## Parade Is Set For Christmas

"Christmas in Song" is the theme of the Christmas parade to be staged in Tahoka on Saturday, Dec. 8, along with other events sponsored by the Chamber of Commerce, including an official visit from Santa Claus.

Beginning at 2:30 p. m., the parade will be led by the Lubbock Christian College Band and will include several other area bands, as well as the Tigerettes from Frenship.

Don Browning, who is directing the parade, states that 12 floats had entered the parade on Tuesday and each will bear the title of a Christmas song, and will be decorated in keeping with the following songs: "White Christmas," "Winter Wonderland," "Jingle Bells," "Twas the Night Before Christmas," "Frosty the Snowman," "Christmas Tree," "Away in the Manger," and "Hark! The Herald Angels Sing." Some of the entries have not notified the Chamber of their float titles.

Among those entering are the Junior Class, First Methodist Church, First Baptist Church, staff of "Teen Talk" publication of the Church of Christ, Special School, Pythian Sisters, Rainbow Girls, Girl Scouts, Brownies, Rotary Club, Jaycees and others.

At the conclusion of the parade a chorus made up of Tahoka's young people will sing carols at the court house square under direction of James Hollars, educational director of the First Baptist Church.

Preceding the parade, at about 2:00 p. m., and immediately following the singing, an airplane will drop gift certificates and merchandise certificates over the town.

Tahoka Jaycees, in addition, will throw turkeys off the top of the court house to the persons below.

Browning states that all businessmen are encouraged to enter the parade or participate in the Christmas event in some other way.

### Cotton Ginnings Past 35,000 Bales

Rain Sunday night amounted to only .33 in Tahoka, but parts of the northern half of Lynn county received up to two inches. Fall was lighter to the south. Cotton harvest has since been delayed by fog and heavy dews.

Cotton ginnings in Tahoka totaled 6,504 bales up to Thursday morning, and The News estimates the county's ginnings to date at between 35,000 and 40,000 bales.

### Decorations Up For Christmas

Downtown Tahoka Christmas decorations are being completed this week by the Jaycees and Tahoka Chamber of Commerce in a do-it-yourself program that is proving effective.

Cedar wreaths with red bows line the streets, being sold by Jaycees at \$2.00 each to businessmen. Jaycees are making the wreaths nights in the building contributed by Mrs. I. I. Gattis from cedar contributed by C. O. Carmack ranch.

The decorations program was underwritten by the C. of C. to guarantee the Jaycees a minimum of \$300.00 for the project. New wire has also been bought by the C. of C. for the Christmas light streamers on the court house square.

Business houses not already contacted may call the C. of C. office or make arrangements with Jaycee members for the wreaths at \$2.00 each.

### Negro Will Die In Electric Chair

Bennie Lee McIntyre, 19-year old Negro who was found guilty on May 19, 1961 for raping a young white woman, has been sentenced to die on Dec. 21 by District Judge Truett Smith in Lynn County District Court.

When found guilty of rape, McIntyre received a death penalty verdict.

The Court of Criminal Appeals affirmed the district court jury verdict in March of this year and the U. S. Supreme Court denied a writ to hear the case Nov. 4.

He was found guilty of entering the home of the woman at her farm southwest of Tahoka while husband was in town and committing the act for which he was charged.

### Holden Infant Dies At Birth

### O'Donnell Holding Turkey Shoot

O'Donnell Lions Club is sponsoring a turkey shoot this Friday and Saturday just north of that city and north of the US 87 intersection.

Funds raised will go to the club's fund for underprivileged children, states Wayne Clayton.

Mrs. Clayton Beard was an overnight patient in Tahoka Hospital Sunday.

Second dose, Type II, of Sabin Oral Vaccine will be given Lynn county people this Sunday, Dec. 2, beginning at 1:00 p. m. and continuing until 5:00 p. m. in the school cafeterias of Tahoka and O'Donnell.

More than 9,500 people took the Type I vaccine a few weeks ago, when the clinic locally was held in the City-Legion building. The site has been moved to the school cafeteria, where people may get in line out of the weather in the corridors of the school.

Type III Sabin vaccine will be given on January 13.

This Friday night, Nov. 30, at 7:00 o'clock all workers are requested to meet at the school cafeteria for a practice run of the program.

The program is sponsored by Lynn county physicians, Dr. Emil Prohl and Dr. Skiles Thomas of Tahoka, and Dr. Noble Rumbo of O'Donnell, the National Foundation, and hospital staffs. Virtually every civic organization, school, and church of the county is cooperating.

Farmers are especially requested to make sure their employees, and members of employees families are told of the program and arrangements made for them to take the second dose.

Parking space will be available for the aged and infirm unable to come in the building. Personnel will be on hand to bring vaccine to these folks.

