Bond Election Next Thursday

Qualified voters of the Muleshoe Independent School Dis-trict are reminded that next Thursday, May 17, there will be an election to decide whether the district shall issue bonds in the sum of \$75,000.

The board of education, in announcing the election, said the funds are needed for erection of three additional rooms for the grade school building to alleviate the crowded condition of the lower grades; and for the renovation of the old building now being used for the junior high school.

First and second grades have been very crowded this year and the condition is not expected to improve next year. The trustees said that unless more rooms are provided the old barracks likely will come into use again. The junior high building is badly in need of repair, since no major work has been done on it since it was erected in 1926.

King Resigns As Mayor

H. D. King Wednesday night resigned as mayor of Muleshoe. The Council members elected

Ray Keeling as mayor pro tem. Serving on the council now are Keeling, N. H. Greer, Dudley Ma-lone, Will Harper, and W. T. Bovell.

The council at this special meeting completed a statement of the plans and specifications on work they want to do at the Muleshoe Airport for approval prior to asking for bids.

The city council is having the old water tower repaired. It will be painted inside and out and a repair job will be done where it is

Oklahoma Lane Revival To Be This Week End

The Rev. Carlos Gruber, Latvian Brazilian minister, of Plainview, will conduct a week end revival on Friday, Saturday and Sunday

nights beginning at 8 p. m. Each service will be preceded by violin renditions. Bro. Gruber will tell 2. She was fourteen years of age. the story of his life at 2:30 p.m.

"The new orders covering beef, stores, too, Taylor points out. Gro-which makes up nearly half the cery stores are scheduled to begin nation's best diet," District Price their operation under tailored reg-Executive C. J. Taylor said, "were the highlights this week of the rapidly expanding and developing government price program".

"The new regulations will regulate the price of beef from cattle on the hoof to the steak and hamburger at the corner grocery", he said. "The only unregulated price will be those between producers. The program begins with the pricing at the stockyards".

"The regulations are designed to check advancing prices of live cattle and bring them in line with wholesale and retail prices," Taylor said, thus restoring an operating margin for those slaughterers and retailors who have experienced a price squeeze in the last few weeks because of uncontrolled cattle prices".

In a furthur move the OPS regu lation provide for lower retail prices in the fall, the first reduction coming on August 1 when retail prices will be reduced by about 4 cents a pound, followed by simular rollback October 1.

The wholesale ceiling prices became effective May 9, and the retail prices will go into effect May 14. However, retail stores have untill June 2 to post their ceiling ulations removing them from the prices in their stores for beef. To highlight other pertinent are required to comply with it.

To highlight other pertinent pricing regulations, Taylor emphasized that the general ceiling price MULESHOE SUNDAY SCHOOL regulation, or "freeze" still covered practically every merchant who sells either goods or services-unless Muleshoe Church of tthe Naza he has been specifically removed rene is the winner over the Sunday School of the Church of the by subsequent "tailored" regulations

TIMELY TIPS FROM YOUR H. D. AGENI By Miss Dian McClurkin

SWEET AND SNAPPY

When looking for ways to vary salads, a bright-flavored dessing may turn the trick.

As examples, here are recipes for two sweet-sour dressings, one thin, one thick, that go well with most kinds of salads from tossed greens to combinations of fruit: neat.

Sweet French Dressing:

Ingredients to make 1 cupfull: 1/4 sugar; 1/4 teaspoon salt; 1/4 teaspoon dry mustard; 1-3 cup vin-egar; 1-3 cup oil; ¹/₄ cup finely chopped green pepper. TO MAKE samples. Combine sugar, salt and mustard. Add vinegar and oil and beat well. Blend in onion juice, pimento. and

green pepper. Cooked Salad Dressing:

Ingredients to make 1¼ cups: cup sugar; 2½ teaspoons siftlimp look. Still another type of finish worth looking for is known to the trade as dimensional stability. This ed flour: 34 teaspoon salt; 1 teaspoon dry mustard; few grains cayenne; ¹/₄ teaspoon pepper; 2 cups of butter or margarine, melttreatment, which tends to prevent stretching, shrinking, or sagging ed; 2 eggs, slightly beaten; 1 cup milk, then the vinegar.

