Kitty's Korner

by
Kitty Montgomery

Ozona has developed a serious traffic problem downtown, one might even say dangerous. The cause is increased oilfield traffic, careless driving, fast driving and angle parking.

A day seldom goes by when we don't have a wreck on this street. So far just fender-benders. However, today, and with my own eyes, I have seen three near misses. This morning an elderly out-of-town couple made a U-turn right in front of a fast moving truck. The truck burned rubber for half a block, but missed the car. The next near miss was when a woman with children in the car turned from the northbound lane across the southbound lane and parked in front of the TV System office, turning in front of a southbound truck with a chemical tank. Then a young man accompanied by a young lady, backed a pickup out from in front of our office, crossed the southbound lane and made a U-turn backward into the northbound lane, almost colliding with a pickup which was backing out from an angle at the park across the street.

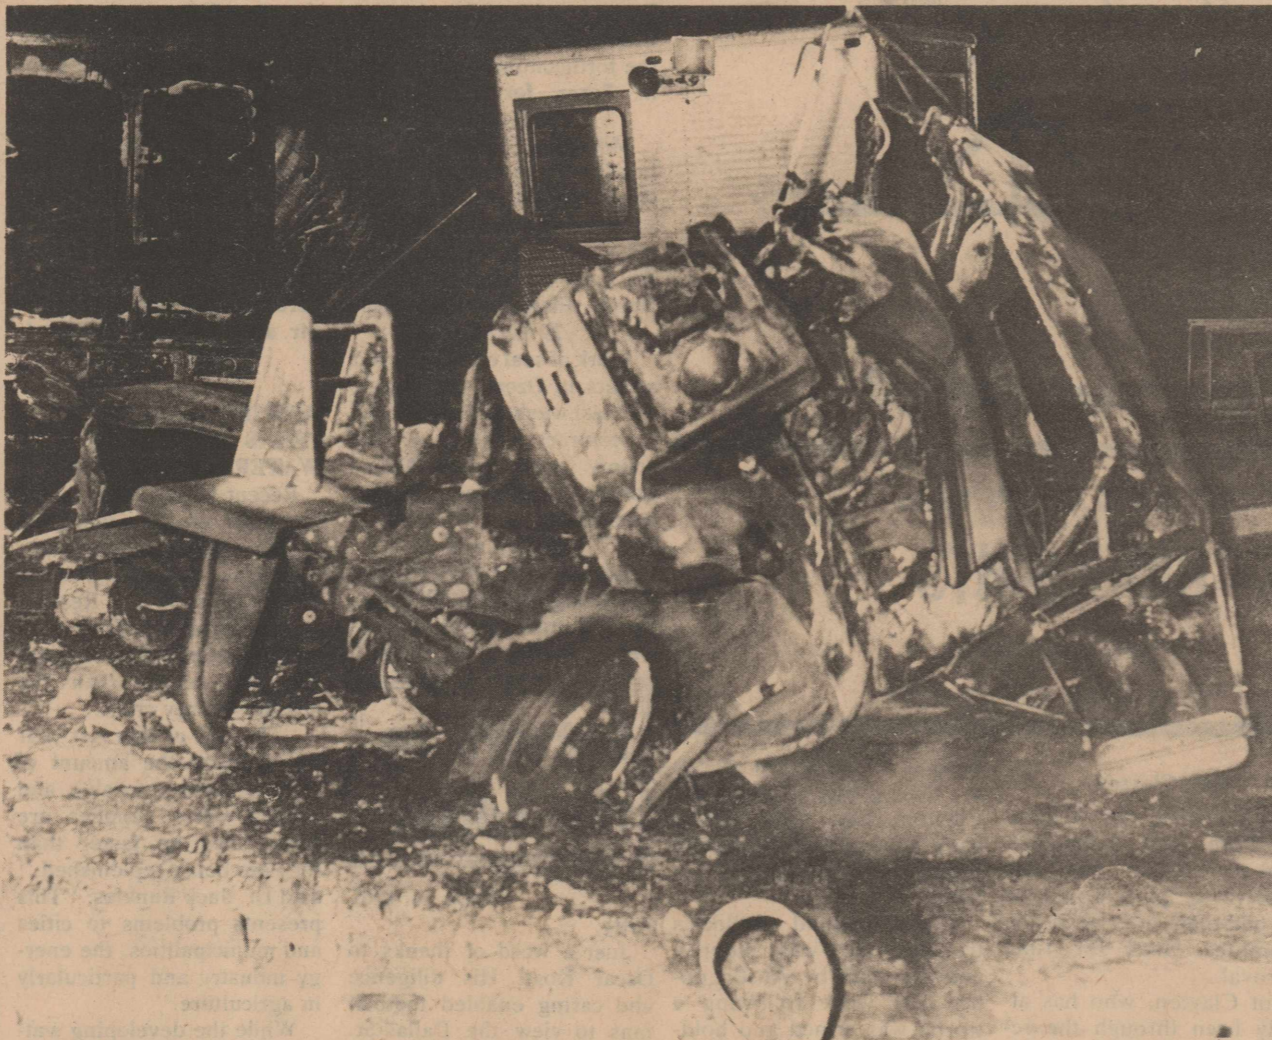

I'm sure it would be very unpopular with Ozona drivers to forbid angle parking on this street, but parallel parking would be much safer and probably cut down on the wrecks we do have. Vans, pickups and even trucks angle park here. When the spaces are filled on both sides of the street it becomes a very narrow two-lane thoroughfare. When a car backs into oncoming traffic with the driver's vision obscured by a larger parked vehicle, he is doing so at his own risk. There is no possible way to know what is coming, and legally the guy backing out is always at fault.

Another constant worry is the possibility of an accident involving dangerous chemicals or radio-active materials. They go by constantly and are clearly labeled and the possibility of a really dangerous accident in downtown Ozona becomes more of a probability with each passing day.

There is no chance that Ozona drivers will change their driving habits, but parallel parking would definitely cut down on side-swiping, and backing out into a passing vehicle. If a truck route around the town could be established it would cut down the chance of a dangerous chemical accident. Does anyone in authority want to get involved?

kk
Oscar Kost was undoubtedly the most popular man in town this week, due to the fact he managed to allow Ozona football fans to watch the Dallas Cowboys Sunday. I don't know how long this popularity will last, but if he were running for office and the election were being held this week he would be a shoo-in.

kk
Margaret and Ruth, of Happy Hollow fame, have really presented us with a problem. They meant well when they made us a present of a Rubik's Cube a few days ago. We have fooled around with it for hours at a time. It frustrates me and makes me angry. Kyla and Willa can take it or leave it. Misty Dawn probably had the best idea when she threw it across the office. She is too young to have any inhibitions. I have hidden it and plan to leave it there until we get the solution, which has been ordered. We certainly

THIS TANGLED PILE OF METAL is what remains of a 1981 2-ton Chevy truck which crashed head-on with the truck tractor rig at left. Three persons were killed and one critically injured in the crash on Hwy 290 Friday night.

Everything was burned in the resulting explosion and fire except the trailer in background, which was loaded with low-level radio active material. Steve Kenley Photo

Set tax rate-

Commissioners approve \$4 1/2 million budget

Crockett County Commissioners met Monday and officially adopted the 1982 budget, after no one appeared for the public hearing scheduled for 11:00 a.m. The tax rate for 1982 was also set.

Prior to the hearing, bills were approved for payment and the various county reports given.

Estimated revenues from taxation and other sources for 1982 is \$4,608,850.00, a considerable increase over that of last year. The largest amount will come from taxes, which is estimated at 2,180,640.00, most of which comes from oil company properties.

Estimated expenditures comes to \$4,564,128.00, for the year of 1982. This figure represents an increase of 14% over this year's budget. The general fund, from which the county is operated and salaries paid, takes the largest chunk of the budget, \$1,497,453.00. The only other item budgeted in for over a million dollars is the hospital operating fund which has been set at \$1,067,050.

Increases in estimated expenditures include an across-the-board pay raise of 10% for all county employees, a raise for the county judge up

Services here for Mr. Rios

Funeral services for Ignacio Reina Rios, 81, were held Tuesday in Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery.

Mr. Rios died Sunday morning in Crockett County Hospital. He was born in Del Rio, Feb. 1, 1900. He was married to Jesusa Longoria in Del Rio.

Survivors include his wife; two sisters, Trinidad Hernandez and Maria Rios; six brothers; nine grandchildren and 13 great grandchildren.

to the level of other full-time elected officials, an increase in car allowance for the county judge and the commissioners from \$75 per month to \$200, and a raise for the county attorney from \$1,500 per month to \$2,000.

Tax rates have been changed by House Bill 30 for all counties in Texas. Property must be taxed on 100% of value and all property must be re-appraised by a single appraisal district. However, the court has asked for an extension on the re-appraisal for two years or until the 1984 tax roll. The county did set the rate for 1982 taxes on 100% of the value on the present roll. The ad valorem tax rate will be \$.485 per \$100 of valuation for the county. This represents an increase of 1c over last year. However, the school tax rate is down 3c so taxpayers are paying 2c per \$100 less than last year. The school tax rate was set at 51c and the state at 1c, so the total tax rate for county, school and state will be \$1.095 per \$100.

The county will again allow discounts in October, November and December of 3, 2, and 1 percent respectively. The tax roll and statements are being prepared by the county's tax firm and will be late again this year. The court authorized tax collector Tom Stokes to extend the 3% discount to 30 days from the day the statements are mailed.

In other business, the court has authorized Judge Johnny Jones to look into the cost of building a courthouse in the downtown park. This was not discussed during this meeting but was revealed in the reading of the minutes of the last meeting.

Garland Young reported the replacement cost for the faulty glass doors at the Civic Center would be \$1,600. The court requested Young not to use the same company which installed the original doors.

In giving the hospital report, Glen Rumley told the court he had received an estimate of \$15,000 to update the Xray machine at the

hospital. Since estimates for a new machine run from \$74,000 to \$105,000, the court was happy to give Rumley permission to pursue the matter. Rumley also reported Blue Cross behind in Medicare payments to the tune of \$102,000.

Judge Jones read a letter from D. R. Watson, highway department head for this area, informing that signal lights will be installed at Hwy. 163 and I-10 frontage roads and should be in operation by November 1.

Paul Shacklette gave the road department report and some of the highlights were as follows: Vandals pulled up the iron fence at the ballpark. A discussion on abandoned cars found Shacklette asking the court to find some individual who would salvage the cars for the parts, as his

Vargas service today

Funeral services for Felipe (Tito) Vargas III, 46, will be held this afternoon (Wednesday) at 5:00 o'clock in Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery under the direction of Sizemore funeral home.

Vargas died Monday in St. Johns Hospital in San Angelo.

He was born Jan. 19, 1935 in San Antonio. He had lived in Ozona most of his lifetime until moving to Sonora about 10 years ago. He was a painting contractor.

Survivors include a daughter, Alicia Vargas of Sonora; three sons, Steve and Philip Vargas of Ozona and Carl Joe Vargas of Sonora; his parents, Mr. and Mrs. Felipe Vargas, Jr. of Ozona; 3 sisters, Blanche Castro, Lupe Longoria and Linda Rodriguez, all of Ozona; and 6 brothers, Rudy, Edmundo, Blas, Richard, Ernesto and Henerto Vargas, all of Ozona.

