SPUR, DICKENS COUNTY, TEXAS, THURSDAY, AUGUST 27, 1931

WHOLE NUMBER 352

Old Settlers of Dickens and Motley Counties Meet Today For Annual Re-union At Roaring Springs

The re-union of old settlers of Motley and Dickens County will be held at the camp grounds at Roaring Springs today. The meeting is intended for everyone who continues to have an interest in the spirit of the "Old West" and know anything about the early days of this country.

A basket dinner will be served at 12:00 to 1:00 o'clock. Everybody is asked to fill a basket with good things to eat and be present and enjoy the day. One large common table will be spread and all enjoy the excellent association of early day acquaintances.

A program will be given in the afternoon, consisting of songs, music, talks, devotional and closing with a memorial service in respect to those who have joined the great Reunion. This is the 10th annual meeting and it is the intention of all members that it shall continue on through the years.

CRISP COUNTY, GA., PUBLIC POWER AND LIGHT PLANT IS PROVING BIG SUCCESS

Crisp county Georgia, has the unique distinction of owning and operating the first county-owned hydro-electric power plant. It began operation less than a year ago—August 1, 1930.

Construction of this plant was made possible by an amendment to the constitution of Georgia, authorizing a bond issue of \$1,250,000 for the purpose. This is over and above the 7 per centum on county tax valuation provided for in the general law.

The bonds, from the proceeds of which the county plant was built and properties acquired in that connection are secured by a general lien on all the properties of the county and by a special lien on all properties acquired by expenditure of bond proceeds. All county power plant properties are free, as are the bonds, from any tax what ever.

The plant is operated by its owners, the people of the county, through their county power commission, for production and delivery to themselves of current for all uses in their homes and on their farms at the lowest possible cost.

The initial schedule of rates adopted by the power commission is 10 to 15 percent under the rates of the power company heretofore serving the county. Any surplus will be absorbed by the extension of service to the homes, farms and industries of the county and by reduction in rate charges to the people of the county.

The Crisp County power commission fixes the county rate for current and these rates are not subject to the supervision of the public service commission of the state. The power company heretofore serving the county and operating for private gain is under that supervision.

Cordele, the county capital, built its own distribution system, which is leased to the county. Within sixty days after the plant began operation, 80 percent of the users of electric current in the city were connected to their own individual request to their own plant; more than 1,000 horsepower of new business had been tied to it, and 100 customers were on the waiting list for current from the same source. The people of the county are unified in a spirit of loyalty to their project for the common good.

The county power plant is 14 miles southwest of Cordele on the Flint River and was built under government license. It produces with its standby 19,200 horsepower and will afford with one cent per kilowatt hour, a half a million dollars annual income, whereas one-fourth that amount will retire the bonds and pay operation and maintenance expense.

Revenue from approximately one-tenth of the capacity of the plant is bringing an annual gross income of \$100,000 which is sufficient to pay operating expenses, interest on bonds, and a part of the principal, leaving nine-tenths of the capacity for use in new industries and rural consumers. Transmission lines are being extended to make purpose is to make the supply rural customers. The utility available to every prospective consumer in the county.

No county has ever before built and operated its own power plant, although there are many municipally owned and operated plants.

Rates for electric power charged by the Crisp county plant are very cheap. The residential or household rate is 5 cents per kilowatt for the first fifty used per month, 3 cents for the next 150 and 2 cents for over 1 cent for all over 150 kilowatts. Commercial and industrial light and power rates are as low as to be a great boon to business and industry.—Paid advertisement.

CAN A CALF CLUB DOUBLES MEMBERSHIP

Membership in the Dickens County Can-a-Calf Club has increased more than a hundred percent since last year. At the time of our last report there were one hundred and eight people signed up. The membership today is 217. The standing of the clubs is as follows: Dry Lake 61, Afton 55, McAdoo 42, Soldier Mound 31, Steel Hill 11, Espuela 6, Midway 4, Prairie Chapel 2 and Red Mud 1. Some of the clubs are working like smoke, judging from the number of cards they are taking out. Some are going to get the surprise of their lives on the finish of this drive. The campaign ends Saturday, September 5th, or one week from next Saturday. Afton took second place in race in this report and shoved McAdoo down from first to third by the help of Dry Lake, who stepped in to first place. Some of the folk have been holding cards back on us, hoping to step up into the lead at what happens at the finish. Remember the campaign ends at 6 o'clock Saturday, September 5th, and all cards expected to be counted will be in by that time. The official count will be announced in the following issue of the Dickens County Times and Texas Spur only. The names of the new members are not being published this week, but will be published with the whole list in the final report. The report as contained above is the count of the families signed up and not the number of calves intended to be killed.

Rev. Applewhite Called To Pastor Ft. Worth Church

Rev. M. H. Applewhite, pastor of the First Presbyterian Church here for nearly three years, will preach his farewell sermon Sunday evening at the local congregation. He is leaving Spur next week to become the pastor of the North Fort Worth Presbyterian Church. He visited the church Sunday, August 16, and preached to the membership. A call was extended to him and he accepted.

During the time that Brother Applewhite has been pastor here, the membership of the church has more than doubled. The financial crisis hit the church but the local church went on with its business. His leadership with the fine cooperation of the membership has caused the church to go forward.

As a citizen, Brother Applewhite has been one of the most active men in the community. He has been director of the Boy Scout work here the past two years and has extended assistance to practically every community activity where the good of humanity was concerned.

