SUSPECT IN FATAL OIL FIELD SHOOTING ARRESTED SATURDAY SPURGIN, FUGITIVE CHICAGO BANKER FOUND IN OLD MEXICO ESCAPE OF LEADER OF KAPP REVOLUTION STIRS GERMAN

MAN APPREHENDED AS THOUGHT TO BE ONE ACCUSED BY VICTIM

LOCATING BOARD OF TECH COLLEGE NOW ON INSPECTION TOUR

AUSTIN, July 14.—Members of the locating board of the Texas Technological College are in Austin today for the first lap of the inspection tour which will include all of the applicant towns. The board went to Boerne today and will return to Austin tonight leaving again Monday. Four members of the board left here and President Bissell of the college will join the party at San Antonio.

BOERNE IS INSPECTED BY LOCATING BOARD

BOERNE, TEXAS, July 14.—This little town today with its picturesque countryside of fertile farming valleys and scenic hills, was inspected by the locating board of the Texas Technological College which arrived here this morning. This was the first of the inspections of the struggle for the establishment of the new institution, the fight for which is unparalleled in Texas history.

DEW NEW TRIAL FOR MRS. CRUELLE AND HER HUSBAND

CHICAGO, July 14.—The motion for a new trial for Mrs. Sabella Mitti Cruelle and her husband, charged with the murder of the late Senator Frank Nitti, was overruled here today. Both Mrs. Cruelle and Peter Cruelle, her husband, were sentenced to life in prison on Friday. Mrs. Cruelle was being held back to the jail she tried to throw herself from the roof of the building before she could do herself harm.

AMERICAN SEAMAN IN CHINA IS GIVEN SIX MONTHS TERM

HONG KONG, July 14.—G. R. Fice, an American seaman, was sentenced to six months imprisonment at hard labor here today for possessing two pistols and 200 rounds of ammunition. In sentencing him, the magistrate declared: "You have committed a most serious offense. It is most important that the authorities should control all arms. Only a few days ago a train was held up by bandits."

MEETING TO BOOST SMITH'S CANDIDACY FAILED TO DEVELOP

FRENCH LICK, IND., July 14.—The contemplated conference on the candidacy of Governor Al Smith of New York for Democratic nomination for president failed to materialize here today. Tammany Hall official, who arrived here last night from New York, declared today that he had come to "play around" and that he did not intend to seek political office. He did meet Tammany Hall leader, but their conversation was of a general nature.

MOTION FOR REHEARING STEPHENS COUNTY CASE AGAINST MID-KANSAS

AUSTIN, July 14.—Motion for rehearing in the case of Stephens County vs. the Mid-Kansas Oil and Gas Company, involving the question of taxes on oil leases, was denied here today. The supreme court recently ruled that oil and gas leases are taxable. The defendant company in its motion for rehearing contended that the taxes are not on the lease itself and therefore cannot be levied separately. The case is considered highly important throughout the state as the result depends on the collection of large amounts of state and county taxes.

APPEAL MADE TO GOVERNOR BEHALF CONVICTED EDITOR

PROMINENT OFFICIALS OF THE STATE SIGN HIS SUPERCEDEAS BOND

SANTA FE, N. M., July 14.—The presence here today of Carl C. Magee, editor of the Albuquerque Tribune who was held guilty of contempt of court on seven counts yesterday by District Judge G. J. Leahy at Las Vegas, marked another step in what the editor declares is a fight to break up a copper-riveted political machine in the contempt proceedings for having published and circulated editorials written by Magee, which were adjudged to be in contempt. Notice was served by Magee's attorneys of appeal to the supreme court. A supercedeas bond of \$25,000 and an appearance bond of \$25,000 were signed by J. A. Brea, lieutenant governor of New Mexico, A. C. Elkins, state senator, Arthur Seligman, national Democratic committeeman, and G. H. Hunker, chairman of the Democratic Executive Committee. Magee is in Santa Fe, accompanied by his attorneys, to see Governor Hinkle. The latter is expected to call a special session of the legislature to sit as a court of impeachment on the editor.

FORM McADOO FOR PRESIDENT CLUB AT MEETING IN DALLAS ON SATURDAY ENDORSED BY GOVERNOR OF ARIZONA

DALLAS, TEXAS, July 14.—Enthusiasm for the candidacy of William Gibbs McAdoo for the office of president ran high today when the Texas-Form McAdoo-for-President club convened here. Charles Hicks, Ben Antonio, president, called the meeting. Principally, it was a session of speech making. The speaker was Governor Thomas H. Love of Dallas, pitching the notes, but in the end the conference authorized the appointment by Mr. McAdoo of a committee of four to select in turn a committee of 25 representative members of the club. The committee of 25 representing the various senatorial districts as well as a finance committee to conduct the campaign.

WARREN C. SPURGIN, WANTED IN CHICAGO, LOCATED IN MEXICO

CHICAGO, July 14.—Deserted by his body guards who have been with him continuously since he crossed the border, Warren C. Spurgin, fugitive Chicago banker, has been found in Mexico. This was disclosed today by John R. Lord, Chicago representative of Lloyds, which bonded the officers of the United States Marine Corps Trust Company, with whose funds Spurgin left.

EXPECT BALDWIN TO FIND WAY OUT EUROPEAN CHAOS

LONDON, July 14.—With the support of France if possible, without it if necessary, Garvin in the Sunday Observer this morning predicts that Premier Baldwin, supported by 50 per cent of his country, backed by Italy, and holding the sympathy of the neutral powers, including the United States, will find a way out of European chaos. "If Poincare, after the rain resulting from his six months economic sabotage in the Ruhr, sets back all hopes of trade revival, with the life or death interests of industrial democracy in work and wages at stake again refuses to consider a settlement, 'Britain will be bound in honor in its reply to the ultimatum to make a stand for settlement based on Germany's real capacity to pay.'"

MUCH NEEDED RAIN FALLS AT QUANAH SATURDAY EVENING

QUANAH, TEXAS, July 14.—A good shower began falling here at 6:30 tonight and indications were that it might rain some more in the night, although it let up for a while about 10 o'clock. The rain should come at a better time for the farmers in this section. The feed crops are burned pretty badly from the scorching sun of the past few weeks while the cotton was beginning to show need of rain. The rain will probably do some good for the farmers in general. Business here had practically reached a standstill on account of the dry weather.

WHEAT DROPS TO STILL LOWER RECORD

CHICAGO, July 14.—Wheat, which a few days ago dropped below \$1 for the first time since 1914, dropped to a still lower record on the Chicago board of trade today. September futures dropped to a new low since 1915, selling at 91 1/2 cents, closing at 91 1/2 cents. September futures dropped to a new low since 1915, selling at 91 1/2 cents, closing at 91 1/2 cents.

Subject Negro To All Horrors Of Living Death

W. M. Brown, negro express driver, who was reported to have been found tied to a tree Friday following an examination of the body by Dr. T. N. Goodson. No marks or bruises were found on the body and a careful examination of the spine showed that the negro had not been strangled or his throat cut. It was reported that the negro had been in the hands of the Chicago police for 14 years, though he was a member of the Chicago lodge.

ATTEMPT TO TURN DEMOCRATIC VOTE TO HELP JOHNSON

ST. PAUL, MINN., July 14.—An eleventh hour attempt to send the Democratic vote in Minnesota into the farmer-labor camp, to help elect Magnus Johnson to the United States senate, with a view of taking over the organization in 1934 was being made here today.

HOPE TO FALL HEIR TO ORGANIZATION IN 1934

By Universal Service. ST. PAUL, MINN., July 14.—An eleventh hour attempt to send the Democratic vote in Minnesota into the farmer-labor camp, to help elect Magnus Johnson to the United States senate, with a view of taking over the organization in 1934 was being made here today.

GERMANY EXCITED RESULT ESCAPE OF CAPTAIN EHRHARDT

BERLIN, July 14.—The escape of Captain George Ehrhardt, during the Kapp revolution of 1920, from prison at Leipzig, has set communitistic, socialistic and a large part of the republican organizations in Germany vibrating with agitation. His mysterious flight, still unexplained, to which few details were added today, dominated the news of the day in the German press.

EXPECT BALDWIN TO FIND WAY OUT EUROPEAN CHAOS

LONDON, July 14.—With the support of France if possible, without it if necessary, Garvin in the Sunday Observer this morning predicts that Premier Baldwin, supported by 50 per cent of his country, backed by Italy, and holding the sympathy of the neutral powers, including the United States, will find a way out of European chaos.

SETTLE CASE OF FORMER MARSHAL AT BURKBURNETT

CITY PAYS \$918 AND RELEASE IS SIGNED BY J. R. ROSE.

MRS. J. F. COPELAND IS INJURED IN ACCIDENT

Plains of Guilty in Justice Court Result of Accident Shot Wednesday.

BURKBURNETT, TEXAS, July 14.—A release was signed Friday by former city marshal, J. R. Rose which releases the city from further litigation in a case pending on appeal at Austin styled J. R. Rose vs. City of Burkburnett. Rose received \$918 in cash in full settlement of his claim for salary due him while serving the city as marshal during last year and for which the suit was filed. Upon trial of the case in district court a verdict was rendered in Rose's favor and an injunction issued restraining city officials from interfering with his term, but shortly after this charges were preferred and he was removed from office which resulted in the city officials being cited for contempt but upon trial were adjudged not guilty by Judge Napier. The release as signed by Rose clears the city from any future litigation with reference to the matter.

Miss Brany's Harrison Weds C. O. Bettison in Wichita Saturday
At 1 o'clock Saturday afternoon at the First Methodist church parsonage, Dr. C. M. Sisson united in marriage C. O. Bettison and Miss Brany's Harrison. They were attended by the bride's sister and the groom's brother.

POWERS PRINCIPAL SPEAKER TODAY AT BAPTIST MEETING

Dr. O. L. Powers, pastor of the First Baptist Church of Wichita Falls, will be the principal speaker both Sunday and Monday on the program of the Central West Texas Baptist Encampment at Leetown, 14 miles southeast of Hamford, which began Saturday evening and will continue through Sunday, July 22.

The Young Ladies Missionary Society enjoyed a picnic at the Magdalen pump station last Tuesday evening. Those present were Misses Mary Kate Ellis, Elizabeth Hood, Louis Hubert, Katherine Knauth, Mildred Keith, Johanna Albers, Freda Owens, Nettie Lee Allison and Mrs. Sabatoni and niece. The society will meet next Tuesday at Mrs. Sabatoni's home at 4 o'clock p. m.

Payment of the bridge toll for farmers bringing their grain to Burkburnett for market, from across the river was made a subject for discussion at a meeting of directors of the Chamber of Commerce at their regular meeting last Monday. Action taken by the Chamber was that no tolls would be paid on trucks, whether they are hauling for river by public truck drivers, but that should the farmer be using his own truck, whether he is hauling for himself or for some other farmer that the toll would be paid in these instances. Records show that 1300 loads of wheat has this season crossed Red river bridge, being marketed in Burkburnett.

At 1 o'clock Saturday afternoon at the First Methodist church parsonage, Dr. C. M. Sisson united in marriage C. O. Bettison and Miss Brany's Harrison. They were attended by the bride's sister and the groom's brother.

Extensive Improvements Made in Waterworks System at Vernon in Installation of Big Power Pump

VERNON, TEXAS, July 14.—The new 75 horse power motor for the pump at the new city lake north-west of town arrived yesterday and city officials plan to have the new machine working by tonight. The pump had already been installed, pipes had been laid from the walls at the lake to the stand pipe, all wiring was in place and a coherent house ready for the new motor. This completes Vernon's admirable new water system, and insures a copious water supply for years to come.

A new brick power house, which together with the engine foundation cost \$1200, has been constructed just south of the old power plant. In it has been installed a 200 H. P. engine and a 100 H. P. engine, together with an air compressor, exciter, generator and electrical switchboard. All the machinery was manufactured by the Fairbanks-Morse Company and cost approximately \$24,000. The new power house is efficiently lighted by nine electric drop lights. The engine use distillate as fuel.

The two new engines will be used alternately, as occasion demands. The smaller engine is capable of handling the water pumping and part of the street lighting, while the larger machine can handle everything. City Engineer A. J. Robinson announces that the old power plant will not be dismantled, but the three engines in it together with the two new ones, will be used in such ways as will mean the most economy to the city.

The old plant has two 25 H. P. Fairbanks-Morse engines and one steam engine with boiler. By using both old and new equipment, the pulling power will be doubled, it is estimated.

Steps Planned For Lengthening Human Life Span

Dr. A. H. Douglas, city health officer, has received notice from the National Health Council, a combination of the thirteen greatest medical and public health organizations in America, that during the next twelve months, beginning July 4, it

will endeavor to persuade every person in the United States to take a peep into the future to see what the condition of his health will be a few years hence.

This national health campaign is being conducted with the end in view of lengthening the average human life. The span of human life in the United States was lengthened from 41 to 56 years during the 50 years that elapsed between 1870 and 1920 and a prophecy of the American Public Health Association says that it will be lengthened at least 20 years more in the next 50 years.

Dr. Douglas will cooperate with the council in holding the examinations locally. Blanks will be distributed among local physicians and when properly filled out they will be returned to the health department for records. The plan as outlined calls for an investigation under a reputable physician—by each person's family doctor if he likes. The suggestion is made that every one should be examined on his birthday.

Permanent Wave Brought to Your Door

The Rose Beauty Shop, of Fort Worth, Texas, announces that Mrs. M. Tarkington, an expert in Permanent Waving will be at the Kemp Hotel one week, beginning Monday, July 16th, to take appointments for Permanent Waves.

The Frederic Tru Oil Method will be used, producing a non-injurious, large, loose wave and ringlet curls requiring no Water Waving.

MISS BRANY'S HARRISON WEDS C. O. BETTISON IN WICHITA SATURDAY

At 1 o'clock Saturday afternoon at the First Methodist church parsonage, Dr. C. M. Sisson united in marriage C. O. Bettison and Miss Brany's Harrison. They were attended by the bride's sister and the groom's brother.

The bride is a daughter of Mr. and Mrs. W. B. Harrison, who have large cattle interests at Graham. Mr. Bettison, son of D. R. Bettison, is district superintendent of the Sun Oil company, with headquarters at Graham. These popular young people will be domiciled for the next ten days at the Kemp Hotel, Wichita Falls.

Card of Thanks
We wish to thank our many friends and neighbors for their kindness, thoughtfulness and sympathy during the brief illness and death of our darling baby Mildred. Also the beautiful floral offerings, the consoling words spoken in these sad hours will never be forgotten. May God bless every one who ministered unto us in any way. Mr. and Mrs. W. A. McClure, Mr. and Mrs. A. B. Womack—adv.

PART ONE
EUROPEAN NATIONS
OWING U. S. MONEY
KEEP LARGE ARMY
MAINTAIN LARGE AND EXPENSIVE MILITARY ESTABLISHMENTS.
SAME TIME PROTEST AN INABILITY TO PAY

Cost of Armies Two and Three Times What Annual Payment Would Be.

By GEO. W. HINMAN, Jr.,
Universal Service Staff Correspondent.

WASHINGTON, July 14.—How European nations owing large sums to the United States continue to maintain unprecedented military establishments, while at the same time protesting their inability to pay even interest on their indebtedness is revealed by official figures obtained here today.

The facts, coupled with the warning to France just issued by the British prime minister, Stanley Baldwin, again emphasizes the written statements of William Randolph Hearst published after his visit to Europe last year.

The compilations show that the cost of these armies each year is two and three times the annual payment to make war to settle their international obligations on terms similar to those agreed to by the United States and Great Britain for the funding of the British debt.

The same figures disclosed the fact that current military expenditures of these countries exceeded by between 200 and 400 per cent corresponding charges prior to the world war, when Europe was regarded as an "armed camp." This excess persists despite the fact that Austria Hungary has been dismembered and Germany reduced to impotence, thus removing the pre-war excuse for great armaments.

Outstanding examples. France is still owing the United States a total of approximately \$4,000,000,000. Her military establishment is still upon a par with that of the business world, would be looked upon as dishonorable. Belgium, which owes the United States about \$450,000,000, also persists in refusing to pay while at the same time maintaining an army wholly disproportionate to her wealth, area and population.

The compilations show that, during 1932, the last year for which complete figures are available, France expended for military purposes 4.26 francs for francs similarly expended in 1913, the last "peace year." Italy even exceeded this figure by spending 4.12 francs in 1932 against one in 1913. The United States, despite doubling the pay of the private soldier, spent during 1932 less than twice as much as during 1917.

Cost of French Army. The total cost of the French army during 1932, approximately \$200,000,000 in American gold, making full allowances for the depreciation of the franc. By an annual payment slightly in excess of \$150,000,000 the Paris government would be able to fund the debt owed the United States on terms similar to those accepted by Great Britain.

In other words, the excess of French military expenditures in 1932 over 1913 is about double the amount needed to pay the debt obligation owed the United States.

The case of Italy is a parallel one. The total cost of the Italian army in 1932 was about \$100,000,000 in American gold, despite the collapse of the lire. For some \$65,000,000 the Rome government could settle its debt to the United States on terms corresponding to those approved by the Anglo-American debt commission. And the current Italian military expenditures for military purposes, it must be kept in mind, exceed those of 1922 by more than 500 per cent. The military expenditures of the debtor nations are wholly out of proportion to their incomes, especially when compared with similar charges met by the United States. Only six per cent of the income of the Washington government goes for the maintenance of the army, whereas 13 per cent of the French income and 15 per cent of the Italian income are consumed by their military establishments.

Great Britain which has funded her \$460,000,000 debt owed the United States, has cut the cost of her army to less than ten percent of her total income. Germany, the "terror" against which France, Belgium and Italy cry for protection, spends barely three per cent her total revenue for military purposes. She is the only country whose percentage of income spent for military purposes is less than that of the United States.

CAME TO HER DEATH AT HANDS OF SOME UNKNOWN VERDICT CORONER'S JURY

FREDERICK, Md., July 14. (AP)—Mrs. Grace Simmons Kepper, wife of R. Byard Kepper, an architect of Frederick, came to her death on June 18 last at the hands of some person unknown, the coroner's jury decided after two days' deliberation. The jury reached its decision in less than an hour's deliberation after two days' deliberation.

Mrs. Kepper was found in a room in her father's home with a bullet wound in the head. The coroner at that time gave a verdict of suicide.

PLAN TO BEGIN ABOLITION OF 12 HOUR DAY SOON

NEW YORK, July 14. (AP)—Elliott H. Gary, head of the United States Steel Corporation today stated that abolition of the 12 hour day in the steel industry, recently pledged by President Harding, would probably be begun within the next few weeks. He declined to reveal the machinery already set in motion to abolish the 12 hour day, but probably would be affected within the six weeks period.

Labor leaders have evidenced intense interest as to when the steel industry would begin making good its promise to reduce the 12 hour shift to a 10 hour day. The most positive assertion previously made by Mr. Gary was that steps would be taken to reduce the 12 hour shift to a 10 hour day by the end of the year.

Labor supplies were obtained from the negroes of the south, Mexico, the Philippines and abroad.

