CONNECTIONS MADE AT TEXICO

CONSTRUCTION CREW COMPLETED CONNECTION AT TEXICO WEDNESDAY EVENING

PASSENGER TRAFFIC INSTALLED WEDNESDAY MORNING

Construction Department Will Carry Passengers in Coach Attached to Swing Train Out One Day and Back the Next—Much Work Yet Remains to Be Done

The first train that was able to roll clear through and land on the old track at Texico, was the one that left Lubbock Wednesday morning, Nov. 12th, which was classed as "First Class, No. 1, Mixed." It left here about noon, or two hours behind the schedule, it being necessary for it to wait for the north bound passenger, which dropped off the passenger coach for use on the Lubbock to Texico run.

The exact distance from Lubbock to Texico is given as 89.2 miles and the following is the schedule which the company expects to maintain:

Leaves Lubbock every Monday, Wednesday and Friday at 10:00 o'clock a. m., and arrives at Texico the same day at 5:20 p. m. Stations and stops en route are, Lubbock Material Yards, Porter, Afton, Round-up, Danforth, Yellowhouse, Littlefield, Amherst, Castro, Halsell Spur, Mill, Mulcahoe, Lariat, Texico.

In conversation with Mr. Montague, the trainmaster, we learn that for the connection has been made, there is a great

amount of work yet to be done and it will be some time yet before it is turned over to the operating department.

The long looked for connecting link has been made however, and Lubbock is on the trunk line of the Santa Fe that connects by rail the east and west waters; its one continual string of steel rails belonging to the same company, and a roadbed that is of the highest type.

There is now no more if's and and's about the Texico-Coleman cut-off, its built and trains operating over it, and the fellow that said it would never be built out of Lubbock has called himself something that all people despise.

It will be only a matter of getting the road bed on this new portion of the line in proper condition for the reception of heavy freight traffic and rapid passenger train service, when we will enjoy a much improved passenger service and quicker freight service.

Lubbock is in the right spot, and we are sure to make the city of all cities of the South Plains, then come to Lubbock.

WINDS UP SECOND YEAR

Rev. W. M. Lane Completes Two Years Work in Lubbock—Has Good Report

Last Sunday evening's service finished the second years work of Rev. W. M. Lane, pastor of the Methodist church in Lubbock. Brother Lane was assigned the Lubbock station two years ago this month, and has been working faithfully at his post of duty ever since.

He has each year, through the assistance of his faithful board of stewards and officials and members of his congregation been permitted to carry to the annual conference a magnificent report from this work, and he is able to report everything paid in full this year, and the reports from all departments are most satisfactory.

The congregation at this place will be very much pleased if the conference at Vernon will return Bro. Lane to this work again. According to the rules of the Methodist church he can serve this work two more years and we are confident that it would be a pleasure for his congregation to know that they will be permitted to have him with them the full number of years.

Here's hoping that he be returned to Lubbock.

Mr. and Mrs. Fred Spikes are spending a few days in Crosby county. Fred said he was going strictly for business reasons, while Mrs. Spikes is going to visit relatives and friends.

Mrs. F. M. Maddox and baby returned Sunday from a visit of several weeks at Ballinger.

IMPROVE FIRE DEPARTMENT

Bell Tower to be Erected on Court House Square—Electric Alarm

One of the latest improvements in the Lubbock volunteer fire department is a bell tower and large bell, which will be erected in the court house yard and used as an alarm in case of fire. It will be connected with the telephone exchange by electric current so that when the alarm for fire is necessary it can be turned in by the operator at the switch board. It will be quite a convenience as it will be much quicker means of alarm and will facilitate matters greatly. The company is also in receipt of a big shipment of hose which puts them in better shape for fighting fire.

We are given the tip that there is something really worth while in prospect for the company soon.

The Avalanche will be delighted to be able to report a first class equipment in every way soon.

E. A. Cartwright, a prosperous farmer of near Lorenzo was here between trains Wednesday en route to Waco, where he went to look after some shipments of feed stuff and also to take in the sights around the Cotton Palace.

Mr. Stout came down from Abernathy Sunday to visit his wife, who is in the Overton Sanitarium. She is doing nicely and will be permitted to return home soon.

Miss Grace Hurd, who has been in the Overton Sanitarium for treatment for several days was able to return home Sunday.

Angell's Comedians

This company is playing a week's engagement at the Opera House and they are enjoying good audiences. They are advertising their bill for the balance of the week on the last page of this paper and they have some good bookings.

The orchestra that is furnishing the music for this company is one of the best ever brought to the city and their musical program before the show and between acts is quite an attractive feature of the program each evening.

If the editorials in the Avalanche do not appear so optimistic this week as common, just lay it to the fact that the editor is one-handed he having had the misfortune of getting his left wrist wrenched out of place and a broken bone to keep him company.

S. W. Winston, of Brownfield, was circulating among our people the latter part of last week.

G. S. Ballard, of Waco was here Friday.

UNKNOWN HUNTER DEVoured

Bare Bones of Man Found Caught in Bear Trap in Mountains of New Mexico

A dispatch from Santa Fe, New Mexico to the daily press under date of November 6th says:

The story of how an unidentified trapper was caught in his own trap, in the wilds of Socorro county, and became the prey of wild animals for which the trap was set, is brought here by Charley McCarthy, a ranchman of that county, who was summoned before the United States grand jury which made an investigation of the man's death.

The story indicates that no evidence of foul play was discovered and that the man actually met death, with his hands fastened in a huge steel trap from which there was no possible extrication without the aid of another human being.

The trapper had driven in his wagon to which was hitched a team of little mules, many miles into the heart of what is said to be the wildest region of New Mexico. It is evident that he was after bear, for his steel trap was one of the largest ever seen in that part of the state. His body was found about a week after he died, with both hands caught between the steel rims at the wrists.

It is believed that the trapper had finished setting the trap and baiting it and was in the act of leaving it when, by a misstep, he stumbled into the mechanism. In falling his hands were caught. There was no means of extrication. He was fifty miles from civilization and in a region seldom entered by men.

Animals came, attracted by the bait in the trap. They attacked him and there were little more than fragments of it when his body was found.

It was reported in Lubbock that the trapper above mentioned was B. F. Daugherty, formerly of this city.

The Avalanche has made all the inquiry possible but has been unable to gather any further information other than that Mr. Phipps, his partner in business here received a letter written by Mr. Daugherty on the 15th of October, from Bovina, Texas, in which he said that he was then enroute to Paladuro Canyon, where he expected to hunt and trap the coming winter. He said his son, Freddie, was with him and that they were traveling in the same outfit that he left Lubbock in, namely a small spring wagon with two burros attached, one brown and one white. He stated that he was out of money

and about out of chuck, and asked Mr. Phipps to send \$10 to Tulsa, that he would be there on the 18th, and would get it. Mr. Phipps sent this amount, mailed it on the 18th and in an envelope with his return printed on it. The letter has never been returned. Mr. Daugherty went from here to a point in Colorado, where he worked for a time in a blacksmithing establishment, but was making his way back to the north plains country when last heard from.

It is our opinion that this unfortunate man is not our B. F. Daugherty, and we sincerely hope it is not.

Mrs. H. E. Armstrong and Mr. and Mrs. Floyd Frazier spent the week end at the Bennett ranch visiting Dr. and Mrs. H. C. Duering.

H. C. Ferguson went down to Tahoka to look after some legal business yesterday.

A. M. Hensley went over to Lorenzo yesterday to look after some business affairs.

A NEW LIGHTING SYSTEM SOON

COUNTY AND CITY FATHERS CONTRACT FOR NEW AND BETTER STREET LIGHTS

WILL EXTEND FROM DEPOT TO OVERTON ADDITION

Ornamental Metal Posts to Take the Place of Present Tall Poles on the Square—Lighting Capacity Will Be Largely Increased.

