CHILD ACCIDENTALLY KILLED AT BOVINA

The Boyina Community was shocked and saddened last Tuesday afternoon, November 4, when it was learned that Rex, the little five-year-old son of Mr. and Mrs. J. C. Bullock, was dead.

Some of the menfolk were busy loading an emigrant car for Mr. Rumfield, and the boys had returned to Mr. Bullock's residence, on horseback, to get a pet dog to put into the car. Little Rex and two of the larger boys were on the horses; and when the largest boy got off to catch the dog, the horses suddenly realized the situation and started on a swift journey toward the barn lot some blocks distant. Both boys were thrown to the ground, but the larger one sustained only minor bruises, while Little Rex was thrown with such force that he was killed instantly.—Hereford Brand.

WEST TEXAS COTTON NOT BRINGING TOP PRICE

The West Texas Chamber of Commerce in co-operation with the Department of Agriculture of Texas, convinced that West Texas farmers were not getting as much for their cotton as other sections, began a joint campaign to rectify this condition October 22nd. At that time the future price which is considered the market, at New Orleans for December, as quoted in the daily press, was 35.30 cents, and New York, was 35.15 cents. The top price of spot cotton in West Texas was 35 to 37 cents, average about 36 cents. The quotations of futures November 8th, two weeks later, was, at New Orleans for December, 38.10 cents and at New York 37.75 cents. A gain of 2.80 cents at New Orleans and 2.60 cents at New York; an average advance for the two markets of 2.70 cents. During this period the price of spot cotton in West Texas advanced to 40 cents as the top in the lowest markets and 46 cents as the highest, so far as we can learn, averaging about 43 cents as the top price over the West against about 36 cents two weeks ago when the work began.

Thus it will be seen that while the future market, which cotton men call the real market, has advanced only 2.70 cents, the spot market in West Texas has advanced 7 cents, or again over futures of 4.30 cents per pound or \$21.50 per bale. It is asserted by some that this gain in spot prices in the West is a natural result of the demand for actual cotton. If this was the cause of the advance in West Texas, then there ought to be a corresponding advance in the Eastern half of the State, but from the best information we can get prices in that section have barely kept pace with futures.

There have probably been 50,000 bales picked since Oct. 22nd, to which an average of half this gain should apply, which would amount to \$537,500. We estimate there are 500,000 bales more to gather, which at present advances of \$21.50 per bale will amount to \$10,750,000, or a grand total of \$11,287,500. But this is not all, the fine white cotton of the West is not nearly as high, as compared to other cotton and its value as it should be. The majority of the farmers are now getting their debts paid and are in a position to quit selling, which should have a more deciding effect upon the general market as well as the price in West Texas.

It is gratifying to note the increased number of farmers and business men who now realize that controlling the flow of cotton to market controls the price in proportion. These men all favor a strong organization for this purpose.

Some few merchants may have feared the slow selling would affect

The Most Fairly Priced Fine Car Built

THE Chandler Six leads the whole medium priced field of motor cars so distinctly in popularity, because it gives such extraordinary value at such a moderate price.

We firmly believe, and so do great hosts of people all over America, that the Chandler Six is the most fairly priced fine car built. It is quite as distinct in the excellence of its design and construction as it is in the fairness of its price.

And that is why the Chandler has come into its position of undeniable leadership.

The Chandler Six is distinguished for its marvelous motor—the exclusive Chandler motor now in its seventh year of constant refinement—and for the sturdy strength and simplicity of its entire chassis, and for the beauty and comfort of its several types of body.

In addition to the above saving there is no doubt but that the slow marketing campaign has materially aided in the advance of the future markets.

FREE TREATMENT FOR TUBERCULAR SOLDIERS

Austin, Texas, Nov. 13.—The Federal Government is offering free medical treatment and \$3 per day for maintenance for every Texas soldier boy who contracted tuberculosis in the army and is now in need of hospital treatment. The only thing necessary to have Texas boys treated in Texas, in the grand old Texas climate, is for Texans to give freely to the fund now being raised by the Benevolent War Risk Society for the erection of hospital buildings at Carlsbad, where climatic conditions are ideal for the treatment of tubercular patients.

The Federal Government has no available hospital space in Texas, and no other hospitals are available at this time for the treatment of tubercular soldiers. The Federal Government at the present time is sending Texas boys to places such as Alexandria, La., where the climate is undesirable. Thus the Government is offering them hospital accommodations, but it is up to Texans to keep the boys at home amid loved ones, where they can have the benefit of the wonderful western climate and where the Federal Government will provide every comfort, convenience and attention.

"Texans should give liberally during the week from November 19th to 25th," said Governor W. P. Hobby, who is President of the Benevolent War Risk Society. "It is a most worthy cause and all heart strings should be touched. The full sum of \$500,000 must be raised at once, as disease will not wait. There are

Service for All Makes of Batteries

Know Your Battery

Would you buy a car without knowing its age? Then only buy a starting and lighting battery without knowing something about it? USL batteries are best, last longer, give a better spark and a faster spin to your motor. It's all in the USL famous machine-plated plates—the plates that last longer than any other battery plates built.

Battery Inspection Day

once a month is marked on the calendars of many wise motorists. They know that an ounce of prevention is cheaper than a battery repair-bill. That's why they visit us regularly. We can recharge and repair any make of battery. Our service is efficient—our charges modest—our work guaranteed.

SOME RECENT RULINGS OF SUPREME COURT

Austin, Nov. 15.—Recent opinions of the Texas supreme court contain decisions and rulings clearing up a number of legal points.

One opinion holds that when a committee representing a community makes a contract with a railroad company to obtain the building of a railroad, the railroad must build a complete and actual operating railroad before it can collect bonuses pledged in the contract.

Another opinion holds that an employe riding upon a logging engine following a custom established by other employes could not be held as contributing to negligence by which he was injured, and the company was liable for the injury to him.

When a person purchases notes conveying a lien upon real estate from record owner of such notes and is not apprised through the records of the secret lien of another person, the title passes to the purchaser who was innocent of knowledge of the lien not of record, according to another opinion.

An instrument, the language of which shows it to be intended as security for debt, shall be treated as a mortgage, even though it may contain all the terms of an absolute conveyance, according to an opinion by the court. The case in which the question was raised involved possession of two race horses for which a bill of sale, containing the provision that in event the price agreed upon was paid on a certain date the horses would be surrendered, was given.

The enforcement of the separate coach law is the duty of the conductor of a train, and it is not the duty of any other member of the train crew to attempt to enforce the law, according to an opinion of the court, which further held that the conductor must know that a person is improperly occupying a coach before the railroad company is liable for damages arising from this improper occupation.

Another opinion holds that the workmen's compensation act of the Thirty-third legislature abolished the defense of assumed risks except where the statute makes exceptions, and an employer cannot plead that an employe assumed a risk to escape liability for his damage.

RED CROSS CHRISTMAS SEAL CAMPAIGN

From December 1-10, the Red Cross Christmas Seal campaign will be taken up in this county, as well as over the country.

As everyone knows the Red Cross Christmas Seal is an agent of happiness and health. It was originated in 1907, for the purpose of fighting disease, more particularly tuberculosis. It is estimated that the campaign for the prevention and cure of this disease saves at least 60,000 lives each year. While the death rate from tuberculosis in 1895 was 200 out of every 100,000, today the rate is 140 per 100,000 population. This shows much progress, but the rate is far too high as it is.

The Texas Association is affiliated with the national association, and this state receives 90 per cent of the funds collected from the seals.

Lubbock county has a quota of \$250.00, which is very small, but when you figure that it will take 25,000 stamps for us to reach our quota, it will take considerable effort to do our part.

Every business man should take from \$5.00 to \$25.00 worth. Let everyone buy liberally, and put Lubbock over. A good suggestion is for those who send out statements, and many letters, to buy sufficient to put on everyone sent out. They should be placed on the back of the envelope.

A committee will be appointed to take care of the canvas of the business section, and we are laying plans for the entire community to be canvassed through co-operation of the schools.

When you are waited on, don't just buy a quarter's worth or even a dollar's worth, if you can and should do better.

Homer Winston, son of J. F. Winston, of Brownfield, passed through here today enroute from Grand Saline, where he has been for some time visiting with relatives to Brownfield. He will teach the Fairfax school near Rails and is informed that the school will be opened the latter part of this month.

Mr. Moine, manager of the Moine studio of this city, was in the Seagraves country the first of the week taking photographs of various industries of that community and especially the fine crops.

Word has been received here recently to the effect that Mr. and Mrs. N. R. Porter, parents of Mrs. W. C. Edwards, had sold their home in San Saba, and were contemplating moving back to Lubbock to make their home.

Arvel Davis, son of Mr. and Mrs. George L. Davis, arrived here this week to visit with his homefolks.

MR. DODSON WARNS USERS OF CALOMEL

Says Drug Acts Like Dynamite
on Liver and You Lose a
Day's Work.

There is no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not silitate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of frisky calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

SOCIETY NOTES

Mrs. Waters and Mrs. Westlake were hostesses to the Friday afternoon Needle Club last Friday at the home of Mrs. Waters. Mrs. I. F. Holland and Mrs. Boren, of Oklahoma, were guests of the club. A dainty lunch of fruit salad, pimento sandwiches and hot chocolate was served at the close of the afternoon. The next meeting will be with Mrs. John Denman on November the 28th.

Boles-Goodnight.

Wednesday morning marked an event of unusual interest in Lubbock when Mr. Buell Boles and Miss Lesta Goodnight were married at the Goodnight home east of town. The wedding is the culmination of a pretty romance which was begun when Mrs. Boles was still in school. Mr. Boles belongs to one of the oldest families of Lubbock county, and is well liked and respected by all who know him. The bride is well known in musical circles here and is universally admired for her charming disposition.

Mr. and Mrs. Boles left for Dallas to spend their honeymoon, and on their return will be at home at their cozy new home east of town.

Warren-Sears.

Mr. George Warren and Miss Annie Lewis Sears were married Sunday morning at the Santa Fe Hotel by Rev. W. A. Bowen.

The bride has lived here only a short while, but has made many friends by her sweet disposition and

pleasant manner. Her home was formerly at Childress.

Mr. Warren has been with the Shamburger Lumber Company at this place, but has been promoted, and will assume the management of a lumber yard at Matador.

Mr. and Mrs. Warren left immediately after the ceremony for Matador where they will establish their home, and their many friends wish for them a long and happy life together.

Rodgers-Teal.

Mr. Lewis Rodgers and Miss Geraldine Teal, both of Slaton, were quietly married at the George Morris home here Sunday. Rev. Henry M. Brooks, a Conference visitor performed the ceremony.

Mr. and Mrs. Rodgers will make their home in Slaton, and have the best wishes of their friends.

1911 Needle Club.

Mrs. K. Carter and Mrs. O. B. Trinkle were joint hostesses to the Needle Club Tuesday afternoon at the home of the former. Hot Chocolate and a salad course were served to the following: Mesdames Sims, John Moore, L. E. Baker, Stubblefield, Spikes, B. H. Jones, A. G. Hunt.

Mrs. O. L. Slaton is here from Dallas, where Ruth and Oscar are in school.

Rev. and Mrs. Harry L. Hughes went from here to visit in South Texas before they start on their Missionary journey to Japan. They attended the Conference here.

Miss Ella Forrest, Home Demonstration Agent of Dickens County, passed through here Wednesday enroute to Slaton, where she will visit a short time with relatives. Miss Forrest was accompanied from here to Slaton by Miss Millie Halsey, Home Demonstration Agent of Lubbock County. Miss Halsey returned home the same afternoon.

The Auction Bridge Club had a charming time Tuesday afternoon when Mrs. Morton J. Smith was hostess. Two tables played enthusiastically and at the close of the games, Mrs. Smith served a salad course with tea. Mesdames Rufus Rush and Dick Arnett were guests of the club. The annual business session of the club will be held with Mrs. Roscoe Wilson Friday afternoon of this week at 2:30 o'clock. All the members are urged to be present.

The Missionary Society held its calendar meeting Monday with Mrs. Royalty and an interesting program was given. Mrs. L. A. Posey was the leader and papers were read by Mrs. Kimbro and Mrs. Sims. Mrs. Bean and Mrs. Trinkle sang. The ladies decided to pick cotton this week. At the close of the afternoon Mrs. Royalty served hot chocolate and wafers.

Mrs. W. B. Ford of Vera, Texas, was visiting friends in Lubbock and attending Annual Conference. She went to Clovis to visit her son and expects to go from there to Los Angeles, Calif., to spend Christmas and perhaps the remainder of the winter with her daughter.

