

Mr. Muleshoe ...

By J. M. FORBES

One wag said he had passed this rig several times in the last few days on its way from Clovis to Muleshoe. It wasn't that slow but it seemed slow. It was a trailer house looking thing with four rubber tired wheels and it was pulled by three burrows and you know how slow they can walk. They hit Muleshoe Sunday afternoon and turned to the north.

During the 30 minutes it took to get from the Cross Roads to a point opposite Chief's farm store, nearly a block away, Buck Wood looked at it steadfastly, then said: I could ride a horse all day and not get very tired or very sore. Clyde Bray opined that if he rode a horse five miles he'd require crutches to get about. But what this had to do with the slow traveling vehicle and the family in it, I ain't been able to figure out. Anyway that's what happened in Muleshoe one Sunday afternoon. It is not always that something happens out of the regular run, however, it is not always so exciting in our little city on a Sunday afternoon.

The above shows to what length a fellow will go to fill a column. I rack my brains and turn through the other fellow's paper or magazine, scissors in hand. Finally I found this authentic little piece that might create a mild sort of interest and even astonishment. It is entitled

THEN AND NOW

Arynny Joy Wickins, deputy commissioner, U. S. Bureau of Labor Statistics, list the foods which \$10 bought in 1939 and now.

1939-1939: 10 lbs. flour, 5 lbs. sugar, 15 lbs. potatoes, 2 loaves bread, 7 qts. milk, 2 lbs. butter, 1 pkg. rolled oats, 2 doz. oranges, 1 lb. coffee, 5 lbs. cabbage, 3 lbs. green beans, 2 lbs. veal cutlets and pork chops, 1 can salmon, 3 lbs. onions, 1 lb. cheese, 2 doz. eggs, 3 lbs. apples, 2 cans tomatoes, 2 bunches carrots, 1 can peaches, 2 cans peas, 1 head lettuce, 1 box drie prunes, 6 lb. rib roast, and 2 lbs. bacon.

1951-1951: 10 lbs. flour, 5 lbs. sugar, 15 lbs. potatoes, 2 loaves bread, 7 qts. milk, 6 lb. rib roast, and 1 lb. bacon.

WORRIED ABOUT OLD AGE

(Taken bodily from The Outlook, Texas teachers' magazine.) Old age is what you make it. At 84, Clara Barton became founder of the American National Association for First Aid. When she was 89, she learned to type.

Benjamin Franklin was 77 when he was sent to Paris to serve his country; at 80, he wrote his famous "Autobiography."

Socrates began to play musical instruments, Plutarch to study Latin, and Cato to master Greek at the age of 80.

At 80, Gladstone campaigned to overthrow the Conservative government and at 83 became Prime Minister.

Michelangelo executed immortal canvases at 89, Verdi was 85 when he composed "Te Deum"; at 82, Goethe finished his work on "Faust"; Tennyson wrote "Crossing the Bar" after he was 83.

Between the ages of 70 and 83 Commodore Cornelius Vanderbilt extended his railroads' mileage from 100 to 10,000 miles, making more than 100 million dollars.

All of which adds up quite simply to this—there is no such thing as a "best" age. It's what you make of your age that counts.

IOOF Children To Visit Here

All members of Muleshoe Rebekah Lodge are urged to be present next Tuesday night as final plans will be made for the visit of the children from the I. O. O. F. home. They will present a program at the high school auditorium the night of June 27, with the public invited to attend.

There will also be a short memorial program next Tuesday night. The secretary has requested that all who have rituals please bring them on the report. It was decided to have installation of officers July 10.

All those having birthdays in June will serve refreshments at next Tuesday night's meeting.

The Muleshoe Journal

DEDICATED TO THE PROGRESS AND DEVELOPMENT OF BAILEY COUNTY AND THE GREAT MULESHOE COUNTRY

Volume 29, Number 25

MULESHOE — County Seat of Bailey County — TEXAS

Thursday, June 14, 1951

Robert Giles and Jim Prather To 4-H Round-Up

Winners of trips to the State 4-H Round Up are Robert Giles and Jim Prather, who will represent the 188 4-H boys of Bailey County. J. K. Adams, the county agent, reports.

The Round Up will be staged at A. & M. College, College Station, Texas June 24 to 27.

These two boys were selected on the basis of their leadership in 4-H club work over a five year period. Jim Prather has several championships to his credit in baby beef competition in the Bailey County Fat Stock Show, also runner-up honors to champion calves at Lubbock Fat Stock Show, Ft. Worth Show in 1950.

Jim also tied for high honors in beef cattle judging and took 2nd high honors in quarterhorse judging at the district livestock judging contests at Texas Tech last Saturday.

Robert Giles won his right to be a delegate to the State 4-H Round Up for his consistent winnngs in the state fat barrow shows. He took the grand championship over all breeds of barrows at the State Fair in Dallas last fall and was also a winner or reserve champion Poland China barrow at the big San Antonio Fat Stock show this spring.

Marlon Inman also came up with an outstanding record in 4-H club work, but for a shorter period of time and will, therefore be considered an alternate for the big affair at College Station.

Farmers Home Meeting Called

L.J. Cappleman, the State Director of the Farmers Home Administration, has called a two day meeting of all personnel of the Amarillo and Lubbock districts. New plans for the next fiscal year starting July 1 will be discussed by members of his staff from the Dallas office.

Ways and means of getting FHA borrowers to adopt improved farming practices will also be one feature on the program. FHA personnel all over the State are encouraging early Season Cotton Insect Control this year, as well as other improved practices.

The personnel in the local office will attend the two day meeting and the local office will be closed all day Thursday and Friday. Those attending from Muleshoe will be Arch T. Fowler, County Supervisor; John E. Quattlebaum, Assistant County Supervisor; and Barbara G. Howard, County Office Clerk.

Royal Chorus To Be Here Sunday

The Royal Chorus of Boles Home, Quinlan, Texas, is scheduled to sing at the Muleshoe Church of Christ Sunday, June 17, at 3 o'clock.

This famed Royal Chorus of twenty-eight voices has sung all over Texas at numerous times during the past eight years making appearances before hospitals, civic groups, and before churches of Christ in many places.

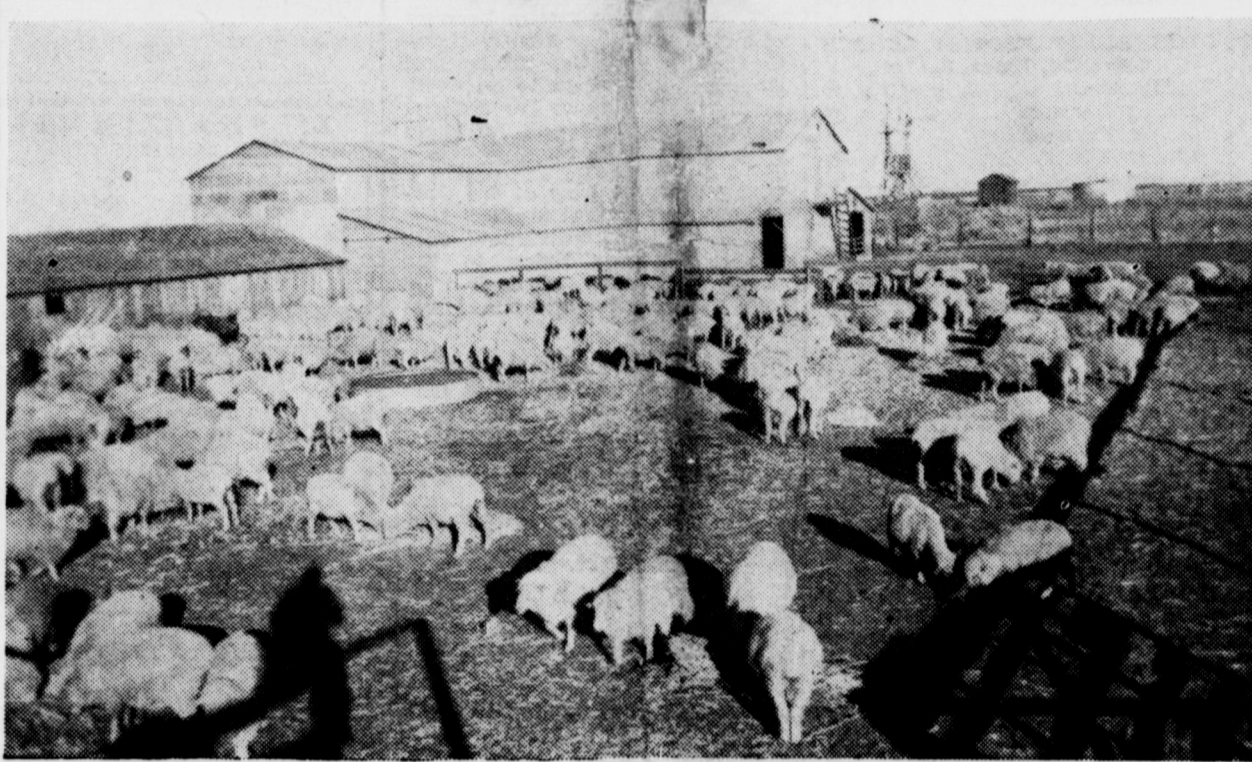

They began their 1951 tour on June 3, and will continue through the summer months, with initial appearances conducted in Texas and the southeastern part of the United States, including Louisiana, Mississippi, Alabama, Georgia, and Tennessee.

Brother Tex Williams, public relations director of Boles Home, will give some highlights of the history and progress of Boles Home throughout its 27 years of existence, and will present the opportunities in caring for the 296 boys and girls now living in Boles Home.

The Royal Chorus is directed by Brother Hugh A. Graham, one of the teachers at the Home. He also is a faithful minister of the gospel.

The Muleshoe Church of Christ extends a very cordial invitation to everyone to attend the 3 o'clock concert, to enjoy the inspirational program.

Barnett-Sanders Sheep Venture Attracts Attention

PICTURED HERE is a view of the huge feed barn, lambing barn and corrals of the Barnett-Sanders sheep farm in the Goodland community. The barns are a model for convenience and ease of handling the animals. Note the large water trough in the corral at the center of the picture. This is the second year of the sheep venture which last year paid off handsomely.

Two young Bailey County men, Kelly Jo Barnett and H. S. Sanders, Jr., are convinced there is good money and quick money to be made in raising and feeding sheep.

Beginning their operation with 352 ewes on a 358 acre farm in the Goodland community belonging to Sanders, they found at the end of the year that the original ewes had paid for themselves and made a profit besides. During the past year a finish has been put to a huge feeding barn, lambing barn and corrals, loading chutes, etc. The young men have gone into the sheep business in earnest and now have some 850 head, including ewes, bucks, and lambs.

Before long the young lambs will go on feed in the big barn, where automatic feeders are on hand with a capacity sufficient to take care of around 2,000 head of lambs. The lambs have a constant supply of water on hand at all times, automatically furnished, and, since there is electric lighting in the barn they can continue their feeding through the night as they desire.

The feeding barn is 48x56 feet in dimensions, with a double deck or second story where feed is stored. The bundles, usually

hegari or cane, are ground, have salt and cottonseed cake mixed with them and the product is blown into the loft and drops down into the feeders below. The feed is pushed along by an auger and drops through holes at convenient places near the opening to the feeders below.

No Commercial Feeds

The Barnett and Sanders venture is the more significant because they are using home grown feeds. Whenever the farm produces a crop of feed that is not No. 1 and marketable at a favorable price, the feed is fed to the sheep. They bought only one load of commercial feed last year. And yet, they report, they had very good gaining record and went to Ft. Worth with some mighty fine lambs.