The Avalanche has been able to dig up a nice bunch of good news for our readers this week and in the batch we learn with a considerable degree of pleasure and satisfaction that we shall soon have a greatly improved street-lighting system.

At a recent meeting of the commissioner's court as well as the city council a contract was entered into by and between the Lubbock Light and Ice Company and the city of Lubbock and Lubbock county whereby the light plant agrees to put up an up-to-date system of street lights.

There will be erected as we understand a line of street lights placed on ornamental iron posts beginning at the depot extending around the square, into the court house yard and west on Broadway to a point near Judge Spencers' residence two blocks over in the Overton Addition.

The new arrangement will furnish a much better light and be of great convenience to a much greater number of people than the old way; and we are

sure that it will be properly appreciated by every citizen of the town. Lubbock keeps forging to the front, she never takes a step back word and for this reason our people have the greatest confidence in her and are at all times ready to back up their faith in the town by putting up money for improvements of various kinds.

An all-day service is the next important move on the part of the owners of the light plant and we understand arrangements are already being planned to inaugurate such, early next spring.

This depends largely upon the patronage they would receive for the sake of the great advantages it would be to the people, each and every one who has gasoline power should put in the electric power so as to enable the light people to operate at a profit. On with the improvements. There is always something doing in Lubbock. Its a splendid place to live. Come to Lubbock!

A RED LETTER EVENT

Quincy Lee Morrow to Lecture on the Prohibition Question Sunday November 23rd

The people of Lubbock will have an opportunity of listening to one of the finest lectures that has ever been delivered on the subject of liquor prohibition at the Lyric Theatre on the west side of the square Sunday morning and evening November 23rd. It is said of him: Though just in the prime of life, Mr. Morrow is a veteran upon the platform. For twenty-five years he has traveled constantly in every State of the Union, preaching the Gospel of Civic Righteousness and the Prohibition of the Liquor Traffic.

He speaks with the certainty and enthusiasm of a man with a message, yet always in such sweet spirit as to offend no one. Wherever he is heard, the door is always open for his return.

His wide experience as a campaigner and as the Executive Leader of the Prohibition forces of South Dakota for nine years, make him invaluable as an instructor in the principles of the Prohibition Reform and methods of work.

His strongest recommendation is the fact that he is recalled again and again to the States in which he has labored for the great cause to which he has consecrated his life.

J. M. Byrner, of LaGrange, was here Saturday looking after business affairs among our people.

Mrs. M. G. Abernathy was in from the ranch this week looking after business matters.

D. M. DeVitt is here from Fort Worth this week, looking after business matters.

TEXAS INDUSTRIAL CONGRESS

Will Meet in Annual Convention at Dallas, December 13—\$10,000 in Prizes Will be Given.

The fifth annual convention of the Texas Industrial Congress, to be held at Dallas, December 13, when prizes for the best results in competitive crop production, aggregating \$10,000 in gold will be awarded, will be made up of officers and members of the Congress, delegates, contestants and visitors. The delegates will be appointed by the County judges, mayors of towns and cities, commercial bodies and State Associations whose work is connected with agricultural betterment or otherwise allied with the purposes of the Congress.

The general attendance of all contestants and their friends is desired for the reason that these conventions inspire such a feeling of mutual encouragement and determination among them as is of the utmost advantage in carrying forward the work of the Congress for better farming during the whole of the ensuing year. The convention has been limited to one day, and the program and prize awards arranged accordingly. The railroads of the state have made a special low round-trip rate to Dallas for the occasion.

A hunting party composed of Messrs. Tacket, Johnson and Waechter left this week for the Blanco canyon, where they will spend several weeks trapping.

Long Brothers are offering you something special for next Saturday, hunt up their ad and see what it is.

W. D. Barrett of Tulsa, was here looking after business matters the first of the week.

Last year over 60,000 churches gave attention to this subject on Tuberculosis day. It is hoped this year to increase the number to 100,000 and to urge similar action besides in a large number of the schools and other societies. The tuberculosis day campaign will come this year during the Red Cross seal sale. It is planned to urge the churches of the country to take a definite part in this movement. The observance of Tuberculosis day was endorsed last year by President Taft, Cardinal Farley, Col. Roosevelt and many other prominent church men and public officials. Proclamations calling upon the people to observe this day was issued by governors of more than a dozen states and by the mayors of a considerable number of cities.

The state board of examiners has just completed its work of examining the papers of 1,725 applicants who applied for certificates and entered the examination for teachers Sept. 5 and 6 last. In order to hasten reports to teachers and trustees for the opening of rural schools, the examination force was increased. In speaking of the certification of Texas teachers, Superintendent Doughty stated that approximately 23,000 teachers were engaged in the public schools of the state, and that each year about one-third are new teachers in the profession. The average life of a Texas teacher is slightly more than three years, he said and this fact goes to show that teaching conditions in our state are not as favorable as they should be for the good of the schools maintained for the 1,000,000 children in Texas.

The commissioner of public schools of Rhode Island has issued through the department of education, some circulars in regard to the civic work done by the schools. The Cumberland civic guards were organized three years ago, and each child takes the following pledge: "I promise to do all I can to promote cleanliness, beauty and order in our town." Civic guards are being formed in other school districts of the state and other states. Why not here?

Let us not overlook the fact that civic beauty has a great deal to do with the growth of our town and it also reduces the doctors' bill too. Lets have a cleaner town.

Be sure to visit the sick, but above all things, do not crowd in on Sunday. The sick are often neglected during the week, only to be visited to death on Sunday. Unless when you visit the sick you carry with you joy, hope and mirth, you had better stay away. An unfavorable opinion should never find expression in the sick-room. "Life hangs on a brittle thread. And often that frail support is hope. Never utter such an expression as, "How bad you look" or "I would have another doctor," etc. Make this your rule, never to enter a sick room without carrying with you a ray of sunshine. A kind word and a pleasant smile should be ready for everyone. Proverbs 16:24 says, "Pleasant words are as a honey-comb, sweet to the soul and health to the bones."

The Supreme Court set for Nov. 12 the submission of the mandamus case of Judkins vs the Land Commissioner. It is a proceeding involving the validity of the act of the last Legislature authorizing the reappraisal of school lands forfeited for non-payment of interest and giving the former owners a ninety days' preference right to repurchase same. Judkins attacks the law as being in violation of that provision of the Constitution, which says relief shall never be granted to purchasers of school lands.

The farmer who went to sleep ten years ago, waking up now, has to learn many new things. He is ten years behind the times. The farmer today is ten years behind the times of ten years hence. For this reason it behooves every man to be awake to the present opportunities and to look as far into the future as he is able to do. The automobile plow and mower are almost in sight.

A brother editor says, and you know editors always tell the truth, that a 16-year-old school girl who goes out on the street at night with a slitted skirt is one who is apt to need watching, especially if her mother is not by her side. Such girls used to be sent to bed at eight o'clock, and whatever we may think of the old style of conduct, in this respect the old style is the best still.

CLASH OF FEEDS.

Fort Worth Show, November 22 to 29, Will Be Virtual Education to Producers.

A significant clash of "feeds as well as breeds" will be witnessed in the magnificent hog exhibits that will be made in the National Feeders and Breeders' Show, which will be held at Fort Worth November 22 to 29.