Miss Mattie Grey and nephew, Al Patterson, of Lynn, spent Saturday

and Sunday attending Annual Conference in Lubbock.

The First Christian Church has employed as their pastor for the coming year V. L. Graves, of Allen, Texas, who with his family expect to arrive in Lubbock about the first of December. This church has been without a pastor for almost a year, but have kept their work going fairly well, and hope under the leadership of this excellent minister, to accomplish much good.

E. M. Douthit of Austin, a Christian Preacher and singer, who assisted Rev. Hugh McClelland in a protracted meeting at the First Christian church here four years ago, was visiting in the city and preached a fine sermon at that church Sunday at 11 a. m. This pulpit was to have been filled by Rev. Stewart, one of the ministers who were attending conference and on account of sickness was unable to fill the appointment. At the evening hour Rev. Doak preached a most excellent sermon, which was full of good instruction, and a delight to all who heard him.

The Ladies Missionary Society of the First Christian Church will meet Monday at the church at 2:30 p. m. A cordial invitation is extended to any who may wish to take part in this great work.

Mr. and Mrs. Lesly Porter, from Hale Center, were visitors to the Conference Sunday.

Mrs. Howard, of Crosbyton, passed through the city Saturday enroute to Plainview, while here she visited her son, Amos, who is with the Guaranty Title and Abstract Co.

Mrs. Whipp and daughters, have returned from a several days visit at Tahoka.

Mr. W. A. Porter, of Tulia, attended the Methodist Conference Sunday.

Mrs. A. J. Hicks returned the past week from a visit in Hereford, and with her daughter, Mrs. Volcoe Coluh in Amarillo.

Miss Nichols has returned from a visit with her parents in Clifton, Texas.

Mr. and Mrs. J. E. Swepston, of Tulia, were conference visitors Saturday and Sunday.

Dr. W. S. Ferguson was greeting friends in the city Saturday and Sunday. He returned Monday to Ralls, where he has opened a dental office.

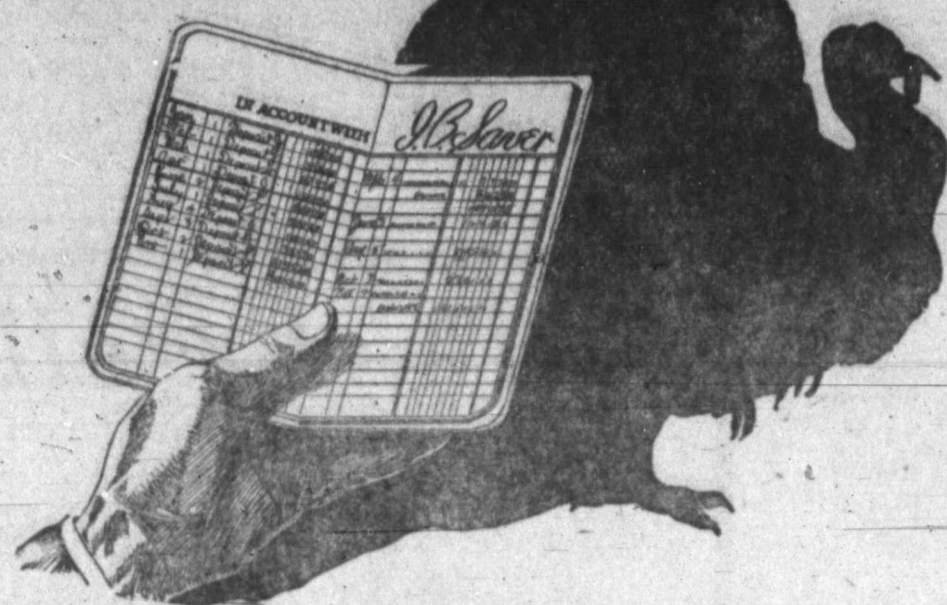

Mrs. Amelia O'Neal and son Harry Ward, arrived in the city Tuesday morning to make this their permanent home. Mrs. O'Neal has been in Navasota for the past month. Mr. Ward has accepted a position with the Western Union. Their many friends are glad to welcome them home again.

Mrs. Elwin Wheelock went to Roswell Tuesday morning for a short visit.

Mrs. J. T. Hicks and son, Ward, of Stamford, were visitors here during the conference.

ORDERS TAKEN AT THIS OFFICE

To the Farmers of Lubbock County

If you have any notes coming due soon on your land upon which you are paying a high rate of interest, it would be well to call and see me in regard to a loan through the Federal Land Bank. These Government loans are called "Mortgages that never come due." You pay 5 1/2 per cent interest and 1 per cent on the principal each year, making a total of 6 1/2 per cent which automatically pays off your loan in 34 1/2 years time. Think what you could save and besides a Federal Loan on your land will increase its value. If you are a renter and contemplate buying a home we can help you secure it with a Federal Farm Loan.

For further information see me at the Citizens National Bank, Lubbock, Texas.

WARREN-SEARS WEDDING SATURDAY AFTERNOON

George W. Warren and Miss Annie L. Sears, were quietly married at the residence of Rev. Bowen, pastor of the Baptist Church of this city, last Saturday afternoon at 3:00 o'clock. Rev. Bowen conducted the ceremony.

Mr. Warren has resided in our city for some time and employed while here as assistant manager of the Shamburger Lumber Co. yard. He came to our city from Matador, where his parents now reside, in 1917. Later he entered the service of his country and spent about one year in this service in France, coming back here the past August and again taking up his former position.

The bride is the only daughter of Mr. and Mrs. Sam M. Sears of this city. She has resided here only a short time coming here from Childress this summer.

Mr. and Mrs. Warren left Saturday afternoon for Matador where they will make their home. Mr. Warren will accept a position of manager of a lumber yard in that city.

EDWIN BARKER SERIOUSLY HURT BY HORSE KICK

Edwin Barker, twelve-year-old son of Mr. and Mrs. C. N. Barker, who live about three and one-half miles south of our city, was kicked by a horse Friday evening and suffered a crushed skull. He was brought immediately to a local sanitarium for treatment. An operation was made by attending surgeons and it is now thought that he will survive. The boy left the house riding a horse trying to catch two other

horses that had fled with harness on from the house. It is thought that when he had caught up with the horses that the horse upon which he was riding stopped suddenly and threw the boy off and kicked him. The boy walked about a quarter of a mile toward home after receiving the injury.

Herald.
While out driving over the southwest portion of the county, one day this week with some other parties, Boon Hunter ran his Ford into a wire fence which threw him out on his head and seemed to injure him as he is very heavy. We hope, however, that he will quickly recover from the accident.

Grandpa Raymer left this week for Bronte, Texas, at which place he will visit a daughter during the winter. He has spent the summer and fall here with his daughter, Mrs. Noah Bell, and his daughter-in-law, Mrs. John Raymer.

B. Tidwell of Abilene, Texas, was here this week looking after his property interests in this county. He informed us that he was obliged to move his family back to the Plains and had selected Lubbock for his home.

We are glad to admit that the Herald made a \$500.00 mistake in giving the amount of money John Hall is to receive for his service of carrying the mail from Lubbock to Brownfield and return six times each week. We announced that he would receive the sum of \$4492 when it should have been \$4992 per year instead. John has purchased a large Dodge commercial car, and the mail business on this line has already shown a decided improvement, the mail getting here now right on the dot, or if anything, before the dot. However, we are very sorry that we are to lose the citizenship of John and his estimable lady, as they are to move to Lubbock, for the reason that the mail must start from there of morning, instead of from here.

Last Sunday morning about ten o'clock Mr. Clarence Lewis and Miss Ima Sawyer drove to the Baptist parsonage and Rev. J. Anderson spoke the words that bound two hearts as one. Mr. Lewis is one of our very promising young business men, being a member of the firm of Lewis Bros. & Co., and probably has as many or more friends than any young man of this city.

School was dismissed this week, and the children were put in the cotton patches, there being several of the business men who volunteered to carry them out. As one of our business men stated, the cotton crop is entirely too valuable to waste, and he was willing to do his part to get it in while the weather is good. All above the fifth grade are out, and we understand that some of the instructors are out too, gathering the fleecy staple, and making ever so many bucks per day.

Mr. Sides, proprietor of the Home Cafe, was badly burned this week while helping to weld a casting for the road grader. It seems that he was filling a gasoline torch from an air filling tube at one of the garages and forgot to cut it off before removing the air tube, and gasoline, air and all rushed out in his face, and took fire from the torch. He threw his hands over his eyes and saved them, but one side of his face and ear was badly burned. Had it not been for the quick assistance of M. V. Brownfield and Curley Gamble in smothering the flames, the results might have been much more serious.

THAT GOOD OLD TASTE

You're going to get old-fashioned Country Made Syrup—the kind with that **GOOD OLD TASTE!**—once more. Way down in the Louisiana cane fields they're busy now, making—

REAL Country Made SYRUP
The Crockett & Weil Kind

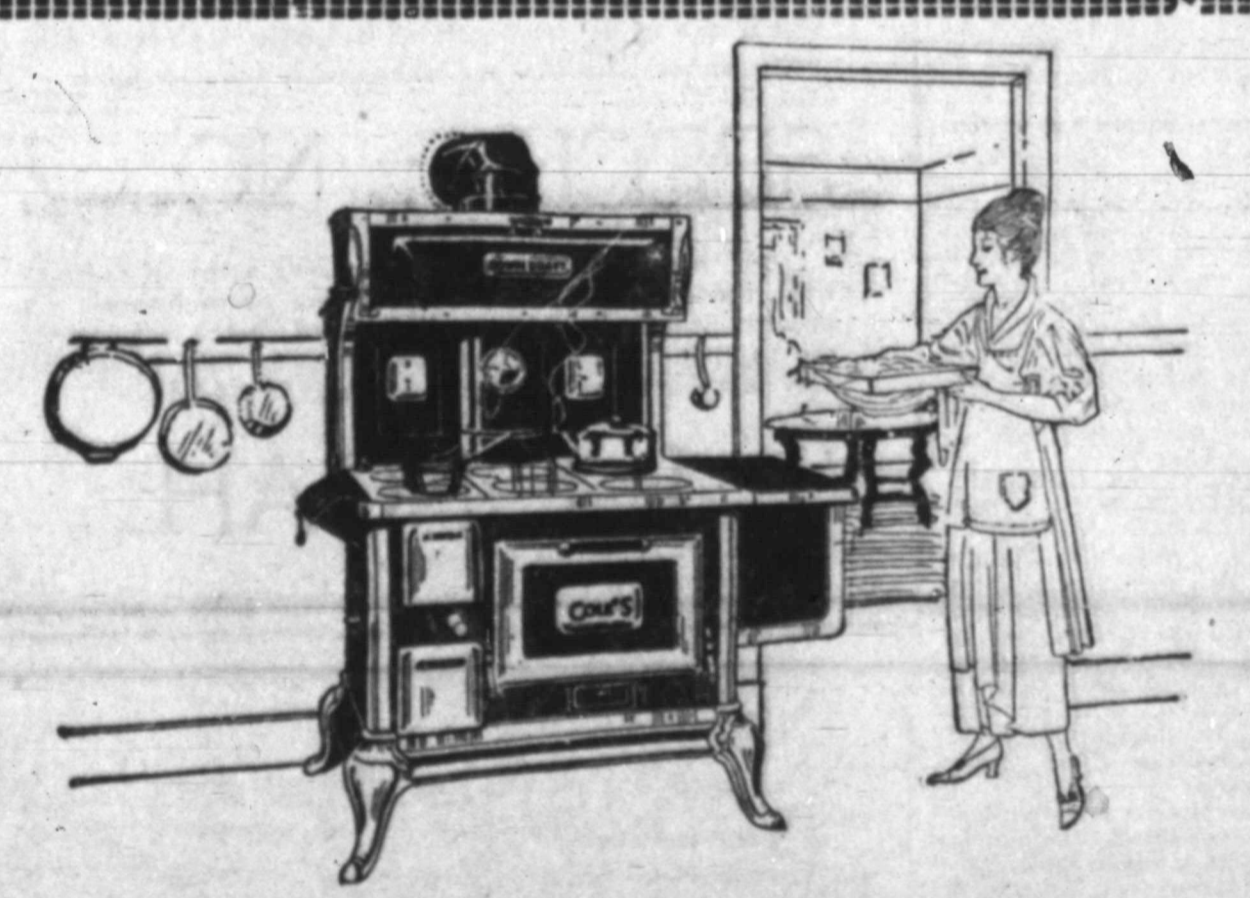

There's no other syrup near so good as Country Made—the Crockett & Weil kind. No factory syrup can duplicate its delightful flavor, or its wholesomeness. It is syrup like grandfather used to make, and like Southern farmers make today—pure cane juice in an open evaporator, cooked 'till it trickles off the strainer in a ropy, golden stream.

