The children surprised their mother, Ona, with an early birthday celebration Saturday afternoon. Number nine: We need to study the Bible by passage.

Numerous Bible passages (verses or parts of verses) lend

themselves to beautiful analysis. One who is sincerely

concerned about becoming a good student of the Bible

must work toward becoming a Biblical analyst. Breaking

a passage down into its various parts is a fascinating and

most rewarding study. Why not turn right now to Mt. 6:33. Our Lord said, "But seek ye first his kingdom and his

righteousness; and all these things shall be added unto

you". Note carefully: the word "but" - a term of contrast; the word "seek" - the obligation prescribed:

of the seeking; the word "first" - the order specified:

"and all these things shall be added unto you" - the con-

ditional promise made. Contrast, obligation, objects, order.

and promise - and we have the passage. Or, consider

the latter part of Mt. 16:18: "... and upon this rock I will

build my church; and the gates of Hades shall not prevail

against it". With regard to the church, note carefully:

there is the builder; "will build" - there is the time fact-

or; "my" - reference is to the possessor of it; "church"

- there is the nature of this divine institution; "and the

gates of Hades shall not prevail against it" - there is the

certainty of it. In Titus 2:14 Paul says about the Lord

us from all iniquity, and purify unto himself a people for

his own possession, zealous of good works". According to

this reading, God's people are (1) a purchased people, (2)

a pure people, (3) a possessed people; and (4) a zealous-

of-good-works people. In passage study we should note,

first - what the passage actually says, and second - the

Who'd want to invest in a bunch of revolutionaries?

They didn't exactly look like winners.

But then our revolutionary army beat the British at Saratoga in 1777.

And people recognized Washington's men as an army, rather than a band of renegades.

So faith was won as well as a battle. And investments in our government's securities started picking up.

It took courage to take stock in America back

then. But it paid off. And it can do the same for you now.

Just join the Payroll Savings Plan, or buy U.S. Savings Bonds at your bank. There's no safer, easier way to build your savings.

So, buy the specially designed Bicentennial Series E Bonds.

Those brave revolutionaries would be proud.

Series E Bonds pay 6% interest when held to maturity of 5 years (4½% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
