**WSCS Meeting Was Held Monday**

The W. S. C. S. of the Muleshoe Methodist Church met at the church Monday, September 24. The opening song was, "We've a Story To Tell To The Nations." Mrs. Roy Bayless brought the devotional, giving as the theme of the program, "The Earth is The Lord's, and the fullness thereof". She then gave a prayer and read the 4th chapter of John.

We, as Christians, should be concerned about the underprivileged of all the world, and should plan and work toward a Christian economic order.

Mrs. Pierson discussed Christian ethics and economic conditions. Since Jesus taught us to pray "Give us this day our daily bread". He is concerned about material possessions of all mankind.

Plans are being made by the U. N. to bring surplus food from countries who have it and give it to the countries where people are starving.

Mrs. Jennings discussed the topic, "Christian Motives in Business... In all businesses and motives should be used and purposes rather than profit.

We will have a Christian economic order when the world's economy has as its primary purpose the service of mankind.

At the business meeting, Mrs. Bayless called attention to the week of prayer, which is Oct. 25-31.

The meeting closed with prayer by Mrs. Lucy Layne.

Members present were: Mesdames Pierson, Bayless, Haney, Hanks, Jennings, Farrell and Wyer.

**Wesleyan Guild Meeting Held**

The Wesleyan Service Guild of the Muleshoe Methodist Church met Monday evening, Sept. 24 in the home of Mrs. Francis Gilbreath at 7:30.

Mrs. Buford Butts, vice-president in the absence of Mrs. Homer Sanders, Sr., president, presided over the meeting.

Mrs. Curtis Spivey brought the devotional, "I Quit Worrying When I Found God." Elizabeth Harden, gave Religion and Economics.

Mrs. Lois Schoenberger and Mrs. Ray Edwards were appointed on a committee to meet with a committee from the W. S. C. S. to work out plans for a breakfast to be held at Fellowship Hall soon. The purpose of this breakfast is to invite women of the church in order to secure more members for the Guild and W. S. C. S.

The Guild voted to have a covered dish supper at Fellowship Hall, Monday evening, October 1, at 8 p. m., the families of the Guild members and others the

Guild may invite as guests.

Mesdames Gilbreath, Edwards, and Sanders, Sr., will be in charge of the recreation.

A letter of thanks was read from Mrs. Olen Jennings, a former member but now living in Littlefield, thanking the Guild for her farewell gift.

Mrs. Roy Bayless will be leader of the new study "The Book of Acts", starting at the next regular meeting night, Monday evening, October 8 in the home of Mrs. Edwards. All members are urged to come as this will be a very interesting study and Mrs. Bayless is a good teacher.

Refreshments were served to a visitor, Mrs. W. B. Lancaster and Mesdames Jim Burkhead, Buford Butts, H. W. Hanks, Curtis Spivey, Fred J. Johnson, Lois Schoenberger, Alex Wilkins, Homer Sanders, Sr., Ray Edwards, Elizabeth Harden and the hostess.

**To Celebrate 25th Anniversary**

The Muleshoe Order of the Eastern Star Chapter No. 792 will celebrate its twenty-fifth anniversary with a silver tea immediately following the regular meeting of the Chapter Tuesday evening, October 2, in the recreation hall of the Masonic building.

Seven Chapters have been invited, Earth, Bovina, Friona, Sudan, Littlefield, Hereford, and Clovis.

Bettie Burkhead, Worthy Matron has asked Past Worthy Patrons of the Muleshoe Chapter to fill the chairs. Each past matron as far as possible will be in the station they were in when Bettie was initiated into the Chapter.

**VISITED MOTHER**

Mrs. Gale Holt, of Durango, Colo., arrived Sunday to visit her mother, Mrs. Carl Case, and brother, Jim Burkhead and family. Mrs. Holt and Mrs. Case left Tuesday for Los Angeles to visit Mrs. Ralph Border, another daughter of Mrs. Case.

**Progress Club Met In Logan Home**

The Progress Home Demonstration Club met Tuesday, September 18 in the home of Mrs. Odell Logan, as hostess with Mrs. L. E. Bratcher co-hostess.

Mrs. Fern Davis, president, presided over the meeting. Roll call was answered by T. H. D. A. news.

Council report was given by Mrs. Davis assisted by Mrs. Stotts. The clubs are to have a concession stand at the fair. Each member is to donate two pies. The proceeds go to council.

The program on Flower Arrangement was given by Mrs. Verna Stotts. She showed several pictures of arrangements and two arrangements of her own.

A fishing game was played with Mrs. Stotts catching the prize, which was a surprise handkerchief shower.

Refreshments were served to twelve members and two visitors, Mrs. J. S. Alexander, Mrs. Inman.

The next meeting will be Tuesday, October 2 in the home of Mrs. Erald Gross. Roll call will be answered with Share an Idea. We hope to have a book review for the program. Also it is to be achievement day. Bring your articles which have been made this year to be exhibited at the fair.

**Mrs. Kistler Is Hostess To Club**

The Half Century Club met Sept. 20, in the home of Mrs. Lula Kistler, honoring her birthday.

We had a very enjoyable afternoon visiting and playing games.

Delicious refreshments were served to members. Mrs. Panter, Mardis, Moeller, Paul, Witherspoon, Witte, Johnson, Harden, Duke, Julian, Haney, Case, Farrell, Davis, Schoenberger, Lane, our hostess, Mrs. Lula Kistler and Co-hostess Mrs. Maud Jones.

Our next meeting will be an all day meeting in the home of Mrs. Hattie Rockey, October 18, with a covered dish luncheon.

We discussed a little trip to Ruidoso, N. M. the first Mandoy in October. Any member interested in going on this trip report to Mrs. Hattie Rockey.

**Rainbow Girls Hold Initiation**

In a very beautiful initiation ceremony, held Thursday evening, September 20, Mina Mararet Jennings and Sue Young became members of Muleshoe Assembly No. 161, Order of Rainbow for Girls. The girls, very lovely in their pastel formals, exemplified the work in an efficient and gracious manner.

Jay Ann Wyer, Worthy Advisor elect, and Hattie Griffiths, Mother Advisor, presided at the meeting, which was well attended. A number of Masons and Eastern Stars witnessed the ceremony.

Plans were made for the public installation which will be held Sunday afternoon at 3:00 o'clock, September 30, in the banquet room of Masonic Hall.

At the close of the meeting, delicious refreshments were served by a committee composed of Ann Woodley, Barbara Douglass and Bettie Collins.

**Gov. Shivers Proclaims Newspaper Week**

EXECUTIVE DEPARTMENT  
AUSTIN, TEXAS  
September 27, 1954

ALLAN SHIVERS  
GOVERNOR

Mr. Brad H. Smith, President  
Texas Press Association  
441 Driskill Hotel  
Austin, Texas

Dear Mr. Smith:

With a full realization and appreciation that a free press is a bulwark of the American way of life, I consider it most appropriate that National Newspaper Week is to be observed October 1-8, inclusive. During the present unsettled world conditions it is entirely befitting that this nation and the State of Texas pay tribute to an organization that must play a vital role in the days which lie ahead.

To chronicle the many contributions of the press to our Democratic nation and to the development of a world civilization is impossible. From the smallest hamlet to the largest metropolitan center newspapers constantly have been, and will continue to be, in the foreground championing civic, governmental, educational, cultural and religious improvements. In the field of international events, the diligent efforts of a vigilant press have made the people of our nation the best informed in the world.