—and it's real food, too!

Crockett & Weil's Country Made has something beside the taste, too. It is real food! It contains 58.1 per cent digestible sugar—**FOUR TIMES** the **FOOD VALUE** of ordinary compound syrups!

Put in your order now for Country Made—But be sure and say: "The Crockett & Weil Kind."

(There are so many so-called country-made syrups now! you must demand the genuine.)

Be Prepared for Any Emergency

With the price of fuel high the situation demands that you be equipped to burn any fuel and make each ton go as far as possible.

Burns Any Fuel

All bottom draft ranges allow a very large amount of the fuel or gas portion of the fuel to go up the chimney unburned. **The Hot Blast draft in**

Cole's Down Draft Range

enables you to burn any available fuel—even cheapest soft coal slack, with practically the same results as with hard coal.

It is all in the Hot Blast combustion, which means exactly the right amount of air delivered to the fire at exactly the right place, burning the escaping fuel gases and producing a clean even heat.

In this range you can cook, bake, or broil, and heat the wash boiler and irons all at the same time with the gases which would be thrown away were you using any other range. This means double capacity on less fuel.

This range pays for itself from the fuel it saves you. After that it is pure velvet. This range is built to last—with non-breakable malleable iron features. Come in and see us, and let us show you this beautiful range and prove to you in dollars and cents just what it will save you.

"BACK TO GOD'S COUNTRY" AT LYRIC

Featured by its remarkable scenes of the frozen arctic, by the numerous animal performers and the unusual histrionic ability of a carefully chosen cast, coupled with a plot that has every right to be styled new, the First National superproduction, "Back to God's Country," opened Wednesday at the Lyric.

The scenes were made in the arctic, on the far shore of Lesser Slave Lake, north of the fifty-sixth parallel. The animals in the production make the film most unusual. The story deals with Dolores, swimming girl of the Canadian wilds, and her love for the animals that haunt the woods about her home. There comes into the life of the girl a young writer. He, too, loves nature and her children.

They are married. Together they venture into the rim of the Arctic circle, to go among the Eskimos. Dolores meets Wapi, the Killer, a great Dane dog which has neither man nor animal as his friend. The kindness of Dolores wins him and in a time of great need he fights a big battle for her.

Included in the picture are a dog sledge race over the frozen wastes; a dog fight such as one reads about in Curwood and London stories and a scene in which Dolores, Miss Nell Shipman, plunges into the waters of a torrential rapid to save the life of the man. The battle for life in the ice-cold water is real.

CHILDRESS PASTOR WILL BE PRESIDING ELDER HERE

George W. Shearer, pastor of the First Methodist Church of Childress, which position he has held for several years, was appointed to the position of Presiding Elder of the Lubbock District recently. Rev. Shearer has been in the ministry of this church about eight years, all of which have been in service with the North-west Texas Conference. Rev. Shearer is a man of about thirty years of age, and is well thought of in the Childress territory and other places where he is known. Presiding Elder W. E. Lyon resigned this position at the Conference session held recently here, to accept the position of secretary of the Centenary.

COTTON FIELDS WHITE FIELDS OF GRAIN WASTING

Between this city and the city of Slaton, which is about sixteen miles southeast of Lubbock, we find that hundreds of acres of cotton is waiting in the fields yet untouched, white and in fine shape to ruin in case of wet weather; hundreds of acres of hay, bit by the frost lying in the fields where if it had been cut and baled would have meant thousands of dollars to the farmers of the country and similar acreages of corn ungathered.

Many new farm residences are seen over the country now in course of erection and many of the older farmers of the county are building barns.

COUNTY MAY BUY LARGE TRACTOR FOR ROAD WORK

The County Commissioners went to a tractor demonstration held on the canyon about sixteen miles southeast of this city, today. The purpose of the demonstration was to see if a large tractor put out by the Avery people would be feasible for the road work in this county. The demonstration took place on one of the hardest road problems ever encountered in Lubbock county and one when finished will probably be most costly and beautiful.

The tractor in question is a forty horse-power tractor and is in charge of three men who are experts in the handling of it. The piece of road which the demonstration was made

on is a grade down the canyon, about four miles northeast of the town of Slaton. About one year and a half ago work was started on the grade and the county has been to a great deal of expense in the meantime keeping men working with teams and light road machinery trying to maintain and build a road. This method besides being slow was expensive and in reality the condition of the road was very little improved.

After two or three runs made with the large tractor by these men, experts in their line, the grade is taking on aspects of being made complete in a short time. It is practically assured that the tractor will be bought by the commissioners. Anyone interested enough in these things will be well paid for his time and trouble in going to this piece of road work and watching the wonderful progress being made there.

There were about twelve men mostly from Lubbock down today, at the demonstration and many pictures of the tractor at work and the progress made, were taken. Besides the commissioners from Lubbock down were, Carrol Thompson, County Farm Demonstrator and F. D. Brown, assistant secretary of the Chamber of Commerce and Mr. Moine, of the Moine studio.

The road crossing the canyon at this particular place, winding at a grade of about 12 per cent and nineteen hundred feet in length down the sides of the rough canyon, is one of the scenic places of Lubbock county. Small shrubbery, dotting the sides of the hills and tiny streams in the valley, everything to make a fine place for picnicking.

NO DRASTIC CURTAILMENT TO BE MADE IN TRAIN SERVICE

Chicago, Ill., Nov. 18.—There will be no drastic general curtailment of train service in the United States at the present time, despite the seriousness of the coal problem. This announcement was made tonight at the conclusion of a meeting attended by Director General of Railroads Walker D. Hines, and seven regional directors of the Railroad Administration. Mr. Hines, after hearing reports from the regional directors, was of the opinion there was sufficient coal to run the railroads on a virtually normal basis for twenty-five or thirty days and that production of bituminous coal was being increased daily. A freight embargo would be the last thought of measure to conserve coal.

That the coal situation was serious was admitted by those in attendance. Further consideration of the subject will be given during the present week by Mr. Hines, and if any curtailment of train service is decided upon ample notice will be given the public. Coal now in the hands of the railroads under the order of the Fuel Administration will continue to be distributed to public utilities and other users of coal in accordance with actual necessity.

PRISON POPULATION DROPPED OFF SEVENTEEN IN OCTOBER

Austin, Texas, Nov. 18.—Despite the fact that 104 new convicts were received at the state penitentiaries during October, the prison population decreased seventeen, there being 2,826 convicts on hand Oct. 31, compared with 2,843 Oct. 1. This was shown in the October report of the Prison Commission, filed today with the Governor.

Twenty-nine convicts were pardoned and ten paroled during the month. Seventy-eight were discharged, thirteen escaped, three died, four were delivered to sheriffs.

Ten convicts were recaptured, one returned by sheriff and five returned from parole.

Of the 104 new convicts received nineteen were from Harris County, seven from El Paso, five from Dallas, nine from Tarrant, five from Hays.

The number of convicts in the Huntsville prison is 294, number in insane asylums 24, number on State-leased farms 1,990, number on State-leased farms 518.

DEATHS.

Louise Stewart—Age eleven years one month and eleven days, daughter of Mr. and Mrs. W. F. Stewart of near Brownfield, Terry County, died in a local sanitarium Saturday night, November 15th. Death came as a result of flu-pneumonia. The child was ill only eleven hours. The body was shipped to Brownfield Sunday morning and interment made in the Brownfield Cemetery Sunday afternoon.

Tom McDonald—Age about 38 years, died in a local sanitarium Saturday night, November 15, 1919. The deceased had only been in this country a short time. He was stricken with apoplexy a few days before death and was brought to a local sanitarium where he underwent an operation. The body was shipped to Easterly, Texas, where his people reside, for interment Sunday night.

Mrs Jack Cross—Age twenty-nine years, born in Russia, wife of Jack Cross, of Big Spring, well known cattleman, died in a local sanitarium Thursday morning at 4:30, November 20, 1919, following an illness of several months. The body was prepared and shipped to Big Spring Thursday, where interment will be made in the Big Spring Masonic Cemetery.

Clifford Earl Trout—Born in Texas, May 30th, 1919, died in Lubbock, Nov. 18, 1919. Deceased was a son of Mr. and Mrs. C. C. Trout of this city. Interment was made in the Lubbock cemetery, November 19, 1919.

IMPROVEMENTS TO BE MADE AT LUBBOCK SANITARIUM

At a recent meeting of the directors of the Lubbock Sanitarium an extensive improvement program was discussed, but we are not yet at liberty to publish same. As is well known this institution has been treating large numbers of patients—more than at any other period in their history. The maximum capacity of the institution is frequently reached and at times they have been unable to admit all wishing to secure medical or surgical aid where hospital beds were required. On account of this condition and having in mind the future needs of the people in this vicinity an effort will be made to improve the facilities.

Another improvement at this institution is the recent employment of a registered dietitian, of training and experience, Miss Helen E. Griffith, a graduate of the Domestic Science School of the Battle Creek Sanitarium and previously the dietitian of Christ's Hospital in New Jersey.

LUBBOCK POSTOFFICE MOVED TO SOUTH CEDAR ST.

The post office was moved to its new home on South Cedar street the first of this week. The work of moving was done mostly in one night and many of our citizens could be found the next morning out looking for the post office. The management of the office are to be congratulated on the efficient handling of this extra work. New boxes and many added conveniences are found in the new home.
 The old building vacated by the postoffice is being remodeled this week. Few floors are being put down and show windows for the display of goods are being constructed. This building will be occupied by Chris Harwell's grocery will probably move from its present location on West Broadway to the new home the latter part of this week or the first of next.

Merrill Hotel

It is the home of the traveling man and the ranchman. That is enough to make the Merrill Hotel one of the most popular resorts in our city to stay, alone with your wife or family. It is known the world over that the drummer or traveling man eats and sleeps at the best places provided in each city.

No so many years ago Lubbock was without the Merrill Hotel and many people who heard of the plans being made for the construction of a building like this could be heard remark: "Lubbock is not large enough to make a hotel of this magnitude a paying investment." Today the Merrill Hotel is enjoying a trade that runs its facilities to full capacity.

In the beginning the hotel acquired the reputation of management that satisfied the traveling man. It has lived up to that reputation until today. It was at once noted as the gathering place of all the big ranchmen of West Texas, when they happened into our city and they are yet enjoying the patronage of these men.

This hotel building is one of the finest in our city, occupying a space in the very heart of the business section. The hotel is now under the management of F. H. Bauers and John J. Kelly. Mr. Bauers started the management of this hotel in 1917 and sold part interest in it to Mr. Kelly the past September.

At the Merrill hotel you will always find that class of people who are real men and women—people who are considered the best—stop always at this hotel. The many conveniences of this hotel and the efficient, courteous management, has given to it a prestige unexcelled in West Texas. Cattlemen make their appointments for meeting of the other business men at the Merrill and are shown all special consideration by the management.

This building is a two-story modern brick containing fifty-two rooms, all of which have hot and cold water connections and steam heat. Fourteen rooms are furnished with bath fixtures.

Under the present management, the owners who are substantial business men of our city are contemplating improvements on the lobby of the hotel with tile flooring; improving the heating and plumbing to keep up the high standard of the hotel and keep it a credit to our growing city.

The location of this hotel in our city makes it the most desirable for transacting of business by visiting parties or home people. Inside of the Lobby of the hotel is a news stand which keeps a good line of the best daily newspapers and weekly periodicals that are to be had anywhere. There is also a barber shop in this building and one of the best equipped in our city.

In addition to the ordinary service rendered here, the Simpson Transfer Co.'s bus serves incoming and outgoing trains, taking passengers to the depot and receiving them. Mail for the guests is carefully handled, being mailed out on the first train.

The hotel is conducted on the American plan. Rates \$3.25, with bath, \$3.75 per day. The management is courteous and do everything in their power to insure to the visitors of our city a comfortable place to stay, giving the best of meal service in the large dining room on the lower floor.

This hotel with its present spacious lobby will always be the Mecca of the commercial man, ranchman and the land-seeker, the reputation that it has always enjoyed since its opening.