The community is losing a very fine citizen in his going to other fields, and the local church is losing a very devoted and faithful pastor. Probably no class of people will miss him more than the young people of this community. He is a real to every boy in the community. Probably no one's advice is sought more by the young people than his is sought.

The church that has called him is much better than the church at Spur. Besides this he has a very great field of work to do on with an opportunity of building that congregation to two or three times its present numerical strength. He stated that if the field were offered any further opportunity for building up, he would be delighted to stay here. But he said the opportunity for advancement in the Fort Worth field was too great a temptation for him to resist. With an opportunity to build a church of 250 members to a church of 9,000 members, looked at a field that should not be overlooked.

Rev. Applewhite expressed his love for the people of Spur and said he knew of no people he ever loved more.

SINGING CONVENTION MEETS AT CROTON

There will be a singing at Croton next Sunday afternoon beginning about 2:30. The meeting will be at the church. Any one having new books are requested to bring them to the church. The people are invited to be present and have a good time singing.—M. D. Goolsby.

LOST—A No. 1 steel shaft Spalding Sweet Spot driving iron, Sunday morning at the Spur golf course. Finder please return to Godfrey & Smart, Spur, Texas, ch

CROTON SCHOOL OPENS MONDAY, AUGUST 3RD

The school at Croton, which is one of the leading consolidated schools in West Texas, will begin next Monday. The board has outlined that the school will continue six days per week until October 3, at which time there will be a vacation of six weeks during October and November, to allow the children to assist with the cotton picking.

When school re-opens the children will attend the regular five days per week as usual, and in addition will attend school each alternate Saturday. Mr. and Mrs. N. C. Ribble, teachers, were in our city Monday and made known the plan. Mr. Ribble is superintendent at Croton and stated he hoped the plan would meet the approval of the patrons of the school. He said the people needed the children to pick cotton, the children needed the schooling and the teachers and the officers of the school were trying to cooperate in every way possible for the benefit of the community as a whole.

Laborers of Spur Hold A Meeting Here Tuesday

A meeting of Spur contractors, mechanics and laborers was called at the Red Cross rooms Tuesday afternoon for the purpose of discussing the unemployment problem and to offer safeguards against the invasion of outside labor, since all towns in the country are doing the same thing. After outlining a workable plan to relieve distress during the coming winter, officers were elected as follows:

President, Chas. Whitenor.
Secretary, T. J. Seale.

The president then briefly outlined conditions as to past practices of our owners of private and public buildings enlisting the aid of out of town talent in the erection of these buildings. It was driven home to those present that every dollar spent for home labor stays at home and every business in town was benefitted in a direct way. Every member present was requested to enlist the sympathies in the "live at home" program, and of prospective builders and assist to work on the municipality to furnish a livelihood for the families of workers during the coming winter.

Everyone was warned of the dangers of accepting charity. Mr. Granberry was called in and agreed on behalf of the Red Cross, to give each member 80 cans, if needed, for the purpose of preserving food and most of those not having food canned already responded and have reserved the chamber of commerce kitchen during the entire week, beginning September 7.

The clearing will meet at 8:00 o'clock each Monday night at the Red Cross Office, and requests the attendance of business men and city officials to assist in working out further plans for the success of the organization in the work of relieving distress.

The meeting adjourned after the following resolutions were adopted:

Whereas, a crisis exists in the economic structure of the entire world, and labor seems to be burdened with a greater share of the load than any other institution, we believe real suffering imminent during the winter months among the unemployed of our town unless some relief measures are provided. The unemployed do not want the Red Cross or welfare aid. We believe that a buy at home program serves the best interest of every resident of Spur, and we believe that every dollar spent for home labor will find its way back to the channels of business in Spur. Our labor is boycotted in every town in the country because they want to take care of their own labor. Most of our men own their own homes in Spur, are tax payers, members of the churches, patrons of the schools, and in normal times help support

VEGETABLE CANNING DEMONSTRATIONS

152 women attended the eight vegetable canning demonstrations given by the home demonstration agent this month. An average of five varieties were used in each demonstration. Peas and corn have held first place with okra, squash, and beans being often used. A total of 12 varieties were demonstrated.

A chicken canning demonstration was given Thursday morning. Twice fried chicken has been demonstrated along with the vegetable canning we shall be interested in culling our chickens and canning the culls.

The Palace Theatre continues to in some very fine pictures.

Geo. S. Link Advocates New Crop Control Plan

The following plan relative to the cotton control situation looks to be a very reasonable one. The author of the plan, whose name is signed to it, has studied the situation from various angles. Farmers who would go into it and make it South-wide, could put their own control on cotton production, for the governing board would act only upon the conditions as they actually existed. Cutting acreage in the spring might be as detrimental as planting too much cotton, but by this plan outlined below, if at the first of September or any stated time, it looked like there would be more cotton produced than consumed, normally, the governing board could say what percent necessary to cut to make a stable market. The following is the plan offered by one of our Dickens County citizens.

The governing body of this association to be composed of the Governors of the cotton growing states or special appointees of the Governors, the Secretary of Agriculture of the United States, all members of the Federal Farm Board and the president of the United States who shall be chairman of the Association with power to name the vice-chairman. Each county in the several cotton producing states may have a body to be appointed by the Governing Body composed of the County Judge, County Agricultural Agent and four farmers. (This is merely suggestive.) The duty of this body shall be to see that all the members of the Association live up to their promises and the chairman of each county organization shall be a delegate to any general meeting that may be called by the general governing body when any major changes in the policies of the Association may appear in their judgment to be necessary.

