SCHOOLS GET OFF TO GOOD START TUESDAY WITH AN ENROLLMENT OF 511 STUDENTS

Paul L. Whitton, Superintendent of Schools, announced that the local schools got off to a good start Tuesday morning of this week with a total enrollment of 511 students, to exceed last year's opening enrollment of 499. School officials stated that they are looking forward to one of the best years in the history of the local schools.

Ferrell Newton, high school principal, reported an enrollment of 180 students in high school for a loss of one student over last year's total of 181, and Jack Watkins announced that his enrollment stood at 331 in ward school for a gain of 13 over last year's total of 318. School officials stated that it is probable that still other students will enroll during the first week.

Enrollment by Grades

Newton and Watkins reported the enrollment by grades, as follows:

First grade	38
Second grade	44
Third grade	40
Fourth grade	49
Fifth grade	45
Sixth grade	36
Seventh grade	46
Eighth grade	33
Freshmen	47
Sophomores	48
Juniors	43
Seniors	42

School Improvements

Students and faculty members found the school plant to be in first class shape with a number of im-

provements made during the summer months. Chief improvement was the replacement of the entire gas distribution system in the high end ward school buildings. All old lines were abandoned and a complete new system installed according to Underwriters specifications. There are now no gas lines under the floors of the buildings. All lines encircle the buildings and enter the classrooms from the outside through the walls above the floors where even tiny leaks can be quickly detected and repaired.

Students in high school also found a completely new and modern science laboratory, completely equipped.

Supt. Whitton stated that a large crowd of parents were present for opening day and he invites all patrons of the district to visit the schools at their convenience.

County Counselor Hired

Whitton stated that he was happy to report that the County School Board has hired Justin V. Anderson as a counselor to work with all the schools of the county. He was at the local school Tuesday and Wednesday, meeting all high school students.

A graduate of TCU and veteran in education, his duties will include counseling with college choices and other educational problems, and he will also assist with achievement and IQ test and will also give student guidance following the test.

FIRST BAPTIST CHURCH CONGREGATION HOLDS GROUND-BREAKING CEREMONIES

Roland Howell Purchases Red & White Grocery

In a full page advertisement appearing on another page of this edition of The Review, Mr. and Mrs. Roland Howell announce that they have purchased the Red & White Super Market from Mr. and Mrs. M. E. Howell, and are now in charge of the business.

While both families have the same name, they are not related, but both have been residents of this city for some time. Roland Howell served as band director in the local school several years ago and more recently was engaged in the floral business in the building now housing the Hornsby Electric Co. His wife is the former Johnnie Frances Baldwin, daughter of Mr. and Mrs. W. B. Baldwin, residents of this city and veteran business people here.

Mr. and Mrs. Howell have one son, Max, who is an eighth grade student and a hired hand in the store on Saturdays and after school hours. They have been making their home in Richmond, Va., for the past couple of years, and returned here some two weeks ago. They are now at home in the Mike Cook residence on North Ave. D.

The new owners will call their store Howell's Super Market and pledge patrons the best prices possible and highest quality products together with friendly, courteous service. Johnny Baugh will continue to serve as manager of the market department and he joins the new owners in extending the public a cordial invitation to visit the store and give them a trial.

Mrs. Peyton Smith visited with her mother Thursday and Friday or last week in Copperas Cove.

Mr. and Mrs. D. H. Butler and family of Temple visited here over the holidays with her mother, Mrs. Alice Younglove, and with other relatives.

WOPHER FINDS SUMMER HAS GONE ISN'T WONDERING ABOUT IT NOW

that the world is any safer now than it was in the spring. This isn't to say he shouldn't have done what he did, it's just to say that there are two ways of handling a summer, one is to rush through it, the other is to let it do the rushing.

I've always contended you get the same pleasure sitting in a stream and letting the water rush by you as you do thrashing through the water, and it's a lot less energetic.

The difference between me and a lot of people is that they try to accomplish what they set out to do, whereas I set out to do only what I accomplish. And the end of the summer comes to both of us, regardless.

As far as I'm concerned, it was a pretty good summer, and anybody who's waiting for the world to settle down before he starts enjoying the seasons might as well throw his calendar away entirely.