Bedridden people in Tahoka who can not leave home may receive the vaccine if they will call 8-4433, White Funeral Home, and give name and correct address.

Babies will be given the vaccine in eyedroppers.

More than 57 percent of all the polio cases in the entire United States this year have been in Texas, which makes it even more important that Texas lead the nation in polio immunization.

This year, through Nov. 17, there had been 236 cases of polio in Texas, compared to only 73 last year to the same date. Of this total, 178 this year have been of the paralytic type, compared to 32 last year. There have been 58 cases of non-paralytic polio so far this year in Texas, compared to 41 last year. These figures are from the Texas Department of Health.

"Preventing fire before it starts is better than having to fight fire after it starts," Dr. Prohl declares.

Polio can be virtually eliminated in Lynn county now if citizens will take Type II and Type III doses.

Not quite as many as the 9,500 are expected to take the second dose in Lynn county, due partly to the fact that some people have gone to Lubbock or Post for the Type II dose. However, everyone should take the dose, doctors say. Even those who failed to take dose one, may start now with dose two.

A marked amount of enthusiasm has been demonstrated by all people contacted in the continuation of the program.

Start of the immunization program Sunday at 1:00 p. m. will be marked by sounding of the fire siren in Tahoka.

### Mrs. Allsup In Lubbock Hospital

Mrs. Lewis Allsup, who has been a patient in a Houston hospital for many weeks, was transferred to West Texas Hospital Wednesday by a White Funeral Home ambulance. Mrs. Allsup underwent surgery while in Houston, but has improved and was able to return to Lubbock.

Open ditch or portable pipeline used to convey irrigation water results in a loss of water due to evaporation, seepage and leakage.

Many cooperators have come to realize that these losses are expensive. They are replacing their ditches or portable pipe with underground pipeline. William Harris has added an additional 1000 feet on his farm north of New Home. Another 1000 feet has been installed on Mrs. Ophelia Wilson's farm and Graver Coleman of the Wilson area has installed about 600 feet. These are just a few that are reorganizing their irrigation systems by installing underground irrigation pipe.

The predominant irrigation system in the district is furrow. Not all of the land is suitable for this type because of the soil. Such as the case of W. R. Cox. Mr. Cox plans to install a sprinkler system on his sandy land farm located in the New Moore area. Approximately 5000 feet of high pressure underground line will be installed as part of his designed system.

Mr. Cox has received technical assistance from the Soil Conservation Service in designing his system and cost share through the Great Plains Conservation Program for his irrigation pipeline.

An overnight patient in Tahoka Hospital Sunday was June Riddle.

## Tahoka Winner At Crosbyton

Tahoka Bulldog basketball teams made a clean sweep at Crosbyton Tuesday night as the boys opened their season, winning three games.

The Bulldogs took a 53-36 victory, the girls won by 29-12, and the "B" boys cleaned up with a 40-12 score.

Next Tuesday night, following the Tahoka tournament, the "A" and "B" girls and varsity boys go to Sands for games beginning at 5:30 p. m.

Coach Jake Jacobs' and Milt Fitts' varsity team showed a well-rounded organization in the scoring division at Crosbyton with three boys hitting in double figures. Tony Spruiell led with 13 points, Craig Leslie was right behind with 12, and Billy Clinton made 10. Allen Cox scored eight. James Cooper made 15 points for the Chiefs.

The game was close during the first half, the Bulldogs leading by 14-10 at the end of the first quarter and 26-22 at the middle mark. Crosbyton was unable to keep up the pace and fell further behind 41-23 at the end of the third. Also seeing action were Jerry Forsythe, Billy Miller, Macky McWhirter, Adolph Chapa, all scoring, as well as Billy Wallace, Eddie Howard, Jose Cervantes and Ronnie Reed.

Tahoka girls, coached by Marsha Scoggin, took an 8-2 first quarter lead and jumped to a 15-4 halftime score. Third period score

was 23-8.

Linda Thomas took scoring honors with 13 points, Louella Tomlinson made five, Marlene Fitts and Carolyn Howard, four each, and Carla McNeely three. Judy Connolly also saw action as a forward and holding down the Crosbyton scoring at guard positions were Sharon Drager, Jerre Wyatt, Elwanda Tekell, Anda Sue Carroll and Marlene Fitts.

High point scorer for Crosbyton was Suzette Gallimore with six points.

The "B" team had no trouble with its opponents, leading by quarters 9-5, 25-6, 33-8 and 40-12. Eddie Howard and Macky McWhirter made 10 points each. Jose Cervantes and Terry Harvik, seven each. High points for the losers was Blagg with seven.

## T-Bar Club Ladies In Dinner Meeting

The T-Bar Ladies Golf Association held a Thanksgiving dinner here Tuesday of last week when 20 ladies were served ham and sweet potatoes.

