Highway Patrol Needs Recruits

Texas Department of Public Safety is desperately in need of 125 new enlistees from 21 to 35 years of age who would draw \$400 per month during a 16 week training period and a starting salary of \$468 per month, plus expenses and uniforms, C. A. Dempsey, district safety officer states.

Any young man interested should contact Patrolmen Marvin Hagens and Ray Priest at Tahoka immediately. June 6th is the final date for accepting applications for the training school beginning August 9. A written examination will be given applicants June 11 in Lubbock to determine fitness for training.

There are many advantages to serving with the State Highway Patrol, Mr. Dempsey says, including job security, opportunity for advancement, salary advances for longevity of service, paid vacations, insurance and sick leave; 12 holidays each year, and retirement benefits. All uniforms and equipment are furnished.

Now is the best opportunity for a young man to get into the work since there are 125 vacancies in the Highway Patrol, 16 in drivers license division, nine in weight and license, and three in vehicle inspection.

Applicants must have high school education or equivalent, be in sound physical condition, have 20-30 vision or correctable by glasses to 20-20, and be of good moral character.

Four Charged In Wilson Incident

Four young Slaton men have been charged with destruction of property at Wilson at about 1:30 a. m. Sunday.

Deputy Sheriff O. D. Woody was sitting in his office, when a car occupied by the four men approached from the north. As they drove down the street, they hurled rocks through plate glass windows of the bank, a grocery store, and a cafe. Rocks were also thrown through the rear glass of Woody's car and the car was otherwise damaged to a total of more than \$100.

Deputy Woody notified Lynn Seales, acting Tahoka policeman, and the latter intercepted the youths west of Wilson on US 87 and he and Mr. Woody made the arrests.

Run-Off Election Saturday, June 4

Absentee voting in the June 4 Democratic run-off primary election began on Wednesday of this week and will extend through next Tuesday, May 31.

For state office, there is only one run-off necessary, and that is for Attorney General to succeed Waggoner Carr. Crawford Martin of Hillsboro, generally considered a moderate, and Franklin Spears of San Antonio, a liberal, are the candidates.

One county race, for treasurer, must be decided by a run-off. Mrs. Jessie Jewel Stevens and Mrs. Teddie B. Kelley. They were the leaders in a field of five candidates in the first primary.

Also, Dorman L. Gandy and Willis Pennington are in the run-off for Commissioner of Precinct 2, representing the southeast quarter of Lynn county.

In addition, two run-offs are necessary for election of precinct chairmen, all these candidates being by write in. In Voting Precinct 3, O'Donnell, Odetta Saleh and Clyde Winans will be voted upon for precinct chairman; and in Precinct 8, Gordon, J. B. Jones and J. C. Gandy's names appear on that precinct's ballots for chairman.

Telephone Pay Station Opens

Beginning this June 1, Tahoka and Wilson customers of General Telephone Co. of the Southwest may pay their bills in person in Tahoka.

Arrangements have been made by the telephone company where-by telephone bills may be paid at Collier-Parker Pharmacy.

This is for convenience of those who prefer to pay in person instead of mailing remittances to the Brownfield office.

Payments by mail should be sent to Box 1069, Brownfield, District Manager J. H. Fowler informed The News Wednesday.

Anyone wishing to contact the General Telephone business office should call the operator and ask for Enterprise 2413.

When dial equipment was installed here a few years ago, the local business office was discontinued. For a time, bills were payable at another place of business; then, payments were made at Post; and, recently, the Post business office has been discontinued and payments transferred to Brownfield.

Rain Thursday Benefit To Most Crops Over County

Rain Thursday morning was welcomed by most farmers and will be of material benefit in the long run, although much of the cotton and maize planted the past few days may have to be replanted, states County Agent Bill Griffin.

Tahoka received 48 inch up until noon, O'Donnell reported a half inch and New Home a half. Skies had cleared at that time.

Most cotton that was up to a good stand will be benefitted

materially, in the opinion of Mr. Griffin. Later cotton just coming up or ready to come up may be scratched out, but cotton planted this week will probably be replanted.

