

THE LUBBOCK AVALANCHE

VOLUME XXIII. No. 61.

LUBBOCK, LUBBOCK COUNTY, TEXAS, TUESDAY, SEPTEMBER 26, 1922.

PUBLISHED TWICE A WEEK

JUNIOR C. OF C. FAIR EXCURSIONS WERE SUCCESSFUL IN EVERY WAY

THE EXCURSIONISTS FOUND THE PEOPLE OF THE TOWNS VISITED ENTHUSIASTIC ABOUT THE FAIR

GREATEST ATTENDANCE EVER IS EXPECTED

The Junior Chamber of Commerce is an Institution of Young Business Men whose Efforts Have Been Ever Useful in the Development of the Great South Plains Country.

Again the Junior Chamber of Commerce has faced a problem with stern determination to offer a solution, and again its value to Lubbock and the great South Plains has been demonstrated.

The fair has naturally taxed our citizens in every conceivable manner, a good many of our businessmen having given liberally of their time and means for its success, and the problem of interesting the nearby towns to a higher degree was left to the responsibility and deliberations of the Junior Chamber of Commerce, with the result that two automobile excursions, or booster trips were made.

Thursday, about thirty cars were to be seen making their way from the court yard, they having gathered there at seven-thirty, and as soon as all arrangements were made, the trip started. Idalou, Lorenzo, Ralls, Crosbyton, Post City, Southland and Slaton being the towns of the route outlined.

Needless to say much good was accomplished, as speakers Owen Whortler, Curtis A. Keen, L. T. Martin, Jack Lewis and W. C. Rylander made splendid accounts of themselves at the towns visited.

The caravan was received very enthusiastically by all town enroute, in some instances encouragement was given for the boosters to make an early return. More especially was this the case with our eastern neighbor, Crosbyton, whose fair opened on the day the excursion was made. Crosbyton had a great exhibit, and they say that somebody is going to have to hustle if they expect to carry off the prize from the South Plains Fair, for they are coming over with the best they have as judged from their exhibits. As a fitting climax to the visit to that thriving city, Pat Murphy, lumberman at that place, had gathered in about forty nice, large watermelons, and had them put on ice in preparation for the Lubbockites. These were very eagerly devoured by the hungry bunch as it would be two o'clock before they would get to Post where dinner was waiting them.

The Lubbock "Home Brew" Quartette, in dusky disguise, very ably assisted in the carrying on of the program mapped out for the trip, and at each place was very enthusiastically cheered and encored. The general sentiment of the minute speeches made at each place was that "this fair is to be a fair, not for Lubbock people, but for the entire South Plains, and with the cooperation of the people of the Plains can be made into one of the greatest educational and advertising institutions of the West."

It is the hope and ambition of the Junior Chamber of Commerce to take a prominent place in cementing a common friendship between all South Plains citizens. Bound in a common work, and inspired by the self same possibilities, the people of this section have every cause to work together. The great South Plains country is too big, the country too clean, and the people too characteristic of its features to waste valuable moments squabbling over the little non-essentials, and evidently this fact has been borne home to them, as the excursionists met businessmen, merchants and farmers who were glad to extend a glad hand of friendship to them, welcoming them and their good work through the very doors of their cities and homes, and with this atmosphere permeating the hearts and lives of our people, there is no reason why progress and prosperity will not be enjoyed.

The Thursday's excursion was great for the excursionist as well as for the fair. Not a one of them will fail to admit that they learned a little more of the wonders of the country traversed. The trip removed them from the confines of their respective homes and their home towns, to survey the country that has made Lubbock, and all other towns visited the wonderful places they are, and in becoming better acquainted with the people along the route, they have a greater ideal for the country which they hope to boost.

The Junior Chamber of Commerce is a permanent organization, composed of substantial, young businessmen. These young fellows are awake at every moment when an opportunity to advance the interests of Lubbock and the great South Plains is revealed, and their enthusiasm is based upon a strong ambition to continue the good work, as a result of which the Thursday's excursion was not enough to tire the young men in well doing, as though threatening rain had its effect on some who were to furnish cars for the occasion, ten well loaded cars were at the starting point at a given time, whose occupants were ready for another invasion of our neighboring towns.

This trip was composed of a good

WARD SCHOOL BUILDINGS ARE NEARING COMPLETION

The three Ward School buildings, bonds of which were recently voted by the taxpayers of Lubbock county, are fast nearing completion under the able supervision of Contractor Earnest Lee, who has the contract for the work.

The new buildings are located, one each in the northwest, southwest, and southeast sections of the Lubbock Independent School District, and with one already in operation in the northeast division which was built two years ago, puts Lubbock far to the front along educational lines, giving the children of the rural districts opportunities for schooling that, in many parts of the state, the majority are yet deprived of.

The buildings under construction are of brick structure, 24x56 feet, divided into two rooms for classes with sliding partition doors between so that the entire building can very easily be thrown into one compartment. Each room is equipped with a large, spacious cloak room. Entirely new equipment will be installed, and it is expected that within a very short time things will be in readiness for the opening of school in the wards.

Contractor Lee is rushing the work in every possible consistent manner, and is putting up the jobs, not only as a credit to him, but as a monument to the taxpayers of the Lubbock Independent School District who have the education of their children at heart.

The buildings are identical in size, construction and workmanship.

LUNCHEON CLUB IS ORGANIZED AT LITTLEFIELD

Littlefield, Sept. 16.—A weekly luncheon club has been organized by business men here. This organization will attend to the duties usually incident to commercial clubs, combining entertainment features. Arthur P. Dugan is president and R. L. Speight, secretary-treasurer. The club will be affiliated with the West Texas Chamber of Commerce.

RIG SPRING BANKS TO SHOW INCREASE IN DEPOSITS

Big Spring, Texas.—The three banks of Big Spring at the close of business on September 15, had \$1,428,858.30 on deposit, \$428,329.31 in cash on hand, \$1,353,155.05 in loans and total resources of \$1,998,202.95.

With cotton and other farm crops being marketed steadily the banks will show quite an increase in deposits during the next few months.

diating that progressiveness typical of the people of Dawson county. At O'Donnell many farmers and the entire business population of the little city welcomed the tourists, after which the Home Brew Quartette again pleased an enthusiastic audience with their witty songs and after Richard L. Douglas spoke to those assembled, assuring them of Lubbock's desire to entertain them during the fair, a rush was made for the cars and the journey continued.

Whether the fact that Bob Haynes had just completed writing his Lynn County News, or some other thing of possibly equal importance had transpired in the city of Tahoka that evening was the cause of so many people crowding the streets of that busy town is unknown to the writer, but certainly there was a reason for the great crowd that welcomed the tourists into the city, "Rock Island" Wilson, captain of the Home Brewers gave out some valuable information concerning the fair in an eloquent and enlightening address, which received applause, after which Mr. Douglas concluded the program with an invitation for the people of Lynn county to come to the fair, assuring them that it was the desire of every citizen of Lubbock to meet them here on that occasion. Mr. Douglas received much applause when he complimented the people of Tahoka and Lynn county for maintaining such "magnificent roads," which he declared has gained that county a reputation that is known as far as Lynn County is known. Mr. Douglas seemed at his best on this occasion, and the other Lubbock boosters gave approval of his commendations to the people of that progressive county. The roads were beyond reproach from the time Lynn county was entered until he had passed out on the west border of that county.

The value of those trips to Lubbock and the fair compares favorably to their value to all those fortunate enough to have been along.

The boys who made arrangements for the cars to go are: Bennett Slagle, L. E. Hunt, E. C. Simmons and J. E. Griffith.

The efforts of R. L. Douglas, L. H. Simpson and Louis F. Moore in making the excursions the success they were to be appreciated, and reflects well upon the alertness of those gentlemen for anything designed to boost Lubbock.

NOTICE!

FAIR PARADE CORRECTION
Wherever Avenue "K" is used in Parade Orders, Avenue "J" is intended.

115 BALES GINNED HERE SATURDAY; PICKERS NEEDED

115 bales of cotton were ginned here Saturday, bringing the total number of bales ginned here to date past the thousand mark.

The staple sold at 19 1-2 cents, with seed at \$24.

The greatest cry for help at this time is by the farmers who are eager to have their cotton gathered before the winter weather sets in, and the demand is far past the supply of available hands.

The Chamber of Commerce has worked incessantly and faithfully for the farmers in trying to bring hands here, but owing to the fact that the continued dry weather caused the Plains' crop to open a great deal earlier than usual, and that at this time cotton picking is in full way farther east, the extreme West Texas counties are all experiencing like difficulties in securing pickers.

From \$1.25 to \$1.50 is paid the pickers, with 25c less when board is furnished.

While opinions differ greatly as to the total yield of Lubbock county this year, a good many have expressed the belief that the total number of bales for the season will exceed last year's production, increased acreage being responsible for this opinion.

From a close survey of the proposition, it is seen that those familiar with conditions about over the country are most optimistic about the large yield.

AMERICAN HELD CAPTIVE BY MEXICAN BANDITS

Oklahoma City, Sept. 21.—John C. Chaney, an American oil man, is being held captive by Mexican bandits who are demanding \$5,000 for his release, according to a special dispatch from Tampico, Mexico, received tonight by the Daily Oklahoman here.

Chaney, general field superintendent of the International Petroleum Company (Mexico), was captured at Agua Nacida, September 10, while on a trip of inspection covering drilling operations, the dispatch says.

L. E. Gardner, assistant to the president manager of the oil company, and H. J. Nichols, chief chemist, have returned to Tampico from the Tampico country, where they went in an endeavor to get in touch with Chaney's captors, according to this dispatch. It was impossible to establish communications, they reported, because of heavy rains, which made the roads and trails impassable.

UNCLE SAM HAS FEW TROOPS ALONG BORDER

Washington, Sept. 17.—Uncle Sam was long boasted that on the long border line between the United States and Canada there is not a far more a troop. Uncle Sam's southern coast line for long reaches is now almost deserted, due to the retirement policy.

From Charleston, S. C. to Brownsville, Texas, the only troops are the coast guard troops at the Texas seacoast and city have been, or will soon be, augmented by an anti-aircraft outfit, bringing the complement up to sixteen officers and 338 men.

ANOTHER COTTON PICKING RECORD REACHES HERE

The report of another cotton picking record reached this office the first of the week. Lee Pate and Claude LeFevre are the record breakers this time. Mr. Pate picked 711 pounds and Mr. LeFevre 593 pounds, making a grand total of 1214 pounds of the fleecy staple for the two of them on that day.

The Lender force feels that if they could make an average of picking cotton like that it would pay them to close the shop and help the farmers gather this crop before the cold weather comes along and ruins the good picking.—Lorraine News.

CLIFFORD HUNT'S DODGE CAR RETURNED SUNDAY

Big Jim Robinson and Clifford Hunt returned Sunday evening from Big Spring, where they secured the Dodge car stolen from Mrs. Hunt several weeks ago.

They went to Sweetwater, where a deputy sheriff directed them to Big Spring, a Texas Ranger Captain and his men assisting in locating the car there.

