Carroll - Pruitt Wedding Plans Are Announced

Olgaline Carroll

Mr. and Mrs. James P. Brooks of Portales, N. M., are announcing the engagement and approaching marriage of Miss Olgaline Carroll to Mr. Jarrell Pruitt, son of Mr. and Mrs. W. C. Pruitt of Muleshoe.

The wedding will take place August 30 at 8 p.m., at the Main Street Baptist Church in Muleshoe.

Relatives and friends are invited to attend.

Dawson Family Held Reunion

Mr. and Mrs. J. U. Dawson, who live 15 miles southwest of Muleshoe, have had for their guests this past week his sisters and brothers:

Mr. and Mrs. C. B. Dawson and daughter, Suzanne, Kansas City, Mo.; Mr. and Mrs. J. B. Dawson, Beaumont, Texas; Mr. and Mrs. Jeff Tucker, Ceres, Calif.; and Mrs. R. B. Miller, Miami, Okla.

This is the first time they all have been together since 1935.

Engagement Announced

Mr. and Mrs. R. E. Lowery of Sudan are announcing the engagement and approaching marriage of their daughter, Dorothy Lee, to Joe Bob Horsley, son of Mr. and Mrs. R. G. Horsley of Muleshoe.

Vows will be exchanged August 30 in Bowman Memorial Chapel, 1411 Broadway, at 6:30 p.m. Invitations are not being mailed. All friends and relatives are cordially invited to attend.

CARD OF THANKS

Words are inadequate to express the gratitude we feel for your many thoughtful expressions of sympathy during the recent illness of Ray Griffiths.

For your visits, telephone calls, flowers and cards we are deeply grateful, and our special thanks to the hospital staff, nurses and Dr. L. T. Green for their untiring care and the many courtesies extended us. Gratefully yours,

The Ray Griffiths Family

Lime Chiffon Pie Captures Spirit of Summer

BY DOROTHY MADDOX

HERE'S a cool-tasting, elegant chiffon. Fresh limes give it a particularly delightful flavor. The filling for the pie can be pretty much a one-utensil operation by a new technique. The gelatin and sugar are combined in top of double boiler. No need to soften gelatin in cold water first. Then egg yolks and lime juice are added.

The mixture is cooked over boiling water about 6 minutes and cooled. Beaten egg whites and heavy cream folded in create the wondrous height and richness that make chiffons party desserts.

Lady Finger Lime Chiffon Pie (One 9-inch pie)

Twelve lady fingers, 1 envelope unflavored gelatin, 1 cup sugar, divided, 1/4 teaspoon salt, 4 eggs, separated, 1/2 cup Florida lime juice, 1/4 cup water, 2 teaspoons grated Florida lime rind, 1/2 cup heavy cream, whipped.

For lady finger pie shell, split lady fingers and cut off ends. Stand, cut side down, around edge of pie plate. Put remaining whole lady fingers and pieces evenly in bottom of pie plate.

Mix together gelatin, 1/2 cup of the sugar and salt in top of double boiler. Combine slightly beaten egg yolks, lime juice and

Ringed by lady fingers, lime chiffon pie has a delightfully cool flavor that makes it a favorite when heat of summer is on us.

water; add to gelatin mixture. Cook over boiling water, stirring until gelatin dissolves and mixture thickens, about 6 minutes. Remove from heat; stir in lime rind; cool. Beat egg whites until stiff, but not dry. Gradually add

remaining 1/2 cup sugar, and beat until very stiff. Fold gelatin mixture into beaten egg whites. Fold in whipped cream. Turn into pie shell; chill until firm. If desired, garnish with additional whipped cream.

ENDS BASIC

Three soldiers from Friona recently completed eight weeks of basic combat training under the Reserve Forces Act program at Fort Chaffee, Ark.

Pvt. Harold B. Taylor is the son of Mr. and Mrs. Glen E. Taylor, Rt. 2.

Pvt. Charles B. Beaton is the son of Mr. and Mrs. Silas E. Beaton, Rt. 1.

Pvt. Roy G. Young is the son of Mr. and Mrs. Noah T. Young, Rt. 2.

HERE FROM FT. WORTH

Mr. and Mrs. A. W. Hall from Fort Worth spent Monday visiting Mrs. Hall's great aunt, Mr. and Mrs. G. C. Tapp. They also visited with Mr. and Mrs. J. R. Otwell and children.

VISIT IN NEW MEXICO

Mr. and Mrs. A. H. Owen, Elmo Owen, and daughter visited relatives in Aztec and Bloomfield, N. M., over the weekend.

CARD OF THANKS

We wish to thank our many friends, for all the wonderful things they did for us during our wife and mother's illness and death.

Not only to our many friends in Muleshoe, also to our long-time friends of Sudan.

The beautiful floral offerings, many expressions of love and sympathy, and we most especially want to thank you for all your prayers sent our way.

May God bless each of you is our prayer.

Mr. Floyd Davis
Mr. and Mrs. Foy Futrell and Children
Mrs. Marion McCarty and Children.

Announce Engagement

MISS GOODSON

Mr. and Mrs. W. T. Goodson of Muleshoe announce the engagement and approaching marriage of their daughter, Lena, to Mr. Frank D. Ford, son of Mr. and Mrs. W. D. Ford of Morton, Texas.

