Who put the shopping center in Mrs. Murphy's living room?

### THE YELLOW PAGES... THAT'S WHO!

We did it... and we're proud to admit it. But we left out some things. Like parking problems, traffic jams, waiting to get waited on, and finding baby-sitters... just to name a few. But shopping centers do have advantages, and you'll find them all right in your Yellow Pages. Use them often.

### ANYWAY IT WAS ONE HECK OF A REPTILE

It just shouldn't have happened but it did.

Last week in telling of a big snake killed by Bob Needham west of Cross Cut, it was reported that the reptile measured 18 inches in diameter.

A snake that large would be 56.5488 inches — nearly five feet — around.

It all came about when the word diameter was inadvertently used when circumference was intended.

Friday morning's mail brought letters from Bob Tuley of Abilene and W. J. Sipes of Ranger calling attention to the discrepancy. Too, the telephone at the newspaper office has been ringing almost constantly. A lot of people caught the blunder. The Review editor admits to having written this item and read the galley on which it was proofed. Two chances should have been enough to catch the goof-up, but he flubbed them both.

Mr. and Mrs. E. E. Thate of Coleman were visitors here Sunday in the home of Mr. and Mrs. Tom Cox.
