

SPUR SWIMMING MEET MONDAY WELL ATTENDED

Spur Scouts Will Sponsor Show on July 18-19 at Palace

The two troops of Boy Scouts of Spur will sponsor a picture show at the Palace Theatre Sunday and Monday, July 18 and 19. Tickets will be on sale with the Scouts beginning on Wednesday, July 14, and everybody had just as well get your quarters ready now as the Scouts will be after your money. Tickets will be for sale four days, Wednesday, Thursday, Friday and Saturday of that week. Tickets will be good for the Saturday night preview, Sunday matinee and Monday's program.

The Scouts have selected a very fine program for the occasion. The program features Joe E. Brown in "When's Your Birthday?" and everybody knows what a good actor Joe E. Brown has proven to be.

The Scouts are needing about \$150 worth of equipment and are working diligently to secure it this year. Troop 35 won first honors at Camp Post this year and received a nice loving cup. They must earn it two more times yet before they get to keep it permanently. They are assisting with ticket sales at the soft ball games and selling cold drinks at each game. They express their appreciation for the patronage and assistance the people have given them, and they want to buy that equipment and earn that cup for good.

WHEAT SHIPMENTS PASS 200 CARS FOR SPUR AREA

The Stamford and Northwestern Railroad pulled out Wednesday with the final of 201 cars of wheat from the Spur station. Two more are billed out for today and possibly six cars of wheat will be in the train shipment today.

The local depot agent reports that shipments will reach 210 cars for the season, which will run close to 300,000 bushels of wheat shipped from Spur. The prices going up for wheat at this time, and the quality of Dickens County wheat has been excellent.

Considering the wheat from this county that has been shipped from Roaring Springs, Dougherty, and Crosbyton, it would place Dickens County among the big wheat growing counties of the Panhandle. Wheat has been reported to produce from 17 to 50 bushels of grain per acre this season.

Scout Troop No. 36 Receives Loving Cup

At the meeting of the Rotary Club last Thursday a beautiful loving cup was awarded to Boy Scout Troop 35. Jeff Smart, who is the senior patrol leader, received the cup for the troop. This cup was the result of the record that Troop 35 made at the annual Scout encampment at Camp Post last month.

In addition to the loving cup Troop 35 was awarded two pennants for their work in Scouting.

G. B. Wadzeck is Scoutmaster for the Troop, and is away at this time. Hence, the work of the Troop is wholly up to the patrol leaders. However, the work is going along fine in every way.

Spur Girl Wins Recognition For College Studies

Miss Nedra Hogan, who recently closed her college year at Texas State College for Women, seems to have been in line for good records in her work, according to reports received this week from the school. Miss Hogan won recognition as one of the upper 14 per cent of a student body of 2,400, and was awarded scholastic honors. The award was made on the basis of her achievements during the last term of the regular session. She received a letter of congratulation from E. V. White, dean of the college, on her outstanding record at the close of her freshman year. She is a daughter of Mr. and Mrs. Ned Hogan of this city.

R. B. Sharp Passes Away on Sunday

R. B. Sharp, a citizen of Dickens County the past twelve years, died at his home Sunday morning about 4:30 o'clock. His illness was very short, feeling ill about three o'clock Sunday morning and grew worse until his death.

Funeral services were conducted at the First Methodist Church in Spur Sunday afternoon at five o'clock. Rev. E. C. Armstrong delivered the sermon, assisted by Rev. P. H. Gates. Interment followed in Spur cemetery with Bill Kinney in charge of arrangements.

Mr. Sharp was born at Alto, then Kaufman county, February 16, 1855. He was educated at old Waxahachie College in the early days of that institution. He moved to Goldthwaite, Mills County, while a young man. He married Miss Jane Mayfield in 1889.

While a youth he was converted and joined the Presbyterian church. Later he affiliated with the Methodist church and was a faithful worker in the church until his death. He spent much time reading the Bible and was a steward in the church for many years.

His boyhood dated back to the days of the Civil War, and he was an old type Democrat. He considered President Roosevelt as his model statesman.

He is survived by his seven children: J. P. Sharp of near Spur; A. C. Sharp of Dickens; C. L. Sharp of Lamesa; S. J. Sharp of Chico; Mrs. W. R. McClung of Spur; Mrs. G. W. Kemp of Clarendon; and Mrs. T. P. King of Vera.