Miss Goodson is presently employed by Pool Insurance Agency. Mr. Ford is the principal of Richard Hills Elementary School in Muleshoe.

The double-ring ceremony will be performed by Reverend Vernon Whittenburg of Lubbock, in the First Baptist Church of Muleshoe, Texas on Thursday, August 22, 1957 at 7:30 p. m. All friends and relatives of the couple are invited to attend. Reception immediately following the ceremony in the church parlor.

Exchange Vows August 3

MRS. PEGGY LEE

Peggy Brackman, daughter of Mr. and Mrs. L. V. Brackman, and Mr. Bobby Lee, son of Mr. and Mrs. M. S. Lee of Cotton Valley, La., were united in marriage August 3.

The couple are making their home in Cotton Valley, where the groom is employed.

VOLUME 36, NUMBER 33

THURSDAY, AUGUST 15, 1957

Fishing License Law Effective On September 1

A new sports fishing license law, which increases fishing license fees becomes effective September 1, 1957. The additional revenue will enable the Game and Fish Commission to increase its work program by about 25 percent and will generally benefit Texans interested in better fishing.

The new law states, in effect, that it shall be unlawful for any person to fish in any waters of this state without first obtaining a fishing license, according to Ed Cooper, wildlife conservation specialist.

The exception to this law, says Cooper, are persons under 17 and over 65 years of age; any person, or member of such persons immediate family when fishing upon property he owns, or upon which he resides; and persons fishing with trotline, throw line, or ordinary pole or line having no reel or other winding device when fishing in the county of his residence. No other fishing license shall be required of a person who holds a commercial li-

Social Security Representative Here August 22

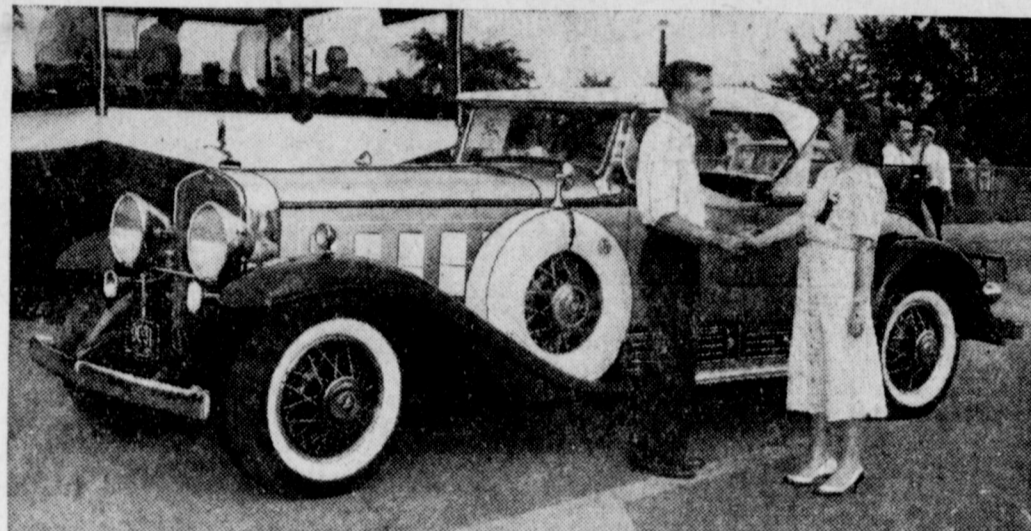

Farmers and ranchers and other employers of agricultural workers such as cotton gin operators, are reminded by John G. Hutton, manager of the Lubbock office of the Social Security Administration, of some changes in the method of reporting the wages of their employees.

In 1957, agricultural work is covered by social security if either cash wages of \$150 or more are paid to a worker by his employer during the year or regardless of the amount of wages, if an employee works on 20 or more days during the year where the wages are figured on a time basis.

The total covered wages of farm workers are reported only once a year, in January for the preceding year to the Director of Internal Revenue. Mr. Hutton added that if employers keep an accurate record of the name, the social security number, and the amount of wages paid to each worker that will be all the information needed to complete this annual Social Security report.

A representative of the Social Security office will be in Muleshoe on August 22 at 9:30 a.m., at the Courtroom, Courthouse, and will be glad to assist in all matters pertaining to Social Security.

Debby Simmons of Roby spent last week with her grandparents, Mr. and Mrs. J. M. Moore.

MOTORING IN THE GRAND MANNER—Donald J. Cole of Columbus, Ohio, receives the congratulations of Mrs. Arnold E. Hoffman after his 1931 Cadillac roadster was named the Classic Car Club of America's National Grand Champion. Mrs. Hoffman was chairman of the club meet at Greenfield Village, Dearborn, Mich. Cole's car received 98 points in the judging, higher than any entry in the Eastern Grand Classic, held simultaneously at Morristown, N.J. Nearly 100 classics, so called because they represent the best of auto manufacturing from 1925-42, took part in the Midwest event.

Bailey County Farm Products To Be \$3 Million More Than 1956 Crops

Pre-season predictions for the 1957 crop based on past performance, weather conditions, and fluctuating market prices, set the total annual gross income from all farm products in Bailey county at \$17.5 million, a farm survey showed this week. This is an increase of almost \$3 million over the 1956 crop income, and is based primarily on an expected increase in dryland cotton and income from increased vegetable acreage. Favorable weather conditions and additional acreage, rather than higher market prices have been taken into consideration in making the prediction.

ly of several children to support.

