Mass Meeting Wednesday to Protest School's Tax Program

More than 200 persons attended a mass meeting in the Bailey County Court House Wednesday night, to protest what was termed "unfair and unjust" raising of values on farmland by officials of the Muleshoe school district. The district courtroom was well over half filled, predominantly with farmers.

John West acted as chairman of the meeting. He told the group, in his opening remarks that "we are being gouged heavy, without any knowledge of why or what the money is needed for, and I am mad about it." He urged the people assembled to work as a body, and not try to act individually. He said they did not want to discuss individual cases, but wanted to protest the overall program.

At 8:30 he said that every member of the school board had been urged to attend the meeting and present their program. At that time only two members were present. He asked the group to wait while and give them sufficient time to show up. At nine o'clock he called them to order again. At that time he introduced R. O. Gregory, and Dr. B. R. Putman as members of the school board, and Leon

pushed further.

Careless Spending Charged

While he had the floor, Lovelady made extensive remarks as to the status of school affairs. He criticized what in his opinion was a slipshod, haphazard handling of school finances, and the careless attitude of the people toward such matters. He told the group, he had said it previously and he wanted to repeat, "There are more gutless people in this town than any town I ever saw."

In urging the people to fight the tax program, he told of thaxiom, about the man with the seven sons, and the seven sticks. Tying them together they could not be broken, but one at a time they were easily broken. He suggested they pay their taxes under protest, and then go in court and fight the matter out.

About careless spending of public funds he said "There has been no independent audit made of county, city or school funds since I have been here, to my knowledge." He said he had more respect for a man that will take a gun and rob some one, than I have for a public official who uses his office for personal

gain."

West introduced R. O. Gregory, member of the school board. Gregory said he "opposed the raise as it was." He said he would have been for a 10% raise in the tax rate. He said he had tried to get them to run the school like they would run their own businesses, but he had received criticism for it.

Dr. Putman was introduced. He told the group he had fought for economy in the school, but had been unable to effect it. He said he wanted to "do the job ourselves, instead of spending \$5,000 to outsiders." He said he too, thought the 10% or 15% tax raise would have taken care of the needs of the school, if good business were employed and the board did not just vote for anything that came across the table.

Mr. Lewis was called on, but he offered no comment, other than to state that Mr. Gregory had pretty well expressed his sentiments.

Taxpayers League Urged

Lovelady was called on again. He asked the group if they cared to organize a Taxpayer's association of some nature. Then he called for a

This field of wheat was photographed one day last week, just before it was harvested. Shown is J. K. Adams, county agent, in the field of Lewis Scoggins, west of Muleshoe. This field harvested out approximately 70 bushels of grain per acre.

W. K. Palmer Named Head Lubbock Cotton Classing Office

W. K. Palmer, chairman, board of cotton examiners, Galveston has been chosen of officer-in-charge of the Lubbock classing office, reports John L. McCollum, area manager, Dallas. The change is effective about July 1.

Palmer previously was the assistant at Lubbock from 1951 to 1954 during which time he entered active military duty in the Korean conflict. He has been in charge of the Galveston Office for four years and previously served in a similar capacity at Bakersfield.

Services For Mrs. W. R. Young Held Here Monday

Last rites for Mrs. W. R. Young, 52, pioneer Bailey County citizen, were held Monday at 3 p.m. in the Muleshoe First Baptist Church, with the Rev. E. K. Shepherd officiating, assisted by the Rev. J. E. Moore, Baptist minister.

Mrs. Young died Sunday at 11:15 a.m. in Methodist Hospital in Lubbock.

She was born Johnnie Leon Murrell, July 29, 1906 in Lamar County. She married Mr. Young April 18, 1930. They came here 29 years ago from Lubbock County, and lived 18 miles southwest of Muleshoe.

She is survived by her husband and three children, Sue Young of Lubbock; John Robert Young and Jim Young of Muleshoe; her mother, Mrs. John Murrell of Lubbock; 2 sisters, Mrs. O. B. Johns, Lubbock, and Mrs. Chester H. Smith of Slaton.

Pallbearers were Arthur Shafer, Nudie Moore, Wilson Witherspoon, Ralph Ethridge, N. A. Dunlap, and Eddie Beane.

Honorary pallbearers were U. S. Cooper, Fred Beane, Wiley Moore, Don Moore, Red Simmons, Ray Griffiths, Irvin St. Clair, and Harvey Bass.

Plains Furniture Opens In M'shoe

A new business now opened in Muleshoe is the Plains Furniture Company, located at Morton Highway and Avenue B.

Manager of the new store is Norman McCall. He comes here from Plainview. He and his wife and 19 month old daughter, Debbie, have already established their home here.

McCall says they plan to have a formal opening on July 6, and they will carry a full and complete line of furniture and appliances.

City mail delivery service for Muleshoe will be approved if sufficient acceptance by local patrons can be obtained, Regional Post Office officials said this week.

The community's acceptance of the new service will be measured in a survey to determine whether Muleshoe residents had rather have early delivery without Train 75 mail or afternoon delivery with mail from this train.

One proposal calls for the residential carrier to leave the post office at 11 a.m., and to return at about 5 p.m.

A later schedule proposed by the Post Office Department calls for departure at 8 a.m. with completion of the route by about 2 p.m.

The 11 a.m. departure would mean delaying delivery in order to distribute mail arriving on Train 75 which is due to arrive in Muleshoe at 9:30 a.m. The earlier delivery, of course, would leave mail arriving on Train 75 for delivery the following day.

Business district mail will not be affected since two deliveries a day will take care of all incoming mail as it arrives. The first business district delivery will begin at 8 a.m. and the second at 12:30 p.m.

A letter addressed to each postal patron by J. L. Pearce, Regional Installations Manager, proposes the earlier delivery as the most satisfactory, but it asks for a vote on the two.

Mr. Pearce said the experience of the Post Office Department had shown that early deliveries are more satisfactory.

"If the carrier waits for the mail on Train 75", Mr. Pearce said, "then Muleshoe's residential delivery will be in the afternoon. Dissatisfaction may be expected to develop later with this kind of delivery."

He cited the example of another West Texas community where acceptance of the afternoon delivery declined to about 30 per cent, well below minimum requirements, as the patrons grew weary of waiting until late in the day for their mail.

The 8 o'clock carrier departure time would mean that all but a few patrons on the end of the route would get morning delivery.