A free press means a free people. The history of the world has taught us that nations which censor and hamper a free press do not survive. I am convinced this will continue to be true in the future and that the iron curtain of communistic countries will represent but another chapter in the fate of tyrannical governments which saw fit to interfere with a basic freedom—the freedom of the press. Truly "Your Newspaper Lights the Way of Freedom."

To a free press of Texas, to the members of the Texas Press Association and to our great newspaper industry I offer my sincere congratulations. It is my earnest wish that National Newspaper Week be observed by all Texans with just tribute being paid to a worthy organization and industry.

Sincerely yours,

*Allan Shivers*  
ALLAN SHIVERS

**Deltapine Gives Highest Yield In Lubbock Variety Tests**

Deltapine (TPSA) gave the highest average yield in the dry land cotton variety tests conducted at the Lubbock Experiment Station during the four years 1947-50, reported L. L. Ray, station agronomist.

An average yield of 313 pounds of lint per acre was obtained from Deltapine (TPSA), followed by 288 pounds from Paymaster 54

and 286 pounds from Stoneville (TPSA).

Other varieties in the dryland tests, in order of average yields were Stormproof, No. 1, C. A. 89A (storm resistant), Northern Star Stormmaster (storm resistant) Hi-Bred, Macha Early (storm resistant), Early Foster, C. A. 122 (storm resistant), Western Prolific, Rogers' Texcala, Floyd's Mebane 8G, Rowden 41B (TPSA) and Lockett 140.

Deltapine (TPSA) also produced the highest average yield in the irrigated variety tests, with 557 pounds of lint per acre for the four-year period. C. A. 89A, Paymaster 54, Hi-Bred, Stoneville (TPSA) and Stormproof No. 1 all produced yields of over 500 pounds of lint per acre.

Other varieties in the irrigated tests, in order of average yields were C. A. 122, Stormmaster, Early Foster, Macha Early, Lockett 140, Northern Star, Western Prolific, Rogers' Texcala, Floyd's Mebane 8G and Rowden 41B (TPSA).

These results are given in Progress Report, 1381, which is available from the Publications Office, College Station, Texas.

This report also gives detailed information on the 1950 irrigated and dryland variety tests at Lubbock, including number of bolls per pound, percent of crop open at first harvest, percent of lint to snapped cotton and staple length.

**TO BANKERS CONVENTION**

Mr. and Mrs. Jesse Osborn are leaving Friday for Chicago to attend the annual convention of the American Bankers Association. They will go by train and will join a number of Clovis bank people at Clovis for the trip.

**Uncle Sam Says**

Make today your "D" Day. Today as never before the thrift dollar is a defense dollar. The dollars you save today are building power for the nation. No one can escape the fact that defense is everybody's job, whether it be in uniform, in a defense plant or in providing defense dollars. You should sign up today for the Payroll Savings Plan where you work or the Bond-A-Month Plan at your bank. Either way your savings will work for freedom — your country's freedom and your own future freedom. U. S. Treasury Department

## Rules For Flower Show At The Bailey County Fair Are Listed

There will be only two divisions of the Flower Show to be held in connection with the Bailey County Fair this year, officials announce. The two departments will be horticulture and flower arrangements.

They listed the following rules governing the show:

- HORTICULTURE**
1. Roses.
  2. Dahlias.
  3. Marigolds.

4. Chrysanthemums.
  5. Zinnias.
- FLOWER ARRANGEMENT**
1. Church.
  2. Fall basket.
  3. Coffee table.
  4. Dinner table.

In the horticulture division the exhibitor may enter one specimen of each variety or a group of 3. Only one entry will be accepted from any one exhibitor in the arrangements division.

## Garden Club Flower Show Winners

Results in the Muleshoe Garden Club's second annual Flower Show, held last Thursday in the American Legion Home, were announced by club officials, who considered the show an entire success, with more interest than ever being taken by more people.

Exhibitors were found not only among club members, but many of the community brought entries and many came to view the various exhibits. Places were awarded as follows:

**FLOWER ARRANGEMENT**

A. Down the garden path early in the morning: Mist of white, Mrs. C. R. Farrell, 2; Mrs. Robert King, 3. Novices: Mrs. Lela Barron, 1; Mrs. Sam Fox 2; Mrs. George Stotts, 3. Monochromatic: Mrs. Sam Fox 2, Mrs. Robert King 3.

B. Mid-morning by the pond: Center arrangement: Mrs. Howard Elliott 1, Mrs. Raymond Precure 2, Mrs. Gene English 3. Companion arrangement in sugar and cream pitcher: Mrs. Hoyt Morgan 1, Mrs. Lela Barron 2, Mrs. Robert King 3.

Coffee table: Mrs. Ross Goodwin 1, Mrs. Raymond Precure 2, Mrs. E. O. Baker 3.

C. Afternoon: Roses for formal tea: Mrs. L. S. Barron 2; Tea cart: Mrs. Pearl Greer 1.

D. In the afternoon to the play area. Centerpiece for teen-age smoke party: Mrs. John Smith 1; Mrs. Jack Epps 2, Mrs. Fox 3.

E. Barbecue pit at sundown: Arr. in any kitchen container, Mrs. L. S. Barron 1, Mrs. C. R. Farrell 3; Outdoor arr. Mrs. Raymond Precure 1; Mrs. Noel Woodley 3.

F. Supper on the terrace: Fruit and vegetable, Mrs. I. F. Willman, 2; centerpiece, Mrs. Ross Goodwin 1, Mrs. Jack Epps 3; Marigolds in suitable container for buffet supper: Mrs. L. S. Barron 1, Mrs. Gene English 2, I. F. Willman 3.

G. End of a perfect day: Flowers in basket, Mrs. L. S. Barron 1, Mrs. Kay Sanders 2, Mrs. Noel Woodley 3; any beautiful arr., Mrs. Ed Moore 1, Mrs. L. S. Barron 2.

**HORTICULTURE**

Zinnia, Mrs. Sam Fox 1, Mrs. Ross Goodwin 2; Marigolds: Mrs. Sam Fox 2; Snapdragons: Mrs. Jack Epps 2, Phlox perennial, Mrs. George Stotts 2; Shasta Daisy: Mrs. Sam Fox 2; petunias: Mrs. Sam Fox 1 and 2; Cosmos: Mrs. George Stotts 1; calendulas: Mrs. Sam Fox 1; Cockscomb: Mrs. Lela Barron 1, Mrs. Kay Sanders 2; Mrs. L. S. Barron 3; dahlias (loom poms): Mrs. Jack Epps 1.

## Ray Benedict Dies From Crash Injuries

Ray Lyman Benedict, 52, passed away in Green Hospital & Clinic here Friday, September 21, at 9:30 p. m., after having been under treatment there since he was in an automobile accident the morning of September 16, east of Muleshoe. His wife, Mrs. Gladys Benedict, is still under treatment in the hospital and physicians this morning said she is improving.

The Benedicts' car was in collision with a truck driven by Willis Branscum, who farms northeast of Muleshoe. Mr. Branscum was slightly injured.

Mr. and Mrs. Benedict resided in Lemon Grove, Calif., and were on a vacation trip. He was a machinist by trade. Several relatives, including Mrs. Benedict's mother, a sister, and brother, have been here with them.

The body of Mr. Benedict was sent by train to Mendon, Mich. for funeral services and burial.

He is survived by his wife, two sons, Jack and Bob of Fort Wayne, Ind., and his mother, who lives in Michigan.

## Our Honor Roll

New subscribers to The Journal this week include the following: Mrs. Fred B. Wagner, Ohio. Sondra Wagon, Abilene. C. M. Wallraven, Rt. 2.