Stop at the Merrill Hotel when in Lubbock.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package. E-75

MAYOR ISSUES THANKS-GIVING PROCLAMATION

I, C. E. Parks, Mayor of Lubbock, by the power and authority vested in me, and in accordance with the desires of Governor Hobby, of Texas, and of President Wilson, of the United States, do hereby proclaim

Thursday, November the 27th, as Thanksgiving day, a legal holiday. Further, in view of the fact that the United States is at peace with the world at large and prosperity reigns. And with the bountiful crops in our immediate community, we are particularly favored, we respectfully ask all to observe this Thanksgiving Day as a day of worship and prayer.

Let's observe this day as closely as possible to conform to the wishes of those gone before us who established its customs.

Given under my seal of office.
C. E. PARKS,
Mayor of City of Lubbock.

I wish to announce for the safety and benefit of the public, who may be confused, that I have passed Texas Medical and Surgical Board and Missouri Osteopathic Board. And that the Osteopathic Physicians are the only drugless physicians who are qualified to practice legitimately in the State. Chronic diseases given special consideration. Complete physical, chemical and microscopic examinations made. I am equipping a separate office for electrical light and heat therapeutics. Dr. Wade M. Lockman, Osteopathic Physician, Phone 67, Burrus Bldg. 211

Panch Arnett, manager of the North Spade ranch was in town the latter part of last week. Mr. Arnett suffered a very painful accident recently when a horse fell upon him, bruising his shoulder and legs and breaking one arm. Mr. Arnett was unconscious for some time after the fall. He is getting along fine now and is able to get around, but very lame.

Roy Griffith is in Big Spring this week visiting with homefolks.

REPORT OF THE KANSAS CITY MARKET MONDAY

Fairly liberal receipts of cattle sold at steady prices. Good fat cattle were scarce and sold rapidly. No prime grades offered. Feeder demand was large. Less than 4000 cattle, the smallest supply since early in August was carried over from last week. Hog prices were sharply higher, under urgent demand from both packers and shippers. Sheep and lambs found a ready outlet at 25 cents higher prices.

Today's Receipts.
Receipts today were 34,000 cattle, 11,000 hogs, and 8000 sheep, compared with 35,000 cattle, 14,000 hogs and 9000 sheep a week ago, and 36,775 cattle, 20,800 hogs, and 4000 sheep a year ago. New Mexico contributed the largest supply of cattle thus far this season. Other range cattle came from Texas, Colorado, and Idaho.

Beef Steers.
A good many warmed up steers sold at \$14 to \$16, on fully steady with last week. Thick fleshed grain fat steers were lacking, and have been for some time past. Grass fat steers sold mostly at \$9.75 to \$13.50, tops up to \$14. Killers are getting less good beef than a year ago. The purchases of medium to fair kinds are large. Fewer grass fat cattle will arrive this week than last, and an abrupt falling off is expected in the movement next week. Cows are selling at \$5.25 to \$12.25. Those \$11.50 are fed grades and those below \$6.00 are "caniners." Veal calves are firm at \$9 to \$17.

Stockers and Feeders.
Demand for stock and feeding cattle which slackened the middle of last week owing to rough weather revived today, and prices are firm compared with a week ago. A large number of visitors to the American Royal Cattle Show are buying this week. Feeders good to choice are quoted at \$10 to \$14. Those above \$12 carry considerable flesh. Stockers are selling at \$7.50 to \$11.25.

Hogs.
Hog prices today advanced 25 to 40 cents, and the market here ruled higher than elsewhere. The top price was \$14.90, and the bulk of the hogs sold at \$14.40 to \$14.80. Most of the urgent demand came from packers, though shippers bought freely also. Pigs and thin hogs found a ready outlet to feeders at \$13.50 to \$14.50. Receipts continue moderate for this season of the year.

Sheep and Lambs.
In receipts of 8000, only a few loads of range sheep and lambs were offered, indicating that the range movement is about ended. Native lambs sold up to \$14.75 and yearlings up to \$11.75. They were 25 cents higher. Plain lambs at \$14.25 to \$14.50 showed a similar advance. Feeders are quoted at \$12.50 to \$13.25.

"DANDERINE" PUTS BEAUTY IN HAIR

Girls! A mass of long, thick, gleamy tresses

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the famished hair roots, revitalizing and invigorating every hair in the head, thus stopping hair falling out, or getting thin, dry or fading. After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness. A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.

WHAT THE SCHOOL CHILDREN DID IN 15 DAYS

A close estimate compiled by the different grades in school this week gives some startling figures showing what the children did during the fifteen days vacation given to them to help the farmers of our county gather their cotton crop. The following figures tell whether or not the time lost in school was valuable to the community:

Estimated wages received by all pupils from the cotton farmers, \$7,000.00. Based on \$3.00 per hundred pounds of picked cotton the children gathered 233,333 pounds of seed cotton; one hundred and fifty-five bales, based on fifteen hundred pounds of seed cotton, at a value of \$31,000 to the farmers of the community served by Lubbock.

BALE OF COTTON SELLS AT 75 CENTS A POUND

Clarksville, Tex., Nov. 14.—A bale of cotton was sold here yesterday at 75 cents a pound. It was raised by a negro. This is the highest price ever given on this market.

Cotton Prices to Producers. Address to People--Insure, Market Slowly

To The Bankers.
You said reduce the acreage; your advice and the abandonment of much planted land, lack of labor to plant, cultivate and harvest, rains rotting grown bolls and lint in the field, boll weevils, boll worms, leaf worms, root rot, drouth, floods and frost, combined, will limit production to less than a ten million bale famine crop.

The world is bare of cotton. It would consume 15 million bales profitably after paying 50 cents per pound for it.

When cotton producers got \$25.00 per bale that was all they could deposit. Now with your partial support last year and this, the farmers who have held their cotton can deposit eight times that amount per bale of foreign money with you. Your profits are limited only by volume of deposits. True, farmers are paying their notes, but with expansion of business through use of abundant capital you can always find borrowers. Your wealth has been created from labor and lands of the farmers. They have confidence in our banks and will act on your advice,

vice, therefore you are to some extent morally responsible in this instance for their financial success. So we emphatically, earnestly and urgently request that all of you advise the farmers to hold their cotton, shelter, insure and market slowly. The immediate and steady result will be that the growers will receive a price somewhat nearer cost of production.

There is not a chance for loss of a cent, but certainly of incalculable profits to you, and through general prosperity of the farmers, which adds to the possibility of a crop for next year, whose profits you will share.

We hope for decisive action by you to utilize your influence and financial power for the benefit of all.

To The Merchants.
This cotton has cost the producers more than 44 cents per pound. The farmers are your customers—and friends. The banks will carry you ninety days longer, with profit to themselves, to you and the farmers. Help hold, shelter and market slowly.

To The Farmers.
During the year 1917, the Texas Department of Agriculture advised

you to hold your cotton and market slowly, and you would get 30 cents for it. Those of you who followed that advice, realized 30 cents a pound and over, for cotton which would have been sold for 20 cents or less without that counsel and your action on it.

Last year it said 35 cents with the same results. We boldly advise the only thing necessary to get 45 cents a pound and up, for all good cotton is for you to hold, shelter and market slowly, as the Department has again advised. If you owe money, consult your banker. Let him know that your cotton is sheltered, insured and subject to his order. Not one banker in a thousand will fail to carry you cheerfully. If your banker is the exception and demands his money, wire the Commissioner of Agriculture at Austin for the name of a bank which will furnish you credit on your cotton.

To those farmers who are not in debt we appeal not to dump your cotton to the gamblers' prices, and break the market for those who hold. If prices begin to fall, quit selling. Let the world see that we will stand together to obtain a fair price and the victory is won.

Respectfully signed, your fellow-citizens:

Chas. B. McCalfe, Cotton Grower, San Angelo, Texas.
J. W. Johnson, Vice Pres. Central Nat'l Bank, San Angelo, Texas.
J. G. Murphy, Editor, San Angelo Standard, San Angelo, Texas.

G. H. Alford, Editor, Progressive Farmer, Dallas, Texas.
D. E. Lyday, President Farmers Union.
W. B. Yeary, Cotton Specialist, Dept. of Agriculture.

In connection with my signature to the foregoing, I wish to give credit to the Farmers' Union, to the Warehouse and Marketing Department, to the State Bankers' Association, to the Retail Merchants' Association and others for their assistance and support in the cotton campaigns of 1917-18.

Signed:
FRED W. DAVIS,
Commissioner of Agriculture.

I have signed the foregoing statement because I heartily endorse any movement having a tendency to bring about increased returns to the producers of the South. I do not assume to have a personal knowledge, nor am I in a position to determine personally the cost of production. Therefore I do not sign this statement with regard to the facts stated as to the cost of production, nor am I in a position to assure the public that action upon the part of the producers, as advised by the Department of Agriculture or others, was the direct cause of the realization of increased prices during the years of 1917, 1918, although I heartily commend the Department of Agriculture for the advice given, nor can I give

HOGS FATTENED ON BARLEY, CORN AND ALFALFA

More than two thousand hogs were being fed in July on eight Atchison County farms visited by a member of the Extension Service of the University of Missouri College of Agriculture. The hogs had the run of alfalfa and clover pastures and received a half ration of corn during early summer. About the middle of the month they were started on full feed of corn and tankage in self-feeders. Three hundred hogs from one of these herds were shipped out in July. They had made an average gain of 1.4 pounds a day for the last thirty days. Equal parts of ground barley and ear corn had been used to supplement the alfalfa pasturage.

LUBBOCK WILL HAVE FOUR COTTON GINS NEXT YEAR

Sidney Webb, capitalist of Mineral Wells, closed a contract here recently for a gin site, the gin to be erected and ready for operation before the next cotton ginning season. A site has been secured east of the railroad track, directly across the street south of the Lubbock Grain and Coal Co.

Mr. Webb has several gins over the South Plains country, one at each of the towns of Crosbyton, Ralls and Lorenzo and is reputed to be a large land holder in Crosby county. It is the intentions of Mr. Webb to build a large gin here embracing the latest machinery.

It begins to look now as though Lubbock farmers will be served well in this line of business the coming season.

HAMLIN IS FACING MISERY FROM COLD

The coal situation in this little city is indeed serious. So serious that this week the first tie-up of business has taken place. The public school was compelled to adjourn Tuesday for lack of coal to warm the house. Many residences have only a little coal left from last year's supply. The norther of Wednesday has brought the true situation home to our people. It is going to become alarming if the coal does not begin to move. Wood might be had if the railroads would deliver when it is loaded in the eastern part of the State.—Hamlin Herald.

C. H. GROLLMAN & CO.

The above name is significant in view of the position that the company has attained in its present height of esteem, in the four years since its establishment. This company is also known as the "Leader" under which name it commenced and did business for some time. The Leader was established here in 1916 in the Phillips building on Post Office Street. This building occupied a space of 25 by 125 feet. Today we find the firm of C. H. Grollman & Company in one of the finest, two-story, modern brick buildings of our city, on Broadway. The move was made only because the growth of the business demanded larger and more up-to-date quarters. January 1917, the Leader which was established by Grollman and Bender, was incorporated with a capital of \$50,000. Mr. Bender quit the business however, before the incorporation was perfected. C. H. Grollman is President and Manager; W. L. Barnes, vice-president; B. L. Wright, secretary-treasurer; two stockholders live in the East and are engaged in other business.

Here is a business house that is called by traveling salesmen "the best and most up-to-date dry goods establishment west of Fort Worth." This is remarkable in view of the fact that in 1915 when the business was started here, they only had a small capital. But it is only by the methods used by the management and the strict attendance to the business at hand with a careful study of the markets that this business has reached its present height. C. H. Grollman believes that only one price to every person is the only fair and just way to do business. Prices are marked plain on the goods at a margin consistent enough that "cutting of prices are not made." The latest equipment, such as the basket system, the measure-graph (a device that measures accurately every piece of goods sold and computes the price) and many only like things that tend to make for efficiency, are noticeable here. Mr. Grollman also believes in advertising and backs his advertisements with deeds. By this method people appreciate sale-dates and other features advertised by this firm. He makes three or four trips a year to New York markets and buys the latest styles at the closest prices obtainable, thus he keeps the store stocked with the right goods.

