# Mr. Muleshoe . . .

By J. M. FORBES

This paper has been furnished with a copy of the brief presenting data in connection with the petition of the West Texas Gas Co. "to set adequate rates for natural gas and natural gas service to be charged to its customers in all cities, towns, villages and rural areas served by its system."

The company picked at random 700 users, a few from each town served, presented the cubic feet use for 1950, showed the annual cost and the annual cost if the increase they ask for were granted. They used several Muleshoe residences in their sampling and I note this one:

1950 consumption, 131,000 cubic feet at a cost of \$63.15; cost of same at proposed rate, \$72.00; increase \$8.85. But many homes use much less gas. For instance, there is another Muleshoe home in the list which in 1950 used only 18,000, which cost \$20.85 under the old rate and would cost \$22.15 under the new rate, an increase for the year of \$1.30, or about 11 cents per month.

Two other utilities companies, the Southwestern Associated Telephone Co. and the Southwestern Public Service Co. have been granted rate raises here in recent months.

My friend Thatcher of Thatcher printing company, Lubbock writes: Last Sunday evening I filled my car up with some nice pure Chevron in Durango, Colo., and the boy on the pump said to tell you that he got tired supplying you with fish and game when he lived across the street from you, and that he moved across town; but the responsibility was still too great there, so he moved to Durango, and if you wanted any more fish you would have to come up to Durango to get them. The Station and Highland Courts had a sign over them labeled "Holt Brothers". The boy seemed to recognize me when I drove in and it developed that I had sat in lodge with him in Muleshoe a number of years ago and he had traded with me some in Plainview.

Of course it was Bits and Gale he was talking about but it was I who moved, not Bit, but he was right about Bits' responsibility.

And Thatch penned this postscript: Old printers never die; they just smell that way! (With apologies to Doug.)

John McDonald, not the one who had the farm but the Oliver dealer here, gives us a copy of a business man's—

**SCHEDULE FOR CALLERS**  
Friendly calls, 2 minutes.  
Friendly calls when busy, 1 minute.  
Adv. salesman (Except Journal), 30 seconds.  
Auto salesman, 15 seconds.  
Life Ins. Agent, 7 seconds.  
Stock salesman, 2 seconds.  
Friends with stock, letting us in on "ground floor", 1 second.  
Friends inviting us to lunch, 2 hours.  
Friends wishing to talk hunting and fishing, most all day.  
Those wishing to pay old bills, All day.  
Customers wishing to pay on Customers, 24 hrs. a day, all day.  
Wives, No time.  
Girl friends (when wife isn't around), any time.  
The card was gotten up by Crop and Stock Mag of Lubbock.

**As She Is Spoke**  
Riding on a bus in Winston-Salem one day I heard a conglomeration of grammar which, to my mind, is the end of it all. And it was spoken in all seriousness. Two teen-agers were discussing a Sunday School picnic. "If I'd a saw you when I rid by I'd a flanged out my arm and wove to you."—Rockingham, N.C., Richmond County Journal.

**Well, one teen ager told me, in person: I never seen nobody that I knowed!**  
However, on second thought, there can be no doubt what the girl on the bus meant. Her companion probably felt a warmer glow than if her friend had said: Had I observed you as I rode by in the vehicle which conveyed us to the picnic grounds, I should have extended my arm through a window and waved a greeting to you.

His business trips to the sheep capital, San Angelo, have about made a convert of Bob King. He talked sheep so much his friends call him "Baaa" and if you rang the operator and said "Baaa" she probably would connect you with the King elevator.

But Bob believes we are missing a bet when we do not buy our lambs in the sheep raising country and bringing them here for finishing out where the feed is grown. "We allow enough feed to go to waste here to feed a lot of sheep", he will tell you, saying that there is lots of grazing that is finally plowed under to prepare for another crop.

Anything any of us can do to encourage livestock growing here

# The Muleshoe Journal

DEDICATED TO THE PROGRESS AND DEVELOPMENT OF BAILEY COUNTY AND THE GREAT MULESHOE COUNTRY

Volume 29, Number 28 MULESHOE — County Seat of Bailey County — TEXAS Thursday, July 5, 1951

## Alertness Of City Night Watchman Nips Two Fires In Bud Last Thursday

Due to the alertness of Buck Creamer, city night watchman, several Muleshoe business men probably saved several hundred dollars of damages by fire last Thursday night.

While Mr. Creamer was making his rounds about 12:30 a. m., he discovered a great deal of smoke coming from a ventilator on the roof of Benton Grocery and Market. He promptly turned in the fire alarm and the Muleshoe Fire Department put out the blaze immediately. It was caused by a short circuit in a motor used to pull a refrigeration compressor. No serious damage resulted.

About 4 a. m. he discovered a fire in the roof of a warehouse of the Panhandle Service Station.

## Fish Fry Planned By Mason Lodge

Johnny Johnson, worshipful master of Muleshoe Lodge No. 12 37, A. F. & A. M. announced his appointive officers at the first regular meeting following installation of new lodge officers. The list follows:

Senior Deacon, Elbert Nowell.  
Junior Deacon, Clifford Green.  
Chaplain, Ray Griffiths.  
Senior Steward, Howard Ashley.  
Junior Steward, Theron West.

Elective officers are: Johnny Johnson, W. M.; John Thompson, senior warden; Bobby Sam Damon, junior warden; C. D. Gupton, treasurer; W. Q. Casey, secretary; H. H. Potter, filler.

Lodge officers announced that at the next regular meeting which will be Tuesday night, July 10, the district deputy grand master, Albert, of Olton will pay his official visit to the lodge. A fish fry is scheduled for the entertainment of lodge members and the many visitors expected.

## Canning Work To Start Soon

Muleshoe Canning Company is planning to begin their 1951 operations in about 10 days, or around the 20th, James Case of the plant management told the Journal.

The plant will employ quite a few in conducting its bean canning operations this year and in addition there will be employment for many in picking and handling the beans.

Case estimated there are still about 200 acres right around Muleshoe in beans, despite some losses from recent hail, heavy rains, and high winds. The company usually packs about 30,000 cases of No. 2 cans of beans each summer and last year extended its operations to tomatoes, canning those too ripe to go for the green wrap.

## Blackeyed Peas Develop Soil

Over in Hale County they are plumping for blackeyed peas to produce a money crop and to provide a summer legume to fortify the land. A communication from Ashley Mixon, president of Plains Food, Inc., of Plainview, tells of an experiment on the farm of Earl Laney, following peas with wheat, as follows:

Laney planted 80 acres of wheat this year, half of which was planted on acreage used to produce blackeyed peas last year. Pea stalks were turned under so they would supply humus which fortified land, before wheat was planted.

Results of this experiment show that the wheat displayed by Linney is darker green, it grew faster than wheat on the adjoining land not previously planted with peas, the stalks are taller and heads more full and plump than the average wheat.

Another important comparison is the green bugs' damage to the was summer legume - fortified land was not nearly so apparent as the insects' damage to the adjacent wheat land.

Crop rotation to build the soil will pay off for Laney since he estimates he will cut seven more bushels of wheat per acre on the acreage planted with peas last year.

