SENATORS BEAT GIANTS 7-4 TO TIE SERIES

GOSLIN'S HOME RUN IN THIRD WITH TWO AHEAD GIVES THEM LEAD IN FOURTH OF SERIES

BY WILLIAM SLAVENS McNUT NEW YORK, Oct. 7.—The Washington ball club picked itself up out of the gutter of defeat here on Tuesday, took a desperate shot of hops in the old arm and tore into the Master-Mind's murderous men as though they were a flock of vegetarian bush leaguers. When the frenzy was over Washington had won 7 to 4, and the series was all even once more.

Bucky Harris pulled one for the book by gambling with some arm Magridge and sticking in Marberry, the famous pitching shoe troupe, when the old stowaway's soup-bone gave out in the eighth. In that frame, Magridge walked two men and had pitched two balls to Wilson when Bucky Harris entered in to the infield, squatted in the box and talked the matter over. Magridge admitted that he couldn't hit the general vicinity of home plate any longer with a 22 rifle, not to speak of baseball, and he blew for the club house, leaving Marberry as Marberry came in to stamp the X on the victory his predecessor had won. Barnes started for the Giants looking like one million American gold. He got McNeely, Harris and Rice in order.

Magridge Opens With Free Pass Magridge, on the other hand, began by walking Lindstrom. He looked like an unshaven tramp with one German sock in his trunk at dinner in the Rita with a chorus girl. No good. With the count three and two Pritch died, Harris to Judge and Lindstrom took second on the play. Young then lined to, Bluzge who threw wild to Judge and Lindstrom scored. The Washington rooters began making the price of crops. Kelly filed out to deep center and Young went to second after the catch. Messel walked. It was the second base on balls for the inning. Magridge's stock was for sale cheap.

Wilson then acted the part of a gentleman and got himself put out, Harris to Judge.

The Giants were one to the mercy and it seemed probable that adding machines would be necessary to keep track of the Giants' scores. The second was just a scurried inning of baseball for both sides except for the fact that Goss, the red-hot pitcher of Potomac town, started his long insanity of base hits by banging out a single.

Goslin Drives Out Homer

Then came the third and merry murder. Magridge began it by unassumingly strolling out. McNeely singled to left. Harris refused to permit one of his men to out-

(Continued on Page 5)

OVERSTREET PINNED BENEATH CAR BUT WAS NOT HURT

R. E. Overstreet, field man for the Farm Bureau cotton association, started to Paducah Monday but made poor headway, having been caught in the rain shortly after leaving town. He had gone three miles east from Lubbock on the Idalou road when the car hit out the road in a very slippery condition, and when he started to make a turn in the road the car left the highway turning upside down in the ditch, pinning him beneath it. He had been pinned beneath the car about ten minutes before help arrived. "You might imagine how I felt, with gasoline spilling from the supply tank and of course, I could see all kinds of possibilities of a short in the wiring system igniting it," Overstreet said. It took only forty dollars to put the car in running order following the accident and Overstreet did not receive a scratch, luckily.

ZR-3 To Start Saturday.

BERLIN, Oct. 7.—The ZR-3 the new dirigible built in Germany for the United States will leave Friedrichshafen for its flight across the Atlantic Saturday provided weather conditions are favorable.

WANTED THE OLD RELIABLE PAPER Mrs. George Masters, of Lorenzo, attended the South Plains Fair and while here enrolled as a reader of the Weekly Avalanche. She said she was taking another Lubbock county paper, but it did not give the local news like the Avalanche does and hence wanted the "old reliable." For twenty-four years the Weekly Avalanche has furnished the news to the people of this section, and thousands appreciate it, and will have no other.

QUARANTINE LIFTED IN MANY OKLAHOMA COUNTIES

OKLAHOMA CITY, Oct. 7.—Approximately fifty counties of West Texas were relieved Sunday of Oklahoma's quarantine against the movement of Texas livestock into this state, which has existed since the discovery of the foot and mouth disease among Texas cattle, according to John A. Whitehurst, president of the state board of agriculture. The western boundary of the Oklahoma quarantine, which ran north from the Rio Grande at Presidio county, after Sunday is along the 100th meridian to where it intersects with the Texas and Pacific railway a few miles west of Abilene, Whithurst announced. The northern boundary of the quarantine area is not disturbed by Sunday's order, the agricultural president said. That follows the Texas and Pacific line through Abilene, Dallas and Texarkana to the state line.

RAINS CHECK THE GATHERING OF THE COTTON CROP

SWEETWATER, Oct. 7.—Harvesting of the cotton crop, already hampered by shortage of pickers, was again held up Monday by rain which drenched the entire Plains region and extended the 400 miles west of Sweetwater to El Paso. Rain at Sweetwater was 1.25 inches. MIDLAND, Texas, Oct. 7.—Two inches of rain fell here Monday. Hundreds of bales of open cotton were not hurt by the slow downpour. Winter grass is assured. GARDEN CITY, Oct. 7.—Two inches of rain fell over the heart of the range country Monday. Considerable small grain has been planted and a good winter range is assured. This section has the best prospects in five years.

TEXAS-OKLAHOMA BOUNDARY MARKING IS COMPLETED

AUSTIN, Texas, Oct. 7.—According to Arthur A. Silbey, Texas reclamation engineer and a member of the Red River Boundary Commission, the actual marking of the Texas-Oklahoma boundary has been practically completed. The complete report will be made to the United States court late this fall.

LARGE ESTATE GOES TO TWENTY OR MORE PERSONS

BEAUMONT, Texas, Oct. 7.—The next meeting of the board of regents of the Texas Technological College which will be held at the Fort Worth Star-Telegram building in Fort Worth, October 28th. Dr. Paul W. Horn, president of the college, stated Tuesday that contracts will be let at this meeting, according to present plans, for the digging of the deep wells for the college water supply, the power plant building and the textile building. These contracts will involve the expenditure of about three hundred thousand dollars. Dr. Horn said building work on the college has been going at a good rate and plans are being made for a great celebration at the corner-stone laying on November 11th. The program for the celebration is being worked out by a committee from the local Chamber of Commerce co-operating with local American Legion officials.

CALL IS ISSUED FOR FAIR BILLS

OFFICIALS ASK THAT ALL BILLS BE PRESENTED ASS'N PROMPTLY Closing one of the most successful expositions in the history of West Texas Saturday night, in every line of display, officials of the South-plains fair are now beginning to look toward the end of the clean-up, both of the grounds, and of financial matters in connection with the four-day program. A. B. Duvie, Secretary-Manager of the Fair association said last night.

Duvie issued an urgent appeal for all those who hold bills against the association, in any way, to submit same at once, so that they could be placed before the Board of Directors for immediate action. No official statement had been made up last night as to the financial condition of the association, or as to total receipts for the four days, but it was intimated that the fair probably would be able to take care of the bulk of the debts that have been carried over from the past year, as well as those current. To the end that these matters be checked up promptly, and paid off as far as possible, creditors of the association are urged to submit bills as soon as possible, either in person or by mail.

Attendance records for the four days shows the interest that is being taken in the fair by people of this entire section of the state, from the New Mexico boundary, and beyond on the west to the central part of the state on the east. Large delegations were present from many towns of the South-plains, staging demonstrations during the four days, calling attention to the opportunities that are offered by the actions represented. Attendance for the four days, as announced officially last night passed the 35,000 mark.

The agricultural exhibits of eleven of the counties showing here have been shipped to Dallas, where they go into competition with other parts of the state for honors, and it is expected that these exhibits, as last year, will again bring honorable mention to the Plains section. The four first places were taken by Plains counties last year.

ATTENDED FUNERAL OF NIECE—DIED SUDDENLY

LLANO, Texas, Oct. 7.—Mrs. Will Ray, 50, was stricken with paralysis of the heart and died a few minutes after she attended the funeral services of her niece, Miss Elsie Barbers.

Both Mrs. Ray and Miss Barbers were taken to Lone Grove where treatment was held.

WHIPPING OF AUSTIN MAN WILL BE INVESTIGATED

AUSTIN, Texas, Oct. 7.—The alleged whipping of an Austin business man is to be investigated by the Travis county grand jury which was organized Monday. It is alleged that the whipping was administered in a tent at one of Austin's bathing resorts and that a woman was an eyewitness to the affair. Judge James R. Hamilton in empanelling the grand jury called special attention to the law against flogging.

BRITISH PARTY WRANGLE IS AT BREAKING POINT

DISSOLUTION OF PARLIAMENT AND GENERAL ELECTION LOOMS

LONDON, Oct. 7.—Dissolution of parliament and another general election, the third in three years, seemed almost certain to be the outcome of the attack on the labor government, which the conservative liberal parties have promised to launch Wednesday afternoon. One hour after parliament assembled Wednesday the conservative party will make a vote of censure against Premier MacDonald's government in which will be voiced the dissatisfaction of the party with the action of the labor attorney general who dropped the prosecution of a communist editor who was alleged to have printed a seditious article in his paper. The liberal party will immediately propose an amendment to the censure motion to provide for the appointment of a select committee to inquire into the discontinuance of the prosecution. There are three possible results of the present political tangle.