Acting Postmaster Arnold Alcorn said that all of the mail from this trade area arrives by truck during the night and is ready for delivery at 8 o'clock. This includes mail from Lubbock, Clovis, Amarillo, and connecting points. Train 75 carries mail from distant points.

The questionnaire included in Mr. Pearce's letter also will determine how many patrons will accept delivery at their residence and how many post office boxes will be relinquish.

The Postmaster urged patrons to return the Department's questionnaire to him as soon as possible in order that the schedule question may be settled and the new service established.

More than \$700 in prizes will be given in connection with the fiddle contest.

Entries are divided in two divisions, those over 65 years of age, and those under 65. Prizes as high as \$200 will be given.

Present world champion fiddler is Bennie Thomason of Azle, Texas.

While waiting for the tests to be processed, the "happy couple" took a "pre-nuptial visit" in The Journal Office.

Mr. Kaso, in an interview with a Journal reporter, said he had spent many years in the oil business in America and in Egypt. He said he had oil operations in a new field in Egypt, but King Farouk ousted his contract, which cost him a large sum of money. Presently, he said, he has oil holdings in Texas and Kentucky.

The bride wore a baby-blue wedding gown, with orange blossoms in her hair.

Late in the evening the necessary papers arrived, the vows were exchanged, and they proceeded on their wedding trip. The Kasos plan to make their home in Texas, with a summer home in Taos, N. M.

CHAMBER OF COMMERCE SURVEY SHOWS

Retail Business In Muleshoe Up Over Same Period In 1958

Retail business in Muleshoe was 8% higher in May this year than for the same month in 1958, according to a bulletin released this week by Carroll Pouncey, manager of the Muleshoe Chamber of Commerce.

In detail, the report states, Business conditions in general are favorable in the Muleshoe Trade Territory. Retail sales figures show a definite upsurge during May, 1959, as compared to May, 1958. Postal receipts are firm as are bank deposits. The agricultural situation, despite some gloomy spots appears optimistic and the outlook, barring sudden change, seems to be for a continued period of level trade.

Retail Sales

Based on a survey just completed, Muleshoe retailers enjoyed an average increase of 8% in May of 1959 over the level of their retail sales for May, 1958. This is heartening despite the average decline in retail sales in May as compared to January, which in some lines was as much as 15%.

Many Muleshoe retailers are attempting to better their former position, saleswise, by price promotion events and renewed effort to capture and hold a decent sales level.

Postal Receipts

Postal receipts at Muleshoe for the period ending May 29, 1959 were up by \$5,759.40 over the same period in 1958. Receipts for the current period totaled \$27,037.01 and for the same period in 1958 totaled \$20,277.61.

It must be pointed out that since the postal charges were increased in July, 1958, the above figures should not be considered an accurate comparison.

Using national averages, it must be understood that the actual amount of postal receipts increase is affected by a 17% increase due to higher postage rates. Even so, this still gives an average increase in local postal receipts of approximately \$4,781.30.

Agriculture

Despite sharp cutbacks in anticipated small grains due to heavy weather damage, the outlook still appears good at this early date far better than average harvests of cotton,

CLUBS TO HELP WITH POSTAL DELIVERY VOTE

Carroll Pouncey, manager of the Chamber of Commerce told The Journal today that members of the various civic clubs of the city have agreed to help solicit votes in the referendum on the type of postal service to be inaugurated here.

Committees will be on hand in the postoffice to ask those who enter to express their desires. The referendum will end July 2, at 5 p.m.

Rotarians Hear Story of The Pioneer Days

Guy Walden, H. H. Potter, and Charles Logan of Sudan were visitors at the weekly meeting of the Muleshoe Rotary Club Tuesday noon.

Myron Pool brought the program, telling some interesting stories of pioneer days in this country, particularly the difficulty the people in the south part of the county had crossing the sand hills getting to Muleshoe. He also outlined some of the early promotions, like Virginia City, Old Hurley and the building of the railroad. He was introduced by Paul Summersgill, the program chairman.

The club will have its annual installation of officers Tuesday night of next week in Methodist Fellowship Hall.

Lloyd C. Haney Gets Navy Rate

SAN DIEGO, CALIF.—Lloyd C. Haney, apprentice chief petty officer, USN, son of Mr. and Mrs. L. L. Haney of Route 1, Farwell, graduated June 5 from Recruit Training at the Naval Training Center, San Diego, Calif.

Apprentice petty officers are chosen from the ranks of the seaman recruits to assist Company Commanders. The selection is based on individual aptitude and leadership qualities.

Lubbock Dean Is Guest Speaker At Lions Club

C. L. Kay, dean of student life at Lubbock Christian College, was guest speaker at the weekly luncheon of the Muleshoe Lions Club Wednesday noon. He was introduced by Jeff Peeler, who was the program chairman for the meeting.

He spoke on the importance of Americanism and the dangers of encroaching socialism. One Lion member, said "that subject topic sounds rather dry" but actually it was one of the most interesting luncheon speeches I ever heard."

New Lion Bass, Owens Jones presided at the meeting. He stated he would announce his committee appointments for the coming year at next week's meeting.

Bill Shehan, the district attorney, was one of the guests. Melvin McCoy was recognized as a new member.

Local Officers Handle Twelve Cases Past Week

City and county police handled an assortment of petty crime during the past week, the records show.

City police handled four drunks. Sheriff Officers picked up two Latin girls from Clovis in company with two local Latin boys. They were discussing the possibility of filing contributing to the delinquency of minors against the boys, but the alleged offense occurred near Clovis, so Clovis authorities came after the quartet.

Other cases handled were one DWI, one charge of no drivers license, one charge of swindling by worthless check, and a juvenile charged with breaking and entering, in connection with the robbery at the John Freid Mill. A Mexican boy was held in connection with this case.

THIS WEEK In Muleshoe

By Afton Richards

A few days ago, George Dolan, in "This is West Texas" in the Star Telegram, devoted a column telling about a Stonewall County man, who died about ten years ago, that had spent almost a lifetime hunting buried treasures. It was a very interesting story. Especially was it interesting to this writer. He and I had been close friends for a number of years.

Living in a half dug-out on the banks of the Brazos River, he spent a lot of his time tunneling the hill sides, hunting for what was supposed to be a large treasure, buried in the early days by the Spanish.

