SONORA, SUTTON COUNTY, TEXAS, FRIDAY, APRIL 6, 1934

NUMBER 23

Few Votes Cast to Retain All City Officials

Commissioners and Mayor Take New Step in Efforts to Get Federal Funds

Another step toward the securing of a modern city hall-fire station was taken Wednesday night by the city officials when they passed a resolution stating that the city of Sonora was ready to sign an agreement for a federal loan and grant for building purposes.

After the action of the commission has been approved in Washington it will be necessary to hold a bond election to vote 20-year bonds to serve as collateral for the federal money. The commission has been advised that it has progressed more through the sea of technicalities necessary for loan approval than any other West Texas town seeking federal money for building purposes. Thirty per cent of the money which is requested is to be an outright grant and the remainder a loan.

New Officials Sworn

The oath of office was given W. C. Gilmore, mayor, and V. F. Hamilton and Alfred Schwiening, commissioners, who were re-elected Tuesday by the voters of Sonora.

Thirty-eight votes were cast. W. C. Gilmore received the vote of all who cast ballots. Mr. Hamilton and Mr. Schwiening received 27 and 23 votes, respectively in the race for commissioner. Twenty votes were cast for George D. Chalk and two complimentary votes were written in for S. R. Hull for city commissioner.

W. M. McDonough, member of the fire department, was appointed assistant city fire marshal to serve without pay.

Re-election Sought by B. W. Hutcherson

Sutton County Officer Wants to Serve Again

B. W. Hutcherson, sheriff and tax collector, has authorized the News to announce his candidacy for reelection to that office.

Mr. Hutcherson is serving Sutton county people for the sixteenth year. All of his years in office have been consecutive with the exception of one 2-year term when he was not a candidate for the office.

A statement made by Mr. Hutcherson outlines the duties of his office and the policies which will guide him in his campaign for reelection. His statement to the voters of Sutton county is as follows:

"In this issue of the News, I am announcing my candidacy for the office of sheriff and tax clerk of Sutton county, the duties of the tax clerk being to assess as well as collect the taxes, under our new constitutional amendment.

"Being mindful of favors shown me by the voters of this county, I would say that I have in the past tried to perform the duties of the office of sheriff and tax collector to the best of my ability, in appreciation of your trust and confidence. If re-elected, it will be my purpose to continue to give you my best efforts.

"The office of sheriff of Sutton county is an important office and I believe that with the experience I have had, and the acquaintance and friendship I now enjoy with the other peace officers of West Texas, I am better fitted to capably fill this position than I have heretofore been.

"I do and will highly appreciate your continued support and influence."

Sutton Photograph in Publication

A photograph of cattle taken "Near Sonora, in Sutton county, Texas, terminus of the Santa Fe's line south from San Angelo," occupies a prominent position opposite the editorial page in the April issue of The Earth, magazine published by the Atchison, Topeka & Santa Fe Railway. The magazine is published in Topeka and is edited by J. F. Jarrell.

MISS ADA MAE CAUTHORN ON BAYLOR HONOR ROLL

Another graduate of Sonora High School, Miss Ada Mae Cauthorn, student at Baylor University, Waco, has made the honor roll of the institution in which she is enrolled. Miss Cauthorn is the daughter of Mr. and Mrs. J. A. Cauthorn and is a senior at Baylor.

The announcement of the school's honor roll for the scholastic work of the winter term was made Friday by Dr. W. S. Allen, vice-president and dean. In order to be given this honor the student must make a grade of B plus in his courses. This is equivalent to a grade of 86 to 91. Each student whose name appears on the honor roll receives a letter of congratulations from Dr. Allen.

Motor Vehicle Registrations Gain in County

Passenger Cars Show Greatest Increase; B. M. Halbert, sr. Is Most Prompt

Forty more automobiles and ten more trucks have been registered in Sutton county than at the same time last year according to figures in the office of B. W. Hutcherson.

Registrations closed Saturday as far as the time extension granted by the state is concerned. Those who have failed to register their motor cars of any type and who now want licenses will have to pay an additional twenty per cent as penalty for their delayed action.

The record of licenses of various types issued shows: chauffeur's licenses, 31; trucks, 170; passenger cars, 490; transfers, 95 (representing old cars sold by their owners); trailers, 15.

B. M. Halbert, sr., according to J. E. Grimland, has been the first to register his automobile for many years. Mr. Grimland has been in charge of the registrations for fourteen years and he believes that Mr. Halbert has been first each year. This year he was issued the first license—number 875-751.

SERVICES CONDUCTED FOR ISAAC SMITH OF SONORA

Funeral services were conducted Monday afternoon at the home of Frank Smith for his father, Isaac Lee Smith, 73, who died Sunday at 6 o'clock after an illness of several months. He had made his home with his son for some time.

Thirteen of the fifteen children of Mr. Smith and Mrs. Smith, who died four years ago, survive. They are: Frank and William, Sonora; John, Carroll and Lee, San Angelo; Mrs. Minnie Bricker, Mrs. Eula Willeke, Mrs. Lenn Sitas, San Angelo; Elton, Ozona; Irvin, Eastland; Clyde, Kingsville; Delva, San Antonio; Mrs. Otelia Owens, Dilley. All of his children were with him at the time of death except Clyde, Irvin and Mrs. Sitas.

A brother, Frank, of Junction, a sister who lives at Center Point, 27 grandchildren and three great-grandchildren also survive.

The services were conducted by the Rev. Z. E. Parker, assisted by the Rev. E. P. Neal. Burial was in Sonora Cemetery.

SONORA GIRL CANDIDATE FOR YEARBOOK BEAUTY

Miss Edythe Faye Carson, daughter of Mr. and Mrs. C. H. Carson, will be one of the candidates for the Blue Bonnet Belles' section of the Cactus, University of Texas yearbook, presented at the ball which is a feature of the ex-students' "Round-up" in Austin next Friday night.

The "Sweetheart of Texas" will be presented and her attendants will be representatives chosen by other schools of the southwest conference. The candidates for yearbook selection for the Blue Bonnet Belles section will form a background of beauty for the evening's ceremonies. They are girls designated from university sororities, dormitories and residence clubs as candidates for the yearbook honor.

Miss Carson, a sophomore in the university, is a member of the Alpha Chi Omega sorority.

LONDONERS SEEING "THE STATES" BY AUTO

When George and Edwin Treglow of London, England, were graduated from Brighton College in England several years ago they realized that their education was not complete. They must see "the States."

The young men, whose home is in London, spent Friday night in Sonora. Soon after their arrival in this country they bought a car in New Jersey and drove to Florida. They are now on their way to California by the southern route. The trip eastward across the United States will be over the northern route.

The father of the young men, W. M. Treglow, lives in Sussex, a county bordering on the English channel.

Junior Boys Win in Track Events at Rocksprings

Babcock High Man in Saturday Meet; Fredericksburg Places Second with 17 Points

Sonora's junior boys track team continued its record of accomplishment Saturday when it nosed out Fredericksburg by one point to win an invitational meet at Rocksprings participated in by Sonora, Rocksprings, Eldorado and Fredericksburg.

Three first places by Kenneth Babcock secured 16 points for him and accounted in large measure for the team's 18 points garnered while Fredericksburg was attaining 17 tallies. The mile relay in which Sonora secured third place was quite close and had the team secured that event its final score would have been even more impressive.

Junior boys who competed were: S. H. Stokes, Young Newsom, Kenneth Babcock, Louie Williams, A. W. Awalt, Francis Archer, Marion Elliott, Richard Vehle, Wesley Sawyer, Jack Shurley.

White High for Seniors

The senior team secured fourth place, being excelled by the winner, Fredericksburg, as well as Rocksprings and Eldorado. Troy White placed third in the low hurdles and second in the high hurdles. Herbert Fields placed fourth in the 220-yard dash. John Merck and Marvin Smith made the trip but did not place in the events they entered.

A feature of the meet was the work of Earwood of Rocksprings who has developed into a weight thrower of startling caliber. His shot put mark Saturday was better than 53 feet and almost equaled the state record of not quite 54 feet. In the discus throw this Rocksprings student made a name for himself with a distance that almost equaled the state mark.

Junior events in which Sonora placed were:

100-Yard Dash: First, Babcock. Time: 12 seconds.

Mile Relay: Third, Sonora. Team: Babcock, Sawyer, Vehle, Elliott.

Broad Jump: First, Babcock. Distance: 17 feet, 8 inches.

High Jump: First, Babcock. Height: 5 feet, 6 inches.

50-Yard Dash: Fourth, Babcock.

MEXICAN FREIGHTER RETURNS AFTER 27 YEARS

After an absence of 27 years Sonora looks far different to Juan Flores of San Angelo who is visiting his daughter, Mrs. Paul Garza.

The last time Garza was in town was in 1907 when he drove a wagon of freight here from San Angelo. It was consigned to the E. F. Vander Stucken Co. Garza who is now 82 years old engaged in freighting between San Angelo and Sonora for many years. He will visit with his daughter and family for two weeks.

Station A Defeats Eldorado

After seven innings during which Station A made 20 runs and Eldorado made not a single run the Eldorado team Sunday decided to call it a day. It was the first time that Station A has defeated Eldorado this year or last. Pitchers were: Barber and Isaacs, Eldorado; McCloud, Ratliff and Bud Smith, Station A.

C. L. South, Coleman, formerly county superintendent of schools in Coleman county and now serving his second term as district attorney in the 35th judicial district, has been a practicing attorney since 1925. He is now a candidate for congress in the new 21st congressional district. Mr. South spent most of Tuesday in Sonora.

Four Students to Represent Schools at San Angelo

Declamation and Story Telling Finals Determine Entrants for Next Event

When 6-year-old Francis Green Wright, son of Mr. and Mrs. Monroe Wright, got a bit confused while telling his story Friday night he calmly announced he must start over. Afterward he told R. S. Covey, superintendent of schools, that his trouble was due to "a baby crying out there with all those people." Not content with this information he added, "It's too bad that baby couldn't have cried at home instead of waiting until I was telling my story. It had all week to do it in at home and then had to do it here."

Two boys and two girls from the local schools will represent Sonora in San Angelo Saturday, April 14, as a result of their excellence in declamation contests conducted at the high school Friday night.

Judges from Ozona High School selected Jim Taylor and Mildred Trainer as those giving the best declamations of the three boys and three girls in the junior contest. Second and third places were won by Claude Thomas Driskell and Harrell Turney Espy in the boys' division. Daphne Jungk placed second in the girls' group and Cathryn Trainer and Katha Lea Keene tied for third place.

Kenneth Babcock excelled among the senior boys and Joseph Logan received second rank. Clovis Neal, Violet Drennan and Emmalou Logan were first, second and third, respectively in the senior girls group.

Those who will enter the district contests in San Angelo next week because of their Friday night victories are: Jim Taylor, Mildred Trainer, Kenneth Babcock and Clovis Neal.

RE-ELECTION SOUGHT BY COUNTY TREASURER

Re-election to the office of treasurer of Sutton county was asked this week by Mrs. A. J. Smith whose announcement appears in this issue of the News for the first time.