The County Agent estimated that about 90 percent of the county's cotton acreage had been planted and possibly 30 to 40 percent of the maize.

The fine rains from April 21 to 25, followed by light rain April 29 through May 1, totaled 3.33 inches in Tahoka, and came just

about perfect for planting this year's crop.

However, many farmers elected to wait a few days because of cool weather. But, three days last week and three or four this week, temperatures ran high and the accompanying hot winds dried out the soil to where farmers were having trouble getting crops up.

Overall, prospects are excellent at this time. Principal "bugs" now are the disappointing drastic Government controls, cut-backs, and price drop for cotton.

Status Of Texas Draft Program Is Explained

When Local Board No. 88, representing Crosby, Garza, Lubbock and Lynn counties met on May 16 they were honored by a visit with Colonel Morris S. Schwartz, State Director of Selective Service in Texas and out of Austin.

Col. Schwartz reviewed records of the Texas Local Board's activities for the past few months, stating that Texas has a total of 1,759,475 registrants and register approximately 8500 men each month.

Approximately 186,891 men have been rejected and are now classified I-Y. These men can be considered for service, at any time there is a greater need for men in service, and sent for re-examinations. Col. Schwartz further stated that some 99,923 men are classified as students and classified II-S. This figure could be changed depending on the future practice of local board if they decide to tighten up on qualifying standards for student deferment. Col. Schwartz recommended to the board that some students who may be "hangers on" might be weeded out and considered eligible for service.

He stressed the fact that there would be few enlistments without there is "draft boards" and gave a figure showing that in Texas there was some 1012 enlistments in April, all of which had been examined and accepted for induction prior to enlisting. There was more than this figure, but these had expected to be inducted before enlisting.

This board has 30,674 total registrations and is one of the larger boards in Texas. The induction calls have been for as many as sixty in March and slightly less in April and May. Married, childless men are now considered eligible for service, however, this board has not yet called any married men unless they were married after August 28, 1965 when the law changed to not consider those married after that date.

The members of Local Board No. 88 are Eldon Gattis of Tahoka, Raymond Johnson of Slaton, Don L. Jones of Lubbock, T. L. Jones of Post, and William "Bill" Mayes of Ralls. These men give their time as a civic duty to represent the young men of this area and they are very interested in seeing that all are properly and fairly represented.

Former Marine Captain Dies

Capt. Grady A. Thompson, 64, retired Marine Corps career man who formerly lived at Grassland, died Thursday of last week at San Diego, Calif., and graveside services were held there Monday at 10:00 a. m. in Ft. Rosecrans National Cemetery. He was a brother of Mrs. C. W. Roberts.

A native of Texas, he came to Graham Chapel with his parents, the late Mr. and Mrs. J. B. Thompson, enlisted in the U. S. Army in 1919 at the age of 17 and was discharged in 1922. He enlisted in the Marine Corps in 1924 and retired as a captain in 1947. He and his family resided at 808 Agate St., San Diego.

Carillon Bells Given Church

The carillon bell music being heard the last few days at 12:30 and 7:00 p. m. from the Methodist Church steeple is the result of a recent donation from a member of the church, states the pastor, Rev. Aubrey White.

The instrument, installed last week, is called a "MagneBell," a development of Schulerich Carillons, Inc., said to be the world's largest producers of carillons, bells and chimes.

The "MagneBell" installed here consists of a clock controlled magnetic type player and an audio-amplification system. It is set to play automatically pre-determined carillon selections twice daily.

Also a part of the installation is one of the famed Schulerich miniature bells, which when struck by a metal hammer produces a true bell tone almost inaudible to the human ear but its sound is magnified up to one million times. Its depth of tone is said to equal that of a bell weighing thousands of pounds. This bell will be used as a call-to-worship signal. Invention of the MagneBell is said to have caused a revolution in bell music. For generations, America went to Europe for its cast bells, but today Europe is turning to the U. S. for modern carillons and bells.

