PLAINS WONDERFUL DEVELOPMENT

FROM OPEN RANGE AND CATTLE COUNTRY A FEW YEARS BACK SOUTH PLAINS HAS DEVELOPED RAPIDLY.

AGRICULTURE IS NOW COUNTY'S LEADING INDUSTRY

Coupled With the Raising of Registered and Thoroughbred Horses, Cattle, Sheep, Hogs, Poultry, Etc., Makes a Fine Country in Which to Live.

(By R. Kenneth Evans.)
Editors Note—This is the first of a series of fifteen industrial articles which will be published one each week for the next fifteen weeks in the Avalanche for the purpose of exploiting the industrial resources of this section. The materials to be contained in these articles and the writing was done by an experienced publicity writer and every statement contained based absolutely on facts and passed upon by the Secretary of the Chamber of Commerce, as to its authenticity. The statements contained in this series of articles may be substantiated by conditions as they actually exist in the Plains country.

A little less than half a century ago the conquest for empire, in an industrial way was gradually pushing those who possessed a little of the wanderlust and much stamina of purpose to the westward. They came in the once familiar prairie schooner, pulled in many instances by the brazen oxen, who plodded their weary way constantly to the westward. These were those sturdy pioneers, who forsaking birthplace and family ties came west to found an inland empire. They burned their bridges behind them as it were with new worlds to conquer ahead of them. They came to a territory where the wily redskin battled with all his cunning against the encroachment of these sturdy pioneers. They could see their hunting grounds being taken up and absorbed by these grim visaged and determined men who carried their entire worldly belongings with them. Today the hand of the red man has but given way that the hand of the white man might realize and develop the vast fields of unfathomed richness which exists in the great Southwest and especially the Plains country.

Colonies and habitations sprung up over night. The lowering of the herds of range cattle was to be herd over the prairie. The wailing howl of the coyote was a part of the civilization noises of that vast unbroken expanse in those days. But the men who came to the Plains country, many of them still here today, were far seeing and quickly realized the opportunities ahead of them, at the same time aware of the fact that it would be a grim battle against time and adversity and that nothing but determined effort and forbearance would be the cause of the realization of the culmination of their dreams, viz., a land of cultivation and prosperity.

They naturally took the course of the least resistance and began raising cattle. There were no fields to till following this occupation. They were a long distance from marketing center and the production could walk to market, hence no long hauls if they raised stock. Railroads were not necessarily a part of the scheme of things in those days. The stockman would turn his herds out to roam at will over miles and miles of free and unbroken prairie without such a thing as a fence. They would brand them and never see them again until the annual roundup at which time they would return with hundreds of head of young. This was the stockman's crop. Depredations of rustlers, Indians and outlaws made this life a hazardous one, yet they stayed with the grim determination which is a characteristic of the Westerner.

The course of events on the establishment of commerce and industry was a necessity. Little by little the points of progress and development. It is a beautiful homes and a law abiding community with the same class of merchandise from the same wholesalers and manufacturers as the large city store. The stocks are extensive and housed in large and commodious buildings. The city has a metropolitan appearance with excellent street lighting facilities, water works system, sewerage, telephone, telegraph, and every modern utility demanded in this day and age.

Lubbock, a city of 6,000 population offers all the advantages that could be desired in any city. A class of business houses equal to any maintained in any of the larger cities are to be found here, buying the same class of merchandise from the same wholesalers and manufacturers as the large city store. The stocks are extensive and housed in large and commodious buildings. The city has a metropolitan appearance with excellent street lighting facilities, water works system, sewerage, telephone, telegraph, and every modern utility demanded in this day and age.

ful crops raised this year have liquidated all their indebtedness and have substantial bank accounts to their credit hence from a financial standpoint there is no section of the country in a more independent position than Lubbock and the Plains country.

It is to show these things to the outside world that the Avalanche has inaugurated this campaign. There is still room for more here and it is necessary that substantial citizens be secured to assist in the maximum development of these resources. It is a hard matter for the publisher of a paper to circulate papers into the hands where it will do the most good, hence the subscribers are called upon to assist in telling these things to the outside world by sending copies of the Avalanche to those living in other sections. Friends you know who might be induced to locate here are the ones whom you would be proud to have know just what the conditions are in the Plains country. Call the Avalanche office and reserve your copies before the next issue. It is the desire of the publisher that careful attention be paid to this series of articles as much of an educational nature to those living in this community will be contained therein. The next article will deal with the excellent city school system maintained by the city of Lubbock.

Several hundred additional copies of this issue and all issues carrying this industrial series of articles will be supplied from this office free to anyone who will call at our office and get them. We will not mail them and your order must be on file not later than Monday of each week in order to insure getting them.—(Ed.)

LUBBOCK SCHOOLS WILL RECEIVE STATE AID

County Superintendent of Public Instruction J. H. Moore received a communication from Miss Blanton, State Superintendent, stating that the following amounts have been conditionally allowed, which means if the schools carry out their part of the contracts and same is approved by the inspector when he makes his inspection.

Slide \$500; Center \$600; Union \$500; Grovesville \$400; Bledsoe \$600; Caldwell \$500; Vaughn \$600; Monroe \$500; Canyon \$680; Posey \$400; Acuff \$500; Idalou \$640; New Hope \$600; Woodrow \$500; Carlisle \$500; Foster \$500; Hardy \$250 and Pettit \$600. Total \$9,370. Two other schools that aid was applied for have not been decided yet, but will likely receive the amount applied for.

Three new buildings are now being constructed, as follows: Caldwell three room brick, cost \$6000; Foster, two room frame, \$2000; Ropes eight room brick two story and basement \$13,500. Bonds have been voted for erection of buildings at Acuff and Woodrow for \$8000; and \$5000 respectively.

MANY LOST ARTICLES BELONGING TO SOLDIERS

Red Cross officials were notified today by the War Department that more than 150,000 pieces of lost baggage belonging to former officers and men of the American Expeditionary Forces, are stored on the Government docks at Hoboken, N. J. The impedimenta, which is unclaimed, consists of 20,000 trunk lockers, 15,000 bedrolls, 5,000 suitcases and 110,000 harrack bags which have come back from overseas.

Much of the baggage is marked with names only and cannot be forwarded to the owners; in all cases a new shipping address is required. As the Red Cross desires to assist each man from overseas to recover his lost property as well as to help the Government dispose of this enormous accumulation of property, owners of lost baggage are asked to forward their claims and present addresses to the "Lost Baggage Branch, Pier 2, Hoboken, N. J.", together with an accurate description of the missing property.

A complete card index permits prompt identification and the baggage will be forwarded at Government expense on hand at the docks.

MRS. C. B. BARBER DIED IN ANTHONY, KANSAS

Word was received here last Saturday to the effect that Mrs. C. B. Barber of this city had died Friday in Anthony, Kansas. The deceased had been at the home of Mr. Barber's parents at that place for several weeks. She has been in failing health for several months and received treatment in a local sanitarium at that time. We are informed that her interment was made in the cemetery.

MINERS SAY STRIKE WILL GO ON NOV. FIRST

Washington, Oct. 29.—The government moved swiftly tonight to meet the nation-wide coal strike order for Saturday. Refusal of the operators' organization at Indianapolis to withdraw the order calling out half a million men, brought instant announcement that drastic action would be taken to keep the mines in operation.

Every resource of the government in the words of Attorney General Palmer, will be used to prevent the "national disaster" certain to follow the stoppage of work. When the government's plans were announced it was not known here that the operators, as indicated in dispatches from St. Louis, contemplated closing the mines in the event of a strike.

Adequate police protection, with troops as a last resort, if necessary, will be given those men desiring to remain at work.

Reports from government agents show that a big part of the miners ordered to quit work want to stay on the job.

Rights of the public will be protected through revival of price control regulations, suspended when the fuel administration went out of existence on February 1. This means an early drop in the price of soft coal and gives assurance against profiteering.

As to those miners who go on a strike and thereby curtail production, the food and fuel control law, with its recently added criminal penalty of fine and imprisonment, will be enforced without regard to persons. This attitude of the government, Attorney General Palmer made clear, does not affect the right of workers to strike for redress or grievances in other cases where no violation of the law is involved.

SPOOKS OF HALLOWE'EN SHOWN IN WINDOW DISPLAY

Hallowe'en is nearing and the thrifty merchants of our city are making their preparations to celebrate this event by a form of special window displays.

Probably the one most noticeable is that in the Men's Furnishing Store of L. E. Hunt & Company on West Broadway. The management of this store has taken much time and displayed much skill in the preparation of this window. It speaks spooks! and as they might be found out in camp in the dark, dense and dreary woods! A bright red fire is found burning under the pot of soup and in the trees and on the leaves will be found the spooks whirling away the time.

"This window is one of the nicest we ever saw," is the common expression of critics.

A. F. & A. M. LODGES IN STALLS MEETING SCHEDULE

The Masonic Fraternity of our city has recently installed one of the most elaborate and splendid boards we have ever seen. Upon the board is delineated each and every body of the order, together with the emblem, stating the time of the meetings, etc., whether a called meeting or stated meeting, and the work to be conferred on their respective meeting nights. This board being located as it is, at the foot of the stairway entrance of the Citizens National Bank for the busy member it is only necessary to pass that way and glance at the schedule which is always posted up to date.

CONSTRUCTION WORK BEGINS ON BRICK ON BROADWAY

C. H. Grollman has recently let a contract for the construction of a modern one-story brick building to be erected on his lot between the building in which he now has his store and the Sowell building on West Broadway. Material was put on the ground last Saturday but on account of wet weather, work has been delayed.

Mr. Grollman is building this house for the purpose of renting or for a matter of investments. Demand for business houses is growing and many will probably be erected in the next few months.

BAPTIST CLOSE MEETING IN PLAINVIEW

The Baptist church at Plainview has recently closed a very successful meeting under the leadership of Dr. L. E. Gates. Thirty-seven additions were made to the church at that place. Besides this success the spiritual condition of the membership has been greatly strengthened.

