SCHOOL DAYS

By DWIG

Fred W. Davis For R. R. Commissioner

To the Democratic Voters of Texas: Although I voluntarily retired from public service some years ago, I have always been appreciative of the confidence of the citizenship of this state.

Rather than burden this statement with a bibliographical sketch, I will deal briefly with some of my work while I was Commissioner. The Department had a continuous growth during this period. I organized the marketing division and caused the passage of the first grade and pack laws for perishable products.

I was Commissioner when the pink bollworm was first found at Anahuac, Texas. This infestation was in a territory of continuous cotton fields under the most favorable climatic conditions, yet it was completely stamped out in this and other sections—an accomplishment unequalled in insect control.

the many outstanding accomplishments attained while I was Commissioner.

SECOND SHEETS AT TIMES Office

SHOCK TROOPS

Never before has our Federal Government come into such intimate contact with the lives of all the people.

The maze of Federal machinery is so complex that it requires constant study to comprehend it. While a mighty nation, under daring leadership, is being mobilized for recovery, private enterprises and organized community effort must continue to play a big part in our progress.

Chambers of commerce have demonstrated their usefulness in this National emergency as never before. Ready with trained men, with organization experience and with the best manpower in every community already enlisted, the Chamber of Commerce has been the point of contact between the average citizen and Washington in every Government move.

In Texas, with no State agency to administer emergency relief, it was the Chamber of Commerce organization that functioned quickly and effectively until Government machinery could be set up. With crop loans, it was the Chamber of Commerce, working with the county agent, that first organized local committees and explained it to the farmers.

Midnight lights have burned in many a secretary's office during this strenuous year of the "New Deal." As soon as preliminary work on a new public movement has been completed by the Chamber of Commerce, the organization steps aside for local, State or National administration and turns its attention to a new advance in the program of progress.

two per cent of the population. They work for the farmer, for the creation of employment for the laboring man, for the health and welfare of all the people. They are often criticized by the very people who receive great benefits from them free.

We need our Chamber of Commerce in this brighter new day that is dawning in 1934. Join with our loyal citizens in investing some of your time and money to make it possible for these useful organizations to function for you, your town, State and Nation. Don't ride free in the big progress parade as we march to victory.

GULF WINS MORE "HILL TESTS" THAN 32 GASOLINES COMBINED

Will your car have more power on any one gasoline? HERE'S YOUR ANSWER..

Gulf tested a total of 33 gasolines on famous American hills—12 hills in localities from Massachusetts to Georgia—and here is what they found...

The power of different gasolines varies widely! And of all 33 gasolines, Gulf is uniformly best. 7 out of 12 times, it propelled a car and load up mountain grades farther than any other gasoline tested!

It won more hill tests than 32 other gasolines combined! Prove it! Drive into a Gulf station, fill up, and test the power of That Good Gulf for yourself!

HOW 33 GASOLINES RANKED (IN ALL TESTS TO DATE)

Table with 13 columns (WINNER, 2nd PLACE, 3rd PLACE, 4th PLACE, 5th PLACE, 6th PLACE, 7th PLACE, 8th PLACE, 9th PLACE, 10th PLACE, 11th PLACE, 12th PLACE, 13th PLACE) and 13 rows of test results.

EACH OF THE BRANDS of gasoline tested is indicated on the chart by a letter, A to Z6. Note that Gulf gas was uniformly best! Other high-ranking gasoline varied widely in different tests.

A BORROWED FORD tests 12 competing gasolines on Muldrough Hill, near West Point, Ky., to see which gas can pull the car and 3500-lb. load farthest up hill in high gear.

COUNCIL PLANS FOR CLOTHING CONTEST

The cooperators dresses for the County Clothing Contest this year may be of sheer or heavier cotton material or linens was the decision of the Dickens County Home Demonstration Council in regular meeting Saturday afternoon in the basement of the Baptist Church.

That gives the cooperators a wide range of cotton materials and linens to make a street or neighborhood dress.

The clothing contest will be held sometime in June and every club member is expected to exhibit a dress in the contest.

Mrs. F. B. Crockett, chairman of the council named the following committee to serve for the clothing contest: Mrs. John Bachman and Mrs. Clyde Gardner were added to the standing exhibit committee. Mrs. Clark Forbis, Mrs. Thurman Moore, Mrs. Jim Eldredge are the serving committee. Mrs. R. C. Alexander, Mrs. R. C. McMahan, Mrs. W. M. Hunter re the cleaning committee.

DRY LAKE CLUB HAS LESSON ON FIRST AID

"I felt that what I have learned today may be of more benefit to me than any lesson we have had in a long time," said Mrs. Rogers at the close of the meeting Thursday afternoon.

Seven of the eleven members were present to make a list of the things a first aid kit should contain and to hear the talk given by Miss Pratt on "How To Render First Aid."