Work Night At Church

Several families worked on the church lawn last Monday evening and had supper together afterwards.

Those attending were the Cleburne Grays, John Thomsons, Troy Atkinsons, Bill Watsons, Byron Gwyns, Gordon Murrahs, and Mrs. Roy Hogan.

Sunbeams To Rally

A large group of Sunbeam members from Progress Baptist church attended a rally at Littlefield Monday afternoon. They were accompanied by Mmes. Elmer Downing, D. M. Marrow, D. L. Redwine and Cone Merritt.

The W. F. Bartley family were visited three days last week by her brother and family, Mr. and Mrs. Odie Bartlett of Carlsbad, N. M.

Mrs. D. O. Dudley, Ronald and Kathy of Olton arrived Sunday to spend a few days with her parents, Mr. and Mrs. C. C. Anders. The Anders' other daughter and

The income estimate was based on 98,000 acres of irrigated cotton which is expected to produce an average of one bale to the acre at an average gross of \$135 a bale. It is based also on an average yield of .27 bale per acre from 30,000 acres of dryland cotton; 236,400 acres of sorghum and grain products, and an estimated 3500 acres of such vegetable crops as potatoes, onions, cabbage, carrots, cucumbers and lettuce.

Cotton going into the loan will bring a lower price this fall than in 1956, but observers feel that this lower income will be more than offset by the increased production, primarily from dryland acres.

Predictions as to the income expected from vegetables was based on an average price for the crop, taking into consideration the wildly fluctuating market prices which have beleaguered

vegetable growers this season. Insect damage has been relatively light this summer on cotton, and is not considered particularly damaging. Late planting due to cold weather and hailouts has caused part of the crop to be late, but much of the late planted cotton is looking better than some of the earlier.

Many observers point out fields of cotton containing late and early planted crops, where the late planted is holding up better under the hot dry weather than the earlier crop.

Weeds, sprouting from several recent "cotton showers" have kept farmers in the fields longer than usual this summer, when crops are normally "laid by". Chopping weeds has also added to the employment of migrant and bracero laborers.

Last week the Texas Employment Commission estimated that an additional 3750 bracero laborers will be needed in Bailey county at the height of the harvest season. An estimated 1500 bracero, native and migrant laborers are in the general area at this time.

PROGRESS NEWS REPORT

4-H Girls Place High In County Dress Revue

Mrs. Arthur Cooper

The members of the Progress 4-H Club entered garments in the county dress revue held last Wednesday afternoon. The garments were awarded ribbons as follows: blue for 110 to 125 points of a possible 125; red for 90 to 110 points; and white for 70 to 90 points.

Progress club members who received blue ribbons were Mary Jean Gross, Trudy Davis, Judy Williams, Jane Wedel, Kay Thomson, June Gray, and Linda Gross. Red ribbons were won by Pat Thomson, Frances Cooper, Wanda and Mary Ellen Wedel, Mary Ellen also received a white ribbon for a dress and matching bonnet she made for her five-year old sister Carolyn, who modeled it in the dress revue. Linda Gross, age 9, made the highest score of the revue, 122, on the apron she made.

WMU Bible Study

The Women's Missionary Union met at the Progress Baptist Church Monday afternoon for Bible study. The lesson was on the 15th, 16th, and 17th chapters of John's Gospel, and the lesson was taught by Mrs. Rhetta Shipp.

Members present were Mmes. Delores Garrett, Opal Pugh, Helen Redwine, Billie Ruth Downing, Floine Merritt, Bessie Davis, Retta Shipp and Mary Marrow.

BOX SUPPER BY MYF A SUCCESS

The box supper sponsored by the youth at the Progress Methodist Church last Friday night was well attended. Prizes for the three prettiest boxes went to Pat Thomson, Jana Goodwin and Janet Scarbrough.

The MYF received about \$23 which they are giving to a ministerial student who has a fami-

Babson Discusses LIABILITY INSURANCE

Babson Park, Mass., August 15 — A friend of mine has a small retail store with two or three clerks. He has worked hard and accumulated a working capital of \$15,000. Recently a customer suffered a peculiar accident in the store. A jury awarded the customer \$20,000 damages. This not only wiped out the savings of a lifetime, but it put the owner into debt which may result in bankruptcy.

Insurance agents are to be recommended by life insurance agents. And if we have a mortgage on our store, or owe the bank anything, we must show in our statement how much fire insurance we carry. In fact, both life insurance and fire insurance are recognized by every retailer and home owner as "musts." The only question seems to be as to the friends to whom we will give the business and the amount which we are to carry.

I especially recommend what is known as the "comprehensive" policy! This includes most casualty risks other than life insurance. Unfortunately, less than 10% of the people use these comprehensive policies. My appeal today, therefore, is for every retailer to take out a liability policy and to make it large enough.

Stores vs. Wives: Not only should retailers take out liability insurance for their stores, but also for their wives and children. A woman neighbor of mine had a hat with a protruding feather which put out the eyes of another woman during a crowded retail sale. The jury awarded the woman \$25,000, and tried to involve the retailer. In another case, a parent was awarded \$10,000 because his boy got hurt by running into a person while sliding down a hill in winter. A milkman who stepped on a broken board collected \$5,000. I could give scores of similar illustrations.