In fact, bell making is becoming a lost art, but development of electronic bells such as this is creating the same sound effects.

Final Canadian Funds Approved

Congressman George Mahon announced today that the additional sum of \$3,500,000 is being made available for the continued construction of the Canadian River project for the current fiscal year. Congress had appropriated \$17,000,000 last year for the project and the additional funds have been made available as a result of the unanticipated speed of construction which has taken place.

Mahon, who heads the House Appropriations Committee, said that the Budget estimate now before the Committee for continuation of the project next year totals \$14,215,000. This will bring total appropriations for the project to about \$83,000,000 and will substantially complete it. Mahon said he anticipated no serious difficulty in securing approval of the funds requested. When the project was begun several years ago it was anticipated that the total cost would be \$80,000,000, but it is being built for the lesser figure. The project is expected to be in substantial operation by about June 1967.

Drylot Cows Doing Better

Spur—Cows living in the confinement of a drylot are staying productive longer than their pasture cousins in a scientific study at the Rolling Plains Livestock Research Station here.

Only 26 head of the original 36 head turned to pasture remain in the herd, says Station Superintendent Paul Marion, while 32 head of the original 36 put in drylot are still productive.

Part of the difference between the two groups may be a result of pure chance, according to the Texas A&M University researcher.

Both herds are part of 80 Hereford heifers purchased from the Waggoner Ranch at Vernon, Texas. They went into the drylot versus-pasture experiment in May 1959.

Since then, five of the pasture cows have died, three have been sold because of cancer eye and two were sold because they were barren, Marion said.

Only one of the drylot cows has died. Marion said three have been sold—one with cancer eye, one with a hip injury and one which was barren.

"Apparently more things happen to cows in pasture," Marion said. "For instance, eye irritation is greater on pasture and this may have caused two cows to get cancer eye there while only one got 'it in the lot.'"

The pioneering drylot-pasture comparison first started as a project to learn more about the nutritional requirement of beef cows, Marion said.

Limited range forced the scientist to put one of the herds in drylot and the comparison between the two management systems has gotten more attention than the findings on beef-cow nutrition, Marion said.

Without considering longevity of production, the pasture cows have made a higher profit per head than the drylot cows, under the experimental conditions at Texas A&M station, Marion said.

But he believes modifications in drylot system would make it highly competitive with traditional beef production systems.

Gordon-Southland News

(By Mrs. Edmund Wilke)
Mrs. Birdie Rackler from Portales, N. M. came to Southland last Monday to participate in the annual cemetery work-day. She spent Monday night with Mrs. J. F. Rackler of the Gordon community. On Tuesday, the two Mrs. Racklers were dinner guests of Mr. and Mrs. J. B. Rackler and in the afternoon they visited with Mr. and Mrs. Claud Roper. Mr. Roper suffered a heart attack some time ago and was confined to the hospital for quite a while, but he is at home now and doing very well. Mrs. Birdie Rackler went to Lubbock on Tuesday night and spent the night and on Wednesday she returned to her home. Beverly Rackler spent the day Sunday visiting with Donna Hayslip in Lubbock.

Mrs. J. F. Rackler and Mr. and Mrs. J. B. Rackler and family attended church services in Lubbock on Sunday at the Central Baptist Church. They had a guest speaker of Chinese descent, who spoke on his escape from the Communists, and he told how his whole family, mother, father, wife and children were killed and only he escaped. He told the congregation what could be expected right here in our own land if the Communists ever manage to take over.

Mr. and Mrs. Willie Becker have gone to Lake Stamford for a few days of fishing and visiting. John Earl Blyth, grandson of Mr. and Mrs. Willie Becker, will graduate from high school on May 25. He and his family (the former Doris Becker) live in Kansas City, Mo. John Earl was the editor of the school paper and from this he won a scholarship in journalism. He plans to attend a college about fifty miles from Kansas City and major in journalism.

Mrs. D. W. Walston Jr. and son, Elbert D. visited with Yours Truly on Tuesday of last week.

