No action was taken on agenda items to discuss the status of all lease agreements Crockett County has and to approve policy for county attorney charges. The charges should be addressed on a case by case basis, commissioners agreed.

Also receiving no action was the agenda item to approve final payment to Sunwest Construction Company, builder of the new annex. Jack Meek, commissioners spoke of roof leaks and humidity problems which continue to plague the building.

Shannon Hunnicutt of Crockett County Abstract talked to commissioners about participation in the national flood insurance program. The county is not a participant, and as a result, some companies will not lend money for purchase of property here, she said. The court tabled any action on the item.

A letter of support for the wind court and signed by Judge Sutton. The letter, requested by Texas Wind Power, will be sent to the Public Utilities Commission in Austin. The project is

During the 1997-98 school year, the number of minority (African American, Hispanic and Asian) students made up 55 percent of the 3.9 million Texas public school students, the eighth consecutive year minorities comprised 50 percent or more of all public school students.

class to the suburbs.

The number of minority school students also is growing at a rate eight times faster than that for white students, the report said.

But the growth rate that stands out the most in Texas is that of economically disadvantaged students, which at 65 percent is the most of any population group cosmetic contact lenses.

tracked in the report.

Economically disadvantaged students now account for 48 percent of all Texas public school students, compared to 35 percent in

Students are classified as economically disadvantaged if they are eligible for U.S. Department of Agriculture meal programs offered at schools, through which children from low-income families receive free or low-cost breakfasts and lunches.

Bomer OKs Code Changes

Texas Insurance Commissioner Elton Bomer has adopted, on an emergency basis, a citizen advisory committee's recommended changes in the state's new coastal building code for windstorm resistant construction.

Without Bomer's emergency action, changes in the code likely would take 60 to 90 days because of public notice and public hearing requirements.

low those requirements and con- ers, Texas Secretary of State sider permanent adoption of code changes that would:

■ Increase eave-to-eave roof span of one and two-story buildings from 36 to 48 feet.

■ Allow builders to connect building components, such as wall studs, top plates and sole plates with plywood sheathing, appropriately nailed to assure resistance to uplift from hurricane-force winds.

■ Add new provisions giving builders guidance on the design of recessed front entryways.

New homes built to the new code will qualify for Texas Windstorm Insurance Association wind and hail insurance premium discounts to be set by Bomer.

Agencies Issue Lens Alert

Four state agencies last week issued a joint warning about possible health risks associated with medically unsupervised use of

After receiving about a dozen reports of eye infections and injuries, the Texas Department of Health, Texas State Board of Medical Examiners, Texas Optometry Board and Texas attorney general said risks of using unprescribed lenses include bacterial infection, allergic reaction to the lens coating, insufficient oxygen to the cornea, abrasions and corneal ulcers.

The colored and patterned noncorrective fashion lenses, frequently sold by businesses unlicensed to distribute them or through classified advertising in school newspapers and free community publications, often are targeted to junior high and high school students.

Also, the Texas Department of Health said, the sharing or trading of contact lenses can cause serious viral or bacterial infections.

Other Capital Highlights ■ With the voluntary assis-Bomer said he planned to fol- tance of Texas newspaper publish-Alberto Gonzales is conducting an essay contest in which school children will write on the topic, "Why My Parents Should Vote." Winning entries will be published in newspapers and displayed at the state Capitol. On Sept. 8, Gonzales certified the ballot for the Nov. 3 general election.

■ The Texas Department of Insurance reports that the state's 20 biggest automobile insurers are charging just 2.7 percent more than insurance department benchmarks established to keep rates reasonable. State law permits insurance companies to charge rates 30 percent higher or lower than a benchmark the state considers rea-

Pneumococcal vaccinations can

prevent unnecessary illness or death

Pneumococcal disease can lead to fections, at least half of which can be serious infections of the lungs (pneumonia), the blood (bacteremia), and But only 43% of Texans over 65 years the covering of the brain (meningitis). About 1 out of every 20 people who get pneumococcal pneumonia dies from it, as do about 2 out of 10 people who get bacteremia, and 3 out of 10 who get meningitis. People with the special health problems mentioned above are even more likely to die from the disease. Drugs such as penicillin were once effective in treating these infections, but the disease has become more resistant to these drugs, making treatment of pneumococcal infections more difficult. This makes prevention of the disease through vaccination even more important.

> The pneumococcal polysaccharide vaccine (PPV) protects against 23 types of pneumococcal bacteria. Most healthy adults who get the vaccine develop protection to most or all of these types within 2 to 3 weeks of getting the shot. Very old people, children under 2 years, and people with some long-term illnesses might not respond as well or at all.