Cook over hot water until mixture would be desirable also for types thickens, stirring occasionally. By combining mayonaise or whipped cream with this cooked dressing, a richer dressing may be made, if

desired.

FABRIC FINISHES:

When shopping for summer dress William Henry Harrison was the goods,, try to keep up to date on fabric finishes and what to expect oldest U. S. president to take office. from them. Manufacturers, who He was 68.

YOU CAN'T BEAT MM UNI-MOWER FLEXIBILITY

Minnecpolis-Moline pull-behind mowers are built to fit any modern wheel type tractor equipped with power take-off.

The modern design of the UM Mower with its tubular steel frame welded and braced at stress points for maximum strength insures extra long dependable service. Other UM features include:

- •V belt drive from power take-off to Pitman gives smooth operation and makes adjustment of sickle speed easy.
- Full length wearing plate improves cutting action and protects the cutting blade.
- Safety spring release prevents damage to cutter bar drive mechanism, or frame; and back-to-work adjustments are easy and simple to make.

Interchangeable cutter bars are made in 41/2, 5, 6, and 7 ft. sizes. Choice of pea vine lifter, stub, or rock type guards make easy work of cutting domestic or wild hay, grass seed crops, or peas. Pneumatic tired caster wheels permit easy backing and square turning . . . also fol-

The difference goes more than Skin-Deep

Nobody wonders what you're driving when you roll by in this one.

In the 1951 line-up, its brand-new front-end styling stands out with a beauty all its own.

You're the proud owner of a Buickand the whole world knows it.

But you-at the wheel-enjoy a long list of differences that go far deeper than looks.

The ride is different-level and true. You sit the road with special assurance - because Buick's torque-tube drive keeps rear wheels firmly aligned-soft coil springs on all four wheels soak up the bumps and bobbles-honest weight keeps you on a steady keel.

Tune In HENRY J. TAYLOR, ABC Network, every Monday evening

The power is different-eager and sure. Buick's high-compression Fireball engine does wonders with fuel - and no matter what you demand in emergency, there's horsepower to spare.

Handling is different - this car seems to steer itself on straightaway or curve -and swings lightly into parking spots inches shorter than you'd think you need.

Capping it all, there's the silken versatility of Dynaflow Drive,* that takes

all the tenseness out of driving responds to your slightest wish with a surging swoop of power.

No doubt about it, what you get in a Buick is far more than just a new car -it's a whole new experience in getting pleasurably from here to there.

So why not explore this difference? Come, take a Buick over and find out how very much satisfaction smart money can buy.

models are subject to change without

MACARTHUR

Babson Park, Mass., May 4 .and courageous approach to Unless the leaders of our count problems.

can rejuvenate the common spirit The roots of our vitality are not ual values which give meaning and conomic. They go deep into the thical and spiritual soil. Today purpose to the New World, Ameri-ca is licked as the leader of free he trouble is that a startling lack nations religion has crept into our natonal economic thinking. Ask the verage person what has made

America Adrift

I get lots of letters these days asking me, "What can a man believe, anyway?" They come from business managers and production line workers alike. One man is a confused as the next. One doesn' the cart before the horse. like labor unions. Another doesn' like government bureaucracy. The next doesn't want price fixing Still another doesn't want the United States fighting wars in

Korea. But all have a good word say for General MacArthur. MacArthur reports that Japanese intellectuals have been shocked by the inability of even our mili-life. This, I believe, is what we tary officers to tell the Japanese have lacked in the Western World what we believe in as a nation and what our long-term objectives are. We don't want the tyrannies of Hitler or Mussolini or Stalin. We don't want British Socialism. We

don't want Communism; but, for help implement our beliefs for us. party. the moment, we want MacArthur We are fed up with the political mumbo-jumbo out of Washington. We are relieved and encouraged to find someone who has a policy even if we don't agree with it.

What Americans Want I think most Americans want something substantial they can grab hold of,-something to believe in, an ideology, a creed, a way of life. Something with more substan-ce than a 50-cent "dollar bill'. There was a time when the Church. gave a meaning of life to people.