Wool is selling, or is quoted at about \$1.00 a pound. When sheep produce a wool clip weighing around 19 pounds, that means money. Wool produces a money crop once a year and lambs, after shearing, are fattened and they in turn bring money, so there are two crops a year from sheep.

The lambing barn is 20 by 100 feet and there is a wing connecting this barn with the feeding

barn which is 20 by 30 feet.

Wheat Is Grazed

When May came along and it became apparent that no great vesting their wheat crop, they turned the sheep in to graze it. Profit could be made from harvest, thereby saving ground feed and giving the animals some fine grazing. At that they never did eat it all and a part of the field may yet be harvested.

Barnett and Sanders and their families are always glad to have visitors to see their sheep demonstration and inspect their facilities. The place is right on the New Mexico line; from the Goodland postoffice one drives 4 miles west and 1 mile north.

Mr. and Mrs. Barnett and their little daughter, Charlotte, live on the place. Mr. Sanders is out at the place much of the time, giving a hand with the work where needed, and there seems to be plenty of work to do. The farm is an old settled place, which had lots of unsightly junk, the accumulation of years, and old buildings which were of no value. Under the Barnett regime this condition is rapidly changing, and one can see that the farmstead will soon be one of the county's most attractive.

Price Expert To Be Here Monday

By the time specialists from the district Office of Price Stabilization start their price clinic program next week, two important compliance deadlines will have fallen. They concern posting beef prices and consumers services. In their conferences with business men of the Far West Texas district, they will stress to merchants that if they have not complied, they should do so immediately in order to continue to operate their business legally.

To assist the merchants, Leonard Tyson, specialist in the food branch, will be in Muleshoe on Monday afternoon, June 18. While here he will maintain offices in the district court room in the courthouse building.

Although he is a specialist, he will be able to answer most questions concerning compliance in any field, or he will be able to help the business man find the answer.

This price clinic program is conducted throughout the district under the sponsorship of the Lubbock district Office of Price Stabilization and local chambers of Commerce and other community and civic organizations and officials.

Business men are not only invited but urged to avail themselves of the assistance that can be given by the specialists. It is the plan to continue the price clinic day schedule throughout the district during the remainder of June and July, with the specialists visiting each town on the same day of each week.

PAPER of all kinds and Office Supplies at The Journal. Just call 51 for free delivery.

Irrigation Demonstration Is To Be Staged At Gammons Farm Friday

The John Gammon home, well known home of fine Hampshires and Herefords, across the Plainview highway north of Muleshoe Airport will be the site of an educational demonstration on rate of flow and length of run for irrigation of row crops.

Bob Thurmond and C. E. Lewis from the district Extension office in Lubbock will spend Thursday and Friday on the north end of the farm running an exhaustive test with various sizes and numbers of siphon tubes and spiles. The test will be timed and gauged with stop watch precision and results will be ready for discussion by Mr. Bob Thurmond at 2:00 p.m. Friday.

J. K. Adams, County Agent of Bailey County, is in charge of the demonstration and urges the general public to gather in the north end of the corn field on the John Gammon farm at 2:00 p.m. Friday June 15, to learn how water can be made to penetrate the root zone uniformly which saves water, saves time and saves on power costs for the farmer.

Approximately one hour of the farmer's time will be taken up by the discussion and each farmer attending should be able to apply the knowledge obtained to his own irrigation system and reap bountiful returns for this small investment of his time.

MRS. HERBERT NASH HAS 'SHOWER AND QUILTING

Several members of the Sunshine Club met in the home of Mrs. Herbert Nash and quilted a quilt and brought several useful gifts for the Howard Griffin family, who lost their home by fire.

It was decided by the members there, that we should bring our quilting scraps to the next meeting and start another quilt top.

State Entomologist Urge Early Season Insect Control For Cotton

County Agent J. K. Adams of Bailey County states that Harry Harvey, associate county agent-Entomology, has released the following report on the 1951 cotton insect control program.

With the urgent need for high yields and 16 million bale cotton crop this year, producers can not afford to follow a strict insect control program. Growers can't depend upon last winter's cold weather to kill the insects this summer. In other parts of the state where the temperature dropped very low for long periods of time, damaging infestations of thrips, aphids, and boll worms are already showing up.

Alfalfa fields, in this area, which are excellent hosts for several cotton insects reveal flea hoppers, lygus bugs and thrips. It has been proven that when alfalfa hay is cut that in 24 hours

all thrips have left the alfalfa. Since thrips can't fly, they will migrate to the nearest green field they can find. Therefore if cotton fields are near, there is danger of getting thrip damage.

Beginning very early, growers should watch for thrips. Their damage can be noted by the silvery appearance on the underside of the leaves. Thrips are slender straw colored bugs about one sixteenth of an inch long. Wherever silverying of the leaves occurs generally through the field it is time to start poisoning.

It is highly recommended that growers follow an early season control program based on automatic treatments which may be done at time of cultivation thus eliminating some of the expense. It must be remembered that insects are easier killed early in the season and that it takes less insecticide.

In areas where fleahoppers usually occur in some degree every year, the first application should be put on in the eight leaf stage or earlier if necessary depending on the thrips and aphids. It is about this time that the first squares begin to form and this is a critical stage for the fleahopper.

If the first application is put on in the eight leaf stage then seven days later a second application should follow. After these two applications the early season automatic treatments should be stopped to allow time for the beneficial insects to build up. Seven days later the cotton should be insecticide.

Continued to be necessary one week for fleahoppers. If fifteen fleahoppers are found per one hundred terminal buds it is time to put on another application. By using the two early applications the fleahoppers should be knocked out; however, constant watch should be maintained, for the fleahopper is a migratory insect and can move in at any time.

All growers should obtain the "Guide for Controlling Insects" from their county agent. This guide has a lot of valuable information including a table listing all the dusts and sprays that will control the early and late season insects. There are several insecticides listed and they are all good. Use the one that you prefer or whichever one is available at the best price.

Whether sprays or dusts be used, it is important to remember the plants to kill insects. When the plants put on new growth or the poison is washed off, the plants are no longer protected.

Insects are indeed a major threat to economical cotton production, but they can be profitably controlled if growers will use the right poison at the right time. With the chance for a good price and the urgent need for cotton growers more than ever should include in their plans for this year's crop a good insect control program.

Hail Damages Bean Crop

Hail damaged some of the beans planted in the Muleshoe area, but there still are about 200 acres of beans in the immediate vicinity of the city. James Case, of the Muleshoe Canning Co., told a Journal representative today.

Case said only 10 acres of beans were in the path of the hail which last week devastated thousands of acres of crop land in the territory.

He said the company plans at present call for the beginning of canning operations around the middle of July.

Mr. Case estimated that only 20 acres of tomatoes were lost because of the hail, some 20 acres having been replanted after the hail fell.

This leaves, he said, about 220 acres planted to tomatoes in the vicinity. This is a fairly large crop for this community.

Mr. Case said, and should that number of acres mature, there will be lots of tomatoes to harvest here this fall.

Last year, two sheds were operated here and many tomatoes were brought to Muleshoe for marketing.

J. W. Parkman Rites At Bula

J. W. Parkman, 70, prominent farmer of the Bula community the past 26 years, was taken by death Thursday, June 7, at 5:35 a. m. when he passed away at Payne-Shotwell Foundation in Littlefield, where he had been a patient for the past two months suffering from a heart ailment.

Funeral services were held at the First Baptist Church, Bula, Friday afternoon at 3:30 p. m., with the pastor, Rev. J. E. Moore officiating. Interment was in Littlefield cemetery.

Deceased was born March 14, 1881, in Guntersville, Alabama. Mr. Parkman was born March 14, 1881, in Guntersville, Ala. He is survived by his wife and one son, C. W. Parman of Bula and three daughters, Mrs. Virgie Haste, Bula, Mrs. D. Daniels, and Mrs. Nora Dennington, both of Fort Worth.

Alex Wilkins' Father Dies

John Wilkins, 63, of Clovis, N. M., father of Alex Wilkins of Muleshoe, died of a heart attack at 2 a. m. Saturday morning.

Funeral services were held in the First Methodist church of Clovis at 2:30 p. m. Monday with the pastor, Rev. Raper, officiating assisted by Rev. H. W. Hanks, pastor of the First Methodist church of Muleshoe. Burial was in the Mission Garden of Memorials at Clovis.

Survivors are: Mrs. Wilkins, and two sons, Alex Wilkins of Muleshoe, and E. W. Wilkins of Clovis.

Hospital News

H. A. Douglass, Sr., was in for medical care. He has gone home. Mrs. J. J. Mock was in for a few days for medical care. She has gone home.

Mrs. W. R. Young was in due to an accident at her home south of town. She is doing fine and has gone home.

H. W. Garvin of the Maple community was in for medical care. He has been discharged.

Wm. A. Toombs was in for medical care. He has gone home. Allison Cassidy is a medical patient. He is resting fair.

Mrs. Melvin Treider spent a night for medical care. She has gone home.

Mary Surratt, daughter of Mr. and Mrs. W. W. Surratt underwent a tonsillectomy and has gone home.

Bruce Burreson underwent a tonsillectomy and is doing fine. CONGRATULATIONS TO: Mr. and Mrs. Jerrell Rodwine on the birth of a daughter, Beverly Jane, June 12. Mr. and Mrs. W. L. Hansen on the birth of a daughter, Joyce Lynne, June 10.

Darsey Infant Rites Conducted

Graveside services for Stephen Greendside services for Stephen Dale Darsey were conducted last Monday, June 4, in Amherst cemetery with Rev. J. E. Moore, pastor of the Longview Baptist Church in charge. Interment was in Amherst cemetery under direction of Bayne Funeral Home.

Stephen Darsey lived only 5 hours. He was born at 5:30 Monday morning in Amherst hospital. He was the son of Mr. and Mrs. Dan D. Darsey, of Longview community. Besides his parents he is survived by his sisters and brother, Jackie and John Cary and Faustine Darsey, his grandparents, Mr. and Mrs. J. A. Wood of Amherst and Mr. and Mrs. T. J. Darsey of Matador.

Johnson Heads Masonic Lodge

Johnny Johnson was chosen worshipful master of the Muleshoe Masonic Lodge at the election of officers held at the stated meeting Tuesday night. He was elevated from the senior warden station and will succeed Herb Potter.

Other officers elected are: John Thompson, senior warden; Bobby Sam Damron, junior warden; C.D. Gupton, treasurer; W. Q. Casey, secretary; and H.H. Potter, tiler. The W.M. will announce his appointive officers later. Installation will be held in a called meeting in the lodge hall June 26.

Now 4-ROW
with the WD Tractor

Here's the outfit to cover big fields in a hurry, yet do a top-notch job that gets the weeds without damaging the crop. Good penetration, no-dodge gangs . . . and real quick-hitch mounting.

Leading features:

1. Round, tubular steel gang assemblies — wider choice of shank settings.
2. Great strength without heavy weight.
3. Delayed action hydraulic lift. Front gangs raise at your touch. Rear gangs work to end of row, then lift.
4. Quick-hitch — drive tractor into frame. Attached by one man without hoists or jacks.
5. Independent depth control for each gang. Levers for inside gangs, gauge wheels on outside gangs.

We have one to show you. Stop in and see it.

Enjoy the NATIONAL FARM AND HOME HOUR—NBC—Every Saturday.

