#### "QUEST CANVAS PIPE" LUBBOCK, TEXAS

HERE'S WHY IT WILL PAY YOU TO BE SURE

1. Only "Quest Canvas Pipe" is manu-factured from canvas which is specially-woven and specially-treated to make water-tight irrigation pipe.

The know-how gained through seven • years of developing and manufacturing canvas irrigation pipe, results in a quality product for which there is no substitute

3. Lock-stitched seams on "Quest Canvas Pipe" mean it can take much more pressure than ordinary canvas pipe.

"Quest Canvas Pipe" is manufactur-ed on the South Plains in the heart of the irrigation belt and its exclusive features are the result of first hand knowledge gained through hundreds of field tests under every possible circumstance.

# "Try Before You Buy" Dryer Ca

Muleshoe appliance dealers and the Southwestern Public Service Company are this week launching a two months advertising campaign on electric dryers with the slogan, "Try Before You Buy". In this paper will be found the announcement of the electric company and advertisement of

their dryers by local dealers. The campaign really provides a big break for families who have been wanting to try out these new dryers, which do away with the clothes lines.

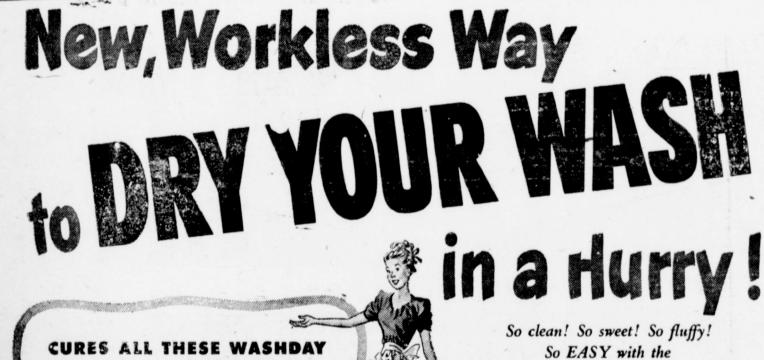

Southwestern Public Service is going all out to cooperate with the dealers who are designated Reddy Kilowatt merchants. Their home service advisors will call on each family during the 15 day freetrial period, and will display brands of dryers sold locally and demonstrate as many as can be connected on each display floor. Literature telling of the "Try Before You Buy" campaign reminds dealers of six reasons

They may try out a dryer for 15 days at no obligation and learn the comfort and conveniance furnished by these machines.

### **HEADACHES...FOR KEEPS!**

- No more heavy, wet clothes to carry.
- No more stooping and lifting.
- No more weather worries.
- No more soot and dust spots.
- No more drying delays.
- No more unsightly clotheslines.

Yes, another nasty washday job goes out of your life for good-as soon as the new Bendix automatic Home Dryer moves into your home.

Set States

A wonderful new time and work-saver, it's the biggest step toward washday freedom since the Bendix automatic Washer was invented!

HERE'S HOW THE NEW BENDIX DRYER WORKS ... while you don't!

Just push the clothes through the convenient basket-level porthole into the satin-smooth revolving drum. Set the dialand you're through!

As the cylinder revolves, fluffing the clothes in a criss-cross tumbling action, clean, heated air blows through them. Clothes come out in jig time-dry and ready for storing, or damp for ironingdepending on your dial-setting.

Designed to match your Bendix Washer, but it teams up perfectly with any make of washer to lighten your housekeeping load. Seeing is believing!

#### free demonstration! ... EASY **PAYMENT PLAN! COME IN TODAY!**

### Mrs. Hanks Speaks To HD Members

"How to plan landscaping to save labor", was the topic discussion by Mrs. Hanks, as the Muleshoe H. D. Club met Tuesday, January 26, in the home of Mrs. Awtrey

The new year books were filled out, and the club voted to give \$5 to the March of Dimes. It was also decided to continue sending gifts to the two girls who are patients in the state hospital at Abilene.