If censured by adoption of the conservative amendment or the substitute proposed by the liberals MacDonald may dissolve parliament and call a general election. 2. The premier may resign in favor of the conservatives who would then proceed to form a government without the necessity of obtaining endorsement at the polls. The liberals may be induced to withdraw their amendment to vote with the government against the conservative motion of censure. In the last named case the probable fall of labor would be postponed until the Anglo-Russian treaty comes up for consideration early in November at which time it is expected that both opposition parties will combine to turn MacDonald out.

Dissolution and an immediate general election is the most logical result of the governments embarrasment. An assistant secretary to King George conferred with MacDonald Tuesday while the first secretary and the king himself are hastily returning from Scotland. The king's office in a dissolution are essential, and it is believed that the premier has summoned him to London to be ready to act.

FEDERAL COURT RESUMES WORK IN ABILENE

ABILENE, Texas, Oct. 7.—A grand jury of 23 men was empanelled in the United States court for the northern district of Texas here Monday morning following the opening of the two weeks' October term by Federal Judge W. H. Atwell, of Dallas. Judge Atwell is presiding in the absence of Judge James C. Wilson, who is holding court in the El Paso district due to the recent death of Judge W. R. Smith. The grand jury was charged as to all the law violators that come under their investigation. The post-office, prohibition, bankruptcy and theft of interstate shipment laws, the Mann act, the Dyer act, and the Harrison anti-narcotic act were mentioned by Judge Atwell.

HEAVY MOVEMENT OF GRAIN FROM PORT ARTHUR

PORT ARTHUR, Texas, Oct. 7.—Chamber of Commerce officials state that the heaviest movement of grain from Port Arthur in many years was experienced during the month of September when 350 cars were handled. They announced the movement totaled more than a million bushels, mainly wheat.

TECH COLLEGE MEN TO MEET HERE THE 28TH

Texas people are interested in the next meeting of the board of regents of the Texas Technological College which will be held at the Fort Worth Star-Telegram building in Fort Worth, October 28th. Dr. Paul W. Horn, president of the college, stated Tuesday that contracts will be let at this meeting, according to present plans, for the digging of the deep wells for the college water supply, the power plant building and the textile building. These contracts will involve the expenditure of about three hundred thousand dollars. Dr. Horn said building work on the college has been going at a good rate and plans are being made for a great celebration at the corner-stone laying on November 11th. The program for the celebration is being worked out by a committee from the local Chamber of Commerce co-operating with local American Legion officials.

LINCOLN TRIAL TO OPEN TODAY

WARREN LINCOLN GOES ON TRIAL FOR MURDER OF WIFE AND BROTHER

GENEVA, Ills., Oct. 7.—Dr. H. R. Hulbert, the psychiatrist, who told the world about the king slave fantasy of Dickie Loeb, and Babe Leopold, will take the witness stand in the trial of Warren J. Lincoln, and tell what he saw when he peeped into the brain of the man who killed his wife, and brother and placed their heads in a cement block. The trial of the "lawyer-horticulturist" will get under way Wednesday, the jury having been selected late Tuesday. The defense will plead insanity, and besides Dr. Hulbert, has secured the services of several other alienists. Since Lincoln was incarcerated he has exhibited no worry over his plight. Accustomed to comfortable, even luxurious surroundings—the lawyer-horticulturist has pursued his scientific studies entirely oblivious, apparently to the world about him.

Ed Lincoln, grocery clerk and brother of Warren is expected to be the first witness called. His testimony will deal with the family history which records a number of cases of insanity, according to Harvey Gansul, counsel for Lincoln. Warren Lincoln will also be called to the stand in his own behalf. Gansul stated. While on the stand Lincoln's conduct will be observed by the jury. While the state points to his brilliant record as a horticulturist—Lincoln's attorneys will attempt to draw him out of his delusions, which are varied and numerous and which, according to several alienists who have examined him carefully indicate paranoia dementia.

Dr. Hulbert declared Tuesday that during the Franks case, Lincoln imagined himself to be Richard Loeb. The alienists says that Lincoln is under the delusion that he is being persecuted by a "red hatted man with a wart on his left ear."

EXTRAVAGANCE IS THE MAIN CAUSE DIVORCE

LOS ANGELES, Calif., Oct. 7.—Extravagant habits of his wife are blamed by Frank A. Cotter, former-ly a wealthy Iowa land owner, for the wrecking of a married life, which started 25 years ago. In a divorce suit filed Monday Cotter declares that in one business after another, his wife persisted in spending lavish sums. She lost \$40,000 which came from the sale of an orange grove, made him fail in an automobile agency, consumed \$500 a month as pin money and finally caused him to invest all his capital in a motion picture enterprise in which Mrs. Cotter was to be the featured star, but which never started production, the complaint states.

IDEAL WEATHER PREVAILED DURING FIRST 12 HOURS OF FLIGHT ON 7,000 MILE TOUR

ON BOARD THE U. S. N. SHENANDOAH ENROUTE TO FORT WORTH, Oct. 8. (Wednesday).—Ideal sailing weather prevailed throughout the 12 hours of the 1,000 mile voyage of the big navy dirigible from coast to coast. Winds not felt on the surface of the earth were met in the upper levels of the sky between 1,000 and 3,000 feet.

At 8 o'clock Tuesday night the ship was driving straight into a 12 mile hour current; all five motors were going; the immense gas-filled tube with its cabin and power gondolas, was riding as smoothly as if in a bed of feathers at a speed of forty miles an hour.

NEW MACHINERY FOR ROADS HERE

STATE HIGHWAY DEPARTMENT MENDING ROADS IN FIFTH DISTRICT

Lubbock county autoists will be delighted with the work that is being done by the State Highway Department in putting the designated highways in good condition. R. W. Baker, division engineer of the State Highway Department of the 5th division, has just received three ten-ton Holt caterpillar type tractors together with three Adams leaning-wheel graders two of which were put into operation on the Lubbock-Tahoka road south of Lubbock at noon Tuesday.

At three o'clock when the writer, in company with John Witt, office man for the department's headquarters in Lubbock, went to the place where the tractors were being used, we found the rough highway being smoothed out, and the big tractors were making good time. Each of the graders were being used on the right side of the road, and today they will be turned back toward town and will complete work on that section of the highway.

To appreciate the work that can be done with this modern and heavy road-building machinery one will have to see it in use. Mr. Baker has promised that the department's headquarters in Lubbock will be put in fine shape before many months have passed, and the reputation this county has for having the roughest roads in this section will vanish.

The rapidity with which road work can be done with the equipment that will be used by the department has been received, and a number of "floating gang" outfits, which will be equipped with maintenance tools including small tractors, large trucks for hauling supplies, camp outfits on wheels, etc., will be received in the near future. The Highway Department is preparing to carry on its work here throughout this division on a big scale, and we are assured of all designated highways being put in fine condition, which will mean savings of thousands of dollars to autoists in reduced repair bills and greater mileage per gallon of gas.

PLANS FOR FLYING CLUBS MADE IN GREAT BRITAIN

LONDON, Oct. 7.—Plans for government subsidized flying clubs throughout Great Britain are making great progress. Clubs are being organized at Plymouth, Birmingham, Glasgow, Manchester, and Harrogate as well in London, where the Royal Aero Club is doing the work. It is planned to organize ten clubs covering the whole United Kingdom at which civilians can learn flying. A grant of \$10,000 will be made to each club organized, provided members raise a similar amount. Annual grants will be made of \$2,500 for training expenses, and \$50 will be paid to a club for each member who qualifies for a pilot's certificate.

The Virgin Islands take their name from St. Ursula and her virgins.

Ship Sailing Smoothly. The Shenandoah is sailing smoothly with hardly a vibration or swell in the forward navigation cabin. Only three of her five motors have been used. Alternately-lightening herself by spurring water blast and holding her nose off by shifting men along the 650 foot runway inside the gas bag, the Shenandoah cast off anchor at 10 o'clock Tuesday from the mooring at Lakehurst, N. J. and began the longest non-landing air voyage ever undertaken. Admiral Moffett, chief of navy aviation, was aboard and Lt. Commander Zachary Lansdowne was in command. The Shenandoah is sailing smoothly with hardly a vibration or swell in the forward navigation cabin. Only three of her five motors have been used. Alterations were made in the Shenandoah's course to bring the dirigible over Washington, and Baltimore. It was decided to enter the capital across Potomac Park, and to go into Virginia by way of Arlington and Mount Vernon. At the present speed and with continued favorable weather Atlanta should have been reached by midnight Tuesday and Birmingham at about 6 o'clock Wednesday morning. Three hours later Lt. Commander Zachary Lansdowne hopes to be hovering over Columbus, Miss., and at noon to be above Greenville, The Shenandoah should reach Fort Worth shortly before midnight Wednesday. Rainy weather clear through to San Diego and up the coast to Tacoma has been forecast for Wednesday. A dozen navy airplanes greeted the Shenandoah at the edge of the capitol. As the planes circled around the slower moving dirigible, two trains were speeding to Washington out distanced by the airship as she passed the Laura Grace track. Midway between Baltimore, and Washington, the trains apparently began a race, which those aboard the Shenandoah were able to witness 1,500 feet overhead, from start to finish. Before one of the trains had established its superior speed, the Shenandoah was several miles ahead of both of them. First Stop at Fort Worth. Leaving her station at Lakehurst, N. J., on what Rear Admiral Moffett, chief of the navy bureau of aeronautics described as "the most severe test to which a dirigible has ever been subjected," the Shenandoah pointed southward and began at a smooth, steady pace, on her 7,000 mile journey across the continent and return. The dirigible's stop will be at Fort Worth, Texas, where a mooring mast awaits her, she also will be moored to masts at San Diego, Calif., and Camp Lewis, Washington.

