The Women's Study Club met Feb. 23 in the home of Mrs. Louie Williams with Mrs. J. N. Williams as hostess. The President opened the meeting by reading the score card for club report of the District meeting to be held at Big Spring, April 15th, 16th, and 17th. Mrs. Cook pointed out the ways in which the club might score. Being unable to subscribe the one hundred

dollars to the Permanent Headquarters fund, our club cannot expect to be a runner up in the club report but in the other items we hope to score 100 per cent. Mrs. Cook is making a most capable president and the club is looking forward to the next two years work expecting to do much good work under her able leadership.

"Old Man Hard Times" interfered somewhat with our aims and ambitions for this year but we feel the lull in activities turned our thoughts inward and brought about a closer unity within the club. And in spite of dire prophecies a woman's study club seems to be a permanent thing. The following were appointed for the

program committee for the year of 1931-1932: Mesdames W. H. Norred, J. N. Williams, and F. P. Shackelford. Mrs. F. P. Shackelford and Mrs. M. Eubank were elected delegate and alternate, respectively to the District Convention. At close of business hour the hostess, Mrs. Williams took charge of the following program:

Roll Call; Texas Feature Writers Brief Sketch of the Life of Pat M. Neff, Mrs. F. P. Shackelford.

Leonidas Warren Payne, Mrs. H. A. Pruett.

Hyder Rollins and Robert M. Fields, Mrs. B. L. Mitchell.

Each of these women are to be commended for their splendid papers. The club was especially pleased to be entertained with several piano solos by Master Bobbie Clinton.

The Club voted to support Mrs. R. Q. Lee as candidate for State President of T. F. W. C. for 1932-1934.

The club adjourned to meet March 9th with Mrs. R. L. Clinton, hostess.

The Missionary Society of the Methodist Church met in a social

meeting with Mrs. Dodd and Mrs. Heslep, Wednesday afternoon. Different games were played and everybody reports a most enjoyable afternoon. Those enjoying this event were: Mesdames C. K. Peek, Raymond Hale, S. M. Kill, C. C. Russell, Euna Lovelady, Buck Hughes, Fred Farmer, W. I. Mitchell, Elliott, B. L. Mitchell, E. P. Whitaker, and the hostesses Mrs. Dodd and Mrs. Heslep.

BREAD

NOT JUST ORDINARY BREAD

To The Baird Community and Public:

Our interests are mutual. We make good bread and we hope you make our mutuality 100 per cent by refusing all other. We would do the same for you and are doing so in every possible way that presents itself to us. Discuss the HIGH QUALITY of our bread with your neighbors and request them to use our bread if they are not already doing so. Thanks.

Last week the bread situation had an easier tone in our town but we still had plenty of it offered for sale here that was made in Dallas, Cisco, and Abilene. Why should this be so? As long as you buy out-of-town made bread just that long you keep us from being as useful as we otherwise could be.

WE DO NOT ASK EXCESSIVE PRICES FOR BREAD WHICH CONTAINS REAL FOOD VALUE. RETAIL PRICES ON CITY BREAD ARE THE SAME AS WHEN WE CAME HERE. A DEPRESSION IN ALL COMMODITIES ARE ON BUT WE MADE UP FOR IT BY IMPROVING THE—QUALITY. WE POINT TO THIS WITH PRIDE.

If our bread is not of HIGHER QUALITY than all others offered for sale in Baird then we do not ask you to buy it. We call your attention to the soft, silky, velvety crust. It is snow white on the inside and is properly kneaded to a very fine texture. It has high grade material in it, coupled with a knowledge of knowing how to prepare it. This gives you a food value and a taste that most of bread does not have.

Our bread is made also for keeping several days if you wish to. When it is 2 or 3 days old it has even more eating value than the first 24 hours. It does not have to be eaten while fresh in order to be desirable. Bread properly made needs time to mature. We mean by this that it takes a certain length of time for the flour to take on the flavor of the yeast, salt, lard, sugar and other parts of the formula. WE WOULD BE ASHAMED OF OUR BREAD IF IT HAD TO BE EATEN WHILE FRESH IN ORDER TO BE GOOD.

