CARD OF THANKS

Words are inadequate to express our deep appreciation to many kind and sympathetic friends and neighbors who helped during the long illness and death of our beloved daughter and sister, who we like to thank who sat up at night and fed us. We appreciated the care and attention of Mrs. Dennis and Rev. W. Anderson for their many kindnesses.

In time of great sorrow friends such as you that lift our burdens lighter. Blessed is our prayer.

The family of Mrs. Mrs. D. H. Winsett.

Mrs. C. L. Browning of town and Mrs. Don F. children of Weatherford in the V. C. Walker for the week end.

greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: "... the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

bigger brakes

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NASCAR*-conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

*National Association for Stock Car Advancement and Research.

award-winning engines

The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines... for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy esta! s a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

higher trade-in

N.A.D.A.* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.

Advertising Doesn't Cost It Pays!

Big Losses from Careless Hauling of Livestock Cost

Careless hauling and handling of livestock can cost producers a lot of money, says U. D. Thompson, extension animal husbandman. A recent USDA study shows the loss from careless hauling of livestock amounts to about \$100 million annually for the nation.

Four major causes account for most of this loss, says Thompson. First, almost a fourth of all trucks hauled either too many or too few livestock. Animals shouldn't be crowded but the load needs to be fairly snug to avoid shifting. Marketing agencies and most truckers have charts which tell how to load

according to type of animal and available floor space.

Second, only half of the loads were partitioned by type of animal. Horned cattle were seldom partitioned, resulting in much bruising and crippling. Partitions need to be put up between animals of different sizes and types, the husbandman says.

Third, almost 30 percent of the trucks had little or no bedding, leaving the danger of animals slipping or falling. Floors need to be "slip-proofed" with sand, shavings or sawdust, and a straw covering should be used to absorb moisture.

And fourth, the animals weren't handled properly when loaded and unloaded. Some truckers and farmers use clubs, shovels and sticks.

More than half the hogs and a fourth the cattle were mishandled as a result. Thompson says the only proper way to urge livestock along is with canvas slappers or electric prods, as clubs will injure the flesh.

In order to avoid losses, Thompson urges growers to make sure their livestock are hauled by reliable truckers. And be on hand when your cattle, hogs or sheep go into and out of the truck. Until sold, it's still your livestock. Producers eventually pay for these injuries, despite hauling insurance, he adds.

Ballads, or stories told in song have been popular since medieval times.

The term, ballot, meaning "little ball," stems from classical Greek jury practice. White balls meant acquittal, black balls, banishment.

The first 18-hole golf course in the U. S. was opened in 1893 at Wheaton, Ill. It was designed for the Golf Club, according to the Encyclopedia.