Mr. Sharp was an outstanding citizen and was true to his convictions in life. The early days of reconstruction brought about many hardships which he had to endure as a boy, and his sixty years of work in the church instilled in him a disposition of standing up for right things and denouncing those things which were not right. He was a good neighbor, an honorable man and a loving husband and father. Mrs. Sharp passed away just a few months ago.

Matador Attorney Is Officer of State Bar Association

John Hamilton, of Matador, was elected a vice president of the Texas Bar Association at the San Antonio meeting last week. Attorney Hamilton is to be head of District No. 7, of the Bar Association, and automatically becomes a member of the board of directors of that organization.

Judge Hamilton recently became District Attorney for the 110th Judicial District of Texas. He served as County Attorney of Motley County before he became District Attorney. He is a young man of excellent ability and is growing in his profession very rapidly.

Judge Frank Bezoni of Tyler was elected president of the Texas Bar Association and Joe Briscoe of San Antonio was elected first vice president.

We wish to thank our neighbors and many friends for their kindness and help in the trying hours just passed in the loss of our father and grandfather.

Mr. and Mrs. C. L. Sharp and Children.

Mr. and Mrs. A. C. Sharp and Children.

POSTAL RECEIPTS SHOW INCREASE

According to a report from Postmaster O. C. Arthur the postal receipts for the Spur postoffice for the quarter closing June 30 showed an increase over the same quarter last year of 15 2-3 per cent. This shows that business conditions in the community have improved the past 12 months because the trend of postal receipts is a very good index of conditions.

Schools Receive Apportionment Hike From State Funds

Beginning with September 1, 1937, the 1,560,000 school children in Texas will draw an apportionment from the state fund of \$22 each, according to a decision made by the State Board of Education this week. The state apportionment this year was \$19 per capita with a state ad valorem tax of 20 cents on the \$100 valuation. The new apportionment will mean an increase of \$4,700,000 over last year.

This increase will mean that Spur schools will receive between \$2,500 and \$3,000 more next year from the state funds than was received this year. The balance in the available school fund at the beginning of September will be \$3,117,899.00.

Two dollars per capita of the present school year was received just a few days ago. There is yet another two dollar apportionment to be paid between now and September 1.

Bids Are Asked In Postoffice Location By Federal Group

The District Postal Supervisor for the Fort Worth District is in Spur this week making arrangements for a home for the local postoffice for another two years. There have been several proposals offered the postal department and just what will be the outcome is not known. The lease is to be for two years this time. Usually five years have been asked for.

Spur is in line to secure a Federal building, but it will require two years and probably longer to get this through. There are other towns in West Texas who are in line with Spur, and if our postal receipts do not show up as they should, we may have to wait a while to get a new post office building.

GIRARD BAPTIST CHURCH

You should have been present Sunday morning at our church and heard the sermon on "Harvesting." What kind of seed are you sowing for the harvest of reaping? If you are one among those who are sowing the seed of indifference to the church work or your open criticism of it your harvest will be full of sorrow to you and others. The church is the light in your town, keeping it from total darkness.

There were twelve little girls present at the Sunbeam Band Sunday afternoon, but where are the boys that should have been there? Mrs. Dr. Reed told the children an interesting story on kindness to dumb animals. They are planning for a picnic Friday afternoon with refreshments of ice cream and cake.

Quite a number of them promised to memorize one verse of the first chapter of John each day of this week. This band of Bible students will mean something to this church.

Keep an eye on their future growth. We had singing Sunday evening before church services. Come to our singing each Sunday night. We want you.

The local store of the Safeway system proved to be the banner store in the amount of sales in the Abilene District for the quarter ending July 1. C. R. A contract was let to Cage Brothers of Bishop this week for asphalt seal coat on Highway 18 from Spur to Motley County line, and from that point in Motley County to Whiteflat.

WE THINK HE IS GOOD

The Times force are much indebted to O. L. Kelley for his services the past two weeks as editor pro tempore while the editor was away. AFTON METHODIST CHURCH

Will every Christian in the Afton community come to church next Sunday morning? I believe that I have a message for you.