591,801 BALES OF COTTON CONSUMED IN MONTH OF JUNE

WASHINGTON, July 14. (AP)—Cotton consumed during June totaled 591,801 bales of lint and 49,835 bales of linters compared with 520,958 of lint and 47,728 of linters in May this year and 509,318 of lint and 47,817 of linters in June last year, the cotton bureau announced today.

Cotton on hand June 30 was 1,346,064 bales of lint and 148,285 of linters, compared with 1,581,290 of lint and 184,642 of linters on May 31 and 1,336,908 of lint and 151,403 of linters on June 30 last year.

In public storage and in commerce, 1,322,318 bales of lint and 42,014 of linters, compared with 1,579,406 of lint and 47,533 of linters in June last year and 1,553,478 of lint and 74,318 of linters on June 30 last year.

Imports during June totaled 13,267 bales, compared with 23,512 in May this year and 11,663 in June last year.

Exports during June totaled 214,821 bales, including 1,987 bales of linters, compared with 160,356 including 2,818 of linters, in May this year and 491,978, including 12,768 of linters, in June last year.

Cotton gins active during June totaled 56,613,421, compared with 58,390,137 in May this year and 51,512,542 in June last year.

MESSAGE FROM HARDING TO PRESIDENT OF FRANCE ACCOUNT "BASTILLE DAY"

WASHINGTON, July 14. (AP)—A message from President Harding to President Millerand, of France, on the occasion of Bastille Day was made public today at the state department. The president said:

"My fellow countrymen rejoice with the people and the government of France on this day which consecrates the birth of the French republic. The United States is proud to have long been closely associated with a nation whose love of liberty is historic and whose sacrifices for the maintenance of that sacred right have been heroic."

In recognition of the day, the French tri-color was displayed along with the Stars and Stripes on many public buildings here.

WILL ISSUE PASSPORT TO MRS. EMMA C. BERGDOLL

WASHINGTON, July 14. (AP)—A passport will be issued by the state department to Mrs. Emma C. Bergdoll, of Philadelphia, who has asked for permission to visit her son, Grove C. Bergdoll, fugitive draft evader in Germany.

The department decided to grant her request when it was learned that Mrs. Bergdoll is a resident who has charge of a considerable amount of the Bergdoll property, could see no objection to the issuance of a passport. Protest was made in a telegram to Secretary Hughes from James A. McFarland, national commander of the Disabled American Veterans, but department officials said that since Mrs. Bergdoll was an American citizen there appeared no legal ground for refusing her request. Mr. McFarland's message declared the men he represented desired to "protest against any court case whatsoever being extended to the Bergdoll family."

FOUR STUDENTS HELD IN CASE OF WAITRESS RELEASED BY COURT

CHICAGO, July 14. (AP)—The four University of Chicago students arrested in connection with the death of Elsie Campbell, a waitress, who is believed to have leaped from a window of one of the students' rooms, were discharged today by Judge Borrell today. They were charged with disorderly conduct, but Judge Borrell said he had no evidence upon which to hold or sentence them.

Lee Wilson left Saturday for an automobile tour of the Canadian northwest. He is to join J. A. Gardner, former resident of this city.

Iessie Howard left Saturday afternoon for Colorado, where he will be the remainder of the summer.

Terms to Suit Your Convenience

PROF. STEINACH TO "REGENERATE" AGED AMERICA

NOTED AUSTRIAN IS SOON TO SAIL ON TRIP TO UNITED STATES.

REJUVENATOR OF AGED, ELDERLY MAN HIMSELF

Accepts Invitation of Number of Prominent American Physicians.

By KARL H. VON WEIGAND, Universal Service Staff Correspondent.

VIENNA, July 14.—Professor Eugene Steinach is soon sailing for New York to "regenerate" aged America. Professor Steinach is the surgeon of whom enthusiastic medical disciples say he can, with a painless little incision with a knife, reopen the foundation of youth in aged men and revive gray old wrecks who have lived too rapidly, permitting them to realize their happier hours.

Professor Steinach is accepting the invitation of a number of prominent American physicians to come to the United States and give demonstrations of his painless and bloodless method of restoring youth and giving back to the aged the joy of living.

He may be accompanied to America by Dr. Robert Liechtenstein, a Vienna surgeon, his chief assistant, who has performed all the operations here for Steinach, the latter not being a surgeon. Steinach has no hospital.

Interviewers are not received, and 200 are so unfortunate as to be a newspaper man, only the recommendation of some one he knows will get you to him.

The rejuvenator of the aged is an elderly man himself, with thick white hair combed straight back and a flowing white beard of the professional type. He is very active and immediately registers great irritation if newspapers are mentioned. He fulminates against the "sensational press of the world" for having fun with the subject of rejuvenation of old men who have had their day, and for their refusal to treat seriously the efforts of medical scientists to restore the joy of life to the aged.

Steinach has little sense of humor in this respect. He cannot understand the frivolity of newspapers on so serious and important matters to every man. His one dread of his American trip is reporters, and there is talk that he will slip into port under another name.

Professor Steinach calls his method "regeneration." His operation rejuvenates but little the external appearance. It does not bring back the natural color to the hair or relieve the gray in Lake Wichita. There is at present about five weeks supply in the lake, according to city officials and the city requirements are between five and six million gallons daily. The rapid rate at which the supply is decreasing and the almost entire absence of rain has brought about action earlier than it was at first thought would be necessary.

It was practically decided at a special session of the council Tuesday morning that the conditions warranted their immediate attention and that work on relieving the situation should begin at once. Detailed plans had not been worked out and the discussion over securing pumps and the source of power to be used in bringing water over the 23-foot rise at the diversion dam held up action until Monday night. The council is expected to have exact plans and costs before them Monday night and to authorize necessary expenditures for carrying on the work.

Plan That is Favored. Of the several plans suggested for bringing the water from the dam to the water plant for the city supply, the one providing for a line from the storage dam to bring the water to the diversion dam where it will be pumped over a 25-foot rise into the canal and direct to the city water plant, seems to have met with the approval of the majority of the council. A previous plan called for bringing the water into Lake Wichita, but it is argued that much of the supply would be lost by evaporation and seepage if this plan should be adopted.

It is believed that in order to supply the requirements of approximately 6,000,000 gallons daily used by the city, it will be necessary to pump about three times the amount used to supply the city in order to allow for the seepage and evaporation in the 30-mile canal.

F. N. Lawton, manager of the city water department, was in Fort Worth Friday to confer with water officials in that city in regard to a gigantic pump which it is hoped can be secured for use in bringing the water over the rise at the diversion dam. Not much encouragement was obtained from this source and it is probable that securing a pump sufficiently large to serve the purpose, will be added to their problems.

Question of Power Important. The chief problem confronting city officials aside from pumps is the matter of power to operate the pumps. It is probable that electric current from the high line will be used, but some uneasiness is felt on this score on account of the delay in the work there. Mr. Lawton went to the dam Saturday afternoon to make a final survey of the situation as it actually exists in order to make a definite report to the council Monday night.

It may become necessary to substitute gasoline or steam power in case the electric current is not available. City officials are confident that the water in Lake Wichita reaches the critical point. It may, however, become necessary to lower the pipes in the lake, in order to increase the flow, but relief is had from the Lake Kemp supply, Mr. Lawton explained.

A change in the location of the pumps supplying the North Texas Insane Asylum has already become necessary. The asylum is supplied with its own water system and the situation there had become serious and necessitated moving the pumps about 100 feet further out in the lake in order to secure an adequate supply of water. The institution will be supplied by the city in the event the lake supply is exhausted when water is brought from the dam.

WE wish to thank our many friends for the loving sympathy extended us during our recent sorrow and for the beautiful floral offerings which were sent. Mr. and Mrs. L. L. Bell—adv.

PROF. STEINACH TO "REGENERATE" AGED AMERICA

NOTED AUSTRIAN IS SOON TO SAIL ON TRIP TO UNITED STATES.

Question of City Water Supply For Balance of Summer Until New System Completed Paramount to Council

Water to supply the needs of Wichita Falls and the best way in which to bring it from the diversion dam at the least possible expense to the tax payers has been the all absorbing topic of discussion among city commissioners, irrigation officials and water company representatives during the past week and will continue to demand their attention at the council meeting Monday.

It was announced some time ago that the water situation was acute and that steps were being taken to relieve the scarcity in Lake Wichita. There is at present about five weeks supply in the lake, according to city officials and the city requirements are between five and six million gallons daily. The rapid rate at which the supply is decreasing and the almost entire absence of rain has brought about action earlier than it was at first thought would be necessary.

It was practically decided at a special session of the council Tuesday morning that the conditions warranted their immediate attention and that work on relieving the situation should begin at once. Detailed plans had not been worked out and the discussion over securing pumps and the source of power to be used in bringing water over the 23-foot rise at the diversion dam held up action until Monday night. The council is expected to have exact plans and costs before them Monday night and to authorize necessary expenditures for carrying on the work.

Prof. Steinach to "Regenerate" Aged America

Noted Austrian is soon to sail on trip to United States.

Rejuvenator of aged, elderly man himself

Accepts invitation of number of prominent American physicians.

By Karl H. von Weigand, Universal Service Staff Correspondent.

Vienna, July 14.—Professor Eugene Steinach is soon sailing for New York to "regenerate" aged America. Professor Steinach is the surgeon of whom enthusiastic medical disciples say he can, with a painless little incision with a knife, reopen the foundation of youth in aged men and revive gray old wrecks who have lived too rapidly, permitting them to realize their happier hours.

Professor Steinach is accepting the invitation of a number of prominent American physicians to come to the United States and give demonstrations of his painless and bloodless method of restoring youth and giving back to the aged the joy of living.

He may be accompanied to America by Dr. Robert Liechtenstein, a Vienna surgeon, his chief assistant, who has performed all the operations here for Steinach, the latter not being a surgeon. Steinach has no hospital.

Interviewers are not received, and 200 are so unfortunate as to be a newspaper man, only the recommendation of some one he knows will get you to him.

The rejuvenator of the aged is an elderly man himself, with thick white hair combed straight back and a flowing white beard of the professional type. He is very active and immediately registers great irritation if newspapers are mentioned. He fulminates against the "sensational press of the world" for having fun with the subject of rejuvenation of old men who have had their day, and for their refusal to treat seriously the efforts of medical scientists to restore the joy of life to the aged.

Steinach has little sense of humor in this respect. He cannot understand the frivolity of newspapers on so serious and important matters to every man. His one dread of his American trip is reporters, and there is talk that he will slip into port under another name.

Professor Steinach calls his method "regeneration." His operation rejuvenates but little the external appearance. It does not bring back the natural color to the hair or relieve the gray in Lake Wichita. There is at present about five weeks supply in the lake, according to city officials and the city requirements are between five and six million gallons daily. The rapid rate at which the supply is decreasing and the almost entire absence of rain has brought about action earlier than it was at first thought would be necessary.

It was practically decided at a special session of the council Tuesday morning that the conditions warranted their immediate attention and that work on relieving the situation should begin at once. Detailed plans had not been worked out and the discussion over securing pumps and the source of power to be used in bringing water over the 23-foot rise at the diversion dam held up action until Monday night. The council is expected to have exact plans and costs before them Monday night and to authorize necessary expenditures for carrying on the work.

Plan that is favored. Of the several plans suggested for bringing the water from the dam to the water plant for the city supply, the one providing for a line from the storage dam to bring the water to the diversion dam where it will be pumped over a 25-foot rise into the canal and direct to the city water plant, seems to have met with the approval of the majority of the council. A previous plan called for bringing the water into Lake Wichita, but it is argued that much of the supply would be lost by evaporation and seepage if this plan should be adopted.

It is believed that in order to supply the requirements of approximately 6,000,000 gallons daily used by the city, it will be necessary to pump about three times the amount used to supply the city in order to allow for the seepage and evaporation in the 30-mile canal.

F. N. Lawton, manager of the city water department, was in Fort Worth Friday to confer with water officials in that city in regard to a gigantic pump which it is hoped can be secured for use in bringing the water over the rise at the diversion dam. Not much encouragement was obtained from this source and it is probable that securing a pump sufficiently large to serve the purpose, will be added to their problems.

Question of power important. The chief problem confronting city officials aside from pumps is the matter of power to operate the pumps. It is probable that electric current from the high line will be used, but some uneasiness is felt on this score on account of the delay in the work there. Mr. Lawton went to the dam Saturday afternoon to make a final survey of the situation as it actually exists in order to make a definite report to the council Monday night.

It may become necessary to lower the pipes in the lake, in order to increase the flow, but relief is had from the Lake Kemp supply, Mr. Lawton explained.

A change in the location of the pumps supplying the North Texas Insane Asylum has already become necessary. The asylum is supplied with its own water system and the situation there had become serious and necessitated moving the pumps about 100 feet further out in the lake in order to secure an adequate supply of water. The institution will be supplied by the city in the event the lake supply is exhausted when water is brought from the dam.

WE wish to thank our many friends for the loving sympathy extended us during our recent sorrow and for the beautiful floral offerings which were sent. Mr. and Mrs. L. L. Bell—adv.

ALLIES DEMAND IS BLOW AT PRINCIPLE OF THE 'OPEN DOOR'

SUCH IS VIEW TAKEN BY MEMBERS OF TURKISH DELEGATION.

CHARGE IT THREATENS ECONOMIC PROGRESS

Question is Raised in Connection With Turkish Oil Concession.

WASHINGTON, July 14.—The allied demand for preferential rights for their companies in future oil concessions made with Turkey constitutes a blow at the principle of the open door, Dr. Riza Hour Bay of the Turkish delegation declared today in discussing the present deadlock in the near east peace conference, where each side is waiting for the other to move first.

Dr. Hour Bay said Turkey expects to be absolutely unfettered economically and hence the war upon the allied demands as threatening her economic development. He also believed any preferential treatment might indirectly be injurious to the concessions held by the American syndicate headed by Rear Admiral Chester.

Germany Excited Result of Escape

(Continued from page one.)

Colonel Scheubelinger, formerly an army officer of the old regime but now converted to socialism, chief of police in Dresden, in an article in Vorwarts, the official socialist organ, today, discussed in all seriousness "the great danger of civil war and the chance of success for overthrowing the present government and establishing a dictatorship over the situation, headed by a German Mussolini."

He declared Hitler-Landwehr followers have established a national-socialist garrison in the fifth German station but stated the Hitler-Landwehr is not a revolutionary army of 1919, as legend has it, in reality is hardly more than 100, equipped with light rifles and only a moderate number of machine guns. But being highly organized, this force as he views it, is quite sufficient to start the ball rolling.

Colonel Scheubelinger intimates that the success or failure of such an attempt lies almost wholly with the German reichswehr, which is sufficient in strength and equipped with modern arms to suppress a fascist uprising within four days, if loyal to the government.

Among the timely warnings were the weekly index, which is now available to over five million readers by disseminating loans for the commercial agencies, the utterances of Mr. Hoover on the danger of inflation, the efforts of the building trades under the leadership of Franklin Roosevelt to curb speculative building, the action of the bankers in discouraging loans for speculative building and in raising discount rates at some of the Federal Reserve Banks.

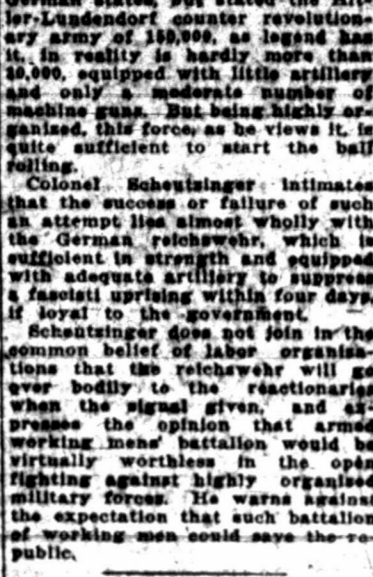

As present the danger is of undue caution or unwarranted pessimism. Some professional forecasters, basing their predictions on mechanical averages of past experience, expect a real slump in business. But the underlying conditions justify the opposite spirit. So far as I can see, the present outlook is for continued prosperity "spread out" over several years. But prosperity can be kept only by continued wisdom resulting in continued stability. The great underlying condition—our excessive gold reserve—is still with us.

STRINGER FUNERAL TO BE HELD SUNDAY AFTERNOON AT FOUR

The funeral of J. W. Stringer, who died at his home, 1500 Grant avenue, at 11:15 Saturday morning, will be held at the First Christian Church Sunday afternoon at four o'clock.

PRICE MOVEMENTS IN 1923

How the Dollar Behaves in 1923

During the first quarter of this year, as the table and chart show, the index number of prices rose about 7.3 per cent per month. During the second quarter it has been falling back at about the same rate.

Why was inflation thus stopped in the last? Presumably because its substance was realized; this fact, coupled with a lively memory of 1919, deterred business men from over-enthusiasm.

My own guess is that the rest of the year will see good steady business with a gradual advance in prices again.

Prices during the first half of 1923:

First quarter average	101.2
Second quarter average	101.6
January average	101.7
February average	101.7
March average	101.7
April average	101.7
May average	101.7
June, week one	101.7
June, week two	101.7
June, week three	101.7
June, week four	101.7

Active pallbearers will be E. V. Fritberg, N. M. Clifford, I. H. Roberts, J. A. Fisher, M. E. Howe, and C. E. McCutcheon.

Honorary pallbearers will be the members of the Wichita Falls commandery of the Knights Templars.

GENERAL GOURAUD DEFENDS COUNTRY FOR RUHR ACTION

INDIANAPOLIS, IND., July 14.—Occupation of the Ruhr Valley by France and Belgium was justified by General Henri Joseph Gouraud, who was called today by Secretary Doolittle, when he called a meeting of a naval council to arrange details of scrapping the battleships abandoned under the limitation program.

"We are now in the Ruhr under the same conditions as were the Germans in 1917 when they occupied the French frontier after reviewing the reparations question. Just as they did not evacuate French territory until after we had paid the five milliards (the war indemnity imposed by the Germans) exactly so will France and Belgium pay their debt."

It is recognized that there will be much wasted and lost material, officials expect that a large amount of the steel may be cut and used profitably by the government either for maintenance of the permitted navy, new authorized construction and for commercial uses.

At a recent conference the state governments, without consulting national authorities, agreed to tax foreigners three gold marks daily the first three days they spend in Germany, two gold marks daily for the next ten days, and a gold mark for every day thereafter.

This means a tax of virtually 15 cents a month on Americans who remain in Germany any length of time. The federal government entered a protest with each of the state governments, declaring it would lead to create antagonism toward Germany at a time when Germany is in need of every friend it can make.

At a recent conference the state governments, without consulting national authorities, agreed to tax foreigners three gold marks daily the first three days they spend in Germany, two gold marks daily for the next ten days, and a gold mark for every day thereafter.

LONG SUSPENSION FOR MANAGER OF BASEBALL TEAM

DAVENPORT, IOWA, July 14.—C. J. Ball, manager of the Jackson, Miss., baseball club was suspended until January 1, 1924 for assaulting Umpire Board of the South States League.

Ball was attacked in the lobby of a hotel after he and Bell had had several disputes during the game. Several of Bell's players stood by while the elderly umpire was assaulted. President M. H. Boston ordered them fined.

