15 were imposed in charges of drunkenness and vagrancy.

William King, aged 85, died here last night at 7:30 o'clock at the home of his son, Gus King. He was taken suddenly ill and lived only a short time. Deceased is survived by two daughters, Mrs. Mary Jarrell and Mrs. Jim Young, both of Decatur. The body was shipped by the Moore Undertaking Company this morning to Decatur for burial.

LONDON, May 28.—Austin Chamberlain's letter to his constituents in which he says that Premier Baldwin did not ask his help in forming the ministry, has caused a sensation. It is generally believed that the letter has deepened the cleavage within the conservative party which it was hoped the change of premiership would remove. According to the Morning Post Mr. Chamberlain's letter "is drawn up at a meeting attended by the leading coalition, Mr. Chamberlain and Winston Churchill."

HONORS SENIOR CLASS MASKELL HIGH SCHOOL

MASKELL, TEXAS, May 28.—Perry B. Patterson gave a dance Thursday evening, May 24, at the Elks Club, honoring the senior class of '23. The music was furnished by the Society Symphonette, orchestra of Stamford, Texas, the personnel of the orchestra being: Messrs. Bennie Hurraw, Cliff Brewster and Fugus. Some of the seniors were a little late in arriving, as they were taken on a picnic before the dance, but by 10 o'clock the majority of the class was present.

A large number of out-of-town guests were present, among them being Warren Hastings, Whoop Carmon, Jim Red English, Elizabeth Hall and Irene Brown of Stamford; Dr. and Mrs. Davis, Grace Lee and Margarette More of Monday; Dr. Palmer, Dr. Hoper and Jess Campbell of Rule; Victor Dick, Rochester; Miss Bendict, Kemo City; Mr. Shaw, Wichita Falls; Miss Billie Bryson, of Sulphur Springs.

There were guests from Truck-morton, Wienert and Bagerton, whose names were not obtainable. Everyone left declaring a wonderful time.

Bilious Attacks Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

Nujol is a lubricant—not a medicine or laxative—so cannot grip. Try it today.

WORLD GRADUATING EXERCISES FRIDAY AT CHILLICOTHE

DIPLOMAS ARE AWARDED TO EIGHTEEN YOUNG MEN AND LADIES.

ADDRESS IS DELIVERED BY JUDGE LEAK, OF QUANAH

Senior Class Banquet Was Held at Downtown Cafe on Thursday Evening.

CHILLICOTHE, TEXAS, May 22.—The graduating exercises of the high school were held at the high school auditorium Friday evening at 8 o'clock.

The student body in caps and gowns were seated on the large stage, made beautiful in its decorations of the class colors of purple and white, and numerous flowers.

Rev. D. J. Murray rendered the invocation.

The class salutatory was given by Miss Eunice Walker.

Class history by Carter Forbes.

Ralph Handel was class valedictorian.

Miss Kilgore rendered a very appropriate solo, and the Chillicothe male quartette gave a very pleasing number.

Judge Allred introduced the speaker of the evening, Judge J. V. Leake, of Quanah, who delivered a splendid address to the graduates, dealing with scholastic fundamentals.

The class orations were fine and will long be remembered by those present.

Judge Allred awarded the diplomas to the 18 graduates.

At the close of the service Rev. D. J. Murray pronounced the benediction.

Senior Class Banquet

The final activities of the class of '22 was held at the Texas Cafe Thursday evening when the seniors held their banquet.

The class, 18 in number, has been very enthusiastic through the entire four years of high school, and many were the expressions of regret that this happy and pleasant association was ended.

After a delicious repast, the class attended the show.

Prof. Kasmeter Speaks

Prof. F. W. Kasmeter, one of the south's foremost poultry experts, gave a lecture at the city hall Thursday afternoon on "Poultry Raising."

The lecture was attended by a large crowd of poultry raisers.

San Angelo Delegates

Miss Gertrude Tabor, sponsor; Mrs. Alonzo Berry as chaperone, accompanied by E. B. Wray, attended the West Texas Chamber of Commerce meeting at San Angelo, last week.

The Memphis, Vernon and Quanah delegations, headed by the Memphis band, joined Chillicothe's delegation in this city, departing via the Orient for San Angelo.

Pappy Day Observed

Luther McGee Post and the ladies' auxiliary observed Pappy Day here Saturday. A neat sum was realized from the sale of the poppies, which will go toward the \$100,000 overseas grave endowment fund.

News Has New Home

The Chillicothe Valley News, owned by the Roberts Printing Company, was moved last week from their old location in the Rutledge building to the McPherson building on Main street, next to the city hall.

They have leased this building and are having it remodeled into a modern printing office. It is a brick structure and when completed will make the News a first-class, modern home.

With their new equipment recently purchased and their modern and enlarged accommodations, the News will in a short time be in a position to cater to the most discriminating in the printing business.

Personal Mention

Misses Ruby Rhodes and Marie Scarabrough of Bailey High were city visitors Tuesday.

Mrs. J. R. Ashkin and children are attending the commencement exercises at Fredrick, Okla., this week. Mrs. Ashkin's niece is one of the graduates.

Mr. and Mrs. John M. Williams and family, who have been residents of this city for many years, have moved to Elberta.

Mrs. Neal Sparks left Monday for Acta, where she will visit relatives for a few weeks.

A. J. Roberts of Vernon, district manager of the Coggins Memorial & Granite Works, was a visitor in the city Tuesday.

Mr. and Mrs. Willis Jones have returned from Beville, where they have been residing for the past four years.

Mrs. L. J. Nuckles and children are visiting relatives in Fort Worth.