Fiery collision claims 3 lives

A grinding head-on collision 28.2 miles west of Ozona Friday night at 9:50 killed three Monahans residents, critically injured a Dallas man and the resulting explosion and fire destroyed two trucks and a trailer loaded with fresh produce.

Killed were Allen Jorgenson, 21, his wife Vicki Jorgenson, 15, and David William Rohlf, 18, all of Monahans. Critically injured was Bob Pounders of Dallas.

The accident occurred when a 1981 Chevrolet 2-ton truck, pulling a trailer loaded with radio active material and driven by Jorgenson veered off the right side of Highway 290, causing the trailer to whip and then cross over the center stripe directly in the path of the produce truck. The truck, a 1977 Kenworth, driven by Pounders and traveling east on 290 had brakes applied but it was futile and the two vehicles hit almost headlight to headlight.

The explosion and fire destroyed everything but the trailer pulled by the well-inspection truck which belonged to Curley's Inspection Service of Monahans. It came to rest along with the ill-fated truck in the east lane ditch with all passengers pinned inside and crushed. The produce truck, which belonged to John Russell Trucking Co. of Dallas, was demolished and came to rest in the middle of the highway, blocking traffic until 4:00 a.m. Saturday morning. All traffic from Ozona was re-routed to Hwy. 190 west and through Iraan. East-bound traffic was routed through Iraan, back to Ozona on Hwy 138 and to I-10.

All law enforcement officers from Ozona, Sheffield and Iraan were called to duty at the site, plus the Ozona Fire Department and the Sheffield Fire Department. The investigation was headed up by Trooper Bob Bailey, DPS, Ozona.

Pounder, who was in critical condition and in intensive care in a San Angelo

hospital Tuesday, was the only survivor and the only witness to the crash. He was unable to talk to officers Tuesday. He was apparently thrown from the truck on impact, along with pieces of the vehicle which were scattered for yards down the roadway. Peace Justice A. O. Fields pronounced the victims dead at the scene.

The low-grade radio active material in the trailer did not rupture, but did cause some

concern on the part of those working the accident. However, a geiger counter brought to the scene by the Ozona Fire Department counted a degree of radioactivity, but it was established as a safe level.

The well inspection truck had been servicing some wells in Crockett County and was enroute back to Monahans. The produce truck was enroute from El Paso to Houston.

Lions roll to easy victory over Rebels

The Ozona Lions rolled to an easy 35-14 victory over the Midland Lee JV here Friday night. The Lions put together an overpowering offense and a stingy defense to chalk up their second victory of the young season, going into next week's game with the Bracket Tigers 2-0 on the season.

The Lions scored four times during the first half with runs of 50 yards, 4 yards, 3 yards and a 26-yard pass play from the arm of David Badillo. Will Mason added the points after.

Midland scored one time on a 50-yard scamper, bringing up halftime with the Lions in the lead 28-7.

The Lions allowed the Midland team another score in the second half, and chalked one up for themselves with a 71-yard pass from Badillo to Ernie Borrego with Mason adding the extra point.

The entire defensive unit played an outstanding game. Ozona also led in the statistic department, chalking up 18 first downs to 14 for their opponents. They had 245 yards rushing and 189 passing for a total offense of 434, while the Rebels tallied 324. The Lions had four penalties for 35 yards to 6 for 49 for the Rebels. The Lions punted three times for a 31-yard average while the Rebels

punted six times for a 24-yard average. Ozona lost one fumble and the Rebels lost 5.

Producers reminded of deadline

County Clerk David Weant reminded Crockett County livestock producers of the upcoming deadline for registering livestock brands and marks. He said that so far not more than one-fifth of the producers in the county had gone through this re-registering process, which must be done every ten years if a rancher is to keep his personal brand.

The deadline to re-register is February 28, 1982. After that date, if a brand is not re-registered, it becomes available to anyone who goes into the office and registers it.

Weant pointed out the re-registering process is really done for the protection of the brand user and not for benefit of the state or county governments.

The process will continue in his office until February 28.

A CH-47 HELICOPTER landed at Crockett County Airport Tuesday to refuel before taking off for the Amos Owens Ranch to retrieve a 3,000 pound telescope which was parachuted to earth from a weather balloon launched by the National Scientific Balloon Facility in Palestine. The crew

brought the huge chopper from Fort Hood, and are posed by the flying machine with Mrs. Jim Hearne, airport manager. The vastness of the craft can be measured by those standing near it.

Small-business Angle

by Wilson S. Johnson

GOVERNMENT SHOULD NOT COMPETE WITH BUSINESS

In the excellent book, **Better Government at Half the Price**, authors James T. Bennett and Manuel H. Johnson point out that government competition with the private sector is wasteful and costly to the taxpayer and costly to the small-business person.

A recent study by the General Accounting Office for the U.S. Congress shows just how serious is the matter of government competition with private business. GAO says "an estimated 400,000 federal employees are currently operating over 11,000 commercial or industrial activities at an estimated cost (to the taxpayer) approaching \$19 billion annually."

Small-business people don't need the GAO to tell them about government competition! One business in California reports losing a contract with the National Guard when that government organization opened its own retreading plant in Utah. In Kansas, Agriculture Department county agents undercut small-business people by selling seeds, chemicals and other products at cost. In Indiana, the Department of Energy is elbowing in on the private sector by selling insulation, and a small-businessman in Ohio who rents tools says the Department of Housing and Urban Development is encroaching on his business by loaning tools free.

As early as 1952, President Eisenhower emphasized the necessity for the private sector to provide goods and services to the government, rather than government producing them at taxpayer's expense. But in recent years, that principle has been eroded, and the result has been unfair competition by government in the marketplace, a loss of tax revenues from businesses that would have provided the goods and services the government produced, and higher costs to taxpayers because studies show government cannot produce as efficiently as those who do it for profit.

The problem is becoming significant at the state and local levels too. The reason is the large amounts of federal dollars reaching states and localities via revenue sharing. And because there is no real commitment to the private sector at the federal level, states and cities are not even required to conduct cost comparisons before using federal money to compete with business.

There are signs that the problem is finally being recognized and that improvements can be expected. In Arizona, the Government Competition with Private Enterprise Act is now law. It requires a review of all programs with an eye to contracting out wherever it is in the public interest to do so. And it calls for a sales tax on all goods and services sold by state or local governments—thereby removing some of the price advantage they enjoyed over their private competition.

At the federal level, Sen. Hayakawa has been holding hearings in his subcommittee of the Small Business Committee to develop legislation which will reaffirm the policy of reliance on the competitive private enterprise system for goods and services used by the federal government.

What is needed is a return to the principle stated emphatically in President Eisenhower's 1952 directive: a distinction between the proper role of the government (to govern) and the proper role of private enterprise (to conduct business).

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN — The redistricting process is in chaos again, apparently picking up speed as it heads for the courtroom in a handcart.

Efforts to draw the Texas House and Senate seats are running into political difficulties on the five-member Redistricting Board.

And the hard-won compromise plan approved by the Legislature in July's special session has finally arrived just where legislators hoped and feared it would: in the federal courtroom of controversial Judge William Wayne Justice of Tyler.

Last week a black pastor from East Texas filed suit to declare the congressional plan unconstitutional because it allegedly dilutes the voting strength of minorities. Several minority groups across the state are expected to support the lawsuit.

Redistricting Board

The all-Democrat Redistricting Board should be a dream opportunity for that party's leaders, but as with any political committee, disagreements have cropped up.

Sitting on that board, as provided by the Texas Constitution are five state officials, who all happen to be Democrats: Lt. Gov. Bill Hobby, Speaker Bill Clayton, Attorney General Mark White, Comptroller Bob Bullock and Land Commissioner Bob Armstrong.

Board members are expected to finish drawing suggested plans and submit them for public hearing by Sept. 23. Hobby has a Senate plan, Clayton has a House plan and Bullock will have opposing plans for both of them.

Bullock is using the computer at the Comptroller's Office to aid his efforts, a task he has awaited since the Legislature went into session.

Bob Bullock

The Comptroller may find that the power to redistrict the state and decide the fate of one's political friends and foes is not a bed of roses.

Now Bullock's efforts to disadvantage certain conservative legislators, and also appropriations committee members who trimmed his budget requests, may be running out-of-bounds of Democrat Party unity.

Republican Gov. Bill Clements, who surprised friends when he vetoed the Senate plan early this summer and handed it over to the five Democrats, may well have known what he was doing.

Now he can sit back and watch a knock-down Democratic feud... and should the new plans be patently unfair, the Republicans can always take it to court. Some observers have said all along that all three redistricting plans will end up in the courtroom.

Bill Clayton
 Talk around the Capitol has been that lame-duck Speaker Clayton with his conservative plan would be the odd-man out when the committee votes for final approval.

But Clayton, who has already been through the redistricting process twice this year, knows full well the

PBPA energy report

The countries that make up OPEC are producing less oil now than anytime in the past 8 years. Production is now about 20 million barrels a day compared to almost 30 million a day in 1973. This drastic reduction is traced to high prices and the sluggish free-world economy. And, one source says daily production will drop another million barrels by December.

The three African countries, Libya, Algeria and Nigeria, have been hit the hardest. These three usually charge the most of any OPEC country for their oil. Nigeria's production has been reduced seventy-five percent to 500,000 barrels a day. That country recently reduced its price to \$36 a barrel. Further bad news for OPEC is the increased production of non-OPEC members in the free world. That figure is 23 million barrels a day or about half of the 46 million barrels consumed daily by non-Communist countries.

The President of the Texas AFL-CIO, Harry Hubbard, has called for an increase in the state severance tax to 15 percent so that school property taxes could be cut in half. Hubbard estimated that 3 billion dollars would be raised by increasing the 4.6% oil tax and 7.5% natural gas tax to 15 percent. Texans consume two-thirds to three-fourth of the oil and gas produced in the state. That means Texans would pay most of any increase in severance taxes.

And, Mexico says it's proven oil reserves have risen from 68 billion barrels in March to 72 billion barrels today.

In the Permian Basin our rig count for last week was 499. One year ago it was 333.

dangers of being too greedy in this game. Reportedly, Clayton has been sitting back waiting for the liberal Bullock to overplay his hand.

To compound Bullock's troubles, he was stopped and searched by Austin police last week following a tip he was armed and holding a hostage in a taxicab. No gun was found on Bullock, who told police and the press he had gone to visit a just-fired employee for personal reasons.

Texas, Justice Department
 The U.S. Justice Department is backing off pressure on Texas in two issues: prison reform and illegal alien education.

Last week the feds told the Supreme Court it would let Texas resolve for itself whether to provide a free public education to children of illegal aliens. In 1975 the Legislature passed a law allowing school districts to charge tuition for alien children. During the Carter Administration, the department considered the law unconstitutional.

The department is also reconsidering its role in the prison reform lawsuit and may choose not to participate. That decision would leave the plaintiff attorney alone to fight the state's appeal of a multi-million dollar prison reform construction program ordered by Judge William Wayne Justice.

Clements, McKnight

Governor Bill Clements told reporters last week he has every intention of seeking re-election and promised a formal statement in mid-November.

Meanwhile, Tyler State Sen. Peyton McKnight stopped just short of announcing his challenge to Clements' office, saying he wanted the job. McKnight is vying for the Democratic nomination with former Gov. Dolph Briscoe and former Atty. Gen. John Hill.