Mrs. G. D. Ellis will enter the West Texas Hospital in Lubbock on Tuesday of this week and will undergo surgery on Wednesday. May God be with her in this hour of tribulation. Her son and wife, Mr. and Mrs. Bill Giles of Fort Worth, are here today (Monday) and the rest of her children, excluding one daughter, will be with her on Wednesday.

This week's visitors in the home of Mr. and Mrs. Jack Hargrove were Mr. and Mrs. D. E. Adams of Lockney, Mr. and Mrs. Calvin Copeland and Buddy from Mesquite, Mr. and Mrs. Tom Buchanan from Canyon, Mr. and Mrs. C. W. Gary from Shallowater, Mrs. Aldine Riggs and Mrs. Olive King from Lubbock.

Mrs. Elmer Belk gave her son, Roy, a birthday party on Saturday. The young men attending this gala affair were Mark Bevers, Ranty Thomas, Brian Monk, Dale Odom, Billy Monk and the birthday boy, Roy. Birthday cake and ice cream was served and then the boys played baseball most of the afternoon.

On Saturday two couples from Lubbock visited with Mr. and Mrs. Elmer Belk and children. They were Mr. and Mrs. Gene Belk and Mr. and Mrs. Doyle Belk.

We are sorry to report that Jack Myers has been confined to Mercy Hospital with the flu. On Sunday Ned Myers had to be taken back to Methodist Hospital for an indefinite period.

Palo Duro Sheep, Deer Doing Well

Canyon — The second Texas Parks and Wildlife Department helicopter count of aoudad sheep in the Palo Duro Canyon this year also pinpointed both sheep and mule deer, reports Biologist Phil Evans.

Helicopter observers in the northern portion of the Palo Duro Canyon four weeks ago saw 40 aoudad sheep and 116 mule deer. They also successfully marked ten sheep with paint capsules fired from a CO2 pistol that splashes bright paint on fleeing animals.

The second count totaled 82 aoudad sheep and 64 mule deer in the same census area.

Biologists surmise that a goodly number of aoudads and mule deer quaded their count attempts since none of the sheep marked with paint last month were seen.

4-H HIGH SCHOOL GRADS EYE SCHOLARSHIPS

As two and three-fourths million high school graduates march out of the nation's schools in a couple of weeks, they will be taking a hard look at their future. Those who are 4-H Club members may very possibly have an eye focused on one of more than 300 national 4-H scholarships available. These educational scholarships valued at more than \$164,000 will be distributed this fall to national winners in more than 30 different programs, according to the National 4-H Service Committee in Chicago. Donors from business, industry and foundations provide the scholarships and other awards for 4-H member achievement in a wide variety of projects which are administered by the Cooperative Extension Service.

O'Donnell Ladies Seek Highway 87 Intersection Change

The O'Donnell Young Homemakers have been investigating the possibility of a safe intersection on State Highway 87 just north of O'Donnell, adjacent to Jackson's Cafe.

A letter from Governor Connally has been received and also one from Mr. Greer, State highway engineer from Austin. Mr. Greer assured the group the intersection, and its possibilities would be investigated and their findings reported to the organization.

Should you be contacted concerning this community project the Homemakers have started, and your support is needed, we trust you will back them.

Thursday Duplicate Needs More Players

More T-Bar Country Club members are invited to play bridge on Thursdays at the party house, states Mrs. Maurice Small. Ladies start play at 10:00 a. m., take out at noon for a sack lunch, and finish the game after noon. Since there is little difference between duplicate and contract bridge, she says more ladies could enjoy the game.

Winners Thursday of last week were Mrs. Small and Mrs. Oscar Roberts, first; Mrs. Jack Fenton and Mrs. Cecil Clem, second.

about a lot of new farm-to-market roads being built in Wise county. Bill used to carry the mail down there before he came to Tahoka. The roads were pretty rugged then, but he says just about every pig trail is now paved. His old mail route is 90 percent paved or graveled. Officials down in Wise are still making trips to Austin seeking more rural road paving. Meanwhile, Lynn county votes its own bonds and just gets the leavings from the farm-to-market road paving program, he thinks. He doesn't think Lynn county is pushing hard enough to get more farm road paving.

