

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCTOBER 26, 1939

VOLUME 17 NUMBER 40

3 Percent Off On Taxes If Paid In October

Tax paying throughout Texas began October 1, and in Bailey county these payments are reported coming in fairly well, about \$2,500 state taxes and \$6,000 county taxes having been received up to the first of this week, according to Deputy Collector M. G. Bass. There have also been some payments made on school taxes in the various districts throughout this county.

For the first time in Texas history discounts are applicable on ad valorem taxes, and some schools are also allowing the same discounts. City taxes in Muleshoe are not allowed this reduction. Taxes paid in October are subject to a three per cent discount, if paid in November the discount allowed is two per cent; if paid in December only one per cent discount is allowed.

County and school tax assessments in this county total \$67,155.24, and if every citizen took advantage of the three per cent discount allowed in October, it would mean a total saving of \$1,914.65 to the county citizenry. Of course, the large corporations within the county and large land owners would realize the largest pro rata savings, yet the same proportion applies to every one taking advantage of the discount offer.

No discounts are allowed on half payments during October and November, 1939, but the last half payment may be made from December 1 to April and receive a three per cent discount; from April 2 to May 1 a two per cent discount, and from May 2 to May 31, one per cent.

No discount applies to payment of poll taxes.

If one-half payments are not made during October and November, 1939, all the taxes must be paid before February 1, 1940, or they will be considered delinquent.

Full tax payments in February, 1940, will be subject to a penalty of 1 per cent plus 66 per cent interest from February 1, 1940.

Full tax payments in March, 1940 will be subject to a penalty of 2 per cent, plus 6 per cent interest from February 1, 1940.

Full tax payments in April, 1940 will be subject to a penalty of 3 per cent, plus 6 per cent interest from February 1, 1940.

Full tax payments in May, 1940 will be subject to a penalty of 4 per cent, plus interest from February 1, 1940.

This is 6 per cent interest. On July 1, 1940, 8 per cent penalty will be charged.

This is the usual rate of penalty interest as heretofore. The only change being that affected by discount periods.

A three per cent discount taken now on 1939 taxes represents an earning of 12.6 per cent annual on the money so used, and should not be overlooked as a business proposition, Collector Bass said.

Furthermore, a survey of the current year tax rolls show that about one half of the items thereon are for less than \$20.00. A tax bill of \$20.00 may be paid for \$19.40. If allowed to run until this time next year it will be \$23.50, an increase of \$4.10 or 21.1 per cent annual interest on the \$19.40. A tax bill of \$5.00 may be paid now for \$4.85. One year from now the same bill if unpaid, will be \$6.63, an increase of \$1.78 or 36.7 per cent annual interest on the \$4.85 now required.

Boy Scout Court Of Honor Held Here Thursday Night

A Boy Scout Court of Honor proceedings is to be held here at the High School auditorium, beginning promptly at 8:00 o'clock Thursday night of this week, at which time 15 local scouts will be advanced to higher degrees, according to Ed Lane, scoutmaster.

The public generally is invited to attend this meeting and parents of Boy Scouts are particularly urged to attend. There will be a short program in connection with the Court proceedings.

Geo. A. Holland of Plainview, field executive for Boy Scouts of this district, will be present, have charge of the Court proceedings and will also give an address on scouting.

There are now 20 registered Boy Scouts in the Muleshoe troop, constituting two full and active patrols, Lane reports, and much interest is being manifested in the organization.

India is building super-highways.

The 'Jackets Bow To Superiority Of Olton Mustangs

On their own flood-lighted field Friday night of last week the Olton high school football team beat the Muleshoe squad in a very decisive score of 34 to 0.

The Muleshoe countyseaters called themselves "Mustangs," but the Yellowjackets insist they played more like bulls, elephants or mastodons or at least Mustang activity crossed with some other behornth type of animal, not heretofore contacted in this year's schedule.

Whether it was a case of brains vs brawn, too much Olton beef and not enough Muleshoe brains, or too much brains and brawn on the part of the Oltonites, the 'Jackets seem unable to diagnose, yet they readily admit their big brothers across the county line had what was necessary to give them their first gridiron licking for this year.

Olton's super-offensive was similar to that of Muleshoe's last year, when with Parsons and McDannans the local team was invariably able to pick up additional needed yardage and scorings when the situation demanded it. Olton scored five touchdowns in the first half, two in the second, one in the third and another in the fourth, completing all point tries except in the last.

The Yellowjackets short on spizirnum stinging ability, but with plenty of intestinal fortitude, opening a brilliant attack after the first half to complete six out of 19 attempts for sizeable gains; but the breaks of the game were the other way, the odds apparently were against them, and only a few times was the Olton goal seriously threatened.

The game was well attended by both Olton and Muleshoe fans. Excellent sportsmanship prevailed with both teams and there was a fine sense of friendly feeling manifested by both sides, regardless of the existing odds. Officials of Muleshoe team spoke in highest possible terms of a congratulatory nature on the power and efficiency of the Olton squad and the courteous treatment accorded the Muleshoers.

A game had been scheduled for Friday of this week. Friday afternoon, November 3, the 'Jackets will go to Melrose, N. M., to play a game with the high school team of that city.

Baptists Will Meet In Convention At San Antonio

Seventy-five leading church and laymen will have prominent parts on program of the Baptist General convention to convene in San Antonio, November 14-17.

Outstanding among out-of-state visitors will be Chas. A. Wells of New York City, cartoonist, writer, and world traveler, who will speak to pastors and laymen at a preliminary meeting, November 13. Dr. Charles E. Madry, executive secretary of the Baptist Home Mission Board, Richmond, Virginia, will give a survey of mission work in many lands, making special statements concerning countries where Baptists are now suffering persecution; Dr. J. B. Lawrence, executive secretary of the Baptist Home Mission Board with headquarters in Atlanta, Ga., is expected to tell delegates of new accomplishments in work among negroes, Chinese, Mexicans and French in 17 southern states; Dr. George W. Truett, Dallas, internationally known church leader will address the convention Thursday evening on "Baptists and Religious Liberty."

GRIFITHS ELEVATOR GETS IMPROVEMENTS

Ray Griffiths, local grain dealer and elevator man, has installed a new 80 h. p. Hercules engine and JB feed grinder capable of handling about 10 tons of feed per hour. He already has contract for grinding of several hundred tons of feed.

Last week he also completed construction of a new sheet iron air-dome type storage house, 30x40 feet size and 15 feet high which he expects to fill in the near future.

PANHANDLE GETS A NEW DRESS

The Panhandle service station, located at state and federal junction highways in Muleshoe, has been made more attractive with a new coat of paint, bright yellow with maroon trimming, and which lends considerable enhancement to its appearance.

Some weeks ago employees of that station were garbed in maroon colored suits. It is said the yellow and maroon color and the adopted standard colors of that company.

FIRST THINGS FIRST

WAR AT A GLANCE

Great Britain's total loss of ships reported to the first of this week is 40.

London officials report "black-outs" on British highways during September resulted in 1,130 persons being killed, against 654 highway deaths the same month of the previous year.

President Roosevelt has issued orders for belligerent submarines to stay away from American ports and out of her territorial waters, except when forced to do so by "force majeure," that is by acts of God, such as storms.

Several U. S. senators have again urged President Roosevelt to attempt a peace proposal among European belligerents, but Senator Norris, Nebraska and others believe that would be useless at this time.

Col. Charles A. Lindbergh was taken by task in Congress last Saturday to several senators for the "gratuitous insult" he was accused of pouring on Canada in a recent radio speech.

Germany is manifesting fears that since Turkey has refused Russian overtures and aligned her interests with those of England and France she may turn herself into another Poland. Both Russia and

Turkey are reported massing troops on border lines.

Up to the first of this week there have been no military nor naval consequences of a marked nature. Both sides in the war apparently are still holding off for some inevitable happening which the world at large seems unable to decipher, though there are many and various suppositions.

Great Britain is constantly sending more tanks and other mechanical warfare into northern France. More troops are also being added to the defense lines.

With the report given out that Russia has refused to give Germany any military support, Adolf Hitler seems to be in a dilemma as what to do. Press dispatches the first of this week said Russia would not go beyond furnishing Germany with economic assistance. English officials are predicting a revolution in Germany as soon as the masses of people there learn the real situation as now being reported.

Meanwhile Germans keep up attacks on Allied shipping, and it has been suggested the future of this war may be largely one of air and water, the Germans attacking with airplanes and submarines the towns and vessels of the allies.

Big REA Demonstration Of Electric Appliances To Be Given Here By Officials November 27 & 28

The Bailey County Electric Co-op this week completed arrangements that will bring the big REA two-day Farm Electric Equipment show here Monday and Tuesday, November 27 and 28. This traveling exhibit, which carries with it a huge tent, smaller tents, and truck loads of electric farm equipment and household appliances, is touring eight states in the largest wide-scale demonstration of this type ever undertaken in the United States.

