Student Places In Contests At State

Miss Jean Flippin, Tahoka High School senior, placed third in news writing and fourth in ready writing last week end at the state Interscholastic League, contests held in Austin.

Tahoka Athletes Honored

Tahoka High School athletes were honored Monday night at the school cafeteria with a banquet attended by 160 people, saw presentation of special awards, and heard Matt Lair, line coach at Texas Tech, speak on the place of athletics in building better men and women.

Clint Walker served as master of ceremonies, and Athletic Director L. F. (Jake) Jacobs was in charge of presentation of players and awards.

Coach Gilbert Hough, leaving after three years to become Junior High Coach at Richardson, introduced varsity football boys, for whom he had high praise for their desire and hard work. Receiving special recognition were Larry Jolly, Gary Tomlinson, and Relt

Patterson, all juniors, unanimously selected by District 5A coaches for the all-district team. Jolly, on account of the age rule, will not be eligible next year, however.

Coach Jacobs said his 1965 basketball team was the best balanced and had more determination than any team he had coached, in spite of falling to win district. Terry Harvick made all-district, and Mitchell Williams, who shows fine promise, made the all district second team.

B-team basketball boys, Coach Hough said, show great promise for the future. He said with these younger boys more emphasis was placed on teaching fundamentals than in winning ball games.

Coach Hough said the varsity basketball girls were a "tremendous surprise," were fine kids, and showed a lot of hustle and desire. Carl McNeely and Andra Sue Carroll were all-district.

B-team football boys, A-team track and Freshman track boys also received praise for effort, latter finishing second in the district, losing to Plains by two-thirds of one point.

Coach C. L. Rogers, who expects to farm in Arizona next year, also had praise for his B-team girls, and declared working with them had been a lot of fun.

Jacobs said two golf teams were entered in district competition with the first team finishing second in District and the second team finishing fourth.

Under direction of Mrs. Stephen Thompson, local teacher, the program has been rearranged to be appropriate for a 30-minute television presentation.

"Our town has been given the opportunity to show how much talent we have. The program will serve as a reminder of how grateful we should be for our American heritage. There are too few opportunities to view programs of merit and too few which help instill into our children's character values every American should hold dear. Tahoka is being honored. Don't miss it," states a spokesman for the group.

Musical Program Is Friday, May 21

This month's Hootenanny will be held on Friday, May 21, at 8:00 p. m. in the Community Center, according to Raymond Ashbrook.

The date was announced for this Friday night at Meadow last week, but he says this was a mistake.

The Hootenanny has become a popular monthly event here when music groups meet to play and everyone is invited to come and listen.

Frogs are croaking, the ground is soaked, lakes are full, and everyone is smiling.

All Lynn county is soaked by rains which have totaled 2.5 inches to eight inches or more. Heavy rains Monday covered large areas, and a more general rain Wednesday finished off wetting all the county sufficiently for planting of crops.

Rain in Tahoka was the most in nearly two years, or since May 30 and 31, 1963.

Monday, Tahoka received 1.72 inches by official U. S. Weather Bureau rain gauge measurement.

Tahoka Scouts Award Winners

Tahoka Boy Scouts won a blue ribbon for overall efficiency, four blue ribbons and one red in contests at the Quannah Parker District Boy Scout Camporee held last Friday and Saturday at Gaines County Park between Seagraves and Seminole.

Blue ribbon awards were for building a fire with flint and steel, building a fire and boiling water, knot tying, and compass reading. The red ribbon was for first aide.

Scoutmaster Charley Jaquess and Jack Jaquess Jr. accompanied the following boys to the Camporee: Gordon Harvick, Barry Jaquess, Dan Reid, Calvin Adamson, Clyde Curry, Terry Ayer, and Billy Birdwell.

Jack says the seven boys had the fabulous time of only 15 seconds total time for building a fire with flint and steel. Gordon Harvick has the fastest time of one second.

followed on Wednesday by 1.79 inches. Added to the 2.5 inch received on May 3 and 4, this brought total rainfall in Tahoka to 3.76 inches for this month and 5.47 for the year.

Tahoka received only 11.61 inches in 1964, and until this month rainfall had totaled less than 16 inches in 20 months.

But, rainfall this week has been much heavier over parts of Lynn county than it was in Tahoka. Generally, the north part of the county received less.

Haviest rain reported was in the extreme southeast corner of the county, where Bill Gass reported 5.2 inches Wednesday with lakes running over and out into the lower country toward the caprock.

North of there, three miles east of Draw, Walter L. Williams measured 4.6 inches. This was in addition to good rain on Monday.

