The Crushing Shell of the Bowsher Grinder is easily opened, making it an easy matter to remove any pieces of bolts or nails which so often get in the grain. The burrs can also be replaced without difficulty. They are the handiest and most easily operated grinders made.

What They Stand For.

To briefly summarize: The candidacy of Judge Bell stands upon the record of Lanham's administration, and his nomination would mean nothing more or less than the vindication of the weak, impotent and degenerate administration that has brought discredit upon the state, that has violated every platform pledge of the party, that has piled up a huge deficiency during an era of unprecedented prosperity, and which has made its nepotism, incompetency and personalism the shame of the state, beyond apology or defense.

Judge Brooks' candidacy stands for prohibition, pure and simple, despite all denials or equivocations. Dr. Rankin, the high priest of prohibition, gives to it his hearty and earnest support, though frankly admitting that he (Rankin) believed that Judge Brooks would do us (prohibitionists) more good on the bench than in the governor's chair.

Mr. Colquitt's candidacy represents—Mr. Colquitt. As railroad commissioner he has sought, and very seldom failed, to be a thorn in the side of railway corporation. Incidentally, he has never failed to cast a tempting bait to the farmers—the horny handed sons of toil—to whom he looks for large measures of his support. His dissenting opinion from the majority decision of the commission on the application of the truck growers to compel the railroads to furnish them free transportation was a masterful piece of political maneuvering and one which pleased many farmers.

Col. Campbell's candidacy is based mainly upon a platform of hostility to corporations in general and railroads in particular. In the not distant erstwhile he was a railroad manager, and in those days his big heart warmed toward them although it can truthfully be said that he never permitted himself to get altogether under their influence, and was always, in a measure,

the champion of the rights of the laboring man.

No man with one idea, no man with personal grievance—whether it be real or imaginary—should ever be called to the executive chair of the great state of Texas.

The fifth gentleman who has announced for the governorship, though without any deatening sounds of demonstration or even a public address, is James B. Wells of Brownsville—a name to conjure with and rally under.—State Topics.

That the present is an age of transition in music is apparent to even the most superficial observer. It is notoriously difficult for contemporaries to perceive the drift of any art. We hear much of the progress of music, but whither is it progressing? The old fashioned musician will tell you that the art is rapidly descending into a period of anarchy. Melody is dead; modern composers seek to astonish rather than to please. The difference in the spirit of the day reflects itself in music.

FRIDAY, OCTOBER 6, 1905.

Don't you think it would be a capital idea to have the well at the school house repaired?

We have heard nothing further with reference to that proposed auto line between this place and Canyon. Let us have it.

Candidates! did you say? They tell us that the county is full of them. Why not call on the Avalanche man, present him with an X and let him tell the dear people all about your good character and ability to fill the office?

We haven't had the pleasure of reading the program for that Teachers' Institute. It seems to us that we should have it. It has been suggested that it could be made more interesting by holding the sessions at the different school houses over the county, beginning at Lubbock.

That metallic circuit (to be constructed) phone from this place to Canyon, has been out of whack five or six days this week. How much longer will the people of Lubbock tolerate this "necessary" nuisance? Could not some one be induced to buy this line and repair it or build another that would give fair service?

In another column will be found a notice offering the Avalanche plant for sale. Lubbock's citizens should buy this plant and use its columns extensively and judiciously in advertising the county. Indirectly it would be of untold benefit to the county. Think over the matter and let us hear from you.

Campbell Bros' Big Show will give one exhibition at Big Springs on Oct. 23, in the afternoon only. This show has passed the point of competition and this season sees the greatest and grandest effort of their career. Their rise in the show world has been phenomenal. They have been successful because they give the people what they want and are ever alert in securing features that are new and startling. Features entirely new this year entail the efforts of 250 artists. A gorgeous street parade will take place at 10 a. m.

For Sale.

The Avalanche Publishing Company offers for sale their complete printing plant, consisting of A. B. Taylor 5-column cylinder press, 10x15 Chandler & Price Gordon job press, 2 horse-power Bates & Edmonds gasoline engine, 22 1/2 inch Advance paper cutter, 90 fonts latest faces job and display type, stapling machine, extra large supply of rules, leads, galleys, etc., 500 pounds of body type, two Hamilton dust proof cabinets holding 20 cases each, also one complete cabinet of best cherry furniture. Subscription list of over 500; county site, 800 population; only paper in the county; gross collections for year 1904, \$2,000; business could easily be increased to \$2,500. All the above machinery, together with lot on public square and a good, three-room office, can be bought for \$3,500—\$1,500 cash, balance in 1, 2, 3 and 4 years, less retained with 10 per cent. This is a bargain. If you are a practical printer and can do editorial work, this is the plant you are looking for. Address.

First Bales.

S. T. Rowland, one of Lubbock's prominent farmers, came in last week with a bale of cotton. The town demonstrated its appreciation of same by making up a premium of \$20.00. Mr. Holden, of Hockley county, brought in a second bale.

Exhibits Wanted.

The Avalanche wishes to get a selection of farm products to be placed on exhibition at the Dallas Fair. We would be glad that any and all who have nice samples will bring them in by the 20th of October, and we will ship them to Dallas free of expense to you. We wish samples of the following:

Six ears best corn, June and other kinds.
Best wheat, 1/2 bushel.
Best oats, 1/2 bushel.
Best onions, 1/2 bushel.
Best sweet and Irish potatoes, 1/2 bushel each.
Exhibit of fruit, all kinds.
Exhibit of best beets.
Exhibits of maize, kaffir corn, sorghum, cotton, broom corn, etc.

Would be glad to have the names of parties who expect to furnish samples. Varieties that are quick to perish, we would suggest that you bring them about Oct. 18 or 19th.
