Two Gatzki Boys In Service, Meet Through Accident

"Better hunting and fishing" is the motto of F. O. Lytton, state game warden, who has been in Lynn county this week inspecting lakes and stock tanks with the idea of stocking more of them with fish.
Mr. Lytton thinks that Lynn county could have sufficient fish for all its fishermen, with co-operation of the people and the stocking of other tanks, and the practicing of conservation methods.
He also urges that the people co-operate in giving quail and prairie chickens a chance. Quail hunting is getting better, and he urges that farmers, ranchers and sportsmen keep a watch for the "game hog" who kills out entire coveys. No one can hunt prairie chickens under any condition in Lynn county. But as soon as this bird has staged a comeback, hunting will be allowed again. They are said to be increasing in numbers, whereas a few years ago the prairie chicken was almost extinct.

He also suggests that local duck hunting enthusiasts might have a little better luck if they built blinds in some of the larger lakes.
Owners of large stock tanks that do not go dry now have a reasonable chance of getting them stocked with bass, crappie, perch and catfish by the Texas Game, Fish and Oyster Commission. Anyone interested may see Frank Hill at The News office or write Mr. Lytton at Lamesa for application blanks.

Horse-And-Saddle Days Coming Back

Bill Thompson and wife will not be afoot even when their limousine wears out. The horse and saddle days have staged a come-back out at their place. In fact Bill has never gone entirely out of the horse raising business. For some time he has been riding, occasionally, a fine palomino horse which he values at \$500.00.
Recently he and Mrs. Thompson were in Lubbock when some very fine high-bred saddle horses were being offered for sale. One handsome fellow had been trained to do many cute tricks as well as to go places. She became enamored of the animal and decided she was going to take him home. When Bill demurred because of the price and was about the leave, Mrs. Thompson

made him "fork over" his check book and she proceeded to write a check for the amount required, \$350.00.
Now the Thompsons have two of the most elegant saddle horses out at their place to be found anywhere. They are prepared to save their gasoline, all right.

AID AND COMFORT TO THE ENEMY

Japanese authorities have been exulting over the coal strike that John L. Lewis undertook to stage in this country. An editorial in the Nippon Times last Saturday as broadcast by the Tokyo radio and recorded by the Associated Press contained the following observations: "The seriousness of the situation is at once clear from the prediction already made by American steel companies that if a general strike of coal miners were called, they would have to seriously curtail steel production within two weeks."
"A strike of such proportions, nevertheless, is incontrovertible proof that there is no unity in the United States regarding the prosecution of the war. That, however, is not strange when the masses in the United States still are in the wilderness regarding the real war aims of the Government."
This Tokyo Times editorial certainly is "incontestable proof" that John L. Lewis' conduct has given aid and comfort to our enemies, the most cruel and treacherous enemy that this Nation has ever had.
But if the Japanese newspaper publishers and the Japanese leaders

knew how deeply and how generally—almost unanimously—the conduct of John L. Lewis and his strikers is detested and despised by the "masses in the United States," they might decide that there is more unity in this country in the prosecution of the war after all than they thought. They might get some hint as to how the people are backing up our war effort by the fact that when our Government called for the investment of thirteen billion dollars in war bonds, the people promptly invested seventeen billion in them. A lot of that money, old Tojo, will be used in the manufacture of bombs with which to blast the lights out of your little old island. You should learn right now that John L. Lewis is not the United States. The people here are sitting down upon him like a ton of brick. And you had just as well begin now to get your hari-kari knife ready. Your doom is sealed.

There can be no doubt that a vast majority of the people of the United States and practically all our soldiers and seamen in the service favor legislation that would make strikes in essential war industries unlawful in time of war. They regard the conduct of John Lewis in these critical times as near-treason. Any man who will deliberately do anything that will stop the production of essential fighting equipment when our nation is fighting for its very life is just about as patriotic as was Benedict Arnold. "Treason against the United States shall consist only in levying war against them OR in adhering to their enemies, giving them aid and comfort," says the Constitution of the United States. Now, John Lewis may not be adhering to our enemies in the sense contemplated in the Constitution but negatively at least he has been giving them aid and comfort just as truly as if he had bombed a U. S. battleship or led an armed rebellion against our war effort. Whether or not his conduct can be made legal treason under our constitution, Congress certainly should make it criminal. The Connolly bill pending in the United States Senate should have been passed long ago, and as amended, it should be passed yet without delay.