It is brought here through the cooperation of the local project, the State Extension Service, and the Rural Electrification Administration. Farm people will have an opportunity to see a very wide variety of electrically-powered equipment in actual operation. Grain for grinding will be hauled in from nearby farms. Feed grinders will be operated with various size motors of from one-quarter to 7½ horse-power by representatives of REA and the Extension Service.

The morning and early-afternoon program in the big tent will be of special interest to farm women. New labor-lightening appliances will be demonstrated by Miss Kathryn Harris, REA home economist. The use of washing machines, electric irons, and other electrical appliances in the home laundry will be taken up in the laundering demonstration as part of the women's program. With modern washing machines and electric ironing equipment, the laundry for a large family can be done quickly and with little drudgery. Planning of the laundry, and pointing out the selection of equipment and its care,

will likewise be discussed. Manufacturers of farm machinery plumbing, home appliances, and lighting fixtures, are cooperating with REA and local cooperatives to bring this caravan of equipment to inform farm families of the latest developments in farm and home electrical use.

Much of the equipment to be demonstrated has been especially designed for automatic electric operation. The demonstration will show that in the average case lighter and smaller equipment can be used advantageously.

C. W. McLaury, local REA manager, has been selected chairman of the committee on general arrangements. He will name various committees or members of the cooperatives to have charge of labor arrangements for grain to grind and for other demonstration materials. Extension agents of Bailey, Lamb, Parmer and Cochran counties are also taking part in organizing this program.

The motors used in the demonstrations will be moved from place to place with a specially designed device. They will get current through heavy underground cable simply laid out on the ground from the panel. It can be handled, walked on, and driven over by cars and trucks without danger. Every important phase of electrical use on the farm and in the home will be included in the tour's program. Farmers from Bailey, Parmer, Lamb and Cochran Counties, whether they are receiving current from REA lines or not, are invited to attend these educational demonstrations.

Nelson Says There Must Be Give And Take Law Idea

Lieutenant-Governor Stevenson, Speaker Morse and other legislators are reported to have conferred with Gov. Lee O'Daniel relative to his calling another session of the legislature to do something about old age pensions. The governor was non-committal as to his intentions, and it is said that leading officials have concluded there will probably be no special session.

It is said many of the legislators have not yet replied to the Governor's letter to each of them regarding a special session.

The Journal is in receipt of copy of a letter from State Senator G. H. Nelson, this district, to Governor O'Daniel in which Nelson says he believes a special session is "the only logical course to pursue in the matter of temporarily settling the social security problem in Texas;" and he goes ahead to state he believes there should be some more or less definite understanding with legislative members before the session begins as to how concerted their action may be upon some definitely proposed plan, otherwise it may be merely a case of spending \$150,000 of the people's money with no definite results.

Nelson pledged the Governor his full co-operation in case the special session was called. Nelson calls attention to the fact that the social security problem has taken precedence over every other matter of state interest that should receive consideration and deplores such attitude. He expresses himself as not in favor of a sales or consumers tax, which he concedes to be practically one and the same thing. He does not favor any constitutional amendment on social security, rather a statute to be passed for a limited time to try out some definite measure before trying to make it absolutely permanent.

Nelson concludes his statement by asking the governor to be ready to also make reasonable concessions for definite results, should he call the special session.

JOE MACHA BUYS IN PARTNERSHIP

Joe Macha of Littlefield has purchased an interest of Carl Lambert in the John Deere implement business here.

He was a former partner of Mr. Lambert in the same kind of business at Littlefield.

U. S. Navy Band To Play At Lubbock October 31st

Lubbock, October 24.—Men, women, boys and girls of the South Plains will be afforded an opportunity Tuesday, October 31, that has never been given to South Plains people heretofore, when the United States Navy band from Washington, D. C. appears in Lubbock for two performances, afternoon and evening on that date.

This excellent aggregation of America's finest musicians now touring the country will present their programs for both children and adults. School children will be admitted to the Tuesday afternoon concert at Texas Tech gym, beginning promptly at 2:30 p. m., for only 50 cents. The evening program will be given at the Lubbock High School auditorium beginning at 8:00 p. m. Adult admission will be \$1.00 and \$1.50.

All profits made by the sponsors will be given to the Civic Music association. For reservations write or wire E. J. Lowery, Lubbock, Texas.

McAdams Family Is Honored On Eve Of Departure

Tuesday evening members of the local American Legion post and Women's auxiliary entertained at the American Legion hall with a farewell party in honor of Mr. and Mrs. W. B. McAdams and family who are moving in the near future to Whitesboro where he has exchanged rural routes with Carl Yeager, a mail carrier there.

The McAdams have resided here for the past 13 years, he being a mail carrier on rural route two during his residence in Muleshoe. They have a large circle of friends here who regret seeing them leave but wish them much success and happiness in their new home. Their reason for leaving here is because of having his fever.

A pleasurable evening was spent at the Legion hall by the approximately 50 guests and a feast of (Please turn to page three)

Vandalism Acts On Hallowe'en Condemned

All policing officials, both city and county, will be on duty Hallowe'en night in Muleshoe, according to available information, not only to defeat any extraordinary contemplated pranks of youngsters but also to protect property from other exuberant celebrators in general.

Commenting upon the frivolities of this particular night various business men agree a certain amount of reasonable fun and pranks is always acceptable but they do not appreciate destruction and dishevelment of property, which is decidedly criminal.

Parents are immediately responsible for vandalism of various kinds, and much of such can be obviated beforehand if fathers and mothers will kindly explain the idea of Hallowe'en to the youngsters. School teachers and other civic leaders can also exercise much good influence in this direction.

Older heads, of course, realize there is no logical excuse for permitting property displacement or destruction on such occasion. In years gone by officials have had to, in more than one instance, haul juveniles into court and require them to undo some of the pranks of the night before. Citizens have become inflamed because of such actions and friendships of older ones have more than once been severely strained because of the criminal actions of their children.

It is sincerely hoped by police, sheriffs and property owners that such may not be the case this Hallowe'en. All older heads want the youngsters to have an enjoyable evening; but they insist property rights must be respected and the mandates of law adhered to.

KILLING DIFFERENTIAL MEANS FREIGHT SAVINGS

Many favorable comments have been made by Muleshoe business men having larger freight shipments arriving over the action of the Texas Railroad commission in reducing freight rates from 10 to 20 per cent in 70 counties of West and South Texas. It is said the savings for this one town alone will run into thousands of dollars per year.

An effort has also been launched to obtain a level on all Texas and southwestern freight rates, which are said to be the lowest 28 per cent greater for a 500 mile haul than the level in northern and eastern zones.

Differential rates, it is said have been effective in this area for more than 50 years.

FAIRVIEW TO ENJOY CAT AND GHOST NIGHT

Saturday night of this week members of the Parent-Teachers association of Fairview school will sponsor a Hallowe'en carnival at that school, to which the public in general is cordially invited to attend and enjoy a full evening of fun and frolic.

There will be a mammoth mid-way of amusing attractions including bingo, boxing, cat racks, fortune telling and various others too numerous to mention.

Proceeds received will go to benefit of P.-T. A., according to Supt. Everett Wallace.

The Basketball Girls Are Scrimmaging Three Teams

The basket ball girls of Muleshoe High school have been scrimmaging for the past several days. The group has been divided into three teams by Mrs. Virginia Brumme who is directing girls basketball. The teams are called Peppers, Bulldogs and Lions. Captains of the three groups are Mary Askew, Leona Lee and Viva Askew.

A tournament was played by the three teams and the Peppers were winners. All players on the teams showed excellent sportsmanship throughout the games and all received some good practice.

There are 30 girls in high school who have come out for basketball this year, making enough for five practice teams.

It will be several weeks before any outside games will be scheduled but the local girls are getting in some good practice before that time. From all accounts it appears there will be an excellent girls team and there are possibilities for championship winners.

In the 50 years from 1880 to 1930 the total number of patents in force in this country increased 3.6 times from 195,000 to 704,157.

A HELPING HAND FOR ALL

**Join
American Red Cross**

Guardian of Life and Health

A reserve of 44,000 Red Cross registered nurses stands ready to aid in preserving the life and health of the nation. Typical activity of Red Cross nurses is shown, working in clinic under doctor's supervision. Red Cross nurses are nation's reserve for Army, Navy and Government hospital service, and also to serve civilians in epidemic or disaster. The Red Cross Nursing Service is supported by members who join the Red Cross during Roll Call, November 11 to 30.

Red Cross Nurse Reserve at Peak

Disaster Service, Home Nursing, Health Education, Keep Thousands Busy

Washington.—The Red Cross reserve of registered nurses qualified for immediate duty is stronger than ever before, Miss Mary Beard, director of the American Red Cross nursing services, announced.

"We now have a first reserve of 15,000 unmarried nurses under 40 years of age available for duty with the Army, Navy or government nursing services and subject to call by the Red Cross for disaster work," she said. "This is 700 more than any previous first reserve registration."

