Kunkel services held here

Funeral services for Annie Ardena Kunkel, 73, were held Saturday at 2:00 p.m. in the Ozona United Methodist Church, with burial in Cedar Hill Cemetery under the direction of Sizemore Funeral Home.

Mrs. Kunkel died at 6:30 p.m. Thursday, March 25, in St. John's Hospital in San Angelo, where she had been a patient for about a month.

She was born May 13, 1908 in Evant. She married Herbert Kunkel April 9, 1929 in Pottsville. She had been a resident of Ozona since 1935. She was a member of Ozona United Methodist Church, the Pandale Study Club and the Ozona Garden Club.

Survivors include her husband, of Ozona; her father, Luther Ballard of Stephenville; two sisters, Lorena Kozak and Idella Carmichael both of Fort Worth, and one brother, Woodrow Ballard, of Stephenville.

Annual relays are Friday

The 30th Annual Ozona Lion Relays will be held here Friday, April 2. The Lions will play host to Reagan County, Coahoma, Crane, McCamey, Iraan and their junior high teams (seventh and eighth graders).

L.B.T. Sikes, longtime Superintendent of Schools here, will be the meet's honorary referee, and everybody is invited to come by for a visit.

Events get underway with field events at 2:30 p.m. with running preliminaries set for 4:00.

The finals get underway at 7:00 o'clock, with trophy presentation set for 9:00 under the lights.

Softball meet to set rules

A Rules Committee meeting for the Men's Slow-Pitch Softball Association is scheduled to be held Thursday night at 8:00 p.m. in the Fesco Building. The playing rules will be the main topic of the meeting. The voting member of each team, or his alternate, should be present at the meeting.

The representatives from Ladd Petroleum and J. Cleo Thompson need to turn in their list of officials to Greg Stuart. Any team who has not turned in a roster should do so at the Thursday meeting.

Although the entry deadline for teams has passed, any team or player interested in joining the association is still welcome.

Gardner joins local company

Frank Gardner, 22, has joined Reed Rock Bit Co. as a Sales representative in the rock bit manufacturer's Ozona office.

Gardner is a recent graduate of Eastern New Mexico University in Fort Portal, N.M. He holds a bachelor's in business administration and agricultural business.

THIS ATTRACTIVE SIGN was donated and placed on the high school campus by the Ozona High School Student Council. The council is also in charge of placing announcements on the sign. The top of the sign is done in the school colors of purple and gold and features the traditional Ozona Lion.

Ozona Lions continue to dominate track scene

The Ozona Lions continued to dominate the West Texas track scene with a smashing victory at the San Angelo Relays Saturday. The Lions roared to six first places and set two meet records. They will be odds on favorites to win their own meet here Friday.

Richard Garza won first place in the 3200 meter run and set a new record with a sizzling 10:09.7. The other meet record was set by the

400 meter relay team of Felix Flores, Larry Payne, David Badillo and Willie Payne. They ran it in a record-breaking 43.86.

Larry Payne won first in the 400 meter dash with 49.95 and ran a leg on the first place 1600 meter relay team, plus getting a sixth place in the long jump.

Garza got another first place in the 1600 meter run with a time of 4:45.2. Marcelo Hernandez got the other

first place for the Lions in the 800 meter dash with a time of 2:01.9 and came in fourth in the 400 meter dash with 51.7.

Kelly Buckner came in second in the 110 meter hurdles with 15.06 and Mark Vallejo was third with 15.20. Vallejo came in second in the intermediate hurdles with 39.05. Vallejo and Hernandez also ran on the first place 1600 meter relay team, along with Greg Fierro.

Willie Payne placed fifth in

the 100 meter dash and Harvey Huerca placed fifth in the discus. David Badillo got a sixth place in the pole vault.

The Lions racked up 112 points for the victory. Cisco came in a distant second with 61 points. Junction was third with 45 and the remaining teams were much further back.

The Lions and Lion fans braved bone-chilling weather in capturing their fifth meet title for 1982 and their 13th consecutive regular season victory.

Coach Rip Sewell said the Lion fans dominated the grandstands as much as the Lions dominated the field. He said "I was really proud of the fans, but just as proud of the fans, because the weather was horrible. You have to have lots of pride to accomplish what the Lions and their fans did at San Angelo."

Childress represents Federal Land Bank

Pleas L. Childress, Jr. of Ozona has just returned from Houston where he represented the Federal Land Bank Association of Sonora at the 37th Annual Stockholders' Meeting of the Federal Land Bank of Texas. The meeting, held at the Westin Oaks Hotel, was attended by members of the 56 Federal Land Bank Associations in Texas. There were approximately 700 persons in attendance at the March 19 meeting.

In his report to the stockholders, Thomas H. Benson, Land Bank president, said that the demand for loans

made 1981 the largest year in the Bank's history, with 3,638 loans closed for a total of \$408.2 million. This compares to 1980 figures of 3,774 loans closed for a total of \$322.3 million.

"While we see some real problems in extending credit, we do not see the demand lessening, and anticipate that our growth will continue," Benson said.

"In many sections of the state we are the only active long-term lender," he continued. "This we view as an opportunity as well as an awesome responsibility." Keynote speaker for the

meeting was Frank Naylor, Jr., under secretary for Small Communities and Rural Development, United States Department of Agriculture, who said that people working in agriculture are paying more than their fair share for a economy and high-cost programs that are running out of control.

"There's a severe problem in agriculture today," Naylor said. "And many farmers are facing their second or third year of negative cash flow."

"We can't continue to face high interest rates that are two to three points higher than we can afford."

The Federal Land Bank of Texas makes long-term loans on farms, ranches and rural residences and currently has 39,059 loans for approximately \$2.1 billion outstanding.

The Federal Land Bank Association of Sonora makes and services loans in this area.

Members of the board of directors are: Lee F. Allison, Frank Bond, Pleas L. Childress, Jr., Otis Deal, Frank F. McMullan, Glen Richardson and James T. Williams, Jr.

Others attending the meeting from this area were A. E. Prugel and Wade A. Mosley, Manager, Otis Deal, Lee F. Allison and James T. Williams, Jr.

Absentee voting brisk this week

Absentee voting for the school board election Saturday, has been brisk this week, according to County Clerk David Weant. A total of 85 persons had cast absentee ballots as of noon Tuesday with the absentee polls to close at 5:00 p.m. The polls will open at 8:00 a.m. Saturday with all voters casting ballots at the courthouse. Closing time is 7:00 p.m.

Seven men are running for the two places on the board, Terry Lee, Gary B. Mitchell, Reid Holmsley, Rudy R. Martinez, Jr., Robert G. Flores, Jim House and Bob Childress. Retiring board members are Joe Bean and Sam Perner.

Candidates were also certified for the Democratic Primary this week. The election will take place May 1, with polling places in each precinct. There are only two races, locally, for Crockett County Commissioner, precincts two and four. The winners of the primary will automatically take office January 1, 1983, as they have no opposition in the general election in November.

In precinct 2, B. W. Stuart, the incumbent commissioner is being opposed by Pleas Childress, III, local rancher and businessman. Commissioner, precinct 4, Jesus (Chuy) Castro, has opposition from Matt Gutierrez, market manager at Jim's Foodway.

All other local officials are running unopposed, including 112th District Judge Troy Williams. Drawing no opposition in November are County Judge John R. Jones, District/County Clerk David H. Weant, County Treasurer Jim Dudley, and Justice of the Peace A. O. Fields.

The race for United States Senator tops the ballot with incumbent Lloyd Bentsen opposed by Joe Sullivan of San Antonio. The winner will face Republican opposition in November.

Charles S. Stough faces no opposition in his bid to be the Democratic candidate for U.S. Representative, District 21, but he faces an uphill battle in the general election against incumbent Republi-

can representative Tom Loeffler.

A host of hopefuls are vying for the Democratic nomination for Governor. Among these are David L. Young, Bob Armstrong, Mark White, Don Beagle, Ray Allen Mayo and Buddy Temple. The winner will go up against Republican Governor Bill Clements in the fall.

Lieutenant Governor Bill Hobby is opposed in his bid for re-election by Troy Skates. The winner will have Republican opposition in the general election.

There are four candidates on the ballot for Attorney General, Mark White's current position. John Hannah, Max Sherman, Jack Ogg and Jim Mattox are on the ballot.

Bob Bullock is opposed in his bid for re-election to Comptroller of Public Accounts by former State Treasurer Robert Calvert. Four candidates are on the ballot for State Treasurer, Warren G. Harding, Ann Richards, Lane Denton and John R. Cutright.

Pete Snelson, who is presently serving as State Senator from this district, has three opponents in his bid for Commissioner of General Land Office, Garry Mauro, George Fore and Dan Kubiak.

Reagan Brown has opposition for Commissioner of Agriculture from Jim Hightower, James E. Nugent is opposed for Railroad Commissioner by Ralph Pacheco.

A host of Supreme Court Justices and judges appear on the ballot. The only Judge drawing no opposition is John F. (Jack) Onion. Most will draw opposition in the General Election.

Bill Sims and W. B. Rubey are on the ballot for Snelson's old job of State Senator, District 25.

In a strange turn of events, there will be no candidate for State Representative on the Democratic Primary ballot. Crockett County has been moved from District 70 to District 67. Gerald Geistweid of Mason presently represents this district and he is a Republican.

Horse training to be featured

Crockett County horsemen attending the annual Horse Short Course at Texas A&M University April 4-6 will be treated to two special horse training sessions, says Billy Reagor, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Leading off the short course at 6:30 p.m. the first day will be a session on training horses in the snaffle bit featuring Bobby Ingersoll, a professional horse trainer from Pleasant Grove, Calif. He will demonstrate the step-by-step approach for making young horses into working cow horses. Demonstration runs will be made by several horses entered in the 1982 Texas Reined Cow Horse Maturity.

The second horse training session will be a 1:30 p.m. April 6 and will conclude the annual short course. The

session will deal with training the western riding horse and will be conducted by Buddy Roulston, a professional horse trainer from Brenham. He will demonstrate the basics of biting, riding and training horses to prepare them for western riding. Demonstration runs will be made by "Scotchetta Lee," winner of the Junior Western Riding Class at the 1981 World Quarter Horse Show.

Discussions on various phases of horse production and management will highlight a day-and-a-half program beginning at 8:20 a.m. April 5, adds the agent.

Speakers include officials of Texas A&M's Department of Animal Science and College of Veterinary Medicine

Registration details for the horse short course are available at the county Extension Office, adds Reagor.