PAVING, LIGHT AND WATER QUESTIONS, COUNTY PARK

These Four Questions are to be Voted on in Near Future Elections and the Voters Will Have an Opportunity to Choose as to Whether We Will Have These Things.

For a number of years, there has been more or less complaint in Lubbock about the condition of the streets, and the complaints were well founded, but unfortunately there has been no way of remedying the situation except temporarily. Our city has now grown to a point where the taxable values can stand voting more bonds for the purpose of improving the streets, and paving has been decided upon as the solution to the problem of streets. Hence the City Commission is this week calling an election to be held in the City of Lubbock to determine whether or not bonds shall be issued to the amount of \$100,000.00 to be used in paving and street improvement, the extent of which has been discussed in these columns before. This item within itself is too badly needed to require much discussion. Everybody knows that our streets must be improved or quit trying to build the town, as traffic will be impossible within a short time over the mainly used streets and the square. This proposition should receive a solid vote of the progressive citizens who really are in earnest as to the future of the city.

The second proposition to be submitted is the issuance of \$15,000 in bonds to be used for extension purposes in the City Light and Power Plant, the purpose of this is to extend their system over more territory, thereby reaching many more customers. The present plant it is

DEATHS.

J. W. Booth—Born in Texas January 1st, 1881, died in a local sanitarium October 26th, 1919, following an illness extending over a period of several months. Deceased while traveling in a car in South Carolina in the summer months this year, happened to an accident when his car turned over. He suffered internal injuries in his chest. Since the accident he received treatment from several physicians. Upon advice of friends he was brought here, but his condition was such when he arrived here that little hope for his recovery was maintained by the attending physician. Deceased is survived by his mother and sister, both residing at Snyder. The body was shipped to Snyder Sunday morning and burial was made in the Snyder cemetery Monday.

Mrs. T. J. Smith—Age 75 years and 25 days, born in Texas, died at the home of her daughter, Mrs. T. W. Gill, twelve miles south of this city last Saturday night following a short illness. Deceased is the mother of five children, none living here but Mrs. Gill. The body was prepared and shipped Sunday night to Mt. Vernon, Texas, where interment will be made.

James E. Ballow—Born September 21st, 1833, died in a local sanitarium following an extended illness, October the 25th. Deceased had made his home near Abernathy for some time. A few months ago he fell and sustained bodily injuries. On account of his age these injuries kept the deceased an invalid, finally resulting in death. Deceased is survived by his sons, Will E. and H. J. Ballow, of this city, and two sons residing at O'Donnell, and two daughters, one living here.

The body was shipped to Novice, Texas where interment was made Sunday morning.

MARRIAGES PERFORMED DESPITE BAD WEATHER

Weather conditions has not affected the sale of marriage license in this city. The county clerk has issued five marriage license here since last Saturday and accounts for the increase by the Christmas rates now in effect. This rate is an annual feature in Lubbock.

The following parties were issued license to marry; Robert M. Dempsey and Miss Estella Mae Everling; Minor O. Pack and Miss Lessie Gayle; Chas. B. Hill and Bessie S. James, both of Slaton; Ralph L. Rose and Miss Amye R. Long.

The Colby Thomas building or the west one-half of which is now vacant but leased to a firm that intends opening a Men's Furnishing store about the first of the year, is being remodeled on the interior. Windows for displays being part of the improvement.

W. B. Murfee, of Chillicothe, was here one or two days this week looking after business interests and visiting with friends.

Sheriff Herta Mitchell, of Crosby county, passed through here today enroute home after attending to business matters in Amarillo a few days

TERRY COUNTY LANDS SELLING PRICES INCREASED

According to J. A. Parks, of Terry county, land in that community is selling fast and at prices that are several dollars higher per acre than any time in the history of that county. Mr. Parks sold his place recently which was about ten miles west of Brownfield for twenty-three dollars per acre. He is in our city today looking over the land investments offered in our county and will probably visit in other sections before returning home.

LUBBOCK COUNTY FARMER HAS NOVEL CONVEYANCE

A thing which appeared as a frame used extensively on many of the farm wagons for hauling bundles of feed with side boards about three feet in height, was seen moving rapidly down one of the streets last Saturday, that is, it was moving between ten and fifteen miles per hour apparently, and in the frame was cotton and in the middle of the cotton a man's head protruded into view. The man evidently having built what is commonly called a tonneau in which he sat. No horses were hitched to this frame, yet it moved rapidly and efficiently carried its burden of fifteen or more hundred pounds to one of our gins. So near did the frame extend toward the ground that it was practically impossible to see the wheels on which the load was being carried. It was found upon investigation that this inventive farmer had built the frame completely around the Ford chassis, even the radiator, which one might detect, was hidden. Here is a man who, by his ingenious methods, gets the quickest service in disposing of his cotton after it is gathered, by the time saver.

Attorneys E. T. Brooks and R. C. Chambers, of Abilene, were here one or two days the latter part of last week attending county court and transacting other business matters.

HOME DEMONSTRATION DEPARTMENT

Dear Club Women:

Last week I sent report cards to all women in the Conservation Clubs and I am getting some very interesting reports. I am receiving reports on poultry, dried fruit and vegetables, dry vegetables stored, number of household conveniences, etc., but it is especially to the canning that I wish to call your attention now. Below I am giving the number of women who have reported from each community to date, Tuesday noon, with value of products reported from that community. How does your community show up in this report?

Community	Women	Val. Can. Prod.
Acuff	5	\$ 529.57
Canyon	1	147.55
Carlisle	3	276.20
Center	1	197.10
Idalou	3	342.75
Liberty	2	158.75
Lubbock	1	167.05
New Hope	3	650.05
Shallowater	6	1153.52
Woodrow	1	115.20
Slide	4	626.65

The total value of the canned products alone reported by these thirty women is four thousand three hundred and sixty-two dollars and forty-nine cents. The average for each woman reporting is one hundred forty-five dollars and forty-one cents. If you will multiply the average by two hundred you will get some idea of the value of one phase of the work done by the women in the Home Demonstration Clubs of Lubbock County.

While a number of good reports have been received on poultry also we shall not discuss them today. I wish to announce, though, that Mr. F. W. Kazmeier, poultry husbandman of the Extension Service of the A. & M. College will spend one day in our county next month giving two Poultry Culling demonstrations. The purpose of these demonstrations being to show those interested the proper method of selecting their best laying hens for next season, so that no "boarders" need be carried over. Class culling and proper feeding are probably two of the most important things to do if you would keep poultry at a profit. Let's learn more about it, then practice what we learn.

Mrs. Barnes has been here this week, and has told us a great deal about the great State Fair recently held in Dallas. She was rejoicing over the fact that the Panhandle and Plains people made such a good showing, especially in the Home Demonstration work. Besides the one Community Prize won in our county there were several small prizes won by individuals, a list of which will be published later. This year we must begin in time and send some better exhibits down there. One Conservation Club Member speaking of sending down an individual exhibit next year said that she could easily prepare between two hundred and fifty and three hundred products. Plan your exhibit before you plant your garden, then get ready to can each product in its season, while you can get the best, for in judging they put quality first and variety second.

Continue sending in your reports. I must have them at once, if possible. Sincerely,
MILIE M. HALSEY,
Home Demonstration Agent.

DOUGLAS FAIRBANKS IN 'HIS MAJESTY THE AMERICAN'

"It's too good to give away," said Manager McElroy, of the Lyric Theatre, when he was asked to tell the story of Douglas Fairbanks' forthcoming production, "His Majesty, the American."

film, 'His Majesty, the American' in advance. But I will say this: Fairbanks has spent more money on this picture than he has ever spent before, because he has made it for release direct to the theatres of the country by the United Artists--the 'Big Four'--which is made up of Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffith.

American' is a knockout. It gives 'Doug' a chance to do a lot of entirely new tricks and I don't hesitate to say that the picture is far and away the biggest production that he has ever turned out.

MANY LABORERS COMING TO LUBBOCK RECENTLY

During the past week there have arrived in Lubbock quite a number of laborers, black and white, who have heard of the good crops in this section, and the demand for laborers. Many of these have come of their own accord, while others have been brought in by people who have been east to secure help, and if Lubbock can get a couple of months clear weather much of the crop will be saved yet, that it was thought would be totally lost.

COTTON SOLD FOR 39 1/2c IN LUBBOCK TUESDAY

Cotton sold for thirty-nine and one half cents per pound on the streets here Tuesday. Wednesday cotton prices fell back to about 38 1/2c on the average. Buyers are complaining about the wet cotton being ginned and are advising the farmers to be more careful in the future about this important item.

The same complaint is being made by grain dealers and cotton seed buyers. These men say that grains hreshed here the past few days will heat enroute to market. The same way about cotton seed.

Miss Jewell Pollard has gone to Stamford, Texas, to enter the Methodist school there.

HIGH SCHOOL NOTES

(By Ethel Caldwell.)
Supt. Dupre has secured as special lectures for the South Plains District Institute, which will meet in Lubbock, December 15 to 19, Dr. R. E. Vinson, President of the State University for Monday; Hon. Pat Neff, chairman Board of Trustees of Baylor University, for Tuesday; Dr. Odell Lovett, President Rice Institute for Wednesday; Miss Annie Webb Blanton, State Superintendent of Education, for Thursday; and Dr. J. A. Hill, President of West Texas State Normal College, for Friday.

Ruby Mae Roberts, of Hardeman County, entered the Primary department of the Lubbock school on Monday.

Rev. Bowen, pastor of the Baptist church, delivered an interesting address to the High School assembly Monday morning.

The High School was honored by a solo by Miss Irma Barrier at Chapel Monday.

Mr. McMahan, of the United States Treasury Department visited the school last Thursday morning and organized clubs in the different rooms for the purpose of selling Thrift Stamps.

Hamilton de Cardover, formerly a member of the sub-junior class, left Wednesday morning for his home in Houston. He has many friends in school here, and we all hate to see him go.

The High School was very glad to welcome Miss Von Rosenberg back to school last Friday morning.

