Victor Moore Honored With Party on Eighth Birthday

Victor Moore was honored with a party celebrating his eighth birthday at the home of his grandmother, Mrs. Pearl Moore, Friday afternoon of the past week from 4 to 5:30 p.m. Victor's mother, Mrs. Bob Moore assisted with the entertainment.

The eighteen guests present enjoyed outside games before being served refreshments of ice cream, cake, candy and popcorn. Favours were balloons.

After the gifts were opened, the guests returned to their homes.

Joe McNeel, Darwin Breeding, Charles Neeb and Danny McCarty, all students at Texas Tech in Lubbock, visited at home during the week end.

County Agent's Notes

By GLEN W. GREEN
Callahan County Agent

A light frost on Sunday morning reminds us to watch out for prussic acid poisoning which is very dangerous to livestock. Johnson grass and sorghum after a frost is sometimes extremely high in prussic acid content. Certain chemical changes occur in the plant when wilted by frost or drought and the prussic acid or hydrocyanic acid content is developed. The poison acts quickly and can kill an animal within a short time after the damaged plant is eaten.

An appearance of nervousness, difficult breathing and difficulty in standing are symptoms of the poisoning. Whether a poisoned animal can be saved depends upon how quickly a veterinarian can get to it. Treatment involves injecting antidotes directly into the blood stream.

Young plants will develop more prussic acid after frost or drought than those approaching maturity. Their leaves will contain from 3 to 25 times more acid than leaves of plants in the boot stage. Also, upper younger leaves will contain more acid than lower leaves.

Dr. C. M. Patterson, Extension Veterinarian, cautions against grazing Johnson grass or sorghum before it is completely dry. If Johnson grass or sorghum is ready to cut for hay before a frost, it may be cut the first day after frost, if care is taken to see that it is completely cured before bailing.

Turkeys, pork and cranberries head the list of plentiful foods for November as reported by the Texas Agriculture Extension Service. Other plentiful in Texas are broilers and fryers, lard, apples, potatoes, sweet potatoes, onions, almonds, filberts, rice, lamb and dried beans. There are some nice sweet potatoes in the Clyde and Cross Plains areas.

"Quick Meals" is the title of a new bulletin, Number B-927. It looks like a good one. Pick up your copy at the County Agent's office. There are also new bulletins on Farm Fish Ponds and on Fertilizers and Their Use which are available at the County Agent's office.

Jo Barrett Is Wed to Claud Champion In Church Rites

Beverly Jo Barrett and Claud Leo Champion were married Friday, Oct. 16, at 7 p.m. in the chapel of College Church of Christ in Abilene, with Melvin Placke, minister of Bronte Church of Christ, officiating for the double ring ceremony.

The bride is the daughter of Mr. and Mrs. O. B. Barrett, of Abilene, and parents of the bridegroom are Mr. and Mrs. Calvin Champion of Cross Plains.

Best man was Glen Dale Champion, brother of the bridegroom. Mrs. Wyman Early, matron of honor, wore a blue sheath with net overskirt and carried white carnations.

Given in marriage by her father, the bride wore a ballerina length gown. The bodice of lace over tulle featured a scalloped Sabrina neckline trimmed with sequins and seed pearls and long sleeves.

The full skirt was accented with a lace peplum and large lace bow in back. A small hat of seed pearls held her fingertip veil. She carried a bouquet of white gardenias and white rosebuds.

A reception followed at the home of the bride's parents.

For a wedding trip to San Angelo, she wore a grey suit and black accessories.

The couple will reside at 5441 N. 9th St. in Abilene. The bride attended Abilene schools and Roscoe High School.

The bridegroom is a 1958 graduate of Cross Plains High School and is employed by B. G. Brown and Co.

Dwayne Wilson, Morris Ray Cavanaugh, Lester King, R. S. Peavy and Eulless Parker are expected home the latter part of this week from Mango, Colo., where they have been hunting the past week.

Mrs. Bertha Smith, Mrs. Maggie Fox and Mrs. Nettie Wilson spent a very enjoyable afternoon with Mrs. W. R. Gibson at Pioneer Monday. Mrs. Gibson served refreshments of sandwiches and pears.

HE IS BEST OF ALL MEN WHO FOLLOWS GOOD ADVICE

(Author's Name Below)

It is amazing how many people are quick to offer health advice. Without any study or knowledge, they tell you what you should do or take when you are sick. Thoughtless friends are sincere but unfortunately there are many opportunists. Some door-to-door peddlers and sharp mail order promoters consider profits more important than the good their products will do.