PHONE 487

The Lubbock Music Club to Hold First Meeting Saturday

The Lubbock Music club will meet next Saturday at three o'clock at the Methodist church.

The president, Miss Huff, urges that all members be present at this the first meeting of the club year.

The year book will be ready for distribution at this meeting and many important questions are to be discussed.

The program follows:
Subject—Notation of Music.
Roll Call.
Business.
Leder Mrs. Rix.
News: Notation—Mrs. H. O. Waters.
Elements of Staff Notation—Mrs. J. L. Ratliff.
Analysis of Pitch Notation—Mrs. S. H. Stewart.
Rhythm Notation and Tone length—Mrs. John Jarrot.
Definition of Terms pertaining to Notation—Miss Margaret Huff.

The Red Cross at the South Plains Fair

The Red Cross Emergency Hospital proved that the ideal of service held by the Red Cross can be reached in many ways, and indeed, many people were impressed anew with the willingness of the organization to help in every way and its quiet efficiency in emergencies.

Many minor accidents occurred during the four days of the South Plains Fair which were promptly cared for by the nurses in charge. Several lost children were cared for, their fears and cries calmed and they were eventually returned to anxious parents.

Several old people were overcome with the heat and several faints and were brought to the hospital to be revived. Many lost articles were found and brought to the Red Cross rooms to be returned to the owners.

Nurses from both Sanitariums served and made the hospital possible and the officials of the Red Cross expressed their deep appreciation for their co-operation.

The Red Cross quarters contained three rooms, a rest room and a nursery besides the hospital both were well patronized and many mothers spoke of the great comfort and convenience afforded them by the services offered.

The Red Cross board is to be praised for the efficient work done as well as the secretary, Miss Mae Muffee whose untiring efforts and excellent planning made it a success.

The Rix Furniture Company furnished the rooms and the hospital supplies were secured from the drug stores. The committee in charge was: Mrs. J. S. Johnson, Mrs. Roscoe Wilson, Sam Argett, Mrs. Joe Peasey, and Mrs. G. H. Thomas.

JUNIOR HIGH SCHOOL RECITAL

The Music Department of the Lubbock schools will present the following pupils in recital at the Junior High School at 4:15 Wednesday afternoon: Georgia Barkham; Miss Slover; Charlotte Hopkins; Katherine Klett; Nancy Collier; Homer Hall; Gwendolyn Thompson; Madeline Hughes; Billie Bob Jones; Emily Davis; Clara Adcock; Vera Bessant; Freddie Adkins and Carol Hite Thompson.

MRS. HAMILTON AND MRS. ELLISON ENTERTAIN BUILDERS CLASS

The Builders' class of the Methodist church met Monday evening with Mrs. Hamilton and Mrs. Robert Ellison at Mrs. Hamilton's home. A delightful social evening was spent and a short business meeting was held in which it was decided to meet hereafter on the first Tuesday evening in each month instead of the first Monday as has been the custom. Many delightful plans were

El Paso Minister Visiting Lewis Family Here

Rev. W. M. Fairley, D. D., pastor of the Westminster Presbyterian church of El Paso, is visiting in Lubbock this vicinity this week.

Having heard of the rapid development of this section of the country and the growth of Presbyterianism, he determined to come over and see for himself.

Dr. Fairley is chairman of the Home Missions of the presbytery of El Paso and his position necessitates his having first-hand information of all the different parts of the presbytery.

He expresses himself as being very agreeably surprised at the growth of this city and section.

Dr. Fairley is visiting in the home of Rev. and Mrs. Jack M. Lewis while here.

THE MISSES GREEN ENTERTAIN PHILATHEA CLASS

Misses Flora and Grace Green very charmingly entertained the Philathea class of the Methodist church at their home last week. Six new members were "initiated" and fording much merriment for those at the party. Piano music was a feature of the evening program. Miss Hallie Hall, Miss Edith Carter and Miss Shinn all favoring the guests with many delightful numbers.

This is the first of a series of parties planned for the pleasure of the class, the next to be given soon by Miss Lula Mae Cravens, promises to be as crowded with fun as the one given by the Misses Green. At a later hour the hostesses served cakes, candies and chocolate to a large number of guests.

BUSINESS WOMEN'S CLUB TO MEET THURSDAY

The Business Women's Club will meet Thursday at noon for lunch at the Busy Bee Cafe.

MISS RUTH SLATON HONORED

Lubbock friends are glad to know that Miss Ruth Slaton has been complimented by the Dallas News as the Duchess of Lubbock, representing the city in two fairs, the West Texas Fair at Abilene and the South Plains Fair here. The News printed an excellent photograph of Miss Slaton by Brown & Brown.

TOHOKA YOUNG PEOPLE MARRY ON SEPT. 23.

The following cards have been received:

Mr. and Mrs. C. E. Lockhart, announce the marriage of their daughter, Leona, to Mr. Winter L. Knight, on Tuesday, September twenty-third, nineteen hundred and twenty-four.

At home, Tohoka, Texas.

Both the young people have many friends in Lubbock who wish them every happiness.

PERSONALS

Mrs. W. B. Atkins is in Sherman visiting her daughter, Miss Katherine, who is attending Kidd-Key College. She has been in Sherman about a week.

Mr. and Mrs. M. G. Abernathy and Mr. and Mrs. Yaker made a business trip to Santa Fe last week.

Mr. and Mrs. Hall Robinson and little son, Jack Alley of Tahoka visited in Lubbock last week, spending Saturday and Sunday with their mother, Mrs. James E. Robinson.

Miss Marria Hinkley who has for some time been head nurse at the Lubbock Sanitarium has returned to her home.

Mrs. Alf Mingham of Spur attended the Fair Saturday and spent some time shopping with Lubbock merchants.

Mr. and Mrs. Frank L. Moore and son Joe-Dek and Mrs. Jessie Moore of Floydada spent Sunday visiting Mr. and Mrs. John M. Denman and Louis F. Moore. Mrs. Moore is Mrs. Denman's and Mr. Moore's mother.

R. C. Sawyer, of Los Angeles, California, is here visiting his brother, T. W. Sawyer, at 2324 Broadway.

Mr. and Mrs. M. E. Merrill, accompanied by their little granddaughter, the daughter of Mr. and Mrs. Grover C. Merrill, will leave today for El Paso, where they will visit Mrs. Merrill, who is in a Sanitarium at that place.

LIGHT POST DEMOLISHED WHEN HIT BY BIG TRUCK

The heavy delivery truck operated by the Kell Milling Company plunged over the curb and demolished an ornamental light post on the north side of the courthouse lawn Wednesday afternoon.

The truck was put out of commission temporarily.

TEN SPECIAL AND ONE CENTRAL COMMITTEE PLANS CELEBRATION

Committees will be at work in a few days planning the celebration of the laying of the cornerstone of the Texas Technological college here on November 14th, when all appointments have been completed.

Ten committees will be appointed for special work in connection with the celebration as follows: Finance, Platform, Arrangements, seating and Grounds, Parade, Special Dinner, Individual Accommodations, Reception, Automobiles, Music and Publicity.

A general committee will have charge of the various plans for the celebration which will be composed of Hon. T. M. Kimbro, Chairman.

EXCLUSIVE CLUB SEEN IN FILM

So pleased was the proprietor of the Club Petroushka with the results obtained by J. Stuart Blackton in making sequences of "Behold This Woman" in the club that he tendered a reception to the entire cast after the picture was completed.

The Club Petroushka is somewhat select in its clientele and the Thursday night events are regarded as exclusive affairs. In inviting the cast of "Behold This Woman" to one of these gatherings Niels Arlock, proprietor of the club, established a precedent, for this is the first time that an entire cast has been honored in this manner.

In using the Club Petroushka as a location and including in the sequences the patrons and personnel of the club, Mr. Blackton made a coup d'etat of which he is justly proud.

He has the distinction of being the first director to obtain permission to "shoot" the interior of the club and present it to the public throughout the world.

These sequences are but a few of the many sequences that show the life of a picture player as it exists and not as fiction and newspaper stories would give the impression of it.

"Behold This Woman," which will be shown at Lindsey Theatre today.

PROF. OTTO SCHICK

Teacher of Violin, Piano, Cornet and Cello

F. G. POWELL SUCCEEDS BURFORD AS FOREMAN

F. G. Powell has been employed as maintenance foreman of highways in Lubbock county by the State Highway Department, succeeding L. O. Burford, who for the past several years has been identified with road-building in this vicinity.

Mr. Powell has a great deal of work to do here in the near future, due to the fact that the department has a great deal of new and modern equipment with which to work.