Mrs. Smith is serving her seventh term as treasurer. Her husband, Dr. A. J. Smith, was a pioneer physician in this section. Mrs. Smith has lived in this community for 28 years. A careful administration of the county's affairs as they affect her office and duties is the earnest desire of Mrs. Smith.

Mrs. Smith's Mother Dies

Mr. and Mrs. George A. Smith and children were called to Sweetwater at noon Wednesday by the death of Mrs. Smith's mother, Mrs. J. E. Costephen, who died there Wednesday morning. Mrs. Costephen was 72 years old. Her husband died about a month ago.

Candidate Speaks to Lions of Club Accomplishments

Five Students Entertain Members and Guests at Civic Group Tuesday Luncheon

A short talk by C. L. South, candidate for congress from the 21st congressional district, was a feature of the program of the Lions Club luncheon meeting Tuesday. Mr. South is a member of the Coleman Lions Club, was formerly president of his club and has been a group chairman in the organization.

Mr. South reviewed briefly the history and development of the Lions Club movement as a civic force since its origin in 1917. He described the various good works that clubs in many parts of the country had accomplished during the short period in which it has grown to the largest civic club of its type in the world.

"Lion" Joseph Logan, high school student who is a member of the club as a result of his scholastic record, presided at the luncheon. Judge Joe Montague of Fort Stockton and Weaver Baker of Junction were guests and each spoke briefly.

Carlton Leatherwood, program committee chairman, introduced five school students who entertained with their declamations or stories prepared for the contests last week. Those who spoke were: Patsy Nisbet, Marjorie Crowell, Jim Taylor, Aylene Landrum and Clovis Neal. Miss Neal expressed the appreciation of the students for interest of the Lions Club members in their activities.

Corpus Christi Preparing

H. V. Stokes, president, reported on the meeting of district deputies called by the district governor, Arthur Biard, in San Antonio last week. Plans were outlined by Mr. Biard for the district convention to be held in Corpus Christi in May. Registration will be Thursday, May 10.

Clubs in the Rio Grande Valley and the Corpus Christi organization in particular are making elaborate preparations for the entertainment of convention visitors. Water sports always predominate among entertainment features in Nueces county where Corpus Christi is located.

Special Term of Court Tuesday

Judge Montague Comes from Ozona for Special 1-Day Term

In a special term of district court called Tuesday by Joe E. Montague, judge, sentence was passed on Jud Humphries that he must spend two years in the state penitentiary.

Humphries was charged in an indictment returned by the recent grand jury with having entered the home of George Trainer and stolen \$1.96 on or about January 12. When arraigned before Judge Montague he pleaded guilty and waived his right to trial by jury.

His term will show credit from January 13, 1934, as sentence is to run concurrently with one given him in Coryell county. The nearly four months he has served will reduce his sentence to one of about twenty months.

ALL PREPARATIONS FOR MOTOR FIRM DANCE MADE

All is in readiness for the eighth annual free dance to be given by Sonora Motor Co. at its place of business Monday night, April 9, according to Sam Hull, owner of the business.

A seven-piece orchestra, the Varsity Club, Bud Marshall, manager, has been engaged and arrangements have been made for chairs for those who do not want to dance but will enjoy seeing others at their fun. The dance will begin at nine o'clock.

Baby Girl to Beams

Mr. and Mrs. E. C. Beam announce the birth of a daughter, Barbara Ann, on Tuesday at a hospital in San Antonio.

ARMY HERO HOME FINDS WIFE WED

Shell Shocked War Veteran Regains Memory.

Vienna.—It took Joseph Meirer, sergeant in the Austrian Eighty-fourth infantry, fifteen years to get home after the war.

He walked into the Vienna police headquarters, snapped to salute and reported his return, the last Viennese prisoner of war.

A week before the armistice was signed, Sergeant Meirer, while on outpost duty, was buried by a sudden explosion. He was dug out senseless by French sappers and carried to one of their dressing stations, where it was found that he had lost power of speech and memory.

After eighteen months in French hospitals he finally found himself in a Moroccan military cantonment. There he began slowly to recover the power of speech. He was dismissed half cured after several months.

He worked for a time as a helper in a French munitions plant. Later, he says, he was back in Tunis working as a master mechanic. In the meantime he had learned French perfectly and was quite satisfied with his job.

In Meirer's twisted account there appears to have been an interim when he was a fireman in the crematory at Sidl Bel Abes. Then he got a job as fireman on a freighter bound for Singapore.

It was there in February, 1932, that his memory came back to him naturally and without the usual attendant strain.

Stranded and without a cent, he finally reached Constantinople. From there he walked to Vienna.

Meirer's wife is now married to another man. His children refused to recognize him—shabby, stuttering, old—their war-hero father. His friends have moved away. His job is gone.

He is no longer a man without a country, but he finds little happiness in it.

Expert Says Rattles Strike Without Warning

Post, Texas.—Rattlesnakes don't always rattle a warning before they strike, says J. E. Adams, who has hunted them for ten years.

A rattler will run a few yards from trouble then turn and fight until he is dead, Adams has observed. Young snakes will run into the mouths of their mothers when frightened, he said.

During his ten years at the dangerous sport Adams has had many of the poisonous snakes strike at him, but none has ever bitten him. Many have brushed his head or his hand as they have struck and missed.

His only weapon is a 7-foot pole with a hook on one end and two prongs on the other. He catches the snakes for museums, circuses or laboratories. It is no trouble for him to get a dozen or so of them.

He carries no serum for emergency. His pocket knife would be his only medicine—to "slash the affected part and let the poison out."

Discover Thigh Bone of Huge Elephant in U. S.

Los Angeles.—Forty thousand years ago giant imperial elephants, 14 feet in height, with hair covering their bodies, and with tusks 12 feet in length, roamed the forests of southern California.

Recently workmen unearthed the huge thighbone of an imperial elephant, 4 feet in length, nearly a foot in diameter and weighing nearly 100 pounds.

The discovery was made in a drain excavation in Signal Hill, 26 feet underground.

Officials of Los Angeles museum supervised the removal of the bone and voiced elation at the discovery.

Also found in the same excavation were small bones of prehistoric camels, horses and bison.

Texas Cotton Grower Is Vexed by Nudists

Fort Worth, Texas.—Whether nudism will affect the prices of wool and cotton is one of the worries the practice gives to Arnett West, contributor to the open letter column of the Fort Worth Press.

"Nudists!" the letter began. "God made you to be white, just as he did the negro to be black and brown. Try to be as you are born."

"Will this be another case for a slump in wool and cotton when these 'animals' become as hairy as dogs?"

Husband's Pockets Sacred, Court Rules

Montreal.—Even though wives may not think so, the Canadian law considers a man's pockets inviolate, according to a decision rendered by the Superior court here.

The court made the ruling when the lawyer for a wife demanded an increase in alimony, contended that the husband was able to pay and asked that he turn out his pockets to show how much money he had.

The husband refused and was upheld by the court.

COOK BOOK MENACES ESKIMO'S DIGESTION

Modern Recipes to Inject Novelty Into Diet.

Washington.—Dyspepsia and flabby appetites are probably in store for Greenland Eskimos. Late news dispatches from Copenhagen state that a cook book of 450 recipes has been compiled to inject novelty into the simple Eskimo diet. The volume will be translated into the native Greenland dialect.

"Igloo cookery presents few problems," according to a bulletin from the National Geographic society. "The Eskimo wife has never known the strivings of her white sister to excel as a 'fancy cook.' Her husband has never regaled her with tales of the pies his mother used to bake, for he has never tasted pastry, or candy of any sort in his life. Meat is his almost unvarying food. The meat of the polar bear, seal, walrus, caribou, white whale, narwhal, and musk oxen, are all palatable to him.

Simple Equipment.

"The average Eskimo bride starting housekeeping in a new igloo needs only four things in the way of furnishings: a meat knife, lamp, cooking pot, and sewing kit. The blubber burning lamp, which also serves as a stove, is usually near the entrance to the hut. Suspended from the ceiling above it hangs a large soapstone cooking pot from which comes the aroma of boiling seal meat. At the sound of the sleds returning from the day's hunting expedition, the Eskimo wife, crouching over the stove, stirs the pot of simmering seal meat for her husband's supper.

"Dropping in for an evening meal with an Eskimo family, one would see old and young squatted on their knees, and each ready with a knife. Each member of the group takes a piece of juicy, cooked seal or walrus meat in his left hand, shoves it into his mouth, and seizes a strip between his teeth. With a deft stroke of the knife, he cuts off a mouthful, just at the lips. Oftentimes liver and blubber are held in each hand, and eaten alternately. The meat is washed down with draughts of ice-cold water.

No Fruit or Vegetables.

"Fruits and vegetables are unknown items in the diet of the Eskimo. When the meat supply is exhausted, the Greenland Eskimos gather rockweed and kelp, and dig the bark of willow bush out of the frozen soil. This is cooked into a jelly in the soapstone pot. This food, however, is not pleasing to the Eskimo palate, and is eaten only to stave off starvation when more desirable food is unobtainable. The nearest approach to ordinary vegetable matter consumed by the Eskimo is the semi-digested moss found in the stomachs of the caribou. This material becomes the Eskimo's 'greens.'

"Fish eaten either boiled or raw, offer variety to the menu. Clams are also included in the seafood dishes of the Greenland Eskimo. He obtains them via the stomach of some freshly killed walrus who has just feasted upon the mollusks. Stuffed head of walrus is undoubtedly the subject of at least one of the new recipes designed for the Greenlanders. They are fond of the unadorned head, and could possibly cultivate a taste for an elaborate preparation of it.

"In the Greenland spring, the dovekie, or little auk, appears. This means another dietary change for the natives. Through the summer hundreds of these birds are netted and stored for food during the long winter months. The eggs of the elder duck, the brant goose, and the gull are the object of an intense search near the end of June each year. The family egg supply for the coming winter is stored in stone caches where the eggs become chilled first, and then frozen. They remain in this condition until eaten in the winter. Not all of the eggs collected are stored, however, for the Eskimo wife prepares an egg sausage, sometimes using as many as 300 eggs to one sausage. The eggs are broken and poured into a washed seal intestine, and in this state are eaten from time to time throughout the winter."

Coffee Stimulation Is Aided by Adding Cream

Norman, Okla.—Coffee with cream has a greater stimulating effect than black coffee, results of a scientific experiment at the University of Oklahoma disclose.

Mrs. Lottie Mae Russell Norman graduate student, found that coffee with cream produces a stimulation of 7.7 per cent at the end of 30 minutes and 7.6 per cent at the end of an hour.

Black coffee produces a stimulation of 3.6 per cent after 30 minutes and 5.6 per cent after an hour. Basal metabolism tests were taken to arrive at the conclusions.

Store Robbed 45 Times

Austin, Texas.—Owners of the Checker Front store here were pained when they found recently that burglars had paid them a visit, but they were not surprised. The store has been burglarized 45 times and hijacked twice in seven years, according to Arthur Smith, proprietor.

PERSONALS

Woodrow Norris spent Sunday in Owensville.

Mr. and Mrs. W. J. Fields, jr. spent Wednesday and Thursday in San Angelo.

John McClelland and George E. Allison were Sunday visitors in San Angelo.

Leslie Nance was in Ozona Wednesday on business.

