Death & Capital Gains Taxes Can Destroy Family Businesses

FORT WORTH, April 10, 1997—The payment of death and capital gains taxes has cattle producers gravely concerned about the future of their family businesses and cattle industry itself, according to a membership survey released today by the Texas and Southwestern Cattle Raisers Association.

Coney Burgess, president of the 120-year-old trade organization, said, "Our survey indicates that millions of dollars are deflected from land and livestock improvements to pay federal taxes. Descendants of ranchers are forced out of ranching to pay the government's death taxes. The death and capital gains taxes affect the efficiency of producing U.S. beef."

The Amarillo Texas rancher and businessman said, "Relief (from death and capital gains taxes) is needed." Echoing his comments was John Dudley, Comanche, Texas, rancher and TSCRA second vice president who testified on the issues before the Senate Finance Committee in Washington, DC, today.

Highlights of the survey, which asked specific questions about death and capital gains taxes and legislative proposals to repeal or reform them include:

Complete repeal of the death tax was favored by 75 percent of the respondents.

Over 78 percent of survey respondents said the current death tax law has affected their farming/ranching operation.

Over 51 percent of respondents favored abolishing capital gains taxes. Assets are currently being held to avoid capital gains taxes by 60 percent of respondents.

The current capital gains tax law has affected over 71 percent of respondents' farming/ranching operations. Some of the comments made by TSCRA members included:

"Our family ranching operation has survived drought and bad markets through perseverance, prayer and planning. God willing, we will survive death taxes using these same three methods, plus the addition of tons of legal fees."

"Granddad died in the early '70s. Dad used every penny Granddad saved plus most of Dad's savings just to keep the place together by paying the death tax. Dad has lost interest in doing anything new or different because Uncle Sam will end up with 50 plus percent of it."

"How will we ever be able to protect our natural resources if every time another generation passes on, the family ranch has to be divided so someone can pay their death taxes by selling their portion of the land? Death taxes are the biggest reason large tracts of land get fragmented into smaller less manageable tracts."

"There are very few people in agriculture today who would consider

themselves wealthy. While we continue to fight the everyday struggle to hold on and feed the world, the government is forcing us out of business so that we can become a nation of salesmen and service companies while the rest of the world buys our agriculture technology and becomes producers of real products."

"I have worked all my life to acquire my ranch and to pay for it and I don't feel it is right to tax my son when I pass on. This is double taxation and it just isn't right."

"Serious thought and discussion on these subjects (death and capital gains taxes) sometimes makes me wonder if we really do want to save this ranch and pass this burden to our children."

"In the event that I am forced to sell, a 28 percent capital gains tax on property that has a low value plus a 55 percent death tax adds up to an 83 percent confiscation tax."

"(The capital gains tax) discourages investment and penalizes success. I would much rather have the money in my pocket to spend as I want rather than the government, which proves daily it can't handle it."

TSCRA is a 120-year-old livestock trade association representing more than 14,000 cattle producers who own or control approximately 1.8 million head of cattle on millions of acres of ranch and pastureland primarily in Texas and Oklahoma.

For a complete copy of the TSCRA "Death and Capital Gains Tax Survey," contact the association at 817-332-7064 or 1301 West Seventh Street, Fort Worth, Texas 76102.

"Tantalizing & Provocative"

Several of the townspeople have expressed to me an interest in growing and cooking with herbs. It is something I enjoy doing tremendously. There are many different recipes for cuisine in which herbs are used in cooking.

Nowadays, almost any magazine that you pick up concerning gardens, homemaking or cooking, contain numerous recipes in which herbs are used in the preparation and concocting of various foods. Many of these are extraordinarily innovative and many are really fun to prepare. They are delicious and give off a provocative aroma.

Spring and summer are an excellent time to experiment with using fresh herbs in the preparation of foods. It's great fun to experiment as well as quite tasty. For many of these variations it isn't necessary to even heat up the stove, which sounds really "COOL" in the hot summertime. Here are some simple variations you may use to get the effect. Next perhaps you might like to try some herbal experiments of your own.