Wise men know the only person capable of giving good advice about how to treat sickness is a physician. They also realize when they obtain medicines and health aids from a pharmacist pledged to consider health more important than immediate great profits, they are always safer.

A Present For Thrifty Nephews and Nieces

State Capital NEWS
By Vern Sanford

Austin—Though it hasn't any Los Angeles-type smog or London "pea supers," Texas, in common with most of the civilized world, has "dirty air" problems.

Industrial smoke, automobile exhaust, incinerators - even small town cotton gins - are among the factors that pollute Texas air.

State Health Department is using the approach of Cleaner Air Week, October 25-31, to remind Texans of the importance of the air they breathe. During one day, says the Department's October bulletin, a person must breathe 30 to 35 pounds - or a whole roomful of fresh air.

Texas by no means has the problems of the cities like London where in 1952 several thousand died during a period of excessive air pollution. But, says the Department, "the problem is already present and growing in areas where no action is being taken."

Every citizen can help, says the Bulletin. Improper heating appliances in homes give off tons of uncombusted material and burning of leaves and trash in the back yard adds irritating agents to the air.

If you are especially interested in the problem, the Bulletin suggests you contact your local health department which will advise you where the air pollution abatement group in your area meets.

How Much Tidelands - Texans

now await a decision by the U. S. Supreme Court on how much of its tidelands the state owns.

U. S. attorney general claims the state owns a strip only three miles out from the coast. Texas officials say it is three leagues, or 10 1/2 miles.

That Texas owns some tidelands was established by a 1953 act of Congress giving states control of their submerged lands to their "historic boundaries."

Gov. Price Daniel and Texas Atty. Gen. Will Wilson argued before the high court that a historic boundary of three leagues had been established in the day of the Texas Republic and was agreed to by the United States.

Opposing federal argument is that the U. S. has insisted on a three-mile limit for all countries for many years as a matter of "national policy."

Texas's oil bearing tidelands, particularly those further out, are believed to be worth many millions in revenue for the state public school fund.

Straws In The Wind—Indications keep piling up that a special Legislative session to raise teacher pay and a third-term race by Governor Daniel are strong possibilities.

Letters favoring the teacher pay session are greatly increasing, according to the governor's office. A representative of the Texas State Teachers Association said teachers are not "cooling off" in their drive and are not planning to wait until 1961. Several union labor groups have endorsed teacher raises and offered to help in the drive.

A recent State Democratic Executive Committee newsletter notes Daniel's popularity in polls and quoted him as planning "to keep the door open."

Which probably means the governor will keep the political pot in simmering suspense until very near the Feb. 1 filing deadline.

First Water Loan—Texas Water Development Board has made its first loan under the \$200,000,000 program passed by the Legislature in 1957.

Lower Nueces River Water Supply District received \$3,000,000 which will be used to complete the \$21,000,000 Wesley Seale Dam.

Under the program, the Development Board sells bonds and loans money to local governments to pay part of the cost of water conservation projects. Program is self-liquidating. Board is presently paying 3.56 per cent interest on the bonds and charging 4.06 per cent on loans.

White River Municipal Water District in West Texas is expected to receive the next loan. It is seeking aid for a \$4,000,000 project to supply water to Crosbyton, Post, Rails and Spur.

School Support Problem—Gaining public support for schools will hinge on how well schools adapt to new demands, State Commissioner of Education J. W. Edgar warned school leaders.

Dr. Edgar told the Texas Association of School Boards of new curriculum changes, including beefed-up high school mathematics courses, now being tested in Texas schools.

School board members noted that, despite the hue and cry for better schools, a winning football team still get more public support than anything else.

Education Expansion Studied.—Whether the University of Houston should be brought into the University of Texas system is under state study.

Texas' Commission on Higher Education ordered staff study of the question directed to it by a resolution passed this year by the Legislature. At present the University of Houston is a private institution that receives state aid only for the first two years of its four-year program.

Houston proponents for the plan claim there is an increasing need for making college education available in Houston for that city's ever growing numbers of high school graduates. It is estimated Houston high schools will be graduating 15,000 students a year by 1975.

Commission Director Ralph Green has noted, however, that there is some "public alarm" over the expansion of public education and the shrinking of private education. He said the staff study would be completed by the latter part of 1960.

San Angelo citizens, meanwhile, have started activity toward getting San Angelo College admitted into the state's circle of fully supported state institutions. A visit to the institution has been scheduled by Green and Sen. Dorsey Hardeman, in whose district the college is located, for next month.

Colleges Paying More—Texas' 18 state-supported colleges are paying an average of \$433 a year more to its teachers this year than last. Their salaries for teachers now average \$6,320, according to the Commission on Higher Education.