This man, Frank Olmstead, committed suicide in the Aspermont hospital, while being treated for pneumonia. He stuffed his nose with cotton, and then choked himself with

the bell cord. Sheriff B. O. Hawkins was a close friend of Olmstead and had been given burial instructions. Olmstead had dug his own grave, a few yards from his shack, and asked Hawkins to see that he was buried there. The undertaker refused to bury him, since it was not an accepted cemetery, so the Sheriff and his deputy put the casket on a trailer, and hauled the remains to the grave site. When the grave was closed, Olmstead's shovel was hung on a protruding limb of a nearby tree, which formed his monument.

He was a quiet spoken little man, and I had known him several years, before I learned about his fortune hunting activities.

Recently the London Daily News had a jolly good time ridiculing West Texas College, Canyon's plans to provide built-in plugs for spectators at football games to have electric blankets.

In an editorial titled "Gad, Sir" the News chickled, "What will our friends across the Atlantic think of next?" They said "The idea is unlikely to be put into practice in this country." They continued "Football spectators in this country generally generate enough heat to keep them warm."

**Traffic Expert Advises
Keep In Step With Other Drivers
Share The Road, Arrive Alive**

"Share the Road — Arrive Alive!" In these words Major R. A. Crowder, commanding Region 5 of the Texas Department of Public Safety, today urged all motorists to support the Share the Road program of the Department of Public Safety for the July 4 holiday.

"To stay safe in traffic, the driver must be keenly aware that he's not the only one on the road," Major Crowder said. "He's just one of many drivers, so he must keep in step with the others and share the road with them", he continued.

Crowder said this involves, first of all, a willingness to share, and then the skill and judgement to do the right thing at the right time.

He gave the following rules as a guide to drivers to help them fit their driving to the pattern of holiday traffic:

1. Keep alert. Develop defensive driving. Study the road ahead for accident situations. The higher the speed the farther ahead your attention must be fixed.
2. Think ahead and plan emergency measures. Know your own and your car's capabilities. If the car ahead should suddenly block your lane, could you stop? Could you swerve to avoid an accident?
3. Be adaptable. Get the feel of changing traffic, road and weather conditions and adjust your speed immediately.
4. Pace yourself by the traffic around you. This includes noting traffic behind through constant use of your rear-view mirror. Don't race, lag, or ride the bumper of the car ahead.
5. Take only your share of the road — in the proper place. Keep in the proper lane. Pass only when you see you have ample time and space to avoid cutting in and out. Signal all turns and lane changes.
6. Obey to the letter all traffic laws, signs, signals and the dictates of common sense and courtesy. If you make a mistake, don't lose your head. Don't jeopardize yourself and others by hasty, foolishly sudden moves.

The major had a special word to say about the enforcement of traffic laws over the July 4 holiday. "Careless and reckless drivers are going to be arrested by members of the Department of Public Safety. Every available man in my command will spend extra hours patrolling not to see how many arrests can be made, but to see if a few lives

Parmer County Farm Bureau News

Rhea community has been busy the past several weeks trying to keep the grasshoppers out of their crops. It is also noticeable that they are doing a thorough job of eradicating noxious weeds, especially bindweeds. Then, last week at their regular Farm Bureau meeting, they had Bill Broadhurst out there talking to them about water conservation. Walter Schueler, chairman of Rhea Farm Bureau, has a fine group of community minded people to work with and is doing a good job of leading. It appears to us that nearly all of the people out there take an active interest in any proposed project for improving the community. They have the kind of neighborhood cooperation that many other groups covet. Nearly any meeting of interest to farm people will see a good number of Rhea people coming in together.

2.25-Bale Cotton

James B. Cox, successful young Swisher County farmer, says: "By side dressing my cotton with 80 pounds of Phillips 66 Ammonia the latter part of June, we picked an average of 2 1/4 bales of lint per acre."

"I also averaged 5200 pounds per acre of maize grain, after applying 130 pounds of Phillips 66 Ammonia. I am putting down 100 pounds of Phillips 66 Ammonia on my cotton this year, and 140 pounds on my maize."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Tax Protest Meeting . . .

(From Page 1)
show of hands, of all who were interested. About half of the people held up their hands. Then he called for a showing of hands of any who opposed the things that had been expressed.

One man standing in the door held his hand high. When he was questioned, he said he thought the sentiments expressed were out of line, and the people were ill-informed. He was Robert Blackwood, a member of the school board. At the insistence of the leaders, and with the assurance that he would be heard, he addressed the group.

Blackwood Says Program Is Sound, and Needed

He defended the actions of the school board right down the line. He said the action was taken because it was badly needed. He pointed out that he termed a gross inequity in valuations on dryland and irrigated land, showing that the irrigated land had been valued for taxes at only about \$2 or \$3 more per acre than the dry land.

He pointed out to the group that the past year the available funds were about \$10,000 less than what was required in the budget, and said that the board had appointed an appraisal board of local men to set values, and employed a firm to work out the details of the program, calling for \$5 million additional values and \$80 thousand additional revenue for the coming year.

Can't Keep Up With Growth

Pointing out the need for such additional funds, he said in 1950 there were 1200 pupils in the system, and today there are about 1800; that the school enrollment was climbing so

fast, that by the time a new building is planned and erected and ready for use, they are already over-taxed for space, and another building is needed.

He said the district was already "bonded to the limit" and that valuations must be raised before any more bonds can be sold.

He pointed out that the low grades had many more students in them than the upper grades, and this meant that year by year as these grades move up, it will require additional facilities to handle them.

Blackwood admitted to the group that the school board had been at fault in not informing the public of the schools' needs, and giving them all the information as to the status of school finances. He said this was an oversight, caused in part, by the fact that at the past four or five board meetings, they had been trying to iron out the school's insurance program, and had overlooked it.

He told the group that school books were audited each year, and the minutes of the meetings were public records, and that the board meetings were open to the public.

Upon being questioned, he pointed out that 37% of school enrollment were people of Mexican descent.

One man in the crowd asked how much of the cost of the survey was paid by Muleshoe businessmen. Blackwood explained that the City of Muleshoe and the school both used the figures, and that the City paid its pro-rata part of the expense; that no individual paid anything directly. One man in the crowd spoke

up and said he had checked the records that day, and they showed that the school paid \$5850 and the City of Muleshoe \$2500 for the survey cost.