Mrs. Caldwell told the group of her visit to the hospital at Terrel and the club decided to bring quilt scraps, crochet thread or wool thread to send to the patients there. They are to bring these items to the next meeting, which will be held Tuesday, February 9, in the home of Mrs. Casey.

Ideas on the entertainment for the Commissioners' banquet was discussed.

The hostess gift brought \$1.90, and Mrs. Dave St. Clair was the lucky lady who won a ceramic ash tray and a ceramic bird, both made by the hostess.

Delicious refreshments of angel food cake, salad wafers, coffee. and cocoa, were served to the following ladies: Mmes. Day, Landers, Griffiths, Briscoe, Carney, Bowers, Hanks, Bruns, Robinson, St. Clair, Wright, Casey, Fletcher, Gillis, Witte, Kriegel, Caldwell, and the hostess.

Parmer County Farm Bureau News

8,719,178 acres of cotton will likely be planted in Texas this year under revised legislation. 7,376,858 acres, the original allotment figure under which you received your allowable figures, were 1,342,320 under the new figure. We were not aware until recently, of the fact that some farmers thought the allotment they received was possibly final. The Secretary of Agriculture and Jim Green, a good friend of the most daily that some adjustment would have to be made as soon as congress convened. Farm Bureau leaders, knowing adjustments would be made, were working steadily in an effort to reach an equitable agreement with cotton growers of the nation, that could be presented to the Agricultural Committee with reasonable expectations of adop-

Engagement And Approaching Marriage in 1954 and 1955 without the in-

THE MULESHOE JOURNAL, Thursday, January 28, 1954

dividual being penalized when future allotments are calculated. Farm Bureau recommendations

not accepted by the committees were: 1. One per cent of the national acreage reserved as relief acreage on small farms. 2. Authorization for the Secretary to count underplanting and aband. onment in determining the minimum national marketing quota. (As a consequence of rejection of the last recommendation, it is likely that the national allotment for 1955 will be around 17.9 million acres.) However, with the opportunity of distributing allotments on a history basis and with both county and state reserves to relieve hardship cases, the difficulties of 1954 will not be encountered in 1955.

We hope to be able to reduce the lines devoted to COTTON after this week.

The March of Dimes campaign is progressing nicely. Be sure you give liberally. Rhea community raised over \$140 last Friday night with a pie supper and quilt raffle, plus direct contributions. The Firemen and Lions and teachers raised \$150 with their ball game a week ago and there are several other civic contributions we don't have reports on. The ESA club in Farwell raised \$35 at a coffee the other day. Mrs. Joe Jesko brought in about \$95 from a 42 party held at Lazbuddy. Remember the Mothers' March Friday night, 7 to 8. Turn On Your Porchlight.

### Farmers Return Cotton Burrs And Waste From Gins Back To Soil

(From Amarillo Daily News) "This is the best thing that ever happened to the land in Bailey County", said J. K. Adams as he

surveyed a field that had just stems, waste and dirt. In Bailey and several other Plains cotton counties, a growing trend to return cotton wastes from the gin to the soil has been noted. The trend was accelerated by reports of increased yields on irrigated land by as much as

one and one-half bales per acre. Once regarded as a bothersome as the way to better soil and bigger yields. But returning the material to

the soil at first posed a big problem. Equipment to spread the milling. burrs evenly at a rate of four, five or more tons per acre was not available. Labor for doing the Specially built spreaders, or-

Pink boolworm restrictions in

inches, respectively. Untreated plots showed moisture depth

only to 16 inches. One of the outstanding yield increases has been reported from received an application of five Bailey County's Maple Communi-tons of cotton waste — burrs, ty, where Delbert Richardson harvested 40 bales from 20 acres that had been fertilized with 300 pounds of nitrogen and super phosphate and 20 tons of cotton

burrs on each acre. Eight of 18 gins in Bailey this season composted their burrs, using methods recommended by Extension Service technicians. As a result some 24 million pounds. R. L. BUT FINIS

of cotton residue will be returned to enrich about 2,500 acres. and expensive nuisance to be dis. An application of super phosposed of by burning, gin wastes phate fertilizer is being applied are rapidly gaining recognition to further decomposition after the burrs are spread on fields. Ginners usually make no charge

for composting, but ordinarily charge \$1 per ton for hammer-Fred C. Elliott cotton work

specialist for the Texas Extension Service, said that gins can operate their own spreading equipment to the benefit of the ginner and grower. He points out that the best burr incinerators cost \$8,000 to build and \$1,000 a year to maintain. "An \$800 hopper is cheaper than an \$8,000 burner", Elliott reasons, "and the soil needs the organic matter".