If you really want fresh bread who do you suppose places it in our stores? Usually our bread is still warm from the oven when we put it on the counters of our merchants in the morning. Most of the time some of the out-of-town bread wagons are here with their bread. When do you suppose theirs was baked? If we made our bread in Abilene, Cisco or Dallas we would not get it delivered as fresh as we can by maintaining a Bakery in Baird.

Another thing: You never see our bread stacked 3 or 4 loaves high. Our bread is fresh enough that this would mash the bottom loaves. We can not stack ours up like cordwood without rendering it unsalable in appearance.

We Make you the following proposition for Saturday, March 14, 1931.

GIVE US YOUR NAME AND ADDRESS. THEN GO TO THE STORES AND BUY A LOAF OF OUR BREAD AND A LOAF OF ANY OTHER KIND. TAKE BOTH LOAVES HOME WITH YOU. WRAP THEM UP SO THE WIND WILL NOT STRIKE THEM. KEEP THEM 6 DAYS AND THEN CUT BOTH LOAVES AT THE SAME TIME. IF OUR BREAD IS NOT GOOD TO EAT ON THAT DAY AND IF IT IS NOT ALSO BETTER THAN THE OTHER LOAF WE WILL GIVE YOU FREE OF CHARGE 4 FRESH ONES FOR YOUR TROUBLE AND EXPENSE. YOU SHALL BE THE ONLY JUDGE AND IF YOU CLAIM THE 4 FREE LOAVES YOU WILL RECEIVE THEM IN A CHEERFUL AND SPORTSMANSHIP LIKE MANNER FROM US AND WITHOUT ANY EMBARRASSMENT TO YOU. IF WE LOSE WE ARE GOOD LOSERS. WHEN WE WIN WE ARE GLAD.

We welcome the test.

The Market Basket
by
the Bureau of Home Economics
U. S. Department of Agriculture,
and the Woman's Division of the President's Emergency Committee for Employment
* * * * *

The food of the woman living alone have been studied by the Bureau of Home Economics, U. S. Department of Agriculture and a guide has been developed to aid those who are forced to live on very small incomes during the present employment emergency. The guide supplies a list of foods for one week which will give good nutrition returns for a limited outlay of money.

Each week, according to this food guide, an adult woman needs 3 1/2 to 7 quarts of milk; 4 to 5 pounds of bread; 1/2 to 1 pound of flour; 1 pound of cereal; 3 to 4 pounds of potatoes; 1/4 to 1/2 pound of legumes which includes peanut butter; 1 1/2 to 2 pounds of tomatoes; 4 to 6 pounds of other vegetables and inexpensive fruits; 1 to 2 pounds of lean meat, fish, and poultry; 1 to 3 eggs; 1/4 pound of cheese, nuts, and gelatin; 1/4 pound of fats, such as lard, salt pork, butter, margarine, etc.; 1 to 1 1/4 pounds of sugars and sweets; 1/2 pound of coffee; 1/4 pound of tea; 1-3 pound of cocoa.

This list presupposes that the cooking will be done at home, which is naturally the best way to keep down food expenses. Otherwise similar foods would have to be bought ready prepared and at an increased cost.

A one burner stove with a portable oven will be entirely adequate for her needs, the bureau points out. With little money, the variety of foods for each meal can not be great, but to eat simply cooked meals is much better than to eat out of paper bags, a tendency into which the person living alone is likely to fall.

Women more than men, the bureau says, are inclined to eat irregularly. When they live by themselves this tendency is further exaggerated—so the first requisite is to have regular meals.