Try these, fresh sliced tomatoes sprinkled with fresh dill or finely chopped mint or parsley, cantaloupe or mushmellon sprinkled with marjoram, precooked and scraped new potatoes (or the tiny round canned

ones from your grocers shelf), served hot or cold with either fresh dill or fresh chopped parsley sprinkled all over. Deviled eggs are extremely delicious, instead of onions and pickles and pimentos etc., try this variation: into you egg yellows mix fresh onion or garlic chives, dill, mint, thyme, basil and parsley. A small amount of salt or pepper, 1 teaspoon sandwich mustard, 1 Tablespoon Mayonnaise or salad dressing, and either 2 Tablespoons chopped fennel bulb or stems, celery may be used in place of fennel.

In your cooking try dried ground rosemary in fried or oven-baked meats, such as chicken or pork chops or in salmon croquettes. Unimaginably luscious. When cooking desserts, instead of vanilla, or other extracts, try 1 Tablespoon dried fresh marjoram. I have found it to be great in rice pudding, chess pie, apple pie and in pumpkin pies and in pumpkin bread and sweet potato pies. Optional - you can also add 1 teaspoon minced fresh mint. Both tantalizing and provocative.

I drove by a week or so ago to see Mrs. Sarah McCowen's imported apricot trees in bloom. Truly lovely and different also.

To put a little fun in your life, try: "EXPERIMENTING" with herbs in foods! "C" "U".

Co. Attorney's 1996 Report Finished

It is a little late but the Callahan County Attorney's Office report for 1996 is finally finished.

On January 1, 1996, court reports showed 236 cases pending in county and district courts. That number increased slightly to 272 cases by January 1997. The same records indicate 352 cases were disposed during that time.

District Court records indicate that during the year 62 cases were disposed including 56 felony, 4 juvenile and 2 writ cases. County Court records show 290 criminal, traffic, and hot check cases disposed during 1996.

County Attorney Office records indicate that 447 cases were closed out during the year. 103 felony cases and 160 misdemeanor criminal cases were disposed. 123 theft by check cases and 61 traffic cases were also closed out during the year. 313 new cases were filed during the year.

Office records differ from the court reports because they reflect different activities. Office figures are determined by an actual hand counting of the case files in the office and from a computer list of the cases. They include not only the cases reflected in the court reports, but also investigations, Grand Jury presentations, appeals, civil forfeitures, and other cases the office has worked. Many cases are worked and resolved informally and never filed with the court.

In addition to fines and court costs on other cases the office collected \$40,992.03 on 500 separate checks, \$28,882.84 was collected for merchants and victims of hot check cases. Around \$12,000 was collected in

traffic appeal cases.

Two criminal case cases were tried to a jury in 1996 and resulted in guilty verdicts. One mental competency case was tried to a jury and the defendant found competent to stand trial. During jury trial on murder charges he changed his plea to guilty and was convicted.

Two cases on appeal from 1995 were affirmed during 1996. Two other cases were affirmed in February 1997. Those defendants are currently serving their sentences. One case is currently pending.

1996 was an election year and Allen Wright was re-elected as County Attorney. He appreciates the support shown by the community in allowing him to continue to serve. He was recently chosen as Chairman of the Callahan County Historical Commission and will serve in that position for the next two years, an honor for which he is proud and grateful.

Janeca Tucker and Monty Huddleston remain with the office. Tucker has lived in the county all her life and is involved in many local events, particularly the local art show. We appreciate her hard work for the office and the community. Huddleston was raised in Clyde and is the office investigator. He works closely with all the county law enforcement agencies assisting them in their investigations and facilitating disposition and prosecution of cases. His salary still comes entirely from state supplemental funds and forfeiture funds. He is not paid by the county.

As always the office is open to the people of Callahan County. Feel free to contact us. It is our privilege to serve the citizens of this county.