## Uncle Sam Says

May 14-19 is Newspaperboy Defense Bond Week. During that week some 300,000 newspaper carriers will take on the patriotic task of distributing and collecting 25 million Defense Bond Pledge Cards. Always in the forefront when it comes to patriotism these boys have volunteered to carry this important message to their customers. The boys know the value of thrift and are today investing thousands of dollars in U. S. Defense Bonds. Sign that Defense Bond Pledge.

Exact prices per pound on all other grades of cotton. Winter said, may be obtained from the PMA office or from an approved Cotton Loan Clerk at most cotton gins. He advised farmers to look into the loan program and check into some of its advantages. If the farmer needs ready cash, he can place his cotton in the loan and still retain his equity in the cotton. If the market price advances, he can repay the loan and sell the cotton at prices above the loan, or the cotton will be placed in a pool and the grow-

## Bailey Cotton Loan Base Is 31.46; Farmers Should Check Advantages

As cotton begins to roll to the gins in the start of the 1951 harvest, farmers of Bailey County have been reminded by Travis A. Winter, secretary of the PMA Committee that under the loan program this year they will receive 31.46 for Middling White 15-16 inch cotton.

er will receive a share of any profits resulting from the sale of the cotton by the Commodity Credit Corporation. "We are faced with one of the largest cotton crops in history, although our crop is very short in parts of the county", Mr. Winter said. "With the loan available to protect the price we can let this cotton be sold to processors as needed and thereby not flood the market and cause the prices to drop". Loan papers must be prepared by a clerk who has been approved by the County Committee. These clerks are not allowed to charge in excess of the following fees for preparing loan papers: 1 bale, 25 cents; 2 to 6 bales, 25c for first bale, 15c for additional bales; 7 to 18 bales, \$1.00 plus 10c for each bale over 6; 19 and over bales, \$2.20 plus 5 cents for each bale over 18.

## Seid Scores 4 TDs As Mules Defeat Crosbyton By 39 to 0

Bobby Seid made four touchdowns last Friday night as the Muleshoe Mules got in the win column for the first time this season by trouncing a less experienced Crosbyton eleven, 39 to 0.

Seid's first outburst came midway in the second quarter, after the Crosbyton lads had played on even terms with the Mules. Seid burst through tackle and outran secondary defenders 35 yards to the goal line.

When the second half opened, the Mules began to bear down, having forgotten what they had read in the paper about Crosbyton's disastrous defeat by Brownfield. On the second play of their first series of downs Seid raced around left end and went 75 yards for the marker. Burkhead kicked the extra point.

Seid scored twice more in this quarter on 7 and 8 yard runs. Robert Wagoner intercepted a Crosbyton pass on the Crosbyton

for the fifth touchdown. It was the second touchdown for this hustling guard, since he scored on a lateral from Roald Johnson in the Hereford game.

Aubrey Heathington ended the scoring by knocking off 15 yards and crossing the goal line for the Mules sixth touchdown. Dewayne Burkhead tried 5 extra point kicks, made three good and missed two. Bill Willis missed one try for extra point.

Crosbyton never really was a threat, although they put together two first downs in the opening minutes of the game. Every boy in the traveling squad saw some action. Coach Bailey said. The Mules met the Tulla Hornets here Friday night. Tulla has won 2 games and tied one. Spur was a Hornet victim, and the tie was with Dumas. Tulla's attack is a wing T while Muleshoe uses a T flanker type of offense. 40 and raced over the goal line

## Progress SS Class Meets Sept. 20

The ladies Sunday School Class met for the regular meeting Thursday, Sept. 20, at 2 p. m. in the home of Mrs. E. L. Gouge.

Mrs. Walker led the group in singing, "There's No Friend Like Jesus", and prayer was by Mrs. Morgan. Mrs. Walker had charge of the very interesting program of which each present took part. Mrs. Redwine led the group singing, "I Need Thee Every Hour" and then led in prayer.

Roll call was answered by each asking a Bible question.

It was voted to start a fund we also voted for each to bring a secret pal gift next meeting and reveal their secret pal. The next meeting will be in the home of Mrs. Vernon Raney on October 18 at 2 p. m. Each member is urged to be present and bring their secret pal a gift and reveal who she is.

New officers were elected for the new year. President Mrs. Redwine, Vice-president, Mrs. Wimberley, Sec. and Treas., Mrs. Morgan, Assistant Sec. and Treas., Mrs. Henry, Reporter, Mrs. Raney, Program Committee, Mrs. Pugh, Mrs. Gaddy and Mrs. Gully, Social Committee, Mrs. Gouge, Mrs. Shipp.

Meeting was closed with prayer by Mrs. Gaddy. Games were conducted by Mrs. Gouge and Mrs. Gaddy.

Those present were Mesdames: Clyde Henry, C. C. Morgan, J. H. Wimberley, J. J. Redwine, Gaddy, J. R. Walker, Vernon Raney and E. L. Gouge. Also four children.

## Bobby Pittman, And Miss Barnett Married Saturday

Mr. Bobby Pittman and Miss Diana Barnett were united in marriage Sept. 22, 8:30 p. m. at the home of the bride's parents.

Mrs. Dick Minckler, sister of the groom, sang "Because" and "O Promise Me", and was accompanied on the piano by Mrs. Bill Blackwood.

Mr. Keith Gaede and Mr. Dick Minckler, brother-in-law of the groom, lit the candles. Mrs. Don Barnett, sister-in-law of the bride was matron of honor and Mr. Don Barnett, brother of the bride acted as best man.

Minister Ebb Randol performed the double ring ceremony. The bride was given in marriage by her father, Mr. C. A. Barnett. The bride wore a mauve colored suit with pink accessories. Her corsage was a cluster of pink roses. The something old the bride wore was an antique watch of the bride's aunt.

Mrs. Don Barnett served the two tiered wedding cake which was topped with miniature bride and groom. Miss Margaret Ann Jackson served the punch.

Out of town guests were: Miss Mary Barnett of Vernon, Drs. C. D. and Fay Groves and daughter, Margaret, of Amarillo, Mr. and Mrs. Don Barnett of Hale Center, Mr. and Mrs. Richard Fickett of Tatum, N. M.

The groom is employed at the Muleshoe Journal. The couple will make their home in Muleshoe.

MULESHOE — County Seat of Bailey County — TEXAS

Thursday, September 27, 1951

## Muleshoe's First Bale Of Cotton Ginned Friday

First bale of cotton to be ginned in Muleshoe from the 1951 crop was brought in Friday, September 21, by E. O. Tunnell, who farms about 15 miles northeast. The bale was ginned free at the Paymaster Gin, Boots Bryant, manager said.

The gin bought the cotton for 35 cents a pound. Mr. Tunnell had 1640 pounds of cotton and got a 480 pound bale and his seed weighed 750 pounds. The gin bought the seed, also, paying \$70 a ton.

Previously Alex Reid, residing south of town, had ginned Bailey County's first bale at the Shafer & McDonald gin near Baileyboro.

## Farm Deadlines Come In October

The month of October is an important one for farmers in several respects, according to information issued by the Bailey County PMA office in Muleshoe.

For one thing, October 1 is the final date for making application for assistance to leave sorghum stubble. Another October deadline comes on the first day, also, and that is for making application on bench leveling land for irrigation. All work on practices started prior to Oct. 1 must be completed by November 1. This date has been established because of the wind erosion hazard and the farmer would not have time to get a good cover crop established later than this date.