Commission Director Ralph Green said the pay levels are now 30.5 per cent higher than the average five years ago.

Widest range of salaries is at the University of Texas. Top pay there is \$16,000 for nine months, \$10,392 average for full professors, \$4,551 average for instructors.

HERE'S WHAT MAKES the CORVAIR REVOLUTIONARY

Short and sweet! Engine's in the rear—where it belongs in a compact car. With more weight on rear wheels, you get extra road-gripping traction for cornering and driving on ice, mud or snow. Also, by avoiding nose-heaviness of front-engine compact cars, Corvaire handles easier, brakes better, rides smoother. Styling of both 4-door models is clean and uncluttered . . . as fresh and functional as modern architecture.

Unpack Power Team

Engine, transmission and drive gears are neatly wrapped in one lightweight package. Takes less space, leaves you more.

UNIBRUT BODY BY FISHER

Body and frame are combined into a single rigidly constructed unit that reduces Corvaire's weight, enlarges its passenger space.

Practically FLAT FLOOR

Corvaire is America's only compact car with a virtually flat floor that gives you full 6-passenger comfort. For extra space, folding rear seat converts easily to make room for 17.6 cu. ft. of cargo.

TRUNK'S UP FRONT

Lots of luggage space under the hood, where it's convenient for groceries, packages.

NEARLY 3 FEET SHORTER

Corvaire's almost 5 inches lower, 1,300 pounds lighter, too. Its compact size makes it a joy to jockey through traffic, a pleasure to park. No need for power assists.

AIR COOLED

You never have to fuss with antifreeze. Turbo-Air 6 warms up quicker, with less wear on parts. Air-plane-type heater* goes to work almost instantly.

4-Wheel Independent Suspension

Springs at each wheel cushion bumps independently of each other for a ride that rivals much costlier cars.

OUTDOORS IN TEXAS

By VERN SANFORD

This is the time of the year when the outdoorsman has to make up his mind whether he wants to hunt or to fish.

Some people are lucky enough to do both—and on the same trip.

There is no better time than right now for top-water fishing. Dove season is on, too. Later there will be ducks and squirrels to add to the list. In some parts of the state there will be deer hunting during a part of the quail season.

So this is that time of the year when the outdoorsman can go hunting and kill his limit of game; go angling and catch his limit of fish; or do both on the same trip.

Man, that's living!

As for fishing in fresh water, right now is the time for some good top-water plugging for bass, or bug-ging for pan fish. Big bass have been playing coy with top-water plugs during the hot summer time. Recent rains, however, have moved in fresh water and more vegetative food for the minnows. As these minnows move along the shore to eat, the bass move in to eat them. That's the time to toss a top-water plug!

You have your choice of many good top-water lures. They come

in all sizes, shapes and colors. You can take your pick.

One thing you must remember, however, is that the bass is the final chooser. If he likes what you toss him, you've caught his fancy—and a fish. If he doesn't like it, then all you have is another pretty lure for the tackle box.

Right now a shad or perch-colored lure is just about as good as you can offer. And of course for color there is nothing better than the old reliable standby of black and white.

The water you fish in may also affect the choice of your lures. For instance, if there is a lot of moss, you'll want something that won't hang. This could be a plug that rides over the top of the moss with the hook up. Or it may be a spoon with a piece of pork chunk.

If you are fishing in moss, use a heavy line—one that is strong enough to pull your plug, and possibly your fish, out of the moss.

Moss fishing can pay off, but it is no place for light, monofilament line or a lure with a gang of hooks on the bottom side.

On the other hand, you may be fishing along a log-covered bank or near a sandy point jutting out into the water. Here you will want a good plug of the chuggar-type, or

perhaps a cigar-shaped lure with a spinner either fore or aft.

Lay the lure in a good spot, work it slowly, and if there is a bass around he'll likely take it.

Fall bass are better fighters than summer bass. Some of them are right proud of their acrobatics. Part of the matter is—there's no thrill like a dancing bass.

Of course, you don't have to limit yourself to bass. This time of the year crappie fishing is good, especially with lights at night.

And white bass (some call 'em "sandies") also like the lights on a fall evening.

There's hardly a lake in Texas today that doesn't have a big white bass population. The limit is 25 per day, and they are fun to catch.

Don't overlook the pan fish. Nearly every impoundment in Texas is overstocked with bream. There are all kinds, shapes and colors. Many of them are long enough to interest any fisherman, whether he uses a worm or a popping bug.

Worm fishing, incidentally, is far from being a lost art. You can find that out easily around any fishing pier or floating dock.