OZONA EYESORE-Abandoned automobiles like this one litter the streets of Ozona in all parts of town. The Texas Litter Abatement Act, which became effective

January 1, gives county officials the authority to do away with these vehicles and the Crockett County Commissioners Court plans to see that the act is enforced.

GOVERNOR KING SINGS SUPPLY-SIDE HYMN

By Edwin Feulner

Massachusetts Senator Edward M. Kennedy should have been pleased.

Governor Edward J. King, Bay State Governor and a fellow Democrat, had been invited to testify before the Joint Economic Committee of Congress. He was bringing good news to the committee: after a decade of painful decline — marked by above-average unemployment, plummeting personal income, the loss of 36,000 manufacturing jobs, and skyrocketing taxes — the state that had been nicknamed "Taxachusetts" was on the economic rise again.

This should have been a source of pride to Senator Kennedy. Instead, it was a political embarrassment, since Governor King was there to tell the Congress that the Bay State's "great American success story" was based on the same economic medicine proposed by the Reagan administration: a combination of tax cuts, regulatory reform, and cutting big government back to manageable size.

How bad was the Massachusetts economy before Governor King launched his economic recovery program?

Between 1970 and 1978, Massachusetts climbed from twenty-second nationally to fifth in terms of its overall tax burden. Welfare costs had grown out of control, consuming one out of every three tax dollars. And manufacturing jobs, especially in the high technology industries which surround the metropolitan Boston area and comprise approximately one-third of the state's entire manufacturing force, were leaving in droves — drying up sources of revenue and leading to additional tax increases, as state officials grappled for revenues to meet ballooning costs.

What did Governor King do? Among other things:

- instituted a program of regulatory reform;
- reduced the state's bureaucracy by approximately 15 percent;

- tightened up on welfare eligibility requirements, cracked down against welfare fraud, instituted a work incentive program, and simultaneously managed to raise benefits for the truly needy;
- reduced income taxes, capital gains taxes, real estate taxes, and unemployment compensation taxes;
- and instituted a pioneering tax cut program for home and apartment renters.

As a result of the program, more than 200,000 new jobs have been created in the state since 1978, unemployment has fallen below the national average, and the state is no longer running deeply in the red.

As K. Heinz Muehlman, chief economist for Associated Industries of Massachusetts, commented recently: "While other states have passed tax increases to cover growing deficits, 'Massachusetts not only lowered its taxes substantially but is expected to generate a modest surplus.'"

Governor King was more blunt: "... The decreasing rate of taxation has brought about the revitalization of our economy and a growth in personal income that is unprecedented in our state's history."

It's a shame this practical demonstration of conservative economic policy at work caused Senator Kennedy so much grief. It obviously would have made him happier if the Massachusetts governor had come before Congress and declared supply-side economics a dismal failure.

of all things

SINCE 1959, HUMAN-POWERED FLIGHT ENTHUSIASTS HAVE VIED FOR A PRIZE OF \$7,000 OFFERED BY BRITISH INDUSTRIALIST HENRY KREMER FOR THE FIRST MAN-POWERED AIRCRAFT TO COMPLETE A FIGURE EIGHT COURSE AROUND TWO PYLONS HALF A MILE APART, CLEARING A TEN-FOOT-HIGH OBSTACLE AT START AND FINISH. AFTER MANY FAILURES, SOME QUESTIONED WHETHER THE FEAT WAS POSSIBLE, BUT STILL THEY TRIED. ON AUGUST 23, 1977, AT AN AIRPORT NEAR SHAFTER, CALIFORNIA, 24-YEAR-OLD BRYAN ALLEN PEDALLED THE GOSSAMER CONDOR, 96 FEET IN WINGSPAN AND WEIGHING ONLY 70 POUNDS, AROUND THE COURSE. HE PASSED OVER THE FINAL OBSTACLE WITH FEET TO SPARE.

PRESENTED BY THE STATE BAR OF TEXAS

Q: I am divorced. My former wife has remarried and her new husband wants to adopt my son. Is there any way I can prevent this from happening?

A: Before your wife's new husband can adopt your child, your parental rights to the child must first be terminated. If you do not agree to the termination, there must be a trial in which they must show, by clear and convincing evidence, that termination of your parental rights is in the child's best interest.

The Court will examine how you and your child relate, whether you have made your support payments, and whether your general behavior toward society has been harmless. Unless the Court finds your relationship to your son is clearly detrimental to him, the Court will not terminate your rights nor allow the adoption.

Q: I was cited for speeding by an officer using radar in his car as he approached me. Although I am not guilty, I accepted the judge's suggestion to plead 'No Contest'. I was found guilty and assessed a fine. I want to appeal. Must I hire an attorney and post bond? Isn't there an easier way?

A: There is no easier way. You must protect your appeal by posting bond and observing the appellate timetable. Since punishment was assessed on a no contest plea, the case must go to the County Court and be tried again.

Q: I am desperate. My husband filed for divorce after 34 years of marriage and for the first time in my life I must look for employment. My husband earns over \$50,000 a year. Will the judge take into consideration my age, the length of my marriage, and the fact that my husband had an affair, or will our property be divided 50-50?

A: If your lawyer presents them, the court will take into consideration such factors as your future needs, the benefits you would receive by staying married and fault for breakup of the marriage when dividing the community property. The court could award you more than half, but could not award you so much that it would be a penalty to your husband for wanting a divorce.

Q: Who inherits property when a man dies childless and without a will? Does the state make distribution of property?

A: State law determines inheritance when a death is intestate — that is, without a will. The state does not actually distribute the assets, however. An administrator of the estate must be appointed by the probate judge, and that person makes an inventory of the estate and then pays debts and taxes and distributes the balance to the heir. In this case, the widow inherits when a married man dies childless.

Q: Several years ago I divorced my husband after 21 years of marriage. I have since married another man. My former husband is now retiring from his civil service job. Am I entitled to any of his retirement benefits?

A: The Decree of Divorce will determine your claim to his retirement. Unless the benefits were specifically awarded, certain retirement proceeds remain the joint property of the spouses after divorce. Some ex-wives have been able to claim a portion based on the years of marriage in a community property state. However, certain benefits, such as railroad retirement and VA disability are not divisible as community property, regardless of the order of the state court.

Q: Suppose a girl is 18 years of age or older. Can her parents keep her from the guy she loves by force or by threats of bodily harm? If not, what kind of action can she take against her parents? Where can she turn for help?

A: A girl past her 18th birthday is legally an adult and may

make her own decisions. Your parents have no more legal right to threaten or restrain you than they do to affect any other adult you know.

Attorneys, as officers of the court, often know of resources in your community where you can discuss this problem, perhaps at a neighborhood mental health office or at a battered women's shelter. If the situation is severe, you may see the county attorney to discuss bringing charges of assault against your parents.

Q: My husband and his ex-wife never went to court but made an out-of-court settlement when they were divorced. Although there was no specified amount he was to pay in child support, he has sent her \$300 each month. Now he has lost his job and we have no income. Is he required to continue sending her the money? Could he be sent to jail?

A: Whether or not a couple has a court hearing, there must be a formal divorce decree on file, or their marriage is not dissolved.

The decree should bear some statement concerning child support. If the amount is not specified, he will not be held in contempt for failing to pay \$300. The Decree must be read carefully, however, to determine what general level of support he is required to meet.

Q: Years ago, my elderly father deeded his home and income producing property to me, but he retained possession and benefits for his lifetime. Now he has married a young woman and wants to leave everything to her. Are the earlier deeds binding, or can he change them? Also, can he sell any of the property without my approval and signature?

A: Once property is formally conveyed to you by deed, only you can sell it. Please be certain the deeds are recorded in every county where the land lies.

Your father's retained life estate gives him the benefits and occupancy he reserved, but no rights to leave the land to another person.

You should be aware that your step-mother, as widow, may have some right to occupy the home-stand on your father's death. Ask your attorney to check that the deeds are recorded and that you are, in fact, the owner.

Q: In a child custody order where the child lives with the mother, who has the right to decide on which weekends and in what summer month the father will have the child for visitation? In other words, does the parent who has custody decide everything regarding visitation?

A: You may bring a Motion to Modify in the Court where the divorce was granted. At the hearing, both parents can testify, and the Court will enter a new Order to specify weekends, summers, and holiday visitation. Often filing the Motion will encourage the parties to negotiate through their attorneys, so that a modified Order can be entered and a contested hearing avoided. Remember that the Decree in your divorce spells out custody, visitation, and support, and it may have to be modified as the child grows older.

Send your questions to "You and the Law," State Bar of Texas, P. O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

True

Truth may be stranger than fiction but it will never sell for as much. —Times, Louisville.

LETTERS TO THE EDITOR

Dear Kitty,

I am concerned about the reactions I have heard relating to the Johnson Draw picture printed on the front page of the newspaper last week.

It seems to me the people of Ozona would want to beautify their city instead of complaining about where the picture was taken. Many people have chips on their shoulders and won't take into consideration what is trying to be shown to the public. The picture could have been taken anywhere along the draw and the scene would have been repeated.

I am very proud to be a member of this fine community and am ready to do anything I can to help make it a better place to live in. When we first moved to Ozona we thought we were in Utopia, there wasn't a bit of trash to be seen. The town of Ozona is a wonderful place to live, but we are all going to have to work at keeping it clean.

When you, the community, decide to partake in this matter of littering you are only hurting yourself and the beauty of Ozona. If we would all do our part we could have a beautiful town to live in and be proud of it, but until then what will be said about the town of Ozona?

Please stop and think about what is trying to be said, and remember it is not where the trash is being thrown, but rather why is it there in the first place?

Sincerely,
Kyla D. Marrs

March 26, 1982

Dear Kitty,

I'm fed up! But first let me explain. On Tuesday, March 23, I took my 6-year-old daughter and her friends, a 7-year-old girl and 4-year-old boy, to Ozona's Fairgrounds

Park to play. It was about 3:30 p.m. There were two other cars already there, one at the west end of the park and the other at the picnic table nearest the rodeo grounds restroom. Both cars had two men sitting in them.

I thought, well if I mind my own business maybe they will leave us alone. Fear!! Then after a few minutes, another beat-up old car with 6 men in it drove up to the table just south of the children's slide and one man stepped out to the south side of the car and went to the front of the car door and proceeded to urinate. I could see him plainly from where I was sitting on a table under the covered pavilion. The rest of the men in the car waved at me. When he finished they drove right by me and laughed out real loud. It made me so mad and scared I didn't think to get the license plate number.