Miss Beas Vernon is visiting her brother in Vernon, this week.

Mrs. N. C. Puckett of St. Joe is visiting her daughter, Mrs. R. L. Wickliffe.

Mr. and Mrs. J. A. McCaw, C. L. and Winston Wickliffe and cousin, Cecil Moore, were Wichita Falls visitors Sunday.

Cecil Moore of St. Joe is the guest of Mr. and Mrs. R. L. Wickliffe and family.

R. J. Harper of Greenville is visiting his son, R. J. and family.

Mrs. V. A. Adams, Mrs. F. F. Dunn, son, Fred, and daughter, Miss Loraine, are spending the week with relatives and friends in Crawford, Okla.

Miss Lillian Hilliard, one of our very efficient grade teachers the past term, left Friday for her home in Dardemont. Miss Hilliard endeared herself to a host of friends while here, who learn with regret that she will not return another year.

Miss Ines Derryberry left Friday for Decatur, where she expects to enter the summer term of school.

EXPLAINS PLEDGE AS SUGGESTION TO ALL PRESBYTERIANS

IF ALL PRESBYTERIANS—MINISTERS, TEACHERS, THEOLOGICAL STUDENTS, AND MEMBERS—WOULD SIGN A "TOTO" PLEDGE IT WOULD CONSTITUTE A GREAT FORCE FOR UPHOLDING THE 18TH AMENDMENT AND ENFORCING THE PROHIBITION LAW.

Rev. N. F. Grafton Stated Sunday Night in Making a Report to His Congregation on the Recent General Assembly of the Church at Indianapolis.

It is just a suggestion," Dr. Grafton said, "there is nothing obligatory about it."

William Jennings Bryan figured largely in press reports of the meeting, Dr. Grafton said, and more than office swayed the assembly by his eloquence; Bryan's extreme views against "the monkey theory" caused him to lose strength in the meeting; however, his attitude being so radical that the assembly could not follow him. Adoption of Bryan's views would read out of the church every one who entertains any belief whatever in evolution, Dr. Grafton said.

A net gain of 105,000 members, the largest increase in the history of the church was reported at the meeting. An interesting feature was the so-called Fostick controversy arising from the fact that a former Baptist pastor, Dr. Fostick, is now occupying the pulpit of the First Presbyterian church in New York city.

Dr. Grafton attended the meeting as representative of the Amarillo Presbytery. Grand Rapids was chosen for the next meeting.

Miss Eunice Brown left Friday for her home in Myra, Texas. Miss Brown was re-elected by the school board, and her many friends are pleased to know she will return this fall. Miss Brown made a splendid teacher and the faculty is fortunate in securing her services for another year.

Miss Zoe Liles, who finished a year's course in State University last week, left for Quanah Saturday, where she will visit Mr. W. J. Owens and family.

Mrs. R. H. Cooke has returned from Canyon, where she had been with her children, who have been in school there. Leslie and Florence returned home with their mother. Robbie has accepted a position in Fort Worth and Miss Jessie Mae will visit her sister in Lamesa before returning home.

Miss Jettie Arrington, one of the efficient teachers the past school term, left Monday for her home in Rule, Texas. Miss Arrington made many friends while here that will learn with regret that she will not return next year, as she contemplates a course in State University.

G. W. Wilkie of Royce City was in the city visiting relatives last week. Mr. Royce is 74 years old and says there has been many changes in this part of the country since his last visit.

RECENT WEATHER AND "HOPPER" PLAY HAVOC WITH CROP

ROMAULTON, TEXAS, May 22.—The crop conditions are very poor through this part of the country at present. Wheat that bid fair for 25 to 30 bushels an acre a month ago will make from five to seven; some farmers are cutting their wheat and stacking it for winter feed, while some will thresh. Oats will make around 15 bushels. The condition of the small grain is about the same as here over a great expanse of this northwest country.

The high dry winds for the past two weeks have caused the grain failure. It has also killed out and caused a great deal of cotton replanting. The hoppers have appeared in the cotton fields, the farmers report, the thickest they have seen them for years. They seem to be worse in the south and southwest part in the tide land belt. Farmers are rushing to town to get poison to kill them. One farmer reports they ate 40 acres for him in one day. They are the jumbo hopper, and eat cotton much faster than the other kind. There is also a large black bug that is working on the cotton throughout the belt but they are not so bad as the hoppers.

School closed here Friday. The grammar school had a splendid program Friday evening. The graduates of the grammar school were: Novel Collier, Vivian Goostree, Violet Lee, Jewell Digs, Maud Brinise, Lillie Morley, Lord Haskins, Allene Fowler, Dallas Tipton, Year-old Golden, Charles McIlloith, Harland Hollingsworth, Bill Aultman, Jim Tolson and Pat Taylor. They were delivered their diplomas following a very appropriate address by their teacher, Miss Mary Shaw.

Trumph Brothers Dry Goods Co. has gone into bankruptcy. Year-old Truman and his attorney, Dennis Ratliff of Haskell, have gone to Wichita Falls to prepare the necessary papers and close up the business.

WOMAN JUMPS OUT OF CAR WHEN BABY FALLS, BADLY HURT

Mrs. R. L. Davidson of Burkburnett Is in Wichita General Hospital with a Fracture of the Skull, Which She Sustained Sunday Afternoon on the Burkburnett Road about Two Miles This Side of Burkburnett When She Jumped from a Moving Automobile to the Rescue of Her Infant Daughter Who Had Fallen from the Machine.

Mrs. Davidson's condition was unchanged Monday morning and is considered serious by physicians in charge.