In this spot that is such a natural for it, we believe is the thing for us to do. Arthur Shafer, who raises sheep and feeds out lambs, told The Journal this some ago.

**We are getting a good start in producing hogs, poultry, and cattle. Sheep will make money for their owners, of this there can be no doubt but we probably have less sheep than any county in this section.**

C. C. Buhrman, Rt. 1.

We'll be looking for you.  
Ebb Randol, Minister

## Pvt. J. B. Horsley Is In Germany

Rhein Main Air Base, Rhein-Main, Germany. Private First Class Joe B. Horsley is a recent arrival at Frankfurt, Germany, where he has been assigned to the 60th Troop Carrier Wing at Rhein-Main Air Base. Rhein-Main, one of the principal air bases in Europe, provides aerial support for the western defenses in Europe.

Pfc. Horsley is the son of Mr. and Mrs. R. G. Horsley, Box 573, Muleshoe, Texas. He graduated from Muleshoe High School. Prior to entering the Air Force he was employed by Dyer's Hardware and Furniture Store. Horsley has been in the service since August 1951.

## Gerald's Cafe Plans Formal Reopening

Grand opening of Gerald's Cafe, which has recently undergone a face lifting by means of new paint, new fixtures, and remodeling will be held Saturday, Gerald Priboth, owner, announced this week. Grand opening was planned for last week but was postponed because of the failure of new booths to arrive.

Free coffee and doughnuts will be served to those who visit the cafe on opening day, Priboth said.

## Big Apple Crop Seen In Illinois This Year

The Illinois apple harvest is on. A 3,645,000 bushel Illinois crop for 1951 was forecast by the Illinois Fruit Council. This compares with a 4,100,000 bushel crop for 1949.

The first part of the summer apples are being picked in southern Illinois and their harvest will end this week. Thereafter the other summer varieties of apples will be harvested.

## JayCees To Back Paving

Decision to back the pavement program now underway in Muleshoe was reached unanimously by members of the Muleshoe Junior Chamber of Commerce in its meeting Monday night, Tootie Middlebrooks, president announced. He said the club members present voted to work for the paving "100 per cent."

A paving program is now being developed here by Consolidated Engineers, Inc., of Hobbs, N. M. Already underway is the work in the Lenau addition, where curb and gutter work is about complete and paving can be accomplished soon. Some 2,000 feet of paving, curb and gutter will be laid in the addition.

## New Store To Open Saturday

Grand opening of Muleshoe's newest business firm, the Ben Franklin Store, located in the building formerly occupied by Cash Way Grocery and Market, has been set for Saturday, July 7.

A new feature, self-service, is being introduced into the south west with the opening of this new store. Ray Morrison, one of the managers, stated this was the only self-service variety store south of the Mason-Dixon line.

The store will handle a complete line of variety store items, which includes several lines of nationally advertised merchandise.

A grand opening sale is being held Saturday with many items on sale all over the store.

All new fixtures have been installed and the store has been decorated.

Every one is invited to stop by

## Increase In General Service Rate Requested Of Muleshoe City Commission By West Texas Gas Co.

C. I. Wall, president of West Texas Gas Company, announced today his company had filed a petition with the Texas Railroad Commission for an increase in its General Service Rate.

Mr. Wall said that for sometime the company has been concerned over the fact that ever increasing costs of material, labor, taxes, gas purchased for resale, etc., might make it necessary to request an upward adjustment

## 1951 Rainfall Totals 17.06 In.

Total rainfall for 1951 through Sunday night totaled 17.06 inches for the year, according to R. J. Klump, official weather recorder for Muleshoe. The total for May was 6.87 inches and 5.34 inches for June.

Early Sunday and Monday mornings, Muleshoe received 2.16 inches of rain, accompanied by terrific thunder and lightning and strong winds.

Another large area to the north and east of Muleshoe was hailed out Sunday night, reducing the cotton acreage in Bailey County.

Out of the 200,000 acres first planted to cotton this year, approximately 100,000 acres of it has been destroyed. This acreage is being planted in combine maize and other grain sorghums.

## Price Specialist Coming Monday

In its continuous efforts to assist business men to comply with the regulations of the Office of Price Stabilization, the Lubbock district headquarters will again send out price specialists next week to conduct almost 50 price clinics in the 29-county district.

Lee R. Gamble, a price specialist in the Fuels & Chemicals branch, but also familiar with the regulations of the other branches, will be in Muleshoe next Monday afternoon, July 9, to help merchants of the area to bring their firms into compliance if they have not already done so.

While here, he will maintain offices in the district court room in the courthouse and he invites all types of business men to bring their questions to him.

Meanwhile, C. J. Tylor, district price executive, urged operators of businesses to continue to write to the district office for information they need. The office is located in the Broadway bldg., 1002 Texas Avenue, Lubbock.

## Rotary Studies Improvements Of Weekly Programs

A review of the programs given before the Rotary Club and an expression from each member as to the type of program which appealed to him took up a part of the program period of the club at its noon luncheon.

Each member will be asked to bring up a program, taking the job in rotation alphabetically.

Most speakers expressed their desire for more educational programs, good speakers having the edge in this respect. They remembered several educational speakers who came before the club in the last twelve months.

However, many expressed the thought that the clubs have not "dipped into" the local schools as much as they possibly could for talent for their weekly programs. School executives, talented pupils, and departmental information talks such as Voc. Ag., etc., were suggested as possible sources of good program material. Churches and other institutions and visiting dignitaries or business and professional people are other sources mentioned.

The new president, Bud Holton, outlined ideas for continued development and growth of the club.

## Large Crowd At Square Dance

Several hundred spectators and approximately two score of square dancers from Texas and New Mexico were at the fourth of July square dance sponsored by the Muleshoe Junior Chamber of Commerce at the tennis courts which were completed last week.

Proceeds of the dance will be used for the expense of finishing the courts and lighting them.

Music for the dance was furnished by Frank Hyatt and his band of Earth.

## To Wage Campaign

The JayCees will wage an active campaign on behalf of the paving program, officials of the club announced. They will boost the paving by word of mouth, by consulting with other citizens, by publicity and by any means they can to bring the need of paving more sharply to the minds of all Muleshoe residents.

## Our Honor Roll

New subscribers for the Journal this week include:

Mose Abrams, Tullia.  
John Vertn, Minnesota.  
Noble R. Shaw, Indiana.  
Pat English, Plainview.  
M. E. Springstube, Amarillo  
Virgil Nowell, Route 2.  
Editorial Service, Ten.

## MULESHOE GRAIN MEN SENT BOYS TO ROUND UP

Elevator and grain men of Muleshoe shared expenses of the two 4-H boys of Bailey County who made the trip to the annual 4-H Round up held recently at A. & M. College, J. K. Adams, county agent reports. Robert Gyles and Jim Prather were the two boys.

Mr. Adams listed the following firms as providing funds for the trip: King Bros. Grain & Seed Co., S. E. Cone Grain & Seed Co., Boots Bryant of O. K. Grain Co., Ray Griffiths Elevator, Bill Moore of Muleshoe Elevator, and Rufus Glibbreath of Glibbreath Feed & Seed Co.