Joe McGinnity, former pitcher of the New York Giants and a veteran manager of the Dubuque, Mississippi Valley League club, was warned that a recurrence of the incident at Dubuque on July 2 would result in his being suspended for the remainder of the season.

Umpire Dewese, would bring a suit for \$50,000 damages against Ball. Dewese is threatened with the loss of his franchise according to President Boston if further offenses occur.

CHICAGO, July 14.—W. E. D. Stokely, millionaire banker, stock man and banker, was named a defendant in \$50,000 damage suit filed in the superior court here today by Hal C. Bligg, Jr., Chicago real estate dealer who was named in the divorce proceedings between the Stokelys which are still pending in New York.

CHICAGO, July 14.—The marriage of Miss Thelma Fitzwilliam, daughter of William Reed Fitzwilliam, of Waco, Texas, to William D. Sedley, of Winnetka, took place at St. Chrysostom's church here this afternoon. It was a brilliant social event. The couple left for a honeymoon in the Bermudas and on their return will be at home in Duluth, Minn.

TEXAS BRIEFS

APPEALS FILED IN TWO DEATH SENTENCE CASES

AUSTIN, July 14.—Appeals were filed in the court of criminal appeals today in two death sentence cases. They were: Earle Humphreys, Falls County, sentenced to death for the murder of Lee Frazier, on January 13 this year, and Tommie Curry, negro, Smith County, sentenced to hang for the murder of Mary Lisa Curry. Appeals are relative to the pre-war level, or the dollar was \$2 pre-war cents.

Active pallbearers will be E. V. Fritberg, N. M. Clifford, I. H. Roberts, J. A. Fisher, M. E. Howe, and C. E. McCutcheon.

Honorary pallbearers will be the members of the Wichita Falls commandery of the Knights Templars.

TWO BIG PRODUCERS SUNSHINE STATE POOL ARCHER COUNTY

CURTAINMENT CONTINUES IN ARCHER COUNTY; SUNSHINE POOL COMPLETES TWO WELLS

WILDCAT SHOWING NEAR GAINESVILLE AT DEPTH OF 2260

Considerable excitement is being occasioned in the vicinity of Gainesville and Cooke county by the showing made in the Big Iron Oil company's test on the Davis land, located 12 miles northeast of Gainesville.

NEW DEEP SAND IN STEPHENS COUNTY OF GREAT IMPORT

BRACKENRIDGE, July 14.—What is described by oil men as one of the most important developments made in the Brackenridge oil fields is the finding of a new deep sand at 1975 feet, one and one-half miles northeast of Caddy by the Gulf Production Company on their lease on the D. Ward tract.

\$50,000 LEASE DEAL FEATURE OF WEEK IN MORAN FIELD

Special to The Times. MORAN, TEXAS, July 14.—The most important development looking to the western extension of the Moran oil field, both shallow and deep, was put under way this week when R. D. Clancy of Dallas closed for himself and associates, James T. Hale of St. Paul and F. W. Carter of Dallas, seven and three large leases, approximating 3,000 acres, covering three distinct structures, carrying a cash consideration of \$50,000.

RED RIVER WELL OF CONTINENTAL MAKES 200 BBLs.

The Continental Oil Company's No. 2 well west of the bridge near the Oklahoma-Texas holdings in the bed of Red river, was drilled into Friday and is estimated to produce 200 barrels a day. The well is being cleaned out and will be placed on the pump this week.

ARCHER DRILLING SLOWED BY HEAT AND LACK OF WATER

SWASTIKA FIELD OPERATORS AWAITING PIPE LINE SUNSHINE STATE GETS LARGEST COMPLETION

Archer City-Oney Road Being Repaired and Drugged; Learning Near Sunshine. Special to The Times: ARCHER CITY, TEXAS, July 14.—An inadequate water supply, extremely hot weather, and the program of curtailment of drilling have tended to slow up operations in the Swastika field in Archer county. The Swastika field is quiet and operators are awaiting pipe line facilities. Practically all of the wells in the Swastika field are shut in.

Three Offsets Being Drilled. Three other offsets are being drilled by the Sunshine State Company, No. 1 J. K. Farthing, is drilling a well to the south; No. 4 Parrish, south of No. 2, is drilling at 1130 feet, and No. 5 Parrish will offset the Bridwell-Heydrick producer to the south. The Sunshine Company also started stringing the line along the right-of-way for the oil line which will extend from the company's lease in the Freeman-Hampton pool, a distance of nine miles to the new wells in the Sunshine State pool, which, when finished will relieve the congested conditions in the district.

Artes Well Causes Activity. Another part of the county which is receiving a big end of the development is the Artes well, located adjacent to the Artes well in the Carter land, in block 92, American Tribune lands. The Texas Company has been drilling a well on its Carter tract to offset the Gwynne-Park 1300 foot producer to the east. The Bridwell-Heydrick Company is preparing to offset the Carter land, and the same company is rigging up its No. 2 Parrish, offsetting the No. 1 to the south.

On the Gwynne-Park lease in the Carter land the company has made locations for 16 additional tests. Eight will be put down to the 1300-foot pay and the remaining half will drill to the Sunshine pay at 1575 feet. Gwynne-Park has started drilling on their No. 2 well, and the rig 300 feet west of the producer.

Maers & Stanforth are preparing to offset the Gwynne well to the north by a derrick up on lot 4, block 91, Carter, and are moving in tools. On block 91, lot 4, Darr-Bowling & Carter have a derrick up on the south about one half mile from the Gwynne well.

Operations in the Swastika field in the south part of the county are at a standstill, many tests shutting wells. No. 1, block 92, Clark and Plumb sub-division No. 4, has spudded in and is now drilling at 300 feet. Lanning and Moninger's F. J. Hay, No. 1, block 98, Clark and Plumb sub-division No. 4, has spudded in and is now drilling at 300 feet.

WICHITA DAILY PIPE LINE RUNS DROP 1500 BBLs. Bble Daily: Electra 35,000; Burdett 15,000; Archer county 15,450; Lower Park, K. M. A. 2,375; Petrolia 135; Hensley 135. Total for the week 72,685; Total last week 71,713. This week's loss 1,599.

New Drilling Operations Almost at Standstill in Wichita Falls District Several New Wells in Electra Pool

The past week was one of the quietest in oil circles that Wichita county has experienced in a long time, the unsettled condition of the market failing to show any improvement over the previous week. While there were a number of wells finished in the Electra pool, there is a growing determination among the greater part of the operators to shut down all drilling in the entire field.

Larger Oil Companies Asking for Figures on Delinquent Taxes Due To Late Decision of Supreme Court

County Tax Collector Guy Raley said that the larger oil companies are asking for figures on delinquent taxes due to a late decision of the Supreme Court. Raley said that the companies are asking for figures on delinquent taxes due to a late decision of the Supreme Court.

MAGNOLIA GETS 200-BARREL WELL IN GORMAN FIELD

MARTLAND, TEXAS, July 14.—The Magnolia Petroleum company's No. 2 well on the Rose tract in the Gorman field was brought in Friday morning and from present indications is the best ever drilled in that pool with an estimated production of 100 barrels daily.

Carbon Black Now Being Made For First Time In History of Texas Between Breckenridge and Parks

BRACKENRIDGE, July 14.—For the first time in its history the finished product of carbon black is being manufactured in the state of Texas by the Colfax Corporation, which is said to be backed by the Columbia Carbon Products Corporation, the largest manufacturer of carbon in the world.

Announcement

Patterson & Lamkin. Operators in oil properties throughout Texas and Oklahoma have added a city realty department in charge of Mr. W. B. Patterson.

Future Needs of Public Utilities

Statisticians have figured out that the investment in public utilities in the United States is approximately \$15,000,000,000, and they say that in the next thirty years that huge amount will have to be doubled—thus making a sum greater than our war expenditures.

Seven Lean Years

The last seven years have been "lean years" with public utilities. Costs have risen greatly, while the revenues have not kept pace with them. And with the growth of population the demand for service has required costly installations.

LONE STAR GAS CO. DALLAS TEXAS. This Company congratulates itself upon the good will manifested by the people it serves.

WEEKS

J. I. Staley, President of Security National Bank and Owner of Staley Building, Is Oil Man and Rancher

Fifteen years ago a young man came to the bank in the little town of Burkburnett as a bookkeeper. Today in the same county this man, still a young man, ranks at the very top of the financial ladder, is the three greatest business capacities of this section—banker, oil man and ranchman.

J. I. STALEY

Before he has reached even the prime of life, success has been attained that is coveted as the result of a life time of effort by thousands of men of the country. Men many years his senior in years and experience declare him one of the soundest business men they have ever known and one who weighs carefully every transaction into which he enters. It is not to the Goddess Luck but to the God of Reason that Mr. Staley's success may be attributed, his associates declare.

These holdings consist in many instances of old and well known ranches and of thousands of acres of the best land of this country. Monday evening, July 16, when the Security National Bank has its formal opening, the entire 12-story office building of which Mr. Staley is the owner will be opened for inspection. This handsome building was purchased in April and he proposes to make it the best serviced building in this city and to this end is putting forth his usual result-getting efforts.

Interior View of New Quarters to be Occupied Monday Morning By Security National Bank, Youngest in City

A city can have no greater asset than sound banking institutions and Wichita Falls has this advantage to a marked degree.

The Security National Bank, which opened its doors for business July 1, 1923, is the youngest bank in Wichita Falls and ranks second to none in the matter of progress and development and as an institution of reliability and good standing.

The growing needs of the institution, which now has a capital stock of \$200,000 and deposits totaling \$2,352,090, have made new and enlarged facilities essential and on Monday morning, July 16, the doors will be opened for business in the banking rooms of the Staley building, located on the corner of Indiana avenue and Eighth street.

J. A. RICHOLT, VICE-PRESIDENT BANK, PIONEER CITIZEN

J. A. RICHOLT

J. A. Richolt, vice president of the Security National Bank, is a pioneer citizen of Wichita Falls, having been connected with its growth and development for many years.

association with them ranks him as one of the most important men in the industry. His other business interests include the Fridy Grain Company, of which he is president. Since coming to this city Mr. Fridy has taken an active part in civic affairs, being connected with various civic organizations, including the chamber of commerce, the welfare council and the school board. His years of active and efficient service on the school board were a strong factor in the splendid growth of the schools of this city. He was assisting in his work as a member of this board and gave freely of his time and effort, rendering a valuable service to his community.

What Is Your Insurance Program?

The Union Central Suggests the Following:

1. My estate will be debt free without the sacrifice of a single portion of it through "forced sale."
2. "I will guarantee a living income for my family for as long a period after my death as it will be within the capacity of my present income, with the purpose of eventually extending this period to a lifetime."
3. "My children will not be deprived of their education even if I am not here to pay the bills."
4. "I will accumulate an estate so that I will be financially independent in my old age, because if I do not see to it myself, perhaps nobody else will."

The keen business judgment and foresight which has brought about his rapid and remarkable success has also gained him an enviable reputation among the biggest business men of the country. Men many years his senior in years and experience declare him one of the soundest business men they have ever known and one who weighs carefully every transaction into which he enters. It is not to the Goddess Luck but to the God of Reason that Mr. Staley's success may be attributed, his associates declare.

Mr. Staley's friends will pay homage to his success as a banker Monday evening when they call to inspect the handsome new quarters of the Security National Bank, which he is president. This bank, during the three years of its life, has made remarkable progress, gaining an important place among the banking institutions of the country. Mr. Staley is also a stockholder and director in the First National Bank of Burkburnett, in connection with which institution he first came to Wichita county, and is president of the Farmers' State Bank of Okfuskee, Oklahoma. He holds large blocks of stock in several other banking institutions in this part of the country.

The growing needs of the institution, which now has a capital stock of \$200,000 and deposits totaling \$2,352,090, have made new and enlarged facilities essential and on Monday morning, July 16, the doors will be opened for business in the banking rooms of the Staley building, located on the corner of Indiana avenue and Eighth street.

This location is ideal and the equipment is the best to be had, including huge steel lined time-locked vaults, guaranteed day and night, safety deposit boxes and individual rooms, officers' quarters, directors' and partners' and banking fixtures of Taverne marble, of elegant design.

The bank will open for business in the new quarters Monday morning at nine o'clock and from eight to ten o'clock in the evening a formal reception will be held, at which time all friends are cordially invited to call and inspect the commodious new home and enjoy the music which will be a feature of the happy occasion. Attractive remembrances in the form of souvenirs will also be given.

W. F. Jourdan

CASHIER SECURITY NATIONAL BANK IS USEFUL CITIZEN

N. M. CLIFFORD

The success and prosperity of this institution is a result, primarily, of the fact that the best type of business men are connected with its management, both as to active officials and members of the board of directors. Men who have been exceptionally successful in the management of their own affairs and who have a reputation in this section for honesty, foresight and accuracy.

IMPORTANT FACTOR IN BANK'S SUCCESS IS VICE-PRESIDENT

C. C. CABINESS

Realizing that the growth of the business is dependent upon the success of their customers, these men of experience and good judgment are at the service of the business men of this community and ask for an opportunity to assist them and to discuss with patrons their business requirements. New business is always appreciated and cooperation is promised on all occasions.

PUBLIC AFFAIRS ENLIST EFFORTS OF W. M. PRIDDY

W. M. PRIDDY

FOR DAMAGES TO AUTO

The Wichita Falls and Southern Railway Company was named defendant in a damage suit filed in the 14th district court Saturday afternoon by the Southern Surety Company, in which a judgment of \$300 is asked for damages sustained by an automobile owned by W. R. Ferguson, the petition alleges that on September 3, 1922, the defendant, due to carelessness and negligence, pushed a string of box cars across Scott street and struck the automobile owned by Mr. Ferguson. The petition states that Mr. Ferguson has turned over all his rights to the plaintiff in this action.

 A. J. Serviss, Gen. Agt
 Phone 7525

The Security National Bank has as cashier a man who not only ranks as a business man of ability but as a citizen of proven worth. N. M. Clifford has been active in business and civic circles in Wichita Falls for a number of years. He is not one of the citizens who sit back and tell how things ought to be done but he cheerfully shoulders his own responsibility and has served as street commissioner on the city council for the past year and a half.

He gives freely of his time and effort wherever the development of the city is concerned and is a willing and valued worker in all civic matters.

As active vice president of the Security National Bank, which will open its doors to the public Monday in spacious new quarters in the Staley building, Mr. Cabiness has had an essential part in the progress and development of this, the youngest of Wichita Falls banking institutions.

He has years of banking experience coupled with sound judgment and a well founded reputation for honest and square dealings in all respects.

LLOYD GEORGE DECLARES JEWS ALONE CAN SAVE PALESTINE

SAYS JEW 'BAITERS' GENERALLY TYPE THAT FOUND REASON FOR EVADING SERVICE FOR COUNTRY

BY THE RIGHT HONORABLE DAVID LLOYD GEORGE, O. M. M. P.

Copyright, 1933, by United Feature Syndicate. Copyright in Great Britain by London Chronicle. Copyright in Australia by the United Feature Syndicate. Reproduction in whole or in part prohibited.

ALL rights reserved. All the histories that trace the human temper there is none so stupid as the antisemitic. It has no basis in reason—it is not rooted in faith—it applies to no man—it is just one of those dark and unwholesome weeds that grow in the morass of racial hatred.

Jew baiters devoid of reason it is may be gathered from the fact that it is almost confined to nations who worship the Jewish prophet and apostles and reverse the national literature of the Hebrews as the only inspired message delivered by the Deity to mankind, and whose only hope of salvation rests on the precepts and promises of the great teachers of Judaism.

Still, in the sight of these fanatical Jews of today can do nothing right. If they are rich they are despised. If they are poor they are despised. If they are in favor of a war, it is because they want to exploit the bloody fight as a stepping stone to their own profit. If they are anxious for peace they are either inactive towards the masses, or they give generously—and there are no more liberal givers than the Jews—they are doing it for some selfish purpose of their own. If they don't give—then what would one expect of a Jew?

If labor is oppressed by great capital, the Jew is the man who holds responsible. If labor revolts against capital—as it did in Russia—the Jew is blamed for that also. If he lives in a strange land he must be persecuted and pogrommed out of it. If he wants to go back to his own land he must be prevented. Through the centuries, in every land, whatever he does or intends to do, he has been persecuted by the spite of the brutal error of the rabble of Jerusalem against the greatest of all Jews—"Crucify Him!"

Peace, Paganism and Spirit

There has ever come of nations that crucified Jews. It is poor and pitiless sport lacking all true qualities of manliness, and those who indulge in it would be the first to run away were there any element of danger in it. Jew baiters are generally of the type that found good reasons for evading military service when their own country was in danger.

The latest exhibition of this wicked indulgence is the agitation against settling poor Jews in the land their fathers made famous Palestine under Jewish rule once maintained a population of 1,000,000. Under the Turkish rule of the Turk it barely supported a population of 70,000. The land flowing with milk and honey is now largely empty and unsuitably desolate. To quote one of the ablest and most enlightened business men of today, "It is a land of immense potentialities in spite of the terrible neglect of its resources resulting from Turkish misrule. Its glorious estate has been let down by centuries of neglect. The Turks cut down the forests and never troubled to replant them. They slaughtered the cattle and never troubled to replace them."

It is the Jew that has ruined the Jew that he adores the Turk.

If Palestine is to be returned to a condition even approximately to its ancient prosperity it must be by settling Jews on its soil. The conditions to which the land has been subjected by centuries of the most degrading oppression in the world is such that restoration is only possible by a race that has the strength and sentimental reasons to make and endure sacrifices for the purpose.

What is the history of Jewish settlement in Palestine? It did not begin with the Balfour declaration. In 1890 Jews in Palestine numbered 10,000. Before the war there were 100,000. The war considerably reduced these numbers, but immigration since 1918 has happily filled the gap. At the present time the rate of progress it will be many years before it reaches the level of 1914.

Jewish settlement started practically 20 years ago. It started with Mr. Moses Montefiore's experiment in 1870—another year later. The settlement had good reasons for perpetuating Jews in that country as the allies had in 1918. Do the Jewish settlement of Palestine began. From almost nothing it has proceeded slowly but steadily. The land available was not of the best. Prajudice and fears had to be negotiated. Anything in the nature of wholesale expropriation of Arab cultivators, even for cash, had to be carefully avoided. The Jews were therefore often driven to settle on barren sand dunes and malarial swamps where the Jew cultivator produces heavier and richer crops than his Arab neighbor. He has introduced into Palestine more scientific methods of cultivation, and his example is producing a beneficial effect on the crude tillage of the Arab peasant. It will be long ere the Canaanites have a land flowing with milk and honey. The effects of the neglect and misrule of the past are being offset by the issue of a declaration of the cutting down of trees has left the soil unprotected against heavy rains, and roofs which were once green with vineyards and olive groves have been swept bare. Turnover which gives the patient industry built up have been destroyed by a few generations of Turkish stupidity. They cannot be restored in a single generation. Great irrigation works must be constructed if the settlement is to proceed on a satisfactory scale.

Palestine Advantages

Palestine possesses in some respects advantages for the modern settler which to its ancient inhabitants were a detriment.

