Retail Stores To Stage Bond Sale

Benjamin H. Namm, chairman of the Retail Advisory Committee, is asking that all merchants in Texas close sale of merchandises for fifteen minutes Wednesday July 1, and devote the time to selling Savings Bonds and Stamps to help win the war. This event is expected to take place at 12:00 o'clock noon, and last until 12:15.

An appropriate program and further announcements will be made relative to this work. The Spur Chamber of Commerce will be in charge at Spur. Practically all the merchants in Spur are members of the Chamber of Commerce.

Save the dimes, quarters and dollars for this event which is a tribute to America's war efforts.

Mrs. W. P. Marshall went to Lubbock Saturday to bring home her daughter who is recovering after operation.

Lady Shoots Toe With Rifle

After returning from hunting rabbits on the C. C. Haile ranch at Afton Tuesday afternoon, Mrs. Fred C. C. Haile, of Abilene, shot through the big toe on her right foot with a 22-caliber rifle. It appears she was standing in the yard at the C. C. Haile home with the gun in her hand and by some means pulled the trigger and it was in range with her toe. The bullet went through her shoe and toe, going into the ground under her foot.

She was rushed to Nichols Sanitarium where Dr. J. F. Hughes gave emergency treatment and dressed the wound. Mrs. Haile returned to the Sanitarium Wednesday and seemed to be getting along all right.

She stated Tuesday night that she had enjoyed a great time at the ranch, saying that she never had missed a shot while there. She had made four shots and got three rabbits and her toe, making her marksmanship 100 per cent.

HARD HITTERS HAVE PERFECT RECORD

Golf Members Asked To Pay Rest of Dues

All members of the Golf Club who have not completed paying their dues are requested to do so at once as funds are running low and we will have to discharge the keeper unless more money comes in. All dues were to have been paid May 1, and some members are delinquent now. Please see about this at once.

If all dues are paid in soon we may be able to manage for another grass green. Green No. 9 will be ready after while and all of you will enjoy the course more.

Due to rains the course has cost quite a lot to keep up. The mower is going to have to be overhauled, and in all, there is quite a lot of expense. Your dues at this time will help greatly and will be appreciated. We want to keep the course nice so all members will enjoy it.

Quite a number are having a good time playing these days. Boley Williamson is bragging about his stroke being alright. He broke a "50" this week, and is feeling much enthused.

So, pay up, so we can keep up, and everybody will enjoy the golf course more.

H. S. Holly, President

Notice to the Public

We have had numerous complaints about people who permit their livestock to graze on the highways and in various towns in the county. By virtue of these complaints we are forced to ask people who have livestock grazing on the Highways and in towns openly to put up said stock and keep it up. Both grazing the highways and in towns openly are violations of the law and such offences are punishable by fine.

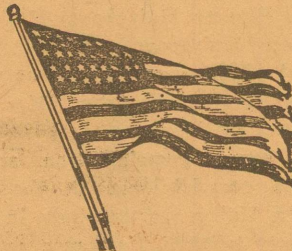

D. F. Christopher, Sheriff Dickens County, Texas

Shugarts Photo Trailer Here

Mr. and Mrs. Shugart and son arrived in Spur the first of this week with their photograph trailers. They have been spending most of the time greeting friends and visiting about town. However, they say they are well equipped and ready to make those good photographs for the people.

They have two nice trailers here and expect to remain several days to supply the people with those fine photographs which they have always featured. See them on the lots by the Nichols Sanitarium.

WHERE DOES HE GO FROM HERE?

SOLDIER BOYS AT HOME

Mr. and Mrs. Cal Martin had the pleasure of two of their sons home with them over the week end. Lieut. Everett Martin, who has been located at Victorville, Calif. was here from Friday until Wednesday morning. Fred Martin, who is at Corsicana, spent about the same time here with his parents.

Everett graduated from the Victorville Flying School last Thursday with the rank of Second Lieutenant as a twin Engine Airplane pilot. He is being transferred to Columbia, S. C., where he will be in the air Corps. A more complete address will be published later, probably.