Dr. Hazel K. Stiebeling, food economist of the bureau, who developed the food guide, emphasizes that if a woman eats alone she must exercise greater care and thought in meal planning. Because of the expense and difficulty in buying in small quantities, meals are likely to become monotonous and food is likely to be wasted. The best way to avoid this, she suggests, is to plan the entire week's menus before going out to shop. Storage and refrigerating facilities play an important part in keeping down expenses. This problem is comparatively easy in winter but with the advent of warmer weather perishable foods must be kept on ice.

Milk and cereals are the most important mainstays of an inexpensive diet, Doctor Stiebeling says. These two should be supplemented with tomatoes or citrus fruits; vegetables—some of which should be of the green or yellow color; a small quantity of lean meat, fish and eggs; cheese, fats and sweets. Persons following this food guide will avoid malnutrition, a danger which is always likely to accompany subnormal industrial and agricultural conditions, she declares. As soon as more funds are available, the quantity of meats and vegetables should be increased.

What the NEW HUMIDOR PACK means to Camel Smokers *

COMPARE a package of Camels with any other cigarette and note the difference in the technique of packing.

Note that Camels are completely enclosed in an outer transparent cover of moisture-proof cellophane and sealed air-tight at every point.

We call this outer shell the Humidor Pack. It differs from the ordinary cellophane pack and while it is egg-shell thin, it means a lot in terms of cigarette enjoyment.

It means, for instance, that evaporation is checkmated and that Salt Lake City can now have as good Camels as Winston-Salem.

While Camels are made of a blend of the choicest Turkish and mellowest domestic tobaccos, it is highly important, if you are to get full benefit of

this quality, that these cigarettes come to you with their natural moisture content still intact.

The Humidor Pack insures that. It prevents the fine tobaccos of Camels from drying out and losing any of their delightful flavor.

Aside from cheap tobacco, two factors in a cigarette can mar the smoker's pleasure:

Fine particles of peppery dust if left in the tobacco by inefficient cleaning methods sting and irritate delicate throat membrane.

Dry tobacco, robbed of its natural moisture by scorching or by evaporation gives off a hot smoke that burns the throat with every inhalation.

We take every precaution against these factors here at Winston-Salem.

A special vacuum cleaning apparatus removes dust and now the new Humidor Pack prevents dryness.

Check the difference yourself. It is a very simple matter to check the difference between Humidor Packed

Camels and other ordinary dry cigarettes.

First of all you can feel the difference as you roll the cigarettes between your fingers. Camels are full-bodied and pliable. A dry cigarette crumbles under pressure and sheds tobacco.

If you will hold a cigarette to each ear and roll them with your fingers you can actually hear the difference.

The real test of course is to smoke them. And here's where the new Humidor Pack proves a real blessing to the smoker.

As you inhale the cool, fragrant smoke from a Camel you get all the mildness and magic of the fine tobaccos of which it is blended.

But when you draw in the hot smoke from a dried cigarette see how flat and brackish it is by comparison and how harsh it is to your throat.

If you are a regular Camel smoker you have already noticed what proper condition of the cigarette means.

But if you haven't tried Camels in the new Humidor Pack you have a new adventure with Lady Nicotine in store.

Switch your affections for just one day, then go back to your old love tomorrow if you can.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

The Pittsburgh Testing Laboratory chart above graphically shows you that only the Camel Humidor Pack delivers cigarettes to you in prime condition

The Month Of March

March used to be the first month in the year, in the days when folk calculated the year's beginning from the day when the sun crosses the Equator on his journey northward. The Vernal Equinox occurs on the 21 of March, and from then on the days are longer than the nights until the third week in September. The old Anglo-Saxon name for March was "Lencten-monath," or lengthening month, because the days grow longer so rapidly.

In some parts of England and Scotland the last three days of March are called "the borrowing," the idea that March has borrowed three days from April.

