

# General Rains Brighten Plains Crop Prospects

## Many Farmers Plan To Plant Cover Crop Following Recent Heavy Rains

Recent heavy rains throughout the Blackwater Valley Soil Conservation District have been worth thousands of dollars. Of course, if it had come a few weeks earlier, it would have been worth a lot more as far as this year's crop is concerned. Even though the rain was a little late to be of much value to many dryland crops, enough moisture was received all over the District to make conditions

favorable for planting fall and winter cover crops. The rains averaged from near two inches in the Bula Community to about seven inches in the West Camp Community.

Many farmers have already indicated that they plan to take advantage of this moisture by planting a cover crop. This practice will protect the land from wind erosion during the winter and spring months. A. F. Ehrig, who lives in the Longview Community plans to plant about fifty acres of rye and vetch; Bill Ebanks of Maple reported that he intended to plant several acres of rye; and other farmers are planning to seed either sweet sorghum or grain sorghum.

It is too late to plant sorghums for a seed crop, but if planted within the next few days, and any more rain received before frost it should make enough growth to protect the land from wind erosion.

Several varieties of sorghums can be used for this purpose, but hegari or sweet sorghum is usually considered best. And too, if drilled it will furnish more protection from high winds.

## Precipitation In County Ranged From 2 To 6 In.

Long awaited rains fell over the Plains over the weekend, brightening the crop outlook, helping pastures, providing moisture for fall wheat planting and changing materially the aspects of the people. It was enough in most places to do a world of good.

The south part of Bailey County, which has been dry a long time, was thoroughly saturated, it appears with precipitations measuring from three to six inches. It may be too late to help some crops, and of course some crops were never planted, but it will do a world of good. However, some fields were damaged from excessive washing.

Many lakes are now full of water which has been dry for a long, long time.

Here in Muleshoe the fall was measured at 2.09 inches, much less than most of the surrounding country received. R. J. Klump, weather recorder said 1.51 inches fell Saturday and Saturday night; .39 inch Monday; .08 inch Monday; and .11 inch Tuesday.

Heavy rains fell around various parts of Lazbuddie community, where crops generally were already in good shape. L. D. Cannon, who with his son farms one half mile south of the Hub, said 3.5 inches fell on his place, enabling them to dispose with an irrigation panned for this week.

D. O. Burelsmith, 12 miles west, a half north of the Ranch road, had 4.5 inches by Sunday morning.

At the Everett Roark place, near the old West Camp school, about 6 inches fell over the weekend. Charles Roark told The Journal that the maximum of good resulted.

K. K. Krebs, of Baileyboro community, said he received 5 1/2 inches at his place, which is located 2 miles north of the Three Way school. The rain came down in small drops and the land soaked up the water to the fullest extent, although lakes were pretty full after the rain. He said one lake in his neighborhood now has more water than he has ever seen in it. Krebs questioned, however, whether it is too late for grain to make, for it has been so dry that crops had little growth. In some places, he reminded, the seed never sprouted or there was insufficient moisture to plant.

Carl Pollard, of the same part of the county, living 2 miles north of Stegall, estimated the fall at his place at 4.5 inches. He said it may be too late to help crops, "but it'll be good for next year."

H. A. Reynolds, Bula school superintendent said great rains have fallen in his community and he believes it will do a world of good. Lots of feed will make grain with this moisture, he said. Some grain and cotton crops were probably too little advanced when the rain came to ever make a presentable yield. West of there some of the fields where there were no crops were badly damaged by the driving rain causing the soil to wash.

Some Muleshoe folks saw a lot of water as they happened to be in Clovis at the time or shortly after the rain hit there. Some were held up because of water over the highway for as much as 3 hours.

The Joe Peugh homestead to the west of Muleshoe was surrounded by water to such a depth that they could not leave the place for some time.

**PARMER COUNTY  
Farm Bureau  
News**

By RAYMOND EULER

Chris Ford and her husband, E. T., should have been given the credit for the queens and sponsors from Lazbuddy last week. They did a grand job in the hurry. Mrs. W. C. Williams agreed to do it when the Fords thought they didn't have time, but they took care of things in one day. Thanks, Chris and E. T.

Sixty-three of the forty-three entries appeared in Bovina for the group picture Saturday and every one of them looked like a real queen. If they look prettier Friday night it will really be something. Cotton John called Friday to see if everything was shaping up well. He will be M. C. for the contest. Judges will be from Clovis, Canyon, and Amarillo. Joyce Ann Miller will have charge of the evening. Mrs. Melba Miller, Joyce's mother will get the girls lined up for the show as she completes an excel-

lent job of getting things under way.

Farm Bureau directors are to meet with Parmer Co. Grain Elevator representatives and members of the ASC committee and the county agent, Joe Jones. Purpose of the meeting is to discuss the newly announced moisture content limits for CCC stored grain sorghums. There seems to be some feeling that 14 per cent is as safe for this area as 13 per cent. Earlier in the morning, directors will have met with D. K. Hoyle, State Farm Bureau field man, to study phases of the new farm program that farmers should familiarize themselves with.

Remember these things: \$45 million saved for Texas wheat farmers in 1949 by Texas Farm Bureau when President Walter Hammond was told to wire President Truman of alleged shortage of storage space for wheat that producers wanted to place in CCC storage, \$20 million saved for Texas Cotton Farmers in 1949 when Texas Farm Bureau helped secure a support price for cotton seed comparable to that on soybeans and other vegetable oil sources. There are hundreds of

other accomplishments like these, properly recorded. That's why Farm Bureau Membership continues to grow; people like you like to have a part in securing as well as enjoying benefits organization makes possible. It gives you an opportunity to make a motion before your local group and see that motion carry right on through State FB channels and into legislation. Its possible because you have the support of hundreds of fellow members.

