HEAVY VOTING PREDICTED HERE

AVALANCHE TO BULLETIN ELECTION RETURNS AT COURTHOUSE

Every preparation for what is predicted to be the heaviest voting ever done in democratic primary in Lubbock has been made, and in all the races in which only two candidates are participating the runners have started into the last lap of the campaign, which will be terminated at seven o'clock this evening at which hour all balloting will cease.

Promptly at seven-thirty o'clock this morning all boxes in the campaigns centered about the polls today business will pick up in every precinct schoolhouse and town in the county.

Especially will the court house here be a center of activity today, as with the heated campaigns drawing the attention of both men and women voters, they will exercise their suffrage and many will remain on the job throughout the day encouraging those who are not so interested in the way the election turns out.

The election returns will be received by the Avalanche and posted on a board which will be stationed at the band stand on the court house lawn, where everyone who is interested in the race from justice of the peace to Governor may have an opportunity to see what showing has been made by their favorites.

Preparation for the election at every box in the county has been made and the following are the election judges: Lubbock: Precinct 1, Roy Starnes Precinct 2, Geo. M. Bowles; Precinct 3, L. O. Burford; Precinct 4, R. T. Penny.

Slaton: Precinct 1, C. W. White; Precinct 2, M. C. Young; Precinct 3, J. B. Mitchell; Precinct 4, J. B. Mitchell; Precinct 5, W. O. Shely; Precinct 6, A. V. McCarty; Precinct 7, Sam Ellis; Precinct 8, Jimmie Reed.

TEHERAN, Persia, July 25.—It is rumored here that The Sardar Spinah Kahn, minister of war, will resign from the cabinet over the slaying of Major Imbrie, American vice-consul.

MOB BRUTALLY ATTACKS GIRL

8 MEN; 1 WOMAN BOUND OVER TO GRAND JURY FOLLOWING HEARING

By United News. FREDERICK, Md., July 25.—Charged with the brutal tarring and feathering of pretty 21 year old Dorothy Grandon, eight men and one woman have been bound over to the grand jury under bond of \$2,000 each following a hearing Friday night.

Dorothy, an unusually attractive girl with brown eyes and bobbed hair was stripped and tarred by a mob of between 50 and 60 persons, most of them men, on the main highway near Middletown, Md., Thursday night.

Those who were bound over besides Mrs. Shanks were: Homer Shanks, her father-in-law, Calvin Shanks, a cousin of her husband; Aldrey Rice, Irving Rice and Arthur Rice, Brothers; Paul Grossnickel, Grayson Dodd, and Harry Letherman, all of Middletown.

Dorothy Grandon, her body still covered with tar, was bound under \$500 bond as a material witness. The charges against the girl's nine alleged assailants under the laws of Maryland carries a penalty of imprisonment for not less than 18 months with the alternate of a fine.

The nine were arrested prior to the hearing Friday night, which was conducted by Justice Stern. A large crowd was present at the hearing, those who were unable to get in were peering in at the windows. All of those who were arrested testified as well as several who were present when the tarring and feathering took place.

KANSAS WHEAT HARVEST SIXTH OF WORLDS CROP

FROM BANKRUPTCY TO PROSPERITY WITH ONE CROP IS RECORD MADE

SLAIN CONSUL

POLICE STAND BY WITHOUT ANY INTERFERENCE WHILE YOUNG MAN ATTACKS IMBRIE WIDOW, REPORT

By United News. TOPEKA, Kans., July 25.—From bankruptcy with one bumper crop is the story of the 1924 Kansas wheat farmer.

For three years of poor crops and low prices, Kansas farm lands were plastered with debts. Farmers were bankrupt, and their lands and homes advertised for sale by the tax collectors.

Then came suddenly prosperity, as if oil had spouted on every farm in the Kansas wheat belt. Kansas soil, famous for its wheat, yielded approximately one-sixth of the 1924 worlds crop. The nations yield fell short, as did the Canadian crop.

Now the wheat growers are cashing in on their bounteous crops, and with undreamed of profits are wiping out long standing debts, and mortgages.

Approximately sixty per cent of the crop, it is estimated, is being sold at this time by farmers who are hard pressed for cash to pay their taxes and mortgages.

MAJOR & MRS. ROBERT IMBRIE

Major Robert Imbrie, and wife, U. S. Vice-Consul in Persia, who was recently slain by a religious faction, Mrs. Imbrie was subjected to further insults Friday when she was attacked on the street by a young Persian who jerked her veil of mourning from her head and spat upon her.

E.P.S.W. AND S.P. MERGER VOTED

RESOLUTION PASSES OVER STRONG OPPOSITION FROM EL PASO

By United News. LOS ANGELES, July 25.—Endorsement of the proposed merger of the Southern Pacific and the El Paso and Southwestern Railways was voted at a meeting of California, Arizona and Texas delegations Friday.

A resolution asking that the interstate Commerce Commission act favorably to the consolidation will be forwarded.

El Paso representatives vigorously opposed the merger. J. U. Sweeney claimed that it would eliminate competition and would result in increased cost to shippers.

Finally, however, Kerke T. Moore, of Tucson, Arizona, introduced a resolution approving the merger and it was adopted. Los Angeles representatives refused to approve the merger or to go on record in favor of the move without further study of the situation.

NOGALES ARIZONA, JULY 2. GIVING WAY TO A FIT OF RAGE IN WHICH HE DECLARED THE CHILD WAS NOT HIS OWN, JOSE DURON, A MEXICAN, KILLED HIS FOUR YEAR OLD DAUGHTER, ACCORDING TO HIS CONFESSION TO NERALEZ POLICE.

Duron split the little girls head with a heavy axe, he told officers, and investigation showed that she had died instantly. The Mexican lives five miles north of the city, and the murder had not been discovered at the time he walked into the police station here.

There are three other children in the Duron family. The slain girl was of lighter complexion officials said. Duron was discharged from the Phoenix insane asylum about a year ago.

CHANCELLOR MARX REVEALED THIS ATTITUDE IN AN ADDRESS BEFORE THE REICHTAG FRIDAY. THE GOVERNMENTS ATTITUDE HAS NOT ALTERED SINCE THE STATEMENT I MADE UPON ASSUMING OFFICE, MARX DECLARED.

When he first took office, the chancellor promised that Germany would abide by the terms of the expert provided arrangement was made for the French evacuation of the Ruhr.

In confirmation that promise before the reichstag after recent threats by the nationalists to wreck application of the Dawes report, Marx cautiously added that he did not consider it advisable to elaborate on his views. The time is not opportune to enter a long discussion of the German position he pointed out.

GOV'T. PLANNING STRONG MILITARY OPERATIONS AGAINST SAO PAULO

By United News. WASHINGTON, July 25.—An appeal called upon the inhabitants at Sao Paulo, Brazil, to leave the city, in view of military operations planned by the government forces against the rebels, has been broadcasted by airplanes and by radio of the minister of war, Marshall Setembrino de Carvalho, according to advices to the state department.

There are many Americans in Sao Paulo, and this new turn of affairs may bring a protest from this government, but no indications as to whether the United States would take measures to protect its citizens there was given at the state department, when the message was made public. It came from Sheldon L. Crosby, charge d'affaires at Rio de Janeiro, and was dated Friday.

The government troops must act with freedom against the rebels who insist upon fighting under the moral protection of the civil population, the sacrifice of which we must avoid," the proclamation stated.

If appeal to the noble and industrious people of Sao Paulo to abandon the city, leaving the rebels to their fate. This is a cruel necessity, which must be accepted as imperative, and is destined to put an end at once to the state of things created by this uprising which degrades our credit as a cultured people.

"I hope that all will respond to this appeal so as to prevent suffering caused by the military operations which shall be carried on within a few days."

### JACOB FRANKS MEETS SLAYER OF YOUNG SON IN BATTLE OF WILL POWER ALMOST HURLING SELF AT DEFIANT INTELLECTUAL

By United News.  
CHICAGO, July 25.—Atrocious inhumanity on the part of Richard Loeb and Nathan P. Leopold, Jr., the same perverse quality that led them to spur on the forces hunting down the slayers of 14 year old Robert Franks, their own victim, again manifested itself Friday when they became involved in a clash of wills with Jacob Franks, father of the murdered boy. Witness after witness had described how Loeb had pretended to aid in the hunt for the murderers of Robert Franks; how he even suggested to young newspaper reporters that they conduct a search of stores to determine whether the kidnapers had telephoned Franks; how Loeb had expressed a wish in front of the Franks home that the boys killers should hang.

In the midst of this testimony, Jacob Franks entered court. Pale and bent, he looked in vain for a seat and could find none. He and come late to attend the Friday session of the hearing to determine whether there were mitigating circumstances attending the killing of his son, which had gone into its third day before chief justice John E. Caverly and the court room was filled.

Just as he stepped inside the space, reserved for newspaper people, court attaches, lawyers and judge Franks heard Alvin Goldstein, a reporter, testify:

"Loeb said: 'If I were to murder some one, Robert Franks is

just the kind of a \*\*\* I would pick out.'"

The stricken father straightened up with a jerk, he directed a glare in the direction of Loeb and Leopold, who were sitting sneering at the witness and frequently breaking into laughter.

A bailiff espied Franks and inadvertently motioned him to a chair almost in front of the two slayers, and separated from them by only a narrow aisle, about three feet wide. Franks, half stunned intensely angered at the testimony he had heard on his court entry, gazed at Leopold and Loeb with a burning intensity.

Finally, Loeb saw the father of the boy he had helped murder and again his brazenness came to the front. He started to stare back at the bereaved parent to look him squarely in the face with an effrontery that amazed spectators who happened to witness the grim drama.

Franks drew himself together and thrust his body forward from the aisle. To those near him it seemed as if he were about to hurl himself at the defiant 19 year old intellectual in an avalanche of resentment against them. Whatever Franks intended to do at that moment, he did not carry out his intention.

Leopold returned Franks' gaze but he could not bear to face the man whose son he had assisted in killing and he turned away. But Loeb brazen and insolent, the same youth who had tried to stare states attorney Crowe, out of countenance at moments in the prosecutor's opening address when he was facing the slayers stared at Franks with an ever increasing menace in his eyes.

An accomplished hypnotist, Loeb had learned in school with young Chicago University students how to concentrate his gaze and perhaps he was trying one of his strange accomplishments on the father of his victim. But righteous indignation at the amazing cruelty exhibited by Loeb had armed Franks in a way that not even the slayers' hypnotic eyes, now narrowed almost pin points, could overcome.

With increasing hatred Franks and Loeb kept their eyes on each other as they continued their strange duel of wills. Few in the courtroom had caught the significance of the gripping struggle and it was several minutes before an assistant states attorney realized that the father of the murdered boy and one of the murderers were trying to stare each other out of countenance. The trial suddenly halted as Crowe called over one of the defense counsel. A bailiff then produced another chair and Franks, trembling and incensed, was conducted to a new position far in back of the

unnatural pair who abducted and murdered his son.

But before Franks had taken his new seat he had forced Loeb to drop his eyes. The father, outraged by Loeb's attitude and gaze, had accomplished what none of the detectives or prosecutors who had questioned the young slayer were able to do.

Loeb was downcast for a few minutes afterwards. He gazed speculatively at the floor. He was deeply thoughtful. Then he leaned over and whispered to Leopold. During most of the day thereafter, Leopold had rather a harassed, worried expression. Perhaps in the eyes of the bereaved Franks he had fancied he read his own doom.

session, the justice looked at the cars.

One car was a red sport model the car owned by Leopold in which he told the police he was riding the night Franks was murdered. The other automobile was a green touring car. It had bloodstains over the seats and floor. It was the car that the killers rented, the vehicle in which they lured Robert Franks away from his school mates, and the one in which Franks was struck over the head with a chisel. This was the car Leopold and Loeb used the night Franks was killed.

Following this inspection, court was adjourned until ten o'clock Saturday morning.

### ATTEMPT TO FIND MISSING DEPUTY PROVES FUTILE

By United News.  
SAN ANTONIO, July 25.—Posses combing the territory between here and the border late Friday still had found no trace of Deputy Sheriff Jno T. Holloway, who vanished while bringing a Mexican prisoner here in an alleged stolen automobile from

Eagle Pass. Officers were investigating a round about story attributed to a companion of Eugene Biaquini, the prisoner, and who escaped when Biaquini was arrested at Eagle Pass. This was that Biaquini escaped when the automobile had a puncture and that another Mexican who held a gun on the deputy while Biaquini fled, shot Holloway and then fled himself.

Reports received here late Friday night were that a patrol holder believed to have been Holloway's and a coat thought to be that of the escaped prisoner had been found four miles from Laredo.

FOR  
**District Attorney**  
GIVE THE YOUNG MAN A CHANCE

Lubbock County now has every other District Office—Senator, Representative and Judge. The Senators and Representatives have all been residents of Lubbock County. The late Judge Spencer resided in Lubbock when twice elected District Judge. J. E. Vickers, the first District Attorney, was a resident of Lubbock and not an OUTSIDE MAN when appointed. Lynn and Dawson counties have each had this office. Crosby has never so much as been honored with a single District office. This analysis is a matter of record and will bear investigation.