The family were out for a ride and were returning home late Sunday afternoon; about two miles from Burkburnett, Mrs. Davidson's infant daughter, in some unknown way slipped from her arms and out of the car. The child landed on the side of the road off of the pavement and is reported to be unhurt.

GRAHAM DE MOLEY HAS FIRST BANQUET FRIDAY

GRAHAM, TEXAS, May 22.—The Chapter of De Moley held its first banquet of the season Friday evening, May 22, at the Eagle Cafe.

A sumptuous spread of 150 plates consisting of fried chicken and many other good things to eat, was thoroughly enjoyed by the youngsters. The term "youngsters" here used, meaning those under 21 years of age, since that is the age limit for the De Moleys. Some interesting addresses were made by other Masons, interspersed with music and song, a program which held the attention of the assembly until the hour grew late. The De Moley organization at Graham now numbers around 100 strong, and is the liveliest bunch of young Masons in west Texas. They now have applications from several adjoining towns desiring to organize lodges, and it is likely that this work will be taken up at an early date. It is generally conceded that Graham now has the best degree team in this part of the state. They are arranging for costumes and uniforms.

It is estimated that smoke costs Chicago \$30,000,000 annually.

WICHITAN WILL ADDRESS OILNEY GRADUATING CLASS

CHARLES E. FRANKS WILL DELIVER THE COMMENCEMENT ADDRESS AT OILNEY JUNE 1 ON THE SUBJECT, "EDUCATION—WHAT FOR?"

The graduating class this year is one of the largest ever experienced in the Oilney schools. It is stated:

Build to Endure with Certain-teed

Selecting the right roof for the right building is made easy by the Certain-teed policy of standardized quality for each and every purpose. The owner of a barn or silo in the South and West is assured of a non-drying and spark-resisting roof, which is a prime essential to him. The northern farmer can depend on its unflinching resistance to the attacks of rain and snow. From coast to coast and from border to border the dependable quality of Certain-teed roofing on millions of buildings is proven by every test of time and weather.

Does Gum-Dipping Improve Cord Tires?

Certainly! Because it lengthens the life of the inner tire structure. That is why Firestone Gum-Dipped Cords are practically proof against blowouts.

The process of immersing the cords in a fluid of fine rubber insulates each individual thread—reduces friction and heat to a marked degree—makes a more active, more responsive, easier riding tire—and ends permanently a long list of tire troubles.

The satisfaction of greater mileage that accompanies each purchase of Firestone Gum-Dipped Cords is amply demonstrated by the tremendous recent increase in sales. In the past six months the public has shown its appreciation of these quality tires—with a demand 194% above that of the same period last year.

Combined with double gum-dipping are other special processes—air-bag cure—rubber blending and tempering—having definite and marked results in mileage.

Do You Save Enough?

Bankers say that saving money is largely a matter of habit—of systematically putting away something every pay-day—of consistently thinking in terms of thrift.

The bankers are right. But remember that thrift embraces buying as well as saving. It is "penny wise and pound foolish" to save by scrimping and yet spend money needlessly in making your every-day purchases.

Has it ever occurred to you that every day you can save something simply by reading the advertisements in this paper? Do you realize that the advertisements tell you just where and when to buy to advantage—that they tell you how to avoid regrettable expenditures?

Thrifty folks realize that advertising has reduced the selling costs of thousands of factories and stores. Many of the things that today count as necessities or simple luxuries could not be sold at anything like their present prices had not advertising created a broad market for them. It has made millions of sales at small profit where otherwise there would be thousands of sales at large profits per sale.

So, you owe a great deal to advertising. And you owe it to yourself to read advertising.

MRS. ISBELL HOSTESS TO EXECUTIVE BOARD FIRST CHRISTIAN AID

Covers were laid for twenty-one at a beautifully decorated banquet table at the Y. W. C. A. ballroom when Mrs. J. M. Isbell entertained with a luncheon honoring the executive board of the First Christian Ladies Aid.

Dorothy Perkins, roses and buds were strewn the entire length of the table, contributing a pink loveliness which suggested the color scheme for other details of the luncheon. The place cards were hand painted in pink and white, and the dessert course carried the same colors. Mrs. H. D. Lewis led a short devotional from the last chapter of Corinthians, when the guests had found their places, and Mrs. Lambrecht Hancock returned thanks. Mrs. Isbell introduced Mrs. P. H. Card, who toasted "The Mysterious Toastmaster" upon which Mrs. O. G. Hamilton, the president of the aid, Mrs. T. T. Reese, who responded with a talk which included the benefits and a member of the board, in an appreciation of their support.

Covers were laid for Mesdames C. O. Fritz, King, May, H. Terrell, R. E. Hillman, T. T. Reese, M. L. Reid, Claude Hall, T. E. McConnell, P. E. Card, T. M. Conner, F. Kellum, J. H. Hatcher, G. D. Blaisy, O. G. Hamilton, G. M. Bailey, J. C. Davis, H. D. Lewis, Lambrecht Hancock, L. C. Tyson and Paul Harris.

BRIDE-ELECT HONORED ANNOUNCES HER MARRIAGE

The announcement of her marriage a few hours earlier was the surprise given by Mrs. T. E. Whitehead to the party, which was beautifully decorated in pink and white roses, with pink and white streamers and roses decorating the bride chair, strewn with the chandelier to the corners of the dining table, and a beautiful centerpiece of pink roses.