Versatile

Hovercraft, widely used as ferry boats and military patrol vessels, can skim over ice, snow, and level terrain as easily as over water.

Gravity Pull

Thanks to differences in gravity, a 100-pound person on Earth would weigh 17 pounds on the moon and 254 pounds on Jupiter.

The Newsreel

A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"

Thursday, Sept. 18, 1952
 Ozona Lions Club will meet next Wednesday noon at the House of Flowers tea room for the first meeting of resumed activity after a summer recess.

29 Yrs. ago
 Statistically, the Ozona Lions held the edge over the Big Lake Owls in the season's opening football game in the Owls stadium at Big Lake Friday night, but the score board showed the Owls victorious with a score of 19-7.

29 Yrs. ago
 Lowell Littleton, Ozona, Texas, today was named Crockett county chairman for the forthcoming fund appeal in Texas for the U.S.O.

29 Yrs. ago
 Members of the school faculty will be honored by the Ozona Parent-Teachers Association at the annual PTA party for teachers tonight in the new auditorium of the North Elementary School.

29 Yrs. ago
 Work of seal coating paved streets in Ozona got underway last week under terms of a contract made by the county with Frank Montgomery, Midland paving contractor.

29 Yrs. ago
 Humble Oil & Refining Co. will inaugurate its 19th season of broadcasting Southwest Conference football

games on September 20.

29 Yrs. ago
 Mr. and Mrs. Gordon Aikman of the Ozona Drug are enjoying a week's vacation visiting with friends in central Texas.

29 Yrs. ago
 Neal Yeager, supervisor for all Joseph's Department Stores, formerly stationed at Junction, has transferred to Ozona to manage the Ozona store while continuing to supervise the firm's other stores in this section.

29 Yrs. ago
 From October 1 to November 30, Crockett county ranchmen will have an opportunity to sign up to cooperate in the 1953 Agriculture Conservation program. The purpose is to center conservation efforts on the most needed practices on each individual farm or ranch.

29 Yrs. ago
 Mrs. Frank Ashby of Midland is spending a few days here visiting her parents, Mr. and Mrs. Cecil Hubbard.

DESPITE FLOODING, TEXAS STILL FACES WATER SHORTAGES

Recent heavy rains covering most of the state may alleviate some surface water shortages, says the director of the Texas Water Resources Institute, but Texas still faces a water crisis that could be more severe than the present energy crisis.

"The lack of rain last year has reduced the amount of surface water available and ground water supplies are being used up faster than they are being replenished," said Dr. Jack Runkles. "This presents problems to cities and municipalities, the energy industry and particularly in agriculture."

While the developing water crisis will affect the entire nation, it will be most severe in Texas and the Southwest as the population continues to grow, said Runkles, who predicts by the year 2000 Texans will be consuming 24 billion gallons of water a day, up from an estimated 15 billion gallons a day currently.

Letters to the Editor

Sept. 14, 1981

Kitty
 Just a word of thanks to Oscar Kost. His diligence and caring enabled football fans to view the Dallas-St. Louis game live this past Sunday.

Our regular CBS outlets (KCTV and KOSA) elected to pre-empt the game for the U.S. Open Tennis Finals. Thanks to Oscar and crew, the game was carried on Channel 13.

I feel sure that fans in many of the surrounding towns were not as cared for. Thanks, Oscar. Johnny Childress

you and the LAW
 PRESENTED BY THE STATE BAR OF TEXAS

Q: I am applying for a mortgage to buy a home. Am I required to purchase homeowners insurance?

A: You will be required by your mortgage company to maintain certain minimum coverages to protect its interest in the property. Although the lender may require certain financial standards of the company from which you purchase insurance, it cannot require that you buy this coverage from a certain agent or company; nor may they require that you purchase homeowners insurance. The mortgage company, however, may require fire and extended coverage insurance on the property.

Q: I purchased half a lot several years ago. The fence which divides the property is not centered and cuts five feet off my half. Can I legally move the fence to get my land back? Who must pay to move the fence? The owners of the other half of the property originally built the fence.

A: If the fence is on your property you may have it removed, but if it was there when you bought the land, you must pay for the removal. If your neighbor built the fence after your purchase, he should pay to move it, although you may have to bring a lawsuit to force payment. Before removing or moving the fence, you must be certain that it is wholly on your property. This will require a surveyor, at your expense.

Q: I've heard that a person can lose ownership of his property if another person lives there. After our divorce, the house was awarded to us equally, but my wife retains

possession. If my wife lives there for several years running, do I lose my half-ownership?

A: It appears that some form of joint ownership interest, with possibly a lifetime estate to your spouse, was awarded in the divorce decree. Therefore, it is unlikely that you could lose your interest in the house because of your wife's occupancy. If you have any doubts, ask your attorney to review the divorce decree and to determine your exact interest.

Q: My husband and I were injured in a hit-and-run accident. Our medical bills totaled almost \$30,000, and we lost six months work. The man who hit us was apprehended and tried and was ordered to pay our accident-related bills plus \$325 a month for seven years. He paid for a few months and skipped town. Efforts have been made to find him but to no avail. Since he is retired military, why can't they trace him through his retirement check?

A: I cannot tell from the information you furnished whether this is a civil or a criminal matter. If this is civil, the Federal government is in some cases allowing garnishment against certain pension funds. If the order was made under a probated criminal sentence, a Motion to Revoke should be filed. A warrant of arrest will be issued, and the State would begin procedures to locate him.

Send your questions to "You and the Law," State Bar of Texas, P. O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

Another place your number is up — on grocery price stickers.

Tips For Gardeners
From the Ozona Garden Club by Mrs. Bailey Post

Now that we had another welcome rain here in our city and parts of the county, it always surprises me how very quickly yards and pastures green up again. Too, the Senisas were right on the dot with their beautiful orchid blooms.

There's room in almost every garden for flowering perennials. Whether you plant just a few along a border or mass them in a large bud, these plants can add color and interest to your landscape during much of the year. Popular perennials to try include larkspur, iceland poppy, shasta daisy, and cone flower.

Unlike many annuals, which can live and bloom in poorly prepared soil, perennials usually require a well drained site of relatively loose soil. Since they are not normally replanted each year, it's important to work a 2-inch layer of organic matter into the soil before you begin your initial planting. Also work in 5-10-10 fertilizer. Apply at the rate of 3 pounds per 100 sq. feet to bed area. Most perennials need deep, even watering throughout the growing season. Avoid light sprinklings as this encourages a shallow root system. Once established, mulch with a 3 to 4 inch layer of organic matter to conserve moisture.

Is your spider plant healthy looking and attractive, but the end of each leaf looks like it is dying? Fluoride in the water often causes tip-burn on the leaves. One way to prevent this condition is to use only fluoride-free water for watering the plant, this could be either rainwater or tapwater that has been allowed to stand for 12 to 24 hours.

Geraniums need full sun to bloom well, also small amounts of a low nitrogen fertilizer (6-12-12) or (5-10-10) and soil that isn't excessively moist. Also make sure your container isn't too large as geraniums bloom best when slightly pot bound. Most commercially prepared potting soil are the correct ph for them and other potted plants.

Ozona Garden Club meets

The Ozona Garden Club kicked off the current club year with a salad luncheon Monday at Ozona Inn of the West.

Hostesses were Mrs. Tom Stokes and Mrs. Larry Braden. Theme for the coming year is "Learning through sharing and participation."

Others present were Mrs. O. D. West, Mrs. Bascomb Cox, Mrs. Lee Graves, Mrs. George Bean, Mrs. Bill Mason, Mrs. J. B. Miller, Mrs. Bailey Post, Mrs. Earl Berry, Mrs. Mike Ledoux, Mrs. A. S. Lock, Mrs. Steve Kenley, Mrs. Glenn Sutton, Mrs. T. C. Conner, Mrs. James Montgomery, Mrs. Fleet Coates and Mrs. Charles Williams.

Affairs of Life

Time on Earth is valuable. Your short stay is likened to a student.

Time spent wisely is soothing to the soul like herbs for an aching body.

Clayton's Village Drug

Forum opens club year with luncheon

The Ozona Woman's Forum met in the Circle Bar dining room Saturday for a luncheon opening the club year. Twenty-two members and one guest attended. The hostesses were Mrs. Gene Perry, Mrs. Dempster Jones, Mrs. Charlie Black, and Mrs. Brock Jones.

The business meeting was called to order by the president, Mrs. James Childress. Roll call was answered by members with vacation highlights.

Mrs. Childress gave the welcome address and previewed the club year ahead. Mrs. T. J. Bailey, Federation Counselor, reported that an afghan had been made by a Brady club member and offered to the Heart of Texas District for donations to the kitchen fund for headquarters in Austin.

A name was presented for membership and will be considered at the next meeting. Mrs. Gene Perry, chairman of the yearbook committee, presented the new yearbooks and briefly discussed each program.

Mrs. Fred Hagelstein presented the secret pal names. The following members

Mrs. Phillips is bridge club hostess

Mrs. Buddy Phillips was hostess for bridge at the Country Club Thursday.

High went to Mrs. Evert White and second high to Mrs. Jake Short. Mrs. Byron Williams won third and bingos went to Mrs. James Dockery, Mrs. Arthur Kyle, Mrs. Charles Williams and Mrs. Gene Perry.

Others playing were Mrs. Clay Adams, Mrs. Joe Bean, Mrs. John Childress, Mrs. Joe Clayton, Mrs. Joe Couch, Mrs. Joe Friend, Mrs. John R. Hunnicutt, Mrs. Brock Jones, Mrs. Gene Lilly, Mrs. Kirby Moore, Mrs. J. B. Parker, Mrs. Hillery Phillips, Mrs. Sherman Taylor, Mrs. C. O. Walker, Mrs. Gene Williams, Mrs. Jack Williams and Mrs. Lowell Littleton.

were present: Mrs. Worth Allen, Mrs. T. J. Bailey, Mrs. Charlie Black, Mrs. James Childress, Mrs. Fred Hagelstein, Mrs. Brock Jones, Mrs. Dempster Jones, Mrs. Ralph Jones, Mrs. Huey Ingram, Mrs. L. D. Kirby, Mrs. Lowell Littleton, Mrs. Allie Lock, Mrs. Jess Marley, Mrs. J. McCarty, Mrs. Kirby Moore, Mrs. Gene Perry, Mrs. Arthur Phillips, Mrs. George Russell Jr., Mrs. C. O. Spencer, Mrs. W. T. Stokes, Mrs. Rufus Ward, and Mrs. W. H. Whitaker; and a guest, Mrs. Fred Van Shoubrouk III.

Sorority meets with Mrs. Morris

The Alpha Alpha Mu Chapter of Beta Sigma Phi met Monday night in the home of Mrs. Chuck Morris with Mrs. Fred Deaton acting as co-hostess.

Guest speaker was Betsy Thornton of San Angelo. Mrs. Thornton is a psychologist and spoke to members on marriage and the family.

After enjoying cake and iced tea, the members presented Mrs. Evelyn Drake with recipes and ingredients to honor her recent marriage.

Attending the meeting were Mrs. Dena Porter, Cindy Nicks, Virginia Baggett, Jan North, Lori Parker, Peggy Bien, Nesa Chandler, Elizabeth Clark, Cindy Collins, Jill Crawford, Debbie Glasscock, Pearly Meacham, Jane Richardson, Jodie Sessom, Vicki Stokes, Karla Turland, Nancy Vannoy, Chris Weant, Belinda Wilkins, and Kaye Williams.