All over the world March, as the beginning of Spring, has been an important month in the religious ceremonies which are supposed to insure bountiful crops. The dead world comes to life again in March and begins its cycle all over. There is sound logic in the old system of starting the year's reckoning with March, a custom which Scotland did not drop until 1699 and which persisted in England until 1762. In the Christian calendar the most important festival, Easter, celebrating the Resurrection, fixes its date from the Vernal Equinox; Easter Sunday is the Sunday after the first full moon that follows the 21st of March. Every religion has a festival thus commemorating the renewal of life in Spring.

Much of this country is still snow-covered in March. In the northern states potatoes, the first crop to be seeded, will not be planted until April, while from Virginia south they are already in the ground. But every-

where Spring is in the air, and preparations are under way for the perennial struggle between Man and the Soil, the struggle in which Man is often defeated but which he approaches every year with renewed hope.

A New Political Experience

EDITORIAL DIGEST

By the 42nd legislature, Texas is being treated to something new and pleasing in the way of a political spectacle.

Here is a body of lawmakers which approaches its work seriously, is singularly free of demagogism, and evidences every faculty for clear and constructive thinking.

This legislature, while confronted with a tremendous mass of legislation of a controversial nature, thus far, at least, has earned little save applause from the newspaper writers of the State, and has proven that a legislature can be popular with the people who created it.

It is true that committee reports have not been made upon some of the most dangerous of the bills submitted to the present legislature. Nevertheless, it is reasonable to suppose that men who, out of consideration for moral values, had enough good judgement to kill the racing-betting bill, will not become parties to vicious attacks upon the economic principles which are the foundation whereon our prosperity and progress must be built.

Nor is it likely that they will countenance a continuance of conditions which make public-owned highways a menace to the lives and property of Texas citizens.

In other words, the people have so much confidence in the good judgement of the 42nd legislature that they do not fear enactment of unwise tax legislation which might drive industry from the state; nor do they fear the legislature will permit mammoth trucks driven by arrogant road hogs, to speed down the center of public-owned highways inflicting death, injury and destruction upon all who have the effrontry to ask one-half the road.

The 42nd legislature has demonstrated an ability correctly to interpret the wishes of the people and a willingness to give those wishes proper legal expression. The people have regained confidence in the men who represent them at Austin.

Girls Make Their Own Clothes

Brenham—It cost 4-H club girls in Washington county who made their own clothes last year only \$1.08 for a school dress and \$1.89 for a party dress, if the averages of the 65 girls in the appropriate dress contest may be taken as representative. In her annual report Miss Wollschlaeger, home demonstration agent, shows that 149 of the 151 girls enrolled in clothing work completed garments that were valued at a total of \$3038.50. There were 425 school dresses made besides large numbers of gowns, undergarments, slips, club aprons and club caps. The object of the home demonstration clothing work is to

show how to dress appropriately on a small sum of money by wise selection of material, design and color.

Grain Pastures Lower Feed Cost Of Producing Butterfat

Roby—Dairy demonstrators in Fisher county have been successful in keeping butterfat production up in their herds by using grain pastures and a small amount of cottonseed and ground grain, according to the report of G. J. Lane, county farm agent. A lowering of the feed cost which amounted to an average of 5.7 cents per pound butterfat was noted after the cows went on the grain pastures.

Notice Of Intention To Apply For Passage Of Local Or Special Law

WHEREAS, by Section 57, of Article 3 of the State Constitution, it is provided that no local or special law shall be passed unless notice of intention to apply therefor shall have been published in the locality where the matter or thing to be affected may be situated, which notice shall state the substance of the contemplated law, and shall be published at least thirty days prior to the introduction in the Legislature or such bill, and in the manner to be provided by law; and

WHEREAS, the Forty-second Legislature of the State of Texas, is now in session in the City of Austin, Texas; therefore,

NOTICE IS HEREBY GIVEN to all property owners, and to all interested parties, that thirty days after the date of the first publication of this notice, there will be introduced in the State Legislature, at Austin, Texas, a bill for the purpose of creating certain territory lying wholly within Callahan County, Texas, into a defined road district, to be known as "ROAD DISTRICT NUMBER 2, OF CALLAHAN COUNTY, TEXAS," and such proposed law is as follows:

A BILL TO BE ENTITLED

AN ACT TO CREATE ROAD DISTRICT NUMBER 2, OF CALLAHAN COUNTY, TEXAS; DEFINING ITS BOUNDARIES; CONFERRING UPON SAID ROAD DISTRICT ALL THE RIGHTS, POWERS, PRIVILEGES AND DUTIES NOW CONFERRED AND IMPOSED BY THE GENERAL LAWS OF TEXAS UPON ROAD DISTRICTS; PROVIDING THAT ANY TERRITORY WITHIN THE BOUNDS OF SAID DISTRICT, AS CREATED BY THIS ACT, SHALL REMAIN CHARGEABLE WITH ANY AND ALL OUTSTANDING BONDED INDEBTEDNESS HERETOFORE VOTED BY SUCH TERRITORY; ENACTING PROVISIONS INCIDENTAL AND NECESSARY TO THE SUBJECT AND PURPOSE OF THIS ACT; PROVIDING THAT NOTHING IN THIS ACT SHALL BE CONSTRUED AS AFFECTING THE ORGANIZATION AND ESTABLISHMENT OF ROAD DISTRICT NUMBER 1, OF CALLAHAN COUNTY, TEXAS, AS CREATED BY CHAPTER 128, OF THE SPECIAL LAWS PASSED BY THE 39TH LEGISLATURE OF THIS STATE, AT ITS FIRST CALLED SESSION, IN 1926 (A PORTION OF THE TERRITORY OF SAID DISTRICT BEING INCLUDED IN SECTION 1, OF THIS ACT), BUT THE SAID ROAD DISTRICT NUMBER 1 SHALL CONTINUE TO OPERATE AS A DEFINED ROAD DISTRICT OVER THE TERRITORY INCLUDED WITHIN ITS LIMITS, DESCRIBED AND DEFINED IN THAT CERTAIN ORDER OF THE COMMISSIONERS' COURT OF CALLAHAN COUNTY, TEXAS, PASSED AND ADOPTED BY SAID COURT ON THE 14TH DAY OF NOVEMBER, 1917, RECORDED IN BOOK H, PAGE 28 ET SEQ. MINUTES OF THE COMMISSIONERS' COURT OF SAID COUNTY AND TO WHICH ORDER SPECIAL REFERENCE IS MADE BY SAID CHAPTER 128, CREATING THE SAID ROAD DISTRICT NUMBER 1; AND NOTHING HEREIN SHALL BE CONSTRUED AS PROHIBITING THE TERRITORY NOW INCLUDED WITHIN SAID ROAD DISTRICT NUMBER 1 FROM HEREAFTER ISSUING ROAD BONDS ON ITS FAITH AND CREDIT WITHIN THE LIMITATIONS PRESCRIBED BY SECTION 52, ARTICLE 3, OF THE CONSTITUTION OF THIS STATE; AND DECLARING AN EMERGENCY, TO BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1: That ROAD DISTRICT NUMBER 2, OF CALLAHAN COUNTY, TEXAS, is hereby created and established as a defined road district in said County, under authority of Section 52, of Article 3, of the Constitution of the State of Texas, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes, or in aid thereof, and such District is hereby made a body corporate and taxing district under the Constitution and laws of the State of Texas; and the boundary lines of such district shall embrace the following described area of contiguous territory lying wholly within said County, to-wit:

Beginning on the north boundary line of Callahan County, which is also the south boundary line of Shackelford County, at a point in the northeast corner of Survey No. 96, T. & P. Ry. Co. Lands, in Block No. 13;

SECTION 2: The said ROAD DISTRICT NUMBER 2, OF CALLAHAN COUNTY, TEXAS, as created by this Act, shall be governed and controlled by the provisions of Chapter 16, of the General Laws, passed

by the Thirty-ninth Legislature of the State of Texas, at its First Called Session, in 1926, and amendments thereof, except as herein otherwise provided; and shall have and exercise, and is hereby vested with, all the rights, powers, privileges and duties of a road district created and established under said general laws.