The group voted to buy a record player for the club house with the help of the two Country Club bridge organizations.

Since the Country Club is in need of a gang mower to pull behind a tractor, the ladies have set aside \$150.00 to apply on the purchase of such.

## Junior Teams Win 4 Games

Tahoka's four junior basketball teams won games over Frenship there in this season's starters on Monday night. Eighth grade boys won 47-37, eighth girls 24-8, seventh grade boys 25-9, and seventh girls 32-12.

Next Monday night Abernathy's seventh and eighth grade teams come to Tahoka, with the first game beginning at 5:30 p. m.

**Eighth Boys**  
Coach Gilbert Hough's eighth grade boys held a 24-15 lead at halftime and continued to control the game during the second half to win 47-37. Mitchell Williams chalked up a big 23 points, and Adolph Chapa added 11, but was most outstanding on the backboards, taking about 15 rebounds. Milton Edwards made six points, and the team was greatly aided by Milton Miller's ball handling and floor work.

**Eighth Girls**  
The eighth grade girls, coached by Marsha Scoggin, had no trouble winning their game 24-8 after leading 17-4 at halftime. Gail Dykes took scoring honors with seven points, Leah Short made five, and Sue Woodall and Jill Edwards made four each. Outstanding defensive action was displayed by guards Maria Bray, Teress Mason and Paige Verner.

**Seventh Boys**  
Seventh grade boys under tutelage of Coach Milt Fitts, pounded Frenship 25-9, leading all the game and at halftime 14-6. Cliff Thomas poured in 13 points and Gary Brooks added six as well as doing a good job rebounding. John Tyler was credited with three points, Richard White two, and Buz Owens one. Also looking good in the team's first game was Chris Roberts.

**Seventh Girls**  
Mrs. Irene Spears' seventh grade girls took a 16-1 lead in the first half of play and doubled their score in the second to win 32-12. Quaydene Pool found her range in the third quarter to make 11 of her 13 points and Brenda Drager was close behind with 10. Loretta Webb made four while Debi Thomas and Linda Spears each made two. Doing a very good job as guards were Frances Chapa and Beverly Falls.

Nearly all players on the four teams saw action and many others looked very promising for Tahoka's future.

John and Fred Hegi, sons of Mr. and Mrs. Pete Hegi, were home over Thanksgiving. John is a student at Baylor University and Fred attends Southern Methodist University.

Kind words never die—they just become victims of ingratitude.

## Football Players Honored At Dinner

The Bulldog Mothers Club honored the senior football players, along with the 1962 football team, at its customary dinner following home game Friday night, Nov. 16, after the Seagraves-Tahoka game.

A skit, giving the predictions of the future of the senior players, was presented by Mrs. A. M. Bray and Floyd Tubbs. The high school combo provided music for the event.

Coach Gilbert Hough spoke to the boys, as well as Jake Jacobs, and both expressed their appreciation to the team for their performances this year. Larry Price added the team's appreciation to the football coaches, Hough, Dave Easterday and Milt Fitts.

The table, reserved for the seniors, was decorated with miniature blue and white footballs bearing the names and numbers of the players. Miss Jerre Ann Wyatt provided caricatures of the boys, which were identified during the skit.

Mrs. Meldon Leslie has served as president of the Bulldog Mothers this year, which has served meals to the team during the year.

## H. J. C. Koehn Says Times Have Changed

H. J. C. Koehn of Weimar, who has many friends in Lynn County, wrote an interesting letter to The News last week. He still owns his 160 acre farm in the Dixie community, and says he enjoys keeping up with things here through The News.

"It's past six years now since I was up there," he writes. "I do not get around so much since I have a fractured hip bone, drive

no car, and will be 84 years old December 2.

"Deer season opened Nov. 16; have a grandson who shot one Nov. 17, so had deer meat for dinner today.

"Must state times have changed since 1878, my birth day. I still remember the Galveston storm of Sept. 8, 1900 . . . all highways now . . . There are no pecans anywhere around here—30 to 50 years passed we used to ship them out by car lots and by mail."

The News, among other local

friends, have missed the annual visits of Mr. Koehn the past several years, but we join others in wishing him added years of life, joy, health, and prosperity.

### David Bray In Student Conference

David Bray, SMU student, is among 200 students from colleges and universities in the nation who will take part in the 14th Annual Student's Conference on United States Affairs at West Point Dec. 5-8.

Students will discuss political, military and economic aspects of the Atlantic Community and its development and hear keynote

speaker Dean Acheson, ex-Secretary of State, and banquet speaker Prince Bernhard of the Netherlands.

Miss Martha Jane Bell, student at West Texas State, was home for Thanksgiving with her parents, Mr. and Mrs. Roger Bell.