DUPLICATE BRIDGE
Winners in Duplicate Bridge Club play Sunday at the Country Club were Mrs. Evert White and Mrs. Sidney Millspaugh, first, and Mrs. Clay Adams and Mrs. Joe Clayton, second.

Debra Says

By Debra Price

Kids are now beginning to be settled in school and in 4-H projects. Any youth 9-19 are welcome to participate in a 4-H project. Projects active in the fall are livestock and cooking. If youths have not enrolled, they need to come by the Extension office and complete a member card. Any adult that would like to work with a small group of kids should come by the office.

I continue to get questions on using microwaves. Water, fat, and sugar affect how the food cooks in a microwave. Water is driven to the surface of food during microwaving. This moisture evaporates but surface does not become crisp.

Fat is drawn to the surface where it browns on long-term foods. Sugar attracts microwave energy. The sugar on a sweet roll becomes very hot and will burn easily.

Foods containing water, fat, and sugar cook faster. When several foods are cooked at one time, microwave-attractive foods may draw energy away from foods which contain less water, fat, or sugar and alter their cooking time.

When you first experiment with microwave cooking, it is important to follow your cookbook carefully. After you have used your cookbook for about 3 months, you can then begin to experiment on your own. Until then it is best to follow your cookbook recommendations.

ZIPPY DIP
4 ounces cream cheese
1/4 cup catsup
2 to 3 tablespoons chopped green onion
3 drops Tabasco
Soften cream cheese in 1 quart casserole at high 20 to 25 seconds. Pour catsup into 1 cup measure. Cover, microwave 1/2 to 1 minute until bubbly. Stir into cheese with onion and Tabasco. Microwave at 50% (medium) 1 1/2 to 2 1/2 minutes, until hot.

HOT MULCHIES
Combine ingredients for mulchies in a small bowl. Spread 1/2 the mixture on 12 melba or other crackers. Arrange on paper plate. Mi-

crowave at high, 30 to 60 seconds, until heated, rotating plate 1/4 turn after 20 seconds. Repeat with remaining mixture and crackers.

HAWAIIAN CHICKEN MUCHIES
3 slices cooked bacon, crumbled
1 5-oz. can chicken meat
1/4 cup lightly drained, crushed pineapple
1/4 cup walnut pieces, chopped
1/4 teaspoon salt
dash pepper

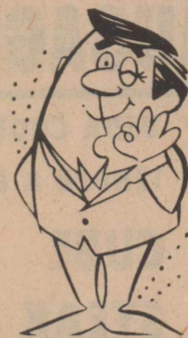

FAR-EAST TUNA
3 1/2 oz. tuna, drained
3 tablespoons mayonnaise
3 tablespoons finely chopped pecans
3 tablespoons drained, crushed pineapple
1/8 teaspoon curry powder
MIDWEST BACON AND CHEESE

6 slices cooked bacon, crumbled
1/2 cup shredded cheddar cheese
1 teaspoon caraway or poppy seeds, optional
3 tablespoons mayonnaise

1 teaspoon parsley flakes
SEASHORE CRAB
3 oz. cream cheese, softened
5 oz. crab meat
2 tablespoons chopped green onion
2 teaspoons Worcestershire sauce

1/2 teaspoon lemon juice
CLASSIC HAM 'N CHEESE
4 1/2 oz. deviled ham spread
2 tablespoons finely chopped onion
1/4 cup shredded cheddar cheese
Sliced stuffed olives, as garnish

Thank You Oscar!

We Will Be Closed
From September 15 to the 29th of September.

Norma's Kountry Kitchen

EXPERIENCE
280 years of it ...

According to the want-ads, experience is invaluable. Yet on this park bench 280 years of experience add up to *boredom*.

Religion got involved early in the problems of our senior citizens. Our churches have made us aware of the *worth of the individual*. And this emphasis on every one of us as equally important before God inspired modern society to look seriously at the concerns and the potential of the aging.

Recently a youth remarked that his Church is the one institution in the community in which young and old command equal respect. "It's where everyone appreciates you if you do whatever you can!"

Strengthen your place of worship as it serves God and our community by doing all you can!

Pecan Weevil to be felt in county

The pecan weevil, one of the most damaging pecan pests, has begun or will soon begin to lay eggs in developing pecans in Crockett County.

To prevent pecan weevil damage, adult weevils must be controlled before they deposit eggs in developing pecans. Once eggs have been deposited, control measures will not be effective, points out Billy Reagor, county agent with the Texas Agricultural Extension Service.

Each year about mid-August pecan weevil adults emerge from the soil and move into pecan trees to mate and deposit their eggs. After an egg has been depos-

ited, the larva will develop inside the pecan, cut a hole in the shell about 1/8-inch in diameter, and emerge from the pecan as a fully-grown larva in late October or November. Larvae will tunnel into the soil to a depth of 4 to 12 inches where they spend much of their two-or-three-year life cycle.

Larvae entering the soil this fall will emerge in August or September of 1983 except for about 10 percent which will emerge as adults during 1984.

Severe pecan weevil infestations can destroy a large portion of the crop, says Reagor. Feeding adult weevils cause nuts in the water

stage to drop. Nuts are susceptible to egg laying from the gel stage (the transition from water to soft dough

Extension club gets organized

A new Extension Club called the Happy Homemakers is now organized and will meet the first Thursday of each month, 9:30 a.m. at the Calvary Baptist Church. Retta Kilpatrick is chairman and Patrena Gross is co-chairman of the club.

The club will meet October 1, at 9:30 a.m. for a program on "Low Cost Gift Ideas." Debra Price will present the program and people are asked to bring one gift idea to share with the group.

Some of the program topics will include furniture refinishing, quilting, microwave accessories, setting your household in order, closet organization, flower arranging, drying fruits and vegetables, pattern alteration, and tolle painting.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin. Call Debra Price at 2-2721 for more information.

stage) until shuck split is complete. Check the stage of nut development by cutting it with a knife to see if it contains water or gel.

Adult weevil populations in the orchard will vary greatly from year to year, but in heavily infested orchards weevils will be present in most years.

Often, certain trees in the orchard are more heavily infested than others. So, begin checking these trees now to determine if there is a need for pecan weevil control, suggests Reagor.

Jarring limbs is a commonly used method to see if weevils are present in trees. To do this, place a large sheet under a tree and jar limbs with a padded pole. Weevils will drop to the ground and remain motionless for a short while.

Emergence cages placed under known infested trees also have been useful in determining the period of adult weevil emergence and as an indication of the number of weevils present.

If adult weevils are found, spray with the insecticide Sevin as pecans reach the gel stage. Two or three applications may be needed to effectively control pecan weevil infestations. Repeat the insecticide if it rains soon

after spraying. Allow 8 to 12 days between applications. Of course, always read and follow directions on the pesticide label, advises Reagor.

Additional information on checking for and controlling pecan weevils is available at the county Extension office.

US checks to have new look

U.S. Treasury checks for people getting supplemental security income will have a new look starting with the checks issued September 1, Franklin H. Upp, Social Security District manager in San Angelo, said recently.

The front of the checks will still be gold Upp said, but the back of the checks will be buff color with orange printing. Starting in late 1981 or early 1982 Social Security checks will be green on the front, buff color on the back with orange printing.

The change is being made to increase the effectiveness of the treasury department's check microfilming operation.

The color change on the back will not cause any problems, Upp said. Banks and other financial organizations have been notified of the change and will accept these new checks just as they did the old ones.

There is no need to call the Social Security office, Upp said. The new checks can be used just as the old ones were.

PHONE NEWS TO THE STOCKMAN.

League kicks off current club year

The Ozona Womens League met Tuesday evening, Sept. 8, in the first meeting of the year. Thirty-four members enjoyed a salad buffet served by the hostesses Mae Lay, Judy Probst, and Jill Crawford.

Sandra Childress, president, conducted the business meeting which included the reading of thank-you notes from the Crockett County Historical Society and the West Texas Rehab Center in regards to donations received by each of their various projects, which League helps support.

Lou Deaton reported the cushions for Crockett County Care Center have been delivered and already put to use by the residents. Kay Braden asked each member to "stuff" two activity kits which will be delivered to the local hospital to be given to children who are admitted for treatment. These kits will provide various books, crayons, and activities to help alleviate boredom during the child's hospital stay.

Becky Childress stated that the Chamber of Commerce had been notified that a traffic light would be installed sometime around November 1, 1981, at the intersection of Hwy. 163 and I.H. 10. This was one of the concerns of League members last year as all agreed this intersection, especially during school hours, was dangerous and hard to cross. This traffic light will help solve some of the problems.

Sherry Scott presented the projects for the year which are as follows: Educational: Provide a one year tuition scholarship in memory of Mildred North for a Senior in the class of 1982; Provide for continuing education for High School Graduates

through an interest free loan fund; provide supplies for pre-schoolers at the Ozona Community Center; provide cultural activities for Ozona, and promote art and music education in the public school system.

Federation: Promote local awareness of federated club sponsored activities; attend Federation workshops and conventions; contribute to Latin America, Penny Arts and Musical Penny Scholarships, and obtain a League member for a federated office.

Civic: Promote awareness for the need of traffic control at the intersection of Hwy. 163 and I.H.10; sponsor a "Keep Ozona Beautiful"; provide for Girl Scout day camp equipment; contribute to the County Transient Fund; assist in providing for restoration of an Historical building in Crockett County; contribute to the West Texas Rehabilitation Center Building fund; provide entertainment folders for children in Crockett County hospital; provide cushions for lawn furniture and elevated planting boxes for wheelchair patients at the Crockett County Care Center; contribute to Crockett County 4-H for lamb covers; provide for a Trauma kit for the Crockett County ambulance; assist with the Cystic Fibrosis drive in Crockett County; donate new toys for the Community Center toy store; donate a movie screen for the stage at the Civic Center, and donate toward entertainment fund at the Youth Center.

Mrs. Childress introduced a new member, Jane Richardson. There being no further business, the meeting was adjourned.

SON TO McBROOMS

Mr. and Mrs. Mickey McBroom of Houston are the parents of a son born July 23, in a Houston hospital. He weighed 7 pounds and eight ounces and has been named Daniel Shaun.

Grandparents are Carlene McBroom of Tyler, and the late Dan McBroom of Ozona, and Mr. and Mrs. W. L. Cranford of Tyler.

Ozonan enrolled in LVN class

The new class of vocational nursing students at Sul Ross University were guests at a luncheon, Sept. 2, hosted by the Licensed Vocational Nurses Assn. in the conference room at Big Bend Memorial Hospital.

Students enrolled in the program include Carol Carlisle of Ozona.

Girl Scout leaders in meeting

Crockett County Girl Scout leaders met Wednesday evening in the home of Thelma Janes.

Neighborhood Chairman Connie Nelson announced a fund-raising dinner October 25, for the Council in San Angelo. The meal will be served by scouts. Kathy Reavis, Cathy Carson, Hazel Allen and Charlotte Judd were appointed to plan the menu.

Leaders present were Terri Adams, Hazel Allen, Susie Deaton, Mrs. Janes, Kathy Reavis, Charlotte Judd, Nikki Easterwood, Pam Coates, Veva Vargas, Cynthia Ramos, and Peggy Phillips.

The next meeting will be October 7, and visitors are welcome. Mrs. Phillips won the door prize.