In the southwest part of the county, north of New Moore, A. W. Snider reported 3.25 inches Wednesday, much of it falling in an hour and 15 minutes, a total of about five inches this month. Cecil Dorman reported a similar amount.

Over in the northeast part of the county, in Gordon and Hackberry areas, rainfall has also been exceedingly heavy.

South of Tahoka, torrential downpours have fallen on the Cleve Littlepage and Fred McGinty places, filling the lakes thereon until they ran over the highways and floated one of Cleve's butane tanks out into the lake.

Rains were also heavy in the O'Donnell area, where 2.93 inches was officially measured Wednesday. Northeast of Wells, W. R. Ledbetter reported 3 inches Wednesday and total of 5 or 6 inches this month.

J. T. Forbes of O'Donnell reported the entire O'Donnell trade territory has had sufficient rain. Directly west along the county line fall was only about an inch and a half, and eight miles south of town the fall was light. Otherwise the territory was drenched.

Parts of West Point area received heavy rains also, and also parts of New Lynn area, where C. M. Meeks reported 3 inches, but Horace Daniel had a total of about 5 inches. Immediately north of Tahoka the fall was heavier than in town.

Rain was lighter in the north part of the county, but New Home, Lakeview, Wayside, and Wilson all reported sufficient moisture for planting.

Also, fall was lighter in the Redwine and Grassland areas and also north of Central, but these areas also have plenty of moisture for the present.

Skies were still overcast Thursday morning, and prospects were favorable for more rain.

Monday morning's rain was accompanied by hail, some of it as large as golf balls and larger, but little damage was reported since the fall was limited.

East of Tahoka and in the south part of Tahoka fall was probably heavier and the stone larger. West of town hail was heavy in spots but soft and did little damage. North of town, hail stripped some trees.

Hail is reported to have broken the windshield on F. E. Redwine's pickup while at the farm east of town.

Robert Edwards brought to The News a great slug of hail, one of several which fell at the home of his dad, Carroll Edwards, in the east outskirts of Tahoka. This hailstone was four inches in length, about two in width, and at least 10 or 11 inches in diameter the long way before it melted down.

Mrs. E. S. Davis, who has been a medical patient in Tahoka Hospital since May 1, was expected to be released Thursday.

Gordon-Southland News

(By Mrs. Edmund Wilke)
I guess all the farmers in this area are happy this morning because at last we have gotten some rain. Edmund said that we have gotten over an inch and I talked to Mrs. Earl Lancaster and she said that they had 2 1/2 inches. My goodness! we should all be so thankful!

Mr. and Mrs. Otto Klaus spent the day Sunday with Mr. and Mrs. Werner Klaus of Wilson. Mrs. Klaus said that her daughter-in-law, Ester, has always prepared a Mother's Day dinner for her for the past 25 years. Calvin Klaus from Slaton also visited with the Werner Klaus.

Edmund, Sherri and "Yours Truly" went to Dimmitt and Hereford on Saturday to visit with friends. Mr. Riley Woods has been moved to the Slaton Mercy Hospital. Mr. and Mrs. Ed Milliken both are in Mercy Hospital. Sure hate to hear this.

The Southland Baptist Church had a special Mother's Day service on Sunday. A Red Carnation was presented to Mrs. Fred Myers for being the youngest Mother there and a White Carnation was presented to Mrs. Pearl Hardy for being the oldest mother present.

The MYF of Southland Methodist Church is having home made ice cream and cake supper Friday night, May 14, 7:00 o'clock, and they will charge 50 cents for adults and 25 cents for children under 12.

The Methodist Church has purchased 40 new folding chairs and six new tables and a folding door for the Fellowship Hall and they are very proud of them.

There are a couple of happy and proud grandparents in this of town this morning. Mr. and Mrs. Marcus Wilke saw their granddaughter Angela for the first time Sunday night. Angela was born on October 16, 1964, in Germany where Delmar was stationed with the Army. Delmar is being discharged from the Army, and his wife Barbara and little Angela flew home from Germany, arriving in Lubbock about 10:30 Sunday night. Delmar will be arriving home in about three weeks. I just talked to Barbara, formerly Barbara Arrants of Slaton, on the telephone and she said that she was so glad to be back in West Texas that the next time the sand blows she is going to go out and sit in it.

Southland has just recently organized a Boy Scout troop and at the present eight boys are in it. It is being sponsored by the Methodist Church and Rev. Cooper is the scoutmaster. Well, they have really been doing very well because at the Camporee on May 7-8 they came home with two blue ribbons, one for having the highest points in the Patrol competition and one for being the outstanding troop. Six boys attended the Camporee held at Mackenzie Park in Lubbock.