Many Americans do not like Mac-| KILL THE GOOSE? Arthur's methods; but his forth-

rightness appeals to everyone. Perhaps it is a defect that too many of us voters are waiting for someone else to come up with a real creed. This isn't the way our forefathers operated! They thought their policies out for themselves. I think more of our political, labor and business leaders need to take time to think, pray, meditate, and see if they can't rediscover life's essentials

A Practical Suggestion

Did you ever stop to think what might happen if your neighbor-hood turned off the TV or forgot the corner movie for a night, a week, and instead met one night each week in some house to discuss ways to save our Union? The idea is explosive! Think of the force which such grass-roots thinking of this kind could exert on the electorate-on the nation and the

world. CHRISTIAN SCIENCE SERVICE

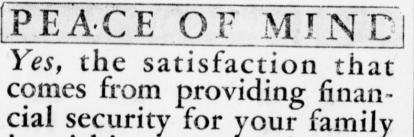

In the Lesson-Sermon titled Adam and Fallen Man" to be read for domestic and industrial use. n all Christian Science churches It also displays an attitude of inon Sunday, May 13, Christ is represented as the remedy for Adam. As Paul says in Romans 5:19-the olden Text-"As by one man's disobedience many were made sinners, so by the obedience of one shall many be made righteous' One of the Bible citations reads "For as in Adam all die, even so in Christ shall all be made alive" (I Corinthians 15:22). This cor-

elative statement from the Christ an Science textbook, "Science and Health with Key to the Scrip-tures" by Mary Baker Eddy, goes into more detail: "Jehovah declarmerica great and he will probareply, " Our vas resources and unparalled production system" ed the ground was accursed; and ople who think this way have from this ground, or matter, sprang Adam, notwithstanding God had blessed the earth 'for man's sake'

I am not a social scientist. An-thropilogists tell me, however, that not the ideal man for whom the in order for any society, primitive earth was blessed. The ideal man or highly civilized, to hang togethwas revealed in due time, and was it must have a courageous but known as Christ Jesus" (page 338) simple rational creed, a set of spir-VISIT IN SNYDER itual values with strong emotion-

Mr. and Mrs. Bob Gregory visit-ed last week end with her parents al appeal which give meaning to have lacked in the Western World and other relatives at Snyder.

since the disillusionment of World War I. This is what most Ameri-Thomas Jefferson started the cans today long for—a vital, cre-ative, forward-looking creed. We resigned from Washington's cabiwould like more brave leaders to net and formed his own political

rapidly in the past decade. The process is still going on at full blast. Just the other day it was announced in Washington that certificates for Texas defense industries approved during the past 5 months come to 569,873,000. Only one state, Pennsylvania, is ahead of us. Texas is to get twice as much new defense industry as the state of New York; nearly twice as much as Ohio; sive times as

much as New Jersey—all of them leading industrial states.

It is interesting to note that Louisiana, which like Texas has unlimited natural gas supply available for industrial use, was awarded only \$80,306,000 in defense plant certificates, or one seventh Texas' total.

Louisiana has approximately the same inducements for industry that Texas has, except for one thing. That is, tax policy. The neighboring state put a 1-cent tax on natural gas in 1948. That

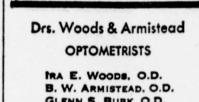

makes fuel more expensive both difference to the location of new industries in the state. This is exactly what the Sewell

bill, now before the legislature, would do. The 1-cent increase in tax on natural gas woul be a 200 per cent jump. It could well cause many industrial concerns now interested in a Texas location to

uild elsewhere. That 7-1 margin in Texas' favor n regard to defense plant authorzation is significiant. It cannot be explained on the basis of popuation, water supply' labor availibility, or location in reference to aw materials and markets. nust be due in large part to the difference in fuel taxes and to the attiude toward industry which that difference points out.