Many questions of great moment are coming up for attention today but the greatest problem of all is the spiritual life of the people. If each individual would get right with God, all other troubles would be easily solved. Many writers on business, science, sociology, and politics are able to see and are urging the American people to turn back to God.

Our meeting will begin on Friday night, July 23. We shall look for you. Your presence will be a help.

Eugene L. Naugle, Pastor.

Oil Well Drilling Continues Steadily

The Litchfield well in the F. Morrissey Company block continues to drill with good speed. Quite a number of gas pockets have been encountered the past few days, but nothing of an exciting nature yet. The drill is in hard lime at 4:30 o'clock yesterday afternoon, which was a continuation of hard structures that have been encountered the past three days.

There is nothing to be excited over yet. The well is below the 700 foot mark and is going down without any delay. The only object in view is to get it completed to a producer as early as possible. No serious trouble has been encountered in any manner.

Miss Gladys Sanders, assistant home demonstration agent of Lubbock county, will be the featured speaker at the Dickens County Clothing Fair scheduled for next Saturday, July 10, in the Methodist Church. Miss Sanders will discuss "Good Grooming in Clothes, Face and Figure," at the morning session beginning at ten o'clock.

Visits San Angelo to Recuperate Health

George S. Link, accompanied by Mrs. Link and son, George S., Jr., left the last of the week for San Angelo where he will remain for a while to rest and recuperate from a long illness. Mr. Link suffered an attack of influenza early in the spring and he seems to be having a difficult time in coming out from under it. He thought possibly that by getting away for a while and having the attention of a specialist he might recover more quickly.

Before leaving Mr. Link stated he desired to thank everybody for all the nice things they did for him and for the comfort his friends were to him. His address is Ward Courts, San Angelo, Texas, and he requests his friends to write to him along and let him know how everything is in the country. Mr. Link has assisted many people in different ways, and it will be a great pleasure to him to hear from these friends. Don't everybody write once and stop, but somebody write every day. One or two letters a day received by Mr. Link will mean much pleasure to him. Don't expect him to answer.

Word received Monday stated that he stood the trip fine and was resting very well. He has numerous friends who are hoping for him to return a well man.

Ed Fuqua of Red Mud country was attending to business and talking with friends here Saturday.

Mrs. W. H. Martin of West Side was meeting old acquaintances and doing some shopping in our city Saturday.

The guests were Betty and Bob Weaver, Henry Gruben, Sue Jane Blendon of Dobbs City, Mack Wilson, Earline Bailey, Dona Lou Gipson, Allie Beth Arthur, Jean Arthur, La Voris Lee, Billie Addie, Thurmond Moore, Jr., and Glenna Williams of Slaton.

* Our Opinion Is *

That one housewife in the kitchen can prepare a good dinner in less time than can three or four ladies as there is less energy spent in talking.

THE UNION WARFARE

In the past, labor troubles have usually consisted of disagreements between employers and unions. In the future, some of our bitterest labor troubles may be the fruits of a remarkable phenomenon—disagreements between different kinds of unions.

Signs of this have already appeared in a few strikes—the ship strike in New York, shoe strike in Maine, and the automobile strikes, for instance. Principals in the inter-union argument are the Committee on Industrial Organization, headed by John L. Lewis, and the old American Federation of Labor, led by William Green.

Seeds of discord between these groups were sown long ago—the A. F. of L. is the staunch defender of the craft union—a union composed of men doing the same kind of work, though they may be employed in a hundred different industries. CIO dream is the "one big union"—for example, all the automobile workers would be enlisted in one union, all the steel workers in another, and so on, irrespective of what their jobs were in these industries.

Now every time a labor controversy starts, representatives of the CIO and of the A. F. of L. immediately appear on the scene and attempt to influence workers to join their organizations. In many instances, CIO and A. F. of L. are farther apart and more bitterly opposed to each other, than are the strikers and the companies. Matters occasionally reach a comic opera stage—for example, recent cases are on record such as where a CIO man picketed a shop as being unfair to organized labor, and was in turn picketed by an A. F. of L. man with a banner declaring the same shop fair!