Former Citizen Rebuilds Restaurant

Mr. and Mrs. K. K. Moore, formerly of Lynn county, have completely rebuilt their Red Barn restaurant and catering service building near Durango, Colorado, destroyed by fire a few months ago.

Kay recently sent his friend, Joe D. Unfred, a clipping with picture of the new Red Barn from the Durango newspaper. The paper says the new building is rebuilt to resemble the old, but has windows through which customers may view the Denver & Rio Grande Railroad and mountains.

Lost in the fire, in addition to the building, were many priceless paintings, antiques, relics, and big game trophies Mr. and Mrs. Moore had accumulated over the years.

The Red Barn, famed for food as well as its unusual atmosphere, had received much national publicity. The original restaurant had been converted from an old dairy barn which once was a place of refuge for residents of Animas Valley from marauding Indians, and also once was reputed to have been a stage stop.

Fire Demonstration In Local Schools

Fires don't just happen—they are caused, Joe Smetana, Safety Director of the Texas Farm Bureau, pointed out in a graphic fire demonstration held Wednesday at Tahoka High School. He went on to name the three causes for most fires: "men, women and children."

In the 45-minute program Smetana used a variety of demonstration equipment and materials placed on tables 16 feet in length to dramatize seven basic facts about fire, its use, and control: (1) what fire is; (2) how to control fires; (3) the fact that nothing is fire-proof; (4) kitchen fires and their control; (5) fuel vapors; (6) the power of petroleum products; and (7) household wiring and overloaded electrical circuits.

Using a "fire triangle board," Smetana illustrated that fire is like a three-legged stool—it can't work with one of the legs missing. The "legs" fire depends on are (1) fuel, (2) heat and (3) air. He stated that in American homes these three things come together in deadly and destructive combination every 87 seconds—an average of 1,500 home fires every day, causing more than 5,000 deaths in home fires every year.

Creating quite a loud explosion for 2 single drops of gasoline, Smetana stated that one gallon of gasoline contains approximately 155,000 drops and under ideal conditions, could produce an explosion force equal to the power of at least 30 sticks of dynamite.

After demonstrating how fires can be caused by overloaded electrical circuits and improper fusing, Smetana pointed out that many fires of this type are blamed on faulty wiring. He suggested that "faulty thinking" is involved more often than "faulty wiring."

The demonstration, which was brought to the Tahoka High School under the sponsorship of the Lynn County Farm Bureau, is part of a long-range fire prevention program now being conducted by the Texas Farm Bureau Safety Department.

Editor, The News:

For twenty-five years the welfare boys have been ridiculing those of us who have been saying Federal aid means Federal control of the public schools.

Now they have taken the mask off and say very firmly and frankly: "You now have Federal control whether you receive Federal aid or not. The only difference is that those who receive Federal aid from April, 1965, on are under Federal control and those who do not elect to participate in Federal aid will be handled by the U. S. Justice Department."

We are a nation that has been doped just as surely as those who destroy an individual by gradually training him in the use of narcotics.

May God have mercy on our grandchildren and their children. W. T. Hanes, Irving, Texas. (Hanes is former Tahoka superintendent and is now superintendent of the 18,000-student schools of Irving, suburb of Dallas.)

Fire Demonstration In Local Schools

Students of Tahoka schools had an opportunity Wednesday, May 5, to see for themselves how fire can be man's best friend or his worst enemy by observing a graphic fire demonstration.

The demonstration, in seven parts, was given under the direction of Joe Smetana, Safety Director of the Texas Farm Bureau.

A variety of demonstration equipment was placed on tables 16 feet in length to illustrate seven basic points: (1) what fire is; (2) how to control fires; (3) the fact that nothing is fire-proof; (4) kitchen fires and their control; (5) fuel vapors; (6) the power of petroleum products; and (7) household wiring and overloaded electrical circuits.

Smetana pointed out that fire is like a three-legged stool—it can't work with one of the legs missing. The legs fire depends on are: (1) fuel, (2) heat, and (3) air. Yet, in American homes those three things come together in deadly and destructive combination every 57 seconds—an average of 1,500 home fires every day, according to Smetana.

"That's eight times the number of fires in factories and stores. Worse yet, four out of five of all fire deaths occur in homes, and for every death there are about 100 serious injuries," the TFB Safety Director explained. As part of a program for fire prevention, the Texas Farm Bureau Safety Department is presenting this demonstration before the high schools of the state. The program was brought to Tahoka under the

Mr. and Mrs. Harold Roberts returned last Thursday from New York City, where they spent four days seeing the sights in company with five other couples from the Southwestern Public Service Company.

