

WICHITA'S ROAD SYSTEM PRAISED BY LION SPEAKER

Wichita county has the greatest road system in the southwest and one of the best systems in the United States," J. D. Farwell declared in an address on the topic "Good Roads" before the Lions Club at the regular weekly meeting Wednesday noon at the Kemp Hotel. The work of County Judge E. D. McAllister and the county commissioners that the speaker had in mind is to be completed by the spring and he declared that the present road system plans are completed Wichita county will have a system of paved highways similar to that of no other county in the United States. Good roads will extend through every town and community without any miles of unmetalled roads and the people will be able to reach the city at any time, he added.

Mr. Farwell also praised the work of the state highway commission and declared that although the members worked without pay they were frequently criticized by the public.

Federal and state engineers in supervising all road building and working cooperation with county engineers prevent the building of inferior roads," the speaker declared.

The state will maintain all roads after January 1, 1924, and district supervisors will be located in the different sections of the state.

Father and son day will be observed by the Lions Club Friday, October 20, at 7 o'clock, at a dinner in the Kemp hotel. The regular Wednesday meeting will not be held next week.

L. R. Buchanan, vice president of the club, presided at the meeting and Joe Hatchett was in charge of the programs.

TRAIL FOR DEFENDANTS IN SUIT IN VOTE COURT

A jury in the 18th district court Wednesday returned a verdict in favor of the defendants in the case of McAllister and Grives against Waggoner and Green. The suit was for judgment on alleged failure of the defendants to pay for services used in the construction of an off street.

HAVE COLOR IN CHEEKS
Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pale—tongue coated—appetite poor you have a bad taste in your mouth—a sluggish feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel, are recommended by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are purely vegetable compound made with olive oil. You will know them by their olive color.

To have clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days—must eat calomel.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—but no drowsiness after effects.

They start the bile and overcome constipation. Take one or two tablets and the passing stools. Millions of housewives eat daily of 16c and 20c.

PRODUCTION SINKS WELL ON BURNETT INCREASES DAILY

HAS BEEN ON TWO INCH
PUMP FOR MORE THAN
NINETY DAYS.

OUTPUT INCREASED TO
MORE THAN 200 DAILY

Rushing Rotary Drilling outfit to
Come from Railroad Yards
at Panhandle

AMARILLO, Texas, Oct. 16.—Production of oil in the Silk No. 1 Burnett, north Carson county, is increasing daily. This well has been on a two-inch pump for more than 90 days. In the beginning of the test crude was pumped and flowed into the above surface tank at a rate of 225 barrels daily. The production has now increased to more than 250 barrels daily and continues to increase. According to the operators, the well has been "pumped off" through its two-inch line into a 10-inch line.

Sixty intervals of Wichita Falls are making a rotary drilling outfit to their lease from the railway yards at Panhandle. The use of rotary drilling equipment is considered by all men as an indication that operators on the Burnett ranch in north Carson and south Hutchinson counties are sufficiently familiar with the depth of the producing horizon to feel safe in employing rotaries to penetrate the limestone cap rock to drilling operations.

Texas Company has two producing oil wells of excellent quality and volume in the vicinity of the Silk producers, and two derricks are up and running on the Burnett lands for their fifth well on Burnett lands.

In south Hutchinson county, Holmes, McRae and McGee No. 1 Smith section 10, block Y, is drilling deeper to increase production. It is now pumping 100 barrels daily, block Y, preparing to test, estimated 300 barrels. Barium No. 2 Johnson, section 17, block Y, drilling after setting 12-inch at 1110 feet. Whitington No. 1 Sanford, section 22, block 46, shut down for repairs, has been pumping 40 barrels daily. Whitaker-Newfield Oil Corporation, section 1, block X-05, spudding. Humphreys No. 1 Johnson, section 4, block Y-2, re-drilled and pumping rig, 10 million feet and at 2600 feet. Block Y-2, spudding. O'Guinn No. 1 Whittington, section 12, block 46, rigging.

OIL MEN WARNED INDUSTRY IS FACING STATE REGULATION

CROSSVILLE, Tenn., Oct. 16.—Oil men in the northeast and a like distance to the southwest, development of wild cat areas are under way on a much larger scale than in any other section of the oil country. The oil men in Crossville and the older section of the field north of Tampa in Carson and Hutchinson counties have defined that section as a proven area. To the southeast in Wheeler county near the Oklahoma border there have several wells have been drilled and will be at the expected gas horizon. At the door of the city eight miles west, the Tampa well is rated as a fifty million gas well.