In one great river with its two tributaries are rapid and have a great fall. For irrigation is admirable. Whether for irrigation or for the setting up of new industries, this gift of nature to Palestine is valuable of exploitation impossible before the scientific discoveries of the last century. The tableland of Judaea had a rainfall in which if caught in reservoirs at appropriate centers could make of the "desert of Judaea" a garden. This was done, Arab and Jew alike would share in the prosperity.

There are few countries on earth where the modern Jew of their position. There is no doubt a fine climate for tourists. I was advised to find that visitors to Palestine in the winter months enjoy a year only in the United States. The climate is so good that it is the only place in the world where the history is of many absorbing interest. The Jews, people on the whole, are more intelligent than any other race of their own country. None of its people

LLOYD GEORGE, IN DISCUSSION OF JEWS, SAYS THEY ALONE CAN SAVE PALESTINE

"Of all the histories that trace the human temper there is none so stupid as the anti-semitic. It has no basis in reason—it is not rooted in faith—it applies to no man—it is just one of those dark and unwholesome weeds that grow in the morass of racial hatred."

"Jew baiters devoid of reason it is may be gathered from the fact that it is almost confined to nations who worship the Jewish prophet and apostles and reverse the national literature of the Hebrews as the only inspired message delivered by the Deity to mankind."

"Jew baiters are generally of the type that found good reasons for evading military service when their own country was in danger."

"The latest exhibition of this wicked indulgence is the agitation against settling poor Jews in the land their fathers made famous Palestine under Jewish rule once maintained a population of 1,000,000. Under the Turkish rule of the Turk it barely supported a population of 70,000. The land flowing with milk and honey is now largely empty and unsuitably desolate. To quote one of the ablest and most enlightened business men of today, 'It is a land of immense potentialities in spite of the terrible neglect of its resources resulting from Turkish misrule. Its glorious estate has been let down by centuries of neglect. The Turks cut down the forests and never troubled to replant them. They slaughtered the cattle and never troubled to replace them.'"

It is the Jew that has ruined the Jew that he adores the Turk.

If Palestine is to be returned to a condition even approximately to its ancient prosperity it must be by settling Jews on its soil. The conditions to which the land has been subjected by centuries of the most degrading oppression in the world is such that restoration is only possible by a race that has the strength and sentimental reasons to make and endure sacrifices for the purpose.

What is the history of Jewish settlement in Palestine? It did not begin with the Balfour declaration. In 1890 Jews in Palestine numbered 10,000. Before the war there were 100,000. VALUABLE PUBLICITY FOR QUANAH RESULT JULY 4 CELEBRATION

EVENT PRAISED BY MEMBERS OF PRESS AND OTHERS PRESENT.

FARM BUREAU CAMPAIGN FOR HARDEMAN COUNTY

Officers Are Elected by Quannah Chamber of Commerce Past Week.

QUANAH, TEXAS, July 14.—(Special to The Times.)—The Fourth of July celebration put on here by the Young Men's Business League, a number of papers in this territory had representatives here for the occasion, each of whom went back and reported to be the biggest affair ever undertaken in this section of the state. Quannah feels a pride in being able to feed and entertain the fifteen or eighteen thousand people that were here for the day.

Farm Bureau Campaign.

A campaign in this nineteenth district was opened by the farm bureau association to increase its membership before the cotton season opens. The five counties included in this campaign are to be worked consecutively, beginning with Wilbarger, then Hardeman, Ford, Knox and Baylor.

A district meeting was held here last week at which time it was decided to begin the work this week. F. D. Hendrix of Quannah was elected chairman of the drive and a member from each of the counties will assist him in the executive work of the campaign.

F. W. Kennedy was elected president of the local chamber of commerce at a meeting of the board of directors. Mr. Kennedy has been a director of this organization for quite a while and is thoroughly familiar with the work. Carl Bloomfield was elected vice president. J. L. Whisenand, who has been secretary of the chamber of commerce here for the past year, tendered his resignation and left for San Antonio Thursday at noon. He has been greatly commended for his work while here and his resignation was accepted with regret. His wife was forced to seek the climatic condition of San Antonio for her health which necessitated the change.

Two Deaths Reported.

Mrs. Mary Worley was brought here from Headrick, Oklahoma, for burial last week. She was the mother of Mrs. W. G. Mulkey of Quannah.

Wm. Isaac Craven of Goodlett died from blood poison and was buried under the direction of the local Masonic lodge.

A shower was given for Mrs. Sim Coker Tuesday afternoon by Messrs. E. H. Coker, T. D. Friswell and R. R. Gilliland.

A Rubenka lodge has been organized here with ten charter members. Mrs. Ross of Vernon and Mrs. Anderson of Chillicothe directed the organization.

The Quannah players state that the chess game with Wichita Falls is about ended in Quannah's favor. Moves have not been made as fast late as formerly.

BIG CROWD WILL ATTEND 'STUNT DAY' AT LAKE

Sunday's stunt at Lake Wichita are expected to bring a large crowd to the amusement park. Having been set aside as special 'stunt day' Sunday will be a banner day for entertainment with a number of special events in addition to the usual number of amusement features.

Who is the tallest man you know? If he is the tallest man in the world, Sunday he will be given a prize. If your legs run in the other direction, pick out the shortest man over the age of 11, and you will have a chance at another prize, for both the tallest and shortest will be awarded prizes in the stunt program.

There has been a tall pole erected at the lake, which will be climbed by a man who will be given a prize. Sunday morning it will be climbed. In the afternoon it is going to be climbed. At least a dozen young men who have entered the grand pole climbing contest will be climbing in addition to the man who will be given a prize. It is said to be the tallest pole in the world.

Back rows of all kinds. Three-legged room, one-legged horse, and other stunts are all on the schedule, with enough events to last through out the day. The women will try their hands at hall driving, attempting to drive nails while blindfolded. A dozen other stunts, too many to name, are promised by the largest crowd of the year is expected to be here for these events.

WICHITA FALLS HEALTH DEPARTMENT RECOMMENDS USE OF FLY-PIU

To whom it may concern:

I have just witnessed a thorough demonstration of Fly-Piu by Mr. Nethery in various places of business in this city. Roaches were routed from cracks and crevices in restaurant kitchens by the thousands and flies in countless demonstrations were made.

I have never seen any kind of insect powder or destroyer which approaches Fly-Piu in merit and I most heartily endorse its use about every premise infested with any kind of insect life.

Respectfully,

A. H. DOUGLASS,
Director of Health Dept.—Ad.

IT LOOKS LIKE THERE OUGHT TO BE ENOUGH COCONUT PIE FOR EVERYBODY IN THE WORLD FOR YEARS TO COME. The photo is only a very small part of a year's Philippine crop. The average person probably has only a slight conception of what a big job it really is to gather and prepare the crop for market. These pictures give you a partial idea. At the top is a raft of coconuts taking off in an inland stream. In the center is the propagation shed, where thousands of nuts are stored; a native husking with a Filipino plow point, and a coconut grove where coconuts are grown for the important copra trade. On the lower left is a bunch of nuts nearly four years old. Next is a scene at a coconut market. Note the absence of steamers or gasoline boats.

SUIT TO RECOVER MONEY DEPOSITED IN DEFUNCT BANK

FORT WORTH, July 14 (AP)—Suit to recover a \$11,987 deposit in the defunct Security State Bank of Fort Worth was filed today in district court by G. C. Wright, receiver of the United Home Builders of America, a Dallas concern.

J. L. Chapman, state commissioner of insurance and banking; Walter Keeling, attorney general; and C. V. Terrell, state treasurer, are named defendants. The trio constituted the state banking board. The affairs of

Pretty Parties for Attractive Bride-elect, and Beautifully Planned Reception for Bride

Pretty parties for Miss Kathleen Lynch, talented and attractive bride-elect, whose marriage to Eugene Webb Graham, takes place Wednesday, and a beautifully planned and most enjoyable informal reception for Mrs. Arch Dawson, most recent bride, were features of the past week's social activity.

Kathleen, who is the only daughter of Mr. and Mrs. S. D. Lynch, of 2303 Tenth street, was the honoree at two lovely hospitalities following the recent announcement of her engagement at the home of Mrs. M. C. Batey. Mrs. Cress Van Milligan was the first hostess, entertaining last Tuesday with a beautiful bridge luncheon and shower for the bride-elect.

A dozen girl friends and several of the bride's mothers made up the party, the members of which enjoyed bridge during the morning. In the games, the honoree very considerably won high score, and became the logical recipient of the gifts, a ribbon, bracelet, etc.

After the games, a lovely luncheon of chicken salad, olives, saltines, sausage flakes, Swiss ice cream, and angel food cake were served. The table decorations featured the living room suite decorations of blue, white and gold.

The guests included Mesdames C. C. Parfet, M. C. Batey, Barnes of Brookbridge and Howard Wepner, Frieda, C. T. Williams, Fred Dawson, Al Ellis, S. D. Lynch and R. H. Graham, and Misses Thekla Jordan of Philadelphia, Kathleen Lynch, Gertrude Watson, Mora Zindler, Lelia Williams, Thelma Williams, Dorothy Ellis and Deyver Russell.

The party at the Wichita Club, with Mrs. Langford, assisted by Mrs. B. H. Donald and Mrs. C. C. Cabiness, was Thursday afternoon. The tables were arranged for bridge, and the club was bright and fragrant with cut flowers of various kinds, in pots and vases. The players were refreshed during the game with cold fruit punch served by Miss Virginia Barron, and at the close a salad and ice cream were served on the tables.

The club disbanded for the remainder of July and all of August arranged to meet again in the first of September with Mrs. Walker.

Miss Gladys and Marie Walker of Waco were entertained by their sister, Mrs. G. M. McFarland, when they are visiting Wednesday afternoon at the home of Mrs. J. M. Dooley on Avenue B.

MRS. ROGERS HOSTESS HONORING MRS. DAWSON AT RECEPTION THURSDAY

Mrs. Guy Rogers, assisted by a score of her friends in the house party, invited about two hundred friends to meet Mrs. Arch Dawson, one of the newest brides, at her home on Grant street Thursday afternoon.

The reception was attractively informal, and one of the most enjoyable of the recent hospitalities. The living room was bright with gold-colored daisies and roses, with the daisy flower which carried to a lovely climax in the dining room, where they formed, with a "D" topped with mistletoe, a beautiful bank about the punch bowl on the dining table.

In the living room Mrs. Rogers was assisted in her duties in the informal line by Mesdames Ben G. O'Neal, who greeted the guests at the door, W. W. Cook, D. J. Carter, Mrs. L. A. Lewis, Mrs. W. W. White, O. W. Wilson, O. B. Womack, E. T. Barkner, Wayne Somerville, R. A. Stary, J. T. Stevens, J. E. Ricks, C. J. McDonald, J. C. Strauss, C. A. Taylor, T. R. Brunson, R. A. Thompson, W. B. Personal Mention

Mrs. J. H. Fowler of 1445 Broad returned Friday from Galveston after visiting her daughter. Mr. and Mrs. W. E. Carter of 1247 Burnett spent the past week in Galveston, returning home here Friday. Miss Susie Purser leaves Sunday for a few weeks' stay in the Ozark mountains. Miss Margaret Watson of Waxahachie is visiting Mrs. L. L. Cook at 1816 Elizabeth street, and other friends. Miss Mattie Motte Barnes left for Dallas Friday after a visit with Mrs. T. A. Barnett for the past two weeks. Miss May Fitzgerald of Cleburne, Texas, is the house guest of Mrs. Roy Grimes at her home, 1508 Burnett. E. L. Morgan has gone to join his family in Dallas county, in the plains country, for the rest of the summer. Dr. and Mrs. S. H. Fulton came in Thursday to spend a week or two visiting their son, E. L. Fulton, and family, at 1408 Park. Mrs. E. L. Fulton and Miss Mary Colquhitt are expected in Sunday from Chicago, where they both took special summer courses. Mr. and Mrs. O. A. Adkins and Mrs. Felix White are spending the week-end in Ardmore, leaving Saturday morning in their car. Miss Anna Jacobs of Corseland, Texas, who has been visiting her sister, Mrs. Lee Abrams, for several weeks, returned home Saturday. Mrs. Monte Groves and daughters, Mary Jo and Dorothy, of Newcastle spent the past week with Mr. and Mrs. R. B. Parker at 1408 Grace.

In the Pictures

Left to right, three rows:— Miss Ina Pearl Curry, soprano, is the new director of the Floral Heights Methodist choir. Miss Curry has a most attractive personality as well as a lovely voice, and her recent concert, given jointly with Miss Lois Fitzgerald at the church, was a delightful success. Frank Chatham is a Sunshine Gardener. Frank is the young son of Mr. and Mrs. J. W. Chatham Jr., of 1507 Kemp, and his smile doesn't come off—much. Mrs. Arch Dawson, who was until recently Miss Ethel Murray, of Willis Point, member of the faculty of the College of Industrial Arts at Denton, Texas, was complimented in a beautiful informal reception at the home of Mrs. Guy Rogers Thursday. Mr. and Mrs. Dawson are at home to their friends at 908 Baylor. Miss Helen Snider was elected president of the Penta Tau Club at Ward Belmont shortly before the close of the spring term, and will serve in that capacity next year. Helen has always been an especially popular member of the younger crowd here, and her friends at home were not surprised that her attractive personality has won his way in Nashville. Mrs. Harwood Stacy and the delightful little person in the bassinet are enjoying a visit to Mrs. Stacy's parents in London this summer. Mr. Stacy accompanied them over in June, to spend about a month, but Mrs. Stacy and the baby are there for the summer. It is Mrs. Stacy's first visit home since her marriage two years ago. Mrs. M. C. Batey is one of a group of brides and young matrons who are making the present two weeks very delightful for Miss Kathleen Lynch, whose marriage to Eugene W. Graham takes place Wednesday. Mrs. Batey, who is to be mistress of honor in the wedding, gave the announcement party some days ago. Miss Thekla Jordan, of Philadelphia, Pa., is the house guest of Mr. and Mrs. C. C. Parfet, and is enjoying many hospitalities this month. Miss Florence Sammons, talented local pianist, left Saturday with her sister, Mrs. F. E. Thornburgh, for Long Beach for the summer. Miss Sammons expects to take advantage of the beautiful musical during her stay in the popular west coast resort, and in Salt Lake City and San Francisco en route. Little Miss Irvine Roberts was flower maid in the Stampitt-Fisher wedding two weeks ago. Irvine is the pretty little daughter of Mr. and Mrs. I. H. Roberts, and she doesn't look like her dad. Spent the remainder of the summer with Mr. and Mrs. F. B. Hayden. Mrs. Huff's parents. Mr. and Mrs. J. F. Nichols of Eighth street, accompanied by their daughter, Mrs. E. T. Nichols, and D. C. Hudson and Miss Anale Nichols, left Monday for Manitou in their car to spend a few weeks. Mr. and Mrs. Clarence Moore, former residents of Wichita Falls, who have been living in Houston, have moved back here and are at home at 2145 Avenue G to their old friends. T. E. Allday left Saturday afternoon for Long Beach, Cal., to join Mrs. Allday and their daughter, who have been at the beach several weeks. The family expects to return here by Sept. 1. Mrs. Nell Weaver is in Colorado Springs spending the summer with Mrs. J. G. Quinn, who has a cottage there. Miss Minnie Young and her mother, Mrs. A. C. Young, will leave Saturday for Los Angeles and other California points. They will be gone for a month, and on their return will stop at Denver. Mr. and Mrs. J. A. Cole left Saturday morning in their car for Dallas and later for the Ozark Mountains to spend several weeks. Miss Tennis Belle Calbert of Stamford will be here Monday, and

Miss Josephine Seip of Easton arrives Tuesday, to visit Miss Icy V. Larkin. Miss Leah Eagan of Kansas City, Mo., is the guest of Mrs. Charles Pridden for the summer. Mrs. Glad Flannigan and daughter, Miss Juanita, of Fort Worth, who have been visiting Mr. and Mrs. W. A. McClellan, 1448 Bluff street, for several days, returned to their home Thursday. Mrs. Ardie Flannigan of Fort Worth has returned after a brief visit with friends in the city. Mrs. H. O. Newton of 1704 Louisa avenue has her mother, Mrs. R. C. Bone, and her sister, Mrs. C. C. Brady, of El Paso, as her house guests. Mrs. J. J. Hill and daughter, Ruth and Stella of 2005 Eleventh street, left Saturday to spend a month and a half with Mr. Hill and son, where they are engaged in the oil business in Tonkawa, Oklahoma. They drove through in the car. Mr. and Mrs. Ray M. Wilhite, Mr. and Mrs. W. E. Priddy and daughter, Ray, and Miss Elsie Harby left in their car Sunday morning for Colorado, where they will be joined in a few days by Mr. and Mrs. E. E. Maddox. The party will be gone about three weeks, camping most of the time. Miss Lillian Wilson of Groesbeck is visiting with Mrs. Everett Hughes of 1906 Eleventh street. Renee Allred Jr., court reporter of the 8th district court, Mrs. Allred and son, Renee Allred III, will leave Sunday for California. The trip will be made in an automobile. They expect to be gone for six or seven weeks. MEMBERS CHRISTIAN AID HAVE PICNIC SWIM Mrs. J. H. Terrell's division of the ladies auxiliary of the First Christian Church, enjoyed a swimming party at Haven park Thursday evening. The members were accompanied by their families and after the swim a watermelon feast was the main feature of the occasion. DAY NURSERY CHILDREN ENJOY TWO TREATS The ladies of the Episcopal church took about 40 of the children of the Day Nursery for an automobile drive to the lake last week, where the youngsters were treated to a ride on the merry-go-round and a large box of oranges. The week before a ride to the lake and to Iowa Park was enjoyed through the kindness of the ladies of the First Baptist Church. HIGHLAND HEIGHTS CIVIC LEAGUE MEETING FRIDAY The Highland Heights Civic League met Friday afternoon with Mrs. M. E. Ratican at 3114 Grant street. Committee reports showed a neat profit from the carnival; also from the booth at the fourth of July picnic in Scotland park. Plans were made for a concession at the fair, also, and the members voted to make this the last meeting until the first Friday in September. Those present included Mesdames Ratican, C. P. Westman, R. E. Watson, D. L. Reynolds, E. D. Haldenbeck, J. O. Bradshaw, Lee Downer, O. L. Gibbs, T. R. Brunson and Walter McCabe. TO B. Y. P. U. ENCAMPMENT SOUTHEAST OF STAMFORD Mrs. Homer McGregor and Miss Estelle Stanzler left Saturday for Lancaster, sixteen miles southeast of Stamford, to attend the B. Y. P. U. encampment there. Mrs. McGregor will touch the intermediate B. Y. P. U. Masses, and both will remain the night days of the encampment. Little Miss Adele McGregor is in Oklahoma City visiting relatives and Master Thomas is visiting his grandmother in Kansas.

Take Care of Your Baby This Summer—Household Helps—Good Cooking

American Babies Are Healthiest Despite the Fact That Mortality Among Infants Is Higher in U. S.

It may sound like a paradox, America fourth or fifth among the nations in her infant mortality ranking, and yet American babies the healthiest of all, and the best physical specimens.