It had been purchased by a cafe owner who used it as a service car, and though the car was new when it was stolen, it has been so badly abused that its appearance is greatly different to when it was taken from Mr. Hunt's garage.

Over seventy-two per cent of the persons whose sketches appear in the twelfth volume of "Who's Who in America," just published, attended college. Fifty-nine per cent of them are college graduates.

AGRICULTURAL POSSIBILITIES OF SOUTH PLAINS ARE UNDEVELOPED

EXPERIMENT STATION CROPS ARE SUPERIOR TO THOSE ON OTHER FARMS; SHOWS NEED OF IMPROVEMENTS

EDUCATION FEATURES KARPEN'S WORK

The Fact That Too Much Land and Too Small Production Per Acre is Hurtful to the Farming Industry Here is Undisputed by Those Experienced in Better Farming.

ANOTHER BONUS MEASURE INTRODUCED IN SENATE

Washington, Sept. 21.—Senator Bursum, Republican, New Mexico, late today, introduced in the senate another bonus measure defined in its title as the "Veterans Relief and Adjusted Compensation Act."

The measure would provide for payment of \$20 for each month of service together with the return of all compulsory allotments made by the service men and payments on account of government insurance between April 5, 1917, and July 1, 1919.

No provision is made for financing the bonus.

When the amount due a veteran did not exceed \$50 it would be paid in full on October 1, 1923. In all other cases 50 per cent would be paid October 1, 1923, and the remainder on October 1, 1926, together with interest at 4 per cent.

The obligations given by the government on unpaid sums could not be used as security for loans except under regulations prescribed by the secretary of war and navy.

MINERS MIS-TREATED, UNION MAN CHARGES

Fort Worth, Sept. 20.—Charges by John Wilkinson, district president of the United Mine Workers, that State Rangers are being used to coerce and intimidate striking miners in the Thurber and Mingo districts will be investigated by Adjutant General T. D. Bartlett.

Ranger Captain R. W. Aldrich is on his way to Mingo to investigate conditions there.

Wilkinson sent additional complaints to Senator Morris Sheppard and to United States Attorney General Daugherty charging that State Rangers were using tyrannical methods of aiding the mine operators at Mingo.

Wilkinson charged that State Rangers have invaded tent camps of the strikers, threatening them with arrest on vagrancy charges.

Fifteen have been arrested and brought to Fort Worth for questioning by Federal officers and were released here without means of getting back to their homes, 100 miles distant. Some of them walked back, Wilkinson charged.

In addition, three men brought here Sunday claimed to have been held twenty-four hours in jail without food, it is charged, and when released by Federal authorities walked back to Mingo.

The farmer and his problems are of such vital importance to the development of the plains country that anyone interested in this section in any way whatever cannot but help take an active interest in them, and it is well therefore that businessmen, bankers and merchants encourage the fellow who is doing his level best to get the full benefit of every day's work on his farm, thru systematic cultivation of his land, and it will be but little while until diversified, well regulated farming will be the order of the day on every one hundred acres of land in Lubbock county.

3000 AT OPENING OF MITCHELL COUNTY FAIR

Colorado, Texas, Sept. 22.—Five thousand visitors had passed through the gates into the grounds of the Mitchell county fair within a short time after the fair was officially opened here this morning by Hon. L. W. Sandusky, of this city. Hundreds of visitors have been arriving throughout the day and the attendance Saturday is expected to reach fifteen thousand.

Judging in the pig and baby beef entries has been in progress all the afternoon. This judging is in charge of John Simpson, animal husbandman of A. & M. College. Every pig and calf entered in this department is registered. Judging in the poultry, dairy cattle and other live stock entries will commence Saturday morning.

The initial Mitchell County Fair was opened at 10 o'clock this morning by a big parade through the principal business streets of Colorado. Eighty-seven cars and trucks, many of them profusely decorated, formed the line of parade.

The main exhibit building, eighty by one hundred feet in size, is crowded with booths. In the fine arts and needle work departments are being shown probably the most interesting exhibit at the fair. Some of the articles in this department are claimed to be one hundred years old.

Miss Lottie Pritchett has been declared winner in the Queen's Contest just closing and will be crowned queen of the fair Saturday night with elaborate coronation ceremonies on the fair grounds.

Ered McDonald of Caldwell, was here Saturday transacting business. He has only 6 1/2 acres of cotton this year, but expects to gather two bales and reports that the feed crop is very good, one hundred and forty seven per cent being planted to the various crops known to the plains country, and he is of course, able to keep all his livestock without losing money on account of high cost of feed.

Lightning hit a supreme court judge's house. It is not known what decision he had just made.

Lord Robert Cecil says he hopes to return to America. It sounds more like a threat.

The value of the farm lands adjacent to Lubbock is only partially known.

This great fact is realized by farmers, businessmen and stockmen, yet getting down to an immediate solution is a thing that is given too little time, if we observe rightly.

The Agricultural Experiment Farm, near the city limits of Lubbock, and which is placed in no more fertile land than is to be found in most any part of the country, is yielding as much as from two-fifths to one-half bales of cotton to the acre in a good many tracts, while farms in other parts of the county are being raked to the last row for from one hundred and fifty to two hundred pounds to the acre, and prospects for the second picking are not at all promising.

This is a matter of farming altogether. Mr. Karper, at the head of the experimental farm, knows soil formations, cultivation and plants better than perhaps any other man in the state, yet he is not an old man by any means, and we are sure that had he been in the farming business from a producing instead of an educational standpoint the results of his work would be just as noticeable.

Educate the farmer and the farmer will build that industry beyond the narrow confines it has known since it has been a vocation in this country.

Practical farming dwindles in comparison to the work Mr. Karper has accomplished on the experimental farm, and these are the farms, yet there is not a boy on the farms of Lubbock county but who can learn the business just as well as Mr. Karper has learned it, and every hour of this time spent in study will be well paid for before he will have applied his knowledge to that industry many years.

This is a matter which should be given the closest consideration of all persons interested in the development of the great south plains, and which will have to be looked after before the full value of our lands for farming purposes will be realized.

There have been a great many farmers so intensely interested in the things that Mr. Karper has done on his farm that they have made regular visits to the place to watch developments, and the value of their observations have been realized, while scores of Lubbock county farmers perhaps have never visited the place, and perhaps don't realize what is in store there for them.

All together for immediate development of the agricultural possibilities of the greatest country anywhere.

A great deal of attention given to poultry, hogs, dairy cattle and intensive farming on less acreage is needed on the lands of the great South Plains.

LUBBOCK COUNTY AGENTS ATTENDED DAWSON CO. FAIR

Mr. and Mrs. J. W. Jennings and Miss Mabel Marsh, went to Lamesa last week to attend the Dawson County Fair.

Miss Marsh judged the exhibits in the Woman's building, consisting of canned goods and sewing, while Mr. Jennings helped to judge the livestock and agricultural exhibits.

They report much good work having been demonstrated at the fair, and that the people of Dawson county have made wonderful developments was everywhere in evidence.

Mr. Jennings said that the finest horses and mules anywhere were among the livestock, and that the hogs were equally as good, with the dairy cattle proving that interest in finer herds is being shown.

Geo. W. Hargrove of Littlefield, was here Saturday transacting business. Mr. Hargrove has been a leading factor in all progressive moves of that thriving community since the town was staked off several years ago, and is just as enthusiastic about the future developments as ever. He has been on the plains long enough to know that there are great possibilities in agricultural sections here.

A bald barber can't sell his hair restorer, because he has no head for the business.

Five Year Hunting Trip of Scientists Will Start Soon

A five-years' hunt for fossils of extinct species of mammals which appeared 550,000 to 2,000,000 years ago will be begun next October, when Professor Elmer S. Riggs, associate curator of paleontology of the Field Museum of Natural History and three assistants will sail for Buenos Aires on the first leg of their journey. Their expedition will be the sixth this year from the museum. Sometime during the geological year

terday many species of warm blooded mammals, predecessors to the animal life of today, began to appear in South America. Most of these were unable to cope with the tremendous climate and geographical changes which took place and gradually vanished from the ranks of living things.

After exploring the Argentine pampas, from the pampas the party will strike Southward along the Atlantic Coast as far as the Straits of Magellan. In places the work will be along beaches where the ledges are exposed and accessible only a few hours during the day.

In the extremity of Patagonia, the party will search for fossil remains of unique and much more ancient animals, which were residents of South America in the ages when it was almost as widely separated

from her northern sister, North America, as Australia is now separated from Asia. This isolation accounts for strange fossils in that ancient land. From the straits the party will turn inland and the search will be extended westward over the barren, wind-swept plains toward the base of the Andes.

Professor Riggs will take with him an elaborate equipment so that the party will be prepared to travel and subsist in any region which may offer problems of interest. For the most part travel will be by motor truck. Where this method is found impossible the motor will be supplemented by saddle and pack animals. In addition, a canyans motor boat will be carried for use on inland waters. By these methods it is expected that the most inaccessible regions may be reached.

CITATION BY PUBLICATION

THE STATE OF TEXAS.
To the Sheriff or any Constable of Lubbock county, greeting:

You are hereby commanded to summon Seth Brown, David Armstrong, J. W. Stanley and Mary E. Stanley, husband and wife, Parris Cox, Gertrude S. Jester and her husband, E. A. Jester; Joshua W. Stanley, Ellen B. Kite and A. W. Newlin; and the heirs and legal representatives of each of the following named persons: Seth Brown, David Armstrong, J. W. Stanley, Mary E. Stanley, Parris Cox, Gertrude S. Jester and her husband, E. A. Jester; Joshua W. Stanley, Ellen B. Kite and A. W. Newlin; (whose places of residence is unknown to Plaintiff) by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in December, A. D. 1922, the same being the 11th day of December, A. D. 1922, then and there to answer a petition filed in said court on the 14th day of September, A. D. 1922, in a suit, numbered on the docket of said Court No. 1623, wherein S. A. Pool, is plaintiff, and Seth Brown, David Armstrong, J. W. Stanley and Mary E. Stanley, husband and wife; Parris Cox, Gertrude S. Jester and her husband, E. A. Jester; Joshua W. Stanley, Ellen B. Kite and A. W. Newlin; and the heirs and legal representatives of each of the following named persons: Seth Brown, David Armstrong, J. W. Stanley, Mary E. Stanley, Parris Cox, Gertrude S. Jester, E. A. Jester, Jehu L. Kite, Charlotte Kite, Hester Armstrong, Joshua W. Stanley, Ellen B. Kite and A. W. Newlin, are defendants, and said petition alleging:

Suit in trespass to try title for the title and possession of the northwest quarter and southeast quarter of survey one hundred and thirty-nine (139), in block C, certificate No. 305, E. L. & R. R. R. Co., patented to Seth Brown on January 30th, 1879, by patent 175, volume 45; said land and sued for is located in the northeast part of Lubbock county, in State of Texas, and contains 160 acres.