As for the fall, I'm looking forward to that too. I know fall is supposed to be the time when a man renews his efforts, when his energy surges forward, but with me, and a lot of people I think, it's only a time of renewing thoughts about work, not doing anything about it. I intend to work this fall all right, but I don't intend to let it work me.

Yours faithfully,
J. A.

Mary Scott Wins Trophy And Two Medals At The NBT Contest Saturday

Mary Scott, daughter of Mr. and Mrs. Jack Scott of this city was in Austin Saturday of the past week to participate in the annual contests of the National Baton Twirling Association, and came away a winner in three divisions.

She won a trophy as first place winner in strutting and also collected two medals in other divisions of the contests.

Mary served as drum major of the Buffalo Band here during her junior and senior years in high school and has been a perennial winner in all area contests. A graduate of last year's class, she will enter McMurry College in Abilene this fall, where she will be a member of the Maidenettes, featured twirlers with the McMurry Indian Band.

Farm Bureau to Sponsor Meeting Here, Sept. 11

The Callahan County Farm Bureau will sponsor a meeting of the legislative policy developing program in the Cross Plains High School cafeteria Thursday night, Sept. 11, beginning at 8 o'clock.

The last program of this type was held in the cafeteria building at Eula and, according to Farm Bureau officials, was well attended.

Every Farm Bureau member and their families are urged to attend and are asked to bring their neighbors.

Similar programs will be held in other communities in the county, and dates of these meetings will be announced later.

FARM EMPLOYERS MUST PAY SOCIAL SECURITY

Any farm and ranch employer who pays \$50 or more to a laborer or who hires a farm hand 20 days or more during a year must pay social security taxes on the wages involved, according to Cliff Bates, extension farm management specialist.

For the \$150-a-year test, Bates says the cash wages for both piece-rate and time-rate work count. The total number of days worked does not matter so long as the employee is paid \$150 in cash by the employer in the year.

For the 20-day test, the total amount of cash wages does not matter so long as the employee works for one employer 20 days or more for cash wages based on some unit of time, such as an hour, a day, or a week.

Bates points out that it is not necessary that cash wages paid to the worker be earned during one continuous period. Wages paid to children or to parents of the employer are not subject to the tax. Records of each worker's earnings along with his social security number should be kept, advises the specialist. The farmer must withhold \$2.25 from each \$100 of wages paid and then must match this amount. This tax must be paid by the employer during January of the following year. However, if as much as \$100 in taxes, including the employer's portion, becomes due the Government, the employer must send in a report earlier. Remittance must be made within 15 days of the end of the month in which this amount of tax was accumulated.

Farmers who employ laborers should have an employer's identification number. This can be obtained by filing application form SS-4 with the District Director of Internal Revenue Service. More strict enforcement of these requirements has been announced by District Directors recently. More information can be obtained by contacting the nearest Social Security office, or by ordering OASI-35 from the Social Security Administration. County agents also can help.

The Cross Plains Buffaloes will journey to Baird Friday night where they will tangle with the Baird Bears in the opening football game for both schools this season.

The Bears have not been able to defeat the locals in the past several years. But the Bear eleven lost only three members of their bi-district champion team of last year, and the Bears will be out to avenge their 19-9 defeat at the hands of the Buffs last year. According to head coach Bill Gunn, "Baird has a real good team this year." On the Buff side, 11 returning lettermen show somewhat

Terry Watkins Enrolled At U. S. Naval Academy

ANNAPOLIS, Md.—Enrolled as a midshipman of the Fourth (freshman) Class at the U. S. Naval Academy at Annapolis, Md., is Terry A. Watkins, son of Mr. and Mrs. Jack Watkins of Rt. 2, Cross Plains.

Watkins attended Howard Payne College, Brownwood. He entered the academy on a Congressional appointment, and was sworn in as a midshipman on June 30.

Members of the "plebe" class are scheduled to be graduated in 1962 and are now receiving intensive indoctrination in advance of the regular academic year which begins in early September.

He says he's finding many folks who miss out on some retirement checks because of the mistaken idea that all work must stop before any social security checks are due.

So, local readers with sufficient birthdays and a couple of years or more of social security credits should plan now to see Mr. Vaden here at the City Hall at 9:30 a.m. Tuesday, Sept. 2.