Today's Meditation: Read John 12:23-32. Walk where you have the light, lest darkness come upon you; for he that walketh in darkness knoweth not whither he goeth. (John 12:35).

Key to the Scriptures: by Mary Baker the following will be read (210:11-16): "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."

Travel: THE HOSPITALITY ROUTE COAST TO COAST

Number Two on the Ballot: PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 37 proposing an amendment to Section 1(a) of Article XVI of the Constitution of the State of Texas, relating to the establishment of a fund for the retirement, disability and death compensation of officers and employees of the State.

Insurance Stocks as Investments: Stocks of life insurance companies are the most popular and have had a great rise in price during the past few years. Stocks of most fire insurance companies are selling below their book values.

Juries and Gravity: Probably the most money might be made (or lost) from the stocks of casualty companies. Their gross business will continue to grow. While thus far we have had to sue our friends or neighbors, it is fast becoming the thing to do!

Key to the Scriptures: by Mary Baker the following will be read (210:11-16): "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."

Number Two on the Ballot: PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 37 proposing an amendment to Section 1(a) of Article XVI of the Constitution of the State of Texas, relating to the establishment of a fund for the retirement, disability and death compensation of officers and employees of the State.

"Come Right In"

THIS WEEK - In Washington

The decision at London, then, must be whether to refuse to ban atomic weapons and hand Russia an important propaganda victory, or agree and then undertake to build up conventional forces superior to those of the communist nation.

The question is whether to sign an agreement with Russia to limit or outlaw the use of A-bombs and H-bombs as weapons of war? Washington instructions to our negotiators at the London arms-limitation conference can supply the U.S. answer. Russia, obviously, wants the bombs outlawed, but on her own terms.

Key to the Scriptures: by Mary Baker the following will be read (210:11-16): "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."

Number Three on the Ballot: PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 38 proposing an amendment to the Constitution of the State of Texas, relating to the establishment of a fund for the retirement, disability and death compensation of officers and employees of the State.

Sandhills Philosopher Alarmed Over Argument It's Illegal to Spend More Money Than You Make

Editor's note: The Sandhills Philosopher on his Johnson grass farm thinks he has sighted an alarming trend, but what probably ought to alarm him is the state of his farm, not the state of the country.

A newspaper fell out of an airplane over my farm out here yesterday, one of my neighbors thought it was a hydrogen bomb and ran for cover but I knew better, anybody smart enough to make a hydrogen bomb would have to much sense to waste one on a farm like mine—from the air I imagine my farm looks like a place some bomb-dropper has already beaten the other fellows down, marked the place in his mind where it fell and after I got through resting I walked over and picked it up and since one place is about as good as another to sit back down in I sat back right there and read it. If I'd been thinking I wouldn't even have reached down to pick it up, but would have sat down beside it and saved the effort, but a man can't think all the time.

Wasn't much in it except for one article that struck me right: illustrated the eyes and sounded worse than a hydrogen bomb in its after-effects. According to it, a man was being tried in Federal court for income tax evasion and the prosecuting attorney was trying to prove he didn't report all his income one year because his records showed he spent more than he claimed he took in.

The prosecuting attorney said this was clear Bible Comment: David's Case Shows That Great Sinners Need Only Repent

Even a just man can fall into foul and criminal acts. This is strikingly illustrated in the story of David, the shepherd boy and psalm-singer who became King of Israel.

David, contrary to his usual practice, was staying at home while Joab was leading the army against a menacing enemy. Had he been with his troops, the tragedy might never have occurred.

The allotment of a beautiful woman, Bathsheba, whom he had seen from a roof where he had gone to sista, enticed David into adultery. Then, covering up his sin, he suggested that Joab put the innocent husband, Uriah, into the thick of the battle and be deserted to make sure of his death.

With the husband out of the way, David's married Bathsheba and evidently had a very sincere love for her and her child. But his foul act was by no means wiped out. The child died, and a year later Nathan, the prophet, rebuked David openly.

What he asked David, should be done with a rich man who had everything but still stole the ewe lamb of a poor neighbor? David declared him worthy of death.

"Thou art the man!" Nathan said. Here David's finer qualities came to light. He might have destroyed Nathan but instead acknowledged his guilt and confessed his sin.

We don't know if David actually wrote the 51st Psalm in which the writer asks for God's mercy and to be cleansed of his sin. Such, however, applies to David's case.

Moral: You're paying for a new car... make sure you get one!

When you buy a new car, put your money on tomorrow—not yesterday. Swept-Wing Dodge actually obsoletes other cars in its field. Should you invest in high, boxy styling when Dodge offers the low, low look of tomorrow? Should you invest in outmoded coil springs when Dodge offers new Torson-Aire Ride? Should you invest in an old-fashioned lever-type transmission when Dodge offers the ease of Push-Button Driving? In other things, too—engines, brakes, interiors—Dodge is years ahead. So put your money on tomorrow. See your Dodge dealer. Join the swing to the Swept-Wing Dodge!

If the government is going to take the attitude that anybody who spends more in one year than he makes is obviously knocking down on his income tax, there's going to be the biggest shortage of defense lawyers in the history of the universe. Muleshoe won't have a tenth enough lawyers to go around.

If the government is going to take the attitude that anybody who spends more in one year than he makes is obviously knocking down on his income tax, there's going to be the biggest shortage of defense lawyers in the history of the universe. Muleshoe won't have a tenth enough lawyers to go around.