Committee to study engineering problem

A national plan to combat shortages of engineering faculty and post-graduate students is expected by fall, says the dean at the nation's largest college of engineering.

as A&M University said 2,500 engineering faculty are needed today in the nation's colleges. He feels the shortage of qualified faculty is at the heart of problems facing engineering educators.

tional steering committee appointed by the American Association of Engineering Societies to direct an industry-financed executive who will work on a government/industry/education-coordinated solution.

The Lion's Roar

By the Journalism Department Of Ozona High School

EDITOR-Erika Lee
STAFF MEMBERS-Wendy Hood, Mel Spiller, Sue Ellen Black, Vicky Vargas, Gail Hunnicutt, Leanna Kramer, Jana Harris, Stacy Chapman, Marilyn Wester

OHS VOCATIONAL AG

By-Marilyn Wester
The Ozona FFA Chapter held their class officer elections last week. They elected Mike Couch, president; Dale Perry, vice-president; Rowdy Holmsley, secretary; Will Hoover, treasurer; Terry Crawford, reporter; and Dan Bean, sentinal.

The members of the Ag Department are going to be very busy this year. They will begin feeding lambs the second half of September. There will be about 40 to 50 lambs on feed this year. The boys will also be working with Billy Reagor. All the feed for the lambs will come from Kothman's Feed Lot in Menard. Since most of the Ag members play football, a lot of the work will be done on the weekends. The show will be some time in January. Each person can show a maximum of 3 crossbred lambs and 3 fine wool lambs. This year the show will be aimed towards a commercial show, instead of the tall muscled ones. Also at the show, the students who do the best feeding job will be recognized.

This fall they will have Jr. and Sr. Chapter Conducting Teams. Then in the spring they will have grass judging, meat judging, wool judging, and possibly other judging teams. Mr. Hicks said that any help or suggestions are welcome.

PRIMARY VANDALISM

By-Mel Spiller
Vandalism in our schools have risen. The Ozona Primary has had the most vandalism in the school system. The Primary has been broken into 10-12 times in the past year. There has been damage to:

- Large plate glass windows in front.
- Almost every window in the doors on the 18 classrooms have been broken.
- The window in the office door has been broken 5 times.
- 6 to 8 outside windows have been broken.
- Damage to several doors and hardware and storage cabinets.
- Drink machines damaged several times.
- Equipment stolen-film

projectors, cassettes, coffee pots, and teaching aids from rooms.

As to the cost? They can't put dollar amount on it, but all these must be repaired, replaced, and things must be cleaned up. When I asked Mr. Probst what he thought about the vandalism he said, "If pride and respect were taught at home and at school, the attitude of the community would change and the damage and trouble in our community would slow down." If we all listen to this it may slow down and maybe stop Vandalism.

V.I.C.A. OFFICERS
This month new officers for V.I.C.A. were elected and the results are: Caterino V., president; Felix F., vice-president; Randy D., secretary; Henry D., reporter; Ruben P., parliamentarian and Stanley N., sergeant-at-arms.

The president and vice-president automatically go to VICA State Convention in San Antonio. Also, on Oct. 17, all officers go to fall leadership meetings. They attend these meetings to learn their duties and responsibilities of their offices and to better their club. This meeting will be held this year in Big Spring.

The VICA local chapter is planning to run 2 members for District office. To run for this you have to be a junior. If elected they will be in office for one year. Schools in the summer will help them learn their responsibilities and duties.

HOMECOMING WEEK

By-Vicky Vargas
This year the OHS Cheerleaders have planned a fun Homecoming Week schedule, which begins Monday, Sept. 20. On the first day the students and teachers who wish to participate should dress with funny socks and glasses. The second day is Reverse Day. This means that all guys dress as girls and the girls will dress as guys. This includes wearing makeup, dresses, dress shoes, purses, etc. for guys. The third day will be Masquerade Day which means that you can dress up as anything you want, such as Cinderella, Popeye, Ragedy Ann and Andy, etc. The fourth day will be Car Decor-

ation Day. Everyone should decorate their cars or help someone decorate their car with shoe polish, streamers, balloons, and signs. The last day which, will be Friday, Sept. 25, is Purple and Gold Day. Everyone should wear plenty of Purple and Gold. Prizes will be given for the most outstanding participants. Please show your spirit by participating. We would like to see more involved especially teachers and guys! There will be competition between the guys and girls to see who can build the most spirit. We've got Spirit, how about you???

HOMECOMING MUMS ON SALE NOW
By-Jana Harris
The senior class is selling Homecoming Mums to raise money for the senior trip at the end of the year.

The smallest mum is 8.50. The 9.50 mum has Ozona Lions Homecoming 1981 on the ribbons and the 10.50 mum has the above plus extra ribbons and a football and bell.

Please show some spirit and help support the senior class and the Ozona Lions by buying Homecoming mums. You may do so by contacting any senior.

THE IDEA OF FRIENDLY COMPETITION

By-Erika Lee
The idea of friendly competition is basically the theme of interscholastic athletics. The visiting team in any sport is a guest of the home team and is expected to be regarded as such. The attitude of sportsmanship should also be reflected toward the officials. These men are chosen by the competing teams to administer the rules of the games. Let's treat other schools and officials like we would want to be treated when we are the visiting team. This means being courteous, helpful, and friendly to any one person or team that is visiting Ozona. Let's make Ozona the school showing the most sportsmanship and courtesy in the 9-AA district.

FOOTBALL MANAGERS

By-Sue Ellen Black
The football managers for the Lions this year are Elsa Fierro, Mark Dudley, and Jack Moody. The coaches choose the football managers. Managers from the previous year are automatically elected again.

Some of the responsibilities of a manager are taking care of tees during games, carrying ice during timeouts, and sometimes they even participate in washing the boys football uniforms. The managers also play a big part in keeping the team's spirit up during games and workouts. The managers have a big job to do so let's all give them a hand!

TEEN COUNCIL OFFICERS ELECTED

By-Leanna Kramer
The members of the Civic Center Board, Jim Williams, Doyle Lovell, Elizabeth Upham, Wanda Dews, Belinda Wilkins, Chesta Stuart, and Garland Young elected six new members to the Teen Council. This year's Teen Council consists of two students from each of the four classifications of Ozona High School. Erika Lee and Jon

Adams are the new senior members. Other members are juniors, Henry Delgado and Darla Lovell, sophomores, Dennis Young and Joann Hearn, and freshmen, Frank Galan and Susan Scott.

The Teen Council is required to attend the first part of each monthly board meeting to report what the members of the Youth Center want to change or add to the schedule or facilities of the Civic Center. If you would like to add your ideas, be sure and contact one of the Teen Council members mentioned above.

SONG DEDICATIONS

"Shake a Leg" to Varlyn Aldridge
"Too Much Time on my Hands" to the study halls
"It keeps you Running" Girls P.E. Class
"Isn't She Beautiful" to Roland Pena
"Life in the Fast Lane" to Mr. Spiller
"Another one Bites the Dust" to the Sonora Broncos
"Never make your Move too Soon" to Will Hoover
"The Best of Times" to the 1981-82 Senior Class
"Winning" to the Ozona Fighting Lions

J.V. FOOTBALL

By-Leanna Kramer
Coach Porter has nothing but good feelings and high hopes for this year's junior varsity football team. When asked how his team is shaping up this year, Coach Porter replied, "We are improving everyday. The players are working hard and have good team spirit. They really want to win!"

Coach Porter is really impressed with the fine leadership shown by all the juniors on the team. He also remarked that there aren't many freshmen out this year, but the ones that are, are really trying hard.

Coach Porter expects good results from his team. He is especially impressed with the improved performance of some of his returning players. Roy Tambunga, Johnny Rodriguez, Zeke Martinez, Jene Wilton, and Gino Tambunga are just a few players whose performances are looking up this year. Coach Porter is also excited about this year's varsity team. His remark about the varsity was, "Great! We are going to have a great year."

LEADERSHIP SUMMER

By-Erika Lee
This past summer two of our fellow students helped direct various types of church camps. Seniors Dugan O' Bryant and Glenda Capps both had very interesting summers.

To help direct the camps, Dugan had to attend a Leadership Training Camp in Dallas, Texas. Dugan then went to Big Bend and helped to lead a Vacation Bible School. The last week in June, Dugan had an exciting trip to Aspendale, New Mexico, and from there he went to Paisano Royal Ambassadors (R.A.) Camp

which is near Alpine. At all of these camps Dugan helped or lead hikes, campfires, Bible studies, and camp crafts. "I enjoyed it and had a very moving experience," stated Dugan.

Glenda attended Paisano Girls in Action (G.A.) Camp where she and Wendy Hood played the piano. In August, Glenda also went to R.A. camp at Paisano where she played the piano and ran a concession stand. Glenda said she had a great time. Both of these students volunteered their time this summer to attend these camps to help others learn about God.

GOSSIP

New Name of the Week: B.A.C. to Stacy
Jon A., are you cold?
Mr. Spiller, is love great?
Hey, Stacy C. and Gail H., are ya'll super freakin' out?
Kent H., what seems to be the problem?
Hey, cheerleaders, is Felix really that scary?
Kristal, did you lose something Friday night at Sonora?
It seems that James Fierro resembles a volkswagen lately!
Hey, Jack Moody, do you really want to be a cheerleader?
Hey, Kathy S., what's that funky smell?
Laura Lee, have you gotten your love life straightened out yet?
Will Mason, do you always have trouble with seniors taking your money?
Hey, Haley, who loves ya baby?
Craig C., have you gotten over your summer romance yet?
Hey Willie, D is for drive, and R is for reverse!

MORE NEW FACES

By-Stacy Chapman
As the days pass by, the high school "press" notices more new faces in the classrooms. The one that caught our eye this week was Angela Sue King. She's a freshman and is fourteen years old. Angie was born in Southern California in 1967 and has lived in such towns as Odessa and Houston. She and her family moved to Ozona because her dad got transferred. He is now one of Ozona's deputies. Angie's first impression of Ozona was that "it was going to be very boring and that it was too quiet." When asked what she thought of it now, she said that she was really quite wrong about Ozona and she is really enjoying it, but it is a lot different than big cities. She likes it because she said "You can really get to know everyone, not just the people on your block." Angie has many hobbies such as reading and is interested in many sports like tennis, competitive swimming, and most school sports. Laughingly, Angie admitted that when she was smaller she used to collect rocks. While vacationing in Brownwood, Angie was riding horseback when she was thrown and broke her arm. She will not be participating in any sports this year, but is planning to

continue her activities next year. Angie has one little sister in the sixth grade named Suzy. She said their relationship was like normal, fighting sometimes but also having fun. Angie will be getting her license next summer and hopes to be driving a dark blue Z-28. Angie is very friendly and easy to get along with. I hope Ozona will really make her feel at home.

LEADING THE STUDENT BODY

By-Gail Hunnicutt
The 1981-82 president of the Ozona High School Student Council is Ernie Borrego. Ernie has been on the Student Council since he was a freshman. He was also freshman class vice-president, and junior class president.

