The Rev. Roger Butler, who this week assumed duties as pastor of the First Baptist Church here, will bear watching. He recently stepped into the newspaper office and had been there less than five minutes before he had the publisher's shirt off his back.

A picture of the incoming minister was needed for publication and when a photographer suggested that his colored shirt might not photograph well, the parson pointed to the newsman and said: "I'll borrow yours."

Dwayne Clark of Cross Plains, who will be a senior at Tarleton State this fall, may have come up with an idea worth a fortune before his graduation from college.

He has invented and applied for patent on an automatic livestock feeder. It operates eight days without human attention. being actuated by a clock and a sys--tem of balances.

The local collegian has a handmade model of the feeder at his home, between here and Burkett, and ranchers who have seen it believe the device to be the most revolutionary thing offered their industry in years.

New Minister Arrives For Church Of Christ

Mr. and Mrs. James P. Hance and three children moved here this week from Rankin and he has become minister of Cross Plains Church of Christ.

The congregation has been without a full-time minister since the departure last September of Paul Wilkerson who went to Farwell. In the meantime, Dr. Joe Spaulding of Abilene Christian College has served the church. He was honored with an appreciation party by members of the congregation last Friday night.

The incoming minister and his wife have three children. two of whom will attend school. The other is of pre-chool age. The family had been at Rankin three years and prior to that resided in New Mexico.

With greater emphasis on education than probably ever before in history, colleges and universities are roughing-up their courses. The romp and play of campuses has been superseded by serious young men and women hurrying to and fro, deeply intent upon the pursuit of higher learning.

Two recent graduates of Cross Plains High School, Miss Sue Edington, valedictorian, and Jack Webb Baum, salutatorian, are reportedly "hitting the books" most every waking moment to meet expectations of professors. Sue is at Howard Payne and Jack at Texas Tech. Word from each is that college is even more difficult than high school teachers had warned.

Rebels Edge Drillers In Extra Inning Tilt Cross Plains Junior Teenage

Rebels and Drillers clashed at Illingworth Field here Friday in one of the season's hottest contests when Rebels emerged victorious after an extra inning of play.

The teams exchanged leads through the game, Rebels posting the initial score. Drillers quickly countered on a grand slam homer by Jerry Strickland, and the fourth inning featured a 4-4 deadlock.

McMillan's single drove in two runs for the sudden death win. Winning pitcher was Rebel Ricky Jones and Richard Pope went the distance for the Drillers to take the loss.

Old Buildings at Fort Richardson by E. M. Schiwetz

FORT RICHARDSON ... a long time between paydays!

Across the western face of Texas, the brooding ruins of forts . . . here and there a restored barracks or hospital bring back a bloody page in history. A history that tells of marauding redskins thundering southward from Indian Territory, killing in their wake, pushing on to the Mexican border. A history that tells too of the hard and lonely life of the U.S. Army troopers who manned these strategic forts.

Fort Richardson, near Jacksboro, was one of the more important of these outposts. Here Kiowa Chieftains Satanta and Big Tree were incarcerated before their trial for a bloody massacre. But life in all frontier posts was much the same . . . best expressed by the soldiers themselves, "a long time between paydays."

BUT IT ISN'T SO FAR BETWEEN PAYDAYS NOW ... with U. S. Savings Bonds!

Today, there can also be a long time between paydays for those who have not established the thrift habit. But through the U.S. Savings Bonds program you can take care of this situation quickly and effectively.

For example, with as little as 63¢ a day you can buy an \$18.75 Savings Bond every month. Keep this up for 40 months and you'll own a stack of Bonds worth \$1,000, at maturity, which cost you only \$750 in easy installments.

Buy U.S. Savings Bonds every payday automatically through the payroll savings plan.
