Plan disturbed at reports indicating a desire of Premier Poincare to circumscribe the inquiry of economic experts into the reparations question as a basis of French approval of the plan, Washington officials today apparently awaited some official word to show just how and will become effective on Defar their previous understanding of the French position is to be modi-

It was evident that should the French government now insist upon such a limitation of the scope of investigation as to prevent a free dis-cussion of the question of Gera many's espacity to pay, it would be wlewed by officials here as dooming

the plan to "abortive results."

The position of France has been understood here to assure her acceptance of the plan with only the reservation of all treaty rights and the condition that the committee ean function under the reparations commission. This would accord with the American position as last stated by Secretary Hughes in his reply to Lord Curson in which he recognized that no hatien would care to commit itself in advance to acceptance of whatever proposed plan of setlement might result, Hope for success in the undertaking lay in the presumed willingness of France to consider such a plan on

Mechanically able to keep pace with busy minds

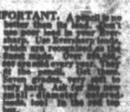

Eversharp is a worker, a business period.—America's favorite. It keeps going day after day with no other attention than an occasional loading. Many people carry tro—one with black lead, one with the new colored

Eversharp is comfortable to hold. It never fires the hand because it is perfectly balanced. The lead pever webbles—the exclusive rifled tip grips it like a vise. Yeu know when to put in a new lead — the automatic index tells how much is left in the barrel. New leads are found under the cap. So is the handy craser. Eversharp features can't be copied.

The all-metal Wahl Pen The all-metal Wahl Pen is a writing innovation, a fountain pen improvement that makes it a worthy companion for Eversharp. The barrel holds mere ink. Wahl Pen cannot crack or split. It is beautiful. It is durable. Wehl Pen will last a life-time.

The svidence was presented slowly and in a roundabout manner and several imes, Chairman Gilmore, presiding found it necessary to speed up the hearing and issue instructions that the case being heard applied only to Wichita Falls and not to 20 other Texas cities which are affected by

the proposed raise in rates.

J. B. McCabe, secretary and treasurer of the Municipal Gas Company, who in the morning seasion Thurs-day declared he owned 258 shares stock in the Lone Star Gas Company, was called to the stand and the court resumed where the evi-dence left off at the noon recess, with Judge Hassell questioning the witness. Mr. McCabe, after review-ing the last audit of the Municipal Gas Company with %ttorneys, de-clared that the average net income available for return on capital durfifg the last three years was \$9841 on the Wichita Falls plant. IMPENDING DOOM.

Some day, unless you mind the rules when drivng in the crowds, you'll mest the fate of reckless fools who fill untimely shrouds. There is more peril railroad companies have declined to accept svery day about the thronging mart, and every gent who drives a dray should know the rules by heart. And knowing them he should abide by all those rules decree, and thus he may in safety ride for seven years or three. Each day the deadly perils grow, new drivers loom in view, to show how little they may know of steering vans that choo. And babes and sucklings may be seen, the steering wheel in hand, while worried peelers wot and ween such infants should be canned. The frensled female speeds her boat and zigzags everywhere, and gets the everlasting goat of those who don't beware. And he who'd live a seemly while must watch for such as these, for drivers who are full of guile, for those whose heads are cheese. It is not proper to depe upon the other guy, or to remote surroundings lend an absent, dreamy eye. Oh, vigilant must be the man, his brain and vision clear, who hopes to tool a chugging van in safety for a year. One mutant's will destroy the railroads themselves. The carelessness may cost a collarbone or leg, so read the rules by scribes embossed, and follow them, I

A Real Radiogram. To Hang For An Idea. Deer Living, Wolves Dead. By ARTHUR DRIBBAND

Story of the sheep increhant, on board. One sheep being thrown overboard, all the other sheep jumped after it, and the sheep man was ruined. That's what happens whose our brightest financial minds, with deep intelligence, economic, weigh causes and effects and then jump overboard. They got a lesson from Judge Gary's little dividend tilt on Wednesday. And they got another lesson yesterday, 'It does not pay to sell the United States short.' That was well said.