The Lubbock football team was sorry to disappoint the large crowd that came out last Friday expecting to see a game between Lubbock and Lockney. But it was worth anybody's half dollar to see the Lubbock boys work. Everyone went home about dark with the news of the score 32 to 0 in favor of Lubbock.

Mr. and Mrs. Carrol Thompson entertained the little friends and school mates of their six year old son, Carrol, with a birthday party at the primary school building Tuesday afternoon. After singing some songs and having a jolly good time, the children were served delicious ice cream and cake.

CARD OF THANKS

We wish to thank our friends and neighbors for the kindly deeds, so tenderly spoken words of sympathy, and the beautiful flowers for which we are grateful during the illness and death of our dear father, James E. Ballew. To the doctors and nurses who cared for him and made his last days as comfortable as possible we extend our heartfelt gratitude.

SAVE ALL YOUR COTTON SEED SUITABLE FOR PLANTING

In 1917-18 a large part of our state, mainly central, northwest and southwest Texas, practically made no cotton, and was compelled to buy seed from the more favored sections of the State.

More than half of the State must buy planting seed for next year, and these seed must come from central and northwest Texas, where the best seed are now known to be. From this section see for planting next crop must be obtained.

The Department of Agriculture now urges every farmer not only to hold cotton, but to also hold seed suitable for planting. These seed will bring the top prices. Already some seed have sold for above the market price. If you sell to the mills, they will crush them or hold for speculation. Store in a dry safe place and hold your seed, and be prepared to ship in car lots. When ready to sell, list them with T. S. Minter, Chief of Bureau of Markets, State Department of Agriculture.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. JAY'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle. Come to Lubbock.

COUNTY PARKS--A PAYING INVESTMENT FOR LUBBOCK CO.

Next Tuesday, November 4th, it will be decided whether or not Lubbock County shall have public parks. There are a number of reasons which should be given careful consideration, before casting your vote on this question.

In the first place there is no location in Lubbock county, where picnics, or public gatherings of any kind may be held; no place where a man may take his family for a few hours of recreation; and no place where tourists passing through this territory over our numerous highways may camp and spend a few days getting acquainted with our country.

In the rough country under the cap-rock, such places are numerous, and it is not necessary to have public parks except in the large cities, but on the Plains there are no natural parks or beauty spots, and if Lubbock County is ever to have places for recreation, they must be built by the people themselves.

Secondary, it is the intention of the Commissioners, should this proposition be carried, to establish one park near Lubbock, and another near Slaton, thus giving both towns and the surrounding territory a park for recreational purposes.

Again, there was started in 1913, a Lubbock County Fair. This was begun as a one-day fair, but developed into a three day event, and has been developing constantly since its inception. The fair has always been held in various empty buildings, which were inconvenient even when they could be secured, and the fair has worked under a serious handicap on account of lack of space, even in the most favorable years.

This year, it was impossible to hold the fair because there was not a building in town in which it could be accommodated, and this is something which is very likely to happen again in the coming years, because as Lubbock grows, there will be greater and greater demands for buildings, and it will be impossible to keep up our fair unless other arrangements are made.

The business men of Lubbock, through the Chamber of Commerce, have expressed their purpose should the election carry, to improve the park by the erection of permanent fair buildings sufficient to accommodate a great South Plains Fair every year. Such a fair will ultimately be of great value to this and other counties of the South Plains, and will serve to assist in the development of Lubbock and Lubbock County in many ways.

Finally, the cost of three parks will be extremely small, for under the law, the tax can never exceed five cents on the \$100.00 valuation. The cost to the average farmer would not be more than from fifty-six to eighty cents on the quarter section of land. The men owning property in the towns, would pay at the rate of fifty cents on the \$1000.00 assessed valuation.

We feel sure that it would be worth from fifty cents to one dollar to every citizen of Lubbock County, to have available two parks which may be used for recreation, and for public gatherings. This proposition deserves your careful consideration.

Teachers' Institute.
Through the efforts of Prof. Dupre, the Inter-county Teachers' Association will again be held in Lubbock during the holidays. Prof. Dupre has succeeded in arranging for several of the leading educators in Texas to be present during this Institute, and is laying plans to make this the most successful meeting the teachers have ever held here.

The coming of this institute to Lubbock every year is of great value to the city, and merits the co-operation of the entire citizenship in taking care of it. Prof. Dupre estimates that from 350 to 400 teachers will attend this institute for a week. This will naturally exceed the capacity of our hotels and rooming houses, and

"SEE ME BEFORE YOU DIE"

THE BUSINESS OF LIFE: A human life has three values, namely: Its relation to the family, its relation to a business and its relation to an institution. Every one of these values should be insured against loss from premature death. The family must be viewed like a business, for the average man's first and most important business is his family. It should be conducted like a business and protected against bankruptcy.

How few men regard their families as a business! And yet, when you stop to think of it, that is just what the bringing up of a family, or the taking care of dependents, or taking care of one's own after years, amounts to. It is a business of the most serious nature that may be any moment interrupted by death and plunged into bankruptcy.

it will be necessary to place some of these people in private residences. Therefore it is to be hoped that every person who has one or more available rooms, will make an effort to place them at the disposal of the teachers during this period. These teachers naturally expect to pay their own way. Prof. Dupre is of the opinion that a reasonable rental for these rooms would be \$1.00 per night for two people, or fifty cents each. We hope that when the time comes it will be possible to make arrangements to take care of every teacher who attends this meeting.

COTTON CLASSER'S OFFICE TO MOVE TO COTTON YARD

At the meeting last Saturday afternoon of the Lubbock County Cotton Growers' Association, it was unanimously agreed by the members that the Government Cotton Classer's office, now located upstairs in the Security State Bank and Trust Company's building, be moved to the Cotton Yard. The association has purchased a small building which was once used by the cotton weigher and will move it to the yard as soon as labor can be found to attend to it.

F. B. Gates, Fred Gates and wife, and Parlee Gates, all of Melrose, N. M., passed through here last Saturday enroute home after visiting several days in central portions of the State.

You Do More Work,
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

The Merry Bidders "42" Club was entertained Wednesday at the K. Carter home with Mrs. Carter and Mrs. Raymond George as hostesses. A hint of Hallowe'en was noticed on the score cards and napkins which were decorated with witches, black cats and pumpkins. Four tables of players enjoyed the game. Mrs. Carter's mother, Mrs. Dean, was a guest of the club. Pumpkin pie with whipped cream and hot coffee were served to Mesdames Tom Arnett, George Morris, J. H. Moore, L. D. Rankin, J. T. Woodbridge, O. B. Trinkle, W. L. Barnes, T. M. Atkins, J. H. Kimmel, Annie Pearson, J. E. Garrison, J. T. Hutchinson, W. D. Benson, H. W. Sims, Carter and George.

The Woman's Auxiliary of the First Presbyterian Church will meet at the home of Mrs. S. C. Wilson Monday, November 3rd, for the mission study. The subject will be Brazil, led by Mrs. Wagner. Monday, November 10, the ladies will have a dollar social and all the ladies of the church are urged to be present.

The

Browning, entertained with a unique party Wednesday evening in honor of the birthday of Mrs. Hall's brother, Mr. Harry Morris. The house was decorated with all sorts of

allowe'en tokens, black cats, bats, witches and wicked-looking jack-o-lantern faces peeped out from obscure corners, when the guests entered they were told to shake hands with the bride and groom, and it was not discovered that they had an electric battery concealed about them, and each new-comer was "shocked," much to the enjoyment of the others. After this an interesting program of bobbing for apples, fortune telling, bean contests and other appropriate numbers were enjoyed. The guests matched "black cats," and the couples then repaired to the dining room where a dainty lunch consisting of hot chocolate, pin-tos, cheese, and chicken sandwiches, olives and angel food cake was served to the following: Misses Melaine Senter, Rhoda Barrier, Aida Easter, Augusta Short, Cleve and Celeste Ellis, Grace Cole, J. O. Cooper, Delma Speed, Margaret Nes, Maggie Hensley, Lula Jones, Myrtle Jackson, Mary Bellah, and Messrs. J. R. Germany, Lawrence Martin, Harry Morris, Ed Haynes, Curtis Mathes, Bennett Salgie, John Mathes, Asa May, Mack Slagle, Fred Sims, Luther Collet, and Mike Barrier.

Party

Mrs. L. D. Rankin entertained with a "42" party last Friday afternoon. This lovely entertainment was in keeping with the beautiful fall day which added to the enjoyment. Six tables of players entered into the games with great zest and Mrs. Chase made high score. An elaborate luncheon of salad with mayonnaise, bread and butter sandwiches, potato chips, cheese straws, fruit salad, hot coffee with whipped cream was served by the hostess to Mesdames Ames, W. R. Spencer, E. L. Klett, Paulger, J. T. Hutchinson, C. E. Macdren, Roscoe Wilson, H. P. Bradley, Baugh, Luther Caldwell, Joe Baldridge, Jim Chase, A. B. Ellis, Paul Connally, T. M. Atkins, Louis Murfee, K. Carter, B. Stubblefield, J. E. Garrison, L. T. Martin, Williamson, W. D. Benson, W. L. Barnes, T. W. Thomas and J. D. Quick.

Mrs. Boerner, of Ennis, grandmother of Mrs. W. S. Posey and Fred Boerner, is visiting in Floydada and Plainview, after which she will return to her home.

Mr. Hal Thomas left Sunday morning for Amarillo to accept a similar position with the Western Union.

And I, C. E. Parks, as Mayor of the said City of Lubbock, Texas, hereby direct that Notice of said Election be published for thirty (30) days immediately preceding the same in some newspaper published in the English language within said city,

and has been so published for more than one year preceding the date of the first publication hereof, and also by posting up written or printed notice thereof at three (3) public places within this city.

In Testimony Whereof, I have caused these presents to be attested by the City Secretary of the City of Lubbock, Texas, and the Corporate Seal thereof, this 28th day of October, A. D. 1919.