Then October 15 is the deadline for seeding Austrian Winter Peas and Hairy Vetch to qualify for payment under the ACP, also is the final date for seeding permanent pastures. Prior written approval has to be secured for these practices for ACP assistance.

## Here Are The Facts About Water District Vote

### Stevens Bros. Circus Is Coming To Muleshoe

ANNOUNCEMENT that the Stevens Bros. great 3-ring circus will positively exhibit in Muleshoe on October 8 at 2 p. m. and 8 p. m. at the city park in the east part of town was made upon arrival here Monday of Bob Bunch, the big show's press representative. This is a huge, new 1950 version of one of the oldest circuses on the American Continent. A complete menagerie is also being featured. The performance is star studded throughout with outstanding European performers of international acclaim.

### Citizens of 21 Counties Are To Decide Issue The Coming Saturday

**Why It Should Be Created ... How It Must Be Created ... How It Will Operate**

People of the High Plains of Texas know that the underground water table is falling.

That simply means that more water is being taken out of the reservoir than is going into it.

This water is the life blood of the economy of the area.

It is necessary, therefore, that measures be taken to bring about a balance between recharge of and withdrawal from the underground water reservoir.

The Texas Underground Water Law was adopted by the legislature in 1949 principally because of efforts of High Plains irrigation farmers organized as the High Plains Conservation and Water Users Association.

This law is the tool with which an organization to correct this situation can be formed.

The word "control" is distasteful to the High Plainsman, especially if that control is to come from any government unit other than a purely local one.

In seeking legislation the High Plains people had two things in mind: First, to obtain a law with which people of this area could solve the problem themselves and, secondly, to weaken as much as possible any threat of state or federal control of underground water.

The law under which an underground water district must be created in Texas makes possible management and conservation of underground water on the local level. It is an instrument for local self-government. It is wholly and completely a local option law.

**Law Is Explained**

The purposes of this law, as expressed by its own language, are:

1. To provide for conservation, preservation and protection of underground water.

2. To provide for recharging of underground water reservoirs.

3. To prevent waste of underground water.

4. To recognize individual ownership of underground water.

**The Law Defines "Waste" As Follows:**

1. Withdrawal of underground water at such a rate and in such an amount as to cause the intrusion into the reservoir of water not suitable for agricultural, gardening, domestic or stock raising purposes.

2. The flowing or producing of wells from underground reservoirs when water produced is not for a beneficial purpose.

(The act defines "beneficial purpose" as follows: "Use of underground water for agricultural, gardening, domestic, stock raising, municipal or mining purposes; for exploring for or producing, handling, or treating of oil, gas or other minerals; for manufacturing, industrial, commercial, recreational or pleasure purposes, or any other purpose that is useful and beneficial to the owner thereof.")

**I. Why should the district be created?**

First, to determine the best way

to recharge the reservoir through cooperative efforts of landowners of the area.

(It has been determined that 70 inches or nearly a six-foot depth of water will evaporate every year from lakes in this area. Engineers and geologists declare that this water could easily be returned to the underground reservoir for future use. For this recharging program to be most effective, it would be necessary that the work be carried on in the entire district at the same time. It could not be accomplished satisfactorily except by joint action of all landowners of the irrigation area).

Secondly, to eliminate or to reduce as great a degree as possible the danger of state or federal control of underground water.

(At every session of the Texas legislature for a number of years High Plains farmers have had to combat efforts to enact laws that would have invoked state control).

(Congressional hearings were scheduled to open Sept. 12, in Washington for the purpose of framing legislation to enforce the terms of the President's Water Resources Commission. That report declared that the Federal government should control all underground water, as well as surface water).

**II. How must this water district be created?**

First step in this legal process for creation of the district was made early this year when the state Board of Water Engineers officially defined the reservoir.

Second step was taken August

9 at a hearing conducted by the State Board at Plainview. At that time the Board designated the High Plains Underground Water District, fixing and establishing its boundaries. It is the portion of the Ogallala reservoir lying south of the Canadian river.

The district includes all of the counties of Farmer, Swisher, Hale and Lubbock and parts of the counties of Garza, Terry, Hockley, Cochran, Bailey, Lamb, Castro, Deaf Smith, Oldham, Potter, Randall, Armstrong, Briscoe, Floyd, Crosby, Dickens and Lynn.

The law requires that the district be divided into five precincts and this was done August 9 by the Board of Water Engineers.

The law also requires that the State Board appoint a temporary Board of Directors composed of one director of each of the five precincts.

**Directors Appointed**

The Board divided the district and named temporary directors as follows:

Precinct No. 1 E. C. Hatton of Lubbock, director, Dickens, Crosby, Garza, Lynn and Lubbock counties.

Precinct No. 2 C. C. Chesher of Littlefield, director, Terry, Hockley, Cochran and Lamb counties.

Precinct No. 3 Jess Osborn of Muleshoe, director, Bailey, Farmer, and Castro counties.

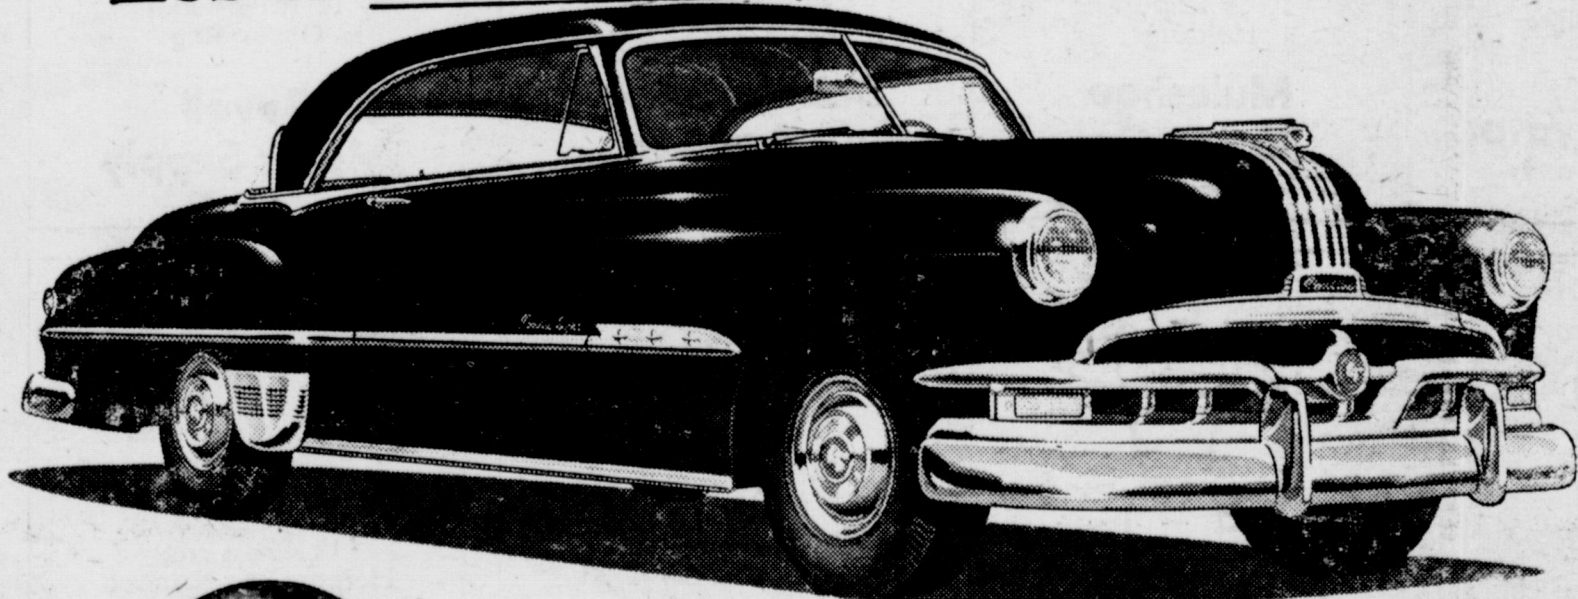

Precinct No. 4 Tom McFarland of Hereford, director, Deaf Smith, Oldham, Potter, Randall and Armstrong counties.