The store has many features that contribute to make it the best in the section served by Lubbock. Well known and highly advertised lines are kept there that the public recognize as the best. The balcony of the store where ladies ready-to-wear goods are kept, the different departments in charge of experienced parties, are some of these features. The ladies ready-to-wear goods are in charge of Miss Delia Wilkinson. The Millinery Department featuring Vogue styles is owned and managed by Mrs. C. D. Swift and Miss Martin. Miss Rhea and Miss Thomas are in charge of the piece goods and other shelf stock. Mr. Kimmel is in charge of the men's furnishing, shoes, etc., (he can be found almost anywhere in the store where he is most needed). B. L. Wright is in charge of the bookkeeping department.

This store handles the well known lines such as Betty Wales dresses, Society Brand Clothes, Hannan Shoes for Men, Krippendorf & Ditman shoes for Ladies; Stetson Hats and Gloves, Royal Society, Art and Embroidery goods, Roseknit Ladies Sweaters, Cupid Twins for children, Beal Pratt shoes for men, Head-light Overalls for men, Martha Washington and Lord Baltimore Clothes for boys, and Ladies Home Journal Patterns, besides the many other numerous brands that are recognized as the best for the money.

These are just a few of the good things that could be said of the progressive firm of C. H. Grollman & Company. This company shared with all the business houses and citizens of West Texas in the three years drouth just passed, yet they are here with the goods and the consistent prices, the extra service, management. The history of this company can not be written thoroughly as it deserves, but most all of the South Plains people know the methods of business done and the record this company has made since they came to our city that has given to them the enviable position of "The Store of the Plains."

GOVERNMENT TO FORCE STRIKE SETTLEMENT

Washington, D. C., Nov. 18.—The government stepped to the front today to force miners and operators to negotiate a new wage agreement and resume work in the bituminous fields before the country is in the grip of a coal famine.

Clothed with all of his war-time powers as fuel administrator, and acting by direct authority of the president's cabinet, Dr. Harry A. Garfield called a joint meeting of the scale committees, at which he was expected to give formal notice that the time had come to resume mining operations on a normal scale.

The joint conference will be held tomorrow. Meanwhile word was passed that the strike situation had reached that point where action was regarded as absolutely imperative.

There was no evidence, as presented to the cabinet, that the scale committees, called last week to negotiate a new wage agreement, had made any headway.

Reports from the central competitive fields, embracing the states of Illinois, Indiana, Ohio, and western Pennsylvania, strongholds of the United Mine Workers of America, showed all mines shut down and not enough coal coming from non-union plants to meet the normal demand by several million tons. Other reports from widely separated sections brought the same story of a rapidly vanishing coal supply, with indications that hundreds of industrial plants would be forced to close shortly unless coal production was put back to normal. In the view of many officials the situation was critical enough to demand drastic action.

Although he would not discuss the nature of the statement he was prepared to lay before the operators and miners, it was stated on high authority that Dr. Garfield was prepared to present the situation forcibly to the chief representatives of the mine owners and mine workers.

The operators' scale committee sent word to the miners that it was not ready to meet them in joint session. Commenting on a statement issued tonight by their executive committee denying that the conference "is being held up because of difficulties and indecisions on the part of the operators," spokesmen for the operators declared their policy has been under consideration in their secret sessions.

The probable attitude of the administration and the fact that the miners have not returned to work were said to be the principal subjects which have occupied their time. The failure of the United Mine Workers of America to tell the men to return to their jobs was said to have left the negotiations in virtually the same state as when the threat of a strike caused the break-up of the Buffalo meeting.

The action of Governor Allen in throwing Kansas mines into the hands of a receiver admittedly was causing operators much concern. Harry N. Taylor, president of the National Coal association, and Fred W. Lukins of Kansas City, president of the Southwestern Coal Operators' association conferred with assistant attorney general Ames with respect to "legal phases" of the situation.

Mr. Lukins telegraphed Governor Allen that his organization was ready to make wage scales, which may be adjusted later, retroactive to the date on which the miners return to work. Operators, he said, will meet with the union officials of district No. 14, embracing all Kansas, for discussion in the new wage contract, immediately after the conference here is ended.

"If Governor Allen can get the miners back to work, that's fine," said Mr. Lukins, who added that the operators would be justified in seeking an injunction in the federal court if the governor gave them bonuses to return to work.

LOCAL CIGAR FIRM DOES BIG PARCEL POST BUSINESS

A small idea of the magnitude of the distributing business done by Lubbock Wholesalers, and the extent Lubbock is regarded as a center can be appreciated when it is known that one of the youngest wholesale houses of this city, The Panhandle Cigar Company, one day recently sent out forty thousand cigars by parcel post. Many shipments are being made by this method while large shipments sometimes are sent by freight.

Mrs. A. S. Harper has recently accepted a position in the city secretary's office as assistant bookkeeper.

EAST TEXAS HAS POOR CROPS AND PLENTY OF HELP

Sheriff John Bond has returned from a trip to Ruak and reports poor crop conditions in that section of the State.
"The farmers in many parts of East Texas will not make over fifty or a hundred pounds of cotton to the acre," said Mr. Bond.
He also declared that there are hundreds of negroes in that part of the state who are apparently doing nothing.—Abilene Reporter.

LIEUT.-GOV. JOHNSON MAKES SHORT VISIT HERE

Lieutenant-Governor W. A. Johnson, editor of the Hall County Herald, of Memphis, was here recently on a short visit. Mr. Johnson is a member of the governing board of Sub-Experimental Stations and his trip and visit here was to inspect Lubbock county's station. He spent two days visiting in the city and with R. E. Karper, manager of the Lubbock County Experimental farm.

Harry N. Stone, editor of the Seminole Sentinel, was here one or two days this week receiving medical treatment in a local sanitarium. He returned home Wednesday morning.

LADONIA PARTIES SECURING RANCH INTERESTS HERE

O. L. Merrill and son, Hendrick, are here this week closing a deal for a small ranch in Lubbock county. Mr. Merrill purchased a section of land from J. A. Barton and also leased an adjoining section. He purchased 116 head of nice Hereford cattle which he will stock this pasture with. M. T. Warlick will manage the ranch. Hendrick Merrill, a cotton dealer, will move here in the near future to make his home in our city.

J. E. Shelton, real estate dealer of Brownfield, was in town one day this week looking after his business interests.

WOOLWORTH 5c AND 10c STORE LOCATING HERE

Voicing an opinion in accord with the predictions of large business firms who have staked their all on the future of Lubbock, L. C. Snyder, Superintendent of Woolworth stores in Colorado, New Mexico, Oklahoma and Texas, after closing a contract for a location in our city, by stating that geographically, Lubbock is the "tap root of the South Plains, the most wonderful section in the Southwest."

Not only does he say and think this, but is backing his judgment very strongly when it is known that this large firm—operating more than one thousand stores in the principal cities of the United States, ranging in population of ten thousand on up with only two or three exceptions—by leasing at a rental considered enormous and securing an option on a building here for five and ten years. This progressive and growing firm will establish this business here as soon as the building in question has been made complete for occupancy.

The lease was made on a building 25 by 125 feet, one-story, modern brick with a basement extending the entire length of the lot, to be erected by Roscoe Wilson, on his lot on West Broadway—recently made vacant by Shropshire's racket store and now occupied by Stockton Henry's racket store. This building, besides including the uniformly beautiful and artistic front as other buildings of the firm, will be built with steel shutters from the exterior of the building extending to the basement. The interior will also be furnished artistically, embracing all the modern conveniences such as lavatories, toilets, etc. It will be heated by a furnace. When the building is complete it will cost approximately \$14,000. Construction will not be started until the first of April on account of the owner having leased to another party the building now on the lots. Upon the expiration of this lease, construction will start immediately.

Mr. Snyder has great hopes and regards with enthusiasm the possible growth and future of our city. This is readily seen when he stated that within the coming five years, "Lubbock will be a city of not less than ten thousand—with prospects bright for more. This because of the railroad facilities, backed by a wonderful productive, but undeveloped territory."

One of the strongest rules of the company was broken when the lease was made here on account of the population being less than ten thousand,

MORE NIGHT OFFICERS NEEDED HERE IT IS THOUGHT

The recent depredations of thieves and other villainous characters in our city during the past few weeks has brought about considerable comment and investigation of the police forces of our city. It is the opinion of some of our faithful officers who are watching day and long into the nights, that the present force is not adequate to give needed protection to the property of our city.

"There are a great many more people in our city this fall than any time during the past few years. Many of these are farm laborers, such as cotton pickers, etc., that are mostly transient," says one of our present officers, when consulted on this important subject, and continued by saying, "that the extent of property, such as business houses, cotton yards, railroad yards, warehouses, wholesale houses, and other like businesses of this city are so numerous and scattered over such a large territory that it is practically impossible for one person to give the needed protection to these without leaving the thick business section without protection."

Present prospects promise a large increase in the population of our city the present winter, and the most of these will probably be transient laborers.

day of October, A. D. 1919, in a suit numbered on the docket of said Court, No. 1275, wherein Mattie Mimms, is Plaintiff and B. M. Mimms, is Defendant; the nature of plaintiff's demand being as follows:

That plaintiff has been an actual bona fide inhabitant of this state for more than twelve months, and has resided in this county for more than six months.

That the plaintiff and defendant were lawfully married in Martin County, Texas, on December 30, 1906.

That the defendant, the said B. M. Mimms, left the plaintiff on September 23, 1915, with the intention of abandonment, and has abandoned her for more than three full years prior to the filing of this suit.

Wherefore, Plaintiff prays that defendant be cited to appear and answer this petition, and that she be granted judgment dissolving the bonds of matrimony existing between plaintiff and defendant, and that she be divorced from the defendant, and for such other and further relief, general and special, in law or in equity, to which she may be entitled, etc.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

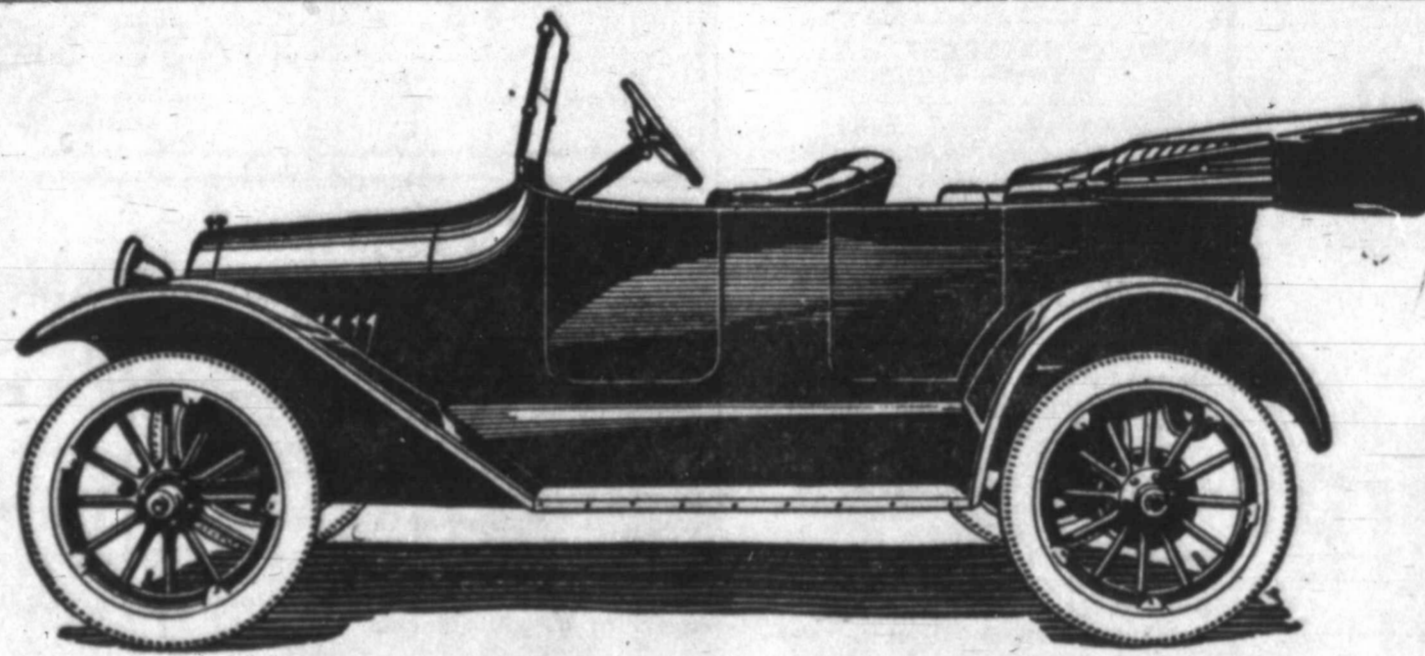

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

W. E. TAYLOR TAKING ANNUAL HUNTING TOUR

Walter E. Taylor, local architect, left last Sunday morning for Frio Rivers about one hundred miles west of San Antonio, where he will spend his annual fifteen days hunting trip. Mr. Taylor's last trip into this territory was greatly enjoyed, having found game very plentiful. A picture of some game killed on his last year's trip will verify that it was successful. The picture which Mr. Taylor showed to us was of two large bucks and nine wild turkey. Mr. Taylor will be joined by Frank Vaughn, also of this city on his arrival at Frio rivers.

