Tahoka Chamber of Commerce to support LCHD Bond Election

by JUANELL JONES

Members of the Tahoka Area Chamber of Commerce met at noon Monday at the Life Enrichment Center to hear a presentation from Lynn County Hospital CEO Stace Holland about the upcoming May 10 bond election for voters to consider. If approved, the \$28 million bond will be used to build a new hospital and to renovate a portion of the current hospital as a 20-bed nursing home facility that connects to the hospital and Lynnwood Independent & Assisted Living Center.

James Craig, President of the TACC, and the other Chamber members present at the meeting, indicated that the Chamber would encourage voters to approve the bond election, citing the proposed project as an investment in the future of the community, providing expanded healthcare and new job opportunities.

Holland told the group that building a new hospital would take advantage of Medicare funding that pays 101% of costs incurred for Medicare patients, which is revenue that could help to pay off the 30-year bond earlier than anticipated, and he explained the short-term and long-term benefits and opportunities the project could bring to the area.

The proposed project would double the size of the current facilities, which were built in the early 1970s, and bring the hospital into compliance with current codes and regulations while adding more patient services, including surgery/OB services, a new ER with dedicated staff, in-house CT, MRI and mammography services, expanded laboratory services, outpatient treatment rooms, private patient rooms, and high acuity rooms for patients requiring special care.

Short-term, Holland said that construction workers would bring dollars into the community. He noted that during the construction phase, anticipated at 18 months, the project would bring

SCHOOL DAYS Changes in testing, graduation course plans to impact student coursework at Tahoka ISD

Changes are coming to Tahoka Independent School District for the 2014-2015 school year, to comply with state legislation that affects all Texas school districts. The House Bill 5 legislation includes three major changes for Texas school districts, in assessment testing

for graduation, new graduation course plans, and self-evaluations for district/campus performance.

• **Assessments:** The first major change is the reduced number of High School End of Course (EOC) tests needed to graduate – the requirement

went from 15 required tests to five EOC tests.

“Students now only need to pass the English I, English II, Algebra I, Biology and US History end of course exams to qualify for graduation,” explained TISD Assistant Superintendent Jenni McLelland. “These five tests will typically be given during students’ freshman and sophomore year, depending on their course sequence. Students then have two years to re-take the tests if needed,” she added.

• **New Graduation Requirements:** HB5 does away with the old 4-by-4 plan. The new requirement includes the Foundation plan (22 credits), plus five endorsement options (totaling 26 credits), and then an optional Distinguished Plan.

“The goal of HB 5 is to allow students to specialize in a certain area of study, enabling students not planning to go to college to graduate with the skills needed to go straight into the workforce, and providing those planning to enroll in a college or university the skills and knowledge necessary for success in an institute of higher learning,” said McLelland.

All students must initially add en-

LAST WEEK I read that some billionaires are buying their own islands, developing expensive fancy vacation resorts, and making a bunch more money in the long run. However, some of them are losing a pile of money on the projects, mostly because of the weather.

A guy named William Han paid about \$11 million in 2012 for a 3-square-mile island in the coral wonderland of Australia's Great Barrier Reef, keeping a secluded site for his own use after spending more than \$200 million building a luxury resort. And nearby, another island was bought by Australian winemaker Robert Oatley, who invested \$500 million in an ultra-fancy and pricy retreat.

Robert must have grown a lot of grapes and sold a lot of bubbly to afford that endeavor. Surely that beats the heck out of growing cotton. I read that it costs \$1,500 a night to stay at one of the 60 pavilions on Hamilton Island, which is where Oatley has his kingdom. After a good year in the newspaper business, my family could stay there about half a night.

Other people with more cents than sense have bought islands in the Great Barrier Reef, but the story said some have seen their dreams shattered by typhoons or a "disastrous combination of cyclones, unsympathetic bankers, astronomical overheads, a soaring Australian dollar and competition from cheaper Asia-Pacific resort locales such as Bali and Fiji."