Parke Dalton has attempted to deceive no man as to his secret political affiliations. As a candidate he has been fair, frank and open, and will be the same as your public official.

His candidacy is based solely and strictly on his qualifications to fill the office, and we submit him to you as a young man of high ideals, always found on the right side of every moral question, and a lawyer of undoubted ability and integrity.

# HIGHWAY WORK PROGRESSING IN THIS DISTRICT DESPITE THE LACK OF EQUIPMENT FOR DEPARTMENT

Highway work in Lubbock county will pick up considerably after the rain, according to L. O. Burford, construction foreman for the Highway Department.

It has been difficult to make any headway whatever in this work throughout the district, but despite these handicaps a great deal of work has been done that will be finished after this rain when the roadways can be dug and leveled. The heavy machinery used by the department has enabled them to do a class of work not generally known in this country and while they have been so handicapped as to make their efforts inconspicuous in a way, observers point out that the work they are doing is of such permanent character that the highways will need only maintenance and of actual rebuilding for many months to come.

A piece of work that demonstrates the value of the Highway Department's activities in this district can be seen on the Lubbock-Idalou road just east of the canyon where the grade has been made much higher than it was ever made before. Mr. Burford stated yesterday that just as soon as the ground is dry enough this strip of road will be dragged, and will then be in fine condition.

This class of road is not to be found anywhere except where construction was done under the supervision of Highway Engineers of the Highway Department, and a full appreciation of their efforts will be accorded them as soon as the users of these highways become familiar with what they are getting for their money that is being spent in this work.

The Chamber of Commerce of Lubbock is co-operating with the Highway Department in every way possible and with Division Engineer Baker and his efficient corps of assistants working steadily on the job looking after the highways in this district that is composed of some twenty-four counties, including of course, Lubbock county, and with the central office and equipment station located here, his work will result in material savings to the tax payers who if observers are correct in their statements concerning the activities of the department officials, are given a full one hundred per cent return for each dollar spent on highway construction and maintenance.

The highway that crosses the corner of Hoeky county and Lamb county from Roundup to Littlefield, is an example of what can be done by the Highway Department in highway construction and maintenance. This is without doubt one of the best strips of dirt highway to be found in West Texas.

## GLOOM ARTISTS ENCOUNTER JOLTS BY BIG RAIN

TOPEKA, Kas., July 25—Gloom artists received another jolt from the rains of last week and the early part of this. The weekly crop report, issued by the board of agriculture, sees a brighter prospect for oats in eastern Kansas.

"Fields threshed to date show yields will be better than expected and the quality is good," the report stated. Oats in central Kansas are said to be only fair.

Corn and sorghum had a good week too, and make good growth with the help of rains and hot weather. Hail, hoppers and dryness are injuring prospects in the northwest, while bugs are doing their best to annoy the farmers in northwestern Kansas.

Rains delayed threshing in central and eastern counties. Increased movement of stock to market was observed and stock is in good condition.

## COUNTY HIGHWAYS MAY BE LIGHTED IN KANSAS

KANSAS CITY, Kas., July 25—Wyandotte county commissioners received this week a tentative contract from the Kansas City Power and Light Company for lighting the county highways.

The contract provides for eighty lights on the Victory highway from the city limits to the Leavenworth county line, and seventeen lights on the Merriam road.

The cost for operation per lamp for a month is estimated at \$3.75 for each 250 candle power bulb.

## OKLAHOMA GINNERS ARE PREPARING FOR A BIG CROP

WETUMKA, Okla., July 25—Local gin men are preparing for what is expected to be the best cotton crop in years. The four local gins are being put in shape. Growers predict that the yield this year will far exceed that of the past three years.

Only a few boll weevil have yet made their appearance in this locality.

## JURISDICTION OF LABOR BOARD DISPUTED

CHICAGO, Ill., July 25.—Threatening court action if necessary, Chairman Hooper of the Railway Labor board, today ruled that this body does not have jurisdiction in hearing evidence in the wage increase application of the Western Railroads. The ruling was directly opposite to that of Attorney Richberg for the railroad brotherhoods, who declared the board had no authority, and the disputes should be taken up directly with the railroads.

Hooper said legal methods would be taken and termed the brotherhood method impertinent and improper.

## Crops In Oklahoma Benefitted By Rain Of Late

WETUMKA, Okla., July 25—Crops throughout Hughes county have been greatly benefitted by the recent showers in this section of the state. Earnest who were predicting a bumper crop if they should get a good rain are now more optimistic than ever over the crop outlook. The corn crop was especially benefitted by the late rains.

## Cooler Weather Is A Great Relief From The Heat

FORT WORTH, Texas, July 25.—Coming after a week of sweltering weather, with temperatures that had already started toll taking, and caused much discomfort, rain commenced falling in several north Texas cities today with an accompanying drop in temperatures that was felt within a radius of several hundred miles of Fort Worth.

## EAGLE LAKE FAMILY WILL MAKE THEIR HOME IN LUBBOCK

F. A. Newman, a leading citizen of Eagle Lake, Texas, called at the circulation manager's desk Friday morning and enrolled as a regular reader of the Morning Avalanche.

Mr. Newman informed us that about September 1st he will be a permanent citizen of our city but temporarily he wants the paper to be sent to him at Eagle Lake.

We extend to him and his most cordial congratulations upon the decision to become a citizen of Lubbock.

## Dallas Has A Slight Epidemic Of Typhoid

DALLAS, July 25—Dallas city health officers are today taking every precaution in checking a mild epidemic of typhoid fever, which has been developing during the past few days. Eighteen inmates of the local orphan home, are reported to be suffering of the disease, and it is believed that it was contracted from drinking cistern water. There has only been one fatality today, although other cases are scattered over the city.

EDUCATION AND THE BALLOT BOX

No doubt a good many parents living on farms are still debating whether or not they will send the boys and girls to high schools, who, last spring, completed the courses offered in the small district schools. Only one month remains in which to make this decision. Upon it rests the future welfare, not only of the boys and girls, but to a considerable extent that of the nation itself, for within a few years these boys and girls will be voters. By means of the ballot they will help decide upon the officers who shall administer the laws of our States and Nation and so upon the nature of the laws by which we shall be governed.

On the Fourth of July President Coolidge said in an address before the teachers of the United States, meeting in Washington, "America has placed the power of government squarely, securely, and entirely in the hands of the people. For all changes which they may desire, for all grievances which they may suffer, the ballot box furnishes a complete method and remedy. Into their hands has been committed complete jurisdiction and control over all the functions of government. The body politic has little chance of choosing patrician officials who can administer its financial affairs with wisdom and safety, unless there is a general diffusion of knowledge and information on elementary economic subjects sufficient to create and adequately to guide public opinion."

Practically every President from Washington to Coolidge has warned us that the improvement of American institutions depends upon the intelligence of the voters. Think of this mothers and fathers, living on the farms, before you decide not to give your boys and girls and the nation's future voters the advantages of a high school education.

CAMPAIGN FUNDS.

The LaFollettian party has already issued an appeal for campaign funds, and, though critical of capitalism, will have to call upon capitalists for aid. It hopes to raise a great sum and may have need of every dollar it can lay hands on, for, in addition to ordinary expenses, it will have to establish the machinery of a new party. The records are said to show that in 1920 the Republican National Committee spent \$5,119,729 and the Democratic National Committee \$1,318,274. The Kenyon committee reported the expenditures for the campaign before and after the nominations were made as \$8,100,739 by the Republicans and \$2,280,170 by the Democrats. In summing up the results of its investigation the committee significantly added: "These figures do not by any means represent the entire amount of money expended in the campaign. It is only reasonable to expect that sums equally great, if not greater, will be spent this year."

There is said to be much "senseless waste" of funds, but the amount actually needed under present conditions is unquestionably great. The campaign managements of all parties will have to reckon with the Borah committee, which will be in session and will require of them at intervals of ten days full statements of their receipts and expenditures. Whether these will be submitted in precisely the form which the law demands is another matter. Sometime ago there found its way into print, a letter of the Republican National Committee pointing out that no contributor need be limited as to amount because the sum, however large, could be divided and listed under several names. When this matter was brought up in the Senate no less a person than Senator Lodge, as reported, gave an indirect and cynical indorsement of this convenient method. We may rest assured that similar indorsement will be widespread in practice if not in theory.

THE REVOLT IN BRAZIL

When Don Pedro, Emperor of Brazil, was overthrown and a republic established it was accomplished not so much by the republicans as by a combination of rich slaveholding coffee planters of Sao Paulo and the leader of an aggressive military faction, General Deodoro da Fonseca. The coffee planters resented Don Pedro's decree emancipating the million and a half slaves without compensation to their owners. The militarists were alienated from him because of his pacifist leanings and his refusal to give army officers various privileges they demanded. Since that there has been constant friction between the government and the combination of militarists and coffee planters.

In 1922 when Hermes Da Fonseca sought to return a political favor by backing Nilo Pecanha for the presidency, the latter was overwhelmingly defeated by the liberal, Arthur da Silva Bernardes. Then Da Fonseca organized the rebellion of 1922, which was crushed in two days. The present conflict is but a renewal of that attempt to seize the government. President Bernardes has cut the army in size and has lived on income tax of 8 per cent on incomes over \$60,000. To prevent profiteering in foodstuffs the president took over the regu-

lation of the handling of staple food supplies. For this he is denounced as a radical and the wealthy classes, with the aid of a few army officers, seek to seize the government by revolt.

The population of Brazil is far from the primitiveness of the people of the Central American States or Mexico. At least one-third of the total population of 30,635,000 is of European blood. Between 1887 and 1917 1,224,280 Italians were among the 2,897,804 immigrants who entered the country. Anglo-Americans and Germans sent in a total of 150,000. These people seem to be content with the present government, and it is probable that peace will soon be restored in Brazil. The Administration of President Bernardes has appeared to justify itself in every way. He has the support of the best element in the country. Restoration of order would be welcome to the United States, if for no other reason than that the port of Santo is the outlet for many of the important raw products of which the United States is a large buyer.

"MORGAN'S LAWYER"

In the course of his statement pledging hearty support of John W. Davis, and referring to the charge that Mr. Davis has been "Morgan's lawyer," William C. McAdoe said that "a lawyer's views on economic, political and social questions are no more to be judged by his professional associations than is a physician to be judged by the character of his patients." Though some readers may regard this as a far from perfect parallel, even these are likely to agree with Mr. McAdoe's further statement that "Mr. Davis should be judged by his own opinions, not those of his clients." In this defense of the standard-bearer of his party Mr. McAdoe may have intended also an indirect defense of himself, but the public would be apt to recognize a difference between "Morgan's lawyer" and "Doheny's lawyer," inasmuch as the only charge brought against Mr. Morgan is that he has great wealth, while obviously Mr. Doheny, to say the least, is less fortunate.

As to the connection of John W. Davis with "Wall Street" through the handling by his firm of the Morgan business, it is interesting to learn that it has been brief. His professional connection with "big business" covers only about three years, his private legal practice prior to 1921 having been confined to Clarksburg, W. Va. It is also of interest to recall that during the five years from 1913 to 1918 he was the counsel of the United States Government under an administration conducting a wide offensive against the trusts. It seems that only after he returned "broke" from his post as Ambassador to Great Britain in the spring of 1921 did he "join the New York law firm of which Grover Cleveland was once a member. No lawyer could accumulate any very great sum in that brief period, even though serving wealthy clients in New York, which accounts for the doubtless well based conjecture that William Jennings Bryan has accumulated more wealth by lecturing in the past 25 years than John W. Davis has in the 29 years since he was admitted to the West Virginia bar.

Though more or less inevitable in these times and in some quarters, it is manifestly unfair to seek to discredit a statesman solely because his law firm handles the business of wealthy men. Obviously a statesman should be judged by his character, his achievements and the political policies he supports. Since his nomination Mr. Davis has been described as "a liberal who enjoys the confidence of conservatives." Whether this was meant critically or not, it should be accepted as a tribute. A liberal who does not excite fear among conservatives is likely to be a progressive of the sort, believing in sane and well-considered measures of reform but too well-balanced to favor doubtful or widely radical experiments. The recommendations already made by Mr. Davis unquestionably indicate that he is and will be a liberal of this trustworthy sort.

KIDNAPPED SONS OF WEALTH

In view of this country's pre-eminence among the nations in crimes of violence, the vast number of holdups by automobile and other bandits, it is surprising that the kidnaping of the children of the rich for ransom does not occur oftener. The obvious explanation is that, though the will to do the deed is not lacking among criminals, the risk involved, and the careful, well thought out plan required in every case, cause hesitation and to a large extent act as a deterrent. The kidnaping itself is easy enough, for owing to the infrequency of the crime, the children of the rich go about unattended and with the practically the same freedom of individual action as is enjoyed by the children of the poor. What is difficult and gives criminal gangs pause is securing the ransom without detection and capture. Their threat to kill their captive or their orders are not strictly obeyed may be and in their rage sometimes is carried out, but it is a profitless performance and the whole effort of the remorseless miscreants is wasted.