## NINE NEW BOOKS ADDED TO LIBRARY SHELVES

Muleshoe Library reports have received nine new books which are now on the shelves and available to readers. Mrs. Wright, the librarian listed the new volumes as follows:

Man And God, By Victor Gollanz.  
A Soldier's Story, By Omar N. Bradley.  
Six Gun Town, By Chuck Martin.  
Mountain Men, by Chuck Stanley.  
Kentucky Stand, by Jere Wheelwright.  
Heaven Lies A Head, By Sara Sloane.  
Proud New Flays, By F. Van Wyck Mason.  
Desert Campfires, By John Sims.  
The Manor Form, By Mary Douglas Warren.

## MULESHOE IMPLEMENT AND SUPPLY HAS STORM SALE

Earl Ladd, owner of Muleshoe Implement and Supply, this week announced the beginning of a sale on storm damaged merchandise.

He said extra big discounts were being given on many electrical appliances such as refrigerators, ranges, vacuum cleaners, dishwashers, irons, and other smaller electric appliances. More information concerning the sale appears in his ad on another page of this issue.

## Heavy Showers Fell Sunday

Two showers Sunday brought 2.76 inches more moisture at Muleshoe, R. J. Klump, weather recorder reports. Mr. Klump said the shower which fell from 4 to 6 a. m. Sunday amounted to 1.47 here. The shower that night, falling around 1 o'clock, deposited 1.29 inches more of moisture, he said. There was no hail in the town area but northeast of town hail laid waste mmore crops, it is reported.

The Sunday night storm here was a part of the storm which caused heavy damage at Oltan. Citizens there thought it was a tornado, which tore apart a large elevator and damaged other property. Many crops were wiped out by hail and heavy rain. About 7 inches fell there, it was reported.

## THEATRE REBUILDING STARTED HERE TODAY

Howard Cox, proprietor of the Cox Drive-In theatre, at Muleshoe, said workmen today began reconstruction work at the theatre, which he hopes to have open again in a few days.

The screen was blown down and destroyed in a storm that hit Muleshoe Sunday night, June 29.

### Poage Bill Will Simplify Import Of Mexican Labor

Representative George Mahon reports from Washington that the so-called Poage Farm Labor Bill has now passed the House and is in conference between the House and Senate. The House rejected the so-called Douglas Amendment to the bill which would make it a felony for a cotton farmer to knowingly employ a Mexican citizen who was in the United States illegally.

The object of the Poage Bill is to simplify the process of bringing Mexican labor from the Republic of Mexico to help in the harvesting of cotton and other crops-labor that will be greatly needed if the 1951 Texas cotton crop is to be harvested.

Mahon participated in seeking passage of an amendment by Congressman Rogers of Pampa which would have repealed existing federal law prohibiting employment in agriculture of children under 16 years of age when school is in session. The amendments was held out of order and was not adapted. Both Rogers and Mahon have separate bills pending which would accomplish the same purpose but to date favorable action has not been taken.

Mahon expressed elation over the passage of the Poage Bill. He said that there had been a rumor that the President might veto the bill when it arrived at the White House for his signature. However, he felt that the President would be compelled to approve the bill in view of the tremendous importance to the national defense effort of producing additional labor for the harvesting of the 1951 cotton crop.

#### RESTS AT RUIDOSO

D. H. Sneed, proprietor of the D. H. Sneed Supply Co., has been resting several days at Ruidoso.

#### ANOTHER PICTURE FOR THE LAMME GALLERIES

Doris Marie King, little daughter of Mr. and Mrs. Robert King will have her portrait displayed in the Lamme Galleries in Denver along with others from this territory. Permission of the parents was requested by the photographer. The display is from July 16 to July 20.

### National Draft Law Extended Until July 1 With Some Important Changes

AUSTIN, July 2.—The draft law scheduled for expiration July 9 has been extended in amended form to July 1, 1955. Brigadier General Paul L. Wakefield, state draft director, reminded Texas people today.

General Wakefield noted the following important changes in the Selective Service act:

1. Men inducted will serve for 24 months as compared to 21 under the old law. Males must register at the age of 18, as formerly.
2. Men are liable for induction at age 18½ instead of 19. No man below 19 can be inducted so long as a board has eligible older men.
3. Physical and mental standards for service have been lowered, with the result that some men now classified IV-F will be found suitable for I-A.

4. The present strength of the armed forces, approximately 3½ million, can be raised to 5 million men.

5. Except for cases of extreme hardship, a man may not be deferred for dependency on the basis of a wife alone.

6. Men now or hereafter deferred on educational, occupational, farming, or dependency grounds will remain liable for service until age 35. Men not deferred are liable only to 26th birthday.

7. Conscientious objectors to military service shall be ordered into civilian work in the national interest for 24 months.

8. Men entering the service by way of a draft board are obligated to serve six years in the reserves after discharge.

9. High school students will be deferred until graduated, until they attain age 20, or until they fail school work.

10. Some college students may be deferred on the basis of class standing during last completed school year, or on the basis of a government-sponsored test. The local board is not bound to defer on the basis of this information, but can defer on consideration of it. Some college students may be deferred on a less competitive basis.

11. No inducted men may be assigned overseas until he has had four months training.

We have them at The Journal. 1¢ SHOW CARD Colors and Brushes.

### Foresees Higher Price For Cotton

Prospects for higher prices for American cotton growers this year as a result of large exports were foreseen by Senator Connally (D-Texas) after a conference with Agriculture Charles Brannan.

Connally and John White, Tex.

### Uncle Sam Says

The purchase of U. S. Defense Bonds is a method whereby you can make your dollars work for America, just as they work for you. Our country must be strong economically. It should be apparent to everyone that defense is everybody's job. Your part is to buy Defense Bonds. Every employee in a plant or business establishment should be enrolled for the Payroll Savings Plan or the Bond-a-Month Plan at his bank. A few dollars here or there will accomplish little, but with everyone doing his or her job, America will be economically secure.

U. S. Treasury Department

12. All enlistments in the armed forces, reserve and regular, which expire after July 9, may be extended by the President for one year. No person shall have his enlistment extended a second time.

#### LEO WOLLARD ARRIVES AT FORT HOOD, TEXAS

FORT HOOD, Texas, June 27.—Cadet Leo F. Wollard, arrived here recently to attend the Reserve Officers Training Corps summer camp.

Cadet Wollard, student at New Mexico Military Institute, will receive six weeks of intensive field training. Emphasis will be placed on the development of leadership qualities and tactical employment of the latest weapons and equipment. The cadets will participate in actual operations of a military unit under simulated battle conditions.

### Barbara Bowers In Top 17 At State Dress Revue

Barbara Bowers, winner of the Bailey County 4-H Girls Dress Revue, was in the top 17 at the state 4-H Club Roundup, held at A. & M. College June 25 through

as state agriculture commissioner, went to the Agriculture department to learn what is to be done with an expected large 1951 cotton crop.

Connally said Brannan assured them that export allotments will be changed regularly to conform to crop estimates made monthly.

"This will mean higher prices for farmers without corresponding increases for consumers," he said in a press statement.

"If the farmers are to receive the full benefit of this policy, it is important that the determinations be made as soon as possible. It will not help the farmers if they have already sold their cotton when export quotas are increased.