SECTION 3: Any and all outstanding bonded indebtedness, heretofore voted by any territory included within the territory described in section 1, of this Act, shall remain in full force and effect, and shall be chargeable against the territory which voted such bonded indebtedness.

SECTION 4: Nothing in this Act shall be construed as affecting the organization and establishment of ROAD DISTRICT NUMBER 1, OF CALLAHAN COUNTY, TEXAS, as created by Chapter 128, of the Special Laws passed by the Thirty-ninth Legislature of this State, at its First Called Session, 1926 (a portion of the territory of said District being included in Section 1, of this Act), but the said Road District Number 1 shall continue to operate as a defined road district over the territory included within its limits, described and defined in that certain order of the Commissioners' Court of Callahan County, Texas, passed and adopted by said Court on the 14th day of November, 1917, recorded in Book H, page 28 et seq. Minutes of the Commissioners' Court of said County, and to which order special reference is made by said Chapter 128, creating the said Road District Number 1; and nothing herein shall be construed as prohibiting the territory now included within said Road District Number 1 from hereafter issuing road bonds on its faith and credit, within the limitations prescribed by section 52, Article 3, of the Constitution of this State.

SECTION 5: Proof of publication of the constitutional notice required in the enactment of Local and Special Laws has been made in the manner and form provided by law.

SECTION 6: The condition of the roads in the territory described in Section 1, of this Act, and the necessity for the construction of an adequate, durable and permanent road system throughout such territory, and the inadequate funds with which to provide for same, creates an emergency and an imperative public necessity authorizing the suspension of the constitutional rule requiring that bill be read on three days in each House, and the said rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

THIS NOTICE is issued and dated at Baird, Texas, on this the 25th day of February, 1931.

OLD FOLKS SAY DR. CALDWELL WAS RIGHT

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headaches, mental depression, indigestion, sore stomach and other indigestions entirely by means of simple vegetable natives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles, or write "Syrup Pepsin," Dept. B. B. Monticello, Illinois for free trial bottle.

The Photoelectric cell in the "talkie" apparatus delivers only about one-hundredth of a millionth of a watt. Since it requires about 20 watts to operate the loud speaker in a theatre, this has to be magnified two billion times.

The first printing machine invented by Gutenberg in 1440 looked like a cider press—as different from the modern press as a wheelbarrow is from an automobile.

Eat Everything without Fear of Indigestion

Are there lots of foods you can't eat—for fear of gas, bloating, pains in the stomach and bowels? Do you have to pass up favorite dishes—while the rest enjoy them? That's a sign you need Tanlac! For more than 10 years Tanlac has restored to vigorous health thousands who suffered like you do.

Mrs. Arvena Bowers, of 1220 Jackson St., Topeka, Kans., says: "Five years I was troubled with gas, bloating and dizzy spells. But Tanlac toned up my whole system and increased my weight 10 lbs."

If you suffer from indigestion, gas, dizziness, headaches, or torpid liver—try Tanlac. One bottle often brings the needed relief.

Tanlac is a good, pure medicine, made of roots, barks, and herbs. Get it from your druggist today. Your money back if it doesn't help you.

BAYER ASPIRIN is always SAFE BEWARE OF IMITATIONS

UNLESS you see the name Bayer and the word genuine on the package as pictured above you can never be sure that you are taking the genuine Bayer Aspirin that thousands of physicians prescribe in their daily practice.

The name Bayer means genuine Aspirin. It is your guarantee of purity—your protection against the imitations. Millions of users have proved that it is safe.

Genuine Bayer Aspirin promptly relieves:

Headaches	Neuritis
Colds	Neuralgia
Sore Throat	Lumbago
Rheumatism	Toothache

No harmful after-effects follow its use. It does not depress the heart.