Love is in the Air

By Dennis J. Prutow

From the strains of "Love Me Tender" as sung by Elvis to more provocative songs urging us to "get physical", love is the theme. Or is it actually sex? It's hard to tell. It's the same in the TV commercials. After watching them, we are tempted to think "love" can be fulfilled with the right beer, the proper car, and the appropriate after shave. Or again, is it sex we are after? Is it the emotional

high that we really crave?

If we continually portray love in this way, we will attempt to fulfill the fantasies. Ultimately, we will be very disappointed. Why? Love is not primarily a feeling. Love is not primarily an emotional high. Oh, yes, the feelings can run high, and deep, and wide and they ought to. But those feelings spring from a previous commitment.

And that commitment has a certain character. Look at how the Bible

Lion at Ozona Primary School...Oh My!

BONNIE AND HUGH RUSSELL of Greenwood brought "Tabulu," their 10 week old female African Black Mane lion to the classroom of niece Susie Childress at the Ozona Primary School last Friday. The Russells also own two other Black Mane lions, two Siberian tigers and three cougars.

OHS cross country cranks up the heat

STOCKMAN SPORTSWRITER

The Ozona High Lions and Lady Lions' cross country teams hit the trail for the first time this season, competing in the Concho Valley Classic last Saturday in Carlsbad.

Led by senior Lori Sanchez the Lady Lions finished 13th in the team standings among a field of very strong West Texas runners. Sanchez raced through the two mile course in a time of 15 minutes, 21.51 seconds to take 10th in the individual standings. Other ladies finishing the event were Laramie McWilliams in 18 minutes. 55.76 seconds. Andrea Hiers with a clocking of 19 minutes, 0.3 seconds, Stacev Sutton in 19 minutes, 9.91 seconds, and Summer Browne in 19 minutes, 13.75 seconds.

Wall and Reagan County took the top honors in the team rankings for

the ladies competition.

In the men's division Winters took first and Reagan County finished two points behind them. Ozona's contingency finished in 5th place.

Leading the Lions over the three mile stretch was Jomie Tebbets, who placed 17th in the individual count. and Jared Shaffer, right behind Tebbetts in 18th. Tebbetts clocked in at 19 minutes, 52 seconds and Shaffer pushed him to the finish line only 4 seconds behind.

Josh Tambunga took 22nd with a time of 20 minutes, 8 seconds, I. J. Villarreal was 32nd at 20 minutes, 34 seconds, and Martin Sanchez finished 33rd at 20 minutes, 50 seconds. Other finishers for the Lions were Gerald Elizondo, turning in a time of 23 minutes, 10 seconds, Gabriel Tijerina in 23 minutes, 15 seconds, and Justin Hull in 24 minutes, 59 seconds.

School tax rate public hearing Sept. 10

In a special meeting of the Ozona School Board that was held on Thursday. Sept. 10, the trustees held a public hearing on the 1998-99 school year proposed tax rate. The proposed tax rate is \$1.30 per \$100 of assessed value for the Maintenance and Operation (M&O) fund and \$0.089 per \$100 of assessed value for Interest and Sinking (I&S) fund. On Thursday, September 22, at 7:00 a.m. in the school district administration building boardroom, the members will consider and vote on a combined school disassessed value for the 1998-99 school

Superintendent Larry Taylor explained that on Aug. 18 the board members voted to approved recommending to the Crockett County Commissioners Court a 1998-99 school year tax rate of \$1.30 per \$100 of assessed value for maintenance and operation of the school district, which was the same tax rate as last year. On Aug. 26 the trustees approved recommending to the Commissioners Court a 1998-99 school year Interest and Sinking fund tax rate of \$0.89 per \$100 of assessed value, which was the trict tax rate of \$1.389 per \$100 of result of local voter approval on Aug. 22 of the Capital Improvement Project to renovate Ozona Middle School and Davidson Gymnasium.

Ch

"Due to the Truth-in-Taxation laws which require a public hearing if total taxes are raised by a cent or more from one year to the next, the board has to conduct a public hearing and revote on the total tax rate. Our initial information was that since there was no increase in the maintenance and operation rate (\$1.30 per \$100 of assessed value) between last year and this year, and local voters had already approved the issuance of bonds for the renovation issue at a \$0.089 rate, then the tax rate had been officially recommended to the Commissioners Court. However, a closer inspection of the Truth-in-Taxation laws, reveals that the board has to meet again to recommend to the Commissioners Court a total 1998-99 school year tax rate of \$1.389. This is the reason why the board will have to meet on Sept. 22 to officially vote on this total tax rate", Taylor explained.