I'm not in favor of cheating on your income tax, but if Washington figures anybody who spends more than he makes is guilty of it, all I've got to say is sidetrack the Federal road-building program, call off foreign aid and halt all the defense spending, put all the funds in one pot and start building jails.

I think there ought to be a law against spending more than you make, but take this up with your family and see how far you get. Yours faithfully, J. A.

"WEEDY" MILK ON ITS WAY OUT?

A headache of long-standing to the dairy industry may be nearing permanent relief through virtue of a new machine said to remove off-flavors from milk.

The new device, which uses steam and high temperatures to destroy and carry away grass, onion and other bad flavors, is actually an Australian flavor-removing machine which was perfected and further developed at North Carolina State College.

Although very expensive as an addition to a dairy plant, the machine is believed fully justified by dairy farmers who in recent years have had to install proportionately expensive equipment such as bulk cooling tanks themselves. The flavor-saver would prevent these farmers from heavy losses due to rejections for off-flavor, which nowadays could amount to entire storage tanks of milk being wasted.

What the machine will not do is to disguise inferior milk, and for that the public can be grateful.

Bamboo—A New "Specialty" CROP FOR TEXAS

Bamboo can be used for something more than oriental-looking window shades and fishing poles. And as a new money crop possibility for Texas' lumber-growing regions, bamboo is a natural. As a source for pulp fiber, bamboo has a potentially bright future because it grows faster than soft woods and yields four to six times as much pulp per acre; it could be harvested me-

chanically, eliminating the saw and the ax; it would be cheaper to handle at the pulp mill; it will grow almost anywhere that the average minimum temperature doesn't go below five degrees—ready-made for East Texas' climate.

Also, bamboo fiber has proved to be better for certain specialty papers—such as facial tissue and fine writing papers—than other soft wood pulp.

Bamboo could never replace reliable pulp-producers we have today. But in our time of crop restrictions, allotments, curbs and controls, it certainly shows promise as a possibility for idle Texas acres.

Threats To 1958 Sorghum Grain Supports Seen

HEREFORD, Aug. 11—Threats to 1958 grain sorghum production are seen by Hereford area farmers as a result of this year's bumper crop, which seems headed for a record yield here as well as in other parts of the county.

The current year support price has been set at \$1.73 per hundredweight, which is 15 cents below the 1956 support.

Under existing laws, which specify a minimum of 70 per cent of parity for the current sorghum crop, the minimum support allowable for the 1958 crop will drop to zero. Secretary of Agriculture Benson will determine where

Cotton Insect Report

Light to heavy rains fell over a wide area during the past week. Falls were sufficient to boost growth and fruiting of dry-land cotton in many localities and will tend to produce excessive growth of plants in many irrigated fields. Such growth conditions will make the crop more attractive to late season insects.

The cotton leafworm, however, is the only insect now appearing in widespread heavy infestations. Heaviest leafworm infestations have been reported from Crosby, Dawson, Gaines, Garza, Howard and Lynn counties. The worms are present in light to medium infestations in most other counties in the area.

Bollworms occurred in heavy infestations in some fields in Howard county. The worms were reported in medium infestations in Gaines, Garza, Hale, Lynn, and Yoakum counties. Lack of heavier infestations, in many fields, may be attributed to the attraction of the bollworm moths to grain sorghums. In many instances the grain crop is heavily infested. With most cotton in a very attractive stage of growth, the crop should be watched closely for appearance of eggs and small worms.

Fleahoppers were reported in heavy infestations in Collingsworth and Garza counties. Although these insects are present on cotton in most fields, the crop is sufficiently advanced to suffer little damage from the existing infestations in most localities.

Lycus bugs were found in light infestations. Populations were generally lighter than previously the price level will be pegged.

He has a wide range to choose from—zero to 90 per cent of parity.

The Deaf Smith County Chamber of Commerce has started a study of the outlook for 1958 grain sorghum prices. They contacted Cong. Walter P. Rogers and asked him to seek whatever advance information might be available from the agricultural department.

Rogers reported Friday that they do not intend to discuss or study price support levels for grain sorghums until 1957 crops are harvested and in the bin, but farmers and businessmen feel the time to act is now.

Earlier Benson reported that support prices would be announced in November or December. Agricultural department officials apparently decided to delay action on the support levels until next session of Congress.

This might preclude any concerted action by producers of "non-basic" feed grain crops.

Sudan Seed Is Starting To Move

First load of 1957 sudan to be brought to Muleshoe elevators, so far as The Journal could learn, was unloaded at King Bros. Grain & Seed Company here last Thursday afternoon.

Conrad Williams, living south of Stegall, brought in the load of common, which was in good condition, the elevator people said. It was harvested from non-irrigated land.

SOIL CONSERVATION DISTRICT NEWS

Five new cooperators' plans and three old plans which were progressed to basics, were approved by the Board chairman and other members of the board last week, bringing the total number of plans to 1012 which indicated good growth for the district.

Conservation work carried out the first half of 1957 shows some outstanding accomplishments. This can be credited to farmers and ranchers seeing the need for a conservation program.

Conservation pays its way in extra production according to the capability of the land. Some of the accomplishments are: 190 acres land leveling, 84,989 feet of laterals, 8,294 acres contour farming, 2,526 acres cover cropping, 21,450 acres crop residue utilization, 2,944 acres rotation hay and pasture, 1.1 miles diversion construction, 369 cooperators applying practices, and 6,910 acres of deferred grazing.