"Secretary Brannan flatly stated, however, that the department would allocate for export all the cotton in excess of the domestic requirements.

"He plans to allow for a carry-over of only about 2 million bales approximately equal to this year's carry-over, which is the smallest since 1925.

**Cotton Defoliation Chemicals Tend To Help In Control Of Worms And Weevils**

Chemical defoliation of cotton may be worth the cost and effort regardless of whether the harvest is to be hand, by picking machines or by mechanical strippers.

Removal of the leaves exposes all bolls to sunlight and air current so they dry rapidly and open quickly. This often allows the cotton to be picked two weeks earlier.

Defoliation may be beneficial in the control of cotton insects, cutting down on leaf worm and aphid infestations, reducing boll weevil populations and permitting early stalk destruction for pink boll-worm control.

"Apply defoliants when the youngest bolls expected to make cotton are 25 days old", advises F. C. Elliott, cotton specialist for the Texas Extension service. "Defoliants should be applied ten days or two weeks before the intended picking date".

Use of dust defoliants is recommended only when plants are wet with dew or when adequate dew is forecast. Elliott cautions that the dust must remain in moisture on the leaf for at least two hours. Four or more hours of moist exposure is preferred.

Calcium cyanamide and monosodium are two recommended dust defoliants. Calcium cyanamide, sold under the trade name "Aero Cyanamid, Special Grade", should be applied at the rate of 30 to 40 pounds per acre. Twenty-five to 35 pounds per acre is recommended for monosodium cyanamide, which is sold as "Aero Sodium Cyanamid Dust (X-10)".

Spray defoliants may be used in the absence of dew and when the air is extremely dry. However, Elliott warns that through coverage of the cotton plants is essential for good results.

Good defoliation can be obtained with six to eight pounds per acre of spray defoliants sold under the trade names, "Shed-A-Leaf", "Ortho C-1, Liquid Defoliant", "Aero Cynate Weed Killer" and "Dow Defoliant". One to four pounds of "Niagrathal DF Spray" per acre or 5 to 15 pounds of "Sodium Cy. cyanamid, Soluble Grade (X-5)" may be used.

For ground spraying Elliott recommends dissolving the above rates in 10 to 25 gallons of water, depending on the type of sprayer used and the size of the cotton plants. Thorough coverage of the plants is essential. This means going to the field with enough water. Under most conditions 25 gallons of water per acre will be necessary.

For airplane spraying, dissolve the recommended pounds of material in an equal number of gallons of water.

## Social Club Plans Picnic

The Pleasant Valley Social Club met Wednesday, June 20 in the home of Mrs. Floyd Andreas with the president conducting the business meeting.

Plans were made for a picnic supper at the school on the 4th of July. It was decided the club would furnish the wieners and buns and the members are to bring drinks, etc.

A formal announcement was made of the birth of Jimmy Lou Dulin.

After the business session was adjourned, Mrs. Harold Allison took charge of the games.

Refreshments were served to: Mesdames, Harold Allison, Jerry Allison, Herman Haberer, E. K. Angeley, H. E. RReeder, Leroy Hicks, Oscar Allison, Raymond Roubinek, Jerry Angeley, F. L. Shelby, and a guest, Mrs. Ferrell and the hostess.

Everyone came dressed as a kid with Mrs. H. E. Reeder, winning the prize.

## Fidelis Luncheon In Precure Home

Members of the Fidelis class were entertained with a luncheon Friday, June 28, in the home of Mrs. R. D. Precure, with Mrs. Pat Bulloch and Mrs. C. M. King as co-hostesses.

The living room was filled with tables decorated with hand decorated linen cloths and a place setting of silver. Each table had a vase filled with snap-dragons in pastel colors. The main table had a crystal top hat filled with cut flowers as the center piece. The buffet had a basket filled with lavender colored flowers.

The meal was served buffet style from the main table. Huge platters of southern fried chicken with green beans, potatoes, squash a radish plate with stuffed olives, fresh onions, and tiny sweet pickles arranged on it, and a plate with sliced tomatoes were served. Baskets of hot rolls and butter were passed from table to table during the meal. For dessert, a delicious paradise cake in pastel colors was served.

After lunch Mrs. C. M. King, president, called the house to order and the motion was made to postpone the regular business meeting for one week, which will be July 12 instead of July 7, meeting in the home of Mrs. F. H. Davis with Mrs. C. A. Barnett as co-hostess.

There were 22 members present and one visitor, Mrs. Ray Buster a missionary from Brazil.

### MRS. MORGAN WINNER OF ROOM OF WALLPAPER

Mrs. B. H. Morgan was the winner of the Youngstown Treasure Chest contest which was concluded Tuesday and she was awarded new wallpaper for a room by the Willson-Sanders Lumber, the management announces. Willson-Sanders are the local dealers for Youngstown Steel Kitchens.

It was reported that 288 local people registered at the lumber yard store during the contest.

## Society News

THE MULESHOE JOURNAL, Thursday, July 5, 1951

### Pioneer Bailey County Residents Celebrate Golden Wedding Anniversary

Mr. and Mrs. C. M. Black

Throckmorton, Texas on August 10, 1881. In 1892 the families of both moved to Oklahoma.

In 1902 Mr. and Mrs. Black moved to Springfield, Colo., in a covered wagon. In 1906 they moved to the Texas Panhandle, near Perryton, Texas, where they lived until moving to Bailey County in 1932. Mr. Black was a cowboy in his early days and later started farming.

To this union was born twelve children, nine of them living: B. H. Black, A. W. Black, of Muleshoe, Mrs. Edgar Raymond, Corona, Calif., C. R. Black, of Muleshoe, Mrs. Lawrence Perry of Blythe, Calif., J. D. Black, Mrs. Alton Epting, E. F. Black of Muleshoe.

One daughter died in infancy and another daughter when she was eight years old. One son, Billie M. Black was killed during World War II in the Philippine Islands. Mr. and Mrs. Black have twenty-three grandchildren and three great grandchildren.

Out of town guests were: Mr. and Mrs. Lawrence Perry of Blythe, Calif., Mrs. Edgar Raymond and small son Bobby, Corona, Calif., Mrs. H. C. Elliott and son Cary Don of Dallas, Texas, Mrs. Maggie McMinn of San Angelo, Texas, Mrs. Beauford Wallace of Harlingen, Texas, Mr. and Mrs. Tilman Clements of Pampa, Texas, Mrs. William Sullivan and son of Lubbock, Texas, Mr. and Mrs. E. W. Black of Sudan, Texas, Mr. and Mrs. Cheryl Douglass of Plainview and Mr. and Mrs. Grady Tucker and daughter of Clovis, N. M.

Approximately 150 relatives and friends called during the receiving hours.

## Enochs HD Club Pieces A Quilt

The Enoch's H. D. Club met June 28 in the home of Mrs. Dutch Cash with only 11 members present. Roll call was answered with sewing tips. Mrs. J. W. Van was appointed chairman of the year book committee.

The session was spent in piecing a quilt for Mrs. Cash. We enjoy these "do something" meetings very much. AA cup towel was started in circulation, each member sewing on a patch with a coin underneath.

Next meeting will be with Mrs. C. W. Van at the Bula lunch room in an all day quilting. Bring covered dish for lunch.