Mercurochrome, Mentholatum, Salt Water and Liniment were some of the most used remedies given, in answer to the roll call.

We will meet the afternoon of May 10th at the school house. Miss Pratt will give a demonstration on Making a tufted bed spread. She advised us to buy a good grade of sheeting 10-4 width. About three yards is required or the spread may be for a small bed if needed. Also bring carbon paper and pencil to transfer your pattern.

POISONS SHOULD BE LABELED

"Poisons should be labeled and kept out of the reach of children. A pin stuck into the cork of bottles containing poison medicine will cause one to detect poisons," said Miss Pratt in her talk to Red Top Club members, Wednesday evening at the school house.

Miss Pratt suggested the following articles for the home medicine chest: Dressings, absorbent cotton, adhesive tape, iodine, mercurochrome, spirits of ammonia, oil of cloves, castor oil, rubbing alcohol, boric acid, scissors, tweezers, safety pins and a thermometer.

The following members were present: Mesdames Howell, Harrell, Jones, Childers, Garrison; Misses Pratt, Howell, Childers and McArthur.

We were glad to have Mrs. Twaddell county school superintendent as a visitor.

We will meet at the school house again May 9th at 2:30. Subject: "Making a tufted Bed Spread."

DUCK CREEK GIRLS PREPARE SALADS

Preparing salads of carrots and spinach made an interesting meeting for the Duck Creek 4-H Club girls in their regular meeting Tuesday morning when they met in the home of Mrs. Otis Driggers. Salads were prepared according to recipes given them by the home demonstration agent.

Besides preparing salads the girls canned carrots. "Carrots may be canned sliced or whole so that the canned products may be served creamed, buttered, or glazed," Miss Pratt told the girls.

Our club is 100% on having turned in the pillow slips. One of the goals in bedroom work is to make a pair of pillow slips. Miss Pratt says our club is the first to get all of them in this county.

Those present were: Aroliene and Pauline Hagins, Dot Swearingen, Artie Mae Frantz, Margaurite Bural, Robbie Lou Driggers, Ruth Matlock, Katherine Thach, Miss Nell Durham, sponsor, and Mrs. Driggers.

AN EDITORIAL

An example of successful operation under a code of fair competition is afforded by the leather industry, which last year was described as having suffered severely from the depression. In declaring with evident pride that "the achievements have been entirely satisfactory," a report to the National Recovery Administration from the Tanners' Council of America lays claim to having "demonstrated a complete fulfillment of both the letter and the spirit" of their code during a period of 6 months.

Factory employment alone, the report states, stood at 50,082 at the end of February 1934, "or slightly higher than the average for the year 1929". Hours of work per week were 37.8. If they had worked at the 1929 rate of 47.6 hours per week, since production was at about the same level, there would have been required 39,771 employees. Thus, the Council points out, "the code has added 10,311 to factory pay rolls."

"As far as weekly earnings are concerned," the report continues, "the index in the cost of living fell from the 1929 average of 170.8 to 136 in February 1934, a decline of 20.4 per cent. Weekly earnings for males in factories in February amounted to \$21.60, an increase of \$3.96 over April 1, 1933, and \$3.15, or 12.7 per cent less than in 1929, and weekly earnings for female factory workers amounted to \$14.28, an increase of \$3.34 over April 1, 1933, and the same as in 1929. Thus purchasing power of all factory workers in the leather trade was greater than in 1929." The total amount in the payrolls amounts to \$13,896,740.

This report, covering the normally peak period and also the normally slack season in trade, illustrates what is being accomplished by employers toward restoration of buying power through relief of their workers and also the comparative ease with which industries can and do govern themselves.

Mrs. Emma Mae Hastings, of Lubbock, is a guest of Mr. and Mrs. Robt. Reynolds of Dickens, and was in Spur Wednesday looking over our little city.

Mr. and Mrs. George Metcalf, of Palo Pinto, are here this week, the guests of their daughter, Mrs. M. F. Ewton.

Tom Andrews, one of the progressive farmers of Duncan Flat, was transacting business in our city last Wednesday.

F. C. Ganson, merchant at Dickens, was looking after business matters in our city Wednesday.

J. J. Hickman, of McAdoo, was attending to business affairs in our city Wednesday.

Fred C. Haile of the Spur Mutual, and L. M. Nichols were in Abilene on business Saturday.

D. W. Hughes, of Duncan Flat, was transacting business in our city Monday.

Mat Darden, of Girard, was attending to business matters in our city Monday.

Mr. and Mrs. J. L. Jones, of McAdoo, were in our city Monday doing some trading and looking after other business affairs.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks pink, don't swallow a lot of calomel, emetic water, oil, laxative candy or anything else and expect them to make you suddenly moist and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-cast mood and feeling is your liver. It should pour out 20 pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those 20 pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, among them it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. It's a substitute. If at drug stores. ©1931 C. M. Co.