ENGAGEMENT ANNOUNCED SHOWER FOR BRIDE-ELECT

A shower and party Saturday which was the first news many had heard of the engagement of Mrs. Shumake Baber, to Miss Jessie Morgan, was given at the home of Mrs. J. M. Baber.

The house was beautifully decorated, a wedding party in miniature centering the dining room table, with a number of pink and white flowers and refreshments. Delightful refreshments were served to Messrs and Mesdames G. D. Fox, P. E. Card, T. M. Conner, J. J. Lory, J. W. Parker, Millholland, V. E. Stampff, O. L. Powers and H. Willis. Mesdames Annette Shields, which she had had particularly in mind, and Mrs. Mary Miller are new citizens here from Abilene recently.

Letter From John Alden Prescott
Dear Syd:
I am pounding out this letter to you on the old machine we both abided in college when we had great ideas of besting the business game in a month or two after leaving the more or less leaved campus for the wild world. Somehow was the happy days.

I sometimes think, Syd, that the responsibility and freedom from care that most college boys have prepares them for anything else but the humdrum life and responsibility of a real business man.

And then if a man adds to a good business curriculum a wife, the dickens is to pay.

Don't misunderstand me, Syd. Leslie is the sweetest, dearest, loveliest girl in all the world and I am still, yet and always in love with her. But when you had spent your last cent in the old days we managed to go without for 24 hours by getting invited somewhere or holding up a friend who we heard from home. If it was not forthcoming then, we hid ourselves to our own amusement.

Day before yesterday afternoon I got into an innocent little poker game and when it was time for me to go home I was six hundred dollars in the hole. I would have thought nothing of that in the old days but I'm married now.

Tomorrow: Bill, Bill, Bill!

NEFF URGES THAT LAWMAKERS ACT; WILL VETO BILLS TO BANISH GUILTY

AUSTIN, May 26.—Unless some "decisive and meaningful" action is taken by the legislature within the next day or two toward meeting the discrepancy between revenue and appropriations, Governor Neff will veto appropriation bills now before him, he informed the legislators in a message at noon today.

HALF HUNDRED BOY SCOUTS OFF MONDAY TO SUMMER CAMP

A THOUGHT FOR TODAY

Before I was afflicted I went astray; but now have I kept thy word. It is good for me that I have been afflicted; that I might learn thy statutes.—Ps. 119:67, 71.

My advice is to consult the lives of other men, as we would a looking glass, and from thence fetch examples for our own imitation.—Tersche.

YOUR LIFE DULL?

After following the sea 45 years, in which he sailed a total of 2,500,000 miles, Captain Anthony Cadogan retires. His last ocean trip was from Buenos Aires to New York.

A great sea name, Anthony Cadogan. And a wonderful career that will be envied by nearly all of us who are chained to a dull humdrum existence.

Captain Cadogan has friends in every country in the world. He crossed the equator 320 times. He has seen many startling changes in ships since he put to sea in 1877, and equally startling changes in the countries he visited. Adventures many, including capture by the German raider Karlsruhe in 1918.

Captain Cadogan retires to his home near New York City. He will not find life dull, for he will live chiefly in memories.

Why is it that the other fellow gets the romance and adventure of life, while most of us get only a monotonous grind?

A few years after Captain Cadogan made his first trip at sea on the full-rigged ship Lord Canning, a young fellow running a bicycle repair shop was tinkering with a gasoline engine, trying to make it operate a "horseless carriage."

That young fellow was Henry Ford.

Recently he has been turning out finished cars at the rate of one every four seconds.

The Wall Street Journal reports Ford's business report for the 12 months ended last February 28, and figures that he made a profit of \$50 on each car.

How would you like to have \$55 dropping into your lap every four seconds?

Captain Cadogan, contemplating Ford, will agree that in many ways Henry has the most interesting life of any landlubber.

Captain Cadogan can have his ocean, and Henry Ford can have his \$55 every four seconds, as far as Farren Zerbe is concerned. For Zerbe, world-famed coin expert, has the largest coin in existence. It's a Swedish piece, stamped in 1730, weighs nearly seven pounds, is minted out of copper plate 10 inches square.

What more could any man want than a collection of rare bits of metal such as this old "daler," Zerbe probably wonders.

Lots of interesting careers in this life, most of us reflect, even if the majority have to watch from the sidelines.

NEFF AND THE UNIVERSITY.

Advices from Austin point only too accurately to the fact that the State University is again to become a political plaything, that its chance for growth and its opportunity for service are alike to be curtailed by subjecting it to those to whom growth and service mean nothing.

If the Dallas News of Sunday is to be believed, a majority of the regents favor Governor Neff for the presidency. There is some basis for the belief that a pro tempore appointment was made with a view of filling the position until Neff's term as governor expires and he can accept one office without resigning from the other. No criticism may be directed at the pro tempore appointment of Dr. Sutton, a veteran educator and a most faithful worker for the University; though his best friends cannot say that he is the best material available for even a temporary appointment.

Those who are urging the appointment of Governor Neff have forgotten the University's welfare. T. W. Davidson and his cohorts want Neff made head of the University so that the lieutenant governor may achieve his gubernatorial ambition without delay. The friends of Morris Sheppard want Neff appointed because to do so would remove one of the senator's formidable opponents for the next year. Leave political considerations out, and there would be none urging Neff for the place. Just how the youthful and opinionless Mr. Stark of Orange hopes to further his own political ambitions by urging Neff is not altogether clear, but it is hard to believe that Mr. Stark is entirely disinterested in favoring Neff.

Friends of the University have waited in vain for a word from Mr. Neff himself, for some indication that he is big enough to put the University's welfare above his personal ambition. Colquitt, with all his faults, was big enough to do that.