DON'T MISS OUT ON SOCIAL SECURITY PAY AT RETIREMENT AGE

If you've reached retirement age (65 for men, 62 for women), C. M. Vaden of the Abilene office of the Social Security Administration wants to see you on his next trip here—provided you have some social security credits on your record.

He says he's finding many folks who miss out on some retirement checks because of the mistaken idea that all work must stop before any social security checks are due. TURKEY CREEK WATER DISTRICT CREATED BY COMMISSIONERS; DIRECTORS NAMED

The Callahan County Commissioners' Court, meeting in called session at the Court House in Baird, Friday morning of last week, conducted a public hearing on a proposal to create a Water Control and Improvement District on the watershed of Turkey Creek in this area of the county.

After public discussion of the proposed district, in which no objections were raised, the court voted unanimously to create the district and named a temporary board of directors until such time as an election can be held and a permanent board named and the district is confirmed by a vote of resident landowners within the district. Arlie Breeding, W. A. Gill, Charlie Coats, Mark Adair and Edwin Baum were named directors by the court.

Board is Organized. The board met in the City Hall here Monday night of this week and were joined by the directors of the Brown County District in an organizational meeting.

Edwin Baum was elected chairman of the Callahan County District, Mark Adair was named vice-chairman and Arlie Breeding, secretary. The Brown County Board named the following officers: Earl Fife, chairman; Lowell Newton, vice-chairman; and George Wright, secretary.

Purpose of the two water districts is to perfect an organization to comply with Federal regulations in orders that an extensive flood control plan can be carried out on the watershed of Turkey Creek, from the headwaters, north of Cottonwood to the Pecan Bayou, south of Cross Cut. Ratification of the two districts by vote of resident landowners will make them eligible for approximately \$750,000 in Federal Flood Control funds to be spent in the construction of nine or more flood retention dams on Turkey Creek and its tributaries, along with some channel improvements, at no construction cost to the districts.

Directors of each district voted to set Saturday, Sept. 27, as the date for confirmation elections. Only the land-owning residents living within the districts will be qualified to vote on the propositions. Polls will open at 8 a.m. and close at 7 p.m. and voters will ballot at the school building in Cross Cut and the City Hall in Cross Plains.

Meeting is Scheduled. Directors of the Callahan District have scheduled a public meeting to discuss the creation of the district and the proposals to be voted on. The meeting will be held at the Cottonwood Community Center Thursday night, Sept. 11, starting at 8 o'clock, and all interested citizens of this area are extended a cordial invitation to attend and hear the discussion, which will be led by directors and technicians of the Soil Conservation Service.

the strength of the Buff grid squad. Other members of the Buffalo 34 man squad strengthen the team considerably.

Probable Buff Starters
The probable starting line-up is as follows: Ends—Grady Scott and Bobby Golson; tackles—Tommy Adams and Perry Jennings; guards—Johnny Pancake and James Merrill; center—Doyle Oliver; quarterback—Bill Mayes; halfbacks—Claude Beeler and Norman Vaughn, and fullback—Don Hargrove.

Buff Injuries
Injuries have again this year begun to plague the local gridmen. Promising fullback Jim Fleming suffered a shoulder injury in a practice scrimmage session with Early High Monday. According to Coach Gunn, Fleming will be sidelined for about three weeks. Audrey Gary, last year's starting fullback; Charles Neeb, last year's starting quarterback; and Phil Harris will be sidelined for the entire season because of injuries received during the season last year.

Game time is set for 8 p.m. until Oct. 15 when the starting time will be stepped up to 7:30 p.m.

HOSPITAL NOTES

Mrs. J. W. Dunlap has been a patient in the Rising Star Hospital for several days. Mr. and Mrs. Sam Forehand of Fort Worth were here during the week end and Mrs. Forehand remained for a longer stay to help care for her parents. Mrs. Garvis Boyle of Coleman is also helping with her parents.

Dan Johnston was released from the Rising Star Hospital the latter part of last week, following surgery, and friends will be glad to learn that he is recovering nicely and is able to be out again.

Mrs. J. M. Matthews, mother of Mrs. Joe Fleming, has been a patient in the Rising Star Hospital for several days.

Mr. and Mrs. J. C. Bowden spent the week end at home from Scott & White, where Mrs. Bowden has been a patient in the hospital for some time, following surgery. The Bowdens returned to Temple Tuesday, where Mrs. Bowden will undergo further treatment.