So far, the CIO has had the best of the battle. But the A. F. of L. hasn't hoisted the flag of surrender yet. It is far bigger than the CIO, has great prestige. Within it are some of the richest, best established unions. Big A. F. of L. hopes are pinned on a change in the National Labor Relations Act (Wagner Act) which it hopes Congress will endorse.

As now constituted, this Act forces elections among workers when trouble appears in an industry. These elections are secret, are impartially conducted, and workers vote for whatever union they want. The union getting a majority vote is the legal representative of all the workers, and other unions are out. A. F. of L. wants an amendment to the Act which would permit a craft union to represent its members in an industry, irrespective of what union speaks for other workers in the same industry. It may be that such an amendment is necessary to the very life of A. F. of L.—in an industry, craft workers, who are usually highly skilled men, are in the minority, and can be easily outvoted.

The company union, Business Week says, is definitely on the wane, may entirely disappear before long.

AUNT AGATHA TRAVELS IN SAFETY

It is with a decided feeling of relief and gratitude that one may turn to the almost unbelievable safety record achieved by the American railroads. The automobile measures its victims in the tens of thousands, but the railroads operate day after day, year in and year out, and passenger fatalities could be counted on the fingers of one hand.

Robert S. Henry of the Association of American Railroads recently pointed out just how safe the lines have become: "On the basis of the average record for the past seven years, a passenger could have traveled more than 2,560,000,000 miles without meeting death in a train accident. Even at the accelerated speed of the fastest passenger trains in operation today, that would mean continuous movement, day and night, for nearly 5,000 years.