Well, tough stuff. These guys all probably could afford big losses. And if they just want to buy their own little chunk of land somewhere, I have a solution: Although there are no islands (that I know of) in Lynn County, I'm sure there are several people around here who would sell 8 square miles of land for \$10 million, with a guarantee that no typhoons will wipe them out, and no ships have ever run aground on reefs in this county.

The last major flood over all this area was more than 2,000 years ago, about the same time a guy named Noah took off with a boatload of animals.

COMMENTS attributed to the late comedian Bob Hope:
On turning 70—"I still chase women, but only downhill."
On turning 80—"That's the time of life when even your birthday suit needs pressing."
On giving up his early career, boxing—"I ruined my hands in the ring. The referee kept stepping on them."

approximately 60 workers to the area that would be purchasing meals, groceries, gasoline for their vehicles, and other amenities estimating an average of \$1,000 per day. It is possible that many would

bring RVs or other temporary housing to the area as well.

In the long-term, the economic impact to the community would be significant, bringing job opportunities and providing expanded health-care services to the area. When the hospital and nursing home is completed, Holland estimated that LCHD would hire as many as 30 new employees to staff facilities.

"These new jobs mean more people moving in to Lynn County, bringing the possibility of community growth and more development of homes, businesses and other activities," Holland said.

Chamber members asked what the expected impact would be on property taxes, and Holland said that the taxes would increase by \$150 per \$45,000 of property values. For ag producers, the cost is anticipated at \$372 per year per section (640 acres) for dryland, \$990 per year per section for irrigated, and \$213 per year per section for improved pastureland (CRP).

"We believe that this hospital project will be the perfect opportunity for Lynn County to show that we are interested - and invested - in the future of Lynn County," said James Craig.

"Because our hospital is an important asset to the community, and the economic impact will be significant, the Tahoka Area Chamber of Commerce will wholeheartedly endorse the bond election and actively offer our support in encouraging county residents to vote yes in the May 10 bond election," he added.

Baseball fans invited to local Hit-A-Thon Friday

The Tahoka High School Baseball team will sponsor their First Annual NAM Hit-A-Thon on Friday, April 11, and baseball fans are invited to attend and even participate if they choose. The fun begins at 5 p.m. at the baseball field.

"Our players will be coming around selling sponsorships or collecting donations from people on how far they can hit the ball," explained Coach Stephen Overstreet. "We will also open up for a homerun derby after our players have finished hitting to anyone in the community who would like to come and take a swing. We will be selling 10 hits for \$5 to any and all people, no matter the age or gender, who would like a chance. We would love to see everyone come out and support the kids but also just to have a great time," he added.

"We are doing this to raise money for charity as well as allowing our kids to purchase a small something for themselves. We want our kids to learn what it means to give back and what better way to do this than by doing something fun and helping people out," said Overstreet.

Join us in the MS Walk, May 3rd

I'm writing to invite the residents of Lynn County and the surrounding areas to join us in the MS Walk, May 3rd, 2014, at Jones Stadium. The walk starts at 10:00 am and should last about 1-2 hrs, depending on the pace. A 5k will also take place at the same time for those who choose to participate.

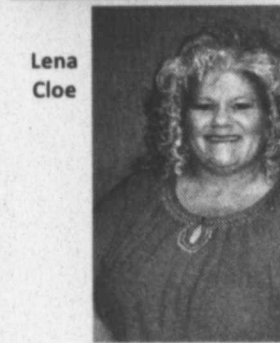

My family and I have gotten involved because of my husband, Clifford Oages and two of our friends, Abbey Redman and Lena Cloe, who all have been diagnosed with MS. Another Tahoka family has also suffered because of MS, the family of the late Danny Paris, who succumbed to the illness in recent years.