TO SELL FIFTY SECTIONS OF LAND IN MIDLAND COUNTY

MIDLAND, Texas, Oct. 7.—South west Texas is to be given an intensive education in West Texas land values. One of the largest realty operators in the South, according to a commission expert, has collected an exhibit of Midland fruits, cotton and vegetables and will use them in his office in San Antonio in selling out about fifty sections of land near Midland. He plans to use a local ranch with its orchard and garden as his demonstration farm.

KARNAK

Feel Return of Health, Strength and Energy—

Or NO COST!

Amazing as it seems, Karnak has demonstrated time and time again right here in Texas that it possesses power before thought possible in a medicine!

Men and women who had felt their selves growing old before their time have testified that they have experienced a quick return of the health strength and energy of younger days after taking Karnak.

Hundreds of men and women suffering from indigestion, dyspepsia, rheumatism, constipation, biliousness, kidney disorders and nervous worry have reported that Karnak brought complete relief to their troubles and added years of health and life and energy.

Make this test yourself! Take Karnak to-day. Feel a return of the health, strength and energy of younger days after taking two bottles or so to the Karnak agent and get your money back.

Notice the quick difference in the way you look, eat, sleep, and feel after taking Karnak. Remember, we do not promise results, we guarantee them. You must be satisfied, as others have; otherwise the Karnak agent will refund every cent you paid without even questioning you.

Karnak is sold in Lubbock by City Drug Store.

BOWEN WILL CONDUCT SERIES OF SPECIAL SERVICES AT FIRST BAPTIST CHURCH, IS TO BE ASSISTED BY GOSPEL SONG LEADERS

Beginning Sunday, October 13th, a series of special services will be conducted at the First Baptist Church by the pastor, Rev. W. A. Bowen, assisted by Mr. and Mrs. J. L. Blankenship, gospel singers. These services will be helpful to all, and the entire public is invited to attend. The spacious auditorium of the new church will accommodate a large crowd for all services, each of which will be made valuable for each and everyone present. Rev. Bowen is one of the leading

preachers of the state, and his power for good is appreciated by his congregations here and throughout the state. The services will be conducted each morning at 10 o'clock, and in the evening at 7:30 o'clock. A large crowd will attend the opening service Sunday morning, all members of the congregation as well as everyone in Lubbock being urged to attend and continue attending this series of services until the close. A hearty welcome and great message will be found at each service period.

RESOLUTIONS BY THE WEST TEXAS CHILDREN'S ORPHAN HOME

In Called Meeting at Lubbock, Texas, October 7th.

Whereas, the Board of Directors of the West Texas Children's Orphan Home now have under construction a building to accommodate and care for the orphan children it is designed for, and are desirous of completing said building as soon as practicable, so as to care for said children; and

Whereas, the Board of Directors have subscriptions for money from the public, which have not yet been paid, but will be paid from day to day and time to time in the future, and it is the special desire of said Board for said money that has been subscribed and will be subscribed in the future to be applied for the purpose of completing the construction of the building and the equipment thereof, and this to the exclusion of said money being used for maintenance purposes; and

Whereas, the Board of Directors have heretofore passed a resolution appropriating \$450.00 per month for the maintenance of the said Home in its present quarters, and it is the desire of said Board that said Resolution be cancelled and that no further appropriations therefore shall be made until the building has been constructed and equipped on the site designated for the purpose, and further that the Board of Directors are not and shall not become responsible for any debts that may be contracted by W. T. Gregory or any other person for the purpose of maintaining the orphan children he now has under his supervision, or that may have under his supervision.

Therefore, said Board of Directors, by these presents, resolve that all monies from subscriptions or otherwise that shall be collected hereafter shall be appropriated solely to the construction and equipment of the West Texas Children's Orphan Home on the building site which has been designated as the future permanent home, about two miles south of the town of Lubbock, and further that the resolution heretofore adopted appropriating \$450.00

per month for the maintenance of the orphans in their temporary quarters is hereby annulled and cancelled, and further that the Board of Directors of said Home, by these presents do not obligate said Home for the payment of any debts contracted or that may be contracted by W. T. Gregory or any other person for the maintenance of said present Home.

However, by this resolution, it is understood that any donations that may be received by Superintendent W. T. Gregory on his own initiative may be used by him for the maintenance of the orphans under his charge, as he may wish to use the same, but said funds he may collect of his own initiative is not under the jurisdiction of the Board of Directors for the West Texas Children's Orphan Home.

H. H. HALSELL, President, West Texas Children's Orphan Home.

ATTEST: A. B. ELLIS, Secretary. (Advertisement)

ATTEMPT IS MADE TO RUN DOWN REBEL BAND

By United Press. MEXICO CITY, Oct. 7.—Reinforcements have been rushed to the federal troops at Joaquin, Vera Cruz and the United forces have begun a campaign to run down a band of rebels which Saturday night held up a passenger train and killed 30 passengers and members of the military guard. Some foreigners were on the train, it is reported and Americans here fear

that some of their countrymen may be among the victims.

Passengers were compelled to strip to their underclothing and all their valuables taken, according to dispatches by newspapers here. Two women are said to have been killed. The sum of 10,000 pesos was taken from the express car.

Three hundred rebels, under Jose Laguna and Pedro Gonzales, stopped the train.

TEXAS RANKS 37TH IN PER CAPITA EXPENDITURES

FOR WORTH, Texas, Oct. 7.—Texas ranks 37th in its per capita of State and local expenditure for elementary and high schools, the amount being \$7.52 per person. So says Dr. George A. Weeks, director of the Texas School Survey, in the second of his reports on a study of the sources from which funds are secured in Texas for the elementary and high schools. Montana ranks first in this respect spending \$22.33 per capita, while Mississippi comes last with \$3.54. These figures are based on the total population.

Texas has a rank of 10 in the per capita of state taxes going to education. Nevada is first in this with an expenditure of \$7.51, and Florida is last with 70 cents, while Texas spends \$3.64. Although Texas takes 10th in per capita paid out of state taxes, it takes first in proportion of total tax paid by the state.

Both local communities fall far short in their per capita support of elementary and high schools, giving Texas 43rd place. Texas spends \$2.77 per capita, total population, out of local funds, while Montana spends \$7.64, and Mississippi trails with \$1.72.

In the percentage of the total revenues for providing for elementary and high schools that comes from the State, as contrasted with local sources, Texas ranks first. There is no state in which a larger proportion of the revenues for these schools comes from the state treasury.

Dr. Weeks concludes that the low per capita expenditure is to be explained by the small proportion of the expense of providing for these schools that is borne by the local communities. He believes the state to be relatively generous.

INSURANCE MAN RETURNS HOME FROM CONVENTION

S. H. Standefer has just returned to his home here after attending the annual convention of the Business Men's Assurance Association at Kansas City. He reports having enjoyed the trip, and that the convention was a live one throughout.

SHOOTS IN SELF DEFENSE

By United Press. PORTLAND, Ore., Oct. 7.—"She tried to kill me, that's all."

That was the only explanation Cecilio Cuenillas, Spaniard, would give for killing Mrs. Clara Peterson, pretty 30 year old divorcee, here, Monday afternoon. Cuenillas waited for the woman at her doorstep, and shot her without warning when she returned home after a shopping trip.

He said he met her at a dance two years ago, and visited at her home last Friday.

"She must have put something in my coffee then. I've been feeling rotten ever since," he told police.

who is repeatedly defiant of traffic regulations should have his license revoked and car impounded, or such heavy fines of imprisonment inflicted as to be a real burden and constant reminder.

Rowe also advocated the abandonment of red lights on the rear of automobiles, and the substitution of some other color.

"Today a driver observing a red light regards it only as an indication

he must turn to the left," he said. "Red should mean but one thing—stop."

Sir Charles A. Parsons, a British scientist advocates the organization of a corporation to sink a shaft twelve miles into the interior of the earth. He says it will take fifty years and cost \$100,000,000. Some day we may have a short cut to Europe via the tube.

WILL OPEN BUSINESS HERE ON 13TH STREET TODAY

J. F. Bennett and E. W. Waldron, well known local men, have just established a grocery and meat market business here on 13th street. The business will be opened to the public this morning, Mr. Waldron stated Tuesday.

Let Us Do Your Job Printing.

Street Railway Men Want Jail Sentences For Automobilists

By United Press. ATLANTIC CITY, Oct. 7.—Jail sentences for reckless driving of automobiles were strongly advocated before the American Electric Railway Association today by H. A. Rowe of New York.

Rowe declared that automobile accidents are increasing rapidly and that only the most strenuous measures would cut down the appalling annual death toll. "We should constantly urge higher standards of driving ability, the licensing of all drivers only after fair examinations as to physical and technical qualifications," he said. "The criminally reckless and the intoxicated driver should be absolutely excluded from driving. He

SLAVES

Many years ago there was a great war fought on account of the slavery question. Brothers fought against brothers, and people rose up and fought against their government. It was a bloody war. It was an awful thing, and those who were opposed to the buying and selling of human beings won the fight, as history tells us. We have heard of things that are almost equally as bad, or in fact, we might say that they are really worse, because the trafficking in with white humans and the former was with colored, and possibly humans who were densely ignorant and really were not far removed from the lower animal class.

We have heard in the past few days that some people are making it a business of bringing people into the country for the purpose of picking the cotton in this section, and they are selling the pickers to the farmers at so much per head.