Miss Beard pointed out that the increase has been gradual and that only registered nurses meeting rigid requirements of training and physical fitness are enrolled. All classes of nurse reservists, including nurses now employed by the Red Cross, bring the reserve corps total to 44,233. During the World War of 1914-18 the American Red Cross mustered nearly 20,000 nurses for duty with Army, Navy and Red Cross hospitals, at home and overseas.

"Maintenance of the Nurses Reserve is provided by your charter and is in line with Red Cross policies of prevention and preparedness, but the peacetime work of our nurses is equally important," Miss Beard said.

The director explained that more than 2,000 nurses, chiefly home hygiene and care of the sick instruc-

tors, were regularly engaged in visiting the sick, aiding physicians in examining school children, conducting inoculation programs to stamp out contagious illness, launching nursing services in out-of-the-way communities, and carrying on important health education work to qualify family groups to care for sickness at home.

All nurses who are needed for Red Cross nursing activities are drawn from the Red Cross reserve of qualified nurses, Miss Beard said.

Last year Red Cross public health nurses made more than one million visits on behalf of the sick and gave skilled care to 272,729 persons. The majority of Red Cross nursing services cover entire counties to include both rural areas and industrial centers where nursing help is scarce.

Last year, in schools and clinics, nurses cooperated with physicians in examining 595,575 children, and aided in the task of correcting defects. Children examined were enrolled for the most part in rural schools where this type of preventive service is rare. There are 655 Red Cross nurses engaged in this work in 477 communities.

In the field of health education, Red Cross nurses have instructed more than 1,000,000 family members since 1914 in how to care for the sick at home and have set new standards of hygiene for the family. Last year the Nursing Service held 4,505 classes in home hygiene and care of the sick and awarded certificates to 61,294 persons who passed examinations.

This service to the public is supported by the men and women who join as members of the Red Cross through their local chapters, during the Roll Call, November 11 to 30.

Quick War Relief Given by Red Cross

Shipwrecked U. S. Citizens, Wounded Poles, Refugees, Repatriates Aided

Washington.—The American Red Cross moved quickly at the onset of hostilities in Europe to organize relief for war sufferers and give aid to American citizens stranded in danger zones or rescued from sea-ware catastrophe.

Red Cross officials pointed out that following contact of German-Polish forces on September 1, the organization made available medical relief for civilians and armies of Poland; provided aid for Americans repatriating from Europe as they landed in the United States ports; granted medical and maintenance assistance to American survivors of the "Athenia," first sea casualty of the war; gave financial aid to the American Hospital in Paris, France, and developed a comprehensive communications system to allay the fears of distraught relatives.

Norman H. Davis, chairman, called the International Red Cross Committee in Geneva on September 1 asking what relief would be needed from the American Red Cross. In a first step in consolidating Red Cross relief forces throughout the nation, 3,700 Red Cross chapters were authorized to begin producing refugee garments and to accept contributions for war relief.

A quick response from the Polish Red Cross to Chairman Davis resulted in the International Committee resulting in an American Red Cross appropriation of \$50,000 for the purchase of 45 items of medicines, and for army blankets and a quantity of large hospital tents capable of housing 50 stretcher cases each.

A grant of \$25,000 was also made to the American Hospital in Paris to evacuate American patients from the hospital and to purchase in the United States a 100 bed hospital unit for shipment to the American organization. It was said.

To meet needs which were thought likely to result from the hardening of rural villages and the passage of hostile armies, the Red Cross called upon 21 of its large city chapters to roll surgical dressings of a special new type for European warfarers. More than 500,000 pairs of pants were purchased and 40,000 pounds of cotton, enough to make 157,000 surgical dressings.

On September 2, the American Red Cross announced it was organizing to meet repatriating American citizens at seaport cities' through chapter reception committees. Citizens without resources were given temporary shelter, and aided to re-settle in their former homes or work.

Between September 5 and 7, the American Red Cross cabled \$20,000 through the State Department to help American survivors of the "Athenia," who had been taken into Irish and Scotch ports.

Red Cross chapters were instructed to accept funds for the purchase of supplies for impartial distribution and funds for purchase of supplies for a designated country to be expended through the Red Cross society of that nation.

"The Red Cross is not interested in the origins of the present conflict," Chairman Davis declared following his cabled offer of assistance to the International Red Cross Committee. "As a part of the great international Red Cross it is our duty to do what we can to aid the helpless civilians who will suffer during the hostilities."

Record Number of Disasters Reported by Red Cross for Year

The American Red Cross gave emergency relief and rehabilitation aid to 130,000 sufferers of 157 disasters in the United States during the fiscal year ended June 30, according to a report submitted by DeWitt Smith, newly appointed director of the Red Cross disaster relief service.

Mr. Smith said the number of disaster operations exceeded that of any previous year, with cholera, epidemics, fires, windstorms, snows, floods, and other catastrophes striking in 43 states and the territory of Alaska. Red Cross disaster relief expenditures totaled \$2,276,109 for the year.

"Since its founding in 1851 the Red Cross has aided victims of 2,495 disasters here and abroad, expending \$143,000,000 for rescue, food, clothing, shelter, medical aid and nursing and the permanent rehabilitation of families unable to re-establish themselves," Mr. Smith said.

Last year the Red Cross helped 43,000 enlisted men or their families through its workers stationed at Army, Navy, Marine Corps and Coast Guard Stations and through Red Cross chapters from coast to coast. Recent Congressional action to increase the United States armistice has necessitated expansion of this vital service to enlisted men by the Red Cross.

FARM TOPICS

USE GOOD RATIONS FOR DAIRY CATTLE

Cows Relish Grain Mixture of Different Feeds.

By John A. Arrey, North Carolina State College—WNU Service.

Even the humblest dairy cow has her own ideas about what she likes to eat, and only palatable feed will tempt her to eat enough to maintain a full milk flow.

A good dairy cow has a tremendous capacity for converting feed into milk and to make full use of this capacity, she should be induced to eat all she can.

A healthy cow relishes a grain mixture containing several different feeds, but she usually gets tired of ration containing only one or two kinds of grain.

Variety in the grain mixture not only makes it more palatable; it also insures against a shortage of minerals and provides needed proteins.

The grain mixture should not be too concentrated. If it weighs about one pound per quart it has the right amount of bulk.

Such feeds as wheat bran, ground oats, ground barley, and beet pulp are often used to add bulk and variety to the mixture.

But grain is only a supplementary feed. Cows need plenty of good pasture when it is available or a full feed of silage in legume hay.

Dairymen who buy feed for their cattle will get better results if they purchase only feed in which the percentage of nutrients is fairly high. When the percentage of crude fiber runs high, the fiber fills up the cow's stomach without providing the digestible nutrients that are really needed.

Warm Water for Layers Increases Production

In feeding laying hens, we usually think of the feed as the most important part of the ration. However, numerous experiments as well as practical observations of poultrymen have demonstrated that when water is withheld for any period of time, there is a decrease in heavy production, there is an immediate and very marked decrease in egg production and oftentimes an entire loss of production in a very few days, says J. S. Carver, head of the poultry department, Washington State college.

Water plays a highly important part in the digestion and metabolism of fowl. It comprises over 55 per cent of the body and more than 85 per cent of the whole egg. It serves to soften feed in the crop. It plays an important part in digestion.

It is important in blood. It cools the body by evaporation through air sacs, lungs, and skin, and helps to equalize the temperature of various parts of the body.

While all feedstuffs, such as mash and scratch grain and green feeds, contain a certain percentage of moisture, the amount from all these combined sources furnish but a very small percentage of the large requirements for hens in heavy egg production.

Ways to Stop a Fire

This is the season for farm fires. Once started, a fire in a farm building is pretty hopeless to stop. But there are simple precautions worth taking, Country Home Magazine observes.

A bucket of sand is useful to have in case fire starts around a car, tractor or oil stove. Every home should have a fire extinguisher or two. Even a portable pressure sprayer kept full of water is useful. We recently met a man who makes fire grenades of old bottles filled with salt brine. He wires two bottles together which break when thrown on the fire, creating a vapor which smothers the flames.

May Feed Cacao Hulls

English cows may get regular winter rations of cacao hulls hereafter, to increase the rickets-preventing vitamin D content of their butter and to improve their own health. The hulls, hitherto a waste product of the cocoa and chocolate industry, have been found a good vitamin D source in experiments at the British Dairy Institute at Reading. Daily addition of two pounds of cacao hulls to the cows' feed brought the vitamin D content of their butter up to midsummer level, at a far lower cost than that involved in the feeding of cod liver oil.

Cresote Not Dangerous

The dark and sticky deposits that collect in flues and chimneys, and which are commonly called "cresote," are mostly condensed moisture mixed with smoke and soot. They usually contain just enough of the cresotic or tarry material to make them sticky and give them the distinctive cresotic smell. These deposits, while troublesome, says Wallace Farmer, do not in themselves present any dangers of asphyxiation or explosion.