Precinct No. 5 Tom Bostic of Hale county, director, Swisher, Hale, Briscoe, and Floyd counties.

**BABSON DISCUSSES  
SCHOOLS**

Glocester, Mass., Sept. 21—The other day I visited an old schoolhouse which I attended when a boy. It had a big wood stove, two outhouses in the back yard (with various "inscriptions" thereon) and two grades in each room to teach us concentration, and it surely did.

**BUSSES VS. GYMNASIUMS**  
This old school house turned out workers and our parents then set us a good example by working hard themselves. We then walked to school, some of us two or more miles. Now this has changed. Schoolhouses now have modern toilets, with tiled walls so that the boys cannot write sassy inscriptions thereon. They have expensive central heating and ventilating systems. Busses take the children to school, with gymnasiums to exercise them after they get to school!

The whole idea now is to eliminate hardships and make the children soft. Yet, don't blame the school principals. These luxuries are demanded by the parents. Whether, however, the primitive system by which I was educated or the luxury system which exists today produces better men and women is debatable.

**BAMBOOS AND BLACKBOARDS**  
In my day, the teachers used the bamboo on us when reason

ing failed to get results. I had my share of lickings and MY parents never complained to the teachers because they spanked their "darling boy".

For some reason the bamboo was not used on the girls, but they had a blackboard treatment. For instance, if a girl was caught using unbecoming language, she was compelled to write on the blackboard a hundred times the following: "A soft answer turneth away wrath."

I remember being taught to read from the McGuffey Readers and having to learn such sayings as "Habit is a cable. We weave a strand of it each day until it becomes so strong we cannot break it"; or "All that you do, do with your might"; or "Things that are half done are never done right."

**WE WANT LOWER PRICES**  
We want to reduce the cost of living, but the present price controls are the bunk. These laws are enacted to fool the voters and to make more jobs for Democrats. To reduce the cost of living, we must start with the schools and teach the children to love work instead of love play. Turn to the yearbook which your high school seniors issue and you will see that 90% of it is given to the various extracurricular activities. This long name, used to fool us parents, really refers to sports, clubs and other things which teach children to spend money instead of to earn it. I have never found in one of these yearbooks the account of a spelling or mental arithmetic contest.

It may be that the merchants

**SAND HILLS PHILOSOPHER**

**Wants News Of State Treasury Surplus Kept From Rest Of U. S.**

Editor's Note: The Sand Hills Philosopher on his Johnson grass farm probably is unnecessarily alarmed, but there may be food for thought in what he says.

Dear editor:  
I found a copy of a news paper on my front porch yesterday, in fact it had blown against the screen door about mid-way up and all I had to do was reach around and pull it off without even bendin over and I did and took it inside and propped my feet up and settled down to some concentrated reading, but I hadn't gone past the second page when a startlin item caused me to sit straight up.

Accordin to this item, the State of Texas now has a surplus of 29 million dollars in its general revenue fund and a net cash balance of 162 million dollars. Now I have always been in favor of freedom of the press, in the free flow of news, but

don't want lower prices, but want the children taught to be spenders. The merchants root for bands, baseball, football and other athletics. But again I say, don't blame the school principals. They are simply giving the parents what they demand. As long as parents are primarily interested in whom the high school employs as an athletic coach, we have only ourselves to blame.

**WE WANT RELIGIOUS INSTRUCTION**

I am glad to say that the Bible continue to be read in Gloucester every morning. But the School Committee no longer seeks teachers who regularly attend church or teach in Sunday School. A woman who smoked or went to cocktail parties would then never be hired as a teacher. This change for the worse is wholly due to parents who have substituted canasta for family prayers and cocktail parties for mid-week church services.

We blame juvenile delinquency upon the schools. We criticize the schools when boys break windows and the students go on strikes; but again the parents are to blame. Parents seem to be interested in only one thing, not what their children learn, but to have their children get a diploma. Even Parent-Teacher Associations seem more interested in the children's sports than in their studies. Of course, some day parents will see their present mistakes, and demand returning to fundamentals. This does not mean that we should return to outhouses, wood stoves and bamboos, but it does mean that we may return to the McGuffey Readers, the three R's, good discipline and creating among students the love to work and save.

don't you think maybe such news as the above ought to be suppressed or at least soft-pedaled.

That is, it's a fine thing the state has a big surplus, but what kind of shape are we gonna be in when the next delegation gets to Washington askin for money? What are we gonna say if some Washington bird looks the delegation over and says: "From Texas, huh? The state with all that money? What you doin up here askin for money?"

Why, with Washington in the financial shape it is, billions of dollars in the hole and not makin much progress out of it, with Congress stayin up at night huntin new sources of revenue, it ain't unthinkable to see some Congressman hit on the idea of Washington sendin a delegation to Austin askin for money.

This would be a reversal of the entire American trend and might wreck the entire economy. For years now we've been taught to ask Washington for financial help on everything from when to plant cotton to how much to get the road graded from your house to town, and to have somebody throw a monkey wrench in this system will play havoc with everything.

What in the world has come over the Texas legislature that they've let a thing like this happen? The role of a state government is to stay broke and keep up its contacts with Washington, the same as country government is supposed to go in the hole and call on Austin for help.

Just let Washington once start callin on Austin for help and let the world leak out and you'll have every busted country in the world wearin out the steps of the capitol in Austin. I tell you, the worst thing I ever heard of is a surplus of money in the hands of the state government. What in the world was the Legislature

**Scout Finance Drive Oct. 15**

In a recent meeting of the Yellowstone district of the South Plains Council of Boy Scouts, a fall and winter program was several meetings of the fathers and others who should be interested in Scouting. The first of these meetings was held in Muleshoe the evening of Tuesday, Sept. 25.

The annual finance drive for the South Plains Council is scheduled to begin in each town on the same day. The date has been set as October 15.

Towns represented in the meeting were Littlefield, Sudan, Amherst, Earth, Olton, and Muleshoe. Bill Postma, Scout executive of South Plains Council from Lubbock and David Howard, fieldman for this district, were present for the meeting.

**NANCY EVERETT OF THREE WAY ENROLLS AT McMURRY**

ABILENE, Sept. 19 — Over 500 students, including Nancy Everett of Three Way, have enrolled at McMurry College for the fall term, according to Jerome Vannoy, registrar.

Registration will continue thru Sept. 28 for both undergraduates and graduate students, though classes got underway, Sept. 14.

This is the first regular session that graduate courses leading to the professional degree, Master of Education, have been offered at McMurry.

**The Upper Room**  
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

**A CHANGED WORLD THROUGH CHANGED MEN**  
"... there were certain Greeks among them that came..."  
saying, Sir, we would see Jesus."  
(John 12:20, 21.) Read Matthew 5:13-16.

In visiting once in a high school biology laboratory, I saw a number of tin lamps placed on the desks. All were connected with a common source of power overhead. The teacher explained that sometimes the room was darkened in order to show a film or lantern slides. Then the desk lamps were needed.