Women are entering all branches of business. They claim one forged Schwab's name for a fortune.

Radium is down to \$29,000,000 a pound now, but hold out a while longer before buying much.

There are very few hooks eyes on the spring dresses, but there are many eyes glued on them.

ARCHER COUNTY'S NEW PROSPERITY.

Archer county, long one of the least wealthy counties in Texas, bids fair to achieve distinction in the other direction. The opening up of the new field in the southwestern part of the county, and the almost daily extensions to the other producing sections, are piling up new values for Archer county week by week.

A considerable section of Archer county will be enriched in another way when the irrigation project is fully developed.

In spite of the increase in values and the new prosperity that oil has brought to Archer county, those who favor permanently improved highways are still, we are advised, much in the minority. Every suggestion for road bonds is promptly squelched.

If this is true, Archer county is standing in its own light, putting up a barrier to its own development.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

SOMETHING FOR SOMEBODY.

I read in an article the other day that the reason why Henry Ford was "good news" was because he was always doing something for somebody. In all his enterprises, explained the writer, he put "people before profits."

I believe that therein lies the secret, too, of Henry Ford's marvelous business success.

If you want to be happy, you have to get somebody else to be happy with. You cannot really be happy alone, anywhere, in the doing of anything. You can only be happy as your heart and effort are centered in someone else.

Just the very thought of influence, emanating from the life of a worker or thinker, is an inspiration. Only where the world is knit with the thought of others is there peace, the pursuit of beauty, and a happy prosperity.

Selfishness alone is at the bottom of the ills of this world.

If you are unhappy, ill, tired, discouraged, even disgusted, remember that the world is filled with great numbers in the same condition. No matter how badly you may feel, there are others who feel worse—and perhaps they are much braver.

Build, think, plan, for others—and you are sure to rise.

Only as you eliminate the worn and tattered garments of ease and selfish gain, do you get the thrill of an appreciative world.

Do something for somebody today, and see how wonderfully happy you are as you put out the light and do your rest for the night.

JUST FOLKS

PERMANENT. These are the permanent things: The song that Philomel sings.

The blue of the sky and the breeze, The bud and the leaf of the trees, The ripple of silvery streams, Glad youth with its hopes and its dreams, The flash of the dew on the grass— All these shall remain when we pass.

Forever the young man shall sigh When she that he loves passes by; The stars shall shine down on the lane Where love tells its story again; The laughter of babes shall be sweet, The brook and the ocean shall meet, And centuries after we're gone The rose shall be blossoming on.

Violets and daisies shall bloom, In spite of man's death and the tomb; Mothers shall bear with delight The call of their babies at night; From cradle to grave men shall fare, And each with his burden to bear, All we have seen they shall see, All we have been they shall be.

Sorrow shall come with the night, Joy with the days that are bright, Men shall rejoice in their own Long after our spirits have flown; They shall exult in success, And grieve at the touch of distress, Though nations shall flourish and wane, The beauties of life shall remain. Now you hear opinions. A house on the roof. Mr. Dempsey will box. The boys of California.

By ARTHUR BRISLAHE (Copyright, 1923, The Star Co.)

You begin now to hear opinions. Senator King of Utah, who studies and knows politics, says "if the Democrats would name Ford, he would be elected. But they won't name Ford, says King; they would name McAdoo, and he will be elected unless unprecedented prosperity lasts up to election day in which case Harding will be re-elected."

That's it. It depends on Secretary Mellon who knows finance, can keep money plentiful, easy to borrow, without any inflation explosion, Harding will get in. His campaign speech will be short: "If you are tired of \$14 a day, vote for me."

One of the ablest Republican senators, who knows farmers better than any other Republican, said to his wife, "The Democrats should nominate Ford, he'd be elected overwhelmingly. Millions of Republican farmers would vote for him."

"But the Democrats feel very independent and think they don't need Ford. To them voting for the Democrats, remember, Halston of Indiana, and Hiram Johnson, and some others, and all the things that can happen between now and November, 1924."

Mr. Harry S. Black of New York is building a town house on top of the new addition to the Plaza Hotel. "All the comforts of a home on top of a hotel will amuse Europe," says another American idea. Mr. Black may have heard of the Hanging Gardens of Babylon and adding one to the world's seven wonders. He may have seen about the dwarf standing on the giant's shoulders, seeing farther than the giant.

The next similar announcement will tell of a residence, not 18 stories up, but two or five miles up. Mr. Black may have heard of the dwarf standing on the giant's shoulders, seeing farther than the giant.

At Shelby, Miss., Mr. Dempsey will fight somebody else, the next time. One hundred carpenters are working on an arena. And already \$100,000 worth of tickets have been sold. That is only a beginning. Two millions or more will be the total, and tens of thousands will spend \$100,000 to see Dempsey fight from all over to Shelby.

What other show would draw a crowd so far in America, or draw two million dollars for a few "moments of pleasure" in America? When the historian of 5,000 A. D. gets the story of that fight, he will wonder how we need more information about our civilization in 1923?

The boys of California beat all the other colleges in college games. A little group of 13 California boys qualified for the national basketball tournament at Philadelphia. Yale came next, qualifying 18 times. California, with the Indian and the aborigines, too lazy to catch rabbits, too cowardly to attack bigger animals.

Those that visit California wonder how the people there have time or energy for anything except enjoying the climate. They have no time, and see the most energetic, progressive people on earth.

The New York Times finds the conduct of Trotsky amusing. In the matter of England's ultimatum to Trotsky, the Times says: "Trotsky backed down," says the Times. Trotsky did what England often has done. He avoided a fight for which he wasn't ready.