C. E. PARKS, Mayor, City of Lubbock, Texas.
Attest: J. R. GERMANY, City Secy. (Seal) City of Lubbock, Tex.

The following resolution was introduced, and upon motion, was duly passed:

IT IS ORDERED that an election be held whereat the property tax paying voters of the City of Lubbock, Texas, may determine whether or not bonds in the sum of Fifteen Thousand (\$15,000.00) Dollars shall be issued for the purpose of improving, repairing and extending the light and power plant of this city, said bonds to be in denominations of One Thousand (\$1,000.00) Dollars each, and shall bear interest from date of issuance at the rate of six per cent per annum, interest payable semi-annually on the first days of January and July of each year thereafter, payable at forty (40) years from their date, with option of the city to retire any or all of such bonds at any interest paying date after ten years from date of issuance, and if said vote be in favor of the issuance of such bonds, a tax will be levied sufficient to meet the interest accruing thereon, and to retire such bonds at their maturity; said election to be held on the First day of December, 1919, at the office of the City Secretary of the City of Lubbock, Texas, in the said City of Lubbock; J. D. Wood, L. H. W. Terry, and H. K. Porter are hereby appointed to hold such election. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots, the words "For the issuance of \$15,000.00 light and power bonds," and those desiring to vote against the issuance of such bonds shall have written or printed on their ballots the words, "Against the issuance of \$15,000.00 light and power bonds."

The Mayor of this City is directed to give the proper notices of this election by having a properly certified copy of this resolution published in some newspaper as is required by law, and posting up legal notices of such election.

THE STATE OF TEXAS, City and County of Lubbock.

We, C. E. Parks, as Mayor, and J. R. Germany, as City Secretary, do hereby certify that the above and foregoing is a true and correct copy of the Resolution passed by the City Commission of the City of Lubbock, Texas, October 28, 1919, relative to order for an election to determine if light and power bonds in the sum of \$15,000.00 shall be issued by this City.

(\$10,000.00) dollars, and the City Secretary shall give an official bond in such sum as the commission may, from time to time, prescribe. All bonds referred to in this charter shall be made payable to the City of Lubbock, Texas, and shall, in each instance, be conditioned for the faithful discharge of the duties of such officer or employee, and for the faithful accounting of all moneys and things of value coming into the hands of such officer or employee. All such bonds shall be procured from some regularly accredited surety company, authorized to do business under the laws of the State of Texas, and the premiums therefor shall be paid by the City of Lubbock; provided, that the commission may require official bonds from any other appointive officer or employee of the City in such amounts and conditions as they deem best for the efficiency of the public service. All official bonds shall be approved by the Commission and filed and recorded with the person exercising the duties of City Secretary.

And an election is hereby ordered to be held at the office of the City Secretary in the City of Lubbock on the 1st day of December, 1919, wherein the properly qualified voters may determine if such proposed amended Section shall be adopted; those desiring to vote in favor of such amendment, shall have written or printed on their ballots, the words "For the amendment to Sec. 30 Art. IX. of the City Charter regarding official bonds" and those opposing such amendment shall have written or printed on their ballots, the words "Against the amendment to Sec. 30 Art. IX. of the City Charter regarding official bonds." J. D. Wood, L. H. W. Terry and H. K. Porter are hereby appointed to hold such elec-

tion. And the Mayor shall give the statutory notices thereof, by publishing a copy of this resolution as provided by law.

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once. When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pain, heartburn or headache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone. The cost is so little. The benefits so great. You, too, will be a Diapepsin enthusiast afterwards.

EXCHANGE OF FARMS VERY ACTIVE IN LUBBOCK

The exchange of property in Lubbock county has been unusually heavy during the past few months. Property, especially in the country, small farms, etc. have been more active than any other class. Last week the following men bought farms in our county:

J. L. Bradford, of Colorado Springs, bought of Sears and Powell, a fine section located in the extreme northwest part of the county, paying \$40 per acre.

D. A. Ray and W. B. Trotter, of Whitewright, were here prospecting also last week, and Mr. Trotter purchased a farm containing one hundred and sixty acres a few miles west of this city and will move here to make his home in the near future.

Mr. and Mrs. J. A. Isbell, of this city, are contemplating moving to Plainview to make their home. Mr. Isbell is an employe of Thorp's boot shop, and is spending this week at Plainview arranging for the move.

\$20,000 TO BE SPENT BETTERING CITY'S LIGHT PLANT

In order that the municipal light and power company of this city, build and enlarge in accord with the growth of the town and the demand for the excellent service they render, the Commissioners contracted for an expenditure of nearly \$20,000.00. This amount is for the installation of new machinery and providing additional floor space. This contract was entered into we are informed last Tuesday night at the regular meeting of the Commission.

The city now owns in its light plant here, three 100-horse power Fairbanks-Morse engines. The demand for current is necessitating the running of all three engines constantly. In order that they have a surplus supply of power for emergencies, a new two-hundred horse power of the same make as the others will be installed at a cost of \$17,000.00. This will give the city ample power to supply the necessary surplus current and will be used also in the near future, we are led to believe, for running the pump to another well that this city will demand. It is now being contemplated by those who are in a position to know and act, that a well will be drilled probably within the coming year. The growth and demand for water works, makes it necessary that we be furnished with a surplus of sources from which to draw in cases of emergencies.

The commissioners also contracted for the erection of a one story brick addition 30x30, to give additional space for the installation of the new engine. This building will be amply large enough to install more machinery as the demand necessitates. The cost of this addition is estimated around \$2500; altogether an expenditure of \$20,000.00 will be approached.

Mrs. B. C. Rix, of Big Spring, who has been here a few days visiting with her son, J. A. Rix, left last Sunday for her home in Big Spring. Miss Ruth Rix, a sister of J. A. Rix, who has also been visiting, left last Sunday for Ft. Worth where she will visit a short time before returning to her home in Big Spring.

WEST TEXAS COTTON PRICES ARE TOO LOW

The cotton of West Texas is admitted to be the best in color, grade, staple and yield of any in the State, and yet it is selling far below that of inferior grades in other sections. The impression seems to prevail, that the West is so badly impoverished by the drought of the past three years that she is forced to sell her cotton, and at any price that can be obtained. Such conditions do not obtain. The grain crop as well as we all know has aided in paying the farmer out of debt in many instances, and has lightened his burdens in others. That crop has also largely relieved the strain of the merchants and banks in this section. Therefore it is not necessary to sacrifice the splendid grade of cotton in West Texas.

The West Texas Chamber of Commerce cooperating with the State Department of Agriculture, which has its field force of speakers in this section, is advising slow selling of cotton, and a refusal to sell at a discount, where it is possible for them to do so.

There is a demand for twenty millions of the South's cotton and not more than thirteen million with which to fill it. West Texas cotton is worth fifty cents per pound as compared with the grades in other sections. We appeal to the farmers, merchants and bankers to co-operate in the slow selling of cotton in the West at the sacrifice now being made, until the buyers offer at least as much in proportion to its value as is being paid in other sections. We urge the farmers to pick fast and sell slow. Demand the real value of your splendid staple.

State Dept. of Agriculture.

TRUTH ABOUT THE SOUTH PLAINS COUNTRY

Those of us who have lived in the West are pretty well satisfied with our country, but the easterner who knows nothing of the West has an idea that the country is just one great wilderness. He has never seen the country, but he has read a good many articles describing the country, and without a doubt believes everything that he sees in print.

A few weeks ago a small booklet describing the Panhandle and Plains of Texas was published. These booklets have gone to many states and will be much in setting the people right. The Fort Worth Record editor, after reading one of the booklets made the following editorial comment:

Creators of rattler and coyote literature for the metropolitan papers of the North and East are reminded by the authors of the little booklet, "A Home for Every Man," that E. F. Arnold is a farmer near the town of Happy, in the Panhandle. They are reminded that he came to Texas in 1906 with \$200 in his pocket. He made a small payment on 160 acres of land. He now owns a farm adjoining the town of Happy valued at \$25,000. They are reminded that the first crop of wheat raised on 440 acres of this land was sold for \$18,328.05. They are reminded that one thirty-acre field of summer fallow ground yielded an average of fifty bushels and twenty-five pounds of wheat per acre and was sold for more than twice the amount of money the land cost the wheat was grown on. Gotham newspapers love to print tales of Texas rattlers, Texas coyotes, Texas cowboys, Texas lynchers, Texas bad men, Texas movie he-

roes and Texas "as it was" in the days when the Indian and the buffalo roamed the plains. They should be flooded with photographs of Panhandle wheat fields and Plains orchards and flower gardens. Tell it to them now.

The Record man is right. Texas has the goods and the right class of people. In the end Texas will win.—Amarillo Daily News.

Our Repair Policy

Recharging, repairs, testing—these are part of our service. We have the training and equipment to do this work well, at the least price consistent with good work.

Cheap work isn't really cheap at any price, and would only lose us customers.

But we regard this service as a part of our obligation to make Willard Batteries last as long as possible at least expense.

Another of our obligations is to distribute for Willard a battery that will last longer and doesn't need so many repairs—the Willard Battery with Threaded Rubber Insulation.

It gives longer life with fewer troubles just as a cord tire does.

Drop in and let us tell you its remarkable performance record after over four years of service.

"KILL-JOYS"

Constipation, Headache,
Colds, Biliousness ended
with "Cascarets"

Nothing takes the joy out of life quicker than a disordered liver or waste-clogged bowels. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. They work while you sleep.

AUCTIONEER HURT BY A MULE LAST THURSDAY

W. A. Nash, auctioneer, is wearing his Sunday suit today and cautioning everyone who shakes his hand to "be careful." Yesterday at the W. W. Wise public sale west of Plainview, Mr. Nash and others were endeavoring to cut out two young mules from a bunch in a very narrow corral. Stepping in front of one of the mules to head it, Mr. Nash succeeded in stopping the mule temporarily, but the bunch shoved it on and he was knocked down. He was trampled in the face and on the right shoulder and one of the mules stuck a foot in one of his trouser pockets, tearing it loose.

Although he was rather painfully injured Mr. Nash continued his sale. He is rather stiff from the pounding but is out on the streets today.—Plainview Herald.