SAILS FOR UNKNOWN PARTS

P. T. Marion, who was with the Animal Husbandry Department and was in charge of livestock at the Spur Experiment Station, left Spur March 8 for the U. S. Army in the Field Artillery division. Word was received recently that he sailed for some foreign station May 8, just two months later. Friends do not know his whereabouts.

Mr. Marion was an officer in the Reserve Corps with the rank of First Lieutenant, and he must be making a good officer as he was sent on in so short time.

Palace Theatre Improving Looks

The Palace Theatre, Spur's Big Show House, is being treated to a new coat of paint this week. The big electric sign has had a new coat of paint in various colors, and all of the woodwork on the front has been painted. The lobby is being refinished in various colors of paint and textone which makes it very attractive. The spirit of painting became so hilarious that some of the workers painted the sidewalk in front in patriotic colors of Red, White and Blue. Be sure to see what that is for.

Mrs. Martin Pope reports that the following women have completed the Home Nursing course, and that their papers have been sent along with recommendations to the Red Cross headquarters:

Everett McArthur, who has been laid up for several days is able to be out again by using two sticks. He says a horse can kick too hard for a man to try to stop the force with his leg.

To The Voters of Precinct No. 2

After due consideration I have decided to make the race for Commissioner Precinct No. 2, Dickens County, and am submitting my candidacy to the voters of said precinct. I do not desire to make any promises that I cannot fulfill, but do promise to do my best for the interest of Precinct No. 2 and Dickens County. I feel that I can cooperate with the other County Commissioners and with the County Judge in the best interest for all the people and for the best improvements for the county. I expect to be economical in my attitude, but at the same time to secure the best highways possible for our precinct should you elect me. I have had two years as road supervisor and feel that I can supervise the highways of our precinct in first class manner.

Although I have been in the Precinct for 16 years, yet I want to meet all the voters, if possible, and talk these matters over with you. If elected I want to be your representative on the County Commissioner Court and to serve you to your best interest. Soliciting your vote and support in the July Primary, I am

Respectfully yours, John Norris

What Hitler Wants Us To Believe

To destroy our national unity, create under in all groups of the population, and deflect us all from our major purpose—the defeat of the Axis—Hitler is trying to set capital against labor, white against Negro, Catholic against Protestant. He knows the prejudice, in any form plays his game. Controlling the sources of the news in every occupied country, and often in neutral nations, he releases only such news as he wants us to read. He will try to play upon our fears, raise our hopes, confuse and bewilder us. Through statements from "authoritative sources" he will present false and misleading pictures, often leading us to believe that he is weak when he is strong, napping when he is preparing to spring.

His strategy will follow no set pattern. One line will be pursued today, another tomorrow. But always his broad aims will be the same: to separate us from our allies by arousing distrust of them; to create friction within the United States in order to divert us from our true enemy—the Axis; to paralyze our will to fight.

Hitler wants us to believe that: Democracy is dying.

Our armed forces are weak. The "New Order" is inevitable. We are lost in the Pacific.

Our West Coast is in such grave danger there is no point in fighting on.

The British are decadent, and sold us a bill of goods. The cost of the war will bankrupt the nation.

Civilian sacrifices will be more than we can bear. Stalin is getting to strong, and Bolshevism will sweep over Europe.

Our leaders are incompetent, our Government incapable of waging war.

Aid to our allies must stop. Our real peril is the Japanese, and we must join Germany to stamp out the "Yellow Peril."

We must bring all our troops and weapons back to the United States, and defend only our own shores.

The Chinese and the British will make a separate peace with Japan and Germany.

American democracy will be lost during the war.

To spread these and other lies, Hitler will pull every trick in his black bag. But Americans will not be fooled. We know that Hitler, who acts like a terror, is really the most frightened man on earth. The upraised arm, the shouting voice, the mighty bluster, all mask a mortal dread of the weapon that makes men free: the truth. We are armed with the truth, and we will crush the tyrant, Hitler.