I can't believe Ozona is letting this gang of dope pushers and gutter crawling users have the taxpayer owned park as a meeting place and big open-air latrine. Am I under the wrong impression about the purpose of that park? If so, then I am afraid the Crockett County Historical Society has chosen a bad place for their museum. I'm not the only woman in this town who is afraid to take my kids to the park to play. Very seldom will you ever drive out there and see children playing or families picnicing. But you will always see cars with men sitting in them out there. Is Sheriff Billy Mills blind?

Thank you for letting me blow off steam. If there are any more of you out there who feel this way, let us hear about it. Sitting on our backsides and hoping it will go away won't work!

Barbara Byrom

Public Notice

INVITATION TO BIDS

NOTICE TO CONTRACTORS OF THE FOLLOWING WORK:

ADMINISTRATION BUILDING ADDITION & REMODEL FOR OZONA PUBLIC SCHOOLS
OZONA, TEXAS

RECEIPT OF BIDS:

Sealed proposals for the Administration Building Addition and remodel for Ozona Public Schools of Ozona, Texas will be received by the President of the School Board until 7:00 p.m., April 21, 1982, in the Boardroom in the School Administration Building 797 Avenue D.

Bids shall be addressed to: Mr. Joe Bean, President of the School Board, Crockett County Consolidated Common School District No. 1, Ozona, Texas 76943.

BID REQUIREMENTS:

A Cashiers Check or Certified Check on a State or National Bank in the State of Texas payable without recourse to the School District listed in paragraph above, or an acceptable Surety Proposal Bond, in an amount not less than five percent (5%) of the largest possible total bid, must accompany each bid as a guarantee that, if awarded the contract, the bidder will promptly enter into a contract and execute bonds in forms provided as outlined in the specifications and Instructions to Bidders. A Performance Bond and Payment Bond in the amount of One Hundred Percent (100%) of the Contract Price will be required.

PRIME CONTRACT:

All work including general construction, mechanical and electrical work, will be awarded under a single prime contract.

BIDDING DOCUMENTS: The General Contractor may obtain plans and specifications from Architect Louis A. Drake upon deposit of \$75.00 for one set of plans and specifications. The full amount of the deposit will be returned to each bidder immediately upon return of the plans and specifications in good condition; except refund on documents returned later than ten (10) days after date of bid opening will not be obligatory. Additional sets may be purchased for \$75.00 each with no refund. Partial sets of Plans and Specifications may be purchased by sub-contractors and material suppliers for

cost of printing.

BID ACCEPTANCE: The Owner reserves the right to reject any or all bids and to waive any informalities in bids or bidding. The Owner may accept any bid deemed advantageous. 3-3c

29 Yrs. ago

Mrs E.L. Mahon of Kerrville is here for a visit with her son, Dixon Mahon, and family.

Errors delay refunds

"While an errorfree tax return can be processed by the IRS within 6-8 weeks at this time of the year, a return with an error can take up to 12 weeks and, in some cases, considerably longer," said Sharon L. Wrublesky, Chief, Taxpayer Service Division for the Internal Revenue Service. "With three-fourths of taxpayers expecting refund checks, it is important to avoid the most common filing errors."

Along with the errors of failing to attach Forms W-2 and schedules, failing to sign (both spouses must sign a joint return) and transposing numbers, Ms. Wrublesky listed the following problem areas to steer clear of:

Entry on Wrong Line- Many taxpayers are entering W-2 wages on line 7 and then repeating this figure on line 8E. If IRS does not catch this mistake, the taxpayer's tax will be doubled and a balance due notice will be issued instead of the refund check the taxpayer might have expected.

Failure to Claim the Interest/Dividend Exclusion- Many taxpayers are forgetting to claim the interest/dividend exclusion (\$200 for single return, \$400 for joint return).

Earned Income Credit- Taxpayers either make a math error when computing the credit, claim the credit when not entitled or do not claim it when they are entitled to the credit.

"Taxpayers should complete their returns and then set it aside for a day. Sometimes a fresh look during a next day review will reveal an overlooked error," advised Ms. Wrublesky. Fewer errors mean faster refunds.

**Treat Your Family with Home Baked Foods...
EVERYTHING YOU'LL NEED IS THRIFTY PRICED!**

PRICES EFFECTIVE THRU MONDAY, APRIL 5, 1982

QUANTITY RIGHTS RESERVED

**JIM'S
FOODWAY**

Holiday Pot Roast
2 tbsp. Planters Peanut Oil
3 lbs. lean boneless beef chuck
6 small onions
4 carrots, cut in thirds
1 stalk celery, cut up
1 bay leaf
1 1/2 tsp. salt
Generous dash pepper
1 c. apple juice
1 c. water
6 small potatoes, peeled
3 large sweet potatoes, peeled and halved
Parsley
1 tbsp. potato starch

Heat oil in dutch oven over medium heat. Add beef, brown well on all sides. Add onion, carrots, celery, bay leaf, salt, pepper, apple juice and water. Cover and place in 300 degree F. oven for one hour.
Remove from oven. Add potatoes and sweet potatoes. Cover and return to oven for one hour or until potatoes are fork tender. Slice meat and arrange vegetables on serving platter. Garnish with parsley, thicken gravy with potato starch. Pour some gravy over meat and vegetables and serve remainder of gravy on the side.

Debra Says

By Debra Price

Several Spring 4-H projects are now underway. About 50 4-Hers are involved in sewing projects. There are a few 4-Hers that do not have sewing leaders. Any adult that would like to help one or two 4-Hers with a sewing project should call the Extension office (2-2721).

The District 6 4-H Round-up Contest will be May 8th in Alpine. Any 4-H member that wants to give a 4-H method demonstration (a 5 minute talk) should call or come by the office.

Horse judging and grass judging projects are also just beginning. All 4-Hers are welcome. Call the Extension office to enroll.

The 4-H parent and leader association will meet Thursday, April 1st 7:30 at the high school library. All parents are urged to attend.

Happy Homemakers Extension Club will meet Thursday, April 1st 12:00 noon at the Chamber of Commerce. Program will be on "Closet Clutter versus Clever Clean-ups".

The Crockett Heights Extension Club will meet April 6th 9:00 a.m. for a travel program presented by Ella Clegg.

As you can see 4-Hers and leaders are staying busy with spring projects.

Have you read about the new IRA (Individual Retirement Account)? An IRA is a personal tax-sheltered retirement savings plan for all workers including those covered by a pension or a profit sharing plan.

You can set aside up to \$2,000 per year and deduct the amount invested from your gross income. No taxes need be paid on the IRA until amounts are withdrawn beginning at age 59-1/2 or later. IRA options are offered in a variety of places including banks, savings and loan associations, credit unions, mutual funds, insurance companies, stock brokers and the U.S. Treasury.

You will need to study the terms and conditions of the IRA plan before investing. There is no ceiling on what rate of interest can be paid, so the amount of earnings can vary from place to place.

ICE-CREAM PIE WITH PEANUT-BUTTER CRUST
Published in the February Good Housekeeping Magazine.

2 pints vanilla ice cream
1/2 cup peanut butter
1/2 cup light corn syrup
2 1/4 cups oven-toasted rice cereal
1/4 cup sugar
1/2 cup cocoa
1/2 cup heavy or whipping cream
4 tablespoons butter or margarine
1 teaspoon vanilla extract
Early in day or up to 2

weeks ahead:
Place 1 pint vanilla ice cream in refrigerator to soften slightly, about 30 minutes.

Meanwhile, in large bowl, stir peanut butter and corn syrup until blended. Add oven-toasted rice cereal, stirring until well coated. Press cereal mixture evenly onto bottom and up side of 9-inch pie plate and form stand-up edge.

Evenly spread softened ice cream on crust; freeze until firm, about 1 hour.

Meanwhile, prepare fudge sauce: In 2-quart saucepan over medium heat, cook sugar, cocoa, heavy or whipping cream, and butter or margarine until mixture is smooth and boils, stirring constantly. Remove saucepan from heat; stir in vanilla. Cool fudge sauce slightly. Pour 1 1/4 cups fudge sauce over ice cream; return pie to freezer; freeze until fudge sauce hardens, about 20 minutes.

Remove second pint ice cream from container to medium bowl; let stand at room temperature, stirring occasionally, until of smooth spreading consistency but not melted. Spread ice cream over fudge sauce. Drizzle remaining fudge sauce over ice cream to make a pretty design. Return pie to freezer; freeze until firm, at least 3 hours. If pie is not used same day, when firm, wrap pie with plastic wrap or foil.

To Serve:
Let pie stand at room temperature without plastic wrap 15 minutes for easier slicing. Makes 12 servings.

Mrs. Miller

is bridge club hostess

Mrs. J. B. Miller entertained the Friday Bridge Club in her home last week.

High score went to Mrs. Eddie Arnold, low to Mrs. Bailey Post and Bingo to Mrs. Roger Dudley Jr.

Others playing were Mrs. Oscar Kost, Mrs. Sherman Taylor, Mrs. C. O. Walker, Mrs. Evert White, and a guest, Mrs. Max Morris.

RECENT BRIDE-Miss Susan Jeannette Duncan became the bride of Robert Gene Knox in a ceremony February 27, at Ozona Church of Christ. Mr. Knox is the son of Mr. and Mrs. Jamie Knox. Attending the bride were Diane Edwards, Paula Boatman, Jennifer Marley, Peggy Knox, Sue Ann Wedgeworth. Ringbearers were Stacey Edwards and Chuck Preddy. The bride was given in marriage by her uncle, Troy Wedgeworth of Many, La. Jamie Knox served his son as best man. Groomsmen were Robert Duncan, James Knox and Bobby Duncan. Ushers were Vince Huffman, John L. Henderson, Clyde Bailey and Eugene Hood. A reception followed the wedding in the Granny Miller Hall. The couple is at home in Ozona, following a trip to Ruidoso, N.M., where he is in the floor-covering business with his father and she is a secretary for a construction company. Mr. Knox is a graduate of Ozona High School and Mrs. Knox is a graduate of Many High School in Many, La.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

Getting back home is always a pleasure even though I did enjoy my trip to Houston and California. I was disappointed that we did not receive a good soaking rain like they had for two days in L.A.

If you should be going that way anytime, be sure not to miss going to Lowry's California Center between Glendale and Pasadena FWY sand near the Dodger Stadium. It is a secluded garden oasis, hidden behind high adobe walls where there blooms an enchanted garden and where every step is a discovery of beauty.

Another place to be sure and see is in Newport Beach, the Rogers nursery. I have never seen such a beautifully landscaped and perfectly kept garden. After the rain everything was so fresh and green on the way down, and on our left the range of mountains were covered with snow.

For us here in the hill country, I notice the Texas Bluebonnet Trail opened March 27-28 and April 3-4. They have had more rain in the Austin area than we have, so it should be displaying another burst of beauty. Remember its another week or so until Easter so be prepared to protect newly planted annuals or other tender plants.