AT 103 SHE GETS ELECTRICITY

Mrs. Francis Charlotte Knight lived 103 years before she had the opportunity to enjoy electricity. Today she gets current from the Deep East Texas Electric Cooperative of San Augustine, Tex., and comments that "I'll live longer, now that I can enjoy some of the comforts that electricity brings."

Mrs. Knight was born June 16, 1836, in North Carolina. She was reared by wealthy parents and had slaves to do her every task until after the War between the States when she, her husband Frank Knight and their child came to Texas. They left North Carolina with a brother of her husband, George Knight, traveled by boat via Mobile and New Orleans to Shreve-

port. There, they embarked on the first of many trips they had ever seen to complete their journey to Texas.

However, in making the trip, the two brothers separated. George settled in Panola County, Tex., and Frank in Shelby County, 22 miles away. They lived this way for 20 years before they learned each other's whereabouts.

For many years, Mrs. Knight worked with her husband on Texas farms. "It was drudgery for both of us from morning till night," as she puts it. "But, even now, I am not too old to realize the changes electricity has wrought. And one of the main reasons I wish I were younger is that I could then enjoy electricity longer."

THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY, TEXAS, GREETING:

You are Herely Comanded to summon Earl Perry by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the 64th District Court of Bailey County, Texas, to be holden at the Courthouse thereof, in Muleshoe, Texas, on the first Monday in December A. D. 1939, the same being the 4th day of December A. D. 1939, then and there to answer a petition filed in said Court on the 24th day of October A. D. 1939, in a suit, numbered on the Docket of said Court as No. 1191, wherein Mae Perry, is Plaintiff, and Earl Perry, is Defendant; and said petition alleging; being a suit for divorce on the ground that Defendant voluntarily left Plaintiff for three years with intention of

abandonment, and Plaintiff avers that on the 9th day of June, 1934, plaintiff and defendant were legally married and lived together as husband and wife until the March 10th, 1936, at which time, defendant voluntarily abandoned Plaintiff.

Plaintiff alleges that no children born to said union, and no community property to divide.

Plaintiff prays judgment for a divorce and for such other and further relief that she may justly be entitled to; and for restoration of her former name Mae Williams.

HEREIN FAIL NOT, and have you before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Muleshoe, Texas, this the 24th day of October A. D. 1939.

J. J. Williams, Clerk, 64th District Court, Bailey County, Texas (SEAL)

By Bonnie Isaacs, Deputy. Publ. Oct. 26, Nov. 2, 9, 16, 1939.

\$25.00 Is In The Pot For Trades Day Gift Here Saturday

Like the usual bumper crop common in West Texas, the usual "bumper crowd" was again present here last Saturday for Trades Day, everyone, young and old, large or small, fat or lean, all keyed up to receive from \$2 to \$10 of the \$25 awards split and given away during the afternoon.

Business concerns of all kinds were unusually busy measuring calico, fitting wearing apparel, selling hardware and furniture, filling cars with gas and lube, or waiting on customers in a dozen other ways. Visitors milled up and down Grand Boulevard and Paradise Avenue meeting old friends, shaking hands with acquaintances and making new ones.

When the cash was distributed, it was found Maxine Scott, Big Square community, had doubly blessed with good fortune, receiving both the \$10 and a \$2 award. J. W. Givens stepped up to the dispenser calling his name for \$7; Mrs. Herbert Dyke, Willie Esory and Mrs. F. K. Whitte also received \$2 each. Another pot of \$25.00 has already been filled by business men for visitors to wish on and have split among them next Saturday, and the standing invitation for all to return and enjoy the day is continued.

CLUB WILL CELEBRATE SECOND ANNIVERSARY

Members of the Half Century club met at the home of Mrs. Joe Lee Sr. Thursday afternoon of last week.

An enjoyable afternoon was spent by guests sewing, playing Chinese checkers and visiting, after which delicious refreshments were served to the following: Mesdames Clara Young, J. F. Wallace, A. P. Stone and her sister, Mrs. Cosden, Cora Givens, Alex Paul, C. C. Mardis, Beulah Carles, Stella Eason and Mary S. Davis. Thursday evening of this week.

Mrs. Neil Rocky will entertain members of the club and their husbands with a dinner, celebrating the second anniversary of the club. The Halloween motif will be carried out in arrangements.

MISS HELEN JONES HOSTESS TO THE MISSIONERS

Members of the Maud Hart Missionary society, Methodist church, met at the home of Miss Helen Jones, Thursday evening of last week.

An interesting program was rendered with Miss Elizabeth Harden as leader, she giving a chapter from the study.

Entertaining and amusing games were played with Mrs. Jim Burkhead as director.

A delicious refreshment course was served by the hostess to the following members present: Misses Elizabeth Harden, Marie Gooch, Mesdames Pearl Little, Dick Rocky, Jim H. Sharp, Sam Fox, Finley Pierson, Jim Burkhead, Francis Gilbreath, Buford Butts, Jack Lenderman, and Gale Holt.

Members of the society will meet at the home of Mrs. Pearl Little, Thursday evening, November 2.

MISS SNIKTER, BULA IS HONORED

Miss Lena Snikter, Bula, who is this year attending West Texas college, Canyon, has been chosen football queen by the Buffalo "T" club for the 1939-40 season. She is a junior in that college, and is pledged to Gamma Phi sorority. She will be crowned with queenly honors at the game Homecoming Day, when the Buff's play St. Mary's university team from San Antonio. Miss Snikter was also recently chosen president of the Euzelian Sunday school class of the First Baptist church, that city.

Believe in the Banshee Certain inhabitants of Ireland and the Scottish highlands believe in the banshee—a spirit which makes mournful noises near a house when a person is about to die.

Find Hidden Taxes In Butter Costly

Consumers Hit for Fifty Million in Year.

CHICAGO.—Hidden taxes paid by American families in the retail purchase of butter alone amounted to \$50,000,000 last year, the National Consumers Tax commission estimates.

This burden, paid by all butter purchasers as an unseen part of the retail price, is made up of taxes originally levied against dairy farmer, trucker, creamery, railroad, wholesaler and retailer, an N. C. T. C. study states. It places average annual consumption at 12 1/2 pounds for every person in the country.

The commission, non-partisan women's organization with study groups in 4,200 communities opposing "consumer-penalizing taxes," lists 17 state and local taxes and 29 federal levies involved in the manufacture and distribution of butter.

"These taxes make up 11.3 per cent of the cost of an average-priced pound of butter," states the report, made public at N. C. T. C. headquarters in Chicago. "Thus a pound selling for 27 cents produces more than three cents for the hidden tax collector."

The commission declares that the taxes against the various steps of producing and selling butter are "too heavy to be absorbed and the business of necessity, must pass on at least part of the burden."

The N. C. T. C. study was based on reports of the U. S. department of agriculture which placed butter production in the country last year at 1,780,000,000 pounds.

Harvard Museum Lifts Faces of Ancient Beasts

CAMBRIDGE, MASS.—Harvard is now going in for face-lifting, beauty treatments and massages in a big way, but local beauticians need not fear the competition as the subjects of these "beauty aids" are—prehistoric monsters.

For the boys who like their pets large and whimsical-looking, the Harvard scientists have discovered that red paint, dental drills and vacuum cleaners are the best aids in giving the monsters a lifelike appearance.

So visitors to the Museum of Comparative Zoology at Harvard need not wonder as to the sanity of its employees should they see a horned dinosaur being painted a gay red or young men using vacuum cleaners on the monsters' spines.

White Man's Pie Not So Easy for Canadian Indian

GOLDFIELDS, SASK.—Mining cafes and restaurants here are a novelty to Indians, unaccustomed to dining out. They encounter difficulty in ordering and eating properly the white man's dishes.

When a pot of tea on a saucer was brought to one bewildered Indian, he poured the tea into the saucer and added sugar. This frontier custom, however, was not so strange as the experience another Indian had with a piece of pie. At first he attempted to eat it with a knife. He was handed a fork, but the waitress finally had to bring him a spoon before he could finish the pastry.

Shortage of Wives Arises For High-Caste Indians

LONDON.—Sorry is the fate of one out of every five high-caste Indians today. Owing to the shortage of eligible wives only four out of five may wed. The others, being unwed and therefore homeless, must go to the nether regions.

This and other superstitious beliefs still prevail in India, according to Sir Edward A. H. Blunt, author of "Social Service in India," which has just been published.

High-caste Indians still cling to taboos, he writes. A wife may not mention her husband's name and brothers-in-law and sisters-in-law may not speak to one another.

Students Find Faculty Average Is Only 'Fair'

KENT, OHIO.—Some professors received flunking grades and their average grade only was "fair," according to the results of a poll in which Kent State university students turned the tables and graded their instructors.

Five professors received straight A averages, but faculty members who did not do so well demanded specific grades rather than numerical averages.