The latest case recalls the historic story of Charlie Ross, in that attempt to trap the band of kidnapers caused the death of Robert Franks, a 14 year old Chicago boy who had been carried off and held for a \$10,000 ransom. Like the father of Charlie Ross, the father of Robert Franks listened to advice and consented to an attempt to outwit the kidnapers. But this recent effort of law officers, like that other long ago, met tragic failure. Charlie Ross was never heard of again and the father of Robert Franks was given but the sad consolation of definite knowledge by the recovery of the body of his murdered son.

When the Royal Grouch begin to snarl and grouch, the "Little Bird" just sing and sing and sing.

It is stated that the Little Birds will cease singing when the Royal Grouchers stop their hate breeding.

This is mighty confusing to the grouchers, but it adds to the interest of life in this dark, unchristian land.

MURDERERS OF FRANKS SHOULD HANG SAID LOEB

International News Service

CHICAGO, Ill., July 25.—A tale of cunning daring and sheer nerve on the part of Dickie Loeb that rivals anything in wildest fiction was spun into records today by three reporters. Chicago newspapers which worked on the story of Franks' murder.

The reporters, Howard Mayer, Alvin Goldstein and James Mulroy, were instrumental in gathering evidence.

The reporters told how the murderers had often mingled with crowds outside Franks' home after the slaying and expressed opinions as to what should be done, mainly hanging, if the slayers were caught. Both boys got a great deal of amusement today, several times laughing outright. Meanwhile a great throng of aliens are watching their every move. It may be that this laughter will save them from the gallows.

PUBLIC OPINION

The weight of public opinion may not be essential to the enactment of a law, but it is to its effective enforcement. There seems to be a tendency for individuals or voluntary associations or clubs of individuals to dictate to others how they should vote, and openly ridicule them or even slander them if they should fail to comply.

Sometimes we are too prone to think that we are capable of teaching the other fellow how he should conduct his own business. The man who is running a bank or a farm or newspaper, who is earning wages in one of these enterprises, is usually too busy at his own job to ridicule others for their views; politically or otherwise.

Meddlers will attempt to excuse their activities by citing cases of incompetency or corruption. It is true there are such cases and the law provides means for dealing with them in a sane and orderly way. There is no cause for hysteria. The fact is, man is not perfect. Whatever the reasons may be, the fact does not warrant wholesale meddling or slandering. That same fact is no argument, that all or a large percentage of officials are incompetent or corrupt. You will find instances of similar things in every walk of life. Yet we know that, as a general rule, men are honest and capable of performing their tasks. In every case "The Man" on his merits should be elected to office—politics should be purged of its slanders, mudslinging, meddlers and radical element. This poison dropped in the well of our government will eventually destroy Democracy.

Former Crown Prince Lives At Oels Life Of Country Gentleman

By CARL D. GROAT (United Press Staff Correspondent)

BERLIN, July 24.—Crown Prince William is leading in Oels the life of a country gentleman, which he impliedly promised to do when he was permitted to return to Germany. He is keeping himself from monarchical and other politics, though he is a student of internal and international political problems.

His enemies charge him now and again with dark, deep plots but Wilhelm goes his way undisturbed and does not deign to answer what his associates term "calumnies."

All efforts of nationalistic friends to draw him into the maelstrom of German politics have been unavailing. His life in Oels is the easy, quiet life of the country gentleman. He arises early, both in summer and winter and being of an athletic turn, he starts the day with a brisk walk through the village. His breakfast is simple in pursuance of his principle that eating and drinking be moderate.

His chief vice—if vice it be—smoking. He is almost never without a cigarette, but he orders a special brand of little smokes with him lest the short cigarettes do him less damage.

Appeals for Help After his breakfast he attends to the mail, which invariably contains a vast number of appeals for help. Out of the middle class comes daily to him a cry for help, ranging from appeals for loans from 50 to 500,000 marks, to say nothing of requests for land, dwellings, linen, clothing food etc.

A young couple desiring to marry ask him to furnish the whole house or at least one room therein, another would like an old motorcycle from him; while a farmer is shortened circumstances begs him for one of the old horses from the Oels estate or perhaps for a milk cow or pig.

It would take a huge warehouse to supply all the things his correspondence asks. Sometimes he has requests for passage money to America, or expenses for a vacation trip.

On the other hand, many correspondents offer him at bargain rates jewels, silverware, pictures, engravings, patents, houses and many other things. Still another group offers their services as administrators of his estates, as inspectors, foresters, chauffeurs, gardeners, servants and the like.

And a third group begs him daily for an autographed picture or a

free copy of his memoirs, while some write to express their fidelity to him as a possible candidate to the throne. The crown prince is no longer a wealthy man. State confiscations of his property have made him economic, but where he can help, he does and his charity has assisted in drying many tears.

Above all the crown prince seeks to aid men who fought under his command during the war.

His post out of the way, the crown prince turns to the work of administering to his Oels estate, holding conferences with the foremen, administering and leasing. He also does much personal supervision of his farms, applying to them the knowledge that he gains from the agricultural course in Breslau University. He attends the agricultural lectures there once a week.

A Water Drinker. At 1 o'clock he lunches simply, drinking only water, except when guests are present, when an exception is made to the prohibition rule. After lunch he reads sometimes, or otherwise answers personally much of his correspondence.

At 4:20 he has tea with the crown princeess, and this is always an occasion for exchange of views on interesting questions, among others politics, in which the princeess is well versed. Afterwards he takes a walk through the village, or sometimes plays tennis or rides through the fields. Whenever he goes to Potsdam to visit his four sons he indulges his love for sports by sailing on the Havel lakes or by swimming.

The evening meal in the Oels castle is also simple though occasionally a bigger dinner is given at which time the crown prince appears in uniform of his old regiment, the Danzig "Libusaren." His guests are interesting people, often including politicians and professors. The crown prince devotes his evenings to study. He keeps abreast of the times by careful study of the German, English, American and French newspaper and magazines.

He also finds time for music and occasionally plays his old Anami violin, which had formerly belonged to Frederick the Great.

The crown prince's affection for his children is an especially striking characteristic and is sometimes commented that he and his four youngsters appear more like his brothers than like fathers and sons.

GERMANS MIGHT BE PRESENT AT PARLEY

LONDON, July 25.—Germany for the first time may be allowed a voice in the allied reparations conference. It was made known today when it was agreed that the suggestion of inviting the German delegates to the parley will be discussed Monday. The outlook is probable for their invitation. The deadlock over the method of procedure on the loan still existed today with a spirit of friendliness the only hopeful sign.

Miss Lucie Fisher, of Mullins, Texas, is here visiting her cousin, J. S. Slover, county treasurer.

THE DEAF GOLFER

"He's deaf as a post," said they to me, "a man with the golfer's touch."

"And I'm sorry for him," said I right then, "as a golfer he misses much."

Though his swing be true and his shots be straight, and his seconds are always up.

He misses that sweet and lovely sound when the ball drops in the cup.

There's a thrill in driving a golf ball far, there's joy in a brassie shot.

When the ball flies out where you hope it will, but it's ten to one it will not.

But the grandest thrill that the game can give, when you're fighting your best to win.

Is to hear that tinkle of ball and tin, and you know that your put went in.

You may think it joy when your mashie shot goes straight to the green and drops

Near that wind-tossed flag in the distance there and bounces just once and stops;

But sweeter far is that glad kerplunk—and I sing to its fair renown—

That clinkety-clop of a well-putted, and you know that your ball is down.

"He's deaf as a post," they said to me, of a golfer of certain skill.

"And I'm sorry for him," I answered them, "for he misses golf's greatest thrill;

Though his drives be far and his irons true, and his seconds are always up,

He misses that glorious clinkety-clop when the ball drops in the cup."

## CARPENTIER SEEKS RETURN MATCH WITH TUNNEY

By United News.  
**NEW YORK, July 25.**—Georges Carpentier, declared by the referee to have been the victim of a technical knockout at the hands of Gene Tunney Thursday night, denies he was licked when the deciding blow came in the 14th round.  
 Claiming that he was still suffering from the effects of a blow delivered to the groin, the Frenchman declared he would seek a return match with the American.  
 "I was getting stronger all the time when I received that blow," said Georges.  
 Regardless of whether the blow that put Georges out of the fight was fair or foul fight fans and sport writers continue to praise the French man's gallant come-back against Tunney after he was nearly out in the tenth.  
 After giving the matter a night's thought Deschamps has announced that the conduct of the fight was fair and honest. He goes further and says that he and his fighters are satisfied to abide by the decision of the referee.  
 Deschamps has but one criticism of the battle. Tunney, he insists fouled Carp, not with his glove but with his knee. After explaining the circumstances of the foul which he admits was unintentional, but which he insists should nevertheless have resulted in a decision for Carp, Deschamps says that the only answer to his contention is another bout between the two men.  
 "We are saying this merely to give our side of the battle," Deschamps' statement concluded, "and not with intention of registering any kick against the officials or the public. We are both satisfied that the referee was fair and honest, meant no harm to us, and we are satisfied to abide by his decision."  
 "This, so far as we are concerned, terminates the controversy. We proved that Carp is no old shell, but a gallant fighter with a good punch and great recuperative powers."

## INTEREST DULLED IN NATIONAL B Y GIANTS LEAD

By United News.  
**Friday's major league activities** were confined to the National League game in which interest is dulled because of the run-away lead of the Giants.  
 The schedules however made the American league inactive and the National leaguers received the full share of attention. They proved themselves relatively poor showmen for their games Friday caused hardly a stir in the sensation seeking hearts of the major league fans.  
 With the exception of the oft-repeated advance of the Pittsburgh Pirates to third place and the subsequent dislodging of the Dodgers, positions in the League remained unchanged.

## LAMESA WINS IN GAME WITH MIDLAND

**LAMESA, July 25.**—Lamesa won the opening game of a three-game series from Midland with a score of 9 to 8. It was a hard fought and well played game throughout. Midland started a rally in the ninth inning that gave her three runs but was unable to overcome the lead which the Lamesa club made in the early part of the game. With two men on bases and only one score shy to tie the game, Gus Rapdale, pinch hitter for the Midland team fanned for the third out. This game leaves the two teams season standing at five wins each from each other.

## FAIR BANNERS FOR AUTOS RECEIVED BY C. OF C.

Automobile banners giving the dates of the Panhandle and South Plains Fair to be held here October 1, 2, 3 and 4 have just been received at the office of the Chamber of Commerce, and local people are urged to call at that office, secure a banner and fix it permanently to their cars.

It is especially urged that those preparing to go on trips take a banner with them to give widest publicity to the fair.

These banners will be of great material benefit in making the fair known if they are properly used and the proper spirit of co-operation exercised by local people will do the job up right.

Call for your automobile banner today and don't lose any time getting the tin lizzie all dolled up. It will show the other fellow that you are interested in Lubbock and the fair, and will give the fellow you pass an opportunity to learn the where and when of one of the greatest exhibitions to be held in the state this year.

## KLAN AN ISSUE IN CORSICANA JUDGESHIP

**CORSICANA, Texas, July 25.**—With a sensational charge, that if his opponent is elected, district court will be transferred into a Klan Hall and the scale of justice will be balanced with a bucket of tar and a basket of feathers, Judge Scharbroch candidate for District Judge closed one of the bitterest campaigns ever conducted in this county. His opponent is Judge Taylor. Scharbroch was the judge who tried Mayfield on the charges of excessive use of campaign funds.

**PORT WORTH, July 25.**—With ten druggists under arrest today, and \$10,000 worth of dope in possession of the Federal Government authorities charges will be filed against several physicians in addition to the druggists, was made known today following a series of raids on the East Texas towns.

Led by W. G. Nance and H. S. Brown federal agents conducted a raid on Denison, Shazman, Omaha, Naples and Mount Pleasant.

## THOUGHT WOMEN COULDN'T VOTE

**RALEIGH, N. C., July 25.**—A report came in from a lower Lenoir county locality following a recent primary of a man who had not heard of the Susan Anthony amendment until he went to vote in the primary. He had seen no end of automobiles, did not doubt the existence of flying machines, and was not so remotely located that he had not ridden on railroad trains. He even knew of the abolition of legalized bar-room. But the enfranchisement of women was a development of which he was completely ignorant, he declared. A political vacation was responsible for his failure to be informed. He had not been near the polls in several years. The fact that there was one woman at the polling place exercising the sex's new prerogative betrayed the doom of the nation to the next night's dream. He was urged to "go ahead and attend to the business of citizenship." At first he declared he might as well resign. "I hear they're getting their hair shingled up at the town," he said.

## A Milk Laboratory Is To Be Started In Kansas

**KANSAS CITY, Kas., July 25.** Plans to establish a city milk laboratory with a full-time bacteriologist in charge, to assure Kansas City a better milk supply, were announced this week by the park commission.

The Milk Improvement Association is pushing the movement and officers of that organization have declared that if the city will not employ the bacteriologist then that organization will provide for one.