HOME DEMONSTRATION DEPARTMENT

Poultry Culling Demonstration. On Saturday, November 22, Prof. F. W. Kazmeier, Poultry Husbandman of the Extension Department of the A. & M. College, will be in our county for one day only. Many of you have heard Mr. Kazmeier on his previous visits to the county, but only a few of you have attended one of his Poultry Culling demonstrations. Next Saturday he will tell you, and show you how to pick out the good layers from the poor ones, not only that but will give you an opportunity to show your own ability in this matter. If you keep five chickens or fifty it would pay you to attend this demonstration and learn how to keep chickens at a profit instead of a loss as many are doing. Do not feed the chicken that is not earning its keep, I have records of several women in the county who are keeping poultry at a profit, as their carefully kept records will show. How do they do it? Mainly by constant culling and proper feeding of their flocks. Mr. Kazmeier tells us of an instance where he picked out fifty of the best layers from a flock of 349, had the man keep the two flocks in separate pens and the following month the fifty hens produced more eggs daily than the three hundred and ninety nine. Can you afford to keep chickens at a loss from year to year? Would it not be better to turn the tables and let the chickens keep you? Proper culling and a balanced ration will do more for the poultry industry in Lubbock County than anything else I know of. Mr. Kazmeier will give a demonstration at the home of Mr. Frank Bowles, two miles north of Lubbock, beginning at 9:00 o'clock Saturday morning, and will give another at the home of W. P. Florence at Slaton, beginning at 2:00 P. M. Saturday. These demonstrations are entirely free, and men, women and children, especially all the Club members are urged to attend.

Sincerely,
MILIE M. HALSEY,
Home Demonstration Agent.

ITEMS OF INTEREST FROM THE SLATONITE
Clarence Hannan, aged eight weeks, infant son of Mr. and Mrs. C. B. Smith of this city, died last Friday in Wichita Falls, while the family was there on a visit to Mrs. Smith's mother, Mrs. G. W. Campbell. The little fellow was sick only two or three days. The remains were brought to Slaton, and the funeral was conducted at the Methodist church by Rev. T. C. Willett at 11:30 o'clock Sunday morning. Burial followed in the Slaton Cemetery. The Slatonite joins a host of friends in extending sincere sympathy to the parents in their sad bereavement.
Mrs. A. L. Robertson of V-Ranch, received a telegram Saturday announcing the death of her father, B. Grigsby, at Elkhart, Anderson County, that afternoon about 5 o'clock. She left immediately for Elkhart to attend the funeral. She was accompanied by her daughter Muff, and her sister, Mrs. Ernest Bryan, of Sweetwater. Mr. Grigsby was about 80 years old and was one of the most highly esteemed and respected citizens of Anderson county. The Slatonite joins a host of friends in extending sincere sympathy to Mrs. Robertson in her sad bereavement.

WICHITA VALLEY BRAKEMAN MEETS DEATH AT ANSON

Anson, Texas, Nov. 15.—W. H. Fairington, about 37 years of age, brakeman on the Wichita Valley Railway was killed while working on a dead locomotive here last night. Fairington was leaning over the connecting bar of the drive wheels and a live engine connected with the locomotive on which he was working moved up and he was drawn into the wheels.
No one was on the locomotive when it unthrottled itself and began moving on the track. The deceased head was crushed, legs, shoulders and ribs broken. The body was shipped to Wichita Falls Saturday morning and will be sent to Vernon, the former home of Fairington.

BAPTIST PARSONAGE NEARING COMPLETION

The home of the Baptist minister of this city, which is being erected on West Broadway is nearing completion. Work has been going on regularly despite weather conditions. It is thought that this beautiful residence will be completed by the first of the coming month.

R. R. OFFICIALS INSPECTING PROGRESS OF SOUTH PLAINS

A trip of inspection of the growth and development of the wonderful South Plains section was made recently by officials of the Santa Fe Railroad Company. This progressive road is keeping in direct touch with conditions of this country by making trips over this section. The following men were here two or three days, Sunday and Monday of this week: R. J. Parker, Vice-President of A. T. & S. F., of Amarillo; T. H. Sears, General Manager of A. T. & S. F., of Amarillo; F. J. Mackie, Division Superintendent of Slaton division; C. C. Dana, general passenger agent of Amarillo; G. W. Harris, Chief engineer of the Santa Fe Corporation, of Chicago and the man that constructed this road over the Plains country; E. J. Engel, assistant to the president of the A. T. & S. F., and J. H. Keefe, member of the Santa Fe Corporation and formerly director of operations of this road.
"Great are corps of this thriving country," says Mr. Parker, and "what a change that has been made since Mr. Harris constructed this road."
The trip was only for inspection, we were informed by these men. They are wishful to provide the territory served by them with the best of railroad service and facilities. "No extension or provision of more facilities is contemplated at the present, however, we are investigating with the intentions of providing these things when the necessary and appropriate time comes."
No information was obtainable regarding proposed extension of the service which has been rumored here lately. It is practically an assured fact now that plans are in course of making to operate a two-way daily passenger and mail service from Crosbyton to Seagraves. We are led to believe this service will be started in January or before. This is one of the necessities which traffic is demanding of the progressive Santa Fe railroad which we can be assured will do everything in their power to help the development of the country served by them.
The officials visited over the Seagraves and Crosbyton branches and spent the night in our city Sunday, leaving Monday morning for Clovis, N. M.

LT. BUCHLY OF EL PASO HERE AFTER RECRUITS

Lieutenant W. E. Buchly of the 8th Cavalry, stationed at Fort Bliss, El Paso, Texas, arrived in our city this week for the purpose of securing recruits for different branches of the army and especially the 8th Cavalry.
Lt. Buchly states that this branch of the army at El Paso have the very best of barracks, heated with steam and other like conveniences. One of the inducements which they are offering in this service is that a certain amount of each day is given over to the soldiers to be used by them in studying. Grammar and High School studies are taught there and a motor school is also maintained.
Lt. Buchly left yesterday for points south.

CALIFORNIAN "DON'T CARE IF DROUTHS DO COME HERE"

"It don't matter to me," says Dr. D. C. Rumph of California, who has been business interests, "if the South Plains has drouths and land values fall to half of present values, a hundred dollars an acre will not buy my Lubbock county farm."
Dr. Rumph has a nice farm here and was offered \$100 per acre cash while here recently. He left last Sunday morning for his home in Orange, California.

HALF MILLION SHEEP TO COME TO TEXAS SOON

Five hundred thousand head of Wyoming sheep have been brought down out of the mountains and are now in the foothills of that state being fed on cottonseed and alfalfa while waiting for cars to bring them into West Texas, according to Judge J. E. Cunningham, who has returned from Amarillo, where he conferred with Texas and Wyoming men regarding pasturage for the sheep.
A bunch of 6,000 sheep landed at Amarillo this week and were readily placed on Texas grass. Judge Cunningham did not succeed in getting any of this bunch for Taylor county pasturage, but expects to bring in about 3,000 head soon. —Abilene Reporter.

FREIGHT RECEIPTS NOW GREATER THAN EVER

The year 1917 was the record breaker for Lubbock freight receipts. That year more than one-half million dollars was paid here for freight purposes. 1918 conditions were a great deal below normal and the figures for that year were a little less than 1917. Officials of the road with whom we have talked the past week, state that this year will be the

HIGHEST QUALITY AWARDS

COMMUNITY FAIR SUCCESS—PROVES EDUCATIONAL VALUE

The first Community Fair of Lubbock county, promulgated through the efforts of the Home Demonstration Agent, Miss Millie M. Halsey, and held at Shallowater school building last Saturday afternoon by the Shallowater-Hardy Conservation Clubs, in conjunction with the Shallowater school, was a successful affair, more so than expected by Miss Halsey. It is the plans of Miss Halsey to hold these community fairs in each community of the county during the coming year. The purpose being for arousing more enthusiasm among the contestants of the various communities in order to better the work done by each; to select the best products or the winning products of the various fairs to be held in order that the best from each community will be entered into the County fair.

Shallowater-Hardy Conservation Clubs' first fair was indeed a great success in points for which it was its purpose. It was generously participated in by the Shallowater school, which also had display booths, and by the progressive people of this thriving community. Approximately 500 various articles were shown in displays. Six booths in all were maintained last Saturday. Three of these were for the Grammar, High School and Primary Departments of the school and three by the Conservation Clubs. Prizes were awarded—ribbons the only prize offered. It is not the purpose of these fairs to be a source of money prizes, but only educational.

Messrs. Karper, Thompson and Briggs, of Lubbock, Miss Halsey, of Lubbock, and Miss Bessie Parker, of Slaton, home economic teacher of the Slaton school were all present last Saturday afternoon to help in every way possible the rendering of this program. Mr. M. M. Dupre, superintendent of Lubbock City School was present at Shallowater Saturday and addressed the visitors along educational lines.

The display booths consisted of school work, agricultural products, canning and preserving products, fancy work and relics. Mr. Karper and Mr. Thompson were the judges of the poultry and farm products. Miss Parker was judge of women's products. Mesdames Mitchell and Pool of the Hardy School and Briggs of Lubbock, were the judges of the school work.

These fairs will be one of the best sources from which the whole community will receive direct educational work.

HEALTH

Pneumonia in the Aged.
One of the most serious and dreaded of the few acute diseases to which the aged are liable is pneumonia; indeed, it ranks with heart disease and apoplexy as one of the most common causes of death among persons over seventy years of age. Unlike the disease of the same name that affects younger persons, it usually is not contagious or infectious. The old, in fact, are almost immune to infectious diseases; even the universal cold in the head is comparatively rare among those very late in life.

Pneumonia is either primary, when it occurs suddenly in a person previously in good health, or secondary to some preexisting chronic disease. Primary pneumonia is an acute inflammation of the lungs, and it follows a sudden fall of outdoor temperature or an exposure to cold and wet. A number of cases of pneumonia among the aged often accompany or follow an extreme cold wave in the winter, even though the victims have not been directly exposed to the low temperature. The disease begins insidiously, so that the patient often does not confess to feeling really ill until the disease is fully established. He then complains of headache and is likely to suffer from nausea as well as shortness of breathing and a feeling of constriction in the chest. Persons who are greatly debilitated are unable to breathe as deeply and rapidly as the diminished lung space requires; consequently the insufficient aeration of the blood is manifested by a general blueness of the surface of the body. There is an increased excretion from the lungs, which the strong cough up, but which the very weak retain in the bronchial tubes until they drown in their own fluids.

In the secondary forms of pneumonia in the aged the symptoms are often very indistinct and are accompanied by few or no signs sufficiently marked to indicate that the lungs are involved. The most marked indication of lung trouble in such cases is the increased rapidity of respiration. Whenever an old person who is ill with any malady is observed to be breathing more rapidly than usual, one should suspect secondary pneumonia.

The treatment of pneumonia in the aged should be directed especially to sustain the strength. Only by depressing the vital resisting powers and by taxing the heart already weakened by age and overwork does the disease kill its victim. If the heart can be sustained and the bronchial tubes can be kept from filling up with secretions, the pneumonitis will disappear of itself in course of time. Old people may recover from two or three attacks before the end comes.

POTTER COUNTY WILL WORK ALL HIGHWAYS

Amarillo, Nov. 15.—Potter County Commissioners have announced that all highways passing through this county would be given consideration over the regular public roads when work is begun. The State highways include: The Ozark Trail, the Colorado to Gulf Highway, the Florida to Colorado Highway and the Postal Highway.

Seven hundred and fifty thousand dollars will be spent on Potter County roads during the coming year, and almost \$500,000 on the streets in the city of Amarillo.

NEWS ITEMS OF INTEREST FROM IDALOU

Our school began October the 20, in the new adequate building and is progressing nicely. The outlook for this term is very promising.

The school organized a Glee Club November the second. Mr. C. W. Beene was elected as president and leader. Miss Bessie McCurdy was elected secretary and correspondent.