Teachers to be Busy Through Summer

Many people of the community wonder what the teachers in Spur schools do during their vacation periods. A short inventory of this reveals that most of the teachers are busy during the summer months getting themselves better fitted for their work. Most of them spend all the money they save during the school months making extra preparations for their work the next year. In the Junior High School teachers gave the following report. Robert Williams, principal reported he will spend part of the summer inspecting work in other schools and getting new plans and methods. The remainder of the time he will be in Spur making plans for next year's work. Mrs. O. A. White stated she will spend most of the summer at the Texas Technological College making further preparations for her work next year. She has accepted to teach here. Miss Bess Thuman stated she would spend a visit with a sister in California and possibly spend a short term in the University of California during the summer. She expects to be with her parents at Carbon part of the summer. Mrs. Clyde Latham will be at home at Dickens during the summer. She has accepted a position in the Dickens schools for next year and will not return to Spur to teach. Mrs. O. C. Thomas will be at home in Spur during the summer assisting her husband to arrange for next term and take a much needed rest. High School Teachers — Mr. Wadzeck, the principal, stated he will be in Spur teaching the summer session which begins next Monday. That will be enough to keep him busy. Miss Edith Caveness will be at Mineral Wells part of the time, but will spend most of the summer at the University of Texas doing work on a Master Degree. Miss Merle Lewis stated she will be in San Antonio doing work during the summer. She teaches speech and English. Jimmy Winkler, Band Director, is in Fort Worth this week visiting relatives and friends and will return this week to teach a course in summer band work starting next Monday. He was accompanied to Fort Worth by his mother, Mrs. Edith Winkler. Mrs. M. H. Brennan and two children will be at Greeley, Colorado. Shugarts are here. Photographs—Yes. adv.

where she will do work in the University of Colorado. Mrs. A. C. Hull, spanish teacher, will remain in Spur during the summer and take a rest. Mexico doing some work and will be at home part of the time. Mrs. Buford Johnston, History, stated she did not know just what her program will be, but probably will do some research work. Mrs. John Albin will probably be at home most of the summer recuperating from an operation last week. Navy School at G.E.

Just one evidence of the cooperation between the armed services and our vast industrial army—a school for submarine electricians conducted at one General Electric factory.

- Electricity is vital to the running of every submarine. It does an amazing variety of important jobs, from turning the propeller to cooking the coffee.
- For that reason, there must be well-trained electricians on every underwater craft. At this school, Navy electricians attend classes taught by G-E engineers.
- and go out into the shops where they watch workmen construct the same kind of electric equipment that will some day be put in their charge.
- This is but one proof of the thorough training which the U.S. Navy gives its men, so that the vital equipment of war will always be ready for action.

General Electric believes that its first duty as a good citizen is to be a good soldier. General Electric Company, Schenectady, N. Y.

Natural Foods For Health and Victory

Dickens county people need more natural food in their diet. Most of our diets are too low in some of the essential vitamins and minerals. What's the remedy?—One big item is to use at least one serving of whole grain products daily, according to the Texas Food Standard.

Miss Hazel Phipps, Extension Specialist in Food Preparation, says that "it's a fact that whole wheat flour contains: 6 times as much B-1 (thiamin)—5 times as much iron—4 times as much phosphorus 2 times as much calcium—and several times as much riboflavin and vitamin 1—as ordinary white flour that has not been enriched. Enriched flour has B1, nicotinic acid and iron added and is to be preferred as other white flour."

Use whole wheat flour in your favorite recipes, substituting it measure for measure for white flour, or using it half and half. Rolled oats and whole grain corn meal are also good grain to use. Try them and you'll like them says Fae Bass, County Home Demonstration Agent.

Yellow Corn Meal Mush Made With Milk
(Serves 6, usually)
2 c yellow whole grain cornmeal
1 t salt 1-2 cold water
4 c skim milk

Stir water and meal together. Heat milk to boiling. Add salt and moisten meal and stir until well mixed. Let cook slowly 2 to 3 hours with frequent stirring to prevent sticking. Serve hot with sugar (or other sweets) and hot milk. Or pour into pan to cool, and when cold and firm slice and fry in hot fat.