The inference was made that the local appraisal board might have been packed with business men. Blackwood said they tried to get a fair division among farmers and businessmen, and Dr. Putman said he thought it was a fair representation.

Blackwood was asked the question, that seeing there is about a half million increase in values each year, due to growth, why this would not call for the need? He said they needed eight million; that this would help, but not enough.

When he finished speaking and left the room Lovelady thanked him for coming, and asked all persons present agreeing with Blackwood and wanted to support his views, to leave with him. Seven men got up and walked out, and a few others left later, one by one. Again Lovelady told the group that if they wanted to form some sort of a group to collectively work on the program, he would help them.

West discouraged the formal organizing, saying he felt that the very fact of their meeting would serve their cause. He said it was a "protest" meeting, and their group had expressed their protests, and in his opinion it would have its effect.

One man in the crowd made a motion that "We organize and start tonight." It died without having received a second. And the meeting dissolved, by the people getting up and walking out.

Values Used For Appraising Land

The appraisal board, the group of local citizens appointed by the school board, set a standard of values, and all new valuations were set in accordance to this program:

- Land north of sand hills, \$60 per acre.
 - Land south of sand hills, \$25 per acre.
 - Land 1 mile radius of Muleshoe \$135 per acre or 10 acres or under \$150 per acre.
 - Land 2 and 3 miles radius of Muleshoe \$100 per acre.
 - Land 4 or 5 miles radius of Muleshoe \$80 per acre.
 - Irrigation wells, 10 inch, \$1200.
 - Irrigation wells, 8 inch, \$1000.
 - Irrigation wells, 5 and 6 inch, \$800.
 - Irrigation wells, 4 inch, \$400.
 - Building and city property were set at approximately 40% of present day values.
- On the board that set these values were: George Dolan, Ross Goodwin, Buford Hunt, F. L. Shelby, George Mayo, Homer Sanders, Jr., and Ed Hicks.

For Easy Outdoor Cookery You Should Just Try Shish Kabobs

by Harriette K. Jackson
County HD Agent

A quick, easy way to prepare the main dish for a picnic or outdoor meal is to cook on skewers—"Shish-Kabobs" are delicious and different.

There are many possibilities in the making of shish-kabobs. You may have all vegetables, or alternate the meat cubes with a combination of vegetables such as tomato wedges, chunks of carrot, mushrooms, pieces of green pepper, onion, etc.

A basic "Shish-Kabob" is made with boneless meat, cut in 1 1/2 or 2-inch cubes. Beef, lamb, ham, or pork may be used.

With lamb or veal, use the shoulder or leg; with beef use the round, chuck or rump. Allow 1/2 to 3/4 pound per person.

Prepare the meat by simply brushing with lemon juice and olive oil, or marinate for 2 hours to 2 days in the following mixture: 1 part of lemon juice to 3 parts olive oil seasoned with crushed garlic, salt and pepper, and if you wish, add some thyme, oregano, bay leaf or cumin.

Now string the cubes on skewers. If you like the meat rare, push the cubes closely together. For all-around crispness, separate the chunks on the skewer. Broil over coals. It will take from 10 to 16 minutes, depending on how well done you want the food. Serve immediately.

"Eat" or Drink Some Milk Daily

You can eat your milk as well as drink it. So there really is no excuse for not getting enough of this important food daily.

Dairy foods, such as cheeses, and ice cream and dishes made with milk, can bring milk's important nutrients into your meals. Everyone needs milk. It's an excellent source of protein—the same kind of protein found in red meats. And, it's very important for riboflavin, one of the B-vitamins, as well as many other food values. Milk's major contribution, however, is calcium; it accounts for nearly three-fourths of the total in average diets. Grown-ups as well as children must have calcium to keep their bones and teeth strong and healthy. Prevent bone deterioration by supplying sufficient calcium in the diet of each person.

Adults need a minimum of 2 cups of milk a day, or other foods that give the same amount of calcium. Children need at least 4 cups. Youngsters in the family go for such combination refreshers as milk shakes, floats or other

Top 'O Texas Rodeo in Pampa August 3-8

Rodeo grounds are now undergoing a complete remodeling in preparation for the annual Top 'O Texas Rodeo in Pampa, scheduled for August 3-8. The grandstand is being rebuilt and 42 new box seats are being installed.

For the first time in the fifteen year history of the show rodeo performances will be held five nights, with the first performance on August 4 and running through Saturday, August 8.

A giant street parade on Tuesday afternoon, August 4 will be held in downtown Pampa to officially get the world's finest amateur show underway.

Dixon Rav Gets No Hit Game Tuesday Night

Dixon Rav pitched a no hitter Tuesday night to lead the Dusters to a 1-0 victory in the best game of the year. Ray was caught by Mike Connell. He did not allow a single man to get on base.

Pitching an excellent game, but losing, was Bob White, with one hit. He hit one batter, who made the difference scoring the lone run. He was caught by his brother, Gerald. Neither pitcher gave up a walk.

In an earlier game the Dusters defeated the Eagles 6-7 in an extra inning. Wayne Malone pitched for the losers the first 7 innings, the nine caught John Agee.

Leigon caught the first 9 innings. Atkinson was winning pitcher, and Mike Connell caught.

Bride's Cousin Reads Ceremony In Allison-Tunnell Wedding 18th

MRS. EUGENE TUNNELL

The Rev. J. W. Allison of Estelline, cousin of the bride, officiated at the wedding of Miss Sherry Lynn Allison, daughter of Mr. and Mrs. Gerald Allison and Dennis Eugene Tunnell, son of Mr. and Mrs. E. O. Tunnell, Jr. Wedding vows were pledged in First Baptist Church at 7:30 p.m., Friday, June 19. The Rev. Allison was assisted by the Rev. E. K. Shepherd. Escorted by her father, the

bride appeared wearing a floor-length gown of Chantilly lace and tulle over taffeta. The portrait neckline was sprinkled with iridescent sequins and the moulded lace bodice had brief sleeves. A band of lace outlined the bottom edge of the full skirt made of panels of lace and tulle.

A tiara of pearls and sequins caught her elbow length veil of silk illusion, and her bouquet was stephanotis centered by a white orchid.

Miss Nan Allison, cousin of the bride, was maid of honor, and bridesmaids were Mrs. Susan Allison Millsap, cousin of the bride, and Misses Sadie Weeks, Janelle McGuire, and Melba Johnson. They wore identical gowns of white Swiss organdy over taffeta with scooped neckline, brief sleeves, and a midriff of yellow taffeta. Their bouffant waist-length skirts were decorated with yellow floral designs, and they wore yellow headpieces.