Messrs. S. E. Reid and H. C. Vinson, of Tahoka, were here Wednesday transacting business.

CHICAGO MAN LEASES 65,000 ACRES IN YOAKUM

A thorough deep test of sixty-five thousand acres in Yoakum county in the hopes of development of oil will be started in the coming spring months we are reliably informed. Geologists have made a complete survey of this acreage in the past few weeks and the owners feel confident of development.

This large acreage which is located in the extreme northwest of Yoakum county and the southwestern part of Cochran was leased only recently by J. W. Fernow, Jr., of Chicago, aided by J. P. Lisman Jr., of Vernon, Texas, who is also part owner of the leases.

Both men have spent several months and several thousand dollars in securing this large acreage in one block. "These leases are not for sale," says Mr. Lisman, but "we will develop our own holdings. If we do not secure oil after we have drilled or commenced we will try to receive our expenditure money back by disposing of parts of this land."

Mr. Fernow left the first of this week for his home in Chicago. Mr. Lisman will stay in our city for some time.

CARLISLE SCHOOL MAY OPEN NEXT MONDAY

S. A. Ribble, of Brown County, who two years ago taught the Vaughn school in this county, has recently accepted the principalship of the Carlisle school. Mr. Ribble was in town the first of this week making preparation for opening of that school. He informed us that unless the trustees decided to postpone the opening date they might open next Monday morning that being the date set for commencement.

Messrs. Walter Brown and W. E. Trammell, of Lamesa, were here a short time Tuesday and Wednesday attending to business matters.

LUBBOCK FAMILY ATTEND SACRED HARP SINGING

Mr. and Mrs. A. Judd attended a Sacred Harp Singing last Sunday at Hale Center. At this meeting of the "old timers" real old time shouting was done. After which a splendid dinner was spread and served to all present.

This is a regular fourth Sunday event at Hale Center, we are informed, and attendance is large at every meeting. Mr. Judd says they will make plans to have this meeting held at Lubbock in the near future, possibly some fifth Sunday.

M. E. Merrill and wife returned last Friday from a few weeks visit to Hachita, N. M., with their son. Mr. Merrill reports a very enjoyable trip. While there they spent a few days hunting, but failed in securing any game worth mentioning.

E. R. Hart, of Muleshoe, was here one or two days the first part of this week looking after business matters.

Hold Your Cotton For 45c You Will Get It

(J. W. Neill, Director of Institutes.)

To Farmers' Institutes: I again appeal to you to urge your people to stand by your Department of Agriculture and the State Farmers' Institute, who are trying to get a profitable price for your produce. Listen! Listen to me! Did you ever know Fred W. Davis, the present Commissioner, to advise you wrong? Did you ever hear of any of his plans failing to benefit the farmers, when carried out by them? Do you not know that he is making a closer survey of the cotton market for the benefit of the farmers than any other man—the demand for cotton throughout the world, and what the world will pay for it; and how cheap cotton is now as compared with other things?

Read the Proof. W. C. Lankford, Congressman from Georgia, on Sept. 6th, said in Congress, "We sell cotton at 30 cents per pound and buy it back manufactured at \$3.00 a pound, and oftentimes at \$10 to \$15 a pound. According to present high prices, farmers ought to get 75 cents per pound for cotton." Cong. Record, Sept. 6, Page 5266.

English spinners at the New Orleans Conference admitted that on last year's cotton crop they made clear 50 cents a pound or \$225 00 a bale. Mr. Nasmith, a great English spinner says, "England can take all the American cotton and pay cash for it." What more is necessary to convince you that you ought to hold for 45 cents? Read on.

In 1917 Mr. Davis asked you to hold for 30 cents, and told you that it was worth it, and that you would get it if you would hold, although the speculators had fixed the price at from 9 to 15 cents. Later, cotton passed the 30 cent mark. In 1918 he told you to hold for 35 cents, that condition more than justified the price. He was hooted at by a certain gang, but cotton soon passed the 35 cent mark, when the War Industries Board (under Baruch as Chairman) knocked the price down from \$59 to \$65.50 per bale, and nailed it down with an embargo. This was the

crop that the spinners made such a tremendous profit on. All now admit the truth of the Commissioner's prophecies. Remember back over these two years and see who was helping him to get these honest prices also think back and see who it was that was advising you to sell.

Now, your commissioner says that you ought to get 45 cents a pound, when others are saying 20 to 25 cents a pound is enough. Please take notice that the very same gang that did not in any way assist him in 1917-18 is not helping him now, and that the very identical gang that was advising you to sell in 1917-18 is advising you to sell now. Who are your friends? Every sensible, well informed person predicts that cotton will go to 50 cents before January 1st and none predict lower prices. The world is short 5,000,000 bales or more, and must have your cotton. Hold at all hazards. Put it in a warehouse and call for a negotiable receipt if necessary, and save your white and unstained cotton as it will bring a premium in a short time. Tell your fellowman to hold for 45 cents or more.

Advise us at once of any schemes, or the reasons given why you should sell now. We want to follow it up and expose it if false, approve it, if true. Select some good interested farmer who will distribute our literature. Give us the names of those wanting you to sell, together with their occupation or profession. By all means, beware of grouping your cotton together and selling at the so-called "market price." This so-called "market price" is nothing but the gamblers price, and the gamblers and speculators are trying to get all they can before the world scramble for cotton begins. Do not sell, but hold for 45 cents or more. If every farmer would hold all of his cotton, in 10 days it would pass the 40 cent mark, in 20 days it would sell for 45 cents.

If necessary arrange big meetings of farmers, let us know and we will try and get a representative there.

WEST TEXAS PRODUCTS SHOWN IN MANY STATES

Stamford, Texas, Oct. 26.—The year 1919 undoubtedly witnessed the exhibition of West Texas products to a larger aggregate number of persons in more different parts of the United States than has ever been the case before.

Under the auspices of the West Texas Chamber of Commerce a comprehensive group exhibit of West Texas products, gathered from all parts of West Texas, was shown at the Indiana State Fair, Indianapolis; Kentucky State Fair, Louisville; Tennessee State Fair, Nashville; and the International Soil Products Exposition, Kansas City. Chester Crowell, Publicity Manager, who handled the exhibits, states that more than 2,500,000 people viewed

the exhibits at these great national fairs.

At the State Fair of Texas, 19 West Texas counties displayed their varied products at Texas' big show. Agriculturally it was a West Texas show.

And at the Texas Cotton Palace a total of 21 West Texas counties are now showing their exhibits to the people of the Great Black Land belt of Central Texas—a territory from which so many West Texas farmers have come.

And West Texas county exhibits were also shown by Dallam County at the Kansas State Fair at Hutchinson; by Wheeler and Collingsworth counties at the Oklahoma State Fair; and several West Texas counties are planning now to send exhibits to the Louisiana State Fair at Shreveport. West Texas will also be represented by an exhibit at the Mississippi Valley Fair at St. Louis, the details for which are now being worked out by the West Texas Chamber of Commerce.

And in addition West Texas products were shown indeed to West Texas at a large number of county fairs, such as the Childress, Quanah, Floydada, Roby, Spur, Hereford, Tulia and other fairs; and are to be shown again in a big way at the San Angelo Fair following the Cotton Palace.

Robin Jones, General Manager, of the Ed S. Hughes, wholesale hardware company, of Abilene, was here the latter part of last week looking over conditions with the local house. We understand this company is planning to carry one of their largest stocks in their house here.

Robert Snodgrass, of Brownfield, brought his little son Arthur, to local physicians for an examination and medical treatment last Saturday, returning home in the afternoon.

THE LUBBOCK AVALANCHE

Announcing Our Greatest

"MOVE ON" SALE

Ordered to "Move On!" That is the word that we have passed to a large portion of our big stock. Its company is not welcome in this store. The odds and ends and the overstocks must "Move On."

The Big Sale Begins Saturday, November 1st

The Traffic Cop of Good Business says it's time to clean our stocks. The right-of-way from our store to your home is given this merchandise. It will "Move On" into the homes of thousands of our customers--at prices that mean big savings. The order is pre-emptory--there must be no delay. The goods must "Move On." So we are cutting the prices in a way that will make them welcome to you. Come and see. Be here early and often. "Go Ahead"--the way is open to big bargains. This advertisement is just an invitation--just an advance peep at the amazing values.

Lubbock

Coming Again!

From down on the farm (where it's made) genuine Country Made Syrup—with all its wonderful flavor and wholesomeness—is coming to you again. Think of it! REAL, old-fashioned cane syrup, made of the pure juice of sugar cane—the most delightful food the South has ever produced.

REAL Country Made SYRUP

The Crockett & Weil Kind

is made on the farm, "forty miles from town," by exactly the same process of open evaporation that your grandfather used fifty years ago to make his own supply of syrup—and the same process that Southern farmers use today. At the Crockett & Weil plant nothing is used but pure ribbon cane

juice. It goes into an open evaporator and comes out syrup. Nothing is taken away and nothing added—nothing is needed to make it wholly good, or to emphasize its own delightful flavor.

There's only one syrup made like that—Crockett & Weil's original and genuine Country Made.