Whole Wheat Yeast Bread
(6 loaves)
6 t sugar 1 cake compressed yeast
6 t salt 8 c white flour (enriched)
3 c skim milk, heated to steaming
8 c whole wheat flour (or enough to make dough of proper consistency)
3 c water heated to simmering (or 6 c skim milk) As much as 3-4 of flour may be whole wheat
1 1-2 t fat (or more up to 6 t)

More fat make a more velvety texture. Pour the hot milk and water over the fat, salt and sugar in a mixing bowl. Stir till sugar is dissolved and fat melted. Cool to luke warm, now soften yeast in 1 t liquid, then stir it into the liquid. Mix the white and whole wheat flour. Add enough of flour to make a stiff batter. Stir out all lumps and beat vigorously until batter is smooth. Cover bowl with a lid and set in a warm place, not hot, until it double in bulk. Now add enough more flour to make a dough that can be kneaded without sticking either to the hands or board. Knead until dough feels soft and velvety. Grease the mixing bowl and place dough in it; cover and set in warm place, not hot, to double in bulk. Then knead again. Make into six loaves an dput in well greased pans for baking. Let double in bulk and bake 40 to 50 minutes in moderate oven (365 deg. F.), remove at once from pans when baked.

Osnaburg Bags Will Be Used to Pack 1942 Crop

The thousands of bags needed to pack the agricultural crops of 1942 will be made from osnaburg, the best available material at this time.

Approximately 1,500,000,000 square yards of fabrics will be needed for this purpose alone. Under normal conditions about 700,000,000 yards, or slightly less than half the fabric required, would be burlap. This year, however, cotton is stepping into the place of the no longer available burlap.

Osnaburg, a tough cotton fabric, is coarsely woven with heavy yarn and is therefore, both durable and porous. It has been used for many years in relatively small amounts. Adding to its relatively small amounts. Adding to its versatility, osnaburg can also be woven in a variety of weights and dimensions.

Cotton sheetings are also used wilely as fabric material for making bags. Sheetings of equal weights are more closely woven and lighter yarn than osnaburg.

Heavy cotton bag fabrics have equally important competing demands. At the time when the burlap shortage increased. This heavy demand is for mattress covers, tents, cotton uniforms, and other Army equipment.

U. S. Wheat Bins Are Full

World War II finds the United States well supplied with wheat, says the U. S. Department of Agriculture. As the chart indicates, the supply is double that of 1917 when America entered the first World War. It is estimated that on July 1, the Nation's supply will be nearly 1 1/2 billion bushels, enough for two years of domestic use. Instead of plowing up new land and expanding wheat acreage, farmers are able to use land, labor, and equipment in turning out other war commodities more vitally needed—such as dairy, poultry, and meat products, vegetables, and oil crops.

Western Auto's 6th. Annual Big Bass Contest Gets Underway

An added incentive to fishermen to go after the "big ones" this year is the Sixth Annual Big Bass Contest sponsored by Western Auto Supply Co. Prizes totaling \$4500 in list value will be awarded to lucky anglers throughout the country. The contest, well-known among veteran fishermen, is open to all—men, women, boys and girls—in the 38 states in which a Western Auto Store or Western Auto Associate Store is located.

All first prize winners in each of the 38 states will receive fishing tackle with a list value of \$40; second prize will be a tackle with a list value of \$30; third prize, tackle valued at \$25; fourth prize, \$15 value and fifth prize, \$12 value. In addition to these fishing tackle prizes an attractive trophy cup will be awarded fishermen registering the largest Small Mouth Bass in each state, whether it is a regular prize winner or not.

Free entry blanks with complete instructions are available at any Western Auto Store or Western Auto Associate Store. The contest is free and open to all; there are no obligations or purchases necessary. Registration blanks obtainable now, should be carried in tackle boxes so that they will be convenient when prize winning catches are made.

Official opening date of the contest is May 15 (subject to local or state laws). Entries are eligible from that date until September 30, when the contest closes. All entries must be sworn to before a Notary Public or verified by a Western Auto Store manager or Western Auto Associate Store owner.