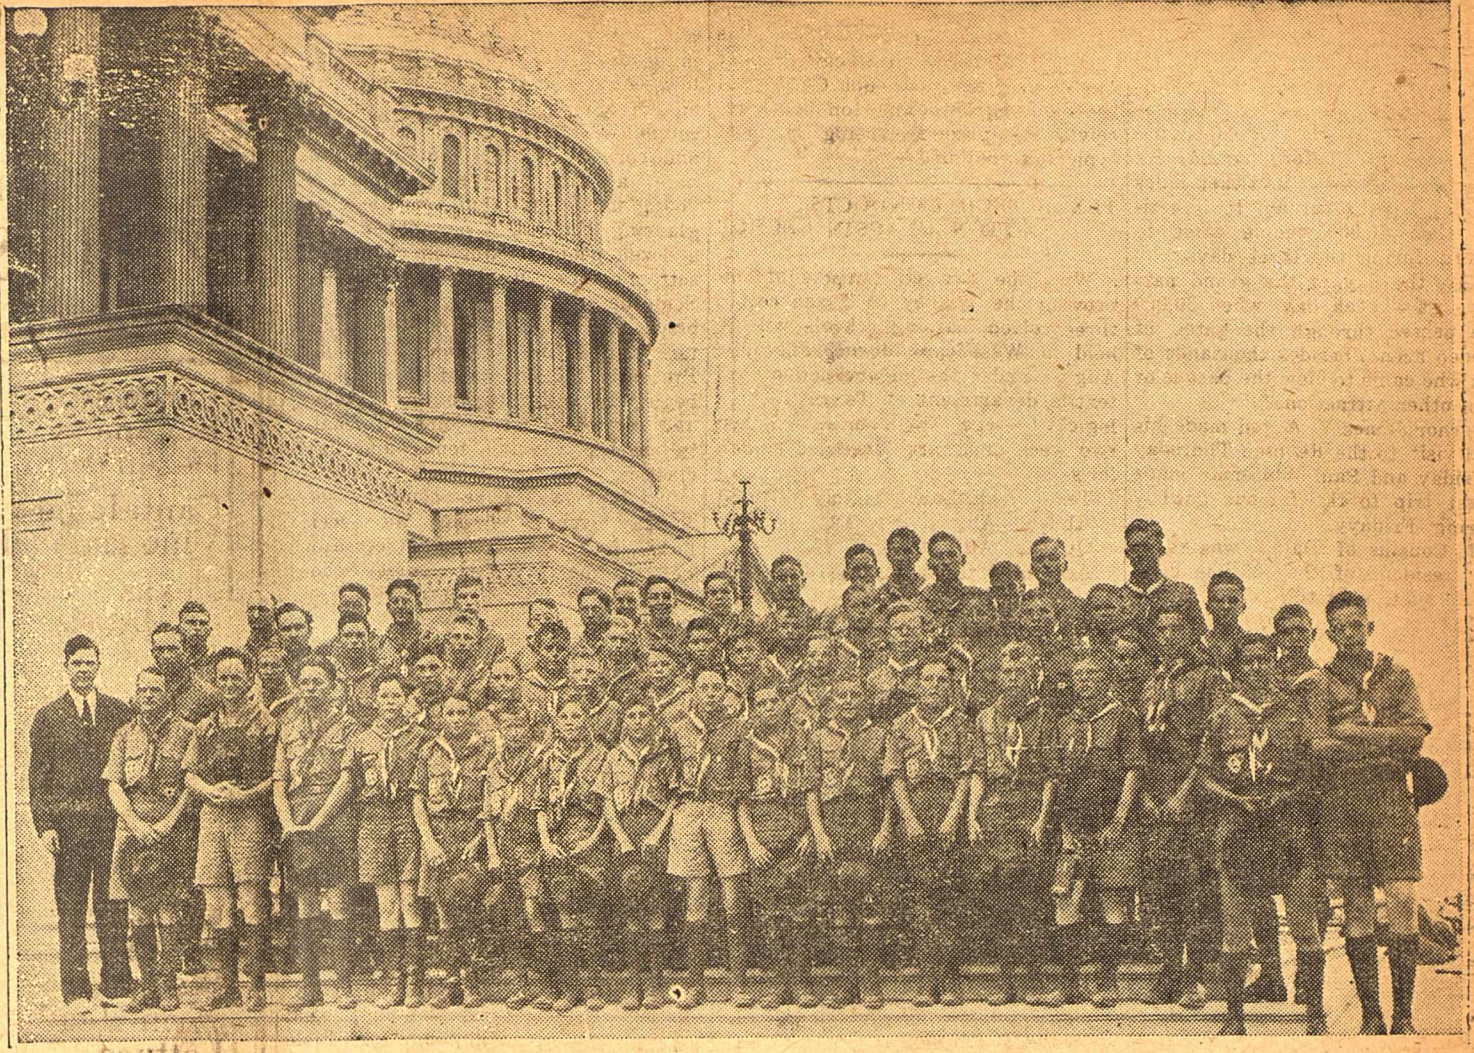

What has made this miracle possible? The answer is simple—untiring, relentless, scientific research, coupled with an able, aggressive management quick to adopt new innovations as soon as proven practical. In the old days there were fifty-six sizes and kinds of axles for freight cars—now there is one standard design. Not so long ago there were twenty different kinds of brake shoes—now there is one standard design. Once there were twenty-six kinds of car couplers—now there is one standard design. And so it goes. Hardly a day passes but that some little change occurs making for greater dependability, passenger comfort and safety.

The next time you hurry to the railroad depot to meet Aunt Agatha, or are disturbed in your slumbers by the lonely but familiar wailing toot of the midnight express, remember that railroads are the safest, as well as the most efficient and economical form of transportation ever devised by man.

THE THINGS WORTH WHILE

The writer became religiously minded last Sunday and attended Sunday school and preaching service in the morning at one of the fine churches in our city. There was about an average number of folk present for this occasion—probably not more than 300. In the afternoon we attended a service at which a number of applicants were received into the church, an event that should be of interest to everybody and especially to the membership of that particular church. Sunday night we attended services at another church in the city and found only an average assemblage of people. The speaker brought one of the best and most inspiring messages we have ever heard. All ministers in our city bring something to their congregations every Sunday that should be considered worthwhile to our people. Sunday afternoon we drove by the ball park and found 1,500 there, standing in the hot sunshine some without hats on, and seemed to be enjoying the games to the fullest. We think that is all right and clean recreation such as soft ball is good for people. But, we wonder if people ever think of what sort of town we would have were it not for the churches in our midst? Then if they are worthy institutions, why not all of us attend the services and show our interest in them as well as in other things. We think there is no harm in clean soft ball, even on Sunday afternoon, but it is always best to put first things first. Soft ball is interesting, but is not a good sermon by any of our able pastors to be equally more interesting? As the Good Book points out, "Do these things, but do not leave off the other things." After the soft ball game is over, then attend church services at some point, and do not let soft ball interfere with your church attendance.