If you are planning to put in a new lawn, a good time is to begin it after the last frost. Both Bermuda and St. Augustine grasses are adapted to Texas growing conditions. Choose Bermuda for hot, sunny lawns; St. Augustine for lawns with shady areas. Bermuda can be easily established from seeds broadcast at the rate of 1 to 1 1/2 lbs. per 1,000 sq. feet of area. For St. Augustine lawns, use either

2 inch sod blocks or runners set on 12 inch center.

New growth is the signal to begin fertilizing your roses. Use 10-10-10 at the rate of 1 to 1 1/2 lbs. per 50 square feet of bud. Plant tube roses after all danger of frost is over. Set tubers 2 inches deep in sunny, well drained areas of light, rich soil. Water thoroughly both at planting time and throughout the summer.

Don't forget the Ozona Garden Club will have a plant sale April 10 in the Village which should be a good time for planting after Easter. They are grown in Roosevelt Texas between Junction and Kerrville.

Ms. Friend hostess for bridge

Mrs. Joe Friend was hostess for bridge at the Ozona Country Club Thursday.

High score and the Charlotte Phillips bingo went to Mrs. Sherman Taylor. Mrs. J. B. Parker won second high and the club bingo went to Mrs. Bill Mason.

Others playing were Mrs. Charlie Black, Mrs. John Childress, Mrs. James Childress, Mrs. James Dockery, Mrs. J. J. Marley, Mrs. Kirby Moore, Mrs. C. O. Walker, Mrs. Tommy Harris, Mrs. Evert White, Mrs. Jack Williams, Mrs. Gene Lilly, Mrs. Charles Williams, Mrs. Byron Williams, Mrs. B. W. Stuart, Mrs. Buddy Phillips and Mrs. Clay Adams.

Calling All Homemakers

Brought To You By Brown Furniture

One misconception that a lot of people have about decorating their homes is that if you have a big room it means you have lots of space, and if you have a small room, it means you don't have enough space.

But in fact, a large room isn't necessarily spacious from a convenience or beauty standpoint--if the furniture is wrong and the decorating is wrong. Actually big rooms could give you a feeling of being inconvenient and uncomfortable unless they're decorated properly.

And, by the same token, a small room in which the furniture is well selected and beautifully decorated can offer comfort, roominess and a good feeling.

It all boils down to HOW you use the space you have available. You can do a good job in a big or a small room; it depends on creative use of what you have.

For example, a nice conversation group in a small room can be more eye-appealing and enjoyable than awkward poorly-spaced placement of furniture in a big room.

So, if you are worried about decorating a small room, remember it can be done well. And even though you have lots of space in a large room, remember it should be decorated carefully. We can help you with both suggestions and selection of furniture at **Brown Furniture**.

Motivation critical to place volunteers

Why do people want to give of their spare time to help an organization or promote a cause?

"Understanding the motivation of the individual volunteer is critical to his recruitment, placement, training, on-the-job support and recognition," points out Dr. Bill Jackson of Stephenville, 4-H and youth specialist with the Texas Agricultural Ex-

tension Service, a state agency that relies heavily on volunteers to help with informal educational programs in agriculture, home economics and community and youth development.

Although some people still base volunteerism on the philosophy that "it's better to give than to receive," many of today's volunteers have selfish motives, notes Jackson.

Get an edge on tomorrow...tonight.

Back Relief

Sleep in true luxury on the most comfortable mattress ever made by Morning Glory. Back Relief is downy soft as a pillow on top because of the double foam layers and deep-puff quilting of the rich designer cover. Underneath is just the firmness your body needs for a good night's rest.

And, of course, Back Relief has the famous Morning Glory edge support system that allows you to sleep all the way to the edge, giving you an estimated 25% more sleeping area. Come try this supremely comfortable mattress—and get an edge on tomorrow . . . tonight!

Brown Furniture

SOMEONE TO THANK

"God is a product of man's imagination," announced the dignified intellectual who occupied our TV screen. "God isn't dead," he argued as our children watched. "He was never alive!"

Mary and I felt that Christian children such as ours should realize that not everyone believes in God. Perhaps, knowing this, they could better understand the state of the world. We would encourage and answer their questions as best we could, confident that God would not allow their faith to be destroyed.

Later, before I tucked Kristen into bed, she clasped her hands and closed her eyes. "Dear Lord," she prayed, "thank you for Mommy and Daddy. Thank you for Zoomie (her goldfish) and Toddy and my new dress. . . ." She stopped suddenly and I raised questioning eyes to her. "Daddy," she said anxiously, "that man on TV doesn't have anyone to thank!"

Do you have Someone to thank? Come worship this week.

Potato lore--a brief history-

Potatoes were developed by native Americans from several Solanum species in the cool highlands of South America. They are related to the eggplant, pepper and tomato. Potato plants, with their dark green leaves and stems, look a little like tomatoes. Their flowers are white, lavender or purple. The edible parts, called tubers, are the swollen underground storage stems. These tubers usually look like lumps of clay, which is why the French call them apples of the earth, pommes de terre.

For the Incas, the potato was not only an important food staple, but they also measured time by how long it took a potato to cook. The Incas invented chuno or freeze-dried potatoes. This is still prepared by laying potatoes outdoors on freezing nights and then walking over them the next morning to squeeze out the water. By the time the Spaniards arrived in the 16th century, the natives were cultivating several hundred potato varieties. In addition to the familiar white-fleshed, brown-skinned potatoes, they grew

tubers in all shades of yellow, blue, red and purple. The Spaniards were intrigued. They tried potatoes and liked them. When King Phillip II of Spain received the first potatoes from Peru, he sent some to the Pope. Papa, a Quechua word for tuber, was the same as the Spanish word for pope.

In 1596, potatoes were all over Europe. John Gerard, an English botanist and barber-surgeon, was growing them in his garden. The frontispiece of Gerard's 1597 Herbal shows him proudly holding a flowering potato sprig in his hand. He called them "Potatoes of America or Virginia." The name stuck though the word potato was derived from batatas, the Haitian word for sweet potato (Ipomea batatas). The first potatoes in North America were planted in Londonderry (now Derry), New Hampshire, by the Scotch-Irish in 1719.

The delightful legends of Sir Walter Raleigh planting the first potatoes in Ireland and Sir Francis Drake introducing them into Europe have no basis in fact, even though the people of Offen-

burg, Baden, Germany, erected a statue to Drake complete with potato plant in his left hand and decorative rows of potatoes around the bottom of the column. Hitler tore this statue down at the beginning of World War II.

Although James I of England served potatoes on the royal table in 1619, good Presbyterians had strong feelings against eating anything that was not mentioned in the Bible. Another reason for concern was that potatoes were reproduced in an "unnatural" way. They were the first vegetable that Europeans grew asexually. Potatoes were started from pieces of tuber called "eyes" or "tuber seed pieces." "Tuber seed pieces" were produced by cutting potatoes into sturdy blocks containing one or more eyes. This was necessary since most potato plants don't set true seed. In 1630, the parliament in Besancon, France passed a law forbidding the planting of potatoes on the grounds that eating potatoes might induce leprosy.

In 1651, when Elector Frederick William planted some potatoes in his garden in Berlin, he established his family's long-time interest in potato growing. His grandson encouraged people to grow potatoes by threatening to cut off their ears and noses if they refused. His great-grandson, Frederick the Great, distributed free potato "seed pieces" and forced the peasants to take care of them. Frederick pushed potato growing every chance he got, and wrote a circular on their planting and care. In April of 1757, he recommended planting potatoes by the dark of the moon, and planting pieces with one or two eyes cut from large potatoes rather than using whole small potatoes. He included instructions on how to store potatoes in straw-lined pits and recipes for feeding both humans and animals.

Whenever there was a famine, Frederick the Great sent out a wagonload of potatoes. His potatoes were so important in the War of the Bavarian Succession that the conflict has gone down in history books as the Potato War, Kartoffelkrieg. About this time the Germans gave up fighting the potato and started eating them in earnest.

A Frenchman, Antoine August Parmentier, developed a taste for potatoes after being fed them in prison during the Seven Years' War. On his return to France, he published a thesis recommending potatoes--along with acorns, horse chestnuts and iris roots--as edibles to be used in times of food shortage. To promote potatoes, Parmentier prepar-

ed a formal dinner which consisted entirely of potatoes for Ben Franklin, Lavoisier and other prominent persons. Parmentier also persuaded Louis XVI to let him use Les Sablons, a barren plot of ground outside Paris, to demonstrate potato growing. (The experts were now claiming that although the potato was not necessarily bad, it was certainly bad for the ground.)

Potatoes flourished, and in August, 1787, Parmentier presented Louis with a large bouquet of potato flowers. Louis was delighted, put a sprig in his buttonhole, and told Parmentier "France will thank you some day for having found bread for the poor." Marie Antoinette wore potato flowers in her hair, and everybody who was anybody had potato blossoms painted on their china.

To convince the poor, Parmentier put a uniformed guard on the potato patch every day. In no time at all, people were sneaking in at night and stealing potatoes to plant in their own gardens. Parmentier's great contribution is remembered every year when potatoes are

planted on his grave in the Pere Lachaise cemetery in Paris.

Peasants all over Europe started planting potatoes to the exclusion of all other crops. This dependence on the potato ended with the famine that followed the potato blight (Phytophthora infestans) of 1845 and 1846.

In 1850, the Reverend Chauncy Goodrich of Utica, New York, was concerned about the potato blight and the famine that followed. He hoped to "renovate" the potato using potato seed imported from South America. Goodrich was not successful, but his work laid the foundation for potato breeding in the United States.

In September 1981, after 5 years of laboratory research and trailing, Pan-American Seed Company introduced Explorer--the first true potato seed. Explorer is now ready to be grown by home gardeners. It will be available as seed in all major seed catalogs and as plants in greenhouses and garden centers across the country in 1982. Explorer marks a new way for home gardeners to grow potatoes.

Tax credit for energy savers

Taxpayers who take certain steps to save energy in their homes can cut their federal income tax bills substantially.

The law provides for a tax credit of up to \$300 for energy conservation materials installed in the home, with a separate credit of as much as \$4,000 for taxpayers who install "renewable" energy source items such as solar or wind equipment, the Internal Revenue Service says.

The credit for energy conservation materials is figured at 15 percent of the first \$2,000 spent on such items as storm or thermal windows and doors, insulation, weather-stripping and caulking. Also qualifying are furnace replacement burners, flue-opening modifications, electrical or mechanical ignition systems to replace gas pilot lights, and clock thermostats. Only materials installed in homes that were substantially completed before April 20, 1977, are eligible for this energy credit.