Mrs. Jim Pharris, who underwent a minor operation Sunday, is reported to be improving.

The Rev. and Mrs. Dennis Macune of Austin spent Tuesday with the Rev. and Mrs. E. P. Neal.

The Rev. and Mrs. Z. E. Parker, Mrs. M. S. Davis and Mrs. Leslie Nance were in San Angelo Tuesday.

Mr. and Mrs. R. A. Halbert, Mrs. R. C. Vicars and Miss Muriel Simmons spent Thursday in San Angelo.

Mr. and Mrs. H. V. Stokes left Wednesday for Lampasas to be with Mrs. Stokes' mother who is seriously ill.

Mrs. Lois Landrum spent Tuesday night in San Angelo with her parents, Mr. and Mrs. J. D. Eaton, returning Wednesday.

The Rev. E. P. Neal and Mrs. Neal and children, Clovis, Carmon and Cadman, spent Saturday and Sunday of last week in Austin.

Mrs. W. Tyree Hardy of the Experiment Station community left Sunday to spend a week with her mother, Mrs. W. R. Dawes of Big Spring.

Mrs. Russell Martin of Del Rio, sister of Mrs. E. C. Mafield, underwent a major operation Monday in a San Antonio hospital. Mrs. Mafield left Sunday to be with Mrs. Martin who is improving.

R. H. Pfeister, manager of the 3-in-1 Service Station, was in San Angelo Saturday on business. He was accompanied by Mrs. Beulah Pfeister, Mrs. Thelma Briscoe and children, Louise and Harold, and Bill McGilvray, who visited Jack Pfeister, a student in the San Angelo Business College.

Pools for University Campus
Austin, April 5.—Among the details of the campus beautification plan at the University of Texas is the construction of three botanical pools near the Biological Laboratory. These pools, to be completed in about six weeks, are from forty to sixty feet in length and will be spanned by small stone bridges. Various kinds of water plants will be cultivated as an adjunct project to the teaching of botany.

At 8:15 April 13, "Icebound," 13 Dramatic Club. High School.—adv.

Changed Relief Plan Adopted

"Work Relief" Cards to Be Issued to Needy

The termination of Civil Works Administration activities April 1 has resulted in the supplying of relief by means of several programs sponsored by the Texas Relief Commission. These are: work division (work relief); direct relief; subsistence homesteads; rural rehabilitation projects.

Information concerning the new plan of operation was secured Wednesday by R. E. Taylor, county administrator, Mrs. Thelma Briscoe and Miss Edythe McGhee of the office staff at a meeting in San Angelo. The same group and James G. Caldwell attended a similar meeting in Junction Tuesday.

"Work relief" cards will be issued to those physically able to work. The amount of labor he is entitled to do will be indicated. It will be based on his actual needs. The new program is distinctly different from CWA work in that it is definitely for individual relief rather than for a group.

James G. Caldwell is in charge of the new management in Sutton county as certifying officer under R. E. Taylor, administrator. The accounting system which is being used has the approval of Washington officials. State executive officers of both Oklahoma and Kansas were in Austin recently to study the new system adopted by the Texas Relief Commission and designed by George R. Donnell, commission auditor.

Oriental Garment Manufacturing Co., Dallas, is a new Texas manufacturing company securing charter for business. Alvin Herold, Henry Boazman and R. Q. Mills are named as incorporators.

CARD OF THANKS
We want to thank all who were so kind to us during the illness and death of our father.
(adv) Children of Isaac Smith.

Plains Farmers Feed Sheep
Abernathy, April 5.—Thirty farmers in Lubbock county have fed 13,424 ewes and 8,910 spring lambs during the present season. Lambs were marketed through the Kansas City market. During the last few years breeding and feeding of spring lambs has increased and The Earth, Santa Fe Railway magazine, declares that it can now be considered a "major activity" in the county.

Versions on "When in Rome Do as Romans Do"

Like most such sayings, its origin is not really known. But it is often credited as the advice of St. Ambrose to St. Augustine. The latter was in the habit of dining on Saturday as on Sunday, but at Rome they had begun to fast on Saturday, and Augustine, puzzled by the difference in practice, appealed to St. Ambrose, the bishop of Milan. His counsel was:

"When I am in Rome I fast as the Romans do; when I am at Milan I do not fast. So likewise you, whatever church you come to, observe the custom of the place, if you would neither give offense to others nor take offense from them."

Other versions of his advice are given, and the same idea is found in other places, as in Burton's Anatomy of Melancholy: "When they are at Rome they do there as they see done."

MUSICAL AND ANIMAL SUBJECTS IN PROGRAM AT LA VISTA THEATER

The feature picture, "Flying Down to Rio," with Dolores Del Rio and Gene Raymond, will be presented Sunday and Monday. On account of the dance at the Sonora Motor Co. Monday night the show will begin at 7:30, allowing plenty of time for patrons to see the picture. The dance will start at 9 o'clock.

Today and tomorrow an animal picture, "Smoky," will be shown. The serial, "Devil Horse," will be on the same program.

Claudette Colbert in her latest picture, "Four Frightened People" is the feature for Tuesday bargain night.

"Gallant Lady" is the title of the picture for Wednesday and Thursday. It features Ann Harding and Clive Brook. Selected short subjects are also on the program.

Word "Up" Overworked
"Up" is said to be the most frequently used preposition in the English language, and certain commentators call attention to the fact that it is used superfluously, as it were, in such expressions as "sign up," "call up," "break up," "clean up."

Classified ads will get a buyer, a renter, a worker—they're fast and inexpensive.

"The Call to Modern Youth," Joseph Logan.

Talk by the Rev. E. P. Neal. Offering.

"Blest Be the Tie that Binds," hymn No. 85 followed by the benediction and doxology.

Episcopal Church
We welcome you to our Easter services at 11 o'clock Sunday morning, April 8, and we want all communicants of the Episcopal Church to make their Easter communion at that time. Everyone is welcome. No service in the Episcopal church is private except, at times, a private baptism or a communion with the sick. All other services are open to the public.
Frederic M. Braiser.

SENATOR WOODUL SEEKING LIEUT.-GOVERNOR OFFICE

Houston, April 5.—Senator Walter Woodul, member of the law firm of Blanchard and Woodul, has announced his candidacy for lieutenant-governor. In 1932 he was state manager of the Garner-Ford-Pratt forces and was also at the head of the Chicago delegation seeking Garner's nomination at the Chicago convention.

Senator Woodul served as president pro tempore in the state senate at the last session. He was born in Laredo and attended the University of Texas. He is credited with organizing the Houston community chest and has worked for that project actively each year. In 1916 he served in the national guard when it was engaged in border duty and during the World War he was also in the service.

RACKET PICKS COIN OFF FAMILY TREES

Despite Warnings Hundreds Fall for Swindle.

London.—Americans in search of a family tree should take warning from the latest of many statements about bogus genealogists issued by the United States consulate general in London.

For, according to the consulate general's office, these fly-by-night gentry this year are reaping a richer harvest than ever from the United States at the expense of those people who believe they are missing heirs to vast fortunes or have claims to noble birth.

Sixty letters a week are being received at the consulate general from Americans who believe they are missing heirs. As usual, most of them have no legitimate claim to any fortune and are told so by return mail, but for those who write to the consulate general there are hundreds of others who place their claims—and their dollars—in the hands of bogus genealogists.

At the consulate general's office there are hundreds of cases on record of people who have been defrauded of their hard-earned coin by these men.

Only recently a trickster living in London started—or claimed to have started—to compile the history of the Bennett family. Hundreds of Bennetts in America and Britain were circularized by this man, who said he thought they were associated with this "noble family." He promised to have a record of all the Bennetts privately printed. The dollars rolled in, but the subscribers are waiting for their book.

The Ancient Society of Genealogists is up in arms at this traffic, which, they contend, is dimming the fair name of all latent genealogists, but the authorities have a hard time in catching the swindlers, who move from one address to another with great rapidity.

Total Ages of London Family Thousand Years

London.—That he has the biggest family in London is the claim of Frederick Henden. Henden has had 21 children, 10 of whom are still living, 61 grandchildren (as far as he can remember), and 10 great-grandchildren.

Himself one of twins, Henden had 23 brothers and sisters, and as far back as the family history can be traced the Hendens have always had large families. His children are carrying on the tradition, for one daughter has 15 children and another 12.

Next year the total ages of the family will reach 1,000 years, and Henden, who will be seventy-three, has only had one ambition—to give a party and invite all his family, so that they could all be together. The Hendens have the distinction of being the biggest family mentioned in the London Roll of Honor, for 47 sons and grandsons are mentioned as having fought in the World war.

Police Keep Spendthrift From Wasting His Money

Omaha, Neb.—The first person James Kinney, Ulysses, Neb., met when he arrived here to paint the town red with \$855 he had accumulated, was a detective, who took him to the station and impounded the money. The desk sergeant allowed Kinney \$5 per day for red paint work and he thanked the entire department upon leaving several days later with his bank roll intact.

Copper Roofs Used

Miami, Ariz.—Roofs of copper sheeting are being built here, formerly the site of some of the state's largest copper-producing mines. The sheets are said to be as durable as any other roofing material.

Farley's Name Costs Taxpayers \$10,000

By W. S. BRUCKART

Washington.—Post Master General James A. Farley's name is going to cost the taxpayers of the country some \$10,000, about which there was no advance planning or codes or something. It comes about in this fashion: The new building that is to house the Post Office department will have a couple of gigantic blocks of stone near its entrance on which are engraved the names of all postmasters general since the first. The contract for these two engraved stones, was let during the administration of President Hoover, so that the last name on the list was Walter F. Brown of Ohio. But along came a change in administration and also a new head of the Post Office department, and his name had to be included.

The two great stones carried an equal number of names when they were shipped from the Indiana quarry. To include the name of Mr. Farley, the names on one stone have had to be shaved off because they exactly filled the space. They are now being relocated in somewhat closer proximity to each other so that Mr. Farley's name may be placed in the list. The contractors said that the cost was approximately \$10,000.

PERSONALS

Dr. C. C. McDaniel spent the week-end in San Antonio

Miss Lois Thmas spent the week-end at her home in Miles.

Mrs. H. V. Stokes, who has been ill of tonsillitis, is reported as improving.

Fayette Mayes of Big Lake spent Monday with Mr. and Mrs. W. J. Fields, jr.

Mr. and Mrs. Frank Bond and son, Frankie, were in from the ranch Tuesday.

Miss Debby Martin, Mary Louise Gardner and Faye James visited in San Angelo Friday.

Joe Hull and Mrs. Arthur Simmons spent the week-end in San Antonio with Mrs. Hull.

Mrs. Hilton Turney and Mrs. Ernest McClelland spent Thursday of last week in San Angelo.

Miss Lutie Carter of Sterling City spent the week-end with her sister, Mrs. Alton Hightower.

Mrs. Kate Good of Bronte is spending several weeks with her daughter, Mrs. N. R. Kennedy.

Mr. and Mrs. Edmund Heinze had as their guests Tuesday John, Tracy and Miss Geraldine Schovajsa from Miles.