Plaintiff sues also to cancel an apparent vendor's lien on said southeast quarter of said section 139, block C, as against Ellen B. Kite, and her unknown heirs and legal representatives. Plaintiff alleges that he executed and delivered to Ellen B. Kite four notes, each for \$300.00, dated June 24th, 1915, due one, two, three and four years, respectively, after date respectively; that he has paid all of said notes to Ellen B.

Kite, but she has failed to execute a proper release of the lien. Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this 14th day of September, A. D. 1922.
LOUIE F. MOORE,
Clerk of District Court, Lubbock County, Texas, 59-4T

CARLISLE NEWS ITEMS OF THE PAST WEEK
The Methodist meeting began Sunday morning. Brother Warlick preached Sunday morning and evening.

Brother Boyd filled his regular appointment here Sunday afternoon. Mr. Harlin Smart returned Saturday from Merkel, where he has been the past few weeks.

Miss Octa Ray spent Saturday night with Miss Thelma Hinson. Mrs. H. H. Guin, Jr., and Mrs. C. C. Casey, spent Friday afternoon in the Hinson home.

Miss Jewell Wood spent Wednesday night of last week with Miss Ona Ray. Miss Ted Sims spent Thursday night with Miss Marie Coffey.

Mr. and Mrs. T. T. Tubbs returned on Tuesday of last week from New Mexico, where they spent the past three weeks. Mr. Moore and children, Mr. and Mrs. Smart and children, spent Sunday in the Will Moore home.

Miss Eloise Jones and Blanche Brownlee, spent Thursday afternoon with Miss Ona Ray. Mr. and Mrs. T. T. Tubbs were dinner guests in the F. A. Sims home.

Many Amarillians Are Charged With Short Weighting

Twenty-nine complaints against bakers, grocers, wholesalers, peddlers, fruit dealers of Amarillo will come up in Police court Monday.

Cam. H. Murray, state inspector of weights and measures, says the names of these alleged violators of the ordinance against short weights and measures will be available to the public Monday from the police court records. Mr. Murray said he could have filed 104 other complaints, but would hold them in obedience pending "good behavior" of the alleged violators. He said in the event of further complaints against these dealers these 104 complaints could be filed.

Another complaint charging short ice weight, in addition to the 15 already filed, was made to Inspector G. R. Scott yesterday, who is also in Amarillo to force the short weights and measures law. In fact, Mr. Scott who came here first said he found so much to do in Amarillo that he wired Mr. Murray to come here to aid him. They say they will be here until the city is rid of the persons who are selling commodities to the people below weight and measure paid for.

Mr. Murray said a tabulation on bread sold in Amarillo showed that 88 loaves out of 100 was short weight. He added that he had information on short weight in mill products which would be used in making out complaint if warranted after the cases now pending in the supreme court are decided.

The inspectors have asked Amarillo consumers to demand of their merchants that they show net weight of all goods bought. The State department has promised equipment beginning October 15 to protect the people against short measures in gas, water and electricity.

The inspectors say they are especially grateful to the city officials and police department for co-operation in obtaining evidence against the alleged short weight dealers.

Seven complaints were filed in Judge C. G. Landis' justice court yesterday charging D. A. Blake, manager of the Consumers Ice Company, with violation of the weights and measures law. Inspector Scott says evidence against this company was collected on five different streets of the city.—Amarillo News.

Overland sales for the week as given out by the local manager, F. N. Payne, include a touring car to B. Sherrod, and a coupe to Wesley T. Read. The coupe was driven through from Dallas. Five cars were unloaded Saturday, and are in the course of assembly. They are practically all sold.

Harding Signed New Tariff Bill Thursday A. M.

Washington, Sept. 21.—President Harding signed the new Republican tariff bill at 11:10 o'clock this morning. The law will be known officially as the tariff act of 1922. It goes into effect at midnight tonight.

The bill was signed at the White House in the presence of Senator McCumber, Republican, of North Dakota, chairman of the senate finance committee, Representative Fordney, Republican, of Michigan, the chairman, and other members of the house ways and means committee.

The President affixed his signature to the bill with a gold fountain pen presented by Fordney, which the Michigan congressman will retain as a souvenir.

"The bill was long in the making" the President is quoted as saying after he had signed his name to the measure, "but if we succeed as I hope we will succeed, in making effective the elastic provisions of the measure, it will make the greatest contribution toward progress in tariff making in the nation's history."

The President made a reference to the provisions of the bill which gives the executive power to raise and lower tariff rates at will when it is found that the duties fixed in the law do not conform with changing economic conditions in the United States and abroad.

The new tariff act, the drafting of which was started in April, 1921, repeals the present Underwood tariff act and the emergency tariff act, which was placed on the statute books soon after the Harding administration came into power. The dye embargo provided for in the emergency tariff law is repealed by the new department tariff.

At the treasury department it was stated that the annual revenue from the new tariff would average between \$350,000,000 and \$400,000,000—approximately \$100,000,000 in excess of the annual returns of the present tariff.

SIX TEXANS VOTE TO OVERRIDE HARDING VETO

Washington, Sept. 20.—With fifty votes more than the required two-thirds, the House of Representatives passed the \$5,000,000,000 bonus over the veto of the president. The vote was 258 for passage and 54 votes against passage. Texas cast six votes to override the President's veto, the same number it cast to pass the bill originally on March 23, and eight votes six months ago. The following was the record of the Texas delegation.

For overriding the President's veto, which was in favor of passage of the bill: Blanton, Briggs, Jones, Rayburn, Sanders and Hudspeth.

EX-SERVICE MAN WANTS MORE ACTIVE SERVICE

Jefferson L. Robinson, transportation and switching inspector at the Santa Fe, served in the Great War. He was both in France and Siberia. But Robinson wants more war; more excitement. Yesterday noon he left for Ottawa, Canada, to see about enlisting in the British Army for active service. He wants to get in the thick of the campaign against the Turks around Constantinople and in many lands.

Robinson has a two weeks leave of absence. If he cannot make satisfactory arrangements to enter the British or Canadian army, it is expected he will return to Amarillo and settle down to the task that he has followed since his return from Siberia.

Robinson's record in the Great War so far as remembered by his local friends runs something like this: He was assistant to the general manager of the Santa Fe here. He entered military service and became a lieutenant in France. It is understood that he was connected with railroad and telegraph work in France.

The war ended. Robinson returned to Amarillo. He stayed here two or three months. Then he went to Siberia, becoming a captain and engaged in railroad work, it is said.

Robinson came back to Amarillo. The recent flare stirred his fighting and adventuresome blood. And Robinson is off again to see if he can be in the midst of the greatest excitement that is possible.—Amarillo News.

NEW YORK MOTION PICTURE PRODUCER VISITS TEXAS

Washington, Sept. 21.—"When one hears of the border lands of Texas he at once conjures up visions of sandy wastes, gun-fighting cowboys, treacherous Mexicans and ancient towns. But I have just returned from Brownsville, and I find that even I was mistaken in the country in the lower Rio Grande valley," said Grant Likeman, a motion picture producer of New York City, now in Washington, who has become a booster for the southwest country.

"I was down there," he said, "getting atmosphere for a picture which my company is to film soon. Primarily I went down there to see if the Texas climate was suitable for motion picture work. Incidentally I wanted to get some first hand information on the country, never having been down there before."

"I was impressed with two things," he continued, "one the near proximity of 'wet' Mexico, and the second the race which Brownsville is going to run with Miami, Fla., for honors as a winter resort in the next twenty years. Strictly modern in every way, yet picturesquely quaint with its old churches, ancient fort and other attractions, including good automobile highways, southeast Texas is going to become a mecca for winter tourists. I feel that I can make this statement safely, for I have been a long time investigating the United States for atmosphere for our purposes, and previous predictions have come true."

SWEETWATER BANK DEPOSITS SHOW A GREAT INCREASE

Sweetwater, Sept. 21.—An increase of \$164,563.65 in total deposits of the Sweetwater banks is shown in their statements rendered to the State and National banking authorities on Sept. 15 call. In the same period, loans increased \$19,065.92 with a corresponding increase in total resources.

The cotton crop movement is responsible for the bulk of the increase. Money is coming in rapidly. The total deposits of the three local banks would have shown a further increase of \$200,000 had the cotton been delayed one day. The First National Bank received \$40,000 in deposits on Sept. 16, while the City National and the Texas Bank and Trust Company each received \$30,000.

The total deposits of the three Sweetwater banks upon Sept. 15 were \$1,227,231.85 and the resources \$1,892,463.64.

Miss Buna Sowell Honored Saturday Afternoon
Mrs. E. L. Robertson entertained Saturday afternoon complimentary to her sister, Miss Buna Sowell of Waxahachie. The fascinating game of "42" was indulged in. At the close of this delightful afternoon, Mrs. Robertson served a delicious luncheon of sandwiches, olives, crackers, salad, iced tea, and coconut macaroons.
The following guests were present: The honor guest, Miss Sowell,

Misses Brashears, Thomas, Thurman, Padgett, Amelia Cowart, Lottie Mae Cowart, Annie Maud Cowart, and McCue. Everyone expressed themselves as having a delightful time.

Mrs. John Lemond Entertained Saturday Evening, September 23. Mrs. Lemond entertained in honor of Miss Buna Sowell, of Waxahachie. The interesting game of "42" was played until a late hour, when the hostess served ice cream and cake to the following: Misses Mary Meador, Myra Stanley, McCue, Maxey, and Miss Sowell; Messrs. Ross and Owen McWhorter, George Brewer and Sylvan Sanders. The young lady and gentleman holding high score were presented with beautiful bouquets. Mr. Ross McWhorter won high score for the men, and Miss Sowell won high score for the ladies.

Miss Elizabeth Sowell left Friday of last week for Denton, where she will enter the Denton Normal.

Mr. J. L. Dow, of the Avalanche returned Saturday from Austin.

Parent-Teachers Meeting. The first regular meeting of the Parent-Teachers was held at the Grammar School the second Thurs-

day in September. There were seventy members and visitors present. A large number of teachers were present and showed a very gratifying interest in the work. Mr. Dupro gave a very interesting talk and he especially stressed the need of a new Ward School. Mr. Atkinson and Mr. Bishop made short talks.
The Parent-Teachers Club have a stand at the Fair, and they will appreciate the patronage of each and everyone. All of the money made will be used for the benefit of the school. The next meeting of the club will be postponed on account of the fair.

Mrs. H. L. Willeford left Friday for Abilene, to visit her parents, Mr. and Mrs. H. R. Kendrick. While in Abilene she will attend the West Texas Fair, which is in progress there this week.

Herbert Stubbs, county clerk, issued four marriage licenses on one evening at six o'clock until noon the next day, making it appear as though Cupid is on the job again in Lubbock county. During the summer months the little match-maker seemed to have forgotten his duty in this section, as an average of only about three licenses were issued each week.

AT THE CHURCHES

Ladies Missionary Society
"Through wisdom a house is built. And by understanding it is established."

Last Monday afternoon at 2:30, at the home of Mrs. J. J. Richards, the ladies of the M. E. Church were entertained by Mesdames Richards, Foster, Sims, Peeler, Rylander, Ross, Stubbs and Royalty.