As I listened to the explanation the thought occurred to me that at all times, but especially when the world is darkened by the misery and the horror of war, Christians everywhere make use of the power and light found in the person of Jesus Christ. They live by the light of His truth, the comfort of His love, the power of His presence.

But Christians do not bask selfishly in their faith. They seek to share it with others. They witness to Him. They shine as lights. As in Jesus' day, many people are saying today, "We would see Jesus." They, too, long to share in the life-giving knowledge, love, and faith to be found in the risen Christ.

**PRAYER**  
Our Father, Thy divine love has called us to a newness of life. Grant that Thy power in us may become a beacon light for the souls of many. Use us in the creation of a changed world through changed men. For Jesus' sake. Amen.

From where I sit... by Joe Marsh  
**Skip Makes a Slip**

Miss Gilbert, the teacher, was telling me how Skip Lawson almost went to sleep in her physics class. She noticed him nodding and—since they were discussing electricity—said in a loud voice: "Now maybe MR. LAWSON will explain what electricity is." Skip started up, looked around wildly, and blurted out, "Gee! I used to know, but I forgot."

From where I sit, I hope this taught Skip that you're better off if you admit you don't know all answers. Some grownups haven't learned that yet—like the ones who are always telling other people what's best and what's right and what's wrong. I like a temperate glass of beer, myself, but if you prefer buttermilk I won't argue. I've seen too many "know-it-alls" turn out to be wrong!

"What a loss to science!" sighs Miss Gilbert. "No one to this day knows what electricity really is, and here we have a genius who could explain it—but forgot!"

**Two Stories, Two Baths, Two Porches**

House Plan No. 3

This FARM AND RANCH House No. 3 gives the large farm family as much living space as possible for the least cost.

It is designed so that you can include a basement in the plans, thus providing not only more space for storage and a wash room but an ample site also for a central heating system. The system can be installed along the inside wall of the basement, requiring very little duct work. Every room can be heated from the central wall, with the exception of the bedroom and bath on the first floor, and even then the leaders wouldn't have to be very long.

The rooms in this house are not spacious, but are large enough to be comfortable. The doors and windows are placed to give you as much usable wall space as possible.

There are two porches, one in front and one in back. The back porch can be closed in as a good location for home freezer or for a wash room, in case you decide not to build a basement right now.

Closets are distributed all thru the house. And there is a pantry and a closet in the kitchen, one place in the house where you never seem to have enough room for everything you need to keep or put away!

The attic above the living room gives you a lot of storage space at little or no cost and, if needed later, it could be finished and used as a fourth bedroom, with plenty of space left for storage. You can obtain blueprints for this MULESHOE JOURNAL Farm & Ranch Plan. No. 4803 and a handy list of materials by which

you can figure your construction cost accurately. Send \$1 to Building Editor, Farm & Ranch Southern Agriculturist, Dept. L-36, Nashville Tenn. Order by number, Plan No. 4803. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

**Uncle Sam Says**

Precision training and maneuvering means that our boys in uniform are prepared to do their job for defense. You must realize that defense is YOUR job too! U. S. Defense Bonds are now better than ever and one of the best ways you can do YOUR job is to buy Defense Bonds regularly. By buying these Bonds you help build a great American economic strength and at the same time you build your own future financial independence. Every Series E Bond you now own automatically goes on earning interest every year for 20 years from date of purchase. You will get 77 per cent more than your original investment by holding your Bonds. U. S. Treasury Department

**Absentee Balloting Now Underway in Water District Election Sept. 29**

Bailey County citizens who are eligible to vote in the September 29 election to decide whether High Plains Underground Water District No. 1 shall be created may now cast absentee ballots at the county clerk's office, according to Jesse Osborn of Muleshoe, temporary director of the district for Precinct No. 3, (Bailey Farmer and Castro Counties. Eligible to vote are those who

have paid the poll tax, who live within the portion of the county that is within the proposed district and who have rendered for taxation property within that part of the county.

The upper two thirds of Bailey County and a strip along the south boundary, with a gap across the county between those areas, lies within the district. To determine exactly whether

one's property and place of residence are located within the area involved one may refer to a map or to a detailed description of boundaries of the district that are on file at the county clerk's office.

Three propositions will appear on the ballot. They are:

1. For or against confirmation of the district.
2. For or against authorizing the Board of Directors to levy a tax not to exceed five cents per \$100.
3. To elect a director for Precinct No. 3.

**TIMELY TIPS FROM YOUR H. D. AGENT**  
By Miss Dian McClurkin

**FREEZER COOKIES**

Cookie making begins in earnest about this time of the year in homes where youngsters make a bee-line for the cookie jar on returning from school. The cookie-dough that used to be kept in the refrigerator, ready for hurry-up baking when the after-school supply ran low, now often is put in home freezers.

Either the dough or the baked cookies may be frozen successfully if properly packed, but the dough is easier to wrap and takes

less space in the freezer. Baked cookies require careful packing to avoid being broken when foods are moved around in the freezer. Though cookies or cookie dough may be kept well for six months in a year in the freezer, it is best not to keep them more than three months' storage for freshest flavor.

This is the recipe for "freezer" cookies:

Ingredients for 6 dozen cookies: 2 3/4 cups sifted all-purpose flour; 1/2 teaspoon soda; 1 teaspoon salt; 1 cup shortening; 1/2 cup granulated sugar; 1/2 cup brown sugar; 2 eggs; 1 1/2 teaspoon vanilla.

To make: Sift flour, soda and salt together. Cream shortening, add sugars gradually, and cream thoroughly. Add eggs, one at a time, beating thoroughly. Add vanilla and mix well. Stir in dry ingredients. Shape dough in rolls 2 inches in diameter.

To freeze before baking, wrap rolls of dough closely in moisture vapor resistant wrapping, seal with pressure tape, and freeze. Before baking, thaw slightly in the refrigerator and slice. Bake on an ungreased baking sheet in a hot oven (400 F.) for 8 to 10 minutes.

To freeze after baking, chill dough until firm. Slice and bake on ungreased baking sheet in a hot oven (400 F.) for 6 to 8 minutes. Cool. Package in moisture vapor resisting container and seal. Freeze immediately. Before serving, thaw cookies at room temperature before unwrapping.

**Grain Stubble Deadline Set For October 1**

October 1 has been established as the final date for producers in Bailey County to make applications for approval for leaving a 10 inch stubble of Grain Sorghum until January 1, 1952.

October 1 has also been set as the final date to make application for approval to Bench Level Land for irrigation. All earth work started on leveling land on which approval has been granted must be completed by November 1, but remember you must get your approval before you start the work in order to be eligible for payment.

October 15 has been established as the final date for obtaining approval to seed irrigation pasture grasses, and Winter Legumes such as Hairy Vetch and Austrian Winter Peas. Be sure to get your approval before you seed these crops.

If you have not already reported the acreage of the various crops and other information in regard to your 1951 farming operations you should call by the local PMA Office at your earliest convenience and do so that we may be in better position to protect the history of your farm should we have acreage allotments in the near future.

"Mama," said little Elsie, "I never see any pictures of angels with whiskers. Do men go to heaven?"  
"Well," said mother thoughtfully, "some men go to heaven but they get there by a close shave."

Whadda ya mean "Little Things?"

DROP the wrench, buddy! We can catch the little things that go wrong before they develop into major breakdowns—if you bring your equipment to us for service at regular intervals.

We take care of countless truck troubles for wise haulers who count on us to keep their present carriers running smoothly. Our mechanics know all makes—it's second nature with them to watch for and correct the "ping" in an engine, or a steering shimmy.