Talented Stars to Perform in Great Screen Love Drama

Hollywood is concerned primarily with the production of entertainment and accordingly deals but little with propaganda. Even when it does, the objective is still entertainment and the rest of it is incidental.

When William Joyce Cowan, former A. E. F. officer of the line, wrote the novel, "They Gave Him a Gun," he drew up an indictment against war. As one who had been through it and would sneak with authority, that was his privilege.

But when Metro-Goldwyn-Mayer bought the story, it was with the intention to make a picture that would entertain people and if it carried any message, they, themselves, would interpret it. The picture will show at the Palace Theatre in a preview Saturday night, Sunday and Monday, July 11 and 12.

It is, of course, a war story, but its great significance lies in the fact that it carries on into the era of peace in the United States, in which the hearts and souls of men still carry war-time wounds. Your soldier of the line in Flanders speaks of his experience but seldom and then in laconic phrases. He wants to forget it, but he can't.

This picture reflects the man, Spencer Tracy, whose remarkable performances in four successive hit pictures have amazed the American public, is the hero. Here, the good priest of "San Francisco," and the

honest Portuguese sailor of "Captains Courageous," becomes a circus barker who enlists in the regulars for the duration of the war.

Gladys George is the Red Cross nurse with whom he falls in love and Franchot Tone portrays the small-town bookkeeper, a weakling, to whom they gave a gun and a uniform.

The supporting cast includes Edgar Dearing, a former top sergeant in the army, Cliff Edwards, Mary Green and others. W. S. Van Dyke II, who directed "San Francisco" and many of Hollywood's most notable triumphs, was in command here.

With this feature the Palace will also show pictures of the Braddock-Louis fight Sunday and Monday, July 11th and 12th; however, the fight pictures will not be shown at the preview Saturday night.

NEW ATTENDANCE RECORDS SET FOR STAMFORD RODEO

New attendance records were set in the eighth annual Texas Cowboy Reunion which closed there Saturday night. Starting with a rodeo attendance increase of 10 per cent on the opening day, over the corresponding day of the year before, similar increases were recorded in ticket sales on Friday and Saturday. It is estimated that 70,000 people came to Stamford during the three days.

Friday, the day of the grand parade, was the peak day, when 30,000 people passed through the gates of the rodeo arena, besides thousands of others who came to view the parade or take in other attractions.

Governor James V. Alfred made his annual visit to the Reunion Thursday and Friday and Paul Whiteman made his first trip to the famous cowboy gathering Friday.

Walt Cousins of Dallas was re-elected president of the oldtime cowboys association in the annual meeting. Sixty-one towns and cities were represented by cowgirl sponsors. The rodeo contests, featuring actual ranch hands, were above the usual standard in speed and skill. One hundred and ninety-four cowboys competed in the rodeo.

In the old fiddlers' contest Saturday morning, C. P. Houston of Eastland, aged 58, won the Paul Whiteman trophy and \$15 in cash as first prize; C. E. Somerall, 67, Abilene, second, \$10; C. A. Ward, 63, Weinert, third, \$5; Mrs. John Ferguson, 73, Hamlin, fourth, \$2.50.

J. L. McCarron, Palo Pinto, riding "Dock," won the prize saddle in the cutting horse contest. R. L. Criswell, Throckmorton, on "Sport," was second, and the same man riding "Dixie" won third place. R. H. McNeil, Palo Pinto on "Monty," was fourth.

Prize winning parade entries were Best out of town entry, Anson Lions' Christmas Ball; best juvenile entry, A. L. Smith, Jr., Munday; most typical ranch entry, S. M. S. Throckmorton Ranch entry; commercial, first, Fay's Wrecking Shop, second, WPA sewing room; best individual entry, Miss Ethel Fleming, Stamford.

Miss Albany, Mrs. Guy Caldwell, won first place among the cowgirl sponsors representing the various towns. Miss Miller Prothers, Kanch, represented by Miss Elizabeth Miller was second; Miss Benjamin, Miss Caroline Bateman, was third, and Miss Jayton, Miss Lucille Daniels, was fourth.