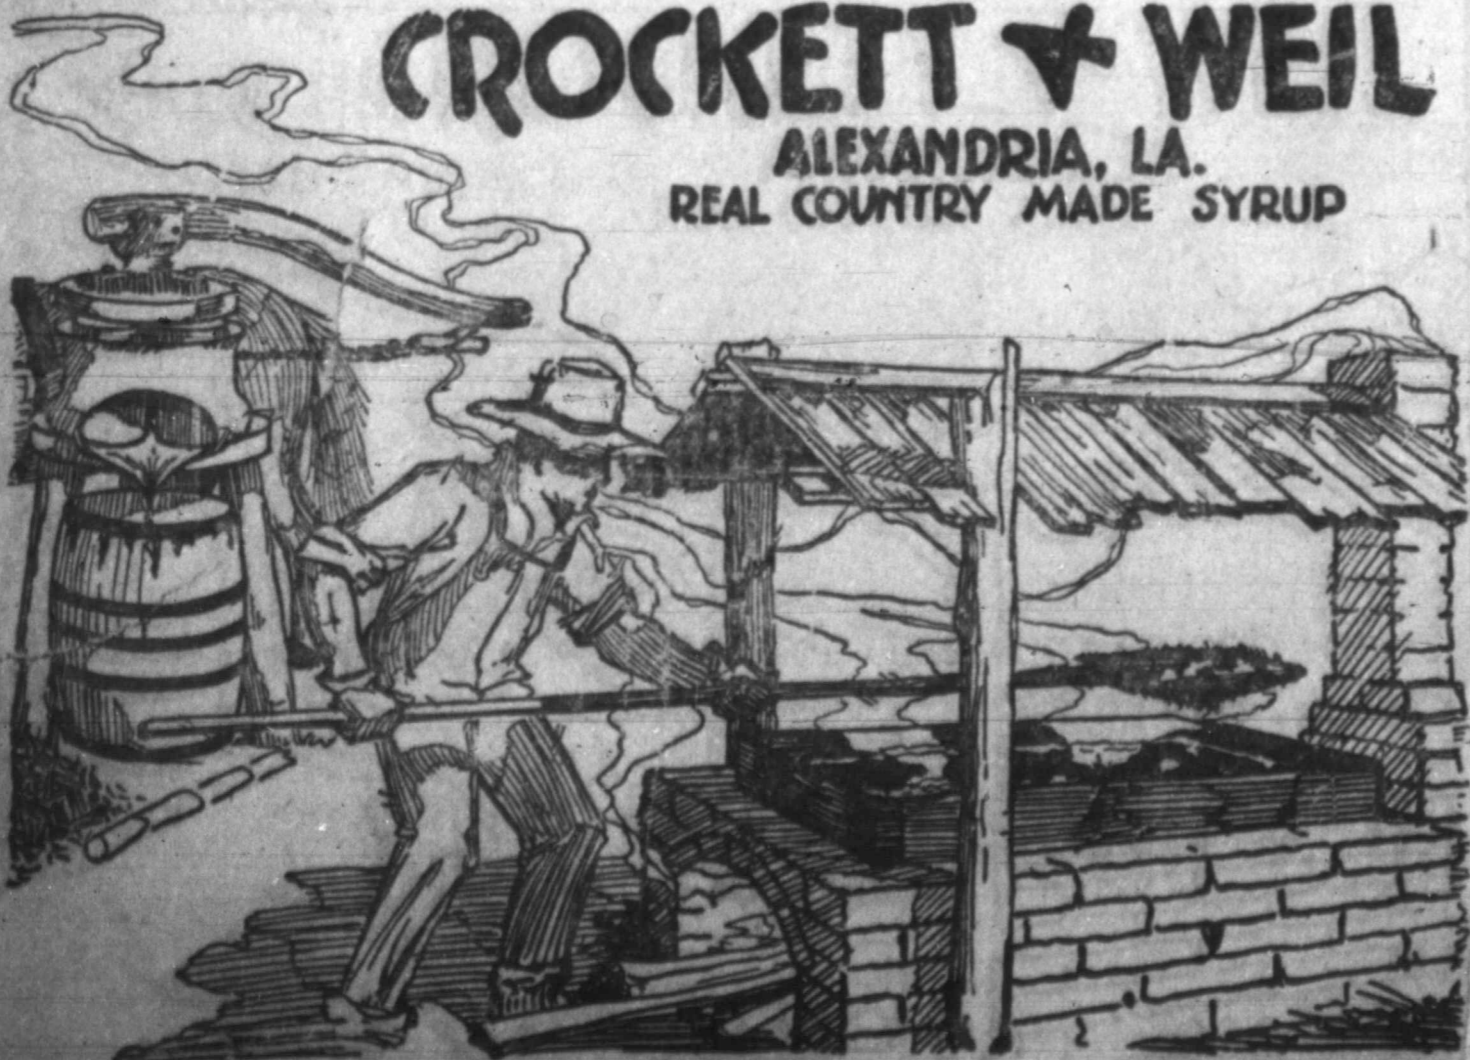

Order Your Supply Now!

Crockett & Weil's Country Made Syrup will be on sale at leading grocery stores in just a short time. Place your order now for a can, to be delivered just as soon as the Country Made shipments come in.

There are lots of so-called "country made" syrups but only one that comes directly off the farm—tell the grocer you want "The Crockett & Weil Kind."

Common-Sense for Corns, "Gets-It"

The Great Painless Corn Loosener. Simple as A. B. C. Never Fails. If you have ever tried to get rid of a corn by bundling up your toes with bandages, or by using salve that made your toe red and almost

raw, or tried to drag your corn out with a knife, there will be a surprise waiting for you when you use "Gets-It." Imagine peeling your corn off painlessly, easily and painlessly, just like peeling off a banana skin. Well, that is what happens when you use "Gets-It." There is nothing else that will give you this same result. Millions of folks have had the same pleasant experience. Why putter and suffer, limp, and spoil a good time for yourself and your friends, or your peace of mind while trying to attend to business? Use "Gets-It," the simple common sense way. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill. Sold in Lubbock and recommended as the world's best corn remedy by LUBBOCK DRUG CO.

CHRISTIAN CHURCHES LAUNCH CAMPAIGN IN TEXAS

Dallas, Texas, Oct. 27.—Considerable interest is being manifested in the campaign to be launched November 16th by the Christian Churches in Texas to raise \$350,000 for their educational, missionary and benevolent interests. Of the fund \$190,000 has been apportioned to Texas Christian University of Fort Worth, \$25,000 to Carr-Burdette College of Sherman, \$25,000 to Midland College, \$75,000 to the missionary interests and \$35,000 to Juliet Fowler Orphan Home and the home for aged people, of Dallas.

MR. PROGRESSIVE FARMER

April, 1883, I started Farm and Ranch, I believed then, although their number in Texas was not very numerous, that the progressive farmers and livestock breeders would patronize a real farm and livestock paper, serving faithfully their interests at all times. I was not disappointed in my conclusions.

Many who became subscribers with that first issue have continued to read Farm and Ranch without missing a number. I value very highly their continued loyalty and faith in Farm and Ranch, and leave it to them and to the many who have since become patrons and friends, to say if I have kept faithfully my promise to make the paper a powerful, consistent supporter of the best interests of the people whose patronage I have asked for and received.

Farm and Ranch was, at first, published only once a month, later twice a month. Now it is a big illustrated weekly. It has been, at all times, clean, interesting, instructive and reliable. In these I know I have not at any time failed.

Now, after thirty-seven years, always personally on the job, it is my ambition to have every man in Texas who has faith in farming in its different branches become a subscriber to Farm and Ranch.

Send me your subscription, and if, after reading Farm and Ranch each week for three full months you are not satisfied that you are getting even more than full value for the subscription price, write me and I will return the full amount immediately.

You who do not know Farm and Ranch, I refer to your neighbor who is already a subscriber.

On my proposition—your money's worth or every cent of your money returned—I ask your subscription.

The subscription price of Farm and Ranch is two (\$2) for three years—156 copies. No subscription is taken for a less amount and time.

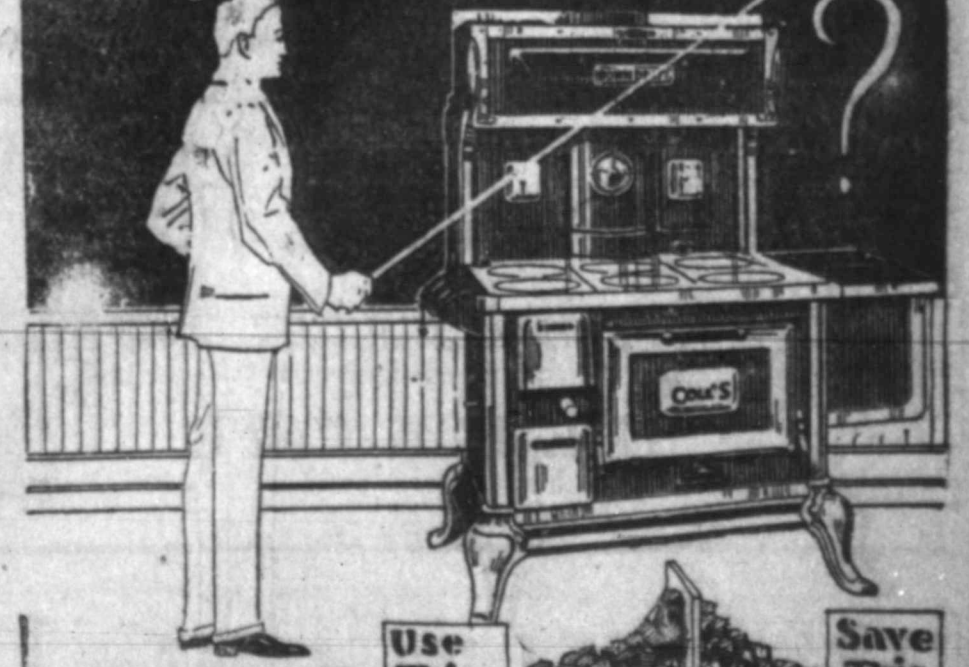

Please send your subscriptions direct to: Yours faithfully, FRANK P. HOLLAND, Publisher, Dallas, Texas.

P. E.—I want a responsible, active representative in every locality. Write me for my special proposition. (16-4)

Why Waste Fuel?

Buy a Cole's Down Draft Range —and Save Fuel

COLE'S Sanitary Down Draft Range burns the fuel and fuel gases, making a clean bright fire under all six lids and all the way around the oven. By burning these gases, you will save your self from one-fourth to one-third your last winter's fuel bill.

This stove is designed with so much thought for your convenience, comfort, and economy of time that you will find the day's cooking or baking done as tho by magic. Cole's Down Draft Range stands at the top in this respect. Economical in its use of fuel, sanitary, with every part accessible, and easily cleaned, built and perfected by experts, this range is perfection itself in operation. For cooking, boiling, roasting and baking, it is simply faultless. It is what we call 'Smooth.' See it and you will agree with us.