If you are a radio enthusiast and If you are a radio suthusiast and understand such things, you will be interested in yasterday's announcement. A message, receiving its-only impulse on this side of the ocean made its trip of 5,000 miles to Warmaw and back twenty times, a total distance of 260,000 miles. That is almost twice as far as the light and electricity travel in one second. It amases us now, we see it, and work it, and know nothing about it. Some day we'll send messages to outside suns, ending with please answer, knowing that at 180,000 miles a second the answer will not be back in time for our grandchildren to read ond the answer will not be time for our grandchildren

Eugene V. Debs says prison didn' frighten him. Bight now he would hang for an idea." That's noble, once in a while, although you must first be sure that your idea is sound. For one man hanged for a good idea, ten thousand have been hanged for ideas thoroughly bad.

A flye-ton truck, stuck in Long-island, loaded with cauliflower, is stacked by deer while the driver goes for help, and the cauliflower eaten. In that same pince, two or three hundred years ago, wolves would soon have appeared to eat the deer within a few miles of the world's biggest city.

Why are there no wolves, but plenty of deer? Because deer help and warn each other. As fifty deer grane or browse, each deer has 100 eyes watching, 100 ears listening to protect him. Coyote Lineup Will Have Changes For Saturday's Game; Injuries **And Monthly Reports Are Causes**

With but a few players out with injusies, fallure to make grades and the like, Coach A. Y. McCallum is preparing his charges for the tilt Saturday afternoon with the Hast-ing Legionnaires. Baldwin is out with slight injuries, while some four or five Coyotes whose semi-monthly reports were not to the sat-lefaction of the high school faculty,

Turf experts rate Zev and My Own as the class of the three-year-old. There is one racehorse owner who disputes such an opinion. The individual is Cari Weidemann of Newport, Ky., who owns in Hemoriam, a son of McGee, and a near relative of the great Exterminator.

Weidemann believes his colt, in Memoriam, is the fastest trick in the world. Recontly in Memoriam worked a mile in better than one minute and 39 seconds with 140 pounds up, a remarkable feat. New Sensation Added to Case of Princess Elaine

NEW YORK, Nov. 2. (P)—A new sensation was added to the break between Princess Elaine Von Der Lippe-Lipsky, the former Mrs. Wendell Phillips, and her husband, Prince Nicholas Von Der Lippe-Lipsky, former page to the late coar of Russia, when Charles Lee Phillips, the princess' first husband whom she is alleged to shave asserted was dead, emerged from obscurity yesterday.

With the appearance of Phillips the prince announced he would sue for the anuniment of his marriage to the former Mrs. Phillips five months ago, charging fraud and deception.

deception.

Princess Elaine filed summons in a suit against her sister, Mrs. Gertrude Schroeder, charging her with being the "other woman" in the alienation of her husband's affections.

The Economy BAKING PO

Notice the uniform distribution of the gas bubbles — how high and evenly they rise. The same thing occurs in your bakings when you use Calumet. That's why everything made with it always raises perfectly. Its great leavening strength does it.

This test is made frequently by Calumet representatives—right in the dealer's stree. It enables the manufacturers to keep strictly fresh goods on the merchant's shelves at all times. It is your protection against using a leavener that has lost its original strength. It is a safeguard against failure on bake day.

When you buy Calumet you know it contains its original leavening strength - that it is freeh.

as easy to open as winding the clock

IF YOU ever put up fruits or vegetables yourself, you know that they must be truly airtight. A cover, even if it is on pretty tight, won't do. Only a truly airtight tin will keep things fresh.

Every shortening is a fat. If it is pure fat, without a "preservative" of course it will grow stale and finally even rancid unless it is in an airtight tin.

Snowdrift is packed in truly airtight buckets. When you open the bucket in your kitchen, you find Snowdrift as pure and fresh as the day it was made.

And the new Snowdrift bucket is easier to open than any other truly airtight tin we ever saw.

Widow of Croker Charges Estate Is Raided for Papers

NEW YORK, Nov. 2. (P)—Assert-ing, that a concerted attack was being made upon her by both sides of the Atlantic, Mrs. Buia Edmond-son Croker, widow of the la. Tam-

brought by the Croser shildren to contest the will of her husband, Mrs. Croker said she had been notid of an action brought by Joseph ingel, mayor of West Palm Beach d W. E. Magers, treasurer of the ocal Young Women's Christian Association, to compel the opening of a safe deposit box in a local bank alleged to contain Croker's last will. The bequests which the alleged will is said to contain. Croker's widow stated, are identical with the provisions of her own will made in November, 1919, and which she sub-sequently revoked. A transcript of this document, she said, had been roduced in court at the trial of the first will case in Dulin and un-doubtedly furnished the basis for the allegations of the West Palm the allegations of the West Palm Beach suit. It was also possible, she hinted, that the information could have been obtained from papers which might have been stolen from her home in Ireland.

