Typewriter Ribbons - The Review

The use of prescriptions for the orderly dispensing of medicines has multiplied during the past few years. There is sound reason for this trend.

"On prescription" is the right way for you to acquire medicines. They will be exactly right for the condition being treated. Dosage and strength will be specified. Fine ingredients, such as the products of Parke, Davis & Company, and other manufacturers, will be used.

For your health's sake, see your doctor promptly when you are sick. Bring his prescriptions to our Pharmacy for dependable compounding service.

Beauty in motion-Chevrolet Bel Air Sport Sedan with Body by Fisher

## Here's why Chevy's best showroom is the road

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion-you have to travel in this one to know just how terrific it is. Try it, this week!