Trotsky is a Jew and Jews are not fools in Germany. That was proved by Gamberger, putting a French Republic on its feet, by Dietsch in England, making Victoria, in Portugal, and many others.

He will be time enough to laugh at Lenin and Trotsky, when they fail. The extraordinary thing about them is their standing up in the face of a tempest apparently irresistible.

One hundred thousand men in the Ruhr are on strike, threatening to seize the great factories and run them.

Reads our dispatches call them. It's a convenient word. Those German workmen are doing what Pittsburgh or Chicago workmen would do, if Japanese, or English troops were in possession and the men had not enough to eat.

The American workmen, however, more nervous and high strung, would not have waited, as the Germans have done, and their rebellion would be considerably more violent.

Seizing territory, with millions of allies in it, able to read, think and write, and the what are called clients Rome managed it for a while by making her conquered territory more prosperous, and just as independent as before.

President Harding has officially fixed the proportions of the American flag. If it is a foot wide, it must be 1 1/2 in length. Not quite as long as it is wide.

The next thing is to fix the location of the stars on the United States flag. It should fly on American ships, and be seen in every port. It should not be mixed up with other flags in Europe, Africa or Asia, playing second fiddle to a collection of bankrupt foreign flags.

England, France, Italy are excited about our law forbidding them to give wine on their own ships when in our ports. But it can't all be settled, easily enough. Our law says that anybody can give as much wine as his doctor thinks good for him. Ninety nine out of 100 French, English and Italian doctors will certify that the wine is good for you, or beer for their health. That will settle the problem. Passengers from abroad will probably get their little medical certificates and their "supply" three miles out.

Canada cancels her rule allowing American fishermen to get bait and land cargoes in Canadian ports. That is announced, in reprisal for our tariff. Canada will strike within her rights, and so shall we. If we refuse shipments of goods from Canada, we will be un-friendlies.

Last winter Americans went without while Canadian papers were advertising "United States goods" at any price, any amount. Our administration refused to interfere with Canadian shipments. Because it would be unfriendly.

Compressed air shovels have been found great time savers in cramped places.

Amateur radio jockeys in Germany are exceedingly high.

Prospectors in airplanes will rush into Labrador to open up a new gold field. In Dollard, western Canada, the red-coated mounted police think bandits who robbed a bank arrived and departed by airplane.

A new air passenger service is announced: Zepplins will operate between Boston, New York, New Orleans and San Diego.

Oh, yes, these flying machines "never will amount to much," as the stagecoach driver said of the steam railroad when he heard a train had made its first trip.

POLITICIANS. Do you recall when the ward-healers sent back to take up to the voting polls—and stopped at frequent intervals along the way? Times have changed, so naturally elections are less interesting.

The back idea is revived in the Canadian Far North, where airplanes will be used to "bring out the vote" from the backwoods into Moose Factory.

An interesting possibility is that a politician is always apt to fall out of the clouds.

CHANGE. Precedent sticks like glue. The first typewriter had to have a key for the "change" of the carriage. The first in a row as on a piano. The first railroad cars were copied from the stagecoaches, even had brakes at the sides.

Quite naturally, since it's so difficult to get old ideas and methods out of our heads even when effecting a revolutionary change, the airplanes have copied the bird. That may pass in time. Future flying machines will be as different from the 1923 models as the modern Pullman alongside the early stagecoach type of railroad car.

LIFE. The average American now lives 52 years, or 10 years more than when the Civil War started, and by 1950 the span of life may be raised to 65 years. So predicts Dr. Hagen of the National Academy of Sciences.

The joker in the modern prolongation of average life is that the gain has been largely by reducing the death rate among children. People who pass maturity still die at about the same age as they die to.

CLUTTER. New York City will have over 100 million inhabitants in the year 2023. It is maintaining its present rate of growth. This is announced by Prof. Osburn of Columbia, rising from a great mass of paper in which he counted her population to 2000.

However, "if" is a very big word. In the year 2023 New York City inhabitants have more than 25,000 inhabitants per square mile. Airplanes, destined to destroy our great cities, will first have to live far out in the country and quickly fly hundreds of miles to and from work.

NICH. Twenty-nine of our large corporations had 1921 million dollars in "savings" in investment securities last year. Wall Street Journal says.

"Uncle George, explaining to Helle, with the wall that past ages are impoverishing industry. And 121 millions are less than half of the total wealth of the 29 industrial giants. They may, however, need every dollar of it in the next 10 years.

At such times Allie was more than disagreeable. Hiss flamed in her eyes, she beat herself with her fists, she kicked the furniture, and she broke things. Once she even butted her head against the wall uttering language meanwhile that all but shocked her companion to swoon.

Mr. Ring resigned after this final exhibition, but lacking the courage to face Allie in a mood like that, she never got her money back.

"It is simply impossible to remain," she told him. "I never get a physical wreck, for I never get a moment's rest. The salary is attractive, but Allegheny is too much for me."

"You're kinda poked up, Miss Ring, as you can see it, please enter for you."

"In what way, may I ask?"

"Well, by payin' you more."

"The salary is all right, but we agreed upon isn't low."

"Try it, ma'am, for a little while. Hebbe it won't bother you so much when you get used to it. Alice likes it."

"I—I am interested in her. She is progressing, too; in fact, I have never seen anyone learn more rapidly. But—she is so unusual, still, perhaps I am the one—perhaps it is my duty, under the circumstances—"

"In this disposition to compromise the father had little difficulty in dealing, so the daily routine was continued.