No re-districting of Texas into new Representative and Senatorial districts at this session of the legislature. Legislators from other parts of the state are so fearful that re-districting would put them out of a job that they prefer to ignore the State Constitution, to let the districts stand "as is," and to continue to deprive West Texas of fair representation in that body.

NATIVE SON VISITS TAHOKA

G. W. Hickerson Jr., Mrs. Hickerson, and their little son, Larry Dean, of Shreveport, Louisiana, have been here this week visiting his parents, Mr. and Mrs. G. W. Hickerson, having arrived last Friday.
Mr. Hickerson has been employed at a big synthetic rubber plant at Baton Rouge the past six months. One unit of the plant has been completed and has been turning out synthetic rubber for some time, he says, and another unit will be completed soon.

In addition to this, he reports that the Firestone Company has a huge synthetic rubber plant there, which is already in operation.

G. W. Jr. is a native of Lynn county, having been born at Three Lakes about thirty-four years ago, and he is a graduate of the Tahoka high school.

Mr. and Mrs. Frank Wendt and children of Quanah were the weekend guests of Rev. and Mrs. H. A. Nichols. Mr. Wendt is county agent of Hardeman county.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:30. Members urged to attend. Visitors welcome.

W. V. McELROY, W. M.
H. L. RODDY, Secretary.

ODDS and ENDS

by Eec Eye, the Elder

Last Thursday night a stranger came into this office and called for a paper; and he made a hit with us right off the bat, for when we handed him one he commented enthusiastically about its neat appearance. Then, after a few other remarks, in which he told us that he had just come out to the Plains a few days before—maybe a day or two before—from Wise county, he waxed very enthusiastic. This was his first trip to the Plains and he was still thrilled from his first view of them as he came over the top just this side of Post.

"I had heard much about the Caprock and the Plains," he said, "and I had long desired to see them, and was expecting something interesting, but I was not prepared for what I saw. When I got up on top, all of a sudden there burst upon my sight the most thrilling thing I ever saw. The great level expanse! Why, I believe I could have counted a hundred farm houses at once. It was like a picture show to me, a show that had been just ordinary and didn't interest any one much, and then suddenly there came a dramatic scene that thrilled everybody. Well, that is just the way I felt."

We told the gentleman that we understood just how he felt, for we still remember vividly how we were thrilled the first times we climbed the Caprock on this side of Post and admitted that we still get something of a thrill out of it every time we come over the hill. Well do we remember also how we were delighted and thrilled with our very first view of the Plains in January thirty-six years ago. We had come into Amarillo in the night and had seen nothing. The next morning we boarded the south-bound Santa Fe for Canyon, where we took a mixed train for Plainview. We came out of Amarillo just at sun-rise. The skies were bright and clear but there had been an abundance of rain in the fall and the lakes were all filled with water. It was an enchanting view.

So we told our visitor that if he wanted just one long-continued thrill he should climb into his Ford or his Chevy or whatever he had and drive from here to Amarillo. "That is just what Bill Thompson told me!" he exclaimed. But we think he was willing to stay right here, though we haven't seen him since. He may have gone back home to get ready to move out.
We suggested also that he stop at Canyon and from there go east for thirteen miles, where he would get another thrill; that driving along over the level plain, he would suddenly find himself on the rim of a yawning chasm, 500 or 600 feet deep, the noted Palo Duro Canyon. If any of our Tahoka people have not seen that wonder, you should take that trip as soon as we get Hitler and Hirohito and John Lewis whipped.

Some day, we are persuaded, the Palo Duro will be made a real, honest-to-goodness state park.

And, by the way, we have the possibilities of a dandy park with plenty of rugged scenery right here on the line of Lynn and Garza counties. The site is almost inaccessible now, but once you get into it and there is a lot of scenery that is most satisfying to any plainsman. We allude to all that Caprock region extending from the neighborhood of Draw northward to the east of Grassland and thence eastward and north almost to Post. Imagine a paved highway built to that parksite and winding around through it and the grounds improved like a real park. Wouldn't it really be 'sumpin'?' And it may be done some day, if we become park-minded enough.