WHAT OTHERS ARE DOING
C. L. Dean has completed three diversion terraces on his farm west of Baileyboro. Technicians of the Soil Conservation Service work unit designated and laid out the terraces. Dean will be able to divert outside water from his cultivated land to a play lake on the southwest corner of his farm.

Joe Whitley has completed count and fill sheets for field leveling 40 acres on his farm north of Muleshoe.

When completed, Joe will realize conservation benefits from saving of water through more uniform distribution of irrigation water and higher yields from more uniform crop growth.

Cover crops of Austrian winter peas and rye and vetch have been seeded on the J. B. McPherson farm east of Muleshoe, and

on the Choate, Floyd Sumrow and J. D. Holt farms southwest of town. These cover crops were planted with district owned tractor-mounted cyclone seeders at the time of last cultivation of sorghum, sesame and cotton.

They will be watered when cash crops are watered to grow through fall and winter to afford protection during the blow season in the spring. Two waterings in late fall and winter will keep them growing at a good rate.

Cover crops keep the land covered and help accomplish the overall long time stability of the soil that is necessary for sustained production.

Castor Beans Seen As Cash Crop For High Plains Area

The castor bean appears to have a place as a cash crop on the irrigation soil of the High Plains. In an attempt to determine the best adapted variety and find the cash per acre value, twelve varieties of castor beans have been included in the research program of the High Plains Station at Halfway.

The station scientists, in cooperation with representatives of the Baker Castor Bean Corporation, are searching for not only the most productive but also the varieties that can be harvested with minimum difficulty. They want a variety of combine height than can be harvested cleanly so as to leave few or no seeds to volunteer.

Recent predictions indicate a future increase in the Castor bean market due to the need for castor oil in the operation of jets and rockets. There is also a potential tremendous market for use in the production of synthetic fibers.

Nitrogen fertilizer tests on castor beans are underway at the High Plains Station to determine the most economical rate and the time of fertilization. Two varieties are being used in four row plots one hundred feet long. Each plot is being replicated four times. Each variety received four different fertilizer treatments. These included no fertilizer, 50 and 100 pounds of nitrogen per acre at planting time, and 50 pounds of nitrogen at planting time with an additional 50 pounds sidedressed when the castor beans were 6 inches high.

Success in this research program will help reach the objective of the Regional Council in finding new cash crops for the High Plains area.

Price Situation Seen As Stable By Agricultural Economist In Review

Most phases of agriculture seem to be holding their own as far as prices are concerned and probably will continue to do so with the usual seasonal declines—for the remainder of 1957.

Marketings of meat animals and grass cattle will be a little below the levels of last summer according to John McHaney, extension economist. Hog slaughter will likely continue below the 1956 rate until later on in the year. No price drop is in sight, except for the usual seasonal declines, and meat animal prices should maintain a modest margin in over last year. Steady to stronger prices are in prospect for fed cattle during the next few months, says the economist.

Prices of lower grades of cattle will decline seasonally. However,

says the economist, they will be supported by a strong demand for feed lot replacements and prices should remain at a higher level than last year.

Hog prices will probably continue above a year earlier during the rest of the summer and early fall. However, there is a slight possibility that prices at the end of the year may be a little below the price of late last year.

Lamb prices this fall may average as high as possibly a little higher than last year, points out McHaney. Egg prices should also begin to increase. By late summer, prices are likely to be above a year earlier.

Indications point to a wheat crop of about 971 million bushels in 1957—only 3 percent be-

low last year. Stocks of cotton owned by the Commodity Credit Corporation or held as collateral are the smallest since October 1953.

The average weekly rate of mill use of apparel wool in the U. S. showed a drop in April—the sixth successful month to show a drop from last year.

The national average support price for 1957 is 66 cents per bushel for oats, 94 cents per bushel for barley and \$1.83 per 100 pounds for sorghum grain.

If feed crop prospects continue favorable, feed grain prices will probably average somewhat lower the rest of 1957 than for the same period in 1956, adds McHaney.

Our linotype operator is perfect—it's the machine that makes the mistakes, he says. And we don't know enough about the contraption to contradict him.

The ever-blooming idiot is the favorite flower of condense men.

LAZBUDDIE NEWS LETTER

September 2 Set For School Opening Here

Mrs. Clyde Monk

Lazbuddie 1957-58 school term will officially open September 2, according to Superintendent J. G. Ward. The busses will make their regular run on Friday, August 30 for registration of all grades, and the busses will return the children to their homes in time for lunch that day. Lunches will be served in the school cafeteria beginning Monday, September 2.

The line-up of teachers for the coming year is almost complete with only two vacancies at the present time and this in the elementary department. We hope to have a complete list of the teachers by next week but at present two new teachers come from Bennington, Okla., Mr. and Mrs. M. H. Laney with several years experience. Mr. Laney will teach the fifth grade, and his wife, Altha, will teach in one of the third grades.

Morris Cooper will be the new high school principal and Fred Wilbanks principal of the elementary school.

All high school football boys are asked to contact the coaches by Monday, August 19 to make arrangements for physical exams. The first football practice will be on Monday, August 26. The first game will be played September 7 with the Muleshoe B team.