PRIMITIVE BAPTISTS BELIEVE
THAT all who mourn because of sin, or who ever have a divine inclination, are the children of God, and cannot go to an everlasting hell, because Jesus Christ bought them and paid for them with His own blood.

THAT the preaching of the Gospel is to prove that glorious fact, so that the individual may choose between living to the glory and honor of God or a vain life of unhappiness and dishonor.

THAT the church is the most exclusive order on Earth, and that no disorderly conduct should be allowed to walk in her ranks.

Here's why I take my **JOHN DEERE** Equipment to the man who knows it Best!

"There are three mighty important reasons why my John Deere Equipment goes to a John Deere Dealer for reconditioning:
"First, I benefit from the skill of his trained mechanics, schooled in servicing methods recommended by John Deere.
"Second, his shop is well-equipped with up-to-date precision equipment. His mechanics have the tools to do the work right.
"Third, he uses only genuine John Deere Parts, which are made to fit and wear like the originals they replace. Thus, it's a three-way assurance of work well done . . . economically done."
It will pay you to consider the important servicing advantages we offer. See us soon for complete details.

Here's 180 Horsepower... on regular grade gas—Now!

NEW YORKER NEWPORT

It's always interesting to hear about future-looking experiments with new super engines to run on new super-octane fuels...someday. But it's even more interesting to hear today's real life, on-the-highway talk about Chrysler's new super-performing FirePower engine. FirePower takes any regular grade gas you care to buy . . . and adds its own new *mechanical octanes* to the power-giving octanes of the gasoline itself. The result is 180 horsepower performance such as no other passenger car built in the U.S. today can equal.

If you haven't driven Chrysler FirePower yet, your Chrysler dealer invites you to do so now. It's the most revolutionary engine in 27 years. It offers highway satisfaction and safety such as you've never known. And it's a sounder engine other ways than any other on the road. Its new design keeps it almost completely carbon-free. It is smooth and quiet . . . but also rugged and strong and free from need for great attention and repair.

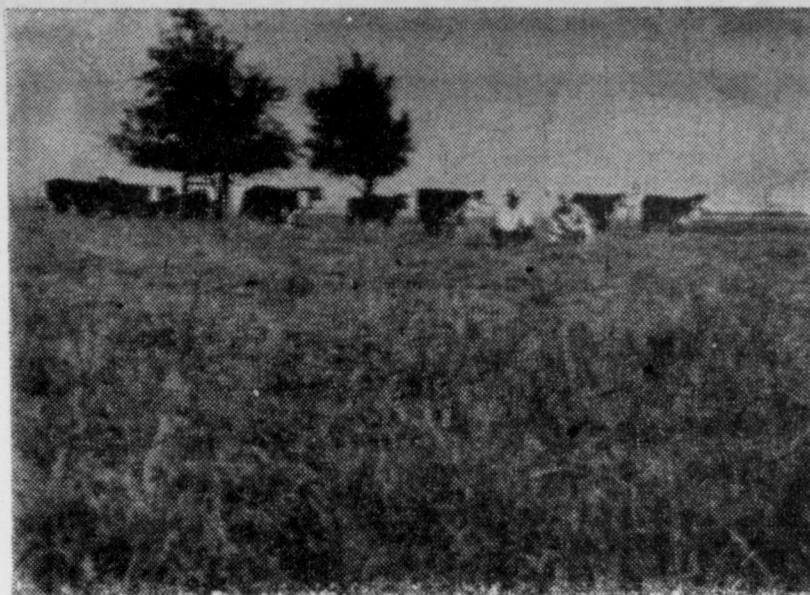

Now remember that this same new Chrysler offers you the new Hydraguide power steering* . . . plus the amazing new rough-road stability of Oriflow shock absorbers . . . plus Water-Proof Ignition, and Vacuum-Ease Chrysler Cyclebonded super-brakes . . . then come see what we mean when we say the car of your tomorrow is right here for you to drive . . . today, and for years to come!

*Hydraguide regular on Crown Imperial, optional at extra cost on other Imperial and New Yorker models.

180 HORSEPOWER Here's the new Hemispherical Combustion Chamber that's the heart of Chrysler FirePower. Its new, designed-in "mechanical octanes" make regular grade gas do what best premium grades can't do in any other engine you can drive today!

Chrysler FirePower
finest engine ever put in an automobile

COVIN MOTOR CO.
1021 WEST 1st STREET
MULESHOE, TEXAS

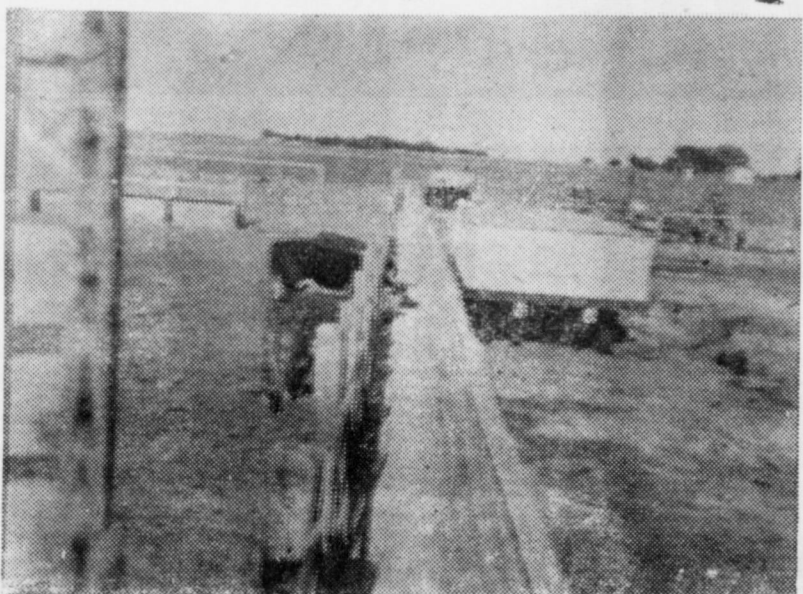

IRRIGATED PASTURE — Kentucky Fescue "31" and Hubam and Yellow Blossom Clover form a permanent pasture on the Carl Bamert farm four miles north of Muleshoe. Mr. Bamert is pictured here with Benny Chapman of the Soil Conservation Service.

56 CATTLE ON 13 ACRES . . . This pasture is capable of supporting four or five head of cattle per acre. When these pictures were made, 56 head were grazing on 13 acres of the pasture and were not keeping it grazed down. It is irrigated every two weeks.

BEARDLESS CANADIAN WHEAT . . . Mr. Bamert also has 60 acres of some of the best wheat to be found in the county. It is the beardless Canadian variety with hairy vetch. The vetch serves to build up the soil and at the same time produce a money crop.

FEEDING PENS — Here is a view of one of Mr. Bamert's feeding pens which he uses to finish out cattle grazing on the irrigated pastures. The trough has a concrete bottom which permits easy cleaning and assures proper drainage when it rains.

Each of the benches is perfectly level, which provides for an even distribution of water and prevents it from running off and

causing soil erosion.

Mr. Bamert is a firm believer in the practices recommended by the Soil Conservation Service. The benches were laid out by technicians of the local Soil Conservation Service, assisting the Blackwater Valley Soil Conservation District. The hairy vetch planted with the wheat will add needed nitrogen to the soil and will furnish organic matter when it is turned under. Mr. Bamert also follows the irrigation methods recommended by the Soil Conservation Service.

This year Mr. Bamert will also have 30 acres of alfalfa, 40 acres of hegari for bundles, 30 acres of sargo (for silage) and approximately 140 acres of cotton. One-half acre of garden will be planted for home use.

The feed pens will accommodate from 150 to 200 head of cattle for finishing. To finish a top grade beef, about three pounds of grain and a small amount of low-grade alfalfa is fed each animal per day, besides the permanent pasture. The average gain per animal is about one and one-half pounds per day.

The Bamerts' attractive white stucco house is well kept with a large spacious lawn neatly trimmed, bordered with flower beds. Three 10-inch irrigation wells supply the water for irrigation. Two are powered by electricity and one by butane.

Mr. Bamert plans to bench level sixty more acres after the wheat is harvested and seed it to Fescue "31" and Ladino clover this fall. Anyone interested in this type of pasture may visit Mr. Bamert and see his permanent pasture. He says it requires a lot of hard work and must be irrigated regularly. His pasture is irrigated every two weeks. Each Monday morning half of it is irrigated and the following Monday morning the rest is irrigated.

Mr. and Mrs. Bamert have an ideal farm home and are assured of an income each year by using diversified farming methods. They are insured of an income all year round because of their different crops and their livestock.

VISITED IN O'DONNELL

Mrs. Eugene Black, Mrs. J. L. Waggoner, Mrs. Clyde Waggoner, all of Muleshoe, Mrs. C. A. Waggoner, of Dallas, and Mrs. R. L. Clark of Austin, visited in O'Donnell Sunday with Mrs. Orval Evans.

VISITING WITH PARENTS

Visiting from San Antonio with her parents, Mr. and Mrs. M. F. Roberts for two weeks are Mrs. W. D. Isbell and her three children, Douglass, Wanda, and Clara Maude.

VISITS SON

Mrs. W. G. Barnett of Abilene visited over the week end with her son, Travis Barnett, and Mrs. Barnett.

MILL ON THE DENTAL FLOSS RETURNED FROM TRIP

A long winded lecturer had been holding forth for over an hour, except for brief pauses from time to time to gulp a hasty drink of water. Finally, during one such intermission, an old man in the audience announced in a loud whisper, "First time I ever saw a windmill run by water." —Santa Fe Magazine

VISITING IN WICHITA FALLS

Mrs. T. R. White and son, Clifford, are visiting in Wichita Falls for a few days with Mrs. White's folks.

VISITS GRANDPARENTS

Miss Carolyn Duke, of Austin, is here for an extended visit with her grandparents, Mr. and Mrs. R. L. Hobbs.

RETURNED FROM TRIP

Rev. and Mrs. Earnest L. Merriott and sons, Lonnie Dee and Virgel, have returned home after sight seeing in the "Great Smoky Mountains National Park in Tennessee and North Carolina. They were in ten states before returning home and reported having a very enjoyable trip.

VISITING IN FORT WORTH

Mr. and Mrs. Arlie Thomas and Carlos left for Fort Worth Sunday to take Mrs. Glen Davis, their daughter, who has been visiting them, back home. They were to stay there a few days and visit in her home.

PRACTICES SOIL CONSERVATION

CARL BAMERT FARM IS GOOD DIVERSIFIED FARMING EXAMPLE

The 320 acre farm of Mr. and Mrs. Carl Bamert, four miles north of Muleshoe, is one of the most modern and diversified farms in Bailey County. This year Mr. Bamert will have more than six varieties of crops, including the irrigated pasture pictured above.

The 13 acres of irrigated pasture of Kentucky "31" fescue and

Hubam and Yellow Blossom Clover netted more than \$200 per acre last year and will probably net more than that this year. Eight and one-half months of grazing last year was obtained from this pasture. Notice the benches running diagonally across the picture.

Before seeding, the pasture land was bench levelled, provid-

The All 'Round Tractor

- ▶ ALL 'ROUND THE FARM
- ▶ ALL YEAR 'ROUND

Why buy a tractor that gives you only part-time service? Working time is what counts, and the Ford Tractor does such a variety of jobs that it "works more hours, saves more hours."

Ford Hydraulic Touch Control, Implement Position Control, Triple-Quick Attaching of implements . . . and the big Dearborn line of implements makes this THE all 'round tractor. By all means, come in and get the facts. You will like our parts and service departments, too.