Paul Ryan, editor of the school's newspaper, which conducted the poll, "thought it wise" to conceal the identities of the faculty members' undergraduate judges.

Woman Succeeds Her Husband as Sheriff

ABERDEEN, S. D.—Mrs. Bertha G. Solberg enjoys the distinction of being the only woman sheriff in South Dakota. She succeeds her husband, Ole, who died recently after an auto accident. Brown county commissioners appointed her to the office after a petition bearing several thousand names, urging the appointment, had been filed with the auditor.

County Wide Tea Is Given; Awards On Bread Made

About 180 people attended the H. D. county-wide tea and bread show Friday evening at the Baileboro school auditorium.

The entertainment featured two songs by a quartet composed of Mrs. W. G. Kennedy, Bessie Vinson, Elzada McMahan, and Mrs. J. J. Gross, accompanied by Mrs. Needham.

Jack Schuster gave a humorous reading which gave a new light on the study of arithmetic, and several musical numbers were given by D. LaFon and A. LaFon of the Baileboro community.

In order to show some of the accomplishments in home demonstration work in the county, several exhibits were set up showing the use of quick breads in balanced menus as follows:

Fairview club showing use of the quick breads in the breakfast menu; Baileboro club, showing use of quick breads in the dinner menu; and Bula club, showing use of quick breads in a school lunch which would fit the needs of the growing child.

A general exhibit of variations of quick breads were graded and scored with the following results:

Gingerbread—1st, Mrs. J. J. Gross 2nd, Mrs. Pearl Nichols; 3rd, Mrs. Andrew Wittner.

Nut Bread—1st, Mrs. G. P. Lansford; 2nd, Miss Elzada McMahan; 3rd, Mrs. Wanda B. Nichols.

Orangebread—1st, Mrs. J. Jolley; 2nd, Mrs. Albert Ellis; 3rd, Mrs. J. E. Maxwell.

Boston Brown Bread—1st, Mrs. Bert Mathis; 2nd, Janie Lou Garth; 3rd, Mrs. Albert Davis.

Almond bread—1st, Mrs. V. B. Mays, of Baileboro club.

PROSPECTIVE QUEENS ARE INTRODUCED

Beginning recently, General Assembly is being held regularly at the Muleshoe High school and Wednesday morning of last week a very interesting program was given by members of the Senior class.

"School Days" was sung by the entire student body, after which the senior class with their sponsors were introduced and marched across the stage for recognition. "The Eyes of Texas" was sung, followed by the meters singing the school song.

The queens who are representing the different classes of Muleshoe High school for the Halloween carnival and their escorts were introduced by John Smith.

Cemetery, "Sleeping Place" The word "cemetery" means literally "a sleeping place" and was used first by the early Christians.

STORK SHOWER GIVEN MRS. ELVIN SMITH

Wednesday afternoon of last week a stork shower was given in Muleshoe in honor of Mrs. Elvin Smith of Clovis, N. M., at the home of Mrs. Ray C. Moore with Mesdames Marie Lenau, Josephine Woods, Jeanette Wagner and Miss Mildred Davis as hostesses.

The affair was in form of a sitting tea and about 35 guests attended. Mrs. Marie Lenau and Mrs. Josephine Woods poured tea at the lace covered table. A centerpiece on the table was made up of pink and white dahlias with white tapers on each end.

Many lovely gifts in a bassinet, were presented to the honoree. Refreshments of pink and white macaroons, pink and white pinwheel sandwiches, mints, tea and coffee were served, and clever favors were given.

Several out of town guests, friends of the honoree, were present. Mrs. Smith formerly resided in Muleshoe for several years.

McADAMS FAMILY HONORED ON EVE OF DEPARTURE

(Continued from page one)

chili, beans, pie and coffee was enjoyed.

The honorees were presented with a beautiful gift of a hassock by the entertainers.

Following the party at the Legion hall the McAdams, accompanied by Mr. and Mrs. Clarence Goin, Gilbert Wollard and Supt. W. C.

Cox went to the Progress school where they were entertained by patrons on rural route 2.

A pi's supper was a feature of the evening entertainment and the McAdams were again presented with many beautiful and useful gifts.

Napoleon's Horses Killed Nineteen horses were shot dead under Napoleon in battle.

HOW GOOD IS YOUR LETTERHEAD? ..

Withhold from the files 25 to 30 letters—taken as they come. Lay them out before you. Now slip one of your own letterheads into the competition.

Here Is the Test

How good does your letterhead look? Does it look as good or better than the letterheads used by people who write to you? Does it look good enough to carry a quality impression of you, your product, your service, to the people you write to? If there is any doubt about it, order some good stationery at once.

Ever letter you write creates an impression of your business. Your prospect judges you from your personal interviews on paper. Good stationery tells a between-the-lines story to the reader of your message, makes an impression that favors you.

A fine letterhead is an outstanding asset. We want an opportunity to help you get more business and be pleased to send you samples and prices upon request.

Better yet, let us take care of all your printing requirements!

PROVED BY THE PAST—IMPROVED FOR THE FUTURE

90-HOUR WINTER GRIND

spared your OIL-PLATED engine

You need your engine OIL-PLATED now by patented Conoco Germ Processed oil to wipe out doubts of decent oiling during starting—when unplated engines wear worst. (6 or 8 minutes of such wear, repeated 6 or 8 times a day through these cold months, mounts up beyond 90 hours!)... 90 life-sapping hours for engines abandoned to oils that can only "flow fast"... but no oil-starvation in 90 hours or 900 hours, when your engine's OIL-PLATED.

The "magnetic" action of Germ Processed oil gives every square inch in your engine a slippery overlay of OIL-PLATING—attached as firmly as chromium-plating. And could any plating drain down when you park in any cold, for any length of time? Then you know why OIL-PLATING—drain-proof—is ready to lubricate before you're even ready to get out of bed, or away from work. Before any oil-pump could squirt a drop, your drain-proof OIL-PLATING has readied your engine for safe, easy starting. That's how you get the drop on the worst of Winter by OIL-PLATING now with Conoco Germ Processed oil. Keeps up your engine—your battery—your oil-level, too. Change now to Your Mileage Merchant. Editorial Every Great Attainment is Glorious Even If It Falls

A THOUGHT FOR THE WEEK

Be ye strong therefore, and let not your hands be weak: for your work shall be rewarded.—11 Chronicles 15:7. Blessings ever wait on virtuous deeds, and though a late, a sure reward succeeds.—Congreve.

THREE-QUARTER HORSES

There are plenty of quarter, one-half, and mile horses; but seldom, if ever did one hear of a three-quarter horse; yet there are plenty of folks who do not know so much. It is no surprise to hear of a young fellow who has had to take a different tact on life at the quarter-mile post, and there are conditions which cause some to give up the race at the half-mile. True failure of health or business reverses sometimes cause folks to lose the race at the three-quarter post; but generally speaking, if one can hold their attained gate through three-fourths of their life they can finally slide under the wire at successful achievement at the end.

Looking back over personal experiences and observation of the experiences of others, I have sometimes thought the three-quarter post is the most difficult of all to pass. Folks at 40 to 45 years of age have arrived at the time when demands are the greatest and most exacting; a time when extra courage, fortitude and judgement are needed; when family expenses are invariably at their highest; children's education must be provided for; business requirements are most exacting, competition seems keen—

the man is tempted to make some master stroke to meet provoking occasions and other falls. I have known some who were just three-quarter horses so far as the single day was concerned. They would start out early in the morning full of zip and tobacco sauce; not along about the middle of the afternoon they ran out of all spunk. This month of October reminds us the year is three-quarters gone. May we all realize that to profit fully from the opportunities presented us during the first quarter or half of the year, we must keep battling on past the three-quarter mark to realize fully the opportunities and attainments of the entire year.

BETTER PARENTS

As we try not to overlook the various "weeks" that go to make better business, we are sure to observe the week of Oct. 23-29 that is set aside for the observance of Better Parenthood which is most worthy of commendation.

Of course, there are many who feel they couldn't be any better parents if they tried! The fact that you can acquire tips for raising your children from many sources in Muleshoe doesn't mean you are a poor parent. So often the other person sees little things that the parents eyes of love refuses to see. The wise parent is willing to listen to suggestions, to read of solutions of problem cases which have been solved successfully by someone else. The parent who feels the best way to rear his family is to let them express their initiative and personality unrestricted, often finds they have reared children who "know it all."

The mother who uses psychology to the extreme often awakens to the fact that the open palm might prove more effective and character-forming. A parent can go just so far and from there the child takes

over. The wise parent tries to cope with the situation as long as he is in power. The patient parent seems to be the most successful, and the father and mother who hold their temper when correcting are the victors. The ones who praise as well as punish are closest to their young.

Who are we to tell how to be better parents? Everyone in Muleshoe knows in his heart, that better parents make better children, better children make better Americans, and good Americans are as necessary to the living as bread and water to the starving.