The Idalou school has been adjourning at 2:15 o'clock every afternoon since last Thursday in order that the teachers and pupils may help the Idalou farmers pick their cotton.

Rev. Bentley, of Abilene, held services at the Christian Church Saturday night, Sunday at 11 a. m. and 7 p. m.

Miss Martin and Miss Page spent the week-end at Lubbock.

Sunday afternoon singing was enjoyed by all. Several songs were led by Mr. C. W. Beene, who also gave a short interesting talk. We sing every first and third Sunday afternoons. We have singers you ought to hear. Everybody come.

A. V. Taylor, Terry county farmer, was in town the first of the week transacting business.

THEY call me "The Satan of the Screen." That's because, in "BLIND HUSBANDS," I play a polished villain in the only way a villain should be played—to make you hate him! But if you're a woman, I don't think you'll hate me—you'll only be fascinated—because I know so much about you! You'll know that I know how to show wives when they're neglected—how to win their affections—how to place them where they'd finally be at my mercy. And though you'll stoutly deny that the wife in "BLIND HUSBANDS" is to blame, you'll sympathize with her longing for love and you'll lay it all at her husband's door—and mine. If you don't, you're a very unusual woman—just as "BLIND HUSBANDS" is a very unusual photodrama. Come and see. You'll have the most tremendous hour you've ever had at any moving picture. Now playing. BROWNFIELD GIN SERVING LARGE TERRITORY

According to W. W. Price, county judge of Terry county, who was here a short time the first of this week, Brownfield's one gin is serving the largest territory in the town's history. Farmers from Dawson and Gaines counties and the eastern portion of New Mexico are hauling their cotton to Brownfield. For this reason the farmers there are experiencing some delay in getting their cotton ginned than at other places.

The gin at Brownfield was erected only a short time ago. Since its erection many acres have been planted to cotton. The gin is owned by the West Texas Gin Company and is modern excepting the power facilities. A movement is now taking foot in that city to provide electric light and power. This will probably be a matter of history in a few months.

WHAT THE LUBBOCK BAND IS DOING

Since the movement was started to organize a band in Lubbock, some people have inquired as to what was being done to develop the band.

Some two or three years ago there were a sufficient number of players in Lubbock to conduct a band without extraordinary effort, but the drought and the war scattered the players in every direction, and so it has been necessary to build the band up from the bottom. Mr. Bowron, the leader has been compelled to develop a large portion of the band talent from those who had no band experience.

The band, under the excellent supervision of Mr. Bowron, is practicing regularly, and given a reasonable length of time, an excellent organization will be developed. It takes time to train green players, and for this reason, Mr. Bowron has been unable to make a public appearance up to this time.

If the people who are backing this organization will be patient, the band will soon be in shape to play for the public.

Mr. Bowron states that more players are needed and if there is anyone in the community who either can play, or wishes to learn, if they will make themselves known to either Mr. Bowron, or Mr. A. M. Rankin, it will be of material assistance in developing this organization.

NOTICE BY PUBLICATION IN PROBATE.

THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, Greeting:

You are hereby commanded to cause to be published (in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your County) at least once a week for one consecutive week previous to the return day hereof copies of the following notice:

THE STATE OF TEXAS.

To all Persons Interested in the estates of Ruby Arnett and George M. Arnett Jr., minors, Mrs. George M. Arnett has filed an application in the County Court of Lubbock County on the 19th day of November, 1919, for authority to make and execute an oil and gas lease to J. E. Shelton of Terry County, Texas, on Survey 4, Block "T"; Surveys 88, 83 and 84, Block 4-X; and Survey 57, Block "T", all in Terry county, Texas, which said application will be heard by said Court on the 28th day of November, 1919, at the Court House of said county, in Lubbock, at which time all persons who are interested in said minors are required to appear and answer said application, should they desire to do so.

Herein Fail Not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Lubbock this 19th day of November, 1919.

LUBBOCK FARMERS TO ERECT \$20,000.00 GIN HERE

The two gins now operating in Lubbock are not sufficient to care for the cotton crop of this community. Every year sees a decided increase in the acreage planted to this crop and demands this year are greater than any time before. Both gins of Lubbock are said to be of the most modern machinery and furnished with complete equipment to do first class work in quick time. However both have been compelled to run night and day for the past several weeks. Every day there are now fifty or more wagons on the waiting list and the farmers are resentful of the time thus lost.

In order that the community served by Lubbock shall not experience the same for the coming year, a stock company, formed of farmers, is being organized and will have for its purpose the construction of a \$20,000 gin to be ready for use next season. The company will be formed of one hundred stock-holders each buying \$200 worth of stock. Plans are now on foot and the stock is being readily bought by the farmers and it is assured to us that only a short time will be taken up until the entire stock is bought.

HIGH SCHOOL NOTES

(By Mary Dickinson.)

The High School students have been turned out for two weeks to pick cotton. Everyone worked hard and a great deal of cotton was picked during that time. But we are all glad to get back in school. The Citizens' National Bank gave a War Savings Stamp to Gladys Davis, the girl who picked the most cotton and also to Carter Collins, the boy who picked the most cotton. The total amount picked by the High School was 102,487 pounds. Mr. Dupre is proud of the record and we are all glad to have been able to help the farmers.

Mrs. J. Gelin has organized a High School Choral Club consisting of about fifty members from the junior sub-junior and Senior classes. The officers elected were: Mary Dickinson, president; Ellen M. Blomquist, secretary and treasurer; Mrs. Sam Cole, pianist, and Mrs. J. Gelin director. Mr. Atkinson and Mr. Starcher will help in the training of the male voices. The club is just getting started and the work is slow, but with a little practice, we intend to render a musical program once a month. Rehearsals are held every Wednesday morning in the High School auditorium.

The football boys have resumed their work and are working hard to make up for lost time. They are expecting a game with Wayland College on Thanksgiving day. As this will probably be your only chance to see another football game this season everybody come out.

The Freshman class has enrolled a new student, Glenn Fay Grant. Miss Grant is from Lorenzo.

Frank Boyd of the Junior Class has moved to Midland, where he will enter high school.

All of the members of the sub-junior class have played to buy a War Savings Stamp with the money they made picking cotton.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Lubbock People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in this locality.

W. G. Shackelford, carpenter, Alexandria St., Plainview, Tex. says: "I had been troubled for some time with my back being lame and weak. The kidney secretions had been too frequent in passage and highly colored. The first box of Doan's Kidney Pills helped me and continued use made a cure."

NOTICE OF ELECTION.

Pursuant to an Order of the City Commission of the City of Lubbock, Texas, it is ordered that an election be held within said city of Lubbock, on the 1st day of December, 1919, at the Office of the City Secretary of the City of Lubbock, Texas within the usual hours; to determine whether or not bonds of the said City in the sum of One Hundred Thousand (\$100,000.00) dollars shall be issued, for the purpose of paving and permanently improving of streets within the said City of Lubbock; said bonds to be in denominations of One Thousand dollars each, to bear interest from date of issuance at the rate of not exceeding 6 per cent per annum, payable semi-annually on the First day of each December and First day of each June thereafter until such bonds have been retired, and if, at such election, it shall be determined by a majority vote of the properly qualified property tax paying voters voting at such election that such bonds shall be issued, that it shall be the duty of the City Commission of the City of Lubbock, Texas, to levy a tax sufficient to meet the interest, as it accrues upon such bonds, and to provide a sinking fund to retire such bonds at their maturity; said bonds shall be payable at Forty (40) years from their date, with the option of the City to retire all or any part of such issue at any interest paying time ten years after issuance, upon giving sixty (60) days notice

at the places of payment of such bonds of intention so to take up, and J. D. Wood, L. H. W. Terry, and H. K. Porter, are hereby appointed as Judges, and are hereby appointed as clerks of such election; and those favoring the issuance of such Bonds shall have written or printed upon their ballots, the words "For the issuance of \$100,000.00 paving Bonds and levy of tax to meet interest and sinking fund." and those opposing the issuance of such Bonds shall have written or printed upon their ballots, the words "Against the issuance of \$100,000.00 paving Bonds and levy of Tax to meet interest and sinking fund." And I, C. E. Parks, as Mayor of the said City of Lubbock, Texas, hereby direct that Notice of said Election be published for thirty (30) days immediately preceding the same in some newspaper published in the English language within said city, and has been so published for more than one year preceding the date of the first publication hereof, and also by posting up written or printed notice thereof at three (3) public places within this city. In Testimony Whereof, I have caused these presents to be attested by the City Secretary of the City of Lubbock, Texas, and the Corporate Seal thereof, this 28th day of October, A. D. 1919.
C. E. PARKS, Mayor,
City of Lubbock, Texas.
Attest: J. R. Germany, City Secy.
(Seal) City of Lubbock, Tex.

The following resolution was introduced, and upon motion, was passed:
IT IS ORDERED That a proposition be submitted to the properly qualified property tax paying voters of the City of Lubbock, Texas, at an election to be held at the office of the City Secretary of the City of Lubbock, Texas, on the 1st day of December, 1919, to determine whether or not bonds of this City shall be issued in the sum of Ten Thousand (\$10,000.00) dollars for the purpose of repairing, rebuilding and extending the waterworks system of this City, said bonds to be in denominations of One Thousand (\$1000.00) dollars each, to bear six per cent interest payable semi-annually on January 1st and July 1st of each year, due and payable at forty (40) years from date of issuance, with the right of the City to take up and retire any or all of said issue at any interest paying date after ten years from date of issue if a majority vote in favor of the issuance of such bonds, a tax will be levied to pay the accruing interest and create a sinking fund to retire such bonds at their maturity. J. D. Wood, L. H. W. Terry and H. K. Porter are hereby appointed to hold said election, which shall be held conformable to the laws of the State of Texas. Those desiring to vote in favor of the issuance of said bonds shall have written or printed upon their ballots the words, "For the issuance of \$10,000.00 water system bonds," and those desiring to vote against the issuance of such bonds shall have written or printed upon their ballots the words, "Against the issuance of \$10,000.00 water system bonds."

The Mayor of this City is directed to make and publish the proper notices of such election, in conformity to the laws of this State, by publishing and by posting up copies of this resolution.
THE STATE OF TEXAS,
City and County of Lubbock.
We, C. E. Parks, as Mayor, and J. R. Germany as City Secretary, do hereby certify that the above and foregoing is a true and correct copy of the Resolution passed by the City Commissioner of the City of Lubbock, Texas, October 28, 1919, relative to order for an election to determine if water system bonds in the sum of \$10,000.00 shall be issued by this City.
In Testimony Whereof, Witness our official signatures, attested by the Seal of said City, this October 29th, 1919.

Traffic in the railroad service of Lubbock is probably the greatest of any point served on the South Plains division. Monday of this week Mr. Davis, extra dispatcher of Slaton, was compelled to come to Lubbock to assist in the telegraph work. To know the magnitude of this work is only to know that for three hours the telegraph line was kept open and in use between Lubbock and Amarillo Monday. SOME LOCAL ITEMS FROM THE LYNN COUNTY NEWS

The sad news was received here Tuesday of the death of Mrs. Ben King, which occurred at Gorman, Texas, November 11th. Mrs. King's death was caused from a complication of diseases from which she had suffered several weeks. She leaves a husband and three children, two sons, Bonnie and George, and a daughter, Floyd, to mourn her departure from this life. The family accompanied the remains to this city, which arrived here Thursday afternoon, and were laid to rest in the Tahoka cemetery, the funeral services being conducted by Rev. L. L. F. Parker, pastor of the Baptist church, of which denomination deceased was a member. The sorrowing ones have the tenderest sympathy of the people in this community in the loss of a true wife and a kind and loving mother.

Tahoka can no longer boast of having hotel dining room eating service. This week the Tahoka and St. Clair Hotels closed their dining rooms on account of not being able to secure sufficient help. The St. Clair will continue to give cafe service which has been in operation for several months. The Tahoka will keep roomers, but will serve no meals. Many regular boarders at these places will be forced to secure meal tickets, or else learn to cook their own meals.

J. E. Stokes will probably leave the latter part of this week for Dallas and Fort Worth, where he will purchase a car of furniture and enter the furniture business in Tahoka.

Otus Reeves, real estate man of Plainview, was in town yesterday, on business matters. Mr. Reeves recently became owner of the Shook two-story building, now occupied by the postoffice. He stated to the News man that the building would soon be vacated by the postoffice and made ready for another line of business. This is one of the nicest buildings in Tahoka, being well located and is not likely to stand idle for any great length of time.