Everyone is urged to bring a package for the grab box.

### VISITED IN PORTALES

Mr. and Mrs. Buford Butts and daughter spent the week end in Portales with the Marty Ezells.

children, nine of them living: B. H. Black, A. W. Black, of Muleshoe, Mrs. Edgar Raymond, Corona, Calif., C. R. Black, of Muleshoe, Mrs. Lawrence Perry of Blythe, Calif., J. D. Black, Mrs. Alton Epting, E. F. Black of Muleshoe.

One daughter died in infancy and another daughter when she was eight years old. One son, Billie M. Black was killed during World War II in the Philippine Islands. Mr. and Mrs. Black have twenty-three grandchildren and three great grandchildren.

Out of town guests were: Mr. and Mrs. Lawrence Perry of Blythe, Calif., Mrs. Edgar Raymond and small son Bobby, Corona, Calif., Mrs. H. C. Elliott and son Cary Don of Dallas, Texas, Mrs. Maggie McMinn of San Angelo, Texas, Mrs. Beauford Wallace of Harlingen, Texas, Mr. and Mrs. Tilman Clements of Pampa, Texas, Mrs. William Sullivan and son of Lubbock, Texas, Mr. and Mrs. E. W. Black of Sudan, Texas, Mr. and Mrs. Cheryl Douglass of Plainview and Mr. and Mrs. Grady Tucker and daughter of Clovis, N. M.

Approximately 150 relatives and friends called during the receiving hours.

## Illinois Ladies View Land Here

Their first view of land that has been in the family a half century was obtained this week by Mrs. Abbie Patterson, of LeRoi, Ill., and Mrs. Purl Jimison, of Champaign, Ill. The two own the farm operated by Myron Hillock and family, located on Highway 70 near Progress.

They were accompanied here by John Slingloff, Bloomington, Ill., and by Mr. Jimison.

Mrs. Patterson said that their father, the late T. W. VanAtta came here and bought the land in 1901. Many of the older settlers probably will remember Mr. VanAtta who was here quite a lot in the early days.

The party decided they like Bailey County "very much" on the first visit, and expressed the hope they can return each year some time during the summer. They said Mr. Hillock has a pretty nice crop growing on the farm this year.

## Shower Honors Mrs. Bickel

A pink and blue shower for Mrs. Jim Bickel was given in the home of Mrs. Claude Sanders June 29. Members of the W. M. A. of the Main Street Baptist Church were the hostesses.

Games were played, such as Queen for a Day, with Mrs. Jim Bickel the winner and receiving the gifts.

Refreshments of pink and blue angel food cake and lemonade with pink and blue ice cubes were served.

There were thirty-five attending and others sent gifts.

### VISITED IN AMARILLO

Mr. and Mrs. Gene English and daughters visited in Amarillo last week end with Mr. and Mrs. Lookingbill and Mr. and Mrs. Bob Tuttle.

MR. AND MRS. ROSS M. GLAZE, JR. are pictured cutting their wedding cake at the reception held in the parlors of the Polk Street Methodist Church in Amarillo immediately following the marriage ceremony. He is the son of Mr. and Mrs. Ross M. Glaze of Muleshoe, and the bride, the former Miss Mary Elizabeth Browning, is the daughter of Mr. and Mrs. Morris Browning of Amarillo.

## Three Way 4-H Club Girls Meet

The Three Way 4-H Club met at the home of Mrs. L. E. Warren Friday, June 22, at 3 o'clock. Miss Dian McClurkin, the county agent, taught us how to make biscuits from the Master Mix.

We sang songs and played games.

Mrs. Warren served refreshments to: Pauline Warren, Sue Warren, Janice Baker, Kay Cole, Yvonne Wilson, Peggy Fowler, Margaret Holcomb, Betty Arnn, Mary Sue Byars, Lucy Clark, Maudine Eubanks, Marie Fort, Nelda Myres, Billy Finley, Fay Rentrow, Sally Lou McShan, Peggy Roberts. Eight mothers were there.

Pauline and Marie told about the 4-H Camp at Lubbock.

## Attention Please

Mr. W. W. Branscum, President of the Board of Directors of the Bailey County Electric Cooperative Association, announces that they are now in the process of working up applications for domestic and irrigation services which will be known as the N section.

When survey is completed this data will be submitted to the Rural Electrification Administration in Washington, D. C. and request for a loan will be made to cover the cost of construction.

It is urged that anyone interested in better electric service in the counties of Bailey, Castro, Lamb and Parmer, will please stop by the Cooperative's office in the near future and make application.

It is necessary to have a signed application, secure a \$5.00 membership and sign an easement, if necessary, in order to be a part of the N section request. The Bailey County Electric Cooperative hopes to have this survey completed by July 22, thus enabling us to add sub-station capacity and thereby enlarge our service.

Babson Discusses

Salaries Of Teachers & Preachers

Roger W. Babson

NEW BOSTON, N. H., June 29—With the national average yearly salary for experienced public school teachers, supervisors, and principals slightly over 2,500 per year, it is little wonder that more than half a million of our best teachers have left our public schools since 1940. But whether our schools will be less well run the instruction become slipshod, and the end product poorly prepared is another question. It, however, does seem shortsighted for we Americans to spend annually eight billion on liquor, five billion for schools and only one billion to all ministers, priests and rabbis combined.

TEACHERS AND SALARY

From 1925 to 1949, school teachers, supervisors, and principals, salaries rose about 84 per cent, compared with the 125 per cent increase in the weekly earnings of factory workers. I have been in the home of school people during the last year and am shocked by the sacrifices they are making and I am amazed by their cheerfulness. Yet, the same or even greater sacrifice is being made by the wives and families of America's religious teachers.

New York State people today pay only an average of about \$3,300 per year for public school teachers, and an average of only \$2,250 for their religious instructors. California, the District of Columbia, Illinois, Michigan, New Jersey, and Massachusetts follow close behind. Mississippi pays the poorest for both secular and religious instruction, while Arkansas, South Carolina, Alabama, and Tennessee do but little better. The Washington-Oregon-California area has an annual sectional average per teacher of \$3,065. New York, New Jersey,

and Pennsylvania come next with \$2,856 and New England follows in third place with a sectional average per teacher of \$2,537. The same comparison applies generally to what the churches pay to their preachers. Yet, a bricklayer who is working on a Babson Institute dormitory told me that his "take home" pay is about \$5,000 per year.

TYPICAL EXAMPLES

One teaching couple whom I met on a recent trip and who live in a tiny three-room apartment told me, "We would like to have children of our own but simply cannot afford it". Yet, such people would make the best of parents. Another husband a science teacher, said, "If my wife gave up her part-time teaching job, we couldn't pay our rent on my salary. It's a question of how much longer I can afford to remain a teacher". Another school teacher who has a sick wife says he must do all the housework, including cooking the meals, after his school work.

In more communities than you realize, many high school students are paying larger income taxes than their school teachers or church ministers! It is no wonder that the kids have so little respect for teachers and preachers! Furthermore, they cannot have much respect for their parents who permit this wretched condition to continue.