The free trip was a reward for six top company local managers. Mr. Roberts was selected by the company as the outstanding manager for Division III.

They flew both ways from Lubbock to Dallas and to New York City. Harold says they were three hours and 15 minutes flying by jet from Dallas to the big city, but they were one hour and 15 minutes by taxi from Kennedy Airport to the Astor Hotel on Times Square.

Monday they saw the Rockettes at Radio City Music Hall which he says was worth the trip. Tuesday they spent 13 hours seeing the highlight of the World's Fair.

Wednesday, they were taken on a sight-seeing tour of the city, and that night saw the Broadway hit, "Funny Girl."

Thursday they were free and had lunch at a famed Central Park restaurant before boarding the plane for home that night.

Seniors Present Program At Tahoka Rotary Club

Tahoka High School seniors, student guests of the Rotary Club this year, presented the club program Thursday, and Rotarians declared this one of the best of many good programs of the year.

A. G. Cook took over President Wilton Payne's gavel, Jack Edwards gave the invocation, and Eddie Howard led the singing as Marla Bray, club sweetheart presided at the piano.

Dennis Clem introduced visiting Rotarians, and guests for this month, Robert Medlin and Gary Dan Thomas, were introduced by their classmates, Frankie Ferrera and Mike Curry, respectively.

Jack Edwards also announced the forthcoming Senior play, and Cook introduced a new Rotary club member, Garland Thornton, vice president of First National Bank.

Serving as program chairman was Jim Wells, who introduced four student speakers, and then thanked Rotarians for the opportunity the students have had in meeting with the club.

Terry Harvick, first speaker, told of importance of athletics in the school program in "building the whole man," and declared sports teach ability to follow rules, work as a team, excell, promote character building and help instill a don't-give-up attitude.

Jesse Limon gave a summary of Senior activities to emphasize the variety of interests and desires.

Mike Reid outlined top activities of the school year of the entire study body and expressed appreciation of the new school buildings.

Marla Bray told of the influence

Rotary has had on her life through her daddy, serving as sweetheart, and association with club members and also with students who come here in the summer under the foreign exchange program.

Some of the Rotarians agreed the school kids were better speakers than most club members.

A visiting Rotarian from Mexico City, Pedro D. Fuentes, general manager of Topps de Mexico, S. A., a business institution, and in Northwest Texas as a lay evangelist of the Methodist Church, made a very interesting brief talk.

Fuentes pointed out world Rotarians will meet in Mexico City in 1968 and world Olympics will be held there also that year. He declared Mexico City now has seven million people, the nation 40 million, and is the fastest growing country in the world both in population and gross national product, and buys more products from the United States than it sells to us.

Leighton Knox said the community owes thanks to H. B. McCord Jr. for leadership in the summer baseball program which will involve 170 to 200 boys.

Mr. and Mrs. Raymond Talkmitt had as their guests in their home Sunday for dinner her parents, Mr. and Mrs. A. A. Kieschnick, Mr. and Mrs. Melvin Wuensche, Don and Cindy and Mr. and Mrs. Clarence Kieschnick and sons Audie, Noble and their new baby daughter, Tine Gay, who was born March 21 in Temple.

SECTION TWO
TAHOKA, TEXAS "Heart of the South Plains" FRIDAY, MAY 14, 1965

Governor John Connally welcomes Sharon Tucker, one of 40 children from Masonic Home and School in Fort Worth. The children were on a history tour to San Antonio and Austin, sponsored by the Masters, Wardens and Secretaries Association of San Antonio. Joining in the welcome are two State Senators, Galloway Calhoun, Jr. of Tyler, on the left, and Don Kennard of Fort Worth, on the right. Senator Calhoun is also Grand Orator of the Grand Lodge of Texas. Some 250,000 Texas Masons maintain the Masonic Home and School for children and grandchildren of Texas Masons. The three-day tour was provided to enable children with high scholastic standing to visit various historical spots and observe the state government in operation.

Former Citizens Are In The News

Sons of two former Lynn county couples got in the news over at Denver City last week, according to the Denver City Press.

Don Mac Edwards, 17, a junior, is cornet player in the "Big Red" stage band and varsity band. Recently the band competed in the Tri-State Music Festival at Enid, Okla., where the Mustang band earned Division 1 rating, but the Stage Band for the second consecutive year was named Outstanding Band of its class.

Don Mac is the son of Mr. and Mrs. Carlice Edwards, formerly of Tahoka, and New Home, and farming southwest of Denver City.