Miss Carol Smith, student at Baylor University, spent Thanksgiving holidays here with her parents, Judge and Mrs. Truett Smith.

### Mail Early For Certain Delivery

The postoffice crew said today, "Right now is the time to start your Christmas cards and gifts on their way. The calendar says Christmas is less than a month away, but here in the Post Office it will be Christmas every day from now on."

The Postmaster went on to say that by getting into action now, a lot of headaches can be avoided when the full Christmas rush begins. For example, don't take chances on mailing poorly wrapped packages. Use sturdy corrugated mailing cartons, heavy paper adhesive tape and strong cord. Cartons containing several gift packages should be fully stuffed with tissue or old newspaper to cushion the contents.

The Postmaster says it's especially important to include your return address on every Christmas card envelope. Besides being socially correct, this is a big help to both you and your friends in keeping your mailing lists up-to-date.

Before you mail your Christmas cards, secure free labels from the Post Office which read, "ALL FOR LOCAL DELIVERY" and "ALL FOR OUT OF TOWN DELIVERY", so that you can sort your cards into two bundles, with the addresses all facing one way, thus expediting delivery.

Cards for local rural routes should be included in the "Local Delivery" bundle instead of in the "Out of Town" bundle. Also, when ten or more out of town cards are all going to the same city, they should be separated and labeled to that particular city.

Through the fine cooperation of the public during recent years, the postoffice reports that great progress has been made in getting the Christmas mails through on time.

"Mail Early and Often!" is the special slogan for this year's "Mail Early for Christmas" Campaign. It looks like a record year for Christmas mail and that's why your help in getting started now on your Christmas mailings will be especially appreciated.

Christmas cards and gifts for most distant points should be mailed first, preferably during the first ten days in December. Those for nearby points should be mailed by December 15th, or at least a week before Christmas.

### O'Donnell Lady Dies In Wreck

Mrs. Maria Hernandez Ramirez, 25, of Welch, died Monday in a Lamesa hospital following a two-car accident at O'Donnell on Sunday night. Her mother-in-law, Cista Rivera Alvarez, was injured with possible broken ribs.

The accident occurred at the intersection of U. S. Highway 87 and Farm Road 2063 near O'Donnell when the car in which the ladies were riding collided with a car driven by Billy Bob Henderson at about 9:30 p. m. Sunday. Driver of the car in which the victim was riding was her husband, Primitivo Ramirez.

Funeral services were held Wednesday and burial was in Lamesa Cemetery.

Survivors include her husband and four children. A native of Mexico, she had lived at Welch about four months.

Among North Texas University students home for Thanksgiving were Karl Prohl, who visited his parents, Dr. and Mrs. Emil Prohl; John Freddie Thomas with his parents, Mr. and Mrs. John F. Thomas; and Billy Nance, son of Mr. and Mrs. Emory Nance.

### Lynn County Branch of AAUW Will Be Formed At New Home Meeting Monday

Are you a college graduate with an interest in recruiting more qualified teachers, better libraries, the gifted child, mental health, introducing foreign languages in elementary schools, or supporting measures in the interest of the consumer?

These are just a few of the subjects dealt with by over 145,000 members of the American Association of University Women. Plans are now in progress to form an AAUW branch in the Lynn county area. The first organizational meeting was held in October. A second meeting will be held Dec. 3 at 7:30 p. m. in Mrs. Geraldine Nichols home at New Home. The group will become a part of the national organization, which has over 1470 branches in every state, the District of Columbia and Guam. Graduates of AAUW approved colleges in the Lynn county area who are interested in becoming charter members of a local branch of AAUW should contact Mrs. Ruth Green, Box 3, Wilson, or Mrs. Joe Lewis, Route 4, Tahoka.

AAUW is dedicated to a program that enables college women to continue their own intellectual growth and to further the advancement of women, as well as encouraging to society. The Association, which is a member of the International Federation of University Women, encourages high standards of education through its membership policies.

When AAUW was founded 78 years ago, an idealistic long-range membership policy was adopted. It restricted membership to graduates of colleges and universities meeting high academic standards, a sound basis of liberal education, having women on faculties and administrations, adequate provisions for women students, and intellectual freedom. Today there are more than 450 American colleges and universities that meet these AAUW standards and are on the Association's membership eligibility list.

The Lamesa branch of AAUW will present a program on AAUW at the Dec. 3 meeting at New

Home. After the program, the organizing group will discuss by-laws for the new branch.—Mrs. Joe Lewis, Secretary.

### Ford ideas so contagious they started a new trend in cars!

If you think today's cars have a lot in common, credit the Ford sketches above. For these ideas sparked a revolution in car design that's reflected wherever you look on the American road.