Edgar Glasscock, student in Schreiner Institute, at Kerrville, spent the holidays with his parents, Mr. and Mrs. W. E. Glasscock.

Armor Earwood returned Monday to school in San Antonio after spending the Easter holidays with his parents, Mr. and Mrs. Fred Earwood.

Mr. and Mrs. Fred Lohn and son, of Lohn, Texas, were visitors in Sonora Friday and Saturday. Mr. Lohn was formerly manager of La Vista Theater here.

Mrs. A. J. Smith returned Monday from San Angelo where she has been with her little granddaughter, Mary Jane Evans, who has been ill with the measles.

Mrs. Josie McDonald, Mr. and Mrs. W. P. McConnell, jr., and Mrs. Stella Keene drove to Red Barn and the ruins of Fort Lancaster Thursday of last week.

Mrs. J. T. McClelland, accompanied by Mrs. Henry Decker and son, Billy Frank, left Monday for Santa Anna where Mrs. McClelland will receive medical treatment.

Hilman Brown, student of Texas Technological College, Lubbock, and his room mate, James Vowell of Dalhart, spent the Easter holidays with his mother, Mrs. Maysie Brown.

Mr. and Mrs. W. B. Brantley and their son, W. B., jr., and their daughter, Elizabeth, spent Sunday in McCamey. They were accompanied to Sonora by Mr. Brantley's brother, Mac Brantley.

J. H. Brasher, jr. and Pete Taylor returned Monday from Globe, Arizona where they have been working in the CCC camp located in the Pinal mountains, six miles from Globe. Both were honorably discharged.

Miss Pauline Turney, student at the University of Texas spent Saturday and Sunday with her parents, Mr. and Mrs. Paul Turney at the ranch. Mr. and Mrs. V. J. Turney

of Del Rio were also guests at the ranch for the week-end. Miss Turney returned to Austin Sunday afternoon.

Mrs. Braiser Ill in San Antonio
Mrs. Frederic M. Braiser, wife of Frederic M. Braiser, rector of the Episcopal Church, is receiving medical treatment in Houston from Dr. Phillips of the Mayo Brothers clinic, Rochester, Minn. In a letter to Sonora friends Wednesday, Mr. Braiser said that as he did not know the time of her arrival in Kerrville he might not be able to come to Sonora for his regular services until Sunday morning.

The only low-priced car with fully-enclosed Knee-Action Wheels and what a difference that makes in performance and dependability
Simple as a Shock Absorber!
Chevrolet's "fully enclosed" Knee-Action is, in reality, a gigantic shock absorber, built solidly on to Chevrolet's big, heavy frame, with the front wheel solidly anchored to the "shock absorber" arm. The result: When the front wheel comes in contact with a bump or hole, it rises or falls to absorb the shock.
CHEVROLET A smooth, restful, gliding ride . . . a bounceless back seat . . . a new feeling of safety and relaxation in high-speed or rough-road travel. All these pleasures are yours with Knee-Action wheels. And if your car has enclosed Knee-Action, like Chevrolet's, you not only get this gliding ride at its best, you also get two other extra advantages. One of these is shock-proof steering. And the other is dependable operation. The patent rights on this special kind of Knee-Action are held exclusively by General Motors. That's why no other low-priced car has it. Also, no other has a Fisher body, cable-controlled brakes, or a Blue-Flame engine of unsurpassed economy.

THE BALLOT AS A "VOTE OF CONFIDENCE"

Someone has said that brickbats are hurled so vigorously and so often at public officials that they completely dominate the picture and obliterate the few bouquets that now and then might be handed to those same ruling officers.

Only 38 of Sonora's 600 or more people who are eligible to vote for those who shall guide the business affairs of their town saw fit to go to the courthouse Tuesday to register their preferences. True, none had announced for any of the city offices. It was assumed that all of the present officials would continue for another two years. Everyone must have been satisfied with these who have been serving Sonora.

Yet it is to be regretted that more Sonora citizens did not see fit to spend a few minutes in registering themselves as believing in those in office by going through the formality of casting their ballots in a "vote of confidence" that would at least have served to encourage the mayor and two commissioners.

Devil's Dream

(By W. E. James)

COMING SOON—FLEA SHOW

Colonel Esaias Izadias Whiffletree, editor of the Torchlight, sat in his sanctum sanctorium gazing out the window while lazily drumming a tattoo, with his fingers, on top of his desk.

From down the street, faintly at first but growing louder on approach, came the rapid hoofbeats of a horse as he pounded the hard-surfaced street that led to the Torchlight office.

"That sounds like Two-Gun Ike's little roan horse comin' up the street," the doughty old Colonel mumbled to himself. "I wonder what in tarnation heck brings him to town this early in the week. Something must have happened at the ranch."

Before the Colonel could shift his position, a horse dashed up to the office door, the rider dismounting, and throwing the bridle reins to the wind, entered the office.

"Well, Ike, what brought you to town?" the Colonel asked in surprise. "Has the lone goat swallowed another green persimmon, or have you been meddling in Mrs. Bull's kitchen again?"

"Neither one, Colonel," replied Two-Gun Ike as he tossed his big ten-gallon sombrero over on a pile of old newspapers and dropped into one of the easy chairs. "I just come in to get a little advice, that's all."

"Now what?" smiled the Colonel. "Something about the goat business or have you got into another love scrape—so deep you can't get out without some freen and wholesome advice, eh?"

"Colonel, you'll 'll have to guess agin. I crave to know sumpin about fleas."

"Fleas! Great scott, man, have you gone plumb looney?"

"No, not 'at you can tell it. But listen, Colonel, they's a man come by the ranch this mornin' and he's been talking to me about the money a feller can make opratin' a flea circus—"

"Flea circus!" exploded the Colonel. "Now I know you've gone plumb loco. Guess the man wanted to swap you a flea circus for your interest in the Lone Goat Ranch, huh?"

"Shore did, Colonel. An' he's comin' back tonight fer his answer."

"So, that's the reason for riding a good hoss 'most nigh to death, hey? Want my advice on the merits of a flea circus, do you? Well, I'll tell you this much: if you learn as much about fleas in the next ten years as you have acquired on the goat business since you have been my partner, you should be rich in a month or two. I'll—"

"Now listen, old man, you ain't tellin' me nothin' I don't already know. Where would the Lone Goat Ranch be today ifn it wasn't fer the brain-work I put into the managin' of it? Anyhow, what yo'll say can't stop me now fer I shore aim to swap my right, title an' intrust in the LGR fer that flea circus jest as soon as that feller can git back here tonight. He's gone after his fleas now. Educated fleas, too, Colonel. You hear that? Educated; the feller said so. Fleas can do any—"

"I don't give two hoots in hades what they can do. Get out! You are wasting my time. I've got to write an editorial so's we can go to press with the Torchlight."

"Say, Colonel, make it on fleas, won't you?"

But before Editor Whiffletree could hit him with the editorial

shears, Two-Gun was on his horse and away as fast as the little roan could travel. He'll be back, though, and the Colonel knows, too, that he will. Two-Gun is aflame with flea-itis and he'll never rest until he knows the busines from A to Z. Yes, Two-Gun will know his fleas—just wait and see.

Sincerity of Purpose Shown

Portland Ore., April 5.—A man by the name of L. P. Dryden, one of a small colony of families which sponsored a back to the land movement rather than accept public charity, walked and begged rides in a 200-mile trip from the Southern Oregon Coast mountains to Portland to ask CWA headquarters for sufficient money to build a log school and pay a teacher \$50 a month. He felt they were entitled to that from the government. Their colony is 15 miles from a road or school.

Boy Scout Jamboree Set for April 20-21 in San Angelo

Scoutmasters and Committee Men Attend Monday Session at Camp Louis Farr

Seven men, scoutmasters or committeemen of the local troop, attended the informational course of training given at Camp Louis Farr near Mertzon Monday night.

Dr. Hal P. Bybee, chairman of the leadership and training committee, Bob Billington, scout executive, and Bascom Benton, all of San Angelo, were in charge of the meeting. Program and organization matters relating to the various troops of the area were discussed. A number of the Scouters who had not seen the new Yates Hall, completed last fall, inspected the building.

A round table discussion was agreed upon as a quarterly affair at the camp. On May 12-13 a "Specialization Course" will be conducted. A barbecue steak dinner was served to the 38 Scouters from the Concho Valley troops which attended the session.

Jamboree Two Weeks from Today Boy Scouts are now making plans for the big spring Jamboree of the Concho Valley Council to be held at San Angelo on April 20-21. The event will be held in the Boy Scout Log Cabin Village and will be sponsored by the San Angelo Lions Club.

Scouts will report by patrols and troops and will pitch camp for the night. Competition will include camping, cooking, attendance, inter-troop contests such as first aid, signaling, fire making, knot tying, campfire stunts and many other Scout projects. The individual and troop winners will receive banners and awards.

A highlight of the Jamboree will be the campfire program on Friday night at which time each troop will present a "stunt." The next afternoon a court of honor will be conducted for the presentation of Scout awards and the winners of the Jamboree.

Sonora business and professional men who attended the meeting at the camp Monday night were:

John Eaton, scoutmaster, Bud Smith, C. H. Jennings and F. T. Jones, assistant scoutmasters, R. S. Covey, A. W. Awalt and O. G. Babcock.

Mrs. C. H. Jennings, Mrs. Bud Smith and Mrs. F. T. Jones made the trip and visited in Mertzon while their husbands attended the Scout meeting.

BUILDING MATERIAL PRODUCTION INCREASES

Austin, April 5.—Production of cement in Texas during February totaled 280,000 barrels, against 195,000 in January and 197,000 in February, 1933, gains of 44 and 42 per cent respectively, according to the University of Texas bureau of business research.

Shipments of 273,000 barrels during the month were 3 per cent above the 264,000 barrels in January and 35 per cent above the 203,000 barrels during February last year. Stocks at the end of February stood at 492,000 and were 23 per cent below those of the corresponding date a year ago.

35 YEARS AGO

Thirty-five years ago activities of people were recorded in "The Devil's River News" in a manner far different from those of Sutton county people today. Among the news items in the issue of April 8, 1899, were:

Uncle John Allison was in from his ranch Friday for supplies, and left for home Saturday with J. F. Collins of Albany, Texas, who will likely buy his ranch.

Tellie Mills was in from the A. W. Mills ranch Tuesday.

Have you signed the Rock Springs mail line petition?

John Stewart of Sonora is among the Sutton county delegation attending court.

Sam Sowell, the sheriff of Ozona, was in Sonora Tuesday on his way to Junction to attend court.

Mrs. J. T. Gurley and Miss Ollie of Ozona were in Sonora several days this week on a visit to Mrs. W. H. Cusenbary.

H. C. unt, the new liveryman, has received a consignment of double and single rigs. If you want a stylish turnout, see Hunt.

Tom Jones, a young stockman from Brackett, was here Friday and met several old friends.

Mr. and Mrs. Brooks were in town several days this week. Bowles Bros., the painters, are always ready to do all kinds of painting in their line at reasonable prices. Give the boys a trial.

Frank Sparks, the bull man, left for his home in Coleman Tuesday.

McMullan & Myers intend selling 6,000 of their sheep this summer. They expect to stock their ranches with 4,000 sheep and 1,000 head of cattle. The range they have will furnish abundance of feed for that amount of stock.