EDUCATION IS OUR RESPONSIBILITY

Insuring a good secular and religious education for the youth of our country is everybody's business. We need a great revival of citizen interest in our schools and churches at the grass roots. All education is the business of every businessman, not just the responsibility of those few parents who happen to have school age children. We all should unite to see to it that teacher's and ministers' salaries are sufficiently high to assure the best character and education possible for our citizens of tomorrow.

It has been said that some of our teachers look too favorably upon political Utopias. It surely is not surprising if some of them question the "free enterprise" system if the best that we can do under that system is to spend 1.5 per cent of our national income for education when Russia spends 7.5 per cent and Britain 3.5 per cent. The churches must put up their own money for increased religious salaries; but I can answer where more money can come from for our teachers. We would easily get it without increased taxation by insisting that

Sand Hills Philosopher Joins Washington Expert Who Warns On Over-Saving

Editor's note: The Sand Hills Philosopher on his Johnson grass farm has another odd idea this week, which keeps his batting average pretty high. Dear editor:

People are always pokin fun at what comes out of Washington, me included, but this morning I was sittin out in the pasture under the shade of a tree readin a newspaper I'd picked up in town yesterday at the barber shop, was in there for restin purposes only, and noticed where an expert from Washington made a speech in Austin before a group of economics students and said "too much saving by people will put us on the verge of a depression".

I read it twice and that's what he said.

"Our big problem today," he added "is to keep a balance between income classes to avoid over-making". I want you to know this kind of advice is right up my alley. For years I been listenin to people tell me over-spendin was the surest way to go busted that no nation could spend itself into prosperity, but this is the first time I've read any warnin against over-savin, and believe me I'm in favor of hearin more.

Accordin to this expert, whose title is Chief of the Consumer Price Index System of the Bureau of Labor Statistics in Washington, what caused the celebrated depression in 1929 was over-savin. "In 1929 we over-saved, and that brought on the depression," he said.

I'm glad to hear the wisdom of my way of life underscored, and whatever you can say about me, you can't say I helped bring on the 1929 depression, and furthermore I'm doin all I can to avoid bringin one on now. You don't catch me over-savin. In fact, the only reason I don't spend more'n I am is because too many store keepers are short-sighted, depression-minded, and won't let me. Throw up a credit screen that's puttin this country on the verge of a depression, if that expert knows what he's talkin about.

However, I have been reflectin on this problem of over-savin, our petty politicians give us an honest dollar's worth of government and then put the savin's into teacher's and principals' salaries.

TIMELY TIPS

FROM YOUR H. D. AGENT  
By Miss Dian McClurkin

TEST AND REPAIR CANNING EQUIPMENT

If you haven't already checked your canning equipment, it still isn't too late.

The 1951 recommendations for preserving foods at home suggest you check the pressure gauge on your canner each year for accuracy with a Master gauge tester or maximum thermometer. Most home demonstration clubs or council have this equipment and can show you how to check your own equipment. Check your pressure canner to see that it does not leak steam. This affects the pressure and withdraws water from the containers during the processing period.

Clean the petcock and check for operation. If the petcock continues to lose steam after cleaning, buy a new one at your local hardware store.

Get all jars and cans ready before you begin. Be sure jars have no cracks, nicks or other imperfections, and are thoroughly cleaned. Be sure cans have no dents, creases or disturbed rims. Check lids and closures.

If you can in tin, you will need to check the sealer to adjust to the type can you are using. Lids and while I don't want to knock nobody out of a job, I believe that expert has succeeded in talkin himself about out of one, as most folks I know have come around to his way of thinkin and if there was ever a nation bent on avoidin a depression by refusin to over-save, this one is it. If that Washington bird is right, this country has got smooth sailin from now on.

Yours faithfully,  
J. A.

with composition gaskets need a tighter seal than those with paper gaskets. Your manual that came with the sealer gives directions for checking, cleaning and adjusting. If you don't have one, write to the company at once for a new copy for your particular type of sealer.

Be Safe—check your equipment and containers to be ready before you begin to can food for the family to eat.

USING CHEMICALS IN CANNING

Here's information on use of chemicals in canning. Some chemicals are desirable and some are undesirable, according to the recommendations for canning from the Texas State Nutrition Council for 1951.

You can use MGK Insect Loosener, which is made of Pyrethrum that isn't poisonous to humans, to loosen aphids from greens in the wash water. The directions for using come with the commercial preparation. Calcium Chloride salt tablets can be used when canning tomatoes. The chemical, a tablet to each pint or No. 2 can of whole tomatoes keeps them firm.

Ascorbic acid is another chemical used in canning at home. The material prevents peaches, pears and plums from darkening. You can get ascorbic acid at your local drug store with directions for using, or you can check the information in the leaflet Can Fruits In A Water Bath C-224.

Now for the undesirable chemicals—the insecticide benzenehexachloride if used on greens in the field, makes them inedible after canning because of the foul odor. Even if the field was treated the year before with the benzenehexachloride, the following year's crop is inedible.

Lindane, the gamma isomer of benzenehexachloride, causes little if any trouble in canned foods and is even more effective against insects than the old form of mixed isomers.

Check your leaflets, Can VEGETABLES IN PRESSURE CANNER, and CAN FRUITS IN WATER BATH, before you use chemicals in canning.

MOTHER VISITS HERE

Mr. and Mrs. A. P. Lambert visited over the week end at Bonham with her mother, Mrs. A. W. Henry, who returned with them for a visit in their home.

Today's Meditation

CHRISTIAN LIBERTY

"... I am come that they might have life, and that they might have it more abundantly" (John 10: 10.) Read John 10: 1-10

It is said that when Raphael, as an aspiring artist, brought some early efforts in painting before his teacher, the master wrote across them the word, Amplus, which means "amplify", "enlarge", "widen" From that moment, the genius of the young artist took fire, and he thereafter painted his works of art with broader bolder strokes.

Thus did Jesus concerning life. The Old Testament emphasized life. "That thy days may be long" meant divine favor. But in the New Testament we have higher standards. The abundant life is

measured by capacity, intensity, quality. Eternal life is not merely to exist endlessly, but to know and to love. Jesus came not to add years to life but to add life to years.

Amplus is His word for all of us. He calls for a larger, fuller, better life in every sphere of our being—for the personal, the social; for the local, the universal for the temporal, the eternal. For Him heaven is not yonder, but here; eternity is not in the future, but now.

PRAYER

O Thou eternal One: let us find Thee, for Thou art the Way without whom there is no going. Thou art the Truth without whom there is no knowing. Thou art the Life without whom there is no living. In Christ we see light. In His name. Amen.

Thought For The Day

In Christ's life only is there "the light"—S. Stephen McKenney (Texas).

How to make Wise Tracks to a Beauty

How do you buy a new car? Are you one of those people who buy on love at first sight? Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money? Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks. It's a sure bet you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—fall seriously in love with the pace and power of its bonnet-filling engine. And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive\* and all-coil springing. But don't let your emotion be the only

judge—get the practical picture too. Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy. Note that the silken ease you enjoy with Dynaflo\* goes hand in hand with real money savings in maintenance costs. Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere. How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLOW DRIVE\* • FIREBALL ENGINE
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
- WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING
- BODY BY FISHER

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

**LOYD ROBERTS**  
**FOR AMBULANCE SERVICE CALL 47**

**OLIVER TRACTOR MOUNTED CULTIVATOR**

**EXCLUSIVE OLIVER "OD" CLAMPS**—Frame bars, rocker shafts, and lifting springs are attached to front and rear pipes with easily and quickly operated, quick-detachable, "OD" clamps. Eliminates tightening or loosening of bolts and greatly reduces attachment or detachment time. Hook on feature of attaching clamp to pipe before tightening provides an easy and quick method of adjusting gang frames for row widths.