GET THE BEST PLANTING SEED OBTAINABLE AT DROUGHT TERRITORY PRICES

I have made arrangements with H. CONRADS, Originator, Grower and Breeder of QUALLA PEDIGREED COTTONSEED, of San Marcos, Texas, to distribute his fine, 99% pure planting seed at special low Drought territory prices.

These are the one and only original Qualla Pedigreed Seed—no better planting seed can possibly be secured.

SCIENTIFICALLY BALANCED

Qualla Pedigreed Cotton is a variety that is scientifically balanced. It produces a good, hard, strong premium staple, with a lint turn-out of 39 to 44% and an exceptionally heavy yield per acre. It also has large bolls, is drought resisting, matures early and grows a stocky short jointed stalk.

SPECIAL DROUGHT TERRITORY PRICES

Because of the co-operation of Mr. Conrads I am able to offer these seed at a special low price, that is in effect only in Drought territory. This price is cost to me. It is only

\$1 35 PER BUSHEL

This unheard of price is for genuine, pure, Pedigreed Seed direct from the Breeder. Seed are culled, sacked in branded bags and CERESAN TREATED. Take advantage of this opportunity to get some good seed. See me at once.

Holds Fire Record
Crystal City holds the State fire
record for last year, having gone
through the year without a cent of
fire loss. The city has a population
of 6,600 and has but meager equip-
ment for its volunteer fire depart-
ment. Efforts are to be made to
standardize the equipment.

Marketing Association
Clyde farmers have found from ex-
perience that has been rather costly
that however much their farms may
produce, farming suffers unless the
crops are marketed to advantage, so
they are organizing an association
for marketing their sandy land pro-
ducts.

Parks and Playgrounds
About \$20,000 is to be spent at San
Angelo for extension and improvement
of the city's playgrounds. Sunken
gardens, concrete bathing pools, rus-
tic bridges and dams, scenic walks
and driveways are to be built. San
Angelo has a new mayor, Hon. Brown
F. Lee, who has a record that indi-
cates that he will make a good leader
for San Angelo people to follow.

Southern Air Mail Hub
Dallas and Fort Worth are to be
developed as the hub or distributing
center for Southern air mail, with
somewhat the same importance in air
mail matters for the South that Chi-
cago holds for the North. An effort
is being made to improve the speed
and the regularity of air mail service
throughout the country and the es-
tablishment of distributing centers in
Texas is a step in improvement of
service.

Money From Minor Crops
Twenty-one crops of a kind com-
monly designated as "minor crops,"
brought Texas a revenue of \$20,500,
000 last year. Tomatoes led with
about one-fourth of the total. Cabbage
came next and spinach third. Onions,
cucumbers, snapbeans and watermel-
ons were grown in excess of \$1,000,
000 value each. There was over-pro-
duction (or else under-consumption)
of some of these, making prices too
low for profits on late production,
but most prices were fairly satisfac-
tory.

Kilgore Building
That oil boom at Kilgore reminds
those who have followed booms of
the great rush to Spindletop when
"big oil" was first struck in South-
east Texas, and of the California gold
boom days. It is said that the aspect
of the town changes in 24 hours.
There are some 2,000 carpenters and
other builders at work day and night
to erect at least temporary quarters
for the thousands who are flocking
to the town. East Texas is in the
throes of a thorough awakening as
people are becoming rich overnight.

Sawdust Concrete
Many of us can remember when
cotton seed was burned to keep the
cattle from poisoning themselves by
eating it, and there are some living
who tell of times when tomatoes were
thought to be worthless and even a
poisonous diet. Getting rid of saw-
dust by burning it has been the com-
mon custom in lumber districts. Now
a system has been found for using
sawdust instead of sand for making
a light concrete, a process having

been discovered for overcoming in-
fecundity. Another boost for East
Texas.