Babson Discusses

PRICES

NEW YORK CITY, June 8. — What is the outlook for prices of foods, clothing and rent for the balance of this year? The scare buying is over. Installment sales are on the decline. Does this mean that the prices of all the things you buy will tumble?

Government Price Fixing
The Federal attempts to lower prices is largely a political gesture. Very few high-quality goods will sell for less for some time. The only way prices will now be lowered is by reducing quality or forcing unemployment. As long as full employment exists, prices will continue to depend—not on Washington rulings—but on supply and demand. If American families go back to having a good beef roast only on Sundays, then the price of beef will decline. If, on the other hand, they decide to have a roast twice a week, then the price will remain high.

Here in New York City is the great central market for men's and women's clothing. Upon inquiries today I learn that the prices which you see in win-

dows and advertisements may be kept down, but the quality will not be good. If you want good-quality suits or dresses you must pay more. This does not mean that the manufacturer of the brand you have always bought has mared up his goods, but that his old best-quality goods are no longer available. Hence, to get good quality you must buy a brand which has always cost more. This applies to almost everything—clothing, furniture and canned goods.

What About Wages?
The "take home" wages are determined by supply and demand. Labor Unions can make manufacturers pay more wages, but they cannot make the public buy more merchandise. The bureaucrats at Washington can set a "gair" hourly wage, but they cannot assure work to the union members. The "take home" pay is the product of the hourly wage multiplied by the number of hours worked. I believe this will hold up for some time; but it must decline before prices of food, clothing and shelter will tumble.

Yet, we must remember that only 25 per cent of our workers are now unionized. The great mass are still free to work where they wish, as they wish and for what they wish. These are the true Americans, in my

PAT R. BOBO
ATTORNEY-AT-LAW

IN BAILEY and PARMER COUNTIES
POOL INSURANCE AGENCY
PHONE 113 MULESHOE, TEXAS

humble judgment. These will supply the foremen, managers and future employers of our great growing country. If you always want to work for someone else, then join a Union. If, however, you want to be a free man and climb to the top of some business, don't be tied to Union rules.

Dollars Are Worth Less
Another reason why the Government cannot now reduce prices is because the dollar will be worth less next year. Just now President Truman is balancing the nation's budget; but he can't do this next year. He must print money or bonds to help pay for the military expenditures. Paper dollars are little different from paper dolls or any other commodity. As the supply increases above normal, the price goes down. Government bonds have already dropped in price; dollar bills will tumble again soon.

Many readers of my column send me charts and figures showing how prices have temporarily been controlled in the past, but they forget we are now living in an entirely new economic age. During his Administration, President Roosevelt destroyed the Gold Basis for our dollar bills. This Gold Basis prevented prices from going too high. Now the only thing that can prevent prices, wages, real estate, etc. from staying up is either "a reduction in the supply of printing press money," or a business bust. Surely the price of gold will again be marked up.

Should You Buy Now?
Don't buy now for hoarding. Prices will not skyrocket. There will continue to be enough necessary goods. On the other hand, don't wait for lower prices on goods you really need. Buy naturally; save naturally; and live naturally. Be neither a hoarder nor a speculator; be neither a scrimper nor a waster; be a Bodily-fearing, sensible citizen and insist upon quality even if you must buy less.

HEROIC EXIT

The date of May 28, 1951, should go down in American history as one of transcending importance. On that date a large government agency actually went out of existence.

It was the Home Owners' Loan Corporation. Those who remember the early years of the depression will recall that the HOLC was formed in 1933 to bail out distressed families who otherwise might have lost their homes under foreclosure of mortgages.

The HOLC not only accomplished it at a profit. On closing its main offices in New York it turned over to the Treasury a check for nearly \$14,000,000, the surplus from handling investments totaling nearly \$3.5 billion and from refinancing 1,017,821 defaulted home loans.

EXPERIMENTS NOW UNDERWAY

SAND HILLS PHILOSOPHER HAS WAY TO WHIP JOHNSON GRASS

Editor's note: The Sand Hills Philosopher on his Johnson grass farm may not get anywhere with his contention this week, but you can't blame him for trying.

Dear editor:

I was readin last night in a farm magazine, which most farmers read to get their minds off the realities of actual farmin, about an experiment bein conducted in the state of Washington, where timber operators are "scarin" their trees into production, makes the tree feel it's bein choked and it makes an extra special effort to grow fast before it's too in more seeds and cones in a hurry by puttin a metal band around the trunk. This, according to the arlate, thus producin more seeds and cones.

"J. A."

This has been heralded as something new, but it ain't. I been doin practically the same thing out here on my farm for years.

A lot of people drivin by my farm take one look and con-

Established somewhat earlier than the HOLC and with a related mission was the Reconstruction Finance Corporation, now unhappily also in the news. What the HOLC was to do for hard-pressed home owners the RFC was doing for storm-tossed businesses.

The RFC has been a four or five larger operation. There are those who believe it still necessary for small business. But the HOLC succeeded in encouraging many borrowers to pay off their obligations ahead of schedule and in selling the remainder of its mortgage assets to private financial institutions.

Might not Congress find on examination that a similar goal and program is feasible for the RFC? After all, it also was established to be a temporary organization. — Christian Science Monitor.

clude I'm lazy, sayin nobody but a lazy good-for-nothin farmer would have as much Johnson grass and weeds in his crops.

Them weeds and that grass is in there for a purpose. They're stimulin the crops to produce faster before they're choked to death, as my crops have learned long ago their growin season is limited, it's a lot shorter than some of these garden-clean farms..

What I've been doin over the years is workin on a hardier strain of cotton and milo, a brand that can fight its way through grass and weeds without no help from me. With me, pamperin a crop is as bad as pamperin a child. Most farmers try to keep their fields so clean their plants are almost hot-house things, they do well while conditions are exactly right but at the first hint of a disease they fall out. Why, some crops are so carefully protected from the rough and tumble of livin they're probably subject to whoopin cough and the collic, whereas my crops know if they make it they will have to fight their own way up.

I may not get quite as good a yield, but on the other hand I don't wear out as much equipment.

What A. M. College experts ought to be workin on, instead of how to throw up a protective screen of complicated poisons and fertilizers to get these lily-white tender plants to live, is a plant that can make its own way in the world. We need a seed so strong you can throw it and a handful of Johnson grass seed out in a field and come back in the fall and find the Johnson grass in ruins and the lone seed a fully developed plant ready for harvestin. I'm workin on the problem.

Yours faithfully,
J. A.

TODAY'S meditation

The Upper Room
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

PRAYER

"God is my strength and power: . . ." (II Samuel 22:33.) Read Psalm 46.

Not having had much experience with the use of electrical appliances, I was one day too surprised for words while fixing an extension cord to connect my radio to the plug in the wall. The cord was long, coiled, and tangled. I plugged it in too see if it was long enough. Almost as

soon as I had done so, a deafening volume of voices came bursting forth from the loudspeaker. I did not expect that it would do this before I had the cord untangled.

I like to think that in spite of the tangled strains of the routine of daily living, the power of God comes to us the very instant we link ourselves to Him through meditation power and worship. "If radio's slim fingers can pluck a melody and toss it over continent and sea, . . . why should mortals doubt that God hears prayer!"

Thought For The Day
"I kneel, how weak; I rise, how full of power!"

WE ARE STILL SELLING THAT GOOD VAN HORN LAND

Yes, we are still showing and selling that good Van Horn land. Several of your neighbors have bought down there. This is cotton country, but you can grow anything. Van Horn has a good climate, plenty cheap labor, and fine neighbors. The land is cheap and you can afford to own it. Let us tell you about it.

P. S.: We MIGHT have something here you would like to look at. Come to see us.

DAVE AYLESWORTH

See me at my home—Muleshoe Nursery, Muleshoe, Texas.

They attended graduation exercises of their nephew, Clyde Edmonds, at New Mexico Military Institute, and were accompanied home by their son, Allen, who is a student there.

NOTICE OF SALE OF REAL ESTATE

THE STATE OF TEXAS, COUNTY OF BAILEY:

NOTICE IS HEREBY GIVEN that by virtue of a certain order issued by the Honorable Commissioner's Court, of Bailey County, Texas, on the 14th day of May A. D. 1951, entered on its minutes in Volume 3, pages 309 & 310, appointing Connie D. Gupton, Commissioner, to sell and dispose of the following real estate, to wit: "Beginning at the Southwest Corner of Section Number 138, Block "A", M. B. & B Survey, Bailey County, Texas; Thence South 3218 varas to a point set for a corner in the West line of Block "B"; Thence West 34.8 varas to a point set in the line of New Mexico and Texas Boundary line; Thence North 3215 varas and along the Boundary line of Texas and New Mexico to a point set for a corner; Thence East 68.5 varas to the place of beginning, and containing 28.9 acres of land. From said conveyance Bailey County, Texas, is reserving an undivided one-half (½) of the Oil, Gas and other minerals rights, in, on or under said real estate, or that may be produced therefrom; and that an easement of 20 feet on the West side of this tract of land, is reserved for road purposes. Said land being in Bailey County, Texas.

THEREFORE NOTICE IS HEREBY GIVEN that on the first Tuesday in August 1951, the same being the 7th day of August, 1951, at the Courthouse door of Bailey County, in the City of Muleshoe, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said order, I will for and in behalf of said Bailey County, Texas, sell said above described real estate at public auction for cash, to the highest bidder, in accordance with said order.

And in compliance with law, I give this notice by publication, in the English language once a week for four consecutive weeks preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County, Texas.

Witness my hand, this the 4th day of June A. D. 1951.

Connie D. Gupton, Commissioner. 24-4tc.

TRIO IN COTTON

Mother and daughters look alike and look lovely in these cotton dresses styled by Jack Borgenicht with corded border trim and dainty buttons. The washable, wrinkle-resistant cotton, Simpson's "Everglaze" Devon cloth, launders like a dream, National Cotton Council fashion experts say.

Reappointed

ROY GARRETT WATSON

Roy Garrett Watson of Houston, who has been reappointed Treasurer of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., at that church's Annual Meeting in Boston.

For 27 years owner of The Houston Post, and also founder and formerly editor of The Houston Evening Post, Mr. Watson retired from business in 1924, and since then has been active in various capacities in the Christian Science movement. He is a registered Christian Science practitioner and authorized teacher. This is the 11th consecutive year that he has been named Treasurer of the church.

Last year's income from hunting and fishing leases in Texas, exceeded \$2 million and the sale of furs added several millions more to the wildlife income of the state.

FURNITURE FASHIONS by Frances Ainsworth

GRAND RAPIDS, MICHIGAN:—From the series of rooms now on view in the Grand Rapids Furniture Museum, which were designed by members of the American Institute of Decorators in collaboration with the Grand Rapids Furniture Manufacturers Association, the illustrated setting is from the "French Morning Room" designed by John R. Bond of Atlanta. Sofa is from the Mueller Furniture Company. Accompanying table is from the Imperial Furniture Company—both of Grand Rapids.

THE STATE OF TEXAS

To: W. H. Kilman, Defendant

Greeting:
 You are hereby commanded to appear before the Honorable District Court of Bailey County at the Court House thereof, in Muleshoe, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 2nd day of July A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 19th day of May A. D. 1951, in this cause, numbered 1695 on the docket of said court and styled Louise Kilman, Plaintiff, vs. W. H. Kilman, Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges that she and defendant were legally married April 18, 1943, and that no children issued from the marriage and that there is no community property. That on or about April 1, 1948, defendant was guilty of such excesses, cruel treatment and outrages toward this plaintiff as to render her further living with him insupportable. Plaintiff prays judgment of the court for absolute divorce and general relief as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Muleshoe, Texas this the 19th day of May A. D. 1951.