Every man who lives in any of the cotton producing states or owning land on which cotton is produced, is eligible to membership in this association. Association agreement as follows:

"I do hereby agree, upon my honor, as a man, that when so directed by the Governing Body of the Cotton Control Honor Association, I will destroy any part of my cotton crop at the time and in the manner prescribed by the governing board, and I agree that any cotton upon which I may hold a lien may be destroyed by the party having given me said lien, providing such destruction is by the order of the cotton control association. I further agree that should I fail at any time to obey the order of the Association in destroying any given amount as directed by them, they may come on my premises and destroy twice the amount they asked me to destroy. I make this solemn pledge believing that it will be best for the producer and consumer of cotton and with the desire in mind to keep the cotton market from going too high as well as too low. In giving my word of honor, I realize that I am making a solemn vow, which, if I should break, would mean disgrace to me and those dependent upon me and I will not only live up to this promise myself but shall encourage all other members to do so and will look upon any who fail to comply with their pledges as slackers and not worthy to be counted good citizens of the Southland."

The way the production of cotton is to be controlled by the Cotton Control Honor Association follows: At any time during the growing, maturing or matured season of the cotton plant, that the board of directors may see from government reports and private estimates that the cotton yield is going to be so large as to depress the price below the cost of production, they may order the members of the Association to destroy a certain percent of their cotton in the field, by plowing in or cutting certain amounts of rows at regular intervals over the field.

It can be readily seen that the plan will not work a hardship on any class and will be a blessing to producer, consumer and manufacturer, as it will hold cotton at a more stable price, neither allowing it to go to 44 cents or to 10 cents, but holding it in a range, which would be profitable for the producers and in no way objectionable to consumer, and to the commerce of the country. It would likewise be a governor, avoiding the possibility of panic being caused by the over-production of cotton.

You can see that most years it would not be necessary to destroy any part of the cotton and that it would only become necessary when the crop was in excess of demand and consumption. You can see this plan is better than the acreage reduction which is impossible, but

(continued on page 4)

MISS HARALSON RESIGNS FROM CITY SCHOOLS

Miss Anabell Haralson who has been at the head of the home economics department of the Spur Schools the past two years, has tendered her resignation to the Board of Education to become effective at once. Miss Haralson has secured a better position she thinks, in the Angleton High School and is going there to start work at once.

This leaves three vacancies open in our schools at this time, the home economics supervisor, Physics-mathematics teacher and a teacher of penmanship in the Junior High School. These positions will be filled in the very near future.

Our schools do not open until November 16. It that time the work will begin and continue six days per week until the full 180 days of school will have been taught. This is equivalent to nine months of 20 days each, and the schools will be able to retain their standard of affiliation and all other ratings in the State and Southern Association.

Cap-Rock Golf League Met In Spur Sunday

Representatives of the Cap-Rock Golf League held their annual meeting here last Sunday. All membership clubs were represented except Post, who for some reason, failed to send representatives. Ralls Crosbyton and Jayton were new clubs represented at the meeting, and probably all of them will be admitted as members.

It was voted by the league clubs to enlarge the club membership to include other clubs. There are certain requirements which the league demands in regard to the condition of the courses, and those clubs who have their courses in condition to meet these requirements will be admitted. A committee was appointed to inspect all courses of the clubs who desire to become members of the league.

In addition to the league representatives there were a great number of visiting golfers in Spur Sunday. A number of rounds were played during the day, and Spur golfers enjoyed the time of their lives associating with the visitors. It was a treat to every member of the Spur Club to have these visitors and many Spur golfers have expressed a wish that the visitors pay us another visit soon.

The following constitutes the list of visitors:

Crosbyton: Stanley Carter, Oran Crumm, R. W. Collier, Grady Goen, Troy Noel and Elzie Roberts.

Matador—E. C. Stearns, W. B. Pipkin, C. Y. Guthrie, G. S. Craven, A. C. Stearns, L. C. Harp, C. B. Groves, Oscar Nalley and Mr. Clements.

Ralls—Roy Cooper, Dr. H. F. Schvab, G. W. Robertson, M. A. McLaughlin, J. M. Rankin, W. F. Carr, J. H. Hiendorff, W. P. McKee.

Floydada—E. S. Sanderson and Jeff Wolbourne.

Jayton—D. M. Dickson, Dallas Kenady, Edgar Johnston, George Rice, Sam McCombs, W. J. Lane and Glenn Hancock.

Buddy Wheeler of Stamford was also a guest of the Spur course Sunday.

V. L. Patterson and W. T. Andrews, both of the Spur Club, made eagles on green no. 1, making the cup in one. Buddy Wheeler, of Stamford, made the course in 72, it being the first time he had ever played on the course. W. P. Simpson, of Spur made 36 holes in two over par.

It begins to look as if Spur Club will have to enlarge their course in the near future. Probably this will be done next year if conditions are favorable. The local golfers enjoy having company from other clubs and want them to come. They are expecting to enlarge the course and make ample provision for this very fine feature.

NEW BOOKS ADDED TO DELPHIAN CLUB LIBRARY

The following is a list of the new books which the Delphian Club have added to their library recently:

- That Other Love, by Geoffrey Moss.
 - The Godfather, by Nalbro Bartley.
 - Young Man of Manhattan, by Katherine Brush.
 - Blood on the Moon, by Jim Tully.
 - East is Always East, by Pamela Wynn.
 - Mother India, by Katherine Mayo.
- In addition to the above named volumes there have been 33 volumes added for children to read.
- WANTED—Roomers and boarders. Good meals and accommodations. Phone 93. Mrs. L. R. Higgins. 702 N. Parker.