SERVICE STATION THIEVES LEAVE GOOD FINGERPRINTS

Thieves were unusually bold in McCamey Monday night when they entered the A. H. Halley Service Station and hauled away a safe containing \$100 and valuable papers.

Fingerprints were found on a filing cabinet and a cash register by J. E. Grimland, who was called to McCamey Tuesday morning by W. C. Fowler, sheriff of Upton county. Mr. Grimland also found several fingerprints on a mirror the thieves were imprudent enough to touch on the desk at the station.

One suspect is in jail and his fingerprints were taken as well as those of several other persons who are expected to be eliminated from any connection with the crime when a comparison of fingerprints is made.

ONLY FOUR CITIES SHOW BUILDING PERMIT GAINS

Austin, April 5.—Permits to build granted during February in 36 Texas cities totaled \$892,548, against \$1,002,519 in January and \$1,119,958 in February, 1933, declines of 11 and 20 per cent respectively, according to reports made to the Bureau of Business Research of the University of Texas.

Houston, San Antonio, Sherman and Harlingen were the only cities to show substantial gains in permits over February, 1933.

Vaccine Users Urged to Watch Recent Scars

Vaccination Should Be Done Again If Proper "Takes" Are Not Observed

Investigations on some ranches recently have revealed that vaccinated lambs in some cases are not showing the required "takes" or scars at the points of vaccination, according to Dr. I. B. Boughton, of the Ranch Experiment Station.

This seems to be due to a preservative added to the vaccine to purify it. This may have killed the vaccine before the expiration date marked on the label. As a result the dead vaccine did not "take" and the lambs were not immunized against soremouth. Such lambs are still susceptible and may contract soremouth unless they are re-vaccinated with good vaccine.

Experiments show that the vaccine itself was not affected under 50 days after the preservative was added; in all these experiments the vaccine to which the preservative was added was kept in the icebox at all times except when in use. As a result of these experiments, the preservative was added to all vaccine shipped until March 31, 1934, and the bottles labeled with a 30-day expiration date. This 30-day date left a comfortable margin of safety for the use of the vaccine before it was affected by the preservative. Apparently, however, in some cases the vaccine was dead several days before the 30-day expiration date marked on the bottle.

All vaccine shipped between Jan. 7 and March 30, inclusive, had the preservative added to it just before shipment. Everyone who used vaccine shipped during this period should be sure that the lambs showed "takes" after vaccination. If there is any question as to whether the lambs showed "takes" subsequent to vaccination, revaccination is advised. In cases where the owner knows that the lambs did not show "takes" revaccination is imperative to prevent the disease developing when the soremouth season arrives.

In all cases where the lambs did not show "takes" and should be re-vaccinated unused vaccine can be returned to the station together with the number of doses need to revaccinate and the date of shipment desired. These orders will be filled free of charge and sent parcel post, prepaid.

UTILITIES SHOWS GAIN IN EARNINGS IN 1933

Chicago, April 5.—Gross total earnings of \$110,843.19, greater than in the preceding year, were shown today in the release of the 1933 annual report of the West Texas Utilities Company, which covers 159 communities.

Total gross earnings for the year were \$4,373,686.74. After a deduction of interest on funded debt and other charges a net income available for preferred dividends of \$282,010.82 remained. Provision for depreciation amounted to \$572,780.31, compared with \$236,682.54 in 1932.

The company announced that plans were being considered whereby, through a restatement of the common stock capital, there will be created a capital surplus of about \$3,800,000.

CARD OF THANKS

We want to thank the Sonora fire department for its excellent work in saving our property from destruction. We also want to thank the person who turned in the alarm. (adv) Mr. and Mrs. Lum Hefflin.

Mrs. R. A. Halbert
Is Bridge Hostess
On Wednesday

Mrs. R. A. Halbert was hostess to four tables of bridge at her home Wednesday of last week.

Mrs. A. G. Blanton won high and second high went to Mrs. A. C. Elliott. Table cut awards of Easter eggs filled with candy went to Mesdames J. B. Ross, W. S. Evans, E. F. Vander Stucken and B. M. Halbert, jr.

The hostess served a delicious salad plate to Mesdames Clara Murphy, E. F. Vander Stucken, S. R. Hull, A. G. Blanton, Roy E. Aldwell, P. J. Taylor, R. C. Vicars, B. M. Halbert, jr., A. C. Elliott, John A. Ward, jr., J. B. Ross, Collier Shurley, Nolan Kennedy, W. S. Evans, J. S. Glascock and Miss Ada Steen.

Mrs. R. C. Vicars
Saturday Hostess
To Queen of Clubs

The Queen of Clubs met Saturday afternoon at the home of Mrs. R. C. Vicars with three tables of members and guests enjoying bridge.

High score went to Mrs. John A. Ward, jr., and low club to Mrs. G. H. Neill. Miss Lucille DuBois won high guest score. Table cuts went to Miss Ada Steen, Mrs. W. S. Evans and Mrs. L. L. Stuart.

A delicious salad plate in the Easter motif was served to the following members: Mesdames S. H. Allison, Frank Bond, Duke Wilson, G. H. Neill, L. L. Stuart, J. A. Ward, jr., Tom White, Marshall Huling and Miss Ada Steen.

Guests: Mesdames R. A. Halbert, W. S. Evans and Miss Lucille DuBois.

Las Amigas Club
Is Entertained by
Mrs. N. R. Kennedy

Mrs. N. R. Kennedy was hostess to the Las Amigas Club at her home Thursday afternoon, March 22, with two tables of bridge.

High club score went to Mrs. Collier Shurley, low club to Mrs. Tom White and high guest score to Mrs. A. C. Elliott.

A chicken salad plate with iced tea was served by the hostess.

Members: Mesdames J. D. Westbrook, Collier Shurley, Tom White, R. C. Vicars and P. J. Taylor.

Guests: Mesdames A. C. Elliott, Andrew Moore, and Marshall Huling.

Mrs. W. S. Evans Is
Just-Us Hostess
Monday Afternoon

Mrs. W. S. Evans entertained the Just-Us Cub Monday afternoon at her home with bridge for two tables of members and guests.

Guests were Mesdames Russell Long, A. C. Elliott, James D. Wilson and Miss Alice Karnes.

Members were Mesdames R. A. Halbert, Libb Wallace and J. S. Glascock.

Lovely pottery vases were given to Mrs. Libb Wallace for high club score and to Mrs. A. C. Elliott for high score among the guests.

The hostess served a salad course.

Thirteen Dramatic Club presents "Icebound." April 13. High School.

Church Stewards
Entertained at
Minister's Home

The stewards of the Methodist Church were honored with an Easter party Thursday evening of last week at the home of the Rev. and Mrs. E. P. Neal.

Several amusing Easter games with the guests choosing partners preceded the "42" games.

The guests were Messrs. and Mesdames Clayton Puckett, Joe Logan, W. E. Caldwell, Joe Berger, P. J. Taylor, J. W. Trainer, L. E. Johnson, Mrs. R. A. Halbert, Miss Ruth Tipton, Edgar and Ira Shurley.

A delicious salad plate, cake and cocoa was served by the hostess.

Mrs. Robert Rees
Is "42" Hostess
Saturday Evening

Mr. and Mrs. Robert Rees entertained with two tables of "42" at their home Saturday evening.

Pie and coffee was served to Mr. and Mrs. O. G. Babcock, Mr. and Mrs. W. E. James, Mrs. Maysie Brown and Miss Thelma Rees.

Mrs. Brown and Mrs. James tied for ladies' high score and Mr. Babcock and Mr. James won high men's score.

CONTRACT CLUB MEETS
WITH MRS. A. G. BLANTON

The Contract Club met at the home of Mrs. A. G. Blanton Monday afternoon with Mesdames E. F. Vander Stucken, G. H. Neill, Clara Murphy and Will Wilkinson attending.

High score went to Mrs. Vander Stucken.

Good Attendance
at O. E. S. School

Fourteen from Sonora Attend San Angelo Meeting

Fourteen members of the local Order of Eastern Star attended the school of instruction Thursday of last week at San Angelo when the Concho Chapter No. 826 and the San Angelo Chapter No. 10 were hostesses for the occasion.

The school opened at 9 o'clock. Mrs. John Findlater, past worthy grand matron of Texas, gave the welcoming address.

In the morning session instructions in rituals and chapter work were given. A barbecue luncheon was served to the delegates and visitors in the Masonic Temple where the sessions were held.

Continued work in chapter instructions and study of the constitutional laws occupied the afternoon hours.

Mrs. Rose E. Potter, worthy grand matron, spoke after the initiatory degrees were given by the Mertzton Chapter in the evening.

In honor of Mrs. Potter and other grand officers a 6 o'clock dinner was served at the hotel. After this there was an informal reception and the presentation of gifts to grand officers at the Masonic Temple.

Mrs. W. L. Davis and Mrs. J. D. Westbrook received "A" certificates and the other local members received "B" certificates.

Both the Ballinger and the Big Lake chapters have asked for the school next year.

Finest of Barred Plymouth Rocks

Marie Felique, actress, is shown here with the barred Plymouth Rock cockerel, owned by C. N. Myers of Hanover, Pa., which was judged the best entrant in the annual exhibition of the New York Poultry show. Experts said it was the best of its species ever raised in this country.

April Meeting of
P. T. A. Held Tues.

Delegates Nominated to Attend District Meet in Abilene

The regular meeting of the Sonora Parent-Teacher Association was held Tuesday afternoon in the grammar school auditorium with a short program and business session.

Miss Rena Glen Shurley, accompanied by her mother, Mrs. M. G. Shurley, at the piano, gave several violin numbers.

Miss Maurine Phillips read the message from the state president.

In the business session delegates were nominated to attend the district meeting to be held in Abilene April 19-21. They were Mesdames E. E. Sawyer, S. T. Gilmore, M. O. Britt, C. H. Jennings, W. C. Warren, J. T. Shurley, R. S. Covey, W. C. Gilmore and Miss Annie Duncan.

Mrs. Lois Landrum, county health nurse, expressed her appreciation for the co-operation extended by the P. T. A.

Exhibit of 150
Paintings Shown

Members of Sonora Art Club Hostesses for Afternoon

An exhibit of 150 copies of world-famous paintings has been shown in the grammar school auditorium this week. Among this collection were lithographs, collotypes, colorprints and reproductions of paintings by old and modern artists.

The exhibit was open to school children in the mornings and to the public in the afternoons. Members of the Sonora Art Club were hostesses each afternoon.

The purpose of the exhibit was to secure funds for placing good pictures in the schools.

METHODIST Y. W. M. S.
BEGINS STUDY COURSE

The Young Woman's Missionary Society of the Methodist Church met Wednesday afternoon at the home of Mrs. Hix Hall.

A study course on "Missionary Messages of the Bible," led by the Rev. E. P. Neal was begun by the society.

At the close of the lesson Mrs. Hall served strawberries and whipped cream and cookies to Mesdames W. S. Evans, A. W. Awalt, Edmond Heinze, Russell Long, J. D. Westbrook, A. P. Prater, J. C. Stephen, Perry Mittel, Joe Berger and O. L. Richardson.