Lynn county has experienced some severe cold weather this week. Early Wednesday morning a cold wind blew down from the north, the thermometer registering about 18 degrees above zero. Ice was plentiful Thursday morning. The extreme cold weather has retarded the gathering of the cotton crop to some extent. Living vegetation exposed to the weather has been killed.

W. C. Wells, Asst. Cashier of the First National Bank, is taking a few days off from his work. Mr. Wells contemplates establishing a hardware business in Tahoka in the Wells building on the Southwest corner of the public square, but it is not known definitely at this time just when the store will open.

We were summoned to the First National Bank to witness a check earned by one boy, Carson Smith, of New Home, for picking cotton one day. It covered the neat sum of \$19.50, the amount paid for picking 650 pounds. If any one has beat this, we would like to hear from

BROWNFIELD SCHOOL BUILDING DELAYED ONE YEAR

According to E. E. Simms, Terry county commissioner, who was attending the Methodist Annual Conference last week, Brownfield's new school building will not be used any this school year. This building was started some time last summer. It was the intentions to have the building ready by opening date of school. On account of delay of material and scarcity of labor the building will probably not be completed before next summer. Labor is the hardest problem we are informed because of the harvest of crops, and other new buildings in the city that are keeping busy all the labor in that country.

Mr. Simms says that the warrants issued recently in Terry county to the amount of \$30,000 for road improvement purposes will not be used for some time, or until the labor conditions are bettered. "Only half the amount intended to be spent this year for that purpose has been made."

Corns 'Tween Toes? Use Easy "Gets-It"

Any Corn or Callus Comes Off Peacefully, Gloriously. Never Falls.

It is easy for "Gets-It" to reach "hard-to-get-at" corns, and better yet, it is easy to remove them, because "Gets-It" makes them come

Any Corn Peels Off With "Gets-It"

right off just like a banana peel. You can try to dig or drag out your corns with a knife, or slice them with a "bloody" razor, or use bandages and tape and wrap up your toe into packages, but that's the "treat-em-rough" painful, foolish way. Use 2 or 3 drops of "Gets-It"—that's the peaceful, sure, common-sense way that never fails. You reach the corn easily with the little glass rod in the cork of every "Gets-It" bottle. It does not hurt the true flesh. Try it, trot and smile! It's a blessing; never fails. "Gets-It" is the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. MFD by S. Training Little Citizens The Children's Birthright

(By Henry Turner Bailey, Director Cleveland School of Art.)

All children ought to be familiar with the open country. They should know the joy of playing in healthful mud, of paddling in clean water of hearing roosters call up the sun, and birds sing praises to God for the new day.

They should have the vision of pure skies enriched at dawn and sunset with unspeakable glory; of dew drenched mornings flashing with priceless gems; of grain fields and woodlands yielding to the feet of the wind; of the vast night sky "all throbbing and panting with stars."

They should feel the joy of seed time and harvest, of dazzling summer noons, and of creaking, glittering winter nights. They should live with flowers and butterflies, with the wild things that have made possible the world of fable.

They should experience the thrill of going barefoot, of being out in the rain, without umbrellas and rubber coats and buckled overshoes; of riding a white birth, of sliding down pine boughs, of climbing ledges and tall trees, of diving head first into a transparent pool.

They ought to know the smell of wet earth, of new mown hay; of the blossoming wild grape and eglantine; of an apple orchard in May and of a pine forest in July; of the crushed

leaves of wax, myrtle, sweet fern, mint and fir; of the breath of cattle and of fog-blown inland from the sea.

They should hear the answer the trees make to the rain, and to the wind; the sound of rippling and falling water; the muffled roar of the sea in a storm, and its lipping and laughing and clapping of hands in a stiff breeze. They should know—the sound of the bees in a plum tree in May; of frogs in a bog in April; of grasshoppers along the roadsides in June; of crickets out in the dark in September. They should hear a leafless ash hum, a pine tree sigh, old trees groan in the forest, and the floating ice in a brook making its incomparable music beneath the frozen crystal roof of some flooded glade.

They should have a chance to chase butterflies, to catch fish, to ride on a load of hay, to camp out, to cook over an open fire, to tramp through new country, and to sleep under the open sky. They should have the fun of driving a horse, paddling a canoe, and sailing a boat, and of discovering that Nature will honor the humblest seed they plant.

Things that children can do in cities are not to be compared with such country activities. Our of the country and its experiences has come and always will come the most stimulating and healthful art of the world. One cannot appreciate and enjoy to the full nature-books, novels, histories, poems, pictures, or even musical compositions, who has not had in his youth the blessed contact with the world of nature.

I do not forget what cities have done for us, and always must do; but one can get all the best a city has to yield by visiting it, whereas one cannot reap all the harvests of the country except by living there in childhood. And I feel somehow that such a life in the country is the birthright of every child. There is truth in Cowper's statement that God made the country and man made the town.

I believe that every child of God has a right to see the country—the house his Heavenly Father made for him—unobstructed by brick walls, unspoiled by filth and undimmed by smoke. And one of these days, somehow, all children born into the world will be given a chance to enjoy to the full their inspiring patrimony.

Living in the country in childhood "the voice of the Lord God, walking in the garden in the cool of the day" is more likely to be heard; and, being heard by all, that Voice will be answered more universally, and with warmer love.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

MRS. GAFFORD CASE TRANSFERRED TO HARDEMAN CO.

The case of Mrs. Myrtle Gafford, of Crowell, who is accused of killing Senator W. S. Bell last June, has been transferred to Hardeman county and set for March 15. INDICATIONS POINT TO GREATLY REDUCED CROPS IN 1920

Indications point to greatly reduced crops next year, according to Senator Capper, Kansas, publisher of several agricultural papers.

Low profits, labor shortage, high wages and rising costs of implements were some of the reasons assigned.

"The American farmer won't go on strike, but he is getting mighty sulky," Capper declared. "Wheat acreage will fall off probably one-third next year and generally the crops are going to be smaller."

"I don't think there is any concerted movement among the farmers along this line. No farm organizations, so far as I know, have adopted resolutions urging a deliberate curtailment of production. Nevertheless, farmers are individually sizing up the situation and are deciding to go slow next year."

"I receive many letters daily from farmers, complaining about nearly everything. Hog prices are down, wheat will probably be lower next year—while labor costs are going up."

Ex-soldiers are refusing to go back to the farm and are flocking to the cities, Capper asserted. During the wheat harvest it is almost impossible to get help, he said. The farmer is therefore turning from wheat to corn and other crops which do not require harvesting during a short period in the middle of the summer. He is distributing his crops so that he can do most of the work alone.

Higher flour prices may result from the diminished wheat supply, although lower meat prices may offset this, Capper said.

HOBBY PROCLAIMS NOV. 27 AS THANKSGIVING DAY

Austin, Texas, Nov. 14.—Governor Hobby today issued a proclamation proclaiming Thursday, Nov. 27, as Thanksgiving Day, which is to be a holiday in the State of Texas. The proclamation follows:

"As we near the end of another year we are reminded of the many and varied blessings which have been bestowed upon us by a God of tender mercies and great compassion. It is appropriate and proper that we pause for a brief time and render unto God our homage and give expression to our deep gratitude and the great debt which we owe to him from whom come all our happiness and all our blessings.

"The year, though still within the shadow of the earth's greatest tragedy, has been measurably prosperous for the people of Texas. We have been spared the pain of pestilence. We have, with few exceptions, escaped calamity and disaster. The field has responded, if not bountifully, at least sufficiently, to the labor of the husbandman, and mankind has been rewarded for his toil.

"There has been relief from martial conflict throughout our land. We have enjoyed the ties of friendship and our daily occupations, if not free of strife and contentions, evidence the composing influence of justice and right-dealing among men, from which eventually social and economic peace must flow. There is much to rejoice us in the contemplation of our blessings, and no cloud, from which brave men should

shrink or cower, obscures the dawning of the world's new day.

"Wherefore, I recommend that Thursday, Nov. 27, be observed as a day of thanksgiving and reverent meditation and homage to the God of the universe. On this day let us suspend all secular work and employment and let us assemble in our accustomed places of worship and with songs of praise and prayers give thanks to our Heavenly Father for all that He has done for us.

"Let us be reminded that in the midst of our prosperity there are always unfortunates about us upon whom affliction and sorrow have laid the blighting touch and who are dependent upon our charity for the little comfort they may glean from life. Out of our multitude of blessings let us give freely to those who are in need.

"Therefore, I, W. P. Hobby, Governor of Texas, do proclaim that Thursday, Nov. 27, 1919, shall be a holiday in the State of Texas, and recommend that all officials and employees of the State, as well as all the people, suspend their labors on that day, except where such labor is necessary for the health of the public, the protection of life or preservation of property."

Tom W. Dean, county and district clerk of Floyd county, who was here last Saturday and Sunday, attending the District Conference, left Monday morning for his home.

LUBBOCK'S CONSTRUCTION PROGRAM NEARING \$700,000

Lubbock's present program for construction is now nearing the seven hundred thousand dollar mark! This is, probably, the largest estimates on construction plans of any city on the Plains. These estimates are based on architect's plans and estimates and do not include many fine residence dwellings which will be constructed in the early spring.

Plans and estimates have been made and submitted, upon which the builders will pass on following the completion of harvesting of our crops.

A \$250,000 hotel building, to be the best on the plains, \$14,000 Roscoe Wilson building, to be occupied by Woolworth's store as soon as completed; \$20,000 expenditure for the construction of a second story to the Temple Ellis building now occupied by A. B. Conley Jr. Dry Goods store; the second story to be the hall for the Elk's lodge; \$20,000 for the erection and construction of another story to the Lubbock Sanitarium; \$45,000 for a Baptist church building—when complete will be one of the finest in the State; \$8,000 for the Grollman building now under construction; and twenty thousand dollars for residence.

An election will be held December the first, when the citizens of our city will vote on whether bonds be issued for paving not to amount to more than \$100,000, if favorable, as is assured will be, \$200,000 will be paid by property owners of property adjoining sixty blocks—the present paving program—making a total of \$300,000 for paving.

Preliminary plans have been made for the new Baptist Church building to be located on the lots now occupied by this church on North First street. We are reliably informed that actual steps will be taken January the first, or directly thereafter for construction on this building. It is planned of Ionic and Mission designs and promises to be a beautiful as well as commodious church building.

Miss Josie L. York, Home Demonstration Agent of Floyd county was here the latter part of last week visiting with Miss Milie Halsey and attending the annual conference of the Methodist church. Miss York left Monday morning for her home in Floydada.

LETTER No. THREE

Following up the idea expressed in last week's letter, viz: That very few men carry sufficient Life Insurance, we submit the following illustration which is based on estimates made by those who KNOW.

According to the American Table of Mortality, a man 30 years of age has an expectancy in life of 31 years more, and if he earns \$1500. per annum, then his LIFE VALUE is \$46,500.00. Assuming that he will be sick some of the time; that he will be unable to keep steadily employed; that he will desire some recreation, and hence lose ONE-HALF of this time, his LIFE VALUE is still \$23,250.00, and assuming once more that he is as valuable as a brick building of this value, and on which we would take at least \$17,500. Fire Insurance, WHY should not a MAN insure for this latter amount?

EMMIT THOMAS' BOND SET AT THOUSAND DOLLARS

Emmit Thomas, the negro held in custody in the Lubbock County jail accused of killing Lassie Darden, another negro, recently, may be released if his father can find parties to sign his bond. The preliminary hearing of the case was waived by Thomas. Bob Thomas, father of the accused, who has been in the city consulting with lawyers made a request that an amount be stated for fixing of a bond for his son. Justice Pain after receiving the request made a personal investigation of the killing and finds that four witnesses to the killing believe it was done in self-defense. It is stated by some witnesses to the killing that Darden ran at Thomas with a grubbing hoe when Thomas shot him, we have been informed.

AGRICULTURAL EXPERT SAYS 160 ACRES IS GOOD LIVING

According to Mr. Tinsley, Agricultural Agent for the G. C. & S. F. Railway Co. of Texas, a branch of the A. T. & S. F., only one hundred and sixty acres here will make a family a good living if the proper applications of modern methods are used in its cultivation. Mr. Tinsley was here a short time ago with an official of this road that has several thousand acres in the South Plains for sale. Mr. Tinsley was brought here to give him an opinion on the nature of the country and in what sizes should the tracts be cut in order that they be sold best. He thinks that a man will do better by keeping a few of the best breeds of stock and farm intensively here than he will by keeping many stock and farm hazily.