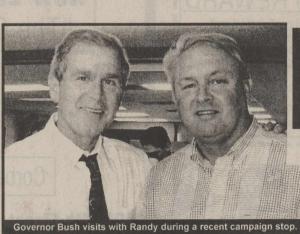

NOTICE OF VOTE ON TAX RATE

THE CROCKETT COUNTY CONSOLIDATED COMMON SCHOOL DISTRICT CONDUCTED A PUBLIC HEARING ON A PROPOSAL TO INCREASE THE TOTAL TAX REVENUES BY 6.4 PERCENT **SEPTEMBER 10, 1998.**

THE CROCKETT COUNTY COMMISSIONERS' COURT IS SCHEDULED TO VOTE ON THE TAX RATE THAT WILL RESULT IN THAT TAX INCREASE AT A **PUBLIC MEETING TO BE HELD SEPTEMBER 24, 1998,** AT 6:00 P. M.

> AT THE **CROCKETT COUNTY COURTHOUSE OZONA, TEXAS**

Leifeste

for State Representative

Dear Fellow Texan,

As a fifth generation Texas rancher, a former Llano County Commissioner and the proud father of four children, I understand the needs and concerns of rural Texas. That's why I'm running to serve the people of District 73 in the Texas House of Representatives. Since January, I have traveled to every corner of District 73, talking to folks about what they believe we need to do to keep Texas a good place to live and raise a family. I agree with what they tell me: We need strong, conservative leadership in Austin. You and your neighbors will be able to count on me to work side-by-side with Governor Bush to protect your private property and water rights, provide the best public schools for our children, and cut your taxes. If you agree with my conservative agenda, I invite you to become a part of my campaign.

Sincerely, Landy C. Leifeste Randy Leifeste

Lions drop close contest to Sterling City

By David Screws
STOCKMAN SPORTSWRITER

Last Friday in Lion Stadium the Ozona Lions appeared to be in control of a football game. After three quarters, they had an 8-0 lead. At the half the Sterling City Eagles had managed only one first down. The Eagles had lost two fumbles and Anthony Ortiz had stolen one Eagle pass and their offense was straining to move against the Lions

In the fourth quarter all that suddenly changed and Sterling City was able to find the weak spots and put together enough points to topple the Lions by a 17-8 margin. The Eagles narrowed the deficit with a 35-yard field goal by Levi Hallmark before scoring a pair of touchdowns in the final three and a half minutes of the game.

"The team played better than last week," commented Coach Walter Hargrove, comparing performance to their opening night loss to Grape Creek. "They made some errors at critical times."

One of the problems was the wind. A very short punt by the Lions helped set the Eagles up for their goahead touchdown. The other problem was an offense that was making good yardage early in the game but was foundering in the second half.

Ross Crawford was good on 8 passes for a total of 107 yards in the air. Eighty of those yards came in the first half and only 27 in the second. Six completions were in the opening quarters and only two came after the intermission. Crawford was picked off three times

Kenny Vargas led a good rushing attack with a total of 97 yards and he moved the Lions near the goal with a 17 yard run in the third stanza. Crawford stepped off the final 7 yards for the Lions' touchdown and Vargas ran the ball in for the two-point conversion.

The defense also seemed to wane in the final half. After giving up the one first down early they allowed nine more as the game drew longer. Tim Maldonado led the tackling stats with 8 stops, 4 in each half. Cade Clark made five stops in the first half and one after half time. Mario Barrera shut the Eagles down 5 times.

Dustin Faught snagged 3 Crawford passes for 39 yards to lead the receivers. Seth Webster nabbed 2 for 28 yards and Mark Childress caught a 17-yarder, Anthony Ortiz had a 14 yard catch, and Chad Myers a 9varder.

Cotton Herbicide Benefits Harvest Aid Program

With so much profit riding on cotton grades, quality becomes a critical factor.

Planning harvest timing to maximize cotton quality and vield is essential. Using a harvest speeds harvest and helps maintain Harvesting early can improve yield potential, by avoiding

regrowth caused by late season rains and decreasing the risk of sticky cotton due to late season aphid infestations.

Most growers in our area have their own harvest aid tankmix recipe. No matter what you use for a harvest aid program, be sure to include STARFIRE® harvest aid in the program for faster, more effective defoliation and desiccation.

Starfire offers the most effective and efficient harvest aid results of any product available. Adding it to any defoliation tankmix stretches your harvest aid dollars. Plus, the flexibility of Starfire will allow a whole crowd of tankmix partners. Starfire fits any harvest aid program.