John was sitting alone in her room one evening, fagged out from a hard day. Some people were talking on the veranda outside her window, and she heard one say:

"The girl can look really stunning."

"Exactly. I don't understand how she gets her looks, for her parents are—impossible. Wouldn't you know what they were?"

Allie needed no clearer indication of what she was talking about. "She's a glorious rider," the first speaker was saying. "She passed me the other day, going like sin, with her face blushing more brightly than ever. Her chestnut hair was lively chestnut running flat. The way she took that curve about the Devil's Bide brought my heart into my mouth."

The breathless eavesdropper felt a hot wave of delight pour over her, her face flushed to ripple like the fur of a cat when it is stroked. "She's a glorious rider," the first speaker was saying. "She passed me the other day, going like sin, with her face blushing more brightly than ever. Her chestnut hair was lively chestnut running flat. The way she took that curve about the Devil's Bide brought my heart into my mouth."

She was unusually silent and somber for the next three or four days; but she was through her exercises without vim; at her studies she was both stupid and sullen. When Mrs. Ring's patience was exhausted and she frayed nerves finally gave out, Allie rounded upon her with a violence unparalleled.

In a panic Mrs. Ring sought out Gus Briskow and, again resigned, by this time however, the novelty of her resignation had largely worn off, for seldom did more than two weeks elapse without a hysterical threat to quit. She decided, after some consideration, to wire Calvin Gray and offer to pay his traveling expenses if he would come to Burlington Notch for a few days.

CHAPTER XIV. Allie Shows Her Teeth. One afternoon that gratifying ease was dancing. It came natural to her, for both she and Buddy were full of music, and resigned. Having schooled her in the simpler forms of ballroom dancing, Delameter suggested a course in the deeper intricacies of fancy dancing.

"You're getting on," he told her, one day. "That last was splendid—top hole—absolutely."

It was on that afternoon that Delameter had told the clerk of discovering Ma Briskow alone in the woods. There was an open golf tournament at the Notch, prominent amateurs and professional were competing, and the past ages were crowded into its capacity with players, fashionable followers of the game and a small army of society reporters and sport writers.

Delameter was especially agreeable today, more than usually flatteringly. Not for some time did his school become conscious of the subtle change in his demeanor.

They had become well acquainted by now and were on a basis of easy familiarity, nevertheless it came as a shock to Allie to be called by her first name—such a shock that she missed a step and trod on Delameter's foot. Her first word had the sound of a pistol shot.

The dancing master was tall and slim, his face was on a level with hers, and now he smiled into it, saying: "My mistake, my dear."

"I—reckon it was." The girl's eyes were glowing queerly, and the man was amused at her evident agitation. Her first word had thrown the poor thing into a flurry.

They began to dance again, and after a moment, with a gently rising inflection, Delameter murmured: "You heard what I called you?"

Approved of the sashet that Allie used, and he became acutely conscious of the jewels resting in the palm of his left hand.

"Care?" he said, with his lips close to her ear.

"Humph! I'm not caring for anything or anybody but you."

It is the lot of any man in the heat of his desire to make mistakes, and Delameter erred gravely at this juncture. He tried to pause, warning he kissed her full and fair upon her red, half-open lips.

For the briefest instant of amazement she stood motionless in the middle of the polished floor, while the photograph brayed on:

"Mrs. Ring was waiting on the veranda for Gus Briskow when he returned to the hotel about dark. He had learned to dread the sight of her on the veranda, for it was her favorite resigning place—where Gus called her 'quitting spot,' and it was evident tonight that she was being thrust from one of these places, and even then he could not fully appreciate the enormity of the disgrace that had overwhelmed Allie's instructor."