Buy a Victory Bond and Save a Jab!

MISS COOPER IN TRAINING

Camp Ruston, La., May 5.—One of the first enrollees of the Women's Army Auxiliary Corps to arrive for training at Branch A of the Fifth WAAC Training Center at Camp Ruston, La., is Mildred K. Cooper of Tahoka, Texas.

Branch B is at Camp Monticello, Ark., and Branch C is at Camp Polk, La. All three branches are under the command of Col. John A. Hoag, former commandant of the First WAAC Training Center at Ft. Des Moines, Iowa. Recruits will take the intensive WAAC basis training course at the Fifth WAAC Training Center before being assigned to the

non-combatant Army jobs for which their civilian experience and Army technical training have best adapted them.

Mrs. Minnie Pollard and Mrs. John Medford of Avery, Red River county, visited in the homes of Mr. and Mrs. Jim Banister and Mr. and Mrs. J. E. Mayberry last week. They are aunts of Mrs. Mayberry.

MOTORISTS!
Save oil
FOR
PLANES, TANKS, SHIPS
with Luber-finer, a genuine oil refiner for your motor
To America's millions who are all-out to back their fighting planes, tanks, ships, trucks—oil conservation is a vital necessity. Luber-finer, a genuine oil refiner in your car—with refining packs replaced at proper intervals—is helping in this job by adding thousands of miles to oil and engine life and saving unnecessary oil drains and costly repairs.
Although Luber-finer's efforts are primarily devoted to defense requirements, increased production enables us to meet the public's needs as well.
Luber-finer
REFINES OIL EVERY MILE AS YOU DRIVE
PUT A MODERN OIL REFINER ON YOUR MOTOR. There's a Luber-finer model designed for every type of oil—including the special Luber-finer DIESELPAX for use with COMPOUNDED OILS. Ask for a demonstration.

Statements Offered All Employees

If you do not know the status of your social security account and have not requested a statement of your account, you should do so, said John D. Palmer, manager of the Lubbock Social Security Board office, in a statement today. Palmer pointed out that "all careful persons ask for statements of their bank accounts once each month. This is not done because of distrust or lack of confidence in the honesty and efficiency of the bank but merely because it is good business and a protection for the depositor and the bank alike. The practice of calling for bank statements is encouraged by banks. The Social Security Board encourages employees to request statements of their old-age and survivors insurance accounts at least once a year, and they have made the asking easy."

In order to secure a statement of one's social security account, a worker merely fills out a simple post card, Form OAR-7004, giving his account number, date of birth, name and address, and mails the form to the Social Security Board, Candler building, Baltimore, Maryland. The form may be obtained from any Social Security Board office.

What You Buy With WAR BONDS

One of the most essential articles of equipment for our soldiers is his canteen. In equatorial countries and in other warm climes they are particularly important to the welfare of our fighting men.

The canteen, now being largely manufactured of plastics, costs about 43 cents. The canvas cover . . . about 41 cents or 84 cents in all. Your purchases of War Bonds, or People's Bonds, will buy many of these for our men in the Solomons or in Africa where they are badly needed. Buy War Bonds every payday . . . at least ten percent of your income . . . through a Payroll Savings plan. U. S. Treasury Department

ART EXHIBIT BY LA VOYLE RICHARDSON

On Thursday and Friday of last week, in the Press room of the Tahoka high school, an art exhibit of some eighteen oil and pastel paintings were displayed.

Most of the high school students visited the exhibit and showed much interest in the pictures. Also many of the citizens of the town had the privilege of visiting the exhibit.

Each person voted for the painting he or she liked best. The Hired Girl, No. 15, a masterpiece for the young artist, won first place; No. 9, Dutch Mill, second place; and The Girl in Red, No. 8, third place.

Other pictures were: French Castle, Autumn Scene, Fruit Basket, Guardian, Roman Girl, Birch, Liberty, Roses, Snow Scene, Forest Scene, Horse and Girl, and others.