The next meeting will be with Mrs. A. W. Awalt.

The first and last thing that is demanded of genius is love of truth.—Goethe.

BRICKER-POWELL

The marriage of Miss Gertrude Marguerite Bricker and George W. Powell was solemnized at 8:45 o'clock Saturday evening, March 24, in the Baptist parsonage with the Rev. Z. E. Parker officiating.

Mr. and Mrs. Powell, who have both lived in Sonora for some time, will make their home in Rock Island, Texas.

W. M. SOCIETY CONTINUES
STUDY ON "CHRISTIANITY"

The Woman's Missionary Society of the Methodist Church continued the study on "Christianity and Industry in America," at its regular meeting Wednesday afternoon at the Methodist church with Mrs. L. E. Johnson as leader.

Mrs. Robert Rees led the devotional service.

OZONA YOUNG PEOPLE TO
BE GUESTS HERE SUNDAY

The young people of the Ozona Methodist Church will be guests of the Epworth League on Sunday night and honored with an informal banquet to be served in the basement of the Methodist church at 6 o'clock. A one-act play, "A Million Jobs Awaiting" will be presented by the Ozona young people, and directed by Mrs. Ted White. This will be given at 7:45 in the church basement.

BAPTIST MINISTER ATTENDS
CONVENTION AT OZONA

The Rev. and Mrs. Z. E. Parker and sons, Marion and Herman, and daughter, Dorothy Nell, and Mrs. Lee Holland attended the Baptist Sunday School and Training School convention in Ozona Thursday and Friday of last week.

There was an attendance of 200 people from a 400-mile area.

On Friday a chuck wagon dinner was served by the men of the Ozona Baptist Church for the guests.

MISS NINA ROUCHE CHOSEN
FOR DUCHESS IN PAGEANT

Miss Nina Rouche was chosen to represent the senior class in a pageant, "History of West Texas," at Sul Ross College, Alpine, April 28. Representatives from all West Texas schools will be special guests of the college for the day.

A part of the program will be the dedication of the new stadium with a football game between Sul Ross College and Texas Tech, Lubbock.

Girls Conduct Nursery

The Latonia Campfire Girls have established a nursery for the benefit of parents who do not want to keep their children with them while attending the show. Two girls are duty each evening. The nursery is located to the left of the ticket office.

Mr. and Mrs. C. E. Stites spent Monday in San Angelo with their daughter, Annella Stites.

Pulitzer Play to
Be Next Dramatic
Club Presentation

Rural New England Is Setting of Comedy-Drama Next Friday Night

A setting in rural New England and a plot centered around a family in that locality combine to give a promise of unusual interest to the 3-act comedy-drama, "Icebound," to be presented Friday, April 13, by Thirteen Dramatic Club under the auspices of Troop 19 of the Boy Scouts of America.

Rehearsals have been conducted for several weeks under the direction of Miss Marie Watkins, instructor in music at Sonora High School. Stage direction is in charge of Jodie Trainer.

The play was written by Owen Davis and in 1923 it was awarded the Pulitzer Prize award for the best dramatic production of the 12-month period. It enjoyed a long run when presented in New York with Robert Ames as the featured actor.

Scouts Will Profit

Fifty per cent of all the money received by the Boy Scouts for tickets they sell will go to the three patrols and to the general fund of the troop. The treasury of the patrol selling the most tickets will receive \$5, the treasury of the one selling the next largest number will be given \$3 and the other patrol will get \$2 for its efforts. The balance will go into the general fund of the troop.

A systematic canvass will be made by the boys in their efforts to sell the adults' and children's tickets.

The cast of the play as announced by Mr. Trainer is: Henry Jordan, Houston Stokes, Emma, his wife.

Mrs. Collier Shurley Nettie, her daughter by a former marriage, Mrs. J. M. Huling Sadie Fellows, once Sadie Jordan, Mrs. Tom White Orin, her son, Gerald Huling Ella Jordan, the unmarried sister, Miss Margaret Hull Ben Jordan, Joe Trainer Doctor Curtis, Collier Shurley Judge Bradford, J. M. Huling Jane Crosby, a servant, Miss Marie Watkins Hanna, a servant, Miss Gertrude Babcock Jim Jay, (to be assigned)

Sunday School and
College Days Planned
By Methodists

Plans for observance of Sunday School Day, May 6, and for College Day, a special Sunday service for college students, were discussed Tuesday night at a meeting of the Methodist Church workers' council and the local board of Christian education at the home of Mr. and Mrs. O. G. Babcock.

The Sunday school day services will be centered around a special program by both children and adults. Committees were appointed to arrange plans for the day's activities. Reports were received from executive officers of the various departments of the church.

Those who attended the meeting at the Babcock home were: Mesdames J. D. Westbrook, L. E. Johnson, B. W. Hutcherson, Maysie Brown, Tom Driskell, Joe Trainer, and Mrs. W. E. Caldwell; Miss Gertrude Babcock, Miss Johnnie Allison; Edgar Shurley, O. L. Richardson and the Rev. E. P. Neal.

In 1895, the name "CHIROPRACTIC" was coined to give name to a working "PRINCIPLE."

The "CHIROPRACTIC PRINCIPLE" is a Sound, Logical and Proven fact

A Subluxated vertebrae, which is a bony segment of the Spinal Column, that is out of its proper position to the extent, that it presses on the Spinal Cord and Spinal Nerves, causes dis-ease.

A Subluxated Vertebrae dams back the nerve energy from the brain, thereby cutting off 100 per cent life to organs, tissues and muscles of the body.

A Subluxation is the Cause of dis-ease. To adjust the cause—Removes the cause of dis-ease; thereby proving the working "Principle of Chiropractic."

Station Scouring Plant Determines Shrinkage Factor

Livestock Raisers Able to Know Grades of Clips Without Sending East

College Station, April 5.—For ten years the Texas Agricultural Experiment Station has been operating a small wool scouring plant at the Agricultural and Mechanical College of Texas for sheep and Angora goat producers who desire to gain more definite information as to the grades and shrinkages of their respective clips. This service will be rendered again this season for those who are interested in this phase of the ranching business, according to S. P. Davis, wool and mohair specialist at the station.

The scouring equipment in the plant is of the same type as that used in the commercial scouring plants of the east. Prior to the installation of this plant it was impossible for Texas ranchmen to obtain information on wool grades and shrinkages on samples without contacting with commercial testing plants located in the eastern part of the country.

Livestock Men Profit
Some of the benefits derived by growers from sending representative wool samples to the plant are as follows:

(1) The grower has an opportunity to gain an insight into the commercial grade of wools produced by his sheep. This aids the sheep man in interpreting market reports as published in the daily press.

(2) The grower is acquainted with the different factors that affect shrinkage. Shrinkages of fine wools within the state range from as low as 55 per cent to over 80 per cent in a few isolated instances. As wool is bought on an estimated

STARTENA DOES THE JOB!

TWO POUNDS of PURINA STARTENA gives you the kind of chick you want at six weeks. It's more for your money than you can get any other way. "Just as good" feeds can't do it. Only STARTENA can give you STARTENA results. So before you get your chicks, stop in and let us show you what two pounds of STARTENA per chick will do for you.

E. F. Vander Stucken Co., Inc.
Since 1890

clean content basis, the shrinkage factor is of great importance to the sheep man. For instance, at the present Boston prices, the wool having a shrinkage of 55 per cent would have a value of about 38 cents in the grease. The wool having a shrinkage of 80 per cent would have a value of about 17 cents in the grease, or less than half the value on a grease basis of the lighter shrinkage wool.

(3) Stud breeders use this service to check fleeces from individuals in their flocks to determine accurately those sheep producing the highest quality and quantity wools.

(4) Breeders and growers learn of the desirable types of wools for manufacture.

This service is also rendered to wool buyers, dealers and warehouse men with the idea of creating a better knowledge and understanding between all persons concerned in the wool trade in Texas.

Full information as to the method of selecting samples, etc., may be obtained from the Wool Scouring Plant, College Station, Texas.

UTAH LUMBERMAN TELLS NRA VALUE TO DEALERS

Salt Lake City, April 5.—Declaring that the National Recovery Act and its administration "provide a most wholesome inventory time," O. D. Romney, jr., president of the Utah Lumber Dealers' Association, told the delegates to the ninth annual convention in this city that "this certainly is the time for business men to put their houses in order."

He expressed regret that NRA had not "been put into action 10 years ago," but declared that industry would gladly abide by its regulations. Business, he said, had "been running away," and a "checkrein" was necessary. He added, "lumbermen are finding out that there is a place in the business world for the little merchant along with the big, and there are ethics which must be adhered to."

Next Friday, "Icebound," H. S. Auditorium, 8:15. Comedy-drama.

Hands Are Supposed to Reveal Facts About You

Without having any skill as a fortune teller or believing in palmistry, you can often discover quite a lot about the people you meet by casually observing their hands, says the Montreal Herald. For instance, a short, broad palm is said to belong to a person with plenty of practical ability, one who will not let his or her feelings run away with common sense. On the other hand, a palm which is narrow shows a dreamy and unpractical temperament. Slender, tapering fingers are commonly taken as an indication for musical ability. But as a matter of fact what they show is musical or artistic feeling, often not allied to executive talent. The hands of professional musicians with high technical skill are very often short. People who have difficulty in fitting rings because their joints are large and knobby, always possess a love of arguing. Fingers which are square-tipped belong to patient and sensible people, and nearly always augur success. A palm hard and firm to the touch shows that its owner is hard-working, and can be content with simplicity. The soft, yielding palm is possessed by luxurious persons who love ease and comfort, and is not inclined to overexert herself. White marks on the nails are almost always a sign of ill-health of some kind.

Gold Mines of Britain Are Not All in Banks

The vaults of the Bank of England are not the only place where gold may be found in England. The wedding rings of the queen, the princess royal, and the duchess of York, for instance, were made of Welsh gold. The brides of the Sutherland family are married with rings from the mine at Kildonan, in Sutherlandshire, and there is a real gold reef underlying the Forest of Dean that is said to resemble that of the famous Witwatersrand in the Transvaal. Gold mining in the Carmarthenshire was an industry established by the Romans. In fact, the industry is older than that, for in the British museum there is a more ancient corselet of Welsh gold, and a breastplate of beaten gold was found in a Celtic "barrow" in North Wales. In the thirty years before 1911 £370,000 worth of gold was taken from a mine near Dolgelly. Besides the mine at Kildonan, there are many other gold fields in Scotland. A nugget weighing 27 ounces was found in Lanarkshire, and nuggets have often been found in the mountain streams.

Size in Brains

Step by step medical men have built up a mass of information about the brain. Thanks to experiments on dogs and chimpanzees, the surgeon now knows exactly which part of the brain controls every function of the body. According to the symptoms he knows just what part of the brain is diseased and where to operate. In the field of brain surgery there can be no guessing. Many geniuses have willed their brains to medical science. Turgenev, the Russian novelist, had one of the largest brains on record. It weighed more than four pounds. However, the size of the head is not an accurate measure of the intelligence, for one of the two brains that exceeded his in weight was that of an imbecile. Large brains have no more units than small ones, but the units are larger. —Popular Science.