Our lesson for this meeting was on "Social Service—Family Life." Mrs. Geo. Wolfarth was leader of the devotional and read a Bible scripture from Mark: "Jesus' Criterion of Greatness."

Interesting papers on social service were read by Mesdames Spencer, Laugh and Burrus.

Mrs. W. O. Stevens gave us the missionary news.

After this interesting program, the hostesses served the ladies with an iced tea course of fruit salad, chicken and perminto sandwiches, tomatoes and peppers and iced tea.

New Class to Meet Monday
The Study Class which was organized two weeks ago for the study of Methodist discipline, with Brother Ferguson as teacher, and Mrs. Cole as secretary, will meet next Monday afternoon at 2:30, at the church and begin the study on that day, with the first 25 articles of "Faith," as our first lesson. Let all the ladies of the church make a special effort to be present and encourage our teacher.

"Oh God, who workest hitherto, Working in all we see, Fain would we be and bear and do, As best it pleaseth Thee. Our skill of hand and strength of limb, Are not our own, but Thine, We link them to the work of Him Who made all life divine."

A Great Sunday School Class
Sunday School class No. 21, First Methodist church, Lubbock, Texas, is perhaps the largest in the Northwest Texas Conference. This class is composed of middle-aged women. There are two other classes of younger women in our Sunday school. The enrollment of the class is now one hundred and forty. A few months ago there were ninety-nine present. Last Sunday ninety members were present and the contribution was ten dollars and seventy-five cents. The class has more than doubled its membership this year and adds two members each week. It is well organized and engages in all the class activities. The class is taught by W. C. Rylander. He is faithful and punctual. Like Wellington, he is fifteen minutes ahead of time. He has been abroad, has read much and is a constant student of the Holy Scriptures. He knows how to teach a lesson, loves his work, is proud of his class and appreciates the opportunity. As an all-round teacher he is in Class A, and is perhaps at the head of this class in Texas Methodism. Here is a great Sunday School class and an efficient teacher.

C. N. N. Ferguson, Pastor.

Methodist
The growth of the Sunday School attendance is being stimulated by the contest which is on between the Lubbock and Amarillo churches, and we are glad to know that reports from the various classes are to the effect that practically the entire membership is deeply interested in the final outcome of the contest, eager to take the lead, and keep it throughout the contest.

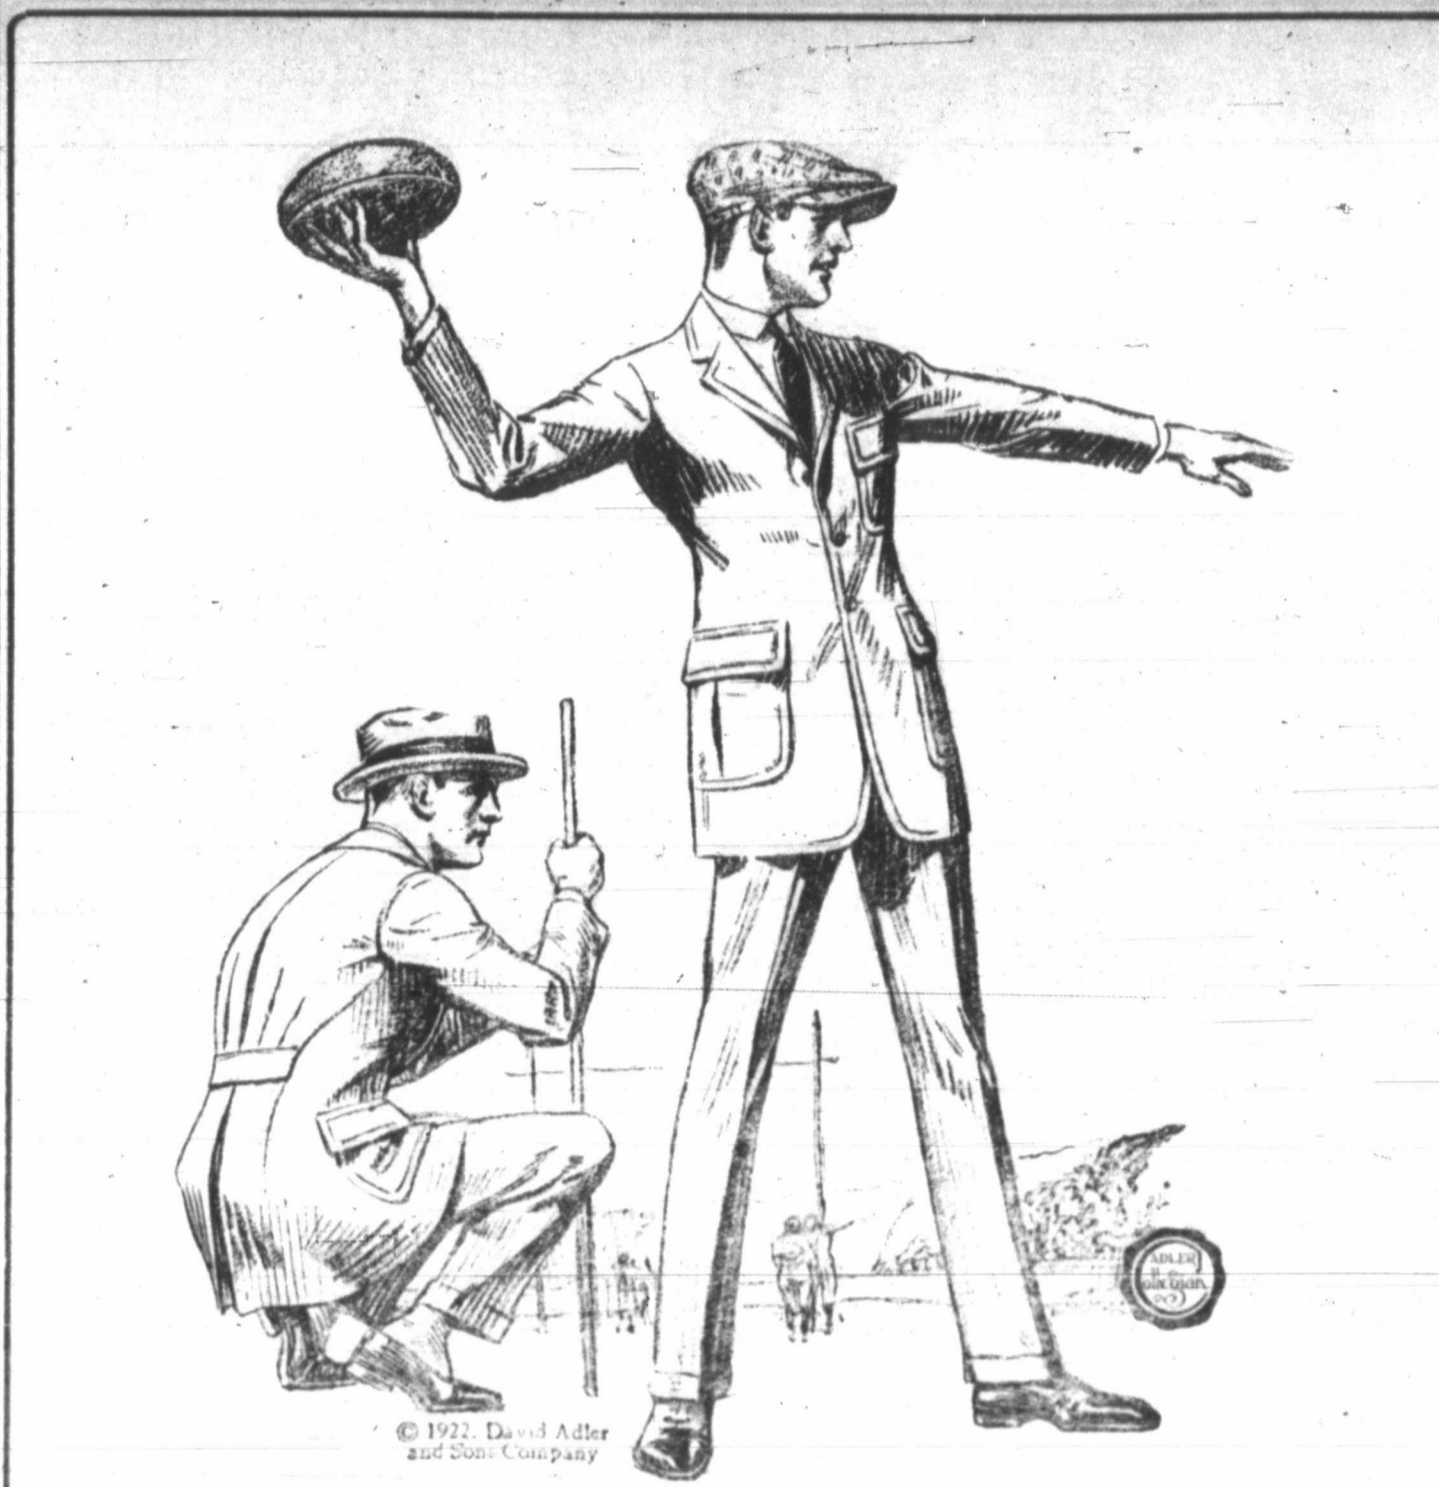

The contest which is on between boys and girls classes of the Junior Department is increasing interest in that department greatly, and Mrs. Sims is to be congratulated for the success of the contest thus far shown. Next Sunday tells who has worked the hardest, and we have inside information that the boys are going to make a favorable showing.

Promotion time has also had great effect on increasing the energies of the classes in the Junior department the members of which are eager to take their place one class higher the first Sunday of next month.

Rev. Ferguson's untiring efforts to increase Prayer Meeting attendance on Wednesday evening was encouraged at the last meeting, and a great service was enjoyed. It is of vital importance that all church members take an interest in this part of the church work, and Rev. Ferguson is on the job to let them realize that fact.

Rev. Ferguson, in his best in the pulpit at both services, and his hearers were delighted with the wonderful messages given them.

Baptist
The Baptist Laymen were called to Caldwell Sunday evening at seven-thirty, seven faithful workers tak-

SIDNEY MASON, A BROADWAY FAVORITE IN "THE GOOD-BAD WIFE."

The "Good-Bad Wife" contains such a unique and strikingly original plot that it would be an injustice to relate the theme, but it may be said that the producers have succeeded in creating a brand new type of screen heroine that is always convincing in its fidelity to human composition and always captivating in its surprising actions and attitudes. That it is a character of unusual appeal to women is but stating a half-truth, for it is equally appealing to men and children. "The Good-Bad Wife" is at the R. & R. Lindsey Theatre Thursday. (adv.)

NOTICE TO TRUCK OWNERS

On account of the fact that some of the trucks in operation in Lubbock were sold without mufflers, I have instructed the City Motor Policeman to give them a reasonable time within which to properly equip their machines before making any arrests.

On and after the 1st day of October, 1922, all trucks, as well as cars, will be forced to run with mufflers within the city limits.