**WIDE COUPLINGS SUPPORT GANGS**—Wide spaced couplings on pipes support the gangs against side pressure and hold the shovels or sweeps in alignment. No floppy shovel action to dodge weeds. Rigid one-piece gang beams are made of heat treated steel.

**HIGH CLEARANCE**—Unusually high clearance under pipes and tractor axle prevents injury to crops even in late cultivation. Ample clearance under beams and between shovels or sweeps.

**CENTRALLY MOUNTED CULTIVATORS**—Ideal weight distribution on tractor wheels. Least possible depth variation when tractor runs over uneven ground. Convenient and unobstructed forward view of earth-working parts and plant rows. Possible short turns and backing of tractor. Permits working close to fences. Tractor may be used for drawbar work while cultivator is attached.

**STRONG RIGID PIPE FRAME**—Cultivator gangs are supported on one-piece front and rear pipes which extend through tractor frame. No attaching joints to work loose. Gangs are rigidly supported to maintain depth and control straight-path-of-travel.

**SPRING TRIP SHOVELS**—Spring trips allow shovels to swing back past center, to clear obstructions and avoid breakage. Large range of adjustment for suction, in shovel sleeves. Wide variety of shovels, sweeps, and hillers are available.

 "Let the Word of Christ dwell in  
 you richly."—Col. 3:16.

**PRIMITIVE BAPTISTS**  
 BELIEVE  
 THAT all who mourn because  
 of sin, or who ever have a divine  
 inclination, are the children of  
 God, and cannot go to an ever-  
 lasting hell, because Jesus Christ  
 "bought them and paid for them  
 with His own blood."  
 THAT the preaching of the Gos-  
 pel is to prove that glorious fact,  
 so that the individual may  
 choose between living to the  
 glory and honor of God or a  
 vain life of unhappiness and dis-  
 honor.  
 THAT the church is the most ex-  
 clusive order on Earth, and that  
 no disorderly conduct should be  
 allowed to walk in her ranks.

**CHRISTIAN SCIENCE SERVICES**

True dorsehip of God is not to be found in observance of material rites but in constant devotion of thought to things of the Spirit, declares the Lesson-Sermon entitled "Sacrament" to be read in all Christian Science churches on Sunday, July 8. These words of John comprise the Golden Text: "The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth" (John 4:23).  
 Further explaining the theme is this verse from the fifty-eighth chapter of Isaiah: "Is not this the fact that I have chosen? to loose the bands of wickedness, to undo the heavy burdens, and to let the oppressed go free, and that ye break every yoke?" From the Christian Science textbook Science and Health with Key to the Scriptures by Mary Baker Eddy, will be read this citation: "We worship spiritually only as we cease to worship materially. Spiritual devoutness is the soul of Christian-ity" (page 140).

**Card Of Thanks**  
 I would like to extend my thanks and appreciation for the kindness shown me during my illness and stay in the Lubbock Memorial Hospital by my friends and neighbors of Muleshoe.  
 Mrs. Edward Rucktashel.

**NAMES OMITTED FROM LIST OF SHOWER GUESTS**  
 The Journal has received the following from Mrs. O. H. Davis: Will you please publish this: In last week's edition in the write-up of Miss Doris Smith's bridal shower, the names of the following guests were unintentionally omitted:  
 Mr. and Mrs. S. C. Caldwell, Mr. and Mrs. Lloyd Quesenberry, Mrs. Jessie Lewis, Mrs. Jernigan, and Miss Beulah Davidson.

**VISIT RUIDOSO**  
 Mr. and Mrs. Clyde Holt and Mr. and Mrs. J. M. Forbes spent the weekend at Ruidoso.

**Letters to the Editor . . .**

**THEY ENJOY LIVING IN BATON ROUGE, LA.**

Dear Editor:  
 I just want to tell you how much we enjoy the paper each week and look forward to its coming, although it doesn't arrive until Tuesday of each week, following publication.  
 G. W. is working for Standard Oil Co. as a Chemical Engineer. He reported for his physical this past week, as he is in the Reserve, and was told at that time that he would probably be called within 30 days for active duty. However, he is considered in essential industry and will not have to go immediately. He will continue working with Esso Standard Oil, and then if he has to go into service, it will be the latter part of the summer or early in September.

I began work this past week for Louisiana Agricultural Cooperative, Inc., as assistant book-keeper, and enjoy my work a lot. I do plan to return home to teach this fall if G. W. has to go to the Army, and do enjoy that more than the work that I'm doing now. However, the people in this office are very fine and so enjoyable to work with.  
 We like Baton Rouge real well and find that the people here are very friendly. The first week that we were here, people began to come to see us and call us. The merchants here have a committee

officially known as the "Welcoming Committee" and when they visit a newcomer, they give gift certificates from each merchant who participates in this committee. It is a real nice operation and we have received many nice gifts as well as becoming acquainted with the business people and their businesses. We have certainly tried to return their kindness by doing our shopping with them. The first 2 days here were really busy ones, as one lady called and delivered us 20 gift certificates and the church people began to visit us, immediately.

**VISIT IN AUSTIN**  
 Mr. and Mrs. Homer Sanders, Jr. visited with friends at Austin over the week end.

Once again we want to tell you we certainly do enjoy the paper, and do expect it to arrive on time each week.  
 Sincerely  
 Norma & G. W. May

The editor would like to express the hope that more people will write us in the future. Letters are always interesting to us and to our readers.

### A Beautiful Farm Home

House Plan No. 4806 might best be described as a little big house. That is because the house is comparatively small in floor area, low in cost and yet offers a complete bathroom, three bedrooms, living dining area, two comfortable sized porches and a kitchen. The kitchen contains 12 feet of counter space. There is also enough room in the kitchen for a breakfast table.

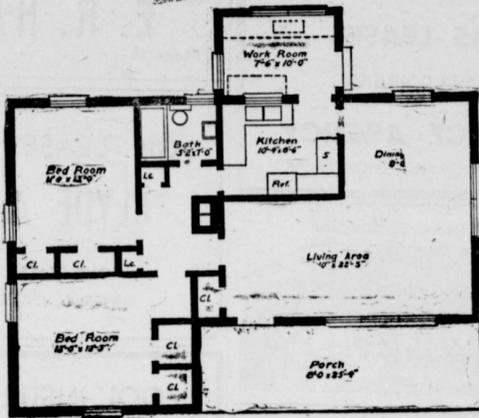

The kitchen-one of the most lived-in rooms in your home-is full of light. The placement of the back door and the windows enables you to command a view of your surrounding farmstead at all times.

The back porch, or workroom is handy and usable. A lavatory can be installed on the back porch; it's a good place for field hands to wash up before coming in for meals.