The "renewable" energy source credit is 40 percent of the first \$10,000 invested in qualifying solar, wind or geothermal equipment used to heat, cool or provide hot water for use in the home according to the IRS. Both credits are available for items purchased and

installed on a taxpayer's principal residence on or after April 20, 1977, and before January 1, 1986. The "renewable" energy credit is available for both existing and newly constructed homes. Renters as well as homeowners are eligible for the credit.

Golfers elect officers

Country Club Lady Golfers elected officers for the year last week. Marilyn Cox was elected chairman and Carol Hensley, secretary-treasurer.

Low net on the annual trophy went to Cox. Low gross and low putts annual trophy went to Wanda Stuart.

Winning a leg on the 1982 trophies were Hensley on low putts and Ella Clegg on low net and low gross.

Winning a golf ball on the weekly blind bogey for each group playing were Liz Williams, Katy Jones, and Ella Clegg. Other golfers were Joan Nicholas, Jeanette Bailey, Jonsey Williams, Kay Braden, Bobbie Fatout and Sherry Holt.

Itching could be scabies

The itch is maddening and particularly so at night. That's true with most skin disorders but more so with scabies.

Commonly called the "seven-year itch," scabies has cropped up frequently in the U.S. in recent years. This ancient disease is caused by a female mite that burrows into the upper layer of human skin to lay her eggs. At night the mite tunnels through the skin, which produces the intense itching.

Scabies generally is associated with poverty and uncleanliness, but the disease can hit anyone of any age. And because allergies sometimes are blamed for the itching, the Texas Medical Association says people with the symptoms should be checked by a physician.

The mites lodge primarily in the webs between the fingers and in wrists and elbows. Other common sites are the armpits, buttocks, nipples and lower abdomen. The head generally is not involved except in infants.

Scabies mites spread from person to person by direct contact and sometimes by clothing, furniture and bedding. A person who does not frequently bathe is somewhat more likely to carry scabies mites than is the frequent bather--but cleanliness is no guarantee against the disease.

A characteristic of scabies is a small swelling where the mite burrows. A tiny tunnel may be seen there, and the mite may be at the end of the tunnel. Even if the organism cannot be found by microscopic examination, the trial use of a mite-killing drug can bring improvement. When the doctor positively identifies the disease as scabies, the patient must thoroughly clean clothing and bedding.

The physician prescribes a lotion or medication to destroy the mites and to control

itching. Left untreated, the itching worsens as the person develops an allergy to the mite. Hives and small blisters may result. Because of the allergic reaction, the itching may continue for days or weeks after the mites have been destroyed.

Annual Lamblast set for April 17

The fifth annual Lamblast, the original world championship lamb cook-off is scheduled for April 17, at Goodfellow Air Force Base Recreation Camp at Lake Nasworthy in San Angelo. "Plans are well underway and cooking teams have already begun requesting entry blanks," said Felicia Armstrong, executive secretary for Lamblast '82.

Cook-off activities will begin with the selection of Miss Lamblast 1982 on April 16. The contest is open to any woman 18 to 30 years of age. Contestants will be judged on a point system for beauty, personality, poise, speech, posture, walk and personal interview.

Judging for Miss Lamblast will begin at 5 p.m., April 16, at the Holiday Inn Holiday. The winner and runners-up will be announced at the beginning of the 8 p.m. Lamblast dance that night at the San Angelo Coliseum. All entries will be presented prior to announcing the winner. The dance runs until midnight with Texas Gold, featuring Ronna Reeves, providing the music. Tickets can be purchased at the door for \$5 each.

A panel of judges from

throughout Texas will be selecting this year's cook-off winner. Trophies for first, second and third place will be awarded. A top showman trophy will also be awarded. As in past years, there will be only one cooking division competing for the prizes. Cooking entry fee is \$25 per team with meat being furnished by the committee. Each team is limited to eight official members.

In 1981, the gates at Goodfellow Recreation Camp received more than 6,000 people enjoying the fun and festivities. Free stage entertainment and contests for both adults and children are scheduled.

Angelo State University Block & Bridle Club will prepare lamb-kabobs--marinated and barbecued morsels of lamb. Proceeds from the gate receipts and entry fees go to this ASU club to further their team judging for livestock and wool and to assist in scholarships.

Gate admission for Lamblast '82 is \$1.00 with military personnel with ID's getting in free. Refreshment and food tickets can be purchased at the site.

Prospective cook-off and Miss Lamblast contestants can get information and entry blanks from the San Angelo Chamber of Commerce office at the Convention Center in San Angelo.

I BET YOU DIDN'T KNOW

By Jerry Lay
Here's an incredible fact. There was a major league baseball player who had a lifetime batting average of one-thousand, a lifetime fielding average of one-thousand, and a lifetime pitching record of one-thousand. The man who made this amazing record was John Kull. He pitched for the A's in 1909 and played only one big league game in his life but in that one game, he was the winning pitcher, he went one-for-one at bat, and had one chance in the field which he handled without error. He never played again but he became unique in baseball history. He's the only man ever to retire with a perfect big league record in batting, fielding and pitching.

Did you know that one pro golfer has made more than 40 holes-in-one! Art Wall has made 41 holes-in-one in his career and unbelievable record that no other pro has ever topped.

Amazingly, when Bobby Grich of California tied for the home run championship of the American League in 1981, it marked the first time in 80 years that a second baseman led the American League in homers.

BOYS GOLF SECOND

By-Gail Hunnicutt
The Ozona Boys Golf Team received second place in their first district tournament last Tuesday, in Big Lake. Big Lake got first followed by Ozona, Junction and Eldorado.

The boys on the varsity are Kent Hokit, Dale Perry, Bo Aycock, Allen Dews and Robert Massey. If these boys can remain in second place, they will go on to regional competition in Stephenville. Robert Massey is standing fifth in district medal play. They played in Ozona Tuesday for their second district meet.

ONE-ACT PLAY RESULTS

By-Stacy Chapman
Tuesday, March 23, Mr. Porter and the One-Act Play cast ventured to Big Lake for the U.L.L. competition. They left at 6:30 a.m. in order to get there and get set up for the practice performance at 8:00. After that, the group was free until around 3:00 when they were to put on the real performance. During the free period they visited a small arcade and played video games, and Darla Lovell even got her name on "Space Fury"! After they had spent most their money in the games, they ate a delicious lunch of salad and pizza in one of the restaurants in competition. After lunch, they returned to the high school to prepare for the performances. Time allowed them to watch two of the plays being put on before they had to start getting ready. Then the big moment had arrived, and ten minutes was given in between plays to get the props moved on stage and set up.

The curtain opened and the story began. The play went great and in the end Miss Lily Daw and her handsome young man were reunited once again. The actors and actresses in "Lily Daw and the Three Ladies" found it a little harder to perform in Big Lake because of the differences in stage lighting and the size of the stage as to Ozona's. Also it was more complicated to present the play to a large foreign auditorium, almost vacant except for one stern-looking judge seated in the middle who was busily jotting down notes and critiques periodically throughout the play. But despite the complications, Ozona High School's team of young, amateur performers came through beautifully. After changing clothes again and taking a small break for supper at Grandma's, they all seated themselves for the other town's performances. At about 9:00 the last play was finished and the time came for the awards. Out of 7 towns, Ozona received alternate. First place went to Junction and second went to Big Lake. Darla Lovell received a medal for All-Star Cast and Stacy Chapman and Gail Hunnicutt were awarded with Honorable Mentions. The sleepy-eyed group returned home at about midnight exhausted after such a long day, but very proud.

UIL JOURNALISM

Last Wednesday, several OHS students went to Menard for District UIL Journalism competition. Those participating were Jana Harris, Gail Hunnicutt, Vicky Vargas, Marilyn Wester, Dennis Young, Jack Moody and Erika Lee.

Gail Hunnicutt placed second in Editorial Writing and Jana Harris won alternate in Editorial, Newswriting, and Feature writing.

PLANT ID AND RANGE JUDGING

By-Sue Ellen Black
Thursday, March 18, some of the FFA members participated in plant and range judging at the Sul Ross contest. Twenty-five schools were represented there.

The plant ID team placed third overall with Will Hoover winning sixth high individual. Overall, the range judging team placed second and Donny Searcy was high individual. Others who attended the contest were Peggy Skains, Capp Covington, Cindy Reavis, and Mike Couch. Mr. Hicks was very pleased with the outcome of

the contest. The FFA members have been working on various projects in class and are preparing to go to their next contest which is at Texas Tech on April 17.

DISTRICT UIL

By-Erika Lee
Last Thursday, April 25, several students participated in Science, Math, and speaking events in Mason for district competition.

Arnol Rios placed third in persuasive speaking and will represent Ozona at Stephenville in Regional competition on April 16.

In science, Felice Delgado placed fourth and was also alternate. Sarah Falkner tied for fifth place and Angela Dalby placed seventh in number sense.

GOLF NEWS

By-Wendy Hood
The girls' golf team played on Friday, March 26, in Junction. The girls teed off at 10:00 o'clock and members of the varsity team for this week were Gail Hunnicutt, Jennifer Justiss, Peggy Skains, Evelyn St Clair, and Wendy Hood.

Members of the J.V. team for this week were Susan Scott, Bobbi Acton and Kim Bishop.

The varsity received second place as a team and Wendy Hood placed as third medalist and Gail Hunnicutt placed as fifth medalist in district.

IF YOU WERE SENT TO OUAGADOWGOU, WHAT WOULD YOU TAKE WITH YOU?

By-Stacy Chapman

Sue Ellen B.-a chili/chili cheese dog

Gail H.-my bathing suit and something to eat!

Leanna K.-a safari guide

Mrs. Parks-mosquito spray and Garfield

Casey Cain-my stereo

Ernie Borrego-a good-looking chick (from Texas)

Mel Spiller-a camera, of course, and a can of Raid

Look next week for some more OHS students getting ready to go to Ouagadougou and just exactly where this mysterious place is.

MONICA SANCHEZ

By-Mel Spiller
Horseback riding, hiking, reading, sewing, swimming, and jogging are just some of the hobbies of Monica Gonzales Sanchez. Monica was born May 24, 1964, and her parents are Mr. and Mrs. Enrique E. Sanchez.

Monica's favorite color is blue and her favorite food is any kind of seafood.

During high school, Monica was in band for four years, and she participated in solo and ensemble contest when she was a freshman. She was on the annual staff her junior year, and was in the stage crew for the UIL One-Act play her senior year.