Ford ideas have a habit of being exciting—practical, too. Consider the innovations found only in our '63s. There is Ford Galaxie's smooth new velvet ride. It cost Ford \$10 million to bring it to you, but costs you not a penny extra to enjoy. There is

Ford's full twice-a-year or 6,000-mile maintenance\* schedule that cuts service worry and expense to a minimum. There's a new manual transmission that lets you shift down from second to first without coming to a stop. And for '63, there's the biggest choice of models ever offered—44 in all!

Only Ford offers all these advantages now. Other cars will eventually catch up—but if you can't wait, here's a tip. See your Ford Dealer today!

Here's America's most contagious routine as seen on the 1963 Ford Galaxie 500XL.

### Child Drinks Rat Poison, Survives

Little Silda Gonzales, two and a half year old daughter of Mr. and Mrs. Joe D. Gonzales of O'Donnell, was treated at Tahoka Hospital Sunday and dismissed after having drunk rat poison.

Fortunately, the little girl was not in a critical condition, but the result could have been very serious, hospital attendants say.

Dr. Emil Prohl of the hospital says seven children have been treated this fall already as similar poison cases, including the drinking of kerosene, clorox bleach, and rat poison. Parents with children are warned to keep poisons on high shelves or locked up where children can't reach them.

### Tahoka Church Contest Winner

First Methodist Church of Tahoka barely nosed-out O'Donnell's First Methodist Church last Sunday on a two month's Sunday night attendance contest.

As a result, the O'Donnell Church will entertain the Tahoka congregation this coming Sunday night at 7:00 o'clock, when members from here will go to O'Donnell. The O'Donnell Church will furnish the preaching, singing, and the service will be followed by a social hour when refreshments will be served.

Rev. Aubrey White, local pastor says any local members who do not have transportation should call the church or be at the church Sunday night before 6:30 o'clock and transportation to and from O'Donnell will be furnished.

Rev. White says the attendance, based on percentage of membership in the two churches, was won by Tahoka by a bare 4 of 1 percent. Tahoka wound up the contest with 171 present last Sunday night. The Sunday before, there were 176 present at the evening services.

The contest was designed to spotlight increased Sunday night attendance, and Rev. White says both pastors hope the attendance will hold up without a contest.

## Feed-Grain Program Is Announced For Future

Secretary of Agriculture Orville Freeman on November 14, 1962, announced the details of the 1963 feed grain program, including feed grain support prices, payment rates for diverting acreage out of production to a conserving use, and other program provisions.

In general, provisions follow those for 1961 and 1962 crops by giving feed grain producers an opportunity to participate in the program by reducing acreages

and to receive payments. By participating, they will receive diversion payments, price support payments, and be eligible to take part in the price support loan program. While payment rates for diverting acreage are down somewhat from the first two years of the program, this decrease will be more than made up for most farmers by a payment-in-kind support price authorized by legislation passed last summer.

"The first two years of the feed grain program have dramatically reversed the buildup in feed grain surpluses. Carryover stocks of corn which had been increasing at a rapid rate in the late fifties will be down to an estimated 1,150,000,000 bushels on next October 1. This is a drop of nearly 50 percent from the 2,008,000,000 bushels carryover on October 1, 1961, which has built up in the absence of a workable program in previous years. Prospects were for continuing substantial increases in the surplus level, if the emergency 1961 program had not proved effective," Secretary Freeman stated.

Overall, feed grain stocks on October 1, 1963 will be down to an estimated 57 million tons, compared to nearly 85 million tons on October 1, 1961.

The total support prices for 1963 are the same as the 1962 levels except for grain sorghum which is down 2 cents per hundredweight.

In a change from previous years, farmers participating in the 1963 feed grain program will receive price support partly through loans and purchase agreements and partly through an in-kind payment. Loans and purchase agreements will reflect a national average price of \$1.62 per cwt. on grain sorghum. In addition, price support payments will be made on the normal production of the harvested acreage of 29c per cwt. on grain sorghums. Oats and rye are not included in the 1963 feed grain program, thus no payments is provided and no reduction in acreage is required for price support eligibility.

Participating farmers will be able to put all of their 1963 crop

## Farmers Eligible For Help On "Pilot Recreation Enterprises"

A limited number of farmers in Lynn County may be eligible for cost-share assistance in establishing pilot recreation enterprises on their cropland in 1963, according to Charles G. Bragg, Office Manager, Lynn County Agricultural Stabilization and Conservation Service.

The enterprises, part of the long-range program of land-use adjustment designed to help farmers convert their farms from crop production to grass, trees, wildlife, and income-producing recreation uses, were authorized by Congress as a part of the Food and Agriculture Act of 1962.

Under the program, the Government will share with a limited number of farmers the cost of conservation practices needed in order to make these conversions. In addition, adjustment payments will be made to help farmers make the conversion if the land is suited for regular use in the production of crops. Primary responsibility for administering this program has been delegated to USDA's Agricultural Stabilization and Conservation Service, in cooperation with other Department agencies, Bragg pointed out.