Hog producers throughout Texas and Oklahoma have been forwarding entries in great numbers and it is learned that the hogs that will be on display have been fattened on a variety of feeds—principally kafir corn, milo maize, Indian corn and peanuts. The supremacy of corn as a feed for hogs will be questioned and feeders and breeders are awaiting with interest the decisions of the judges. From the Panhandle is coming the hog that has never eaten a grain of corn in its life, but is sleek and well-finished on kafir corn and milo maize. From other sections of the State will come hogs that reared at will through acres of peanuts and have attained the "battleship" state. And the corn-fed variety, pampered with the "golden" grains, will be on hand to defend the title he has held so long. It is expected that the latter will not have altogether easy going.

The awards in the hog department will be more liberal than ever before and a number of new classes have been added. Entries have already been received in great number. Producers, big and little, will meet in competition.

The grass-fatted sheep of South west Texas that section which has been in such a flourishing condition this year, will compete with its more pampered relatives that have been nurtured and carefully fed on the stock farms of North Texas. This will be the first time that South-west Texas sheep have been entered in the show, but the producers, who have raised the standards of their breeds, greatly within the past few years, anticipate carrying off many prizes. Additional classes and more prizes have been added in the sheep division. For the first time, Oxford Downs and Ramboulllets will be given recognition. All of the standard breeds will be represented in the magnificent exhibit. The forward breeders in the State have already entered and the small farmer is showing greater interest than ever before.

Lubbock people are doing a very nice job of tearing down the city as long as they continue to let the public roads be closed up and the distances increased to near by towns.

SOME FARM FACTS

Peter Radford, Texas Farmers' Union Hands Down Some Good Advice to Farmers

Farmers who are capable are always in demand.

Ability is the only measure of merit in farming.

The farmer who does not know where he stands does not stand anywhere.

A silo costs but very little compared with its real value. Build more silos.

The farmer that farms with his mind as well as his hands is generally a success.

Success in farming depends largely upon proper marketing, cheap money and co-operation.

Every farmer should buy his implements from the home dealer and acquire the home industry habit.

Co-operation between the rural and urban districts means better schools, better roads and better living.

Texas farmers will spend \$30,000,000 this year outside the state for corn. Plant more corn and keep Texas money in Texas.

Benjamin Franklin must have been thinking of Texas farmers when he said: "If we do not all hang together, we will assuredly hang separately."

The Nation's menu must be made up from the fields, pastures, orchards and gardens, and to farm intelligently the farmer must know what is needed.

Under the title of Bessie M. Nix vs. The Western Telephone Company, suit was filed in the district court of Lubbock county last week by the plaintiff's attorneys. Plaintiff alleges damages sustained by reason of the explosion of a defective lamp while in the employ of the company on the 28th of September, and asks for \$20,000 damages. R. A. Baldwin, attorney of Slaton, and two lawyers of Amarillo will probably represent the plaintiff.

The Robertson ranch, famed as the V ranch, has been alive with activity the past ten days branding and dipping cattle. There are more than 5,000 head of cattle on this big 50,000-acre ranch, and it is said to be the best herd of cattle in West Texas.

C. A. Joplin and family have removed from their ranch six miles south of town in order that the children might have easier access to school this winter.

The Rev. Lane, pastor of the Methodist church at Lubbock, was in the city Monday, visiting with Rev. Calloway, the local minister.

\$100,000 CATTLE DEAL

A large cattle deal was consummated near Spur recently, in which the well known Hereford herd, known as the Jno. T. George cattle, numbering 3,000 head, was sold to W. A. Newman of Matador. The price was not made public. The sale carries with it the lease of the Jno. T. George ranch of 25,000 acres, located in Dickens, Kent Stonewall and King counties, for five years.

The Jno. T. George herd is composed of graded and thoroughbred cattle and is recognized as one of the very best in the country. Cattlemen say the consideration will amount to more than \$100,000. The property belonged to the Jno. T. George estate and the transfer was made by Mrs. George, widow of the late Jno. T. George.—Texas Spur.

DIPPING IN GAINES COUNTY

All Cattle in That County Will Have to be Dipped—Same Deliveries This Week

There has been considerable speculation among the cowmen in Gaines county as to whether they would be compelled to dip their cattle this fall. While in conversation with J. C. Hart over the phone this morning he informed the Sentinel editor that if Carter, government inspector, stated to him that he would require every cattle owner in the county to dip their cattle. This is going to cause a great deal of trouble for the cowmen, but as it is orders from headquarters it must be complied with. The commission is making a strong

fight to eradicate the scab from the Plains, hence the necessity of these drastic orders.

Mr. Hart stated further that he and Mr. Elison would start dipping their cattle in a few days and all parties desiring to use their vat should see them within the next few days, or before the 15th of this month. As soon as the work is finished at the Elison-Hart vat, Will Trammel will have his vat ready, all parties desiring to use this vat should be in readiness. Mr. Hart also informs us that a charge of 25 cents per head will be made for dipping.

10-MONTH SHOAT BRINGS \$18

J. F. Conner Sold 42 Head Last Week—Price Beats \$20 a ton Maize.

J. F. Conner, of the Hillcrest neighborhood, was in Floydada Monday transacting business, and reported the sale of 42 head of 10-month-old shoats last week to Daff Griffith, of Lackney at a price that averaged him \$18 per head for the 42.

He was asked if his feed would not pay him better money at the present prices to sell out in the grain. "No sir, I had rather feed out hogs at their present prices on \$20 maize and Kaffir than to sell the grain in the head. There is better money in it."

Mr. Connor has had good success in the hog business, having followed his present plan for the past two years.

He has forty head now in the feed pens which will be ready for the market in January. He usually fattens and sells before the shoats reach a year of age, using maize and kaffir strictly.—Floydada Hesperian.

HOW TO BE SAVING

A Certain Lady Tells How She Economizes in Her Home—Saving Many Dollars in a Year

The following from the Dallas News is interesting reading to those who are at a loss to know how to reduce the cost of living:

"I buy meats in as large quantities as possible, cut them myself and thereby make a large saving," a woman writes. "A ham can be bought at a saving of 6c to 8c a pound over ham specially sliced at the butcher shop. You can soon learn to cut nicely and a saw, which will last for years, can be bought for a nominal amount. If you wish pork chops, buy the loin and saw into chops yourself, making a saving of several cents a pound. Do not buy dried beef or bacon put up in glasses if you wish to save. For bacon I have tried the following and never ate better or sweeter meat: Buy

side pork, either salted, or you can salt it yourself. Let it cure a few days. Get a bottle of liquid smoke and apply as directed. In a few days you will have 'smoked bacon' at one-third saved on the price. This is the way a great deal of so-called smoked meat is cured, anyway.

"I save all drippings, and grease of all kinds and make soap. One year I saved \$13 on soap. I follow the directions on the box and add borax and ammonia. All pieces of toilet soap can be saved when they get too small to handle easily. They can be melted when you have enough saved and poured into a wet square platter. Mark off into cakes when partly hardened, and it will be ready for use again. Make flour starch for colored clothes. It gives a good body to the cloth, wears better and is cheaper.

"I find that I can prolong the usefulness of stockings by the following method: Before they are worn, take needle and darn-

ing cotton and darn up and down closely on the heels and in places where the wear comes, such as the knees on boys' hose. Washing before wearing helps as it shrinks them and makes the weave closer. Then after the feet are past mending I buy other feet and apply the new to the old stocking legs. These are nearly as good as new and the cost is small.

"This is what I did to my kitchen linoleum when the pattern wore off: I painted it two coats of floor paint, then employed a painter to give it a third coat and spatter it as is done for porch floors. After drying well, we gave it a coat of good varnish, and it is a handsome floor and will last some time; cost less than \$5, while a new floor covering would have cost at least \$35.

"I make vegetable soups quite often. If I have plenty my family is satisfied with only soup and bread and butter for that meal. Cream of potato soup is made with six large potatoes and one small onion. Boil this until soft and put water and all through colander. Put back in kettle, add one pint of milk and salt to taste. Celery, tomatoes, navy beans and peas can all be used thus, but tomato soup needs a little soda. This is a nourishing and economical meal.