The solution must certainly be in the matter of pre-natal care, which is greater in other countries than in the United States. Pre-natal care and advice which is only established in American cities and towns and villages and prejudice among the womenfolk has been dispensed by years of effort, is accepted in England, Australia, New Zealand, Norway, Germany and other countries without question.

Consider the fight against the Sheppard-Towner bill, for instance. "Women have been having babies all these years, without the government interfering; I guess they can get along a while longer," was the general trend of the masculine reaction to the provisions of the splendid bill. The fact that the babies of these same women have been dying at an alarming death rate for years wasn't considered at all. The death rate for babies in the United States would be a disgrace to Zululand.

After First Year.

But the babies who weather the first few months and the first year are better cared for in the United States in many respects than the babies of other countries. In fact, the modern American baby has received very high in the matter of hygienic clothing, according to a recent finding by the director of baby hygiene of the New York department of health—the celebrated Dr. Blumenthal.

"This is because he has a sensible

ANOTHER SUNSHINE GARDENER

Little Miss Pauline Avera is the daughter of Mr. and Mrs. J. Paul Avera, of 1004 Fourteenth street, and is another Sunshine Garden tot.

Children Gaily "Borrow" Sheets And Quilts From Orphanage Beds; What's a Carnival Without Tents?

Sheets began to get low at the Albany orphanage a few weeks ago. They not only got low—they got positively short.

Then quilts seemed to disappear. It was pretty mystifying, for though children between one month and 16 years may swipe cookies from a jar and jam from the pantry, it is hard to conjure up a use they'd have for winter bedding in the summer, or for quilts for a sea-land ship. Besides, they maintained countenances of shining innocence.

Mr. and Mrs. H. M. Frank, former Wichitans who are in charge of the Albany Presbyterian Orphanage—which institution is pretty close to the hearts of the Presbyterians, by the way—had looked under the beds and in the wall cellars, and even scrutinized the horizon. Then Mr. Frank took his foot in his hand and went down to the mesquite grove where the children sometimes play.

It really takes Mrs. Frank to tell it. These kids had rigged up a carnival in an exact imitation of which youthful ingenuity and unbounded ambition might be capable. There was a snake charmer's tent, and the midge and the wild man, and the various and conglomerate other attractions which thrill the little folks into wiggly shivers at the street fair. They even had the snake, all complete. He was confined in a bucket of water and could only get out by twisting himself

wear and tear of expensive bedding.

Have Lots of Fun

But the carnival was only a sample of the genuine fun the children at the Albany orphanage have. There are 135 of them, all little folks, and Mr. and Mrs. Frank have made wonderful parents to the whole "gang." As nearly as can be possible they enjoy the normal home life of other children; as nearly as little folks can who may not have a dad of their very own to swing on the gate and wait for at sunset, nor an own mother's knee to kneel beside at bedtime, when prayers must be said.

They help with the work, each having his own assignment, and even the least little tots have some proud responsibility in the maintaining of the big home. Right now they are very happy over a lovely gift from Mrs. H. O. Harvey, president of the local Westminster Guild, of 135 shining aluminum bowls for their breakfast cereal; a gift which is provoking the women of the Guild to raise the money for 135 shining aluminum cups to match for the morning portion of milk.

The Guild members here, and the whole church, are intensely interested in the well being and happiness of the children at Albany. The orphanage is supported by the district presbytery, but all of the good things aside from strict maintenance must come from the churches in the district, and there is no hesitancy in the statement from the orphanage that in their thoughtfulness for the children, the

mother, who dresses him more comfortably than a baby was ever dressed before in the history of the race," says the doctor.

"Long dresses, swaddling clothes, and too many garments retard the normal growth and keep the baby from the development of which he is capable."

American First.

In a recent health and fashion show for babies, held in New York,

Today's Best Poem

"COMING OF THE GREAT GUEST"

While the cobbler mused there passed his pace
A beggar drenched by the driving rain;
He called him in from the stormy street,
And gave him shelter for his bruised feet.
The beggar went on; there came a crome,
Her face with wrinkles of sorrow sown;
A bundle of faggots bowed her back
And she was spent with the wrench and rack.
He gave her his loaf and steadied her load,
And she took her way on the weary road.
Then to his door came a little child,
Lost and afraid in the world so wide—
In the big, dark world, catching it up,
He gave it milk from his own scant cup,
And led it home to its mother's arms,
Out of reach of the world's alarms.

The day went down in the crimson west,
And with it, the hope of the Blessed Guest,
And Conrad sighed as the world turned gray,
"Why is it, Lord, that your feet delay?
Did you forget that this is the day?"

Then soft from the silence a voice he heard:
"Lift up your heart, for I kept my word.
Three times I came to your friendly door;
Three times my shadow was on your floor;
I was the Beggar with bruised feet;
I was the Woman you gave to eat;
I was the Child on the homeless street!"
—Edwin Markham.

IDLE HOUR BRIDGE WITH MRS. NAYLOR

The Idle Hour Bridge Club met with Mrs. C. E. Naylor on Eighth street Wednesday morning.

The house was attractively decorated with daisies, roses, fern, etc. with the flower scheme carried out at the tables, where there were small corsages of daisies for each guest. In the games Mrs. E. D. Steward won high score and was prettily rewarded with a hand embroidered lunch cloth, while Mrs. Dan Blackburn was fortunate in the

The Tangle

Left: from Leslie Prescott to Leslie Prescott, continued.

There is one thing for which I have to thank Jack's mother. I do not so much comfort out of your dear little Marquise, who only beside myself may hold the key to this secret drawer, and how Mrs. Prescott found it in her heart to part with this beautiful desk.

Now for a great secret. I have found out that Ruth Ellington's heart has not grown cold. It has merely grown for itself a kind of peckly cocoon, something that will protect its warmth and youth from the knowledge of the world.

After we had tried on nearly every hat in town and had a most beautiful time, I invited Ruth—I have begun to call her Ruth by this time—to go with me to the smartest tea place in town.

Before we went in, we both doted ourselves up a little in the ladies dressing room and I knew the same thought came to each of us as we entered. We were quite the best looking women in the room.

"Society women these," said Ruth, "always look so bored."

I did not have the heart to tell her that the night before I thought she looked bored to death, for today, she was bright and happy and a gay little butterfly floating about the flowers.

I could not help wondering just what made her appear so differently when her husband was with her. "Perhaps," she continued, "it is because most women who are rich enough to lunch and tea at a place like this are society women, that men always seem to think we are bored with each other. Always one feels rather sorry when one sees a group of women dining without men and one has no such ideas about a group of men. And yet I feel today that women can enjoy each other and do enjoy each other more than men enjoy each other."

Before I thought, dear little Marquise, I said, "Yes, you are having a better time today than you had last night, aren't you Ruth?"

Ruth blushed and then she opened up honestly. "I am. I have reached a place where I am not myself in Harry's company. I wonder if you have been married long enough, Marquise, to have entered the making-over process."

What do you mean by that, Marquise? Do all married women have to be made over?"

"If you don't know," she answered indignantly, "you haven't entered it."

"Leslie, I was the gayest girl in my set, always laughing, always gossiping and if the truth must be told, always conquering more of love. That was the girl my husband Harry Ellington fell in love with and married."

"I understand," she started to make a move. The first thing he found out was that I smiled too much. "A woman who is always laughing"

Personal
Olive Ann, the seven year old daughter of Mr. and Mrs. Elam Parrish of this city died Monday, July 2.
Joe Parson, son of Mr. and Mrs. Chas. Parson of the American Cafe left this week for Hellis, Oklahoma, where he will visit Mr. and Mrs. H. H. Garrison. Joe will accompany them to Colorado Springs.
J. W. Meadows and family of Wichita Falls are in town on business. V. W. Meadows and other relatives.
R. N. Hatcock left Tuesday night for Belton, Texas, in response to a telegram stating that his mother, Mrs. W. P. Hatcock, was seriously ill.
Frances and Gaius Post motored to Wichita Falls Tuesday to meet Miss Elizabeth Greenlee of Corralcama, who is to be their guest this week. Miss Greenlee has just returned from Colorado where she went as the official delegate to the Beta Tau Alpha sorority convention from the Kappa chapter at the University of Texas.
Mr. and Mrs. A. D. Odell and baby of Eldorado, Ark., Jim Odell and family of Wichita Falls, and Mrs. R. F. Barnes and children from Monday were all guests this week of their parents, Mr. and Mrs. J. L. Odell.
Mrs. Elam Parrish, accompanied by Mrs. W. W. Fields, her mother, left for Colorado Springs for the benefit of the health of the fourteen months old baby boy, who has been ill for some time.
R. E. Sherrill and son, Richard, left Tuesday afternoon for southwest Texas and Mexico. They will be gone about two months. Richard is prospecting for minerals and Mr. Sherrill is taking a vacation.
Mr. and Mrs. Vaughan Bailey returned from Shiloh, Okla., where they visited Mr. and Mrs. P. W. Thompson. Mrs. Thompson returned home with them and will visit her mother, Mrs. J. W. Barnes, north of Rule and other relatives and friends of Haskell.
Mrs. J. J. Cane of Electra is visiting her brother, J. C. Montgomery, of the White Chapel community east of Haskell.
Miss Ophelia Baker, daughter of Mr. and Mrs. G. W. Baker of Anson, was married to Mr. Mason Martin of Sagerton Thursday, July 5. The "Scottish evangelist," Rev. A. P. Cunningham of Austin, assisted

Personal
Olive Ann, the seven year old daughter of Mr. and Mrs. Elam Parrish of this city died Monday, July 2.
Joe Parson, son of Mr. and Mrs. Chas. Parson of the American Cafe left this week for Hellis, Oklahoma, where he will visit Mr. and Mrs. H. H. Garrison. Joe will accompany them to Colorado Springs.
J. W. Meadows and family of Wichita Falls are in town on business. V. W. Meadows and other relatives.
R. N. Hatcock left Tuesday night for Belton, Texas, in response to a telegram stating that his mother, Mrs. W. P. Hatcock, was seriously ill.
Frances and Gaius Post motored to Wichita Falls Tuesday to meet Miss Elizabeth Greenlee of Corralcama, who is to be their guest this week. Miss Greenlee has just returned from Colorado where she went as the official delegate to the Beta Tau Alpha sorority convention from the Kappa chapter at the University of Texas.

Cunningham comes to Haskell under the direction of the Synod of Texas and is an able preacher. Rev. R. E. Hooker, local pastor, has his loyal members working for the success of the meeting.

Misses Alberta Smith and Lois Barnett are visiting in Lubbock this week.
Robert, son of J. W. Kennedy, is seriously ill at his home here.

SUBSTANTIAL GAIN MADE LAST WEEK IN BANK CLEARINGS

An excellent program, featuring an illustrated lecture on "The Manufacture of Portland Cement," by Charles A. Clark, has been arranged for the regular monthly meeting of the Technical Club Tuesday evening at 7:30 o'clock at the Wichita Club. Dinner will be served to members and their guests before the program.
Mr. Clark, the speaker of the evening, is a graduate of the University of Illinois and established his reputation as the engineer in charge of the construction of 144 miles of concrete road in Vermillion county, Illinois. This county is famous over the United States for its system of good roads. Mr. Clark is a specialist on concrete road construction and bears the reputation of being an unusually interesting speaker.
Mrs. Bruce Greenwood, Mrs. A. M. Miller and Miss Annette Walsh are to furnish the musical program for the evening. Members are privileged to bring guests and are expected to bring their wives.

New High School and Junior College Monument to Public School Progress To Be Completed in February, 1924

Substantial progress is being made daily in the construction of the new high school and Junior College, one of the pioneer projects in this country for the extension of the public school system to include the first two years of college, and it is now believed by Dr. J. W. Canfield, city school superintendent, that the building will be completed, equipped and ready for business at the opening of the second semester of the 1923-24 session, in February, 1924.

The outer walls of the third floor are rising. Within the next few weeks it is expected that they will be finished and the roof placed over them, thus completing the outside work.
The entire building will then show itself to Wichitans in its true proportions and beauty, as the concrete and visible result of a worthy dream at last realized, and destined to stand as a monument to the intelligent progressiveness of this community for at least two generations.

Interior finish and installation of equipment will require several more months. Occupying an undivided area of four blocks, the dignified and harmonious structure, a splendid example of the "frozen music" which the fine art of architecture is said to create, covers less than one-half of the land, being approximately 300 by 300 feet in ground dimensions.
The remainder of the land will be parked and beautified to furnish a setting worthy of the building itself.
Although of great size, the building, which is of strictly fireproof construction throughout, is so well proportioned that its immensity is not realized until an observer has inspected the interior.

cafeteria manager will have charge of the lunch room, which will have a capacity of 500 at one time. As the attendance is expected to reach 1,000 for the first year, arrangements will be made to release the students from classes for lunch in two divisions, so that one-half of the student body will lunch at one time, to be followed in about 10 minutes by the other half.

Auditorium Principal Feature.
The most striking feature of the building is the auditorium, comparing favorably with any in the United States in regard to size, convenience of arrangement and entire lack of obstructions to vision or hearing.
It is two full stories in height, about 150 feet wide and more than 300 feet long, including the separate boys' and girls' gymnasiums, divided from each other and from the stage by steel curtains, which can be rapidly raised, adding the two gymnasiums to the stage, making a total space large enough for any kind of exhibition and putting this stage in the class of the world's greatest, of which the New York Hippodrome and the Manhattan and Metropolitan opera houses are notable examples.
Seats in the gallery are arranged in graduated tiers, so that each occupant will be able to see over his neighbor in front, no matter how large he or she—or her hat—may be. The architects have also planned for perfect acoustics, so that every auditor will be able to hear every word or note of music from the stage.
Next spring, when the new high school and Junior College is in operation, it is expected to be known as the outstanding embodiment of modern public school educational progress in the southwest.

COMPETITION

We are leading all North Texas in the production of high-grade EXCLUSIVE and INDIVIDUAL DESIGNS in MEMORIALS. This has caused some of our competitors to enter this city and surrounding territory with their big hammer. The wise ones understand. This is our fifteenth year and our service is getting better every day. Come to see us. If you can't come phone and we will send our car and bring you in.

COMPLETE HOME FURNISHERS

July Furniture Sale

The second week of our July sale was a really exceptional one. Many are taking advantage of these unusual savings to furnish their home or in part. Our stocks are large and complete in every detail and each article new and up-to-date.

The Reductions Apply Throughout the Store

No old cast-aside or shop-worn goods are to be found on our floors therefor the savings are most extraordinary.

A Few of This Week's Specials

Child's Lawn Swing
A swing which will delight the children these warm days. It is well built and painted a pretty bright red—will hold four children and last indefinitely. A \$7 value at

\$5.65

Folding Card Table Special
A 28-inch standard mahogany finished folding card table with nickle leg braces and green leatherette top. A table which sells regularly everywhere at \$4. July Furniture Sale price

\$2.95

We have had an excessive demand for these tables but there are still a few dozen left. Supply your needs with these useful tables while the price is so low.

Standard Gold Medal Camp Cots
Thousands of them are in use these hot summer nights. They are ideal for a camping trip. The Gold Medal brand guarantees long wear and satisfaction.

The usual price is \$5. July Furniture sale price

\$3.90

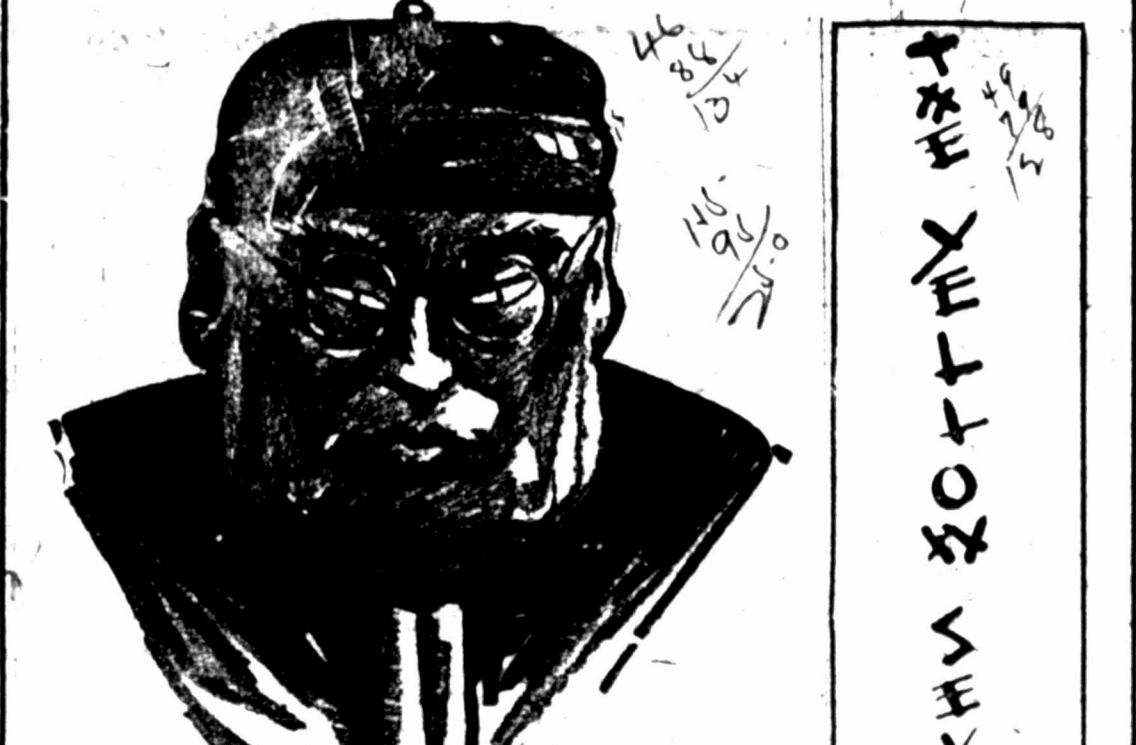

Porch Cushions
18-inch Cotton Cushions

49c

They are made up in pretty bright colored cretonnes. We sold over one hundred of these last week. Just the thing for the porch—or to take along on a picnic or to the ball game.

OUR TRUCKS DELIVER TO ALL ADJACENT TOWNS WITHOUT EXTRA CHARGE

EVENTS SINCE PEACE CONFERENCE AS SEEN BY THE FRENCH

Position of That Government As Relating to Germany Rests On Psychology French People

By MARK SULLIVAN
Political Correspondent of the New York Tribune and
Copyright, 1923, by the New York Tribune.

The present position of the French government with relation to the Ruhr and Germany rests on the present psychology of the French people. Just what that psychology is can best be explained by beginning with a condensed summary of what has happened since the peace conference—as the French people see it.

The peace treaty was signed in the Hall of Mirrors at Versailles. As the latter was placed on the last signature a thousand cannons fired salutes. Fifteen thousand jets of water from the fountains in the Versailles gardens leaped joyously into the air. Hundreds of airplanes dropped thousands of allied flags on the crowd around the park. There was exultant cheering, hysterical tears—such an explosion, if one may use the word, of relief over long suspense come to a wished for end as made the whole event one of the greatest emotional episodes of all history.

The French thought it was all over, thought the war had ended in their favor, and took it for granted that the indemnities, the reparations, the money for the restoration of the ruins the Germans had made—the French took it for granted that all this would follow in due course, just as France had paid its indemnity of 5,000,000 gold francs to the victorious German army in 1871.