To eliminate any natural advantages one state would have over another in a nation-wide contest, Western Auto is giving a separate set of awards in each of the 38 states. In this way the fish caught in any state are competing only with other

W. N. Bill Corry of Arlington, farmer and candidate for Commissioner of Agriculture, offers a constructive program.

Corry State Candidate Man of Experience and Action

One of the rising young statesmen of Texas W. N. Bill Corry, 40, a life-long farmer who entered politics only four years ago, is remembered by the voters of Texas as the colorful "write-in" candidate of 1940 who received 453,573 votes, the largest write-in vote in the State's political history, for commissioner of Agriculture.

Bill Corry is a decedent of a large family of pioneer farmers who came to Texas from Mississippi and Louisiana and settled in Collin County in 1876. Bill has been through the mill, knows the score, and is not afraid to call the balls and strikes as he see's them. He offers to blaze some new trails and do some profitable building for Texas Agriculture.

As on of "Charlie Corry's boys Bill picked 365 lbs. of cotton on his 14th birthday on the family's rental farm in Collin County. A few years later after his family had bought a farm in Denton County,

Bill won the County Fair's first prize on his registered baby-bull calf. When the crops were laid by in Denton County, Bill would journey to the four corners of the state working as a farm laborer, packing produce hauling hogs, in the rice fields, or as a wheat stacker. He taught school a few winters in Nacogdoches, Stephens, and Scurry counties to help pay his expenses while attending North Texas Teachers College, and the University of Texas.

After owning and operating farms in Denton county, Bill and his family moved across the line into Tarrant County, where he has been farming for the past eight years.

Bill Corry served with the Federal Farm Board's cotton division in 1929, and as a Legislator in 1938. In 1939 he was called on to serve as a temporary Assistant Director of the Old Age Assistance Commission and find out just what was wrong with the pension's administration.

Corry, the 180 lb trouble shooter with a smile, is a practical authority on Texas Agriculture and is a long time member of farmer organizations. He believes that "we can do something about our farm problems." That there is an opportunity for a 10-fold increase in our farming industries; that our farm products should be processed in the area where they are produced; and that the life and business of our country towns and rural communities can be revived.

Mrs. Wilbur Park and little son, of Hillsboro; Mrs. Frank Cole and two children, of Houston; and Mrs. Buster Barron of Denver City, were guests of their Aunt and uncle, Mr. and Mrs. W. D. Starcher, Saturday. They were enroute to Matador to visit their father Judge W. R. Cammack and Mrs. Cammack.

CONTINUOUS DOUBLE FEATURE

Reddy Kilowatt Says:

"Whether or not you care about two movies for the price of one, there's another kind of double feature that you—every one—is enjoying."

"It's the electric service you use — a continuous bargain, right around the clock and the calendar. The West Texas home today gets about TWICE or THREE times as much electricity for its money as it did just fifteen years ago."

"In fact, electric service is about the only household item that isn't higher now than even a year or two ago."

"You may not realize that it costs you only about half what it used to—you've added a lot of useful new appliances over the years and you're using more and better lamps."

"The appliances are serving you well—and saving you work. The better light is making it easier on your eyes."

"All this has been made possible by careful business management of your electric company... the same good non-political management that now is serving our country in time of its greatest peril by providing electric power where it's needed, when it's needed."

Red Mud Sunday**

There will be services at the Red Mud School house next Sunday beginning at 10:30 o'clock and continuing throughout the day. C. V. Allen, Church of Christ minister will do the preaching and Dalton Johnston will be in charge of the song services.

Once each year these religious services are held at Red Mud. People of all religious faiths are extended an invitation to attend these services. Dinner will be served at the noon hour at the school house, and services will continue until four o'clock in the afternoon.

Mr. Allen stated he will discuss such subjects as:

When did the Old Law (of Moses) end?

When did the New Law (of Christ) begin?

Is the New Law the Old Law revised and remodeled?

What were the people under from the Cross to Pentecost?

Did the shedding of blood dedicate the two covenants?

Or did the application of the shed blood dedicate the covenants?

If the application of the shed blood dedicated the covenants, how applied?

Were the terms of the covenants explained to those unto whom dedicated before the dedication.