Consider This: Poverty and shame shall be to him that refuseth instruction; but he that regardeth reproof shall be honored.

**LOCAL GOVERNMENT**

I have always tried to encourage efficiency in county government and the building of better roads. In fact more than half of all the paved roads which have been built in Bailey County since the war were built during my four years tenure as your county commissioner of Precinct Number 3.

I consider our children as our most valuable natural asset. And as a local school trustee and member of the county school board have labored diligently to help give them the best educational advantages possible.

As one of the directors of the Five Area Telephone Co-op have worked hard to get rural telephones for our people.

As a member of the Bailey County Farm Bureau have actively supported and worked for those things designed to help farmers.

As a member of the Chamber of Commerce have tried to promote the progress and development of our county.

Now in asking for the office of county judge and ex-officio school superintendent I do so for the sole purpose that I might be of more and perhaps better service to the people of Bailey County. I believe that with this background of experience I know the people of Bailey County and understand our needs and desires. I also feel that I am favorably situated and well qualified to help us achieve them.

I will be humbly and reverently grateful to you for your consideration of my candidacy and if you should do me the great honor of selecting me as your next county judge I will do my very best to see to it that you never have cause to regret it. When you go to the polls on August 28th —

## Plentiful Foods Listed For Sept.

COLLEGE STATION, August 19 —Beef is featured on September's plentiful foods list. It gets top ranking because supplies are heavy and prices are about the lowest so far this season.

Beef, however, will not be the only major food on next month's list for at least 15 others are listed by the USDA's Agricultural Marketing Service in the Southwest.

Homemakers will find plenty of medium and small eggs; milk and other dairy products; turkeys; hens, broilers and fryers; honey and rice; peanuts and peanut butter; fresh and processed lemons and limes; salad oils and and vegetable shortenings when shopping in September.

If the old adage, "Variety is the spice of life" be true then grocery shoppers next month by taking advantage of the "best buys" should be able to give the family a pleasing and nutritious variety of good eating.

# You Measure the Man by His ACTIONS!

Shivers fought and won the Tidelands issue against the most predatory powers in the north and east—and saved billions of dollars for the school children of Texas.

Shivers fought and whipped the red racketeers trying to impose a communist dictated rule over Port Arthur, and from there, the rest of Texas—and saved the other cities of Texas from CIO-PAC terrorism.

Shivers fought and is whipping the Parr-Yarborough machine in Duval County, so that the humble citizens may worship, think, speak and vote as they please, as Texans should!

Shivers has fought to save Texas for Texans. Now it's up to us to fight for Shivers—and Texas.

### Get Acquainted Party Set For Tomorrow Night

The program will begin promptly at 8:00 p. m., with registration of both teachers and patrons of our school. The first hour will be an hour of individual mingling and sociability. After this period of time programs sponsored by the six communities will set the pace. It will be varied and interesting.

Following this evening of events, states Mrs. Woodley, a watermelon feast will be in order.

The program is being sponsored by the Education Committee of the Chamber of Commerce with the assistance of the P. T. A. groups. Representing the Chamber of Commerce in making this program possible are Mrs. Noel Woodley and Mrs. Sallie Schuster. Representing the P. T. A.'s are Mr. O. D. Ray, Mrs. Gerald Allison and Mrs. Onard Upton, Mrs. A. S. Stovall and Mrs. Bill Parker will represent the faculty of the high school and elementary schools respectively. # THE TRUTH About the Valley Land Deal

This is what former District Judge Royce A. Oxford, of Edinburg, certifies about the Yarborough charges:

"I know personally each person mentioned in the land deal in this County, mentioned by Mr. Yarborough. I know personally that the statements made by Mr. Yarborough are not only untrue, but I am thoroughly convinced that he knew that the statements he made were untrue."

"There is nothing wrong and no semblance of anything irregular or wrong in this transaction or anything Governor Shivers did, and bear in mind that this was long before Governor Shivers was Governor or even Lieutenant Governor."

HERE IS WHAT THE PEOPLE OF HIDALGO COUNTY, WHERE THE LAND DEAL WAS MADE, THINK ABOUT YARBOROUGH'S CHARGE AGAINST GOVERNOR SHIVERS:

(The Vote for Governor July 24, 1954)

Shivers..... 11,800  
Yarborough.... 6,051

- 1st \$64 Question:** What fraud, if any, did Shivers allegedly commit in making a profit of \$35 per acre on a sale of Valley land that increased in value because of the construction of the huge Falcon Dam on the Rio Grande River?
- 2nd \$64 Question:** If Shivers practiced fraud on a single person in the Valley deal, why hasn't Yarborough furnished the name and address of such person?
- 3rd \$64 Question:** If Shivers was guilty of fraud in the Valley land deal, why didn't the allegedly defrauded parties sue Shivers for such fraud?

DO NOT BE SWAYED BY IRRESPONSIBLE AND UNFOUNDED CHARGES.

### Your Menu-Planning Made Easy With Home-Canned Tomatoes

Menu-planning a chore? When in doubt about what to serve your family, remember that good old stand-by, home-canned tomatoes. They're delicious prepared a number of ways, and among the countless tempting menu-sparkers are tomatoes with okra, tomato sauces and soups, tomato rarebits, vegetable mixture, delicately flavored tomato preserves, and those two faithfuls of the American table, tomato ketchup and chili sauce.