The pilot recreation developments may include conversion of all or part of the eligible land on a farm to recreation use. Only farmers or groups of farmers who own or operate cropland which is being devoted to the production of row crops or small grain, and tame hay, will be eligible to participate in the program. Land already in the forest trees or shrubs for wildlife and water impoundments will not be eligible, nor will land which has changed ownership in the past two years.

Loans for capital facilities such as buildings and boat docks will be available to qualified participants through USDA's Farmers Home Administration. In addition, plans for more extensive FHA farm operation, farm ownership, and association loan programs for recreation development on family farms and in rural areas were announced by USDA recently.

Practices aimed at developing fishing, swimming, boating, hunting preserves, picnicking, camping, and other recreational use of land will be considered in developing the pilot developments in addition to wildlife conservation practices with soil and water benefits.

Individual farmers or small groups of farmers who are interested in participating in the pilot program should contact the local Agricultural Stabilization and Conservation office as soon as possible to discuss their proposals, Bragg urged.

## Former Citizen Buried In Seattle

Mrs. R. G. Williams, 73, a former citizen of Tahoka and sister of Mrs. S. L. Shelton, died on Tuesday, Nov. 20, at Seattle, Washington, where she has lived for some time. Burial rites were Saturday.

Mrs. Williams and husband moved to Tahoka in 1917 from Hamilton county, and moved from here to Arizona in 1921.

She is survived by her husband; one daughter, Mrs. Lillian Adams of Seattle; one son, Reginald Williams of Pasadena, Calif.; one grandchild and one great grandchild.

## Dr. Fred Haney Is Visitor Here

Dr. Fred Haney of Houston visited here Friday with his brother, L. C. Haney, and family, and a number of old friends in Tahoka.

Mr. and Mrs. L. C. Haney and Fred and youngest son had attended a reunion of family members at Roscoe on Thanksgiving Day.

L. C. and Fred came to Tahoka in 1923 and were partners in Tahoka Drug until 1927, when Fred sold his interest to study medicine. He has had quite a successful career in his profession in Houston.

After leaving Tahoka, Fred married a Mississippi girl, a registered nurse, and they have two sons, one of whom is 21 and studying forestry in Mississippi State. The other, age 15, is a high school student.

## Allen Cox Has Song Published

"The Moonlight Shines Softly" is the title of the popular song by Allen P. Cox, son of Mrs. Lennie Cox of route 5, Tahoka which has just been published by Nordyke Song and Music Publishing Co. of Hollywood, Calif.

According to a news release from the publishing company "his first published song is now rapidly gaining popularity and promises to reach the 'HIT' status it deserves."

Allen is a junior student in Tahoka High School, is currently serving as president of the Student Council, is a member of the National Honor Society and of the boys basketball team.

Nordyke Songs and Music Publishing Co. specializes in publishing material for new talent.

## Guest Speakers At Church of Christ

Herb Smith, minister of the Post Church of Christ, will be the speaker at the local church Sunday night when Don Browning, minister of the Tahoka church, fills the pulpit at Post.

On Wednesday night Browning will speak at the Lamesa Church of Christ and W. T. Hamilton of that church will speak in Tahoka.

Kind words never die—they just become victims of ingratitude.

## Farmers Vote Dec. 11th On 1963 Cotton Quota

The cotton quota vote coming up on December 11 will mark the tenth consecutive year in which growers have voted on marketing quotas for the 1964 crop, growers have approved quotas for each year's cotton crop," he stated. "In the vote last year, on quotas for the 1962 upland cotton crop, 96.9 percent of the growers voting approved the quotas."

By law, quotas must be proclaimed by the Secretary of Agriculture in years when the cotton supply exceeds normal. The estimated 1962-63 supply of upland cotton exceeds the estimated normal supply by 4.7 million bales.

For 1963, the Office Manager explained, Lynn County has a total of 175,341 acres available for allotment to growers on which to grow their upland cotton crop. This represents the county's share

of the national allotment acreage of 16,250,000 acres, which includes 250,000 acres from the national acreage reserve to take care of minimum farm allotments. Individual farm allotments will be available to producers in advance of the December 11 referendum.

It is not anticipated that this will be the final national acreage authorized for the 1963 crop because of new legislation to be recommended to Congress by the President. Establishing the national acreage allotment at the statutory minimum for the time being will give the Congress maximum flexibility in determining the acreage provisions to be included in the new legislation, USDA officials have said. It is anticipated, however, that such legislation would supplement rather than replace the current law. (Continued on Back Page, Sec. 2)

Notice the new head to this column, above? The art work was done by "Hut" Hutson, formerly of the Amarillo News-Globe, a cartoonist and public relations man who is working with local businessmen on some special ad-

vertising starting soon in The News. The advertising will feature Lynn county's 60th anniversary in 1963 and personnel of local business institutions. The Printer has known "Hut" casually and by reputation for 30 years, and can assure our readers and advertisers he is no fly-by-night promoter but a man with advertising ideas that are interesting, entertaining, informational and effective.