This is a practice that certainly should be stopped, and farmers should report the first fellow that offers to sell pickers at so many dollars per each to the authorities, and let the law take its course. It is all well and good that a person be paid a slight commission for getting the laborer and the employer together, but when it comes to bringing in a crowd of people, and peddling them out at \$10.00 per head we believe it is a low down practice and should not be tolerated in a civilized country.

THE REACTIONARY DAWES

There are some outstanding facts in the record of vice presidential candidate Dawes that no progressive element in the American people can approve.

After leaving the office as Comptroller of the Currency under McKinley, he was conspicuous in his opposition to the Sherman anti-trust law then under review. In 1907 he was the author of a paper attacking the anti-trust statutes because he alleged it prohibited legitimate and proper co-operation between persons and corporations in the same line of trade.

He was the political friend and financial sponsor of United States Senator William Lorimer, to whom he wrote, "Your election means that in its relation to governmental legislation this state will always have its proper position." This quotation, by the way, is a fine example of both "bombast and brass tacks."

An international banker, a large owner of oil stocks, recently at least, an open opponent of direct primary elections and of organized labor. Mr. Dawes appeals to progressive thinkers in politics as rust to wheat growers, or the boll weevil to cotton growers.

Mr. Dawes was put on the republican ticket by the most reactionary element of that party. He represents that element to perfection.

WEST TEXAS FAIRS

The proof of the country is the showing of the crops. If this is true and it most surely is, the Western part of the State this year is proving the best part of the country. There have been quite a number of county fairs this fall besides the regional fairs at Amarillo, Lubbock, Abilene, Colorado and San Angelo, and they have all been exceptionally good and attractive, and worthy of the name, and the benefits that will be derived from these efforts will be revealed in future years.

Most of these exhibits will represent their respective counties at the State Fair in Dallas, which opens Saturday, and this will no doubt be one of the greatest showings in the history of the State.

West Texas will no doubt carry off most of the money on county exhibits as it has been in the habit of doing for the past five years. More than thirty counties from the West and the Plains will have exhibits at the State Fair this year, and this will mean that ten or fifteen prizes and about thirty blue ribbons will be brought back to this section as a silent testimony to the credit of the productiveness of the soil of the New West.

We are looking forward to the announcement of the judges at the State Fair as lumping off almost the entire list of cash prizes to West Texas counties, and no doubt they will deserve it all.

FIRE PREVENTION WEEK

We are near the middle of fire prevention week. This is a week that should mean a great deal more than the average citizen will make it. This week is a week that is designated as a week in which we should use every means possible to prevent fires. It means that we should take an inventory of the conditions that exist around our premises check up on the defects of the stacks, and flues and the stovepipes, and see to it that everything is put in good shape for the coming winter. The time is fast approaching when there will have to be fires in the furnaces and the heating stoves,

and we should all be very particular to have the flues tested and cleaned out before a fire is built in the stove. This is one reason for fire prevention week, and we should observe it in this way.

Get ready for the cold weather, and see to it that the lining in the flues are good, and that there is no danger of fire when the first is kindled in the stove. Clean out the bird's nests that may have been built in the flue during the time it has not been in use. There are many ways that we can observe the week in a way that will be really profitable to us all.

ARMISTICE DAY IN LUBBOCK

Armistice day in Lubbock this year will possibly mean more to the people of this city than it ever since the first day. It means that the corner stone of the Texas Technological college will be laid on that day, and it will mean that the first building of the great institution is making fine progress, and that it will be ready for the opening of school next fall. With these things in mind, Lubbock is getting ready for this event, and they will celebrate it with appropriate ceremonies. It means that the wonderful educational opportunities of thousands of young people of the southwest is growing brighter, and that the opportunity for a better education of many boys and girls will be improved, and that within the next twelve months there will be a stream of young life flow into our town, and the question arises in the minds of those who have grasped the idea of the magnitude of the school, whether Lubbock is going to get ready for them.

There is much to do, and we should certainly be awake to the needs and be able to take care of the situation in good shape. Get ready for the opening of the Tech. Begin now. Do not wait for the time to come, and then not be ready.

PARKING LAWS

We are told that the parking ordinances are going to be strictly enforced from now on. Of course it is nothing but right that they should and if they are good and just laws they will no doubt survive, but if not they will in all probability fail, but for the life of us we cannot see why cars cannot be parked on one side walk just about as well as another. We cannot see the wisdom or fairness of a man on one side of the street forcing the cars away from his store and that same fellow will drive right across the street and park his car for a whole day in front of the business house on the other side. There is absolutely nothing fair or just in an ordinance of that kind. There is one thing however that the people of Lubbock should get out of the habit of doing, and that is parking their cars in the alley. The alley is intended for wagons and trucks to pass through to load and unload, and if there is a half dozen cars in the alley this is impossible.

The city authorities have passed the word to us that there must be no more parking of cars in the alley, and when found there the owner will be called before the court for proper adjustments.

RED CROSS ROLL CALL

The annual Red Cross Roll Call will be held from Armistice Day, November 11, to Thanksgiving, November 27. Following the war, the Red Cross has depended largely on the voluntary memberships received during the Roll Call campaign for support.

The Red Cross is doing a service that goes on year after year. The organization's work is not confined to war time relief. When cyclones and disaster strike communities, the Red Cross is usually the first relief organization that gets to work.

The Panhandle people can join the Red Cross and assist in carrying on the work. A Red Cross membership costs little and yet large numbers of members will enable effective work to go ahead.

The Red Cross work shows for itself, and there is no need for explaining what the Red Cross membership drive is. It behooves every Lubbock citizen to kick in with a liberal contribution to the cause.

AUTOMOBILE TOLL OF LIVES

Fourteen hundred killed in one disaster would shock the nation, yet approximately that number, 1,398 to be exact, met death during the first eight months of this year in New York state alone, without exciting any particular attention.

While medicine and surgery are working wonders in the saving of human life, the grim toll of the automobile mounts higher and higher each year.

Most of this terrible sacrifice is entirely unnecessary, being caused by reckless or incompetent drivers. The pity of it is that so many of the victims are merely passengers in the wrecked cars, killed and maimed through no fault of their own.

If irresponsible speed maniacs destroyed only themselves, there would be less cause for grief, but unhappily they often escape, while helpless victims pay with their lives for the folly of these criminally careless drivers.

A CHAMPION EXTRAORDINARY

To win a national athletic championship is a great feat, but to win it five years in succession is remarkable. This record has been made by William T. Tilden, 2nd, of Philadelphia, who recently won the national tennis championship for the fifth consecutive time.

He is also tennis champion of the world and probably the greatest tennis player of all time. This distinction may not be important in point of usefulness to the world, but it stamps its holder as a man of prodigious determination and skill, worthy of emulation and the highest praise.

Our forefathers fought against taxation without representation. We should fight today if any foreign or domestic force should attempt to deprive us of the ballot. Yet, in the last presidential election only 49 per cent of eligible citizens voted, and in many primary elections less than 25 per cent cast their ballots. This indifference to one of our fundamental civic duties is a menace to representative government. Those who deliberately disfranchise themselves are unworthy of citizenship.

COOLIDGE CERTAIN TO CARRY NEW YORK SAYS CLAPPER, WHO CLAIMS LA FOLLETTE HURTING DEMOCRATS WORSE THAN GOP

COOLIDGE'S NOTE Raymond Clapper, head of the Washington Bureau of the United News has been a tone which will take him across the United States, and which will pose a serious question of the future of the various states toward the different presidential candidates. Clapper has for many years been a close observer of the political situation, and will write of the same with authority. He has written on the race of the General Election. The following is his note on the situation in New York, at the present considered the pivotal point in the election.

BY RAYMOND CLAPPER

ALBANY, N. Y., Oct. 7.—President Calvin Coolidge is certain to carry New York state with its mighty 45 electoral votes unless something approaching an earthquake happens before election day. J. W. Davis appears to be beaten in this state. Al Smith, because of his great personal popularity ought to pull through. Senator La Follette is hurting the democrats more than the republicans in New York. There is reason to expect that many democrats will vote for Smith and La Follette.

Even the presence of Davis, who is ploughing doggedly through the republican upstate strongholds, fails to enthuse the democrats with a feeling of confidence. He is carrying the burden on his own shoulders largely, and he finds it a disheartening task.

Smith Not False To Davis Nobody around here believes for a minute that Al Smith is out to knife the presidential candidate in order to trade with La Follette. Smith said at Madison Square Garden just after Davis beat him for the nomination, that he was going to pull off his coat and vest and work for the ticket. He is in New England doing that now. Smith is not false to Davis.

What is happening is this: Any number of democratic voters fear that Davis cannot win. Those progressively inclined believe that they would therefore do better by helping La Follette throw the contest into a deadlock. But the only way I see of beating Coolidge, then too, most of the labor vote and the kind of progressivism which would follow La Follette are in the democratic party in New York state rather than the republican. So it is natural that Davis is the victim of La Follette here.

One prominent state democrat estimates that Smith will carry the state by 150,000. He won by 386,000 over Miller two years ago. That shows how much the democrats are prepared to take. Young Roosevelt is responsible for part of this. Coolidge is responsible for part of it. Smith probably is the only democrat who would make the grade this year.