"If people in cities would buy produce from the producers they could save quite a little. By means of the parcels post you could have butter, eggs, chickens and even a turkey sent from the farm, and save at least 10c a pound on butter, aside from having it fresh.

"I also can testify that the fireless cooker is a great saver of fuel and also of time, as after the food is started in the cooker no further attention need be paid to it, thus giving the cook freedom to go about other work. "We find that the vegetable garden is the greatest help of all. We try to raise just as many of the different vegetables

PARDON SEEKERS TOO THICK

Seekers For Pardons For Friends and Relatives Bury the Chief Executive With Petitions

Austin, Nov. 6.—The following statement relative to the next steps for the submission of pardon applications and personal requests was made today by Governor Colquitt through his secretary:

"To the Press—At this season of the year more than at any other time, the executive office is overcrowded with pardon applicants, and while the governor always tries to give a patient hearing to each applicant, it has become practically impossible to do so. A great many of those coming before the governor have not presented their applications to the board of pardon advisers and they are not ready for the governor's con-

sideration. A large number of poor women and little children come to Austin, at the suggestion of friends, who tell them it is only necessary to come and present themselves to the governor in person. Such advice works a hardship upon these unfortunate people and causes them useless expense.

"All pardon applications must be prepared in the manner prescribed by the board of pardon advisers and first presented to them. It is the duty of the board to pass upon the merits of each application and submit report to the governor, and he will not undertake hereafter to give personal attention to applications until after they have been favorably acted upon by the board.

KNOCKERS

There are several kinds of knockers. There is the unconscious kind, and they can be divided into two classes—the man who knocks the country because he doesn't do anything worth while, his yard looks disreputable, if he is a business man, he doesn't keep his place of business in good shape, if a farmer his farm never produces a good crop except by accident. His buildings are run down. "This country is no good, I haven't any luck, etc." The other brand of unconscious knockers is the man who seems to be so constituted that he always looks at everything through dark colored glasses. He doesn't mean to knock, "but this world isn't what it used to be, when our grandfathers were alive. And may be they can raise a good crop once in a while, but this is a nice day, but, etc."

Then there is the knocker, who perhaps has failed himself, therefore, he thinks this world is all wrong, and that he "didn't have a chance."

There is still another kind of a man, who should be dealt with with a strong hand. He is the man who has failed to make a deal with some one, real estate perhaps, then because he failed he puts in a knock so no one else can succeed.

Then there is the man who knocks because he isn't well informed about what he is talking, and knowing only a part, which is perhaps the worst part, he knocks. A stranger asks about Lubbock, for instance, the resident has not thoroughly informed himself about conditions here and really knows little about the possibilities of the county, so he tells a sorrowful story.

It makes a great difference to whom the stranger comes for information, whether he gets a bright story or a dark story. I have had people come to me saying, "what a lot of boosters you have in Lubbock." They have met some of the right kind. Then another comes to me and says "you ought to get rid of some of your knockers, if you

wish to push Lubbock." He has struck the wrong kind.

Which are you? Do you know that the best "boosters" we have in Lubbock are the members of the Chamber of Commerce. The fact that they are willing to subscribe and pay over each month a sum of money for the work of developing Lubbock county, is in itself a sign that they are alive. And when you find a man willing to give up money for a purpose, you will find that he will back that purpose with more than money. And you will find that he is a good man to do business with, because he is awake to the future. He is optimistic, he believes in his town. He should be supported by all people, in his own personal affairs.

The other day we heard of a little city not much larger than Lubbock, which had several hundred members in their Commercial Club. Therefore they had a great deal more money to work with. They had those members because the people of the city everyone, personally

felt that it was a good thing, and they came forward with the \$ to help.

There is no reason why the Chamber of Commerce in Lubbock can not have double the membership that it has, if the citizens would show the same spirit. It isn't simply the business man that should be interested in this work. Everything that benefits Lubbock benefits everyone in Lubbock. And the man who is satisfied to sit down and let someone else boom his business, hasn't quite the right spirit.

It isn't simply the amount of money one can pay that counts, the success of this work depends a great deal on the total amount to be used, but it is the feeling of encouragement the secretary, the board of directors, and all the members of the organization have when they see the citizenship back of them.

Every public spirited man and woman for that matter, should be in this organization.

In the past four months, Lubbock has been put before the country more than ever before. Take for instance, Sudan grass. Through the dailies and farm papers the fact that Lubbock has raised a big crop of this grass, big in comparison with others,

has been advertised all over and as a result, the farmers who have seed for sale are getting more orders than they can fill. And next year, when there will be grown hundreds of acres, those who will have seed for sale will benefit by the advertisement given this year and next. Why shouldn't farmers and others join the Chamber of Commerce? If the organization hasn't benefited you directly already, it has many others, well that helps you, and the organization is constantly growing more influential, and more able to help.

A man from Waco said to the secretary some time ago, "I never used to hear about Lubbock until this summer, and now I see something about the town or county every few days."

Found Dead on Road
Captain Tom York, aged 50 years, one of the best known stockmen in New Mexico, was found dead last Saturday on the road twenty miles from Roswell. He left the day previous for his ranch sixty-five miles east, riding his horse. It is supposed that the horse fell on him. York was a crack rifle shot and had refused a number of offers to travel with Colonel Cody's wild west show.

Spearman-Doyle
Quiet, but beautiful in its simplicity was the wedding of Miss Lillie Barclay Spearman and Mr. Lewis Crandall Doyle on Tuesday morning, November 11th, at 10:30 at the home of her uncle, Mr. R. A. Barclay on West Broadway. Only a few of the relatives and intimate friends were present.
The rooms were tastefully decorated in ferns, chrysanthemums and palms and lighted by softly shaded candelabra. From an alcove secluded by palms and ferns, beautiful music was rendered by Miss Margaret Huff at the piano and Mr. Richard Lynn with the violin. Mrs. W. R. Summers sang most magnificently that beautiful pre-

musical accompaniment to this sacred ceremony.
To the strains of Mendelssohn wedding march, the bridal party left the altar and marched to the library, where they received the congratulations of their friends and relatives, after which a light luncheon was served.

The bride was handsomely attired in a tailored suit of navy blue chiffon broad cloth with hat and accessories to match. The maid of honor wore a Wilhelm blue matelasse tailored suit. The groom and best man were appropriately dressed in plain business suits.

After registering in the "Brides Book" the guests formed a happy and joyous procession to the station where amid showers of rice, good wishes and congratulations they departed for their own home at Amarillo, Texas.

Miss Lillie is one of Lubbock's most loved young girls, and will be greatly missed in social and church circles.

The groom is a prominent civil engineer, connected with the disbursing office of the Santa Fe, with headquarters at Amarillo.

Out of town guests were Mr. and Mrs. F. E. Doyle, of Kingman, Kansas, father and mother of the groom. Mrs. Frame, Miss Thelma and Paul Frame, of Pecos, Texas.

Choosing Coal and Eggs

is pretty much alike. You cannot tell how they are going to turn out till you try them. If you try our coal the result is assured. You'll have a nice "comfy" house and will find your coal lasting longer than you ever knew it to be before. That's because there are no slate, stones or dirt in it. We sold you coal and that's what you get. Nothing else.

COMMISSIONERS COURT

Honorable County Dads Transact Business Two Days During This Week.

Monday and Tuesday were busy days for the county commissioners. There was a full quorum and the following business received attention:

M. E. Klattenhoff ordered paid \$50.00 out of the road and bridge fund for underground crossing.

The proposition of the Light company to install a new lighting system was accepted. The county to pay half and the city half of the current and the company to bear the expense of construction; the improvements to be made right soon.