Myrtle Davis was released from Memorial Hospital in Brownwood Wednesday of last week and is now at the home of her sister, Mrs. O. R. Warnock, at May. Her many friends here will be happy to learn that she is recovering satisfactorily, following major surgery.

CARD OF THANKS
I am so grateful to the many friends who remembered me in so many ways during my stay in the hospital. Your visits, cards, letters, flowers and gifts were appreciated much more than words can express. MYRTLE DAVIS.

Ernest Washburn was a business visitor in Abilene Tuesday.

Mr. and Mrs. Dave Ingram and Mr. and Mrs. Boyd Luttrell attended the McDonnell reunion at Buffalo Gap Sunday.

Mr. and Mrs. V. L. Hobby visited in Sweetwater over the week end with Mr. and Mrs. H. S. Stephenson and family.

Now's A Good Time to Check on SS Money

Workers and self-employed people are encouraged to check their social security accounts at least once every three years according to R. R. Tuley, Jr., district manager at Abilene.

This may be done easily with a pre-printed and addressed postal card furnished free of charge by all social security offices. Just insert your own name, social security number, date of birth and mailing address before signing, stamping and mailing the card to the central accounting office in Baltimore, Md.

Tuley pointed out that each person should make sure his account is correct because the amount of future benefits to him or his survivors is based on the wages or self-employment income posted to his social security account. If an error or an employer's failure to report wages is discovered within three years, quick corrective action can be taken. After three years, it is more difficult and sometimes impossible to correct an account because of the statute of limitations and other factors.

The Social Security Administration maintains approximately 125 million separate individual accounts and has an index of nearly five million employers. Most of the huge job of posting all the accounts is done by advanced automation techniques. The postings of these accounts are almost fool-proof, Tuley stated, but sometimes an employer fails to report some wages or reports them under an incorrect social security number. Also, self-employed people occasionally report their income under an incorrect number or even without a number. Any of these might cause an error in an account.

Since so much depends on your account being correct, you should keep a record of your income each year and check your account regularly to make sure it is correct. The handy card for doing this may be secured by writing the Social Security office, Abilene, Texas.

Special finishes now being used on many fabrics create a problem in removing stains. The best rule to follow, according to the USDA Agricultural Research Service, is to look for directions regarding use of bleaches on the garment. If none are given, avoid use of chlorine bleaches on fabrics with special finishes.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex.—Texas' 56th Legislature, though not yet sworn in, already casts a long shadow over Statehouse activities.

Its membership was settled—or virtually settled—with the counting of the Democratic second primary votes. A few will have Republican opponents in November.

Of more interest now is how the 56th will lean on key issues. Political prophets already are taking pulse readings and pronounce it likely to be more liberal than its predecessor. But not predominately liberal. A big influx of newly-elected liberals from Houston is ex-

pected to be offset by Dallas conservatives, plus others from small towns.

On next session's crucial issue—finance—everyone's crystal ball seems a bit cloudy. Next Legislature will have to grapple with a financial deficit which the Legislative Budget Board has predicted may call for as much as \$140,000 in additional tax revenue.

Winning candidates, in both their speeches and newspaper announcements, were understandably skittish and unspecific in making specific proposals for dealing with this gigantic problem. Many came out flatly against a general sales tax

or state income tax. Numerous suggestions were made to balance the budget through "economy in government, elimination of waste, duplication," etc.

Such statements are like the breeze off an iceberg to state departments, many of whom have said they'll be asking for more, not less money, next session.

When the showdown comes, decisions will be made largely by the same group who pushed the voting buttons in '57. All told, there'll be 49 new faces among the 181 lawmakers.

Replacing the three retiring senators, Ottis Look of Lufkin, Searcy Bracewell of Houston and Carlos Ashley of Llano will be Martin Dies Jr. of Lufkin, Robert W. Baker of Houston and Louis Crump of San Saba.

House will have 46 freshmen, slightly less than the normal one-third turn-over of its 150 members. Changes result from the retirement of 33 representatives, defeat of 13 others.

MANGLED MATH—When the next speaker of the House of Representatives takes office in January, some confused arithmetic will be cleared up.