T. M. Hudson of Benjamin, age 63, was winner of the saddle in the old time calf roping contest, tying his calf in 34 3/5 seconds. Dee Jergan of Okela, N. M., was second, and J. L. Bird of Post was third.

Junior cowboys prize winners were Rudolph Middleton of Lueders, age 12, first place, and J. R. Miller, Jr., of Coleman, second. Roy Wayne Savage of Tioga, 10, steer rider, won first place in the pinhead steer riding contest.

Champions in rodeo contest as announced Saturday night were Vance Davis of Garden City, champion calf roper, whose total time for the three days was 67 1/5 seconds; Frank Miller of Gall, champion wild cow milker, total time 64 4/5 seconds; Dan Utley of San Angelo, champion bronc

rider, winner in the group for the fourth consecutive year, and Bob Wilkinson of Throckmorton, champion steer rider.

Jim Minnick of Crowell, 56 was judged the most typical cowboy over 55 years of age, and Bob Criswell of the S. M. S. Throckmorton Ranch received the prize for being the most typical cowboy under 55.

TEXAS TECH CONDUCTS COTTON CLASSING SCHOOL

With the avowed purpose of improving the quality of Texas cotton three cotton classing schools will be held in West Texas during July and August under the supervision of the textile department of Texas Technological College. The courses will last two weeks and are scheduled as follows:

Texas Tech, Lubbock, July 19 to 30. Abilene, August 2 to 13.

Quannah, August 16 to 27.

According to M. E. Heard head of the Tech textile department, director of the three schools in West Texas, the plan for improving the quality of Texas cotton is the main idea in the courses. At present ginners are buying cotton direct from the farmers and are paying one price for all the grades of cotton. By attending these cotton schools and learning to grade cotton according to the government ginners will be able to pay a premium for the better grades of cotton, thereby encouraging the farmers to grow better grades. Poor grades will be penalized, and under the present plan, there is no stimulus for the farmers to improve the grade of his cotton.

While cotton men and various others will enroll in these courses, the ginners in West Texas are especially invited to attend.

TECH BULLETIN OFF PRESS

The twelfth annual catalog of Texas Technological College is off the press and ready for distribution. A request to the registrar will bring a copy to those interested. It contains 272 pages and includes entrance requirements, expenses and regulations, roll of last year's student body, list of the faculty and staff for the coming year, and outlines of courses offered in the college. It was printed by Tech Press.

LIFE AT McMURRY COLLEGE IN THE MOUNTAINS

A crackling in a huge rock fireplace. Wood smoke and pine odors mingling with toasting marshmallows. A game of ping pong at either end of a long rustic game room. A couple working at a marble game in one corner. A chess game going on here, a game of checkers there. A young man sitting in a rustic chair glancing through a newspaper. Half a dozen people sitting on chairs and settees before the fire and chatting. Someone on the balcony admiring the black pine silhouettes on the mountain top against a pale silver sky. Presently the strains of an accordion begin, all activities voluntarily cease, and the whole group joins informally in singing popular songs and light classics.

All that—and more—could be seen Sunday evening during the social hour in Trinity Retreat (recreation hall) at the McMurry summer school camp in the Sacramento Mountains in New Mexico.

Less than an hour before, the same group had gathered in the auditorium for a vesper service of Scripture reading and sacred music.

At seven o'clock in the morning, 12 at noon, and six in the evening, a bugler announces "soup's on," and from every building come students and faculty—maybe in slacks, maybe in culottes, and possibly in dresses—but all interested in eating. The cook "knows his onions" and everything else under the heading of food. Likely he would rank first in a contest for campus favorites.

During the morning it is no unusual thing to see a language or Bible class sitting on a balcony reading or having a discussion, or to see the nature study class (armed with nets) set out for a "bug hunt."

At the dormitories—fancifully christened Ether and Ruth halls—the usual activities go on. The buildings are rustic; walls and floors of unfinished pine boards, and beds are built in bunk style. The problem of house cleaning hardly exists, for the furniture (besides the beds) consists of a shelf or two for cosmetics and books and a rack for clothes.

And speaking of clothes—anything but sport clothes may be safely left at home. Simple clothes that require but little care and laundry are best; and those attending this summer camp declare that slacks, shirts, and sweaters, with low-heeled oxfords, are practically all that they are bringing next time. Riding breeches and boots are also useful if you enjoy horseback riding.