MS, known as Multiple Sclerosis, is a chronic disease affecting tissues of the brain and spinal cord, resulting in degenerative physical disability. Signs and symptoms of MS include muscle spasms, muscle weakness, tingling and prickling sensations, depression, mood swings, fatigue, changes in vision, chronic pain, psychological changes and loss of cognitive ability. Doctors are unsure of what causes MS, but genetic and environmental factors, such as stress, smoking and lack of vitamin D, are believed to create an elevated risk of developing the disease. MS affects more women than men, and it is currently incurable. MS can also affect families financially as well as medically. Most drugs prescribed for MS can range from hundreds of dollars to thousands.

We would love to have as many who can join us in this walk or make donations in their names. If you would like to join our team, we are known

Clifford Oages

Lena Cloe

as Clifford's Crew. You can go online to register or just meet us at the stadium. Abbey's team will be known as Abbey's Advocates, and Lena's team is Lena's Loves. T-shirts can be ordered from Designs and Daisies or myself at any time. My cell number is 806-702-0034, or you can call Porscha Mitchell at 806-392-2817 for more information. Please make plans to join us to help beat this terrible disease.

Thank you, Linda Oages

This Sunday is **Palm Sunday**

In the Bible:
 Mark 11:1-11
 Days before his arrest and crucifixion, Jesus rode into Jerusalem to a jubilant reception. It was an important fulfillment of prophecy, and it would later reveal the fickle nature of humanity, as those who had celebrated Christ's arrival called for his death less than a week later.

We encourage everyone to attend the church of their choice this Sunday during Holy Week.

One injured in county rollover

Drivers of two pickups lost control of their vehicles, which then overturned on highways in Lynn County during the last week, but only one person, a passenger in one of the pickups, was injured.

Satchel Smith, 22, of Lamesa, was identified as driver of a 2005 GMC pickup that rolled over on U.S. 87 12 miles north of Tahoka Monday night. The state trooper who investigated the accident said the driver was not injured, but that the driver's mother, a passenger in the pickup, was taken to University Medical Center in Lubbock for treatment. Her injuries were not believed to be critical.

The DPS officer said Smith lost control of the pickup, then overcorrected, causing the vehicle to flip over.

On Friday night, four miles north of New Home on FM 1730, a 2003 Chevrolet pickup driven by Wenseclao Perez of New Home failed to negotiate a curve and overturned. No injuries were reported in the accident.

Twenty of the 41 inmates in Lynn County jail early this week were being held for Ector County, with just 17 of the total held for Lynn, and four held for Andrews County.

Latest detainees for Lynn County included one man held for public intoxication plus four other charges: failure to identify fugitive from justice, burglary of a building, violation of promise to appear, and possession of narcotics paraphernalia. Others were jailed on charges of driving while intoxicated and driving with license invalid with previous conviction.

AD John Cornelius leaving Tahoka for Merkel school district

Tahoka ISD Athletic Director and head football coach John Cornelius is leaving Tahoka to become the head coach at Merkel. Cornelius has headed the Tahoka football program for the past five years, going 21-32 in five seasons.

He was an assistant at Merkel four years before coming to Tahoka.

"I would like to thank the community of Tahoka for a wonderful five years," Cornelius told *The News*. "Tahoka will always hold a special place in my heart

and has been an awesome place to coach and live. Everyone has always been so kind and supportive. My family and I have always felt loved and accepted, and we will truly miss this school and town. I could not have asked for better kids to coach; they always gave me a 100% and did everything we ever asked of them. I carry with me so many fond memories and lifelong relationships.

"Thanks for all the good times," he added.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR WATER QUALITY LAND APPLICATION PERMIT FOR MUNICIPAL WASTEWATER RENEWAL

PERMIT NO. WQ0010298002

APPLICATION AND PRELIMINARY DECISION. City of Tahoka, P.O. Box 300, Tahoka, Texas 79373, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of TCEQ Permit No. WQ0010298002, which authorizes the disposal of treated domestic wastewater at a daily average flow not to exceed 360,000 gallons per day via surface irrigation of 209 acres of non-public access agricultural land. This permit will not authorize a discharge of pollutants into waters in the State. TCEQ received this application on October 17, 2013.