The other youth honored was Mark Martin, 13, named most outstanding athlete of his grade, eighth, in the Denver City schools. He is the son of Dan and Joan Thomas and the grandson of Mr. and Mrs. M. C. (Claude) Thomas, all of Denver City, and Mr. and Mrs. Buck Martin of Tahoka.

Don Mac is a grandson of Mrs. R. B. McCord, and Mark is her great grandson.

Cherokees formed the largest and most important Indian tribe east of the Alleghanies.

Service Trades Have Small Loss

Lynn County's 58 service establishments had total receipts of \$730 thousand in 1963, a decrease of 8 percent from 1958, according to a report of the 1963 census of business just released by the Bureau of the Census, U. S. Department of Commerce. The last previous census of business covered operations during 1958.

The service trades in the census of business included those providing: personal services to individuals; miscellaneous business services; auto repair and other auto services; and other repair services. Also included were motion picture production and distribution businesses; motion picture theatres; other amusement and recreation services; and hotels and motels.

The selected service trade establishments in the county employed 51 persons (exclusive of proprietors) and had a payroll for the year of \$135 thousand. The state as a whole included 60,879 establishments with receipts of \$1,879.3 million.

Cotton is the life-blood of Lynn county economy.

Vaughn Completes Missile Training

Denver, Colo. — Airman First Class William L. Vaughn, son of Mrs. Mary Milosich of 200 W. Victoria Ave., Montebello, Calif., has been graduated from the technical training course for U.S. Air Force missile instrument specialists at Lowry AFB, Colo.

Airman Vaughn, who learned to measure guided missile performance with electronic equipment, is being assigned to a Strategic Air Command (SAC) unit at Vandenberg AFB, Calif. His unit supports the SAC mission of keeping the nation's intercontinental missiles and jet bombers on constant alert.

The airman's wife is the former Janet M. Smith of England. His father, Claude Vaughn, resides in O'Donnell.

Levelland Man Is New Superintendent Assembly Of God

Haskell Rogers of Levelland was elected district superintendent of the West Texas District of the Assemblies of God at their annual District Council recently held in Lubbock, according to James Jackson, local Assembly of God pastor.

Rogers has been in the ministry since 1932, has done evangelistic work in six states, and served as pastor of churches in Oklahoma and Illinois before going to the First Assembly in Levelland nearly six years ago. He also has served three years as a Civil Air Patrol chaplain and for ten years was on the board of Oklahoma United Dry Association, a temperance movement made up of 19 denominations.

For the past three years, in addition to pastoral duties, he has served as Sectional Presbyter of the West Plains Section of the District Council.

Mrs. Ora Heckman of Tucson, Arizona, was here Monday visiting old friends while en route to East Texas. She lived six miles south of town back in 1928 and 1929 and was then Mrs. Saxon.

Bond Sales In Lynn Normal

Savings Bond sales for the first three months of 1965 in Lynn county totaled \$58,620. Of this amount \$11,335 were purchased during March according to a report released by F. B. Hegl, chairman of the Lynn County Savings Bonds Committee. This is 29 percent of quota for 1965.

Sales in Texas for the first quarter of 1965 amounted to \$39,286,192, which represents 26% of the state goal of \$152.8 million.

"I am sure in these anxious times when thousands of our sons and brothers are serving in the far-flung defenses of our country, every American can do his part. One way all of us can express our patriotism is to invest in Uncle Sam's Savings Bonds. When we buy bonds we are buying shares in democracy and are doing our part to maintain the strength of our Nation economically, militarily, and spiritually," Chairman Hegl stated.

Success hasn't gone to its price

After all, you don't get the No. 1 place (or stay there year after year) unless you give people a lot for their money. That, Chevrolet does. Look what's new for 1965. Everything.

Like the handsomest new styling you've ever turned around for another glance at. Like Chevrolet's Jet-smooth ride, even better now with Wide-Stance to steady things as you go. Like however much economy or excitement you'd want, our miserly 140-hp Six to our ferocious Turbo-Jet V8, 325 hp on order.

Besides price, one other thing hasn't changed: Chevrolet's traditional resale value . . . still so good you won't believe it until you get it. So get it (along with all that's new) at your Chevrolet dealer's.

UNFRED BREAKS RIBS

J. P. Unfred, 3601 42nd street, Lubbock, former long-time citizen of New Home-Petty area, fell Sunday morning at his home and broke three ribs. His son, Joe D., said Mr. Unfred was trying to reach something in a closet, stepped off a stool, missed the step, and fell in the floor. He was reported doing fine.

respect of many other nations who look to us for leadership. Communism has advanced almost to our shores.