THE MARKETS

COTTON—GRAIN—FINANCIAL—LIVESTOCK—PRODUCE

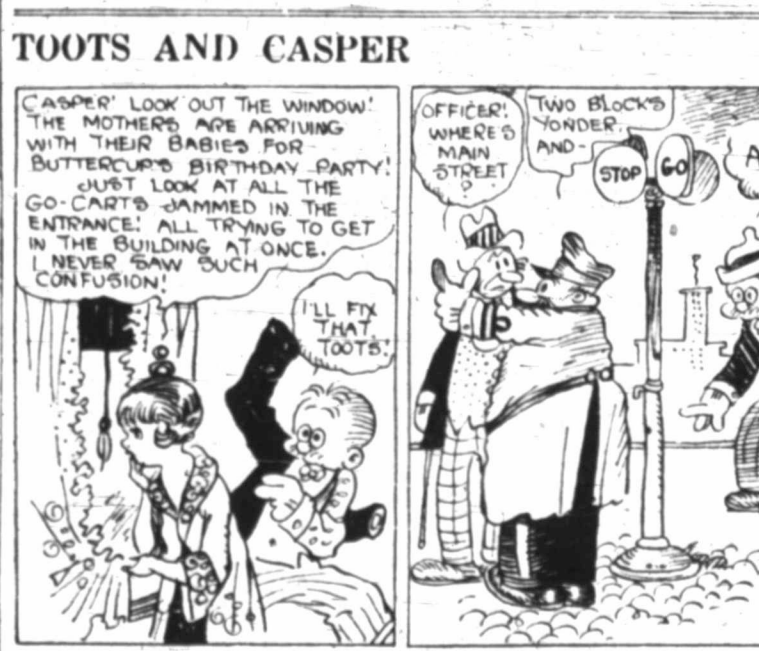

COTTON MARKET

New York Cotton. NEW YORK, May 28.—The cotton market showed continued firmness today owing to bullish private condition and crop figures and firm Liverpool cables. The opening advance of 12 to 13 points attracted scattered realizing, but offerings were absorbed on setbacks of 2 or 4 points, and the market soon advanced to 27.40 for July and 24.90 for October or about 17 to 20 points net higher on the general side. Liverpool attributed the advance there to the unfavorable crop reports and buying on the bullish crop news here was encouraged by the opening firmness of the stock market and the better tone of foreign exchange. A Memphis report, published this morning, made the situation of the crop 70.9 and the indicated yield only 11,400,000 bales and there was a report from a south western authority indicating a condition of 70.94. The advance extended to 27.45 for July and 24.95 for October during the middle of the morning when the general list showed net gains of about 20 to 32 points. Two more private crop reports were issued, one of them making the condition 70 and the other 72.5, the latter being accompanied by a crop indication of 11,577,000 tons. These reports, combined with complaints of further rains or showers in the eastern belt, promoted the buying movement, but a good deal of realizing was encountered as October approaches the 25 cent level which checked the advance and caused moderate reactions. Business was less active around mid-day with prices 8 or 10 points off from the "heat." There were reactions during the afternoon under realizing and scattered selling for account, which may have reflected the easier ruling. July sold off to 27.20 and October 24.72 with the general list trading about net unchanged to 7 points higher around 2 o'clock. High Low Close January 27.20 27.35 27.45 March 24.80 24.90 25.00 July 27.40 27.45 27.50 October 24.90 24.95 25.00 New Orleans Cotton. NEW ORLEANS, May 28.—Too much rain in central and eastern sections and private crop condition reports, ranging from 70 to 70.9 per cent of normal, put the cotton market higher today. The trading months advanced 24 to 31 points in the first hour, July rising to 27.45 and October to 24.90. After advances of 27 to 31 points the upward movement was checked by a crop condition report of 71.5 per cent, which, with an estimated increase in acreage, pointed to a yield of 12,950,000 bales. Considerable liquidation came from the long side and at 11 o'clock July dropped back to 27.32 and October to 24.80. Liquidation continued rather steadily from the long side, although reports of considerable rain came from Oklahoma, where dry weather is needed in the trading up to 12.30 October July fell off to 27.41 and October to 24.16, at which levels prices were only one to four points up net. Cotton futures steady at net advances of 2 to 11 points. High Low Close January 27.40 27.45 27.50 March 25.00 25.05 25.10 July 27.40 27.45 27.50 October 24.10 24.15 24.20 Liverpool Cotton. GRAIN AND PRODUCE CHICAGO, May 28.—Better weather conditions west as well as a bearish effect here on the wheat market today during the early dealing. Heavy general rains which fell in the western section of the grain belt were regarded as likely to prove of material benefit to the winter crop. Both higher and lower scattered rains fell in the Ohio Valley. Opening prices, which varied from unchanged to 2-4c lower July 11.14 to 1-3 and September 11.12 5-8 to 1-11, were followed by a moderate setback all around, and then something of a reaction. Subsequently fresh weakness developed, apparently as a result of continued attention to bearish aspects of the grain futures law and of the government attack on sugar speculation. The close was unsettled 1-8c to 1c net lower, July 11.14 1-3 to 7-8 and September 11.12 3-4 to 7-8. Corn and oats were easier with wheat. After opening 1-4 to 3-4c lower, July 76 1-4 to 1-5c, corn advanced a little more and then rallied somewhat. Better inquiry from the east for cash corn here steadied the corn market later. Corn closed firm at 1-4c net lower to 1-4c, July 76 7-8 to 7-7 to 7-7. Oats went under the season's lowest previous price for September delivery. The opening was unchanged to 3-4c lower, July 40 3-3 to 4-1c. Later the decline became general. Provisions reflected the downward course of the grain market. STOCKS AND FINANCIAL. NEW YORK, May 28.—Speculative buying was again bullish at the opening. The stock market, buoyed by high-grade rails, was one of the early features. Atlantic Coast line and Pacific Oil one. Some of the steel were heavy but the initial losses were limited to small fractions. Some irregularly took place later. Republic and Bethlehem Steel, Republic and States Rubber, American Smelting, California Petroleum and Cuba Cane Sugar preferred dropping 1-2 to nearly 1-1/2 points on profit taking by recent buyers. The advance was continued 2-3-4 points, was one of the features. Houston extended its gains to 2-5-8 points and Marland moved up one. Gains of 1 to 2 points also were recorded by New York Central, Reading, Lorillard, Tobacco, America Waterworks, Stewart Warner Speedometer and American Agricultural Chemical preferred.

DIVERSIFIED TYPES OF CHRISTIANS ARE NAMED BY PASTOR

Dr. N. F. Grafton selected for his Sunday morning text the fifth verse of the 14th chapter of John, "And Thomas said to him..."

"The human family has its diversified types of men as has the forest its diversified trees. Somebody has said that there are no two leaves in the forest alike..."

"This old Bible of ours has never disappointed the stubborn critic. Men have put it to the acid test and its great body of truth has stood fast..."

"Certainly, you have to send a letter and a money order to an out-of-town house, you know..."

"Now 25 cents postage" said the customer. "Now two cents for postage and five cents for a money order..."

"The second type of man is represented in Philip. He was intensely practical. He said, 'Show us the Father and it suffices...'"

"The third and last type is that of Judas. Judas is a representative of a large class of people who are in the world today having traditional views of religion..."

"In the church of the living God there is the stubborn critic. He has his right. In the church of the living God there is the intensely practical and he has his right..."