Charles Townes handed us a clipping from the Dallas News, Nov. 19, about E. J. (Bulldog) Gray of Baytown, "a man who couldn't find a job—now he's a millionaire," having made a fortune in oil, lumber, ranching, and real estate. Gray, now 54, is a native of Colorado City and a 1928 graduate of Roscoe High School, "The Printer's" old alma mamma, and Abilene Christian College in 1932. In college, he was a track and football star, and when he got out of college he told a reporter, "I wanted to coach, but the only job I could find was at Tahoka, at \$80 a month—in script. You had to take the script to the bank and they'd discount it 10 or 15 percent, so I turned it down." Gray is the man who tried to buy the Billie Sol Estes assets before Morris Jaffe of San Antonio stepped in.

Fred Mathews, formerly of Grassland, writes from Ontario, Oregon, wanting to know how many Republicans were elected to the Texas Legislature. He says

four counties in Oregon have a majority Republican registration, the rest Democratic.

Larry Hagood, local Republican chairman, says there were 27 Republicans elected to office in the recent general election in Texas, in addition to U. S. Senator John Tower, elected two years ago. Two Republican congressmen were elected, Bruce Alger of Dallas and Ed Foreman of Odessa. There were seven State Representatives, six of them from Dallas and one from Midland. In addition, Larry says, Republicans elected three county judges, Kerr, Midland and Harrison counties; one district attorney, Smith county; one judge of county court at law, Dallas; one county superintendent, El Paso; seven county commissioners, one each in Starr, Kennedy, Pecos, Randall, Hutchinson, Ector, and Zavala; four justices of the peace, two in San Antonio, one each in Starr and Kennedy counties; and one constable, Amarillo.

John Toler says this story is a true one: When he was living over at Idolo there were a whole raft of Cocanougher families in the community and a man named Gues who ran a lumber yard. One day a salesman was making the round of the community, met the elder Mr. Cocanougher, a son on a neighboring farm, another Cocanougher running a store, still another Cocanougher who was postmaster. Then, he walked into the lumber yard, introduced himself to the manager, and asked, "What's the name?" The lumberman says, "Guess." The salesman replied, "Yes, I know, Cocanougher."

Thanks to these other subscribers who brought us copies of the Nov. 9 issue: Mrs. Edgar Hammonds, G. H. Spears, and one all the way from Houston from Mr. and Mrs. Frank Edwards.

Polly Edwards writes she and Frank are interested in building a cabin up on Lake Granite Shoals, where they hope to spend a little time relaxing. The Printer and wife enjoy an interesting letter from them about once a year.

A reader who wishes to remain anonymous has offered us some advice. Says he: "When Sec'y. Freeman loans you that \$35,000 for the swimming pool and park on your farm over in Terry county, which you seemed to think is ridiculous, there's a great opportunity for you to make that farm a big paying proposition. First, you can charge admission and the people of Wellman, Loop, Foster, and neighboring communities will come a-running. Then, there's another great possibility. You might buy a bunch of geese, let them use the pool for a home, and they will keep the bugs out of your cotton, saving poison, and increasing your cotton production to such an extent you will never know you got a raw deal on the acreage allotment." He may have something, but if Freeman turns all this farm land back to parks and recreation areas, we're afraid we'll have a surplus of parks. If we turned geese in our fields they might also eat the ladybugs and then clean up that little maize acreage we have left. Thanks for the ideas, anyway. At least, they are better than some of Mr. Freeman's.

The Printer and Mae had an interesting visit with Mr. and Mrs. H. W. Scott of San Bernadino, Calif., and her cousins, Mr. and Mrs. L. E. Henderson of Lubbock, who came down from Lubbock to inspect Viola and D. W. Gagnat's fabulous new home just north of town. Mrs. Scott is really a pioneer settler of Lynn county. She says she was running around barefoot out in her dad's pasture when Tahoka was founded. Oldtimers will remember her as Johnnie Henderson, whose mother, Mrs. Fanna N. Henderson, was Tahoka's first postmistress, and whose grandfather, Johnnie Chambers, for whom she was named, filed on land adjacent to Tahoka on the east before the town was even dreamed about. Miss Johnnie established the first exclusive ladies' ready-to-wear in Tahoka. She and husband were returning home from a visit to the North and East, New England states, and Canada. L. E. Henderson is her cousin.