A. A. Fowler, a field worker for the association declared in a meeting of the commissioners that he had records showing that 35 per cent of the milk taken from dairies outside the association's membership tested 15 to 30 per cent water.

## NECKING PARTY ON THE STREET COSTS MAN \$12.70 IN COURT

**SWEETWATER, July 25.**—"Necking" is expensive when practiced on the streets of Sweetwater, a young man riding with a young woman in an automobile bearing a Roscoe tag learned Tuesday night after Chief of Police Johnson on foot had overtaken the car, and escorted the young man to corporation court.

The young woman was driving the car, a coupe, slowly through the business section of the city. Though the car was traveling slowly the young man was going at a high rate of speed. Chief Johnson caught sight of the "giraffe party," and while he was endeavoring to get a line on the principals the car circled the 100 block on Oak street, and the Chief did a short and snappy dash up the middle of the street, overtaking his prey.

The young man enriched the city treasury \$12.70, while the young woman waited outside in the coupe. The court informed the man that

it believed a charge of assault with attempt to murder would not be out of place, as he was apparently about to smother the young woman. As the coupe left Sweetwater, the occupants were parked as far apart as possible.

## Practice Teaching for Agricultural College Students.

Twenty-eight senior students in the department of agricultural education at the Pennsylvania State College took a month of "practice" teaching in the vocational schools and departments in various parts of the State in the past year. These agricultural students are prepared to teach in the 40 rural community vocational schools and 24 vocational departments now in Pennsylvania. Ten counties in the state have agricultural vocation supervisors who do

## Lesson for July 27

### THE TEMPTATION OF JESUS

LESSON TEXT—Matt. 4:1-11. GOLDEN TEXT—"For in that He Himself hath suffered being tempted, He is able to succour them that are tempted."—Heb. 2:18.

#### PRIMARY TOPIC—Jesus Tempted to Do Wrong

#### JUNIOR TOPIC—Jesus Conquers the Tempter

#### INTERMEDIATE AND SENIOR TOPIC—Jesus Shows Us How to Overcome Temptation

#### YOUNG PEOPLE AND ADULT TOPIC—Victory Over the Tempter

##### I. Its Purpose (v. 1).

The Holy Spirit led Him into the wilderness with the specific purpose that He there meet and overcome the one whose works He came to destroy (Heb. 2:14). His temptation was not a preparation for His work, as usually thought, but rather the opening of the dreadful conflict between Christ and Satan, which was to issue in Satan's defeat. It was not to test Jesus, to find out as to whether He would stand fast—to see whether He would sin. The eternal purpose of God as to redemption absolutely could not fail. It was rather to exhibit Him as an object upon which faith might rest, to show that a union between God and man had been effected which would insure man's reconciliation.

##### II. The Conflict (v. 2-11).

(1) The Combatants (v. 1).

Jesus Christ, Jesus Christ, the Divine Man, is now entering upon His mediatorial work. He went immediately from the place of exultation and heavenly recognition as the Son of God to meet the arch-enemy of the race.

(2) The Devil. He was a real person and, while always filled with cunning and malice, in this case the initiative was taken by the Lord. He was dragged into the presence of Jesus Christ and forced into the struggle.

(3) The Battle Ground (v. 1). It was in the wilderness of Judea. The first man was tempted in a garden with the most pleasant surroundings and failed. The second man was tempted—in a barren wilderness, surrounded by wild beasts, and gloriously triumphed.

(4) The Method of Attack (v. 2-3). Since as our Redeemer Christ sustained a threefold relationship, the Son of Man, Son of God and as Messiah, each one was made a ground of attack.

(5) As Son of Man (v. 2, 3). This was a test of the reality of His humanity. To demonstrate whether the humanity which He obtained through the virgin birth was real, the appeal was made to the instincts of hunger. Hunger is out of the result of sin. While the appetite is not sinful, to have satisfied it in a wrong way would have been sin.

(6) Son of God (v. 4, 5, 6). This was a test as to whether the personality which had come from heaven and taken upon itself humanity was divine. The Devil quoted from a Messianic psalm to get Him to presume upon God's care. God does care for His own, but to neglect common precaution—to do the uncalled for thing—just to put God's promise to a test, is sin and death. Satan tempts men today to do the spectacular things in order to get publicity, to gain the ears of the people.

(7) As Messiah (v. 7, 8, 9). Christ's mission was the Messiah to recover this world from the Devil. The Devil offered to surrender to Him on the stippled condition that He would adopt his method, thus obviating the necessity of the cross. The kingdoms were really Christ's and He knew that they would ultimately become His. The inducement was to get immediate possession without the sufferings of the cross.

(8) The Defense (v. 4, 7, 10). Christ met the enemy each time and repulsed his attack with the Word of God. Each time He said, "It is written" and quoted from Deuteronomy, the book which the higher critics would discredit. Christ had enough confidence in it to use it in this, the most crucial hour of the world's history.

(9) The Issue (v. 11).

(10) Satan vanquished. The enemy was completely routed. The strong man was so bound that the spoiling of his house was possible.

(11) Angels came and ministered unto Him. This event was so notable that these glorious beings were sent from heaven to give recognition and to minister unto the triumphant King.

## DAWES PLAN BE FORCED ON CONFERENCE REGARDLESS OF GUARANTEE FOR GERMAN LOAN, IS DETERMINATION OF CONFEREES

By United News.

LONDON, July 25.—It shall not fail!

This is the slowly hardening determination of allied and American statesmen toward the allied reparations conference which is meeting here to make a final attempt to solve the post-war problems of Europe by putting into effect the Dawes experts plan for the solution of the reparations problem, and the rehabilitation of Germany.

If an agreement between the International bankers and the French representatives on the question of future sanctions in case of German default is found impossible, the conference intends to launch the Dawes plan without a guarantee from the financiers that the \$200,000,000 German loan, the Sin Qua Non of the expert program can be raised.

From both British and American sources, it is learned definitely that the impasse caused by the adamant attitude of the Morgan and Bank of England's interests continues the conference will adopt the reports of its committee on sanctions, draw up the protocol of the conference, listen to the views of the Germans and then sound out the loan market as to the possibility of raising the credit elsewhere.

There is some hope that either a syndicate or independent banking group of German banking houses in the United States and elsewhere would endeavor to float the vital loan.

Charles Evans Hughes, the American secretary of state recently told Europe in a speech here that failure of the Dawes plan meant chaos in Europe. The majority of the conferees as well as the unofficial American representation here agree with him.

Hence, when the conference resumes Monday a strenuous day is in prospect. If a formula is devised by that time, the afternoon plenary session will send an invitation to Berlin for the German representatives to come to London and meanwhile draw up the protocol. If no formula is found, the invitation probably will be delayed while the conferees determine finally whether both the French and the German financiers are hopelessly deadlocked in their attempts to reach an agreement mutually satisfactory. But it is now declared impossible merely to break up the conference. The consequence would be disastrous.

The loan, it is pointed out totals only \$200,000,000 and it is a sum which the peoples of the world would not likely regard as too large an amount to risk when the alternative probably would mean a collapse of Germany and perhaps France, as well as depression throughout the world.

A final agreement by the conferees which did not satisfy the banking interests who are not interested in politics, but merely do not want to send capital to what they would consider unfavorable investment—probably would work in halting fashion but there is talk among the statesmen of appealing to "persons outside the ordinary investment market."

Mr. and Mrs. M. D. Beaubien, son-in-law and daughter of G. C. Harris, of Houston, arrived here Friday for a brief visit. Mr. Beaubien is with the Houston Chronicle.

### INVENTORS ARE STILL IN THE CORSET FIELD

By United Press.

NEW YORK, July 25.—When Paris shops declared recently they no longer will sell corsets, the edict was heralded far and wide as signaling the doom of stays for the American woman.

For a long time there has been a growing impression among the uninformed that corsets are nearing extinction and that women ever again will use stays. However, Munn & Co., patent and trade mark attorneys, have this to say:

"The number of patents granted in any field of endeavor is an unfailing index of the degree of promise in that field. It is a better index than the opinion of a fashion expert in Paris. The fact that inventions in corsets are on the increase is a good omen that the use of corsets will be on the increase."

"The first six months of this year there have been ten patents granted for inventions of corsets. Last year only ten patents for corsets were granted in the whole year; only seven in 1922 and only four in 1921.

"Related articles show a similar tendency. In the first six months of this year patents have been granted on four brassieres. Four were granted on brassieres in the whole of 1923, ten in 1922 and eight in 1921.

### CHILDREN BREAK SILENCE—TELL OF MURDER

By United Press.

MARTINSVILLE, Va. July 25.—Five motherless children, breaking a silence which they said was kept at the threat of death, have charged their father, Alfred D. Mullins, a farmer, with the murder of their mother more than a year ago.

One after another they related the same story to county authorities today. Their father said he would kill the first one who told they all said.

After hearing the story, Commonwealth Attorney J. K. Taylor ordered Mullins held in the Henry county jail here without bond, to be tried next October.

He was arrested at his home at Basset near here, and brought to this city with his children, who recited a gruesome story of murder with a shotgun, after a family quarrel.

Mullins vigorously denied the story of his children holding to his account of his wife's death made to the local coroner last June. At that time he said that his wife had been killed by the accidental discharge of a shotgun which had gone off when he took it from a rack in their home to go hunting. The community generally accepted the story at that time. Taylor ordered Mullins arrested on information from Mrs. James Stacey, Mullins' mother-in-law, who showed him a letter she said she had received from one of the children telling that Mullins murdered his wife.

### MEICANS TAKE TO U. S. SPORTS

By United Press.

WASHINGTON, July 25.—Knights of the cauliflower ear are threatening the popularity of the wasp-waisted tennors in Mexico City.

At least, so it would appear from a bulletin sent to the department of commerce from C. J. North of Mexico City.

Boxing matches are now being held daily in the afternoon, in the bull fight arena, according to North and the bullfight enthusiasts are taking kindly to the speculative of two human beings chasing each other around the same rings where the bull fight arenas are wont to play with charging bulls.

So great has the interest in boxing become that one of the daily papers "El Mundo" has made plans for a great tournament to decide the amateur championship of Mexico.

Baseball has become the most popular of all outdoor games, says North and there is scarcely a hamlet in the southern republic in which the natives do not engage in "sandlot" games daily.

Men and the same interest is being shown in the national game of the United States by the youth of the country as is by our own small boys. Teams are being made up daily and the natives are showing a growing proficiency in "smacking" 'em out of the lot and twisting 'em over the pan.

### THE BUILDING AND LOAN ASSOCIATION'S PROVE ENTIRELY SAFE

By United Press.

WICHITA, Kan., July 25.—That a safe plan to accumulate capital for home building is through home building and loan associations is indicated by the record of these institutions for the fiscal year ending June 30, 1923.

These institutions had on June 30, 1923, assets amounting to \$2,342,530, the report states. And the aggregate loss from failure of building and loan associations for the entire United States for the year

was less than \$50,000 or a loss of seven-thousandth of 1 per cent of the total assets of all associations.

## LUBBOCK TOURIST PARK APPROVED BY STATE

The Lubbock tourist park has just received the approval of the State Health Department, according to a communication received by the Chamber of Commerce here.

This action grew out of the work that has been done by the Chamber of Commerce working in cooperation with Dr. G. G. Castleberry, local public health officer.

Dr. Castleberry recently sent to the State department of health a complete report on conditions at the park, showing the method of sewage disposal, water supply, etc. Placards showing the requirements of the department of the tourists at the park will be posted in conspicuous places, and Dr. Castleberry will see that the park meets these requirements at all times.

This is an unimportant move, inasmuch as there are less than one hundred tourist parks in the State which are approved by the State department of health, and heretofore Lubbock did not appear on the list of those receiving that approval.

Miss Mae Morrison, governess at the Boles ranch, is spending the week-end in the home of Mr. and Mrs. M. O. Owens, 1411 Avenue L.

### WILD CAR INJURES MAN AND THE DRIVER IS ARRESTED

International News Service.

ST. LOUIS, July 25.—Thomas W. Posey, fireman on the Mississippi river pleasure steamer St. Paul, was arrested at the same time.

Posey was coming to work one morning this week, and parked his car in front of a cafe while he went to get a bite to eat. A passing motorist bumped his machine and it started down the street which was rather steep at this place.

The car stopped after having struck and seriously injured a pedestrian, Posey was arrested for careless driving.

### CONVICTED FOR MURDER-CASE APPEALED

International News Service.

AUSTIN, July 25.—Henry Thomas, convicted for the death of John Greenwood on the streets of Corpus Christi, while the latter was walking with a young lady, has filed an appeal today. He was convicted recently and given a life sentence.

Miss Mary Elizabeth, daughter of Mr. and Mrs. W. R. Adams, returned Thursday morning from an extended visit to Kansas City.

### WIFE STANDS BY MAGEE

By United News.

SANTA MONICA, Cal. July 24.—Mrs. Carl C. Magee, wife of the New Mexico editor whose utterances thru his newspaper have resulted in conviction on contempt of court charges will leave Friday to rejoin him.

Cutting short a vacation at the beach, Mrs. Magee vigorously supports her husband's stand.