The distinctive flavor of chili sauce adds a wonderful tang to a variety of other foods: It may be combined with mayonnaise for a delicious Russian dressing; mixed with horseradish for a racy seafood cocktail; spread on hamburgers; or lend zest to a meal in countless other ways. And you may vary the amount of spices in your chili sauce to achieve a truly individual taste. Here's a recipe for chili sauce, taken from the Ball Blue Book, which you may like to try:

- |                                  |                            |
|----------------------------------|----------------------------|
| 1 gallon tomatoes                | 1 tablespoon mustard seed  |
| 2 cups chopped onions            | 1 tablespoon celery seed   |
| 2 cups chopped red sweet peppers | 3 tablespoons mixed spices |
| 1 pod hot pepper                 | 2 1/2 cups vinegar         |
| 1 cup sugar                      | 3 tablespoons salt         |

Wash and drain vegetables. Scald, core, peel and chop red-ripe tomatoes. Peel onions; remove seed from peppers; chop and measure. Mix all ingredients except spices and vinegar. Boil 45 minutes. Add spices (tied in bag). Boil until very thick, then add vinegar and boil until as thick as wanted. (Taste; add more seasoning and sugar if wanted.) Pour, boiling hot, into Ball Jars; seal at once.

Note: If preferred, 1/2 of the sweet peppers may be green.

And, isn't it wonderful to know that the tomatoes you put up yourself are real budget-stretchers? For example, the tomato juice you make of tomatoes grown in your own garden costs you only about 5¢ a quart. If you would like to add to your own collection of favorite home-canning recipes, you may be interested to know that the Ball Blue Book on canning and freezing—with simplified methods, yields, timetables and over 300 home-canning recipes—is made available to you by sending 25¢ in coin to Ball Blue Book, Dept. ## TEXANS ... Do You Doubt It Now?

### ★ PARR AGAINST GOV. SHIVERS

Staff special to The News  
SAN DIEGO, Texas.—George B. Parr, the Duval County political power, said Ralph W. Yarborough would get his vote for Governor.

Parr interrupted a coffee-cup conference with Roy Harrington of Austin, secretary-treasurer of the CIO State Council, to say that he was not particularly for Yarborough. "It's just that I'm against Allan Shivers," said the political boss.

Parr said that on Wednesday night he went to Fairbury to hear Yarborough make a campaign speech. Parr said he sat in the bleachers at the school stadium where Yarborough spoke and did not speak personally to the cardi- officials sat on the platform with Yarborough.

"We haven't talked since before he announced," said Parr.

Here is conclusive proof of the link between Parr, Yarborough and C.I.O.

This news story, appearing in the Dallas Morning News on Sunday, August 22, 1954, will convince all TRUE TEXANS that there is a conspiracy by the Parr-Yarborough-CIO Machine to TAKE OVER TEXAS.

Remember the CIO-PARR link has been repeatedly denied by Ralph Yarborough.

MRS. CARROLL SHELTON

(Personal Photo) An arch of white tapers, flanked by arrangements of yellow gladioli and bronze chrysanthemums, featured the decorative altar setting for the wedding of Marion Elizabeth Springstube and Carrol Dean Shelton.

The bride is the daughter of Mr. and Mrs. M. A. Springstube, 4114 Cimarron, Amarillo, and the bridegroom's parents are Mr. and Mrs. V. R. Shelton, 3402 Washington, Amarillo. Rev. Harold A. Webb, pastor, read the double ring service in the Central Baptist Church on Sunday afternoon, August 8.

As the guests assembled, Mrs. W. J. McGrate, organist, played "I Love You Truly", "Ah Sweet Mystery of Life" and "O Promise Me." Miss Jo Ann Webb sang, "Because" and "The Lord's Prayer." The traditional marches were used for the processional and recessional.

Attending her sister as matron-of-honor, Mrs. Dowel Adams wore a ballerina length dress of pink organdy and carried a colonial bouquet of white beauty asters. The bridesmaid, Peggy Lawrence, wore an aqua organdy dress and carried a colonial bouquet of white asters.

Dowel O. Adams was best man, and Ralph Gowen was groomsmen. Serving as ushers were Albert Taylor and Claudie Shelton.

Entering on the arm of her father, who gave her in marriage, the bride was attired in a gown of white Chantilly lace and nylon tulle over satin, styled with a fitted bodice, cap sleeves and full skirt. Her fingertip length veil of tulle fell from a tiara of seed pearls and orange blossoms. She carried a white Bible topped with white roses.

Mrs. Springstube, mother of the bride, wore a beige suit with white accessories. The bridegroom's mother, Mrs. Shelton, wore a navy dress with matching accessories. Both had corsages of pink carnations.

Following the ceremony, the bridal party was feted at a reception in the home of the bride's parents, Miss Marcha Springstube, sister of the bride, registered guests, Miss Jo Ann Webb served the wedding cake and Miss Peggy Lawrence presided at the punch bowl.

### Roald Johnson Works Out Here For Track Grind

Roald "Buck" Johnson, who has spent the summer months in Muleshoe, has done some hard work during vacation with his papa, Fred Johnson, and Johnson & Nix, International dealers here. But he has found time to do a lot of road work in preparation for next year's competition as a track man with the Texas Tech Red Raiders.

Roald has run as many as 5 miles a day and ought to be in perfect condition. He has gained some and now tips the scales at 150, but he looks like a much bigger boy.

He's not sure what race he will concentrate on coming year. He ran with the freshman team last season and now is eligible for varsity competition. He won fame over Texas as a top notch miler while attending Muleshoe high school. Roald's mile gets a little faster all the time; but he may run the half or the quarter at Tech in the final outcome.

## JC Sox Are Little League Champs

JayCees' Sox, winner of the second half of the Little League baseball season, became League champions Wednesday by winning their second game of a three-game play off with Rotary's Cardinals, 10 to 6. They had defeated the Cards Monday 9 to 8. The Cardinals, who won the first half of the season, won the second game of the series, 10 to 8.

A great crowd turned out to see this crucial game of the play off.

Officials of the League expressed their entire pleasure at the manner in which this first season was conducted. Nothing untoward occurred, everything was in good sportmanship.