But the French did not know the vital defect in the treaty that had just been signed. Throughout the whole world only the comparatively small number who had actually been close to the situation, or who had studied it carefully, knew that the amount of money to be paid by Germany, instead of being a definite and possible sum, had been left indeterminate; and so far as any definite figures at all had been mentioned, they had been put at an impossible height.

There after there began that long series of conferences between the French and British governments, looking to reducing the reparation figure to a possible and tangible basis, to arrange terms for the German installments, to arrange for the deliveries of coal, wood and other commodities.

Conference after conference of this kind turned out to be faith. They did not produce the money that the French people expected and had a right to expect.

For the failure of these conferences it is not necessary at the moment to apportion the blame. Some of it doubtless lies on France, but probably less on France than any other parties to the Versailles treaty. Some of it rests on the United States for her failure to make good the promises, specific and implied, which President Wilson, acting as the responsible agent of the United States, had made.

Some of the blame lies on Lloyd George for having first led the movement that made reparation too high, and also for setting throughout the various conferences held with France in ways which viewed as a whole and in retrospect, account for much of the irritation that arose among the French people. Lloyd George in a conference would agree, or seem to agree, to some

one of this emotion of angry resentment on the part of the French people. One French statesman, describing it to me, used again and again the word "sneer." Literally, the translation of the word is "enough," but colloquially the French people mean the same thing that the American means when, in a burst of angry irritation over a state of affairs that has become intolerable, he says, "I am through" or "I am done." There was eloquence in the manner in which this French statesman repeated this word again and again, accompanied by a rapid gesture of the hand and arm—forward, downward and backward—the gesture of a man thoroughly angry with a situation and finally determined to put it behind him.

Another French statesman who happens to belong to that very small minority which believes in reconciliation with Germany as the surest basis of future peace described how impossible he found it to make any headway even with his own minister. His mother was old enough to remember the war of 1871, to remember that Germany named an indemnity and kept her soldiers in France until it was paid; and the French people, individually, had to go down into their stockings to find the gold to pay it. This old lady, remembering this, would listen patiently to all the arguments of her statesman son, but at the end would always say, "Germany must pay."

There were three years of these futile conferences, from 1919 until 1922. The French people expected Germany to pay, Germany had not paid. They were through with conferences and with postponements. They arrived at the point where they had one fixed idea: Germany must be made to pay and France should take whatever action was necessary to make Germany pay.

It was in response to this mood on the part of the French people that the present French Premier, Poincaré, came into power. At home, in America, the common way of thinking is to suppose that Poincaré led the French people into the invasion of the Ruhr. Much more true is the fact that the French people forced Poincaré into the invasion of the Ruhr. Ninety per cent of the French people were behind him in this action and, once the thing had been done, more than 90 per cent of the French people are now behind him.

But the invasion of the Ruhr, while it was inevitable as the expression of an angry mood on the part of a whole nation, was by no means that kind of wise and fruitful action such as would be the result of careful survey of the future, taking into account all the possible eventualities. More correctly, the fact is that the invasion of the Ruhr was undertaken without any survey whatever of the things it would lead to.

First of all came the breach with Britain. Britain did not think the invasion of the Ruhr was legal under the Versailles treaty and still thinks it is illegal. Soon after the defective of England and Italy. When the advance into the Ruhr was first made the French people were told that Italy was with France in this action. In point of fact, Italy sent a few engineers into the Ruhr with the French to try to see to it that Italy's coal supply should not be interrupted. But very soon Italy ceased to have even the appearance of supporting France

and lined up with Britain in disapproval of the presence of the French in the Ruhr. Belgium, in appearance, has approved the French action and has united with France in the appreciation; but almost since the beginning Belgian public opinion has grown colder and colder toward the occupation of the Ruhr and it soon became a question whether Belgium stood with France or with England.

More fatal than all this, the French people did not visualize, and Poincaré did not visualize, anything beyond the mere act of occupying the Ruhr. They took the first step without looking forward to what should be the second step or the third step.

Poincaré, I have been told by those competent to know his state of mind, really thought that Germany would pay an immense sum in gold, and thought that the invasion of the Ruhr would be followed by a payment in gold by Germany. It may sound grotesque to say that Poincaré did not understand that the resistance set up by the Ruhr would be a little doubt of it.

Furthermore, there appears to be little doubt that Poincaré did not anticipate the resistance set up by the people of the Ruhr. It is probably fair to say that in the beginning Poincaré contemplated merely the seizure of the Ruhr as a military occupation, that is to say, the mere sending into the Ruhr of engineers and tax collectors, with only enough soldiers to guard them in the United States. Poincaré is frequently suspected of bad faith because he paid out as going to send to the Ruhr only civilian engineers and a few soldiers; whereas, in fact, he did send a military occupation. But decidedly the best judgment is that Poincaré acted in good faith; the policy of a military occupation was forced on him by the reaction of the German people in the Ruhr—by one of those immediate results of his first step which he and the French people had failed to visualize.

These Germans who live in the Ruhr constitute one of the most pacifist elements of the German population, one of the most resistant to militarism of any kind. The people of the Ruhr had failed to support their own country's war, and they refused the domination of their own German military system; and, when French soldiers came in, their sense of outrage was so strong and their action upon it so instantaneous that it caused something approaching a panic in the French government.

The French response to German resistance was to use force and more force. Speedily the thing which had been intended as a mild occupation of the Ruhr, mainly civilian, became a military occupation of such size and aggressiveness as to lead to the situation which exists to-day.

And now comes the thing that is most fatal of all. In occupying the Ruhr Poincaré had the support of more than 90 per cent of the French people. But neither Poincaré nor the French people looked beyond this single step of occupying the Ruhr. Once in the Ruhr, and with Britain alienated, it was up to the French government to say what they wanted Germany to do; it was up to Poincaré to sit down and make a detailed plan for the future. But that is exactly what Poincaré could not do.

It was, and is, all very well for Poincaré to say that he was going to make Germany pay. On the simple slogan "Make Germany pay," the French people are solidly behind him. But, once let Poincaré give out a definite and detailed plan for making Germany pay, and instantly much of his support will fall away from him. One group of the French people wants one thing done about Germany; another group wants another thing. For example, the militarists want a permanent military occupation of the Ruhr; the industrial magnates want a continued occupation of the Ruhr in such terms as will give them continuing access to the Ruhr coal; another group wants Germany to pay the reparations in the shape of certain commodities, whereas the French producers of those commodities do not want this material coming into competition with them. The French industrial magnates

would like the reparations paid in the shape of German labor, but the French labor unions will have none of that. Many French people would be willing to have the reparations paid, for example, in coal; but the owners of French coal mines will have none of that. And so on, and so on.

Among all these possible next steps for France to take, as soon as Poincaré takes any one the supporters of the rest will drop away from him.

It is an impasse. If any one thing can be called both the deadlock and a drifting that is what the situation is. At no time, from the first of January, when the occupation of the Ruhr began, did Poincaré have any plan other than a crude and much more dangerous variation of what ex-President Wilson once called "watchful waiting." Toward the latter part of June, under pressure from the British, Poincaré began to set down some detailed details which were to be conditions of French assent to any next move. But Poincaré had no seat move in mind and no plan. Poincaré is of a temperament that wholly lacks initiative; what strength he has is that of "abstention," as another French politician expressed it to me. The only initiative there has been at all has come from the British, and that has not been very real. It has been more in the nature of a wish to get away, if possible, from the condition of

impasse, rather than any comprehensive plan. The people of the United States spend \$200,000,000 a year for confectionery.

Paying the Customer Charge

Each gas patron should pay his own way. Throughout the country there is a growing realization that each gas patron should pay the amount it costs the utility to be ready to serve him.

The cost of supplying Natural Gas includes the expense of standing ready to serve in addition to the cost of the gas, and payment for Natural Gas should be on a basis that recognizes both the service and commodity features and provides that each consumer shall carry his fair share of the burden of cost.

Gas is delivered to consumers in very small lots, a few cents worth at a time. This feature makes delivery cost much higher in the gas than almost any other business. Suppose you were to ask your coal dealer to deliver a range full of coal to cook a meal or your ice dealer enough ice to cool a few glasses of ice tea.

Putting it in a few words: A gas company has two commodities for sale, namely gas and service. Which is more important?

MUNICIPAL GAS COMPANY

AUTOMOBILE NEWS

Federal Government Investigating The Possibilities of Growing Crude Rubber in the Western Hemisphere

The movement recently inaugurated by the United States government to investigate the possibility of growing crude rubber in the western hemisphere in competition with the British, Dutch, French, Belgian, Japanese and Americans in the far east will probably include an inquiry into feasible methods of increasing the yield of rubber trees so that an adequate supply of rubber can be produced from fewer trees than at present, it is believed by officials of the United States Rubber Company.

Inquiry into this subject of producing super-yielding rubber trees brings to light the fact that for several years the United States Rubber Company on its great plantation on the Dutch island of Sumatra in the far east has been conducting experiments which have attracted wide attention among growers.

These experiments are along two general lines: One to improve the environment of the tree so as to enable it to give its best performance, and the other by a process of selection of the best yielding trees in a plantation gradually to develop a top class of super-yielding type.

There are in general two methods of accomplishing this selection. One is by means of seed of high yielding percentage; the other by means of cuttings from high yielding trees.

This second method is known as "budding." The cuttings are some plants such as granitums and potatoes, will put out new roots when planted and grow into complete new plants. Unfortunately the rubber tree does not respond so easily. Indeed, for a long time practically no success was attained with cuttings although every thinkable method was used. Finally a successful method was worked out and buddings were made in sufficient number to plant about three acres in Java in 1918. The details of the method for use on a large scale were worked out perhaps more fully and brought to greater perfection on the United States Rubber Company's plantation.

Among the serious difficulties which had to be overcome was the susceptibility during particular seasons of the wounded tissues to attacks by destructive organisms. One must realize that this work has been done in a warm, moist climate where many more things than man are wild, where on every hand destructive fungi are ready to pounce upon an open wound.

The general procedure is as follows: High yielding trees are determined by recording the percentage of each tree. The best trees are then used for supplying cuttings, which are in the form of small slips of bark, each containing a dormant bud. These slips are grafted on a seedling tree in the following way:

With a sharp knife a section of bark is cut away from the sapling near the base of the tree, but in such a way that it remains attached to the tree along its lower edge. The bud-slip is then laid on the exposed surface of the tree bark and is bound back in place with paraffine cloth to prevent drying out and to keep the growing surfaces in close contact.

In the course of a month the function of the bud-slip with the tree should have been accomplished, and the bandage is removed. The bud is then forced to grow by cutting off the sapling at a point about fifteen inches above the grafting point. In the course of a few months a rapidly growing shoot is formed which in time becomes the main body of the tree. When adequately done the new budding gradually closes over the wound and in a couple of years the deformity becomes nearly obliterated.

The problem of determining the best method of budding and of its extension as a practical plantation procedure was attacked on the United States Rubber Company's plantation about five years ago. By the end of 1919 the major difficulties had been overcome, and the extension of the budding operations seriously undertaken. Budded stock is gradually coming into tapping.

What may be expected in the way of improvement of yield from budded stock? No one can answer this question definitely. There is a very wide range of opinion, but among the more conservative it is believed that an improvement of yield so that it will approach 600 to 1,200 pounds per acre per year may be expected instead of the usual 250 to 300 pounds. If even the lower of these figures, 600 pounds, is realized, it will more than pay for the trouble and expense, and there are some actual results, albeit yet rather meager, which lend substance to the hope.

More Than Two Million Motor Cars Were Made In the United States During the First Six Months of 1923

By ROY C. HAYES
Universal Service Special Correspondent.

DETROIT, July 14.—Comparative records of some of the companies that contributed to the remarkable record set during the first half of the current year when more than two million automotive vehicles were made, show how the industry accomplished the feat. Production for the first six months of this year is compared with that of the first six months of 1922 as follows:

Name	1923	1922
Buick	49,758	111,000
Hupp	17,689	24,000
Dodge Brothers	85,800	104,000
Hickbacker	1,854	5,908
Lincoln	2,399	5,120
General Motors	206,790	235,593
Packard	5,100	11,120
Hudson Essex	22,221	11,120
Jewell	8,136	22,092
Paige	7,965	22,305
Paige-Jewett	13,203	35,181
Ford	\$1,255	\$941,245

Paige production of 2,301 Paiges during the first six months of 1923 is lower because it covers only the "6-7" model, whereas the figures for a year ago include the "6-44" and "6-66."

The Ford figures of \$91,245 do not include 88,871 cars and trucks made in the Waterville, Ont. plant in the first six months of 1922.

General Motors preliminary figures include Buick, Cadillac, Chevrolet, Oakland, Oldsmobile passenger and commercial cars and G. M. C. trucks.

With June production estimated at 250,000 cars and trucks, total output for the first six months will approximate 2,020,000 motor vehicles. With the exception of 1920 and 1922, the output during the six months just closed is greater than that of any entire year since a progressive manufacturer started making "one-lungers" in 1913.

Even at the present rate of production which is somewhat curtailed due to stock taking and business of getting ready to start on new models in many plants, more cars will have been purchased by September 1 than were made in any previous year.

If the second half of the year nearly equals the first, as it is not unlikely, approximately four million motor vehicles will be 1923's contribution to transportation.

Forecasts made by the most optimistic prophets last December and

Hupmobiles still in use were produced in 1910 or before.

"Another discovery of vital importance brought to light in checking the mass of data is this: Research bureaus which have made a careful study of the automobile industry estimate that the average life of an automobile is six years, whereas our records disclose that the average life of the Hupmobile is eight years, and that many Hupmobiles beyond that age are in useful service today.

"The records seem to be eloquent testimony of the way the Hupmobile is built—to the great care put into it. It has been repeatedly emphasized that the first cost of careful building is somewhat higher, but that later lower costs more than prove the economy and sound principle of building to last.

"In these figures we believe is the fundamental reason why the great majority of our owners merely change their older Hupmobiles for a newer model when they enter the market for another car."

It is a good plan to start the engine when filling the radiator of a car using a pump system. In some cases there are places which fill with air which can be dislodged only by running the engine. The system may seem full but after the engine has started the level will be found too low. Running the engine found too low. Running the engine found too low.

When an engine is hot and in need of water, cars should be taken to pour cold water into the cooling system too rapidly. When the cold water strikes the overheated cylinders it is very apt to crack same, due to the rapid contraction which takes place.

MOTOR DUST

Of Personal Interest to the Motorist, Public and Dealers.

Claude Hall of the Lloyd Weaver Automobile Company is taking a month's vacation. He left last week with Mrs. Hall and small daughter, Pauline, in their car for a trip through the Grand Canyon and California.

B. G. Sharpe has been at Mineral Wells the past week or so. He expected to have a vacation, but was sick in bed most of the time, so the trip could hardly be called a pleasant one.

The dealers as an organization and as individuals as well as other business men of the city enjoyed a great treat in the visit of F. E. Moskovich, vice president of the Norfolk & Marmon Motor Company, who was here last week with D. L. Fritts, local dealer.

The Dixon Motor Company has reason to be proud of its extensive new quarters on the corner of Seventh and Scott, which are just about completed.

Observations.

There's a lot of money spent on motor cars, but give us just what is owed.

In driving a car three rules are worth observing:

Be careful.

Be very careful.

Be very careful always.

Mechanics are said to hate to knock each other's work. It's hardly necessary so long as car owners can attend to it so satisfactorily.

In making repairs on the inside of a cellular radiator with the ordinary type of soldering iron, the ordinary car owner is apt to start some joints leaking, so that the radiator is worse after he gets through than it was in the first place. This is a job for an expert.

Nash Touring Car Fully Equipped Popular for Trips

With fine hard roads stretching forth like so many ribbons through out most sections of the country and with the development of motor cars to a point where they provide luxurious ease of travel and absolute dependability, America has become a nation of tourists. The fact is more pronounced this summer, with its vast increase of cars, than ever before.

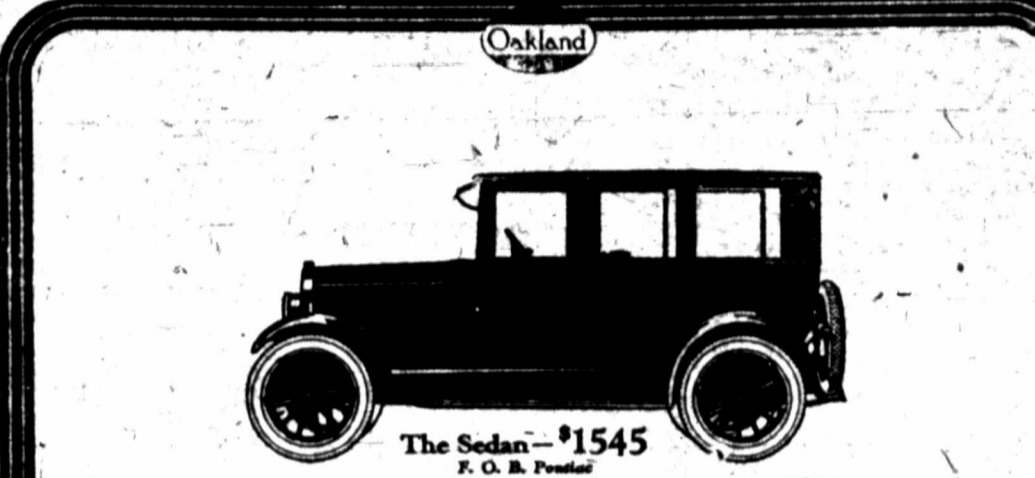

Literally hundreds of thousands of cars whose license tags bespeak great distances from home, dot the highways throughout the country during the summer months. As J. H. McCarty, general sales manager of the Nash Motors Company, says: "It is interesting to note the appearance on the streets of almost any large city license plates bearing the inscription of practically every state in the union.

"Drive for an hour over any of

Cost Repair Parts For 117,353 Hups Averaged \$15.53

The cost for repair parts to the owners of the 117,353 Hupmobiles in use throughout the world in 1922 averaged \$15.53 per car, according to a recent announcement by the Hupp Motor Car Corporation. Following compilations of a great mass of data. Costs of repair parts to Hupmobile owners last year dropped to the lowest level they have ever attained since the corporation began recording these figures in 1914. It also stated:

"The real significance of these figures is not that they represent but a trifle more than \$1 per month per car," declares Jim Worsham, president and general manager of Worsham Bros., Inc., local Hupp dealers. "Rather it is that they cover not only the current series B cars, but every Hupmobile in use. Included in the figures are cars which are more than eight years old and still others which have served continuously more than six years ago. If only the present models, the basic design of which was begun nearly six years ago, had been included it is certain that the repair parts cost would have been found to be even lower. Many

Oakland Closed Cars are Ideal for Summer

Cool on the hottest days—comfortable on cool evenings—quick and certain in their protection from sun, wind, dust and sudden showers—the "controlled comfort" of Oakland closed cars makes them ideal for summer use. Oakland closed cars have won enthusiastic approval not alone because of their comfort and all season usefulness, but also because of their quiet, smooth and completely dependable performance at all times.