Checking trouble points often overlooked in ordinary service is part of our maintenance program. For our men

know the "little things" are important to the life of a truck—even more important in these uncertain times.

So make regular stops at our shop—save 3 ways: (1) cut down the possibility of costly repairs, (2) get better performance with less "down time," (3) get more years of service from the equipment you now own.

The military band, widely known throughout the area for numerous concert appearances, will accompany a group of Lubbock good-will tourists on booster trips publicizing the 34th annual Panhandle South Plains Fair to be held in Lubbock October 1 through 6.

## Threat Of Federal Control Of Water Faces Conservation Board

Austin, September 25—Following one of the most disastrous droughts in the state's history, the Texas Water Conservation Board will hold its seventh annual convention at Houston Monday and Tuesday, October 1 and 2 with a full two day program jam-packed with outstanding speakers.

A greater threat than drought will be one of the keynotes of the convention, according to Guy C. Jackson of Anahuac, President of the Conservation Association. That threat, according to Jackson, is that of the federal government gaining control of the state's precious water supply.

To discuss this angle will be Attorney General Price Daniel whose subject will be "Tidelands Now - Inland Waters Next". The Tidelands seizure by the government has taught Texans that "it can happen here", meaning if we don't keep constantly on the alert we may awake to find our inland waters expropriated as we did the Tidelands" Jackson stated.

J. E. Sturrock, General Manager of the Water Conservation Association has announced the resolutions committee will meet Sunday afternoon, September 30 in the Rice Hotel in advance of the convention. Resolutions will then be mimeographed and given to the delegates Monday afternoon.

On the resolution committee are: E. E. McDonald, Mission; Lee Leatherman, Plainview; Victor W. Bouldin, Houston; R. G. Bowdry, Stamford; R. W. Evans, Uvalde; Frank N. Baldwin, Houston; T. A. Munson, Freeport; F. M. Austin, Houston; W. E. Babel, San Antonio; J. K. Mattox, Bay City; Forrest L. Parks, Fort Worth; W. R. Parker, Houston; R. G. Hollingsworth, Coleman; Howard Hicks, Beaumont; and Sam K. Seymour, Jr., Columbus.

Among those on the program with Attorney General Daniels will be Lachlan Mac Leay, President, Mississippi Valley Association; Fred Husbands, Executive Vice President and General Manager, West Texas Chamber of Commerce; Paul Weaver, Technical Advisor to Vice President, Gulf Oil Corporation; J. C. Cantrell, Chairman Soil and Water resources committee, East Texas Chamber of Commerce; Archie Kahn, hydrameteor logical expert of Denver, Colorado; Ray Keck, Cotulla; Ed Easterling and John W. Fulbright of Beaumont; Victor Bouldin of Houston; O. F. Van Berg, Mercedes; Frank N. Baldwin, Houston and William E. Welsh, Secretary Manager of the National Reclamation Association, Washington, D. C.

## Baptists Will Meet In Dallas

DALLAS, Sept. 25—Thousands of Texas Baptists will gather in Houston October 23-25 for the 66th annual session of the Baptist General Convention of Texas.

"Christ for the World Now" is the theme of the convention, which will be held in the Sam Houston Coliseum. William Fleming, Fort Worth oilman, is the layman president of the convention.

Speaker for the opening night of the meeting, Tuesday, October 23, is Dr. Duke K. McCall, Louisville, Kentucky. Dr. McCall, former executive secretary of the Baptist Convention, recently accepted the position as president of the Southern Baptist Seminary, Louisville.

Other prominent Baptist leaders included on the program are Dr. Courts Redford, assistant executive secretary of the Southern Baptist Home Mission Board, Atlanta, Ga.; Dr. J. Howard Williams, Dallas, Texas Baptist executive secretary; Dr. J. D. Grey, New Orleans, president of the Southern Baptist Convention; and Billy Graham, probably the out-

standing evangelist of this generation.

Graham will be speaking for the second time at an annual meeting of the Baptist convention. In 1950, he spoke to fourteen thousand Baptists in the Will Rogers Coliseum in Fort Worth.

Meeting of the state Women's Missionary Union and men's Brotherhood conventions will precede the General Convention on Monday and Tuesday, October

# LUGGING POWER

...like you never saw before!

the great new FERGUSON "30"

Engineers call it torque. You call it lugging power... the ability of your tractor to keep on going when the job gets tougher and tougher.

Torque in the Ferguson "30" gives you a big edge over any other tractor. The big valve-in-head engine provides more lugging power at low engine speeds than many

tractors have with the throttle wide open!

You can set the throttle of the Ferguson "30" at a safe, economical speed and leave it there all day long. You can slow to a creep in heavy going without stalling or shifting gears. You can slow down to cross a headland furrow without stopping or shifting.

## And look at all these EXTRAS Ferguson Engineers have given you

**VALVE ROTATORS** that keep exhaust valves at top efficiency for hundreds of extra hours... to keep service costs low, performance high.

**A NEW AIR-FUEL SYSTEM** that delivers cleaner, cooler air to the engine. This means longer engine life and more work from fuel.

**BIGGER, HEAVIER GEARS** for greater durability and longer rear-end life.

**BETTER LUBRICATION** to all vital engine parts. Oil passages to filter are drilled to minimize leakage factor. Floating intake skims clean oil and leaves sludge behind. Horizontally mounted filter is easier to clean and service.

**BIG BONDED-LINING BRAKES** for longer life, safer stops, easier replacement.

**PRESSURIZED COOLING** assures better cooling under all operating conditions, including high altitudes.

## SEE THE FERGUSON "30" TODAY

Your Ferguson Dealer will be happy to bring a new Ferguson "30" to your farm for a personal demonstration of its great power and performance... its amazing fuel economy. Telephone about it today.

Plenty of HOT WATER

with GAS

Lighten your household chores with plenty of hot water-always ready-at the turn of a faucet. There will be no more days when you have to put off doing the family laundry when you install an automatic GAS water heater. See the water heaters at your gas appliance dealer's. Be sure to install an automatic GAS water heater and assure your family of all the hot water they need-any time.

FOR HOT WATER MAGIC GAS has got it!

West Texas Gas Company HELPING BUILD WEST TEXAS SINCE 1927

No other car provides all this! DYNAFLOW DRIVE - saves strain on driver and car. FIREBALL ENGINE - high-compression, valve-in-head - gets more miles from every tank of fuel. PUSH-BAR FOREFRONT - combines smart style and unsurpassed protection. WHITE-GLOW INSTRUMENTS - greater clarity at night. TORQUE-TUBE DRIVE - steadies ride, improves driving control. 4-WHEEL COIL SPRINGING - cushions ride, saves servicing costs. DUAL VENTILATION - outside air fed separately to right or left of front compartment. SELF-ENERGIZING BRAKES - hydraulic - multiply pedal-pressure five times at brake drum. DREAMLINE STYLING - tapered, car-length fenders, gleaming sweeps on most models. Plus: Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher.

Easy does it! YOU'RE going to be surprised about lots of things the first time you and this Buick get out on the road. Take the easy way it responds to your every wish - steps away from a stop light - soars up a hill - lets loose a surge of power at the touch of your toe on the treadle-or gentles to a stop at the touch of the brakes. Take the way it rides the road-with an easy stride, sure-footed on turns, level as a lance on straightaways. Take the way it steers - so light and true that it seems to guide itself. Take its ease of control. More than a million owners now know the wondrous freedom from tension and strain that goes with Dynaflow Drive.\* It's easy to see where this eager beauty gets its standout performance, when you glance at the list of all-star engineering features shown above. But how about price? Can you afford it? "Easy does it" is the answer to that one too. Fact is-if you can afford a new car, you can afford a Buick. Better come in to see us soon.