A speaker is elected at the start of each regular session by the 150 House members. Support, in the form of signed pledges, is lined up well in advance of the session's start.

This year, when the dust settled from the run-off primary, both contenders claimed victory. Rep. Waggoner Carr of Lubbock, present speaker, said he had 80 pledges. Rep. Joe Burkett of Kerrville claimed 77 pledges. In addition, Burkett said he knew of 15 House members who had made no pledges.

All the claims added to 172 representatives—22 more than the people elected.

BIG DAY DUE—San Antonio, site of the Alamo, may see another luster Tuesday (Sept. 9) when Texas Democrats of widely varying sentiments gather for state convention.

No one is making any ironclad predictions on what will happen, but pre-convention rumblings promise at least some of the usual fireworks.

A group of conservatives are working on ways to bounce the militantly liberal Mrs. Frankie Randolph from her post as national committeewoman. Having the chairman of the Democrats of Texas and leader of the opposition to state party leadership in the prestige-laden national committee post is hard to take.

But removing a national committee member offers difficulties, too. A state convention merely nominates the national committee members; actual election is by the na-

NOTICE OF CONFIRMATION AND PRELIMINARY BOND ELECTION OF BROWN COUNTY TURKEY CREEK WATER CONTROL AND IMPROVEMENT DISTRICT NO. ONE

Pursuant to an order of the Board of Directors of the Brown County Turkey Creek Water Control and Improvement District No. One dated the 1st day of September A. D. 1958, NOTICE is hereby given that an election will be held on the 27th day of September A. D. 1958, the same being the fourth Saturday in September 1958, within the said Brown County Turkey Creek Water Control and Improvement District No. One for the purpose of confirming the organization of the District by a vote of the qualified resident property taxpayers of the said District.

At the same time and on the same ballot there shall also appear the following proposition:

"A proposition to authorize the Directors of the Turkey Creek Water Control and Improvement District No. One to issue bonds for the purpose of defraying expenses connected with the organization of the District in the sum not to exceed \$3,000.00 and to bear interest at a rate not to exceed six per cent per annum, and to be due and payable not to exceed ten years from their date."

"For said Proposition"

"Against said Proposition"

The polling place shall be at the school building in the community of Cross Cut in Brown County, Texas, and the officers of the said election are hereby named and designated as follows: E. W. Pyle, presiding judge; Lowell Newton, assistant judge; E. C. Byrd and George Wright, clerks; and the polls at said election place shall be open at 8:00 o'clock a.m. and shall not close before 7:00 o'clock p.m. (Signed)

E. W. Pyle, President
Brown County Turkey Creek Water Control and Improvement District Number One.
Published Sept. 4, 11, 18, 1958.

Liberal delegates and supporters of Sen. Ralph Yarborough are expected to fight hammer and tongs against a Connally drive. Connally was a strong supporter of William Blakley in his Senate race against Yarborough and headed Gov. Price Daniel's precinct convention fight against the DOT.

TOO "GENERAL"—Alumni of East Texas State College are asking help in untangling conflicts over a new program at the Commerce school.

At issue is the value of a "general studies" program instituted by ETSC President Dr. James Gee. Revised curriculum substitutes a course in "communications" for freshman English, "heritage" for American history, and so on. A professor who had taught some of the "general" courses called them a "hodgepodge," comparable to grade school work.

Dissatisfied exes meeting in Austin asked Sen. Charles Herring, Senate investigating committee chairman, to look into the situation. Herring said he would bring it up at the committee's next meeting, but urged the exes to talk first with the college's Board of Regents.

FACULTY RAISES ASKED—Salary raises for faculty members are the principal item in a \$12,515,000 budget increase being sought by Texas' 13 state colleges and universities.

Texas Commission on Higher Education said the \$4,000,000 being asked by college officials would allow for average raises of \$600 per year per prof.

Altogether, the colleges' budget requests to the Commission total \$68,721,975 for the 1960-61 biennium.

Commission's task is to screen these requests and make up a recommended budget to present to the Legislature.

SHORT SNORTS—State Board of Water Engineers has scheduled a hearing for Sept. 18 on the proposed Diablo Dam on the Rio Grande River. Gov. Price Daniel has proclaimed September and October as "American heritage months," a period in which people are to be encouraged to vote on an informed basis and contribute to the political parties of their choice.