COTTONWOOD NEWS

By BEVERLY BROWN

In the past two weeks our temperatures have dropped down into the freeze warning digits of lows in the 28 to 30 degree range. The recent freeze did damage to fruit trees and garden plants set out, it was reported. The Cottonwood Musical is Friday, April 18 at the Cottonwood Quilting Club members will feature barbecue sandwiches as their special this month. Other refreshments will also be available in the kitchen area. "Clean Up Day" for the Cottonwood Community will be Tuesday, April 29th starting at 9:30 a.m. at the local center. On the agenda for a good spring cleaning is the Cottonwood Community Center and the post office, getting these jobs done takes the team work of all our residents in the community.

We are getting ready for the annual Cottonwood Historical Association Memorial Day services on Sunday, May 4. Your help is needed and we do hope you will plan now to offer your services. On the agenda this year will be a noon meal, followed by a business meeting with the election of new board members, and a guest speaker. Do plan to attend this important meeting. We are looking forward to visiting with former residents and friends and getting acquainted with new residents in the community. Further details will be featured in this column in the next

few weeks. Mrs. John (Janet) Purvis recently spent a week in Tampa, Florida with her granddaughters, Brooke Melindie and Brandye Batten and with her daughter, Barbara Batten of Charlotte, North Carolina.

Mrs. Clair McInnis spent Easter with her daughter and husband, Virginia and Kenneth Durst in Mason. Her grandchildren, Kacy and Steve Zoleskie and Tristan of New Braunsfeld and Amy and Wesley Kitchens and Tia of Fort Worth. Clara went home with her granddaughter, Kacy and family the following week to visit with them. Clara, Virginia, Kacy, Steve and Tristan all attended the Billy Graham Crusade meeting held in San Antonio. Clara reported it was a wish come true for her, as she wanted to attend in person one of his crusades. It was held in the Alamo Dome in San Antonio. The moving of the Holy Spirit filled the dome, Clara reported and people attending went forward long before Billy Graham finished his sermon.

Tommy Purvis of Mt. Pleasant was here over the weekend visiting with his mother, Mrs. John Purvis. Mr. and Mrs. Wayne Brown visited with his brother, Mr. and Mrs. James Brown and Kenny in Abilene last week.

Burkett Community Supper April 19

The Burkett Community Supper will be held Saturday, April 19, at 6:00 p.m. in the Community Center. Please bring a vegetable and meat or a salad and sweet. Please make plans to come and enjoy the wonderful meal.

SWEET

Mississippi mud are just some of the delicious, made from scratch cakes, they will provide. Special orders are welcome.

Gift baskets with assortments of candies, etc. are available for those special occasions.

The shop was remodeled by Yvonne's husband, R.T. Peavy, her son-in-law, Tim Coulter, and Denise. The basic colors are burgundy, hunter green, beige, and blue. Antique furniture is used to display their goods and several pieces have a story of their own. An antique ice chest that belonged to Yvonne's late grandparents is incorporated into a cash register counter, while a tin ice box belonging to Yvonne's late great-uncle and aunt, Major and Bulah Arvin, is used as a display. The kitchen cabinet which R.T.'s parents, the late Sub and Thelma Peavy, started housekeeping in 1921 will also be used to display sweet treats. Two antique dressers belonging to the late Elmer and Mattie Peavy are part of the decor; even a desk from the old Cottonwood school has been utilized. Drop by and see how charming Sweet Stuff really is.

Their cherry turnovers are wonderful -- believe me! Call (817) 725-4663 or 888-527-9338 for orders or more information.

There Are Allergy-Relief Alternatives To Seldane

The FDA is proposing to take Seldane off the market because of its potentially deadly side effects. Seldane was the first drug to relieve effects of seasonal allergies without drowsiness. However, 4 years ago, doctors found people with liver disease, people who took ketoconazole (an antifungal agent) of the antibiotic erythromycin could suffer heart rhythm problems by taking Seldane. There are other medications available so allergy treatment need not be disrupted. Ask your doctor which medication is best for you

Have you ever known of someone who was seemingly forever watching you ever so closely in order to catch you in a mistake? If so, then you can relate to the way Jesus felt. The scribes and the Pharisees were forever just waiting for Him to say or do, so they could find fault or accuse Him of blasphemy. Now the remarkable thing about this is that He NEVER ever said anything wrong or did anything wrong. I Peter 2:22. We can't relate to that, but I suspect we can all relate to criticism.