Monica plans on attending Western Texas College in Snyder.

JACK THOMPSON

By-Gail Hunnicutt
If you see a proud smiling face around school, it is probably Jack Thompson. Even though he is usually always like this, there is a special reason this week-his sister, Lynn, just had a baby. Jack also has an older brother, Greg, and a twin sister, Kaye, who according to Jack is his "better half."

Jack was born in El Centro, California, on May 27 to John and Evelyn Thompson.

Eating must be his favorite thing to do because his favorite foods are backstrip, Iowa corn, pecan pie, Parker House rolls, and green boiled peanuts. Some more things Jack likes to do is working with wood, riding his ten-speed and participating in all kinds of sports. He has played basketball all four years in high school, and was basketball beau his sophomore year. He played tennis his freshman year, and he ran track his last three years of school.

Jack was very active in UIL competition during high

school. He received district honorable mention in informative speaking. He was in the one-act play his senior year and was in the feature and headline contests of UIL journalism that same year. Jack served on the student council his junior and senior years, and he was secretary his senior year. He also was elected sophomore class secretary and junior class favorite. He was in FFA for three years. During his senior year, he was a Mr. OHS nominee.

Jack's future plans include attending Sul Ross in Alpine and majoring in Industrial Arts.

JOYCE TAMBUNGA

By-Sue Ellen Black

Joyce was born in Sonora on February 7, 1964, and has lived in Ozona for seven years. Joyce Marie is the daughter of Mr. and Mrs. Cruz Tambunga.

Some of her favorite things are softball, writing, the color green, and spaghetti. Throughout high school Joyce has participated in basketball her freshman year, track her freshman and sophomore years, and band her freshman year.

Joyce is going to put college off for a while until she decides exactly where she wants to go and what she wants to study.

SANDRA ANNETTE TAMBUNGA

By-Vicky Vargas
Sandra Annette Tambunga was born to Mr. and Mrs. Cruz Tambunga on March 2, 1963. Sandra has lived in Ozona for seven years.

Running, bike riding, listening to music, and traveling are some of Sandra's favorite hobbies. Mexican food is her favorite dish and her favorite colors are blue and red. Ryan Lee is Sandra's favorite person because he is her son. She admires her mom and dad because "they have always been there when I've needed them."

Sandra ran track her freshman year and was in band her freshman and sophomore years. She was also class representative her sophomore year. Sandra was a cheerleader, track duchess, and in the student council her junior year. After graduating, Sandra plans to move to Fort Worth and start a career.

LARRY PAYNE

By-Leanna Kramer
Any true track fan has surely heard about our next soon-to-be graduate. Larry Paul Payne was born on February 28, 1964, in Odesa to Mr. and Mrs. James I. Payne. The Paynes moved to Ozona from Sanderson six years ago.

Larry's favorite color is blue. When asked about his favorite foods he stated, "I like just about every food except Chinese food, pizza is my favorite."

Larry likes all outdoor sports including hunting, fishing, and golf. He also enjoys water skiing on Possum Kingdom Lake where his family has a cabin. Larry says he likes board games and video games especially Pac-Man.

During high school Larry has been very active in sports. He played basketball on the J.V. as a freshman and then moved up to the varsity his sophomore year. Larry has played football all four years of high school. He

played on the J.V. his first two years and lettered on the varsity as a junior and senior. Larry was voted to the all-district second team as a junior. This year he broke his ankle during the Junction game and was unable to finish out the season.

Larry has run on the varsity track team since his freshman year. He has done well in district and regional competition throughout his track career. Last year he qualified to run at the State meet in Austin after placing second in the 400 meter dash at regional competition. At state he placed fifth. As a junior Larry was elected track beau by the Lionette track team.

After graduation Larry plans to go to college, but he is undecided on the college or major at this time.

Pigweed control with no carryover.

Banvel® Herbicide controls broadleaf weeds in sorghum without carryover.

Pigweed is one of the toughest broadleaf weeds you're likely to find in sorghum. Many herbicides, including triazines, won't give consistent control. Then there's carryover to worry about. But Banvel® Herbicide knocks out pigweed plus dozens of other broadleaf weeds in grain sorghum. And you won't have to worry about carryover. Banvel lets you rotate to a variety of crops — including wheat. Just apply Banvel Herbicide at a half pint per acre after broadleaf weeds have emerged and are actively growing.

And while sorghum is in the 2 to 5 leaf stage.

This season, get crop flexibility, tough broadleaf weed control and no carryover. This season, get Banvel Herbicide for your sorghum. See your ag chem supplier for details.

Bass fishermen have bait choices

The modern fisherman is bombarded by the gadgetry of fishing-boats, one-man tubes, two-man bass boats, high-powered bass boats with trolling motors, depth finders, live fish tanks, temperature recorder, oxygen meter. Once the fisherman has made these choices, he must still decide on other equipment, says Don Steinbach, fisheries specialist for the Texas Agricultural Extension service. First is it going to be cane pole, casting rod and reel or spinning reel? Fiberglass or graphite? Worm rod, doodle socking rod, ultralite? These are all the fun things of getting ready for fishing.

Then comes the confusing part for many anglers. What kind of lures? The choices are numerous, including top water lures, floating bottom or deep water lures and sinking mid-water or in-between diving lures.

The choice of lures should be guided by understanding the bass--where he lives-why

he lives there-and what he is eating while he is there.

The location of bass will determine what general kind of lure to use--examples are (1) when fish are on the shoreline or in shallow water you would use top-water or shallow-running baits, (2) deep water bass must be caught where they are with deep-diving or weighted lures that can get to the fish in bottom areas and (3) the suspended fish must be fished with mid-water lures.

The fisherman must understand the habitat requirements of bass, food habits and the other water requirements such as temperature and oxygen, Steinbach points out.

Why do fish stay in certain places? They are cold blooded so temperature of the water will determine where they are comfortable. Winter weather cools shallow water rapidly. Though cold, the deeper water remains more constant and slightly warmer than shallow water. Oxygen is usually high in cold water and fish do not require much food during cold temperatures. They will not move very far or fast for food. Therefore, the winter fisherman should fish deep lures worms, spoons that are jigged or jigs. These lures must be presented slowly to the fish.

As water begins to warm in the spring, bass move close to shore--shallow water and start to feed more mid-water. Fisherman should use swimming baits that duplicate shad, bluegill or other bass foods.

Knowledge of the spawning habits of largemouth bass can really aid in knowing when and where to fish. Bass spawning begins in shallows when the water temperature is 55-60 degrees F. The lure to use during this time is crank baits, spinners and top-water baits in shallow water.

CARD OF THANKS

Since it has been our lot to find...At every paring of the road...The helping hand of comrade kind...to help us with the load...And since we have no gold to give...And love alone must make amends...Our humble prayer is, while we live... "God make us worthy of our friends." (author unknown).

It is with our deepest gratitude and thanks to all our precious friends for the many acts of kindnesses extended us during the illness and death of our beloved son and brother. We will never forget it. May God bless you all.

Dr. and Helen Owensby, Mark and Sue

low water. Many other variables such as color, size and sound must be considered. Color is usually related to food except for worms and then the book is thrown out the window with purples, black, blue, greens.

Size of lure can be a factor on finicky fish and the ultralite artist can claim success when many other fisherman don't catch.

The bass fisherman must study the fish and how he lives, then make some educated guesses as to which tackle choice will be presented to Mr. Bigmouth.

Gay Burns honored

Seventy-two outstanding Southwest Texas Junior College students were honored at the 1982 Palm's Festival, an annual semi-formal gala, held Thursday evening, March 25, in the ballroom of the Matthews Student Center.

Twila G. Burns of Ozona was named to the Dean's Honor Roll and was honored at the festival.

The theme for the dance was "Hawaiian Paradise," and the ballroom was festively decorated with brightly-colored balloons, streamers and mobiles. Palm branches framed the stage and "Ambiente," a local band, performed.

The additional 68 students honored represented the college's vocational programs, were named to the Dean's Honor Roll, and/or were elected to "Who's Who" by the faculty. All actively participate in a number of the college's activities and organizations.

DUPLICATE BRIDGE

Mrs. Evert White and Mrs. Sherman Taylor won high at Duplicate Bridge Club play Sunday afternoon at the Country Club. Second high went to Mrs. Kirby Moore and Mrs. Gene Williams.

CARD OF THANKS

We would like to express our sincere appreciation to our friends for all your thoughtful acts during the illness and death of Ardena. Your prayers and acts of sympathy will always be remembered. Thank you.

Herb Kunkel and the Ballard family

PHONE NEWS TO THE STOCKMAN.

Little interest shown at Little League meet

The turnout for the organizational meeting of the Little League Association was disappointing, March 23, at the Civic Center. Very few showed up for the meeting, leading officials to speculate the future of baseball for youngsters this season. Little League and Tee Ball managed to get organized, but there were no takers for Senior League.

R. B. Babbitt got the meeting underway by asking for a report from B. W. Stuart on the condition of the playing and practice fields.

Stuart reported some of the fields had to be torn up to take a womans softball field and the Tee Ball field. However, he said there will be the same number or more practice fields this year. The group commended Stuart for getting the areas cleaned and ready for play.

The womans field will be on the right side of the entrance to the Little League field and the Tee Ball to the left. The fields were placed in this manner in order the players might have access to the rest rooms and concession. The fields will be fenced and grassed. The entire area for play and practice will be piped off due to traffic conditions.

Stuart said this year he is going to have speed traps placed throughout the Little League park. He is also going to pipe off behind the concession stand, so the teams can have a warm-up place before the games.

The Tee-ball field has lights, but no poles and cross arms to place them on, so Mayfield Construction donated this equipment. The field will have lights by June.

Babbitt opened the meeting for nominations for a board of directors of six

members. Elected were Dee Keilers, chairman of concession stand; R. B. Babbitt, coordinator; Jack Bailey, Tom Powers, Jesse Fierro and Bobby Mayfield. Bob Falkner was elected treasurer.

Three persons requested positions as managers for Little League teams, Joey Borrego, Cheryl Vestal and Donny Carol.

No one took a position on the senior league slate of officers, but Enriqueta Fierro was appointed secretary for the organization. There will be a meeting later in the season for senior league parents and friends.

Debra K. Mayfield will return as president of the Little League. Glenda Winkley will be vice president; Pam Coates, secretary; R. B.

Babbitt, player agent; George Ybarra, umpire chief; Becky Ybarra, reporter, and Frances Denman and Mrs. Winkley will share the job of concession stand chairmen.