The Citizens National Bank

Banking, unlike many business enterprises of our section, represents the financial heart, arteries and force that portrays to the world the financial pulse-beating of this territory. Therefore within these institutions, there of necessity must be personages whose extensive financial learning, combined with qualities of character guarantees the principal of every investment of money matters to be first in the considerations of the different angles, a purely safe proposition. Without these qualities, bankers are not bankers; but are trespassing the privileges offered in the banking field in the commercial life of the section wherein they are located—the rights and confidence of the people with whom funds have been entrusted.

Therefore to thoroughly appreciate the activity of the Citizens National Bank, we must know who created it, who backs it and under whose management it has been and is today. Most people of the South Plains are thoroughly conversant with this part of the characteristics of the institution, being the oldest bank in Lubbock county, and its founders and directors pioneer inhabitants of this great section, whose activity in all lines of development has touched the innermost portion of the South Plains. George C. Wolfarth, President and organizer of the Citizens National Bank, is one of the oldest inhabitants of our great country, having been located in this section thirty years. Mr. Wolfarth's experience in the industrial life of the South Plains and the success that he has attained, the friendships formed, and the acquaintances made, is a fair example of the controlling force who backs financially and gives personal attentions of matters effecting the banking business in this institution. No little part of successfully banking claims more, than the men upon whom the foundation is laid. In selecting men to associate with him in the opening of the Citizens National Bank, Mr. Wolfarth shows distinctly his appreciation of the fundamental phase of banking.

George R. Bean, Joe Boyd, W. A. Carlisle, and H. D. Beal, with that of George C. Wolfarth, are the names of the Directors of the Citizens National Bank. W. A. Carlisle, vice-president, is another man whose reputation of Christian characteristics, of Western Breeding and the extreme faith that has been his on the outlook of opportunities of this great section, plays no small part in all worthy activities of this immediate institution. Nearly or all of the directors of the Citizens National Bank, have lived on the South Plains many years and much of the funds invested in the bank were realized by investments in South Plains offerings.

There are many controlling forces inside this Bank, such as that of polite, efficient waiting upon the needs or requests of the visitors, by those who are employed therein that kindles a spark of human interest, in banking, something which has in many instances been overlooked and resulted in disaster in like institutions. Ura Embry, who has one of the most spectacular careers in our section of the country is active vice-president and cashier. Mr. Embry has resided here only three years, but during that short time has created acquaintances and friends that is remarkable. C. A. Burrus, assistant cashier, here is a native born South Plainsman, having been born in Floyd County. Mr. Burrus is well known and admired among every one who has formed his acquaintances. Mrs. Lena Spencer, assistant cashier, has resided here about four years. Prior to entering this institution she was employed as bookkeeper for the Bowman Lumber Company. Her pleasant personality contributes no little part of the Citizens National Bank's attainment of friendship in our community. C. C. Pearson is another example of the men whose characteristics help this bank. Mr. Pearson has been with them only a year, coming here from Amarillo, where he was employed with the Amarillo National Bank and the Federal Reserve Bank of Dallas.

WARNING COTTON GROWERS!

So far this season Lubbock has had perhaps the best cotton market in the history of the town. In order to maintain this good market you should NOT "PULL" your cotton. "PULLED" cotton is classed as "boll lies" and if it can be sold at all it will have a value of from \$35.00 to \$75.00 per bale less than "picked" cotton. DO NOT PERMIT YOUR COTTON TO BE "PULLED".

Martin's Bakery

Lubbock Drug Co.

Like many of the enterprises of our growing city, the Lubbock Drug Company enjoys the full confidence of the patrons who are exacting in their preference for drugs, medicines, druggist sundries, school supplies and fountain drinks. It is an admirable trait for any business house to claim the attainment, reached as that by this concern by supplying goods, within which the house and the patron are fully aware of the purity, sanitation and service which are blended so perfectly. A smile and kind words have brought into and retained trade for the Lubbock Drug Company, in addition to their completeness of stock demanded here.

G. Granville Johnson, under whose personal supervision this Drug Company has reached its present height in the esteem of the community and also in the commercial field of West Texas, did not jump haphazardly into the establishment. Prior to purchasing this business, Mr. Johnson was connected with the Red Cross Drug Store. In the years of experience that he has had in the Drug business he has established an enviable position for himself and his store, for accuracy, due to a complete understanding of the principles needed for the successful dispensation and compilation of drugs. Mr. Johnson in addition to possession of these qualities contributing to success possesses a personality that wins; a natural smile, a quick realization of your position, and extension of sympathy to those who suffer, only serves to bring forth that oft repeated trait of business character of personality, without which we have often said business cannot flourish. For instance, the minute you enter into the store, you are immediately impressed with the welcome extended to you. Every consideration for your comfort is provided; that feeling of true man-to-man friendship is apparent and a feeling of "make yourself at home" is visible. Under these conditions you can find those underlying principles employed in the Lubbock Drug Company of our city, that led to success and continues to broaden its patronage.

G. Granville Johnson purchased the Lubbock Drug Company in 1915, from John King, the man who established this concern in our city in 1910. Under the management of Mr. Johnson this business began its real competition-like magnitude.

In connection with the drugs and other like articles carried, there is a fountain. In employing skilled men who have had experience in mixing these drinks served at the fountain, Mr. Johnson is particularly careful; by this we mean he only estimates their worth by their ability. After he is satisfied with the qualities of ability, he demands of them, courteous, efficient work. Therefore when visiting or shopping at the Lubbock Drug, you receive that "at home" feeling through the efforts put forth by the management.

Glass top tables provided with easy sitting chairs, electric fans and many other conveniences are provided here for the comfort of the customer. The interior finishing, with glassed-in shelves, the sanitary appearance, all contribute to make this one of the neatest looking places in the city.

The location of the Lubbock Drug in a portion of the city where traffic is unusually heavy, in the Lubbock State Bank building is again another contributing unit enrolled in favor of the Lubbock Drug Co.

In connection with the fountain department, cigars of every good brand, cigarettes, and tobaccos receive the usual personal attention of Mr. Johnson, which is an insurance policy on their quality and keeping. Several brands of chocolates in boxes is also another line kept; stationery and toilet articles have individual space and display room in this store. The chocolates include some brands such as those of Johnston's, Hoffman's, Jazzland and Norris' Exquisite Candies.

Besides being the manager of a store doing a great business in our city, Mr. Johnson is a believer in civic betterment and backs his belief with financial and material assistance to every enterprise worthy of due consideration; he is a director in our Chamber of Commerce which insures that he is a factor pushing the advancement of a section, unquestionably the pride of the Lone Star State.

MISS BLANTON SEES FEDERAL LAWMAKERS

Washington, Oct. 27.—Miss Annie Webb Blanton of Austin, State Superintendent of Public Instruction, and a sister of Representative Blanton of Abilene District, conferred with members of the Texas delegation today asking support for the Smith-Towner bill, which appropriated \$100,000,000 annually for co-operation with the State in promoting education. Among other things, it creates a member of the Cabinet to be Secretary of Education. In order to enjoy the Federal aid, the States must make similar appropriations. "The bill not only aids in providing teachers, but seems to encourage certain educational work," explained Miss Blanton. "Texas is badly in need of teachers, so much so that many schools were not able to open because teachers could not be provided. They are going into other lines of activities, where the rate of pay is far better. The average country teacher in Texas gets \$436 a year while the city teacher averages \$740. A hod carrier gets an average of \$1,000 a year. The bill strikes at illiteracy and would apportion of the Federal money to wiping that out in the States. The draft records show that 10 per cent of the draftees in Texas could neither read nor write and that 25 per cent were not educated above the fourth grade. I don't mean to imply that Texas is illiterate, for it is not, but the records reflect an alarming condition ought to be corrected."

Miss Blanton will confer with the Federal board in charge of the vocational training and explain phases of the Texas work, of which the department at Austin has supervision.

CITATION BY PUBLICATION

THE STATE OF TEXAS.
To the Sheriff or any Constable of Lubbock County—Greeting:

You are hereby commanded to summon B. M. Mimms, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in December, A. D. 1919, the same being the 8th day of December, A. D. 1919, then and there to answer a petition filed in said Court on the 21st day of October, A. D. 1919, in a suit numbered on the docket of said Court, No. 1275, wherein Mattie Mimms, is Plaintiff and B. M. Mimms, is Defendant; the nature of plaintiff's demand being as follows:

That plaintiff has been an actual bona fide inhabitant of this state for more than twelve months, and has resided in this county for more than six months.

That the plaintiff and defendant

were lawfully married in Martin County, Texas, on December 30, 1906.

That the defendant, the said B. M. Mimms, left the plaintiff on September 23, 1915, with the intention of abandonment, and has abandoned her for more than three full years prior to the filing of this suit.

Wherefore, Plaintiff prays that defendant be cited to appear and answer this petition, and that she be granted judgment dissolving the bonds of matrimony existing between plaintiff and defendant, and that she be divorced from the defendant, and for such other and further relief, general and special, in law or in equity, to which she may be entitled, etc.

Herein fail not, but have you before said court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Lubbock, Texas, this 21st day of October, A. D. 1919.

Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glass-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

CONTROLLING INSECT PESTS OF STORED FOODS

Seeds, grain, grain products, dried fruits and other similar products may be seriously injured by various insect pests. Insects are not content to attack merely the growing crops, but some wait until the product is stored or ready for food to collect their toll.

Where foods, seeds or other materials are being attacked they may be treated either with a gas or with heat to destroy the pests, says L. Haseman of the University of Missouri College of Agriculture. Heating in a slow oven is a very simple and practical remedy. Where seeds are treated care must be taken to prevent injury to germination but in case of foods the strength of gas or the height of the temperature are no items so long as they are sufficient to kill the pest. Temperatures of from 120 degrees to 140 degrees Fahrenheit will soon kill any of the ordinary pests. This temperature if maintained for only a short time will also not seriously injure most ordinary seeds.