"He is fighting for a principle, and I am proud of him. I am going back to help him fight," she said Thursday night.

### Man's Sorrows

Man's sorrows are a mystery, but that sinners should not have sorrows were a sadder mystery still. And God pleads with us all not to lose the good of our experiences of the bitterness of sin by our levity or our blindness to their meanings.—Alexander MacLaren.

### A Prayer

We pray Thee, O God, that Thou wilt help us to be faithful, earnest and true in all of our work, whatever it may be.

#### THE STATE OF TEXAS.

To the Sheriff or any Constable of Lubbock County, Texas: You are hereby commanded to summon John E. Shaffer, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 22nd Judicial District, but if there be no newspaper published in the nearest District to said county, then in a newspaper published in the nearest District to said county, to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court House thereof, in Lubbock, Texas, on the 4th Monday in August, A. D. 1924, the same being the 25th day of August, A. D. 1924, then and there to answer a petition filed in said Court on the 17th day of July, A. D. 1924, in a suit numbered on the docket in said Court No. 1947, wherein Lelia Shaffer is plaintiff, and John E. Shaffer is defendant, and said petition alleging: That on or about the 27th day of June, A. D. 1924, the plaintiff, Lelia Shaffer, executed and delivered to J. A. Warner, a mechanic and materialman's lien upon all of lots 13 and 14, in block 4, McCrummen's Second Addition to the town of Lubbock, Lubbock County, Texas, which is set forth in vol. 4, page 42, Mechanic's Lien Records of Lubbock County, Texas; that on or about March 1st, 1924, for a valuable consideration, said Warner sold, endorsed and delivered to L. H. McLarty, carrying with it and assigned to said L. H. McLarty, all the liens held by said J. A. Warner upon the above described property, to wit: the payment thereof, that on or about March 1st, 1924, for a valuable consideration, said L. H. McLarty transferred and assigned and delivered said note to Plaintiff and executed a written transfer of the mechanic's and materialman's lien securing same, to plaintiff, which is set forth in vol. 41, page 42, deed records of Lubbock County, Texas, and that plaintiff is the legal holder and owner of said note and the lien securing same.

That as above alleged, no written assignment has been made by said Warner to either L. H. McLarty or to plaintiff, and the whereabouts of said Warner are unknown to plaintiff, and plaintiff is therefore unable to get a written assignment of said lien. Wherefore, plaintiff prays that upon final hearing hereof, it have judgment against defendant, vesting the title to said mechanic's and materialman's lien on the above described property in plaintiff, for costs of court, and any and all other relief in law and in equity, to which it may be entitled, etc.

Wherefore plaintiff prays that she and defendant live together as a family and as affectionate husband and wife, and always performed household duties in an efficient manner becoming a good wife, and did everything in her power to make her said husband happy and contented, but that defendant abandoned her, and she has not heard that day, and she has not heard from him since that time, except to receive one unkind letter from him written several months after his said departure under date line of Los Angeles, California; that they were married in Oklahoma, as alleged, and were living in said state when he left her as aforesaid. Plaintiff alleges that defendant has left her for more than three years with the intention of abandoning her, and has permanently abandoned her for the space of time alleged; that plaintiff did not consent to the separation or to any aforesaid separation; that defendant when he left plaintiff as aforesaid he left her without any money or means for her maintenance and support, and has not in any manner shown her any support since the day he left her as aforesaid.

Wherefore plaintiff prays the court that defendant be cited, in the manner by law provided to appear and answer this petition hereon; that plaintiff have judgment dissolving said marriage relation; divorce from defendant; for change of her name to what it may be, and at time of said marriage; for costs of suit and for such other and further relief, special and general, in law and in equity, that she may be justly entitled to receive.

Herein fail not but have before said Court, at its aforesaid next regular term, showing how you have executed the same.

LOUIE F. MOORE, Clerk District Court, Lubbock Co., Texas. 226-4Sat.

### SHERIFF'S SALE

#### THE STATE OF TEXAS.

Whereas, by virtue of an execution with bill of cost issued out of the County Court of Lubbock County, Texas, on and rendered in said Court on the 20th day of May, A. D. 1924, in favor of Brown Shoe Co., a corporation and against M. D. Jones, No. 1160 on the Docket of said Court, and to me, the Sheriff, directed and returned, I did, on the 18th day of June, A. D. 1924, at 9 o'clock a. m., levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to M. D. Jones, to-wit: Lots 1-2-3, in block 171, Original Addition of Lubbock, Lubbock County, Texas, on the 5th day of August, A. D. 1924, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m., of said day, at the Courthouse-door of Lubbock County, Texas, in the town of Lubbock, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said M. D. Jones in and to said property.

Witness my hand, this 18th day of June, A. D. 1924.

#### To the Sheriff or any Constable of Lubbock County, Texas:

You are hereby commanded to summon James J. Davis, Assistant Secretary of the Navy Theodore Roosevelt, Will H. Hays, Samuel Gampers, Charles M. Schwab, Senator Capper and E. F. Albee. The supreme officers of the San Francisco, Calif.; J. Willis Brown, New Orleans, La.; E. George N. Wende, Moorhead, Ill.; Willard A. Marakko, Rochester, N. Y.; J. Albert Cassady, Baltimore, Md.; Harry N. Mace, Philadelphia, Pa.; W. H. Nant Long Island City, N. Y.; Wm. F. Tankauer, Milwaukee, Wis.; Harold H. Parsons, Gloucester, Mass.; Rodney H. Brandon, Moorhead, Ill.; John W. Ford, Philadelphia, Pa.; E. J. Henning, San Diego, Cal.; and Ralph W. E. Donges, Camden, N. J.

The supreme convention committee has arranged a week of entertainment from the welcome exercises on Sunday evening, the 27th, until Saturday morning, August 21. The program consists of musical excursions, sightseeing tours, banquets, theatre parties, outdoor fetes, a monster parade on Thursday, the 31st, when over 20,000 marchers will pass the reviewing stand; a grand coronation ball, at which, from among the various winners of the nationwide beauty contests, will be chosen a convention queen, and a day devoted to the playground of America (Coney Island); to say nothing of the many formal fraternal functions on the calendar, including a spectacular presentation of the Moose photoplay, "Emblems of Love."

Motion and William Quinn, of Grand Saline and Frederick Poffenbach, of Sweetwater, are here visiting their sons. Mr. J. A. Rice, Mr. and Mrs. Rix will take them to Silver Falls Lake Saturday for a short camping trip.

This suit and for more than five years after any cause of action arose in favor of any of the defendants to this petition, which said said Lis Pendens judgment for the sum of \$150.00 was rendered against Francis Bowles, together with foreclosure of said lien, as appears from the Minutes of the District Court of Hale County, Texas, Vol. 3, page 44; that said Francis Bowles did pay off and satisfy all of said note to the said E. J. Darst, and as a result of the payment of the said note, the said E. J. Darst, executor, as aforesaid, and at said time of payment, no release of the note, lien, or judgment was obtained. That the recitations in said deed, and the pendency of said suit and judgment constituted a lien on lot 14, block 106, original town of Lubbock, and that plaintiff is entitled to a release thereof.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this 25th day of July, A. D. 1924.

LOUIE F. MOORE, Clerk, District Court, Lubbock Co., Texas. 232-4Sat.

### SIX MEN TO DIE FOR CANADIAN MURDER

MONTREAL, Canada, July 25.—Six men face the gallows and four are fugitives from justice, as a result of one of the most sensational murders "overlooking a bet."

### ELFIN BROWNIES COX DIED AT THE AGE OF EIGHTY-FOUR

NEW YORK, June 25.—Grandparents of the current generation of little folks, the generation which gave to the world "little Rollo and his classic expression," "throw away my rompers, Mamma, I want a furt coat," recalled, another contrast between the days of their childhood, and the present day when the death of Palmer Cox, was announced, who was creator of the Elfin Brownies, Cox died at his home, Brownie Castle, near Quebec. He was 84 years old.

Young folks along about the year 1880 were enchanted with the appearance in popular children's magazines of a tribe of long-legged, pot-bellied, fairy creatures who wore upturner, pointed shoes and queer peaked hats.

It is said on the authority of a present day great-grandfather who read the papers during the heyday of the Brownies' nursery reign that during all those years not a single little boy or little girl appeared in any court charged with murder or arson or larceny which had been inspired by the antics of Palmer Cox's Brownies.

### CANADA BREAKS EVEN WITH CUBA FOR DAVIS CUP

OTTAWA, Canada, July 24.—Canada and Cuba broke even the first day of the Davis cup matches. Paris, the Cuban champion, won a grueling

five set match against Jack Wright, 10-8, 4-6, 6-0, 6-3. Wright looked like a winner after the third set but Paris, playing cautiously, forced Wright to make enough nets and outs in the next two sets to win. Wm. Crocker, Ontario champion, easily won from Ignacio Zayas, 6-1, 6-2, 6-2. Crocker excelled in every department and kept Zayas in the back line most of the time.

Mr. and Mrs. Monroe McNally and Miss Golda Harris, of Hamilton, arrived in Lubbock Thursday for a brief visit with relatives and friends.

John L. Ratliff OF LUBBOCK FOR DISTRICT ATTORNEY "OUR OWN HOME MAN" He has never been a party at any attempt to create factional dissension or strife. He is for Lubbock and Lubbock county, and he fears that this kind of agitation will be a blight on our fair city. He makes no attempt to dictate to any man or woman how he or she shall vote. He simply requests your support if you think he is the man for the place. The real issue in this race is which is the better qualified man. He deeply appreciates the noble county of Crosby, and all the other counties in the district, but he believes their citizens will join with us in saying "let merit be the only test." If elected he will be district attorney for Klansmen, Anti-Klansmen, Protestant, Catholics and Jews, and every man may securely rest on the fact that he will receive a fair deal. He thinks the district attorney should be every mans attorney, and not the attorney of a faction. He is open and honest, frank and fair, and a hard fighter for the right. He is a hard worker, a close student, a good lawyer, a loyal citizen. We believe his legal attainments, his life record of service, and his twenty years experience in the criminal courts are assets that we ought to have right now in our fight for law enforcement. We hope that you believe as we do, and trust that you will join us today, voting for him RATLIFF CAMPAIGN COMMITTEE

LAW BREAKING-AT THE TOP.

"The art of government," wrote Thomas Jefferson, "is the art of being honest." Unquestionably government without honesty must end in the ditch, yet there is a noticeable tendency in these times to imagine that public officers can be false to duty and even dishonest personally and "get away with it" without either detection or serious damage to our institutions.

In addition to all this deliberate confusion, if not demoralization of the public mind now comes a publicly expressed and cynical disregard of law by no less a person than Senator Lodge who has been ranked among our men of "light and leading."

What's the use of talking about it in this way? There isn't a man in the Senate who does not know how money is raised for campaign purposes. You talk here as if we didn't know money was raised in every state.

CURIOUS CAMPAIGNING

An unusual development in the politics of the hour is to be found in the effort to convince Democrats that they are truly represented, not by Davis but by Coolidge, because the latter is a commoner and the former is an "aristocrat."

It may well be doubted whether President Coolidge is altogether pleased with campaigning of this sort, and it is likely that a man of his intelligence is inclined to be skeptical as to its real value.

are large parts of the country wherein all the "best people" are members of it, and even in the other parts in not a few instances it is represented by men of wealth and social prominence. The same appeal to class prejudice could have been made with equal or more point against Gorge Washington, Theodore Roosevelt and other popular American statesmen.

LAST OF BOXER INDEMNITY.

Our government has concealed the last balance due from China as part of the Boxer indemnity. After American troops had participated in the suppression of the Boxer uprising in 1900 the nations exacted a huge indemnity from China to cover private claims as well as the cost of military and naval operations.

The American government's unprecedented action in 1908 caused not only gratitude in China but resentment among European powers; those desiring full payment seeing embarrassment in the example set. Since then several other powers have proposed to remit or reduce their share in the Boxer indemnity, and in Great Britain parliamentary sanction for such action is now said to be assured.

AMERICA AT THE CONFERENCES.

Though our government is taking no part officially, it is well represented at the London conference on the pressing of Europe's problems. Secretary Hughes is in London, and the British ambassador, Lord Curzon, is known to confer with the European leaders in private and in public.

The nations openly represented may find it difficult to understand how the Americans can be present in body and spirit and yet be officially absent, or why politics should compel the Coolidge Administration to be so quiet and unostentatious in its participation in this important, word-influencing conference.

THE BEST SWIMMERS.

The English may still retain their traditional leadership in year-round daily bathing, but Americans now lead all nations as swimmers, having come to the front overwhelmingly since the Olympic games in Stockholm in 1912.

American participation in the Allied conference in London, though unofficial, is reported to be active and intelligent.

GERMAN DELEGATES ARE INVITED TO CONFERENCE

LONDON, July 28.—For the first time since the world war Germany is to sit at a conference table, equally privileged to talk and perhaps even to bargain.

The plenary session of the reparations conference after several hours of discussion has authorized the principal representatives of the participating powers to summon German delegates to London to state their country's case.