The maid of honor carried an arrangement of white gladiolus on a yellow and white fan, and white carnations arrayed on yellow fans were carried by the bridesmaids.

Candlelighters were Sandra Allison and Polly Briscoe, and Miss Alva Lee Shofner sang as Miss LaVon Copley, organist, accompanied.

Masculine Attendants
Don Randolph of Earth served as best man, and the bridegroom was attended by his brother, Jerry Tunnell of Littlefield; brothers of the bride, Jim Allison of Lubbock and Winston Allison; and Buddy Pool. Ushers were Ken Angley and Larry Tunnell, the bridegroom's brother.

Hostesses at the ensuing reception were Mrs. Jim Allison, Miss Naomi Watson and Miss Gwen Williams.

Mr. and Mrs. Tunnell will be at home near Earth where the bridegroom farms, following their wedding trip to Colorado.

The bride is a 1959 graduate of Muleshoe High School and her husband attended Springlake schools.

Marilyn Aduddel Is Honored With Bible Ceremony

On Sunday June 14, a white Bible ceremony for Miss Marilyn Aduddel, bride-elect of Kirby Carrell was given by the Youth Women's Auxiliary at the Lazbuddie Baptist Church.

Mrs. Walter Broadhurst and Mrs. Allen Grusendorf decorated the room with the Y. W. A. colors, green and white.

The program was conducted by counselors, Mrs. Alton Morris, Mrs. Bill Curry, with Mrs. Wesley Barnes assisting. The following were on the program: Geraldine Broadhurst, reading "Bless This House", accompanied by Donna Redwine, along with them were Marie Houston, Maudine Barnes and Lois Vanlandingham, reciting Psalms 119:105. Refreshments of green punch and a ring cake were served by Marie Houston and Maudine Barnes.

Guest were: Mr. and Mrs. John Aduddel and Marsha, Mr. and Mrs. Thomas Carrell and Peggy, Mrs. Bill Curry and children, Mrs. Wesley Barnes and children, Mrs. Alton Morris and children, Clyde Redwine, Jerry Don Glover, and Tommy Sullivan.

Double Ring Ceremony Unites Hutton-Parkman

MRS. FREDDIE WAYNE PARKMAN

Miss Betty Sue Hutton became the bride of Freddie Wayne Parkman in a double-ring ceremony Sunday at 4 p.m. at the Enoch's Church of Christ with Leon Kessler officiating.

Parents of the couple are Mr. and Mrs. Horace Hutton of Three Way and Mr. and Mrs. C. W. Parkman of Bula.

The church altar was decorated with an arch covered with white wedding bells and satin bows, flanked on either side with baskets of pink roses and greenery with 28 cathedral tapers in the background. The white carpeted bridal aisle ended at the white satin kneeling bench. The pews each held large white bows.

The bride, given in marriage by her father, wore an original gown of imported French Chantilly lace and tulle over net and bridal satin. The elongated bodice was designed with an scalloped neckline embroidered with iridescent sequins and seed pearls. The long pointed sleeves were also edged with pearls. The bouffant skirt was inset with a panel of tulle ruffles accented by an overlay of scalloped lace which swept into a cathedral train. Her trailing veil of imported silk illusion fell from a tiara crown of pearls and was carried by Beverly Chisholm of Sudan, niece of the bridegroom.

The bride carried white orchids and stephanotis on her Rainbow Bible. For something old she wore her mother's wedding band, something new were the pearls given by the bridegroom, something borrowed was a white handkerchief from Paula Kindle, for something blue a garter, designed by Virginia Klutts, and for luck she wore a six-pense

in her left shoe and a dollar bill in her right shoe. Maid of honor, Miss Virginia Klutts, and bridesmaids, Misses Paula Kindle of Maple, Waneta Hutton, cousin of the bride of Shallowater, Shirley Lee, cousin of the bride of Cotton Center, and Mrs. Wayland Altman of Muleshoe, wore identical dresses of pink silk organza, styled with bubble skirts sprinkled with satin bows and seed pearls. Headpieces and mitts of tulle, pearls and sequins were designed especially for the occasion by Mrs. Jack Lowe. Ivory fans adorned with a single rose completed their ensembles.

Terry and Sharon Hutton were candlelighters. She wore a floor-length dress identical to the bridesmaids with a similar headpiece and mitts. Flower girls were Carol Ann Chisholm and Barbara Parkman, nieces of the bridegroom. Randy and Patricia Parkman were ringbearers, using a satin pillow and cane. The girls wore identical dresses of pink with pink headbands and white gloves.

The Morton Rainbow Assembly, of which Betty is past worthy advisor, formed an a capella choir. Denise Rose of Morton sang "Oh Promise Me" and "Whither Thou Goest." Bill Gibson of Brownwood sang "The Wedding Prayer" as the couple knelt and also "The Lord's Prayer."

Bobby Foley of Littlefield served as best man, John Henry Parkman of Littlefield, D. V. Parkman of Levelland, brothers of the groom, Jimmy Foley of Littlefield and Durwood Chisholm of Sudan served as groomsmen.

of Sudan ushered.

As the bride came down the aisle she stopped to give her mother a rose and a kiss and as she was leaving she stopped to present the groom's mother with a rose and a kiss.

Mrs. Hutton wore a champagne lace dress over ivory satin with bone colored accessories, a brown velvet hat and a brown orchid corsage. Mrs. Parkman wore navy with matching accessories and a corsage of pink roses.

Nan Johnson of Goodland registered the guests.

At the reception in the bride's home following the ceremony, the table was laid with a fluffy pink net cloth over pink satin. A five tiered wedding cake topped with a miniature bridal pair and crystal appointments with favor matches saying "Betty and Freddie, June 14", completed the decorations. Miss Gayle McCelvey of Stegall and Mrs. W. A. Hardin of Earth served the guests.

For the wedding trip to Cheyenne, Wyo., the bride chose a taupe suit of light weight wool with brown lizard accessories and a picture hat of red velvet. Her corsage was the orchid from her bridal bouquet.

When they return they will be at home on Park Avenue in Littlefield.

Parkman attended the Sudan schools and is now employed at the Littlefield Butane Co.