Hockley County Citizens Visit Spur Experiment Station Monday To Investigate Merits of Terracing

TRAFFIC COUNT ON HIGHWAYS RELEASED

An official traffic count on Highways No. 18 and 24 in Dickens County was released recently by Joe Caldwell, maintenance engineer for this district. The count was taken at five different places in the county on the two highways, four points on Highway 18 and one point on 24. The record made known that 1134 vehicles of various types passed over these highways every 24 hours. The class of vehicles is as follows:

- 33 out of state cars.
- 468 local cars
- 438 in state other than local.
- 2 out of state trucks.
- 130 local trucks.
- 51 in state other than local.
- 12 horse drawn vehicles.

One point of count on No. 24 was at the Dickens-King County line and another at the Crosby-Dickens county line. These two points showed that over a period of four days the average of vehicle traffic of all kinds per day was 227. If we deduct this amount from the above stated total for both highways it will show that the average over highway 18 of all kinds of vehicles per day was 907, or about four times that of highway 24.

It is thought that the contract for the new route up the cap rock eas of Crosbyton will be let some time in September.

Broom Corn Market Steady; Outlook Promising

According to reports sent out by the Broom Corn Review of Wichita, Kans., the market for broom corn continues steady with about 70 percent of the crop harvested and 50 percent ready for market, or having been sold. This report is of August 15th and is a very good indication that the price will be steady to good for future marketing.

At Lindsay, Okla. the market was running as high as \$110 for choice brush; \$80 to \$95 for good; \$65 to \$80 for medium; and \$50 to \$65 for common.

Sales at Wichita, Kans., ranged from \$50 for common up to \$110 for good, with no choice quoted.

The Beeville, Texas market is not so good. The best quotation was for medium which was \$60 per ton and running as low as \$40 for common. The crop in that section is badly rain stained and none of it runs as high in class as good brush. But the price for medium is just a little under the Wichita market. From these prices our farmers here may expect from \$80 on up.

In regard to production, the quantity will be considerably under that of last year. The quality of production is about as good. The acreage for last year was 394,000 compared with 312,000 for this year. The average for the past five years has been 46,100 tons. It is estimated by dealers that it requires about 50,000 tons to supply the demand.

From the above figures it looks as if the market might continue steady throughout the season. However, the depressed condition may reduce the buying power throughout the country to such an extent that prices might take a dive. But good and choice brush will be in demand for the season.

WOMEN'S ENCAMPMENT

The women's encampment will be September and 2 at Roaring Springs. Don't forget the date. We are hoping to have a good delegation from the county. Perhaps the rush of the corn and peas canning will be over and we will enjoy the camp all the more.

An interesting program has been planned for the time. Each club will be responsible for a stunt or a game for the entertainment Tuesday night. Then we will have an inspirational and educational program Wednesday morning. Wear a smile and come prepared to have a good time. Let's be there by five o'clock.

NOTICE!

I will begin my music and expression classes at my home September 1st. All pupils desiring to take, call 93.—Mrs. J. W. Henry.

At a meeting in Lubbock recently, the ginners of the South Plains agreed to reduce the price of ginning from 40 to 30 cents per hundred for picked cotton. We understand the ginners in Spur have set the price at 35c per hundred for picked cotton.

Monday was a busy day for Superintendent D. E. Dickson and his crew of helpers at the Spur experiment Station. The day was made very interesting by a visit from a number of Hockley County citizens. The object of the visit was to study the value of contouring and terracing, of which a great deal has been done at the local Experiment Station and by farmers elsewhere throughout the county.

The guests stated that they had no idea that the terracing project was of such valuable importance as the local Experiment Station proved it to be. Mr. Dickson spent the day talking with the visitors and showing them the actual results obtained by terracing. There are plots of ground of practical every slope on this farm and races of practically every good effects and bad effects of this project.

The guest list consisted of citizens, most of whom live at Levelland. They were bankers, merchants and other business men who are taking an interest in the farming industry of their country.

The following made up the list: W. T. McGee, County Agent of Hockley County; R. H. Mathis, Vocational Agriculture Teacher for the Levelland City Schools; J. P. Potts, County Judge for Hockley County; Presley Shofner, County commissioner; H. H. Mann, President of the First National Bank at Levelland; W. J. Baldwin, Editor of the Levelland News; G. L. Himsley, A. N. Riley, W. P. Wheeler, H. N. Walker, W. M. Brown, Henry Daniel, Walter E. Young, Mr. Latham, H. B. Newton, G. C. Perry, J. E. Guerry, J. T. Caddell, W. F. Brown, E. M. Hart, W. C. Elliott, and Joe M. Howard.

MANY LADIES ATTEND W. T. U. CO. DEMONSTRATION

The West Texas Utilities Company held a very valuable demonstration on canning at their local office last Thursday and Friday. There were two classes each day and from 30 to 60 ladies attended every class, and around 200 to 250 ladies received instruction during the two days demonstration.

Mrs. Stella Floyd, who has had charge of former demonstrations here, was in charge of this one. All the ladies know that she has very practical ideas, and every demonstration of hers that they attend will be of benefit to them.