## DOUBLE WIN PUTS YANKS BACK ON PINNACLE

Ejected from first place three times within short intervals during the past few weeks, the Yanks once again have perched on the American League pinnacle.

Their latest advance to the top occurred Monday when they won both games of a doubleheader from the White Sox in Chicago by scores of 3 to 2 and 12 to 10. The Tigers, who had led the race, tumbled from their pedestal and landed in second place, a full game away from the Yankees.

Babe Ruth clothed his 31st homer of the season during a ten run batting jamboree in the first inning of the second game.

The abdicating Tigers lost an eleven inning struggle with the Athletics by 7 to 4, and there by slightly plighted their dreams of pennant winning.

The Senators had been tied with the Yankees for second and third places, but as they lost to the Indians in Cleveland 2 to 1, they slipped back into third place, with the Tigers half a game above them.

In St. Louis, the Red Sox hammered out five runs in the tenth inning to win over the Browns 10 to 5.

In the National League, the Giants lost to the Cardinals in New York 6 to 0 but retained their commanding position when the second place Cubs fared no better. The Chicagoans lost to the Phillies in Quakertown by 12 to 10.

Pete Donohue pitched a 3 to 2 victory for the Reds who played the Robins and Brooklyn.

## SCOTT IS SUSPENDED ON REFUSAL TO REPORT

**KANSAS CITY, Mo., July 28.**—After stirring up quite a rumpus by refusing to join the Washington Senators unless he was granted a \$2,500 bonus, Pete Scott, suspended manager of the Kansas City Blues, is preparing to return to his home in Stockton, Calif.

Scott was traded to the Senators in return for Outfielder Griffith Infielder Gagnon, Catcher Hargrave and a cash consideration. He refused to report and was indefinitely

suspended. The Washington club called back Hargrave while George Muehlebach, owner of the Blues, purchased the other two players outright.

"I was never offered a contract with the Majors yet. I'd like to go up next year but prefer to play minor league ball for the remainder of this year."

## TAHOKA FAILED TO APPEAR FOR GAME HERE

Skipper Allen was dealt a bitter blow Sunday afternoon and many local fans who were keyed up to a high pitch suffered sad disappointment when at 2 o'clock, one hour and a half before the Tahoka exhibition against the local amateurs was scheduled to be called, Tahoka advised by telephone that they would not be here.

Many fans, upon being told before they left for the park that the game had been called off, refused to be content with this meager information and drove out to the park only to be turned back by a sign at the entrance which read something like this: "Tahoka phoned at 2 o'clock saying could not come. Lamesa being here next Sunday at 3:30 p. m."

Skipper Sled stated Monday that Lamesa will be here next Sunday afternoon and that no "shenanigans" in this schedule are expected.

Messrs. Louis Moore, J. R. Germany and W. T. Rayton left Saturday night for a fishing trip on the Pecos river.

# An old tobacco secret re-discovered-

1870-  
Wellman's famous old secret

1921-  
revived for Granger

1924-  
a popular seller in 32 states - a quarter-million smokers

## A new richness from an old-time process

Made for pipes - cut for pipes - packed sensibly to save money

NOW it can be told. Three years ago we decided to revive a famous old secret method of mellowing tobacco—"Wellman's Method", it was called.

For three years we have been quietly trying it out—we, and about a quarter-million shrewd pipe-smokers who discovered it for themselves.

No whirlwind campaigns, no "special offers", no extravagant claims; Granger Rough Cut has made good on its taste alone. There could be no better proof of its quality.

Now we are ready to "tell the world".

An extraordinary pipe tobacco. "Wellman's Method"—now ours exclusively—not only mellows tobacco, but "rounds it out"—gives it a new taste, richer and milder.

There's no other method like it, nor any other tobacco like Granger.

And not only differently mellowed, but cut differently—cut for pipes. The Rough Cut burns more slowly, hence smokes cooler—and a pipe-load lasts nearly twice as long.

And finally—notice the package. If Granger Rough Cut were packed in fancy lithographed tins, it would cost 15 cents.

But wrapped in smart heavy foil, you get this fuller, longer, cooler smoke at a third less cost. Foil instead of costly tin—hence the price.

Too good to be true? Ask any man who has tried it. Better yet—get out your pipe!

# 10¢

# Granger Rough Cut

**A Pointer on Tobacco—**

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the fact that Granger is "rough cut" to smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

HIGHLIGHTS ON WORLD FLIGHTS

By United News. UNITED STATES—Lie. Smith Wade and Nelson remain at Brough, England, trying to get in some trial flights before they take off Wednesday for Houghton Bay in the Orkney Islands—the first leg of their long and hazardous trip over the north Atlantic. ENGLAND—Major A. S. N. McLaren, British Aviator, attempting a round the world flight on an eastern course, is reported still in the Kurile Islands of Japan, wait-

ing for favorable weather before he takes another leg. ARGENTINA—Major Pedro Serrano, the Argentine round the world flier, has reached Rome on his hop from Lyons, France, flying over the Alps. He will start on his next long flight to Salsaki, Greece, probably on Wednesday. ITALY—Lt. Locatelli, after being twice reported lost, is at Ouchy, France, and plans to follow in the wake of the American flyers westward across the Atlantic.

TROOPS OCCUPY STRONGHOLD OF REBEL FORCES

3,000 KILLED AND MANY WOUNDED DURING THREE WEEKS FIGHTING

By United News. BUENOS AIRES, July 28.—Sao Paulo is in the hands of the Brazilian federalists but it is not known if the revolutionists surrendered or evacuated the city for strategic reasons. Official dispatches of the Brazilian government on this point are contradictory. The first official announcement of the occupation of Sao Paulo said the rebels surrendered but subsequent official dispatches indicated that they merely had relinquished the city. Three thousand persons have been killed and fully a thousand civilians wounded during three weeks of almost continuous fighting. Many of the finest buildings in Sao Paulo have been destroyed. The four hundred thousand residents of Sao Paulo are on the verge of starvation and unless transportation quickly is revived they will suffer additional hardships. The federal troops claim to have captured many prisoners but it is known that the rebel chiefs remain at large. President Bernardes of Brazil generally is believed to dominate the situation which for a time threatened his administration and which culmi-

nated in days of steady bombardment of Sao Paulo, creating a chaos of trade and government. The coffee trade through the port of Santos is at a standstill and all the commerce in the interior of the state is disrupted. Amnesty for the rebel soldiers probably will be decreed by the Brazilian government but the officers undoubtedly will be executed or imprisoned for life if they are captured. It has been established that the revolt was an outgrowth of the uprising of 1922, and that it not only

was directed against Bernardes but against the republican form of government. Wealthy Sao Paulo coffee planters hoped by means of the revolt to re-establish the monarchy or if that failed to erect a military dictatorship. The rebel leaders were among the richest and most influential persons in Brazil, both military and socially. They are believed still to have vast sums of money at their disposal. The dream of empire, although it was supported by those who had been educated in feudalism, was doomed to failure from the beginning. The empire fell in 1889 and there is no descendant of the family which reigned then to take the throne nor is there a popular prince available among the cast of Europe. It is highly improbable that a majority of the people desire a return to the former style of government. President Bernardes is being feted in the streets of Rio Janeiro as one of the countries greatest heroes according to dispatches from that city. It is expected that telegraphic and telephonic communication will be re-established with the Sao Paulo on Tuesday.

Meantime, amid ice packs ten miles deep off the barren coast of Amagasiik Greenland, the Danish steamer Gertrude Rusk awaits the planes with supplies. To land on the beach at Amagasiik the Americans must negotiate a mass of dangerous shifting ice floes, which constitute one of the greatest hazards of the journey. From Amagasiik, the route follows the shore to Viguit, at the southern end of Greenland.

INDIANS PREPARE TO INVADE CITY IN OKLAHOMA

LAWTON, Okla., July 28.—The greatest "Kiwanis Invasion" which has ever penetrated Southwest Oklahoma and certainly Lawton will be the delegation of Kiwanians which will visit Lawton September 1 and 2, when the District Convention is held. Several special trains are being planned for the trip which will include several thousand Kiwanians and guests from the clubs throughout Texas and Oklahoma.

The convention was held last year in Mineral Wells, Texas, when James L. Powell, of Muskogee, was elected District Governor and Mineral Wells will return Lawton's visit this summer by sending a record delegation.

One of the features of the Lawton invasion will be the familiar Muskogee orchestra. It is also rumored that Texarkana will bring along their Trio, and Houston their Glee Club, both of whom made such a hit at the Denver Convention that they have been asked to entertain every Kiwanian in the Texas-Oklahoma District, September 1 and 2. Indications are that the Lawton Convention will be the largest ever held by the District. The program committee has completed a program of business and entertainment which will occupy almost every moment

of the time. One of the entertainment features is "Stunt Night" in which "All Kiwanis Night" in which every club will take part. Lawton, in true southern manner issues a special invitation to the wives and daughters of Kiwanians and a big committee of ladies will look after their entertainment while the men are engaged in business sessions. M. M. Dupre, Claude B. Hubbard and Col. Clark M. Mullican will attend the convention as representatives of the Lubbock club.

## U. S. STRONG NOTE IS EXPECTED TO BRING PERSIA'S TROUBLE TO A CLIMAX IN CONSUL IMBRIE CASE

WASHINGTON, July 28.—The strong note which has been sent to Persia by this government is expected to bring to a climax the situation created by the murder of Major Robert Imbrie, American vice consul, in the streets of Teheran. The note probably will be made public by the state department Monday.

President Coolidge spent some time in conference at the White House Sunday with acting Secretary of State Grew and the situation was discussed thoroughly.

The situation is broader in its scope than at first thought, it is indicated in private reports to the state department, which have not been made public.

The murder of Imbrie, the reports indicated, had its origin in an anti-foreign combination in Persia which may lead to more serious developments.

It has also been reported that Persian soldiers were partly responsible for the murder of Imbrie, who was found on the body of Imbrie, according to information sent here. It is assumed that soldiers are the only persons who would carry sabers.

## CHANGE OF LIFE

Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Altha, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of House 2, this place, said:

"I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up."

"I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling."

"I would get depressed and out of heart."

"I began to feel, after awhile, there was no use to try to get well. This is all wrong, for it makes a person worse."

"I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results."

"I took one bottle of Cardui, then I saw I wasn't so nervous, so kept it up."

"Gradually the nervousness left me. I began to eat and sleep better. Was soon well, and all right. Cardui did wonders for me, and I certainly do recommend it."

"Thousands of other women have written, in full of the beneficial results obtained by taking Cardui, and to recommend it to others."

## STATE IGNORES TESTIMONY OF ALIENISTS

CHICAGO, July 28.—Ignoring somewhat contemptuously the preliminary reports of defense alienists that Nathan Leopold Jr. and Richard Loeb, confessed slayers of the 14-year old Robert Franks, were "abnormal from the cradle days" the state went methodically ahead, today, adding steadily to the mountain of evidence already established.

Writing experts, typewriter men, policemen, chaffeurs, and others, went on the stand in the morning session.

Alienists said that the childhood cruelty exhibited by the two youths and various youthful attempts of the pair at securing thrills, showed that the boys were abnormal. They cited as instances to carry out this point, the turning in of false fire alarms, and many other escapades.

One of the alienists testified that Leopold had told him during one of the examinations that he had gotten great satisfaction from seeing the blood run from his victim's head, after the neck had been bent him with the chisel.

## BARRIER BROS. DEPENDABLE MERCHANDISE

## VICTORIES that build Firestone LEADERSHIP

Firestone Leads on Speedway with Five Record Breakers

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the ten money winners in the Indianapolis race were Firestone shod. Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track, making many rounds at over 100 miles per hour.

Never before were tires put to such grueling service, where it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Driver	Time	Miles per hour
Joe Boyer—L. L. Corum	5:05:23.31	95.94
Earl Cooper	5:06:47.18	97.59
Jimmy Murphy	5:08:35.39	97.37
Harry Harts	5:10:44.39	96.55
Bennett Hill	5:11:07.00	96.46

**Balloon Tire Leadership**

Firestone's latest contribution to motoring is the low air pressure or Balloon tire. This, the original full-size Balloon, was made practical by the special Firestone Gum-Dipping process, insulating every fibre of each cord, adding great strength and stamina. Firestone has also simplified the application of full-size Balloon tires to your present car by designing a special unit consisting of tires, tubes, rims and a special unit applied by any dealer at a very low cost.

**Leadership Against British Rubber Restriction Act**

Attacking the unsound and uneconomic character of the British Rubber Restriction Act limiting the exportation of rubber from the Far East, Firestone went the one large tire manufacturer to take up the cause for the car owner. Soon after the agitation was started for America to produce rubber under its own control, the cost of crude rubber was reduced and tire prices brought back to normal.

**Leadership in Everyday Service**

Millions of motorists are profiting by the lengthened service of Firestone tires. Scores of unsolicited testimonials, emphasizing the long mileage Firestone's Gum-Dipped Cord delivers—which builds leadership in service, safety and economy.