Many persons who fish with worms, fish from boats. Usually they fish at the base of trees that are standing in the water, or at brush piles.

There are many baited holes for perch.

Just the other day at Oak Creek Lodge near Sweetwater, we watched an elderly couple worm fishing from a boat tied up under a big tree. We were told that they kept

that hole baited with stale bread or corn shocks, and that they take perch by the hundreds.

Naturally, most floating docks are located over baited fishing holes.

Some fishermen, where shooting on the lake is not prohibited, take along their guns in their boats. When they get to an area where sunflowers cover the bank, they leave their boats and get back into the mesquite brush for doves.

Again, however, permission should be obtained before any shooting is done.

It's a good idea to take a .22 rifle in the boat. Occasionally, one might be used for shooting a squirrel, or even killing a snake. However, a .22 is dangerous on water and should not be fired where there is any chance of a ricochet.

It must be remembered, too, that nothing makes a fisherman quite as uneasy as a .22 rifle being fired in his vicinity.

With wildlife on the move, on the land and in the water, there is plenty of outdoor activity for everyone. Lead the family into the car and enjoy these wonderful fall months.

Mr. and Mrs. L. F. Foster attended the Rose Festival at Tyler during the week end and visited with friends in Shreveport, La. before returning home.

Mr. and Mrs. W. R. Thompson visited in Fort Worth Friday night of last week with their daughter and family, Mr. and Mrs. Bob Baker and son.

RAILROAD FEATHERBEDDING:

\$500,000,000 LOSS

TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads — pay for work not done or not needed — is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

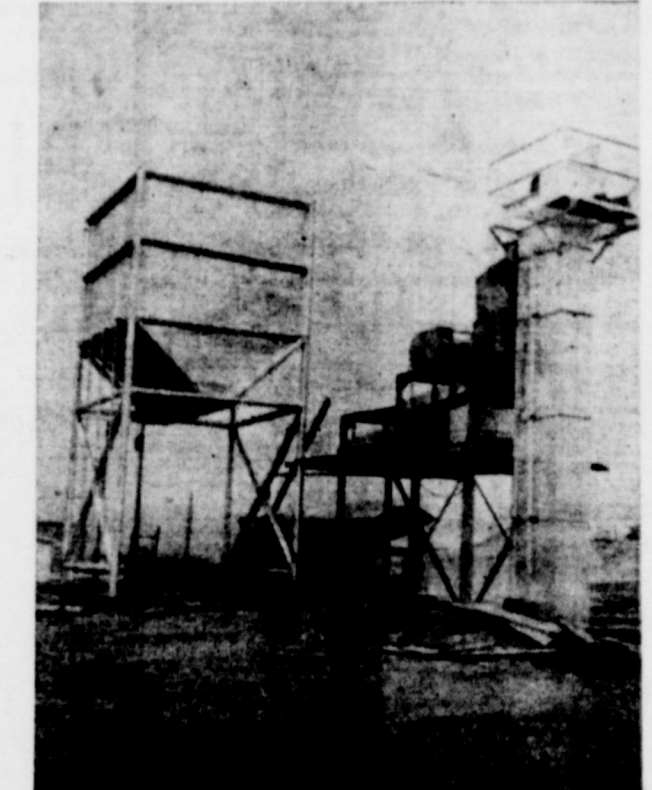

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman — even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

THE INSTALLATION OF A CLEANER FOR FARMERS STOCK PEANUTS

We are now able to custom clean your peanuts for you before they are graded. Peanuts which are not eligible for loan because of excess foreign material can now be made eligible by cleaning.

Here's the way it works. The peanuts are emptied into an elevator which takes them up to the cleaner. The cleaner will remove most of the sand, rocks, sticks, leaves, etc. They are sampled as they leave the cleaner. Another elevator takes them to an overhead bin which will hold them until the entire load has been cleaned.

The clean peanuts are then loaded into a truck and weighed prior to selling. Your grade and weight are determined on clean peanuts.

The cost of cleaning will be much less than the penalty for excess foreign material. It will pay you to see us before selling your peanuts.

MR. AND MRS. J. W. DUNLAP OBSERVE GOLDEN WEDDING ANNIVERSARY SUNDAY

Mr. and Mrs. J. W. Dunlap, who were married at Comanche, Oct. 23, 1909, by Dr. E. M. Davis of Brownwood, were honored by their three daughters Sunday with a dinner in celebration of their Golden Wedding Anniversary. The daughters are, Mrs. Tom Cox of this city, Mrs. Sam Forehand of Fort Worth and Mrs. Garvis Boyles of Coleman. Mrs. Forehand hosted the dinner at the Dunlap home here which was attended by relatives.