In the last game, an incident occurred about a boy using an illegal bat, but the boy had cleared the bat with Jim White, a commissioner and Mr. White made the following statement: "The question of an illegal bat that came at the end of the game was passed over as the boy that used the bat had asked Jim White about the qualifications and Mr. White failed to give him all the specifications.

The Journal wants in its next issue to publicly thank all managers, umpires, scorekeepers, League officials, sponsoring clubs, etc. Box Scores of the play off games are presented on this page.

### Little Leaguers Guests of Rotary

Members of the Cardinals, the team sponsored by the Rotary Club in the Little League, were guests of the club at its meeting Tuesday. Their manager is D. B. Lancaster, member of Rotary.

Mr. Lancaster introduced each member of the team and said that only two were absent. At the time the team was engaged in the play-off for the League championship and was down on game, having lost to the JayCees Sox Monday 9 to 8.

Fred Johnson, president of the League, who also was a guest of the club, told the team members and those present that he had never seen any of them act in an unsportsmanship manner, something that he could say for all teams in the League. He extracted a promise from the boys that, when they were grown up, they would see to it that boys of their present age are provided an opportunity to play baseball.

Mr. Johnson urged the formation next year of a Babe Ruth League here so that boys graduating now from the Little League can continue to play baseball.

It was a double barreled program. Myron Pool, in charge for the day, presented David Stephens, who entertained those present for 20 minutes with a magic show. He baffled grown ups and boys alike with his presitiditization, proving easily that the hand is quicker than the eye.

Other visitors included Dave Avelsworth, local real estate man; Dr. James Todd, Christian Minister of Panhandle; Edgar Chance and Lloyd Robinson, Sudan Rotarians.

BABSON SUGGESTS—  
Now Is A Good Time To Buy

Babson Park, Mass., Aug. 26 — Have you been waiting to buy a new car, television, fur coat, or outfit for the children? If so, now may be the best time for some months to come.

**WHERE WE'VE BEEN**  
Commodity prices began their long decline in early 1953, but it was not until much later that the consumer began to feel the effects in the market place. As the spiral of the decline gathered momentum, the downward adjustment in business got under way just about a year ago. Production cutbacks were ordered. Tens of thousands were laid off. Overtime schedules were curtailed. Business slowed down its buying of raw materials; consumers pulled in their belts and cut back spending.

We have had a year of uncertainty. Some economists expected the business dip to bring a drop in wages because this is usually the pattern. But this didn't happen except in a few instances. While the physical volume of business declined about 10% compared with last year, prices fell only about 1% on the average, while wages continued high.

**WHERE WE'RE GOING**  
What does this mean, now to you? It means that in general, the downswing in prices which commenced in early 1953 may have about run its course. Retail prices, for the next six months or so, will probably go no lower. So, if you're waiting for a further decline in prices to buy a cherished article for which you have been saving, you can be reasonably safe in buying now. Some prices, such as for metals and textiles, may seek higher levels during the months to come. Barring crop failure, I forecast that farm prices will sag when this year's crops are in. Food ought, therefore, to be a little more reasonably priced. However, these savings for you will, I expect, be offset by increases in rent, transportation, and other cost-of-living components.

Several factors support my reasoning: (1) The anticipated increase in second-half business activity will probably spur some raw commodity price levels,

which in turn will be passed along to you in the price of the finished product. (2) If international tensions continue to deepen, there will be a definite threat to some imports and a subsequent bolstering of some "American made" markets, and a probable firming of prices of such products. (3) The liberalized credit policy of the Eisenhower Administration will tend to halt deflation, and may once again encourage inflation, which means price rises.

**IS THIS GOOD FOR YOU?**  
My personal reaction to the recent credit stretch, freeing more than \$1.5 billion for expanding bank loans and investments, is mixed. This policy went into effect at a time when short-term money rates were approaching record low levels and when bond prices were not far from historical high levels.

Our Government was unwilling to take a chance on a decline in credit and money supplies in the months to come. By making money more plentiful and cheaper, it also hoped to encourage business. This is usually the forerunner of inflation and higher prices. This particular action, coming when it did, has a strong political tinge. Remember, elections are not far off.

**BETTER SALESMEN NEEDED**  
Time will tell whether present trends are good or bad for your pocketbook. We may have about reached a cyclical low in our retail price structure. If labor forces its demands for further increased wages, once again prices will be sure to rise.

One of the very good signs in our economy is the sharp increase in the recent competitiveness of both manufacturers and retailers. This was needed in the field of sales because many of the old timers who really knew how to sell in the prewar years have since retired, while many youthful salesmen and sales clerks have never learned how to sell because they have seen no real competition. Competition is good because it brings with it a better product for less money and with better service.

Thirty-one other states have an income tax. Thirty-three have a general sales tax. Texas has neither, and will not as long as Allan Shivers is Governor of Texas. (Paid Pol. Adv.)

SAND HILLS PHILOSOPHER—

Praises Congress For Raising The Debt Limit, Provided He's Included

Editor's note: The Sand Hills Philosopher on his Johnson grass farm has his news snarled up worse than usual this week, his letter indicates.

Dear editor:  
I am going to start a campaign to get people to read the newspapers more carefully.

One day last week I picked up a paper off my neighbor's tractor seat where he had put it to shade it from the sun while he went to the house for a drink of water. If he'd leave his tractor under a tree where I leave mine and drain all the gas and oil out and let one or two tires go flat and the battery run down he wouldn't be bothered by comin back to the field and having to sit on a sun-scorched seat.

At any rate, I can't be responsible for my neighbor's shortsightedness and enlightenment is heard about any increase in the debt limit, especially my limit, and my credit situation was the same as it had always been. Next four stores told me about the same thing, only in different language which I will not repeat here.