The procedure for choosing Student Council officers starts by calling in previous Student Council members and nominating them for president, vice-president, secretary, and treasurer. To be eligible, they must have at least an overall B average. The ballot is then given to the student body where the person with the most votes is president, and the person with the next highest votes is vice-president. Varlyn Aldridge holds this office. They nominate three more people and use the same process to choose a secretary and treasurer. Jack Thompson and Elsa Fierro were chosen for these offices. Ernie's duties include helping the Student Council with Homecoming Week and the dance, and opening and closing the high school assemblies. Ernie says that if a student comes to him with an idea, that he will try his best to see that it happens, if possible. He wants to make this a better year for everyone. Some of the student's and the council's ideas for this year are getting a marquee for the school, hosting a powder-puff football game in the Spring, and having Victory dances after all of the home games.

Ernie was born on November sixth and will be eight years old. He has six sisters and is the only boy in his family. He plans to attend college, but is undecided where. He says that he loves children and would like to start a family when he is about twenty-five years old.

Some of Ernie's favorite things are the colors blue and maroon, English and Shop classes, driving around with friends and listening to music. His favorite thing of all is sports. His sophomore year, he was all-district first team, and last year he was first and second district All-West Texas and is a captain this year in football. He plays middle linebacker and fullback. He plays basketball and was all-district last year; he also runs track. His favorite song is "Winning" and that sounds like a great song to go with him. We know he will try his best to make this a great year for everyone.

WHAT WOULD YOU DO WITH A MILLION DOLLARS?

Christy Parks-I'd buy the school then close it down.
David Ledbetter-Buy me a mansion.

Sandra Hearne-Go buy a little of everything.
Kim Baker-Buy a house and some clothes.

Harvey Sanchez-Buy a swimming pool for Sandra.
David Badillo-Buy Bo Derek.

Ronnie Smith-Buy a candy apple red Corvette.
Haley Anderson-Spend it on junk.

Valerie Mahannah-Get out of Ozona and go to Wyoming.
Ramiro Trevino-Buy a Trans-Am with a good stereo

Dennis Young-Buy a Lamborghini and a house.
Gina Wilson-Buy a ranch

Joann Rodriguez-Buy a Lamborghini and a pool table
Monica Sanchez-Buy a Ferrari.

Marcia Moran-Buy a swimming pool
Rita DeLaRosa-Buy the best looking guy I could find!

Ernie Borrego-I'd go Crazy! (That's a senior for ya!)
Cathy Castro-Eat, drink, and rock and roll!

Sandra Borrego-I'd put it in the bank.
Donny Searcy-I'd fix up a street-rod with blowers and chrome.

Elisa Garza-Buy a Z-28
Adrian Tijerina-Put em in the bank

Mr. Spiller-Tour the world Mrs. Taliaferro-I'd spend a lot of it!
Mylene Najar-I'll tell you later!

Mr. Porter-I'd buy a house and put the rest in CD's to draw interest.

Mr. Sessom-Take five hundred thousand of it and put it in the bank and the other half would go to the people who need it.

Richard Garza-Buy a house and take a trip.
Sherry Buckner-Gosh man, buy me a car!

Kim Buie-Buy a Corvette.
Rowdy Holmsley-Buy a bunch of horses and a big ranch

Richard Witherspoon-Spend it, I guess.
Willie Payne-Spend it!
Gregory Fierro-Throw em away!

Mike Couch-Build my own car.
Robert Massey-Move away from home.

Allen Dews-Run for president!
Angie King-Spend it all!

A NEW FACE
By-Gail Hunnicutt
The new Ozona High School Ag. teacher is Ron Hicks. He is twenty-three years old and is single. He

was raised near Austin and his family still lives on a ranch in Medina. Mr. Hicks has an older sister. He attended Blinn Jr. College at Brenham on a football scholarship then attended and graduated from Texas A&M last fall. He has been in Ozona since the first of July and likes it very much. This is his first teaching job. Some of his duties are helping his students feed out lambs for the annual show, how to use power tools, how to weld, all about FFA, participate on judging teams, and learning about animal science related to ranching. The Ag. department is getting a new almond colored, four door, Chevrolet pick-up.

Some of Mr. Hick's hobbies are hunting, fishing, sports, especially jogging and basketball. He likes to stay in shape and likes to work outside. He likes country-western and pop music and can play the piano and organ. His favorite color is maroon and he likes all kinds of food, but prefers what he doesn't have to cook. He enjoys driving the Ozona Varsity Lion's equipment bus and keeping statistics for the games. He has no immediate future plans but says the most important thing to him is happiness. Let's all make him feel welcome. We are glad you are here, Mr. Hicks.

Lion's Roar Cont'd. ---

(CONTINUED FROM PG.8)

FOOTBALL HISTORY

Spirit and determination—that's what an Ozona Lion football team is made of. Twenty-seven years of tradition may be hard to live up to, but it's been done before and our 1981 Lions aren't about to settle for less. It all began with the team of 1954-55 coached by J. A. Pelto, Pete Hickman, and Sonny Cleere, and Brooks Dozier, was very successful. They were Bi-Dist. champs and came within two points of winning regional. "We almost made it"—that was the 1959-60 Lion team after losing district to Menard by two points. The 1960-61 Lions ran into a three-way tie for District 8-A. The following year another three-way tie took place, only for second place this time. 1962-63 put us third in district, 1965-64, fourth in district, and then back to second in district for the 1964-65 season. In 1965-66 the Lions were coached by Sam Mosley, W. F. Gerber, and Brooks Dozier. They ended the season second in district another year with eight wins and two losses. The 1967-68 Lions were coached by Sam Mosley and W. F. Gerber. In 1968-69 Coach Rip Sewell joined us when Coach Gerber left. This

was the year the Lions moved up to class AA.

That is all of the football history for this week. Be sure and look for the rest of it in next week's issue of the Lion's Roar.

Sue Ellen Black

LIONS LEAD THE WAY

By: Jana Harris
The Ozona Lions led the way to a 35-14 victory over the Midland Lee Rebels Friday night to place the Lions 2-0 for the season.

Touchdowns were made by Felix Flores, Carlos Borrego, Hector Leal, Greg Fierro to give the half-time score of 28-7. Then a touchdown in the third quarter by Ernie Borrego gave the Lions the 35-14 victory.

"We needed a real good running game and we had one Friday night especially from Felix Flores and Ernie Borrego. The offense moved real well and the offensive line blocked excellently. The defensive unit also did an excellent job in stopping Midland's backs," said Coach Don Sessom.

"The school and team spirit has been outstanding in the first two pep rallies and games. Everyone is working together. The entire school has played a part in our first two wins, let's make it continue!" stated Sessom.

Bow hunters prepare for archery season

Archery season for deer opens in most of Texas on Oct. 3, and in some counties on Oct. 1. "Bowbenders" can then be seen venturing forth in camouflage garb seeking to secure the family venison with only "stick and string."

Of the few hunters who are successful this fall, most will have begun preparations well beforehand. In fact, at least a month of preparation is needed for the serious bowhunter, claims Dr. Dwight Guynn, Texas Agricultural Extension Service wildlife specialist based here.

"It's not the same as the rifleman dusting off his rifle he hasn't fired since last winter and spending an afternoon sighting in before opening day," Guynn explains. "The bowhunter's

primitive weapon is more complicated to shoot than a rifle. It requires development of musculature and hand-eye coordination as well as exact execution of shooting form."

Guynn maintains this is only developed by long hours of practice well in advance of the season. Hence, the archer who hasn't taken his bow from its resting place in the closet since last hunting season must start promptly to get back in shape for the upcoming season.

Practice for the bowhunter should encompass variety to help accustom him to the myriad of potential hunting shots that may avail. Guynn says that means practice at different distances out to 45 yards. Then the archer should practice shooting from an elevated position if he expects to hunt from trees or elevated stands.

He emphasizes learning to pick a spot to shoot at instead of shooting at the entire animal. Also, practicing with animal targets instead of bulls-eye targets will enhance the skill of picking a spot.

Equipment tune up and replacement should also be done now, Guynn emphasizes. Bowstrings that are worn should be replaced. A spare bowstring is a must for all bowhunters. "You need only ask someone who accidentally touched a sharp arrowhead to his string to get a resounding confirmation that an extra string should be part of the bowhunter's paraphernalia," Guynn stresses.

He recommends checking arrows for straightness and to determine if any need reflecting. Hunting points should be touched up, resharpened or new blades inserted in component points. Cables and eccentric wheels on compound bows should be checked and cleaned before use this season.

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to authorize cities, towns and other taxing units to grant exemptions from ad valorem taxes on an unproductive, undeveloped or blighted area in order to encourage its development. The amendment would also allow the legislature to authorize a city or town to issue bonds or notes to finance this development and to pledge future increases in ad valorem tax revenues from the property in such areas to repay these bonds or notes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years as of November 15, 1981."

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the use of a portion of the excess revenues of the state for water development, water conservation, water quality enhancement, and flood control purposes; authorizing the use of the state's credit, not to exceed five hundred million dollars, to guarantee the bonds of cities, counties, towns, and other units of local government in the financing of projects for such purposes; increasing the interest rate that may be paid on previously approved, but unissued, state bonds; and authorizing a program to retire state bonds."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 38 proposes a constitutional amendment that would enable the legislature to grant to a state finance management committee the authority to manage state funds. Funds constitutionally dedicated to specific purposes would not be subject to committee management. The committee would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman of the Senate Finance Committee, Chairman of the House Appropriations Committee, Chairman of the Senate State Affairs Committee, and the Chairman of the House of Representatives Ways and Means Committee.

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 49 proposes a constitutional amendment that would exempt livestock and poultry from taxation. Currently, farm products in the hands of the producer and family supplies for home and farm use are exempt.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for the inclusion of livestock and poultry with farm products as exempt from taxation."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 81 authorizes the governing body of a county, city, school district or other political subdivisions to exempt from taxation a portion of the market value of a residence homestead. The portion exempted may be as much as 40% for 1982-1984; 30% for 1985-1987; and 20% for 1988 and after. The amount of an exemption may not be less than \$5,000 unless the legislature by general law prescribes other monetary restrictions on the amount of the exemption. An eligible adult is allowed to receive other applicable exemptions provided by law. An exception is made where ad valorem tax has previously been pledged for the payment of debt.

The amendment further directs the legislature to require that notice be given to property owners of a reasonable estimate of tax on their property in certain situations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a political subdivision to provide property tax relief for owners of residence homesteads and changing certain property tax administrative procedures."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment that would authorize the Veterans' Land Board to issue and sell an additional \$250,000,000 in bonds increasing the Veterans' Land Fund's total bond issuance authorization from \$700,000,000 to \$950,000,000. The amendment would increase the maximum interest payable by the state on these bonds from 6% to 10%, and permit an even higher rate, if specified by the legislature.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of additional bonds to finance the veterans' land program and to increase the maximum interest rate allowable on veterans' land fund bonds."

Anticipation of the hunt is all part of the approaching deer season, Guynn notes. Equipment checks and practice sessions at the archery range are enjoyable activities for the serious bowhunter. Preparing now prevents the last-minute rush and assures one is ready when that big buck steps into view from behind the brush capopy at 20 yards.

COUPLES GOLF

In couples golf play last week at the Country Club, the first place team was that of Barbara and Bob Wallace, and Bobbie and Jerry Fatout.

Second place team was Jimmie and Pete Jacoby and Katy and Demp Jones. In third were Sherry and Otis Holt and Geniece and Pleaf Childress, tied with Wanda and Byron Stuart and Janet and Jeffrey Stuart.

Nearest to pin on number 9 were Katy Jones and Otis Holt.