The petition of J. H. Paul and others for the opening of a first-class county road sixty feet wide from Slaton to a connection with the Garza county road southeast of Slaton was granted, and the following parties named as jury of view: A. E. Whitehead, E. N. Twaddle, Briggs

Robertson, R. E. Jordon and G. E. Sledge.

Quarterly report of Sheriff W. H. Flynn, of fines collected, approved.

Butcher report of J. L. Chase, approved.

Butcher report of R. P. Williams, approved.

It was ordered by the court that the present owner of the 100-acre tract on the north Emma road, formerly owned by Geo. W. Carter, be paid at the rate of \$22.50 an acre for one and one-sixth acres used by means of opening that road.

The Lubbock Volunteer Fire Department was granted the privilege to erect a bell tower on the court house square for use in case of fire.

Road overseers, R. H. McCrummen, Pyson Posey, Terrell Williamson and A. C. Benton were ordered to work their respective roads by the 15th of December.

Ordered that \$1000 be transferred from the general fund to the jury fund.

Treasurer's quarterly report was examined and approved.

County Clerk's quarterly report examined and approved.

Ordered that bonds be issued in the Bledsoe school district.

Ordered that \$1000 be transferred from the general fund to the road and bridge fund.

County superintendent of public instruction was allowed \$50.00 for his service in that capacity; \$35 for Lubbock and \$15 for Hookley county.

Report of J. R. Jasper, hide and animal inspector, examined and approved.

Ordered that the members of the court be paid for two days service in court.

DEMPSTER WINDMILLS

THE DEMPSTER is constructed with special reference to durability and strength and will supply the demand for a long stroke, solid wheel pumping mill, in fact we have spared no pains to make it the best mill of its class on the market.

THE WHEEL ARMS are made of carefully selected well seasoned oak of such dimensions as to give them greatest strength, and are firmly braced to prevent them from springing under heavy pressure.

THE WHEEL SLATS and straight heavy cross girts which form the sections, are made of thoroughly seasoned poplar. These sections are securely clamped to the arms by bolts and cast iron clips which completely cover and protect the joints.

THE VANE is carefully constructed and of proper size to hold the mill steadily to the wind. The slats are made of poplar, the cross bars of oak. The stem is a wrought iron tube which inserts into a hinge casting and is held securely by heavy set screws. Wrought steel truss rods support the vane at top and side.

THE REGULATING DEVICE consists of a wide vane, a set of eccentric gears and a governor weight. When the wind reaches a velocity, beyond that required for pumping, the pressure on side vane forces the edge of the wheel around toward the wind, thus exposing less of its surface. This movement of the wheel, operates the eccentric gears and raises the governor weight. As the wind pressure decreases the weight forces the wheel back to position favoring the wind, thus the speed of the wheel is automatically regulated in high or low wind.

THE WRIST PIN is of high grade machine steel and large enough to handle any load the mill can lift. The stud pin is made of the same material.

THE PITMAN ROD is fitted at top with a heavy, square steel bar which works through a long babbit lined guide.

THE WHEEL SHAFT is made of heavy cold rolled polished steel and revolves in long bearings of high grade Journal metal.

THE WHEEL SPIDER and long stroke face plate are driven to place and securely attached to the shaft with long drive keys.

THE PITMAN is made of rock maple strapped and bolted at the ends.

The weight of the mill rests on a steel washer bearing turn table at top of tower, the long tubular stem extending down through the storm stay castings.

NERVOUS PEOPLE

are usually thin and easily worried, sleep does not refresh and the system gradually weakens from insufficient nourishment.

Scott's Emulsion corrects nervousness by its force of concentrated medical nourishment—it restores the healthy action of body cells, enriches the blood, sharpens the appetite, and feeds the nerve centres by distributing energy and power all over the body.

Don't resort to alcoholic mixtures or drug concoctions that stimulate and stupify.

Get a bottle of Scott's Emulsion for your nerves—nothing equals or compares with it, but insist on Scott's.

GAME SEASON IS OPEN

Better be Careful However, For Regulations Will be Rigidly Enforced

Of course those who have been keeping right up with the State and Federal laws regulating the sportsmen of this state have been shouldering their guns for the past two weeks but the more timid are probably waiting for a week to be "sure". You are at liberty to go at it now, under the following provisions:

There has been a great deal of discussion lately regarding the Federal game law, which penalizes the killing of migratory birds out of season such as geese, ducks, plover, curlews, etc., and it certainly does work a hardship in the instance of plover, which are never in this section of the country after September 8th or 10th. A strong effort will be put forth to have this law repealed or suitably amended.

Antelope and prairie chickens are protected until the season opens November 1st, 1917.

Deer—November 1 to January

1. Limit, three bucks for season; unlawful to kill does or fawns.
Turkey—December 1 to April 1. Limit, three turkeys for the season.
Quail and doves—November 1 to February 1. Limit, 25 birds in any one day.
Prairie chicken—Season closed until 1917.
Not protected—Rabbit, coon, possum, bear.
Squirrels protected in Liberty county.

You may ship or transport to your home such game as you have lawfully killed by making proper affidavit.

You must not buy or sell any wild game or game birds at any time.

You may kill hawks, crows, buzzards, owls, English-sparrows at any time.

You must not hunt game or game birds at night with lanterns, hunting-lamp or any other light.

A resident license is required of party shooting in county outside of the adjoining one in which he lives. Resident license \$1.75.

Non-residents, unless a bona fide inhabitant of, and resident citizen of this State, for six months last past, must take out a non-resident license, \$15.00.

Three days consecutive kill of ducks 25 each day, total 75 ducks, may be shipped or transported on train when party killing same accompanies shipment, and has made the required affidavit during November, December and January.

Possession at any time of the year during which game birds are protected shall be prima facie evidence of the guilt of the person in possession thereof.

A day's bag must not contain more than 25 birds, either mixed or of one kind.

To Prevent Blood Poisoning

Married

Last Sunday afternoon at the Baptist parsonage, Mr. C. F. Malone and Mrs. Thankful Grant, were united in marriage, Rev. L. T. Grumbles, officiating. Mr. Malone is employed by the Western Union Telegraph Company in the construction of its new lines between Lubbock and Texico.

Mrs. Grant is from Oklahoma, and came here on the Sunday afternoon train.

The Avalanche extends to this couple best wishes.

Bob Pope, of near Abernathy, and formerly a resident of Lubbock, was here Monday disposing of a few hundred wild animal hides on the Lubbock market. Mr. Pope has been trapping down on Devil's River.

Arthur Kelsey, of Lorenzo, was a passenger on the C. and S. P. Ry. Monday enroute to Fort Worth, where he goes to look after business affairs.

GIRLS, EAT ONIONS

They Will Bestow Upon You a Beautiful Pink-and-White Complexion

Cultivate the taste and habit for onions in cooking and every few days see that they are served raw. "They do say" that if girls will eat raw onions every day they will have a beautiful pink-and-white-complexion. That could be true, for they are a very good purifier, as they have some sulphur in them. People who have "nerves" should eat them very freely, cooked or uncooked. As I have told you before, don't turn the water from them into the sink after they are cooked. Steam or cook them in a small amount of water with the cover off. Begin at the root of the onion, peeling upward, and the juice will not fly in the eyes; also if peeled under the faucet with running water the eyes will not smart.

The nicest way to cook tender young onions is in boiling salt water, leaving on about three inches of the tops. Serve on slices of buttered toast and pour a rich thin cream sauce over them, sprinkling with finely chopped parsley. Sliced Bermuda onions, cooked as the above young onions and then slightly browned in butter and served on toast, are also very good.

KEEP YOURSELF POSTED.