**Leadership on Cabs, Buses and Trucks**

The largest taxi-cab companies in the five largest cities in the United States use Firestone Gum-Dipped Cords exclusively. One fleet alone, the Yellow Cab Co. of Chicago, uses over one-half million Firestone tires per day.

**Dealer Leadership Through Tire Quality and Service**

Through Firestone dealers you can obtain organized service and the soundest values on the market, whether you need a Ford 30x3 1/2, Fisher, a set of full-size Balloon Gum-Dipped Cords on a 16-inch truck tire.

### MANY NEW HIGHERS RECORDED MONDAY ON EXCHANGE

By EDWARD J. CONDLON (United News Financial Editor)

**NEW YORK, July 28.**—With a dashing demonstration of strength which astonished some of the most ardent supporters on the side of the advance, the stock market began the week with as imposing an array of record highs as was noted any day last week. Several of the industrials and oil issues sped ahead to new high ground oblivious of the efforts of professional bears to precipitate greater losses.

Traders have taken cognizance of the greatly increased buying power of the farmers. Mail order house stocks and chain stores issues featured the industrials not forgetting an advance of two and one half points in steel common on the eve of the directors meeting on the extra quarterly dividend. Some consideration this action of steel as implying that the corporation will continue the disbursements of the previous quarter at this meeting despite the passing of the quarterly payment by Bethlehem steel. The market had to contend with considerable selling in the oils as a result of the further reductions in mid-continent crude prices.

The selling was weathered without much difficulty and the leading oil stocks closed unchanged to slightly higher for the day. Reports were in circulation that some oil companies would at their other rather than offer it at the present price.

The showing of the commodity markets was disappointing. Wheat broke because of the persistent selling by eastern ware houses on the poor cables and the weakness at Winnipeg. Cotton reacted due to profit taking though the resumption of business in the cloth markets should be a telling factor in the market for the staple this week. Coffee broke sharply on the news of the capitulation of the rebels at Sao Paulo, Brazil.

Corn, oats and rye, however were sharply higher, particularly the distant positions, though corn, like wheat showed a substantial interest in the visible supply.

## CITATION BY PUBLICATION

**THE STATE OF TEXAS,**  
To the Sheriff or any Constable of Lubbock County:—Greeting:  
You are hereby commanded to summon L. M. Brown and J. E. Willett, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the 4th Monday in August, A. D. 1924, the same being the 25th day of August, A. D. 1924, then and there to answer to a petition filed in said Court on the 14th day of June, A. D. 1924, in a suit, numbered on the docket of said Court No. 1927, wherein the Security State Bank & Trust Company, of Lubbock, Texas, a corporation, is Plaintiff, and A. S. Harper, L. M. Brown and J. E. Willett, are Defendants, and said petition alleging:  
That on December 21, 1921, defendant Harper made, executed and delivered to plaintiff his note of that date for the principal sum of \$2946.50, due March 1, 1922, payable to plaintiff at Lubbock, Texas, with 10 per cent interest per annum after maturity and 10 per cent addition on principal and interest, if placed in the hands of attorney for collection;  
That the only payment made thereon was made on March 18, 1922, by defendant, A. S. Harper, and that said note and interest, is otherwise past due and unpaid;  
That said note has been placed in the hands of an attorney for collection, and the amount due thereon is as follows: \$2946.50 principal; \$76.20 interest and \$36.68 attorney's fees in aggregate, the sum of \$3049.38, which said defendant has failed and refused to pay, for which it prays judgment.  
Plaintiff further shows that on June 3, 1921, defendant Willett being indebted to defendant Harper the sum of \$258.00, due on or before 6 months, at 10 per cent interest, payable annually, evidenced by note of that date, signed by defendant, Willett and J. M. Brown,

interest, and failure to pay principal or interest when due, at the option of the holder may mature same, and also provided for 10 per cent attorney's fees in case of default in payment thereof.

That on June 3rd thereafter, said Willett conveyed to C. E. Maedgen, in trust, lot 6, blk. 108, Overton Addition to the Lubbock, Lubbock County, Texas to secure the payment of the above described note, which said note is payable to defendant, A. S. Harper.

Wherefore, plaintiff prays that upon final hearing hereof, it have its judgment for the sum of \$403.44 with interest and costs against the said A. S. Harper; it respectfully showing to the court, that the cause of the non-payment of interest on the \$288.00 note, which was due June 1922, June 1923, and June 1924, it is declared the principal of said note and all interest due. Wherefore, it prays that its judgment against the said Harper be declared a lien on such \$288.00 note, together with deed of trust on lot 6, block 108, securing same, and that said deed of trust be foreclosed and it be given judgment for the full amount of said lateral note against defendants Brown and Willett, and that the lien be foreclosed and said lot be sold to satisfy judgment and for any and all other relief, to which it may be entitled, etc.

Herein fail not but let before said Court at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Lubbock, Texas, on this 21st day of July, A. D. 1924.

Louis F. Moore, Clerk,  
District Court, Lubbock Co., Tex. 228-27ues

## YOUR SMALLEST EXPENSE

Look over that sheaf of bills for last month—or any month.

What did you buy that was worth as much to you or had as many uses—as telephone service?

That necessary service cost you relatively little, but the bills will show that you paid out dollars for things that were not essential to your welfare.

If telephone service should cost you many more dollars each month that service could be of no more value to you than it is. For it is indispensable.

DEMOCRATS TO WAGE HOT CAMPAIGN IN AGRICULTURAL STATES CONTENDING THAT GRAIN PRICES ARE OVERRATED

WASHINGTON, July 31.—Democrats still intend to focus a large part of their campaign on the farmers, despite the recent rise in grain prices which republicans claim will calm the ruffled feelings of western and northwestern agricultural states.

Democratic leaders take the position that the recent improvement will not be sufficient to make the farmer forget conditions in the last three years, and contend further that the value of the advance in grain prices to the farmer has been overrated. With this message they will hit the western line just as hard as they had planned before the agricultural situation popped up.

This attitude was outlined here Thursday by two leading democrats, Senator Walsh of Montana, permanent chairman of the democratic convention, who will make the speech of notification at Clarkburg, W. Va., and Carl Vrooman, former assistant secretary of agriculture. At the same time, the department of agriculture in an official statement explained reports that the farmers would get an increase of a million dollars this year over last as a result of grain price rise. It estimates that the increase will amount to between \$100,000,000 and \$200,000,000 on the assumption that something over 500,000,000 bushels would be sold. This increase, the statement says, speaks an increased ability to pay off debts and a general improvement in financial conditions in the wheat country.

Declaring that the farmers would not forget the depression of the last few years, Walsh pointed out that even if the present advance continued and the farmers benefited they would have to use any profit they make to wipe out debts incurred long since, and that there would be little immediate prosperity forthcoming. Walsh outlining issues, emphasized the point that one of the four major issues would be better cooperation with Europe, sought for the aid democrats claim it will bring to the farmer. The other issues in the campaign Walsh said, will be: 1. Clean government. 2. Tax reduction. Walsh described these as "aggressive" issues and said the campaign will be centered on them. The democrats have added another issue to these, opposition to mobilization day, September 12. The announcement from Davis at New York that he stood squarely behind Charles W. Bryan on this question came as a distinct surprise here. Senator Robinson, of Arkansas, democratic leader in the senate, voiced his approval of the "defense test" which is indicating the course which was expected party leaders would demand and declaring that the mobilization plan would not be a success.

CANDIDATE FOR GOV. HELD ON CHARGE DRUNKENNESS

TOPEKA, Kas. July 31.—Relating a story of two thugs leaping on the running board of his car but still unable to explain a three inch gash in his neck, Harry B. Burton, democratic candidate or governor and former mayor of Kansas City, Kansas, spent the day resting and answering questions of police. Burton was arrested late Wednesday night and booked on a charge of drunkenness, speeding and driving without lights. He told police that two men had leaped on the running board of his car a few miles from Rossville but that they did not take money or valuables he had on his person.

MIRIAM FERGUSON TO STUMP THE STATE FOR JIM

TEMPLE, Texas July 31.—Virtually assured of participating in the run-off primary for the democratic gubernatorial nomination on August 24, Mrs. Miriam Ferguson will stump Texas to tell the folks a fine man her husband, "Farmer Jim" really is. As the returns from Saturday's primary showed her leading Lynch Davidson, her nearest opponent, by more than 5,000 votes, and the count practically completed, the woman candidate laid her fight would be waged for lower taxes and on unwavering opposition to the Ku Klux Klan. "High taxes," said Mrs. Ferguson, "dissipate the people's substance; the Ku Klux Klan threatens their religious liberty. I have just begun to fight. Although I cannot say now just what my plans are, you may rest assured that I'm going to work hard for the vote and what's more—I'm going to get it." "I got into this scrap to purge the family name," blurted when my husband was impeached in office, while Governor. He did not get a fair deal. He is a good man and I'm going to tell the people so when I make my little talk."

PERSIA PROMISES PUNISHMENT OF IMBRIE SLAYER

WASHINGTON, July 31.—Smiling under the threat of the American note to break diplomatic relations with the Persian government, replied today in formal note to the effect that a strong and vigorous effort is being made to pursue and punish the slayers of Major Imbrie, American vice consul.

SAN ANTONIO MAYOR WILL NOT TOLERATE ANTI-SMOKING LAW

SAN ANTONIO, July 31.—The oyster-like muteness of "Silent Cal" Coolidge is shamefully conservative when compared with the opinion of Mayor Tobin here on the matter of forbidding women to smoke cigarettes or cigars in public places. Informed that Dallas and several other cities were contemplating ordinances preventing women from smoking in public Mayor Tobin declared, "He terminated the interview with a jerk of his thumb toward the door."

INDIAN GUIDES AID IN SEARCH FOR LOST YOUTH

BALDWIN, MICH. July 31.—Search parties of men and women were being led by Indian guides with dogs in a hunt for seven year old Water Goretzky of Chicago, who is lost in Eden Forest, in the northern part of Lake county. The lad has been missing since Wednesday, when he went on a trip into the woods with his family. Some of the searchers fear the boy may have died. A terrific storm swept through the forests Thursday night, and it is feared he may have perished while trying to find shelter. Numerous streams have been out of their banks since the storm, and a part of the section where the lad last was seen consist of dangerous swamps, places full of quick sands. After a police dog smelled a cap belonging to the missing boy, he lunged at Frank Weso, a farmer. Later the dog followed him through the woods. Weso said he had been on a train with the boy before he disappeared and the authorities, believing he had accounted for his movements, did not question him further. A local clairvoyant sent word to the parents who are directing the search that the boy had made his way through the woods to Lost Lake.

REMITTANCES OF OFFICE.

Today we are often the victims of our own or thoughtless criticism... we believe until lately that it was with the probability, hardly within those of every act of any administration.

History does not bear out the truth of that... but there is no doubt that Washington... successors, was often credited with motives far from entertaining and charged with acts which he was not guilty.

America, however, it flourishes with exceptional... for here the liberty of the press and the right of the people to express their opinions in public and private place no limit upon the... of officials.

What is to be done about it? Ex-Governor Whitman and a committee of the Bar Association... to formulate a standard simplified code of criminal procedure for all States.

AFTER TEN YEARS

Monday July 28 ends the first decade since the... of the World War. Four years of barbaric... entailing the loss of 10,000,000 lives...

And that is something that is outside the law... of more attention were paid to the reform of morals... And that is something that is outside the law.

THE SILLY SEASON

"Beauty" competitions are at their height... that has one on, and the girls who think they are "pretty" are posing for pictures...

One year the "rare" beauty chosen had about as much mind as a caterpillar, a fifth-grade education, and the vocabulary of an alley kid.

They are an invitation to the man of easy morals... It can not be doubted that laxness in modesty of demeanor and dress has gone far toward creating a false relation of the sexes...

There can be no real beauty unaccompanied by a spirit of culture education and refinement... It follows upon the successful contestants in these "beauty" contests it will be found that the poor little women immediately try to get into the "Follies" or the movies...

REMEDY FOR CRIME

Ex-Governor Whitman of New York told the American Bar Association in its recent meeting that "there still exists a lack of enforcement in the criminal laws..."

This was not a loose statement. "Crime," said Mr. Yost, "is disgracefully prevalent in the United States because the administration of justice is not sound..."

What is to be done about it? Ex-Governor Whitman and a committee of the Bar Association... to formulate a standard simplified code of criminal procedure for all States.

BUSINESS VERSUS PLEASURE

Among our pleasures and excitements as American people is what is called "Politics." There are elements of sport, gambling, speculation and all the chances and ups and downs of a lottery or horse race.

INTERNATIONAL COURTESY

Must the United States be a boor among the nations? We hear much of "shirt-sleeve diplomacy," but need we go abroad like bumptious bullies?

There may be times when it is necessary in the interests of truth and fair dealing, to speak in words as hard as cannon balls, but sincerity and direct address may be clothed in the language of courtesy.

"There is no occasion for not hearing the evidence we ask an opportunity of presenting. Mr. Marshall has not cited one case that has the remotest bearing on the issue before this court."