Lack of Organization Hurts One discouraging thing to the democratic presidential candidate is the lack of a good, hard hitting up state campaign organization. On his present trip, he has received almost shabby treatment from some up state democratic centers. They have not given him the crowds, the addresses, the noise and ballyhoo that is necessary to inject some life into

POLITICAL ANNOUNCEMENTS

Subject to General Election in November.

For State Senator: W. H. BLEDSOE, Lubbock.

For Representative: J. K. WESTER, Lubbock.

For Justice of the Peace, Prec. 1: COL. W. E. JOHNSON, (Re-election).

For Public Weigher, Precinct 1: W. E. (Walter) GRICE.

For Public Weigher, Precinct 2: C. E. MERRILL, (Shallowater).

For Constable, Precinct 1: J. L. McCULLOCH.

WALTER P. CHRYSLER'S
TRAFFIC TALKS

Some Good Advice

In driving a motor car don't coast on a wet or slippery downgrade with your clutch out and rely on foot brakes to govern the speed.

In crossing bridges take extra care. Don't cross a railroad track until you are absolutely safe.

If you have a horn that emits a faint squeak get it fixed or buy a new one.

If you have a loud one be reasonable in its use. Horns are for protection, not to frighten people.

Give horns to signs. Read them as you motor along and then observe them. It pays.

Respect "dummy" policemen. Know the law in your community and state and observe it.

PUBLIC OPINION

GEO. L. BEATTY SAYS GIVE KLAN A CHANCE

I admit that there are good men, with a good intent who are against the Ku Klux Klan.

Now, let's be fair. I am not a Ku Klux, know nothing of the order except what I hear and read in the papers.

I find from all that I have learned of the order, that it is mainly composed of good old American stock, a class of men that stand for law and order and the old American idea of constitutional government.

With these facts before me I am led to believe that their motives are good.

It's history from near the beginning of time, that when public affairs get radically wrong, and the crafty politicians get the sway, that good citizens, as the last resort, will organize for protection and correction of existing evils, right or wrong history proves this fact.

History also shows that nearly every reformation for the good of civilization, and the good of the public, was brought about, by an organization of the people, for protection and law and order.

The great Magna Carta, the corner stone of civilization, was enacted and made the law for the right of man, and the good of the public, by the fixed determination of an or-

THE ROAD

The road is where the people fare
And I can see them come and go.
The little children romping there,
And gray, old men whose pace is slow.
Some of the people walk right on
And all its beauties fail to see;
'Tis but a pat they tread upon,
But it is more than that to me.

I know he horses at the end,
I know the corners far and near
And all that lies beyond the bend,
I've traveled it for many a year.
Some use it as a shorter cut,
A street like many the smartest roam
There's naught to catch their fancy,
—but—
To me it is the road to home.

It's just a road — In double rows
The hedges stand, and in-between
The traffic of the city goes.
Something unlovely or unseen,
Yet every joy and every care
Along that road has come and gone,
A street it is, a street it is,
—but—
I've seen the smiling friends draw near,
I've seen sad faces at the door,
I've seen the solemn hearse appear,
I've watched the children race it
o'er.
Letters from loved ones far away
Find out at last! No joy's be-
stowed
Upon my dwelling, night or day,
But it must journey down the
road.

INQUIRY INTO BASEBALL SCANDAL MAY NOT BE RE-OPENED

PIRATE OWNER ENTERS INTO SQUABBLE

NEW YORK, Oct. 7.—Although Jimmy O'Connell and Cozy Dolan both have called on Judge K. M. Landis, and reviewed him with their stories about the attempt to bribe Heinie Sand of the Phillies, the expected "squabble" has not yet rebounded across the world series ball yards and the games will go on.

When they have been filed away in the records and the money has been consequently apportioned the investigation of the Giants may be resumed but there is no definite promise that it ever will be reopened. Unless O'Connell, who is said by Landis to have confessed that he made the proposition to Sand should tell some more details there would seem to be no information with which to extend the inquiry. For a while it was thought that Barney Dreyfuss, owner of the Pittsburgh Pirates might be more equanimous and breathe some light into the scandal. But it developed Tuesday that Dreyfuss was treated rather roughly in Washington and went home while he still had some of his health. Barney met the judge in a hotel lobby there and one of the men who was standing in the crowd said he asked the judge to take him to a private hearing, wishing to tell the judge something that was on his mind. Landis, according to this informant, wanted Dreyfuss to state his case right there and Barney refused.

In New York Tuesday night Landis said this was a false version of what was said on that occasion. O'Connell's "no" to Landis was very snappy, Landis said nothing developed which would alter the status of O'Connell, who is now a baseball outlaw, or of the situation which is very mysterious and filled with whispering.

SENATORS BEAT GIANTS 7 TO 4 TO TIE SERIES

(Continued from Page 1)

do him in effort and singled to right. McNeely went to second. Rice then hit a sacrifice fly for the second out. He got Rice at first in spite of the day, but there were men on second and third and Goslin got great was at bat. The golden goose took a Babe Ruth shot at the ball and cracked it deep into the right field stands for a homer. Three runs crossed the plate and from the cheers that greeted the Washington men as they talked one might have been pardoned for thinking that the polo grounds had been moved to the national capital.

The New York crowd was rooting hard for the visiting team. One might go further and say that the Washington club at the polo grounds today was probably the home team. Apparently the Giants have no home advantage. Certainly the crowd passed approval whenever the men of the mighty McGraw took a sock on the chin. Judge finished the thrilling third by rolling out, Kelly to Barnes.

The three run lead that Goslin's homer dumped into McGraw's lap was a satisfactory effort for the left fielder. He struck out Young and Kelly, and accounted for Meusel on a fly to left. The fourth was a fast one with nothing doing for either side. The first of the fifth was different. McNeely singled to left. Harris not a mighty hand as he came to bat. He responded to the ovation by whanging a single to right. McNeely took third on the play, beating the throw in by an eye blink.

Wild Pitch Costs Run. Rice came up with the crowd stamping in unison for a Washington tally. The demonstration for the visitors must have unnerved Barnes for he pulled a wild pitch that went to the press box and McNeely scored. Rice popped out then and Goslin came up to do his customary stuff. He singled to right, and Harris scored. Judge then filed out and Goslin proved that he can hit better than he can run by leading the decision on an attempted steal of second. Two men on for power, (1) Washington. The sixth was just a game from then until the last of the sixth when the Gibbering Giants plucked one more run out of the mess on a double by Kelly and infield clout by Meusel and Wilson.

The seventh was a blank for both sides. Goslin was up first for Washington in the eighth and made it a perfect hitting day for himself by singling to left. Judge also singled to left. Meusel did a yards with set with the ball all by himself and while he was leaning in he was there about his head and heels. Goslin went to third on Judge to second. Bludge then doubled to left. Just to keep Meusel busy and both Goslin and Judge

OFFICIAL FIGURES ON TUESDAY GAME AT N. Y.

NEW YORK, Oct. 7.—The official gate figures on Tuesday's world series game were: Attendance 49,243. Receipts \$191,877. Commission's share \$28,751.58. Players' share \$66,176.18. Receipts for the four games \$649,201.

Summary: Runs batted in by Goslin four; by Bludge 2, by Young 1, Wilson 1, Lindstrom 1, homers Goslin; 2nd base hits McNeely, Kelly, Wilson; sacrifice hits Ruel; left on bases Washington 5, New York 5; bases on balls off Mogridge 5, off Marberry 2, off Marberry 2, by Marberry 2, by Barnes 3, by Baldwin 1, by Dean 1; hits off Mogridge 3 in 7-13 innings; off Barnes 3 in 5-1-2-3 innings; off Baldwin 1 in 2-3-4-5-6-7-8-9-10-11-12-13 innings; off Dean 1 in 2-3-4-5-6-7-8-9-10-11-12-13 innings; winning pitcher Mogridge; losing pitcher Barnes; Umpires Quigley, Connolly, Klem and Dineen, Time 2:08. Attendance estimated 50,000.

scored. Ruel popped out to Kelly Miller popped to Frisch and Mogridge struck out. Two more runs.

Mogridge Drives To Cover

It was evident in the beginning of the second half of the eighth that Lame Duck Mogridge was done. He walked Young. Kelly fled to center and Meusel walked with two on he pitched two balls to Wilson, and turned over the ball game to Marberry. Wilson lined to right off Marberry and Young scored but Meusel was out attempting to get home. Then Jackson grounded out and that crisis was passed with only one run in. McNeely, Harris, and Rice, went in order for Washington in the first of the ninth and the Giants made their final bid for a victory. Gowdy singled to right, and went all the way to third when Rice made a horribly wild throw to Marberry, at first. Beentley, pinch hitting for Dean struck out, but Lindstrom singled over second and Gowdy scored. Frisch walked and with two on and one down, Paul Young forced Frisch at second. "Home run Kelly" was up. But there were no homers in the Kelly bat Tuesday. He struck out and the series was fall struck once more.

If Johnson can win a game Harris will have Zachary rested for another try and it is no sure bet right now that a visitor in the top of the Washington monument next summer won't be able to see the world series championship flag waving in the breeze over the ball park that at last has a club that is no joke. An aggregation of ball players that will fight the way Harris' men do are likely to beat almost any team any time.