The Lazbuddie Laundry will be closed a week beginning August 19 in order that the Scotts take a short vacation. Carolyn Scott plans to visit her sister Juanita at Waxahachie and Mr. and Mrs. Scott and Terry just plan to "vacate".

Mr. and Mrs. Dick Scott and Ronald, Mr. and Mrs. T. E. Smallwood and girls, Karen and Mira, accompanied by Mr. and Mrs. Paul Scott, Sandra and Linda and Mr. and Mrs. Bill Tittle, Frank and Raylene of Muleshoe, are all vacationing in Jemez Springs, N. M. this week.

Guests over the weekend in the J. W. Maddox home were his parents, Mr. and Mrs. I. C. Maddox from Brownfield.

Pre-Nuptial Shower
Hostess duties were shared Wednesday afternoon, August 7, for a pre-nuptial shower honoring Genevieve Bartlett, bride-elect of Leland Gustin, by Mrs. V. H. Bewley, Ernest Nowell, Eulan Parham, Finis Jennings, Virgil Teague, John L. Seaton, Frank Hinkson, Glen Stevens, Henry Nye, Gordon Duncan, Willie Steinbock, Barney Floyd and Edgar Broyles.

The setting was the Fellowship Hall of the Methodist Church which was tastefully decorated with fresh cut flowers, with the main attraction a huge bowl of brightly colored Gladiolias.

Ann Broyles registered the guests and also the gifts as they were opened. Genevieve was assisted with the opening of the gifts by her mother, Mrs. E. V. Bartlett and Mrs. C. D. Gustin, mother of the groom-to-be, who were each presented with corsages of white carnations.

The refreshments table was laid with a blue cloth covered with lace with the sides shirred up to drapery effect to display the blue cloth and tied with large blue bows. The centerpiece was a crystal cake plate on a mirror

CLASSIFICATION TALK GIVEN FOR ROTARY
John Miller, Continental Oil Co. agent here, failed to produce a program for the club Tuesday so gave his classification talk instead. Members told him it was probably a better program than he had arranged, for, anyway.

Rotarian Miller described various qualities and weights of oils, and difference in grades of gasoline. At the conclusion of his talk members asked many questions, which touched off an in-

teresting round table discussion. Visiting Rotarians included James Arnold and F. M. Smith, Sudan; T. V. Singleton, Seminole; and John Garrett, Clovis. The club presented the retiring president, D. B. Lancaster, with a handsome past president ring in appreciation of his services to the club.

MHS Football's "Finest Hours" Were During The 1930s

Muleshoe's Football Record Boosted By Stevens' Efforts

Note: The following is the third in a series of articles on the history of football at Muleshoe high school. In preparing this article, the author gratefully acknowledges the assistance of the following: Theo Atkinson, Jim Burkhead, Claude Willemson, Woody Lambert, Martin Oliver, Francis Gilbreath, Houston Hart, Clyde Holt, Troy Atkinson and others who took time to scrape their memories for information.

By BILLY ELLIS

THE THIRTIES
Football came into its own at Muleshoe as the 1930's rolled by. Never having a winning team to speak of (the 1929 team was 3-5), Muleshoe finally got something to cheer about, and with the coming of Coach C. R. (Roy) Stevens, the school and townspeople at last were given a winner.

Stevens, who coached at Muleshoe for seven seasons in the 30's, had a winning year on five occasions, compiling a career record of 30 wins, 17 losses and 3 ties, easily the best mark turned in by an MHS man.

The beginning of the 30's found Muleshoe's team under the direction of Fred Bryant. Games in the period were played in beloved old Cob Park (as they were until the present field was laid out in 1947).

The field received its name because it was, in fact, as rough as the proverbial cob, being infested with glass, nails, rocks—everything but grass. Jack Williams finally had the field sodded in 1939, but even then goat-heads still remained plentiful.

Bryant's 1930 team, captained by Ralph DeBoard, had a 2-6-1 record, dropping its first four games before the winning combination was attained. Actually the two wins were over Whitharral, as the Yellowjackets swept

both games of the home-and-home series.

Highlights of the year included the wins over Whitharral (20-0 here and 44-0 there); tying Sudan 6-6 in a game at Leveland, in which captain DeBoard received a broken leg; travelling to Vega for a chilly season finale for the second straight year.

Bryant's last team in '31 had a little better fare, winning three of seven games. Jim Burkhead, fullback, captained the eleven, which posted two wins over Amherst and a 32-0 plastering of Sudan. One of the losses was to Hale Center, in the first meeting of the two teams, played at Lubbock's South Plains Fair before a crowd of 2,500.

Outstanding events would include the Amherst wins, the victory over Sudan (a highlight any year), and the Hale Center game, in which captain Burkhead had his shoulder blade broken on the first play, but going in to finish the game after applying sufficient tape.

In 1932 Coach Roy Stevens arrived on the scene, and the school had its first winning record, being 3-2-2 at the season's close.

Left end Troy Atkinson, taking a "post-graduate" course, was the team captain, as the crew accounted well for itself in every game, the two losses being by one touchdown each.

Events coming to mind are the 25-0 win over Hale Center, repaying the Owls for last year, before 8,000 this time at Lubbock—this game was broadcast by a Lubbock station, the first Muleshoe game to be so honored. Jim Alsup did the play by play, and a colorful job from all reports. The Leveland game there, a 7-7 tie, played in the rain and mud, with Claude Willemson running 95 yards with an intercepted pass for Muleshoe's score.