Attest:
 M. G. Bass, Clerk,
 District Court, Bailey County,
 Texas
 By Hazel Gilbreath, Deputy.
 (SEAL) 22—4tc

LITTLE LADY

This bright-eyed young miss is a real little lady in her cotton sundress just like mother's. Her sophisticated cape bolero is of solid navy pique, while the ruffled sundress is blue and white pique. The mother-daughter dresses were designed by Trade of California. Sundress-bolero combinations are expected to be among the most popular summer fashions, National Cotton Council fashionists report.

ANOTHER PICTURE FOR THE DENVER GALLERIES

Morton, Texas
 July 12, 1951

Dear editor:

I have read in the last two papers where Muleshoe couples have grandsons whose pictures are to be entered in the exhibit in Lamme Galleries in Denver, Colo. July 16 through the 20th. I want you to know that J. C.'s picture is also to be entered. He had it made just before he went into the service by a studio out of El Paso. And they wrote us about a month ago, asking our permission to let them enter it, as it had been chosen as an outstanding picture from their work. We gave our permission. So his picture will be entered, too.

Sincerely,
 Mrs. J. C. Buchanan
 Thanks, Mrs. Buchanan. Your family's countless friends in this section will be glad to hear from you all again. —Editor.

Report on Training
Muleshoe Journal
Muleshoe, Texas

Dear Mr. Forbes:

Although it may not hold any interest for you, I would like to let you know how we are progressing with our training here at Draughon's Business College.

You may be wondering who we are: Margaret Walker (her mother works for the Muleshoe Cleaners) and Goldie Roberts (that's me!). My father is Joe Vaughn of the Nelson & Vaughn Service Station on Main Street. As you will recall, we were employed as waitresses in Gerald's Cafe and the Cross Roads Cafe while we were in Muleshoe.

We entered Draughon's on the first day of October of this past year. After giving the matter careful consideration, we chose the course in secretarial training. This course includes the following subjects: shorthand, typing, business English, business spelling, filing calculator, transcription, accounting, billing, invoicing, and penmanship.

After a short time, Margaret was forced to drop out for two months. She re-entered in January. This delay left her slightly behind me in her studies. She has

already attained a speed in typing of 45 words a minute and a speed in shorthand of 90 words a minute. My own rate, since I was fortunate enough to remain in school continuously, is slightly higher. I take shorthand dictation at 120 words a minute and my typing average at the present time is 60 words a minute. I hope to be able to increase my speed in both subjects before I complete my course.

If all goes well, I should be "Muleshoe bound" on the 29th day of June. I finish my course on that date. I will return to Muleshoe to find work in order to be with my family. My mother has been very generous in looking after my three children, while I have been attending school; but a mother is always eager to be with her children instead of being separated from them even if the separation is for the best, as this has been. My sister and her husband, Mr. and Mrs. C. A. Stone of Needmore, have also been a great help to me. My brother, L. D., and his family have also been a wonderful aid to me. For the past few months I have been working in a private home for my room and board; L. L. very generously mailed me a check each month to cover my tuition fees and incidental expenses. They make their home in Columbus, Indiana, where he is employed by the Alemitte Company as a field representative in his territory. They plan to visit friends and relatives in Muleshoe in the near future.

While attending Draughon's, I have made many dear friends among the faculty and the student body with whom I hate to

part. I shall miss them very much.

Margaret will have a short vacation starting the day I finish my course; so we will see you shortly after that date. Give our best regards to our many friends and keep the "home fires burning" until our return.

Respectfully,
Goldie Roberts

CHRISTIAN SCIENCE SERVICES

That God constantly maintains that which he created is the theme of the Lesson-Sermon entitled "God the Preserver of Man" to be read in all Christian Science churches on Sunday, June 17. At the outset, the Golden Text declares, "The Lord shall deliver me from every evil work, and will preserve me unto his heavenly kingdom" (II Timothy 4:18).

God's never fluctuating care is further seen in this verse from Psalms 121: "The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore."

The Lesson-Sermon is concluded with this statement from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The relations of God and man, divine Principle and idea, are indestructible in Science; and Science knows no lapse from nor return to harmony, but holds the divine order or spiritual law, in which God and all that He creates are perfect and eternal, to have remained unchanged in its eternal history."

Brown Is Aboard Aircraft Carrier

Clarence E. Brown, seaman apprentice, USN, son of Mr. and Mrs. Lawrence Brown of Arch Route, Baileyboro, Texas, is a member of the Navigation Division aboard the USS Bairoko, a light aircraft carrier serving with the United Nations Forces in the Far East.

Brown entered the Navy in May, 1950, and received his recruit training at the U. S. Naval Training Center, San Diego, Calif.

He is a graduate of Rattan high school, Rattan, Okla.

VISITORS FROM PECOS

Mr. and Mrs. James Moore and little son, Daryel Lyn, and Mrs. L. D. Vernon and little sons, Verley Wayne and Rickey, of Pecos, visited in Muleshoe with relatives and friends Thursday and Friday.

Texas dairy producers in 1950 produced approximately four billion pounds of milk that was valued at \$200 million.

Deadline Soon On Vet Training

Veterans Administration has answered several questions veterans have been asking most often about the July 25 cut-off date for starting GI Bill training.

The July date applies to the World War II veterans discharged before July 25, 1947, and this includes most who served during the war. Veterans discharged after the 1947 date have four years from their discharge to begin training.

Many veterans have inquired whether the filing of an application for training before the cut-off date is sufficient to enable them to train afterwards.

VA's answer is no. A veteran actually must be in training by the cut off date in order to continue afterwards. VA said it will consider a veteran to be in training, even though he has temporarily interrupted his course for reasons beyond his control, such as the summer vacation.

A veteran who had once started a course and now cannot resume it because he has returned to extended active duty is also considered to be interrupted for a reason he cannot control.

Other veterans, in school under the GI bill during the regular school year, have asked if they will be required to attend summer school in order to class

this coming fall, after the cut-off date.

Those veterans need not attend summer school, VA replied. Their summer vacation will be considered an interruption which is normal to all students—and is therefore beyond control—and they will be permitted to resume training this Fall in the same field of study.

A number of veterans who have had GI training some time in the past have been asking whether, because of that fact, they would be exempt from the July 25 cut-off date, and could start new courses after that date.

The cut-off date will apply to them, VA said, unless they have returned to military duty and won't be able to start a course on July 25 for that reason.

Many World War III veterans who have gone back into uniform have been concerned about the forthcoming cut-off date and how it will affect their plans

in the future for GI Bill study, VA stated.

VA's answer is that a veteran who interrupts GI Bill studies and since that time has re-entered service will be permitted to continue his training after discharge, even if he gets out after July 25. His post-service training, which must begin within a reasonable time after discharge, will be limited by his remaining entitlement and the July 25, 1956, windup of the program.

But a veteran who has never had any GI Bill training, and has gone back into service, will be bound by the July 25 date, VA said.

The month of June will be observed on a nationwide basis as Dairy Month. The observance is sponsored by the entire dairy industry.

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says R. L. Emerson
Traveling Salesman
Cedar Falls, Iowa.

"I travel 60,000-80,000 miles a year. I thank Conoco for oil that lets me operate at such low expense," says Mr. Emerson. "With me it's Conoco Super or none!"

"50,000 Miles - No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

GARAGE OWNER
"I recently gave Conoco Super a thorough test," writes A. E. Stanbridge, Garage Owner, Salt Lake City. "My engine never performed more perfectly. Conoco Super gave me 'super' economy in oil consumption and gasoline mileage."

MAIL CARRIER
"I depend on my car for my living, so I'm looking for the best in motor oil," states Ewell T. Roe, Rural Mail Carrier, Waxahachie, Texas. "I've found it in Conoco Super. This car still runs like new, after 40,000 miles of service!"

PLENTY DEGREES COOLER INSIDE

THESE folks are enjoying something that's being pioneered by Buick. It's freedom from the blinding glare of bright summer sunlight. It's freedom from hot laps—caused by the sun's rays beating down through the broad expanse of windshield. These freedoms trace to a new feature you may have noticed in '51 Buicks—a new kind of glass with a cool, soft, blue-green tint, in every glass area of the car, front, side and back.

Buick engineers tell us that this "Buick first" reduces glare 18% over conventional glass—cuts sun heat as much as 45%—and Buick engineers are very conservative fellows.

This glare-and-heat-reducing Easy-eye glass is factory-installed at moderate extra charge. It gives you a built-in transparent "sun visor" right in the windshield—and it also dulls the dazzle of oncoming headlights at night.

As we've said, this is something Buick owners were the first to enjoy. It takes its place with such exclusives as the valve-in-head Fireball Engine—coil springs on all four wheels—the firm power linkage of torque-tube drive—and the magic of Dynaflo.*

As we've also said—rather modestly—"Smart buy's Buick."

Come in soon and find out what an understatement that really is.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

No other car provides all this:

- DYNAFLOW DRIVE* • FIREBALL ENGINE
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
- WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING
- BODY BY FISHER

When better automobiles are built BUICK will build them

Littlefield Church Is Scene Of McCarty - Little Vows Last Friday

Littlefield, June 9— Before an altar decorated with fans of pink peonies and gladioli Miss Billie Ruth Little and James Fuston McCarty exchanged wedding vows at 8 o'clock Friday evening in the First Methodist church. Rev. T. G. Craft of Haskell officiated.

She is the daughter of Mr. and Mrs. W. B. Little of Littlefield and he is the son of Mr. and Mrs. A. D. McCarty of Muleshoe.

Given in marriage by her father, the bride wore a gown of blush pink Chantilly type lace over blush pink satin with a jewel neckline edged with appliqued lace flowerlets. The gown was buttoned from neckline to the fitted waist with tiny buttons covered with lace. Her long sleeves ended in graceful points at the wrist and were buttoned to the elbow with lace-covered buttons.

The bride's veil was finger-tip length of bridal illusion fastened with tiny petals of illusion centered with seed pearls. Applied flowers centered with seed pearls were scattered over the veil.

Offer Musical Numbers

Mrs. Frances Luker of Levelland accompanied Edgar Branch of Levelland as he sang "Oh Promise Me", "Indian Love Call" was offered by Mrs. Joe Tunnell of Levelland, violinist.

Maid of honor, Miss Janelle Reed of Crosbyton, wore a pink with organdy duster, and a hat of pink lace trimmed with roses.

Bridesmaids were Mrs. E. M. Little of Levelland, Miss Billye June Chesher of Littlefield, Mrs. Bill Brock of Whitharral and Mrs. Weldon McCarty of Muleshoe.

Winsome Class Elects Officers

The Winsome Sunday School Class of the First Baptist Church met Monday night, June 11 at the home of Mrs. Barron.

Mrs. Barron gave the devotional and had charge of the business meeting in the absence of the president, Mrs. Vernal King.

Officers elected were Mrs. Vernal King, president, Mrs. Travis Porter, vice president, Mrs. Evans, class ministries, Mrs. Margaret Epting, fellowship; Mrs. Neva Renfro, group captain; Mrs. Mary B. Obenhaus, group captain; and Mrs. Gladys Wimberly, secretary.