First Inning. Washington: McNeely struck out; Harris struck out; Rice grounded out to first. No runs, no hits, no errors.
New York: Lindstrom walks; Frisch grounded out Harris to Judge. Young grounded to Bludge, who heaved wild to first. Lindstrom scoring on the play. Young taking second. Kelly went out on a fly to deep center; Meusel walks; Wilson grounded out Harris to Judge. One run, one hit, one error.

Second Inning. Washington: Goslin singles to left; Judge strikes out; Goslin fakes second; Bludge singles; Ruel strikes out; Miller grounds out; Lindstrom to Kelly. No runs, one hit, no errors.
New York: Jackson flies out to center; Barnes walks; Lindstrom strikes to center; Barnes going to second; Frisch "popped" out to second. No runs, one hit, no errors.

Third Inning. Washington: Mogridge strikes out; McNeely singles to left. Harris singles to left. Rice grounds to Frisch forcing Harris at second; Goslin hits home, scoring. Rice and McNeely ahead; Judge grounds out Frisch to Kelly. Three runs, three hits, no errors.
New York: Young strikes out; Kelly strikes out; Meusel flies out to center; No runs, no hits, no errors.
Fourth Inning. Washington: Bludge singles to second; Ruel grounds out; Lindstrom

WORLD SERIES STARTS ANEW TODAY

AFTER FOUR GAMES PLAYED FOR EVEN BREAK, JOHNSON PROBABLY GO TODAY

BY WESTBROOK PEGLER
NEW YORK, Oct. 7.—The world series of 1924 begins Wednesday afternoon at the polo grounds and all the tensibilities of the customers, the brains of the athletes, the fouls and errors thus far incurred in four ball games will have to be regarded as needless waste in the war between Washington and New York. The Senators brought the score to even Tuesday when left Marberry Washington's catcher-leader, examined himself from the duress and dragged in the victory from a very exposed position on the hill. Seven to four was the score, the Senators losing the natural and the Giants the little Joe.

This game the Senators their second conquest over the Giants and as the official scorer ahead of pointed out, just evened the series.

Marberry Brings in Victory
Marberry now has been mentioned in dispatches on three consecutive days which is something new in a world series. Responding to a shriek from Bucky Harris, his commanding officer, in the eighth inning, Marberry, the same fellow who won the second game in Washington by pitching precisely three balls, slid his hand into his big glove and went into the box with two men on base and only one out. He allowed one run to develop out of this dangerous situation and his club went to bat in the ninth with a four run lead, the score then being 7 to 3. In the 9th, Marberry struck out Jack Beentley, the Giants left hand pitcher who has a habit of hitting homers and George Kelly, the tall wall-popper who has been operating on a sort of roving commission with the Giants at center field, second base and first. Some untidy fielding and throwing let in another run for the Giants, but on the whole the barefoot boy from the Ozarks may be said to have saved another game of cricket for the Senators.

However, this game and the three that went before it to the accompaniment of cheers for the Washington team and sneers for the Giants, may be responsible for whatever difficulties Kansas City has.

The American League stands ready to go to the bottom of things, Johnson said. "I am afraid we can not hope for much help from the National League."
As for Judge Landis, he is too close to the National League and the New York Giants to be of any use here from Executive Springs where, accompanied by his wife, he is enjoying his annual vacation to visit friends. He contracted a heavy cold a day or two before he left Chicago and admitted that he was "still under the weather."

He seemed more concerned over the probable effect of the latest baseball scandal on the future of organized ball than in the immediate reaction to an alleged attempt by Jimmy O'Connell of the Giants to bribe shortstop Sam Rice of the Philadelphia team to "throw" a game.

"There's a lot of crookedness in the game Johnson muttered thoughtfully and Judge Landis will not or cannot ferret it out. The public wants clean baseball but it will have to be clean in every sense of the word if it survives.

"The dollar mark has grown so in baseball that all sense of proportion has been lost."
Although willing to discuss the needs of organized baseball Johnson would not comment on how he intends to bring about the forced exile of gamblers when he believes it possible to place case against baseball crookedness before federal grand jury.

A broad smile crossed his face when told that the Senators had again defeated the Giants and that the series again was tied.

"That's fine. Glad to hear it," he said, and then inquired about the condition of Roger Peckinpaw, Washington shortstop, who developed a "Charlie Horse" in Monday's game.

"Washington needs him and needs him badly," the American league boss declared. "It would be a pity if 'Peck' was out for the rest of the series. A fine fellow and a good clean sportsman."

Statement, Draves Ret. LOS ANGELES, Oct. 7.—Ran B. Johnson's column on what he terms "rotten gambling conditions" in the Pacific coast league have drawn a sharp retort from Harry A. Williams, the league's president.

In a statement issued here Tuesday night, Williams calls the American League head the world's "champion long distance worrier" and challenges him to produce facts to back up his charges. Johnson's Kansas City interview declared that "most of the sure thing gamblers who were raised up in the scandal of 1919 now are operating on the coast. It is said that as much as \$100,000 has been bet on a single game in Los Angeles," he said.

"And the American Association is not free, either. Detective for the American league found the whole trouble was in Omaha and St. Louis. The gamblers there were

Fighting Spirit Won For Senators Tuesday, Rice Says

By SAM RICE
(Star outfielder of the Senators.)
Copyright By The United News
NEW YORK, Oct. 7.—George Mogridge did his stuff. So did Moose Joslin, manager Bucky Harris, and Earl McNeely, our rookie center fielder.

Don't forget to give Earl credit. He has had the breaks in the series against him up to this time. But whenever they pitched "em on the outside of the plate to this kid, he's going to get him. Barnes and McNeely made that mistake.

I mention this to show that we were out to win today's game. We did not waste any time in starting either. Goslin hit the first ball pitched in the upper to him every time.

We were fighting mad that all the Giants had us in a hole in this world series when we started to play. And when the Washington slug gets in a hole, its going to show fight.

It was a great sight seeing Mogridge pitch such brilliant ball. George had waited for this chance. He saw that his arm was right. He went out there and used every ounce of his strength to make his deliveries too good there for the Giants' batters. The same ones who had routed four of our pitchers the day before. In fact he twisted up puzzlers so much in seven innings, he did not have to finish out the ninth. Marberry gave him a lift, but George had won his game, and was it very impressively.

I was glad to see Marberry make good in the relief role. He's a great pitcher than yesterday's box score indicated.

JOHNSON INCLUDES TWO MORE LEAGUES IN HIS CHARGE

KANSAS CITY, Mo., Oct. 7.—Believe leaving Kansas City, Johnson took the opportunity of expounding both the Pacific coast league and American Association gamblers.

"Very few people know it, but conditions on the Pacific coast have been rotten" this season. Most of the sure thing gamblers who played such a prominent part in the scandal of 1919, are operating out there, I learned that as much as \$100,000 had been bet on a single game in Los Angeles," he said.

"And the American Association is not free, either. Detective for the American league found the whole trouble was in Omaha and St. Louis. The gamblers there were

RALLS DEFEATS PLAINVIEW IN GOOD GAME

PLAYED HERE AT THE LOCAL GRID 7-0

In a game of line plunging and passing the Ralls Jackrabbits easily defeated the Plainview Bulldogs on the local grid last Saturday. Ralls had the big end of the game from the very start. The Ralls team was playing a team out of their class but with power and push that wins all of the games the Rabbits were victorious.

The Ralls touchdown came in the first few minutes of the game when Plainview fumbles and Ralls man recovered running thirty yards for the goal.

Many fumbles account in handling the ball seemed to be the

responsibility for whatever difficulties Kansas City has.

The American League stands ready to go to the bottom of things, Johnson said. "I am afraid we can not hope for much help from the National League."

As for Judge Landis, he is too close to the National League and the New York Giants to be of any use here from Executive Springs where, accompanied by his wife, he is enjoying his annual vacation to visit friends.

He contracted a heavy cold a day or two before he left Chicago and admitted that he was "still under the weather."

He seemed more concerned over the probable effect of the latest baseball scandal on the future of organized ball than in the immediate reaction to an alleged attempt by Jimmy O'Connell of the Giants to bribe shortstop Sam Rice of the Philadelphia team to "throw" a game.

"There's a lot of crookedness in the game Johnson muttered thoughtfully and Judge Landis will not or cannot ferret it out. The public wants clean baseball but it will have to be clean in every sense of the word if it survives.

"The dollar mark has grown so in baseball that all sense of proportion has been lost."
Although willing to discuss the needs of organized baseball Johnson would not comment on how he intends to bring about the forced exile of gamblers when he believes it possible to place case against baseball crookedness before federal grand jury.

A broad smile crossed his face when told that the Senators had again defeated the Giants and that the series again was tied.

"That's fine. Glad to hear it," he said, and then inquired about the condition of Roger Peckinpaw, Washington shortstop, who developed a "Charlie Horse" in Monday's game.

"Washington needs him and needs him badly," the American league boss declared. "It would be a pity if 'Peck' was out for the rest of the series. A fine fellow and a good clean sportsman."

Statement, Draves Ret. LOS ANGELES, Oct. 7.—Ran B. Johnson's column on what he terms "rotten gambling conditions" in the Pacific coast league have drawn a sharp retort from Harry A. Williams, the league's president.