If Jesus healed someone on the Sabbath (Saturday) -- yes, even healed someone! -- the Pharisees would accuse Him of breaking the Law of Moses. Of course when He answered them by asking, "Is it lawful on the Sabbath to do good or to do evil, to save life or to kill," they had a hard time answering -- they just kept silent! (Mark 3:4) Jesus asked them on one occasion, "Which of you, having a donkey or an ox that has fallen into a pit, will not immediately pull him out on the Sabbath day." Luke 14:5. They had to know and admit that if it was right to do that, then surely it was even more right to heal a person!

In our families, at work, at school, wherever we are and whomever we are with, let us look for the good and not the bad, the right and not the wrong, the strengths rather than the weaknesses, the OK rather than the not so OK. If we don't, we're liable to become like the Pharisees -- and Jesus accused them rightly of trying to get specks out of other people's eyes when they had big splinters (or planks!) in their own. And remember, Jesus didn't even have a speck in His eye. That's why we can trust Him and follow Him.

Come join us in our effort to follow Jesus...

Buffaloes Tie For 2nd in District

By COACH BILL BOYD

The Cross Plains Buffaloes made an impressive showing at the District 10A track meet last Friday at Santo. Baird dominated the meet with quality and great depth but the Buffaloes, all seven of the varsity team, shocked the district by finishing in a tie for second.

Six out of our seven athletes will compete at regional on April 25 and 26 at ACU. The top two finishers in each event advance to regional and third place finishers are alternates. This is the most boys we have had advance since 1992 when seven Buffaloes qualified for regional. This is the most boys and girls combined that have qualified for regional in my six years here.

I am extremely proud of these young men and their accomplishments. Track is a lot of work, and these athletes have represented our school well. The results of the meet are as follows:

CRCGs Achieve Statewide Coverage

AUSTIN -- Community Resource Coordination Groups (CRCGs) of Texas recently achieved statewide implementation in all 254 counties across Texas. CRCGs are local interagency groups composed of public and private agencies that develop service plans for children and adolescents whose needs can only be met through interagency coordination and cooperation.

"CRCGs play a critical role in helping coordinate services for children and youths in Texas and ensuring that they receive needed assistance," says Health and Human Services Commissioner Michael D. McKinney. He adds that "by working together agencies are able to elimi-

nate roadblocks that previously hindered the effectiveness of service delivery to young children and adolescents."

CRCGs were created in 1987 under Senate Bill 298 which directed state agencies serving children to develop a community-based approach to provide better coordination of services for children and youth who have multi-agency needs and require interagency coordination. "An interagency community process provided by CRCGs is a proven way of bridging gaps in services for our children," notes Sherri Hammack, State Director of CRCGs.

Organized on a county-by-county basis, CRCG member include public and private sector child-serving agencies within that county. Many CRCGs also include parents of children with disabilities. CRCG members meet in partnership with the family to plan for needed services. Members include: Texas Commission on Alcohol and Drug Abuse, Texas Department of Health, Texas Department of Mental Health and Mental Retardation, Texas Department of Human Services, Texas Department of Protective and Regulatory Services, Texas Education Agency (or regional service center or local school district), Texas Interagency Council on Early Childhood Intervention, Texas Juvenile Probation Commission (or local probation department), Texas Rehabilitation Commission, Texas Youth Commission and local representative from private sector service providers. For more information on CRCGs or the CRCG contact in your area, call the Texas Health and Human Service Commission at 512/424-6561.

CPHS Baseball Update

By COACH CORD WOERNER

On Monday, April 7, our boys played a very good Baird team. A big second inning at the plate allowed us to get 5 runs which would be enough to get the win 6-4.