A harvest aid program that includes

- · produces cleaner, higher quality
- · works quickly and is rainfast in
- · provides good, fast, effective results, even in cool weather

· offers the lowest cost-per-acre of any burndown on the market. Starfire is very predictable. Even in cool weather, count on a Starfire defoliation to do its job in only four to seven days, so you can begin

harvesting seven days after application. For best results when using Starfire, carefully time harvest aid applications. Crop maturity remains the most important factor in determining when to make harvest aid applications. Otherwise, proper development of immature bolls may be inhibited. A managed approach to harvest using Starfire will open mature bolls, desiccate weeds, get higher grades and avoid the chance of stained cotton

Growing high quality cotton is a yearlong job and Starfire offers ways to help you see it through. Starfire puts you in control of cotton harvest. For more information about Starfire harvest aid by Zeneca Ag Products, contact your local ag chem

cial Security system was not reformed, future generations began to retire.

plan and saved Medicare from bankruptcy. And we did it without raising taxes. We can do the same thing with Social Security.

We already got a great start. We did such a good job of balancing the budget and cutting spending that we actually have a budget surplus. If we stay disciplined, over the next eleven years the federal government will bring in more than it spends. And that's no small amount of money. The Congressional Budget Office projects the surplus to be 1.6 trillion dollars

been obvious to many that if the So- over the next eleven years.

That 1.6 trillion dollars is more there would be serious problems when than enough to preserve Social Security. Not only will that amount take This Congress is stepping up to care of Social Security, but it also the plate to save the Social Security means that your tax burden can and system from falling apart. We have should be lowered. After all, that 1.6 some experience in this area. Just a trillion dollars is your money. Lower, couple years ago we faced the same fairer taxes for you and your family crises with the Medicare system. We will strengthen the economy, and a focused our efforts, worked hard on a strong economy helps keep Social Security strong, too.

> Some said it could not be done. they said Social Security could not be saved without raising taxes. But it can be done. We have shown how. We can preserve Social Security and provide tax relief for hard working Americans.

This Congress continues to study additional ways to keep Social Security strong and healthy. It is our responsibility to make sure the Social Security system is there for future gen-

Weekly Drilling and Completion Report

Compiled by Charles Lewis Communications, Lindale, Texas Sept. 16, 1998

The No. 1181 Meadows has been broughton line 45 miles southwest of Ozona in Crockett County's Simposon-Mann Field. Enron Oil & Gas Co. is the operator. It probled to 5,500 feet total depth. The well flowed 1,225,000-CFD on a 1.25-in. choke and was rated at 1,290,000-CFD on absolute open flow. Production will be from 4,360 to 5,145 feet into the wellbore.

Harrison interests Co. recently completed the No. 48 John W. Henderson, III "N" about 14 miles southwest of Ozona in Crockett County's Ozona Field.

The developmental well earned a 175,000-CF gas per day evaluation on open flow and showed ability to yield 241,000-CFD on a 1.25-in. choke. Bottomed at 8,868 feet, it will produce from an interval ranging from 6,870 to 6,936 fet into the hole.

First production figures have been posted for the No. 4 Marshall Montgomery Estate Gas Unit 14.3 miles southwest of Ozona. The well is located in Crockett County's Ozona Field with Union Pacific Resources Corp. as the operator.

It flowed at the rate of 140,000-CFD on a 1-in. choke and earned a 286,000-CFD rating on absolute open flow. The well will produce from 6,388 to 6,484 feet into the

The same operator recently completed the No. 14 Bean "26" 13.2 miles southwest of Ozona in Crockett County's Northeast Ozona Field.

Flowing 238,000-CFD on absolute open flow, the well flowed 178,000-CFD when uged on a 1-in. choke. Union Pacific took the hole to a 7,100-ft. bottom. It will produce

from 6,396 to 6,980 feet into the wellbore. Cross Timbers Operating Co. has posted first production data for the No. 17 Jean Scheuber "B" in Crockett County's Angus Field about 11 miles southeast of Ozona. It was bottomed at 9,200 feet with plugback to 9,099. The developmental well flowed 116,000-CFD on a 0.75-in. choke and was rated at 124,000-CFD on absolute

open flow. Production interval is from 8,704 to 8,796 feet into the hole. The No. 4 Hallie Black "3" is scheduled for spudding 40 miles southwest of Ozona in Crockett County's Simpson-Mann Field. Altura Energy Ltd. of Houston is the opera-

Location is a 201-acre lease in the TCRR Survey A-3524. Canyon Sand formation will be the target at approximately 6,500 feet total depth

Warning Signs of Stroke

- · Sudden weakness or numbness of the face arm or leg on one side of the body
- Sudden dimness or loss of vision, particularly in only one eye
- · Loss of speech or trouble talking or understanding speech · Sudden, severe headaches with no
- · Unexplained dizziness, unsteadiness or sudden falls with no previous symptoms

Vacuuming might do as much good for your heart as it does for your carpets. That's because it gets you moving. which helps reduce some of your risk factors for heart disease. Same goes for other regular physical activities. Call 1-800-AHA-USA1 to get in on the action. Or visit http://www.amhrt.org on the World Wide Web. American Heart Associations