I will appreciate you carrying a notice in your paper in a prominent place that Congress has raised the debt limit and the President has signed the new law and let's get the wheels of commerce turnin'. As I understand the terms of the law, the government's debt limit has been raised from 275 billion dollars to 281, but it's only temporary, with the stipulation that it has to be back down to 275 billion by next June 30, provided, and here's where Congress makes sense, that conditions at that time don't make it necessary to extend it beyond that date, in which case it would have to be extended.

Now that's the kind of debt limit I'm in favor of, flexible and ready for any emergency. Just like the government, I have found frequently that when a note comes due I need the money worse than when I did when I borrowed it in the first place, and I would like to get my personal financing up on the governmental level, with enough Congressional leeway to keep extendin' the loan indefinitely, with only a majority vote needed to do the extendin', without consultin' the lender, which in my case I figure

I can swing as there wouldn't be anybody but me doin' the votin'. Yours faithfully,  
J. A.

TV NEWS

By ROY DYER  
To show you how much competition there is for the juicy roles in a television series, a blue-eyed blonde named Trudy Wroe has been chosen for the role of Lorelei in the "Big Town" TV series that starts shooting this summer. She was picked after a stiff 2 months

competition in which over 100 actresses were given tryouts. Miss Wroe first gained attention as a singing sweetheart in Paper-Mate Pen commercials.

Another old favorite radio series that is being filmed for fall TV release is "Mayor of the Town", created by famed actor Lionel Barrymore. The TV role of the Mayor is being taken over by another veteran actor, Thomas Mitchell. Set's a \$1,000,000 budget set for the first 38 telefilms.

Songstress Peggy Lee is enthusiastic about her new television format, which will give her a chance to sing, do some comedy, and use many guest stars. This new TV series casts Peggy as the proprietress of a Palm Springs night club, and a lot of the film footage will be shot in the fabulous desert resort.

Someone finally figured out that the Rodgers and Hammerstein three network show a white back played to the biggest TV audience in history for a single program. Some 21 million homes tuned in. Whatever you're tuning in, you'll find the tuning easy, the picture sharp and clear, if your set as an easy-to-adjust PHILCO. You can own a big screen Philco set for less than you think. **WARNING!**  
**TEXAS FARMERS-RANCHERS WARNED OF CIO LABOR PLANS**  
AUSTIN, Tex., Farmers and ranchers of Texas were warned this week that the CIO plans to organize the farm workers of Texas if its candidate wins the Governor's race.  
This warning came from Governor Allan Shivers who charged that the backers of his opponents "want to turn the state government over to the same bunch that is trying to wreck Port Arthur."  
"One of the first things they would do is put one of their red-hot organizers from Port Arthur in as labor commissioner. Then every time a farmer or rancher wanted to hire someone he would have to go through Shivers said there was no doubt in his mind that the aim of the CIO after the job of organizing industry in Port Arthur and along the Gulf Coast is finished is to begin organizing farm labor in all parts of Texas.  
"You can imagine what will happen when the CIO starts dictating how many laborers are needed to plow ten acres of land, refusing to allow a man to work more than thirty-five hours a week during the harvesting season and telling how much a farmer can charge for his crop," he said.  
The Shivers administration, the Governor said, has worked hard to help preserve and protect the rights of the working man.  
"But as long as I am Governor, the professional labor bosses who have been sent to Texas from the East — specifically those in the CIO and its Political Action Committee — are not going to run our State Government," Shivers promised.  
Shivers said the average working man in Texas appreciated good government and that they were not going to let CIO bosses and professional organizers from the East do their thinking — and voting — for them.

*Agriculture*  
Released by  
The Texas Department of Agriculture

By John C. White, Commissioner

**THE NEED FOR DISASTER RELIEF**

Two relief programs, hay and grain, were inaugurated in the Texas drought disaster area during August. Immediately after the programs were put into effect, the Texas Dept. of Agriculture made a survey of farmers and three points were evident:

1. Most stockmen and farmers in the drought area need some kind of help very badly — and quickly.
2. Emergency hay and feed will not completely meet this need.
3. Farmers are bitter about the "scalper prices" of hay in some areas.

Here are some comments which

came to light during the survey: Osborne Mullins, San Saba County farmer-rancher said: "Most stockmen in this country are anxious for any kind of help to keep their cattle going. I have a few head of cows and calves and a few goats and will need about 120 bales of hay for the next 60 days."

"But I can't depend on hay alone. Last year I had to burn the spines off prickly pears and feed them to my cattle. I'm going to be out there burning prickly pears again this year."

E. B. Stiles, farmer-rancher of Hamilton County: "It couldn't be dryer in this country. In an ordinary year I usually make from 3,000 to 5,000 bales of hay for winter feed. All I have this year is 30 bales of Johnson Grass which was cut from along the edge of the highway near my place."

W. G. Barkley, vice president of Hamilton National Bank: "I've been in this country since 1910. I never looked this bad for farmers and ranchers before."

"The new hay program isn't going to help much. Our dairy and poultry men are suffering too. Farmers are worrying about the sudden increases in hay costs since the program was announced."

Cecil Brown, San Saba County rancher: "If I can't get some hay cheap, I will just have to sell out this year. I have 300 head of cattle here and no grass. The last time I had a good rain was two years ago."

**SALVATION—A GIFT NOT EARNED**

It (salvation) is the gift of God: not of works, lest any man should boast. (Ephesians 2:8, 9.) Read Galatians 2:16-21.

A boy stood looking at the beautiful Royal Gardens in Sweden. Summoning up his courage, he asked the gardener to sell him some flowers to take home. The gardener sternly rebuked him. The young prince was near by. He had heard the request of the little boy. He cut off a cluster of flowers and gave them to the lad. When the grateful boy tried to pay him, he said: "My father is not a merchant who sells; my father is a king who gives."