Simply spread out the food or other material to be treated in shallow pans or similar containers and place them in an ordinary stove in which the temperature should not go above 140 degrees Fahrenheit. Treat for from ten to twenty minutes and both eggs and feeding stages of all common pests will be destroyed.

Where large quantities of seeds or other materials are to be treated small rooms may be heated to the proper temperature or carbon bisulphide may be used to treat it in tight bins, chests or similar containers. This gas settles down thru the product since it is heavier than air so the container should be free from cracks in the bottom. For treating an average sized trunk full of foods, grain, furs or clothing, use about two ounces of carbon bisulphide and permit it to act for twenty-four hours. Do not expose the gas to fire as it is explosive.

COTTON ASSOCIATION EN-DORSES GOVERNMENT CLASSER

At a special meeting of the Lubbock County Cotton Growers Association called for last Saturday a good representation of interested farmers gathered at the county court room for a full discussion as to whether the Government Classer, whose office is being maintained in our city was giving value received in accord with the expense necessitating his maintenance. From practically every community in our county representatives discussed this feature.

In every case they were heartily in favor of the classer. Many instances were cited of cotton selling in neighboring towns as low as 2 1/2 cents below the price paid here the same day. These places can secure the same service rendered to the patrons who market their cotton in this city, as some person in every community where there is a cotton market is in position to care for sending samples to Lubbock for classification. In doing this senders are out no expense whatever, having arrangements already made whereby the postmasters in each community will mail or send here without charging postage.

There was a question asked by the chairman as to whether they now thought they were receiving the kind of service that would offset the expense. Those who replied in most instances thought they were getting at least five dollars per bale more by having their cotton classed than they would otherwise. The association also is trying to acquaint the farmers of Lubbock county who are not contributing to the upkeep of the government classer but receive some aid indirectly from him because of his being here. Their purpose in doing this is to aid every farmer in the county to secure the best prices for their products, knowing that unless the expense of retaining the service of the classer is not paid this service will be discontinued. For this reason it is not only fair but a matter of importance to those who are not classifying their cotton, that each and every farmer of this county do his share.

In order that every man who has cotton on the south plains be made acquainted with this service rendered in our county and which is available to them, there will be extensive work done by these men. It is part of their program to hold mass meetings in each community calling all farmers together and talk personally to them. In this way they hope to receive material assistance in defraying the expense of the government classer. It is conservatively estimated now that about two thirds of the cotton marketed in this city is classified by the government classer.

At the meeting last Saturday afternoon there was some talk made of pooling cotton in lots of fifty, seventy-five or more bales and sell through the hands of the classer who is in direct touch with market conditions all over the world. This idea was indorsed at the meeting and will probably be a matter of record in a short time. It is not the intention to employ this plan regularly, but more of an experiment.

After a full discussion of these problems of the association, motion was made that the association indorse the work of the association, which carried unanimously. Following this a motion was made that the association put on record in their minutes an indorsement of the action taken at the World Cotton Conference which was held recently at New Orleans. This association expects a better marketing condition will be derived through the efforts put forth at the conference.

Every man in every town during the course of a life-time has to ask a favor of an editor—not an exception to this rule, says an exchange. A man may escape a doctor, keep clear of the courts, but once in a lifetime at least, has to go to the newspaper to have a certain piece put in—a death notice, article, etc., to have his name printed in or omitted from some item. It is, therefore to your interest to treat the editor fairly. He desires to be fair; he would rather do the right thing than the wrong thing, but if you give him a kick, the dent of it may be found in the top of your own hat some day and you will never know how it got there. Don't you think you are immune; don't you think that providence has especially favored you; your time will come and when it does come, it will be a fine investment if you have a friend in the editor's office.—Exchange.

To the Farmers of Lubbock County

If you have any notes coming due soon on your land upon which you are paying a high rate of interest, it would be well to call and see me in regard to a loan through the Federal Land Bank. These Government loans are called "Mortgages that never come due." You pay 5 1/2 per cent interest and 1 per cent on the principal each year, making a total of 6 1/2 per cent which automatically pays off your loan in 34 1/2 years time. Think what you could save and besides a Federal Loan on your land will increase its value. If you are a renter and contemplate buying a home we can help you secure it with a Federal Farm Loan.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

and the Indian

The Indian never liked work but he had his way to get well as soon as possible so that she could do the work and let him hunt, therefore he dug papoose root for her, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

JACKSON, Mrs.—"Dr. Pierce's Favorite Prescription is a good medicine and I have recommended it many times to women who suffer. This medicine was a great comfort to me after motherhood. The doctor seemed unable to give me any relief or help, but I had very prompt relief as soon as I started to take the prescription. It cured me of my trouble and restored me to a perfect state of health, and this is why I do not hesitate to make a good word for Doctor Pierce's Favorite Prescription whenever I have opportunity."—Mrs. K. UNIONS WARNED BY WILSON WALKOUT IS WRONG

Washington, Oct. 26.—It was learned tonight that the Government is relying on the Lever act to combat the coal strike, should it develop to the stage where it would cause distress and suffering throughout the country. This was determined on at the Cabinet meeting today. The Lever act gives the President broad powers to take any steps necessary to insure the continuous production of necessities during the war emergency; which extends until the proclamation of peace. Attorney General Palmer has declared the Government has ample power to act under this law against anyone who halts production. Fuel is specifically mentioned in the act, as is the word "mine."

Without further authority, it was pointed out, the President can take over the mines for Governmental operation, as it is provided any "factory, establishment, mine or plant" can be thus seized to insure production. The Government also has power to act against strikers being guilty of stopping production.

Secretary Morrison of the American Federation of Labor declared the President's statement was "too serious to discuss" and advised seeing John Lewis, head of the United Mine Workers. Lewis, with other miners' officials, left town this afternoon.

The coal operators are ready at any time to submit their dispute with the miners to an arbitration tribunal to be approved by the President. Thomas T. Brewster, chairman of the Operators' Scale Committee, said tonight, after being informed that the President desired to submit the whole question to a Government arbitration board.

LUBBOCK DEFEATS LOCKNEY AT FOOTBALL 32-0

In the game last Friday afternoon between Lubbock High School boys and the boys of the Lockney High school, Lubbock won easily by offering in their defense what appeared to be an impregnable line of defense. Never once were the Lockney boys allowed to break through Lubbock's line and their many attempts to gain on forward passes were frustrated every time. Lubbock boys showed their training and team work which proved too much for Lockney's line. Not only did our boys break through their line successfully but breaking through often for a clean touch down was one of the strong features of the game. Many minutes were devoted in this game by the captain of the defeated team in employing tactics of delay and studying official rules. This was accounted for by the evident superiority of the fight being put up by the Lubbock boys. In practically every case where a score was made, squabbling and arguments over the rules in which the score was made was an undesirable feature of this game.

From the very start Lubbock began making gains. The game started by a kickoff by Lockney which was received by Lubbock boys and brought to an even break in distance from goals. By just straight football work the ball was carried in three downs to our goal. So it was throughout the game. Twice, Lubbock's fullback broke through Lockney's defense for a touchdown. During this time squabbling was strong and at the end of the first half Lubbock had a score of 20, having successfully kicked both goals. The remainder of the game proceeded as the former, Honey securing another touch down in the first quarter of the second half and apparently Lockney was willing to give up, anyway it was getting dark and upon some question which the teams failed to agree the game closed without playing the time allotted.

Lubbock had for her line-up last Friday the following: Fullback, Cecil Honey; left half, L. Jennings; Right half, D. Benson; quarterback, A. Pearson; right end, W. Wheelock; right tackle, G. Lokey; Right guard, W. Andrews; center, O. Long; left guard, W. Blankenship; left tackle, H. Brown; left end, Spec Long.

Bain Wagons

We are receiving a new stock of the old reliable Bain Wagons. In this shipment we have just the right sizes for your farm use, equipped with the long, cotton frame bed. Also, we have the "BAIN SPECIAL" with the 36 inch front wheels and the 44 inch rear wheels and 3 inch tire.

This is one of the most popular size wagons and is used by more people on the farm than any other size wagon on the account of the wagon being low and nient to load. Cut felloes and fully warranted to be made of first class materials.

See us early before this shipment is all taken up. We are having another car to follow this one but it will not reach us before the last of September.

LOCAL ITEMS FROM THE LYNN COUNTY NEWS

The members of the Christian church, under the leadership of Elder R. T. Harris, are taking subscriptions for the purpose of purchasing the residence of Mrs. M. F. Bradley, in the west part of town, and overhaul the building for a house of worship. The building will be moved closer in and when completed will make the members of this congregation a nice church edifice. Citizens of every denomination in Tahoka are subscribing to the fund.

T. J. Marks who resides in the southwest corner of Lynn county passed through Tahoka Wednesday on his way to Snyder. Mr. Marks is connected with the State Agricultural department, and travels over the western portion. He had just returned from Dallas and Austin.

Monday morning, Oct. 20 was marked a very sad occurrence at the home of Mr. Jones, 8 miles east of Tatum. Henry Stone, an old friend and comrade, came to his death by drinking carbolic acid. Mr. Stone had the claim adjoining Mr. Jones and spent most of his time at their home.

The big oil derrick of the Tahoka Oil & Gas Company, three miles south of town, collapsed last Monday afternoon while workmen were engaged in pulling the string of casing, which they are removing from the abandoned hole. None of the men were hurt when the tower fell. It is supposed that work will begin at once to rebuild the derrick, in order to pull the remainder of the casing.

F. E. Redwine left Tuesday by way of Post, for Waco. Mr. Redwine went with the Lynn County Agricultural Exhibit, which was expressed to that city Monday, to appear at the Waco Cotton Palace, beginning Saturday the 25th. There were many nice samples included in the display of products, and it is expected that our county will carry off a few blue ribbons when the prizes are awarded.

Messrs. Joe and Bob Penney of Lubbock, were down Sunday attending the bedside of Mrs. J. E. Stokes, who was reported seriously ill. They returned home Sunday afternoon.

James B. Fisher, who has been employed for some time at the Lubbock Drug Company, as prescription clerk has recently resigned that position and moved back to Lamesa.