"There is no question but that in Illinois legal insanity means such mental disease as makes one unable to distinguish between right and wrong. If these defendants were unable to distinguish between right and wrong then we could offer an insanity defense."

"There is no claim before this court that these defendants are legally insane, so that it could have been used as a defense to this homicide. There is nothing on record to show any insanity of any kind."

"They gave us decisions that are absolute barbarous. They are for the middle ages." Loeb and Leopold had been listening to all that Darrow said with marked evidence of approval.

"The policy of law is not what it was one hundred years ago in England, 75 years ago in New York, or 50 years ago in Pennsylvania. We have learned something from physicians, science has taught us many lessons."

"We no longer believe that an insane person is an outcast, to be confined and abused. We consider now that an insane person is a human being who needs treatment. We also know that there are many mental conditions that fall far short of insanity."

SUGGESTED PROGRAM FOR TRADES DAY

- Why can't the Citizens of Lubbock, have a nice program for "Trades Day?" Monday is our regular monthly "Trades Day." Let's get up a program for old and young but especially for the boys and girls who come in with their parents. This day could be made interesting in a social as well as a "bargain day" event. We could have all of the boys and girls of Lubbock County take part in the various contests and same could be staged on one of our streets by cutting all travel off of a certain block during the program. A suitable prize for each contestant we feel sure, would be given by our business men. We suggest the following as a tentative program: 1. Musical contest by the Lubbock Band. 2. Free for all foot race by boys from 12 to 15 years of age. 3. Free for all girls foot race by girls from ten to twelve years of age. 4. Ladies Egg Race. 5. Young Ladies needle race. 6. Boys shoe race. 7. Potato race. 8. Little Boys race. 9. Little Girls race. 10. Short Address by Senator Bledsoe. 11. Take all the little children for an auto ride out over the "Tech" site. Cars to be donated by Lubbock Citizens. A Reader.

## TARIFF COMMISSION SUGAR REPORT IS GIVEN PRES.

WASHINGTON, July 31.—President Coolidge now has before him the report of the United States tariff commission on sugar production which Senator LaFollette charged two days ago was being held up by pressure of sugar interests "through the highest official channels." The report has been held up before the president by Chairman Marvin of the commission. LaFollette made his charge Tuesday, claiming that rumors were current that the report had already been completed and was being held up. Marvin denied the charge, saying that the report had not been completed, but would be presented to the president within a week.

The report will be used by the president as a basis for action in lowering or raising the sugar tariff. The investigations were started in March 1922, by President Harding, as a result of the sudden jump in the price of sugar in January and February of that year. At the time some persons blamed the rise to high tariff rates as well as speculation.

## ABBY ROCKEFELLER SPEEDING CASE SEEMS CLOSED

NEW YORK, July 31.—The momentum of Abby Rockefeller's speeding automobile finally has spent itself and under a fifth city employe is punished because she did not go to jail when apparently a second offender, the incident appears closed.

Commissioner of Accounts David Hirschfeld, who does most of Mayor John F. Hylan's investigation, has reported to the mayor the facts in the case of the daughter of John D. Rockefeller, Jr.

Briefly, according to Hirschfeld, Abby was arrested once for speeding and appeared before Magistrate Marsh in the traffic court. She received a suspended sentence.

Soon Abby was arrested again and a second offender was indicated.

Magistrate Marsh has been transferred from traffic court; Collins has been retired; Doran has been transferred to the night court, and Patrolman Fleming, who made the second arrest, has been transferred to Brooklyn.

Abby is in Europe and unless Hirschfeld's suggestion that Doran be removed from the public office is carried out, that will be about all.

It is natural to expect that after these gentlemen read the Morning Avalanche for a reasonable period of time, Smith county will lose two good citizens, while Lubbock county's population will be increased by that number. "So May It Be," says the circulation manager.

## MARKETS

### INDUSTRIAL STOCKS HIT NEW HIGH FOR YEAR THURS.

By EDWARD J. CONDLON, United News Financial Editor, NEW YORK, July 31.—Resuming its upward course in enthusiasm the market completed the final day of July with the industrial averages nearly a point higher, at a new top for the year, and the rail figures better than a quarter of a point net higher. Steel common as the recognized leader of the advance, came within about a point of the high of 1924.

The session had all of the earmarks of an old-time bull market. American Can, Studebaker, and General Electric figure prominently in the preceding which included a good assortment of new highs in the industrial group as has been noted since the upswing began. The steels were especially strong as the reviews for the week have reported of unfilled tonnage for July will show, but a small decrease.

The financial community is following developments in the Nackle Plate merger plans closely. The presence of the Van Sweringens in Wall street this week, had added zest to trading in Nackle Plate. Chesapeake and Ohio, Erie and Pere Marquette, the latter issue provided a speculative finish with a jump of nearly five points. If the Van Sweringens are successful in all of their plans, the Nackle Plate system may emerge as one of the greatest in the country. Certainly the market quotations have been eloquent in this regard or fancy weeks.

The weekly statements of the Bank of England threw some light on the steadiness of sterling. Gold holdings were increased while the increase in the note circulation was not unduly large. Incidentally, the redoubtable rate of the British institution remained unchanged at four percent, influenced to some extent by the failure of the board of the New York Federal Reserve Bank to announce any change on Wednesday.

The Bank of France statement this week indicated steady borrowing of the bank of \$30,000,000 francs. The note circulation of the French bank is still close to the high of the year, which was reached early in July. For the present the five percent rate seems to be a fixture.

### DARWINIAN THEORY GETS HARD JOLT IN GA. SCHOOLS

By United News, ATLANTA, Ga., July 31.—If there is anything the Georgia legislature can do about it, the boys and girls in Georgia's schools will not be taught that they are great-grand-great-grand-great-grand children of "brute apes." This house committee has by a vote of 13 to 0 favorably repudiated the bill of Representative Pope calling for the withdrawal of all state funds from any school or other institution at which the Darwinian theory is taught, and the bill seems certain of passage.

The matter was brought home to him, Representative Pope declared in discussing the proposed law, when his little daughter came home from school and explained to him how they had learned all about the theory in their classes. "And this rotten, damnable stuff must not be tolerated," he declared.

The proposed measure is modeled after the lines of a Kentucky law drawn by W. J. Bryan.

Speaking of his bill and the "damnable stuff" it would eliminate, Pope declared that although he was no preacher nor a preacher's son, he believed it was an outrageous shame that good methodists, baptists, and other protestants should be taxed to support institutions in which the theory of evolution was taught.

Two legislators on the committee at first opposed approval of the bill. One on the grounds that it violated the constitutional provision, preventing religious teaching in the schools and the other on contention that the proposed measure should not apply to colleges. Both men were finally persuaded to vote approval.

Many legislators took advantage of the opportunity to express their views on evolution.

Representative McGee declared that if he descended from a monkey he was certainly ashamed of it. God created man and monkeys entirely separate creatures, he declared. They have never mixed, he said, and he expressed the hope they never would.

The study of such theories was all that was wrong with Loeb and Leopold, the Chicago murderers, Representative Covington declared.

"I am in favor of this bill not only for our own good, but also for the sake of the generations which are to follow," declared Representative Stanford.

Passage of the bill when it reaches the floor is generally predicted.

**AMERICAN FLIERS HELD UP UNTILL FRIDAY MORN.**

By United News, KIRKSWALL, Scotland, July 31.—Held up by reports of a dismal fog around Iceland, their next objective, the American round the world fliers now hope to get away early Friday morning on the 500 mile hop to Hornafor.

When weather reports made a days postponement necessary, the airmen went in for an intensive day of sightseeing and shopping, playing about this picturesque Scottish town with all the abandon of school boys on a holiday.

After a tour which included a visit to the sunken German war craft in Scapa Flow and a ten mile drive through the hills surrounding Kirkwall the Americans created a sensation when after luncheon aboard the cruiser Richmond, they visited Kirkwall clad in the khaki of the American soldier wearing their helmets and puttees. As they strolled through the street amid a discreetly curious crowd of Scots, they constituted the most interesting attraction Kirkwall has experienced since the war.

In paying for goods the airmen pulled out wallets stuffed with Turkish, Rumanian, Austrian, French, and English bills.

New businesses are started at the rate of one every forty minutes and a failure takes place every five hours. A ship leaves the harbor every forty-five minutes and someone is killed by accident every fifty-five minutes. The crime records of the metropolis are startling in that they show that every seven hours there is an attempt to take some person's life, a suicide is committed each ten hours, and a murder occurs every twelve hours.

**What Horse Can Pull Shown by Tests in England**  
Tests made recently in England proved that a pair of horses, each weighing 1,800 pounds, could haul a load 600 pounds greater than themselves. On an inert track, one of these animals, it has been shown, can draw one and two-thirds times as much as on a good asphalt surface, five times as much as on a cobblestone paving and twenty times the load it can pull on an ordinary mud road. For the same type of farm horse, a cart carrying a weight of 1,200 pounds is considered to be a fair task. While pulling light vehicles and under saddle, records indicate that horses are equal to great feats of strength and endurance. A twenty-year-old team hitched to a light cart is known to have traveled a hundred miles in less than thirteen and a half hours and was in excellent condition at the end of its journey.

**Saving Gas at Home**  
All fuel experts know that a fire is not lit by the boiler but by the gas. It is this gas that is the real fuel. The fact is, however, that most of the gas that is used in the home is wasted. A simple device, known as a gas saver, can save up to 25% of the gas that is used in the home. It consists of a small device that is placed in the gas line between the boiler and the stove. It is made of a material that is very light and very strong. It is so designed that it will catch any gas that is being wasted and burn it off before it reaches the stove. This means that the stove will get a hotter fire with less gas. The device is very simple to use and it is very cheap. It is well worth the small investment that it costs. It can be found at most hardware stores and it is very easy to install. It is a device that will save you a great deal of money and it will save you a great deal of gas. It is a device that is well worth the small investment that it costs.

# Scout Troop Uses Flashlights Novel First Aid Treatment

Boys Demonstrate How Night Patrols May Be Made With Ease and

Flashlight is an essential part of the equipment of the Boy Scout Troop No. 35, of Philadelphia, Pa., which has developed a novel method of first aid treatment for night patrols.

Edward S. Bond, Scoutmaster, has developed a novel method of first aid treatment for night patrols. The method is based on the use of flashlights and is designed to provide a means of illumination in the event of a fire or other emergency.

The method is based on the use of flashlights and is designed to provide a means of illumination in the event of a fire or other emergency. It is a simple and effective method that can be used by anyone.

Other members of the troop were also present. The demonstration was held at the home of Scoutmaster Bond. The scouts were dressed in their uniform and were equipped with flashlights. The demonstration was a success and the scouts were praised for their performance.

# BUYING IN EUROPE BOOSTS PRICE OF U. S. PRODUCTS

LONDON, July 31—Increased purchasing power in Europe and the Far East and not merely a shortage in this year's wheat crop has been one of the chief factors in providing American farmers with an opportunity to sell their wheat well above production prices, according to market experts in this country.

Contrary to popular conception, the United States farmer is not in the van of the profit takers. Wheat prices recently have increased 45 cents a bushel in the Argentine, Australia, and Canada, while in the United States the increase amounts to about 27 cents.

# RIOT IS STOPPED BY THE USE OF TEAR BOMBS

RAHWAY, N. J., July 31—Several tear bombs, held menacingly in the hands of state troopers, ended a riot among 500 inmates of the state reformatory here, after clubbing, three volleys of rifle firing and repeated commands from the institution officers had failed.

But the two hours of rioting had taken its toll. One youth is said to be in a dangerous condition from a bullet wound in the abdomen, another was shot in the leg, and a third was badly cut by glass.

Two guards were beaten over the head with wooden rifles which the rioters were carrying. Several of the inmates collapsed, others were cut by flying glass, and some of the guards collapsed from the heat.

The rioting at Rahway was started Monday night when a brief encounter between several small white boys and the negro inmates led to the institution heads to place a few white boys in a separate part of the building under guard.

# Haggard, Pale - Texas Lady Suffered from Womanly Weakness, Pains and Aches; Says She Took Cardui and Got Well

Dayton, Texas.—Mrs. E. H. Weidel, of this city, writes that she has, for a long time, known of the value of Cardui from personal experience. "I don't know where I would be had it not been for Cardui, for it made a new woman out of me," says Mrs. Weidel.

"I was haggard, pale—worn to a frazzle all the time. My health was wretched. I had womanly weakness, painful... pains and aches. I heard of Cardui, and decided to use it. Cardui built me up, I grew well—like another woman—hence the praise I give it. Cardui is the best medicine I ever saw in my life."

Cardui, which this lady found so helpful, is a purely vegetable, medicinal tonic. For more than forty years, Cardui has been taken by thousands and thousands of women, everywhere, and praised by them for the beneficial results obtained from its use. If you are a woman, and suffer as many women do—

## THE JOY OF LIVING

The joy of living comes from the ability to satisfy simple needs in a wholesome way. A well-managed home contributes more to the happiness of a community than two cars in the garage. Those who conduct their financial affairs in a systematic, orderly way through the use of this Institution know the joy of living in its very essence. We solicit your business.