ARTIFICIAL LIGHT TO MAKE HENS LAY

(By F. W. Kazmeier, Poultry Husbandman, A. & M. College)

Many people are of the opinion that the newly discovered fact that short days adversely influences egg-production, is more or less theory. They are not ready to believe it much less put it in practice. They probably doubt the truthfulness of some experiments conducted on the grounds of the A. & M. College Poultry department two years ago. At that time the use of artificial illumination was being exploited, as an important factor, influencing egg production. Few people believed that it was worth while. Many did not believe that it had any practical value. The writer can well remember the time, four years ago, when he for the first time, took courage to mention it in a public talk before the Dallas County Poultry Association in Dallas. Many hoisted

and others equally as good now are featuring electric lights for lighting the hen houses on the farms. In the case of electric lights we have found that one 40 to 80 watts is sufficient for 100 hens, figuring on the basis of 300 square feet of floor space per 100 hens. One gasoline lamp will generally be sufficient for the same number of hens. In the case of kerosene lamps, use lamps with deflectors and allow four lamps for every 100 hens. It is necessary to provide sufficient light to keep the hens to work. Insufficient light will cause the hens to go to roost as soon as it gets dark, or if lights are used in the morning they will not come off the roosts and go to work. The light should be strong enough so the hens can see to eat.

Fowls under artificial illumination should be fed somewhat different from the general practice. The grain must be fed at the time the lights are in use, especially in the beginning to keep the hens off the roosts. It is important that everything is fed so as to get the hens to exercise as much as possible. They need the exercise to keep them healthy under these more or less unnatural conditions. All drinking vessels, dry mash hoppers and feed food should be fed on stands 2 feet above the ground so that they have to jump to get to it, which gives them more exercise. It would be useless to keep the hens up with light if they are not given something to eat.

It must be remembered that the lights alone will not make the hens lay. They must be fed an egg making ration. The lights will only help make more eggs, if all other things are provided. This part of the subject however we can not undertake to discuss in this article.

To reduce the cost of lighting it is well to remember that in a house 15 feet square the lights should be placed 3 to 4 feet from the floor, and five feet from the floor in a house 20 feet square. The use of deflectors also increases the light where it is wanted and thus aids in reducing the cost.

Cost of Lighting

The actual cost of providing lights for the house varies very much. In the case of electricity the price of current is a great determining factor. We have found that under average conditions the cost for electric lights in about one to two cents per fowl per month. Kerosene lanterns cost about three to four cents a day to run. In nearly all cases the cost was a negligible factor.

Time It Takes Before They Will Respond.

In starting the lights in the fall of the year, it has been found best to do so gradually. This is important and should be carefully kept in mind. If all factors are favorable the increased egg-production will be noticed in about ten days. Use lights in moderation and do not attempt to use lights for more time than will provide a 12 to 14 hour work day.

Why we urge motorists to use SUNOCO

SUNOCO is a wholly-distilled motor oil—not a compound of a light oil and heavy "cylinder stock."

That means that SUNOCO leaves no gummy residue to carbonize in the cylinders, foul the spark plugs and gum the valves.

And SUNOCO is made of six scientifically refined types to provide a right-bodied oil for any particular engine—winter or summer.

That means compression-holding cylinders for full engine power. Also protection to the bearings against damage by friction.

We have put SUNOCO to every test and proved that it saves money and greatly increases the service value of cars. That's why we recommend it.

Do this at once. Have the nearest SUNOCO dealer drain your crankcase and refill with the proper type of SUNOCO. You'll be repaid in far better service at far less cost.

We have made a fortunate purchase of these percolators and will give them to our customers at cost while they last.

Not More Than One To a Family

Special Limited Offer

the idea. The newspaper reporters made light of it. The public did not believe it. A year later it developed that artificial illumination was one of the greatest factors influencing fall and winter egg-production. A year later the A. & M. College tried it and found that artificial illumination increased the fall and winter egg-production by about 60 per cent. Just think of it, 60 per cent. A flock increase of 60 per cent is quite an item and worth many thousands of dollars to poultry keepers.

The object of artificial illumination is to increase the egg-production during the fall and winter months. At this time of the year eggs are high in price, and any increase will add greatly to the net profits of the flock. In the fall and winter the period of day light is comparatively short as contrasted with the rest of the year. The use of lights, makes the short days longer, as a consequence they eat much more feed and lay many more eggs. When eggs are worth real money and when they are scarce. This practice is recommended for the laying stock but not for the breeding pens.

It was also found a good idea to subject the late hatched pullets to artificial light and in this way hurry them along and get them to laying in time for high priced eggs. This plan is much to be recommended because late hatched pullets must be forced in order to get them to develop in time.

It was found that when lights were used hens would go thru the molt much quicker and get to laying earlier. This is an important item.

When to Use Lights

Careful experimental data, which is now available clearly indicates that the best time to use artificial lights is beginning with September or October and all thru winter up to about March. In other words the lights are to be used when the days begin to get short and as long as they are short.

There seems to be some difference of opinion regarding the time of the day to use them. Experimental data indicates that there are three methods of using them as follows:

1. The lights are turned on an hour or two before daylight in the morning and again in the evening, before it gets dark, so as to make a 12 hour day for the hens.
2. The lights being turned on only in the evening before it gets dark and remain on as to give the hens the same number of work-hours as mentioned above.
3. To turn the lights on in the morning only, usually about 4:30 a. m., and turn them off as soon as it becomes sufficiently light in the houses for the hens to see. When this plan is used the lights are not turned on in the evening.

Of the above plans the latter appears to be the best. When the lights are used in the evening the lights must be dimmed for a while before turning them off, otherwise the hens will not see their way to roost and many will roost on the floor. Those that use the lights in the evening provide dimmers or red lights for this purpose.

Kinds of Lights to Use

There are three important ways of providing artificial illumination to make hens lay. They are electric lights, kerosene lights and gasoline lights. The electric lights are by far the best, involving less work, better light and less danger from fire. It is possible to so install the electric lights that they can be regulated to come on automatically. This is a great advantage. Electricity is not available on many farms at the present time, hence the other methods will be used for some time. The home plants, such as the Delco

CANDIES---

During the balmy "out-of-doors" time, what hostess does not delight to serve a dainty, delicious bit of candy to a friend or two who have just "dropped in" during a neighborhood evening stroll. Or perchance, daddy's home-coming becomes doubly enjoyable to "wifey" and the kiddies, if they are pleasantly surprised with a box of JOHNSTON'S CHOCOLATES — the kind we sell!

STARLIGHT AND SUNLIGHT LIGHTING LIFE'S PATHWAY

Furnishing the Home

About a year ago the writer got married, and soon afterwards the gigantic problem of how to outfit a home came up. At the present writing we are proud to state that we have accomplished the feat, and with the idea that our experience might be profitable to some other home-loving couple, the following suggestions are offered:

A neat and nifty chair can be made out of an old cracker barrel. Stand up on end and saw out a front section half way up, leaving

the rear section of the barrel to serve as the back of the chair. Nail in a seat and cover the whole with checked gingham or muslin. Nail a bow of blue ribbon to the back of the chair. No other ornament is necessary. It is not essential that the structure be made very substantial, as nobody will ever sit in it.

A splendid umbrella rack can be made out of a length of old stove pipe, stood on end and fastened at the bottom to a block of wood one foot square. The stove pipe should

be covered with gilt paint and a few cupids of angels painted on it in blue or green. It will hold seven umbrellas, no matter how or where you get them.

It is very easy to make a fireless cooker out of an old soap box and about a dime's worth of hinges and other hardware. Inside of the box place a large tin can and pack hay or asbestos between the can and the sides of the box. It will cook food as satisfactorily as any high-priced fireless cooker, which may or may not be saying very much.

An old red striped shirt makes a very satisfactory curtain for a small window. The shoulders of the shirt can be tacked to the upper edge of the window and the tail of the shirt can be split up the back so that it can be draped on either side and tied in place by neat bows of yellow ribbon.

Have You Observed

That what can't be cured can be doctored just the same, at \$5 a visit?

That if at first you don't succeed, pay nine cents on the dollar to your creditors, and try again?

That a bird in the hand is the easiest way to eat it?

That a rolling stone gathers momentum, which is more valuable than moss?

That nothing ventured, nothing to buy gasoline with?

That a penny saved goes into the gum slot machine?

That all is not gold, for a lot of it comes from the 10-cent store?

That one excuse for a man not drowning his sorrow is that she might be bigger than he is?

That the man who ran for office in Kansas on a long skirt platform evidently figured on getting the bow-legged vote?

That some day somebody is going to sell an enforcement officer a drink he'll remember?

The White Plague

Pokes—Did you hear about the accident at the party last night?

Jabbs—No, what was it?

Pokes—One of the old maids got too close to an electric fan, and two men who were standing close by were almost suffocated by the powder that blew off her.

The New Clerk

He went to work on Monday.

On Tuesday he told the prospective purchaser of a bed that "we stand back of every bed we sell."

On Wednesday he directed a woman who was looking for her husband to the male order department.

On Thursday he took a display sign off a lady's blouse and put it on a bath tub. The sign read: "How would you like to see your best girl in this for \$3.75."

On Friday they fired him.

Hints for the Home

After following the above instructions and having your home furnished to your notion, you may find the place more agreeable by living up to some of the suggestions now offered. You see, in the short year of our housekeeping experience we have learned a heap. Therefore, we suggest that—

If you are getting up a really informal banquet and care not for expense, a splendid feature is to serve one large baked potato, with as many spoons as there are guests.

After the milk is solidified in the bottle, it is no longer fresh.

To clean kid gloves, give them to the baby to chew.

You can use an axe on any make of talking machine.

The surest way of keeping wall-

A LANDMARK OF LUBBOCK'S PROGRESS

The steady and continuous growth of the Lubbock State Bank is a parallel to the sound growth of our town and city. Great strides have been made in the development of the resources of our community. These developments demand financial strength and ability.

And it is with pride that the officials of this bank watch the results of their determination to assist in every conservative manner every worthy enterprise that seeks to make its abode in the great South Plains Section.

Lubbock, Texas

paper clean is to paste more paper over it.

The cheapest way to buy eggs if you want a lot of them, is to buy shad roe.

An economical dinner is to lock up the house and go over and visit Uncle Joe's family.

Their Child

Mr. and Mrs. Brown moved into a new neighborhood.

They seemed like nice people, and it was reported they hadn't been married long.

Mrs. Brown admitted, with a pretty blush, they had been married only six months.

The next day Mr. Brown was seen in the street pushing a baby carriage.

You could have knocked the neighbor women over with a straw. They got their heads together, and—

But one of the neighbor men stopped Brown in the midst of his walk and asked:

"Taking the baby for an airing, eh?"

Brown said he was.

"Let's see the little chap?" asked the neighbor.

"Don't you see it is all covered up?"

"How much does it weigh?" persisted the neighbor, intent on finding out something about it.

Brown looked carefully about, then lowered his voice. "I'm just taking it home," he said. "It weighs a gallon."

A Little Slice of Life

The temperamental lady had lost her taste

For her special gentleman friend. She met him on the street one day.