WORKING THEIR WAY

To say our young people are expecting to start in where their father is after many years of work, is wrong if the claim is too general. There are more than 40 per cent of college men who are working their way through school and this is a good way for them to find out how tough the struggle was for Dad. The educators tell us that too many young people attend college who are mentally unequipped and would be better off in the business world earning a living.

This is no doubt true in many cases, but we figure the student who is working his way through is not in this class, usually. He is ambitious and determined to learn and the fact that he is doing two jobs at one time will find him the winner. Our hats are off to those lads who so desire an education that they are willing to get it the hard way.

WARMING UP

Breathes there a community such as Muleshoe where some one does not plan on heading the call to travel southwards as the first cool winds blow from the north?

The fellow with the trailer examines the brakes and hitch, motorists study routes, and the south awakes the onslaught with anticipation. Merchants predict better business than last year. Realtors expect a sensible boom, renters prepare houses and apartments. Folks along highways give over-night cabins a coat of paint and brush off the dust on signs. Gasoline stations prepare to ring the bell to who tied the pup. Hotel managers wonder if the new places on the edge of town will affect their business.

So it goes! Roads will attest to increased traffic and in will come the inevitable post cards of "having a fine time and wish you folks here." Well, that is all some folks have to do, write cards to us back home who sometimes wish we could lick a one-cent stamp now and then ourselves.

WHY A KEY?

Being the size we are in Muleshoe, the subject of auto stealing is just as important as in larger centers where it occurs far too frequently. Since the auto is found every where it is wise to profit by the mistakes of our neighbors. It is a fact that most autos are stolen for performing a crime rather than for resale.

Many cars are borrowed for "joy rides" and abandoned along the roads after they have served their purpose. This is the reason most cars are recovered. But why issue an invitation by

TRUTH about ADVERTISING

By CHARLES B. ROTH

YOU have had the experience, haven't you, of going into some stores and asking for an advertised brand of goods, only to have the clerk hand you another brand and inform you, "But it's just as good." Sometimes, to your regret, you bought the "just as good" item but sometimes you walked out of the store and searched until you found the merchandise you had asked for in the first place. When you got it you were satisfied.

You had confidence in the advertised goods, because you read in the honest pronouncement of the advertiser what you might expect his product to do for you. This Charles Roth gave you assurance. You bought because you had confidence.

But when that clerk palmed off something different on you, you had misgivings, you had doubts, you had fears, you had lack of confidence. Maybe they were justified. Maybe they were not. It doesn't matter. The fact remains that advertising had invented the advertiser's goods with a confidence which made your buying a pleasant in place of a fearful duty. Usually, but not always, these "just as good" goods are not as

leaving your car unlocked? It may be accepted by someone who will dismantle it and not be too careful of their treatment of fenders and motor, battery and tires.

Jaunty Journalettes

The Muleshoe man who is never affected by his wife's tears is probably water-proof.

Most marriage engagements, like lasting houses, are built on stone foundations.

When you, a Muleshoe woman beckon another with her finger and that other woman shakes her head, you may know they are both women of few words.

There are probably plenty of Muleshoe men whose life is an open book, but just the same they won't object to anyone skipping a few pages when they go to read it.

Years ago most Muleshoe girls had peaches and cream complexions; but now they mostly have bleaches and cream faces with some rouge added.

The young Muleshoe woman who is embarrassed by men standing on the street corners gazing wistfully at her silk stockings as she goes down the street should carry them in her hand. It's her personal obligation, they will not attract the least bit of attention if they are empty.

Two Muleshoe old maids were walking slowly down Main street the other day, one of them very deliberately peeling a banana. "Why do you peel it so slowly," the one inquired. "To remove the skin, to find out what is under the skin and to enjoy the fruit," the candidly replied. "What other possible reason should there be for peeling it?"

A Muleshoe youngster confessed to ye editor the other day that he was trying his best to be good until Christmas, which isn't very far off. "I know there is a Santa Claus," he said, "because last Christmas I peeked through the door and saw him fill my stockings, and then go and get in bed with mother; and mother says I'm going to have a little baby brother or sister, or maybe both along about Thanksgiving. Gee! won't we both be happy because there really is a Santa Claus—If I can just be good."

SNAP SHOTS

Few indeed are the well informed readers, "for what is true today is apt to be false tomorrow."

If Barnum was alive today we figure his "sucker born every minute" would change to a greater percentage. Too often the fellow who insists he isn't good enough for his girl friend goes ahead and proves it after she becomes his wife. Marriage is likely to be a disap-

pointment and failure when it is committed unpromptedly and as unbidden as a bunch of hiccoughs. What has happened to the old-fashioned bride who was thrilled when she received a quilt for a wedding present? One reason why men may have seemed greater in olden times was because they never had to have flashlight pictures taken at banquets.

Derivation of Word "Budget" The word "budget" is derived from the old French "bougette," meaning a wallet. The use of the word in its present sense is from the custom of bringing into the house of commons all the papers pertaining to matters of expenditure and laying them on the table.

Indians Ate Many Plants Early North American Indians are known to have used more than 1,100 different kinds of plants for food. The lily family, says Collier's Weekly, contributed 80 varieties, including eighteen species of onions.

Drew America's First Map Among discoveries of American tourists is the fact that 20 years after Columbus came to America, it was a Pole, Jan of Zablotsky, who drew the first map of America.

Rides a Tricky Game Bird The rube who uses a "bougette" is hunted with dogs and horses. It takes advantage of the wind and one wing and uses it as a sail.

Pavement Pickups

Bill Garrett says the smart wife who gives her husband letters to mail, dates them up a week ahead. George Johnson suggests that a big help to the cotton surplus would be fore every girl in Muleshoe to have two kitchen aprons.

Prof. Dickenson suggests to those who do not know, that a demagogue is not a pot-bellied vessel made for holding liquor.

Supt. Cox says there are a few pupils in his high school who are majoring in "antibiology." They are the ones who fail to bring up their studies, but have perfect excuses for not doing so.

A stranger approached Sheriff "Raz" Renfrow the other day telling him he couldn't get work, was hungry, planning stealing a car, and wanted to know who he was the best place to go. Raz told him to go ahead, steal the car and tell every-

body he met that he was Hitler enroute to the United States and he would guarantee in a short time he would find a place to eat regularly—and for a long, long time to come.

"Skeet" Skeeters told us the other day of a terrible argument that occurred in his barber shop recently. Four or five customers, who had already been shaved, were arguing whether a woman's greatest attraction was her understanding and sympathetic nature, her ability to make and manage a home, or merely her physical attributes, were her outstanding and appealing feature. Skeet said he told the whole bunch they were just kidding themselves.

Stone of Hi-Luck There are one or two theories that opals are unchangeable by a writer in London Answers Magazine. One is that this precious stone is affected by changes of temperature, expanding with heat and contracting with cold. When it expands, it forces open the setting so that, when it contracts, it is apt to drop out and get lost. Another theory is that the stone, being comparatively soft, is apt to lose its color by the surface wearing. It is curious to note that in the olden days the opal was supposed to bring its owner good luck.

Lake of Many Colors High in the Caucasus mountains in Asia lies Lake Nimrud, in the cup of an extinct crater. It is one of the remembered bits of scenery that is a soul-feeding delight. For Lake Nimrud is unique in that some cause—chemical springs, probably—has given it, at different points, a variety of intense colors: vivid blues, purples, greens and yellows, all merging in a great harmony of beauty.

Started Use of "Hello" According to biographers of Thomas A. Edison, he is given credit for the use of "hello" on the telephone. He was first used people were accustomed to saying "Are you there?" or "Are you ready to talk?" One day Edison took up the receiver and said "hello." The word immediately became popular.

PROGRESS NEWS

H. D. Club Report The Progress H. D. club met with Miss Elzanda McMahan, Tuesday, Oct. 17.

Program for the day was, "Helping Your Child Choose a Vacation." A child should be allowed to choose something suited to him rather than have a certain vacation forced on him by his parents, it was said. Mrs. W. G. Kennedy gave a very helpful talk on the subject.

The next meeting will be the Achievement day program, Nov. 7, beginning at Mrs. L. R. Hogan's and M. A. Springstube's. Tours of other places of interest in the community will be made. Everyone is cordially invited to attend.

Cake and tea were served to visitors: Miss Ernestine Hromas, Miss Lois West, Mrs. Lula Needham, Members: Misses Bessie Vinson, Myrtle Parker, Eunice Humphrey, Evadna Holley, Jerene Murray, Mesdames Elva Gregory, Elsie Holby, O. Q. Holley, Anna Mae Bearden, Tip McLaren, Carrie Wilhite, Capt. O. Goodwin, Nellie Graham, J. J. Gross, Wm. G. Kennedy, Lela Wiley, Eloise Gray, L. D. Tipton, Marie Dickinson and the hostess, Miss Elzanda McMahan—Reporter.

Wild Avocados In Colombia avocado trees grow wild and in profusion.

