# CWAYS IU **CONSERVE** AND SAVE

### FOR THE HOMEMAKER

- 1. Let Nature help you to save on operating costs.
  - (a) Let the sunshine in during winter months to help cut heating costs.
  - (b) Shade your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- 2. Be prudent when using appliances. Wash full loads of dishes and laundry, and follow manufacturer's owner-manual for best results.
- 3. Proper insulation helps secure your home against dirt and noise and defends it against outside heat and cold, offering year round comfort and savings. Insulation can pay for itself in the savings from operating cost in about 11/2 years.
- 4. You purchased fine-home comfort when you bought your air conditioning and heating units. Properly maintained, they offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and break-down
- 5. For savings on energy, set the thermestat on the temperature setting that provides adequate comfort (the President suggests 68°). Don't continually switch it up and down. Remember, the lower you set the thermostat in the winter the more money you save
- 6. Adequate lighting is essential for creating a safe and pleasing environment in every room of your home. Dust and dirt alone cause substantial losses in the amount of light produced. Systematic cleaning is important. Clean lamp bulbs (when they are cool) with a damp cloth. Conserve and save energy by turning lights off in rooms that are not needed.

CONSERVE & SAVE ... use energy wisely!

When the quality of your grass goes down,

## Liquid Feed Supplement 32

The nutritional value of grass varies from time to time and from place to place. That's why T-E has developed a complete line of liquid feed supplements to meet all the conditions faced by cattlemen.

T-E Liquid Feed Supplement 32 is the one to use when the grass is dry or poor. It delivers protein, phosphorus, vitamins, trace minerals. And it delivers the energy to make them get out and rustle for what grass there is.

TE LIQUID FEED SUPPLEMENT

# Money Spent At Home Helps Your Community Grow

recece de la company de la

Just as it takes a lot of little raindrops to make a river flow - so does it take lot of people spending a little money to make up the big tax contributions merchants make to a city.

Complete selections of finest merchandise at the LOWEST possible prices are right here in your home community, Cross Plains.

And you benefit in so many ways by shopping in your own community. Shops are only minutes from your home. There's plenty of free parking. Lots of courteous, neighborly clerks to serve you. Most important of all — the money you spend at home stays at home to help build a BETTER COMMUNITY for us all.

SHOP AT HOME for all your needs. Your local merchants buy wisely - you will find what you want in local stores. If they should be out, they will be glad to order for you. Cross Plains prices are as low as any place else, and you can be first in line for sales too.

SHOP AT HOME and support our town. If your local merchants make more money, they pay more local taxes. That means more money to build a better community which benefits everyone.

SHOP AT HOME and you'll save time! Why travel all over the country looking for a good buy, when you'll find it just minutes away in one or more Cross Plains stores?
