won the contest with an average waspeed of 265.6 miles an hour over the three kilometer course, although Brow on one leg of the flight traveled faster than ever man flew before, racing with the wind at the rate of 274.2 miles an hour.

Six times in the last three days the two fliers pitted against each other have smashed world's records. In the cantest yesterday Williams captured the record he had lost to Brow Friday, lost it again to Brow and recaptured it just as dunk was setting in. In his first flight he attained an average appead of 262 miles an hour. Brow a few minutes later surpassed this when he flew at the fate of 265.69 miles an hour over the same course, reaching on his final leg that he wind the phenomenal speed of 274.2 miles an hour. Williams again took the air and swooping from a height of 3,000 feet four times crossed the course for four times crossed the course for an average of 266.6 miles an hour.

Quaker Puffed Wheat and Quaker Puffed Rice are whole grains steam exploded. Over 125 million steam explosions are caused in every kernel.

The food cells are broken, so digestion is made easy and complete. The grains are puffed to airy globules, thin and flaky, with a taste like toasted nuts.

Thus whole grains are made enticing. People revel in them morning, noon and night.

They are served by the millions of mothers who wanttheir children to eat whole-grain foods in abundance. At breakfast with cream and sugar, between meals with melted butter, at night in bowls of milk.

Whole wheat supplies 12 minerals which growing children must have. It provides their need of bran. And milk supplies the vitamines.

Ruddy Cheeks - Sparkling Eyes - Most Women Can Have Says Dr. Edwards, a Well-Known Ohio Physician

Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, head-aches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets.

WE MUST RUN THE FURROW THROUGH.

"We have put our hands to the plow and we are willing to run the furrow through. Whether we like it or not, our lot now is east in with the other naons, to a very considerable extent."

These words are quoted from an address by Am-assador Herrick at the dedication of a monument to Americans and French who fell in the Champagne district during the world war. They are interpreted as being significant of a changed policy of the United States government toward European affairs.

The United States did have its hand to the plow and the plow in the furrow and the field was yet to be plowed, when because of lack of faith, the temporary abandonment of ideals, and, arrhaps, because there was plowing to do closer to home, this government not only did take its hand from the plow but took the plow from the field and went home. Auother ambassador to another capital in Europe ex-pressed the attitude that seemed to prevail when he exclaimed "We are jolly well out of the European mess." There may be some significance in the fact that the ambassador who gave utterance to that thought is returning to America to reenter private life and is to be succeeded by one who at one time, at least, thought it the duty of this government to keep its hand to the plow.

COTTON MARKET

New York Ceites

NEW YORK. Nov. s.—The cotton market opened firm at an advance of 5-points on October and of 18 to 32 points on the more attractive positions in response to higher Liverpool cables, reports of further rains in the south over Sunday and more favorable Manchester traits advices. December sold at 22.49 and March at 23.13, but there was a good deal of realising at these figures and prices essed off some 16 to 15 points from the beast during the early trading. Both Liverpool and New Orleans, will remain open for business tomorrow and the possibility of fluctuations in those markets, while New York is closed, probably led to evening up of scattering accounts here this morning. The early realizing carried the market off to 32.18 for December and 31.85 for March or about 5 to 7 points net lower. Buying for both foreign and domestic trade secount appeared to increase on this deciline, however, and the market turned upward again later on covering by early sellers or returning. December advanced to 32.38 and March to 22.30 making new high prices for the day and nat advances with Liverpool and continental connections were among the buyers.

The market was not so active as it was late last week, but showed increasing firmness during the middle of the afternoon on continued covering and trade buying. December sold up to 32.70 or 45 points net higher, while later deliveries made new high records for the geason with March seling at 22.47, making a net advance of 57 points.

NEW TORK, Nov. 5.—Stock prices fluctuated within narrow and irregular limits at the opening of today's stock market, but the line of least resistance still appeared to be upward. Some profit taking took place in the rails and such speculative favorites by Baldwin and Studebaker, which yielded fractionally on initial sales. Brooklyn Union Gas and Stewart Warner advanced 1 point edolt. point edch.

Heavy huying of Dupont, which advanced \$2 points, was the feature of the early dealings, Gains of 1 to 2 points also were recorded by Bayuk, American Chiele, American chiefered Bayuk, American Chicle, American Agriculturah Chemical preferred. Union Bag and Paper and Coca Cola. Baldwin and Studebaker recovered their early Josses and started for higher ground. and that they were weak because of the increasing demand for the low grades. This was regarded as hullish rather than hearish and a general buying movement resulted in the afternoon which carried all months to new high levels. December in the trading up to 1:30 o'clock rose to 32.48 where the list stood 65 to 74 points up het.

Cotion futures closed steady at net advances of 64 to 75 points.

"A few years ago a great German theologian wrote a book entitled.
What Is Christianity?" He beldly
asserted that the world has not fully understood or adequately expressed

the purpose of Jesus.
"Doubtless we would all agree that our complex theology and our onderous ecclesiasticism are not air manifestations of the message, and life of Him who were the seamrobe, washed His disciples' feet, spoke in terms so elementary understandable that the com-people heard Him. Gladly, little children climbed into His arms. ind friendless souls sought asylum in Him as a sure refuge.
"What is a Christian?"

"But a more intimate and impor-tant question to us is "What is a Christian" Is it merely one who be-Christian? Is it merely one who belongs to some religious organization? It is more than that. Is it one
who subscribes to a set of propositions, known as a creed? More
than that. Is it one who has a set
of plous habits such as Sabbath observance, prayer, Bible study and
testimony? It is more than that.
"What then is a Christian? Qur
anawer is in this parable. A Christian is one who is vitally joined to
Christ as a branch is joined to the
vine; one whose life is the life of

vine; one whose life is the life of Christ, whose will is the will of Christ; whose joy is the presence of Christ, St. Paul expressed it in these words: I live, nevertheless not I, but Christ liveth in me and not I, but Christ liveth in me and the life that I now live in the flesh, I live by faith in the Son of God who leved me and gave himself

Ensence of Christianity
"Stripped of all externals, the esclesias(ical system, or a creed or a set of pious habits, but a life lived with Christ in God, a life of faith, obedience, usefulness and joy.

"How may I accomplish the most good by my life? Not by singing a lovely song, writing a great book, preaching a great hermon, or making a princely gift, but by living a good life.

"While I concur in the prevalent demand for an unswerving loyalty to the cardinal doctrines of the Christian religion. I am convinced that if the modern world of thieving, lying, adultery, hate, scandal and murder is going to be saved it will be by preaching a great gospel plus living a great life.

The Light of Mes.

"Of Jesus John said, 'In Him was His and the life was the right of men.' From His perfect character there shot a ray of irridescent light across this world's unbroken night. While I concur in the prevalent

Not by profound thinking, no by sloquent sermons, but by great living is the medern world to be convinced of the claims of Jesus to supremacy. Better than ponderous nes on systematic theology is argument of a pure life of lov-service to God and humanity."