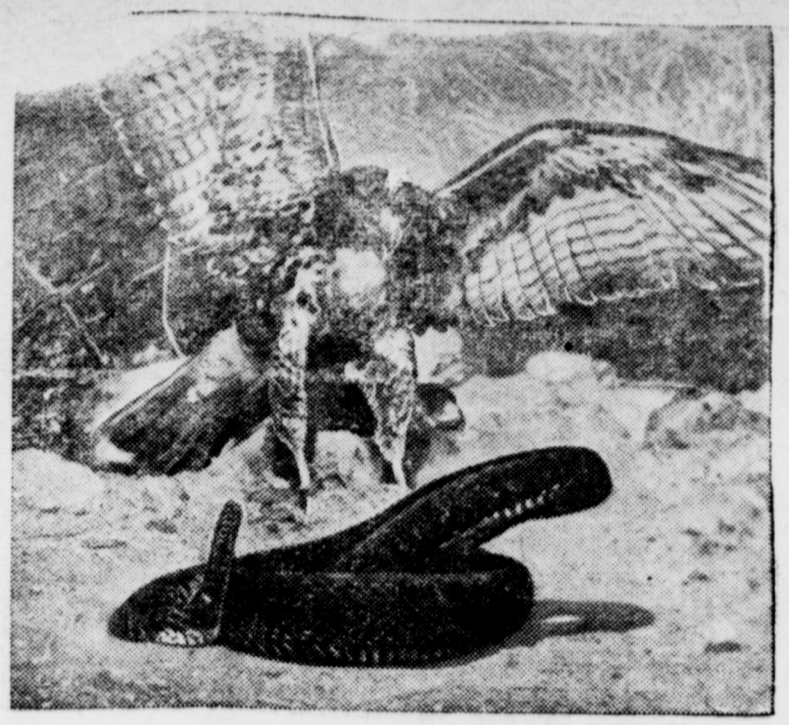

Salvation is not for sale. God is not a merchant to be bargained with. Neither do we merit, nor can we merit, eternal salvation. God offers no installment plan of good deeds whereby man obtains salvation.

We are close to salvation when we kneel with humble and contrite hearts at the throne of God, trusting not in our own goodness, but in the mercy and love of God. The old hymn briefly expresses the thought: "In my hand no price I bring; simply to Thy cross I cling."

**PRAYER**  
Humbly we wait in the face of Thy great love, our Father, conscious of our unworthiness. We are sorry for our many sins against Thee, and our fellow men. Forgive us. Out of Thy boundless mercy, grant us, O Lord, the salvation we have not earned. In our Redeemer's name we pray. Amen.

**THOUGHT FOR THE DAY**  
Salvation is not for sale; it is a gift.

# Ralph Yarborough Will Be The Next Governor of TEXAS

## HERE'S WHY

Texas is plagued with a rash of insurance scandals due to a lack of enforcement of our insurance laws under the Shivers administration.

There is no conceivable way that a legitimate profit of \$425,000 could be made on one land deal when the original investment was only \$25,000. If it was legitimate, the governor could have long since given a satisfactory explanation.

The Shivers administration for more than five years has failed to pass a natural gas or resources tax. During this time, our gas, oil, and sulphur have been shipped and piped to out-of-state companies which have been realizing large profits. Ralph Yarborough has promised to fight for a Constitutional severance tax on natural resources to aid our schools, senior citizens, and state improvement program.

After five years under the Shivers administration, the Parr machine, and other political machines, are still active in South Texas. Ralph Yarborough, a Democrat, is against any form of 'one-man' politics.

Given every anti-Communist law he has asked the Texas Legislature to pass, Shivers has yet to name, arrest, or register a Texas or foreign Communist. Still he continues to use the Communist scare as a reason for asking for re-election to a third term.

Documented evidence proves that state printing contracts have been let to a newspaper owned in part by the Shivers family. This is a direct violation of the Texas Constitution. It was "against the governor's fundamental principles" to request Federal drought aid in an "off election" year. But in the midst of a heated political campaign he is making requests for aid from the Federal government almost daily. We have the proof for any person wishing to see it.

The doctrine of hate, fear, and deception is being recognized by Texans who realize that these practices are not in keeping with their ideas of good government. An example of the usage of these doctrines is that Ralph Yarborough was accused of being supported by the CIO and PAC. It is a penitentiary offense for any political candidate to receive aid from a labor union. Had the charges been true, state authorities would by now have taken over. They have proved the charges false by not intervening. We have yet to see the proof where Mr. Shivers has proven one statement that he has made against Mr. Yarborough.

Ralph Yarborough is an honest, well qualified Texas citizen offering to again bring honor, prestige and good government to our state as its chief executive.

(Every Nickel of Money Spent In The Interest of RALPH YARBOROUGH'S Campaign For Governor, In The First Primary And Second Primary, In Bailey County and Parmer County, Has Been Raised By Local Citizens; Not One Cent Has Been Sent In As Mr. Yarborough Did Not Have The Backing of The Oil, Gas and Sulphur Companies As Did Mr. Shivers. MR. YARBOROUGH Has Been Supported By The Average Citizen, Who Is Desirous of Seeing That Our Government Is Restored To The People.)

### Maxiene Black Clinton Rogers To Be Married

**MISS MAXIENE BLACK**  
Mr. and Mrs. Ralph Black are announcing the approaching marriage of their daughter, Maxiene to Clinton Rogers, son of Mr. and Mrs. Van Rogers. The wedding will take place August 31, at 7:30 in the evening, at the First Baptist Church of Muleshoe.

All friends and relatives of the couple are invited to attend.

In a ceremony performed at 8:00 o'clock in the evening, August 11, at Ft Sumner, N. M., Miss Thresia Jean Steinbock, daughter of Mr. and Mrs. Alfred Steinbock, became the bride of Mr. Billy Joe Whalin, son of Mr. and Mrs. Charles Whalin.