LaVoyle is the daughter of Mr. and Mrs. Rafe Richardson and is the only High School student of Tahoka showing so much talent and accomplishment in painting. She is a student of Mrs. A. O. Conley and of the Art Institute of Minneapolis, Minnesota, Extension Department, from which LaVoyle will receive her diploma for two years college course this summer.—Contributed.

EXPRESSION PUPILS RENDER PROGRAM

Pupils of Mrs. Rafe Richardson gave their closing program of the year last week in the High School auditorium. A large crowd report a very enjoyable program, well rendered by the students.

Lola Fern Kelly of Grade School received an award for one year of work in expression in the grade school.

Those receiving blue ribbons were: Gonetta Atkisson, Ernest Deane Edwards, Joni Hudman, Ray McCabe, Thomas Deen Nowlin, Bobby Franks, and Bobby Poe.

LaPayne Moore, Nancy Jane Nowlin, and Phyllis Ann Fielder were stage fairies.

Charles Haynes read "Girls". Two high school girls, Dorothy Rusk and Joy Moore, each received an award for one year high school work, and La Voyle Richardson got her diploma for four years high school expression.

Jimmie and Joan Conley and Joyce Weaver received pins as awards.

Some of these students are planning to continue their studies through the summer.—Contributed.

Miss Claragene Scruggs was home on Easter Sunday from Amarillo, where she is employed at the Pan-Tex Ordnance plant.

Southland News

(By Mrs. Marvin Truelock)

Visitors at school last week were Second Lt. and Mrs. Charles Clark. Our former coach has just completed his secondary training period at Pampa and will go to Austin for his final period. He and Mrs. Clark were visiting her parents at Wilson and would visit his relatives at Tuscola before leaving for Austin.

Dan Altman and his former next-door neighbor met in Africa, believe it or not. Even their buddies were skeptical of such a coincidence, but that is what Dan wrote to his parents, Mr. and Mrs. Elmer Altman of Pleasant Valley.

Billy Becker has seven more weeks before their class is required to make 40 words per minute. Billy has already made 37, the highest grade in code in his group. His parents, Mr. and Mrs. August Becker, are surprised at his perfect papers, since he attended school only a few weeks after he finished grade school, because he disliked studying. Now, he can make better grades than the high school graduates and college men.

Second Lieut. Garth Thomas of the Marines is in El Toro, Calif. He reports a scarcity of training planes, until recently.

Leon King is still in the top group of those making high grades at the Northwestern University, Evanston, Ill.

Mrs. Clyde Haire is able to be about again.

We all sympathize with the invitation-less Seniors. Their cards arrived about two weeks ago, but, to date, they have not even heard of their invitations.

Rev. E. C. Armstrong is the evangelist in a revival near Muleshoe. Wilma Wheeler has been staying with Mrs. Armstrong. A preacher from Lubbock substituted for Brother Armstrong here Sunday morning.

Carol Davis returned home with her grandfather, A. F. Davies and uncle, Kenneth, from Fort Worth last week. She will also visit her paternal grandmother, Mrs. G. W. Davis.

Mrs. Herman Whited and son Don of Odessa arrived Friday night to visit her grandfather, Albert Morris, mother, Mrs. Annie Landers, and Mr. and Mrs. J. L. Whited. Last week, Grandpa Morris fell while going to town. Since, he has been having delirious spells and is extremely nervous. Many of the neighbor men have been sitting up with him at night.

Mrs. Hollie White and daughter, Mrs. Herman Irwin, returned Saturday afternoon after spending a week with her sister at Lorenzo. Billy White of Lubbock spent the weekend here.

Roy Tolison was delirious Sunday night with flu and "full of malaria," according to the doctor.

Next Sunday night is the date of the Baccalaureate Sermon and Friday evening the Junior-Senior banquet will be held at the Hilton Hotel in Lubbock.

Rev. O. J. Harmonson filled the

A TOAST TO A LIVING BENEFACTOR

Some men are born rich, others become famous through help from their parents or influential kinsmen, but some men are endowed with fairness to all and malice toward none. Such a man is in our midst. He does not toot and blow, but to my own knowledge he has aided and helped more men when they were nearly out than any man I know. His word is like the "Heritage of the West." His word is his bond.