Tee Ball president is Debbie Phillips. Debbie Puckett is vice president; Tina Moran, secretary; Mary Skains, player agent; Jamie Pagan, umpire chief; Helen Wall, reporter; Debra Mayfield and Pam Coates, concession chairmen.

Jim House will announce the games and Jill House will be score keeper.

New teams will be drawn for Tee Ball this year only, due to the number of players.

Tryouts for Little League and Senior League will be announced at a later date.

Local woman elected to District Director

Several Ozona garden club members attended the District VIII Spring Garden Club Convention held in Abilene Thursday, March 25, and one Ozona woman was elected District Director for the 1983-84 season.

Mrs. Lee Graves, president of the Myrtle Post Garden Club, will be installed as District Director in the fall of this year.

Other Ozona women attending included Mrs. Polly Eppler, Mrs. Raleigh Connor and Mrs. Glenn Sutton. A total of 190 registered for the meeting with 110 attending the pre-convention activities. The fall meeting will be held in Ozona.

Awards for the Ozona Garden Club included second place on president's report and 100% for president's book. Mrs. Graves received an award for contribution to State Endowment Fund.

The Myrtle Post Garden Club of Ozona received a first place on the club scrapbook, first place on Arbor Day, second place on year-book, 100% on president's book, Wild Basin Wilderness award, slide program award, award for contribu-

Mr. and Mrs. Robert Bryan of Houston, were guests of her mother, Mrs. J. B. Post, last week. Mr. Bryan met Mrs. Post and Mrs. Bryan at the airport in Midland on their return from a trip to California.

Sorority news for March

The Alpha Alpha Mu Chapter of Beta Sigma Phi met twice in the month of March.

On March 8, at the home of Mrs. Nancy Vannoy, members enjoyed a presentation by Dr. Gary Vannoy. He spoke on the diseases which humans can contract through their ranch animals and household pets. Mrs. Nesa Chandler was co-hostess with Mrs. Vannoy. Those present included Dena Porter, Virginia Baggett, Jan North, Lori Parker, Debbie Glasscock, Karla Turland, Chris Weant, Belinda Wilkins, Danita Adair and Jan Henderson. After a delicious salad supper and meeting, Dena Porter was presented a money tree as a baby gift from the Chapter.

On March 22, the sorority met at the home of Mrs. Elizabeth Clark. Peggy Holden and Jane Richardson were co-hostesses. The Ritual of Jewels was repeated by Jeannine Perry, Melody Burk, Danita Adair and Jan Henderson. The Chapter welcomed them as official new members.

Those present for the meeting and dinner were Virginia Baggett, Lori Parker, Nesa Chandler, Sadie Davidson, Debbie Glasscock, Vicki Stokes, Nancy Vannoy, Belinda Wilkins and Kaye Williams.

The Sorority will be making their annual cancer drive on April 1st.

YOUR GARDEN

It's not too early to be thinking about your garden. In fact, you can even give serious thought to planting—indoors.

Starting plants indoors is a great way to get a jump on the growing season before the weather warms up. Psychologically, it's comforting, to see signs of an impending spring!

Start seedlings indoors in small plastic-covered containers by sunny windows.

After you've selected your seeds, assemble a collection of small containers. Aluminum baking pans, plastic trays, pots or milk cartons, are ideal. Fill with potting soil, add the seeds, and water thoroughly.

To speed germination, cover the containers with plastic, such as GLAD wrap. This holds the moisture in the soil and the air surrounding the sprouting seeds.

Transplant seedlings to larger containers when the first two leaves are fully developed. Water thoroughly before transplanting. To "harden" plants before moving outdoors, gradually withhold water and lower the temperature. This will slow down growth rate, preparing young seedlings for chilling, drying winds or high temperatures.

When plants are growing, can summer really be far behind?

Social Security is a low cost administration

The public generally is not aware of the low cost of administering the Social Security programs, Frank Upp, Social Security District Manager in San Angelo, said recently.

In a recent public opinion poll, most of those questioned estimated the administrative costs of Social

Womans Forum meets at Civic Center

The Ozona Womans Forum met Tuesday, March 16, at the Civic Center with Mrs. Ralph Jones and Mrs. Buster Miller hosting the meeting.

Mrs. James Childress, president, presided at the meeting. Roll call was answered with each member telling her favorite wildflower.

Minutes of the previous meeting were read and approved. Mrs. Madye Jo Humphries told of plans for the Style Show to be held at the Circle Bar, April 3, at 10:00 a.m.

Also discussed was the Fredericksburg trip to be April 16, 17 and 18.

Ann McCartney announced that the Care Center would like to have those people with travel slides to show them at the Center for the residents. This type of entertainment is always enjoyed by the Care Center residents. She also asked for volunteers for the summer months.

Members voted to send a donation to Mrs. Bryson to be applied on a gift for Mrs. W. L. Bankston, outgoing district president. The club also voted to send a donation to Mrs. Harold Green to be applied on a gift for Mrs. Sims, outgoing state president.

Bernice Phillips and Madeline Stokes were appointed to the Citizenship Committee to correlate the "Best Citizen Award--OHS."

Joycelyn Graves presented the program on flower ar-

Security to be more than 50 percent of the amount paid out in benefits, while only 6 percent said the costs were less than 20 percent.

"As a matter of fact," Upp said, "For every dollar paid in benefits, less than one and a half cents is spent for administrative expenses. This is a noteworthy accom-

plishment that has not been given much publicity."

The cost of administering the Social Security programs includes charges by the treasury department for the collection of Social Security taxes, writing checks, and managing the trust funds' investments, as well as the expenses incurred by state agencies in helping administer the disability insurance program.

"Under the law, income to the Social Security programs can be used for the payment of benefits and for administrative expenses. Income not currently needed must be invested in interest-bearing U.S. Government securities."

"The public can rest assured that by far the bulk of the money going into the Social Security trust funds is being used for the payment of benefits, with only an extremely small fraction going to pay the costs of administration." More information about Social Security financing can be obtained at the San Angelo Social Security office located at 2214 Sherwood Way. The telephone number is 949-4608.

From the TAP Kitchen

CHICKEN NEVER had it so good! This is just one of many ideas that the Texas Department of Agriculture food specialists have come up with to turn ordinary chicken into an extra-ordinary meal.

PECAN CHICKEN CASSEROLE

- 8 chicken thighs and drumsticks
- 1 C. chunked zucchini squash
- 1 C. carrots
- 1 C. pecan halves
- 3 C. chicken bouillon
- 2 1/2 T. cornstarch
- 3 T. melted butter
- 1/2 tsp. salt
- 1/4 C. white wine

Brown chicken and place in casserole dish. Arrange squash, carrots, and pecans around chicken. Dissolve cornstarch in bouillon and stir in remaining ingredients. Bake, covered, at 350 degrees F. for about 45 minutes. Serves 4.

Crockett County Care Center News

BY ANN McCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Our Baptist Church friends, complete with Rev. Lanham and his guitar, gave a fine worship service on the third Sunday of this month.

Dominoes Monday morning were played by Bertha Miller, Maude Pettit, Paul Cavin, and Louise McWilliams.

Tuesday afternoon we had a delightful outing. Twelve residents and four car drivers went to Clayton's Village Drug for a frosted drink. Residents making the trip included: Carol Reed, Hilario Cortez, Paul Cavin, Frances Borrego, Tomasa Ramos, Maggie Crawford, Ola Mills, Alice Locke, Louise McWilliams, Nila Turnell, Maude Pettit, and Virginia Russell. Cars were furnished by Jan Robertson, Ann Mayo, Elvira Caldwell, and Ann McCartney. Not only did Clayton Robinson treat this group, he sent back milk shakes to all residents left behind. We really appreciate this treat!

Tuesday bingo winners of an El Chato's dinner for two was again a tie by Virginia Russell and Ola Mills. Frances Borrego won the first place prize on Friday of a gift certificate from Westernman Drug. Second place was won by Maggie Crawford. Bertha Miller won the monthly Baker Jewelers certificate.

Ceramics were led this week by volunteers Grace Dorsey and Ruth Hester. Easter decorations were begun.

Wednesday afternoon all residents viewed a movie furnished by our high school librarian, Mary Helen Parks.

Thursday morning we had our regular beauty shop for our ladies. Thursday afternoon we had Bible study led by Charles Huffman.

Friday afternoon found the Day Room a bee-hive of activity as Joan Nicholas, Alma Wilson, Ruth Dorris, Dorothy Doll and Sue Linticum led all ladies in the activity of choosing and decorating Easter hats. The judging will be on Tuesday, April 6, at 6:30 in the evening. Rumor has it the men will join in the fun too. Once again a special

thanks for all our volunteers who have come and helped with our projects and programs this past week. We appreciate you all!

Tying the knot in later life

Tying the knot—it's happening later in life these days.

As many young people postpone marriage and the rate of divorce increases, more and more marriages today involve individuals in their late 20's and early 30's, says Diane Welch, a family life education specialist.

Welch is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Spring time brings hazards from poison

Children are loving active creatures, unfortunately they can also eat and drink peculiar things. "We see children eating plants, medicines, cleaning agents, soap, bugs and all sorts of other things," said Michael Ellis, Director of the Texas State Poison Center. In 1981 the Poison Center received some 21,000 poisoning calls. "About 75% of these inquiries are about children under 5 years old," Ellis noted. "Many of the accidental ingestions by children are of little consequence, but some can be life-threatening. Liquid furniture polishes, lamp oil, gasoline, and other oil-based products can kill with as little as one sip."

Springtime can be a particularly bad time of the year. "Blooming plants, fertilizers plant foods, insecticides, and gasoline ingestions become almost epidemic this time of the year," said Ellis. "along with the numerous household cleaning products out for spring cleaning." The fact that the product might be foul-tasting doesn't really apply on a one swallow basis-when you are a 2 year old. Our rule of thumb at the Poison Center is "if it is small enough to get in the mouth and doesn't bite first, it will be eaten," Ellis said.

As the weather warms up and children are in and out of the house more, they seem to be able to find more.

In the event of a poisoning emergency, the first thing to do is to call the Texas State Poison Center at 1-713-765-1420. The Poison Center staff will help you determine if medical attention is required, or if the problem can be handled at home. "About 85% of our inquiries can be handled at home," Ellis noted, "thus rushing the person to the hospital, is usually unnecessary. If the poisoning is serious enough to need medical attention, the Poison Center will direct you to the emergency room and then call ahead so that the child will be treated quickly."