Mrs. Dunlap was born Madie Phillips, daughter of the late Mr. and Mrs. Gus Phillips, at Gustine in Comanche County. Mr. Dunlap was born in Pine Bluff, Arkansas, and moved with his parents, the late Mr. and Mrs. J. H. Dunlap, to Texas at an early age.

Following their marriage the couple lived at Gustine, Comanche and Sidney where he engaged in farming before moving to Cross Plains 22 years ago. Mr. Dunlap was employed by Cox's Farmers Market here until ill health forced him to retire a few years ago.

Attending the anniversary dinner were Mr. and Mrs. Tom Cox, Mr. and Mrs. Sam Forehand, Mr. and Mrs. Garvis Boyles and children and Mr. and Mrs. James Yarbrough and daughter of this city.

Visitors calling during the afternoon were their niece and husband, Mr. and Mrs. Arlie Carver of Abilene; another niece and husband and a brother-in-law, Mr. and Mrs. Damon Hall and D. L. Hall of Sidney and Rev. and Mrs. V. D. Walters, Mr. and Mrs. W. R. Thompson, Mrs. Mamie Swafford, Truett Jones and Mr. and Mrs. George Hutchins.

Although no big celebration was planned for the couple, the news traveled fast among their host of friends and they received many telephone calls, cards and gifts which made their day "one of the happiest they can remember."

Mr. and Mrs. Mabry Beard of Tail were visiting with relatives here last week while enroute to Amarillo for a visit with their daughter and family, Mr. and Mrs. Jimmy Cobb and children.

HOSPITAL NOTES

Dan McCarty was admitted to the Rising Star Hospital Sunday where he is undergoing a check-up and medical treatment.

Mrs. A. O. Harris of Pioneer has been a patient in the Rising Star Hospital for the past few days.

W. O. Rachel of Pioneer was released Friday of the past week from Medical Arts Hospital in Brownwood where he underwent medical treatment for five days.

Baird Man Dies of Crash Injuries; Buried Sunday

Herbert D. Murphy, 67, a Baird native, died Saturday morning of injuries received Wednesday in a two-car collision at Vine St. and Highway 80 in Baird.

Mr. Murphy was driving south on Vine St., crossing U. S. Highway 80, when his car collided with one driven by Richard Ward Higgins, 16, of Baird. He was thrown from the car onto the pavement and suffered a fractured skull.

Higgins, who was alone in his car, was not injured. Frances Murphy, 11, and a friend, Sharon Young, 11, were occupants in the Murphy car escaped injury.

Funeral services for Mr. Murphy were held at 4:00 p.m. Sunday at the Wylie Funeral Chapel with the Rev. Cecil Ottinger, pastor of the Baird Methodist Church, officiating. Burial was in Ross Cemetery.

Survivors include his wife, one daughter, Frances; three step-children, seven brothers, including R. L. Murphy of Cottonwood, and a sister.

Mr. and Mrs. Robert Anderson and family of Lubbock visited Mr. and Mrs. F. R. Anderson over the week end. Other visitors in the Anderson home were R. O. West and Mrs. John Cloud of Lone Wolf, Okla., Mrs. Bob Ewing, Pampa, Mrs. Calvin Isaacs, Canadian, and Miss Cullie West of Comanche.

ALBANY RIPS BUFFS—

(Continued from page 1.) following a short Buff punt for his third TD. Woodward converted on his first five attempts.

Following his third touchdown, Gray turned over the scoring honors to other Lions. Halfback Dennis Tucker got Albany's fourth tally on an 11-yard jaunt around left end. The Lions recovered a Buff fumble on the kickoff on the Buff 20 and three plays later Tucker scored.

With 31 seconds left in the third canto, Halfback Bill Morrell slashed over left guard from one yard out into the "Land of Plenty." His smash ended a 39-yard drive in seven plays.

In the final quarter Halfback Don Mitchell blasted over the double stripe from two yards out for a 41-6 score. This time Woodward's kick was wide. Late in the same frame Halfback Bud Leech rounded out the scoring with a six-yard spurt into the middle, closing a 25-yard drive in five plays.

Clyde Is Next Foe. The Buffs will attempt to get back into the win column as they journey to Clyde Friday to tangle with the Bulldogs in their second conference clash.

Just as the Buffs, the Bulldogs were defeated in their district opener, losing to Merkel, 57-22. Last year the Buffs staged a second half rally and took the bite out of the Bulldogs, 14-6. Clyde has a season record of three wins, two losses and two ties, but both elevens will enter the game with a loss in conference action.

Game time is set for 7:30 p.m. at Bulldog Field.