And, while we're "putting the bee" on the Ku Klux Klan and threatening the John Birchers, why not take some action against the Communist Party, Communist front organizations, and other trouble-makers in our nation?

Daniel Webster said long ago: "If the constitution is picked away piecemeal, it is gone—and gone as effectively as if some military despot had grasped it all at once, trampled it beneath his feet, and scattered the loose leaves in the wild winds."

At long last we seem to be putting up a bold front to the Advance of Communism. We think President Johnson is to be commended on his stand in Viet Nam and in Dominican Republic. Of course the action could lead to war—a terrible thought—but we must face the Communists some time and we're already 20 years late. We've been trying to pacify the bully nations too long, giving ground, appeasing, getting along, until we've lost self-respect and

Roland Stegemoeller says the last big "equalizer" which built up in the northwest and came down across the whole country was in 1959. Since then, it seems, the rains have come from hither and yon—when they came. A long time ago, we could have an east wind three or four days and we just knew there was a big northwestern rain coming down across the Plains.

Forty years ago Ed Hamilton was attending Southwest Texas State College down at San Marcos, and on the side he had a job which paid him 25 cents an hour. Unknown to Ed, there was another young fellow in the same college at the same time washing dishes and doing other jobs for 25 cents an hour. His name was Lyndon Baines Johnson.

Melbourne, Izard county, Arkansas, is over in the eastern Ozarks. The little county seat town, established before the Civil War, has a newspaper, The Times, which The News receives on exchange and enjoys. In that paper, one L. T. Harder, shows great talent for story telling in his "Gad and Gab"—from Gid community.

In a recent issue Mr. Harder writes about the Pioneer Celebration paying tribute to those age 70 and over. We thought some might enjoy these samples of his writing:

We feel sure most of these oldsters can recall when troops took long marches instead of guarding demonstrators who go on long marches.

You also may remember when thrift was considered a virtue, and the moon was an inspiration for lovers and song writers, instead of being the most expensive target in the history, and most houses had a single bath instead of two baths, and folk who owned

Once I was painting a big barn in the edge of town, a little boy about five or six years old from next door came peering around, asking questions and messing with the paint, I told him to go home, he said, "I don't haf to," then I noticed he had splatters of red paint on him and said, "Boy you have got ancestors, and garments too, and you don't have a pedigree," the boy started crying and went home. In a little while his mother came over and asked, "What did you say to my boy?" I told her all I said and she replied, "My boy does not have any of those diseases, and he has too a pedigree, cause the doctor fixed that when he was little."

In Minneapolis, Judge John spotted a man sitting in the rear of his courtroom wearing a hat. Disturbed by this disregard for courtroom decorum, he ordered the man to leave. Then the clerk called for the burglary case of George Rogde who was free on bond. "Your Honor," said the prosecuting attorney, "that is the man you ordered from the courtroom." (Police are still looking for Rogde.)

Boston is the largest state capital city in the United States.

A school boy turned in this essay on "The Head":
"Your head is kind of round and hard, and your brains are in it. Your hair is on it. Your face is in front of your head where you eat and make faces. Your neck is what keeps your head out of your collar. It is hard to keep clean. Your stummick is something that if you don't eat, it hurts, and spinach don't help none. Your spine is a long bone in your back that keeps you from folding up. Your back is always behind you no matter how quick you turn around. Your arms you have to pitch with and so you can reach the butter. Your fingers stick out of your hand so you can throw a curve and add up arithmetic. Your legs is what if you have not got two of you can't get to first base. Your feet are what you run on; your toes are what always gets stubbed. And that's all there is to it except what's inside and I never saw it."

Spray Propazine to control weeds and grasses in sorghum.

One spray of Propazine® 80W herbicide controls most annual broadleaf weeds and grasses in sorghum for the entire season. This can reduce or even eliminate the need for cultivating because Propazine takes care of problem weeds for you. Propazine is particularly effective on carelessweed (pigweed) and annual morning glory. Sprayed before weeds and sorghum are up and activated by moisture, Propazine gives your crop an entire season without weed competition for moisture and soil nutrients. The result? Higher yields and more profit for you. Contact your local supplier now for Propazine. Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Ardsley, New York.

Now we must apologize to Curtis Stevens and Farmers Co-op. Last week, this sheet said another gin was sponsoring the Pony League White Sox along with Tahoka Compress. We're sorry. But, folks, these team sponsors put out hard earned cash to make possible the summer baseball program. Why not tell team sponsors you appreciate them furnishing this service for your boys?