Delicious refreshments of sandwiches, lemon pie and coffee was enjoyed by Mrs. Troy Perkins, Mrs. M. R. Lee, Mrs. L. S. Barron, Mrs. Hoyt Morgan, Mrs. H. E. Wimberly, Mrs. Travis Porter, Mrs. Rufus Gilbreath, Mrs. Neva Renfro, and the hostess, Mrs. Lela Barron.

Dorcas SS Class Meets June 5

The Dorcas Class of the First Baptist Church met at the home of Rev. Blaine Tuesday night, June 5 for a business and social meeting. Pauline Jamison was elected president and Doris English secretary and treasurer.

We selected our motto, scripture and song. The rain and hail kept most of the members away.

Home made ice cream, cookies, and cakes were served to Marie White, Pauline Jamison, Faye Lambert, Doris English, Rev. and Mrs. Blaine, Alfred and Barbara.

Miss Patricia Butts of Muleshoe was junior bridesmaid. They wore dresses fashioned identically to that of the maid of honor and carried fans of pink lace and sweetheart roses.

Flower girl was Karon Ruth Little of Levelland.

Brother Is Best Man

Weldon McCarty of Muleshoe served his brother as best man. Ushers were Don Harrell of Dallas, Julian Herring of Abilene, and Bill Covin and Herbert Griffiths of Muleshoe. Edwin Cox of Muleshoe was ring bearer.

A reception followed the wedding at the home of the bride's parents. Assisting in receiving were the mothers of the couple and members of the bridal party. For traveling, the bride wore a green and gold linen suit with brown velvet accessories. She pinned an orchid to her lapel.

The bride attended Texas Tech for three years where she was a member of Ko Shari social club. The bridegroom is a senior at Texas A & M. where he will be graduated in January.

After a wedding trip to points in Colorado, the couple will be at home after June 15 in Muleshoe.

W. S. C. S. Begins New Study

The W. S. C. S. of Muleshoe Methodist church met Monday, June 11, at the church for the beginning of the study, "A Christian Vocation."

The opening song was "Work for the Night is Coming."

Mrs. O. M. Jennings brought the devotional "How we regard and study the Bible." We should study the Bible in a way that will make us better people, it was brought out.

During the study of the lesson, Mrs. Jennings brought out the fact that the work of a Christian should contribute something worth while to the world and that work and worship go hand in hand.

At the business meeting, presided over by Mrs. Pierson, Mrs. Beulah Carles thanked the Society for a life membership, and a letter was read from Mrs. Layne thanking the women for the one sent to her.

Plans for the zone meeting were finished and the meeting was closed with prayer by Mrs. H. Jay Wyr.

Engagement Is Announced

Mr. and Mrs. H. E. Reeder announce the engagement and approaching marriage of their daughter, Mary Jo Reeder, to Mr. George Parker, son of Mr. and Mrs. George D. Parker of Littlefield.

At present, Mary Jo is a nurse at the Amherst Hospital. The bridegroom-to-be has been employed for some time at Roden-Smith Drug in Littlefield.

Expression Class Gave Recital

Mrs. Horace McAdams presented her expression pupils in a recital at the Fellowship Hall Monday night at eight o'clock.

On the program were: Not So Bad, Mama's Girl, Jack Anory, The Night Has A Thousand Eyes, by Brenda Kay Nelson, A Young Cook, Little Boy Blue, Old King Cole, A Drawback, by Brenda Kay Mason. The House by the Side of the Road, When Father Shook the Stove, Betty Practices Her Piano Lesson, by Mary Beth Jeter, Just Me and Accounting for My Lack of Taste by Nell Moore. Life, The Blind Date and L'envol by La Nelle Boothe. Not In Vain, A Question and Little Miss Muffet by Barbara Jones.

The pupils unable to attend were Edwin Cox, Jana Beth Laing, John Laing, Jr., Glenna Fern Rutherford, Bobby Green, Julie and Everett McAdams, Beth Holton, Marilan Gupton, Laquina Stone, Claudia O'Hair and Jeanne Garrett.

Dorcas Class Sets Meeting Date

The Dorcas class of the First Baptist Church met with Faye Lambert Monday afternoon for a business and social session.

Vice-presidents are: membership, Hazel West; fellowship, Marie White; class ministries, Faye Lambert.

We voted to have our class meeting in the afternoon on the second Tuesday of each month at 3:30 o'clock. The next meeting will be in the home of Dorothy Bowers, Tuesday, July 10.

Frosted cakes were served to Hazel West, Dorothy Bowers, Effie Hicks, Pauline Jamison, Doris English, and the hostess, Faye Lambert.

MULESHOE HD CLUB TO MEET WITH MRS. DUTTON

The Muleshoe HD Club will meet Tuesday, June 19, in the home of Mrs. Olen Dutton, and not as otherwise stated in The Journal in another news item.

Home Beautiful Tour Is Planned

The Muleshoe Garden Club met at 8:30 Wednesday, June 13, at the Legion Hall.

The meeting was called to order by Mrs. Bob King, president. On recommendation of the executive committee it was decided to conduct a home beautiful tour the date to be set later.

Resignations of Mrs. Woodie Lambert and Mrs. Naomi St. Clair were read and accepted and their names were placed on the associate membership list.

Miss Dian McClurkin, the county home demonstration agent, was voted an honorary member.

Five new names were placed on the waiting list. Members are to meet at the hall Wednesday to work flower beds at the Legion Home.

The club voted to charge a fine of 25c against members not present for special meetings.

Talks were "Pruning Shrubs" by Mrs. Homer Sanders and "Drouth Resistant Gardens," by Mrs. W. E. English.

There were 20 members present. Mrs. Clinton Bristow and Mrs. Pat Bulloch were hostesses.

Mrs. C. E. Lane Is Fidelis Hostess

Eighteen members of the Fidelis Sunday School class of the First Baptist Church met Thursday, June 7, in the home of Mrs. C. E. Layne for their regular monthly business and social session.

Mrs. C. M. King, president of the class, was in charge. Mrs. J. V. Peeler gave the devotional. Plans were discussed on how to have a more worthwhile social entertainment.

Mrs. R. D. Precure invited the class to a 1 o'clock luncheon in her home Thursday, June 28. Mrs. G. A. Davis of Ft. Worth, daughter of Mrs. Arlie Thomas, was a guest.

Delicious refreshments of lemon chiffon pie and coffee were served to the following: Mesdames W. B. McAdams, Cecil H. Tate, Ray Griffiths, L. T. Green, Jr., Lila Spence, C. G. Bristow, J. B. Peeler, C. M. King, R. D. Precure, A. W. Crow, C. A. Barnett, H. E. Schuster, Mary Ann, T. C. Young, the hostess and co-hostess, Mrs. Arlie Thomas.

SOLVE YOUR PLOWING PROBLEMS WITH MM WHEATLAND DISC PLOWS

For plowing stubble or sod, MM Wheatland disc plows do a superior job and often cut plowing costs as much as 50%. They thoroughly mix trash with soil to increase moisture absorption and to prevent soil blowing. They do not leave air pockets. MM Wheatland disc plows have a wide range of adjustments of disc angles from 40 to 60 degrees. Adaptable to any size farm... offered in 4, 6, 8, and 10-foot sizes.

MM Wheatland disc plows can be set to plow at any depth from 3 to 9 inches, and one of their big advantages is that they hold to their work at the depth for which they are set. Electrically heat-treated discs are 26 inches in diameter. MM larger-diameter discs turn soil better. Disc bearings never require lubrication, and a special end-thrust bearing takes all end thrust of the entire gang assembly. See us for complete facts.

Muleshoe Soldier Cited For Gallantry

Robert E. Simmons, son of Mr. and Mrs. Murray M. Simmons of Route 2, Muleshoe, has won a commendation ribbon with combat "V" for gallantry in Korea.

A copy of the citation, signed by Maj. Gen. Oliver P. Smith, commanding the 1st Marine Division, was received by The Journal this week.

The citation reads:

"For excellent service in the line of his profession while serving with a Marine supply company during operations in Korea from 15 September 1950 to 24 January 1951. Staff Sergeant Simmons displayed great skill, ability and confidence in the performance of his duties as warehousing section leader. Under his able supervision and direction his section became a smooth, efficient functioning

unit that carried out their missions with great success in a minimum amount of time thereby contributing materially to the success of the supply company in accomplishing its mission. He worked night and day under adverse weather conditions displaying no regard for his own personal fatigue thereby setting an example for all who served with him. Staff Sergeant Simmons' conduct throughout was in keeping with the highest traditions of the United States Naval Service."

ARTHRITIS Hundreds Claim Its Grip Broken!

Dear Friend:

Do you have Arthritis? Have you a relative or friend that is suffering from this painful distressing ailment?

I came upon a simple remedy that ended my long search and battle to rid myself of Arthritis. I had teeth pulled, tonsils out, serum shots, electric fever treatments, special built shoes, hot baths, pills and salves. The Arthritis withstood them all, and examination in several of the best known clinics could detect nothing. Finally, I discovered Sulgly-Minol. Today after seven months I am more free of pain and soreness than at any time in twenty years. Can work ten hours a day with nothing more than tired feet. Legs, hips, back, neck, and arms are practically free of pain and soreness. This has cost me less than six dollars.

This is all I did and all you will have to do to try Sulgly-Minol. Just rub it on the soles of both feet before going to bed. A bottle will last about a month and will be enough to tell whether it will help. If it helps, keep it up for a month, and after that, just as you feel. If my feet feel sore from too much activity, I rub some on for a night or two. In my opinion, the benefits of Sulphur are more sure and complete on the soles of the feet. The results obtained have been acclaimed by many as a Godsend.

You'll Like This House

House Plan No. 4810 offers you a new home with lots of space for comfortable living, yet this space is provided in a small, low-cost house. Considerable care has been taken to obtain plenty of usable wall space in the bedrooms and living room. This will make rooms appear larger than they really are, because the furniture can be easily and attractively arranged.

The plan provides wall storage cabinets in the workroom over the sink, freezer, washing machine and tubs. This will eliminate the necessity of keeping 15 feet of counter space and cabinets, yet at the same time 15 feet of counter space and cabinets have been provided in the kitchen. The arrangement of this counter space is such that you will not have to move more than 6 feet from one work area to another. The window by the table in the kitchen was provided to make the eating spot more cheerful and give extra light and ventilation to the kitchen. This window can be the small size shown or a full-length window, as desired.

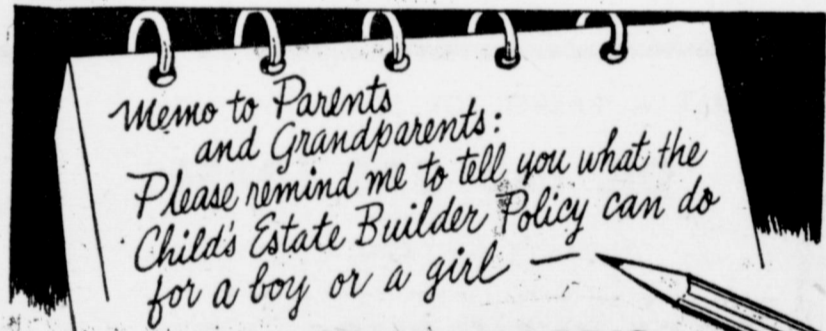

The plans provide a chimney for use with stoves for heating, however, the fireplace could be added by putting it in the end of the living room where the two windows are at present, and by placing the one large window in the front wall, leaving two for light.

