Henry Bonilla 23rd District, Texas

HOUSE APPROVES BONILLA'S AGRICULTURE SPENDING BILL

- 'This bill will keep Texas Agriculture strong and prosperous' -WASHINGTON, D.C. - Congressman Henry Bonilla announced recently that the House of Representatives has approved the Agriculture spending bill. Mr. Bonilla is Chairman of the House Agriculture Appropriations Subcommittee and was responsible for shepherding the bill through the legis-

"I'm proud to help make a difference for farmers and ranchers across Texas and the nation," said Chairman Bonilla. "This bill is going to mean a safer, better informed and more advanced agriculture industry. That can only mean positive things for the consumers and industry as a whole."

The Agriculture Appropriations Bill funds \$74.2 billion for agriculture programs, through the U.S. Department of Agriculture (USDA) and other agencies. This amount is \$234 million more than the president's requested amount. The bulk of the spending goes to food stamps, the Food and Drug Administration, child nutrition programs, the Federal Crop Insurance Corporation and nutrition programs for Women, Infants and Children. The bill also provides \$1 billion for the Agriculture Research Service, \$720.7 million for the Food Safety and Inspection Service and \$946 million for the Farm Ser-

"We all refer to this legislation as an agriculture bill, but it does far more than assist just basic agriculture. It also supports human nutrition, the environment, food, drug and medical safety. This is a bill that will deliver benefits to every one of our constituents, every day, no matter where they live or what they do," said Chairman Bonilla.

The legislation provides funding to combat possible outbreaks of Foot and Mouth Disease and Bovine Spongiform Encephalopathy (BSE). The Food and Drug Administration, which oversees Foot and Mouth Disease prevention, will receive an increase of \$120.4 million. This additional funding is intended to aid the FDA's prevention exercises and prepare them for any outbreaks. The subcommittee also provided \$5 million for BSE research that will help with detection and diagnosis of the disease as well as safe disposal of carcasses.

"In addition to funding a wide range of important, traditional programs, we're also looking ahead to prevent future problems our nation may face, ing. including foot and mouth disease," said Chairman Bonilla. "Agriculture fuels our nation's economy. This appropriations bill is going to help keep the agriculture industry strong and prosperous."

Important Texas projects will also receive funding from the appropriations bill. The subcommittee will provide continued funding for the Weslaco bee research program; bovine genetics research will receive a funding increase of \$900,000; the plant germplasm research at College Station will receive a funding increase of \$1.5 million; and nutritional requirements research at the ARS Human Nutrition Center in Houston will receive an increase of \$500,000.

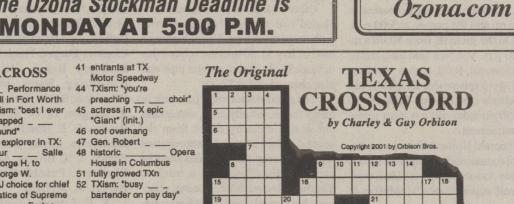

Additional programs based in Texas that will receive funding support include: the new U.S. Plant Stress and Water Conservation Laboratory in Lubbock will receive \$750,00 for staffing needs; dairy and meat goat research, wool research and livestock and dairy policy research will receive funding through the Cooperative State Research, Education and Extension Service; and the boll weevil and cattle tick pest management programs will receive funding through the Animal and Plant Health Inspection Service.

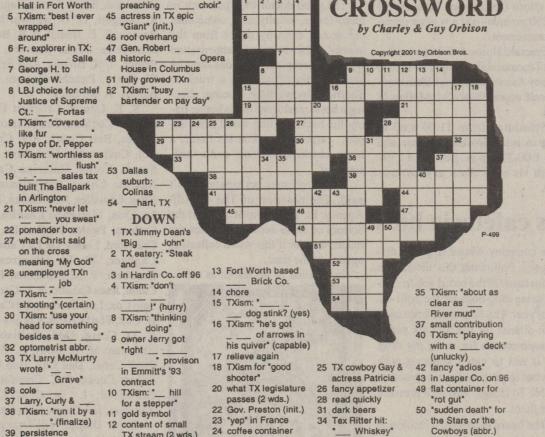

Other Texas programs that will receive funding include: the Texas Wildlife Services Program will receive a funding increase of \$1 million; Texas pecan research will receive an inc ease of \$300,000; the Grazing Lands Con-over the past week and weekend were few days under the most prolonged servation Initiative will receive an increase of \$2 million bringing the total their children, Mr. and Mrs. C. D. siege of high temperature old timers funding to \$20 million; the Natural Resources Conservation Service (NRCS) will receive \$500,000 to facilitate water conservation and efficient irrigation activities in the Bexar, Medina and Uvalde counties of the Edwards Aquifer; and additional funding through NRCS for the Bexar-Medina-Atascosa Watershed Project.