It's easy to kill the goose that lays the golden eggs. Let's not do Any increase in natural gas taxes should be somewhat commensurate with the levies on other natural resources-not drastic and discriminatory.-Houston Chronicle

GLENN S. BURK, O.D. Phone 328 Littlefield

Texas has been industrializing Wter Ass'n. Says Many Pumps Of **Plains Are Having To Be Lowered**

With another heavy irrigation thing about the lowering of water season under way, many farmers levels while the problem is small enough for us to tackle", a spokesin the South Plains area are having to lower the pumps on their water man said. wells, according to reports received An underground water conser

vation district, if created, will have by the High Plains Water Conservation and Users Association. conservation powers which should stop the gradual decline of the Illustrating the fact that the water level, or at least retard the problem is widespread, one farmer reported that a Plainview pump company put him on a waiting list and said it would be at least decline, the association pointed out. Proper spacing of wells, pre-

two months before they could get to the job of lowering his pumps Other reports indicate that a lot of windmill wells, used mostly for domestic purposes, have failed in the 60-70 foot upper strata and have had to be deepened to the irrigation well level. This indicates that the higher water sands are being depleted. While water levels have not gone down much and there seems to be no immediate danger of the irrigation water running out, this lowering trend is interpreted by the association as a "danger signal.

vention of waste, better pumping practices and a re-charging pro-gram would help keep the water levels up.

9

The first use of the abbreviated U. S. A. was to stamp approval on barrels of gunpowder made at a mill near Frankfort, Penn., for Washington's Army.

We should be as generous with a man as we are with a picture which we are always willing to give the benefit of the best light.

-Ralph Waldo Emerson

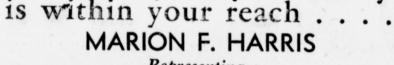

It doesn't take a crystal gazer to learn it pays to have John Deere Equipment serviced by your John Deere Dealer . . . by our shop.

Why? For three important reasons: (1) Our mechanics are trained to service John Deere Equipment the way the factory recommends. (2 and 3) We've equipped our shop with precision tools...stocked it with only genuine John Deere Parts.

No other shop in this community can match this efficient, economical service. See us for details the next time you're in town.

Apparently this isn't fashionable any more. Our neglect of the spiritual has brought about a great cultural lag in Western civilization.

What was it that satisfied so successfuly the wants of our forefathers? Certainly, it wasn't fast automobiles, television, the 4o-hour week or a soft life. I believe the happiness and success of our ancestors in this country was the result of their spiritual

Sand Hills Philosopher Says **He'll Worry Over High Prices After Few Others Do It First**

take it

Editor's note: The Sand Hills Philosopher on his Johnson grass Wheat Growers farm reports on worrying this week, something he has very little knowledge of, if you ask us. Dear editar:

One of my neighbors went into Have Success In town and sold a calf the other day and he com

ever hope to get for one calf," he said. Personally, I don't feel that way about it. I ain't never seen a calf of mine I wouldn't rather get \$160 for than \$150, or any other lower price you can name.

The point is, with farm prices sort of high, a lot of my neighbors are worried, they have the idea they are maybe gettin too much, although that's the least thing they'd want to leak out and I ain't seen none of em sendin any money back. With me, the things I have to

sell just can't get too high, although I could stand some reduc tion in the gouging I get when I have to buy something, and it has never bothered my conscience any to get a big price for cotton or corn or calves or anything else

that works its way up through the Johnson grass out here. But in order to help out my worryin' neighbors, to sort of ease their conscience when they get \$150 for a calf, I would like to

point out that I found a newspaper out here this mornin which quotes the United States Department of Agriculture on the question of high farm prices. Accordin to it,

farm prices have gone up recently, especially when not many farmer: around here have much to sell but so has a lot of other stuff. Since the Korea war started, for examaluminum 78 percent, clothes 32 percent, chemicals 27 percent, etc. while in the same period prices received by us farmers have gone up only 21 percent.

Now maybe we all should be worried about inflation and high prices, but personally, I'm gonna go sort of slow and hold back and let the tin boys and the textile boys and the aluminum boys, etc., get in their morryin' first. Let them worry their prices down to my level first, and then we can

Bids will be received by the County Clerk of Bailey County at the Courthouse in Muleshoe, Tex-as, until 10:00 a, m, on June 11 A PL PL County Clerk of Bailey County at the Courthouse in Muleshoe, Tex-Are Below Bailey County of one Tandem-Drive Die-sel Motor Grader, mechanically op-erated and with cab, cab, boots. hydraulic steering booster, scarigine.