In a statement issued here Tuesday night, Williams calls the American League head the world's "champion long distance worrier" and challenges him to produce facts to back up his charges. Johnson's Kansas City interview declared that "most of the sure thing gamblers who were raised up in the scandal of 1919 now are operating on the coast. "And the American Association is not free, either. Detective for the American league found the whole trouble was in Omaha and St. Louis. The gamblers there were

greatest fault of the Plainview organization.
There were few penalty during the game only one that was of great importance when Ralls hitman was penalized for holding for fifteen yards.

The line up of the games was:
Ralls: Quarterback—Clanahan; Porter, I. E., Left Tackle; Galloway, I. E., Right Tackle; Quinn, I. E., Center; Miller, C. G., Fullback; Watson, R. G., Halfback; Griley, J. T., Tailback; Geo. E. T., Wide Receiver; Keith, C., End; Cooney, C., End; Moore, R. H., End; H. H., End; Brown, F. T., Tackle.

Summary of Game:
First Downs: Ralls 15, Plainview 9. Passes attempted—Ralls 10, Plainview 8. Passes completed—Ralls 4 for 67 yards, Plainview 1 for 77 yards. Number of punts and yards—Ralls 7 for 230 yards, Plainview 12 for 372 yards. Average punt Ralls 31 2/3 yards a punt, Plainview 32 yards a punt. Yards gained in game deducting punts—Ralls 237, Plainview 327. Total yards—Ralls 474, Plainview 404. Plainview 2 for ten yards.

HARRIS BIG FACTOR IN SENATOR'S WIN

GOWDY SAYS

By HANK GOWDY.
(Catcher of the New York Giants.)
NEW YORK, Oct. 7.—This world series has brought out some great ball playing and some that was not so great. But the smartest work I have seen in all my years in the sport has come off in the region of second base where Frank Frisch and Bucky Harris are—trying to play the whole game. Those marvelous catches of Frisch in center field in Monday's game were matched by Harris' work Tuesday afternoon and I think Bucky did more than any member of the Senators to beat us.

If some other player had been there we might have broken past the infield with some of our blows that looked like sure hits until Bucky nailed them. We might have broken in the game in the seventh but Harris made two miracle plays, catching my hit back of second and making Frisch's smacking grounder with one hand. As usual, base men who make right assists and two out outs

without an error in playing a rare game. We had tough luck with the pitching Tuesday. Some day it seems that there is not a pitcher on the staff who can do his best and this was one of those days with us. But you may remember that the Washington pitchers did not have anything but their gloves, and those seemed to be mortgaged when we walloped them Monday.

Early per cent of the Swedish farms now run their household, dairy and agricultural machinery by electricity and 50 per cent of the houses in the country districts are lighted by electricity.

BIG CROWDS GREET OPENING LINDSEY THEATRE'S GREATER MOVIE SEASON; "COVERED WAGON" IS TO BE SHOWN

The new Palace Theatre will be completed and given over to the owners, J. D. Lindsey & Son, on November 1st, Mr. Lindsey stated.

Immediately thereafter all equipment will be installed and the people of Lubbock will have a new playhouse opened to them at least by the 10th of the month.

When the Lindsey Theatre Greater Movie Season opened here Monday, it was continued until November 11, the best time of the season ever brought to this section had been stated, and the crowds Monday and Tuesday evening gave approval of the management's selection of pictures for the season.

Reilly Compton in "The Enemy Sex" program that was well received here, and many local theatre goers had a great deal to say regarding this "good program." Lloyd Hamilton in "The Bandhead" was the comic feature of the program and was thoroughly enjoyed.

SPORTS

(Continued from Page 1)

muscle every where except on his own league," Williams stated.

Nick the Greek, who attempted to get a foothold here with his gambling activities, has been chased out of the state and has returned to Chicago, it seems that Mr. Johnson should do some worry about that, for instead of the gamblers flocking here they really are traveling just the other way.

"Mr. Johnson's remarks are insulting to every player, manager, and owner in the league. Unless they can be backed up by facts they should be withdrawn at once."

FALL FESTIVAL WEEK AT KANSAS CITY

KANSAS CITY, Mo., Oct. 7.—Fall festival week, sponsored by the Kansas City Merchants, and signaling the 37th annual visit of Pallas Athena, Greek Goddess, to Kansas City, is in full swing. Tonight will be the masked ball, tomorrow the men's athletic carnival, Friday night the formal ball, while the children's matinee ballet has been reserved for Oct. 11, the closing day.

Thousands of visitors have been attracted to the city by the festival.

The Priests of Pallas annual parade last night, was a gorgeous affair.

Pallas Athena appealed to Apollo, God of nature, through "Jackson" mysterious director of Kansas City's fall festival for sunlight. Unable to send sunlight for an evening parade, Apollo thoughtfully sent his emissary, Fairy Sunshine, who will make things bright and beautiful for the Priests of Pallas parade.

PROSPECTORS OF WILLIAMSON CO. VISIT HERE

A party of prospectors from Williamson county, composed of some of the leading capitalists and land owners of that section of the state, arrived in Lubbock Monday, headed by J. H. Griffith, president of the City National Bank of Taylor.

The party is composed of Dr. J. H. Vanhook, W. T. Jones, farm lands owner, E. H. Lawhon, attorney, W. J. Reinhardt, land owner, C. B. Taylor, farmer, and J. S. Park, capitalist of Granger.

HON. R. M. CHITWOOD WAS HERE MONDAY

Hon. R. M. Chitwood, of Sweetwater, accompanied by Mr. Price, capitalist of New York City, was here Monday visiting and looking after business.

Mr. Chitwood was a co-worker with Senator W. H. Bledsoe in creating the Texas Technological College and his efforts toward establishing this important school in West Texas have given him a most prominent place among the great men of West Texas.

EL PASO MAN IS VISITING IN FRANK BARCLAY HOME

E. H. Nolte, of El Paso, Texas, is here visiting at the home of Frank Barclay.

Mr. Nolte is a father-in-law of H. Zolnow, a former resident of Lubbock, who has many friends here who have availed the opportunity to meet Mr. Nolte.

A stingless bee has been discovered in Panama by a member of the American Museum of Natural History, according to reports. It is as harmless as a butterfly.

NEW PARKING ORDINANCE IS ENFORCED HERE

Policeman John Lemond stated Tuesday morning that all members of the police force have entered into the work of enforcing the new parking ordinance prohibiting taxi cabs from parking anywhere on the streets of Lubbock for more than five minutes at a time, while loading and unloading except around the courthouse square.

The ordinance also provides that vehicles of no kind be parked at the curb in front of local theatres and hotels longer than five minutes at a time.

"This ordinance will be enforced, and inasmuch as we have done every thing possible to let the general public know about its regulations, we hope no one will feel justified in asking if it is enforced for violating it," the policeman said.

PALO DURO MAY BECOME STATE PARK SOON

AMARILLO, Oct. 7.—The dream of the Panhandle for a great playground is about to be realized.

Palo Duro canyon, the greatest scenic gorge of its kind in Texas, is to become a state park, and if plans do not miscarry, deeds conveying more than 8,000 acres of land, to the state of Texas by private owners alone the canyon, will be signed this week.

This information was obtained from D. E. Cade of San Antonio, chairman of the State Park commission who met with a committee from the Board of City Development.

RAIN FALLS IN SOUTHERN CALIFORNIA MONDAY NIGHT

By United News. LOS ANGELES, Calif., Oct. 7.—Rain started falling on parched Southern California Monday night bringing to an end one of the longest droughts in the history of this section.

Earlier in the day a slight sprinkle had been recorded, but the participation was not enough to be measured.

The forecast issued by Colonel Hersey, of the government weather station declared that the remainder of the week probably would see continued showers.

The forest fire menace, which thru the summer has grown increasingly alarming, is now definitely over for the season, according to those combating the flames. Last smoldering embers were being extinguished as the rain fell over the southern section of the state.

For many years citizens of Amarillo, as well as a number of other towns in the Panhandle, have been expending their efforts toward the culmination of such a project, believing that the Palo Duro canyon affords some of the most unique and beautiful scenery to be found anywhere in the United States.

"Thousands of tourists will be attracted by this park," Mr. Cade said, "and it will be only a matter of a few years until Palo Duro canyon will be nationally known among the greatest scenic pleasure parks of the United States."

To Move for Game Preserve. "As quickly as the park can be in order for sightseeing, it is ready to accommodate the people, it is our intention to start a move that will make a game preserve as well as an amusement park of it. The canyon with its craggy retreats and other natural advantages would afford an excellent protection for wild life. We are of the opinion that this move will come immediately on the heels of our present project."

BIG CROWD THROUGS FAIR HELD AT HASKELL

HASKELL, Texas, Oct. 6.—The fair here closed Saturday with the largest crowd ever seen in Haskell in attendance. The feature on the race track was horse races, with many good horses on the card.

Stables at San Antonio, Winfield, Kans., Vernon at Amarillo, had horses in the race. The event that claimed the most interest was the Haskell Derby, seven-eighths of a mile, won by Merv Mahon, owned by W. S. Camp, of Winfield, Kans.

If there were no Reds, how would Feroes of nations see one another into being reconciled?