The bride graduated from Three Way High School in May. She was basketball captain, head cheerleader for the Eagles, most beautiful senior and president of the 4-H club. She received her state home-makers degree in Dallas in April.

MULESHOE

Assembly Of God Church Scene Of Totten-Jones Wedding June 14

MRS. JAMES RAY JONES

(Photo by Cline Studio)

Miss Theresa Ann Totten, daughter of Mr. and Mrs. Harvey Totten was married to James Ray Jones, son of Mrs. Ray Jones, June 14 in the Muleshoe Assembly of God Church. The Rev. R. V. Luna read the double-ring ceremony.

The bride entered the church on the arms of her father. The church was decorated with candelabra and white glads. Maid of honor was Ruby Kay

Simmons of Muleshoe. Bridesmaids were Gloria Pearson of Canyon and Shirley Jones of Muleshoe. Jacky T. Debrew of Crosbyton served as best man.

Flower girls were Debbie Wagnon of Lubbock, and Rhonda Bland of Muleshoe. Dennis Pearson of Canyon and Judy Jones of Muleshoe were ring bearers. Ronnie Black and Don Taylor both of Muleshoe were ushers.

Bonnie Luna played traditional wedding music and accompanied Mrs. Delbert Sprayberry, soloist.

The bride wore white lace over taffeta, with a high neck and long pointed sleeves. Her attendants wore blue taffeta with blue net.

The reception was held in the home of the bride's parents, following the ceremony. Assisting in the hospitalities were Jackie Debrew and Ruby Kaye Simmons.

The bride's mother wore blue floral nylon over taffeta, and a white carnation. The bridegroom's mother wore green floral cotton, and a white carnation.

For something old the bride wore her grandmother's pearls. Her wedding dress served as something new, she carried a white borrowed Bible, and wore a blue garter.

On a wedding trip to Canyon and Amarillo, the bride's traveling ensemble was a seina beige suite with white accessories.

Both the bride and groom are graduates of Muleshoe High School. They will be at home in Muleshoe where he is employed at Cashway Grocery.

Mr. and Mrs. Allen Williams and Mr. and Mrs. Freddie Parkman were honored Thursday afternoon, June 18 with a miscellaneous wedding shower.

The shower was given in the home of Mrs. Fred Locker. Hostesses assisting Mrs. Locker were: Mmes. H. G. Thompson, E. O. Batteas, Janie Green, C. S. Hogue, A. M. McBea, A. C. Archer, Edd Crume, DeWitt Tiller, C. M. Tidwell, and Carl Burns.

The serving table was covered with a pink linen cloth centered with a bouquet of pink and white roses.

Misses Patricia Locker, Elaine Tiller and Donna Crum served strawberry punch and white cake squares to 42 guests besides the hostesses.

Hostess gift to both Mrs. Williams and Mrs. Parkman was an electric blanket and sheets.

Mrs. Williams was formerly Miss Shirley Williams of Morton, and Mrs. Parkman was formerly Miss Betty Hutton of Three Way. Both Mr. Williams and Mr. Parkman are from the Bula community.

Sour Cream Make Tasty Chicken Casserole

Sour cream continues to rise in popularity with homemakers, says the Texas Extension Service.

Now, when so many retailers are featuring sour cream at bargain prices, try this recipe for chicken and sourcream. Rub salt and pepper into the skin of a disjointed broiler or fryer. While this is flavoring, saute chopped onions in hot fat. Sprinkle generously with paprika. Use enough to give the onions a brilliant color. Add just a suggestion of vinegar.

Brown the seasoned chicken in the onion mixture. Then cover tightly and simmer until chicken is fork tender. Remove the chicken from the pan and add flour to the drippings. Stir until uniformly thickened.

Then add equal parts of tomato juice and sour cream. About a half pint each will cover one chicken well. Blend until creamy.

Place chicken in the sauce. Cover tightly and simmer about 10 minutes. Serve hot.

Use this recipe for individual casseroles featuring a breast of chicken for each guest.

1500-pound Increase on Grain Sorghum

Frank Stanton, successful young Hale County farmer, says: "By chiseling in 85 to 100 pounds of Phillips 66 Ammonia as a side dressing, I increased my maize yield 1500 pounds per acre. This represents a \$4 profit on every \$1 invested in ammonia."

"This proved to me that using Phillips 66 Ammonia is profitable. I am using it on both my cotton and grain sorghum land this year. There are not many investments I know that will return 4-for-1."

Other successful Southwestern farmers have discovered that they make more profit per

acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin . . . yields of sorghum grain or ensilage are increased . . . profits on wheat and small grains are increased through higher grain yields and improved forage . . . more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied as a side dressing either by you or your distributor. See us today for your supply of Phillips 66 Agricultural Ammonia . . . it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Babson Discusses . . . INVESTMENTS AND FALLOUT

Babson Park, Mass., June 25 — I try each year to visit all sections of the country. Last week I went to New Mexico and Arizona to study the possibilities of investing in large acreage, but something was called to my attention of which I will write this week.

What Is Fallout?
There are always certain amounts of Strontium-90 in the atmosphere, but usually not to any dangerous extent. Every nuclear test, however, produces more Strontium-90. Hence, there is a strong movement to suspend further nuclear tests. Even Russia pre- tends interest in doing so. The reason for this is that the contamination of the atmosphere by these tests is cumulative; that is, it does not pass away for a long period of years. Thus, Strontium-90 keeps on building up to a dangerous amount.

Just now there are differences of opinion between the Atomic Energy Commission and the U. S. Public Health Service as to the danger of this fallout. All parties agree that it can become very dangerous, but they disagree as to the amounts. The medical profession believes that sufficient amounts may cause cancer of the bones, leukemia, and certain other incurable diseases, as well as sex changes. It may be absorbed by children and not mature to a dangerous disease until some years after.

Every State Has Advantages and Disadvantages

In my years of travel I have been unable to decide which of our 49 states has the most advantages. If I were able to choose which of our states I would prefer to have been born and brought up in, I would be unable to make a selection. The South has a warmer climate, which I certainly enjoy in winter; New

England is the place I like in summer, although we have hot days here; while the Central States, the West, and even the Pacific Coast have their distinct advantages.