In this day of progress the man who would succeed must be informed about the world's doings. The local paper gives him local information which is needful, but it cannot cover the whole field. Hence the man who would keep step with the march of the times will take a general newspaper also.

The Fort Worth Semi-Weekly Record has taken front rank among the great publications of the South and West. It is especially prepared for the reader who has not the time or the opportunity to read a daily paper.

First of all, it is a newspaper. The Record believes that the people of the country and the village are as much interested in current events as the people of the city.

In the next place, it carries features suitable for all members of the family—women and children as well as men. Last, but by no means least, the Record's editorial policy comprehends the economic welfare of the farmer and stock raiser. The Record is an acknowledged leader in the discussion of public questions in their relation to agricultural production.

In subscribing through this office you can get the Fort Worth Semi-Weekly Record together with the Lubbock Avalanche both papers one year for only \$1.75. Accept this remarkable offer today.

R. C. Burns for Assessor

In this issue of the Avalanche R. C. (Rolla) Burns announces for the office of Tax Assessor subject to the Democrat primaries.

Rolla Burns is one of the oldest and best known citizens in this part of Texas. It has been said that he was the first man to discover a cow track on the plains, at any rate, few white men ever saw this part of the world ahead of Rolla Burns. No man has more loyal friends among the old timers, nor does any man more justly command the confidence and esteem of all who know him. No man has for so long a time been more closely identified with the best interests of this country, nor has any man contributed more liberally to the material interests of Lubbock county.

Hunt up the old subscription lists and on every one of them, whether it was for a railroad bonus, to build a church, or a school house, assist the needy, or give an entertainment, and among the biggest contributors you will find the name of R. C. Burns.

He is a progressive, courteous, honorable and high-minded gentleman, and no one questions his qualifications to fill the office to which he aspires.

Uncle Johnny Glenn, of Stanton, was here this week looking after business affairs, and shaking hands with his many friends in Lubbock.

Commissioner R. A. Barclay went to Plainview the early part of the week.

DESIGNATES THANKSGIVING

Gov. Issues Proclamation Asking People to Observe Thanksgiving Day

Austin, Tex., Nov. 8.—Gov. Colquitt today issued proclamation designating Thursday, Nov. 27, as a day of thanksgiving, singing and prayer. The full text of the proclamation follows:

There should be, and always is, a season of joy and thanksgiving. Most every human, during the course of life, experiences the agreeable sunshine of ease and abundance; it is equally true that most of us at some period meet with calamity and disappointment.

We are now blessed with plenty—the Giver of all good gifts has been kind to the people of Texas. Let us, therefore, with songs of thanksgiving feel as David did, that:

1. The Lord is my shepherd; I shall not want.
2. He maketh me to lie down in green pastures; he leadeth me beside the still waters.
3. He restoreth my soul; he leadeth me in the paths of righteousness for His name's sake.
4. Yea, though I walk through the valley of the shadow of death, I will fear no evil; for thou art with me; thy rod and staff they comfort me.
5. Thou preparest a table before me in the presence of mine enemies; thou anointest my head with oil; my cup runneth over.
6. Surely goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever. (Twenty-third Psalm.)

While we are blessed with plenty and are returning our thanks, therefore let us not forget the importance of prudential living; let us not be wasteful and spend our bounty in "riotous living," but conserve our surplus so that we may give freely of it

if need be to those less fortunate than ourselves.

Now, therefore, in harmony with the proclamation of the President of the United States of America and in accordance with custom, I, O. B. Colquitt, Governor of Texas, hereby designate and proclaim Thursday, Nov. 27, 1913, as a day of thanksgiving, singing and prayer to the God of all Nations for his goodness and loving kindness to the people of our great Commonwealth, and the due observation of same is requested in all places of public worship.

In testimony whereof, I have hereunto signed my name and caused the great seal of the State to be affixed hereto at the city of Austin, Tex., this the 8th day of November, A. D. 1913.

O. B. COLQUITT,
 Governor of Texas.
 By the Gov: F. C. WEINERT,
 Secretary of State.

W. H. Heiniger, of Winters, who was here several days visiting his sons, returned home Sunday afternoon. He authorized us to send him the Avalanche so he could keep posted as to how things are going in Lubbock.

Ray Wheatley, of Amarillo, who recently became interested in the First National Bank of this city, by purchase of the L. T. Lester stock, was here the first of this week looking after his interests.

Mrs. H. N. Moore recently purchased the Oscar Tubbs residence that was located across the street from the Baptist church and Bob Jasper is this week, moving it to a new location on the lots just south of Mrs. Moore's residence. The building will be occupied by H. N. Stone and wife.

Ira Gamble, of Floydada, spent several days here this week. He deals in real estate and livestock, and was here looking for a bunch of cattle that he could buy.

No Chance For a Kick.

When you buy your Lumber and Building Materials here. Looking backward over the past, you may recall instances of dissatisfaction with the quality of the Lumber and Building Material which you bought.

If this is so, it should certainly interest you to know that we have a stock from which you can get the kind of material that suits you; at prices no greater, and often less, than you will have to pay for unsatisfactory stuff at other places.

When we sell you Lumber or Building Material, we expect you to come again. This being the case, why shouldn't we do all we can to please you in quality, price and treatment?

The fact that buyers almost invariably come back after once buying here is strong evidence that we give them "no chance to kick."

Hot Blast Heaters?

Yes, we have them, the Wyeth Hot Blast, and they are right at the head of the list in the matter of quality, which, after all, is the first consideration. They are constructed with heavy all-steel radiating surfaces, no joint at fire belt, air tight bottom. Heavy cast iron lining running putting in fresh fuel. High ash clean-out door under which a coal hod will stand allowing the removing of ashes without getting them all over the floor. Will hold fire longer than any other regular soft coal burner.

clear to top of stove instead of steel linings used in other makes. Heavy fire pot cone grate. Hot blast tube extending down into center of stove to consume the gas produced by soft coal. Feed door opening on side of dome top, thus avoiding smoke puffing out into the room when removing of ashes without getting them all over the floor. Will hold fire longer than any other regular soft coal burner.

We can supply all your wants in stove accessories. When you think of your heater needs for the winter remember the Western Windmill Company can supply you with the best goods at the lowest prices.

FAKE!

An alleged blind man was working the town of Snyder last week, with a most pitiable tale of woe. City Marshal Wolf took charge of him saying as he did so, "You come go with me," and started toward the court house. "What are you taking me to the court house for?" asked the blind man. "If you are blind how do you know I'm taking you to the court house," inquired the city marshal. He was examined by a physician, who declared only one of his eyes was out. Examination showed the fakir had \$40 in money on his person and a deposit slip for \$50 more. These are the kind of frauds that bring suspicion on really deserving and destitute persons who are often compelled to apply for help.—Colorado Record.

This same guy, rooster, duck, or fakir, whatever is the best name to call him, hit this town on his tour through the country, and "got about" over the city nicely, never making a bobble, a misstep or had to inquire the way. He used the tin cup contribution system and many nickles were dropped into his depository by our liberal hearted people.

This serves as another proof of the Avalanche's contentions, that we should have a society to look after this sort of cattle, and see that they get nothing, but a rousing get-out-of-town and a

notification ahead that they are coming and give them nothing. They would soon clear themselves out of this territory, and the public would be better off. There are truly needy cases, we know, and we are always ready to assist all we can in such cases, but we believe that such assistance should come from an organized society that properly investigated the case. This would place assistance where needed and eliminate the dead beat.

YOU'LL BE WELCOME

The Live Oak finds the Lubbock Avalanche among its exchanges this week. The Avalanche is a big paper, full of news and advertising. "When the spring time comes Gentle Annie" we might come and see your big town.—Buffalo Gap Live Oak.