"Why wait till a man has breathed his last and then gang up around the funeral home with loads of beautiful flowers. I say give a rose while they are yet alive so they may enjoy the wonderful fragrance of life itself.

Some people never love their wives or wives their husbands until they hear the clods falling on them; then they know they are out of the way and they act as though they were perfect people. Don't do this—you are not fooling anyone but yourself, for the public is full of back-slapping and will make it appear you are the hot stuff.

So, the thing for people to do is just be natural and not try to fool yourself and make the most of your opportunities. That is just what Jim Burleson has done and is doing. I have known him over 20 years. I am not seeking any one's favor, but I'll just merely express the good wishes of people who have never written or stated their minds.

More men like Jim, and you would not have a coal strike or a John L. Lewis to suck the life blood from the workers of America. Did you ever see a bee hive? Well, in most hives there is a drone. (He neither works nor moves only to his own pleasure, but lives from the honey of other bees' labor.) Such men like Lewis are drones in the American bee hive. In some cases, the bees get tired of the drones and put them away.

May Jim's life be long and full and more power to him and men who have the spirit of Thomas Jefferson, Lincoln, and men who gave

pulpit of the First Baptist Church at Post Sunday, in the absence of their new pastor, Rev. Tension.

Seaman 2nd Class J. W. (Corky) Corley, Jr., of San Diego, came Thursday to visit his parents at Lubbock. During the week end he visited his sister, Mrs. Dan Stewart, and friends here.

WILSON 4-H CLUB STUDIES CONTROL OF INSECTS

The 4-H Club met in the eighth grade room at Wilson on Thursday, April 29, at 3:00 p. m. Miss Dixon was present to help the members. Miss Dixon talked and explained

methods of controlling vegetable insects. She also demonstrated a home made dressing table.

Betty Jean Willingham, Marjorie McInroe, and Wanda Faye Lackey rendered the program. The recreation committee rendered the opening exercises.

There were 48 club members present. The girls are happy to have Miss Dixon back.—Club Reporter.

We will soon have a supply of

Double-O Chicken Feeds

BURLESON GRAIN COMPANY

PLANT for a PAYING YIELD

WITH CERESAN-TREATED COTTONSEED!

Minimize waste—of time, fertilizer, seed, hard-to-get labor—by treating cottonseed with CERESAN or buying only seed marked with the CERESAN Certificate Tag. Many tests and years of use show how successfully CERESAN reduces seed rotting and sore-shin, generally improves stands, helps save costly replanting and commonly increases yields—often 10 to 25%. CERESAN costs only a few cents an acre; is easy to apply. See your dealer now!

TREAT OTHER SEEDS, TOO! Use Semesan Jr. for seed corn, New Improved Ceresan for small grains, Semesan for vegetables, Semesan Bel for potatoes.

YOU'RE MEAN, DADDY!

WHY CAN'T WE GO RIDING?

It's Patriotic . . . and it's plain common sense . . . to keep your driving at minimum until victory comes.

Rubber, which can be used against the enemy in every battle area, is too precious to be used for anything but essential driving . . . for going to work . . . for necessary shopping . . . for travel to and from places without other transportation facilities.

Remember, the rubber-saving, gaso-line-saving, legal speed-limit is 35 miles an hour. Remember, too, that a tire worn beyond the danger point cannot be re-capped.

So be sure to get the help of the Phillips 66 Service Man.

See him at least once a week. He will check the air pressure in your tires, inspect them for cuts and bruises, criss-cross them with the spare every 3000 miles, tell you when re-capping is advisable. He will check your radiator, battery, and air filter. Will lubricate your car from fan-drive to stop-light. Then, with Phillips 66 Poly Gas and Phillips 66 Motor Oil . . . your money, your car, and your tires will all go farther.

Millions of drivers know from experience that Phillips 66 Poly Gas is famous for pep and mileage. So next time you are ready to use a coupon or two, stop at the Orange and Black 66 Shield, and find out just how good today's Phillips 66 Poly Gas is.