Even the differences in rainfall among the various states create advantages and disadvantages. The normal rainfall for most of the states is 40 inches or more a year, while for New Mexico and Arizona the normal annual rainfall is only about 6 inches. This is a great handicap for agriculture which can now be carried on only by expensive irrigation. I, however, was told something in this connection which I desire to pass on to readers this week. That is that the states subject to the lowest annual rainfall are those which would be freest from fallout danger.

The same mountains which surround New Mexico and Arizona and prevent the rain from falling in those states will also, I am told, prevent the fallout from settling in any serious amount. Thousands now afflicted with arthritis, bursitis, and similar rheumatic difficulties are flocking to these states for the dryness of the atmosphere. If the above theory about fallout is true, the population of New Mexico and Arizona and other states with very little rainfall should rapidly multiply.

No Defense Against Fallout

For cities in the East, South, and Central West, there is no known defense against fallout. The Civil Defense Authority is experimenting with evacuation of cities and the use of basements and other protections from the immediate crash of the bomb when it falls. An atom bomb would immediately slaughter people within five miles of the point of the explosion. The fallout, however, might not occur for some days after the bomb exploded. Furthermore, the direction of the wind is an important factor in the damage caused by fallout. Of course, if a bomb should be "dropped" in New Mexico or Arizona, and fallout would be as dangerous there as anywhere else, but probably this would not occur.

Let me close with one interesting fact: That the oldest continuing occupied city in the United States, namely Oraibi — which dates from more than 1000 years ago — is in Arizona; the cliff dwellers of Walnut Creek lived near

Sandhills Philosopher Offers Advice To Washington Officials Who Don't Have Time To Think

Editor's note: The Sandhills Philosopher on his Johnson grass farm probably is misinterpreting the news again, or at least twisting it around to fit his own convenience, his letter this week indicates.

Dear editor:

President Eisenhower was making a speech in Washington the other day and he said one of the troubles many of the men in government have encountered is the lack of time to do enough thinking. "High officials of government tell me they don't have enough opportunity for contemplation," he said, and announced he was going to try to figure out some way to remedy this. I am afraid though he is going to run into some snags. Take the high officials in the State Department, the ones concerned with foreign policy. Now if I had the job of studying about the present state of the world and figuring out an answer, I believe I'd get too busy doing something else to think about it too. For six weeks now the foreign ministers of the leading nations of the world have been meeting in Geneva to try to figure out what the leaders of the world's governments could talk about at a summit

meeting. So far they haven't gotten anywhere, every time they bring something up, Russia throws a monkey wrench in it, and it's at a time like that, if I was over there, I'd get too busy to think too.

When you stop and consider what would happen to the world if an atomic, hydrogen, chemical, bacteria war broke out, it's not hard to get so busy doing something else you don't have time to think about it.

I have hit on a system out here on my Johnson grass farm however which might come in handy to high government officials. When I have a knotty problem facing me, like going up one row and down another on my tractor, I find I'd rather think about it than do it. A lot of people think I'm lazy because I let my farm run down, but me and President Eisenhower know if the world needs anything it needs more thinking.

I guess there are some people who haven't got time to think, but frequently when a man doesn't think, it's not for lack of time. Thinking is hard work and you're not going to catch me taking the easy way out riding a tractor under a hot sun.

Yours faithfully,
J. A.

Congressman Mahon . . .

REPORTS FROM WASHINGTON

This report is about agriculture.

Cotton: There are several items of interest. Certain railroads have instituted action to reduce freight rates on cotton. I have joined with others in asking that this benefit be passed on to cotton farmers in slightly higher purchase and loan rates than those announced by the Department. I believe this will be done in the near future. This may mean about a million dollars to West Texas producers.

Government Loan Limitations: Amendments to farm bills have passed both the Senate and the House which would fix limitations on government loan and purchase programs at \$35,000 to \$50,000. I have opposed these provisions. If these provisions should be enacted into law as here 1200 years ago while the more progressive Navajo Indians were centered in and about Northern Arizona. It seems strange, although entirely possible, that the great cycle of population for the United States may come back to Arizona where it started over 1000 years ago. In case Oraibi — which dates from more than 1000 years ago — is in Arizona; the cliff dwellers of Walnut Creek lived near

now written, all farmers, in my judgement, would be affected adversely as a result of the over-all consequence of such action. Quite a large number of West Texas farmers would be affected adversely on a direct basis.

Compromises are being sought which would soften the limitation proposals. One proposal would give any farmer unlimited access to the loan, but would provide that the limitation could not be exceeded at the time the title to the pledged crop is taken over by the government. Details of what may happen are not yet clear, but there is every indication that some limitations on loans and payments will be provided by law.

Wheat: The House and Senate have passed wheat bills. Agreement between the House and Senate on a final version of the legislation has not been reached. A compromise version raising the support level from 75% of parity to 80% and providing for an acreage cut of 20% has been voted down by the House.

Further efforts to agree on a bill to send to the President are under way. The outcome is uncertain. There is the threat of a veto by the President if the support level is increased, even if accompanied by a sharp acreage reduction.

Milo: There is nothing new on the grain sorghum front. There is still no limit on plantings and the announced support level is 60% of parity. 10 parity points below the support of last year. The support price will be about 31 cents per hundred below last year.

General Farm Legislation
Everyone seems to agree that the entire farm program needs to be substantially overhauled. It now appears that this will not be done at this session. The groundwork is being laid and agreements are being

sought which would make possible a major overhaul job next year.

Farm Labor: Hundreds of letters from West Texas farmers indicate serious concern over the proposal that minimum wages be established for farm labor. Farmers complained that they cannot raise wages in the face of dwindling income. Their concern is well-founded.

It continues to be true that there is no likelihood that Congress will pass at this session any of the pending bills fixing minimum wages for farm labor. However, the Secretary of Labor advocates minimum wages for farm workers and he has not backed down from his position that he can, under existing law, in effect fix minimum wages and establish standards of employment for farm labor recruited through the United States Employment Service across state lines. He has referred the issue to the Attorney General. Briefs have been filed in opposition to the Secretary's contention. The matter has been before Attorney General Rogers for many weeks, but he has not acted.

As to **Bracero labor**, indications are that the program will operate about as it did last year. Final negotiations on the new agreement with Mexico are now underway. The two-year extension of the law becomes effective July 1, 1959.

Across The Years

The "Across the Years" editor has run across some old pictures which he thinks were made during the flood times of 1941. He says if anyone knows better they should notify The Journal.