"Smart Buy's Buick" MULESHOE AUTOMOBILE CO. HIWAY 70 AND AVE. B

### Water District — Continued From Page One

Third, and final step in creation of the district will be taken Saturday, September 29. As provided by the law, the temporary Board of Directors called an election for that date.

In the September 29 election ballots will be cast on three propositions. They are:

- 1. For or against creation of the district.
- 2. For or against authorizing the directors to levy a property tax not to exceed five cents per \$100.00.
- 3. To elect a director in each precinct.

#### QUESTIONS AND ANSWERS REGARDING CREATION OF THE DISTRICT:

Q. Who is eligible to vote?  
A. All those who have paid the poll tax, who reside in the district and who have rendered property in the district for taxation.

Q. Where will an eligible voter cast his ballot if he lives in one voting precinct and his property is in another precinct?  
A. In the precinct where he lives.

Q. How will the district be divided into election precincts?  
A. Each county, or the portion of it within the district, will be an election precinct UNLESS there is one or more incorporated towns in the county and within the proposed district, in which case each incorporated town will be a separate election precinct.

All voters will cast their ballots in the precinct of their residence in a "city" box if they live within the town, in a "county" box if they live outside the limits of an incorporated town.

Q. Can there be more than one voting BOX in a PRECINCT?  
A. Yes.

Q. Can a "city" box and a "county" box be located at the same polling place?  
A. Yes, but there must be a separate box for ballots cast by "city" residents and "county" residents.

Q. Must a majority in favor of creation of the district be registered in all voting precincts of the entire proposed district to create the district?  
A. No. Any election precinct returning a majority against creation of the District will not be a part of it or subject to taxation. They must, however, join the district whenever a majority so votes in an election. It is possible therefore, that a town within a county will not be a part of the district while the remainder of the county or portion thereof is in the district, or vice versa.

Q. How long will the present

temporary directors serve?  
A. Until September 29 unless they are elected at that time.

Q. Will names of the temporary directors appear on the September 29 election ballot?  
A. Yes.

Q. How long will directors elected on September 29 serve?  
A. Until the second Tuesday of January 1952 or until their successors have qualified.

Q. When will Directors first be elected for regular terms?  
A. The law requires that they be elected on the second Tuesday of January 1952.

Q. Will the permanent directors be elected at large, that is, by majority of all votes cast in the entire district?  
A. No. They will be elected strictly on the Precinct basis as County Commissioners are elected.

Q. How long will directors elected next January serve?  
A. Following the January election the five will draw lots for length of terms, one, two, or three years. Thereafter, an election will be held to select successors to those whose terms expire who will serve terms of three years. On the permanent basis, therefore, terms of directors will be "staggered" like those of school trustees.

#### How Will The District Operate?

This Underground Water Law was enacted principally because of efforts of irrigation farmers of the High Plains. Other bills were introduced in the legislative session that passed this law, that would have made underground water property of the state or public property.

The High Plains people succeeded in enlisting support of the Winter Garden people of South Texas for a law to fix management and conservation of Underground Water on the local level.

As originally drafted by attorneys for the High Plains Conservation and Water Users Association, the law under which we now are acting would have provided that a tax rate not to exceed 10 cents per \$100.00 could be levied by vote of property owners.

The Winter Garden people wanted the maximum set at \$1.00 per \$100.00 because of conditions peculiar to their area. As a compromise, to assure passage of the bill, the High Plains people agreed to a 50 cent per \$100.00 ceiling on the tax rate.

However, the temporary Board of Directors of the High Plains voted a tax rate not to exceed five cents per \$100.00. The Supreme Court of Texas has held that a property tax can be created only by vote of property owners and that the ceiling on

any tax levy can be changed only by vote of owners of property within the area affected.

The temporary Board of Directors estimates that a rate of not more than 2½ to 3 cents per \$100.00 will be necessary to operate the district in the immediate future if all of the area of the proposed district is voted into. Three cents per \$100.00 on a 160 acre farm rendered at \$20.00 per acre, or a residence rendered at \$2,200 would amount to a tax of 96 cents per year.

#### QUESTIONS AND ANSWERS REGARDING OPERATION OF THE DISTRICT

Q. How will tax rolls of the district be compiled?  
A. The District will not make up separate tax rolls.

Q. What renditions will be used by the District?  
A. The renditions or valuations on the tax roll of each county.

Q. Who will fix assessments for collection of the Water District tax?  
A. The Tax Collector of each county.

Q. Of what will the District's expenses consist?  
A. First, it must bear expenses of creating itself. The law provides that tax money defray expenses of doing those things the law itself requires to be done to create the district, such as election officials, printing ballots and publishing notices of the election.

The temporary board has outlined the following as operation expenses it contemplates will be necessary:

- 1. Employment of an office secretary, purchase of office equipment and maintenance of the office.
- 2. Distribution of information to water producers to help them to prevent waste.
- 3. Research and engineering to determine best methods of recharging the reservoir.

Q. Will the District's directors have authority over a well used for domestic or stock raising purposes only?  
A. No. And the law does not apply in any way to wells capable of producing not more than 100,000 gallons daily.

Q. Can the district enforce protection of underground water?  
A. No.

Q. Can the District decide how much water can be produced from a well?  
A. Only as necessary to prevent waste or to guarantee beneficial use as defined in the law, and quoted above.

Q. If land under which there is no irrigation water is voted into the district, can it be excluded?  
A. Yes. The law specifically provides that such land may be excluded by request by its owner.

Q. How will creation of the dis-

trict affect "windmill wells" used for stock raising purposes?  
A. The law does not allow the Directors to interfere with production of water for domestic or stock raising purposes. It does not apply to wells that can produce not more than 100,000 gallons daily. Creation of the district conceivably would, eventually, mean that a rancher would maintain control of such wells instead of having to submit to state or federal control.

Q. Can the District board regulate spacing of wells?  
A. Yes, to prevent waste.

Q. What authority would the Directors have in a situation like this: the high point is located on a line between two farms. One owner is operating a well at or near the line. The other owner wishes to drill at or near the same line.  
A. This temporary board has set a precedent by appointing an advisory committee in each county of the proposed district, whether all or only a small part of the county is in the district.

It is intended that these committees assist the Board in just such situations. In a case like that just described, the county committeemen would be asked to get the two owners together and help them reach an agree-

ment. If this should fail, the board would decide how the wells would be spaced.

Q. Will the board require water well drilling permits?  
A. Yes. It must keep record of all wells drilled. The Board must, under the law, issue permits to guarantee.

(1) Proper spacing and (2) That wells be so drilled, constructed and equipped as to prevent intrusion of undesirable water into the fresh water sand, a problem not expected to arise in this District except in very rare and unusual cases.

Q. Does the law contain anything to prevent a person from drilling a well on his own land?  
A. No. One of the specific purposes of the law is to recognize individual ownership of underground water.

Q. Will the board have jurisdiction over water wells drilled by geophysical crews or oil producers?  
A. Yes. To the extent that it can act to prevent or stop contamination of the underground water.

Q. How will creation of the District affect expansion of water well fields by cities?  
A. It will not change the cities' position. They will continue to be free to buy land for water

production purposes or to acquire it by right of eminent domain. In either case they will pay for such land just as they now do.