Oakland closed cars combine a hidden staunchness with a beauty of interior and exterior finish that set them apart from all other cars at anywhere near their remarkably low prices. See Oakland's three enclosed models before you buy! You and your family have long wanted a closed car like the Oakland—you will be surprised how easy it is to satisfy your desire on Oakland's Special Payment Plan.

LONG LIFE

In buying a motor car, consider what the cost will be when divided over a period of years.

What is the car's reputation for satisfactory service after the first year? After the second? And after the third—and fourth?

These considerations, in the final analysis, are the true basis of economy in motoring.

And it is this attribute of long life to which Dodge Brothers Motor Car owes its chief claim upon the unalterable loyalty of its owners.

The price of the Touring Car is \$2000 f. o. b. Detroit—\$1900 delivered.

Dodge Brothers
312 Ohio Avenue Phone 4144

The Star Touring Car

The Star Touring Car has a well proportioned, true streamline body, with rounded radiator and cowl level with the hood. A one-man, clear vision top, tilted windshield and crowned fenders add to the smart appearance of the whole.

There is ample capacity for five passengers with plenty of leg room. The seats are low and deep with backs tilted at a comfortable angle and covered with high grade material. Gearshift and emergency brake levers are close to the center of the driver's seat, affording free clearance.

Clutch and service brake pedals, foot accelerator and starter buttons are all in convenient positions. Spark control and auxiliary gas lever are located on the instrument board, together with ammeter and oil gauge, ignition and lighting switches.

The steering wheel is full 16-inch size set at a most comfortable angle with the horn button on top.

The windshield is adjustable both top and bottom and has snug rubber weather extensions. There is a wide rectangular glass window in the rear. Under the front seat are side curtains easy to put on.

The gasoline tank is on the rear of the frame where filling will not inconvenience the driver or muss the car.

Complete lamp equipment, approved headlight lenses, tail light, tire carrier and license holder are standard equipment.

WOMEN TO BLAME FOR BRIGHT COLORS NOW USED ON CARS

NEW YORK, July 14.—The growing influence of women on motor car buying has caused American manufacturers within the past year to use lighter and gayer colors in cars," said Hazel H. Adler, nationally known color authority, today.

There has been a greater increase in the use of bright color schemes in automobiles during the past year than in 19 previous years combined. In fact, every "Main Street" now looks as though the automobile had been harnessed in the shape of American made motor cars.

"Ever since the auto shows last January," continued Mrs. Adler, "dealers have had great difficulty in holding on to sample cars which were painted in new color effects. Cars with bright colored wheels, gaily colored panels, or narrow colored stripings remained on the floor but a few hours, when impatient buyers, usually accompanied by their wives or daughters, demanded prompt delivery of that particular car or one just like it.

"Car manufacturers got busy," she said, "in producing quantities were soon in the swim, and pretty soon we saw a range of new and harmonious colorings in maroon, cream, gray, reds and primrose yellows.

"Automobile decorations," remarked Mrs. Adler, "has a great emotional appeal and influences every sale of a motor car. For instance, bright red represents speed, excitement, power and strength. Maroon typifies luxury and comfort. Light blue for daintiness. Dark blue is unemphatic, yet it has been used a great deal. Sometimes I wonder if that particular color has anything to do with the lack of sympathy that many drivers have for the other fellow on the road.

"Color is a natural science, just as physics or chemistry, and likewise must be controlled by certain fixed and definite laws. Car manufacturers were prompt to appreciate their psychology and cooperated with the big paint makers and the Haylor System of Color Harmony to select fresh, distinctive colorings for their cars, so as to appeal more strongly to the heart-power of our women.

"The influence has rapidly increased," concluded Mrs. Adler, "until today the American woman has decided part in practically every purchase of a car, keeping up her well known average of buying 25 per cent of all merchandise sold."

HEAD OF N. A. C. OF C. OFFERS SUGGESTIONS FOR CITY PLANNING

Believing that an era of better cities is at hand, if citizens and traffic authorities will give study to the question, Charles H. Clifton, president of the National Automobile Chamber of Commerce, makes six recommendations for city planning. He has sent his views to traffic authorities in several large cities asking for comment and criticism.

Mr. Clifton suggests as means of improving traffic congestion and hazards in cities:

1. More playgrounds.
2. Stricter regulations and more scientific study of safety provisions.
3. New boulevards.
4. Detours for through traffic.
5. Parking spaces in basements of office buildings.
6. Use of open lots for parking.

The suggestions have been submitted to Frank E. Doremus, mayor of Detroit; C. M. Garner, mayor of Des Moines; Walter Sims, mayor of Atlanta; J. E. Rolph Jr., mayor of San Francisco; James M. Cuffley, mayor of Boston; A. J. Meshegan, mayor of New Orleans; William E. Dever, mayor of Chicago; G. E. Cryer, mayor of Los Angeles; Dr. John A. Harris, deputy police commissioner; Lawrence Purdy, national conference on city planning.

Buick Dealers High in Character Well as Business

"Often the question is asked, 'How does it happen that Buick has such a superior dealer organization?' About the best answer is that it did not just happen," declares E. T. Strong, general sales manager.

"The man familiar with our policies would say that the high prestige which Buick cars have won is the result of chance. And, likewise, no one who has followed the development of the dealer organization would believe that it has been brought to its present high state with anything short of well-directed effort, close cooperation and the exercise of sound business judgment.

"Because it is in the dealer that the owner usually finds his only contact with the Buick Motor Company, we have naturally been particular in our choice of a dealer to represent Buick in a community. Once we have selected a dealer, we do everything we possibly can to help him to be a good dealer so that he may not only be a credit to our organization but also a business man who will be truly representative of his community. On this principle has grown the Buick dealer organization, which is no less remarkable for its size than it is for its efficiency.

"Everybody along the line cannot make a good dealer. Even a practical knowledge of the principles of motor car design or years of mechanical experience does not qualify a man to be a Buick dealer. We are more interested in his character, in his rank among business men of the community, in his integrity and initiative, in his understanding of what is essential to business success.

"We know that the purchaser of an automobile should rely on the dealer from whom he buys just as much as on the product and its manufacturer.

"If you were about to purchase a fine piece of jewelry, just what merchant would you visit? Surely it would be the one who had earned a reputation for treating his customers fairly and honestly, for good values, for backing up the things he sells. You would not patronize the man around the corner, located in temporary quarters and likely as not to be out of business tomorrow.

"In buying shoes, you would not think of taking what a vendor on a sidewalk street had for sale. You would prefer to buy a standard make from an established and reputable merchant.

"The same things are true in the selection of a motor car. You may decide on the very car you want, but it is not at all certain that you will buy it, unless the dealer with whom you must do business deserves and inspires your confidence. You must be assured that the transaction will be one of pleasure both before and after the sale. You must know that the dealer is not of the 'fly-by-night' variety, that he is prepared to serve you and is willing to stand back of the car you want to buy.

"Because Buick success has made the car a desirable product to sell and because it is manufactured by a company of vision and stability, men of high caliber have been attracted to the Buick field forces. This has enabled Buick to use great care in making each appointment. We have not been forced to go into a community and take for a representative whomsoever we might find—a fact that has helped to maintain a high standard throughout the country.

"Success in the business of selling and servicing motor cars is limited by only three things: the dealer, the motor car and the company behind that car. These are the stock in trade and accomplishments are controlled by their merits.

"That is why the best automobile value possible is the only one good enough for the wide-awake, progressive dealer. And that is why he further wishes to form a connection with a strong and stable company.

"Just as a dealer needs a good car and the support of a strong company, so does the company need the loyal, steady dealer. In this combination, the Buick owner or prospective owner is vitally interested.

"To Buick owners to our close attention to the development of the Buick sales and service organization. Buick owners are particular people.

"Buick is especially popular in business circles, among men who must depend upon a motor car to shorten distances and render the keeping of appointments easy and certain. It is the favorite of professional men, particularly those who must make a number of trips without delay during the day. It takes precedence in that varied field of busy men and women to whom servability is the first consideration.

"Our dealers are fully alive to their responsibility. We are proud of them. They are giving attention to owners. They are building up a clientele of satisfied customers. Many of them are established in their own buildings, designed and constructed to render the best type of service.

"Buick dealers are known for their financial standing and the strength of their credit relations. Bankers realize that they not only do business closely but that they are also good business men generally. Bankers are also influenced by the judgment of the public.

American Auto Honks In Every Part of the World

NEW YORK, July 14.—The American automobile "honks" in every language of the world and does business in every climate. It sounds its warning in over a hundred different countries, colonies and islands, and renders service from Iceland at the far north to the equator and thence to the most extreme southern line of human habitation. It "takes" the steep grades of the Andes of the Himalayas with the same complacency with which it traverses the pampas of South America or the desert roadways of Africa and Australia.

Figures compiled for the Trade Record of the National City Bank show that the number of passenger machines exported from the United States in the last decade were 851,000, and of commercial machines, including motor trucks and buses, 128,000. The value of the passenger machines exported in the last decade is \$133,000,000, and of commercial machines \$281,000,000. If we should carry the record back to a dozen years and include motorcycles, which are in fact "automobiles," the total number of machines exported, including those sent to our own colonies, would reach a million, and the value a round billion dollars. Even this total of approximately a billion dollars of automobiles of all types exported in the last dozen years does not fully tell the story, for the value of "parts of" machines exported for repair purposes aggregates in that period about \$250,000,000; the value of automobile tires exported in that period was \$150,000,000 and the engines about \$28,000,000.

A much larger proportion of the machines exported is still going to business in some form than is generally realized, for many of the machines originally sold for passenger purposes are after they have rendered service in the capacity originally intended transformed into a condition in which they can be used for the minor trade traffic and industry purposes, rendering service to enormous numbers of persons engaged in business and mechanical industries and thus maintaining the flow of the former traffic methods and to that extent increasing their business facilities. Automobile authorities estimate that more than three-fourths of the motor cars manufactured are used more or less for business purposes.

A small leak in the radiator may often be repaired temporarily on the road by covering leak with chewing gum.

WOMEN TO BLAME FOR BRIGHT COLORS NOW USED ON CARS

NEW YORK, July 14.—The growing influence of women on motor car buying has caused American manufacturers within the past year to use lighter and gayer colors in cars," said Hazel H. Adler, nationally known color authority, today.

There has been a greater increase in the use of bright color schemes in automobiles during the past year than in 19 previous years combined. In fact, every "Main Street" now looks as though the automobile had been harnessed in the shape of American made motor cars.

"Ever since the auto shows last January," continued Mrs. Adler, "dealers have had great difficulty in holding on to sample cars which were painted in new color effects. Cars with bright colored wheels, gaily colored panels, or narrow colored stripings remained on the floor but a few hours, when impatient buyers, usually accompanied by their wives or daughters, demanded prompt delivery of that particular car or one just like it.

"Car manufacturers got busy," she said, "in producing quantities were soon in the swim, and pretty soon we saw a range of new and harmonious colorings in maroon, cream, gray, reds and primrose yellows.

"Automobile decorations," remarked Mrs. Adler, "has a great emotional appeal and influences every sale of a motor car. For instance, bright red represents speed, excitement, power and strength. Maroon typifies luxury and comfort. Light blue for daintiness. Dark blue is unemphatic, yet it has been used a great deal. Sometimes I wonder if that particular color has anything to do with the lack of sympathy that many drivers have for the other fellow on the road.

"Color is a natural science, just as physics or chemistry, and likewise must be controlled by certain fixed and definite laws. Car manufacturers were prompt to appreciate their psychology and cooperated with the big paint makers and the Haylor System of Color Harmony to select fresh, distinctive colorings for their cars, so as to appeal more strongly to the heart-power of our women.

"The influence has rapidly increased," concluded Mrs. Adler, "until today the American woman has decided part in practically every purchase of a car, keeping up her well known average of buying 25 per cent of all merchandise sold."

We Want to Talk to Every Prospect Who Plans to Pay More Than \$500 for a Car

We want to tell you something about the Studebaker Light-Six Touring Car. Want you to examine it—and to drive it.

Stop in and let us prove what a vast difference there is between the Light-Six and other cars at about the same price—or between the Light-Six and cars of other makes costing several hundred dollars more.

To be able to buy a Six, practically free from vibration, for less than \$1,000 is an opportunity not duplicated anywhere in the world. Elimination of vibration adds immeasurably to the life of the motor. It is one of the reasons for the universal high resale value of the Light-Six.

The Touring Car body is all-steel—even to its framework. Seat cushions—of genuine leather—are ten inches deep and are placed at the most restful angle.

The one-piece windshield is handsome and practical because it gives unobstructed view of the road ahead and is rain-proof. The quick-action cowl ventilator and the parking lights are but indications of the quality and completeness of the appointments.

No other make of car ever built, by anyone, at any price, represents so great a dollar-for-dollar value as the Light-Six Touring Car. The savings resulting from large volume, complete manufacture and the fact that Studebaker's overhead is shared by three distinct models make possible its low price and high value.

The Light-Six upholds Studebaker's 71-year reputation for honest value.

Power to satisfy the most exacting owner

N. A. Chamber of Commerce Offers Prizes to School Teachers and Pupils For Essays on Promotion of Safety

Five hundred prizes, totalling \$500, are offered by the national automobile chamber of commerce to school children and teachers for the best essays and lessons on how to promote safety on the highway.

A trip to Washington with all expenses paid is the award for the best essay by a school child and the best lesson by a school teacher.

The actual competition will begin in the fall, but the summer season offers an opportunity for traffic safety study and campaigning in every community.

Details of the contest may be obtained from the highway education board, Whitard Building, Washington, D. C.

Accidents Can Be Reduced

"We believe that the number of highway accidents can be very materially reduced," said Edward R. Jordan, N. A. C. C. special representative in traffic and safety, in announcing the contest.

Massachusetts and Connecticut lowered their mortality rates in 1922. New York City effected a reduction in its motor accidents in May as compared with April. In each of these places, the authorities have been active in safety campaigning.

Uphold Traffic Enforcement

The national automobile chamber of commerce is offering these prizes for the third successive year because it believes that many lives can be saved through teaching the children how to behave in traffic, and by urging them and their parents to uphold public officials in traffic law enforcement.

"At least five factors must be considered in the bringing about of safer highways:

1. Safety Education.—In the schools and also for adult motorists and pedestrians so that observance of rules of the road becomes a habit.
2. Jail for Reckless Drivers.—There is no room for the careless few who endanger the great majority.
3. Adequate Playgrounds.—Children have a right to play. Let our

our surprise nearly half of them were from an unexpected source.

"Heads of police departments, judges, sheriffs, fire chiefs, and private citizens, all interested in anything that would help to solve the traffic problem and reduce the appalling number of traffic accidents, seemed to see in the 4-wheel brake the most logical answer to that problem.

"Congratulations came from these by wire and by mail in such volume that we are more than ever convinced that we have achieved something worth while to the public as well as consulting our own business interests by pioneering in this important improvement.

"Of course, we realized that the solution of the traffic problem called for a more rapid degree of deceleration as well as acceleration in a car.

"Our own tests have proven that traffic can be speeded up without increasing the maximum speed allowable on city streets. This can be done with a car that will get away quickly from a standstill, and will also stop in less time and distance, thereby conserving the extra time.

"The application of 4-wheel brakes has brought back into the vocabulary of the average man the word 'deceleration.' You have seldom, if ever, heard the word before but you will hear it frequently in the future because it will be the quality for which every automobile designer must strive.

"As a direct result of that announcement of the 4-wheel brake we received orders for more than 100 cars in one day. As they are still pouring in, and as much of our territory is yet to be heard of, we now know that our capacity is more than over sold. This is most gratifying.

"But the by-product is almost as pleasing to us, for when police chiefs, traffic officers, and others who have been at their wits' end to find a solution of the problem which the motor car itself created, wire us their enthusiastic endorsement and when newspapers and traffic chiefs in many cities have already planned tests and demonstrations of the efficacy of 4-wheel brakes over the two, it convinces us that we have performed a genuine public service and possibly added to the sum of human happiness."

"The flood came all right, but to

Traffic Problems Reduced by New Four Wheel Brake

DETROIT, MICH., July 14.—"One never can anticipate the full result from a big advertising campaign, and we have just had a forceful reminder of that fact," says Captain E. V. Rickenbacker, vice-president and director of sales of the Rickenbacker Motor Company.

"When we projected our big announcement of the new 4-wheel brake Rickenbacker model, which, by the way, went into 500 leading newspapers of the country and was therefore one of the biggest advertising campaigns put over in recent times, we naturally anticipated a flood of telegrams and correspondence.

"The flood came all right, but to

THE MOTORISTS' PROBLEMS'

By WILLIAM H. STEWART, JR.

Motor Department—If you can, will you please let me know in your first issue where the Timken Mfg. Co. is located or where the Timken gears are made, and oblige—C. E. K. Probably you mean the Timken-Detroit Axle Co., which is located at 100 Clark St., Detroit, Michigan.

Motor Department—I have a Chandler Roadster. Engine runs fine, gears shift fine, but car won't bog. Where do you think the trouble is and what would cause it? Thanking you for an early reply, I am—OWNER.

If engine continues running there must be a break in drive members, either differential gears or axle shafts. Jack up both rear wheels, start engine, put gears in speed and trace power along until the break is discovered. If traced to the rear axle, then remove the transverse axle shafts first for inspection. Perhaps one of them is broken.

Motor Department—There is a considerable "growl" in my differential. I am not sure whether it has been there all the time or is a late development. Is it the usual thing with a car. I ran the car two or three blocks with the emergency brake set. Would that cause the trouble? If there is anything wrong how can I fix it?—K. N.

Many cars develop this trouble in time, which may be removed by readjustment. Running with the brake set shows that brake does not hold very well, but would not cause the trouble, although it may have made the noise more pronounced.

Motor Department—Will you kindly tell me a good top dressing for a pantosole top, one that will not crack and leave the top hard?—OWNER.

Use a first class leather dressing. You can purchase this in most any good paint store.

Motor Department—I own a Chevrolet with cone clutch. It does not engage smoothly and causes the car to start with a jump. Your advice will be greatly appreciated.—K. N.

This clutch is equipped with small

helic springs placed so that they exert a pressure under the leather facing to facilitate easy engagement, and unless these springs are kept in tight tension they will not afford the cushion action necessary. Adjust these springs to the correct tension. If the leather facing of the clutch is dried out, it can be made pliable by the application of neatfoot oil.

Motor Department—I have an old car, for which I have no instruction book. Please tell me how often I should change the oil in the crank case. It has a pump-over system with an over flow compartment below the crank case.—READER.

Every thousand miles is a good rule. After about 5,000 miles the crank case should be removed and the grill should be washed out and the case thoroughly cleaned with kerosene.

Motor Department—Please tell me what is meant by starting on the spark and if it can be done on a Ford.—E. L.

This cannot be done on a Ford unless it has a battery, as the Ford magneto makes current only while it is being cranked. An engine with four or more cylinders always has one on the power stroke. By switching on the current a spark is produced in the proper cylinder and the engine starts. To make this easier speed up the engine by throttle just before stopping it. This fills the cylinder with an explosive mixture.

Motor Department—What grade of cylinder oil is best to use in Summers, light, medium or heavy?—OWNER.