The Moody Courier from our late Dad's home town is one exchange we enjoy receiving. Here are a few paragraphs from Editor J. W. Gay:

A very substantial majority of Americans, it seems clear, believe the right to join or not to join a union, as one desires, is an absolute right. No man is free when, on pain of losing his livelihood, he can be coerced into joining the organization.

The world is full of willing people, some willing to work, and the others willing to let them. It is said it is more blessed to give than to receive. Of course, this depends upon what you give or receive.

Dollars earned are of more value than the ones given a person. At least they are more appreciated.

We're having a Chrysler sales success shindig! So who cares?

*For the months of Dec., Jan., & Feb. in Texas

You will ... when you check the price, looks and Chrysler's 5-year/50,000-mile warranty!

Don't miss out! Join the thousands of new Chrysler owners who have already made this discovery: 7 Chrysler models (out of a total 17) are actually priced just a few dollars a month more than the most popular smaller cars, comparably equipped. And, remember this: Chrysler still carries the longest, strongest warranty in its class—5 years or 50,000 miles of engine and drive train protection. Move up to Chrysler. It's smart. And easy.

CHRYSLER'S 5-YEAR/50,000-MILE WARRANTY WITH THIS COVERAGE: Chrysler Corporation warrants, for 5 years or 50,000 miles, whichever comes first, against defects in materials and workmanship and will replace or repair at a Chrysler Motors Corporation Authorized Dealer's place of business, the engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings of its 1965 automobiles, provided the owner has the engine oil changed every 3 months or 4,000 miles, whichever comes first, the oil filter replaced every second oil change and the carburetor air filter cleaned every 6 months and replaced every 2 years, and every 6 months furnishes to such a dealer evidence of performance of the required service, and requests the dealer to certify (1) receipt of such evidence and (2) the car's then current mileage.

J. E. LeMond Tells of Trip To Europe, The Holy Land

J. E. (Guy) LeMond of Snyder, long a Lynn citizen, has written the following account, (revised and abbreviated by the editor) of his recent trip to the Holy Land along with comments and observations.

I left Snyder for Dallas March 19, and flew from there to Washington, D. C., March 20 by jet making 690 miles per hour at 37,000 feet.

Our tour of Washington was cut short by snow and 20 degree weather, but we saw Kennedy's grave, tomb of the Unknown Soldier, some of the main buildings and Capitol, Washington Monument, Lincoln and Jefferson Memorial.

Most everyone knows National Cemetery is in Virginia on land originally owned by General Robert E. Lee, Confederate general and considered the most expert general in the U. S. This land was confiscated by the Union during the Civil War, and Gen. Lee's heirs were paid a very paltry sum.

Arriving at Kennedy Airport, formerly Idlewild, we stayed at Waldorf Astoria, poor man's habit, but weather so cold we didn't see much of our largest city.

We left New York at 7:00 p. m. our time on TWA. Had all the drinks all wanted, only two of us

did not partake. These tours are gotten up principally for drinkers and night clubbers, but a lot of people don't engage in this.

We arrived in Paris by 1:00 p. m. our time, 8:15 a. m. there, refueled and took off to Geneva, Switzerland, Rome and Athens, then on to Cairo, some 8,000 miles in less than 24 hours counting stops in this miracle jet age.

Had a good hotel, rotten food and most all got sick. Saw the main attractions there—Pyramids, Sphinx, Nile River. Old Nassar would have no economy without the Nile and our "sucker" money. Also, he has played Russia the same way, only Russia gets all the cream as a result of our idiotic socialist give-aways.

Luxor is ancient Egypt like Bible times. We saw a camel and a cow pulling a wooden plow. Unsanitary conditions, flies everywhere, even in Cairo, as both are on Nile River.

Nassar lets his people have maybe three to five acres, maybe not this much. They can raise something to eat, but government takes part. Did not find out how they get their sheets to wear. Some Western wear in larger cities. There's a lot of cancer and trachoma. A doctor told me they bury their dead in a cloth like cattle in a ditch.

Mediterranean Sea is blue-looking; flew over a lot of it and the Sahara at 33,000 feet.

We flew to Beirut, Lebanon, on a stormy flight—felt like praying—a lot of rain I wished was in West Texas. Lebanon is a lot different; cleaner, American food and coffee a lot better, noted for Lebanon cedars.

Some went on a tour to Damascus, said to be the oldest place although some dispute this. We saw Jericho, among the oldest, in present Israel, also the Dead Sea.

We flew from Beirut to Jerusalem in Jordan, being about 70,000 out of all Jerusalem; in Israel part some 200,000. Most all the Holy places are in Jordan and under Moslem rule. Saw where Christ was born, where He was crucified and buried. Most reverent experience we had was where Christ was buried, and spot of ascension. Some sang "Christ Arose." Many nationalities were there also; they knew the music, which is universal language, and all were reverent. Very much the same at Garden of Gethsemani. One olive tree is said to be 3,000 years old and still bearing.