And her revolver gave him a finishing touch.

She was arrested, of course, and her name

Was featured next day in all the papers.

The sob sisters wrote stories about her.

And she became quite famous.

There was a trial, and everybody went.

She wept, and wept, and wept, and wept.

And said he had wrecked her happy life.

The court charged the jury. And the jury was out three minutes.

And brought in a verdict of "Not Guilty."

Though she had shot him in cold blood

And hadn't once denied it.

But everybody cheered the verdict. And she announced to them.

That she was going in the movies.

"Tis an awful world, mates.

SENATORIAL CANDIDATE TO OPEN CAMPAIGN IN FT. WORTH

Dallas, Sept. 21.—George E. B. Paddy, anti-klan candidate for the Senate, who will run on the Republican ticket, will probably open his campaign in Fort Worth next Monday instead of Austin, as originally planned, it was reported here today. It was said at Paddy's headquarters here today that Fort Worth had made such a strong bid for the opening address that decision had practically been made.

*CORPSE ARGUES AND IS FINED A DOLLAR

Chicago, Sept. 21.—When a corpse sat up in a stretch today and argued with a mortician's assistant, the "dead man" was taken into court and fined \$1 for disorderly conduct.

Joseph Ropa was the victim of the misunderstanding which arose when he was found lying on the railroad tracks and turned over to the undertakers as dead.

Spikes Brothers

The Cash Grocers

Ask a Question

When we started our business on a strict cash basis some people thought we were doing wrong. Now we have vindicated our ideas about saving money on groceries and we have lots of customers who will gladly testify to it.

If we were wrong, please explain why so many other grocery stores have followed our plan?

Spikes Brothers

Friends of Those Who Save

CANYON PASTOR WILL ACCEPT TYLER OFFER

Canyon, Sept. 18.—At the Sunday morning services of the Christian Church, Rev. E. A. Osborne announced to his congregation that he had accepted the call made to him last week by the First Christian Church at Tyler, and would leave for his new work after the first Sunday in October.

Rev. Osborne and his family came to Canyon on July 8, 1921. There were then about thirty active members in the church. There have been 38 additions since then, twenty-eight by baptism. The present membership is about seventy-five.

The Christian Church at Tyler has a membership of 500 or more, and is the leading church of this communion in East Texas. Tyler has a population of 15,000; a monthly payroll of \$450,000, and a commercial college of 4400 students.

*CORPSE ARGUES AND IS FINED A DOLLAR

Chicago, Sept. 21.—When a corpse sat up in a stretch today and argued with a mortician's assistant, the "dead man" was taken into court and fined \$1 for disorderly conduct.

Joseph Ropa was the victim of the misunderstanding which arose when he was found lying on the railroad tracks and turned over to the undertakers as dead.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on enamel stoves and sold by hardware and grocery dealers.

All we ask in trial. Clean your own stove, your boiler stove or your gas range. If you find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works
Sterling, Illinois

Use Black Silk Air-Drying Iron Sponges on plates, teaspoons, stove-covers, freights running, the Black Silk Stove Polish for silver, nickel or brass. It has an equal for use on automobiles.

It's Shine in Every Drop

when he was found lying on the railroad tracks and turned over to the undertakers as dead.

Freshman Class Entertained Last Friday Evening

Members of the Freshman class of the Lubbock High School, received much encouragement at the first entertainment of the term, given at the Community Auditorium Friday evening.

The High School orchestra was so effective in rendering pleasing numbers that the expressions of approval from those in attendance were good to hear.

Presley Griffin, a member of the Freshman class, had charge of the program, and under his management the entertainment was made snappy, all numbers being given in the proper place and time, which was a favorable feature of the entertainment.

Miss Addie Lou Posey gave a comical reading which delighted her hearers, she has taken such active part in all school activities for the past two terms that her name on the program is always an incentive for her friends to attend.

Prof. Marr, with typical athletic enthusiasm, discussed the advantages of "school athletics" from a practical viewpoint, and declared that if the patrons of the school will give the boys their support they will in turn stack up enviable records, which shall have their influence in making the Lubbock school known.

He is hopeful especially of the football team, and believes in the boys who are spending a great deal of time and effort to excel in that sport.

Miss Maggie Brashears, accompanied by Miss Dunn, gave a beautiful solo, which, followed by a piano duet by Mrs. Neal and Miss D. made the program an enjoyable one.

The banquet was then spread, and the delicious plates were evidence of the willingness of the freshmen to please those in attendance.

The meeting was closed by a shattering performance by Prof. Lowrey, thanking those in attendance for their encouragement, and assured them that the Freshmen class appreciated their attendance.

LUBBOCK HIGH TAKES FIRST FROM RALLS BY 34 TO 13

The Lubbock High School Football squad made a trip to our neighboring city, Ralls, Friday for the first game of football for the season, and believe me, they opened the season with a bang. Ralls was administered a severe beating by a 34 to 13 score, and their "flake" count was gotten purely from luck.

The local boys seemed to be able to gain whenever they took the notion, making many long runs from many different plays. At one time they took a forward pass for a long gain, at another a long gain from the kickoff, or an intercepted forward pass, and even long runs were made on line plunges. The game in detail:

Lubbock won toss. Receives kick. Reece returns ten yards; Wooldridge 30 yards on first play; Hensley 5 yards through line; fumble; Ralls ball. Ralls thrown for loss on first down; Ralls punts out of bounds; Lubbock's ball. Hawes makes ten yards through line; Hensley 6 yards; Wooldridge 2 yards; forward pass to Ater nets 30 yards; Ater 2 yards; forward pass failed; Hensley 8 yards through line; first down; forward pass incomplete; fumble—Ralls recovers; Ralls tried twice at line and failed to gain; forward pass failed; Everton stars on three tackles; ball goes over; Hensley 20 yards around end; Moore replaces Hawes at full; Hensley through line for 20 yards; Wooldridge 7 yards; Hensley through line for 8 yards; Hensley through line for touchdown. Try for one point drop kick failed. Lubbock kicks off; Ralls returned 10 yards; five yards on next play; line plunge—no gain; line play, no gain; ball goes over; Hensley 10 yards through line; Moore 10 yards; Wooldridge 5 yards; pass Wooldridge to Ater 15 yards; fumble; four yards to goal; Ralls recovers. Nail replaces Hooker; Smith replaces Reece; E. Moore replaces Bacon; Pryor replaces Rankin; Smith replaces Hensley. Ford pass failed. Dupre recovers ball on fumble. Lubbock penalized 5 yards offside. Wooldridge 8 yards; Smith 10 yards for touchdown; Ater kicks drop kick for one point. Ralls kicks to Lubbock; Wooldridge returns 12 yards; Moore 2 yards; Ater fails to catch forward pass; Moore fails to gain; Lubbock punts; Ralls return 12 yards; Long replaces Wooldridge; Ralls fails to gain; punts; Moore returns punt forty yards; Moore 8 yards; Smith 22 yards; Ater three yards; Smith 6 yards; Ater 14 yards. Smith failed on end run. Ater fails on line. Ater drop kicks for field goal. Ralls kicks. Moore returns 20 yards. Hankins replaces Everton. Pass incomplete; end run fails; ball fumbled and recovered; line plunge fails; Lubbock punts; Dupre made fine tackle, downs Ralls man without gain; end of first half—Ralls 0. Lubbock 16.

Lubbock kicks; Ralls returns 20 yards; forward pass completed for 30 yards; Hensley makes fine tackle on fake end run; Ralls 10 yards; pass incomplete; pass completed for touch down; drop kick for goal adds one point; Lubbock recovers; Hensley returns 5 yards; pass failed; Wooldridge fails to complete pass; ball grounded for less than 5 yards; Ralls recovers fumble and runs 30 yards for touchdown; Wooldridge tackles on goal line; Ralls kicks off; Long returns 30 yards; Hensley 3 yards; Wooldridge 2 yards; Smith gains 8 yards but is called back; both sides offside; Hensley failed at try at line; Hensley 30 yards on pass; Hensley 8 yards around end;

Do You Want the Greatest Value for Your Money?

Then Accept None But the Eclipse Windmill

Eclipse Windmills pump more water for less money for a greater number of years than any other power.

To build a windmill that will be the most economical investment for the purchaser is the object kept in view in constructing the ECLIPSE WINDMILL.

It is safe to say that there are hundreds of ECLIPSE WINDMILLS now in service that were installed over 25 or 30 years ago. This remarkable record has not been attained by any other Windmill.

In the ECLIPSE is embodied all those ideas for making a windmill strong, durable and efficient, which have been developed in 50 years experience in building windmills.

It can safely be said that the Eclipse will pump a greater quantity of water, for the longest term of years, at the least expense, of any windmill built, without exception.

Phone 127

THE WINCHESTER STORE

1212 Ave. L.

Smith fails line plunge; Hawes 2 yards; Smith 5 yards; Moore 8 yards; first down and goal to make; Smith through line 4 yards for touchdown; drop kick fails; Lubbock kicks off; Ralls returns 8 yards; two passes fail; Ralls punts but ball is blocked; end of 3rd quarter. Ralls 13, Lubbock 22.

Everton replaces Dupre; Ater replaces Smith; Ralls ball first down; Ralls made 20 yards; Nail replaces Hooker; forward pass fails; Hensley on the next play intercepted forward pass and runs 50 yards for touchdown; drop kick fails; Lubbock kicks; Ralls returns 10 yards; pass nets 2 yards; Hensley makes fine tackle on this place; Ralls 2 yards through line; Ralls tackled for loss; Ralls punted; Hawes returned punt 35 yards; Hensley 8 yards through line; Lubbock penalized 5 yards offside; forward pass to Hensley nets 15 yards; Ater 20 yards on pass; Hawes 5 yards through line; Wooldridge 8 yards; Hensley 8 yards; Hensley 12 yards for touchdown; drop kick failed; Ralls kicks; Ater returning 30 yards; Hensley 5 yards through line; Wooldridge 3 yards; Center made bad pass; ball fumbled and Ralls recovers; Ralls thrown for loss on first play; pass failed; Ralls attempts to punt; blocked; Long recovers; Hensley makes 4 yards; Ater 3 yards; Lubbock penalized 5 yards for offside; forward pass to Long nets 55 yards; pass to Hensley nets 8 yards; Hawes 6 yards through line; Hensley 3 yards; pass intercepted; Long makes good tackle; Lubbock penalized 5 yards offside; Ralls completes pass for 35 yards; attempted pass fails. Time up.

Score, Ralls 13, Lubbock 34. Ralls completes passes and other gains for 267 yards.

Lubbock completes passes and other gains for 706 yards.

CHIROPRACTOR BROUGHT INTO NATIONAL NOTICE

Word has been received by Mutton T. Council, from the Chiropractors' Research Society of Chicago, that he has been awarded an honorary degree of "Master of Chiropractic" by that society, making the 12th such degree in the United States. This degree was conferred upon him in appreciation of a lecture he delivered to the graduating class of the National Chiropractic College of that city, during his recent post-graduate work there.