According to recent reports of geologists and oil engineers engaged in the industry, the vicinity of Crossville and the southeast holds great promise as being the principal oil and gas producing area of the Plains section. Especially is this true of the area around the town of W. H. Holmes, Arkansas, where W. H. Holmes, American, is working drilling a deep test. The tools have reached an interesting depth and the operation is attracting more attention than any other in the panhandle district.

INTERNATIONAL FARM CONGRESS IN SESSION

KANSAS CITY, Mo., Oct. 16.—Officers vital to dissemination are scheduled for discussion before eminent authorities before the representatives of virtually all the large agricultural organizations assembled here today for the opening session of the International Farm Congress.

Among those who will address the congress today is Henry G. Wallace, secretary of agriculture, a program of whose department for meeting problems of the wheat farmers has excited particular interest although it has scarcely been reviewed.

The schedule for the congress, which will adjourn Friday, includes discussion of the plights of the wheat farmers, marketing, international trade, soil conservation, transportation, legislation, reclamation and dry farming.

In explaining the significance and magnitude of the congress W. L. Drummond, chairman, asserted in a statement made yesterday that its deliberations represent the views of agricultural experts appointed by governors of more than half the states. The federal and state departments of agriculture and many agricultural colleges also are represented.

MASS MEETING CALLED FOR BURKBURNETT FOR WEDNESDAY 7:30 P. M.

TULSA, Okla., Oct. 16.—(R)—Warning all men that state regulation of their business is imminent because of present wasteful production of oil, the members of the oilmen of the Maryland Refining Company suggested today before the International Petroleum Exposition and Congress that leaders in the industry immediately take steps intelligent to conserve the nation's oil resources.

"I fear that we must face the possibility of state control of production," he said. "The lone owners

of Oklahoma and other producing states probably will not long continue to permit such foolish waste of their resources by their members."

"Should the present low price of oil continue, I think some form of state regulation of production is inevitable."

Following the Mass meeting of the industry, Mr. Marland pointed to "the enormous waste" of each period of high production such as now is at hand with a vigorous plea for corrective action.

Declaring that over production in every new field is a natural result of the present system of unregulated production, Mr. Marland said he believes that one approach to the solution is "intelligent and uniform pre-ration of purchases from flowing wells" and to that end he suggested "legislation to prohibit the practice of oil companies entering into agreements regarding pre-ration during periods of over production."

Messrs. Charles Kyren Walsh and W. R. Watkins have organized the formation of a partnership under the firm name of Watkins & Walsh, with offices at 213-214 Morgan Bldg.—adv.

A Simple Guide to Proper Food Selection

Nourishment—

Digestibility—

Flavor—

Character—

Economy—

Grape-Nuts with cream or good milk contains every element necessary for perfect nutrition.

Grape-Nuts is partially pre-digested by 20 hours' baking. It is easily assimilated by child or adult.

Grape-Nuts, made of wheat and barley, is sweet with natural sugar self-developed from the grain in the making. It has a delightful, nut-like flavor.

Grape-Nuts is real food—the kind you can depend upon for strength and energy. Its crisp granules invite thorough mastication, thus helping to keep the teeth and gums healthy.

Grape-Nuts is so compact that a package contains many servings; and each serving provides unusual nourishment. A portion for the cereal part of a meal costs about one cent.

Seat Sales Going Big Wednesday For "The Glorious Girl," Many Made Reservations This Morning

Seat sales for "The Glorious Girl" were made by Wednesday morning to Miss Jim Covey, ticket sales chairman from the Business Women's Club.

Miss Covey has handled the assignments of some 2,000 tickets for the girls and states that the sales are going faster than they ever have, probably owing to the reputation built up in the past two years by the Harrison-Adams Company. All the money raised will then be presented by the Business Women for first class entertainment.

Miss Covey reported that one sales agency had sold over 100 more tickets in four hours Tuesday, and that other members of the club were making splendid reports.

Those who have seen rehearsals of the play say it is extravagant in their style and presentation, and a special section of good words for the big costumed choruses.

The play, a big musical comedy, will be presented at the Palace Theatre on Wednesday evenings, and seat reservations may begin Wednesday morning at the Palace with a line which lasted two or three hours.

Construction Co. Sues Bondsman of Sub-Contractors

The W. E. Callahan Construction Company Wednesday brought suit in the United States district court against the Midland and Deposit Company of Oklahoma, asking for damages in the sum of \$4,000.

It went forth in the plaintiff's petition that the defendants went security for W. E. Clegg of Duncan, Okla., for the performance of a contract which the sub-contractors, Clegg did not carry out all terms of the contract. By reason of his failure to carry out the contract, the plaintiff contend it was necessary to have the work done by someone else and that by so doing it cost \$1,000 more than it would have cost if Clegg had fulfilled his contract.

According to the petition, Clegg day on business.