You can obtain blueprints for this The Muleshoe Journal — FARM & RANCH House Plan No. 4810 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, FARM & RANCH, Dept. L-36, Nashville 1, Tenn. Order by number — plan No. 4910. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

All Firms Offering Services To The Public Must File Their Ceiling Prices

All businesses offering retail services to the public—from auto repairs to zither repairs—must file a list of ceiling prices before June 15, the Lubbock district Office of Price Stabilization reminded this week. The address is 1002 Texas Avenue, Lubbock, Texas.

On the same date, lists of ceiling prices must be posted where customers can plainly see them, OPS added.

These requirements are called for by Ceiling Price Regulation No. 34.

It applies to all service trades—barbers, dry cleaners, laundries, washeries, shoe repair shops, service stations, parking lots, etc., Operators of such businesses need only to write down a list of the highest prices charged for each service between December 1950 and January 25, 1951. They must mail one copy to the Lubbock office of OPS at 1202 Texas Avenue, Lubbock, and display another copy in the place of business. regulation should be addressed

Any questions regarding this to the district OPS.

Meanwhile, next Monday, June 18, ceiling prices of beef must be posted for all consumers to see in retail meat shops, the district office at Lubbock reminds all butchers and consumers.

At the same time cuts must be displayed with the various grades in separate trays and with each tray tagged. This is the first of three price postings.

SEA FLOWER

This eye-catching cotton swimsuit — not the girl — is called "sea flower" because it has a long-stemmed waistline that blossoms into a slim-flaring skirt. The bright cotton swimsuit was created by Cole of California in flag-printed pique, the National Cotton Council says.

Jim Johnson In Navy Training

One of nine thousand future Navy officers from 52 colleges and universities who will participate in a Naval Reserve Officer Training Corps cruise this year is Midshipman Jim P. Johnson, USNROTC son of Mr. and Mrs. Fred J. Johnson of Muleshoe, a student at Northwestern University, Evanston, Ill.

He will receive instruction at the U. S. Marine Corps School in Quantico, Va. He is one of 290 Reserve midshipmen who will receive Marine indoctrination at Quantico. These cruises, providing varied on the job Navy experience, are required of all Reserve midshipmen and include two summers aboard seagoing vessels and one period of aviation and amphibious training.

He is scheduled to begin training June 13.

Huge Elevator For Sudan Hinted

A report was circulated this week to the effect that Sudan is to have a giant new elevator constructed, possibly early this fall, by Offie Shannon, at a site near his present elevator and office buildings.

The plan on the structure calls for 24 concrete bins constructed in tow rows, twelve to a side. The new elevator is to be used for grain storage and the present buildings being used for that purpose will be converted for the use of cotton warehouse and storage purposes.

ATTENDED FUNERAL

Mr. and Mrs. I. H. Gatlin, Mr. and Mrs. Ernest Gatlin and Mrs. Merle Barnhouse attended funeral services held in Whitney Texas last Monday for a relative, Lavorne Gatlin, 21, who was killed Sunday in an automobile accident near Fort Worth. The local people saw many relatives and old friends on their trip.

Vacation Bible School At Maple

A joint First Baptist and First Methodist Vacation Bible School began Monday, June 11 at the First Baptist Church at Maple, for a week's school, closing Friday morning, when a commencement exercise will be held and refreshments will be served.

Mrs. F. A. Carter is general superintendent and she is assisted by Rev. V. P. Whitfield, pastor of the Baptist church and Rev. A. O. Gradon, pastor of the Methodist Church.

Others assisting with the school, include Mrs. E. M. Love, who supervises the intermediates; Mrs. W. J. Milsap the Juniors and Mrs. J. J. Brackman the beginners.

Neighbors Plant Cotton For Cole

Sudan farmers planted 300 acres for Leroy Cole last week in 13 hours. Tractors belonging to Earl Chester, Delmar Gann, Gus Bellamy, Edgar Williams, Dick West, and Mr. Cole were used. Also helping with the work were Willie Williams, Dale Hill, Bill Chester and "Rat" Davis.

Mr. Cole's wife had undergone surgery in the Temple hospital and he had been unable to take advantage of the rain and to plant his crops.

Clovis Steam Laundry & Dry Cleaners

From where I sit... by Joe Marsh

Hope "Cappy" Told Him Where To Get Off!

"Cappy" Fisher—who just retired after thirty-five years as a railroad conductor—was telling about a salesman who was often one of his passengers.

"That man was so busy," says Cappy, "he used to bring a dictaphone on the train to catch up on his letters. On one trip he'd been rushing around so much he clean forgot to bring his ticket. Left it on his desk."

When Cappy started to tell him not to worry about the ticket, the salesman busts out with "Who's worried about the ticket? It's just

that now I don't know what city I was going to get off at!"

Cappy might have been pulling our leg, but from where I sit, lots of us get so wrapped up in ourselves we often forget "where we're going." Some folks get so narrow they even begrudge their neighbors the right to enjoy a glass of beer now and then. Let's not forget that just as trains run on steam and oil, democracies run on freedom and tolerance!

Joe Marsh

POWER-PACKED

-and then some!

THERE are a lot of reasons you can expect a new GMC to keep hauling a lot longer than any other truck you can buy.

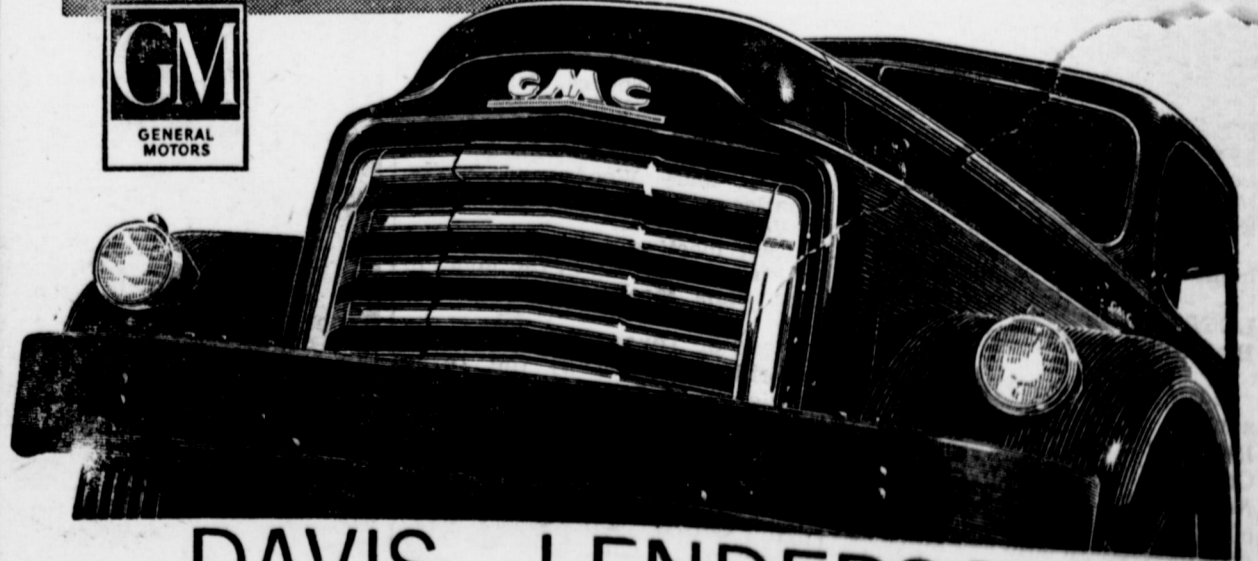

First is the fact of horsepower. Whether it's a gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels—you can't beat a GMC for "go"!

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchron-Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action—you know there's extra depth of truck performance engineered right down through a GMC's broad-shouldered frame!

And standing guard over these long-time trucks are husky brakes with more area than most—the surest, easiest steering ever devised to direct a pay load home—all controlled from a spacious "Six-Footer" Cab that's Weathersealed for a lifetime.

GMC's come in the widest range of engine-body-chassis combinations to fit any trucking need. The prices? No better buy anywhere! Come see for yourself.

You'll do better on a used truck with your GMC dealer

"Fort Worth" 2-Gun Town

Fort Worth, Texas, named in honor of an American general in the Mexican war, with its turbulent historic background and important role in the building of the great West, is the setting of the new film which comes to the Valley Theatre on Sunday, Monday, and Tuesday June 17, 18, and 19.

In "Fort Worth," produced by Warner Bros. in color by Technicolor, Randolph Scott, as the star, plays a frontiersman determined to employ the power of the press in his fight against the lawless elements of the town.

However, he soon learns that his fiery editorials serve little match for the blast of the six-shooter, and when his editor is murdered, Scott, a handy man with the shooting irons himself, goes to work on his enemies—with telling effect.

David Brian heads the opposition forces, while Phyllis Thaxter and Helena Carter provide the feminine interest.

Others in the "Fort Worth" cast include Ray Teal, Dick Jones and Paul Picerni.

Magician Entertains Rotarians Tuesday

C. V. Ball, of Lamesa, showed members of the Rotary Club that the hand indeed is quicker than the eye at their non luncheon Tuesday. Mr. Ball put on a 20-minute display of magic that the Rotarians enjoyed very much.

Mr. Ball is only an amateur magician, but his performance is rather professional.

Mr. Ball is Oliver dealer at Lamesa. He was introduced by John McDonald, Oliver dealer in Muleshoe, who had charge of the program for the day.

Guests included Bill Millen, local farmer and a young friend, Bill Holman, also of Muleshoe, and Ralph Coanogah, of Lubbock, a guest of Chief Jones.

Committees were appointed to visit Littlefield, Clovis, Sudan, and Hereford clubs to invite Rotarians to attend the local club's ladies night banquet June 26.

Tickets have been printed and are in the hands of Arnold Morris, chairman of the ticket sales committee.

Woodie Lambert of the favors committee said arrangements have been made with Muleshoe Floral for a corsage for the ladies.

Dr. J. N. Jones, vice-president of Texas Tech, Lubbock, will be the principal speaker. New officers will be installed, including Bud Holton as president, succeeding Ray Keeling.

Sunshine Club Met With Mrs. Lee

The Sunshine Club met in the home of Mrs. N. W. Lee with sixteen members and five visitors present. The roll call was answered by reading a verse from the Bible.

It was decided we would have a swap day at the club's next meeting. So, if you have something to swap that you can't use, swap it at that time.

It was decided to quilt a quilt and each member is to bring something useful to give to the Howard Griffin family as their home was destroyed by fire last week.

It was decided to have a hostess gift to raise funds for the club. Delicious refreshments of crackers with cheese spread, cake and ice cream were served to the following:

Mesdames Tipton, Ladd, Patterson, Chambless, Lewis, Browder, Barnhouse, Harvey, Murrain, Williams, Nash, Gatlin, Coulter, Stinson, Crawford, and the hostess, Mrs. Lee.

The visitors were Mrs. Tom Payne, Mrs. Wingfield, Mrs. Fountain, Mrs. Gillis, and Mrs. Stoss. The children present were Margie Stoss, Mattie-Mae Chambless, Fannie Sue Williams, Doris Lee, Charlene Coulter and Martha Crawford, Jimmy and Jerry Robinson, Billie Jo Gillie, Jamie Coulter, Peggy and Bobby Lewis, Sue and Louise Stinson, Jimmy Williams, Mary and Kathy Crawford, and Frank Fountain.

The next meeting will be in the home of Mrs. R. L. Lewis June 21.