Shakespeare Used Dictionary

Shakespeare resorted to a dictionary! Distressing as this sounds, such is the case, according to commentators. The Bard of Avon is supposed to have consulted not one but several volumes, when he got stuck for a word. Thomas' Italian Grammar was extremely popular among scholars of Shakespeare's day and he is supposed to have made use of it in writing many of his plays, especially Romeo and Juliet. Commentators frequently quote this work as authority for Shakespeare's use of certain words and terms. John Florio's World of Words, published in 1598, is believed to be the dictionary most used by the great dramatist.

Protection of Copyrights

In the United States the original copyright runs for 28 years. The author or copyright owner, or his heirs, may have this extended for another 28 years if application is made within the year prior to the expiration of the original copyright. Hence any work published in the last 56 years is likely still to be within control of the author, publisher, or some other individual, but there is no protection on works older than that.

Buried Beside His Horse

Within six feet of his favorite mare, Black Bess, the novelist, Charles Henry Cook, more widely known as John Bickerdike, was buried in a grove of tamarisk trees at Cape Province, South Africa. He was a keen sportsman and also a naturalist. He directed that his tombstone should bear these words: "He loved his fellow men. Here also lies his faithful mare, Black Bess."

When Sap Flows in the Maple Trees

Two Quebec habitants boiling syrup in the traditional fashion at a roughly constructed shed. A yoke across the shoulders enables the man to carry two buckets of sap to the kettles.

Death of Elephants

In spite of the fact that use is made of the legend in fiction and the movies, that sick elephants really go to an "elephant graveyard" to die, we can find no record of such a place being found, says Answers Magazine. Some facts, however, indicate that such places might exist. From time to time natives appear with elephant tusks that are obviously of old age, maintaining that they are found in the bush. Then, too, dead elephants are seldom found except those shot or trapped. Many hunters have never found natural death remains of elephants. One theory to offset this legend is that a dying elephant wanders blindly into a stream or marsh where he perishes and disappears. This is borne out by the fact that nearly all elephant fossils have been found in soil that was once covered by water.

Starfish Is Enemy of Oyster

The starfishes are among the most formidable enemies of the oyster. One means of destroying them is to catch them on a specially designed apparatus made of frayed rope, called a "tangle," and then kill them by plunging them into hot water. Persons engaged in this work know better than to cut the captured starfishes in pieces and throw them back into the water. This would mean more starfishes than ever to prey upon the oysters, for each piece of starfish replaced in the water alive has a chance eventually of developing into a complete starfish.

Day That Lasts for Months

Summer in Greenland lasts only one day, but it's a pretty long day. There are four months on end of continuous daylight. But this has to be paid for in winter, when the midnight sun gives way to the mid-day night. For there are four months of darkness—tempered by the moon and the aurora borealis—to balance the four of daylight. Only for four months out of the twelve do the Greenlanders have alternate day and night like ours.

OZARK PEOPLE TO MAKE MERRY IN MISSOURI CITY

Springfield, Mo., April 5.—The people of the Ozarks will have their Spring Folklore Festival, April 17 and 18 in this city.

Preparation of a distinctly audible nature is progressing. The mountains echo the refrain of "Swing yer partner, balance all," chanted to the scraping of fiddles and rasping of guitars. And the stamping and shuffling of limbering feet to the hoarse cry of "cut a rusty" and "knock the backstep."

Since last summer and fall hundreds of the hill folks found employment in factories, foundries and creameries under the NRA in scores of communities of south-east and southwest Missouri, while back into the hills went the CWA in November. Sunshine was spread where gaunt despair had abided for years. The strange, clannish hill folks are rejuvenated as none in this region can recall.

The art of "calling" the Ozark folk dances demands a stentorian voice, of course. The voice must rise above the music, the constant handclapping and the unceasing foot movements. Formerly there were only a few callers, but now there floats o'er the hills a vast volume of "meet your honey, go 'round and 'round," and the adepts say the festival will be "the best in 30 years."

Oil Industry Very Old; First U. S. Well in 1859

The petroleum industry, rising to its heights with the advent of the automobile and the subsequent other types of petroleum product users has its roots far back in antiquity, says the Washington Star.

The priests of Zoroaster, ever ready to use any power which would act to their control over the superstitious followers of their religion, built temples over oil and gas fields where seepages from the ground had become ignited. These so-called sacred flames filled the ignorant folk with a terrible awe, and they were held easily under the thumb of the priests of the temple.

The Babylonians used petroleum pitch and oil in defense of their cities against invaders, pouring the burning fluids from their walls down on the soldiers who sought to scale the walls with ladders.

Many ancient peoples found certain curative properties in petroleum, and they also found that it would burn in the crude lamps of the early days of history.

The first oil well driven in this country was the famous Drake well, which was brought in at Titusville, Pa., in 1859. It was the forerunner of the vast oil industry of the United States.

Mr. Monkey Is Boss

Contrary to common belief, the monkey is an ideal pet, although he is considered dirty both bodily and in habit. Bodily he may be kept as clean as the whitest white dog. In habit, he is not as bad as painted. The ability to imitate all but the speech of humans ranks the monkey interesting beyond all other animals. The monkey's natural life is happy. He seldom comes down to the ground, spending his time climbing from limb to limb and swinging on top of tall trees. Monkeys travel in troops, each headed by a male sultan who rules over his half-dozen or so females and their offspring with a blithe and snappy supremacy. Mr. Monkey is the boss. Mrs. Monkey is just one of his harem. If for any reason the chief is removed, another male moves in and takes over the

THE STATE OF TEXAS COUNTY OF SUTTON

J. H. Mathews et al, plaintiffs, vs. Mrs. Laura DeLossie Haynes et al, defendants—in the 51st Judicial District Court of Tom Green county, Texas.

Whereas, by virtue of an order of sale issued out of the 51st Judicial District Court of Tom Green county, Texas, on a judgment rendered in said court on the 18th day of January, A. D. 1934, in favor of J. H. Mathews, guardian of the estates of Willie Mae Mathews and Minnie Pearl Mathews, minors, and Lennie Lorena Mathews Aiken and Edwin Aiken, Plaintiffs, a n d against Mrs. Laura DeLossie Haynes, Sam L. Haynes, O. G. Stroud, Mrs. Lydia Whittlesey, S. B. Whittlesey, Clifton Stroud, Nola McKelvy, Martin McKelvy, Raymond Alexander, Robert Stroud, Norene Smith, H. J. Smith, jr., Mrs. M. M. Oates and John Oates, defendants, numbered 8904-A on the docket of said court, I did on the 3rd day of April A. D. 1934, at 2:30 o'clock p. m., levy upon the following described tracts or parcels of land situate in the counties of Sutton and Kimble, state of Texas, and belonging to the said defendants, Mrs. Laura DeLossie Haynes, Sam L. Haynes, O. G. Stroud, Mrs. Lydia Whittlesey, S. B. Whittlesey, Clifton Stroud, Nola McKelvy, Martin McKelvy, Alma Alexander, Raymond Alexander, Robert Stroud, Norene Smith, H. J. Smith, jr., Mrs. M. M. Oates and John Oates, to-wit:

Section 26, Cert. 436, W. G. Scales, grantee, in Sutton county, Texas, containing 603.6 acres of land and Section 6, Block A, Cert. 1-183, GWT&PRY. Co., grantee, in Sutton and Kimble counties, Texas, containing 944.4 acres of land; aggregating 1548 acres and known as the "Stroud Ranch"; and on the 1st day of May, A. D. 1934, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day at the courthouse door of Sutton county, Texas, said lands above described being for the most part situated in said county of Sutton, state of Texas, but partially situated in Kimble county, state of Texas, and being in a solid body, I will offer for sale and sell at public auction for cash, all the right, title and interest of said defendants, Mrs. Laura DeLossie Haynes, Sam L. Haynes, O. G. Stroud, Mrs. Lydia Whittlesey, S. B. Whittlesey, Clifton Stroud, Nola McKelvy, Martin McKelvy, Alma Alexander, Raymond Alexander, Robert Stroud, Norene Smith, H. J. Smith, jr., Mrs. M. M. Oates and John Oates, in and to said property.

Dated at Sonora, Texas, this 3rd day of April, A. D. 1934.
B. W. HUTCHERSON,
Sheriff of Sutton county, Texas.

Ex-Students Will Honor Faculty at 1934 "Round-Up"

Five Professors Have Taught at University More Than Forty Years Each

Austin, April 5.—A luncheon honoring five faculty members who have served the University of Texas more than forty years will be one of the features of the Fifth Annual Round-up April 13, 14 and 15.

The luncheon, in the new Union Building, is one of the entertainment features of the ex-student home-coming known as the Round-Up. The luncheon is Friday, April 13.

T. U. Taylor, dean of the College of Engineering; Dr. F. W. Simonds, professor of geology; Dr. T. Calloway, professor of English; Dr. H. W. Harper, dean of the Graduate School; and Dr. W. J. Battle, professor of classical languages are the five faculty members to be honored.

Dean Taylor is the oldest of the group in point of service, having been on the faculty 46 years. He began teaching at the university in 1888.

Serving 44th Year

Dr. Simonds, next oldest in point of service, is oldest in years. Although an octogenarian, Dr. Simonds is actively teaching in the department of geology and has seen all of the developments in the field of his science since he became a teacher of geology when the knowledge of the subject was in its infancy. Dr. Simonds has been with the university since February, 1890.

Dr. Calloway, whose presence on the campus dates back to September, 1890, is looked upon as an authority upon the history of the English language and has devoted much of his career to research in that field.

Dr. Harper has seen the Graduate School grow under his direction from a comparatively small beginning to an important place in the scheme of the university. Dr. Harper, who is both a practicing and teaching chemist as well as a dean, came to the university in 1894.

Dr. Battle, the only one of the five who has acted as president of the university, came to the faculty more than forty years ago, but due to a three-year absence when he accepted a place on the faculty of the University of Cincinnati, his actual time on the campus is slightly under forty years. He joined the faculty in 1893.

Tax Collector Excels

Sheffield, Mass, April 5.—As a tax collector Clarence A. Warner here has a record which men in similar positions all over the United States might do well to strive to equal. Every penny of the \$42,000 taxes due in 1933 has been collected and for the previous twenty-seven years that Mr. Warner has served there is not a cent due from taxpayers.

Old Time Horse Racing

Henry VIII was the first English monarch who seriously took up the sport of horse racing. Markham, who wrote in 1599, gave elaborate instructions how to train "Arabian coursers" for their engagements. His nostrums would amuse modern trainers. Among them were rules for anointing a race horse, the night before his contest, with neatfoot oil, and for feeding him on white bread toasted. The last office, after saddling, is to inject strong vinegar into the nostrils of the horse to clear his wind!

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the St. Angelus Hotel, San Angelo, Thursday and Friday only, April 12 and 13, from 9 a. m. to 5 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments. Mr. Shevnan will be glad to demonstrate without charge or fit them if desired. Add. 6742 N. Rockwell St., Chicago. For 15 years assistant to F. H. Seeley, famous rupture expert of Chicago.—adv.