The front porch is convenient to the living room. Its extra length adds spaciousness to the house and helps make a beautiful setting for landscaping the yard.

All in all, the simple lines of this house give it beauty, and this simplicity, in turn, saves in building costs. All the windows and doors are standard size.

You can obtain blueprints for this The Muleshoe Journal Farm & Ranch Plan No. 4806 and a handy list of materials by which you can figure your construction costs accurately. Send \$1.00 to Building Editor, Farm & Ranch Dept. L-36, Nashville, Tenn. Order by number-Plan No. 4806. Blueprints are adequate for any farmer carpenter or any farmer handy with tools.

### Grass Is Answer To Greater Production

Farmers who have been asked again to increase their food production in a national emergency must be careful not to deplete their soil. This warning was made today by Hicks Tractor Co., local New Holland dealer.

George Hicks, manager, pointed to a recent statement made by R. E. Hodgson, assistant chief of the Bureau of Dairy Industry in the U. S. Department of Agriculture.

"We must remember, as we tool up for all-out agricultural production, that it is highly essential we keep our plant the soil in order, so we can continue for generations to come to produce all we need to feed and clothe ourselves. We must employ good land use practices and develop balanced crop-production programs so the land is put to its best use in the production of feed and food. Grassland crops will play a major role in bringing about this good land use so necessary now and in the future. And through intelligent cropping practices, these grassland crops can be made to produce feed nutrients in as great

quantity and at lower costs than the so-called row or soil-depleting crops."

Mr. Hicks said agricultural authorities agree most dairy and beef cattle are not getting enough good forage. He said it is possible to get just as much and just as good milk from the average dairy cow today by feeding it better roughage and cutting down or eliminating concentrates.

Leaders in the movement report that much of the nation's farmlands, particularly that subject to erosion, should be put into grassland permanently.

Greater labor shortages will also affect the grassland farmer less, according to the local dealer. Grass crops require less labor in caring for and in harvesting, since grassland farming is probably the most mechanized of any phase of farming today.

All parents who desire to transfer their children for the 1951-52 school term should call at the county supt. office, between July 1-31 28-2tp.

### John Crow At ROTC Camp

FORT EUSTIS, Va., June 25—Cadet John T. Crow, a student at the University of Texas, Austin, is one of more than fifteen hundred and fifty cadets from thirty-seven colleges and universities attending the 1951 Reserve Officers Training Corps Summer Camp at Fort Eustis, Virginia during the period 18 June-27 July.

While at camp, the cadets will accomplish practical application during the past year in activities such as convoy, stevedore, amphibious, and rail operations. Also the cadets will participate in

#### PUZZLED

I can solve a quadratic equation, but I cannot keep my bank balance straight.

I can read Goethe's "Faust in the original but I cannot ask for a piece of bread in German.

I can name the kings of England since the Wars of the Roses, but I do not know the qualifications of the candidates in the coming election.

I know the economic theories of Malthus and Adam Smith, but I cannot live within my income.

I can recognize the leit-motif of a Wagner opera but I cannot sing in tune.

I can explain the principles of hydraulics but I cannot fix a leak in the kitchen faucet.

I have studied the psychology of James and Titchener, but I cannot control my own temper.

I can conjugate Latin verbs but I cannot write legibly.

I can recite hundreds of lines of Shakespeare, but I do not know the Declaration of Independence, Lincoln's Gettysburg address or the Twenty-third Psalm.

Probably there are a good many educated people who could utter similar complaints, having found out that they have learned a lot that is of little use to them in every day life. Not that such complaints do any good, because educators are a hide-bound set of folks.

Nearly everyone wears shoes, but how many people learned in school the simple elementary fact about fitting shoes? I didn't learn it until I was in the Army and that was too late to save me from fallen arches and ingrown toenails.

All of today's students will some day own or rent houses but how many are taught how to tell whether a house is well-built. There are a thousand other things that an individual needs to know but doesn't learn in school, because his teacher is too busy teaching him to scan that is, dissect poetry.—Wichita Falls (Texas Times)

physical training, organized athletics, radiological defence, weapons and rifle marksmanship.

Fort Eustis is located in historic tidewater Virginia, which was the site of a great number of incidents important during the infancy of this nation. While at camp, the cadets will be able to tour Williamsburg, Yorktown, The Mariners' Museum, all of which have exceedingly interesting historical backgrounds.

In addition to technical training great stress will be put on the development of leadership qualities. An active athletic, recreational and religious program has been planned for the cadets.

He will be eligible for a commission in the United States Army Reserve upon completion of camp and ROTC training. An opportunity to compete for a Regular Army commission is also available.

### Progress Club Met Tuesday

The Progress Home Demonstration Club met Tuesday, July 3, in the home of Mrs. Alfred Patterson.

Meeting was called to order by the president, Mrs. Fern Davis. Roll call was answered with Women in the news. The program was given by Miss McClurkin. She gave a demonstration making a yellow cake, using the master mix. While the cake was baking the ladies discussed the qualities a good cake should have. When the cake was done,

the ladies sampled it, finding it very delicious.

Miss McClurkin led the group in several songs for recreation. We are glad to welcome Mrs. Bill Connell as a new member of our club.

Refreshments were served to eleven members, Miss McClurkin, and three children.

The next meeting will be Tuesday, July 17, in the home of Mrs. George Stotts. The program will be given by Mrs. Ada Murrah and Mrs. E. Fald Gross on China Painting. Roll call will be Believe it or not.

### Robison Family In Car Accident

Four members of the Earl Robison family are still in hospitals, being treated for serious injuries they suffered in an automobile accident Monday morning of last week on the highway between Roscoe and Lorraine. The family formerly lived here, now reside at Littlefield.

Mr. Robison had a vertebra in his neck broken and is in the Lorraine hospital; Mrs. Robison has a severe cut on her face, a hip joint out of place, a fractured ankle, and fractured knee and is being treated in an Abilene hospital; a son, 1 year old, was dismissed after treatment for minor injuries from the Lorraine hospital; a daughter, 12, has two vertebrae fractured and head injuries and is in a Sweetwater hospital; another daughter, 8, is in a Sweetwater hospital with head injuries; and another son, 5, is in the hospital at Sweetwater with a broken leg.

Earl Robison is a brother of Sylvan Robison of Mulleshoe, who with his family has been down there; another brother, Newt Robison, of Los Angeles, and his family, who have been visiting here, have been with the accident victims. It was said the driver of

### Fire Destroys Small House Wednesday

The Mulleshoe fire department was called out for the fourth time in less than a week when they were summoned to a blaze which destroyed a small two-room house in the Shady Rest

addition at 2 a. m. this morning. The house was owned by G. G. Young and was unoccupied.

The fire was discovered by a passing motorist who drove down the streets honking the horn of his auto and then he came to town and reported the fire. The building was almost burned to the ground before the alarm was turned in and the fire department arrived.

Cause of the fire was not determined.

SHOW CARD Colors and Brushes. We have them at The Journal. If

### LIONS POSTPONE MEETING

The regular meeting of the Mulleshoe Lions Club was postponed Wednesday because it fell on the fourth. The meeting will be next week at Gerald's Cafe.