In this demonstration, Mrs. Floyd explained how the electric oven with its control meter can be used in canning various fruits and vegetables. She used peas, corn, okra, tomatoes, beets, and many other vegetables and fruits and the canning process was perfect in results. The fruits or vegetables are cold packed and then processed at a low heat for a specified time. The heat control on the oven is very valuable in this work as well as was the time clock.

One thing the demonstration did develop was the fact that the Dickens County people can produce just as nice vegetables and fruits as any section of the country. Mrs. Floyd used local grown products in the demonstration and the canned products have as fine appearance and flavor as those of any country. The head office of the West Texas Utilities Company, upon receiving some of the canned fruits and vegetables, every Mr. Wilson, the local manager, and expressed the company's official compliment in a very cultured manner, stating that the vegetables grown in Dickens County were not excelled by those of any demonstration held in the field served by that company. Mrs. Floyd goes to all parts of the United States and she said that the products canned here were as nice and of as fine a flavor as any she has ever seen or canned.

These statements should be encouraging to our people and should induce them to try canning projects in their own homes. Yes, it would be making every home a factory every week in the year.

Mr. and Mrs. E. D. Dickson, son, E. D. Jr., of Waco are here as the guest of the former's father, R. E. Dickson and family. Mr. Dickson, who has been visiting his parents, Mr. and Mrs. G. R. Elkins and other relatives the past two weeks is leaving here for New York City, where he is engaged in business. Mr. Dickson will accompany his relatives today.

Mr. and Mrs. George E. Vaughn, of Joplin, Mo., were here last week, the latter being the Vaughn's parents. Mr. Vaughn, of W. B. Vaughn, is in our city day to visit other relatives at Tex.

Red Top-Catfish

Everyone in these communities could not help but feel sad when they learned of the passing of Joe Ericson. He had worked on the Swenson Ranch in this country for several years and had many friends.

Gene Fry took Tom Williams, Matt Howell, in to Spur Saturday to trade and look after business matters, part of them went to the funeral. There was a large crowd and lovely floral offerings.

Miss Edrie Lewis of Catfish, who has been going to school at Belton this summer, came home Friday. Bill Rucker went to Post to bring her on home. Sunday their married daughter, Mrs. Audrie Johnson of Lower Red Mud, came up to see them and took Edrie home with them.

Mrs. Jennie Fry had quite a crowd Sunday afternoon, her son Albert Fry, wife and four children; Matt Howell, wife and Mattie visited with her until it looked like it might rain and it did that night and the next day.

Mrs. Riley Smith visited Mrs. Fuqua and Mrs. Ray Stoneman Sunday. Mrs. Stoneman is running a fever again and Ray had to run in to the doctor.

Ed Fuqua was up in the Peaceful Hill community the first of the week to see Mr. Cannon's crop on the Fuqua place there. Mr. Fuqua says Mr. Cannon has a fine crop, but the corn was too hard for roasting ears.

Dad Rucker, who was taken to Lubbock for treatment, was so much better they brought him home and he is able to lie down and sleep like a baby, something he has not been able to do in years.

The trucks came out Tuesday and got a load of cows from Mrs. Jennie Fry and then Tuesday there were some local cow buyers out.

Wednesday was Red Top's club day and Mrs. Jennie Fry, Mrs. Ruth Fry and three children, Mrs. Howell and Mattie, all of Catfish, were there and enjoyed the evening very much.

Mr. Granberry, Mr. Scudder and a doctor were in our midst Wednesday morning. The doctor was looking over the food possibilities and to see if there were in pellagra cases, due to not getting the proper food. Mr. Granberry was appointing the local committee to work on the canning facilities, which the Red Cross proposes to furnish to who cannot buy, some supplies in canning.

Mr. Granberry appointed Mrs. Rankin for Red Top, Mrs. Howell for Catfish and Mr. Johnson of Lower Red Mud as the Red Cross local committee.

Wallace Hinson, wife and son, are visiting relatives in Mineral Wells this week.

Monday morning a 12 pound boy was born to Mr. and Mrs. Pete Arand of the Red Top community. Mother and babe doing well.

Riley Smith went in to Spur Thursday with Ray Stoneman. Riley marketed friers and eggs for himself and mother. They also took Matt Howell's cream and brought them some groceries. C. A. McClain went in with them to get a new axel for his car.

REDTOP AND CATFISH NEWS

Gene Fry, wife and children motored in to Spur Saturday, marketing eggs and chickens. Matt Howell accompanied them marketing cream and getting twine so he could cut his cane Monday.

Leonard Ward and family returned the last of the week from a trip out in northern New Mexico. Leonard says they almost froze as they failed to take any coats. They went out there by way of Amarillo, Clayton, Springer, Raton and on to the Sunshine Valley, then turned South by way of Las Vegas, Portales then east to Post and on home. They say vegetables and gas are much higher there than here. They may have more money with which to buy them than we have, though. The writer failed to learn whether or not they caught any fish.

Little Earnest Smith told his father the other day, after arriving home from Matt Howell's a few days ago, that he was not going to walk any more? "I'll ride Button," he replied. Sure enough Mrs. Smith and the 4 children came by Sunday, on their way to visit Mr. Fuqua, and Earnest was riding Button.

Mr. Bill Cannon of the Peaceful Hill Community who lives on the Ed Fuqua place, was down visiting Ed Fuqua and family Monday. He also went over to his own place and got a load of wood. Ray Stoneman is farming Mr. Cannon's place on Catfish.

Mrs. Matt Howell and Mattie canned 18 jars of okra, and peas, shelled and snapped and made fine melon preserves. Everyone is thinking how and with what they can fill the empty jars and cans.