We called the Gagnat home "fabulous," for that's the only way to describe it. There may be larger homes in West Texas, or the nation, but there are few that will have such modern features, so much hand carved woodwork, or which will have a more beautiful and luxurious interior. Viola and

D. W., principally Viola, have already spent more than a year on the project, 10 months on actual construction, and have supervised the laying of every stick and stone by some great craftsmen. When it nears completion, we hope Viola will give us a complete story about the place. Incidentally, D. W. still holds out he'd rather stay in his old home, but it doesn't take one long to find out the old "he" is pretty proud of the new home, himself.

A very wise man once said "A person completely wrapped up in himself makes a mighty small package."

Johnny Moore of the Plains Record says:

The following I received from a friend here in Plains. It is one of Earl Nightingale's broadcasts. It makes sense.

"I want to ask you a question—and I hope you'll answer it as honestly as you can.

"Let's say you have a neighbor who earns ten thousand dollars a year, that is his total income. But, instead of his spending ten thousand dollars a year (or even a little less, and saving some for the future) let's say this neighbor of yours spends fifteen thousand a year—he does this by borrowing more money than he can pay back. And then, let's say he's not happy just spending more than he's earning, but he starts giving money away—to people up and down the street—who will probably never even think of paying it back. What would you call this man? Would you call him crazy? Would you try to explain to him that if you keep spending and giving away more money than you earn it can only end in complete ruin? Of course you would.

"Well then, tell him! Tell your congressman! Because that's exactly what the U. S. has been doing for far too long, and we've got to put a stop to it—and right now. And when I say we've got to put a stop to it, I mean you and I have to do it; and if we don't do it, nobody will!

"Any child knows that if you keep spending more than you've got it can only end in total insolvency, and impossible debts. Write your own congressman and your senator—and tell them—otherwise, they may never figure it out!"

Mr. and Mrs. W. R. (Bill) Warren except to leave next week for McAllen, where they will spend four or five months fishing, resting, and enjoying the sunshine—they hope.

**Feed Grain ...**

(Continued from Page 1, Sec. 2) under price support loans and purchase agreements. This is in contrast to provisions of the 1961 and 1962 program which limited price support to the normal production of harvested acreage.

Principal points of the 1963 feed grain program for producers are:

Participation is voluntary. Farmers may take part by reducing the total of their 1963 feed grain acreage by at least 20 percent, the minimum diversion for participation. The maximum diversion is 40 percent of the base acreage or 25 acres, whichever is higher.

The acreage of corn, grain sorghum, and barley (1959-60 average acreage, is adjusted) will be combined into one total feed grain base for each farm. A farmer may choose to divert one or more of the feed grains in this total base and his payment will be made at the per-acre rate for the particular grain or grains diverted.

In a change from the 1962 program, farmers to be eligible for any payments or price support on any of the three feed grains must divert the total acreage signed up. Diverted acreages will be devoted to a conserving use and will be in addition to the average acreage of conserving and idle land on the farm for 1959 and 1960.

Payment on the first 20 percent of acreage diversion will be made at 20 percent of the county support rate (reflecting national average of \$1.20 per bushel for corn, \$1.91 per hundredweight for grain sorghum, and .93c per bushel for barley) on the normal production of the diverted acres.

On diversion above the minimum amount, payment will be at 50 percent of the county support rate.

The diversion payment plus the price support in-kind payment as explained earlier in the release

will give farmers approximately the same payment they received for participating in the 1961 and 1962 programs.

Farmers may receive part of their acreage diversion payment at the time they sign up to participate in the program. Remainder of the diversion payment and all of the price support payment will be made after compliance is checked next summer.

Under the 1963 program, acres taken out of feed grain may be planted to guar, sesame, safflower, sunflower, and castor beans without affecting eligibility for program benefits. The diversion rate

in such cases for plantings to sesame will be at 40 percent of the farm's regular diversion rate; guar and castor beans at 30 percent; and sunflower at 20 percent. There will be no diversion payments on diverted acreages planted to safflower.

The sign-up period for the 1963 feed grain program will be early next year and will be announced later.

**Cotton Quotas ...**

(Continued from Page 1, Sec. 2) or than substantially change the basic program choices cotton farmers will vote on in the quota referendum December 11.

If at least two-thirds of the growers voting in the referendum approve quotas for the 1963 upland cotton crop, price support at a level within the range of 65 to 90 percent of parity will be available to growers who comply with their farm allotments, and marketing quota penalties will apply to any "excess" cotton pro-

duced on the farm. If more than one-third of the voters oppose quotas for the 1963 crop, the allotment program will remain in effect, and price support will be available to cooperators at 50 percent of parity, as provided by law.

All farmers who engaged in the production of upland cotton in 1962 are eligible to vote in the December 11 referendum.