This makes the fourteenth degree held by Dr. Council in his profession. In his post graduate work during the past three months he completed the work in the eye, ear, nose and throat departments of the college, X-ray spirographic work, dissection, and was awarded degrees of D. C. and P. H. C. of the National Chiropractic College of Chicago.

Dr. Council is well known not only in Lubbock and the Plains section of the state, but throughout the Southwest as one of the leading chiropractors in his profession. His work this summer has brought him into national prominence.

INFORMATION CONCERNING WOMEN BUILDING EXHIBITS

A uniform label will add to the attractiveness of any exhibit. Denison labels, sizes 201 and 209 are most attractive for this use, and can be purchased at any drug store.

Place the label one fourth inch from the bottom of the jar on plain side. On the bottom of the jar a strip with exhibitor's name and address on same.

Call at Chamber of Commerce for containers for butter and cottage cheese.

An exhibitor in any department in the Woman's Building will be permitted to remove their exhibit after six p. m., Saturday, September 30.

EXECUTOR'S NOTICE

THE STATE OF TEXAS, County of Lubbock.

To those indebted to or holding claims against the estate of R. H. Lowrey, deceased:

The undersigned having been duly appointed executor of the estate of R. H. Lowrey, deceased, by the County Court of Lubbock County, Texas, on the 21st day of July, 1922, during the regular term thereof, hereby notify all persons indebted to said estate to come forward to make settlement, and those having claims against the said estate to present them to Mrs. S. E. Lowrey or W. S. Posey, within the time prescribed by law, at their residences in Lubbock, Lubbock County, Texas, where they receive their mail.

Witness our hands this 9th day of September, A. D., 1922.

R. L. Lowrey,
W. S. Posey,
Executors of the estate of R. H. Lowrey, deceased.

Panhandle-Plains
C. of C. Convention
Closed Tuesday

Amarillo, Sept. 20.—What visitors from other parts of Texas and other States declared was one of the greatest Chamber of Commerce conventions ever held in the Southwest came to an end Tuesday night with an address on "My Dash to the North Pole," by Dr. Frederick A. Cook, before the Panhandle-Plains Chamber convention.

The next meeting place of the convention will be determined at the spring meeting of the board of directors.

Resolutions were passed at the business session inviting the Texas Press Association to hold its 1924 convention in West Texas; for the initiation of a Panhandle-Plains Fair at some town in the Panhandle; for the establishment of an agricultural

and mechanical college at some point in West Texas, the point to be determined by the Legislature after collection of data on climate, soil, rainfall, accessibility and other information; for the purchase of a cup to be donated to the county which each year holds the best school fair. The convention passed motions endorsing and praising the works of Mrs. Phebe K. Warner of Claude, and of the West Texas Normal at Canyon and the president of the school, J. A. Hill.

Appoint Committees
President Sam Braswell was instructed by vote of the convention to appoint committees to work on the following propositions made by Secretary W. N. Blanton:

A million-inhabitants club for the Panhandle; a game reserve and fish hatchery; program of publicity; greater agricultural efficiency; opposition to guarantees for lyceums and Chautauquas.

W. T. Wheeler, secretary and treasurer of the Texas Highway Association, and Dr. A. H. Lindsay, Amarillo physician, spoke at the afternoon session of the convention. The band contest, in which the Hereford, Texhoma and Memphis bands were scheduled to take part, was also held late in the afternoon. Prizes amounting to \$600, raised by the Board of City Development were offered for the best band.

Dr. J. A. Hill of Canyon Normal, spoke at the morning session on "The Support of Public Education in Texas." B. E. Clements of Waco, president of the American Grain Dealers' Association, was also one of the morning speakers. He was introduced by Lester Stone, local grain buyer. Mr. Clement spoke on "Government Problems." J. W. Palmer, swine expert, held informal conferences with farmers during the morning.

Following is the list of new directors elected at the business session: F. R. Jamison, Amarillo; B. E. Finley, Pampa; R. E. Taylor, Stratford; A. H. Storrs, Spearman; H. C. Coffey, Perryton; L. S. Hall, Follis; N. P. Willis, Camadiary; J. K. McKenzie, Miami; W. S. Christian, Plemons; L. W. Wall, Dumas; W. R. Slaton, Channing; A. S. Stinnett, Amarillo; A. A. Callahan, Panhandle; F. P. Reid, Pampa; M. M. Newman, McLean; Paul Messick, Shamrock; C. C. Small, Wellington; E. C. Cayton, Claude; E. H. Powell, Canyon; E. W. Harrison, Hereford; J. D. Hamlin, Farwell; B. D. Woodlee, Dimmit; R. M. Efielder, Tulin; J. D. King, Silverton; G. A. Sager, Memphis; R. E. Frye, Floydada; A. B. Brown, Lockney; Gus Wills, Otron; Guy W. Slack, Texhoma, Ok.; Dr. I. N. Lightner, Guyton, Ok.; W. W. Rixey, Texline; H. B. Thompson, Dalhart; C. L. Glenn, Matador; E. A. Carlock, Paducah; J. C. Thomas, Childress; J. D. Meriman, Wheeler; Vernon Shields, Vega.

25—COTTON—25

To help young men and women get ready for guaranteed positions, the Abilene Draughton Business College will now accept cotton at 25c a pound, middling basis, on complete life scholarships at regular catalog rates. Positions secured or money refunded. Write today. J. D. Miracle, President, Abilene, Texas. 61-1p

**WELL KNOWN PANHANDLE
PIONEER DEAD AT AMARILLO**

J. H. Hamner, aged 83, Confederate veteran, Panhandle pioneer, for years editor of the Claude News and one of the greatest characters associated with the upbuilding and development of the Panhandle and West Texas, died last night at 10:15 o'clock at the family residence at 1914 Fillmore street.

Mr. Hamner came to the Panhandle in 1890. He spent the greater part of his life here at Claude where he edited the Claude News, moving to Amarillo only three weeks ago with his wife and daughter, Miss Laura V. Hamner.

For forty years before coming to Texas, Mr. Hamner was associated with the Commercial Appeal, Memphis, Tennessee, in various capacities.

The family was away from the Panhandle seven years after settling in Claude in 1890, moving to Waco for that period, but came back to Claude where they took a leading part in the building of the county site of Armstrong county.

Mr. Hamner spent four years in the Confederate Army, being wounded in the battle of Fort Donaldson. He moved to Amarillo August 31, 1922, and with his family, Mrs. Hamner and only daughter, Laura, spent three weeks in their new home at 1914 Fillmore street.

Interment will be held Friday in the family lot at the Claude cemetery at 2 p. m., the funeral service being held at the cemetery under the direction of the Claude Lodge of F. & M. Mr. Hamner having been a Mason for sixty years. Pall bearers at the house in Amarillo are H. A. Nobles, A. G. Stanley, J. R. Gaut, Louis Anthony, S. E. Fish, F. R. Jamison, W. P. Martin, H. S. Bishop and Howard Trigg. At Claude the following Masons will serve as pall bearers: E. C. Cayton, Dr. W. A. Carroll, J. D. Woodburn, Jim Christian, J. E. Phillips, Robert Campbell, Bates Walker and Ladon Doak. No services will be held at the residence. The procession will leave the house at 12 noon.—Amarillo News.

**REBEKAHS HELD MEETING
AT I. O. O. F. HALL WEDNESDAY**
A large number of Rebekahs listened to the call to service and assembled at the Odd Fellow Hall Wednesday, there to do whatever willing hands could find to do to lighten the task of caring for the inmates of the Odd Fellows Home at Corsicana, Texas.

By ten o'clock three quilts were ready to be quilted, and by six o'clock five quilts were turned over to the secretary ready to be boxed and shipped.

The spirit of the past invaded the meeting and yielding to its whims, various members found themselves involved in the almost forgotten steps of "Wearily Wheat," "Shoot the Buffalo," etc. All joined in and sang impromptu snatches of camp-meeting songs, negro spirituals, and sacred hymns. We also listened with deep interest to reminiscences of early days on the plains by one of the pioneers of Lubbock county.

Sisters Spencer and Hilton, favored us with a piano duet. At noon the hungry crowd gathered around a long table loaded with delicious things, while Sister Spencer gave thanks to the Supreme Ruler for a most bountiful repast.

A vote of thanks extended Sisters Pullen, McElroy, Hinton, Clark, Lizzie Richardson, and Brothers Palmer, Delaney, Judd, Thorp, Kimmel, Lee Richardson, for donation of quilt tons, linens and cotton. Those attending this most interesting affair were: Mesdames Waters, Brown, Bettis, Shelton, Franklin, Pullen, Richardson, Clark, Vesels, Mother, Mallard, McElroy, Mollie Davis, Mary Hinton, Chas. Jordan, Spencer, J. A. Jordan, Thorp, Delaney, Luna, Turley, Misses Annie and Maggie Mallard, Delia Wilkinson, and her guest, Miss Marsh, County Demonstrator; Brothers A. L. Bettis, Palmer, Thorp, Luna, A. J. Canley, L. H. Shelton and Wm. McKinley, Sr.
Cake and ice cream were served at four o'clock by the Odd Fellows.—Rebekah.

EX-RANGER KILLED ON COTTON BELT PASSENGER TRAIN

Texarkana, Sept. 21.—Jake Majors of Mount Vernon, Texas, who was discharged from the Texas Ranger force here yesterday morning, was shot and instantly killed on a Cotton Belt passenger train at Mount Pleasant late this afternoon by United States Deputy Marshall Hill.

The killing followed an argument between Majors and Hill over a suit case Hill had taken from some man on the train. According to an eyewitness, who made a statement to Ranger R. W. Hardesty here tonight, Majors kicked Hill off the train twice and after the second time shot the deputy marshal in the leg. Majors re-entered the train and was followed by Hill, who fired three shots into Majors' body, killing him instantly.

"Majors was discharged from the Ranger force here Wednesday morning after having been asleep on duty by the officer in charge of the Ranger guards at the Cotton Belt round house and ordered to surrender his commission to Captain Lem Lamkin or Ranger R. W. Hardesty, acting as sergeants," says an official statement issued at Ranger headquarters here tonight. "Instead of doing that he talked to Captain Lamkin, but failed to mention his orders. Majors is supposed to have gone to Mount Vernon yesterday and this morning sent word to Ranger Hardesty that he would return to Texarkana tonight."

Hill is under care of a physician at Mount Pleasant tonight.