Hubert Howell, wife and babies were visiting her mother Mrs. Ed Fuqua and family last Sunday.

Thursday of last week the Ed Fuqua and Riley Smith families of Catfish were agreeably surprised by a visit from Mrs. Addie Lewis of Lower Red Mud. Mrs. Lewis is a sister of Mrs. Fuqua and Mrs. Riley Smith. She was accompanied by her three daughters, Ina, Foy and Fay; and a niece, Mrs. Luther Spain, her husband and little son, Bernice Weldon. They visited among relatives until Saturday morning. Mattie Howell accompanied them home to visit with her sister, Mrs. Alfred Fuqua and family.

A cow buyer, a Mr. Bird, was in the Catfish community last week. We were unable to learn whether or not he had made any trades.

Clark Howell and J. C. Lewis of Catfish were among the youngsters who enjoyed the party at Mr. Williamsons on Lower Red Mud last Thursday night. Alfred stayed over and visited with his sister, Mrs. Alfred Fuqua.

A Baptist meeting has been in progress for the past week. Every one attending the sermons have enjoyed them. They close at 11:00 o'clock Sunday, and then a Christian meeting starts Sunday. These are both at Red Top. Every one come out, for you are sure to hear something worth while and you might do some good yourself.

Frank Smith and family, son of Uncle Tom Smith of Catfish, who is here on a visit from New Mexico and who has been holding a meeting at Antelope school house, is back with his parents and they are planning a grand time together. They do not know that they may ever be able to hold another meeting together, but may they not think of that, but enjoy each other while they can.

Albert Fry, daughter and son, were mingling with friends on the streets of Spur Saturday. Mr. and Mrs. Ray Stoneman and little son were in Spur Saturday, trading with merchants. Mrs. Ed Fuqua and Mrs. Matt Howell accompanied them in doing some trading, too.

Power and Growth

Electric Power—ample in quantity and inexpensive in cost—stimulates towns to greater growth.

A plentiful power supply enables industries to locate in small and medium sized communities.

The small and medium-sized community is marching to greater progress as a result of the power supply brought to it through widespread systems of transmission lines.

Furnishing the dependable, adequate, and inexpensive power supply that has aided West Texas' phenomenal industrial progress, the West Texas Utilities Company—with its three major generating stations, nineteen auxiliary plants and 2,500 miles of transmission line—stands ready to serve you at all times. 124 prosperous cities and towns throughout this "Land of Opportunity" are receiving dependable electric service from the West Texas Utilities Company.

RETURNS FROM CENTRAL TEXAS VISIT

Mr. and Mrs. S. R. Bowman and Mr. and Mrs. S. H. Twaddell arrived back home Monday after spending a visit with friends at Hubbard and other Central Texas

points. In speaking of conditions in that section of the state, Mr. Bowman said crops looked poor to him. Land prices have depreciated and land which a one time sold for \$250 per acre now would do well to bring \$100 per acre. He stated he had never observed a country that had depreciated as that once rich belt has. He was asked by an old friend how many of those farms he would accept for his farm home just north of Spur. Mr. Bowman remarked that he did not want to pay the taxes on any of it. He said the cotton and other crops would fall away short of expectations.
 After making the visit down there, Mr. Bowman said he is now much better content with Dickens County. Mr. Twaddell stated it had been 15 years since he had seen the country there and now thinks it will be 15 years more before he will want to see it again.

NEW JURY LIST SUMMONED

There has been a new list of petit jurors summoned to serve in District Court, beginning Monday September 7. The following is the list announced yesterday afternoon:
 E. J. Offield, J. R. Robinson, B. F. Middleton, I. E. Abernathy, W. D. Robinson, W. E. Putman, Leslie E. Robert, R. L. Littlefield, Turner Harris, L. C. Murphy, Frank Speer, B. Williamson, D. L. Loe, J. M. Robinson, W. L. Pullen, S. I. Powell, O. L. Lovern, B. F. Simmons, L. L. Slayden, J. Frank Smith, Joe Allison, J. P. Phifer, T. C. Ensey, T. W. Stephens, D. O. Blasingame, H. H. Goodwin, J. L. Hutto, L. J. Varnell, D. Y. Twaddell, Joe Kellam, G. H. Steck, R. S. Mobley, D. M. Varnell, C. W. Taylor, H. L. Offield, and J. L. Beechley.

The Court has a rather full docket this term and is dispensing with business in a fine way, Judge Bain, who is presiding, believes in getting cases disposed of hurriedly and reasonably.

Mrs. C. B. Scott, city, underwent an operation Tuesday evening and is getting along fine at this time.

Mrs. L. B. Harkey, of Dickens, underwent an operation Wednesday morning. As we go to press conditions are looking very favorable for her.

Mrs. Carol Johnson, of Afton, underwent an operation for appendicitis, but she had not recovered from the effects of the anesthetic as we went to press.

Mrs. J. T. Holloway, Soldier Mound community, continues to improve after an operation ten days ago.

Little Miss Opal Webb, of Gilpin is getting along fine after an operation last week.

Dickens High School Opened Last Monday

Dickens school opened two weeks earlier than usual. The Board and Supt. Dowell selected the date because it will enable them to complete six weeks or two months before cotton picking is in full swing. By then it might prove that school will not have to be stopped for it. So far as is known, there is no objection on the part of the patrons, as the children are not working and there will not be any work until then. We think this was a wise idea and it was approved by several state men.