There is no fixed rule to apply other than that advanced by the engine manufacturer. Would suggest that you follow their instructions very carefully.

Motor Department—Will you please let me know how to prevent accumulation of soot on top of the exhaust valves and on spark plugs? Only a short time ago all carbons were removed, and, only running about 100 miles, it is so bad that I get poor ignition.—C. A.

The piston rings may have lost their resiliency, be sticking in piston grooves owing to carbonized oil, or the slots may have worked in

Rickenbacker

A CAR WORTHY OF ITS NAME

—now 4-Wheel Brakes! —another Great Success!

Have you seen the revolutionary 4-wheel brake Rickenbacker? Announced but a few weeks ago! Instantly all America asked to be shown.

In less than twenty-four hours tens of thousands of successful demonstrations were taking place throughout the country.

Factory besieged with the demand for more cars.

Telegraphic orders pouring in from all parts of the country.

If there ever was a downright over-night success, here is the outstanding one of the automotive industry.

And so Rickenbacker gathers more laurels—sweeps on to greater victories.

How about you? Of course, everyone could not be given first chance at driving the new 4-wheel brake Rickenbacker. So, try again. Candidly it will pay you. More demonstrators are on hand now and we want to show everyone the paramount importance of 4-wheel brakes.

Four-wheel brakes are the most important motor car improvement in years—in 13 years to be exact. For we believe this engineering refinement to be the foremost automobile improvement made since the introduction of the self starter.

Four-wheel brakes are of cardinal importance because they make motoring infinitely safer, both for the driver and for the pedestrian.

Four-wheel brakes mean this: With the same effort you can now stop in about half the distance—with half the strain on tires and other parts of the car.

Gives you better control of the car when turning.

Stops on wet asphalt quicker than ordinary two wheel brakes do on dry—with no skidding.

It is only a matter of time before all cars must be equipped with four-wheel brakes.

And while you are at it, let us show you the Rickenbacker tandem flywheel—that invention that removes all "periods" of vibration and for the first time gives to motoring a smooth, sweet action under all conditions.

Also, that other great improvement—the Rickenbacker air cleaner. This, by purifying the air before it enters the cylinder walls, prevents excessive carbon deposits. And everyone knows how that adds to the life of a motor car.

In conclusion here is one more point. Now that you have finished reading this advertisement, read some of the other motor car ads in this paper. Then read the Rickenbacker ad again. Notice the marked difference.

The Rickenbacker ad is full of meaty information. The other ads contain nothing but empty words and uninformative generalities.

Those motor car manufacturers who have something to say—say it. You get fact following fact—in good clear, plain English. Whereas those cars that apparently are short of facts endeavor to make up for their discrepancies by being long on words.

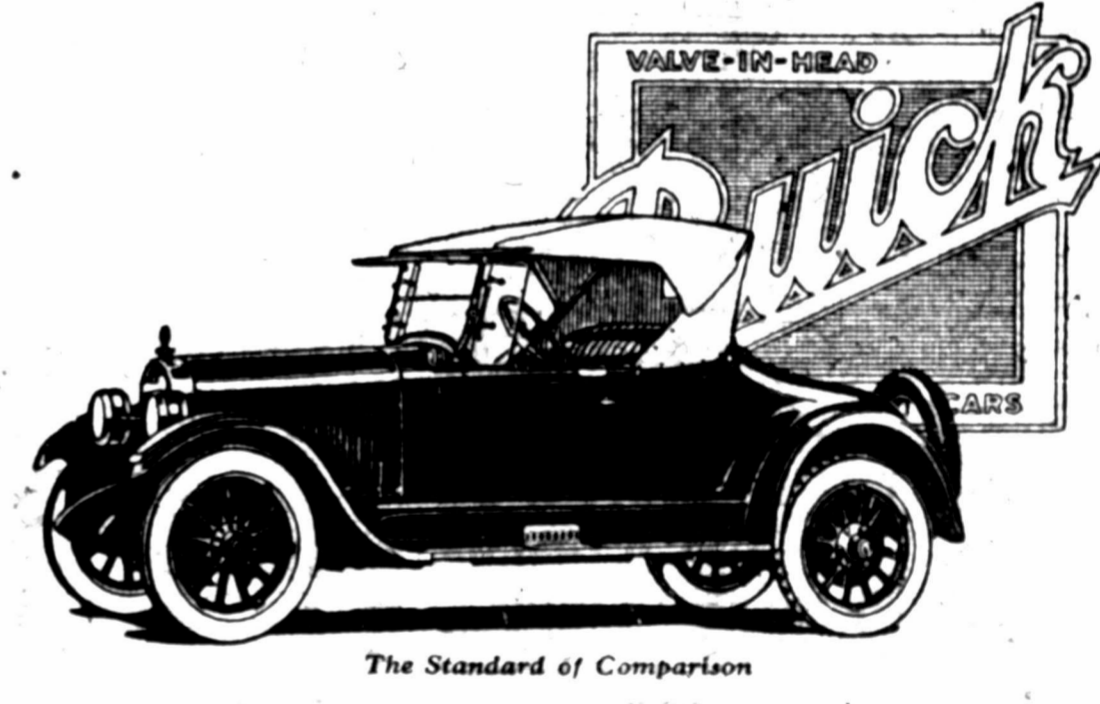

Glittering generalities tell you nothing. The motor car manufacturer who gives you information—specific, definite, concrete information—is the motor car manufacturer who gives you value.

PART TWO
TOTAL OF \$16,490
WORTH OF BUILDING
PERMITS FOR WEEK

Excessive heat brought with it a drop in building during the week ending July 14; only 12 permits for building were granted from the office of the city clerk. The total cost of building for which permits were granted was \$16,490. Permits were issued for the erection of five new residences in Floral Heights and Highland addition during the week permits were issued in the following: M. D. Walker, 417 Eighth, repair business building, \$1,000; G. M. Reeves, 1201 Folk, garage, \$50; G. F. Bowden, 2503 Eighth, residence, \$1,500; W. C. Perkins, 709 Elm, one 4-room residence, \$1,000; J. H. Sherrill, 1505 Elizabeth, garage, \$100; M. E. Taylor, 2175 Avenue D, one 3-room residence, \$1,500; M. E. Taylor, 2175 Avenue I, one 3-room residence, \$1,500; W. B. Robertson, 2804 Tenth, repair to residence, \$450; Services McCreedy, 2803 Ninth, 7-room residence and garage, \$4,000; A. C. King, 1705 Ninth, garage, \$50; M. Meredith, 1214 Thirteenth, repair to residence, \$150; M. E. Taylor, 1503 Grant, summer house, \$100; Guarantee Tire Co., 213 Tenth, concrete and metal room, \$50. Total, \$16,490.

Information Given
Tourists All Parts
By Olds Dealers

With the advent of the 1923 summer camping season, the prediction being made that more than 12,000,000 people will visit the national parks and city campsites throughout the country, according to G. H. Lesley, general sales manager of the Olds Motor Works, Lansing, Mich. Last year, Mr. Lesley said, 4,000,000 persons visited the national forest reservations, 495,000 persons visited the national parks and campgrounds, and 4,000,000 persons camped at the various camping sites throughout the country. Dealers and distributors report that the Olds Motor Works, Mr. Lesley says, "that many purchasers of cars are coming to them and asking for advice relative to touring this summer. This is particularly true of the city apartment dwellers. An investigation has shown us that many of these people are going to turn tent dwellings for the summer to escape the high rents being charged in some sections. "Today more than 2,000 cities have campsites on the outskirts and these are maintained by the city for the benefit of tourists, but there are at least another 2,000 sites which private individuals rent for small sums and use for their own homesites during the summer months. "As an indication of the growth of the camping tendency throughout the country I would like to point out that California cities now have 193 such sites, Illinois 112 and Iowa 110. Hundreds of others are scattered throughout the country and with 10,000,000 people visiting these places last year, there seems to be little doubt but what an additional 2,000,000 persons would motor and spend their vacations in these places this summer. "Oldsmobile dealers in all sections of the country are on the lookout for tourists and in some places these men have established local information bureaus in their sales homes to give information relative to roads and campsites to tourists. "We have found that during 1922 approximately 15 per cent more people visited the national park sites than in 1921, and this alone has proven to be a great business boom to the towns and cities in which these people stay, as they always spend money."

ABILENE, July 14.—Two companies of local national guard units, including 75 men, have gone to Leon Springs to spend two weeks in the military training camp there. The 131st field artillery band also went to the camp.

Farmer Caught Between Short Crop, Low Market and Conditions Which Will Not Permit Him to Store Grain

A short crop, an extremely low market and conditions which are impeding forces to sell the grain, make up the situation which straits the wheat farmer of Wichita county and of this section of the country in the face. The yield itself was a failure and had higher prices prevailed the farmer would have operated at a loss. But on top of the low yield and despite the five per cent decrease in acreage throughout the country with a corresponding decrease in yield, the price is lower than it has been in years. In years gone by when other conditions and crops were better, the farmer usually stored his wheat supply away, awaiting the time when prices were more favorable. This year, however, fully ninety per cent of the farmers found it necessary to dispose of their short crop immediately in order to meet financial obligations which were contracted in order to tide over the winter. Grain purchasers and elevators have found no decrease in the amount of wheat received this year from that of past years. As viewed by farmers and others in position to know, the prevailing conditions will have one great detrimental effect. It is predicted that there will be, in this territory at least, a probable decrease of 25 per cent in wheat acreage next year. Compared with figures of 1921, which is considered an average year, wheat occupies the lowest place of any of the staple farm commodities as to what it will buy as compared to other crops. The value of a bushel of wheat as compared to that of 1921 is to what it will purchase ranges from 88 to 90 per cent. Wheat quoted at 92 cents a bushel on the Chicago market is said to be the lowest it has been in years. Locally the posted price on wheat is 88 cents for first grade and 77 cents for second grade.

Cotton Crop Prospects Are on Down Grade As Result of Hot Dry Winds Of Past Week; Price Prospect Good

Cotton in Wichita and surrounding counties had deteriorated to a great extent during the past week, according to farmers, due to the aridity of the hot winds that have swept over the fields continually during the past ten days. At first the hot winds were welcomed because it was believed that the boll weevil would suffer and thereby benefit cotton. The winds have continued for too long a time, however, and much of the cotton has begun to show signs of death leaves. Farmers, however, are still optimistic over the outcome of the crop and predict good results, unless unfavorable conditions continue to prevail. The price of cotton remains very favorable and it is hoped that it will continue to remain on practically the same level until the crop has been sold. Many farmers are counting on their cotton crop to wipe away the deficit caused by the wheat crop and the low price of wheat. Corn has suffered the most on account of the dry winds and the predicted bumper crop of three weeks ago has entirely vanished. It is a question as to whether there will be a sufficient yield to permit the farmer to break even.

IRRESPECTIVE of price, you cannot find a sedan or coupe on the market today that offers more in all the essentials that spell closed car comfort and luxury, than you will find in these Hupmobile models.

It is true that there are larger, heavier cars, more costly to buy and to keep,—but none that combines more of dignity, of beauty, of absolute protection against the weather.

Careful comparison will also, we believe, force you to the conclusion that no lower priced sedan or coupe offers all these necessities in anywhere equal, or adequate measure.

Remember, too, that the Hupmobile means longer motor car life, constant service and satisfaction at remarkably low cost.

Even if the body were less fine, the Hupmobile chassis, in every sense of the word a fine car chassis, would place it foremost in your mind.

Redmond Motor Co.

Today At The Churches

Christian Science Society. Church office, corner Tenth and Van Buren streets. Sunday school 9:30 a. m. Lesson sermon 11 a. m. Subject, "God." Testimonial meeting 8 o'clock Wednesday evening. Reading room located in room 15, Ward building, 403 Eighth street. Open from 2 to 5 p. m. daily except Sundays and holidays. The public is cordially invited to attend the services and use the reading room.

First Presbyterian. The auditorium was well filled last Sunday morning and the lawn service in the evening well attended. The music at both services was excellent. We have the assurance of other good music Sunday. In the morning the choir will sing an anthem and Mrs. Hockersmith a solo. At night there will be a sing-song on the lawn and solo by Mr. Rodgers. The subject of the pastor's morning sermon will be "The Only Hope." In the evening, "Ambassadors." A special service for church membership will be given following the benediction in the morning.

Lutheran Trinity. (Corner Fourteenth and Bluff.) Sunday school and Bible class at 9:30 a. m. Service in the German language at 10:30 a. m. After services the Ladies' Aid will meet for a short business session. You are welcome at our services.—A. H. MUEHLBACH, Pastor.

Church of the Good Shepherd. (Episcopal.) Holy communion 8 a. m. Sunday school 9:30. Morning prayer 11. The pastor's sermon subject will be "Worship and the Kingdom." This is the last of the series on "A Fighting Faith." Some of the sub-topics will be "Worship, a Lost Art," "Should We Go to Church?" "What God Will Do for Me if I Go to Church." You will be interested in this sermon, and we cordially invite you to attend.—FRED T. DATSON, Rector.

First Methodist Episcopal Church. Seventh and Lamar.—At 9:15 the Sunday school meets. If you are not associated with some other Sunday school, we want you. 11 o'clock is the hour for public worship and preaching service. The minister will speak on the subject of "The Power of the Holy Ghost." There will be special music by the choir. 7 p. m. is the hour for League devotional service. Come and worship with our young people. At 8:15 the minister will speak on the subject of the "Barren Fig Tree." We shall be glad to have you with us Wednesday evening at 7 o'clock for lunch and for prayer service and Bible study at eight o'clock.—IRA L. CHASTINE, Pastor.

First Evangelical Church. Fifteenth and Locust.—Sunday school 9:45; morning worship 11 o'clock a. m.; Junior League, 1:30; League of Christian Endeavor, 7:30; sermon, 8 o'clock; prayer meeting, 8 o'clock Wednesday evening. Sunday morning the time and place of our Sunday school picnic will be announced.—A. F. LAUKHUF, Sunday school superintendent.

Lamar Avenue Baptist Church. On Fourth and Lamar. The public is cordially invited to attend the following services at our church: Sunday school at 9:45 a. m.; Fred Oona, Supt.; preaching at 11 a. m. and 4 p. m. by the pastor. Subject in the morning: "A Green Old Age"; evening, "The Gospel of Christ." Sabbath school at 9 p. m. E. Y. U. at 7 p. m.; prayer meeting each Wednesday evening at 8 o'clock.—A. J. HOLT, pastor.

First Christian Church. Tenth and Travis streets. Bible school Sunday morning at 9:30 prompt. We will study the third chapter of Acts. Everyone is urged to come and bring your own Bible. Morning worship Sunday morning at 10:45. Mr. Hancock will speak. The chorus choir will render "March 'De Deum" as a special number. Christian Endeavor Sunday evening at 7 o'clock. All young people are invited to be present. Evening service Sunday evening at 8 o'clock. Mr. Hancock will speak on the sixth of a series of sermons, "Jesus and the New Age." The choir will render special music at this service also. Trio: "Hear My Prayer." The public is invited to attend these services.

Floral Heights Methodist Church. Tenth at Folk.—Where are you going to worship Sunday? Floral Heights Methodist Church extends a cordial welcome to everyone to worship with them. A warm reception is awaiting you but the church is not comfortable. Sunday school at 9:30; J. M. Alexander will be in charge of the Sunday school. Preaching at 11 a. m. by the pastor, Rev. Guy Barbee. At 8:15 Dr. J. W. Cantwell will deliver an address. Special music, Sunday morning. Solo, selected. Miss Curry. Organ numbers. "Calm as the Night," Bohm; "Offering," Salome. Sunday evening, special number by the choir, "Morning and Evening" Oakley. Organ numbers: "Swing Song," Bibles; "Sibley G. Pease;" "By the Waters of Minnesota," Clarence; Mrs. O. E. Nichols, organist. Prayer meeting Wednesday evening, 8:15.

Southside Baptist Church. Holiday street.—Sunday school, 9:45 a. m.; preaching, 11 a. m. and 4 p. m. by the pastor; Sermons at 11 p. m.; E. Y. U. at 4 p. m. Prayer meeting Thursday night. Our

There will be a study on "The Camp of David and Tabernacle," Exod. 25 to 27. There are "shadows of better things come," Heb. 10:1. All are welcome to these studies.—LOCAL ECCLESIA.

Special week-end services. The Salvation Army Citadel, 216 Seventh street. Saturday, 8 p. m. free and easy service. Sunday, 11 a. m. home-mass meeting. Sunday, 2:30 p. m. Sunday school. Sunday, 8 p. m. great salvation service. These will be the first services conducted by Eunice Corlies, the new officer, and everyone is cordially invited to attend. Music will be a special feature.

Yale Avenue Evangelical. Corner Yale avenue and 22nd street. Sunday school at 9:45, followed by the morning sermon. The subject of the morning sermon will be one of much interest to each Christian and should cause us to think more of the goodness of God. Come and enjoy the services with us and let us see if we cannot say with the Psalmist, "I was glad when they said unto me, let us go up unto the house of the Lord." Junior League at 2:30 p. m. and we would like very much to have all the Juniors with us in this service. Seniors will hold their meeting at 8 p. m. and we trust that there will be more of the Seniors on time and that every one will try to make this a great day. Our children's day service will be held at the evening hour and we will not have any sermon at this hour—as we will give way for the children. The subject of our Bible study for Wednesday evening at 8 p. m. will be "Is it possible for one who is once saved and enjoying the blessings of God, to fall away and

be forever lost?" Come and bring your Bibles and let us study this important subject according to the word of God, and we will assure you that anyone can come and take up this study with us and we will promise that you will appreciate the study of this subject as there will not be anything but that all endorse and nothing said that will be a slur on any one or the church to which they belong. Every one who is seeking the truth is invited to come. Teacher meeting and choir practice Friday evening at 8 o'clock.—W. D. COOK, Pastor.

W. L. Robertson Bible Class. Judge Jas. H. Aynsworth will address the W. L. Robertson Bible Class at the First Baptist church at 10 o'clock in the absence of Mr. Robertson, the teacher, who is away on his vacation.

First Baptist Church. In the absence of the pastor, Dr. Powers, who is the principal speaker for the Central West Texas Baptist Encampment now in session near Leuders, Texas, the Sunday

morning sermon will be preached by Rev. H. J. Ballow, associational missionary of this county. In the evening Dr. J. W. Lovins, pastor Floral Heights Baptist Church, will preach. This service will be in the open air, adjoining the church building. Special music for both services. In the evening the shrine quartet will sing two numbers. This quartet is one of the most appreciated musical organizations of the city, and has been secured to sing as a part of the special musical program provided by Choir Director Vaughn Day.

YOUR CLAIM COMES FIRST. Since we cannot prosper unless our patrons prosper first, we cannot be satisfied with this bank's service unless our patrons are first satisfied. The end and aim of our service policy is to be useful to you first.

Don't Envy Success—Achieve It. Nine times out of ten success means BEING READY FOR OPPORTUNITY when it comes. It may mean buying into your business, it may mean a rare bargain, or it may be that it is necessary to live on your "financial fat" for two or three months. But opportunity almost always calls for some investment of time and money. Make the start with this bank today. The Security National Bank "The Bank of Personal Service" Night and Day.