More Federal Buildings
Under the new appropriation bill
for Federal buildings Texas will re-
ceive new buildings at the following
places:
Atlanta, \$65,000; Beaumont, \$680,
000; Big Spring, \$165,000; Brecken-
ridge, \$140,000; Cisco, \$130,000; Crok-
kett, \$85,000; Galveston, Immigration
Station, \$375,000; Georgetown, \$80,
000; Harlingen, \$170,000; Jackson-
ville, \$135,000; McAllen, \$135,000;
Memphis, \$80,000; Pampa, \$180,000;
San Benito, \$125,000; Seguin, \$85,000;
Stephenville, \$90,000; Tyler, \$335,000

Remembers Goliad
The Texas Senate has accepted the
gift of 207 acres of land at Goliad to
be converted into a State park as a
memorial to the heroes who gave their
lives at Goliad for the independence
of Texas. It is recalled that it was
at Goliad that the first declaration of
Texas independence was signed De-
cember 22, 1835. Texas is slowly
paving the way for a suitable cele-
bration of the first 100 years of Tex-
as independence and prosperity, and
it is not likely that in that celebration
Goliad will be forgotten.

Buys Sewer System
San Marcos has bought the city's
sewer system from private owners
for \$40,000 and will extend it to meet
present requirements. San Marcos
also owns its water systems, having
bought that in 1928. The city is rap-
idly becoming one of the most attrac-
tive resort towns of the State, and is
proud to be known as an ideal "home
city."

Raymondville Likes Onions
Raymondville is willing to let Car-
rizo Springs have its Strawberry
Festival, Curcio its Turkey Trot, and
other towns any special celebrations
they wish to make just so they do not
"Onion Day Fiesta," which has at-
tained a State-wide reputation. The
dates for the third fiesta are March
26-28, which will be celebrated with
an onion cavalcade, three brass bands,
carnivals, rodeos, onion queens, onion
banquets, confetti and other "fixins."
Raymondville finds it pays to be dis-
tinctive in its celebrations.

Getting Out of Mud
A number of years ago Bell county
spent nearly \$2,000,000 for gravel
and other kinds of temporary roads
and now finds itself almost without
roads of a kind adapted to modern
uses. The gravel has gone from
most of the roads and the county is
back in the mud. Finding that the
town is losing much of its valuable
trade to other places with good roads
to them, Temple citizens have started
a movement to spend another \$2,000,
000 for a system of roads that will
stand the wear of present day usage.

Houston County Roads
Houston county, Crockett, the coun-
ty seat, has voted \$1,450,000 in bonds
for building 65 miles of concrete
roads. 58 miles of all-weather type
and topping and 18 miles of gravel
roads, along with a large mileage in
lateral roads. Texans in other parts
of the State who may have thought
that part of Texas non-progressive,
have another "Think coming." They
should drive over and see what East
Texas is doing and then profit by
what they see.

Crazy Crystals Are As Good or Better Than Recommended

SAYS ALABAMA MAN

I have tried one package of Crazy Crystals and find it to be as good or better than you recommended it to be. I wanted it especially for my Mother who has suffered from high blood pressure and persistent constipation for several years. She has not had a dose of any kind of medicine since she drank the first glass of water made from the Crystals and is very much improved.

Heavy Chevrolet Production For February

February production of the Chevrolet Motor Company was 67,318 cars and trucks, according to W. S. Knudsen, president. While the total is 3,448 under that of January when 70,766 were produced, daily output was higher in February, with its three fewer working days, than in the previous month.

Final figures on Chevrolet's February production show an increase of 2,678 over preliminary reports and indicate that schedules originally set for the month were followed.

March schedules, according to President Knudsen, have been placed at 78,000 and confidence is expressed that the figure will be surpassed. Current factory employment of Chevrolet is approximately 34,500 men.

"It's either terrace your land and make a fair crop or let your land go and starve to death. I am tired of short crops so I am terracing the rest of my farm this year," declares G. W. Van Zandt of Spade, one of the 56 Mitchell county farmers whose successful experiences with terraces have been summarized by W. S. Foster, county agent.