ess for preparing the material for return to the soil, results in the burrs decomposing to a soil returnable stage. Temperatures in the burr piles rise to the 150 to 180 degree range-enough to kill the bollworm larvae.

to eradicate the resulting plant A TIME FOR ALERTNESS growths Caution also should be used

Any program as extensive as the recent drouth relief hay shipments to Texas can have mixed results. It can do a lot of good and yet still have some harmful after-effects

One danger lies in the spread of noxious weeds or plants to areas where they did not exist before. When hay is brought in from distant points, it is inevitable that some foreign plants are mixed with that hay. And they can be a real bother if they get a foothold in Texas fields.

There are several precautionary measures a farmer or rancher can use to prevent this spread. When practical, only one area of the pasture or barnyard should be is especally ripe in Texas this used as a feeding site. This area year

### **Stop Taking** Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, never take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make re-peated doses seem needed.

When you are temporarily constipated, get sure but gentle relief-without salts, without harsh drugs. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. The extract of Senna in Dr. Caldwell's is one of the finest natural laxatives known to medicine.

men. That is why we must keep a close watch for economic danger signals.

The present is being called period of "transition", of "readjustment". In dealing with regloom-that we do not readjust ourselves into a recession.

FARM INCOME:

Cash income of Texas farmers was 17 per cent less in the first 11 months of 1953 than in the same period of 1952, reports the Bureau of Business Research of the University of Texas. That was a decline of close to a quarter of a billion dollars.

We had a drouth, of course, but falling farm prices were mainly responsible for the drop in income. Overall prices for all farm products went down by 14 per cent during the year. When farmers receive less total income - and when prices paid for their products keep going down - those are danger signals in any language. SAFEGUARDS:

Fortunately, we have machinery for combatting a recession if the threat of one should become imminent.

Many economic safeguards have been set up by the Government during the last 20 years. We have the know-how-gained from experience - to fight the threat of depressed economic conditions, and to fight it successfully. We must be ready to use this know-how if the neces-

### and you'll want to drive it home

Feel how Ford's new Ball-Joint Front Suspension cushions the bumps.

You'll find a new kind of ride . . . level and smooth ... even on rough, rutted roads. And, because Ford's new ball-joint front suspension is simpler than the conventional type . . . with 12 points of wear eliminated . . . that "new car" feel lasts longer

Look at your beautiful surroundings.

You'll see why Ford interiors for '54 set a new high in beauty. For here is a matchless blending of fabric, color and styling. Every detail says "fine car" quality from the new upholstery and trim to the unique new Astra-Dial Control Panel. And you'll find there's all the "living room" you'll ever want or need.

See how Ford's optional power assists\* make your driving easier.

Unlike other low-priced cars, Ford offers a powerlift system that operates on all four windows. And Ford's power-operated front seat moves up and down as well as back and forth. Ford also offers you power brakes, power steering and Fordomatic.

Your fun really begins when you own a Ford

Of course, you can't fully appreciate the many, many "worth more" advantages that are yours in a '54 Ford until you actually own one. You'll find that your Ford provides the careful craftsmanship of a hull-tight Crestmark Body, the added safety of Full-Circle

Visibility, the easier action of suspended elutch and brake pedals and the convenience of Center-Fill Fueling . . . advances which make your Ford more fun to drive. And only Ford in the low-price field brings them to you. Why not join the swing to Ford!

We cordially invite you to Test Drive a 54 FORD