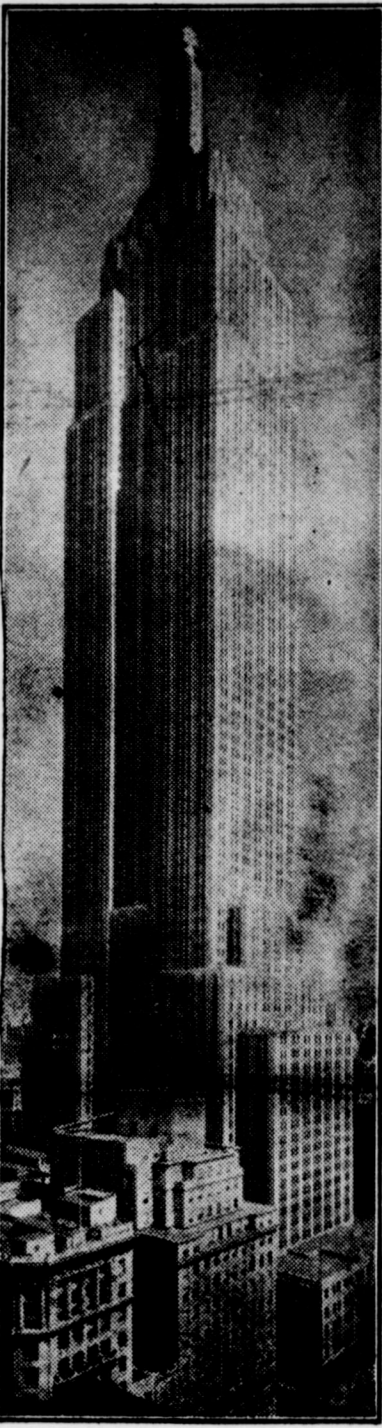

LOCAL PEOPLE INTERESTED IN STATE DRESS REVUE

Bailey County will be represented at the State 4-H Dress Revue, to be held at A. & M. College June 26. Mary Routh and Nena Roberson, clothing specialists for the Extension Service of A. & M. said 145 garments have been entered for judging in the final revue.

The revue is the achievement event for all 4-H Club girls in Texas who have worked on the clothing demonstration this year. The specialists say that 9,596 girls entered garments—they made in the county revues.

Home demonstration agents and adult leaders in more than 145 counties have trained girls

Wonder of the World

EMPIRE STATE BUILDING, towering 1472 feet above New York City's streets, is a Mecca for millions of tourists. Control of the world's tallest structure is being sold on its 20th birthday to a syndicate headed by Roger L. Stevens, 41, and Alfred R. Glancy, Jr., 43, of Detroit and Ben Tobin, 45, of Hollywood Beach, Fla. The sellers, the estate and family of the late John J. Raschob, will use the proceeds to pay inheritance taxes and to endow a foundation dedicated to a Catholic charity.

Lieut. Thomas Is At Pilot School

CRAIG AFB, Ala.—Second Lieutenant Clarence I. Thomas, son of Mr. and Mrs. James L. Thomas of Muleshoe, is currently attending the Pilot Instructor School at Craig AFB, Alabama.

The Pilot Instructor School, the only one of its kind in the Air Force, offers an intensive six weeks course in the latest methods of instruction for aviation cadets both in the classroom and in the air.

Lt. Thomas entered the service in February 1943 and graduated from advanced pilot training at Spence Field, Georgia in February 1945. He was recalled to active duty in April this year. He is a graduate of Muleshoe High School.

Upon completion of the course here, Lt. Thomas will be assigned to another air training command base where he will instruct aviation cadets in the fundamentals of flying.

Half Century Club Meeting Held

The Half Century Club met on May 31 in the home of Mrs. Allie Snyder, honoring Mrs. Belle Snyder on her 8th birthday. A delicious dinner was served at noon, fried chicken being the bright light.

Mrs. Snyder then opened gifts and cards. The remainder of the afternoon was spent playing games and visiting.

Members present were: Mesdames Witte, Spence, Panter, Gilbreath, Kistler, Duke, Harden, Paul Moeller; guests were Mr. and Mrs. Neil Rokey, Frank Snyder and family, Mary Woods and family, Charles and Cora Snyder, and Mrs. LaVern Simmons.

Next meeting will be Thursday afternoon, June 14, in the home of Mrs. Anna Moeller.

Seed of Texas 30, a new corn hybrid developed by the Texas Agricultural Experiment Station will be available for use by the farmers in 1952.

Renovating established stands of KR bluestem grass and fertilizing with a combination of nitrogen and phosphate greatly improves the yield and quality of the forage produced on low fertility soils.

In color pattern selection, choosing fabrics, finishes and accessories and proper grooming. The girls have learned through these lessons, through demonstrations from seeing colored slides and by actual sewing in the home.

BEAUTY LEADS THE PACK

Charming Indianapolis Speedway Queen Loretta Young with David A. Wallace, president, Chrysler Division, in the Chrysler New Yorker convertible in which Wallace paced the racers to what turned out to be the fastest "500" ever driven with Lee Wollard capturing top prize money with a blazing average speed of 126 miles per hour.

Frona Plans To Rebuild Its School Destroyed By Fire — Election Is Called

(From The Frona Star)

In a special meeting Wednesday afternoon, the Frona school board outlined plans to present to the voters of the district a rebuilding program involving the best facilities possible in an enlarged high school plant, calling for a bond issue of some \$150,000.

It is very probable that the bond election will be called for Saturday, June 23, with legal notices posted next week.

In the proposed construction program, the high school building would be increased in size by more than 7,500 square feet to house the entire agricultural department and the music and band departments, all under one fireproof roof. About 6,000 feet would be allocated the agricultural department, providing the additional floor space that has been indicated as necessary. The music department would be in modern, high ceilinged rooms, a distinct departure from the present makeshift bandhouse.

School authorities pointed out that not only would the modernized facilities be advantageous, but that the housing of these additional units under one roof would greatly facilitate smooth operation in a more compact unit.

The proposed \$150,000 expenditure would include the new building of fireproof construction, with new ceiling over both the gymnasium and the classrooms. Also all equipment will be included in this figure.

The Central Investment Company, of Plainview, now holding all outstanding bonds of the school district and represented by Mr. Smith, states that the bond issue would not require an increase in the valuations or in the tax rate within the district. The bonds would mature in 20 years, and they would draw 3½ per cent or less interest.

Superintendent Caffey emphasized that the program outlined above would take care of normal growth of the schools for the next 20 years.

COTTON FOR LUNCH

Cotton is edible, this pretty homemaker shows, as she places squares of cottonseed oil margarine on her luncheon table. Nearly 100 per cent of all cottonseed oil is used in various food products. The National Cotton Council reports

Cox Drive-In To Show "She Shoulda Said No"

Uncle Sam's valued T-Men, as well as the F. B. I., have nothing but good things to say about Hallmark's new super roadshow film, "She Shoulda Said No." This unusual and different type of movie, veiled in partial secrecy concerning its cast and theme, comes here Thursday night, June 21, for one night's performance at the Cox Drive-In Theatre.

"I'm not exactly sure myself what it's all about," confessed theatre manager Howard Cox this week. He added, "It must be good because theatres everywhere are fighting to book it, because it's packing in the crowds. I was lucky to get it even for just one day."

"She Shoulda Said No" is for 16-year-olds and up, unless accompanied by parents.

Mr. Cox invites everyone to see this show and come on out and enjoy it in the comfort of their own car. The box office will open at 7:15 to accommodate the expected crowd.

Wollard Awarded Honors At NMMI

Leo Wollard of Muleshoe, 4th classman (college freshman) at New Mexico Military Institute, Roswell, won high scholastic and military honors at the Institute during the terms just ended.

Leo received the Gen. Douglas MacArthur scholarship award, which will pay a portion of his tuition next year. He received the ward for the nearest cadet and was a member of the best all round company.

He was named the distinguished military student of the college by the professor of military science and tactics.

This latter award enables him to obtain a commission in the regular Army instead of the Reserves and since he desires to make the Army a career it was a most coveted honor.

Don Murray, of Dallas, a classmate, accompanied Leo here for a visit of a few days.

Mr. and Mrs. Gil Wollard of Muleshoe were in attendance at exercises held June 10 to 4.

Others from Muleshoe at the exercises were Mr. and Mrs. Lud Taylor, and Mr. and Mrs. Earl Ladd, Sr., both of which couples have a son in the Institute.

Livestock that is forced to fight off flies during the summer months cannot be expected to make the greatest possible gains and monetary returns to their owners. These insect pests can be successfully controlled and the producer.

Post Office Exams Are Announced

The Civil Service Commission announces an examination for filling vacancies in the Muleshoe Post Office in the position of Substitute Clerk-Carrier at the salary rate of \$1,31½ per hour.

To be eligible to take the examination applicants must actually reside within the delivery of the Muleshoe Post Office or be bona fide patrons thereof.

Application forms and additional information may be secured from the Post Office or from the Regional Director, Fourteenth U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas.

CARD OF THANKS

We wish to express our sincere thanks and appreciation for the flowers, food brought to the home, and other deeds of kindness during the illness and at the death of our mother, Mrs. J. R. Moore, Sr.

Self Employed Have No Option On Paying SS

Mr. Hutton said there had been some misunderstanding regarding persons working for themselves in their own trade or business, or as partners in such enterprises. Self employed persons do not report themselves with their employees. This income must be reported annually on income tax form 1040 Schedule C, especially revised for this purpose. The first such report is due March 15, 1952, covering self employment income for the taxable year 1951.

He also pointed out that the only exceptions are incomes derived from practice as a physician, lawyer, dentist, osteopath, chiropractor, optometrist, naturopath, veterinarian, architect, CPA licensed, registered or full time practicing public accountant, Christian Science practitioner, professional engineer or funeral director.

Payable along with the report is self employment Social Security tax. This tax is 2 1-4 per cent of the first \$3,600 net business profit. For business partners, the tax is levied on the first \$3,600 of the distributive share of the partnership net profits, whether or not the profits are distributed.

Charles Lewis To Boys State

Charles Lewis, son of Dr. and Mrs. A. E. Lewis, will attend Boys State, Austin, as a representative of Muleshoe, under sponsorship of Ben Richardson Post, American Legion. Charles will leave Saturday morning for Austin.

Homer Sanders, Jr., post adjutant, said the post will pay Charles' expenses, including transportation. He will be there a week. The Journal hopes to obtain a report from Charles when he returns.

The American Legion, Department of Texas, is in charge of Boys State. During the week of Boys State from all over the state are handed important posts in the state government and learn about government in a democracy by doing, rather than by reading.

Attend Church Sunday

FATHER OR EARL JETER DIES IN ALTUS, OKLA.

George M. Jeter, 81, father of Earl Jeter, passed away at his home in Altus, Okla., last Friday. Services were held in the Tims Funeral Home Chapel in Altus at 3 p. m. Saturday. Interment was in Elmer Cemetery near Altus.

He is survived by three sons, Earl Jeter; Irvin Jeter and L. O. Jeter, both of Altus; and a step-daughter, Mrs. Gladys Hemphill, Amarillo.

Attending funeral services from here last week were Mr. and Mrs. Earl Jeter and daughter, Mary Beth; Mr. and Mrs. Roy Howard, and Mr. and Mrs. Bill Jeter.

COUTURIER COTTON

For sheer loveliness, nothing could be nicer than this two-piece couturier cotton by John Rich in Lonsdale's sheer plaid. Intriguing cape sleeves echo the airy swing of the skirt. National Cotton Council fashionists report that sheers are among the season's most important fashion fabrics.