Top photo, taken from the top of the water tower shows Muleshoe, the photographer facing toward Sudan. Note the Santa Fe train in the distance with heavy smoke coming from the engine. Bet that old fireman was busy.

The picture in the center is taken from the tower and gives a view down Muleshoe's main street, which doesn't look like the present street too much.

In the bottom photo the view is toward the present grade school, then the Muleshoe high school.

Chevy Gives You Smarter Style Today...

FOR HIGHER TRADE-IN TOMORROW!

Don't take it from us—take it from independent experts and from facts and figures that are now a matter of record. POPULAR SCIENCE sums up Chevy's unmistakably modern style this way: "The fact is, in its price class Chevy establishes a new high in daring styling..." This is one more reason your new Chevrolet will bring a higher allowance at trade-in time, as Chevy has over the years. A look at last year's used car prices* shows Chevrolet averaged up to \$128 more than comparable models of the other leading low-priced two.

*Guide Book figures of the National Automobile Dealers Assn.

PLUS 5 MORE BIG BESTS OVER ANY OTHER CAR IN CHEVROLET'S FIELD!

Best Brakes. Chevy showed the best brakes of the leading low-priced three in repeated highway speed stopping tests conducted by NASCAR.* No wonder. Chevy's brakes, built for up to two-thirds longer lining life, are the biggest in its field.

*National Association for Stock Car Advancement and Enthusiasm.

Best Engine. Every motor magazine has given Chevy's passenger car and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

Best Economy. No doubt about this: a pair of Chevrolet sixes came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car.

Best Room. Dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room is up to 5.9 inches wider than comparable cars.

Best Ride. No doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR!

Look at the difference made by NEW JOHNSON GRASS CONTROL!

Pictured above is the Otto Steinberg Farm, Plainview, Texas. The cotton on the left received one application of ORTHO C-56 Johnson Grass Control plus one hoeing and three cultivations. The crop on the right received three hoeings and three cultivations but no ORTHO C-56 Johnson Grass Control.

Grower of the crops pictured above, Farm Manager Jim Williams, says: "ORTHO C-56 really did a job on Johnson grass in our cotton last year. One application saved us two hoeings. This year I plan to follow up the first treatment with two lighter dosages and eliminate hoeing completely."

ORTHO C-56 JOHNSON GRASS CONTROL — a new powerful oil spray additive!

When mixed with kerosene or fuel oil, ORTHO C-56 dissolves the waxy coating of the plant and aids penetration into the plant tissue. It has no systemic or residual effect, therefore eliminates danger of incurring soil sterility. Apply by spot treating method using Texas blade and jet gun, slide gun or gravity-flow sprayer. Ideal results obtained when applied during seedling stage, before young shoots are 6 inches tall. However, Johnson grass can be controlled in all stages of growth with ORTHO C-56.

New Benefits Now Available Under Social Security

Changes in the social security law may now make some people not previously entitled, eligible for parents benefits. John G. Hutton, manager of the Lubbock Social Security office said this week.

Parents who were dependent on a deceased son or daughter may now qualify for benefits, even though the deceased was survived by a widow, widower, or children. Before this change, if a deceased individual was survived by a spouse or child, the dependent parents could not qualify.

In order for a dependent mother, age 62 or over, or a dependent father age 65 or over, to qualify for benefits, they must prove that they were dependent. This proof must be filed with the social security office before August 1960, or within two years after the date of the son or daughter's death.

If you were denied dependent parents benefits because your son or daughter was survived by a spouse or child you are urged to contact your social security office as soon as possible.

A representative of the Lubbock Social Security Office will be in Muleshoe on July 2, 1959 at 9:30 a.m., at the County Courthouse and will be glad to assist in all matters pertaining to Social Security.

Employ Safety Measures In Use Of Outdoor Fire

Do you have a yearn to have a family picnic in the backyard? Most families do this time of year. But you should remember to observe the rules of safety when cooking on an outside fire. An accident could ruin a good picnic or barbecue. When starting an outside fire, never use gasoline or any type of gasoline mixture to kindle it, and never add any kind of liquid fuel after the fire is started.

There are several good ways to start a fire. Use paper or excelsior under the briquettes. It takes a bit of time but produces results. Some of them are treated where they burn readily when started.

Kerosene may be used, and is excellent to start a fire. Some people like to soak a few of the briquettes in kerosene, and then light them.

Whether your grill or pit is located in the backyard, a lakeshore or recreation area, make sure it is located in an open space well away from buildings and trees.

Remember the first B in barbecue stands for "be careful."

riding with and observing patrolmen actually on the job of law enforcement.

Upon completion of their field work, they will return to the Academy in Austin for three more weeks of specialized work pointed directly to the service for which they have been selected — Highway Patrol, Drivers License, License and Weights or Motor Vehicle Inspection.

Upon graduation from the Academy in an impressive late-July ceremony, the men will report to their assigned headquarters and enter a six-month probationary period.

During this period—a variety of on-the-job training—they will be assigned to work with experienced officers who will "show them the ropes". When this phase has been completed, they will be assigned specific jobs as full-fledged Texas Department of Public Safety patrolmen.

Qualifications to enter the school are that a man must be 21-35 years of age, in sound physical condition, a resident of Texas for at least one year immediately prior to applying, a high school graduate, and must successfully complete a written examination plus an oral interview.

Benefits include a two-week vacation annually, 18 days per year of sick leave, a group plan of life insurance and hos-

pitalization, and a State retirement system. Equipment is furnished, including uniforms, guns, and vehicle. Military reservists are permitted to serve their annual two weeks on active duty with pay, in addition to their regular vacations.

Next examinations will be held September 15, 16, and 17. Applications for this examination must be received by the Department's Personnel and Training Bureau in Austin no later than September 7.

Mr. and Mrs. A. H. Wilson of the Lazbuddie community, became great grandparents on May 31, when a little baby girl, Glenda Laverne, came to

make her home with their grandson, Leon Robertson and wife, Ardith in Amarillo. She has four grandparents: Mr. and Mrs. David Robertson and Mr. and Mrs. R. L. Matthews of Amarillo; five great grandparents, Mr. and Mrs. R. N. Matthews, Amarillo; Mr. and Mrs. A. H. Wilson, Muleshoe and Mr. J. M. Glover, Tyler, Texas, and one great-great grandmother, Mrs. A. H. Wilson, Oklahoma City.

Every ten days the world's population increases by one million people.