FOR WHAT I COST, YOU COULD HAVE ENOUGH LIGHT TO READ "TREASURE ISLAND" SEE HOW MUCH LIGHT YOU CAN BUY FOR A NICKEL!

Of course, a lot depends on how fast you read. Yet even a fourth grade boy can get through "Treasure Island" in well under 16 1/2 hours. And at your local residential electric rates, five cents would keep a 100 watt bulb burning in your I.E.S. lamp for well over 16 1/2 hours! Remember, certified light was never so cheap as it is today. Use it freely for better sight. P. S. Why not let us lay-a-way your I.E.S. lamp for Christmas? Our easy monthly payments are one sure way to keep your Christmas expenses at a minimum. We will gladly hold any lamp for only 95¢ and one dollar a month—and we promise not to tell a soul! Won't you give us a try? Texas-New Mexico Utilities Company

MOTOR MEMOIRS DRIVE IN (ON THE SIDEWALK) BACK IN 1913 WHEN THE FIRST DRIVE-IN SERVICE STATION WAS OPENED. STARTLED PRESENTHANS WERE AMAZED TO SEE AUTOS CLIMBING THE SIDEWALK... WEEKLY LAY SERMON DEMOCRACY

By JESS MITCHELL

If any people on earth should be democratic, it is those people of America who claim Democracy as their fundamental code of government...

There is little doubt but American democracy is today undergoing its greatest test. With the rise of dictators and totalitarian ideologies, and the putting into action of Marxian theories in European nations...

with them, in a more or less concrete fashion, their rigorous socialistic ideas. The northern and eastern section of this nation is particularly infested with this type of people...

Apparently the "melting pot" idea has not yet worked satisfactorily. That may not be the fault of the idea, but rather those in charge of proclaiming it...

If Democracy is in the balance, and think it is, there are none other to blame but ourselves. We have assumed the tenets of democracy were quite familiar to all our citizens...

Yet this great ideal of life and living can be handed to no one on a silver platter. It is a something that originally had to be won by sweat and blood, by toil and sacrifice...

I have no objection to further immigration of people from our lands to American shores if they are fundamentally of the right type. I certainly do not favor making this continent a dumping ground for vagabondism and radicalism...

At the same time I condemn leaders of our national government because they have made no effort to teach these arriving foreigners the fundamental principals of Americanism...

We of America firmly believe that the principals of democracy would be fabulously more appealing and acceptable to our citizenry as a whole if our government officials would take the same interest in propounding and disseminating its ideals...

- Miss Myrtle Lenuu and her father of Hobart, Oklahoma, have been visiting in Muleshoe for the past several days in the homes of their brothers and sons, respectively, Julian and Charles Lenuu.
- Tom Eley, district lay leader of the Perryton district and evangelist leader in the Northwest Texas conference, spoke here Sunday afternoon at the Methodist church, delivering a forceful message to a large congregation.
- Tuesday evening of next week members of the Reb-kah's and Odd Fellows lodges at Sudan, will enter-

- Warren C. Squires, business man of Olton, was in Muleshoe Wednesday, looking for a location.
- WANTED: Clean cotton rags, no woollens, rayon or strips. Hooks and buttons must be removed. 5c pound, Journal office. 404th
- Mr. and Mrs. G. O. Jennings are parents of a young son, weighing 8½ pounds when he discovered America early Wednesday morning at a Lubbock hospital.
- A Halloween party at the Odd Fellows hall in Sudan. Several members from Muleshoe are planning to attend and special guests of all members will be present.
- W. H. Atwey, who is attending Texas Technological college, Lubbock, spent the weekend in Muleshoe visiting his parents, Mr. and Mrs. W. H. Atwey and friends. He returned to the Hub city Sunday afternoon.
- A marriage license was issued in Muleshoe Saturday afternoon of last week by Mrs. Bonnie Isaacs, deputy county clerk to Miss Anna Mae Ballew and Robert Linville of Robinson, Ill. The couple was married at the court house here by R. J. Klump justice of the peace.
- Billy Daniels of Hollywood, California, has been visiting in Muleshoe for the past several days with his mother, Mrs. Lillia McHenry and grandmother, Mrs. R. L. Faulkner and other relatives. He formerly resided here several years ago.
- Miss Nona Faye Johnson, daughter of Mr. and Mrs. George Johnson, who has been in a Lubbock sanitarium for the past several days receiving treatment for spasmodic sneezing, was returned to her home in Muleshoe Monday afternoon, her condition being greatly improved.
- The Dalby truck lines last week moved their local headquarters into a new location in part of the building formerly occupied by the Panhandle Lumber Co. The location is on the south end of Main street between the REA office and Louie Rice service station.
- AGENTS WANTED: Part or full time representatives wanted by the largest business of its kind in the Southwest. Highly profitable, no investment required, experience unnecessary. TAYLOR MEMORIAL COMPANY, VERNON, TEXAS 40-1c.
- There being no services at the Methodist church Sunday evening, Rev. J. H. Sharp, wife, and younger members of his family journeyed to Canyon for a visit with their daughters, Misses Ora and Helen Sharp, who are attending West Texas college there.
- Members of the Women's Missionary society Circle No. 1, Methodist church met with Mrs. J. H. Sharp at the parsonage Tuesday afternoon in regular session. An interesting "Spiritual Life" program was rendered with Mrs. Roy Bayless leader.
- James Elmer Gardner made a trip to Hollis, Oklahoma, Saturday of last week to take his mother, Mrs. Gardner, who had visited here for several days with her son, A. J. Gardner and family. They were accompanied on the trip by Paul and Max Gardner.
- The Muleshoe Baptist church is this week receiving further improvement, the main auditorium being enlarged. Partitions cutting off the pastor's study and one class room have been removed, the floors lowered to the level of the auditorium floor, thus adding considerably to the seating room for congregational purposes.
- T. J. Taylor, Jefferson, president of the Jefferson Wholesale Grocery Co., was here last Tuesday consulting with R. L. Brown, local realtor, relative to buying beans in this area. He spoke in highest terms of Muleshoe and its opportunities for growth stating his concern had been thinking of establishing a western branch and Muleshoe might be considered for such a location.
- County Judge M. G. Miller and his mother, Mrs. Willie Miller, sister Miss Mildred Miller, also accompanied by Tye Young were called to Ft. Pleasant Friday morning of last week, by the death of Mrs. Miller's only brother, James I. Justiss, 65, who died rather suddenly the night before about one o'clock from heart failure. They attended the funeral of the deceased, returning here Sunday evening.
- The Journal is this week in receipt of a letter from Dr. and Mrs. L. P. Gibbs, former Muleshoe citizens, but now residing at Powell, Wyoming, in which they order change of their newspaper address. They state the paper is "much pleasure to them." Judging from the reputation of that neck of the world coldness, the next time the Gibbs are heard from they will probably be telling about the extra pair of snowshoes the doctor has bought or the new 1940 auto he now has on a sled and pulled by a pair or two of reindeer.

FARM TOPICS

SHORTAGE OF SEED PREDICTED FOR '38

Caution Urged in Alfalfa, Red Clover Purchases.

Supplied by the College of Agriculture, University of Illinois, WNU Service.

Faced with another shortage of alfalfa seed, farmers will need to be cautious in their purchases of alfalfa and red clover for 1938 plantings.

The carryover of alfalfa seed is unusually small, and the 1937 production of seed adapted to the corn belt was short, the report stated. On the other hand production in the Southwest, which produces seed not well adapted to the corn belt, is reported to be 50 per cent above 1936 and the heaviest importation of foreign unadapted alfalfa seed in ten years was made in 1936-37.

Supplies of red clover seed are also short for 1938. United States production in 1937 is estimated at 3,000,000 pounds, only half the average annual consumption and the smallest crop since 1926. Greatest decreases occurred in the corn belt states, where the seed is grown. Although there is little if any carry-over of domestic red clover seed from the 1936 crop, approximately 3,000,000 pounds of imported seed not adapted to the corn belt are carried over.

The 1937 crop of sweet clover seed, estimated at 54,000,000 pounds for the United States, was the largest since 1929. However, the carry-over is comparatively small despite a larger crop than estimated and importations of more than 7,400,000 pounds, the largest importation on record. The rapid disappearance was caused by the low price as compared with red clover seed.

Even with a below-normal carry-over of legume seed into 1938 from the short crops of 1936 and 1935, supplies for 1938 plantings are believed to be ample.

Supplies of most grass seed seem adequate. The large 1937 timothy crop assures a supply in excess of anticipated needs in 1938. Total United States production is estimated at 90,000,000 pounds, one of the largest crops in recent years.

Likewise, the 1937 bumper crop of Kentucky bluegrass seed assures adequate supplies for 1938.

Production of red top seed is estimated at 18,000,000 pounds, which is in excess of annual consumption, and a liberal carryover of Sudan grass seed and a large 1937 crop will be ample for 1938 seeding.