The wastewater treatment facility is located approximately two miles south of Highway 380 and 0.25 mile east of Highway 87. The effluent disposal site is located approximately 1,200 feet south of the plant site, between Highway 87 and the Atchison Topeka and Santa Fe Railroad, approximately 2.23 miles south of Highway 380 in Lynn County, Texas 79373. The wastewater treatment facility and disposal site are located in the drainage basin of Double Mountain Fork of the Brazos River in Segment No. 1241 of the Brazos River Basin.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Tahoka City Hall, 1612 Lockwood Street, Tahoka, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=33.13845&lng=-101.792407&zoom=13&type=r>

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are germane to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, TX 78711-3087 or electronically at www.tceq.texas.gov/about/comments.html within 30 days from the date of newspaper publication of this notice.

AGENCY CONTACTS AND INFORMATION. If you need more information about this permit application or the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. General information about the TCEQ can be found at our web site at www.TCEQ.texas.gov.

Further information may also be obtained from City of Tahoka at the address stated above or by calling Mr. Jerry Webster, City Administrator, at 806-561-4211.

CARDS OF THANKS

There are no words to express how grateful we are for all the food, flowers, phone calls, visits, cards and prayers during the recent and sudden loss of our dear mother, grandmother and great-grandmother Virginia Lara. We would like to especially thank Sandy, Rudy, and Deana from Combest Funeral Home for taking such loving care of Virginia, Yolanda Mendez for

the family meal after the Rosary and Helen, Jennifer and JoAnn for serving the meal after the service. We all knew this day would come but we were not prepared, we wish for one more day, for one more hug, for one more phone call and one more trip to the grocery store with her. It is on these days when we truly appreciate the comfort and support you have given us. Thank you so much, our family and friends.
Sincerely,
Joe, Tony, Susie, Virginia, Leonard Jr., Raymond & families

Monetary gifts to Tahoka Lake Pasture or the J.C. Calm Foundation are tax deductible.

Remember to "Render!" Taxable property renditions are due April 15.

Does this apply to you?

If you own tangible personal property that is used to produce income, such as the equipment or inventory owned by a business, it does.

What is a rendition?

A rendition is a report to your county appraisal district that lists all of the taxable property that you owned or controlled on Jan. 1 of this year. This often applies to furniture, fixtures, equipment or inventory owned by a business.

What are the advantages of filing?

- You give your opinion of your property's value.
- You record your correct mailing address so your tax bills will go to the right address.
- If your property's value depreciated, you can file a report of decreased value.

What is the deadline?

- The last day for filing renditions is April 15.
- An automatic extension to May 15 is available if requested in writing by the April 15 deadline.
- The chief appraiser may grant an additional 15 days to an owner who shows good cause in writing.

REMEMBER!!

Filing is your responsibility. If you render late, don't render or file an incomplete or false rendition, you may face a 10 to 50 percent penalty.

File renditions with your local appraisal district at:

Changes impact student coursework at TISD ...

(Continued from page 1)
dorsement courses to their graduation plan, depending on the job or field of study that they plan to pursue. The five endorsements created by HB 5 are: (1) STEM (Science, Technology, Engineering, and Math), (2) Business and Industry, (3) Public Services, (4) Arts and Humanities, and (5) Multidisciplinary endorsement. Electives for an endorsement track are to be taken in a coherent sequence, with the goal of developing a specific skill set.

The STEM Endorsement would be for those students intending to go into a career in technology, medicine, engineering, etc. Business and Industry Endorsement would be for those planning a future in agriculture, architecture, construction, business and industry, hospitality, transportation, manufacturing, marketing and finance. Public Services includes careers related to education and training, health sciences, government and law enforcement; Arts and Humanities would be courses leading to careers in fine arts, history, world languages, and English Literature. The fifth category, Multidisciplinary, is for those students that are undecided and covers an overall basic plan.