SAYS CONNALLY IS NEEDED IN SENATE TO HELP PRESIDENT

The following is a statement from Paul C. Yates, former World War Soldier and at present a journalist of national fame. He says Senator Connally is needed in the Senate to assist the President to put over the recovery program.

Texas Contribution
In the forthcoming Democratic primary, Texas can contribute effectively toward a continuation of this great recovery program by nominating Senator Connally for a second term in the United States senate.

A native and lifelong citizen of Texas, I have sojourned in Washington for the past five years, covering the national capitol for the Houston Post, and later working as a member of the International News Service Washington Staff, assigned to cover the senate. I have had occasion to observe closely the record and activities of every senator.

Senator Connally is held in the highest esteem by his colleagues and by Washington newspapermen, because of his splendid character, high patriotism, signal ability, and vision as a statesman. He enjoys implicitly the confidence of the Roosevelt administration. He is admired universally for his courtesy and gracious, hospitable manners, so typical of the great commonwealth he represents.

In the tangled mass of issues confronting congress, Senator Connally has adhered to a course of sane liberalism and championed consistently the interests of the masses. He has fought efficiently against reactionary policies and the predatory drives of selfish special interests.

Sitting in the senate press gallery, I have watched him cast votes which he knew might alienate some of his supporters, but which his lofty sense of duty to the larger interests of state and nation impelled him to cast. I am proud of his record, proud of his ability and the deservedly high place which he holds as one of the ablest members and most gifted speakers in the senate.

CHEVROLET DELIVERIES SHOW GREAT INCREASE

A total of 62,388 units were delivered by Chevrolet dealers during the first twenty days of April, according to W. E. Holler, general sales manager of Chevrolet Motor Company. Sales for the year through this period total 235,332 units as compared to 154,526 units in the same period of 1933, making the period 152 per cent of the corresponding period in 1933. Sales reported for the twenty days of April are more than 180 per cent of the corresponding 1933 April figure of 34,354 units.
Retail deliveries of commercial cars and trucks continue to gain; 16,224 trucks were delivered during the April period, which triples the 1933 figure of 5,034 units for the same period. Sales in the commercial field have shown steady increases, Mr. Holler pointed out, and at the close of this April period had reached a record figure of 73,619 units for 1934.

PUBLIC OFFICIALS ARE INVITED TO WTCC CONVENTION

Every mayor, county judge, city manager and member of the Texas Legislature has been invited to attend the West Texas Chamber of Commerce convention, May 14-16, in San Angelo. Mayors have been asked to extend the invitation to members of their council or commission, and county judges to the county commissioners.
The invitation was made by President Walter D. Cline who called the public officials attention to the four group conferences, public expenditure, rehabilitation, agricultural, and oil and gas — especially inviting them to attend these.

President J. H. Jordan of the San Angelo board of city development has invited Mayors, judges, and legislators to attend a luncheon on Tuesday, May 15 at which time Judge Charles E. Combes, past president of the regional chamber will be the principal speaker.

Chargagagomanchaugagoghch-aubunagunamaugg is the name of a lake in Massachusetts; it was named after the terms of an Indian fishing treaty, and means: "You fish on your side, I fish on my side, nobody fish in the middle."

PUBLIC OFFICIALS' INDIFFERENCE

It would seem natural that no group of Texans would be more concerned with industrial development of Texas than the public officials and, generally speaking, they are. But every no wand then there occur instances in which public officials show either indifference or downright antagonism to Texas products.

At Dallas recently the City administration placed an order with an envelope manufacturer of Virginia because it gave a 3 per cent discount instead of the 2 per cent offered by at least one Dallas concern, which claimed that under the envelope code that was the maximum discount allowable.

Two Dallas envelope factories support probably 100 Dallas families, pay several hundred dollars city taxes annually, and contribute to the industrial and economic upbuilding of their home and city and of Texas.

At Lubbock more recently, over the strenuous opposition of a minority headed by John W. Carpenter, president of Progressive Texans, Inc., the board of regents of Texas Tech awarded the brick contract for a new building to an Arkansas brick plant over the competition of several Texas brick concerns. The minority was able at least to defer action on the purchase of furniture, which they contended, price and quality being equal, should be given to Texas furniture makers.

The short-sighted private citizen may contend that he has the right to buy where he pleases. There is no question of his right, only of his judgment, for he has a real and selfish interest in the industrial development of his own State. But public officials, spending money that comes from taxes of the very concerns they are ignoring, are in a different situation, and likely will realize it some day.

RABBIT DRIVE ON TODAY

The people of Gilpin and Red Hill communities are joining in a rabbit drive today. The drive will start just north of Gilpin and will continue to the Red Hill schoolhouse. Everybody has an invitation to join in the drive and everybody is expected to have a good time.