The fact that no small children live in the home, does not mean that a poisoning cannot occur. "Nearly everyone has a small niece or nephew, grandchild, or a friend with small children-all of whom may visit occasionally," Ellis said, "and that makes them prime candidates for a poisoning accident." Every home should have a bottle of syrup of Ipecac, particularly if small children live there. This nauseating liquid is used to cause vomiting in the poisoned child. If vomiting is indicated, "Sometimes, we don't want the child to vomit," Ellis said, "so the parent needs to talk with the Poison Center first, before using the Ipecac. But is the only safe way to induce vomiting."

Other household remedies like, mustard and water, salt water, etc.-are both ineffective, and can be quite hazardous themselves."

PBPA energy report

The 13 members of the Organization of Petroleum Exporting Countries agreed to reduce production to 17.5 million barrels of oil per day. At the same time, they decided to continue the benchmark price at \$34 a barrel. OPEC also said its members would cut production even more if need be. Analysts said it may take three to six months to see what will happen. Imports continue to drop. For the week ending March 12th, we imported only 30 percent of our petroleum needs. This compares to almost 48 percent in 1977.

Energy Secretary James Edwards told the Independent Petroleum Association of America in writing that President Reagan will present a gas decontrol bill in 1983. Edwards told IPAA the President has already ordered the drafting of a decontrol bill for next year.

And, President Reagan has vetoed a bill that would have given him the authority to allocate supplies and set petroleum prices during an energy crisis.

Administration officials said he already has some power to apportion oil during a shortage. And, the President said the added powers would not necessarily ensure a fair and orderly distribution of oil in an emergency. The Senate upheld the President's veto.

In the Permian Basin our rig count for last week was 402. One year ago it was 421.

Immunization clinic set for Thursday

An immunization clinic will be held Thursday, April 1 at the Civic Center. Public health nurses from San Angelo will conduct the Clinic from 10:00-12:00 a.m. and 1:00-3:00 p.m.

The clinic sponsored by the Texas Department of Health, Region 4. Everyone is welcome to attend. The clinic is free.

PHONE NEWS TO THE STOCKMAN.

SHEEP AND GOAT NEWS

By Texas Sheep & Goat Raisers' Association

It just goes to show that you can fight City Hall-or a reasonable facsimile thereof.

When the Texas Sheep and Goat Raisers' Association passed a resolution at its recent winter directors' meeting opposing planned changes in the Texas aerial predator control rules, some folks thought we were spinning our wheels. Now the Texas Parks and Wildlife Commission has ruled on those proposed changes, and it looks like we had plenty of traction after all.

Granted, the Association had opposed the changes in their entirety and some went through anyway, but the worst of the proposals bit the dust.

TP&W wanted, among other things, to require the registration of all aerial predator gunners and to require 12-hour prior notification of any predator control flights. Neither change survived the hearing.

They did get a whopping 20-fold increase in the annual aerial predator control permit fee and a number of lesser changes, but we think both fliers and stockmen came out of the affair in fine shape, all things considered.

TS&GRA president I. W. Terry, Sterling City, says the gunner and prior-notification rules would have crippled aerial predator control efforts, but he doesn't believe that's what TP&W had in mind when it proposed them.

"I honestly think they never gave a thought to what it would do to predator control," he explains. "They were so intent on catching aerial deer hunters that they overlooked the whole purpose of the rules."

Terry points out that the proposed rule changes didn't come up until the aerial predator control program was shifted from game management to the enforcement division.

Fliers, both commercial and private, often use ranchers or their family members or ranchhands as gunners. The idea is to have someone a paying customer will trust when it comes to verifying predator kills. It also helps to have a gunner who is familiar with the country. TP&W is very picky aerial hunters staying within authorized areas, and one fence-line looks pretty much like another to an unfamiliar flier. The upshot is that gunner lists would stay in a constant state of change, and any delay in getting a new gunner registered could cost a bundle in lost livestock while a flier was forced to sit and twiddle his thumbs.

Faced with these practical objections, TP&W withdrew the gunner rule at the beginning of the hearing.

That left the 12-hour prior notification proposal, and it was tougher. TP&W had first required notification of local game wardens, but later offered to install a 24-hour "hotline" phone in Austin to cover for game wardens who couldn't be reached quickly.

They still weren't thinking like predator control people, and that became clear during the hearing through testimony from such rancher/fliers as Dr. Percy R. Turner, Water Valley, Bert Dennis, Gail and G. R. Jackson, Midkiff.

These men, along with former Texas animal damage control state supervisor Milton Caroline, pointed out that private rancher/fliers often spot coyotes while flying their ranches for other reasons. To make them cool their heels for 12 hours because of a red-tape technicality would be ridiculous, they insisted.

That left TP&W with a clearer perception of the problem: there's no way to make such a delaying rule workable in a quick-response situation like predator control. They either had to withdraw the rule or pass it and drop any pretext of cooperation and fairness. The latter choice would be unenforceable, engender a lot of hard feelings and probably create a number of lawbreakers.

Faced with such a prospect, TP&W withdrew the rule.

Now if we could just have gotten rid of that \$100 permit fee...

Taxpayers encouraged to prepare own forms

Most taxpayers who use the 1040A form when filing their 1981 Federal income tax returns should be able to prepare it themselves, the Internal Revenue Service said.

Last year 41 percent of U.S. taxpayers used the short Form 1040A when filing their returns.

In urging 1040A filers to try to do the 1040A themselves, the IRS points out that the form contains only 18 lines, and comes with easy-to-understand, step-by-step instructions explaining how to fill it in.

Form 1040A can be used by taxpayers whose income consists only of wages, salaries, tips, interest, dividends,

TMA sponsors dope education program

T-shirts, brochures and bumper stickers comprise a marijuana education program sponsored by the Texas Medical Association Auxiliary.

The project, conducted in cooperation with the state's War on Drugs campaign, carries the theme "Stop Pot!"

The green-and-white T-shirts include that message along with an insignia of a marijuana plant encircled and crossed out in the manner of a traffic sign.

The brochure, entitled "The Dirty Dozen-12 Things You Need to Know About Marijuana," notes that:

More than three-fifths of all high school seniors have tried marijuana. In the last five years, the number of teenagers smoking it daily has almost doubled.

The ingredient that causes the high in marijuana is THC, which tends to collect in fat. Since the brain has abundant fat, THC heads there. It also collects in the liver, lungs, kidneys and glands. The chemical remains long after the buzz has gone away.

Recent tests show that it may take as much as a month for the body to clear out the THC from only one marijuana cigarette. Because the body still has almost half of the dope left after one week, even weekend smokers have it in their bodies all week.

Marijuana adversely affects the growth and division of all kinds of cells. It may be worse on the lungs than cigarettes. Even light, but regular, smokers show mild lung damage in less than two months. Heavy marijuana smoking narrows the breathing passages. In addition, tests on monkeys indicate

that marijuana may damage brain cells permanently.

In pregnant women who smoke marijuana, THC goes directly to the unborn baby and interferes with protein formation and the growth of new cells the baby needs.

Regular users often cannot drive well, have difficulty remembering details, show a loss of willpower, have problems concentrating and are

paranoid. The brochure also offers tips to parents in dealing with the situation.

Order blanks for the T-shirts can be obtained from county medical society auxiliaries or from the TMA Auxiliary, 1801 N. Lamar Blvd., Austin 78701. Brochures also can be obtained there. The bumper stickers will be available by May.

Healthy foot forward for elderly Texans

Older Texans, put a "healthy foot" forward, since often how your feet feel is how you feel, says Judith L. Warren, a family life education specialist-aging.

Think of your feet, she says. Despite aches, blisters, fallen arches, bunions and corns, they've paced onward carrying you for heavier or lighter throughout a lifetime.

Your feet need proper care, the specialist emphasizes.

Among common foot troubles are athletes' foot and similar problems. These fungal and bacterial conditions may occur when feet perspire in the shoes.

Infections can develop under these conditions, causing redness, blisters, peeling and itching.

Treat infection promptly to keep it from returning, Warren says.

Prevent fungal and bacterial growth in the first place by keeping feet clean and dry. Expose your feet to the sun and air whenever possible. Also, fungicidal powders may be useful.

Dry skin, on the other hand, can mean itching and burning. So use mild soap for washing the feet and apply lotion to feet and legs every day.

Corns and calluses are the result of too-tight shoes or shoes that rub the feet. Of course, bone deformity can be the culprit in some cases.

Ask your doctor about treatment for corns and calluses. Commercial preparations may remove a corn, but they don't treat its cause, the specialist cautions.

Warts are growths caused by viruses. Again, consult your doctor for treatment. Bunions happen when big-toe joints are out of line and become swollen and tender. Poorly fitted shoes may be responsible.

Wear shoes that have wide insteps and toes. Add protective pads to cushion the affected area. If bunions are extremely painful, ask your doctor about surgery to repair them.

Ingrown toenails occur when an edge of the nail pierces the skin-usually it happens with the large toe. Most often the causes are improper trimming or nail deformity.

Usually this problem can be avoided by cutting the toenails straight across and level with the top of the toe. But if the problem persists, your doctor may have to remove part of the nail so the area can heal.

Another cause of foot troubles is diabetes. It can dull the sense of feeling in your feet, and because of that, small unnoticed injuries can go on for a long enough time to become aggravated to a dangerous state.

Cuts need immediate attention in the case of a diabetic person since the healing process is slower. Also, diabetic older adults should avoid very hot or cold bath water.

Ward off foot frustrations in the first place, Warren stresses.

Improving your circulation is one of the keys to preventing foot problems.

Walk, stand, stretch to increase blood circulation to the feet. Also try gentle massage and warm foot baths. Avoid extremely cold water, tight shoes or stockings and sitting or resting for long periods.

Choose shoes carefully. Make sure shoes have a flexible upper part and slip-resistant sole. For more comfort and safety-with less damage-choose low-heeled shoes. Also consider natural leather suede-they allow the feet to breathe and they cause less irritation, Warren says.

VOTE

April 3, 1982

Please don't forget to

VOTE

for Crockett County School Board.

This election is important to all of us.

Your support would be greatly appreciated.

Eldorado, Texas

As of April 1

Maxine's Flowers will be under new ownership.

I would like to express my gratitude to my customers and friends for their patronage and support during the past five years that I have been in business. I have made many new friends that I will always treasure.

Billie Morris (Mrs. A. E. Morris) and Karen Morris (Mrs. Chuck Morris) will be taking over ownership on April 1. Billie is an experienced florist and capable designer that will continue to serve Ozona's growing floral needs. Billie and Karen will continue all the past floral traditions and honor all established accounts. They will be continuing with a well-stocked greenhouse and gift shop, with gifts ranging from old favorites to trendy new items. Billie and Karen invite you to stop by and say "hello," and visit with them.

Thanks once again for your kindness and patronage,

Patti Jones