The opening exercises will be Monday, August 31. All patrons pupils and friends of the school are urged to be present. Enrollment and issuing of books began Monday of this week. There were three hundred and seven enrolled. Larger than ever before in the history of the school. The school has full affiliation.

The faculty is as follows:
 G. S. Dowell, Superintendent; J. H. Merchant, coach; Mrs. G. S. Dowell, Miss Mary Estes, Mrs. J. H. Merchant, Mrs. Robert Reynolds, Misses Ruth Dittrich, Bernice Tidwell, Cleone Newberry. All teachers have had two years or more of college training and several have degrees. The school has advanced rapidly during the past two years. This year looks like a record breaking year, under a fine faculty. Coach Merchant is expecting a good football team.

CANNING KITCHENS

In the first week of its existence there were an even thousand cans filled in the Spur Canning Kitchen. At the present rate, the second week will do even better. The Dickens Kitchen has a similar record of work. Peas and corn are proving to be the most popular vegetables canned by about a nine to one majority.

The Spur kitchen has been used every night last week and is signed for more than a week in advance for the next week and for nearly a week at night. The record for any day's work is 206 cans and 51 for a night.

GIRARD H. D. CLUB SETS A SPLENDID RECORD

The Girard Home Demonstration Club met in the home of Mrs. C. Ray Williams last Thursday. There were 40 members present. Miss Reed gave a demonstration on how to cook a balanced meal.

Since Miss Reed organized the club it has canned:
 916 cans of peas,
 96 cans of squash,
 190 cans peaches
 768 cans of corn
 168 cans of beets,
 100 cans of miscellaneous products
 Making a total of 2138 cans.
 Next Thursday the ladies will meet at the Williams and Williams gin to can all day. Cans will be furnished by the Red Cross. All that use the cans will be requested to return two filled cans out of every twelve cans. This goes to the community chest for the county.

Thursday week a demonstration on watermelon products will be given by two members of the club who attended the demonstration given by Miss Reed at Jayton.

IN HONOR OF MRS. C. A. JONES

When I saw her 20 years ago, little did I know that my life would be made richer. Mrs. C. A. Jones was a friend to the friendless. She did not care for praise. I can see her now, holding a tiny blue-eyed, curly headed baby boy—my how she loved children. Twelve years later that same baby lay bruised and helpless, and there she stood one day by his mother and with that tenderness said, "Minnie, God will lead us through, some way." And He did. Then the call from her friends and mine, and the boy was made well. What is love? "If I give all my goods to feed the poor and have not love—" she said. She not only loved, but she gave, she encouraged, criticised constructively, taught paternally; first, to love the beautiful, to be able to find the beautiful, to be able to forgive and forget;—"That is true love," she so often said. Not only my friend is gone, twenty years of unbroken trust with changes strong enough to break and smash but didn't.

She was a true friend to Spur. She was happy when Spur grew in prosperity. She had a part in finding just the nicest place; drove for days in a buggy with two horses, seeking out the best place for Spur.

She was a friend to the cowboys. With a twinkle in her brown eyes she used to love to tell of her first Christmas tree on the Swenson ranch.

Her works will follow her. Her standard will not be lowered in the lives of her husband, her sons, and her friends.

All of us have placed flowers at some time in our lives, upon the graves of our loved ones, with memories too rare to talk about. The flowers will wither, die, crumble and are gone. But the memories of Mrs. Jones will live in my life always. She loved, lifted, gave and forgot the gift.
 —Minnie Lewis.

J. F. Askew, representative of General Motors Corporation was in our city Tuesday discussing business with the local Chevrolet sales agency.

Miss Lois Shawyer, who spent several days as the guest of Mrs. Bullock Tillotson, left the last of the week for her home in Memphis, Tenn., where she will resume her work in one of the high schools of that city.

Sidney Cox, of Jayton, is able to be up after an operation two weeks ago.

Miss Kathryn Porter of Jayton is doing fine after an operation two weeks ago.

Mrs. S. W. Casey, of Abilene, J. C. Miller of Jayton and Mrs. Pete Perry, city, were guests of Mrs. Austin Frazier of Highway Tuesday.

Mrs. W. F. Shugart, who has been visiting relatives and friends at Vernon and Chillicothe returned home Monday.

W. B. Lee, president of the Spur National Bank, left yesterday for Dallas on business pertaining to the Bankers Agricultural committee.

W. T. Vandiver and son Carl, of Jayton, who are experienced broom corn men, having worked at pulling and threshing, were in our city Wednesday and stated they would assist farmers of this county with their pulling. Anyone desiring experienced men can get them by writing them at Jayton.

WANTED—To head maize or harvest corn on the shares. Anyone having maize, kaffir, or other grain to head on the shares, write T. Y. Thomas, Spur, Texas.

Mrs. D. H. Dunn and Mrs. Sam Koonsman, of Croton, were in our city Saturday doing some shopping.

Mr. and Mrs. Bill Brown, who have been at Comanche for some time are now located at Afton. Mr. Brown has taken over the barber shop in that city and is now busily engaged improving the appearance of people there.

Misses Clara and Lora Cammack of Matador are the guests of their uncle and aunt, Mr. and Mrs. W. D. Starcher this week.

Tyler Cagle of Abilene spent a few days the first of the week in our city, as the guest of his aunt and uncle, Mr. and Mrs. W. D. Starcher. Tyler is connected with the Abilene Reporter News.