May Appropriate Inventions
The government has authority to appropriate a license to use an invention if it is of vital public interest and necessary to the existence of the government. For such appropriation compensation is paid according to the provisions of the statutes.

Grant, Summer on the Outis
Ulysses S. Grant and Charles Sumner didn't like each other and seldom overlooked an opportunity to exchange verbal punches. Once when someone remarked that Sumner didn't believe in the Bible, Grant snapped: "No, I suppose not. He didn't write it."

Lakes of Switzerland
Aside from 13,000 ponds, not counting "the ponds" between America and Europe that you must cross to get there, Switzerland has 1,484 lakes; and yet it is only about half the size of the state of South Carolina, and is usually thought to be full of mountains.

BAILEY CO. HOME DEMONSTRATION CLUB NEWS

By LILLIE GENTRY
Home Demonstration Agent of

Club Achievement Days
Home Demonstration club Achievement Days are just around the corner! It is the hope of each club that club members, their friends, business men and women and any others interested will feel free to come to any one or all of these achievement events.

The clubs are putting forth every effort to plan an interesting program in connection with a tour which they hope will not only be a credit to the person who has done the work, but will give others the inspiration to do the same type of work.

The following Achievement events have been planned for the first week in November. Others will be planned later.

Nov. 7, Progress—10:00 a. m., Mrs. L. R. Hogan, program and lunch; 1:00 p. m., Mrs. M. A. Springstube; 1:30 p. m., Mrs. J. J. Gross; 2:00 p. m., Mrs. James Gregory; 2:30 p. m., Mrs. Ross Goodwin; 3:15 p. m., Ray Denton.

November 8—West Camp, 1:30 p. m., Mrs. Lois Blakely; 2:15 p. m., Mrs. Louise Ronk; 3:00 p. m., Mrs. Ethel Knowles; 4:00 p. m., school house; 4:15 p. m., Wilma Louise Snider; 4:45 p. m., Mrs. B. B. Dickinson; 5:15 p. m., Rosalie Keln.

Watch the paper for announcement of other achievement events and feel free to come in on the tour at any time.

West Camp News

Due to this being a fifth Sunday there will be no services at West Camp church, but every one is urged to attend the Fifth Sunday meeting at Oklahoma Lane.

Mr. and Mrs. O. C. Tunnel, who were visiting in the home of their son, Jake were called to the bedside of Mrs. Tunnel's brother who had been injured in an automobile accident.

Mrs. C. E. Dotson and daughter, Nora Lee, are visiting with relatives in Phoenix, Arizona.

Mrs. Jake Tunnel who has been in a Littlefield hospital, was returned to her home last Friday, much improved.

Mrs. B. E. Chaney of near Muleshoe is visiting in the home of her daughter, Mrs. Jake Tunnel.

Mrs. Melvin Snider, jr. and Wilma

Texas Press Salutes John Garner

Ready to "Go With Garner" in 1940, hundreds of Texas newspapermen participating in Press Day at the Texas State Fair in Dallas visited the Garner-for-President booth and predicted a presidential nomination for Texas' Favorite Son. In the picture above, Walter Buckner, publisher of the San Marcos Record and president of the Texas Press Association, and Joe T. Cook (right), prominent editor of the Mission Times, are examining the Garner record; and Sam Holloway, publisher of the Deport Times and past president of the TPA, is signing the guest register, while Mrs. Dale Miller, hostess at the exhibit, looks on. Holloway's home town is on Blossom Prairie in Northeast Texas where John Garner lived as a boy before going to Uvalde to become a lawyer and country editor.

Louise, and Mrs. Johnnie Williams and Joan were visitors in Hollis, Oklahoma, Friday of last week. Everett Smith, two miles south of West Camp, is installing a butane heating plant.—Reporter.

CAMERAGRAP

"HUNKING COIFFURE" Inspired by National Donut Week (Oct. 9 to 15th) a new coiffure for m'lady has been created by the well known beautician, Robert of Fifth Avenue. Miss Hene Dumar holds some donuts for the beautician to make his creation and—presto! (in the inset) here is the latest head-dress. Note the donut effect.

RECORD HOLDER—Edward "Pop" Greer (left), 81-year-old veteran worker of 100-year-old Nickerson & Robinson, Inc., lays claim to being the oldest employee in point of time, among the many industrial plants in continuous service among the many industrial plants in Bridgeport, Conn. This shows W. E. Dewell, vice-president of the drug company, presenting Mr. Greer with an aut painting of himself on the occasion of "Pop's" 81st anniversary with the company.

OFF AGAIN—Rear Admiral Richard E. Byrd arranges last-minute details of his next Antarctic expedition. The trip, being made for land-claiming as well as scientific purposes, will include 180 men and 190 dogs in its personnel.

FOUR GENERATION DRESS: Patti Dale Schroll, 3 1/2 years old, is shown wearing her 84-year-old great grandmother's party dress. The original dress, purchased at Arnold Constable & Co., New York's oldest department store, for great grandmother Johnson in 1836, was made with basque and overdress of printed pongee with velvet trimming. In 1897 the dress was remade in Kate Greenway style for Patti's grandmother (extreme right) who was then 6. In 1917 her mother (extreme left), then 4 years old, wore the dress, untrimmed, with a little jacket. Now little Patti wears the same dress, its colors undimmed and lovely as ever.

ODD SLANT at fare—but they are the main topic of conversation with young and oldsters of the fair took these fall days.

AGRICULTURAL BRIEFS

By FINLEY WHITE
Bailey Co. Farm Agent

There seems to be but two questions in the minds of cotton producers these days. First: is there to be a loan on the 1939 cotton crop and second; when will the loan be available, if there is one?

The question of a 1939 loan is debatable. The AAA farm bill provides for a loan when and if the 10 spot markets go below 52% of parity or as we know it, when the 10 spot markets go below 835c p.r. pound on middling 7-8 cotton. It so happens that the 10 spot markets are being held above 835c so as not to allow the loan to be operative this year. It also happens that cotton buyers are paying no attention to the 10 spot markets when they "take" our West Texas cotton. The buyers are back at their old game of "hog round" buying—paying as much for "buzz fuzz" as they pay for inch and better cotton.

There's no use beating the devil around the bush, the cotton factors are out to skin old John Farmer to the red this year. For years they've been preaching a longer staple, better grade cotton. They have sworn by all that's high and holy that they could buy and pay for staple cotton, but couldn't do anything with our short staple cotton any more. In response to this preaching and promising our cotton producers have come from 13-16 staple to inch and better, but they still get no more for good cotton than the fellow gets who produces the shorter staple.

The American farmer is a peculiar animal but he has stood for too many skinnings already at the hands of Mr. Cotton Buyer. The sentiment is running plenty high these days for a law that will prevent buyers from buying cotton on the "hog round" basis. Cotton should be bought on grade and staple and it should be bought at a price in keeping with the actual worth of the product. It isn't the business of the cotton farmer to keep a group of cotton hogs fat.

We realize that under existing conditions our local buyers have their hands tied. We know enough about the industry to know that the local boys have their limitations. It's not their hide we're after—it's the fellows who tie their hands that we want—and we'll ultimately get.

A concerted effort is being made to have a loan operative on the 1939 crop and we should know by Nov. 1 whether it will be or not.

4-H Club News
County, district, state and nation-

al awards for outstanding 4-H club work for 1939 will be based upon reports and records kept by 4-H club boys themselves. These records and reports are to be turned in to the county agent in December. Every boy who is carryin on a demonstration is urged to get his records and reports together so that they can be gone over by the county agent and the local club leaders to determine the winners in the various contests. Every boy is expected to complete his records whether he expects to compete for awards or not. The awards range from a simple bronze medal to a trip with expenses paid to Washington. Are you trying for one of these awards? If so, let's talk it over. Maybe I can help you.

Registered Pigs

Early this spring our 4-H club boys had plenty of trouble locating registered pigs for their 4-H club work. The picture has changed considerably since then. Our boys now have a good many registered pigs for sale. These pigs are all high quality, well bred animals and are priced right. Anyone in the market for registered hogs should not have to leave Bailey county to get the best.

AAA Notes

With our parity payments pretty well all in, we expect to start re-checking farms in Bailey county this week getting ready for our conservation (final) payments. The actual taking of applications for pay will not get under way before Tuesday or Wednesday of next week.

Every farmer whose house is not already in order is urged to put it in order before the check men gets around. We are anxious that Bailey county farmers be among the first in this area to get checks and we want your cooperation in this matter.

General News Over Texas And Other States For Week

Texas has 5,000 farmers serving on committees helping administer the AAA Program.

The State fair at Dallas closed Monday, having had an attendance of 1,038,708 visitors.

Dr. J. Alton Burdine, state university professor, has been appointed special consultant to Paul V. McNutt, Federal Security administrator, Washington.

Gov. O'Daniel's regular Sunday broadcast was barred last Sunday from WBAP, Fort Worth because he failed or refused to submit the manuscript of his talk before giving it.