"This is an excellent budget that both sides of the aisle were able to agree upon," said Chairman Bonilla. "It's a perfect example of responsible spending: we're taking care of our nation's farmers and ranchers while keeping our nation's consumers healthy and happy."

The Agriculture Appropriations Subcommittee funds agriculture research, marketing and export efforts, commodity price and income supports, production adjustment programs, crop and disaster insurance, subsidized farm loans, conservation activities, health and safety related research and inspections, rural development programs, international food aid, domestic food programs, and the administrative expenses of operating the USDA. The funds appropriated to USDA represent about five percent of total federal government spending. Rep. Bonilla was named chairman of the House Agriculture Appropriations Subcommittee in January of 2001.

the bridegroom and youth director at ibbean. First Baptist Church of Leander, officiated the ceremony.

Special music was coordinated by Randy Carter. For the seating of the families, guitarist and vocalist Kristen Posey performed the "Parent's Prayer". Pianist Janet Pullen provided prelude music and the processional music, which included "Canon in D" and "Prince of Denmark's March". Special lyrics for the song "Turn Around" were written and sung by Gary Vannoy. Following the vows, Kristen sang "The Wedding Song" for the couple. Recessional music was "Kokomo" by the Beach Boys. Guests were escorted out with California music by the Beach Boys.

The bride was given in marriage amidst the beauty of nature and God's awesome creation.

She wore a floor-length gown of blush silk crepe with a matching shawl. The A-line silhouette featured a softly draped cowl neckline with hand-beaded bodice, spaghetti straps, soft fabric silk buttons and loops down the back, and a slightly flared, flowing hemline. Her hair was adorned with matching crystal beads.

Attending her sister as matron of honor was Dr. Whitney Vannoy Mascorro of Arlington. Maid of honor was Kristen Posey of Georgetown, sister of the bridgroom. Bridesmaids were: Mary Anderson of Houston, Kristen Beard of Austin, Jennifer Breaux of Detroit, MI, and Amber Clowney of San Antonio.

Attendants wore strapless, fuchsia-colored iridescent taffeta A-line floor-length dresses with matching shawls. Self-fabrice ruffles edged the shawls and bodices.

The bridegroom was attired in a cutaway coat, gray striped trousers, grey waistcoat, wing-collared shirt and striped ascot. Best men and groomsmen were identically attired but with striped ties.

Four Things That God Hasn't Seen

By Pastor Velma Trimble Harvest Time Christian Center Assembly of God

If I were to ask you today if there was anything that God had not seen your answer would possibly be no.

God has not seen a person that He did not love. He loves the vilest sinner because God is love.

God has not seen a sinner that He could not save. Luke 19: 10 says, "For the Son of man is come to seek and to save that which was lost." He is able to save to the uttermost. It is not His will that any should be lost but that all should come to repentance.

God has not seen a sickness that He could not heal. He said, "1 am the God that healeth thee." Leprosy was the dreaded disease of Bible times but God's power was greater than leprosy and many were healed. He can heal the most dreaded disease today because He is the same yesterday, today and forever.

God has not seen circumstances that He could not change. Luke 18: 27 says, "The things which are impossible with men are possible with God". The circumstances in your life may look hopeless but with God nothing is hopeless and nothing is impossible.

A most compelling motivating factor is clearly the huge sums of money coming regularly into the Social Security trust fund account. Contributions, according to the General Accounting Office, now total about \$500 billion per year and benefit disbursement total about \$400 billion. The U.S. Treasury receives the monies, pays the benefits and invests the surplus. Amendment Returns Precious Right to the American People

Washington, D.C. July 17, 2001 — A constitutional amendment. H.J. Res. 36, easily passed in the United States House of Representatives today by a vote of 298 to 125. The amendment reads 'The Congress shall have power to prohibit the physical desecration of the flag of the United States."

'Today's vote, once again, sends a clear message that the American people believe their values should be reflected in their laws," said Maj. Gen, Patrick Brady, Chairman of the Board of the Citizens Flag Alliance (CFA) and Medal of Honor Recipient. "A nation is defined by its symbols, its citizens and its values. The House vote today is a step toward preserving one special symbol for the ages and by continuing to do so, we ensure the next generation is taught the values of respect, service and sacrifice."

In 1989 the U.S. Supreme Court, in Texas v. Johnson, invalidated flag protection laws in 48 states and the District of Columbia. To date, 49 state legislatures have passed memorializing resolutions asking Congress to pass an amendment and send it back to the states for ratification. An identical measure, S.J. Res. 7. was introduced in the U.S. Senate in March. It has support from 64 Senators. 52 of whom are official cosponsors. Passage there would send the proposed amendment to the states. Three-fourths (38 states) would then need to ratify the proposed amendment to make it the next amendment to the U.S. Constitution.