Mr. and Mrs. A. Lollar of Red Hill community, were in our city Monday doing some trading and greeting friends.

Misses Nell Collett and Dorothy Lisenby are the guests of Miss Frances Carter at Crosbyton this week.

Mrs. J. E. Morris and little daughter, Frances, returned Monday from California where they have been visiting for some time.

Miss Mavis Stafford and mother and Mrs. Elzy Watson were in Lubbock Friday and Saturday visiting Mrs. Arthur Stearns. Miss Stafford left Monday for Long Beach, Calif. where she will attend school during the year.

Typewriters for sale. Both new and used machines. See the Times. The Times prints visiting cards.

A. E. McClain of Calgary community was in our city Tuesday attending to business matters. Mr. McClain stated that he had not had much rain this year, but had a very good crop. He said he would accept a rain or a calf any time.

Typewriter ribbons at the Times Office.

Dr. and Mrs. J. B. Zachry of Jefferson are here visiting their children, Dr. and Mrs. Dan H. Zachry and Mrs. Jimmie Sample. Mrs. Sample returned with them after a visit at Jefferson.

The Times does job printing of all kinds. Let us figure with you. Phone 30.

Mr. and Mrs. F. W. Harris and Children of Waxahachie arrived here Monday and are spending a few days visiting their cousin, Mrs. Dan H. Zachry.

LABORERS OF COMMUNITY HOLD A MEETING

These institutions in a financial way. Therefore, BE IT RESOLVED: that we request the sympathetic operation of every business institution in Spur, in securing who constructive work is projected during the coming year, and that every effort be put forth, looking to the promotion of building of public nature during the winter months, thereby enabling laborer care for itself in a self-respect manner. That we condemn the practice of BE IT FURTHER RESOLVED: institutions employing married women where the husband has employment, instead of employing a member of some unemployed family, who may be just as capable and make that family an asset to the community instead of a liability. We further condemn the practice of business institutions in the curtailment of the force as an economic measure instead of reducing salaries to meet the same measure. We believe in the old adage, that 'half loaf is better than no loaf at all.'

BE IT FURTHER RESOLVED: That a copy of these resolutions be spread on thimbletubs of our organization and copy be furnished both the Dickens County Times and the Texas our for publication.

Respectfully submitted,
 Chas. Applegate,
 H. P. Berry,
 J. R. Laine,
 Chas. Whitener,
 Committee.

EDITOR'S NOTE: We suggest that if farm or any one in the schools

community have any surplus peas, beans, corn or any other products which may be canned or preserved, as food in any manner, that you get word to either Chas. Whitener, or notify the chamber of commerce office, and let these people who have no jobs have these products to can. There has been a great amount of food grown in the country and if properly distributed, there will be no reason for our neighbors going hungry this winter. Mr. Whitener will take his truck and go after any vegetables so donated for the benefit of the unemployed.

COTTON CONTROL HONOR ASSOCIATION

if it was practical, in that way you might make a short crop and put the market too high to the detriment of the consumer and producer for danger lurks in the path of high priced cotton. We believe this the most workable plan that has yet been proposed, one that is equitable and fair to all and is workable because all classes, bankers, merchants, professional men and farmers can agree to a plan of this kind. It takes very little financing and its terms can easily be complied with by every member.

I beg your careful consideration for the sake of our nation. This plan will work with corn, wheat or any other crops.

Geo. S. Link,
 Spur, Texas.
 August 14th, 1931.

All size envelopes for sale at the Times Office. Phone 30.

Notice To Our Customers And Friends

We will operate our Feed Crusher and Mixer and our Grist Mill on Saturdays only starting next Saturday, Aug. 22.

Bring us your crushing and grinding.

Spur Grain & Coal Company

THE SPUR NATIONAL BANK

Capital and Surplus \$125,000.00

SPUR, TEXAS

Dear Friends,

Doesn't time fly? Here it is time to sow winter pasture again. The other day someone asked, "How many in this county will sow wheat and barley pastures this fall?" The prompt response was, "100 per cent, or 10 to 25 acres on every farm." Why shouldn't we? It saved our lives this year. Might do it again. Anything that will pull us out of a tight will keep us out.

In addition to conserving our wonderfully fine feed crop to fatten some calves and pigs for the market next year, it will keep the dairy cows and poultry up to a high standard of production and put the work stock through the winter in good shape at practically no expense. And just think, you will not have to feed them morning, noon and night. It is a lot easier to turn them out and drive them up. And, too, it might be the means of getting some cheap biscuits next summer.

Mr. J. C. McNeill, 12 miles west of Spur is offering genuine winter barley at a nominal price, which has never been known to freeze out. If it is strictly a pasture problem with you, barley cannot be beaten, especially on sandy land.

While you are preparing for the livestock, DON'T FORGET THAT FALL GARDEN for the family. You can sow enough garden truck in thirty minutes to furnish vegetables for the family this fall and some to can for future use; besides, it is wholesome, healthful and economical.

These two items constitute genuine "Farm Relief," and they don't require an act of Congress and the Farm Board will not ask you to plow up every third row.

Arrangements have been made to finance the feeding of some calves this winter. A good winter pasture will cut your feed bill in half and should double net profits—the thing we are all looking for. Just remember, the earlier the pasture is sown, the more profitable it will be.

If every person in this county would resolve in his heart to make a living at home, exclusive of cotton, and forget about getting rich quick prosperity would smile on Dickens County people before long in a way that it has never smiled before.

Most cordially yours,

THE SPUR NATIONAL BANK