Carlton Thomas went 2 for 2 with a home run and 2 RBI's; Justin Hopkins went 2 for 3 with 2 RBI's; Jeremy Barnett went 2 for 4 with a double and 1 RBI. Also hitting the ball were Jarad Richards with a double and 1 RBI and Leif Hunter also had a single.

Joseph Turner went 2 1/3 innings and got the win with Jarad Richards doing a tremendous job finishing the last 4 2/3 innings and getting the save. He kept them off balance all night.

On Tuesday we played a good Panther Creek team with only one district loss on their record. The game started late because of the rain and was a very sloppy game all the way around.

Both teams committed too many errors but we did wind up with the win. Carlton Thomas had another big night with the bat going 3 for 3 with a home run and 2 RBI's; Turner and J. Richards each had doubles; and Barnett wound up with a hit.

Zach Edington did a nice job pitching the first 5 2/3 innings and Turner came in for 1. J. Richards pitched only one out but got the win as the team scored in the bottom of the 7th to win 6-5.

"We'll be there."

WTU's Performance Commitment. These days, it seems as if many companies think of customers as nothing more than account numbers. And it shows in their service. Well, we're here to let you know that exemplary customer service is alive and well. In fact, we're committed to it. That's why we've launched the WTU Performance Commitment program. To let you know just what you can count on from your electric company. Day in. Day out. We'll be there.

On Time, Every Time. If you ask us to visit your home or business, we will offer you a morning or afternoon appointment. At your convenience. And you can count on us to be there - on time, every time - within an agreed upon two-hour period.

Easy Moving. If you move to a new location where an electric meter is already installed, we will turn the power on by the end of the next day after you submit your service request.

Early Notification. From time to time, we must interrupt your electric service to make planned/scheduled repairs or improvements. When such a need arises, you can count on us to notify you two working days in advance.

Lights On. If your WTU maintained security light should burn out, we will relamp the fixture within three working days of hearing from you.

Count On Us. The WTU Performance Commitment. Just another way we're working to give you more value, service and choice for your energy dollar. Put it together with our goal of 100% billing accuracy and you've got service that's second to none.

Walk America 1997 April 26

It's the first, the biggest, and the best walking event in the nation. It's WalkAmerica 1997! Come join in the fun at Redbud Park at 10 a.m. on Saturday, April 26, and walk for someone YOU love.

Funds raised in WalkAmerica over the past 26 years have totaled more than \$800 million. During that time, the March of Dimes has achieved major health breakthroughs for America's mothers and babies including a newborn screening test for PKU, the sonogram for the detection

of birth defects, and the development of surfactant therapy. Most recent, is the discovery that folic acid can and does prevent spinal bifida by 75 percent.

Celebrate the day by marching for healthier mothers and babies. If you, your company, or your family would like to sign up, or if you need more information, contact Lisa Strain at the March of Dimes office in Abilene, at (915) 692-7057.

Eastland County Genealogical Society Early Settlers Award

The Eastland County Genealogical Society is sponsoring an award to qualifying persons. The award will be a valuable addition to your family heirlooms. The verification of your proof will be a valuable addition to the history of Eastland county and a help for future generations.

ELIGIBILITY: To qualify for this certificate, you need to furnish proof that you are a direct descendent of a

person who was in Eastland County Texas before 1900. Each name on your list must be documented with three proofs. PROOFS OF DESCENT: Most primary sources are considered to be proofs: birth certificates, marriage records, death certificates, obituaries, discharge papers, Bible and Baptismal records, probate records, land records, pedigree charts, family group records, cemetery records and census records. Be sure you send copies of these documents and not the original. Other supplemental resources are private papers, letters, and family histories are welcomed.

SUBMITTED MATERIALS: All the information becomes the property of Eastland County Genealogical Society and will not be returned. You are encouraged to send in some of the traditions and memories of your early Eastland County Ancestors.