Mrs. Croker is now in New York to defend an action brought by Hichard Croker Jr., in which she seeks to recover \$330,000 from the Croker estate as the result of an agreement alleged to have been made upon the partition of the property of Croker's first wife.

Calomel is the only medicine that will setually reach the liver, but ordinary calonel is so drastic that many have deprived themselves of its fine effects because of its harshness. This objection has been overcome in Pepsinated Calomel, Many who formerly could notake calomel are finding a most ac septable remedy in Pepsinated Calomel because it is English Calomel (which loctors recognize as the standard of participation of the country), treated with pepsin and other country), treated with pepsin and other country, treated with pepsin and all digestion. Many report that the use of Pepsinated Calomel unclose their systems of poisonous waste, brings back appetite, stuces duliness to disappear and makes hem "feel like new!"

Palace Drug Store and all reliable lengists recommend and guarannee regulated Calomel to bring relief between sundown and surup or your money refunded. Try it—we guarantee reall feel better tomorrow. (Adv.)

Driver of Fire Truck and Not City Is Liable

In a decision rendered Friday morning by Judge Guy Rogers of morning by Judge Guy Rogers of the county court at law, the driver of a fire truck, and not the city of Wichita Falls, was held liable for damages incurred in an accident in which the fire truck figured. The decision is based on a city ordinance which holds that the city cannot be sued for a tort.

Representatives of citizens on Monroe street called on Mayor Frank Collier Thursday and asked that the street be graveled as under present weather conditions, the atreet is impassable and residents experience considerable trouble is getting downtown from their homes,

The street was recently torn up and is being lowered or regraded and will be paved again. The rain interefered with the work and the ontractor had to abandon the until weather conditions permit the work to be resumed. According to City Clerk W. E. McBroom, the mayor explained that gravel was very expensive and it would cost considerable money for

RAINS INTERPRES WITH CITY GARBAGE SERVICE

Representing a group of citizens residing in the neighborhood of the 1600 block on Huff avenue, a man appeared at the city hall Friday morning and registered a complaint neighborhood during the last month. W. E. McBroom, city clerk, took the complaint and promised that an forestigation would he made. It is probable that the bad weather conditions during the last month have caused the poor service, Mr. Mc-Broom said.

FACTORY COVERING TEN ACRES TO MANUFACTURE **VARIOUS RIDING DEVICES**

In Leavenworth, Kansas there is a factory covering over ten area is a factory covering over ten area of land devoted exclusively to the manufacture of amusement devices and over three quarters of the space is used by the riding department. By this is meant such machines as Carousals or Merry-Go-Rounds and Ferris Wheels. Some of these de-Ferris Wheels. Some of these de-vices are experted to the Far East and to Central and South America but the biggest portion of the rides are built for parks, beaches and traveling shows like the Lachman Exposition Shows which comes to the Armistice Jubileo next week. In no other country are rides atronized to the extent they are in America. Every fair manager tries to book as many as possible for his fair because he recognizes the rest less spirit of the American who always wants to be in motion even though it may land him at the same place from which he started. In the Parker Factory at Leavenworth, a force of engineers and mechanics are constantly at work inventing or testing out the inventions that are brought to Mr. C. W. Parker. Thousands of deliars are thrown away every year in experimental

work.

One of the instances is that of the present popular and sensational ride that came to the fore this year. The Caterpillar. Three years ago the idea was presented to Mr. Parker and a machine built and placed in a park at Kansas City; it died a i death of slow starvation. The public gave it the once over possibly rode it once and passed on to The rode it once and passed on to The Whip, the ride with a "Kick," Mr. Parker did not even take the trou-ble to protect the fundamental idea. Last year another manufacture took the identical basic principle put a canvas covering over it painted to represent a crawling cater-piller and behold, the biggest sen-sation in the riding world in years. The Lachman Shows are bringing The Caterpillar, The Whip, a Sea Plane, Ferris Wheel and one of the latest models of the Parker Jump-lar Horse Caronnels to the Acceping Horse Carousale to the American Legion's Armiatice Jubilee next