CROSBYTON
The Review
It is a pleasure to the Review editor to see the business men of Falls, Lorenzo and Crosbyton working in harmony and shoulder to shoulder to make the county fair a success. We have one of the best counties on the globe, with ample territory to support three or more good towns within the confines of Crosby County, and it is worse than foolishness for them to be jealous of each other. But it is the part of wisdom for each to join the other in any good movement, for what helps one is bound to help the other.
Monte Bowen of Lubbock, director of the Lorenzo Band, was in Crosbyton Monday in company with S. S. Powers and Editor Lorraine Quinn, and closed a contract with President W. M. Romane of the Fair Association for the Lorenzo boys to furnish music at the County Fair here next week. This band was only organized about two months ago, notwithstanding this fact, however, they have advanced rapidly and we feel sure that they will be a great winning card for the fair. The band is composed of 30 or more pieces.
The fleecy staple is beginning to pour into Crosbyton and our girls are putting in good time, and if favorable weather continues we predict an unprecedented rush next week. Crosbyton now has more cotton buyers than ever before in the history of the town and as a consequence the staple is bringing the top of the market. In fact our buyers are paying as much or more than it is bringing in Lubbock and some of the other local larger markets. The County Cotton Grader, Hon. J. C. Webb, president of the State Farmers' Union, is now at his new office near the cotton yard, and this, too, has a tendency to help boost the local market.

HARDING SUGGESTS RELIEF FUND FOR REFUGEES
Washington, Sept. 20.—An emergency appropriation of \$200,000 for relief of American refugees in the Near East was recommended to the Senate today by President Harding after receipt of an official estimate from the State Department that 1,000 Americans were in pressing need of assistance.
"It is very apparent that we have an obligation to afford relief," the President said in his letter to Chairman Warren of the Senate Appropriations Committee and added that the need could not be met by the private funds of American relief organizations.
Senate leaders plan to add the item to the pending deficiency appropriations bill. Quick action by the House was also indicated. Representative Mondell, the Republican leading, notifying members that their continued presence would be required in order that action might be had without delay.
Consul General Horton, in reporting his arrival at Piraeus from Smyria with 150 destitute Americans said that about 350 more American refugees were expected, according to Acting Secretary Phillips, and Consul Morris telegraphed from Salonicia that 600 destitute American-Greek refugees had arrived there from Smyria.

A FINE EXHIBIT OF RABBITS FOR THE FAIR
Geo. Samson, of Post City, showed the writer his wonderful pens of rabbits while the writer was in that city during the booster trip the other day. There were rabbits of all kinds and colors, some of them blue, some of them spotted, some were half white and black, some had butterfly spots on their noses. But perhaps the most unique of them all were some long haired white rabbits which Mr. Samson called Angoras. They were very beautiful.
Mr. Samson stated that he clipped these rabbits once a year, and sold the wool for \$5.00 a pound. These and other rabbits have been shown all over the United States and won premiums for their owner wherever they have been. However, Mr. Samson is not bringing these rabbits to the Fair for the purpose of winning premiums, but simply because he is interested in the South Plains Fair and wants to add to the attractions.
This exhibit of rabbits will be placed in the poultry building, and will be well worth going a long ways to see.

SENATE VOTE FAILED TO OVERRIDE BONUS VETO
Washington, Sept. 20.—The soldier bonus vote failed today, the Senate vote falling short of the necessary two-thirds majority. The Senate vote was 44 to 28, and came within a few hours after the house had passed the measure over the president's veto, 258 to 54. The Senate vote was four less than the necessary two-thirds majority.
Senators Culberson and Sheppard of Texas, voted for the bonus.
Washington, Sept. 20.—The house passed the soldiers' bonus bill today over President Harding's veto.
The vote was 258 to 54, or 50 more than the necessary two-thirds majority.

MEADOO WILL MAKE FIGHT QUOTH HE, IF NOMINATED
Ogden, Utah, Sept. 15.—William G. Meadoo declared here today: "I am not a candidate for the Democratic presidential nomination in 1924, but should I become one I will take the American people into my confidence, and tell them first, and then with both fists get into the fight and go through with it." Meadoo was in Ogden for a short time on his way from a hunting and fishing trip in Idaho and Wyoming to his home in Los Angeles.
The former secretary of the treasury avoided discussion of politics and talked largely of the "bully" time he had had upon the trip down the south fork of the Snake river in Idaho, aboard the log raft, "McAdoo Special."

Dry Goods are Cheaper and More Plentiful in Lubbock This Year

Because Lubbock is the largest and most important industrial and financial City of the South Plains its Dry Goods Merchants, Furnishing Stores, etc., are called upon to supply the demands of the 40,000 all white, native-born American citizens that inhabit the immediate territory adjacent to Lubbock.

LUBBOCK MERCHANTS ARE PREPARED FOR YOUR COMING

Fall Shopping is now on and thousands of people who will attend the South Plains Fair here Sept. 28-29-30, will find the stocks of Lubbock's merchants up to the highest standard ever attained. Never before have the people of the South Plains had the opportunity to select goods that are new, possessing known qualities at such moderate prices.

COMPETITION IS KEEN IN LUBBOCK

No other City in West Texas can boast of as large Stocks, as many stores engaged in competitive business, as many engaged in exclusive furnishings! It follows naturally that goods are cheaper in Lubbock.

WELCOME TO LUBBOCK AND TO LUBBOCK'S STORES

The Nation's Largest Markets have been scoured for the people of the South Plains and these stocks are displayed for your coming.

HERE ARE THE SUBSTANTIAL MERCHANTS OF LUBBOCK WHO HAVE PREPARED FOR YOU:

WE EXAMINE FLUES, put up stoves and polish stoves. Moore Brothers. 60-4f

Schedule of Base Ball Games to Be Played at Fair

The following schedule has been planned for the baseball tournament for the South Plains Fair: On Thursday afternoon at 1:30 p. m., Abernathy will play Shallowater, at 4:00 p. m. Union will play Carlisle. Friday morning at 10:00 Becton will play the winner of the Abernathy and Shallowater game. There will be no baseball game Friday afternoon, owing to the fact that Lubbock High School will play a football game. On Saturday afternoon at 2:00 p. m. the two winners of the previous games will play for the loving cup.
There will be no additional charge to see these games and as they will be hotly contested they will be worth going to see. These games are just a few of the amusements that are being provided for by the Fair management. Arrangements are now practically completed throughout the entire grounds for the best fair ever held on the South Plains.
Those who don't make it a point to attend the fair every day will miss something good.
Remember the Leader's Style Pageant Friday—the One BIG event. 61-1t
L. T. Martin, secretary of the Lubbock Chamber of Commerce, went to Amarillo Saturday, to visit his son, L. T., Jr.
May we call a gang stealing auto tires a rubber band? Thanks.

LUBBOCK POTATO CHIP CO. CHANGES HANDS

Stanton S. Rhea, who has for the past several months been in charge of the Lubbock Potato Chip Co., has sold his interest in the business to Messrs. Roy W. Starnes and E. C. Adair.
Mr. Rhea took charge of this business some months ago, and through service and attention to his business has built up an enviable record, and a good line of customers.
Messrs. Starnes and Adair are well known here. Mr. Starnes being a young lawyer of ability who has been associated for some time with Percy Spencer. Mr. Adair is District Manager of the Sperry-Hutchinson Co. We understand they will both retain their present positions, and Mr. Adair will bring his brother here to take charge of the inside workings of the plant. Mr. Rhea will remain with the business until the first of October.

ANNOUNCEMENT

Mr. Alvis O. Thomas, of Fort Worth, musician, singer and composer, will be here at the Baptist Church Sunday, and a program to be carried out under his directions is being made by L. M. Brooks, to be rendered Sunday night in interest of a singing class.
Mr. Thomas is well known throughout Texas, having composed more gospel songs that are popular than any other man in the State, and to have the opportunity to hear him is indeed a treat.
If you fail to attend this program you will miss something which could be of great value to you.—Lubbock Baptist Church. 61-2.

FATHER OF LOCAL MAN IS PLEASSED WITH LUBBOCK

Mr. and Mrs. B. C. Rix, of Big Spring, are here visiting their son, Ted Rix, of the Rix Furniture and Undertaking Company.
Mr. Rix had not been in Lubbock for more than a year, and said he was delighted to see such wonderful growth made in the business districts here. Those new bricks along Broadway, he declares, are a credit to the town, and he is hopeful that before many months have passed that street will be the location of many more such structures.
While Mr. Rix is a little past middle age, he still claims to be just as active as any of his boys, and after talking with him for a while we learn that a great deal of the alertness of our young townsman is hereditary.

MARRIAGE LICENSES

Elbert W. Roffey and Miss Leona Sumner, September 24; Otis Branch and Miss Beatrice Cobb, September 24; Jack Perry and Miss Pearl Clayton, September 23; Raymond D. Shelton and Miss Eva Robinson, September 19.
G. D. Young of Wilson, and Miss Jesse Jewel, Sept. 18; Douglas D. Eighsmith and Miss Jewel Warren, Sept. 16; Otis E. Rush and Miss Maude T. Hufstedler, Sept. 16; Roy Carter and Miss Irene Scott, Sept. 16; Emery Walker and Miss Dessie L. Herron, Sept. 16.
An educational statistician has stated that of 5,000,000 men, with no schooling, thirty one attained distinction. Of 33,000,000 with elementary schooling, 808 attained distinction. Of 2,000,000 high school graduates, 1245 attained distinction. Of 1,000,000 college graduates, 5,678 attained distinction.

ROTARY NOTES

After the introduction of the visitors, Butterflake was called upon to tell a few of the things if not all, that he did in Chicago. We are sure that he didn't tell all.
One of the interesting features of the program was an impromptu debate between Susie and Daddy on the question of proper classification in Rotary Club.
Louie Moore, Kiwanian, then made a two minute talk urging every one to go on the booster trip.
Karper delivered an interesting talk on methods of farming in this country. He opened his address by stating that this section should not feel discouraged because of any lack of moisture because 90 per cent of the earth's surface was in the same boat. He went on to give a number of points based upon the experience of the Experimental Farm over a period of years which if followed would make better farming for this South Plains country. The first point mentioned was a three inch well from which could be irrigated a garden for use at home. He went on to state that the chickens, the cows, and the milk cows were three important items in successful farming. He stated that if he was farming that he would divide his feed as follows: Three-fifths would be planted into milo maize, one-fifth into kafir, and one-fifth in feterita. Karper strongly advised the planting of a variety of cotton that will be sure to mature in this country every year. He gave results of ten years experience with three varieties proving his statement. He also, strongly advocated the cutting of corn acreage down to a patch only sufficient to furnish roasting ears, because as he said this is not a sure corn country, and in many years much more feed can be raised on the same acreage by planting to some of the kafirs than by planting to corn. He also strongly advocated the raising of sudan both for hay, pasturage and feed. The point he strongly emphasized was continuous clean cultivation. He closed his interesting talk with the remarks that if every farmer would farm each year just as if they expected that year to be a dry one he would make a more universal success.
Payson, alias White, made a very interesting talk along the line of what he would like to say if he was really representing the Santa Fe. A number of our brilliant speakers such as Roscoe Wilson, Tom Duggan and Tom Hutchinson, made spirited and interesting replies to his offer of co-operation with Lubbock. All together this program was one of the most interesting that the Rotary Club have enjoyed for some time.
The luncheon was served by the Baptist ladies and was equal to the program.
The following is a list of the visitors: Guy McAfee, guest of W. A. Myrick, Jr.; Mrs. C. A. Keen, guest of High-Pocket; H. B. Payson, guest of R. F. ...; C.