INMATES DISCOVER NEW OPPORTUNITIES AT TRAINING CENTER

About a dozen Texas prisoners are getting a headstart toward the day they re-enter the workforce.

At the Texas A&M University Research and Extension Center at Bryan, prisoners are learning to be apprentice utility linemen.

The training, conducted by the Electric Power Utilities Training Division of the Texas Engineering Extension Service, is designed to give the inmates job skills they can use upon their release. Extension teachers also go to the prison to teach building maintenance, lineman training and carpentry.

Kitty's Korner

(Continued From Page 1) can't manage to solve it on our own.

Nobody came to the budget hearing at Commissioners Court Monday. Shell Oil's Larry Curtis showed up just before noon and gave the court some insights into what HB 30 is going to do for taxes when property is reappraised in Crockett County. The court is going to wait until 1984 to reappraise property, provided they get the necessary extension.

The bill is going to force counties to reappraise all property at market value and tax it at 100% of valuation. This is going to severely penalize the homeowner.

Our court is of the opinion something will be done about ad valorem taxes before they

have to reappraise, taking a sort of head-in-the-sand attitude. He reported on some meetings he had sat in on in districts where the reappraisal had taken place and promised the court that if they had gone along with HB 30 and done the reappraisal this year the courtroom would have been far from empty for the hearing. The members of the court realize this, and they also realize the homeowners are the voters and not out-of-town landowners or oil properties owners. They are between the proverbial rock and hard place and if the reappraisal does come about they face the very real possibility of being turned out of office by the very same voters who voted "for" the amendment in the last election. This supports my theory on voting "against" all proposed constitutional amendments when you really don't

understand them and there are not very many I understand even remotely. I will understand when my house taxes go from \$200 a year to \$1,000, but I realize it is a distinct possibility if something is not done about ad valorem taxes.

SON TO CLARKS

Mr. and Mrs. Robert Clark are the parents of twin sons, born Sept. 9, in an Abilene hospital. Christopher weighed 4 pounds and 6 ounces and Michael weighed 6 pounds and 2 ounces. Grandparents are Mr. and Mrs. Robert G. Clark of Ozona and Mr. and Mrs. Freddie Martinez of Abilene.

Manufacturing firms in this country may improve productivity by studying the Japanese style of management rather than their technology.

AVISO PUBLICO
Breves Declaraciones Explicativas
De Las
ENMIENDAS CONSTITUCIONALES
PROPUESTAS
ELECCION ESPECIAL
3 DE NOVIEMBRE DE 1981

PROPOSICION NO. 1 EN LA BOLETA

Resolución Conjunta No. 8 del Senado propone una enmienda constitucional que permita a la legislatura autorizar a ciudades, pueblos y otras entidades fiscales conceder exenciones de impuestos por avalúo en una área no productiva, subdesarrollada o deteriorada para estimular su desarrollo. La enmienda también permitiría a la legislatura autorizar a una ciudad o a un pueblo emitir bonos o vales para financiar este desarrollo y enunciar futuros aumentos en los ingresos de impuestos por avalúo sobre la propiedad en dichas áreas para pagar estos bonos o vales.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza a ciudades, pueblos, y otras entidades fiscales estimular el mejoramiento, desarrollo, o redesarrollo de ciertas áreas por medio de exención en los impuestos sobre la propiedad y la emisión de bonos y vales."

PROPOSICION NO. 3 EN LA BOLETA

Resolución Conjunta No. 38 de la Cámara de Representantes propone una enmienda constitucional que autorice a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar fondos estatales. Los fondos destinados por la constitución a fines específicos no estarían sujetos a la administración del comité. El comité estaría compuesto del Gobernador, el Gobernador Teniente, el Presidente de la Cámara de Representantes, el Presidente del Comité de Finanzas del Senado, el Presidente del Comité de Asignaciones de la Cámara de Representantes, el Presidente del Comité de Asuntos de Estado y el Presidente del Comité de Medios y Arbitrios de la Cámara de Representantes.

PROPOSICION NO. 5 EN LA BOLETA

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar el gasto de ciertos fondos apropiados."

PROPOSICION NO. 4 EN LA BOLETA

Resolución Conjunta No. 6 de la Cámara de Representantes propone una enmienda constitucional que disponga que la mitad de los ingresos sobrantes de impuestos, sobre el límite de gastos dispuesto por el Artículo VIII, Sección 22, de la Constitución de Texas, sean depositados en un Fondo de Asistencia del Agua a ser usados como provea la ley, incluso en proyectos para el desarrollo y la conservación del agua, la mejoría de la calidad del agua, el control de inundaciones o para cualquier combinación de estos propósitos.

PROPOSICION NO. 6 EN LA BOLETA

Resolución Conjunta No. 81 de la Cámara de Representantes autoriza al cuerpo gobernante de un condado, una ciudad, un distrito escolar u otras subdivisiones políticas declarar libre de impuestos una porción del valor de mercado de un hogar de residencia. La porción libre de impuestos puede ser hasta 40% para el período 1982-1984; 30% para 1985-1987; y 20% para 1988 y los años siguientes. La cantidad de la exención no puede ser menos de \$5,000 a menos que la legislatura por ley general prescriba otras restricciones monetarias de la cantidad de exención. A un adulto elegible se le permite recibir otras exenciones aplicables previstas por la ley. Se hace excepción en caso de que los impuestos por avalúo hayan sido comprometidos previamente para el pago de deudas.

La enmienda además dirige a la legislatura que requiera que se les dé a los propietarios una estimación razonable de impuesto sobre su propiedad en ciertas situaciones.

PROPOSICION NO. 7 EN LA BOLETA

Resolución Conjunta No. 4 de la Cámara de Representantes propone una enmienda que autorice a la Junta de Terrenos para Veteranos poner en circulación y vender bonos adicionales en la cantidad de \$250,000,000 lo cual aumentaría de \$700,000,000 a \$950,000,000 la autorización total de circulación de bonos del Fondo de Terrenos para Veteranos. La enmienda aumentaría el interés máximo pagable por el estado por estos bonos de 6% a 10% y permitiría una tarifa aun más alta si fuera especificada por la legislatura.

PROPOSICION NO. 5 EN LA BOLETA

Resolución Conjunta No. 49 de la Cámara de Representantes propone una enmienda constitucional que dejaría libres de impuestos el ganado y las aves. Actualmente los productos agrícolas en manos del productor y las provisiones familiares para el uso de la casa y de la granja están libres de impuestos.

PROPOSICION NO. 4 EN LA BOLETA

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite incluir el ganado y las aves con los productos agrícolas libres de impuestos."

Benefit recipients should review earnings

People in the San Angelo area who receive Social Security benefits who also work should take some time soon to review their earnings for this year, Franklin Upp, social security district manager in San Angelo, said recently.

This review should be made, Upp said, so people will know where they stand in relation to the annual earnings test. This test is the measure used to determine the amount of benefits that should be paid a working beneficiary.

In general, a person is due all benefits for a year if his or her earnings do not exceed the annual exempt amount. For people under 65 all of 1981, the annual exempt amount is \$4,080 and for people 65 and over any part of 1981, the amount is \$5,500 Upp said.

The general rule is that \$1 in benefits is withheld for each \$2 of earnings above the annual exempt amount.

A person who expects his or her earnings to exceed the annual exempt amount should notify Social Security so that the appropriate amount of benefits can be withheld. This way, the person can avoid the possibility of having to repay any incorrectly paid benefits.

Mr. Upp said that people should remember that gross wages, not take home pay, count for purpose of the annual earnings test. On the other hand, a person whose earnings are considerably less than he or she expected should also notify Social Security.

In some such cases, benefits that were being withheld could be started again.

People who want more information should contact the San Angelo Social Security office. The people there will be glad to answer any questions. The office is located at 2214 Sherwood Way and the telephone number is 949-4608.

BOY TO WHITLEYS

Mr. and Mrs. Bruce Whitley are the parents of a son, born Friday, Sept. 11, at Angelo Community Hospital in San Angelo. The little boy weighed 7 pounds and 8 ounces and has been named Howard Bruce.

Grandparents are Mr. and Mrs. G. H. Whitley of Ozona, and Mr. and Mrs. Jimmy Moya of Shamrock.

BIBLICAL FISH HOLDS PROMISE AS FOOD SOURCE

Texas A&M University scientists are raising a fish that while two won't feed 5,000 people-holds promise as a food source for multitudes.

Tilapia, a striped, oval-bodied fish that resembles a sunfish and grows to about two pounds, is believed to be the same species spoken of in the Gospel of Matthew when Christ fed 5,000 followers from five loaves of bread and two fish. Also known as Saint Peter's fish, Tilapia are native to the Middle East and Africa and provide a cheap source of protein.

Crockett County Care Center News

BY ANN McCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Life in our Care Center has purred along with its regular events. And speaking of purring, we want to enlist the help of our young people (and those young at heart) in creating a new activity at our Center. We would like to proclaim Saturdays as Pet Day. We would like for you to bring to our living room your loveable, cuddly pets. The only rules about bringing them inside will be that the animals be vaccinated and licensed and that you be responsible for keeping up with them. Naturally, reason will need to prevail. We do not want to mix cats and dogs and create a big fight and we ask that if your animals are not small enough to be a lap animal that you bring it to the front patio and let the residents come outside to pet them. The key to the whole idea is for the residents to be able to hold and pet them. A wagging tail and a warm, friendly greeting may do wonders to brighten a resident's day!

Last week's events began on Sunday with services by Rev. Larry Bailey of the First United Methodist Church. Seven members of the Lillian Henderson Sunday School class accompanied him. A short sermon and lots of good songs were the order of the day.

First place winner of our Tuesday and Friday bingo was Gertrude Daniels. She won a gift certificate from the Teacher Store. Second place prize went to Paul Cavin.

Our Bible study on Wednesday was on the life of the early church. Our Thursday reading group continued with the *Story of My Life* by Helen Keller.

Thursday mornings are beauty shop day and we are so proud to have Doris Hoffman helping us. However, Doris needs some co-workers. So, if you can spare any time on Thursday mornings, our beauty shop would love to have you. The requirement is not that you be "good with hair" but that you have willing fingers.

And, while on the subject of fingers, you should see some of our resident's fingers go during our exercise programs at 11:30 each day. We may not win any dance contests, but we surely have a good time trying.

We were pleased to have Lorraine Hyde and Marie Walker, representing members of the Faith Lutheran Church, come with eight dozen cookies and twenty bibs. Thanks to all the church ladies who contributed to this project.

Margie Coates sent robes, bed jackets, and pajamas last week. They were put to immediate use. Thoughtful gifts like these are what keeps our center going.

Another gift came this week from ladies of the Ozona National Bank. They sent six corsages. Imagine the thrill of wearing a corsage, especially on your birthday, which was the case with Maude Pettit.

We ended our week with a residents' council meeting with six members in attendance. We discussed the use of our most recently donated large-print reading materials, the fact that we hoped Saturdays would become Pet Day, and the best location for our domino games. We had Frances Borrego volunteer to be our new fish feeder with Maude Pettit volunteering to remind her each morning. (Maude can do this as she plays the piano).

Remember, next Monday is the day we see if we can uncover some talent for ceramics. If you can come by at 3:30, come join us! Also, do not forget us if you can help in the beauty shop on Thursday mornings, and if you can bring a pet for our residents to pet on Saturdays, please do so.