We crossed over into Jerusalem, Israel, quite an experience; Arabs in 10 tribes, two very bitter enemies. Arabs as a whole are shiftless. Across Israel on a bus, as this is a very small country, and saw the Sea of Galilee.

From Tel Aviv, we flew to Istanbul, Turkey, and saw King Solomon's Temple, or what is left of it, of interest to Masons. Originally very large, in age of Crusaders some 3,500 horses were kept under the area, to give some idea of size. A \$1,000,000 Moslem mosque now on part of area.

Istanbul, pop. 2,000,000, noted for 500 mosques and the strait of the Bosphorus between Asia and Europe, and the Sea between Russia and Turkey.

Flying to Athens, Greece, we found, as scholars know, some of the earliest civilizations and culture, the noted Acropolis and many other famed ruins, the small mountain where Paul preached to the Athenians. Greece is nearly all Greek Orthodox in belief.

Finally, after some bad colds, we start for Rome on TWA which would take us back to New York, flying some 5,000 miles non-stop near Newfoundland, over Quebec and Boston to Big City, through customs about one hour, and on Braniff Airlines and on to Dallas, then to Snyder, some 7,500 miles.

A good writer could tell a lot more but most people would not care to read it. You have to be a "sucker" in a way to make the trip, but you would not want to miss it and would not give two cents to see more. After all, you go and see and get some satisfaction from the experience.

You see ancient civilization, a lot of old places in Europe and Rome, but Damascus and Jericho

* Under Housing and Home Planning Agency, college loans are available for construction of dormitories, student unions, and cafeterias. Federal education programs have been growing rapidly, both in numbers and in total spending. Spending will reach \$6.3 billion this year, and if the growth rate continues, more than twice that amount in another five years. The chart shows how many programs of six federal agencies overlap and duplicate each other—a sure way to bring about waste and confusion. Prepared by the Chamber of Commerce of the United States.

PASTURE MANAGEMENT

The early spring is a very critical period for pasture grasses. This is the period the plants emerge for growth. Plants must rely upon food stored the previous year for this initial growth. Strong, healthy plants that were not overgrazed will be the first to emerge.

It is important that the newly emerged plant be allowed time for sufficient growth before grazing is begun. Healthy, vigorous plants always produce more forage because of the larger leaf and root area. This is why it is especially important that the initial growth be protected.

After grazing is begun, no more than approximately one-half of

the growth should be removed at any time. The plant's vigor will not be adversely affected if this rule of thumb is practiced.

In order to control the grazing, a system of rotating and deferring is very helpful in obtaining proper use of the pasture. The principal of good pasture management is that a healthy plant will recover faster from the effects of grazing and produce more forage throughout the year.

THE NEWS

Spray new Caparol after cotton is 6 inches high to control weeds.

Control most annual broadleaf weeds and grasses in cotton with new Caparol® herbicide. Simply apply as a directed spray to the base of your cotton when it is six inches or higher.

You'll get good knockdown of weeds and grasses that are less than two inches high... plus some killing action through the roots of later-germinating weeds.

The cost of this treatment, when Caparol is applied in a 10 inch band, can be as little as 85 cents per acre. Compare this with the \$2-3 per acre it would cost you for hoe hands.

Later on in the season, you can go in and make a layby application

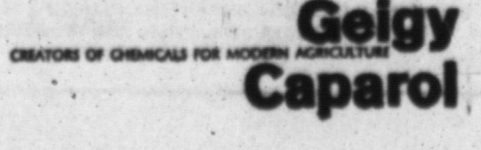

of new Caparol to control weeds until the cotton is high enough to shade them out.

With new Caparol, you'll have no reason to worry about soil residue carryover to harm next year's spring-seeded crops.

Ask your supplier for new Caparol.

Plymouth sales in Texas prove it!

TEXANS LIKE TEXAS-SIZE PLYMOUTH'S

'65 Plymouth Fury

It's no surprise that Plymouth sales for the '65 model year are up over last year and still going strong. Texans like things "Texas-size" and Plymouth for '65 certainly fills the bill. The Plymouth Fury is the biggest, plusthest Plymouth ever. But it's still solidly in the low-price field. And every Plymouth has a 5-year/50,000-mile engine and drive train warranty*.

*HERE'S HOW PLYMOUTH'S 5-YEAR/50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1965 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and lateral parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential and rear wheel bearings. Required maintenance: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.