Officiating at the ceremony was Rev. Jack Speakman. The bride was lovely in a dress of navy blue taffeta. The bodice of the dress was sprinkled with sequins, and featured a low scooped neckline. The skirt was tucked from the waist to a point just above the knee, where it was joined to a very full twelve inch flair.

Her hat was white trimmed with tiny blue forget-me-nots, and she carried a corsage of white feathered carnations and white satin streamers.

Maid of honor was Evonne Myers, of Muleshoe. She wore a pink street length suit, with white accessories and a white carnation corsage.

Temple O. Carter, of Muleshoe, was best man. Following the exchange of vows, a reception was given in honor of the couple.

Scriptural selections in the Lesson-Sermon entitled "Christ Jesus" will include the account as given in Matthew of Jesus' response to the followers of John the Baptist who asked if he was the Messiah (11:1, 5): "Go and

show John again those things which ye do hear and see; the blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them."

The following correlative passage will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (131:26-30): "The mission of Jesus confirmed prophecy, and explained the so-called miracles

of olden time as natural demonstrations of the divine power, demonstrations which were not understood. Jesus' works established his claim to the Messiahship."

## Texas Senators Voted To Extend 90 Percent Parity

Both Texas Senators, Lyndon Johnson and Price Daniel, voted in favor of extending the present 90% of parity when the Farm Program was under consideration in the Congress. Like thirty-three other mem-

bers of the Democratic Party, Johnson and Daniel were pledged to the one-year extension of the present program and were active in its behalf.

The Flexible System, advocated by Secretary of Agriculture Benson, of 82½ to 90 per cent of parity was finally adopted after bitter fights in both the House and Senate.

Price Daniel's vote on the Farm Bill was incorrectly reported by some of the Texas newspapers as being in favor of the Flexible System. Actually, Daniel voted

only to raise the minimum of the flexible plan from 80 to 82½%, so that the lowest support would be as high as possible if the Flexible System was adopted. However, on the final choice between the Flexible Program and the present Farm Program, Daniel voted on basic crops.

Both Johnson and Daniel expressed the opinion during the debate that the farm economy was important to the welfare and security of the nation and that the farmers were hit hard enough by drought and decrease in prices without changing the Farm Program.

## Boys Ranch Rodeo Slated Labor Day

Eddie Mayotte of Eigin, Ill.; Larry Cantrell of Shamrock, Texas; and Joe Smith of Littlefield, Texas, clean and polish their saddles in preparation for the 10th Annual Boys' Ranch Rodeo to be held at Boys' Ranch on Labor Day. All 200 Ranchers will participate in the big event.

Labor Day, September 6, will mark the date of the 10th Annual Boys' Ranch Rodeo. This rodeo is one of the high spots of the year in this area because it is the only rodeo of its kind in the world.

Scheduled to take place in the rodeo arena at Boys' Ranch, the Rough-riders annual show promises to be fast, fancy and furious. One performance, at 2:30 p. m. will show the boys in bronc, steer and calf riding, trick and fancy roping, trick riding and many other events that guarantee plenty of action.

Featured attractions for the rodeo at Boys' Ranch will be the noted All-Girl Mounted Square Dance Team and the world-famous rodeo clown, Hoyt Hefner. All other events will be handled by the boys themselves.

Tickets will be available at the entrance to the Ranch on the day of the rodeo. Admission for adults will be \$1.25 and children's tickets will be 75 cents. The bridge across the Canadian River will be open for traffic, eliminating the necessity of fording the river. The boys plan on playing to

capacity crowds and hope to see all their friends in this area at the 10th Annual Boys' Ranch Rodeo, Labor Day, September 6, at Boys' Ranch, 2:30 p. m.

Allan Shivers has supported every major piece of school legislation in the past 20 years. (Paid Pol. Adv.)

## LETS FACE THE FACTS

EXPERIENCE AND QUALIFICATIONS COME BEFORE PERSONALITIES

## Judge CECIL H. TATE

HAS BOTH EXPERIENCE AND QUALIFICATIONS, AND HIS RECORD AS COUNTY JUDGE OF BAILEY COUNTY PROVES THIS POINT.

During the time that Judge Tate has been our County Judge the farmers have received the following paved rural roads:

1. From Muleshoe north to Parmer County line.
2. From Lamb County line west through Bula, Enochs and Goodland to New Mexico line.
3. From Maple to Cochran County line.
4. From Maple through Three-Way, Baileyboro to Needmore.
5. From Maple, Three-Way road west through Stegall to New Mexico line.
6. From Lamb County line West through Fairview community to Morton Highway.
7. From Needmore East through Circleback to Lamb County line.
8. From Clovis Highway West by Muleshoe Ranch 9 miles.
9. From Clovis Highway West through Westcamp to New Mexico line.
10. From Clovis Highway at Puckett's Store North to Parmer County line.
11. From Plainview Highway through Y-L to Parmer County line.

Judge Tate is not claiming full credit for these roads, but we know that he has always been co-operative and helped to get them built.

As Juvenile Judge of the county, Judge Tate has constantly worked to help our children to become useful citizens, and he has recently unofficially appointed a group of leading citizens of the county to help him in this much needed work.

Judge Tate has always helped the aged people secure their OLD AGE ASSISTANCE, helped the blind in their grants, and helped mothers who needed assistance for dependent children.

Judge Tate is a straight Democrat and has never gone over to the Republican Party.

You farmers know that Judge Tate has been for 90% parity on all farm products, help establish Rural Electric Lines, and is now working to help you get a rural telephone.

The Office of County Judge now has several times more court work to do than it formerly had: liquor violations, added traffic violations, drivers safety responsibility laws, and added probate responsibilities, plus all misdemeanor law violations. This is technical work, and requires the services of a person trained in the law. Judge Tate has that experience.