"Students will have an option to change their plan after consulting with parents and the school counselor, should they choose to decide to go in a different direction," McLelland explained. "The plan they choose, however, determines the coursework and skills covered in that particular field of study," she added.

Tahoka ISD is already in the planning stages for offering new courses that would lead directly

to the workforce upon graduation, including courses in welding, Certified Nurses Aides (CNAs), EMT certification, and other certification courses including cosmetology, daycare providers, and Microsoft Operating Systems (MOS).

An optional Distinguished Plan that includes Algebra II is also offered. Students who graduate in the Distinguished Plan are eligible for the top 10% Automatic College Admission at some universities.

• **Community and Student Engagement Evaluation:** Each district must annually evaluate district and campus performance in community and student engagement and assign a performance rating of Exemplary, Recognized, Acceptable or Unacceptable.

This evaluation requirement is a school/program evaluation that every district conducts for their own district, with input from community, parents and students. TISD sent out a survey that allowed input to rate the following eight categories:

1. Community and Parent Involvement (Parent/Teacher Organizations, Open House, 6th and 9th Orientation, Extracurricular Ac-

tivities, Parent Portals, Facebook, Weekly e-Newsletters, etc.)

2. Fine Arts (Music, Band, One Act Play, Art, etc.)

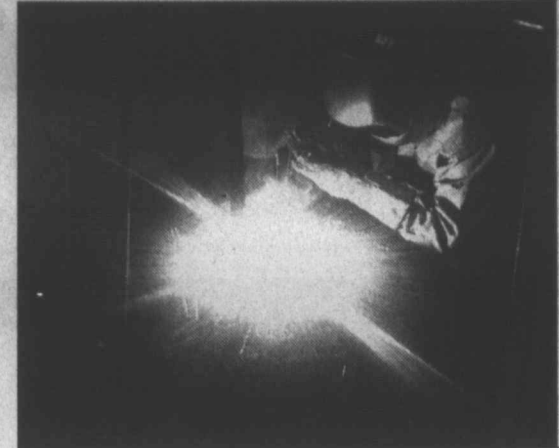

3. Wellness and Physical Education (PE, Athletics, SHAC committee meetings, Anti-Bullying prevention, Blood Donation site, School Reach Bullying/Suicide hotline, Drunk Driving Simulation, Pregnancy related services, Career/Technology courses, Health Fair, Vision and Hearing Screening, etc.)

4. 21st Century Workforce (CTE courses, AVID, College and Career Fairs, Dual Credit courses, Certification courses, First Generation College Students group, etc.)

5. Second Language Acquisition (Spanish courses, English Language Learners opportunities for parents and students, Migrant program, etc.)

6. Digital Learning Environment (One to One Laptop Initiative in HS/MS, online coursework, online credit recovery, online staff development, Facebook, Parent Portal, Student newscasts in Elementary and MS, Project Share, etc.)

7. Dropout Prevention (Credit Recovery programs, Student Clubs, Mentoring programs, Pre-K, Coun-

seling/guidance programs, etc.)

8. Gifted and Talented Services (AP, Honors, and Dual Credit courses, Teacher Training in GT, Field Trips for GT, etc.)

"An additional area in the evaluation is Compliance, which wasn't on the survey because it is an area that school administrators will complete based on our compliance with State and Federal mandates," explained McLelland.

"Administrators met to look at the data collected and decide how we felt our campuses and district should be rated - Exemplary, Recognized, Acceptable, or Unacceptable in each of the above categories. Each campus is now in the process of scheduling campus Site

Based Decision Making (SBDM) committee meetings so that the committees can look at the data and approve/change/modify the campus ratings. Then we will have a District SBDM meeting to finalize our TISD ratings and submit them to TEA in June of 2014. This self-rating will become a part of our overall Accountability Rating, along with many other factors like assessment scores, attendance, and discipline," she added.

School officials will work closely with students and parents to inform them of the new changes and educational opportunities available through the high school coursework plans, assessment tests, and evaluation process.