MINICOMPUTER USE INCREASES WORKLOAD OF BIGGER COMPUTERS

The growing use of minicomputers is increasing the workload of the giant, more sophisticated computers like the two owned by the Texas Engineering Experiment Station (TEES) and used by agencies throughout the state.

Dr. Dick B. Simmons, director of the Data Processing Center located on the Texas A&M University campus, said he encourages agencies and departments contracting with his center to buy their own small computers. In the long run, it will mean more work for the bigger machines.

"They become computer-oriented and discover more and more jobs the computer can do. They also discover that their minicomputers cannot do all they need them to," he said.

Approximately 10 percent of the center's work, which involves two large computer systems, is done for state agencies and universities from Alpine to Amarillo through telephone lines. The institutions include the University of Texas at Tyler, Blinn College in Brenham, Sul Ross State University in Alpine and the Texas State Technical Institute in Waco, the Texas Industrial Commission, Texas Youth Council and the State Auditor's Office.

\$500 Reward
for apprehension and conviction of guilty parties to every theft of livestock in Crockett County - except that no officer of Crockett County may claim the reward.

Sheriff, Crockett Co.

Billy Mills

Lawn care for hot weather

Current hot, dry conditions pose many problems for homeowners, and lawn care during times of stress is one of the most difficult to deal with. Billy Reagor, county agent with the Texas Agricultural Extension Service, Texas A&M University System, offers some practical advice to help homeowners get their lawns through the remainder of the summer.

Where water is limited for

lawn use, the agent suggests watering only when the lawn shows signs of stress, such as wilting or discoloration. Soak the lawn about 3 or 4 inches deep to encourage deep rooting, stronger plants. Ideally, water lawns early in the morning to incorporate any dew which might be present and to reduce evaporative loss.

When water is available, the agent recommends mowing at a height of 2½ to 3 inches at 10 to 14-day intervals.

If you cannot water the lawn, mowing at a height of 3 to 4 inches and only when the lawn becomes unsightly is the best practice. Mowing at this height will allow common St. Augustine and bermudagrass to mature and produce seed. Shredding the seedstalks with a mower in late fall or winter will allow seed to revitalize the lawn next spring.

The agent also recommends little or no fertilizer during the summer, and an active insect and disease control program to protect against further damage. In southern areas, chinch bugs can be a problem during dry weather. Chinch bug damage can be distinguished from drought injury by the yellowish, irregular patterns of infested areas.

Selenium—do you get enough?

Selenium—do you get enough? It's an "unfair" question to many who haven't yet heard of selenium, but it's one way to call a bit more realistic attention to this latest trace mineral which is already receiving a great deal of attention in some quarters, says Dr. Cass Ryan-Crowe, a food and nutrition specialist.

Ryan-Crowe is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Actually no one really knows how much selenium people need.

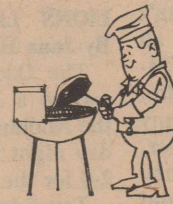

Selenium functions a lot like vitamin E—as an antioxidant in the body. Simply put, that means that a selenium-containing enzyme is believed to protect the cell membrane and the hemoglobin in red blood cells from oxidative changes (like a car rusting) or from breakdown, the specialist explains.

Americans who eat a variety of foods from both plant and animal sources probably get enough selenium to meet the body's needs, she says.

Selenium amounts available from plant foods depend on the amount of it in the soil, along with amounts that may be lost during milling of grain and in food processing and preparation.

No Recommended Dietary Allowance has been established for selenium because researchers need more information about how selenium functions in the human body before recommendations are possible, Ryan-Crowe adds.

This dependable energy saving Frigidaire Laundry Pair can handle big family-size loads—up to a full 18 pounds.

See a Demonstration TODAY!

Washer offers dependable cleaning power — even lets you conserve hot water and detergent

- No need to waste hot water. This Frigidaire Washer features a Water Level selector that lets you match the amount of water to the size of your washload.
- Depend on Frigidaire to keep lint from settling back on your clothes with the Lint Filter which snaps in and out for easy cleaning.
- New horizontal cleaning action passes clothes under the recirculating filter 8 to 14 times each cycle. The new system is equally effective for small, average or large loads.

Dryer puts big drying capacity within easy reach

- For easy loading and unloading, the big oversize door opening — one of the largest in the industry — is positioned a comfortable 18 inches off the floor.
- For efficient drying, without hot spots that can damage fabrics, Frigidaire gently pulls air through your clothes.
- For big-family wash loads this Frigidaire dryer provides gentle fabric care for up to 18 pounds of laundry.

Caffeinism is too much of a good thing

When caffeine was first introduced to the Western world it was considered to be an intoxicating drug, and was ranked alongside morphine as dangerous to health. Nevertheless, coffee, which contains more caffeine than any other common beverage, has gained social acceptance. It is now one of the most popular drinks in America.

Caffeine is a potent drug. It is a central nervous system stimulant, a heart muscle stimulant, a stimulant of stomach acid, and it increases the frequency of urination. As drugs go it is safe when used in moderation, but too much of it will cause unwanted and even dangerous side-effects, says the Texas Medical Association (TMA).

Low doses of caffeine, one or two cups of coffee per day, can have desirable effects. It increases alertness, reduces drowsiness and lessens fatigue. But heavy doses of caffeine produce the syndrome known as "caffeinism."

Caffeinism is a collection of symptoms brought about by too much caffeine. Just how much is too much?

According to the American Dietetic Association, 500 mg of caffeine, or four cups of coffee per day, is a heavy dose for most people. Tea contains half as much caffeine as coffee, and cola drinks even less. Caffeine's effects peak after about one hour, and last for approximately three hours. The more caffeine you regularly consume, the greater your tolerance for it will be.

Symptoms of caffeinism include nervousness, anxiety, irritability, headaches, muscle twitches, insomnia, stomach disturbances, palpitations, mental confusion and even delirium, with higher doses.

Caffeinism can be easily mistaken for chronic anxiety and it can also worsen existing symptoms of anxiety and depression. Although caffeine is a stimulant, long-term heavy use has a "rebound effect" and causes depression. Regular users may not even notice these symptoms or associate them with caffeine.

Children and elderly individuals are prime candidates for caffeinism. As we age our tolerance for caffeine lessens, so we are more apt to

suffer the effects of caffeinism at lower doses. Children, whose body weights are lower than adults', may experience caffeinism with as few as three cola drinks per day.

Caffeine is addictive. If it is eliminated, habitual heavy users will experience withdrawal symptoms such as sluggishness and "caffeine headache." Symptoms disappear by taking more caffeine—a vicious cycle. That aspirin which seems to help your headache actually works because of the caffeine contained in many headache preparations.

Happily for caffeine addicts, caffeine withdrawal only lasts a few days. It may be time to think twice about that second cup of morning coffee.

Lost your automobile certificate of title? To replace a lost certificate of title, contact the county tax collector. He will provide an affidavit for you to fill out. Then your new title will arrive in the mail later.

County 4-H clubs organize for year

The Crockett County 4-H Clubs met Monday night with their adult leaders and elected officers for the coming year. The groups planned times and places for upcoming meetings.

Larry Bailey, Pon Seahorn and Larry Braden are adult leaders for the intermediate group. Officers are Cody Sutton, president; Missy Bishop, vice-president; Michelle Lamber, secretary; Stacy Winkley, reporter; Tammie Reager and Andy Stokes, council delegates.

Junior High 4-H leaders are Jeannie Thompson, Frances Denman, Lloyd and Glenda Winkley, Royce and Brenda Newton, Julie Vandiver, Roberta Schoenhals, Jim and Ethel McCrohan, Judy Reager, Joe Everett, Mary Jo Patrick, and Carol Dunn. Officers are Jody Everett, president; Vickie Reager, vice-president; David Lovell, secretary; Bonnie Cameron, reporter, and Julie Reager and John Tom Stokes, council delegates.

Senior High leaders are Susie Everett, Bob Childress, Joe Couch, John Parks and Rob Hicks. Officers are Bobbie Acton, president; Michelle Couch, vice-president; Mike Couch, secretary; Cindy Reavis, reporter, and Will Mason, council delegate.

The clubs will hold their regular monthly meetings during the first week of October. October 4-10 is National 4-H Week. The Intermediate and Jr. High

Mrs. Hood wins contest

Winner of the Stockman football contest this week was Doris Hood, who only missed one game.

She was tied with Jimmy Tambunga until Monday night's game between Oakland and Minnesota. Both picked Oakland to win in the tie-breaker, but Mrs. Hood came the nearest to the actual score.

Day care center proposed

The United Methodist Church is conducting a survey to determine the need for a day care center. The center will meet all requirements as published in the "Minimum Standards" booklet, published by the Texas Department of Human Resources.

At this time, the intent is to provide child care from approximately 7:45 a.m., until 5:30 p.m. Children may stay all day, half a day, or for a few hours. The center would be located in the Methodist Church building.

Anyone interested in having their child in such a facility may call the church office, 2-3060, during morning hours or Rev. Larry Bailey in late afternoon hours, 2-2032.

You've earned your Wings!

Good-looking, Hardworking Red Wings

"My new Pecos Red Wings give me a heel-hugging fit and on-the-job comfort. No wonder they're America's top-selling pull-on. Get the best. Get Red Wings."

Watson's Red Wings

Clubs will meet on Monday, October 5 at 6:00 p.m. and 7:30 p.m. respectively. The Senior High Club will meet on Wednesday, October 7, at 7:30 p.m.

Frying the proud catch

Frying the "proud catch" over an open campfire is one thing, but cooking it at home may be quite another, says Annette Redell Hegen, a seafood consumer education specialist.

Excitement and exhaustion of the moment makes up for lack of cooking expertise at the campsite, but "doing the proud catch justice" at home naturally carries a bit more responsibility with it, the specialist reminds.

For the at-home cook who wishes to "live up" to the almost-certain expectations for this cooking feat, Hegen has a sure-fire technique: "Sesame Fried Fish."

"Pan-frying is the all-time favorite way of preparing fish, and corn meal is the traditional coating used in Texas," she carefully explains.

"However, pan-fried fish takes on a new dimension when prepared with the method below suggested by the Texas A&M Marine Advisory Service," Hegen continues.

"Although the recipe requires more ingredients than a fisherman normally carries on his trip, it's perfect, remember, for the grand meal back home."

"Oh, yes, and just in case that touted bait or new lure didn't work after all, go 'fishing' in a seafood market to get the items you need

Sports Fans

I BET YOU DIDN'T KNOW

By Jerry Lay

One of the most amazing records in the National Football League is the one set by Paul Hornung in 1960. Hornung scored more points in one season (176) than any other player in NFL history and it's an amazing record when you consider these 2 facts. First, Hornung set the all-time NFL scoring record when teams played only 12 games a year not 16 like today. And second, despite the additional games today and all the years that have elapsed since 1960, nobody has ever come close to breaking Hornung's record. In fact, nobody else has ever come within 38 points of Hornung's mark.

Unbelievably, in a National Football League game in 1943 between Detroit and Chicago, Detroit had minus 53 yards rushing for the day yet won the game, 7-0. That's hard to believe, but it's true.

Which National Football League team has gone the longest without making the playoffs? Answer is the New York Giants.

I bet you didn't know... L-B Motor Co. is the place to go for that new school car for your youngster. Come by and order or select from our cars, now!