Good! Come to see us when you may, and you will find a hearty welcome. The Avalanche will be pleased to have the sturdy Live Oak drop in to see us. We have none of that variety of trees in this country, not because the soil will not produce them, but, well this is the plains and the Live Oak will kinder feel lonesome in this section, but Lubbock people will do their best to make the editor of the Buffalo Gap paper feel that we know how to entertain visitors. Come to Lubbock.

The Civic League of Plainview has determined that there will be a stop put to wrestling matches in that city. There is no law against such matches and the only hopes the members of that organization have for getting rid of it is to mould such a strong public sentiment against it that such matches will become unpopular, and will simply die for want of patronage. Already they have enlisted the help of the opera house and theatre managers in the work, and they have announced that they will permit no more wrestling matches within their houses.

We notice that the banks all over the plains country made a magnificent showing in their last reports; better than for many months before, and in a great many instances better than ever before. It is a good indication that there is a great improvement in the condition of the country, and we rejoice with the farmer, the cattleman, the merchant and the professional man when such conditions exist.

Over Ralls Way

Mr. Hensley, a prominent contractor of Lubbock, was the lucky bidder, who received the contracts to build the palatial homes of Messrs. Ralls and McLaughlin. These two buildings will cost approximately \$12,000. Come to Ralls.

Mr. Atkins, of Lubbock, was a business visitor here, since last issue.

Willis Hudson reports a sale of 50 cows. They brought \$50 a round.

Messrs. Wicks and Durst, Ralls' hustling young lawyers, had business at Lubbock and other points last week.

Mrs. Jink Penney and little son Ralph, who have been visiting relatives here the past two weeks, returned to their home in Roaring Springs Saturday last.

MRS. H. HAMILTON DEAD

Passed From This Life Last Saturday Night in the Lubbock Sanitarium.

All that was mortal of Mrs. H. Hamilton and her new born babe were laid to rest in the Lubbock Cemetery last Monday afternoon, in the presence of many loving friends and sorrowing relatives.

Mrs. Hamilton died at the Lubbock Sanitarium Sunday morning, where she had been placed for medical treatment some days prior. Her remains were turned over to the undertaking establishment of W. E. Robinson, where it was prepared for burial and held for the arrival of relatives from different parts of the plains.

Deceased was the wife of H. Hamilton, who resides near Meadow, and was about 21 years of age at the time of her death.

The bereaved husband and other relatives have the tenderest sympathy in their sad hours, of the entire community.

W. B. Garrett & Son have leased the Lubbock Iron Works from the owner, J. A. Caldwell, and took charge of the plant on November 1st. They have leased it for a year, and are desirous of having you call around and see them when you need anything in their line. They have a well equipped shop, and employ only expert workmen. See their advertisement in this issue of the Avalanche and call on them when in need of blacksmithing and machine work.

C. F. Hill, of Paducah, arrived in Lubbock this week and has accepted a position with the mechanical force of the Avalanche. His family will move here shortly.

Fred C. Pearce, of Plainview, was here Monday looking after business matters.

SWALLOWED CARBOLIC ACID

Abernathy Lady Takes Her Own Life by Swallowing the Deadly Poison Monday Morning

A phone message from parties at Abernathy Monday morning to the undertaking establishment of W. E. Robinson, bore the information that Mrs. Kaap, of that place had ended her life very suddenly by swallowing carbolic acid.

Little is known of the occur-

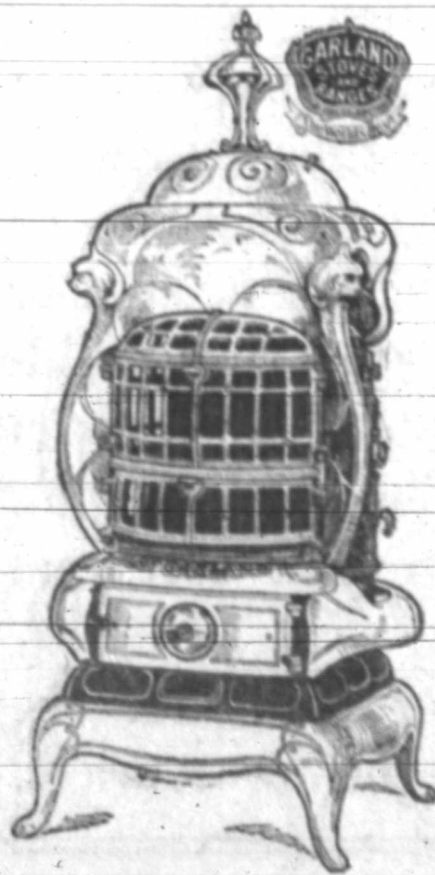

rance, other than she died from the effects of the poison about 8:00 o'clock.

A casket was shipped on the noon train for her burial, which we understand occurred sometime during Tuesday.

She was married and was the mother of two children, the husband and children surviving her.

Rev. and Mrs. Lane left on the Monday morning train for Vernon to attend the Annual Conference.

THE ART-GARLAND BASE BURNER

We especially invite your attention to the New Art-Garland Base Burners. The double-heating base burner. The Garland flues insure greater heating capacity and free draft of any stove made. Every inch of the outside of a Garland is heating surface and the large inside air-heating flue is entirely surrounded by heat. Provides expansive heat-radiating surface and air flues, and as a consequence develops better and more efficient results from the fuel used.

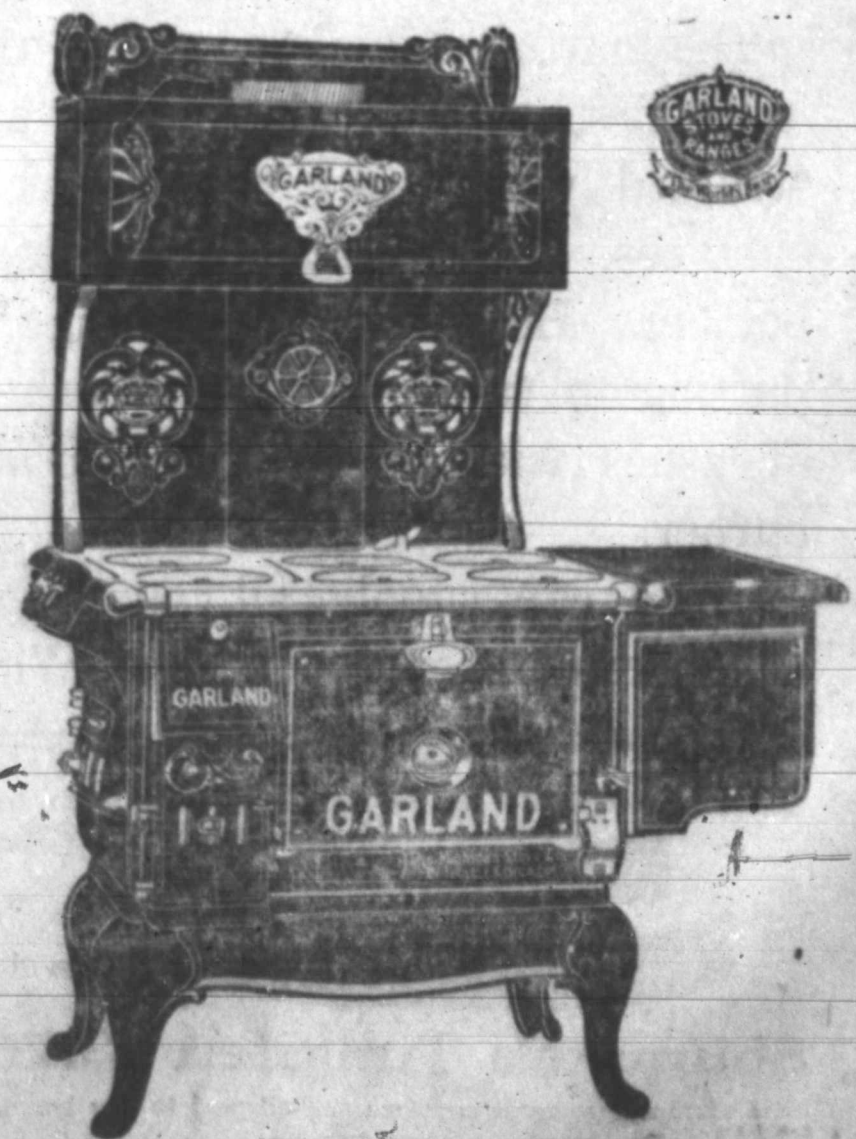

WILSON HOT BLAST HEATERS

This is the only hot blast heater that has the solid cast base, and cast lining up to the fire pot. The "Wilson" is the only heater in the world which actually burns all of the fuel put into it. Air-tight, heat can be regulated to any degree. Will save 40 per cent of your coal bill.