At the present rate, the taxpayer may be the first of our natural resources to be exhausted. — Clipped.

Yep, we had some errors in last week's paper, some in the week before, and there will probably be some this week and next week, too. As hard as we try, the gremplings get into some things, some items are left out, and some happenings are not even reported to us. Now, before you rub it in on the printers too hard, why not try writing down 100 words (not 20,000 and let us see if you don't make some mistakes?

Life With Father
(Texas Cooperative News)
A paragraph in our May 1965 column read as follows: "Many farmers, particularly Texans, were optimistic that the current national administration would be above average sympathetic and understanding toward farm problems. They have become quite disenchanted. Perhaps they expected too much. The President who was born and reared on a ranch and grew up in a state dependent on agriculture for its major source of income has not so far proved to be the friend of agriculture that many hoped him to be."

A number of readers chastised us for writing the above about the "head of our family"; that father was merely reprimanding one of his errant children of the Great Society family; and that he would eventually give agriculture an even break comparable to that of his other "economic children." Well, let's take a look at the record.

Today more and more farmers are beginning to believe they are a step child in the family—the runt of the litter—who is constantly shunted away from the family table by his big brothers and gets no help from poppa in the struggle for economic survival. Many are of the opinion that the administration is taking deliberate steps to gain favor with the general public at the expense of the farmer.

There is no doubt that the family budget is out of kilter. But must father place such heavy restrictions on the already under-

Senator Blanchard Tells Problems Facing Legislature In The Future

Texas governmental problems was the subject of a talk at the Rotary Club last week by Senator H. J. (Doc) Blanchard of Lubbock. Some of our government programs which we think are bad, he said, are going to grow worse if people do not show more concern and take more interest in them.

With Texas becoming more metropolitan and the one man, one vote ruling of the Supreme Court, rural areas have less representation in the future. For example, Houston now has five Senators, while West Texas loses two, and this district has been extended all the way down to Pecos.

When further redistricting is required by the 1970 census, the four major cities in Texas will have over half of the senators and state representatives.

Water, the Senator declared, is rapidly becoming the greatest problem. Ideas previously seemingly far-fetched are now deemed feasible. For example, water can be piped to this area from the Columbia River, 1600 miles away, and the NAWAPA plan for bringing water from Alaska is no longer impossible. Another possibility for the Plains is pumping the excess water from Lake Texoma up to Lake Meredith to make the latter a constant-level lake. Something has to be done about

traffic deaths, he declared, increasing at an alarming rate, or the Federal government will. He cited better road designs but possibly more important putting teeth in driver's license and traffic accident laws. He said 50 percent of the accidents are by people with no driver's license, and 60 percent are by people with no insurance.

Senator Blanchard said we have got to do something to create more respect for law and order or we will have anarchy. There are too many responsible people encouraging protesting groups, marchers, sit-ins, draft card burners, beatniks, and rebellion against delegated authority.

During a question and answer period, he expressed belief the new Code of Criminal Procedure will be corrected to eliminate "bad points."

While the South Plains has a local man as lieutenant governor and before the legislature becomes even more metropolitan, he said we folk in the rural areas need to push for favorable legislation because this may be our last opportunity.

H. B. McCord, Jr., an old college friend of the Senator, arranged the program and introduced the speaker.

Harold Roberts, incoming president, presided at the club in absence of Ross Smith.

Friends Were Right
Before the last election, many of my friends advised me not to vote for Goldwater. They insisted that, should I do so, the war in Viet Nam would certainly be accelerated, prices of goods and services would go up, taxes would go up, and we would find ourselves in a resulting inflationary spiral.

Well, I voted for Goldwater—and sure enough, all my friends were right. Weldon Bomar Jr., Dallas, Texas.

nourished and underprivileged agriculture child? Let the whole family share in this business of balancing the budget including the father.