Jackets Lose Only One
The Yellowjackets of 1933 were beaten only one time, and that loss was the result of a bad break. Stevens' team started out like a house afire, winning its first four games, from Amherst (6-0), Morton (32-0), Olton (9-0), and Morton again, 8-6, before being cooled off.

Returning the Olton game, Muleshoe fumbled a punt, which was recovered in the end zone by Olton lad for the only TD of the game, marrring an otherwise perfect year. The other wins were over Farwell 21-0 and Amherst 22-0.

Clyde Holt quarterbacked the '33 eleven, which saw Jim Burkhead sidelined for good when he was tackled and injured while scoring in the first Amherst game. In the initial contest with Olton, won 9-0, Bill Faulkner swiped an Olton handoff and raced for a Muleshoe touchdown.

Home-and-home affairs were the rule again in 1934, as the Yellowjackets finished 4-3. The team swept its pair of games with Farwell, lost both to Morton, split with Texico, and downed Lazbuddie in the only meeting to date with the neighbors to the north.

Walter Moeller, quarterback, captained the '34 team, which had a consistent scorer in fullback Bill Faulkner.

The home-and-home series method was abandoned in 1935, as the season record was reversed to read 3-4. Wins over Springlake, 6-2; Amherst, 33-13; and Texico 24-0, in the final three games of the year.

Faulkner again was the leading scorer, with captain Houston Hart a good punter and extra

point getter.

Nineteen thirty-six was another of those years in which Muleshoe could not find the winning touch, falling in five attempts to chalk up a game in the win column. The 6-6 tie with Amherst was the closest to victory Muleshoe came, as the team crossed the goal line on only two occasions.

First Game Under Lights
Coach Stevens was working against the odds, as he had only 12 or 13 candidates out for the team in '36. An idea of the shortage of players can be seen in the fact that in scrimmages, he would have the left side of his line play against the right side.

The team journeyed to Leveland, and although losing by a lopsided score, the game was significant in that it was the first game played under the lights by a Muleshoe eleven, and Coach Stevens opposed his brother's powerhouse Leveland team.

Things picked back up in 1937, the first year for Muleshoe to play in a conference. The team ended up 4-3 on the year, losing the three games by a combined total of 16 points. Starting off uneventfully, the team began to play together around mid-season, and rolled up some whopping scores before the season ended.

They Beat Sudan
After splitting its first two games, the 'Jackets "gave" Anton a 15-12 win after leading 12-0 at one point. It was after this game that the Muleshoers began to click, and the change was soon evident. The team downed Amherst 26-0, then walloped Sudan 46-0, the largest margin the Hornet-Muleshoe series has seen.

Muleshoe shot the works on the first play against Sudan, as end Don Moore dropped back for a handoff from halfback Woodie Lambert, and sped some 80 yards for a score. The next week, the boys rolled up the highest point total in the school's history when the trampled Springlake 72-0.

This set the stage for Muleshoe's finest hour on the gridiron. The building efforts of Coach Stevens paid off in full in 1938, as Muleshoe went through an eight game schedule undefeated, winning the district championship, its only one in history, and downing Ropesville in a bi-district match.

The team of '38 had one close call—in the second game of the season against Morton. Coach Stevens' "no huddle" tactics caught Morton off guard, and Delbert Parsons ran for a touchdown on the very first play. The aroused and angered Morton team battered Muleshoe the rest of the way, but the 'Jackets were able to withstand several goal-line efforts, and won by a 6-2 margin.

This game is credited by some of the team members as being a tremendous boost in team spirit, and warding off any over-confidence the team may have had.

Three On All-District
Halfback Delbert Parsons captained the team, assisted by center Benny Taylor. Highlights other than the Morton game: beating Amherst 36-6; Sudan, 13-0, and Whitharral 58-6 enroute to the 25-14 win over Ropes in bi-district; Alwyn Chitwood, Benny

Taylor and Delbert Parsons being named all-conference.

The 1939 edition of the Yellowjackets, with a new tutor, Jack Williams, at the helm, seemed following in the footsteps of its predecessors for a while. The team won its first four games, before being stopped, again by Olton—a team which has always been a thorn in Muleshoe's football side.

This Olton team, a powerhouse led by the rugged Hedges twins, Willard and Willis (Willard later coached at Muleshoe, it will be recalled), roared past Muleshoe 34-0, more or less breaking the back of the Yellowjackets' drive. The team was able to win only one of its remaining three games, closing with a 5-2-1 mark.

The Farwell game stands out, as Muleshoe came from behind 13-0, scoring twice in less than two minutes to take a 14-13 win over a traditional rival. The team's 13-0 win over Sudan may have seemed routine enough, but it was to be the last win over the Hornets until 1952, surely one of the longest jinxes in high school football.

WEDDING ANNIVERSARY
Friends of Mr. and Mrs. A. D. Thomas are invited to attend the celebration August 25, of their golden wedding anniversary in their home at 806 West Avenue G.

BACK FROM OKLAHOMA

Mr. and Mrs. Sam Cook and son, Freddie, are back at home after a visit in Enid, Okla., with the family of her sister, Mrs. S. A. Cook, Sam's mother, who lives in Walters, Okla., joined them there and came home with them for a visit.