SCHOOL LAND FORFEITED

Nearly Two Million Acres Must Be Repurchased the First of the Year, or Lost.

Austin, Tex., Nov. 9.—Announcement is made by Judge R. W. Priest, chairman of the Board of School Land Appraisers, who with Land Commissioner J. T. Robison, G. C. Morris and L. N. Cowling, secretary of the board, recently completed a survey of the land, that nearly 2,000,000 acres of school land have been declared forfeited by the state for nonpayment of interest. The land is located in thirty-five counties in the northern, northwestern and southwestern portions of the State. The interest became due Nov. 1, 1911, and the original owners have ninety days, dating from Nov. 1, 1913, in which to repurchase the land at the re-appraised value.

The board, which was created by the Thirty-Third Legislature, has been at work appraising this land for several months past.

A Splendid Salary Working For Uncle Sam

The Tyler Commercial College of Tyler, Texas, makes a specialty of preparing young people to pass the Civil Service Examination as stenographers, typists and bookkeepers. These examinations are held in the fall and spring and a number of our students pass them each year. So far as we have been able to ascertain, every one of our graduates who has stood the examination has passed, and every one who has passed and received an appointment. This class of Civil Service work pays \$900 a year and upward; our students seldom start at less than \$1000 for the first year. This line of Civil Service work is about the safest work that a young person could pursue. With us they are sure of being able to pass the examination; when they have passed the examination they are sure of the position; when they have the position they are sure of a good salary; they are also sure of easy hours and promotion. Make your arrangements now so you can be ready for the spring examination. Write for catalogue and full particulars. If you cannot enter in person to take the work, take our course by mail; it is practical, it is thorough; guaranteed to be as recommended or it costs you nothing. For full particulars address Civil Service Dept., Tyler Commercial College, Tyler, Texas. State course interested in. 19 1t

THE SOCIAL SIDE OF SCHOOL

This Important Feature of School Work Should not be Overlooked in City or Rural Schools

Mrs. E. P. Turner, chairman of Homes and Schools, Texas Farm Life Commission has the following to say along this line: "Social companionship moulds the future destiny of our boys and girls so far as character and intelligence are concerned. Manhood and womanhood are the outcome of human socialibility. The policy of the average school during the past has been an open feud with the social hunger of its students, but social life has ever been the strongest motive power in shaping the progress of civilization.

"A social department should be established in every rural school in Texas and should be equipped thoroughly as the social center of the community. It should be the headquarters for all social, civic and athletic movements. It should be the headquarters for all the community art clubs, music guilds, literary societies, dramatic clubs and social organizations. There should be reception rooms, music halls, auditoriums and any other feature in current social use should be provided. There should also be a gymnasium with a swimming pool and complete equipment for recreational sports."

Choosing the Right Present

Are you in doubt about a certain present? The Youth's Companion has proved to be one of the best that can be chosen. Perhaps you have not seen it lately, and are not quite sure. Then let us send you a sample copy or two. Suppose you ask for the issues containing the opening chapters of Arthur Stanwood Pier's final serial story of life in a boys' school—"His Father's Son." If you look the paper over carefully, bearing in mind that there are fifty-two such numbers for a year's subscription at \$2.00, we are sure you will say that a better present could not be chosen, whether for a young person or a whole family.

For the year's subscription of \$2.00 there is included a copy of The Companion Practical Home Calendar for 1914, and all the issues for the remaining weeks of this year, dating from the time the subscription is received. If you ask for sample copies we will send with them the Announcement for 1914. 19 1tp

THE ALL CONQUERING CHRIST
China has adopted the christian method of reckoning time. They no longer begin the year with February 5th, as was the custom of their ancestors, but have adopted the date of Jan. 1, China's calendar now reckons the year 1913 A. D.

So the power of the gospel of Christ is penetrating in all parts of the world! Have you and I a share in these glorious triumphs? Only as we share in sending this gospel to all the earth.

In our Missionary Society we now have only about one woman in four. Can we be content that they shall not share with us these glorious labors of love? Let us during this week of Prayer do all we can to interest and enlist our indifferent sisters.—Publicity Superintendent.

There will be a sacred concert at the Baptist church Sunday night all are invited.

BY MRS. D. ROBINSON

Mesdames Joe Penney, Powell and John Penney are entertaining the 24-42 Club and their friends this week.

The 1911 Needle Club held its regular meeting Thursday afternoon at the home of Mrs. J. S. Johnson on West Broadway with Mesdames Johnson and Robbins as hostess. A very pleasant afternoon was spent in pleasant conversation and exchange of ideas on needle craft. At the close of the hour the hostess served delicious salad in fluted waters, home made cookies and hot coffee which was highly enjoyed. The club voted to present the bride-elect Miss Barclay with a set of salad forks as a token of their esteem. Those present were Mesdames Ballinger, Farris, J. Robinson, Vickers, Bullock, G. Merrill and Miss Heberly. The ladies departed expressing pleasure at the hospitality of Mesdames Johnson and Robbins.

BRIDGE CLUB

The Bridge Club met with Mrs. E. C. Priest Tuesday afternoon, owing to the inclemency of the weather only a few of the members ventured out, but those who were there spent a pleasant afternoon and enjoyed the delicious refreshments.

Mrs. D. Robinson is visiting in Plains and will be absent several weeks. During her absence Mrs. James O'Neal will have charge of the society column.

THE WEDNESDAY NEEDLE CLUB

Mesdames Posey and Roberts delightfully entertained the Wednesday Needle Club yesterday afternoon at the home of the former. Delicious fruit salad sandwiches and tea were served to Mesdames Robbins, Davidson, Ballinger, Wolffarth, Thomas, Woodridge, R. B. Haynes, Merrill, C. A. Pierce, Wagner and Miss Overton. The club will meet with Mrs. Sowder, November 26th.

The Mothers Club will meet at Miss Huff's studio next Tuesday November 13th. An excellent program will be rendered by the seventh grade girls. Every member be on time and help in the good work.

The Ripley Embroidery Club met with Mrs. Vance November 6th. After spending sometime with their fancy work delegates were appointed to attend the County Federation of Clubs. Also plans were discussed for starting a circulating library, but until the new books are decided upon each member is to bring a book from home to exchange with some one else. Delicious refreshments of sandwiches, pickles and jelly roll were served to the following guests: Mesdames Hardy, J. M. Wright, Will Wright, Denton, Milton Hardy, Brown, Crump, Hardy, Farris and Hill, Misses Lillian Brown, Mamie and Katie Belle Crump. Let every member be present at Mrs. J. M. Wright's November 20th to decide on a plan for entertaining the gentlemen thanksgiving.