Consider the following actions taken against agriculture in a recent relative short period of time:

1. Heavy cutbacks in the national budget in funds for agricultural research and extension programs, vocational agriculture, school lunch and milk programs, crop insurance, meat inspection services and rural electrification.

2. The press statement by Agriculture Secretary Freeman that he was extremely pleased with the prospect that farm prices would drop six to ten percent in the near future.

3. Statement by President Johnson during a TV broadcast that food prices were too high for the good of the nation and suggested housewives should put on glasses while shopping so they could see substitutes and cheaper foods.

4. The Defense Department ordered a fifty percent cutback in purchase of pork and prime cuts of beef for the armed forces and drastically reduced pork on the armed forces menus and increased the purchase of pork from European countries.

5. The administration increased the import quota of cheese.

6. A limitation was placed on exports of hides.

7. The administration is vigorously pushing legislation to place farm labor under minimum wage regulations.

We don't like to pay high prices for food and fibre. Neither do we like to pay high prices for labor, tractors, implements, lumber, baling wire, trucks, gasoline and overalls.

Farmers are in real trouble when they have to compete with others for a weekly allowance from a father who seems to be partial to the other children.

Forest fires in the United States cost every tax payer \$20 annually.

160 Players In Ball Program

Tahoka has 160 boys in the summer baseball programs, George Glenn, Little League president states.

There are 129 in Pee Wee, Minor, and Little League, and another 30 in Pony League play.

Monday night, in a wild-scoring game, the Giants downed the Yanks 13 to 12. The Yanks went ahead 5-1 in the top of the second, but the Giants came back in the bottom of the inning with seven runs and were never headed again, as a Yank rally in the sixth fell one run short.

In the second game, said by some to be the best of the season, the Cards gained their initial victory by defeating the league-leading Cubs 3 to 2. The Cards took a 1-0 lead in the second inning, the Cubs went 2-1 ahead on two runs in the top of the fourth, but the Cards came back in the bottom of the fourth to score two runs for the 3-2 victory. Lee Green was the winning pitcher, and Jeff Atwell was tagged with the loss.

Tuesday afternoon in Minor League action, the Astros remained undefeated by nosing-out the Dodgers 17-16.

In Pee Wee play Saturday evening, the Falcons beat the Hawks 18 to 11. There are 20 8-year-old boys in Pee Wee play. Glenn, Kenneth Turner and Wallace Dove are working with the Falcons, and Billy Dale and Richard Stice are coaching the Hawks.

White Sox In Upset Victory

The Tahoka White Sox broke a two game losing streak with an ulcer-stirring come-from-behind, extra-inning 12-7 win over the Wilson Red Sox Monday night in Wilson, but the celebrating must be cut short as the Tahokans are scheduled to host the league-leading O'Donnell Dodgers at 8:00 p. m. tonight. The Dodgers were heavy pre-season favorites to win the Lynn County Pony League championship and they have certainly lived up to the favorite's role in the first few games.

Larry Durham stole the show in Monday night's White Sox victory as he hit a lastinginning home run that tied the score and gave the Sox a chance to win in extra innings. He also contributed four innings of scoreless pitching in relief of starter James Sayles.

In the home half of the last inning, Wilson got their lead-off batter to third base with the potential winning run, but he was unable to score. The White Sox then seemed to throw aside the frustration that had plagued them since the opening game and exploded for five runs in the top of the 8th inning to put the game out of reach of the Red Sox. Joe Calvillo had two doubles and a triple, Danny Martinez two doubles, and team captain Martin Warren a double and a single for the winners.

The story was quite a bit different last Saturday night as the white Sox collected only three hits and made enough errors to last a full season enroute to being "humiliated" 9-0 by the New Home Eagles. Ronnie Farr was the winning pitcher for the Eagles and Durham took the loss for Tahoka.

After four games in the young season, the White Sox are all even with two wins and two losses. And, thanks to heavy hitting in the two victories, the team batting averages have reached the astronomical figures that seem to be in vogue during the early part of each baseball season.