And there's another diversion. Horses can be secured at a reasonable rate, and moonlight rides on mountain trails are as picturesque as they are sound.

There's always somewhere to hike if you want that kind of exercise. A ranger's lookout tower about a mile as the crow flies (but seeming much longer as human beings climb) is a favorite spot for ambitious explorers.

On the campus, an oval valley surrounded by mountains covered with cedar, pine and fir, baseball and deck tennis offer amusement. A treasure hunt up a nearby hill revealed a picnic supper one evening. A piano in the auditorium offers opportunity for singing or playing by several accomplished musicians in the student body and faculty.

Life at McMurry in the Sacramento Mountains isn't quite roughing it, for there are electric lights and hot and cold running water; but it is a pleasant change. Incidentally, the fire mentioned at first, was not built only for looks. The sun makes light sweaters or dresses comfortable during the day, but at night you wear heavy jackets when you stay out of doors and you sleep under at least three blankets when you come in. The lights go out at 10:15, but the day's activities and the pleasant climate have most people in bed before that late (?) hour.

MARKET REVIEW FOR WEEK

The Fort Worth cattle and calf market declined considerably during the past ten days but from appearances the bottom was reached on Tuesday of last week. In past years a break in the market generally occurred in June but the unusually liberal receipts this year forced sharp declines than usual.

Plain and medium grade steers, yearlings, stockers and good and medium grade cows and calves were \$1 lower, with some spots off as much as \$1.50. Low cost cows were 25 to 35 cents off. The noly classes not registering losses were good fed steers and yearlings, the better grade grass steers and the best grade stockers.

Hog prices on June 29 made a 25 to 30 cent rise but a top of \$11.50 to packers and \$11.60 to small killers was the ultimate peak. The last time these prices were paid at Ft. Worth was in August of 1935. Wednesday's hog market was mostly 40 cents lower at \$11.10 and \$11.20.

For the three days last week spring lambs and yearlings declined 25 to 30 cents. Aged sheep held around steady.

Fed steers and yearlings sold at \$10 to \$11.25—the latter price being paid for several shipments of steers. Good grass fat steers brought \$9 to \$9.50 and two cars at \$10. Plain cattle cashed from \$5.50 to \$7, with medium kinds around \$7.50 to \$8.25. Fat cows sold at \$7 down with all butcher cows from \$4.25 to \$5 and canners and cutters from \$2.75 to

Farley, who stepped from an east-bound limited. George P. Marshall (left), director of entertainment and the exposition's international sports program, and Farley are old friends. Marshall's wife, the former Corinne Griffith (center) of motion pictures, gave the postmaster Gerina a sombrero, as Gaucho of the Casino, which opens June 12, serenaded.

Softball Team to Be Here Monday

Monday night, July 12, Plainview's softball team will play Kinney's Red

Birds at Burlington Park. The game is called for the usual hour, 8:30. A big crowd is expected and the boys promise a thrill for all fans throughout the game.

The Red Birds have been making a very fine showing lately and no doubt will put up their best fight to win Monday night.

Plainview has a good team and it is expected to be a battle royal.

DRUGGISTS DEFEAT GROCERS

IN HOT SOFTBALL BATTLE

In a rough and tumble contest and with tactics similar to those of race track practice, the Druggists of Spur proved too many for the Grocers in Tuesday evening's game of soft ball. The score was 17 to 14 and the fun dished up for the spectators was far above that.

Lester Ericson seemed to be head pilot for the Grocers and Lane of the

Red Front Drug was head engineer for the Druggists. Ericson played the box for the prune peddlers and Allen and Russell opposed for the soda skeets. The main trouble with the game was that the pitcher's alley was too narrow and the fielders on both sides had been used to catching high balls on the bounce.

However, the fine spirit exhibited in the game was grand, and there was fun enough for anyone. It is thought that O. C. Arthur, former druggist, was supposed to be the Big Chief for the Druggists and C. P. McNeil and Barney Johnson were chief rooters for the Grocers. Lester Ericson, also, was in the wise-cracking mood and plenty was heard that brought much laughter.

Watch for the next big games between local teams, which may be at any time at the soft ball park just east of the Farmer's Cooperative Gin.