Digging His Own Grave

By R. T. M. SCOTT

©. by McClure Newspaper Syndicate, WNU Service.

AURELIUS SMITH'S fight with Bull Danby was a desperate affair. Smith usually fought with his mind while he allowed his lanky, lazy body to assume the most comfortable posture possible but, when Bull Danby looted a Los Angeles bank, Smith found himself so close to death that he had to fight with everything that was in him. Smith knew Danby but had always failed to pin anything on him and Danby was convinced that Smith should be killed before he became successful.

Danby made the mistake of letting himself be recognized before he escaped in his high-powered car with the bank's money. Fifty miles from the city, on a lonely mountain road the bandit's car broke down. The police found it and were certain that Danby and his one companion had struck into the mountains on foot. The sheriff was organizing several posses when Aurelius Smith, in the pay of the looted bank, decided to look over the ground alone and in advance.

Near the deserted car was an old and precarious trail which ascended the mountain along the side of a deep valley. Smith, his long legs dangling from the back of a small burro, turned into this trail and began to ascend. The narrow and dangerous path wound tortuously and rose abruptly.

He had been riding for several hours when his burro halted suddenly. On the path ahead a large rattlesnake was coiled with raised head. Evidently it was temporarily blinded by the summer heat. Smith took a spare cartridge from his pocket and tossed it at the snake which struck viciously at nothing and glided under a small bush. At the same instant a rock crashed down the mountainside and struck the trail a few feet behind the burro. The animal dashed ahead but Smith kept his seat and pulled his mount to a halt at a spot where the trail broadened sufficiently to make a turn.

Glancing upward he saw nothing but jutting rocks and steeply rising slopes. He bent forward slightly, ready to kick his heels into the burro's flanks. As he did so there was a flash and a sharp report from above. The burro started violently and Smith fell, a limp and inert shape upon the narrow trail.

There was silence and then a man rose from behind a boulder on the mountainside and looked down. As he did so an arm from the figure on the trail shot upward and there was a roar from a forty-five. The man dropped behind the boulder and the next second the lanky Smith was clawing his way up the steep slope.

Behind the rock, which had concealed his assailant, he found his man lying face downward, beside some canvas bags and a shovel. Pistol in hand, he stooped to feel the heart of the prostrate man.

"Put 'em up!" Bull Danby rose from a rock twenty feet higher up the slope—gun in hand. Smith dropped his pistol and raised his hands while the man on the ground rolled over and stood up after securing Smith's pistol. Certainly Smith was caught.

Danby insolently confronted his captive. After staring gloatingly for a few seconds, he spat full in Smith's face. Desperate as he was, Smith did not forget the value of keeping his temper. He smiled.

That smile infuriated Bull Danby. He kicked the shovel toward Smith and told him to dig the hole bigger and at least six feet long.

"We'll bury you with the money from the bank," Danby snarled, "and you can guard it until we come back. Now get to work!"

It was to be his grave. He lowered his hands, shrugged his shoulders and picked up the shovel while Bull Danby's companion, a gun in hand, watched him.

"He may have money," suggested Bull's companion as Smith began to dig. "We only got high denominations from the bank and we need small stuff. Keep him covered while I go through his pockets."

Smith dropped the shovel and stood meekly with his hands clasped as the man came toward him. He still had a trick left and, with a little luck, he might win. His attitude was so innocent that it was quite disarming and yet it was the most advantageous attitude that he could assume. Bull Danby noticed nothing suspicious and stood, ten feet away, with his pistol dangling in his right hand.

As the would-be despoiler came between him and Danby, Smith slipped the fingers of his right hand into his left cuff. When the thieving fingers entered the first pocket, Smith drove his knee with great force into the pit of the man's stomach and, extracting a tiny revolver from inside his left sleeve, fired as Danby raised his arm to shoot.

Bull Danby dropped his pistol and clutched his right shoulder while the other bandit sprawled senseless upon the ground. Smith collected the various weapons, lighted a cigarette and made himself comfortable to wait until some of the sheriff's men might ride up the trail. With a quick stroke he had won in the middle of digging his own grave.

Contracts Let for Nearly All of Road Program

Texas Good Roads Association Trying for Federal Aid

Houston, April 5.—All but approximately \$5,000,000 of the present \$26,000,000 NRA road-building program for Texas is now under contract. Unless congress sets aside added funds for highways in the new public works appropriation, tens of thousands of Texans will be thrown out of work this autumn and the state's hope for adequate main roads for its Centennial will be blasted.

This was the warning issued by the Texas Good Roads Association recently through its president, Judge W. O. Huggins of Houston, who appealed to all influential Texans to impress upon members of congress their wishes regarding provision of funds for roads.

Col. Ike Ashburn, manager of the association, has been in Washington urging the case of road-construction upon congressmen, senators and administration leaders. In company with officials from other under-improved states, he has been pleading for an added \$400,000,000, especially for highways.

This would provide Texas with another \$24,000,000, duplicating the present program which spreads over every one of the state's 254 counties on a minimum basis of \$4 per capita.

The present program will reach its peak in June or July and begin dropping off thereafter at the rate of \$2,000,000 to \$4,000,000 per month, throwing thousands out of work, unless the supplemented appropriation is made, the statement said.

Hope of closing the gaps in Texas' main roads for her Centennial and in order to boost the tourist hegira to Mexico, hangs on getting this federal money, it added.

Fooling Her

An Atchison maid overheard her mistress say: "I can always tell when the maid has dusted the pictures, because after they are dusted she leaves them hanging crooked." So now the maid, instead of dusting the pictures, gives them a little push, making them hang crooked. She says it saves a lot of time, and her mistress believes the pictures are dusted.—Atchison Globe.

Brazil Nuts

The Brazilian nut tree, a native of the country the name of which it bears, grows to an average height of 75 feet. The fruit resembles a coconut, and is about a third larger. Each ball contains from 12 to 20 nuts, all three-cornered in shape and nicely packed together. During the season of their falling it is dangerous to enter the forest without a shield, as the force of their descent is sufficient to knock down the strongest man.

The First Jazz Band

The Royal Artillery band, which accompanies the Woolwich searchlight tattoo, was the only regimental band recognized and provided for in the estimates of 1832. In that year it consisted of 38 performers, including two negroes who played the big drum, the cymbals, and the "Jingling Johnnes." This apparently was the first official recognition of a jazz band.—London Mail.

Resin First Gathered in 1600

In America the collection of resinous sap from pine trees began as early as 1600, says the American Tree association. Until the middle of the Nineteenth century the methods employed were primitive and the uses of the product were limited. Later the number of uses to which the products were put increased greatly.

Station B Wins Close Ball Game With Junction

Kimble County Players Fail to Hit Gardner When He Returns to Game

The team from Station A will play the Ellis Parts Co. team of San Angelo Sunday at 3 o'clock at Eldorado.

Seven hits netting six runs for Junction in the seventh inning failed to "do the job" for that town Sunday when Station B defeated the team from Kimble county by a score of 7 to 6.

In the fifth when the station team was leading three to nothing Gardner, pitcher was relieved by Barnard. Barnard did well in the sixth but lost his curve in the seventh and eleven Junction players faced him and connected with the ball to secure seven hits and six runs. Gardner returned to the mound when only one was out and a man on each base. He secured two strikeouts to end the "race-track" the visitors had developed.

Station B rallied in the eighth inning when it secured one run and again in the ninth when three men crossed the home plate after a circuit tour of the bases.

Gardner was credited with sixteen strikeouts. He allowed three hits. Ragland and Goodwin pitched good ball for Junction, Ragland allowing three hits in four innings and Goodwin nine in five sessions.

The box score of the game was:

Station B		Junction	
AB	R H PO A E	AB	R H PO A E
Davidson, 2b	4 1 1 0 0 1	King, 2b	5 0 0 2 0 1

Grammar Students Publishing "Paper"

Complete "Staff" Responsible for New "Newspaper"

Planned in part as a project incidental to the teaching of English, "The Grammar Gossip," produced by students in the grammar school, is the newest Sutton county journalistic effort.

A staff similar to that of a real newspaper produces the publication every two weeks. Editors who were selected from the sixth grade are: Jimmie Gwynn Langford, editor-in-chief; Claude Thomas Driskell, city editor responsible for all local news; Faye Goode, society editor. There are a number of reporters. The second issue appeared last week. It is in mimeograph form and occupies one side of a standard letterhead. It is planned to add cartoons, verse and stories and it is expected that more than the one page now used will be necessary to contain news of the various activities of all the grades.

"The Gossip" is unique in that it carries no advertising and does not have a subscription rate. It is under the sponsorship of Miss Florence Langford, Miss Vivian Ball and N. S. Patterson, instructors in the school.

Silver Mines Operating Presidio, April 5.—Mining activity here this spring has developed with unusual rapidity. The Shafter silver mine, 21 miles north of here, has a force of 150. It is owned by American Metals Company which has announced extensive improvements for its property. There are rumors that the Dunman Perry mine and three other small mines will be operating soon. The Carlos silver mine near Ojinaga, on the Mexico side of the Rio Grande, will reopen after improvements have been made.

ANNOUNCEMENTS POLITICAL

(Editor's Note—Candidates will be listed in the order received. Rates will be as follows, payable in advance: Precinct offices, \$5; county offices, \$10; district offices, \$15. Announcement will be carried throughout entire year until time of final election. Payment of fee entitles candidate to a statement not exceeding 100 words. Portions of statements over 100 words will be charged for at 10 cents a line).

The following candidates announce for the offices designated, subject to the action of the Democratic Primary, July 28, 1934:

For Congressman, 21st Congressional District:
CULBERSON DEAL

For Sheriff, Tax Collector and Assessor:
J. K. LANCASTER
B. W. HUTCHERSON

For County Judge:
ALVIS JOHNSON

For County Treasurer:
MRS. A. J. SMITH

GRAMMAR SCHOOL BOYS COMPETE, TRACK EVENTS

Enthusiasm for track sports has reached a point in Sonora where even the youngsters are having their fling at the dashes and jumps.

In a meet Monday and Tuesday for boys of the fourth, fifth and sixth grades the pupils of the fourth made more than three times as many points as the older boys of the sixth grade. The final results showed the fourth grade as having 34 points, the sixth 11 points and the fifth 4 points.

Jesse Kring was high point man of the events. He secured 18 of his grade's 34 points. N. S. Patterson, English instructor, is in charge of the boys' training in athletics of the track type.

Don Cooper III in California

Don Cooper, young son of Mr. and Mrs. Tom Cooper, Glendale, California, is reported to be recovering from a mastoid operation. Mr. Cooper is a former resident of Sonora and a brother of Alfred and Pat Cooper.

There is no more important component of character than steadfast rescue.—Theodore Roosevelt.

LARGE GOAT LOSS IN ROCKSPRINGS DISTRICT

The loss of 4000 goats by Mrs. W. J. Greer and son, James Leo, of Rocksprings, during the recent cold rain was reported here Monday by S. W. Dismukes of Rocksprings.

Mr. Dismukes and Mr. and Mrs. L. B. Smart were on their way home from San Angelo where they had taken Mr. Dismukes' son, I. B., who is a student in Texas Technological College at Lubbock. He had been visiting his parents during the Easter vacation.