The welfare of our school children should come first in our lives, and Judge Tate as County Superintendent has constantly worked for better schools in Bailey County. During Judge Tate's tenure of office the per capita apportionment for each child of school age has grown from about \$20.00 per year to over \$68.00 per year. Judge Tate knows our school laws and has constantly worked to see that every child in Bailey County received the best education available.

As Chairman of the Commissioners' Court, Judge Tate has seen to it that your tax dollar was spent to do the most good. The business of Bailey County is a big business (we now have over \$11,000,000 in property values in the county) and it requires a man with plenty of business experience to handle it properly.

Judge Tate has at all times given of his time to civic responsibilities necessary towards the betterment and growth of our County and City. No man could do more.

Why change when you already have someone getting the job done?

Judge Tate merits your vote — "Vote for —"

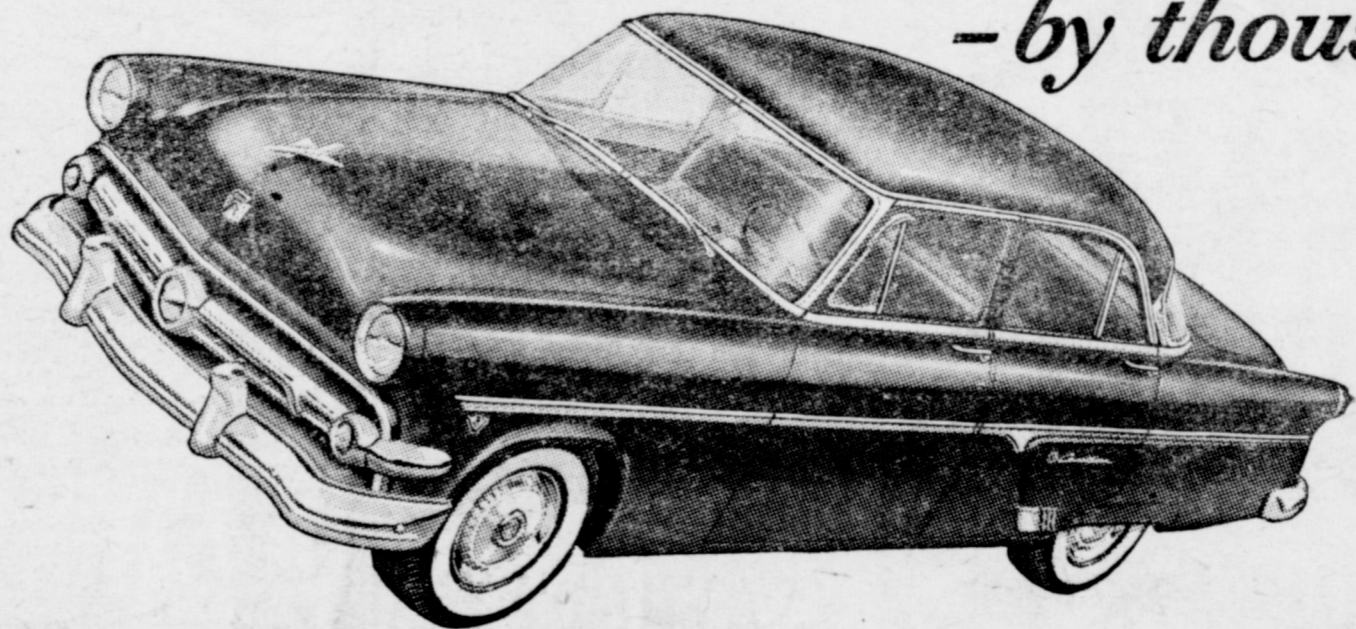

## Judge CECIL H. TATE

for County Judge on August 28, and you will not go wrong."

(This ad prepared, edited, and paid for by Citizens of Bailey County from every place in the county, and it was not solicited by Judge Tate, and was placed in publication without his knowledge.)

# FORD IS FIRST IN SALES

-by thousands

National new-car registration figures\* for the first six months of 1954 prove that Ford leads the industry in sales! In fact, ever since car production has been free of restrictions, more and more new-car buyers have been swinging over to Ford. That's because Ford offers more things for more people than any other car. In today's Ford, for example, you get the matchless benefits of owning the only car in the low-price field with a V-8 engine (the new Ford Y-block V-8) . . . the only car in Ford's field with the smooth ride of Ball-Joint Front Suspension . . . the only car in Ford's field with truly modern styling . . . the only car in Ford's field with such high resale value.

**IT SEZ HERE**

Last week this newspaper said Allan Shivers is a liar. This week we quote from his own words as evidence that he is a liar.

Judge for yourselves.

"I will support the Democratic nominees. I make that pledge without reservations." Shivers to Credentials Committee, National Democratic Convention, July 11, 1952.

"I intend to vote for the Republican candidates for President and Vice-President." Shivers, press conference, Oct. 2, 1952.

He lied.

"I have no intention of voting any other ticket than the Democratic ticket." Shivers radio broadcast, 8:45 p. m., July 15, 1952.

"I supported the Republican ticket, and I'm proud of it." Shivers, speech before Pittsburg, Pa. Executive Club, Jan., 1954.

He lied.

"I will not sign the bill for the Canadian River Dam unless federal aid provisions are eliminated." Shivers to Panhandle citizens, May, 1953.

"Gov. Allan Shivers today demanded that the federal government build the Diablo Dam on the Rio Grande." Shivers press release, June 30, 1954.

He's two-faced and irresponsible.

"I am not against the \$600 pay raise for teachers." Shivers, Dallas Morning News, Feb. 19, 1953.

"The governor flatly refused to cooperate (in teacher pay legislation) . . ." Bob Proffer, president, Texas State Teachers Association, May 23, 1953.

He's two-faced and irresponsible. Not according to our words, but according to his.