In a letter to Congress, Gen. Norman Schwartzkopf underscored the importance of protecting the flag, saying, "The flag remains the single, preeminent connection among all Americans. It represents our basic commitment to each other and to our country. Legally sanctioned flag desecration can only serve to further undermine this national unity and identity that must be preserved. I am proud to lend my voice to those of a vast majority of Americans who support returning legal protections for the flag. The flag protection constitutional amendment is the only means of returning to the people the right to

"Today's vote is a victory for free speech. The collective voice of the American people has been heard on Capitol Hill and the message is clear. Remember America's heroes, our veterans, indeed all America's patriots, by protecting the symbol of their sacrifice for the ages," concluded Gen. Brady.

EDITORIAL Congressman Henry Bonilla 23rd District, Texas

We (Hispanics) are NOT Victims

Hispanics from all over the world are assimilating in our great country. Their population numbers are at an all time high. As with most immigrants, they are chasing the American Dream and catching it in record numbers. This is happening because Hispanics are not victims. Each Hispanic, whether born here or a recent immigrant, represents an opportunity for success as a proud

That's why it was distressing to read media accounts of a new "survey" ficulty answering the question about released by the National Council of La Raza. The survey attempts to portray Hispanic-Americans as victims. I couldn't disagree more. In fact, recent studies show us that Latinos are steadily assuming a greater role in the social, economic and political life of our country.

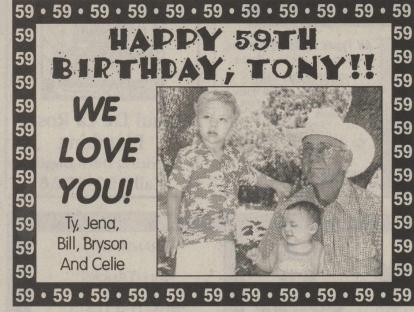

> The Tomas Rivera Policy Institute has dedicated itself to studying the Latino population. Their research reveals that there is a booming Hispanic middle class, with good prospects for future growth. Average Latino income has almost doubled in the past decade and the amount of Latinos with a college education has risen almost 50 percent. These numbers prove that Hispanics are NOT predisposed to be poor, uneducated citizens. On the contrary, recent research shows the complete opposite. It proves to us that with hard work and self discipline Hispanics have the ability to achieve the American

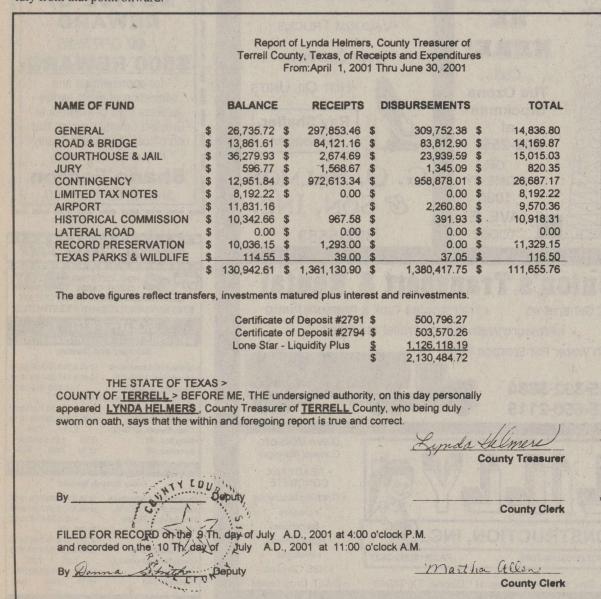

> All too often Hispanics are portrayed as victims, cowering in the neighborhoods, waiting for the federal government to rescue them. This is simply not the case. I am a descendant of Mexican immigrants. Three of my four grandparents came here from Mexico in the early 1900s. I was born in a housing project and grew up in the barrios of San Antonio. We never felt we were victims. My maternal grandmother worked as a maid in a downtown hospital for 30 years. She earned enough money to buy a home and have a pension. My father often worked two jobs to make ends meet. For a time while growing up, we even had to live in a small mobile home in my grandmother's back yard. No problem. Our attitude was always positive. We knew we lived in the greatest country in the world. And we knew that opportunity existed if we were willing to go to school and work hard.

> More opportunities exist today than ever before for all ethnic groups. Universities compete for minorities. Financial aid is more plentiful than ever. Employers are aggressively working to diversify. Job training programs thrive. Advocacy groups that use scare tactics do Hispanics a great disservice. By making Hispanics feel like victims, these groups prove they are far out of touch with the people they claim to represent. Instead, they should encourage immigrants and young Hispanics to take advantage of the incredible opportunities that already exist.

The bottom line is that most Hispanics don't consider themselves victims. So let's not pretend they do. Hispanics have a bright future in America. Our nation will continue to grow culturally richer because of this growing population. We should appreciate and celebrate our culture, but we should not allow ourselves to be labeled as victims. We are just as smart and will work just as hard as any other American. I don't know about the people who represent these "professional minority" groups, but when I look in the mirror every morning I first see an American. I'm proud of my culture, but more proud and grateful to say I live in this country.