Mr. and Mrs. V. C. Walker and Mr. and Mrs. Mack Childers visited in Springtown a few days last week with Mr. and Mrs. C. L. Browning and family.

The Irvin Purvis family of Mobile, Ala., recently returned home after visiting here for several days with his mother, Mrs. Rosa Purvis, and other relatives. Mrs. Rosa Purvis accompanied them home for an extended visit.

THIS IS NEWS!
it's
2 FOR 1
New FRIGIDAIRE
Refrigerator-Freezer

and it never needs

DEFROSTING
it's Frost-Proof

Now — a Freezer Compartment that never needs defrosting. No more dripping, dirty frost water — no more spill or mop-up. No more frost-lacked packages and trays — because there will never be any frost to defrost — in this patented Frigidaire Frost-Proof Refrigerator-Freezer.

How does Frigidaire do it? By an entirely new kind of cold that whisks away heat and moisture — out of the freezer forever — so frost can never form. Food flavors and vitamins are locked in by perpetual below-zero cold.

And up in the refrigerator compartment, all foods are super-chilled with Frigidaire "Flowing Cold" — yet, here too, there's never any frost to defrost.

In every detail, it's the world's finest food keeper — from its new Shear Look styling to its mammoth 133-pound Freezer Chest, with In-a-Door Ice-Ejector that serves you sparkling-dry ice cubes by the score. See Frost-Proof Freezing at your Frigidaire dealer's. So amazing you won't believe it until you see it.

Special prices on all Frigidaires during this month. You will want to see this Frigidaire Refrigerator-Freezer that never needs defrosting. Come in soon!

In ordinary freezers, food packages and ice trays are all too soon covered by frost and ice that hide labels — cause sticking.

In Frigidaire Frost-Proof Freezer, after months or even years, packages and trays stay clean and free of frost, are easily removed.

Work Break Important to Farmers, Says Expert

A "break" in morning and afternoon work hours is as important to farmers as to city workers, according to the Texas Farm and Ranch Safety Council.

In fact, these "breaks" in work routine can prove especially important in this day of farm mechanization because they reduce the possibility of accidental deaths and injuries and improve work efficiency as well.

The farmer who just can't spare the 10 or 15 minutes required to get off the tractor, walk around or maybe have a snack or something to drink in mid-morning or mid-afternoon, should be reminded that recent accident studies indicate the highest percentage of farm accidents occur during the late morning and mid-afternoon hours.

Farm wives can help, too. They can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

There is another angle to the work break idea, too. This gives mothers an opportunity to take children to the field to watch their fathers operate the machines they find so fascinating. This is the safe way of satisfying the children's curiosity and makes a much anticipated event in the daily life of the youngsters.

So, why not follow the advice of the Texas Farm and Ranch Safety Council and take time out for a mid-morning and mid-afternoon break. It can pay off in safety, pleasure and efficiency.

Big Changes Occur In Nation's Agriculture

Agriculture has a highly shifting nature—big changes are in store and many have already occurred, according to Alvin B. Wooten, extension economist.

For example, U. S. farm population dropped nearly two million persons in 1956—an all-time record drop for any single year, says Wooten. But "while numbers are decreasing, farm size is increasing. Since 1940, average farm size has increased 40 per cent and investment per farm has shot up 300 per cent (even inflation is allowed for). Farm land values have risen 40 per cent in the last seven years.

Only 12 per cent of the population is engaged in farming, says the economist. This means 12 per cent of the population now provides the raw material to feed itself and the remaining 88 per cent. In colonial times, more than 85 per cent of the nation was engaged in farming.

In 1950, only 30 per cent of farm people were working at off-farm jobs. In 1956 this figure had risen to 40 per cent.

In 1950, 17 per cent of farm wives had off-farm employment. In 1956, 28 per cent were so engaged. This was the largest increase of any occupational group.

In 1957, Wooten points out that 2.1 per cent of the nation's farmers produced 33 percents of all farm products and half of the farmers produced 90 per cent. Thus, 50 per cent of U. S. farmers produced only 10 per cent of the total farm production.

The farm population is also getting older, he says. Since 1950, the largest decrease in farm population has been in the 18-to 44-year-old group.
